JOHNSON'S MAJORITY GROWING! RICHARDSON INCREASING LEAD!

BOND ISSUE FOR IMPROVEMENT OF STREETS WINS

Other Two Propositions on Municipal Ballot Fail to Get Two-thirds

Only one of the three proposed bond propositions which were voted on yesterday by the people of Glendale was passed by the required two-thirds majority, it was learned when the reports from all precincts had been received this morning.

The proposition to issue \$35,000 in bonds for the improvement of streets and installation of equipment for fire protection near public buildings was carried with 195 votes over the number required.

The first proposition was for a \$40,000 bond issue for an addition to the Glendale city hall. A total of 3396 votes were cast for this proposition, 1888 favorable and 1508 opposing.

The "yes" votes lacked 376 of making the required two-thirds.

Proves Successful The second proposition, which called for a \$35,000 bond issue for the improvement of streets and installation of water pipes and fire plugs on and adjacent to public school and other public property, won easily.

More votes were cast in the consideration of this proposition than either of the other two. Of the 3536 votes, 2551 were favorable and 985 opposed, the "yes" votes totaling almost 200 over the required two-thirds.

Hanging fire until the count was complete, the third proposition, which called for a \$25,000 issue for comfort stations, came near to winning, falling below the required two-thirds majority by only forty-three votes.

Just 2231 voted favorably, and 1211 unfavorably, making a total of 3502 votes cast.

Business Women's Club Has Session

The members of the Business and Professional Women's club were delightfully entertained at an informal party last night given by Mrs. F. B. Watson and Mrs. Peggy Warner at the latter's residence, 106 East Wilson avenue, with thirty present. A very interesting program included readings by Jacqueline Barton of Los Angeles, "The Gossip," "I Got a Pain in My Sawdust" and "G's Two." She also gave the "Madame Butterfly" skirt dance. Miss Barton is the niece of Pansy Corp of the Brunswick Shoppe. Miss Evangeline Quackenbush gave some very splendid violin selections, including "The Swan" (Kreisler), "The Old Refrain" (Viennese) and as an encore played "Turkey in the Straw."

E. C. Pendroy, who was to have been the speaker of the evening, was unable to be present.

At the next social meeting of the club, which will be held at the home of Dr. Tinckler three weeks from last night, the party will be in the nature of an old-fashioned square dance. The members of the club have been invited to bring their husbands and gentlemen friends.

Delicious refreshments were served at the close of last night's meeting and a punch was enjoyed throughout the party.

City Not Benefited by Bonds' Success

Passage of the \$12,000,000 sewer bonds by Los Angeles yesterday does not mean anything to Glendale, according to City Manager W. H. Reeves. This morning he called attention once more to the fact that the proposed bond issue through the Arroyo Seco had been omitted from the plans. He quoted Major John A. Griffin, city engineer of Los Angeles, as saying that another issue would be necessary to take care of territory adjacent to Glendale. Mr. Reeves believes that it will be at least two or three years before another bond issue can be put over on this subject.

Girl Scouts, Troop No. 1, Secure Badges

Glendale Girl Scouts, Troop No. 1, held their regular meeting yesterday afternoon at the home of Lucile Beach, 327 Riverdale Drive with good attendance. After the scout ceremonies a short business session was held with Cecil Chase presiding as chairman. Merit badges were awarded as follows: Lucile Beach, pioneer; Frederica Browne, pioneer and handywoman; Mary Stanley, canner and laundress; Alexandria Bagley, economist, child nurse, first aid, home nurse, hostess and pathfinder.

HAS APPENDIX REMOVED Miss Frances Stephenson of Pasadena had her appendix removed last night at the Glendale Sanitarium and Hospital.

Richardson Gains

SAN FRANCISCO, Aug. 30.—Announcement was made at the headquarters of Friend W. Richardson that a careful check all over the state today with reports of missing counties caused them to believe that Richardson has won the nomination for governor over William D. Stephens by 27,000 votes.

End Differences

SLATER, Mo., Aug. 30.—The Chicago & Alton strike at this division point was settled early today. An agreement was reached following a long conference between officials of the striking firemen and the road.

Two Guards Slain

AUGUSTA, Ga., Aug. 30.—E. M. Fewster, 34, and Reddy Booth, 22, Southern railway shop guards, were shot and killed from ambush at Hamburg, S. C., just across the river from Augusta early today.

Warns Harding

MADISON, Wis., Aug. 30.—Governor John J. Blaine today telegraphed President Harding that a tragedy faces Wisconsin unless the state receives coal immediately, adding that the duty and responsibility of supplying coal to the state now rests upon the president.

MODERN WOODMEN OF GLENDALE TO ENTER CAMP

Local Lodge and Ladies Will Spend Labor Day Week End at San Pedro

An encampment at the United States Government reservation at San Pedro over the Labor Day week-end will be enjoyed by the Neighbors of Glendale Camp No. 12886, Modern Woodmen of America, and the auxiliary camp of Royal Neighbors. Camp Richmond, as the encampment will be known, honors Major General Joseph Rieheman, commanding the Uniformed Rank of Modern Woodmen Foresters, and is an annual event.

Keen Rivalry

The encampment is always keenly anticipated. There is great rivalry among the cities to secure the celebration. Last year the encampment was held in Genesha park, Pomona.

Miss Carol Duncan Gives Garden Party

Miss Carol Duncan of 1507 South San Fernando road entertained a number of her friends yesterday afternoon with a garden party and dinner. She was assisted by her cousin, Miss Ida Myers, and also her sister, Mrs. John Cate. The guests included Miss Carrie Noble, Miss Frances Jackson, Miss Lina Myers, Miss Margaret Myers, Miss Alice Lookabaugh, Mrs. McLennon, Miss Mary St. Clair, Miss Nancy St. Clair, Miss Tirzah Snell, Miss Phoebe Snell, Miss Sara Fay Snell, Miss Ada Salstrom, Miss Gladys Sharpe, Miss Margaret Sharpe, Miss Vera Sinclair, Miss Ethel Preston and Miss Clara McClure.

BUYING SCHOOL RUGS

Rugs for the Wilson Avenue Intermediate school and the new Glendale Avenue Intermediate school are being purchased today by Richardson D. White, superintendent of the grammar school system, and Miss Gladys Sharp, vice principal of the Wilson Avenue Intermediate school.

VARIETY OF BOOKS ARRIVE FOR USE IN HIGH SCHOOL

Much History, Lots of Thrills and Little Love Find Way Into Volumes

Two thousand dollars' worth of text books for next term have been received this week at Glendale Union high school.

The office of this institution of learning today looks like the interior of a bookstore. Table and chairs are stacked high with books and more books. There are big books and little books, fat books and thin books, stalwart books and puny books, cloth-covered books and paper-covered books, vicious books and cheerful books, pessimistic books and optimistic books—and just plain ordinary books.

These books, which are crammed full of facts and fancies, are being unpacked, dusted off, inspected, catalogued and marked preparatory to being placed with the library which is really the high school's arsenal of information.

Just how much work is bound up in these books it is impossible to estimate, but it is certain that they contain enough to keep a number of youngsters out of mischief for some time.

Thrills and Headaches

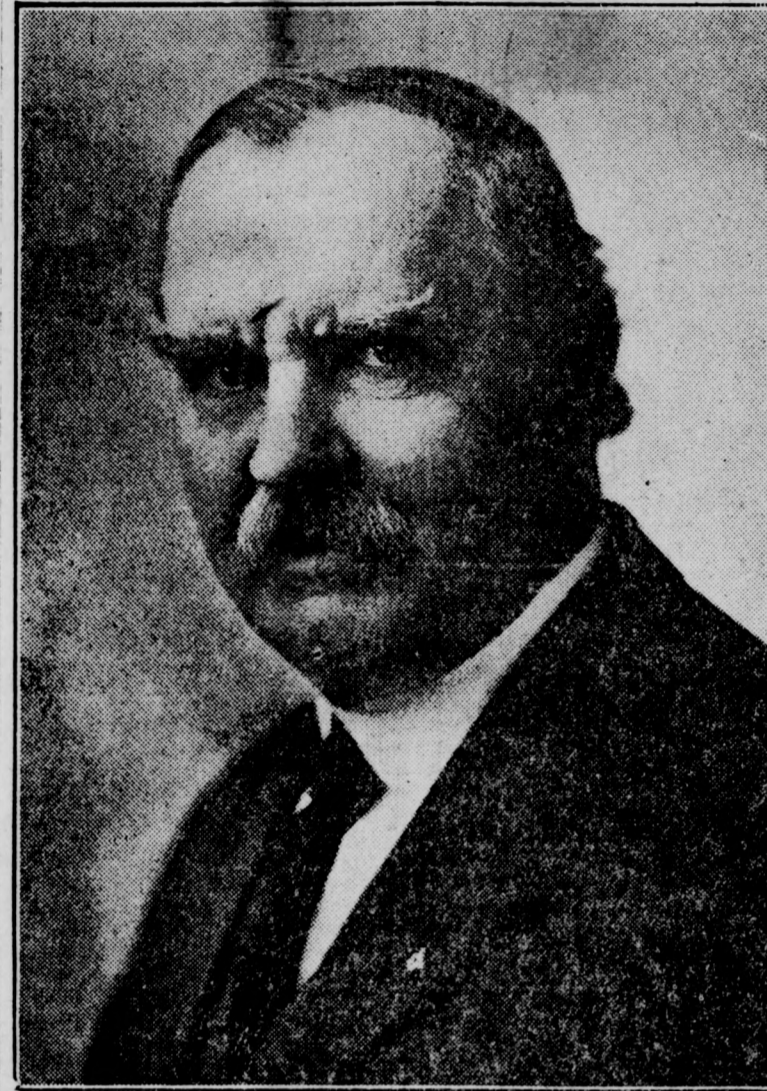

One of the books that seems especially apropos at this time is "Adrift on the Icepan," by Greenleaf. This is a thrilling story of floating icebergs and undrinkable ice water. One hundred and twenty copies have been received.

