072 (14 Jan 49)CPC/PP

MEMORANDUM FOR: Patent Property Administration Section, Patent Agency, Ministry of International Trade and Industry, Japanese Government

SUBJECT: Assignment of Trade-Marks to United Nation Nationals

1. Reference is made to the following:

a. Memo for Japanese Government, file AG 072, (14 Jan 49) CPC/PP, SCAPIN 6795-A, 15 August 1949, subject as above, from General Headquarters, Supreme Commander for the Allied Powers

b. RAP No. 243 (IS), 15 November 1949, subject as above.

2. Reference 1b above forwarded an itemized statement of charges to be made by Mitsui Bussan Kaisha, Ltd. to Phelps Dodge Corporation for services rendered in connection with the registration and assignment of trade-marks ordered to be assigned by the terms of paragraph 2 of reference 1a above.

3. Phelps Dodge Corporation has objected to the payment of certain charges listed on the itemized statement of charges, referred to in paragraph 2 above, for the following reasons:

a. These trade-marks should have been registered in the name of Phelps Dodge Corporation in the first instance.

b. Credit of $250.00 paid to New York office of Mitsui Bussan Kaisha, Ltd. on 7 June 1939 is not shown in payment of Items 1-3 inclusive.

c. Items 7-9 inclusive are improper for same reason as set forth in 3a above.

d. Items 10 and 11 are official fees ordinarily included in established fees charged by Japanese attorneys. (Schedule is hereto attached.)

e. Item 13 is improper as the reassignment of these trade-marks is a part of the liquidation proceedings and should be borne by Mitsui Bussan Kaisha, Ltd. From the report attached to B.P.S. 50, 20 May 1949, subject, "Use of United Nations Trademarks" (reference 1b in reference 1a above), which was prepared by Mitsui Bussan Kaisha, Ltd., it appears that all necessary data was avaflable for preparation of documents required by the terms of paragraph 2 of reference 1a above, without incurring any additional expense.

4. The Patent Agency is, therefore, directed to submit to General Headquarters, Supreme Commander for the Allied Powers, on or before 15 days from receipt of this memorandum, a new itemized statement of charges to be made by Mitsui Bussan Kaisha, Ltd. to Phelps Dodge Corporation taking into consideration the objections set forth in paragraph 3 above.

5. Attention is directed to the fact that Phelps Dodge Corporation has appointed Elmer E. Welty, 555 Marunouchi Building, Marunouchi, Tokyo, as its resident agent. Documents evidencing his appointment will be delivered to the Patent Agency upon notification to General Headquarters, Supreme Commander for the Allied Powers that the assignments of these trade-marks are ready to be filed for record in the Patent Agency.

MEMORANDUM FOR: Patent Property Administration Section, Patent Agency, Ministry of International Trade and Industry, Japanese Government

SUBJECT: Request for Restoration of Trade-mark Rights in Japan by William Clark and Sons, Ltd. (England)

1. Reference is made to memorandum for the Japanese Government from General Headquarters, Supreme Commander for the Allied Powers, file AG 072 (9 Sep 49)GPC/FP, SCAPIN 2042, 9 September 1949, subject, "Trade-marks, Trade Names, and Marking of Merchandise in Japan."

2. In accordance with the memorandum referred to in paragraph 1 above, the Patent Agency is directed to take necessary action to restore to its owner the trade-mark rights described in the inclosed "Demand for Restoration of Trade Mark Rights" and to extend the term of duration thereof as requested in the attached "Demand for Extension of the Period of Duration of Trade Mark Rights."

3. It is noted that the "Demand for Extension of the Period of Duration of Trade-mark Rights" waives the right to claim for royalties in paragraph 2 and in paragraph 3 waives the right to collect compensation and releases all deposits in banks which represent royalties earned. The power-of-attorney, inclosed herewith, does not authorize such waivers nor are such waivers provided for in the memorandum referred to in paragraph 1 above. The Patent Agency, therefore, is directed to disregard the provisions relating to waivers in said paragraphs 2 and 3 referred to above.

4. The "Certification of Restoration," evidencing the restoration and extension of the trade-mark rights as required by paragraph 2 of reference in paragraph 1 above, shall be forwarded to the Office of the Civil Property Custodian, General Headquarters, Supreme Commander for the Allied Powers, immediately upon execution.

