PRICE TWO CENTS

TENNIS TOURNAMENT STARTS SEPTEMBER 4

Entries Close September 3

The Narberth Tennis Association will start its Eleventh Annual Tournament on Saturday afternoon, Septemper 4 at 2 o'clock. Playing will continue straight through the afternoon and all of Labor Day-which is the following Monday, September 6.

The Tournament Committee, composed of W. Cowin, W. R. D. Hall and W. J. Kirkpatrick, announce that entries for men's singles and doubles will close on Friday, September 3 at 6 P. M. and should be given to W. Cowin.

Entrants not able to be present September 4 must be prepared to play on the morning of September 6 or be defaulted.

Ladies' Singles and Doubles and Mixed Doubles Later.

The Ladies' Singles and Doubles and the Mixed Doubles will be played as soon as possible after September 11. Entries should be given W. Cowin before 6 P. M. September 11.

The indications are that this will be the best tournament the association has ever held. There are a number of new members who play the game exceptionally well and Narberth folks will certainly be treated to some excellent tennis beginning with Saturday afternoon, September 4.

They're Getting Ready.

Just how keenly the members are anticipating the contest may be readily appreciated by lingering around the neighborhood of Essex and Elmwood avenues any of these fine afternoons-that is, when it doesn't rain. "Prof." Snyder and Charles Nevin

were noticed the other afternoon mixing it up in a fast game. Our sporting editor reports seeing

Fred Warner "sneaking home" on an early train Monday, and it is even rumored that Bill Kirkpatrick is taking no chances and will go into a combination vacation-training camp at one of the Jersey seaside resorts for two weeks before the tournament starts.

NARBERTH MAY HAVE CARRIER SERVICE FOR MAIL DELIVERY.

Conditions Are Right and Chances Are Good-If the People Want It and Say They Want It.

Postmaster Haws has been busy obtaining information as to whether or not Narberth can obtain carrier service for the delivery of mail.

Last June the postmaster wrote the proper authorities at Washington, asking whether or not carrier service would be authorized if the receipts at the local office exceeded \$8000 this

year.

Biggest and Most Exciting Game of the Season Will Be Played This Saturday

NARBERTH AND DUN & CO. IN DECIDING CONTEST

What will undoubtedly be the most exciting, most interesting and most hotly contested base ball game of the Main Line League this season will be played in Narberth next Saturday.

Our local team will meet the R. G. Dun & Co. team for the fifth and last game of the season-that is, the last game between these two rivals. In the four games played Narberth and Dun & Co., have split even. Dun & Co. won the first two; Narberth won the last two.

Some game this coming Saturday!

You'd better be on the grounds early-the game starts at 3.30-for there sure will be a crowd on hand. It will be a base ball contest the like of which has not been seen in our town for many a day.

The two teams are the unquestioned leaders in the Main Line League. Narberth has won 15 games and lost 3, and leads in the race for the championship. Dun & Co. has won 11 games and lost 6, and is in second place. Narberth fans say that our local boys are going to win the league race, and meet Cheltenham for the Philadelphia Suburban Championship. Dun & Co. rooters say that they still have a chance; that they are going to prove it by winning on Saturday. The visitors will have to win this game or their chance will be gone.

Gilmore vs. Deegan.

Gilmore and Deegan will, in all probability,

be the opposing pitchers. These two stars have fought it out in each of the four games. It is nip and tuck between them, and you'll certainly see a battle royal on Saturday if they are in the boxes.

A glance at the scores of the four Narberth-Dun & Co. games will show you how closely the two teams are matched:

| Narberth 5 | Dun & Co 6 |
|------------|------------|
| Narberth 0 | Dun & Co 1 |
| Narberth 1 | Dun & Co 0 |
| Narberth 4 | Dun & Co 3 |

Alexander Isn't In It.

Don't waste time thinking about Alexander or worrying about Connie Mack and his problems. Come out Saturday and you'll see as good a game as was ever played at Broad and Huntingdon or Shibe Park.

Think of it-four games, one 5-6; one 0-1; one 1-0, and the last, 4-3. The Narberth 1-Dun & Co. 0, was a ten-inning game, and the Narberth 4-Dun & Co. 3, went 12 innings before the deciding run was scored.

Everybody.

Postpone that week-end trip; drop the tennis racquet; let the grass go! But don't miss this game between Narberth and Dun & Co. This coming Saturday afternoon at 3.30, on the Narberth grounds, Narberth and Price avenues.

"Ye Gods"—as the 17-year-old hero in Booth Tarkington's story, said-"but it'll be some game!"

COUNCIL ACTS ON

NEW PARK SEWER

Settled Monday Night.