Seventy-five "Ancient Mariners" have been received also. This is a nice story—no, wait a minute, it was a poem—about a

SENATOR STEADILY GAINS AS COUNT NEARS CLOSE

Final Lead Over Moore May Be 75,000; Richardson Is Increasing Majority

LOS ANGELES, Aug. 30.—Upsets in first calculations by which Charles C. Moore's lead of Senator Hiram Johnson is cut down in this county and Friend W. Richardson's majority over Governor William D. Stephens is increased, featured the count today of the primary election returns in Los Angeles city and county.

Johnson apparently will carry the city of Los Angeles when the count is completed, and will lose the county to Moore by only a few thousand, possibly less than 5,000.

Richardson gathered strength as the tally proceeded. As an example, 93 precincts out of 100 in Long Beach gave Richardson approximately 4800 and Stephens approximately 1500. Moore carried the same precincts over Johnson by only two to one as against three to one for Richardson over Stephens.

Lineberger Wins Congressman Walter Lineberger in the Ninth district has won the Republican nomination over Charles H. Randall, on the face of the returns. Randall was nominated by the Democrats and Prohibitionists and will run against Lineberger in the finals.

In the Tenth district, Congressman H. Z. Osborne was elected over Frank A. McDonald, light wine and beer candidate, by a vote of apparently more than three to one. Sheriff William I. Traeger was

GLENDALE GIVES GOOD VOTE TO VARIOUS CANDIDATES; BIG INTEREST IS SHOWN IN COUNT

Friend Richardson, Candidate for Republican Nomination for Governor, Receives Great Support Through Various Precincts

JOHNSON FORGES FAR AHEAD SAN FRANCISCO, Aug. 30.—Tabulation of 3828 precincts out of 6695 in the state this afternoon including some incomplete but a majority semi-official and complete, gave Senator Johnson 133,355 and C. C. Moore 82,811. These figures included San Francisco complete and 480 precincts out of 1481 in Los Angeles.

Table with 4 columns: Candidate Name, Votes, Opponent Name, Opponent Votes. Includes Richardson (1743), Stephens (1117), Johnson (1000), Moore (1834), Lineberger (1733), Randall (907).

THE TWENTY-EIGHT GLENDALE PRECINCTS GIVE

PARADOXICAL results, which feature the primary election of yesterday, are as apparent in Glendale as elsewhere where Governor William D. Stephens met with decisive defeat at the hands of his opponent, good Friend William Richardson.

If the unofficial figures hold good, there seems to be little doubt but what the former publisher and present state treasurer will become "governor of the great state of California."

While Glendale gave Mr. Richardson 50 per cent more votes than the incumbent, it wanted to see Senator Johnson replaced, and a rather large number of those who voted stamped their ballots in favor of Moore.

This result is not surprising as Glendale has never been one of Hiram's strongholds and simply to hold the county or southern section of the state meant a great deal to his managers.

Voting was not quite up to Glendale's usual 50 per cent of the registration, it is stated, there being 9,876 qualified voters within the city and only 3,912 exercised their choice of candidates in yesterday's preliminary event.

In the race for the Democratic gubernatorial nomination, Mattison B. Jones polled a 75 per cent partisan vote, scoring 442 to Tom Woolwine's 113, the unofficial returns show.

Glendale Totals The complete totals in Glendale on the Republican nominees follow:

Other contests, which on the surface appeared to be matters of mere moment, are gradually untied themselves and it is expected that Attorney Owen C. Emery will continue as justice of the peace of Burbank township, as he had no opposition.

Weller in Lead Frank Weller is another who seemingly has but minor opposition to overcome, while Franklin D. Mather and A. Burlingame Johnson are setting old scores in seeing who gets a state senatorial seat from this district.

J. W. Fawkes, the perennial seeker of supervisory pleasure of attending to the county's business was turned down again at the polls by a large majority. Mr. Fawkes resides in Glendale.

Byron P. Glenn is the "runner up" for Former Speaker Henry W. Wright who attends to mending the highways, controlling the floods and other little Los Angeles county necessities.

Friend Wm. Richardson, 1743. William D. Stephens, 1117. Lieutenant-Governor Joseph A. Rominger, 1335. C. C. Young, 1149. Secretary of State Frank C. Jordan, 2311.

The Glendale Evening News Expresses Its Appreciation to All Those Who Aided in Making Election Bulletins Huge Success

Featuring the fastest leased wire in the world—The International News Service—The Glendale Evening News last night presented election bulletins on the California primaries to several thousand people who watched the screen hung from the Chamber of Commerce balcony.

While the reports were being read the audience was kept in a happy frame of mind by A. M. Kelley and his Shrine club orchestra which played intermittently. During the intermissions Myer Lightner of the Artistic Brunswick shop played the latest records, dispatching the sound through the Columbia shop magnavox.

Aside from the musical features of the evening one who had the pleasure of watching The Evening News bulletins declared they were far superior to anything shown here, both in subject matter and book-like clearness of the printing.

Many thanks are due for this, especially to the Chamber of Commerce, the Glen Inn, J. A. Newton Electric company and the city light department for making lighted signs, etc., conform with the program of the evening.

J. H. Wittmeyer of the Jewel Electric company personally installed the projecting machine at The News office, which was atop a small part of Bentley-Schoenman's lumber yard. Carl Lyons and Carl Hooker operated the stereopticon slides, assisted by several of The Evening News staff.

As fast as Jack Kazmark, International News Service Leased wire operator, received the latest reports from all parts of the state, the four copies were dispatched to the editors where it was made ready for the slides, the window. The Eagle Rock News office and another copy kept for counter and telephone clerk's information.

It is estimated that no less than 1000 people called over the phone to learn of the latest. By 11 o'clock it was pretty well decided that Johnson and Richardson were the probable winners on the top of the ticket.

The Evening News editorial and business office personnel, assisted by several from the mechanical department, exhibited their skill in handling a great news event kept on the highway all night long lugzng in reports, while boys and bicycles piled between 139 South Brand boulevard and the various voting places.

The Glendale theatre kindly supplied additional slides. The police department lent its co-operation to keep the streets cleared. To one and all thanks are expressed.

FLEE FOR LIVES WHEN FLAMES SWEEP TOWN BEAVERDALE, Pa., Aug. 30.—Scores of people fled from their homes today when fire swept over two town blocks, destroying a dozen stores and dwellings and causing an estimated loss of 150,000. Over 100 persons are homeless.

LIEUTENANT-GOVERNOR OF OKLAHOMA ARRESTED OKLAHOMA CITY, Okla., Aug. 30.—Lieutenant-Governor M. E. Trapp was arrested here today following the filing of a charge of perjury in connection with an alleged transaction in Seminole county two years ago. The exact nature of the transaction involving Trapp was not made public.

291 LIVES LOST ON JAPANESE WARSHIP IN TYPHOON TOKIO, Aug. 30.—The Japanese coast cruiser Niitaka Saka, sank off the coast of northern Sahalien in the typhoon which swept those waters four days ago according to advices reaching here late this afternoon with a probable loss of 291 lives. According to the report reaching here but sixteen members of the vessel's crew, numbering 307, were saved.

3 PERSONS MURDERED; BEATEN WITH IRON BARS CANTON, O., Aug. 30.—Three persons—Frank Burns, 27, his wife, Freda, 26, and Mrs. Mary Nola, 21, were brutally murdered early this morning in the Burns home here. They were beaten to death with an iron bar in the hands of an unknown assailant. Mrs. Nola, who had been separated from her husband, Joseph Nola, had been living with the Burns family.

COAL STRIKE IS NOT YET SETTLED, SAYS LEADER WASHINGTON, Aug. 30.—"The anthracite coal strike is not settled, but while there's life there's hope," said S. D. Warner, head of the Anthracite Operators' Association, to International News Service, following a series of conferences with senators and officials of the United Mine Workers, which lasted into the small hours of this morning.