MEMO FOR RECORD:

1. SCAPIN 1990, 6 Apr 49, para 2a, defined an Allied national as "a person whose prop was treated as enemy prop by the JG, or whose prop rights lapsed owing to the existence of hostilities between Japan and the country of that national."

2. SCAPIN 1990, 6 Apr 49, para 3a, directed JG to revalidate and restore patents, upon demand by their owners, which have "lapsed, or have been invalidated or sequestrated or otherwise taken away from such owners without their free consent."

3. Info has been recd by CPC/PP/PP Br indicating that some Japanese juridical persons were put under custodianship by the JG during World War II because of controlling interests owned therein by Allied nationals. Such Japanese cos thereby lost control of their prop including patents, designs and utility models, with resulting loss to Allied stock holders.

4. Info has also been recd that in some cases where Japanese juridical persons were operated under a controlling Allied national interest, custodians were appointed only to dispose of the Allied interest and did not in any way interfere with the physical prop of the juridical person.

5. Info has likewise been recd by CPC/PP/PP Br that patents owned by Allied nationals were transferred during the war by court decision to Japanese juridical persons who were formerly licensees.

6. In the absence of written evidence confirming the approval or permission of the owners it is considered that these transfers are within the provisions of para 3a of SCAPIN 1990 and that such patents should be restored to their former Allied owners.

7. JG, Cabinet Order #309, 16 Aug 49, omits any provisions for revalidation, restoration or extension of patents in the three cats mentioned above and also, fails to provide a definition for Allied National comparable to that given in SCAPIN 1990 (para 1 above).

8. Rad WCL-23665, 17 Nov 49, fr DA to SCAP states that FEC patent policy applies to patents treated as enemy prop by JG even if they were owned by corporations organized under laws of Japan.

MEMORANDUM FOR: JAPANESE GOVERNMENT

SUBJECT: Procedures for Restoration of Patents, Utility Models, and Designs to Allied Nationals

1. Reference is made to:

a. Memorandum for the Japanese Government, file AG 072 (8 Apr 49)CPC/FP, SCAPIN 1990, 8 April 1949, subject, "Procedures for Restoration of Patents, Utility Models, and Designs to Allied Nationals," from General Headquarters, Supreme Commander for the Allied Powers

b. Memorandum for the Japanese Government, file AG 072 (8 Apr 49)CPC/FP, SCAPIN 1990/1, 16 May 1949, subject, "Procedures for Restoration of Patent Property in Japan to Allied Nationals," from General Headquarters, Supreme Commander for the Allied Powers.

2. In this memorandum, the term "Allied national" shall mean a person whose property was treated as enemy property by the Japanese Government, or whose property rights lapsed owing to the existence of hostilities between Japan and the country of that national.

3. The Japanese Government is directed to provide the necessary procedures to apply the provisions of reference 1a above to patent property of the following categories:

a. Patents, or applications therefor, which were owned by Allied nationals on the effective date of loss, and which on or after that date were sequestrated or otherwise taken away from such owners without their free consent;

b. Patents, or applications therefor, which were owned by Japanese juridical persons (1) whose property was treated as enemy property during World War II because of Allied interest therein, or (2) if the Allied interest in the juridical person was controlling, and was interfered with, even though there was no interference with the property of the juridical person.

4. a. The period of duration of any Japanese patent specified in paragraph 3b above, notwithstanding the provisions of paragraph 3b of reference 1a above, shall, at the request of the owner, be extended beyond its normal expiration date or the effective date of restoration whichever is later for a period equal to that from the date of custody,

CHS

control or supervision by the Japanese Government, its agents or appointees, to the effective date of restoration or to the normal expiration date of the patent, whichever is the earlier. Such extension will only be granted, however, provided such owner waives all claims to royalties for use of the patent from the date of custody to the effective date of restoration and remits to the Japanese Government any funds received by him or credited to him in the blocked account as royalties for such use.

b. If restoration of a patent specified in paragraph 3b above is requested by the owner thereof, notwithstanding the provisions of paragraph 3c of reference 1a above, he may elect to receive royalties for use of the patent during the period from the date of custody to the effective date of restoration or to the normal date of expiration whichever is the earlier, in lieu of an extension of term as provided in paragraph 4a above.

