Commons Expected To Vote on Budget At Middle of Week

Prorogation at Ottawa Probably Will Come Within Two Weeks After Members Have Disposed of Financial Items of Business.

Ottawa, May 16.—(Canadian Press)—The vote on the budget in the House of Commons is expected to take place about Wednesday next. It is understood that the Prime Minister has expressed a desire to have the debate ended before Thursday and the Government speakers will be regulated accordingly. Hon. Mackenzie King, Leader of the Liberal Opposition, and Hon. T. A. Crerar, Leader of the Progressives, have yet to take part in the debate, however, while there are said to be seventeen other speakers on the Opposition side who have made known their intention of taking part in the debate.

If the vote on the budget comes on Wednesday or Thursday prorogation is expected within two weeks thereafter.

SINN FEIN ATTACKS MADE IN ENGLAND

Violence in Liverpool and London Area

Liverpool, May 16.—Six houses in widely-separated parts of this city were raided and set afire by unidentified parties last night. The occupants of every house thus visited have relatives serving in the Royal Irish Constabulary. The inmates were in some cases gagged and bound, the furniture was drenched with kerosene and set afire, and in some instances the helpless people were left to the mercy of the flames by the raiders, who fled in automobiles.

The raids were in all ways similar to those made in London districts and in this city Saturday night.

Seized By Throat.

One house that was raided was occupied by a widow and her daughter. The latter opened the door when there was a knock and she was seized by the throat by the intruder. She struggled and tried to get away, but the intruder held her by the throat and she was unable to utter a sound.

In another house three sisters who were overpowered by a dozen men who displayed revolvers and threatened to shoot them if they stirred.

Faithful Dog.

A terror attacked the raiders when they assailed his seventy-seven-year-old master and prevented them from setting fire to the house. When the raiders ran, the dog chased them, but was shot.

London Area.

London, May 16.—Acts of violence, involving bloodshed and which the police attribute to a Sinn Fein campaign to terrify and cause alarm, were reported Saturday night in various suburbs and also at St. Albans, twenty-one miles northwest of London.

Several suburban towns were visited by armed men whose primary object appears to have been arson, but who, when interrupted, resorted to shooting. Three persons were wounded, one, probably fatally. A man and his wife in St. Albans were shot.

Raid.

Following the incendiary attacks police raided and searched various places in London connected with the Sinn Fein organization. These included the headquarters of the Irish Self-Determination League. A quantity of documents was seized and one arrested.

(Continued on page 12.)

POLITICAL MOVE IN SASKATCHEWAN

Organizers Are Proposing Independent Action

Saskatoon, May 16.—A provincial convention of supporters of independent provincial political action will be held in Saskatoon May 31. At preliminary meetings held during the last few days the hope was expressed that two representatives would be present from every constituency in the Province and it was stated that more than half the ridings in the Province have now been organized by the independents.

It was stated by the leaders of the movement, among whom is Harry Turner, a soldier, M. P., that the aim of the Independents was to supplant party government by a business administration, free from party and divided from the old business of patronage in any form. Planks of various kinds have been suggested, but it was felt that nothing in the way of a platform could be suggested until a provincial convention expressed its approval or disapproval of the idea of a central organization. Something in the way of a platform will be formed, or the organization may simply act as a central clearing house for the assistance of independent candidates running at large.

SINN FEIN PAPER SAYS LLOYD GEORGE MADE AN OFFER

Dublin, May 16.—Premier Lloyd George, says The Freeman's Journal to-day, offered to meet Eamon De Valera or other Irish "republican" leaders without conditions. Valera, adds the newspaper, replied that if the Prime Minister made such a statement public, he, Valera, would give a public reply.

Liquor Sale Delayed; New Heavy Taxes Hurt

Commencement of the Government sale of liquor in British Columbia is now delayed indefinitely, it was learned this afternoon.

Col. W. N. Winsby, of the Board, returned yesterday from his trip through Northern British Columbia. During this trip he made no appointments and leased no premises for warehouses or permit offices. He went as far east along the line of the Grand Trunk Pacific as Prince George. He gathered all information possible, however, on which the Board will be able to make appointments and lease sites.

WILLIAM FERNIE CALLED BY DEATH

Will Be Long Remembered as Generous Philanthropist

The passing at midday yesterday of William Fernie, of 2227 Oak Bay Avenue, removes one of the best known pioneers of this city, and will leave a gap with many old friends. He was widely known for his generosity to many institutions.

Came of English Stock.

Born in the county town of Kimbolton, Huntingdonshire, England, Mr. Fernie belonged to a good old English family, his father being the private medical practitioner to the Duke of Manchester. A life of ease and comfort, however, held no attractions for the adventurous boy, who left home at the age of sixteen years and returned again to the land of his birth. His career from 1853, when he set out on his travels, took him through Australia and New Zealand and the major portion of the South American continent. Coming in due course to Canada, he was immediately attracted by the possibilities of British Columbia, and his mind was fixed on this country when he finally selected Victoria as his home.

Associate With Brother.

In his travels and adventures he was identified with his brother, the late Peter Fernie, well known veteran, who was for many years a resident of James Bay. Peter Fernie, who was a veteran of the Crimean War and of the Indian Mutiny, died several years ago, thus leaving his brother without any more intimate tie in this country than that of friends, both brothers having been single men.

Mr. Fernie built his well-known residence at Oak Bay some twenty years ago.

BRITISH PURSUING TURKISH RAIDERS

Putting Down Nationalists About Constantinople

Constantinople, May 16.—British authorities are pursuing Turkish nationalist bands which have been raiding villages in the outskirts of this city.

MAN KILLED BY CITY BOUND TRAIN

James Channon Struck by C. N. R. Train at Lake Hill

James Channon, a resident of Lake Hill, died shortly after noon today as a result of injuries he received when struck by a Canadian National Railway train at Lake Hill, while he was walking on the track. The regular passenger train for the city was approaching Lake Hill district when the accident took place, shortly before 3:20 this morning.

Channon, who was both deaf and dumb, did not know of his danger, while it is thought on the other hand that the train men were looking for him to take care of himself, not knowing of his disability. Channon was struck and very badly smashed up. He was rushed to town on the train and ambulance to the Jubilee Hospital, where Dr. Raynor made every effort to save his life. Channon passed away an hour after his admission to hospital.

BRITISH GUNBOATS ARE OPERATING AGAINST CHINESE

Washington, May 16.—British authorities at Hongkong have sent river gunboats to operate against the Southern China forces in Kwangtung province, according to a cable message of protest from Dr. Sun Yat Sen, South Chinese leader, received here by his agent, Ma Soo.

MISSING MAN FOUND DROWNED

Body of M. H. Nelems Discovered at Cadboro Bay

Had Been Chairman of Land Settlement Board

The body of Melbourne Henry Nelems, 22 Melborough Avenue, was found floating in the water of Cadboro Bay at 3:30 o'clock this morning by Herbert Saunders and James McDonald, who made the discovery at the edge of the dinghy house of the Victoria Yacht Club.

The body was removed by the Oak Bay police to the B. C. Funeral Parlor, where it was later identified by the Hon. E. D. Barrow and J. H. Richardson, both of whom knew the late Mr. Nelems, who was until February, 1920, chairman of the Provincial Land Settlement Board.