NUMBER OF IRISH WOUNDED IN ALL NIGHT FIGHT DUBLIN, Aug. 30.—Many soldiers were wounded in an all night battle which raged between free staters and irregulars at Cork. The irregulars finally were driven off. Red Cross headquarters were fired upon. Two military lorries filled with free state soldiers were blown up by a mine and a number were badly injured. Irregulars' attacks at Tralee and Limerick were repulsed.

TURKISH NATIONALS ADVANCING AGAINST GREEKS CONSTANTINOPLE, Aug. 30.—Turkish nationalist troops are advancing against the Greeks over a twelve-mile front in Bilejik sector of the Anatolian battlefield, said dispatches from the war zone today. The evacuation of Karahissar, 150 miles southwest of Angora, by the Greeks has cut off the Greek forces in the northern part of Anatolia from the main body. Heavy casualties have been inflicted upon the Greeks and many prisoners have been captured, according to claims made by the nationalist war office at Angora. Bad weather is interfering with the Turkish offensive.

NEW EXPLOSIONS MENACE MEN IN ENTOMBED MINE JACKSON, Cal., Aug. 30.—The slight hope entertained yesterday for the rescue of the forty-five entombed miners in the Argonaut mine is waning today following reports of additional explosions in the lower levels of the mine shaft. A gang of four men brought the news of the latest explosions from their positions at the 2700 foot level where they remained for more than five hours dynamiting the walls of the shaft in the hope that in this way they could check the further progress of the blaze. A re-check of the probable victims of the disaster disclosed today that forty-five and not forty-eight are buried somewhere in the scores of passages below the burning timbers. Although admittedly there is less than one chance in a million that the men will ever emerge alive, the attack on the twenty-one foot wall separating the Kennedy mine from the Argonaut is being continued with new crews.

C. OF C. DIRECTORS BUILDING PERMITS ASK RESCHEDULE ON LIGHT RATE

Politics, warm weather, and vacations kept yesterday noon's Chamber of Commerce luncheon in Glendale from being a crowded affair, although a score of members gathered about the festive board to discuss community affairs and plan further progress for the city.

After hearing a report on the comparative charges for electric light and power in Glendale and other nearby cities, where conditions of supply are similar, the directors passed a resolution asking the municipality of Glendale to re-schedule its rates so that the three-phase power rate and combined cooking-lighting rate would not be higher than the Southern (Continued on Page 10)

Surprise Couple on Wedding Anniversary

Mr. and Mrs. Eugene M. FEAR TAKEN FOR COMEDY SUBJECT IN PHOTOPLAY

'His Back Against Wall' Is Picture Offering Tonight on Glendale Screen

Fear as a subject for comedy has been made the central idea of a delightful photoplay by the Goldwyn company in the picture 'His Back Against the Wall'.

'His Back Against the Wall' was directed by Rowland V. Lee, who kept the spirit of the story admirably. An excellent cast, including Virginia Valli, Will Walling and Virginia Madison, supports Raymond Hatton.

HIRAM JOHNSON WINS SENATORIAL NOMINATION BY GREAT MAJORITY; OTHER RESULTS ANNOUNCED

WOOLWINE BEATS MATTISON JONES

Three Cornered Fight for State Treasurer Proves to Be Close One

By ELLIS H. MARTIN For International News Service. SAN FRANCISCO, Aug. 30.—United States Senator Hiram W. Johnson has won re-nomination in one of the greatest fights of his political career.

With returns from something like half of the state in today he was leading Charles C. Moore by about 25,000 and his managers claimed that as the complete returns come in this lead would grow to 70,000.

"California remains Progressive," the senior senator jubilantly declared to International News Service today as returns continued to pile up his lead.

Moore won Southern California by taking the two most populous counties, Los Angeles and San Diego. Johnson, however, showed strength in other southern counties with the result, his managers claimed today, that Moore would come north to the Tehachapi mountains, the dividing point between northern and Southern California with but 5,000 lead.

Offsetting his opponent's southern strength, Senator Johnson carried every northern county—many of them overwhelmingly.

Gets Big Lead In San Francisco city and county he piled up a lead of better than 18,000. Oakland and Alameda counties gave him between 5,000 and 6,000 majority. Sacramento, seat of the state capitol, came through with an estimated lead of 7,000. Humboldt county at the extreme northern point of the state, was estimated to have gone for Johnson by 3,000 and

U. S. SENATOR HIRAM W. JOHNSON The senior senator from California won the Republican nomination yesterday over Charles C. Moore by a majority that is steadily growing as the count of the vote progresses. "California remains Progressive," declared the senator in commenting upon his victory today.

so the count went in northern California. The big surprise of the primary election is the neck and neck race of Governor William D. Stephens, incumbent, and Friend W. Richardson for the Republican nomination for governor. Richardson was leading Stephens early today by about 1,000, although Stephens was showing slightly more strength in later returns. This close race furnished the most unexpected reversal of political forecast in recent California history.

Administration officials here and in Sacramento today frankly acknowledged that they were at a loss to explain the heavy vote polled by Richardson. The latter ran with surprising strength all through the south and even in supposed Stephens' strongholds in northern California cut down the governor's vote. Stephens carried San Francisco by about 10,000 as against a majority of 18,000 rolled up here by Senator Hiram Johnson.

Richardson Surprise Prior to yesterday's election political seers had generally predicted a majority for Stephens of at least 200,000. So prevalent was this belief that the governorship fight was virtually lost sight of in the Moore-Johnson contest for United States senator.

The heavy vote polled by Richardson in Los Angeles and San Diego was in a measure anticipated, the "upset" of political dope coming in Alameda, Fresno and Sacramento counties as well as the rural districts. In the three counties named, Stephens forces expected to carry overwhelmingly whereas the returns today found the race unusually close.

Already speculation was rife as to the effect of Richardson ousting Governor Stephens. It was estimated in Sacramento that approximately thirty appointees of Governor Stephens in the \$5,000 a year class and several \$10,000 a year men would feel the political axe.

However, Governor Stephens has by no means given up the fight. His managers insist more complete returns will show a different story. There is a possibility the race may be so close an official count will be required. Richardson early today claimed victory.

Lieutenant-Governor C. C. Young has won the re-nomination with ease. State Treasurer In the three cornered fight for state treasurer on the Republican ticket C. G. Johnson has apparently won out on meager returns. He carried San Francisco overwhelmingly, polling 15,000 more votes than J. T. Millan and Walter Brinkop combined. This result, however, will require more complete returns to definitely decide it.

Returns in the judicial contests were not complete enough to definitely forecast the results early today. In San Francisco and Northern California Judge William P. Lawlor was leading Judge Curtis D. Wilbur for chief justice while in Southern California Judge Wilbur was reported in the lead. Judges E. H. Kerrigan and Emmet Seawell appeared to be leading Justices C. A. Shurtleff and William A. Sloan for the two long term places as associate justices of the supreme court.

News from Southern California were not sufficiently represented, however, to indicate the real trend in this fight. Jones Is Defeated Chief interest in the Democratic primaries was the contest for nomination as governor between Thomas Lee Woolwine, district attorney of Los Angeles and foe of the Ku Klux Klan, and Mattison B. Jones of Glendale. Woolwine has apparently won easily although Jones gave him a close race in Southern California. In the congressional field present incumbents appear to have been returned in every instance—several having no opposition. A hot contest is on in the sixth district comprising Alameda county where J. H. MacLafferty and David Oliphant, Jr. are running a close race.

JOHNSON REDUCES LEAD OF MOORE IN SOUTHLAND

Senator Runs Close Race to Carry L. A. County; Richardson Ahead

LOS ANGELES, Aug. 30.—Late returns from Los Angeles city and county precincts tabulated today from election sheets in yesterday's primary show that Senator Hiram Johnson has materially cut down Charles C. Moore's lead in this district, which virtually insures victory for Johnson.

From 406 precincts completed early today gives Moore 13,150 and Johnson 13,092. As the majority of these precincts are from the city and a lesser number from the country outside of the city, it appears that Senator Johnson carried Los Angeles municipality, but probably lost the county.

Moore's Lead Cut On the face of these returns it seems that Moore will not carry the county in the complete count by more than 5000 votes, and perhaps by a less margin.

Friend W. Richardson has a more commanding lead over Governor William D. Stephens for the Republican nomination for governor. The 406 precincts give Richardson 14,054 against 12,254 for Stephens.

Walter Brinkop of Los Angeles leads Charles G. Johnson of San Francisco and J. T. Millan of San Diego for the Republican nomination for state treasurer in the county returns, his vote here equalling that of the two candidates combined.

Curtis D. Wilbur led William P. Lawlor locally for chief justice of the supreme court. For associate justice W. A. Sloan, incumbent, of San Diego, led in Los Angeles county, with Judge Frank H. Kerrigan of San Francisco second, and Justice Charles A. Shurtleff, also of San Francisco, and an incumbent, third. Emmet Seawell of Sonoma county apparently being fourth.