5. The provisions set out above with respect to patents will also be applied insofar as applicable to utility models and to designs.

6. The Japanese Government will submit to General Headquarters, Supreme Commander for the Allied Powers for approval, not later than twenty-one (21) days from the date of this memorandum, proposed legislation, Cabinet Orders, and/or Ministerial orders setting out the laws, procedures, and practice intended to carry out the provisions of this memorandum.

MEMORANDUM FOR: THE JAPANESE GOVERNMENT

SUBJECT: Trade-Marks, Trade Names, and Marking of Merchandise in Japan

1. The Japanese Government is directed to provide and enforce the necessary procedures to implement the provisions of this memorandum relating to trade-marks, trade names, and marking of merchandise in Japan.

2. Trade-mark rights in Japan which, at the date of outbreak of hostilities between Japan and the country of the national concerned, belonged to nationals of countries at war with Japan and which have since been cancelled or invalidated or have lapsed by reason of expiration of term shall be revalidated and restored on request of the former owners or their successors, without payment of any fees, and shall remain in force from the date of such restoration for a period equivalent to the period of protection to which they were still entitled at the date of the outbreak of hostilities.

3. When, as a result of conditions growing out of World War II, trade-mark rights of the national of a country at war with Japan could not be exercised before the date of the outbreak of hostilities between Japan and the country of the national concerned, such rights shall be restored in accordance with the principles of paragraph 2 above for a period equivalent to the period of protection to which such national was still entitled at the date when his rights could not be exercised.

4. Any actions or procedures taken with respect to applications for registration of trade-marks in Japan by nationals of countries at war with Japan or with respect to demands for trial or appeals against rejection of claims for registrations of trade-marks in which such nationals comprised one or both of the parties, and on which final action had not been taken at the date of the outbreak of hostilities, shall on request of such nationals, be declared to be null and void and the status of such applications, demands for trials or appeals shall be considered to be the same as it was at the outbreak of hostilities. Similar provisions will be made in respect of applications, demands for trials or appeals made for and on behalf of such nationals after the outbreak of hostilities. No payment of any special fees shall be required for such reinstatement.

5. A national of a country at war with Japan who had duly filed in any country the first application for a trade-mark registration not earlier than six months before the outbreak of hostilities, or the date of loss of opportunity to file an application in Japan as the result of

DECLASSIFIED E.O. 11652 SEC. 3(E) AND 5(D) OR (E) NNDG # 775015

conditions growing out of World War II, shall be entitled, upon request, to apply for corresponding registration in Japan with a right of priority based upon the previous first filing of the application.

6. The Japanese Government shall adopt and strictly enforce appropriate regulations to prevent registration in Japan of marks or trade names which are confusingly similar to marks or names of foreign nationals which are used by such foreign nationals anywhere and are well-known in Japan.

7. Nationals of countries members of the United Nations shall be permitted to apply to the Japanese Patent Agency for the cancellations of the registrations of any trade-marks registered in Japan which so resemble marks or names previously used by the applicants and which are well-known in Japan, as to be likely to cause confusion or mistake or to deceive purchasers. The Japanese Patent Agency shall deal expeditiously with such applications and, if the facts presented by the applicants are found to be correct, shall cancel registrations of such trade-marks and allow registrations of the applicants' trade-marks if they so desire.

8. The Japanese Government is further directed to take positive steps to:

a. Assure that merchandise manufactured in and/or exported from Japan is not marked or advertised so as to suggest that it is made or processed elsewhere than in Japan.

b. Assure that goods made in or exported from Japan are not so marked or otherwise described as to convey a false impression of their quantity, quality or content.

9. Requests in accordance with paragraphs 2, 3, 4, 5, or 7 above may be made within one (1) year from the date of the legislation which will carry into effect the provisions of this memorandum. In addition, a reasonable time thereafter shall be permitted such owners to perform all legally required acts in connection with restoration, revalidation, use, and/or maintenance of their rights which may not have been performed since the loss of opportunity to exercise such rights.

10. The foregoing provisions shall apply, whenever applicable, to trade names and to commercial or corporate names or marks.

11. The Japanese Government will submit to General Headquarters, Supreme Commander for the Allied Powers for approval, not later than thirty (30) days from the date hereof, proposed legislation, cabinet orders, and/or ministerial orders setting out the laws, procedures, and practices intended to carry out the provisions of this memorandum.