Mr. Nelems, prior to the finding of the body, has been missing since six o'clock last night, when he is reported to have left his home. As the body was discovered in the water the provincial police are taking charge of the affair.

His Public Work.

The late Mr. Nelems came to this city as a member of the Provincial Land Settlement Board, being on (Continued on page 2.)

TEACHERS TO TAKE SUMMER SCHOOL

Government Paying Fares of All Who Will Study Here

School teachers from all parts of British Columbia will come to Victoria to attend the Summer School session from July 4 to August 5, under the Department of Education. The courses will be given in the Victoria High School.

The Government is paying the traveling fares of all students. Normal school students who gain their certificates before the Summer School opens will be eligible to attend as well as experienced teachers.

"Victoria and the surrounding district offers many advantages to visiting Summer students," says the announcement of the school. "If all teachers attending the Summer School will take advantage of the opportunities afforded, the session will close with everybody improved in health, both mentally and physically, and carrying away with them pleasant memories of the school as well as new information and grade credits for school and community work."

COAL STRIKE IN BRITAIN DRAGS ON

No Move Before End of This Week

London, May 16.—(Canadian Associated Press)—No change of importance took place during the week-end in the industrial situation created by the strike of coal-miners and other labor troubles.

Parliament has adjourned until May 25, but the Prime Minister, who is reported to be ready to seize any occasion to bring the mine owners and men together again, will remain within easy reach of London. It is believed, however, that there is little prospect of a settlement, even under the most favorable conditions, can be brought together before the end of the present week.

MAY HAVE PLANNED ATTACKS ON CANAL

Persons Stole Dynamite Near Welland Waterway

Welland, Ont., May 16.—In the belief that the dynamite was for the purpose of blowing up the Welland Canal, the police of Welland and Niagara Falls, Ont., are co-operating with the Federal authorities in an effort to locate the stolen explosive and round up the principals in the supposed plot.

MAN KILLED BY CITY BOUND TRAIN

James Channon Struck by C. N. R. Train at Lake Hill

James Channon, a resident of Lake Hill, died shortly after noon today as a result of injuries he received when struck by a Canadian National Railway train at Lake Hill, while he was walking on the track. The regular passenger train for the city was approaching Lake Hill district when the accident took place, shortly before 3:20 this morning.

Channon, who was both deaf and dumb, did not know of his danger, while it is thought on the other hand that the train men were looking for him to take care of himself, not knowing of his disability. Channon was struck and very badly smashed up. He was rushed to town on the train and ambulance to the Jubilee Hospital, where Dr. Raynor made every effort to save his life. Channon passed away an hour after his admission to hospital.

YOUNG WOMAN LOOPED LOOP IN PLANE 199 TIMES

Mineola, N. Y., May 16.—Laura Brownell, aged twenty-three, today established a new world's loop-the-loop record for her sex when in her aeroplane, starting at a height of 8,000 feet, she performed 199 loops before landing. The flight took place at the C. G. Field. Miss Brownell wore the uniform of lieutenant in the New York aerial police department.

Last year she established a record of eighty-eight loops. Her flight to-day consumed one hour and twenty minutes.

MOVE TO REDUCE RAILWAY COSTS

Canadian Roads Would Lower Wage Bills

Toronto, May 16.—Labor organizations holding wage agreements with Canadian railways have received a thirty-day notice of expiration of agreement provided for in the agreements with the railroads.

It is not at all serious. It will be taken care of in good time between the organizations and the railroads," was the comment of James Mudrook, representative of the Brotherhood of Railway Trainmen, when informed of the expiration of the roads.

Quotes the States.

Asked what stand the Brotherhood and other organizations would take, Mr. Mudrook replied it could be judged from the attitude of the organizations affected by similar notices from the United States railways.

"We have taken the case to the United States War Labor Board and have intimated that wages in effect are reasonable and fair and should not be reduced," he said. "No conditions have arisen which warrant wage reductions. I suppose you know that railroads in the United States which gave notice to us, such as the Baltimore & Ohio, and others have withdrawn their notices."

CANADA'S TRADE SHOWS DECREASE

Figures For April Lower Than Year Ago

Ottawa, May 16.—(Canadian Press)—An all-round decrease in the trade of Canada during the month of April, 1921, as compared with April a year ago, is shown in the monthly trade returns issued by the Department of Customs. The grand total of Canadian trade decreased by \$44,774,677 in April, 1921, when the total was \$109,286,557, as against \$154,061,234, the grand total for April, 1920.

Domestic exports during April, 1921, were \$45,280,735, as against \$53,256,288 during April last year, a decrease of \$10,975,553. For the same period of 1921 merchandise entered for consumption dropped \$1,847,476 from \$98,290,723 to \$96,443,247.

MURDER VERDICT.

Toronto, May 16.—Roy Holtrum of Hamilton, was found guilty here Saturday night of the murder of Leonard C. Sabine, a druggist, during an attempt to rob his store, on the night of March 5 last. Sentence will be pronounced later. Notice of appeal was given.

FOREST FIRES.

Sudbury, Ont., May 16.—Forest fires in the northern district were extinguished by the rain of Friday and Saturday, and the situation is regarded as normal again. The extent of the damage has not yet been estimated. Snowed here Friday morning and put the finishing touches to the quenching of the flames.

Council of Allies To Meet To Settle Affair in Silesia

Full Meeting of Council Probably Will Be Called; Briand to Address French Chamber; London Observer Says Danger Exists.

London, May 16.—There may be a full meeting of the Allied Supreme Council for the purpose of discussing the situation which has arisen in Silesia as a result of the Polish revolt there.

Dispatches from Paris indicate that Premier Briand intends to lay the situation before the French Chamber of Deputies when it meets Thursday. There has been an exchange of views between the British and French Governments but suggestions that a meeting be held have been met with assertions in Paris that it would be impossible for the French Premier to discuss the Silesian affair with Mr. Lloyd George until after Thursday.

Advices appeared to indicate a cessation of fighting in Upper Silesia but there was nothing to show that the Poles were withdrawing from the regions they occupied during the past two weeks.

GENERAL ELECTION HELD IN ITALY

Complete Results Are Not Known Yet

Rome, May 16.—Complete results of the elections held throughout Italy yesterday will not be known until the end of the week, but official reports based on calculations made by the different parties indicate the probabilities. Although the most part of the national voters were less numerous than had been expected, it seems probable that they will have sufficient votes to form a large majority, especially in Rome, Naples, Palermo and in Southern Italy. They also are expected to be victorious in Genoa.

Demonstrations.

When the Constitutionalists claimed a great triumph in Rome, houses were beflagged and demonstrations were held.

"There were no disorders in Rome. The excitement in the provinces was intense, there being frequent conflicts between Fascist and Communist, the Fascist, or Extreme Nationalist, armed with clubs and other weapons, maintained order in the most turbulent districts."

Contest.

The great fight was between the Constitutionalists and the Socialists. In Milan, the Socialists returned seventeen members, as compared with ten representatives of all other parties. In Turin, the Socialists elected 11, the Constitutionalists 8, and the Roman Catholics 3. In Florence the Socialists elected 8, the Constitutionalists 3, and the Roman Catholics 2.

The Socialist vote, which was noticeably decreased, was even smaller where Communist candidates were on the ticket.