San Diego for Hi SAN DIEGO, Aug. 30.—Evidence of the waxing popularity and power of Hiram Johnson was far ahead of expectations. One hundred and twenty precincts complete out of 133 in San Diego city gave Johnson 5339, Moore 5183.

Johnson's majority is considered remarkable when compared to his showing here against Willis Booth six years ago when the sen-

Successful Candidate's Statement

SAN FRANCISCO, Aug. 30.—The following exclusive statement was dictated by Senator Hiram W. Johnson early today when returns showed that he had again returned to his seat in the senate, thus winning again the Republican re-nomination: "We have won a remarkable victory. There never has been in any campaign in any state of the union such a lavish expenditure of money and such an organized effort of great, powerful and wealthy interests. The long, strong arm of sinister influences beyond our borders reached into the state to aid similar interests here in encompassing my defeat. Nothing was left undone by our opponents. The people of this state have responded most emphatically to independent, progressive Republicanism—to the Americanism we have been preaching. California by this victory remains progressive."

Builds House Like Ship in Full Sail

MILWAUKEE—A home will be built by S. E. Capron, former yacht builder, in the shape of a yacht with all sails set, but the architects who will build it admit that it will never get beyond the three-mile limit—even in Milwaukee. The unique bit of architecture will be one of the prettiest in the whole country, it is said. Sails will be spread to the wind at Concord and Cambridge avenues. The ship also will have a rudder and an anchor hanging from the first story, according to present plans.

ator was defeated by 3000 votes in this county. Richardson was leading Stephens by nearly 2 to 1 for gubernatorial honors and Young was receiving 5 votes to Rominger's 3 for the lieutenant-governorship. San Diego's own candidate for state treasurer was given a 10 to 1 majority in his home district.

The figures for the 120 precincts follow: Richardson, 6659; Stephens, 3337. Young, 5283; Rominger, 3270. Millan, 9357; Johnson, 665; Brinkop, 252.

Chicago Yellow Cabs to Invade Paris Soon

PARIS.—Fifty "yellow cabs" from Chicago soon will exert an Americanizing influence on Paris taxicab service. The cabs will be brought over in the winter season, according to John Hertz and Charles A. McCulloch, of the Chicago Yellow Cab Manufacturing company, who have organized a subsidiary company here. They will be run on a profit-sharing basis, similar to those in Chicago, but will be operated at Paris taxicab prices.

Drivers of the new cabs will be selected according to their ability to handle American fares. Fluency will be a prerequisite.

CAMPING SUPPLIES

A great many people are still planning vacation trips, and especially those who are not going very far from home, just taking a week or more in camp. With a little planning all of the supplies may be purchased at home and carried with the camping outfit. This will avoid the unpleasant experience of being without "something to eat" when camp is reached after a day's hiking, fishing, and the like. This plan will also afford varying menus, which is much to be desired.

Supplies for One Week for a Party of Six

- 5 pounds coffee, 6 pounds sugar, 4 pounds butter, half pt. salad oil, 3 lbs. beans, 2 lbs. prunes, 2 lbs. cornmeal, 2 lbs. rice, 1 lb. dried beef, 1 pkg. cornstarch, 1 small box pepper, 1 lb. can molasses, 1 bushel potatoes, 1 lb. codfish, 12 cans evaporated milk, 2 cans tomatoes, 4 cans corn, 3 cans preserved fruit, 2 lbs. cheese, 1 can tuna fish, 2 cans Finnan Haddock, 2 lbs. oatmeal, 2 pkgs. macaroni, one-half lb. tea, 1 can cocoa, 3 lbs. butter substitute, 5 lbs. flour, 1 lb. pork, 2 lbs. peaches, one-fourth lb. dried mixed vegetables for soup, one-half lb. baking powder, 3 pkgs. gelatine for dessert, 2 lbs. brown sugar, 2 lbs. salt, 1 can paprika, 2 qts. onions, 6 cans tomato soup, 2 lbs. powdered milk, 4 cans peas, 2 cans small beans, 1 strip bacon, 2 cans pimientos, 2 cans shrimps, 2 quart bottles olives, 3 boxes crackers, chili sauce, pickles, etc.

never been injured except for a slight scratch. The other day when I was driving in wet weather, I saw at the foot of a hill, on a sharp curve, a sedan turned upside down with the top smashed and the glass splintered. Evidently it was some time after the accident for there was no one by the scene of the wreck. Later I inquired—with the horror one feels when one sees a thing like that instead of just hearing about it—how badly the occupants were injured and was told no one was hurt at all.

A Modern Miracle
Near my home recently a machine with five women in it went off the road on a sharp curve, into the underbrush and then down a 40-foot embankment on to a railroad track. All killed? No, not one was hurt and the paint wasn't scratched on the machine. They couldn't possibly get up the embankment again so drove the machine down the track to the nearest station and then drove home, a distance of 40 miles.

SPEEDING PARTING GUEST
Arthur and Willie were playing noisily, though peacefully, when Willie's mother came out to tell the visiting Arthur that he had better go home to dinner. She had just turned to re-enter the house when her offspring threw a stone that sent Arthur howling in the direction of home. "Willie," she demanded sternly, "why did you throw that stone at Arthur?"

WHEN CAT'S AWAY
The family were out of town, and the house was left in charge of a young housemaid. On opening the door the first morning she found the charwoman standing there, obviously angry. "I've been ringing and ringing for the last half hour," she said. "Why ever didn't you come sooner?" "Oh, was that you?" replied the housemaid. "You kept on so regularly that I thought it was only the telephone!"

BEAUTY CHATS

HEALTHY NAILS.
Recently I overheard a discussion between a manicurist and her patron concerning the appearance of nails before the days of professional manicuring. They agreed that the sight must have been deplorable. It occurred to me at the time that nails might not have looked so badly as they thought, for people who had pride took particular care with their appearance. There was no temptation then to use acids on them to dissolve the dead cuticle. The life was not starved from the nail, as it is often done today when it is coated with lotions to give a shining surface. As a matter of fact, the nail depends upon health for its real beauty. Healthy nails are transparent, shell pink, and should be flexible enough to bend easily without breaking. Such nails will have a natural polish and will be free from ridges. If we do not abuse the nails by robbing them of the natural secretions they would not require so much artificial attention. As the nail is part of the skin, it naturally follows that a dry skin will mean a dry and brittle nail, while an active skin will produce a supple nail, unless there is too much acid in the blood. This alone will cause a dry and ridgy nail. The health of the nails, therefore, depends upon one's condition of health. If they are too dry rub them with plenty of oil and increase the circulation under them by a generous use of the buffer. This really amounts to exercising, and the resulting stimulation will bring the blood to the surface and not only beautify the nail but nourish it. Margaret—Since the nose is the least observed of all the features, you may easily overcome the disadvantage of a badly shaped one by cultivating your other possibilities. The thing that counts the most is what the features express, rather than their actual shape. T. H. M.—For those fine lines

Diet and Health By Lulu Hunt Peters, M.D.

OFFENSIVE TONSILS
Have you ever felt a little tickling in the throat and, upon coughing slightly to remove the irritation, had a small whitish cheesy body, from the size of a pinpoint to the size of a rice kernel, come from the throat? And have you observed that this little body gives forth an odor which is about the most odorous odor you ever encountered? If any smell can be said to smell to high heaven, it would certainly qualify. You wonder how such an "offensive looking little speck" could manage to pack onto itself such a load. These little cheesy bodies come from crypts or pockets in the tonsils. In unhealthy tonsils, where there are enlarged crypts they form frequently and they in turn keep the tonsils in an unhealthy condition and the breath bad. They are composed of cast-off epithelial and lymphatic cells of the tonsils, some cholesterol and many bacteria. Cholesterol is a fat-like substance also found in gall stones, bile and nerve substance. The odor from these bodies is not due to the cholesterol but to the decomposition by the bacteria. Healthy tonsils may have a certain amount of these cheesy materials accumulate, but it is not abnormal unless there is a long retention of them or the formation of too large bodies. In these cases there may be a chronic low grade of inflammation arise from them. This may be the source of a chronic toxemia or poisoning of the system. It may also be the source of acute inflammation of the tonsils. In the so-called buried tonsils—that is, the tonsils which do not stand out, but are held down by the pillars and the mucous membrane in the throat—the crypts may be more tortuous and deep and they retain these cast-off materials more than the tonsils which are more exposed. There may be small abscesses form in the deeper crypts. These small and buried tonsils are more subject to quinsy of peritonsillar abscesses, abscesses which form between the capsule of the tonsil and the muscle of the throat. The infection probably goes through these crypts. There are great systemic disturbances in cases of quinsy, the same as in an acute case of inflamed tonsils. There may be chills followed by fever, very great pain in the throat, difficulty in opening the mouth, no appetite, constipation increased saliva, etc. The tonsil will be pushed outward by the swelling back of it, but may not in itself show inflammation or swelling. Washes and sprays will accomplish very little. A frequent gargle made with one teaspoonful of bicarbonate of soda (baking soda) or one teaspoonful of salt, or the combination of the two, to one pint of hot water, will relieve the pain. Hot compresses around the throat are soothing. Tonsils which are subject to recurring acute inflammations or tonsils which are chronically in-