Final action was taken on the question of financing the construction of a sewer through "Narbrook," at the regular meeting of Councils held Monday night.

This matter has been pending before Councils for sometime, they having taken the position that it was unwise to expend public funds for sewers in absence of actual need. On the other hand, the Park Development Committee has argued that this disadvantage would be more than offset by the greater economy incident to construction while the other work is in progress and before roads were paved and trees and shrubs planted. These difficulties have been met and overcome to the satisfaction of both bodies by an arrangement by which the Park Committee agrees to construct the sewer at its own expense in accordance with plans and specifications furnished by the borough engineer and under the latter's supervision, the committee to be reimbursed by the borough when twelve houses have been completed, thus demonstrating the need of a sewer.

This arrangement is a fair and equitable one and Councils are to be commended on the adoption of a plan which safeguards the expenditure of public funds, while at the same time assisting in a proper manner a project which promises such a benefit to the borough.

The Park Development Committee's plan was set forth in the following brief which was presented by Mr. Loos, chairman of the committee:

Gentlemen of Narberth Council:

As representatives of the Narberth Civic Association and members of its Park Development Committee, we have come before you to ask your active co-operation in the fulfillment of our plans. We are not here as advocates of any private interests, nor to secure special privileges for the favored few. Our efforts, like those of your own honorable body, are actuated solely by a desire to promote the welfare of the borough in every possible respect, not by any selfish nor ulterior motives. The membership of the Civic Association includes every resident of Narberth; all are members by virtue of their residence, and may become active members by payment of a nominal fee. Its activities are for the benefit of all alike. It is needless, gentlemen, to recall to your memories the many things accomplished by the Civic Association for the improvement of the borough. It is for the advancement of the most ambitious and arduous of our undertakings that we appear before you tonight. We think you will concede that the gentlemen who subscribed to the building lots in "Narbrook" in order that the entire community might be presented with a beautiful park and location for an out-door theatre, were public-spirited in the highest degree. It was an untried experiment in which they were investing their money, and they entered into it, not only for the purpose of reserving an open air space in perpetuity for the public, but to reclaim an unsightly locality, that gave an unfavorable impression to every passer-by on the trains of the Pennsylvania Railroad. While this matter is one which would ordinarily come within the domain of public officials and be a proper subject for the expenditure of public funds. it is, as you know, being done by private subscription and without cost to the borough. We have now reached the stage when it is of the highest importance that a sewer should be constructed through this tract, and, from the Automobile license tags for 1916 standpoint of public economy, to take will be made of a special steel that care not only of this immediate terriwill not break the enamel when bent tory, but also future development and will be of orange color with above it and surrounding it, thus black letters and figures, according avoiding the necessity of later deto an announcement by State High- struction of shrubs, grass plots, streets, etc., which would result from The State is asking for bids for the construction of the same after the park work is completed. The con-000 chauffeur badges, the specifica- struction of sewers in our borough tions for the license plates being ma- has always been recognized as a pubterially different from those of the lic duty on the ground of necessity (Continued on Second Page)

The fourth assistant postmaster general wrote back that the establishment of delivery service was not wholly dependent on the amount of postal business transacted. He wrote "The department has aufurther: thority to establish what is known as experimental village delivery service at towns having post offices of the third class or of the second class that are not entitled to city delivery service, but such village delivery will not be established at any town which is not provided with sidewalks, crosswalks, street lights, street signs, house numbers and other civic improvements. If these improvements have been provided in the town of Narberth, and it can be shown by petition or otherwise that the village delivery service is generally desired by the residents of the town, the matter will be given careful consideration by the department."

Narberth has all the civic improvements that are named as conditions to be met, and, taking the department at its word, has but to make known its desire for this service to receive the favorable consideration of the officials who are empowered to inaugurate this ed as yet whether or not Narberth accommodation in offices of Narberth's class.

DOES NARBERTH WANT CAR-RIER SERVICE?

Let's hear from our readers whether or not they wish to start a petition.

SCHEDULE FOR SATURDAY.

Dun & Co. at Narberth. Wayne at Overbrook. Gulph Mills at Paoli.

LIGHTNING FREAK NEAB CHESTNUT AND ESSEX

While the severe electrical storm last Sunday afternoon, fortunately, did no damage in Narberth, it performed a freakish stunt with a tall chestnut tree between Chestnut and Merion avenues, east of Esssex. The tree was struck near the top and pieces of wood were scattered over several of the nearby lawns.

One piece, picked up by one of the residents, was about 3 feet long, 4 inches wide and 1 inch thick. From one end to about the middle the wood was split straight along the lines of the grain, giving it a peculiar fan-like resemblance.