In Bologna, where the struggle was bitter, the Socialists returned eighteen candidates, the Republicans two, the Roman Catholics three and the Constitutionalists only one.

Encouragement.

Li Liberte says: "Germany is hesitating between the encouragement of England and the menace from France."

Encouragement.

The Journal says it has learned from Oplien that the Inter-Allied arms depot at Breslau was robbed by a detachment of German soldiers and 4,000 rifles, eighteen machine guns and 1,000,000 cartridges were taken to Upper Silesia to be distributed among the "free corps" there.

MAYOR FINDS TRIP NO SNAP; WILL STAY AT HOME IN FUTURE

Mayor Porter is not getting as much pleasure out of his trip to the States as he could wish. In fact, he is far from comfortable in Eastern Canada. At least that is the impression conveyed by his first message to Acting Mayor George Sangster received at the City Hall to-day.

Writing from Montreal on his way to Halifax, His Worship says: "Very warm and dusty. This trip no snap. Not likely to take another in a hurry."

To Deliver Liquors In B. C. by Parcel Post

Liquor may be sent to consumers in British Columbia through the Parcel Post, if the Province will pass an act authorizing such delivery, the Hon. P. E. Blondin, Postmaster-General, to-day informed the Hon. J. W. de B. Farris, Attorney-General and Acting Premier of B. C.

The question of getting the privilege of liquor delivery through the Post Office to aid the Liquor Control Board was taken up in Ottawa a few days ago by Premier Oliver. Transmission of liquor by Parcel Post is prohibited by law in Canada.

"I beg to say that there will be no difficulty in this, providing an act is passed in your Province authorizing the delivery of intoxicating liquor by the Liquor Control Board by Parcel Post," the Hon. Mr. Blondin has informed Hon. Mr. Farris.

In enclosure notices from recent issues of The Canada Gazette whereby the transmission of intoxicating liquor by the post is legalized in any Province in which such an Act as referred to above has been passed.

Rates Fixed.

The modifications in the Parcel Post regulations provided that where any Province has passed an Act calling for delivery of liquor by a Government Commission by Parcel Post, the liquor may be handed to

the consignee.

Parcel not exceeding 3 pounds, 40 cents.

Parcel exceeding 3 pounds, but not exceeding 7 pounds, 55 cents.

Parcel exceeding 7 pounds, but not exceeding 11 pounds, 70 cents.

Just what action the Government will take in this matter will not be decided until Premier Oliver returns to Ottawa. Mr. Farris said he would talk it over, Hon. Mr. Farris said this afternoon.

Unpaid.

Berlin, May 16.—The greater part of 250,000,000 marks in wages due in the Upper Silesian industrial sector remained unpaid, owing to the confusion created by the invasion of Poles and the cessation of communication.

German Comments.

Berlin, May 16.—German newspapers express pleasure over declarations made Friday by Premier Lloyd George of Great Britain relative to the situation in Upper Silesia, but most of them give warning against a German march into Silesia unless such a movement should be requested by the Entente Powers.

They declare that such an advance would result in war with both France and Poland, and the people will fight on under their own leaders. "I have given by word that I would not."

NEW MONARCHIST

ATTEMPT IN CHINA

Rumor Says Hsuan Tung's Supporters Plotting

Tien Tsin, May 14.—Rumors of another attempt to restore the Manchu monarchy by placing the captive boy Emperor Hsuan Tung on the throne are circulating in the inner circles of this centre of Oriental statecraft. Hints come from unknown sources that such a move is to be made within the next two months. Speculation on this possibility provides a subject of conversation among the Chinese as well as among the foreigners.

Since the attempt to place him on the throne in 1917, the boy Emperor has lived in the palace of his forebears surrounded by 3,000 or 4,000 of the Manchus adherents, princes, eunuchs and whispering old women who long and probably plot for the time when the little "son of Heaven" shall again ascend the dragon throne. To support him and his household of Manchus, titled and otherwise, the Chinese republic pays an annual allowance of from \$3,000,000 to \$4,000,000 in silver, and thus, within the heart of the capital city of the Chinese republic, exists a strange group which may at any moment become the prey of ambitious military leaders or the fulcrum which they may raise themselves to power.

Secluded Life.
The boy, still possessed of the title of Emperor, leads a secluded life. He is not permitted to pass beyond the walls of the Forbidden City, though his heart longs for travel to the Western countries of whose strange sights and customs he has learned from his tutors, three Chinese and one English, the latter R. F. Johnston, a scholar and author.

Hsuan Tung is described by those who come in contact with him as a bright youth of affable manners, studious and interested in the outside world and its political movements. With the aid of his tutors he kept in touch with the progress of the Peace Conference at Paris and the changes on the world's map which ensued. Naturally, the Chinese classics are his chief study, but he also has learned English and has a general knowledge of his country and its history. He is deferential to his tutors and strictly observes the rules of imperial conduct they have taught him.

Hsuan Tung is carried in his yellow sedan chair by twenty attendants to the palace of Heavenly Purity, where his English tutor gives him lessons. He loves exercise, but he has little chance to gratify his wish within the limits of the palace grounds.

INDIA'S EXPORT TRADE IS DULL
Washington, May 15.—(Canadian Press)—A report from the United States representative at Calcutta states that export trade generally is very dull. Indian holders of wheat are still disinclined to sell, and there is little trade in cotton or seeds. In Bombay bills are steadily refused and little business is being booked. Improvement in exports to Japan is noted, but exports to other countries are very low in comparison with the normal measure of exports. The market is overstocked with various classes of merchandise such as piece goods, hardware and other staples.

EXPECTED TO RECOVER.
Huntsville, Texas, May 15.—In a gun fight with Candelario Salazar, a murderer sentenced to life imprisonment, a posse of penitentiary guards sent twelve bullets into the Mexican's body late last night.

Although one of the bullets from a rifle penetrated Salazar's neck, physicians at the prison state he is expected to recover.

The apprehension of Salazar accounts for the 28th fugitive from the penitentiary.

AIR SERVICES

GROW IN EUROPE

Network of Aerial Lines Being Developed

London, May 14.—Almost daily extension of passenger and mail service by air is rapidly making Europe a network of aerial transportation lines. Negotiations are now nearing completion for an airway from Berlin via Riga to Moscow, and when this service is completed it will be possible to travel by air from London to Moscow, a distance of nearly 2,000 miles. Berlin already is connected with London by the Dutch service through Amsterdam. This Dutch branch also has inaugurated a service between Paris and Amsterdam.

The existing London-Paris service connects at Paris with the airway to Warsaw, which goes by way of Strasbourg and Prague.

The Franco-Roumanian Air Service Company, which is responsible for this airway, has obtained concessions from the Austrian and Roumanian Governments, and hopes shortly to open an airway that will connect London through Paris with Constantinople.

KENTUCKY BORDER BATTLE CONTINUED
Williamson, W. Va., May 15.—Thirty minutes of shooting at Merrimac, W. Va., was the extent of hostilities in the West Virginia-Kentucky border battle last night. Reports from the Mingo region said the situation was quiet. The shots from the Kentucky hills were arrested by riflemen on the West Virginia side.

PARTIES GOING TO NORMAN OILFIELD

Mounted Police Issue Permits at Peace River

Vancouver, May 15.—Every day brings 50 to 100 arrivals at Peace River these days, and Inspector Field, of the Mounted Police, is kept busy issuing permits to depart for the northern oil fields.