THE GREATER MARVEL
The number of people who are killed or injured in automobile accidents is a subject that people like to talk about. And the number of people who are killed each year because of these engines that run the public highways with a speed of a locomotive and controlled sometimes by 16 year old children, or octogenarians, is surely appalling. Though when you come to study the statistics you find there are fewer killed in automobile accidents than by simply falling in one way or another, down the stairs, or off a wall, or from a scaffolding. Why Aren't They? But I think there is one thing even more astonishing than the number of people who are killed in automobile accidents. And that is, the number of people who are not killed. I do not refer so much to pedestrians, thought that, too, is a marvel, as to the occupants of automobiles. When you consider the intricacies of city traffic, the constant hazard of the other man's reckless driving, and the ever present chance of something going wrong with the mechanism of the machine, how marvellous it is that so few accidents, compared to the number of machines, occur! But even more remarkable than that is the marvel that when accidents do occur the people in the car so often escape serious injury. His Steering Gear Broke I have a friend who has driven tens of thousands of miles in the last ten years. He has had his steering wheel break on a hill, has had a wheel drop off his machine and twice has been run into by other machines, and he has

HIGH SCHOOL HAS BAY CITY STILL GEORGE BURNS KEEPS HIS SPEED GOOD SUPPLY OF FOOTBALL MEN HOLDS LEAD IN CLOSE CONTEST

Glendale Gridiron Artists to Nevada Footballers All Set for Grind; Good Scrap at Vernon Prelim.

With more heavy men in prospect and a good supply of backfield men, Glendale Union High school this year stands a fair show of being a successful football title chaser. Since school will not open for some days yet, the football situation so far is rather nebulous, but, whatever it is worth, gives Glendale district's institution a promise of a better team this year than last.

One thing which gives the local boys a better chance than they had last year is the absence from the league of Franklin High school, generally considered one of the hardest opponents. Franklin is now in the Los Angeles city league, leaving the outside schools.

Howard Butterfield, assistant coach, from whom there is none whomever, "ain't makin' any rash predictions." However, he does admit that most of the boys have put on weight during the summer, and that when noses are counted, this fall it will be found that a number of last year's lightweights will weigh in with enough extra heft.

Among those expected to make a successful bid for gridiron honors this fall is Stofft, who will captain the team. This baby, who will tip the beam at about 170, brings back with him five inspired toes and will do most of the punting for the locals this season, playing in the fullback position.

Both Vernon and Los Angeles continued in their respective winning streaks yesterday, each trimming their opponents in the opening game of the series. But all to no avail.

The pesky San Francisco ball chasers were taking advantage of every break up in the Bay City, with the result that "Dots" Miller and his gang were able to hang up another victory over the lowly Portland Beavers.

The three-cornered race seems to become hotter with the weather, however, and a really spectacular finish is expected to develop before the final gong is sounded. At present Vernon is but two games behind San Francisco, while Wade Killefer and his Angels are seven contests in the rear of the leaders.

Coach R. O. Courtright of the University of Nevada is planning to put his 1922 gridiron prospects through the hardest grind in the history of the institution, according to the team's schedule of games, which was published yesterday.

Since being taken into the conference, the Jackrabbits have begun to take athletics more seriously than before, with the result that the Reno university is rapidly coming to the front among Far-Western institutions of higher learning.

Following is the list of games which have been lined up for Nevada this fall: October 7, Santa Clara at Reno; October 14, Occidental at Reno; October 21, University of Southern California at Los Angeles; October 28, California Aggies at Davis; November 4, Stanford at Palo Alto; November 11, Whitman College at Reno; November 18, University of California at Berkeley; November 30, St. Mary's at San Francisco.

The much abused and picked-to-pieces Portland baseball club was given another jolt yesterday when it was announced that Harold "Rowdy" Elliott, first string catcher and one of the stars of the remainder of the season for "misconduct and insubordination," was suspended and notified of the suspension yesterday by F. B. Rivers, business manager of the club.

Ernie Goozeman of San Diego clearly outpointed Danny Kramer last night in the main event of Jack Doyle's weekly fighting card at the Vernon arena. Goozeman was all action from start to finish, but the steady grinding and headwork of the veteran Kramer was not to be outdone. Eddie Mahoney, known as "the pride of San Francisco," was given a decision over Bobby Allen in a closely contested battle in the semi-windup.

The bright spot of the evening, however, was exhibited in the second preliminary bout on the program when Battling Larry Murphy, a stranger in southern California rings, took a decision from Willie Jackson after four rounds of terrific milling. Both men fought all the way, it being easily the prize event of the card.

Head Coach Andy Smith of the California Bears will arrive in Los Angeles within the next couple of weeks for the purpose of giving a few fundamental football hunches to the gridiron candidates of the University of California, Southern Branch. As these men will probably complete their education it will be a feather in Smith's hat to give them a little preliminary training.

George Burns, former Giant, who leads off for Cincinnati, is still a speed boy after his many years of service. He is second in the league in stolen bases. In a recent three game series against Brooklyn he stole five bases and made nine hits in thirteen times at bat.

The World Over

Nothing is more certain indicative of the continuance of the phenomenal number of persons taking up the game of golf than the fact that, of late, there has been a very marked reiteration of the fact that there are rules of procedure and etiquette that must be observed.

It is the next player who has to suffer. The very best of shots may send the ball into one of these irregularities and completely spoil the lie. It is not to be wondered at that the real players are urging a campaign of education for the novice and insisting that certain things be brought to his notice before he or she be permitted the use of the course.

Doublets, it is, this insistent urging which is stirring officials of golf clubs to a demand that there be strict adherence to the rules. It is a difficult matter to inflict any penalties, as in the case of the unrepentant divots, first because no one is likely to see the perpetration of the offense, and secondly, because it goes against the grain to be a tale bearer.

One solution of the difficulty might lie in the house or greens committee holding an examination on the rules which must be successfully passed before an application is acted on. At least it would oblige many to read the rules who do not take the trouble themselves in regard to them.

The world-famous "Grand American" trapshooting handicap and championships will be held at Atlantic City, N. J., September 11 to 16, inclusive. The coming shoot is the twenty-third annual and each year since 1900 has increased both in national and international importance.

Back in 1900 when the first Grand American Handicap was held there were seventy-four shooters and only two traps were required. The growth of the event is immediately seen when it is known that in the coming shoot approximately one thousand entries are expected and it will require a battery of sixteen automatic target traps to accommodate them. This marks an epoch in trapshooting as exactly one-half mile running length of space will be required to plant the six traps.

R. O. Hoikes goes down in history as being the first winner of the Grand American Handicap with a score of 91 out of a possible hundred. Originally the Handicap was the real event, but since then various amateur and professional championships have been shot and the shoot extended from a day or two to a week. 'Rowdy' Elliott Is Suspended for Year

Without warning, Tut Jackson, of the Washington Court House, Ohio, negro, ceased to be the mean, vicious, two-handed man-eater of a press agent's fancy, last night at Ebbetts Field, Brooklyn, and became a human opera hat, collapsible to the touch. The touch was supplied by Harry Willis who, midway in the third round fanned the responsive Tut across the chin with a right and the latter, greatly but firmly folded up and called it an evening. They will refer to the occasion in the record books as a knockout for Willis.

The joke, as usual, was on the 20,000 spectators. They were led to believe that Jackson was some sort of a one-piece receipt who knocked them and explained afterwards, a wild-eyed Senegambian, erudite who might kill Willis' dream of a bout with Dempsey.

Railroads Expect to Move Coal Supply

WASHINGTON, Aug. 30.—Despite the deterioration of rolling stock resulting from the shopmen's strike and the possibility of other labor troubles, the railroads are expected to be able during the coming winter to move all the coal that the country needs, Secretary of Commerce Hoover declared today.

During the next six weeks, Hoover said, it will be necessary for the railroads to move 17,000,000 tons of coal a week.

Tagging All Bases

The Cards continued their mad, dizzy dash toward the rear by dropping a 15 to 11 decision to the Cubs. The victory gave the Cubs a firmer clutch on second place.

In one of those home run or no count things, the Athletics pulled out a 6 to 5 victory over the Red Sox when Galloway hit for the circuit in the tenth inning. Tille Walker registered with his thirty-second this season, tying Williams and Hornsby for the major league leadership.

The Sport Crucible

By Davis J. Walsh
International News Service Sports Editor

NEW YORK, Aug. 30.—Quite without warning, Tut Jackson, of the Washington Court House, Ohio, negro, ceased to be the mean, vicious, two-handed man-eater of a press agent's fancy, last night at Ebbetts Field, Brooklyn, and became a human opera hat, collapsible to the touch. The touch was supplied by Harry Willis who, midway in the third round fanned the responsive Tut across the chin with a right and the latter, greatly but firmly folded up and called it an evening. They will refer to the occasion in the record books as a knockout for Willis.