MEMORANDUM FOR: JAPANESE GOVERNMENT

SUBJECT: Patent Applications

1. Reference the following memoranda for the Japanese Government from General Headquarters, Supreme Commander for the Allied Powers:

a. AG 130(22 Sep 45)ESS, SCAPIN 45, 22 September 1945, subject: Control of Financial Transactions.

b. AG 072(8 Mar 46)ESS/LE, SCAPIN 802, 8 March 1946, subject: Patent Rights and Restrictions Concerning Patent Rights.

2. The Japanese Government is advised that applications may be submitted to the Supreme Commander for the Allied Powers requesting approval for designated Japanese nationals to file patent applications in those foreign countries, the domestic laws of which allow Japanese nationals to obtain and hold patent rights therein.

3. The Japanese Government will not submit any applications for approval unless the invention concerned was made subsequent to 1 January 1946 and is one which it recommends as having definite potentialities of being worked or imported into the country to which the patent application is to be sent. Provided that if the applicant can establish that a person, legally entitled to hold the appropriate currency of payment, will pay the necessary fees and charges for obtaining the patent, then the potential value of the subject invention need not be taken into consideration.

4. On written approval being given by the Supreme Commander for the Allied Powers to the forwarding of a patent application to a foreign country, such approval may be presented to a bank licensed by the Supreme Commander for the Allied Powers, together with a request to remit the necessary fees in dollars or sterling to a designated addressee in the country in which the application is to be filed. After the Foreign Exchange Control Board has commenced operation, the request for remittance will be accompanied by certification by the Board as to availability of the necessary foreign exchange.

5. The term "necessary fees" in paragraph 4 above means reasonable fees and charges payable in respect of the acquirement of a patent when no substantial ex parte dispute or third-party hearing is involved.

DECLASSIFIED E.O. 11652 SEC. 3(E) AND 5(D) OR (E) NNDG # 775015

6. Actions likely to involve costs or charges other than "necessary fees" as defined in paragraph 5 above, must be approved by the Japanese Government and by the Supreme Commander for the Allied Powers before such actions are instigated.

7. Remittances to pay reasonable costs and charges for such actions as have been approved by the Japanese Government and by General Headquarters, Supreme Commander for the Allied Powers, may be obtained in the same manner as remittances to pay necessary fees.

8. All requests for remittances in dollars or sterling as in paragraphs 4 and 7 above will be accompanied by an amount in yen, equivalent to the dollars or pounds sterling to be remitted, at the official foreign exchange rate.

9. The Japanese Government is notified that any transactions, by way of assignment, license or otherwise, concerning the patent granted or to be granted on an application filed in a foreign country in the name of a Japanese National, must be approved by the Supreme Commander for the Allied Powers prior to finalization. Also, the instrument must be filed with the Fair Trade Commission in accordance with the terms of article 6 of the Law relating to the Prohibition of Private Monopoly and Methods of Preserving Fair Trade.

10. The Japanese Government is further notified that approval will be given to the finalization of such transactions only if the instrument contains a provision that any foreign currency to be paid as consideration, will be remitted, for the account of the Supreme Commander for the Allied Powers to a bank licensed by the Supreme Commander for the Allied Powers which will pay the patentee or applicant in yen.

11. Any patents obtained in foreign countries by Japanese will be subject to the domestic laws of those foreign countries.

12. Direct communication between the Japanese Patent Agency and the interested agencies of General Headquarters, Supreme Commander for the Allied Powers is authorized.

MEMORANDUM FOR: JAPANESE GOVERNMENT

SUBJECT: Procedures for Restoration of Patent Property in Japan to Allied Nationals

1. Reference is made to memorandum for the Japanese Government, file AG 072 (8 Apr 49)CPC/FP, SCAPIN 1990, 8 April 1949, subject, "Procedures for Restoration of Patents, Utility Models, and Designs to Allied Nationals," from General Headquarters, Supreme Commander for the Allied Powers.

2. The Japanese Government is hereby directed to provide the necessary procedures for revalidation and restoration, at the request of owners, of patents, utility models, and designs existing in Japan on the effective date of loss or granted thereafter on applications filed before that date, which were owned or had been applied for by Allied nationals and which have since lapsed, or have been sequestrated, or otherwise taken away from such owners without their free consent.