NARBERTH-CAPE MAY GAMES UN-DECIDED.

Manager Walzer says it is undecidwill journey to Cape May to play return games with Humphries' boarders on August 24 and 25. The fans who were making plans to accompany the team on this trip, better get in touch with Mr. Walzer before making definite arrangements.

PRESIDENT ROSE **DEFENDS UMPIRES**

Says They Are Good

With some surprise, and still greater disgust, we have read, and in vain tried to discover a reason for the article, which appeared in the August 5th issue of Our Town, under the head of "Poor Umpires in the Main Line League."

We are not averse to criticism. Our only requisition of the critic is that he possesses a slight idea of good judgment and a small amount of common sense. A microscopic examination of the article in question fails to reveal the remotest trace of either.

This wail of anguish, coming as it does, at a time when the home aggregation with half a team in the field, slips a cog in its chain of victories, betrays the presence of a poor loser. The object of this letter is to acquaint the writer of the article in question with a few facts, which, in his mad rush into print, he has sadly neglected. The umpires in the Main Line League are the best obtainable for the price available. If we were to believe all we see in the newspapers, it would seem that the um-

(Continued on Third Page)

HOW ONE NARBERTH CITIZEN IM-PROVES VACANT LOTS.

There are a number of vacant lots within the borough limits which are grown up in grass and weeds, and instead of presenting a pleasing appearance the reverse is the case. Buckwheat, however, has transformed the vacant lot on "Shoemaker Hill," Stuart and Conway avenues. just back of Narbrook Park, into a beautiful, snowy white field. The plants are now in full bloom, and on close examination the buckwheat can be seen in various stages of development from the blossom in the bud to the full blown flower and then the green fully-formed triangular grain.

Buckwheat grows very rapidly and does not require a rich soil. It will grow anywhere and is one of the best natural weed-killers known.

EDITORIAL NOTES

"THE LAST CALL"

OUR TOWN will gladly print any news item about any subject that is of interest to Narberth folks, but in order to meet the printing schedule, all "copy" -manuscripts-must reach the editors by 6 P. M. Monday each week.

MR. SPENCER ADDRESSES THE CITIZENS OF NARBERTH.

The man who, expending his enerminding his own business, is blind to the fact that his own business is made possible only by maintenance of a healthy social state, and that he loses arrangements. Where there are many like-minded with himself-where, as a consequence, offices come to be filled swayed by demagogues—where bribery vitiates the administration of law and makes fraudulent state transactions habitual, heavy penalties fall on the community at large, and among others, on those who have thus done everything for self and nothing for society. Their investments are insecure; recovery of their debts is difficult, and even their lives are less safe than they would otherwise have been. -Herbert Spencer.

WHAT IS A WEED?

weed is suggested. The author of this and plants. That ended it.

ASSESSMENTS. To Editor of Our Town:

Why this agitation about increased assessments and decreased tax rates? Why does the gentleman from Haverford avenue want an increased income far in excess of our borough

needs? From the majority of property owners, does it seem that the borough is in financial straits and needs a large surrounding the park before payment sum of money to pay current debts or money to meet future obligations? This is not a fact. The floating debt of the borough is comparatively small and the additional income needed is only about \$5000 per annum. It would seem that there was considerable agi-

tation over a question that, in my mind, is normal, as a very small increase or an equalization of assessments and an increase on vacant lots would supply all the necessary monies.

Our Haverford avenue friend and the Burgess are very much interested in the Narbrook Park project (philanthropists?), and are making every effort to saddle the borough with the cost of a sewer, electric lights and fire plugs in streets, which, at certain points, are too narrow and do not comply with an ordinance designating the width of the roadways. Unless buildings are erected, why a sewer? If I remember correctly, did not one of our promoters pay for his own sewer in a street that was not dedicated to the borough?

Our Haverford avenue friend is anxious to have that avenue repaired (it certainly needs it), but I am given to understand that certain properties along this avenue have their curbs and pavements on the roadway.

Why should money be expended on roads where owners take up part of the roadbed for their own profit?

For years the taxpayers have been building roads for the benefit of promoters. Why not make new operators build their own roads in accordance with the acts of Legislature?

Mr. Burgess suggests the appointment of committees to make or assist in the assessment. Mr. Burgess, begies wholly on private affairs, refuses ing an attorney-at-law, may be familto take trouble about public affairs, iar with the laws, but it is the opinion pluming himself on his wisdom in of this humble layman that assessments can only be made by the assessor.