The joke, as usual, was on the 20,000 spectators. They were led to believe that Jackson was some sort of a one-piece receipt who knocked them and explained afterwards, a wild-eyed Senegambian, erudite who might kill Willis' dream of a bout with Dempsey.

Much had been made of Jackson's knockout record, piled up at the expense of many fistic tramps. He did not land a single decisive punch during the few minutes the affair lasted. He did nothing but hold on desperately with both hands and even at that Willis was able to break through his feckish knock-kneed defense for a right to the jaw that dropped Jackson for a short count in the opening round. The bell saved Jackson, however, and so did Willis' forbearance in the second.

His body attack brought Jackson's jaw lower than usual in the third and a right uppercut was waited with neither emphasis nor courtesy upon Jackson's chin. Willis then stepped back obligingly and Jackson eased forward to the floor on his face. He remained there until the end of the count, even going so far as to have himself assisted to his corner.

The Riddle of the Frozen Flame

By M.E. & T.W. HANSHEW

"At last I saw Sir Nigel and the Doctor and Mr. West come up the corridor together. I heard 'em bid each other good-night, saw the Doctor go into 'is room, and Mr. West return to the smoking-room, and 'eard Sir Nigel's key turn in 'is lock. After that there was silence for a bit, and all I 'ears was 'is moving about and muttering to 'imself, as though 'e was angry about some-thing. Then, just as I was a-goin' back to me own room, I 'eard the pistol-shot, and nips it back again. I 'eard 'im say, 'Got you—'you devil!' and then without waitin' for anything else, I runs down to the servants' 'all, which is directly below the smok-ing room where the other gentle-men were talking and smoking. I peers out of the window, upward—for it's a half-basement, as per-haps you've noticed, sir—and there, in the light of the moon, I see Mr. Wynne's figure, crouched down against the gravel of the front path, and makin' funny sorts of noises. And then, all of a sudden, 'e went still as a dead man—and 'e was a dead man. With that I flies to me own room, frightened half out of me wits—for I'm a peace-lovin' person, and easily scared, I'm afraid—and then I locks meself in, sayin' over and over to meself the words, 'He's done it! He's done it at last! He's murdered Mr. Wynne, he has!' And that's all I 'ave to say, sir."

"And a damned sight too much, too, you liar!" cried Mr. Merriton, furiously, his face convulsed with passion, the veins on his temple standing out like whiplashes. "Why, the whole story's a fake. And if it were true, tell me how I could get Wynne's body out of the way so quickly, and without any one hearing me, when every man in that smoking room, from their own words, and from those of the doctor here, was at that moment straining his ears for any possible sound? The smoking room flanks straight on the drive, Mr. — er — Headland — He caught himself up just in time as he saw Cleek's almost imperceptible signal, and then went on, his voice gaining in strength and fury with every word: 'I'm not a giant, am I? I couldn't have lifted Wynne alive and with his own assistance, much less lift him dead when he'd be a good sight heavier. Why, the thing's a tissue of lies, I tell you—a beastly, underhanded, backbiting tissue of lies, and if ever I get out of this thing alive, I'll show Borkins exactly what I think of him. And why you should give credence to the story of a lying servant, rather than to mine, I cannot see at all. Would I have brought you here, you a man whose name — And even in the excitement which had him in its grip Nigel

DISTRIBUTED COIL CAPACITY

A length of wire parallel with another length of wire or a turn of wire in a coil parallel with another turn produces an effective capacitance between the lengths or turns. In the case of the coil energy is stored in an electrostatic field between adjacent turns, whenever oscillations flow in the circuit containing the coil. The effect is that of a small condenser, although the principal property of a coil is self-inductance. The coil thus has inductance in comparatively large measure and capacity in small measure, and the effect produced is the same as though the coil had no capacity but a condenser was shunted across it. The coil itself is an oscillatory circuit, with a wave length, depending upon its inductance and effective capacity.

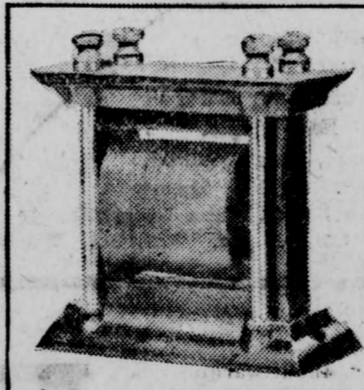

Suppose that a certain coil has a total of fifty turns of wire and that only twenty turns are in the antenna circuit when the latter is tuned to a certain wave length. The thirty remaining turns are unused, but there may be sufficient capacity distributed between those unused turns to cause that portion of the coil to be in resonance with the antenna circuit. We have a case where the antenna circuit induces oscillations of same frequency in the unused turns, and energy is transferred from the antenna to those turns. Of course, considerable energy is also induced in the secondary circuit of the receiver, which possibly is inductively

AMPLIFYING

In conjunction with the double knob control receiver described, the same concern is putting out this amplifying unit. Over all dimensions are 5 1/4 by 5 1/4 by 5 inches. High rubbed bakelite for the panel is used and Honduras mahogany makes up the cabinet. The standard single step amplifying circuit is made use of in the unit, and, on test, has proven very efficient. One or more of these units, when used in connection with a loud speaker, will not only increase the signal strength, but will also render a clear reproduction. The same amplifying cabinet has also been made up in detector, only style, and is particularly valuable

Book Reviews

The verdict of those who have read "Woman," by Magdeline Mark, is that this book is a new form in literature, original in thought, lofty in sentiment and exquisitely poetic. Woman is also the topic of another book which has recently been released for distribution at the Glendale public library on Harvard street, "Woman's Share in Social Culture," by Anna Garlin Spencer. The chapters of this book deal with the primitive woman, the ancient woman and the modern woman, the drama of the woman of genius, the day of the spinster, the vocational divide, the feminine ideal, the social use of post-gra-

Uncle Wiggily Bedtime Stories

BY HOWARD R. GARIS

UNCLE WIGGILY AND THE BABY BIRD

Uncle Wiggily awakened one morning in his hollow stump bungalow while the late August sun was shining in his window. It made his red, white and blue-striped rheumatism crutch look like a big stick of peppermint candy. Without quite knowing why or how, Uncle Wiggily felt very happy. Perhaps you have felt just the same some morning when you knew your lessons and were glad to go to school.

"Oh, how jolly I feel this morn-ing," cried the gentleman rabbit as he hopped out of bed, landing on the floor with a bounce that shook the whole bungalow. "I must certainly take a walk in the woods this beautiful day, Nurse Jane! Oh, Nurse Jane!" called Uncle Wiggily.

"What is it, Mr. Longears?" the muskrat lady answered. "Oh, are you only just getting up?" she went on, as she heard him moving about in his room. "Why, it is nearly 9 o'clock and the sun has been up for many hours!"

"Oh, well," replied Uncle Wiggily, "I think the sun went to bed a bit earlier than I did last night. We stayed somewhat late at the moving pictures. Mary Chaplin was so funny; don't you think?"

"You mean Charlie Pickford!" laughed Nurse Jane. "Yes, he was jolly. But now come to breakfast."

So, after a breakfast of broiled carrots with turnip lace around the edges, Uncle Wiggily hopped across the room once or twice.

"My, but you are say this morn-ing!" cried Nurse Jane, backing into a corner with a pile of dishes, so Uncle Wiggily wouldn't bump into her. "What is the idea?"

"The idea is that you and I are soon going for a walk in the woods," answered Mr. Longears. "Together we may have an ad-venture."

"I shall be most delighted to go, and it is very kind and polite of you to ask me," said Miss Fuzzy Wuzzy.

Soon the jolly, old, shining sun saw the two animal friends ad-venturing through the woods to-gether. Uncle Wiggily holding Nurse Jane's paw so she wouldn't stumble and fall.

"Look, what is that?" suddenly cried the muskrat lady as they passed a bubbling brook. "Is that the Skillyery Scallyery Alligator?"

Uncle Wiggily carefully looked through his spectacles.

"That is a mother otter and her family of little otters," answered the bunny gentleman. "Let us watch them."

They saw the mother otter teaching her little otters how to

"There is a mother otter and her family."

swim. Otters are animals that spend much of their time in the water, catching fish on which they live. The fur of the otter is most beautiful.

This family of otters was having a wonderful time. The mother perched herself on a rock and slid into the water. One by one the baby otters did the same, some of them falling and splashing in, rather than sliding. The mother otter did all sorts of tricks, jumping up in the air and almost turning somersaults. Then she would take a little otter on her back and swim across the pond and back again.

"Now I have shown you what to do, you must all swim by your-selves, children!" called the mother otter at last. "Swim after me!"