H. M. McLennon, former Councillor of Point Grey, who has just returned here from Peace River after outfitting a party in connection with the syndicate of which he is a member, states that nobody is permitted to proceed north from Peace River unless he can satisfy Inspector Field that he is physically capable of enduring the necessary hardships, and is properly outfitted for the expedition.

Peace River is at present the liveliest town in Alberta, he states, and every day sees new parties leaving for the North by the Summer route, which will be open for travel by the time they reach the Mackenzie.

Premier Mine.
Vancouver, May 15.—Word from Stewart says that the Premier Mine has shipped out a million and a half dollars' worth of second grade ore.

AIRMAN KILLED BEFORE CROWD
Was "Stunting" in Nebraska; Forced to Jump
Omaha, Neb., May 15.—Warren P. Kite, an air pilot, was instantly killed at Grand Island, Neb., when before several thousand spectators he was forced to leap from his plane at a height of 800 feet.

He had been performing aerial stunts with Pilot J. P. Smith for several minutes when the two planes suddenly crashed. Smith's propeller cut the tail off Kite's machine.

DEVICE ENABLES BLIND TO READ

London, May 15.—Blind persons will now be enabled to read their favorite daily newspaper along with the other members of the family, according to Archibald Barr, Emeritus Professor of Engineering at Glasgow University, who in an address described the mechanism of a British invention for that purpose.

LESS OBJECTIONABLE STAGE FEATURES
Paris, May 15.—The after-war orgie of pleasure in cosmopolitan centres has developed so much during the last few years that the Ministry of Justice has taken the matter in hand and called a sharp halt to the gradual shrinkage in the amount of dress worn on the stage and continual increase in looseness of speech.

MOTION PICTURE MEN ORGANIZE
Calgary, May 15.—At a meeting here Sunday the Alberta Motion Picture Association was formed.

VOLCANO IN ERUPTION.
Mexico City, May 15.—The volcano of Colima, in Jalisco, long inactive, is in eruption.

PILE SUFFERERS
Do not suffer another day with itching, burning, or protruding piles. No surgical operation required. Dr. Chase's Remedial Cream will cure you in 10 to 15 days. It is a box of all dealers, or Bismarck, N. Dak., or Toronto, Canada. Sample free if you mention this paper and enclose 2c. stamp to pay postage.

Two Boys Hunted; One Was Killed
Estevan, Sask., May 15.—Allan Lockhart, aged eleven, son of N. J. Lockhart, K.C., was instantly killed on Saturday afternoon by a bullet from a rifle in the hands of a companion, Norman Reid, aged twelve. The two boys had been out hunting together.

COMMUNISTS IN BUCHAREST ARRESTED
Bucharest, May 15.—Police entered the Roumanian Communist Congress yesterday and arrested seventy-two persons, including three members of the Chamber of Deputies, after the minority members of the Congress had protested against the validity of a vote by the majority in favor of the international.

TWELVE KILLED IN RAILWAY SMASHES

Two Trains Jumped Tracks in France

Toulouse, France, May 15.—Twelve persons were killed and fifty injured when two express trains coming from Paris jumped the track last night within a few miles of one another.

The fact that in each case eight coaches were derailed and the locomotives on the track caused the ordering of an investigation. In each instance the coupling between the tender and the first coach snapped.

DECLARES MEIGHEN BREAKS PROMISE
J. F. Reid, M.P., Criticizes Lack of Tariff Revision
Ottawa, May 15.—That the Melchett Government's failure to propose a general tariff revision at their session was simply the breaking of another promise made to keep a few followers in line, was a statement made by J. F. Reid, member for Mackenzie, Saskatchewan, in the Commons Saturday night when the budget was being debated.

He quoted from The Saskatoon Star to show that in that city Premier Meighen, while he had talked of the value of protection to industries, had never mentioned agriculture.

Mr. Meighen had once been a low tariff man, but there had been only slight decreases in the tariff on farm implements since he became a member of the Government. The Government, declared Mr. Reid, was ignoring the farmers as it ignored organized labor. Neither had been given a place on the grain-investigating commission, and neither had been consulted regarding the budget.

BIG FRUIT CROP HERE, REPORT SAYS

Cold and Showers, However, Retard Season

There will be a big crop of tree fruits on Vancouver Island and the Gulf Islands this year, according to the crop report of conditions in the Province issued to-day by the Agricultural branch of the Department of Agriculture.

On the mainland indications are that small fruits will be late. In other parts of the Province as well as here there has come wet and cold weather just as growers were led to believe that they were on the way to Summer. Growth has been retarded.

Early potatoes are up on the Island and late potatoes are being planted now.

The full report of the Department is:

District No. 1.
Vancouver Island and Gulf Islands—Last week we thought Spring had come, but it turned cold again the first part of the week and growth development was retarded. Conditions are now more favorable. Several nice showers have fallen, principally at night.

Early apples and Olivet cherries are now practically in full bloom. Kings are just coming into full bloom. Late varieties, such as Spies, Baldwins and Ben Davis are just beginning to show pink.

The prospects are for a big crop of tree fruits.

Local asparagus is now on the market in considerable quantities.

Early potatoes are up and looking well. Some of the very early ones which were showing a couple of weeks ago were nipped by frost.

Late potatoes will be planted generally in this district during the next two weeks.

Mainland Small Fruits Late.

District No. 2.
Lower Mainland—Weather wet and cold and plants making a very slow growth. Indications are that the first shipments of small fruits this year will be as late as those of last year.

Planting this year, while not as heavy as last year, will add materially to the acreage in small fruits.

Rhubarb shipments from Hastic are going forward. Besides L. C. L. shipments, two carloads have already

been shipped. Weather conditions make the production very slow.

Heavy Okanagan Grape Crop.

District No. 3.
Okanagan, Salmon Arm and Main Line Points—Weather was warmer towards the end of last week, but has turned cold and showery again.

Most varieties of apples are just coming into the "pink," and many growers are starting to spray this week. The show of bloom is excellent on all varieties.

Small fruit canes are in fine condition, and the crop should be heavy. Rhubarb and asparagus are going out in small quantities.

Splendid Onion Start At Vernon.

Vernon—Plums and apples are well out in bloom and are making a heavy showing. Transcendent crabs and some of the earlier varieties of apples are in full bloom.

Onions are well up and reports generally would indicate that a splendid stand has been secured.

Weather conditions are not as good as they might be, as the nights are still rather cold. However, growth continues to be good and it is felt that the danger from killing frosts is over.

Cyclone Already.

Kelowna—Weather conditions have been very changeable during the past week. The early part of the week was warm and a considerable amount of spraying was accomplished. On Tuesday the district was visited by a miniature cyclone and some damage was done to buildings in town. The Kelowna Growers' Exchange new cold storage building suffered most, a considerable portion of the roof being completely blown off. Fortunately, in the orchards little or no damage is reported.

All stone fruits are showing a heavy blossom. Apples are well in the "pink" and most varieties are showing a heavy blossom. Pears also are showing a very heavy blossom.

Expect Heavy Apple Growth.

Pentiction—All cover crops are doing well in the Kaledon section, and some Fall rye is being turned under. Apples show every promise of heavy crop with the exception of Winesaps. Apricots and sweet cherries are setting heavily.