Within the past three or four years the Councils of the city of Philadelall around by defective government phia made an error along these lines. The borough or city of Tamaqua endeavored to go beyond their rights and were enjoined from collecting by political adventurers and opinion taxes on assessments suggested by a committee.

We, of course, are all liable to make errors, but why increase our assessments in order that the county and State may receive an increased revenue or create a surplus fund (which would not comply with the law), in order to help seemingly private en-C. A. S. McClellan. terprises?

"OF ALL SAD WORDS." ETC. Editor Our Town:

A couple of months ago, some one,

ment in this tract warrants a departure from the rule on the ground of economy and to avoid the necessity of subsequently interferring with completed improvements; that the people of Narberth have already a vested intent in the property, thus making it a public enterprise; and finally, that

we offer to guarantee that at least ten houses shall be erected on the tract need be made by the borough. If ten houses in various parts of this tract were just being completed would it be contended that they were not entitled to sewer connection, or that they should be left to the antiquated and unsanitary resort of cess pools? If not, is there any further reason for refusing your support and co-operation in this matter, when we offer to construct a sufficient number of houses to demonstrate the need for a sewer, and agree that payment by you shall be made only when this

offer is performed? We now request immediate action' by you in order that there may be no further delay in beginning and completing this part of the work. We now ask you gentlemen to exercise your powers and resources to help in this part of the development. We ask you not to place us in the same category with an individual operator, but to keep always in mind the fact that the success of this enterprise will place Narberth in the forefront of enlightened and progressive communities, and enhance the value of every property within its limits. It is for these reasons that we ask you to depart from your usual procedure of not providing sewer facilities in advance of the commencement of actual building operations. The circumstances under which this development is proceeding are very different from those attendant on a private enterprise. We have a fixed sum for carrying on the work. It is the duty of the committee in charge to expend this money to the very best advantage, and it is necessary, from every point of view, to install the sewer, or at least that portion of it the mind needs its play spell as well which traverses the park, before the as the body. The trite adage, "All roads are surfaced. As it is the duty of the borough to provide sewer facil- boy," is as applicable to the grownities for residences within its limits, up boy as to the one young in years. and you would ultimately be called In fact, as age comes on one needs upon to pay for such installation out more and more of play, of something of borough funds, we argue that it to interest. So if you have not a fad, would likewise be more economical a hobby, get one. Put your heart into for you to have the work done at this it, and you will find it will well repay time.

We understand the situation to be that there is a balance of \$9000 remaining of an amount authorized some years ago for sewers, for which bonds have not been issued. We respectfully submit for your consideration that the necessary amount of \$4600 needed to drain the lots of Narbrook Park be raised by issuing bonds at this time-or, if that is not feasible, by issuing bonds for \$3500, the amount required to complete the sewer within the park limits, leaving the Conway avenue sewer for a later We ask you to consider this issue. proposition in a broad and liberal presumably The Community Club, laid spirit-the same spirit that actuated out a "horseshoe" at the south side the subscribers when they invested cently issued from the Department of of the station in which were placed \$50,000 in an untried enterprise-and, and neatly arranged a lot of shrubs if need be, strain a point to help this enterprise for the common good.

What promised to develop into an After an extensive discussion of the weed, says: "A weed has been defined attractive garden now looks more like matter, Council passed, without a disenting vote, a resolution embodying

HOBBIES ARE USEFUL.

They Make Men Enjoy Life and Increase Intelligence.

What is your hobby? If you haven't one, you ought to have. Everyone needs some occupation, something which he enjoys beside his regular employment. Some need a hobby that takes them to fields and open air. Others have more need of something for the quiet at home, of den or library. One man takes a special interest in animals, birds, or flowers. It may be the study of moths or butterflies. We know a man whose occupation was sedentary and kept him to his chair all day, who had a work bench and made beautiful tables, chairs, cabinets and other furniture for his home.

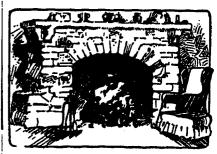

A club in this city is making a study of fishes, snails, and other live things to be found in the water. Their aquariums furnish hours of delightful observation. They show you fish of the most beautiful colors, others so small one can scarcely see them without a magnifying glass. There are mushroom hunters and students of this table delicacy. Many are out every fine holiday, learning about the birds. It is a surprise to the uninitiated to discover how great a variety of winged friends we have. What is more delightful than to make friends of them. so they will come and eat from your hand? There are the collectors of curiosities, old coins, postage stamps, and many other oddities.