Away she paddled down the brook, and after a little, all the baby otters swam behind her. Uncle Wiggily and Nurse Jane set out again.

"My! How pretty those tiny otters were!" sighed the muskrat lady. "I wish I could have taken one of the furry babies home with me."

"I wish the same," spoke Uncle Wiggily, "but I fear Mrs. Longears would not have liked that very much. No matter how many children one has, they are all loved. And now I think we had better—"

But at that instant Uncle Wiggily came to a stop, for right at his feet something dropped. Looking down, Uncle Wiggily saw that it was a baby robin. It was one of what is called a second brood, for often the mother robin hatches two batches of eggs, so that little birds come from them late in summer and early in spring.

"Oh, you poor dear little bird!" cried Nurse Jane. "You seem to be cold," and well might she say that, for the baby robin was shivering, for it had no hardy any feathers, being newly hatched.

"I—I am cold!" peeped the baby bird. "It was nice and warm in the nest, under my mother's fluffy wings, but it is cold here. Oh,

Real Estate

Has It Occurred to You

—that now is the opportune time to build, either for a home or for an investment? The fall activity in building has started. Later you may be delayed because of a probable rush.

WE BUILD—maintain a service department—and finance. Let us help you. When buying or selling Real Estate, remember that we can serve you.

Wernette & Sawyer

116 West Wilson

Glendale 172-W

Why Should You Build in Glendale?

In a town created by an oil boom, by a gold strike, or by some other single industry or attraction, there is a certain element of gamble in buying realty after the boom is under way.

In the cities and towns adjoining Los Angeles, not one lone, but many combined industries and attractions form the basis of demand, making a real estate investment as near a sure shot as anything that money can be put into.

When industrial development crowds residences out of the larger metropolis, outlying communities are benefited. When high rentals force people to buy their own homes for self-protection, the exodus of renters may bring a drop in rental values, but that is exactly offset in the real estate field by the increased demand for individual residence properties.

After the first payment made on a home, monthly installments of about the rental you would pay for a similar place will take care of the payment of principal and

interest—and your money is enriching a landlord just as before, but you are he!

If it pays a landlord to rent a house to you, it certainly would pay you to rent as good or better house to yourself with the rental being constantly applied towards purchase.

The manner of accomplishing this is a subject for individual judgment. You may buy a lot on installments or for cash. You may buy house and lot in either way. You may build on installments, for cash, or on building loan mortgage.

The main thing is to do it now. There have always been and will always be a few people who are inclined to believe the "top values" have been reached and that a decline is in order. In and about Los Angeles they have been wrong for at least fifty years, and it's a mighty good bet that they're still wrong now.

Buy a home of your own. Now's the time. He who hesitates suffers the loss, for procrastination is the thief of opportunity as well as of time.

To INVESTORS we point out the substantial profits already made by purchasers in our early units who have resold in some cases on a basis of \$200 profit for every \$100 invested.

To BUILDERS we emphatically state there is a big demand for medium-priced houses and all who have built to sell on our Tract have had no difficulty in making sales.

To HOMESEEKERS, a better opportunity was never offered to secure desirable lots in an unexcelled location at PRICES AND TERMS THAT SHATTER ALL PRECEDENT!

We are now offering lots in our 9th Unit which is one of the choicest pieces of property we have offered

Investors, Builders, Homeseekers

Here is your opportunity, delightful large lots in very center of a development which has gained such momentum that an enhancement of value is assured.

There will be no meeting of St. Mark's Guild, of which Mrs. Mortimer Baker is president, at the church hall tomorrow on account of the chicken dinner to be given by the members of that organization at Masonic Temple tomorrow night.

Bill McGillis of 1003 East Lomita avenue returned last night from Phoenix, Arizona, where he motored last week with a party of Los Angeles' friends. Southern California weather is cool when compared to that of the region traveled by the party, according to McGillis.

The Ladies' Aid Society of the Casa Verdugo Methodist church will meet Thursday afternoon of this week at the church. Mrs. John W. Cotton, president of the society, who has been absent for several weeks, will have charge of this meeting, and plans will be outlined for work to be completed before conference.

Among the recent graduates from Glendale Union high school who have enrolled at the University of California, southern branch, which opened its doors yesterday to approximately 4000 students, are Marilyn Mambert, Louise Ellenback, Estelle Bradbury, Elizabeth Sternberg, Paul Hutchinson, William Goertz, Robert Lindsey, and Dorchester Walsh.

Johnson Jubilee Next Friday Night

A jubilee meeting, celebrating the victory of Hiram Johnson in yesterday's election as a candidate for the nomination of United States Senator, is to be held Friday night at 7 o'clock at the Chamber of Commerce hall. The dinner and meeting is to be given under the auspices of local Johnson admirers, and all Johnson supporters are invited.

A program of music and speaking is being arranged to follow the dinner. Charles Kirk, secretary of the Chamber of Commerce of Santa Barbara, and chairman of the Johnson Club of Santa Barbara county, is to be one of the speakers of the evening. Joseph Scott of Los Angeles and well-known in Glendale is also to address the celebrating Johnsonites, and others will be called upon.

The dinner will be provided for every person who makes a reservation. Those who intend to attend the dinner and meeting are requested to telephone Miss Eva Daniels, phone Glendale 911-M, for reservations. A charge of 75 cents will be made for the meal.

First Jury Trial In 25 Years Is Heard

CINCINNATI—“I guess I won't need a vacation,” Judge Lueders said recently in starting the first trial by jury in probate court during twenty-five years. “This is change enough for me.” The jury was impaneled to settle a dispute between the county commissioners and two landowners who could not agree to terms on property which was to be condemned in order to abolish a grade crossing on the B. & O. railroad.

WHERE DO YOU COME IN?

It costs 55 cents more to live now than it did in 1914, says the foremost price expert, the National Industrial Conference board. If you have a record of what you made in 1914, compare it with what you are making now. If the gain is less than 55 per cent, you have lost ground financially. All on the law of averages, of course.

COMMENT THAT'S ALL

Glendale Needs Get Busy Bringing Back Burns Life and Its Paradoxes Public Shy at Jokes

By Gil A. Cowan
 SOME pretty arguments have been settled. folks. So let us settle down for a few weeks and stop talking politics.

Glendale has to get busy and do some building for the tourists who are heading for here this fall and winter. Homes and more homes are the program.

Have you seen some recent arrivals from vacationland. The last few days being sunny has given them a coat of tan, or a burn, or blisters. That is very nice—for a person to look at, but it is extremely uncomfortable for those who have to grin and bear the discomfort.

Another thing noticeable about vacations. You can stay out half of the night, go to bed for a sleep without limit, and nine chances out of ten you will wake with the birds. Then, when you return to the old grind and go to the club for an evening, the "first sensation" is arriving at work anywhere from 5 to 15 minutes late.

There was one lesson in yesterday's election which calls for comment. That was the decided lack of interest in judicial candidacies. People and politicians put a great deal of interest and effort into partisan administrative affairs, while but a small majority attend to things judicial.

PROMINENT IOWAN BUYS CANYON HOME HERE

C. E. Bean Ten-Acre Foothill Modern Estate Is Sold to Senator Francis

The beautiful canyon home of Mr. and Mrs. C. E. Bean in the Verdugo foothills has been sold to Senator Francis of Des Moines, Iowa. The consideration is said to have been \$30,000.

The Bean country estate contains ten acres amid the oaks of the mountains, the fruit trees, grapes, and the honest-to-goodness mountain spring belching forth pure water all year-round. The house and garage are thoroughly modern to the point of luxury, and the beauty of the country club is an attraction.

Return to Los Angeles Senator Francis will, with his family, make his home at the former Bean estate, while Mr. and Mrs. Bean and family will reportedly return to their Harvard boulevard home in Los Angeles. In leaving their Glendale friends and acquaintances, the Beans express profound regret, and state that their three years' residence in the foothills has practically restored Mr. Bean's formerly poor health.

Old 'Hook and Eye' Is Being Abandoned LONDON.—The last "hook and eye" manufacturer in London has gone out of business! Think of this, all harassed husbands whose recollections can go back twenty years!

"Where we bought hundreds of thousands of hooks and eyes ten years ago," said the manager of Harold's Store, "we don't buy five thousand in a twelve-month. The poor old hooks and eyes have been superseded."

"The first thing to take their place was the press-stud (commonly known as the "popper"). This is remaining increasingly popular because it is much easier on the neck to adjust. Elastic is another substitute which is being increasingly used.

"But what really sounded the death of hooks and eyes was the slip-on dress, which is becoming increasingly popular and, of course, requires no fastenings at all. But don't worry about the departure of hooks and eyes. They were both clumsy and ugly."

"Other articles have suffered a similar eclipse. Years ago we used to buy huge quantities of buttons for sewing on costumes. No tailor-made garment would have been complete without them. Today they have come completely their place being taken either by buttons of the same cloth as the coat or, if none buttons are used, only one is required.