3. Patent properties will be restored in accordance with the following procedures:

a. General Headquarters, Supreme Commander for the Allied Powers will forward to the Board of Patents a signed "Request for Information." The Board of Patents will conduct the necessary investigation to determine the status of the patent property listed on above-mentioned form, its use in Japan during the period since effective date of loss, and the amount of any funds deposited or credited to the name of the owner as royalties. Names and addresses of all users, and names and locations of all depositories or creditors will be included in this report, as well as the date of and reason for termination of the rights of the owner. Reports will be submitted to General Headquarters, Supreme Commander for the Allied Powers in conformity with the following:

(1) "Request for Information"

(2) "Official Report of Status and Use of Allied-Owned Patent Property" together with "Certification"

(3) "Royalties Report"

b. General Headquarters, Supreme Commander for the Allied Powers will subsequently forward to the Board of Patents a "Demand for Restoration of Patent Property." The Board of Patents will make necessary changes in

c. General Headquarters, Supreme Commander for the Allied Powers will in some cases forward to the Board of Patents, in connection with above "Demand for Restoration of Patent Property," a "Demand for Extension of Patent Property Rights." Upon receipt of such demand, the Board of Patents will make necessary changes in its records to indicate extension of such rights beyond the normal expiration date.

d. The Board of Patents will forward to General Headquarters, Supreme Commander for the Allied Powers a "Certificate of Restoration" setting forth actions taken under paragraphs b and c above. Such certificate shall indicate the normal date of expiration, the extended date of expiration, if any, and shall bear official witness of the fact of restoration of patent property to its owner. In order to maintain validity after restoration, the Board of Patents will state on this certificate amount of annual fees due from the owner and the date payable, for the first year following restoration.

MEMORANDUM FOR: JAPANESE GOVERNMENT

SUBJECT: Procedures for Restoration of Patents, Utility Models, and Designs to Allied Nationals

1. The Japanese Government is directed to provide the necessary procedures to implement the provisions of this memorandum relative to patents or patent applications previously owned or applied for by Allied nationals and to certain new applications for patents to be filed by Allied nationals in the future.

2. In this memorandum the following definitions and explanations are applicable:

a. "Allied national" means a person whose property was treated as enemy property by the Japanese Government, or whose property rights lapsed owing to the existence of hostilities between Japan and the country of that national.

b. "Effective date of loss" applicable to the patents or applications therefor of Allied nationals means the date of entry of the country of that national into war with Japan. When the date of entry into war is clearly inapplicable to the case of a particular Allied national, as defined above, the "effective date of loss" shall be interpreted to mean the actual date of sequestration of his patent or the date on which his patent rights lapsed.

c. In paragraph 5 hereof the phrase in which the term, "bona fide manufactured, used, sold, or leased," is used, is defined to mean:

(1) Manufacture, use, sale, or lease of an invention which was made independently of the applicant for the patent or the person from whom he derived title, or,

(2) Manufacture, use, or sale which commenced before the first filing of an application by the person to whom a patent is subsequently granted.

3. a. Patents existing in Japan on the effective date of loss or granted thereafter on applications filed before that date, which were owned, or had been applied for, by Allied nationals and which have since

DECLASSIFIED E.O. 11652 SEC. 3(E) AND 5(D) OR (E) NNDG # 775015

lapsed, or have been invalidated or sequestrated or otherwise taken away from such owners without their free consent, shall be revalidated and restored upon request therefor made by the Allied national owners. With respect to such requests the following provisions shall apply:

(1) The owner of a patent so revalidated and restored shall be entitled to all the rights and privileges to which any national of any country is entitled under the Japanese patent law existing at the time of such restoration.