In the Pentiction section most varieties of apples and pears are in full bloom. Apricots are setting well. Peaches, especially the later varieties do not show the set of fruit that was expected.

The district in general is in good shape, with plenty of warm, bright weather, with occasional showers. Mildew in some cases is developing rapidly, and where no spraying is be-

ing done, might cause considerable damage.

Cherries Good In Summerland.

Summerland—Cherries are all well set, weather conditions being very good towards the end of last week.

Pears are in full bloom now. Grapes, Wealthy, Wagner, Gravenstein and Early Cows are in full bloom. McIntosh, Winter Banana and Jonathan are in the "pink."

The Summerland Storage Co. have made a good start on their new building. It is expected that it will be ready in time for the heavy rush of Winter apples.

Heavy on Pears and Plums.

District No. 4.
Kootenay and Arrow Lakes—Weather conditions first week in May was much warmer and growing conditions have been very good. All pears, cherries and plums are in full bloom and indications are good for a heavy crop of sweet cherries and plums and a fair crop of pears. The apple crop will be light again this year. Many places very little indication of blossom buds, McIntosh Red showing up best. The trees do not seem to have recovered from the freeze of 1919, in time to make or form new buds for this season.

The pink spraying for apple scab is on this week and many of the growers in this section are using the Bordeaux Mixture for the first time in the control of this disease.

All small fruits have wintered well and there will be a very heavy crop of currants and gooseberries. The acreage in raspberries and strawberries is larger this year than for several years and a good crop is expected.

Creston—An average crop of strawberries is expected at Wyndel for the acreage planted. Raspberries are looking good for this time of year. Wealthies show an off crop in this section with an average showing on other varieties.

Will Address Kiwanians — M. A. Macdonald, K. C., M. P. P., is to address the Kiwanian Club at the regular noon luncheon to-morrow on the subject of "Pacific Relations." The speaker has addressed a large number of audiences on international issues and has more than once been the guest of the various units of the Kiwanian Club in the Pacific Northwest. The sum of \$73.45 was raised by the auction at the last luncheon of the Kiwanian Club, the proceeds going to the Jubilee Hospital Fund. The entertainment for the next two weeks will be in the hands of a committee composed of Kiwanians Roy Irving, J. E. Umbach, B. C. Nicholas, Dr. Burgess and Henry C. Hill.

HOLLAND CELEBRATES PRINCESS' BIRTHDAY

Future Queen, Now Only 12, Takes Hard Course of Study

The Hague, April 20.—(By Mail.) Twelve-year-old schoolgirls in America who sometimes think teachers are mean, or that their mothers make them work too hard and long for the life of a princess, would find they had only to study the more and work the harder if they led the life of Princess Juliana of Holland, whose twelfth birthday anniversary was celebrated to-day.

Far from being the princess of fairy tales, who has nothing to do but sleep on silken-covered rose beds, eat chocolate drops and play with gay little page boy courtiers, Princess Juliana has to study French history, arithmetic, geometry, algebra, geography, drawing, grammar, voice culture and violin playing.

In addition to this, because of her royal position and the fact that she will be a queen some day and the ruler of Holland, no matter who her husband is, she is taught etiquette, court customs and the strict rules of conduct appertaining to a princess. Up to the last year Princess Juliana attended a little school at the palace with a number of little girls of the Dutch nobility. Now, however, as she has reached the age of twelve, which is an age of great decorum for a princess, she is having private lessons, because she must learn things in a shorter time than other children of her age.

With all this work Juliana has some time for play. She is a plump, fair-haired girl of the true Dutch type. She goes out in all weathers. She is particularly fond of skating, and when there is ice on the canals is frequently seen there, skimming along with her mother, the Queen. Her companions are very carefully chosen for her, and she, like her recent predecessors in the House of Orange, has been taught that it is not becoming royalty to make a

"stage play" for popularity. She frequently accompanies her father, the prince consort, or her mother, on trips about Holland, when her geography teacher goes along and instructs her at first-hand in her own country's features.

Government buildings were gayly decorated in celebration of her anniversary to-day and a number of children called at the palace singing old Dutch songs.

Joseph Doyon and E. Loewengne, Sudbury, were sentenced to two years in Kingston for burglaries committed at Victoria Mines.

Joseph R. Raymond, 18-year-old, Port Arthur, was sentenced to three years in Stony Mountain for attempting to burglarize the home of Brig.-Gen. D. M. McGrath.

DIFFERING OPINIONS.

In its judgment of Mr. Lloyd George's speech upon the conditions now obtaining in Upper Silesia France has maintained her typical attitude towards Germany. Her people, her press, and her politicians have reason to remember the aspirations of the guilty nation. They know what she has done.

Great Britain and Italy did not agree—possibly quite wrongly—that the removal of the argument of force from their persuasion would assist Germany to escape her liability. In the end both British and Italian Governments yielded to French pressure, stamped their approval upon the occupation policy, and gave their support to an extension of the plan in the event of Germany's default upon the expiry of the ultimatum.

In other words she objects to a disturbance in her own territory which threatens the life of her nationals—in the face of an order to remain a spectator. It is small wonder Mr. Lloyd George should argue that Germany be allowed to deal with that troublesome state of affairs. It is unreasonable of France to suggest that the speech of the British Prime Minister "is an invitation for France to massacre the Poles for the greater glory and the profit of Germany."

Here is the other extreme; but the Observer's comment recalls Poland's aggression against Russia and the part which France took on that occasion. It serves to emphasize the attitude of the people of Great Britain towards the suggestion that Mr. Lloyd George commit the nation to French policy at that time. If Germany were still defiant; if she were still baiting the Allies with her evasive proposals to escape the payment of her debts, there would be a menace in allowing her to retain such of her forces as might be deemed necessary to impose respect for the recent plebiscite result in Upper Silesia, but she has capitulated. She has agreed to pay and France knows full well that the Allied Supreme Council is in a position to take her by the industrial throat of the Ruhr region at any moment she breaks faith, whether it be in the default of reparations, by the retention of an army in defiance of the disarmament instruction, or any other manner which could be construed as a threat to the peace and comfort which France has the right to expect.

It may be argued that Poland is the buffer between Western civilization and Bolshevism; but the force of it is very largely geographical. Poland has a right to all the protection that is involved in the gift of her liberty by the Peace Conference. She has no right to adopt the attitude of a spoilt child. In the final analysis a reconstructed

Germany with an appreciation of her moral responsibility to the world—without which she will never enter the comity of nations—is the real barrier to the sinister influences to the East of the Polish boundaries.

PRACTICAL HELP.

Vancouver's Rotary-Kiwanis-Gyro drive to stimulate a more generous appreciation of public responsibility to British Columbia's tuberculous population is a practical example of combination effort which should be supported in every part of the Province. It goes without saying that until popular imagination is fired by an appreciation of its own duty no Government will be permitted to embark upon the development of any scheme which would approximate State care in all its phases. Much good work can be done by the three progressive organizations to which the Terminal City is now looking for direction, and it may be taken for granted that Victoria will not be left behind in a task of such vital concern to so many of the people of this Province. The Government will welcome every addition to its educational and auxiliary forces for the very important reason that until the people of British Columbia are seized of the fact that tuberculosis must be stamped out it will not be in a position to go to the Legislature for the necessary funds to extend the promising beginning which it has made by acquiring the institution at Tranquille.