LEISURE OF BOYS AND GIRLS IS FILM THEME

Modern Jazz Spirit Pictured at T. D. & L.; Preview of 'Blind Justice'

William de Mille has struck the keynote of today most happily in "Nice People" which is now the attraction at the T. D. and L. theatre. The modern jazz spirit which pervades our times as well as the possible remedy therefor, are clearly and most entertainingly depicted.

Without preaching in the least, the picture demonstrates that the girls and boys of today have too much leisure for indulgence in what may be easily developed into harmful social relationships. Wallace Reid's role presents him in the light of a good samaritan, his mental outlook cleansed of its possible previous acceptance of such things as the public accepts, as a result of the great war. Bebe Daniels expresses the product of the jazz age flawlessly and her experience proves that those who accept freedom up to a given point will turn upon anyone who oversteps that point.

Conrad Nagel is a man of the same type who, once befuddled with liquor, becomes a menace to the woman in his company. It is an almost perfect portrayal.

Preview Tonight, 8 o'clock Milton Sills is featured in "Blind Justice," the seven-reel production by Edward Sloman which will be previewed tonight at 8 at the T. D. and L. All the players in this picture will be present at the theatre. With De Mille's "Nice People" in addition Ralph Allan is really offering "some show," he says.

SENATOR STEADILY GAINS AS COUNT NEARS CLOSE

Final Lead Over Moore May Be 75,000; Richardson Is Increasing Majority

(Continued) elected over Charles C. Kelly of Pasadena and Ed R. Smith of Ocean Park. Traeger seemed to have a lead of about three to one or better over the field. Kelly ran second.

Make Steady Gains SAN FRANCISCO, Aug. 30.—Harry Encell, campaign manager for Senator Hiram Johnson, today estimated the senator would defeat C. C. Moore by 75,000 at least and possibly 100,000 as returns of a favorable nature were received.

The smashing nature of Senator Johnson's victory became more and more apparent as the day wore on and indications were that his lead would run to at least 75,000. Six years ago in the senatorial primaries he only defeated Willis Booth by 15,000.

San Francisco Result SAN FRANCISCO, Aug. 30.—The semi-official count for the principal offices on the primary ticket was completed by the registrar's office this morning. Senator Hiram Johnson carried San Francisco by 18,591 votes and Governor Stephens leads Richardson by 9,567. The totals for the 888 precincts in San Francisco city and county are as follows:

For senator—Johnson 52,883; Moore 34,292.
For governor—Stephens 46,941; Richardson 37,381.
For treasurer—C. G. Johnson 45,135; Brinkop 11,436; Millan 18,748.

For chief justice—Lawlor 56,350; Wilbur 38,506.
For associate justice—Kerrigan 58,601; Seawell 54,391; Shurtleff 42,548; Sloan 24,493.
For governor (Democratic) Woolwine 9,288; Jones 3,305.

VARIETY OF BOOKS ARRIVE FOR USE IN HIGH SCHOOL

Much History, Lots of Thrills and Little Love Find Way Into Volumes

(Continued) poor man who was going off to help one of his friends get married when he was stopped by a street by an agent who mistook him for the brigadier and tried to put him a house and lot in the horse latitudes. Maybe that isn't exactly true, but, anyhow, it is a fine subject for a lyric poem.

"Tales of Two Cities" is another "best seller" which is just being received. It is from the pen of Charles Dickens, who came over to this country in a schooner before the Atlantic cable was laid, and the "Giant" of the United States, much because he got seasick en route. However, that hasn't anything to do with this book which might have been a charming story of Glendale and Burbank only instead it takes up the prosaic tale of the French revolution. It tells all about the reign of terror, the bloody guillotine and the execution of Marie Antoinette—and a lot of other interesting things. To read it is almost as good as a trip to the movies.

One Weighty Volume "Functions of American Government" is a concise book of about 350 pages which weighs about eight pounds. Thomas Harrison Reed, professor of municipal government at the University of California, quickly settled all arguments about foreign relations and national defense, public employees and recreation, care of dependents, education, the preservation of public health, conservation of national resources, money and banking regulation of corporations, the control and ownership of public utilities, government and labor, immigration, revenue and finance and government finance.

Police Chief Nabs Driver for Speeding

Speeding through the crowd on Brand boulevard watching the election returns last night was the cause of E. Brainard of 1108 East Colorado street being given a court summons. Col. J. D. Fraser, chief of police, happened to be in the crowd. He immediately commandeered the machine of a bystander and they gave chase over the plowed surface of South Brand boulevard to Tropic.

Autos Crash; None Injured, Is Report

An automobile collision occurred about 6 o'clock yesterday afternoon in the intersection of Brand boulevard and Colorado street by Miss E. Babbion of 311 South New Hampshire street, Los Angeles, and a Ford driven by F. Thompson of Los Angeles. No great damage.

Some Love Interest For "kick" Ovid's poems can't be beaten. He lived in Rome a long time ago—before garlic became the national food in Italy—and wrote in Latin for meanness. His epic poem can be read at the rate of a foot a minute by clever scholars who aren't afraid of the vocabulary in the rear of the book. It starts in with "The Four Ages and the Flood," skips off to put in a little love interest concerning the gossip about Apollo and Daphne, returns to "The Adventures of Phaeton," who got his wings singed in the sun like some modern politicians, and goes on to tell of the "Conflagration of the Earth."

D. D. Horning Back From Eastern Trip

D. D. Horning of 519 East Windsor Road returned Sunday from Castile, N. Y., where he was called several weeks ago owing to the serious illness of his brother. Aside from many of the severe electrical storms he did not find the eastern summer unpleasant, but the trip home was decidedly warm as he passed through Osage City, and Hutchinson, Kan., during the recent record breaking heat, and was detained two hours at Needles with the mercury standing at 117 degrees.

Attacks by Turkish Forces Are Spreading

ATHENS, Aug. 30.—The Turkish offensive against the Greeks on the Anatolian front has spread over the entire battle line with at least ten Turkish divisions assaulting the Greeks, it was announced by the war office today. The Turkish infantry attacks have been supported by heavy artillery fire. A counter offensive is being prepared by the Greeks.

C. OF C. DIRECTORS ASK RESCHEDULE ON LIGHT RATE

Board Urges City Council to Act; Secretary Rhoades to Attend 'School'

California Edison rates in nearby cities. The report showed that the city charges less for household lighting than most communities have to pay, but more for commercial power and household combination service.

School for Secretary Secretary James M. Rhoades asked that the chamber send him to the commercial one-week condensed course at Stanford university September 18 to 23. The educational feature is under the auspices of the American City bureau, and instructors are furnished by both that bureau and by the university. The cost of the term is \$55, and the directorate voted to send Mr. Rhoades.

Forum Meeting Next It was announced that the next meeting, Tuesday, September 5, will open with a short directors' meeting at a separate table, followed immediately by the forum meeting.

Committees of five from each of the other civic organizations have been invited and will be in attendance. The Merchants' Credit association, Rotary club, Kiwanis club, and Exchange club are to be represented. These committees will be asked to aid the chamber in accomplishing many civic improvements, some of which are under way and some of which are as yet only under consideration.

OUR GREATEST BLESSING

After abandoning civilization and living in the woods for ten days in a "back to nature" experiment, Major and Mrs. McEwan are glad to come back and live like white folks. Asked what he considered the greatest blessing of civilization, the major answered "tobacco." His wife picked soap. There is not much Indian blood left in us, although it was only yesterday, as time goes, that we all were barbarians.

IT'S NEURITIS!

Not Rheumatism That sharp, stabbing pain in the upper arm, about the shoulder blade, in the nape of the neck, along the forearm or down the thigh and leg, is often Neuritis—not Rheumatism.

If you have severe frontal headache with a feeling that something is twitching or pulling at the eyeballs—a dull, aching pain in the back, accompanied by an occasional shooting pain in the side—numbness or tingling in the fingers or "stitches" of pain here and there, the chances are that your trouble is Neuritis.

No matter where your pain is located, you can get prompt relief without taking bromides, narcotics or other dope. Just apply Tysmol ointment to the part that hurts, and in a few minutes you will be rid of the torture. Tysmol is guaranteed harmless. It helps to soothe and heal the weak, inflamed nerves. Don't suffer any longer. Get a 31 package of Tysmol Tablets from Roberts & Tysmol Co., Mfg. Chemists, 400 Sutter Street, San Francisco.—Advertisement.

May Reveal System of Railroad Sabotage

CHICAGO, Aug. 30.—A nationwide system of railroad sabotage may be revealed as the result of the exposure of the "red" plot, which wrecked the "million dollar express" of the Michigan Central railroad at Gary, Ind., a week ago, federal authorities declared today.

With five alleged terrorists now under arrest and charged with murder for causing the Gary crash in which two members of the train crew went to their death, federal, state and railroad officials continued to prosecute a relentless investigation. One and possibly two arrests were expected to be made today—leaders who directed the plot to wreck the train.