(2) Payment of any special or regular fees that may have accrued to the Japanese Government with respect to such patents from the effective date of loss to date of such restoration shall not be required.

b. At the request of the Allied national owner, a period of duration of any Japanese patent owned by him on the effective date of loss or granted thereafter on application filed before that date, shall be extended beyond its normal expiration date for a period equal to that from the effective date of loss to the effective date of restoration or to the normal expiration date of the patent, whichever is the earlier. Such extension will only be granted, however, provided such owner waives all claims to royalties for use of the patent from the effective date of loss to the effective date of restoration and remits to the Japanese Government any funds received by him or credited to him in a blocked account as royalties for such use.

c. If an Allied national requests restoration of his patent under paragraph 3a above, he may elect to receive royalties for use of the patent during the period from the effective date of loss to the effective date of restoration or to the normal date of expiration, whichever is the earlier, in lieu of an extension of term as provided in paragraph 3b above.

d. Applications filed by Allied nationals for patents in Japan which were pending on the effective date of loss and on which patents were not issued shall, upon request of the Allied national applicant, be reinstated as pending applications in the Japanese Patent Office, and shall be processed in accordance with law. Any patents thereafter registered on such applications shall be treated in a manner which conforms generally with applicable provisions of 3a above.

4. Nationals of countries at war with Japan who had duly filed in any country the first application for patent not earlier than twelve (12) months before the effective date of loss shall be entitled to apply for corresponding rights in Japan with rights of priority based upon the previous first filing of the application.

DECLASSIFIED E.O. 11652 SEC. 3(E) AND 5(D) OR (E) NNDG # 775015

5. Third parties who had bona fide manufactured, used, sold, or leased the subject matter of any Japanese patent obtained under the provisions of paragraph 4 hereof shall not be liable for infringement on account of such use, but should be enabled to continue such use after the publication of the application under the terms of a non-exclusive license which the Allied owner shall be required to grant on terms providing for reasonable royalties.

6. The Allied patent owner will be afforded a period of one (1) year, commencing 1 May 1949, within which to make his request for revalidation and restoration, and for acquiring such priority rights as defined in paragraph 4 above, and a reasonable time thereafter to perform all legally required acts in connection with restoration, revalidation, working, and/or maintenance of his rights which have not been performed since the effective date of loss.

7. The provisions set out above with respect to patents will be applied insofar as applicable to utility models and to designs.

8. The Japanese Government will take necessary steps effectively to implement the above instructions.

9. The Japanese Government is further directed as follows:

a. To provide adequately for the full disclosure of the invention which is the subject of a patent or patent application, without regard to intent of the patentee or applicant

b. To take positive steps for prohibiting the maintenance in secrecy of any invention which is the subject of a patent or patent application.

10. The Japanese Government is further directed to invalidate all provisions of the "Wartime Law of Industrial Property" and supplementary legislation pertaining thereto, which are now in force.

11. The Japanese Government will submit to General Headquarters, Supreme Commander for the Allied Powers for approval, not later than twenty-one (21) days from the date hereof, proposed legislation, Cabinet orders, and/or Ministerial orders setting out the laws, procedures, and practices intended to carry out the provisions of this memorandum.

Re Patent Registration

Dear Mr. Yamamoto:

Reference is made to your letter, 25 November 1948, to Colonel Lawrence E. Hunter, Aide-de-Camp to General MacArthur.

It is noted that your patent request No. 9755 of 1948 was carefully considered by the officials of the Japanese Board of Patents, rejected for cause, and that on receipt of a further appeal a reply was sent to you in which the reason for rejection was again explained.

After a study of the reasons for rejection of your application for registration, and careful consideration of your letter, General Headquarters, Supreme Commander for the Allied Powers, Civil Property Custodian believes that the officials of the Board of Patents gave full consideration to your claim of invention, and that their decision to reject your patent request was not prompted by any other motive than the best interests of Japan. The letters of rejection from the Japanese Patent Office are returned herewith.

MEMORANDUM FOR: The Board of Trade (Boeki Cho), Ministry of Commerce and Industry, Tokyo

SUBJECT: Infringement of Patent by Export of Cigarette Lighters

1. H. Negbaur and Company of 230 Fifth Avenue, New York 1, New York, United States, has notified General Headquarters, Supreme Commander for the Allied Powers that it is the registered proprietor of U.S. Design Patent No. 151,946 and will shortly be issued a patent of invention in the United States. The subject of these industrial property rights is the cigarette lighter illustrated in the attached leaflet.

2. H. Negbaur and Company also alleges that a number of exact copies of this lighter originating in Japan have been imported into the United States and that the Company's rights are thereby infringed.

3. In the event that any further order for these lighters is received for approval, and the contract is between a Japanese exporter and a United States importer, the Board of Trade will notify the purchaser that the existence of the United States property right has been drawn to its attention. The Board of Trade will also seek confirmation of the order in the light of this fact.