INTERESTING IF TRUE.

Assuming The Freeman's Journal is authoritatively advised there is hope in prospect that Mr. Lloyd George and the self-styled "President of the Irish Republic" may meet for a discussion of the Irish question. The Journal understands that a conference is suggested without conditions of any kind and states that de Valera will give a public reply to such an invitation if Mr. Lloyd George will agree to give equal publicity to his own statement. If an announcement of this kind had been made prior to the conversations recently conducted between the Premier-designate for Ulster and the "Republican President" very little importance would have been attached to it; but coming so closely on the heels of the first promise of an understanding between the leaders of the rival factions in Ireland itself the origin of what is described as the Prime Minister's offer may be traced to a suggestion from Sir James Craig. At the same time there is really nothing new in the proposal except with respect to conditions. Mr. Lloyd George always has expressed his willingness to meet any responsible leader or leaders of the Sinn Fein cause so long as it should be understood that separation from the Empire would be outside the pale of discussion. He is not likely to depart from that fundamental basis and the fact that an unconditional conference is mentioned leads to the supposition that the Ulster leader has discovered a new angle to de Valera's policy from which a practical attempt might be made to settle the unhappy business. In the meantime Southern Ireland has elected a Parliament of unopposed representatives—except in the case of Dublin University—which do not intend to perform their duties. It may be that this farcical condition has appealed to de Valera who must realize that Ulster will have established her precedence in her administrative field within a very short time.

A GOOD ALTERNATIVE.

According to a recent dispatch from London the Board of Works—on behalf of the advisory committee on lumber of the Colonial Institute—has given a favorable verdict upon the results of practical tests of British Columbia timbers and instructions have been given to include them in the official specifications of the Department as alternatives to European joinery. Whatever material benefit may eventuate it is satisfactory to know that our Douglas fir, British Columbia fir, and Western hemlock have nosed their way into recognition at Whitehall. And in this connection it should be

remembered that Agent-General Wade has put in a good deal of time and energy in his endeavors to let the authorities in London know that the woods of this Province have something more than size to attract attention. There should be a greater business between British Columbia and the Motherland in one of our prime commodities. The plea of a scarcity of bottoms and a booming Prairie market no longer may be advanced against a more intensive development of this particular market.

GETTING UNDER WAY.

One Democratic Senator and three Republican representatives directed an attack upon the military aspirations of the leading nations of the world at the twenty-fifth annual meeting of the American Academy of Political and Social Science in Philadelphia the other day. It will be understood, of course, that there is nothing of an official nature about these expressions of opinion; but they come from men in public office who are thoroughly influential citizens of the United States. Representative Mondell hit the nail on the head when he said that the present condition of world affairs afforded a wonderful opportunity for consummating an international disarmament agreement; and he was not very wide of the mark when he rounded off his observations with the belief that "Providence has afforded that opportunity directly to the United States as the only nation which can take the initiative without confessing weakness." The nation which sends out the call can boast of its strength. No nation dare be so weak as to refuse the invitation.

NOTE AND COMMENT

Tramwaymen have gone on strike in Petrograd and railway employees threaten to follow suit unless more food is forthcoming. The Soviet system of Government has its humors.

"National Guardsmen go to scene of war." "Fight Resumed in Mountains." Both these are headings to week-end newspaper dispatches from Kentucky. What would the disciples of world revolution say if such incidents were taking place in Great Britain instead of in the American Republic?

How The London Morning Post likes Mr. Lloyd George! It describes his speech upon the Upper Silesian imbroglio as a display of "bitter partizanship, intense dislike of Poland, pusillanimous fear of Germany, and ignorance of European politics." How many volunteers could The Morning Post have obtained for service in Poland during her quarrel with Russia! And when did Mr. Lloyd George become a convert to "contemptible and senseless pro-Germanism!"

"The stars incline, but do not compel." HOROSCOPE MONDAY, MAY 16, 1921. (Copyright, 1921, by The McClure Newspaper Syndicate.)

Good and evil influences contend today, according to astrology. Although Mercury and Jupiter are in benefic aspect early in the morning, Uranus and Mars are adverse later. Venus smiles on men and women after the noon hour, but the planetary array—the best direction is supposed to be given to men who hold the reins of authority. Thinkers should find this way stimulating, but they may be led to wrong decisions and conclusions while Uranus is in evil phase. The stars forecast an unprecedented amount of writing for publication by prominent men and women. There will be also unusual space in newspapers and magazines given to personalities concerning distinguished persons. Conferences or meetings at which important questions are discussed are subject to the best rule of the stars. Mars is in an aspect that bodes ill for the world's peace, since Uranus also indicates that the human mind will be easily persuaded to contemplate war. During this configuration military affairs are likely to be much discussed, and the stars will be strong advocates of preparedness for war. Ministers and public speakers may expect their best efforts to be criticized today. The stars smile on lovers to-day and there will be more than the usual tendency toward sentimentality, but deception will be easy since the stars equally smile and women to conceal their faults and appear at their best. Persons whose birthdate it is should beware of all sorts of dissensions, domestic as well as those that grow out of business affairs. Harmony in the family may be easily maintained. The young will court and marry. Children born on this day may be quick-tempered and self-willed, but these subjects of Taurus usually are very fortunate in financial matters. They should be good executives. Thieves broke into five Windsor homes, stealing rings and other jewelry, valued at more than \$2,000.

NEW CEMETERY PLAN ADVANCED Would Establish Burial Ground Near Royal Oak

Establishment of a municipally-owned cemetery "without the expenditure of a single dollar in cash" by municipal ratepayers is the new cemetery scheme proposed in a memorandum, copies of which have been submitted to all members of Victoria, Saanich, Oak Bay and Esquimalt Councils by C. Hiram Babcock, cemetery expert. The new plan, which includes the purchase of cemetery land near Royal Oak, probably will be considered by the Inter-Municipal Cemetery Committee at its next meeting.

Mr. Babcock's memorandum, in part, follows: The Scheme.

"I beg to submit to your committee the following proposal, by which you can secure for the ratepayers of your municipalities a burial park that will be established, developed and maintained along the most modern lines, with interest, sinking and per cent. as specified, and also without the expenditure by them of a single dollar in cash, now or at any future period during the life of the said burial park."

The property is situated in Saanich municipality, in Saanich Road, opposite the residence of Joseph Bull, and forms part of the present holdings of George Rogers. It embraces 33,000 salable burial spaces or plots, each 4 ft. x 11 ft., and in addition to these 33,000 plots the necessary area for roadways and walks, and requisite sites for office and residence, and also necessary outbuildings. In addition, there is provided a site for a crematorium, a mausoleum and a columbarium, and, further, in and about the area so far specified, there is an area of rock equal to eight per cent. of the entire tract, this, though in no way taken into account in this proposal, would still be an asset. In that it contains some 1,300 burial spaces.

Soil. "The soil is fertile and capable of growing and sustaining the grass and ornamental trees, shrubs and plants usually set out in cemeteries."

"The nature of the soil here ensures the minimum expense in digging graves, there being no hardpan, clay or other objectionable substance or obstruction, and it is just sufficiently gravelly to provide unexpended drainage facilities."