A hobby must interest you. It must take your mind from worry and fill made a visit to Narberth last week. it with pleasant thoughts. An hour spent in pursuit of a favorite hobby gives renewed strength for several not take all your attention. There is scarcely any hobby-or fad if you like -well followed but has an elevating influence. It enlarges the mind; and work and no play makes Jack a dull vou.-Milwaukee Journal.

CANNED VEGETABLES.

Many housewives who always put up preserves, fruits, and jellies never think of the variety they might add to the family's winter diet by canning certain vegetables. The economical housewife, says one of the canning experts in the U.S. Department of Agriculture-who specializes in putting up sweets and desserts does not usually realize that for luxuries she is spending time, money, and labor, part of which, at least, might profitably be used on the less popular vegetables, which possess greater food value. Cauliflower, a vegetable which, even

when it is in season, is overlooked by many housewives, may be canned and

THE FIRESIDE By Lady Narberth

Mr. and Mrs. James G. Foote, of Montgomery avenue, entertained a house party of Narberth folks over the week-end at their summer home at Pine Peach, N. J. The party jucluded Mrs. H. McKee, Miss Ethel Magill, Miss Beatrice Lough, Miss Marion Brill, Miss Marie Loughney, Earl Dickey, Vernon H. Fleck, Irwin T. Ward, Homer McKee and Newton Compton.

Dr. Edwin P. Towne has returned from Mifflinburg, Pa., where he has been spending a vacation with his family.

Mrs. James G. Boyle, with her son Junior, of 198 Woodbine avenue, and Mrs. Lewis F. Entrekin and daughter Eleanor, of 236 Iona avenue, are spending the month of August at Cape May, N. J.

Mrs. F. Dinwiddie Walker, who is spending the summer at Chelsea,

Mr. and Mrs. Henry J. Seibold and Mr. L. Eastwood Seibold, of Girard hours of everyday labor. It gives food Farms, were the guests of Mrs. R. G. for thought while at work that does Seymour and Miss Mabel Seymour, of Woodside avenue, last Sunday.

> There is quite a colony of "summer bachelors" in Narberth these days.

Miss Lulu Hitchcock is visiting her aunt, Mrs. C. R. Blackall, of Woodside avenue.

Miss Maizie Simpson, of Essex avenue, leaves next week for a tour of the New England coast resorts.

Miss Alice Thompson, of Pitman, N. J., spent last week with Miss Caroline Irwin, of Essex avenue.

Miss Evelyn Harris is spending her vacation at Ocean City.

Miss Mary Rowand has returned after an extended visit to Ocean City.

Messrs. W. W. Dennis, David Stickney, Fletcher W. Stites, Fred. H. Walzer and Earl F. Smith furnished the extra music at the twilight services last Sunday evening. Their selections were very well rendered.

Mr. Norman Kriebel is spending three weeks at Ocean City.

Next Sunday evening the Y. M. C. kept for winter use by following this A. Glee Club will furnish the special music for the twilight services.

Rally In The Third

While Wayne was very kindly hand-Narberth was defeating the Gulph Mills Traveling team by the score of

4-3. The score itself does not indicate how much the champions outplayed their rivals. Errors on our part at critical times helped the visitors considerable.

Gulph Mills started in the first inning as if they were going to put one over on us. But at that the one run was practically a gift. Ruser was hit by a pitched ball, stole second and was advanced to third on Smith's infield out, and in trying to catch him off Simpson hit Ruser in the back with the ball, which enabled him to score.

Narberth didn't make much of a showing in the first two innings, except for Turner's two-base hit in the second inning after two were out. But he was out going to third, although he claimed there had been a balk.

Mayer was hitched up wrong in the third inning for Barker at last lost his jinx and cracked a nice single to right field. Simpson sacrificed him to second, and then Walter Humphries came across with a fine double to left, which enabled Barker to score. Ensinger was out via Smith to Cook. Stites was the next one to face Mayer, and he banged one out over the left fielder's head for four sacks, which also scored Humphries.

Narberth added one more in the fifth inning when Barker made his second single and promptly stole second. Ruser's wild throw of Simpson's grounder put Barker on third and Simpson on first. Narberth then put one over on the New Year Shooters by working a double steal which added one more to our score.

Gulph Mills threatened to even things up in the ninth inning, when they scored their third run of the game, but a perfect throw by Gilmore to Stites on Cook's single caught Smith at third base, which pulled Ensinger out of a rather bad hole. The score:

CONSIDER THIS.

You are ashamed to tolerate a bedbug or body louse. One fly is more loathsome and dangerous than a hundred bedbugs or body lice.

A PROOF OF TRUE LOVE. Little Eda one day turned to her mother, who was a widow, and said: "Mamma, do you really and truly love me?"

ake Paupac Bathing at