4. In the event that the order is confirmed, the Board of Trade may approve it but will notify H. Negbaur and Company that it has done so and will advise them of the name and address of the purchaser and the number of items subject of the order.

Letter to Mr. Masana Tsuda re Application to U.S. Patent Office for Registration of Invention

Dear Sir:

Reference is made to your letter, 11 December 1948, to the Supreme Commander for the Allied Powers, in which you request permission to apply to the United States Patent Office for registration of your invention of a special automobile brake.

While the laws of the United States permit the Patent Office to accept applications from Japanese nationals, the policy of the Supreme Commander for the Allied Powers relating to transmission of such applications and the dollar payments of fees has not been finalized. As the matter is currently under consideration it is suggested that you defer your application to the United States Patent Office for the present and that you contact this office again in about sixty (60) days.

In the meantime, it is suggested that you initiate proceedings to obtain a Japanese patent on your invention.

Yours very truly,

The Coca Cola Export Corporation
APO 328

Dear Sirs:

Reference is made to letter, 9 October 1948, from General Headquarters, Supreme Commander for the Allied Powers, regarding reported infringements by Japanese firms of various trademarks registered in Japan by your company.

The Japanese Government has reported as follows:

"The officials in charge who had visited each of the alleged infringers issued strict warnings in pursuance to the purport of the reference to those who were considered to fall under the penal regulations provided in the Trade-mark Law."

"In response to these warnings, the representative members of such firms unanimously pledged to stop trade-mark infringement and submitted testimonies addressed to the Director of the Administration Bureau, Ministry of Finance."

"This being the first time, we decided indictment or other punitive measures not to be taken, toward them except strict surveillance against future infringement."

"As to the use of Coca-Cola bottles for packaging sauce, shoe polish, machine oil or other materials which can not likely be misidentified for Coca-Cola, we are of opinion that such acts do not constitute the trade-mark infringement. Nevertheless officials in charge brought their attention to the fact that Coca-Cola bottles are solely for packaging Coca-Cola and supposed to be handled by Occupation Personnel exclusively."

"Further steps taken by the Japanese Government shall be reported on all such occasions."

The individual reports disclose that several thousand bottles have been delivered to your company as a result of these warnings.

MEMORANDUM FOR: Chairman, United Kingdom Reparations and Restitution Delegation

SUBJECT: Patent Property of Imperial Chemical Industries, Limited (British)

1. Reference is made to memorandum for General Headquarters, Supreme Commander for the Allied Powers, Civil Property Custodian, file CPC/121/22, 6 December 1948, subject, "Patent Property of Imperial Chemical Industries Ltd. (British)," from United Kingdom Reparations and Restitution Delegation.

2. The Japanese Board of Patents was able to locate the patent applications in its files which previously were reported erroneously as belonging to Japanese nationals.

3. The oral explanation for the error is that:

a. During the wartime bombing, all of the Patent Office records were removed to the country, and in the course of the moving all the files became disarranged.

b. All patent applications are given consecutive numbers in the year in which they are filed. With regard to these specific applications the year of filing was unknown at the time original request for a report was made.

4. A copy of the written report submitted is forwarded, showing that the applications were made in the name of Imperial Chemical Industries, Limited, and the disposition of same. The report also states the disposition of the application for registration of a utility model in the name of Benjamin Charles Carter. Previous failure to report correctly on the latter was apparently caused by a failure to search the file on utility model applications as well as patent applications.

Re Infringements of Trade-marks, Trademarks and Copyrighted Properties in Japan

Dear Sirs:

Reference is made to your letters 25, 28, and 30 October and 9 November 1948, inviting attention to infringements by Japanese firms of your trademarks, trade names, and copyrighted properties in Japan.

A directive has been issued to the Japanese Government requiring that necessary action be taken to prevent the continuance of these infringements.

The Japanese Government has been directed to file a detailed report of its action taken with reference to these infringements. A copy of this report will be forwarded upon receipt.

The lapel button referred to in your letter of 28 October 1948 cannot be considered as an infringement by Tokyo Sewing Machine Cooperative Society of your trademarks. The evidence which you have submitted does not show any similarity to your distinctive trademarks.