Drainage. "As stated, the nature of the soil lends itself to excellent drainage. Drainage is still further facilitated by the elevation of the entire tract, and the gradual slope—49 ft. in about 1,500 ft.—in two directions. This applies to the whole of the property offered. "Surface drainage would be provided for by constructing the roadways accordingly."

Transportation, which is such an important factor in connection with cemeteries, is assured in this instance, and at a rate not exceeding ten cents. The Lake Road, which is a line is willing to extend beyond its present terminus in order to serve visitors to the cemetery if same be established on this tract, and there is no doubt whatever but that new lines will be established, or existing ones increased or extended, as soon as business warrants. "It may be stated here that the site I am offering you, and the general scheme for its development, have been approved by the dignitaries of several of the denominations."

Allotments. "While this burial park is intended to be absolutely non-sectarian, the plan contemplates the division of the community somewhat as follows: Municipal requirements . . . 2,000 Fraternal organizations . . . 2,500 Miscellaneous denominations . . . 4,000 Roman Catholic . . . 4,500 Anglican . . . 5,500 Unclassified . . . 14,500 "Consecration of the ground to be at the pleasure or requirements of the body to whom same has been allotted."

Development. "It is proposed to proceed with the immediate development of 10,000 burial spaces out of the total of 33,000 contained in the tract. The development would include: "Surveying and Planning. "Grading roadways, with provision for surface drainage, throughout the area covered by the 10,000 burial spaces to be developed. "Grading, seeding and converting into lawn and park the said 10,000 graves. "Providing and planting 500 ornamental trees and 1,000 flowering shrubs. "Installing a water service, complete for the 10,000 graves, including laterals to provide each of the same with irrigation. "Erecting gateway similar to design submitted herewith, with seating to accommodate, say, fifty persons, and of size and general dimensions as shown on planable quarterly. "Fencing the entire tract. "Providing plans for crematorium, mausoleum and columbarium. "The price asked for the above, complete as specified, including title in fee simple free from encumbrances, and with burial spaces available for immediate use, is \$100,000. The agreement would be one hundred thousand dollars."

Alternative Proposal. "As an alternative Mr. Babcock submits a scheme which he outlines as follows: "Purchase price of \$100,000, in Municipal Debentures issued at market price and bearing current rate of interest; and \$50 per burial space sold during the five year period stipulated; and also 35 cents per annum per burial space for the care and upkeep of the 10,000 burial spaces, and supervision of the same. "I am willing to undertake: "To produce to the Board of Cemetery Trustees a title in fee simple free from encumbrances, fully recorded. "To develop the said 10,000 burial spaces as outlined in my main proposal. "To superintend or manage the business of the Burial Park during the period stipulated below, and to use my best skill, knowledge and ability to carry same on along modern lines. "To undertake that the ratepayers of the various municipalities owning

New Phosphate Proves to Be Great Aid to Weak, Thin, Nervous Folks—Local Druggist Guarantees It. All that most weak, nervous, thin, mentally-depressed people need is ten grains of pure organic phosphate with each meal for a few weeks. That's what nerve specialists in London, Paris and New York are prescribing with wonderful results. It is a natural food for nerve and brain cells and is known to such reliable pharmacists as Cyrus H. Bowes as Bitro-Phosphate. Because of its power to help create healthy flesh and strengthen weak nerves, much of it is being sold to people who are lacking in vitality. CAUTION: Although Bitro-Phosphate is an excellent aid in relieving weak nervous conditions, its use is not advised unless increased weight is desired.

LETTERS

Letters addressed to the Editor and intended for publication must be short and legibly written. The longer an article the shorter the chance of insertion. All communications must bear the name of the address of the writer, but not for publication unless the owner wishes. The publication or rejection of articles is a matter entirely in the discretion of the Editor. No responsibility is assumed by the paper for MSS. submitted to the Editor.

ESQUIMALT SURVEY.

To the Editor.—On the 10th inst. the property owners of Esquimalt held a meeting in the Rex Theatre which was not very well attended. Some of the members were interested in this survey scheme, which is passing through the Council and we heard that two Councilors voted in favor of the survey and two did not vote. However it got passed through.

The Reeve was present at the meeting and told us he was going on with the survey, sink or swim. One lady told him she could not listen to this and left the hall. It would seem to the interested ratepayers that after one surveyor does the district another has the power to come along and say, "this is not right and that's not right," and if the Reeve and Council are so disposed they can order him to survey it over again independent of whether the ratepayer likes it or not. I hear this is the case in Sooke.

One man can only get to his house by putting one foot directly in front of the other. Every surveyor seemed to take away a little. If this is going to be the style in Esquimalt I would suggest an airplane instead of a house until this epidemic of survey subsides a little. I don't think the Reeve has yet suggested surveying the air. But in the meantime if Mr. Jardine could find it convenient to call this public meeting and explain fully this survey and where we stand, I am sure he would have the gratitude of a great many, if not all of the ratepayers of Esquimalt, and anyone owning a hall in Esquimalt I am sure will leave it at Mr. Jardine's disposal.

INFORMATION WANTED.

THE CANON'S EXPLANATION.

To the Editor.—As a taxpayer outside of politics, I would say that Canon Hinchiffe's explanation of his share of the salary grab does not appeal favorably to electors. He was elected to represent the people at a salary of \$1,600. He well knew that amount was the seasonal allowance, as did the electorate. Thus a contract was established by both parties, and he when secure in office takes \$400 a year more, and tries to justify himself regardless of the fact that many can ill afford to pay extra taxes on his account and some of them returned men who need all they have.

The Good Book says: "The laborer is worthy of his hire," but this laborer takes more than his hire. In the same Book, chapter seventh, Joshua, 21st verse, will be found the account of Achan coveting the shekels of silver, and also God's punishment. In St. Luke, chapter 16, there is an account of the unjust steward, and verses 10 to 12 might be said to have bearing on present day conditions. Verse 1 of above, 16th chapter, says: "There was a certain rich man which had a steward and the same was accused that he had wasted his master's goods," and the second verse says: "Give an account of the stewardship, for thou mayest be no longer steward." One wonders if there is anyone in authority that can end an unworthy stewardship in British Columbia. JAMES GADSDEN. May 13, 1921.

St. Thomas retail clerks are asking the merchants to continue the 9 o'clock closing on Saturday evening for the remainder of the year.

WHICH?

Is the Best Phonograph There is One Best Phonograph

You'll KNOW that one best—as soon as you hear the Edison Turntable Comparison. It plays four leading phonographs, all in the same room, all from the same position, and all using recordings of the same artist.

The Talking Machines used in these tests are kept by us in the best possible condition. Manufacturers of such machines, or their representatives, are invited to inspect them, to regulate them, or to substitute other machines of the same make of their own selection, of equal or greater value, at any time during business hours.

JAIL WITHOUT FINE FOR SECOND OFFENSE

Motor Driver Under Influence of Liquor Given Two Months' Hard Labor

Charles H. Tuttle, convicted of driving an automobile while under the influence of liquor, was to-day sentenced by Magistrate Jay to two months' imprisonment with hard labor. The accused was charged with committing the offence for the second time in this city, and under the Motor Act was liable to six months' imprisonment with hard labor. The option of a fine in the cases of second offences for this infraction of the Motor Act is withdrawn, a prison sentence being imperative. Magistrate Jay, in passing sentence, informed the accused of the serious nature of the offence, and imposed sentence of two months with hard labor. Imprisonment without the option of a fine came as something of a shock to the accused. Lyle Bont for turning a car at other than a street intersection was fined \$10. Frank Hammett was fined \$15 for exceeding the speed limit.

JUST HAD TO BUILD

Mrs. Annie Flood, 60 years young, of Memphis, Tenn., always wanted to build a house, but her husband objected. He said that house building was a man's work. Last Fall he died. Mrs. Flood then said to herself: "Now there is nothing to prevent me from building that house," and it wasn't long before neighbors saw her putting up the framework for a fair sized bungalow. The house is now under roof. It would be still farther advanced, Mrs. Flood says, if trifling men would stop taking up her time inquiring about the progress of her project. She expects to finish the job without assistance, just to prove that house building isn't "a man's work."

B. C. METHODISTS IN CONFERENCE

Nearly 300 Ministerial and Lay Delegates Coming

The thirty-fifth annual conference of the Methodist Church in British Columbia will meet this week in Metropolitan Church, and will continue in session for a week. Many of the delegates have already arrived in the city, and others will arrive to-day and to-morrow.

Stationing Committee. The stationing committee, which consists of two ministers from each of the several districts will begin its work at 3 o'clock to-day.

Those composing this committee are: Rev. Dr. Sippell and R. Wilkinson, Victoria; Revs. R. J. McIntyre and J. G. Brown, Vancouver; Revs. E. D. Braden and W. F. Ewing, Okanagan; Revs. B. C. Freeman and E. Manuet, Vancouver; Revs. J. C. Switzer and J. F. Diminok, New Westminster; Rev. W. Vance and B. H. Balderston, Nanaimo; Rev. J. G. Spencer and W. H. Gibson, Port Simpson; Rev. J. D. Habden and B. Batazid, Kamloops; Rev. J. P. Westman, Nelson; Dr. H. C. Wrench, Hamilton.

The work of this committee is the location of the several ministers for the coming year.

Laymen's Association. The Laymen's Association will convene at 9 o'clock Wednesday, and will use the forenoon for the transaction of business and the afternoon for a programme of addresses at 3 o'clock, with an address by Mrs. W. T. Reid, of New Westminster, on "The Woman and the Church," at 4 o'clock, will follow an address by Dr. Ernest Hill on "The Man and the Church." At 6 o'clock a banquet will be given, at which Dr. Klinek, president of the University of British Columbia will speak on "The Church in the National Life." At 8 o'clock a sermon by Rev. B. C. Freeman, president of the Conference, followed by the Sacrament of the Lord's Supper. All these sessions are open to the public.

Ministerial Session. The ministers will hold their first session at 9 o'clock Wednesday. The work of this consists of the examination of ministerial character and the qualifications of the probationers preparing for the work of the ministry. These sessions are not open to the public.

The public sessions of the Conference will begin on Thursday morning.

It is expected there will be an attendance 180 ministers and an equal number of laymen among the latter, twenty-one of whom are women.

The programme for the ensuing work in addition to the routine business of the Conference will include the following items of interest:

Thursday, 9 a. m.—An address by Rev. Hugh Dobson, B. A., on "The Church as a Body."

Friday 9 a. m.—An address by Mr. Dobson, on "The Church as a Toiler."

Saturday, 9 a. m.—An address by Mr. Dobson, on "The Church as a Soldier."

Methodist Colleges. On Thursday evening at 8 o'clock there will be presented the reports on Columbia College and Ryerson College, and on Friday evening the Reception of Candidates for ordination will be held, and an address given by Rev. R. J. McIntyre.

The first Conference was held in the old Pandora Street Church, Victoria, in May, 1887, when the pioneer missionary, Rev. Ebenezer Robson, was elected president, and Rev. Joseph Hall, secretary. The elections of officers takes place at the opening of the general session, when ministers and laymen are present.

Among the visitors from headquarters in Toronto, will be Rev. T. Albert Moore, D. D., head of the department of evangelism and social service, who will preach the ordination sermon on Sunday, May 22. Rev. Hugh Dobson of Regina, field secretary of the same department; Rev. A. Lloyd Smith, assistant secretary of home missions; Rev. W. E. Galloway, field secretary of Sunday schools and young people's work, and possibly Rev. S. W. Falls, D. D., head of the book and publishing house of the church.

It is expected that the conference will close its sessions with the reading of the station list on Wednesday, May 25.

The Malahide Township Council will ask the Ontario Minister of Agriculture to move the office of the district representative from Dutton to St. Thomas, a more central location.

A GAMBLE IN BEAUTY

By NANCIBELLE MALE.
ONE LOVE STORY YOU NEVER CAN FORGET.

The Romance of Two Sisters, Both Beautiful, One Demure, the Other Vampish—With Thrills in Every Chapter and an Unexpected Denouement.

What did it all mean? Nina gazed and John to be humiliated at the last minute? Why couldn't she do something—stop them, telephone some one? She went quickly across to the telephone and, lifting the receiver, gave the number of the University Club; her father—he could help.

"Line's busy," a droning voice answered. Again she tried, and again the same response. How could they ever find Nina in all this city? Why had she been so helpless? Why could she not have stopped them?

There on the chair lay the wedding veil, pearls and tulle and crushed point lace, and here was she unable to do anything.

She must tell John! At the thought of John Amory a wave of sick fear swept over her. How could he endure it? And she must be the one to hurt him so! If it were only some one else but John!

Varia stood there, very still, in the room where they had left her, wondering why this burden should be laid on her slim shoulders. Then the door slowly opened and a man's voice, deep and vibrant, filled the silence.

"Well, little sister, how are you? And where is Nina?"

She gave John Amory a terrified glance.

"Why, Nina—Nina's out," she said, in a voice just above a whisper.

John Amory scrutinized her features closely. He saw her face, dead white; and the eyes that he had thought were blue, were now so dark that they looked like purple pansies. He had always thought Varia "a sweet little thing," more than that he had not considered her.

But now some new quality, something troubling in the glance of those wide eyes, stirred him with foreboding.

Varia, standing there with her hands behind her on the library table for support, wondered if there were no escape.

How could she tell him? Her eyes sought his face as he stood there looking down into the open fire. The flames leaped up and shone on his dark hair, his brow marked with a scowl. His face was so strong and clean and kind—and she must hurt him so cruelly!

"I suppose she'll be back before long," he asked breaking the silence that had grown painful.

Varia gripped the table with cold finger tips; she felt her arms tremble.

"John, I—she could get no further."

"Why, Varia, what's the matter?" He came close so that she looked up into his face; then she caught her lower lip with her teeth and turned away.

"Come over here before the fire and sit down; you're all tired out," he urged in the friendly voice of an older brother.

He wheeled the chair to the fireplace and stooped to lift something out with awkward fingers. Varia saw with a start that it was the wedding veil, that gossamer wisp of tulle that Nina had wrenched from her dark hair. It was crushed and torn, and he looked at it with dismay.

"You sit down, please," he rather staidly said, catching her wavering courage and said in a queer little voice that sounded like that of a child repeating a lesson by rote, "Nina's gone away. She isn't coming back. Mel Rogers came and told her she must marry him, here, to-night—and Nina went."

John Amory looked across at Varia as though he could not understand the words she spoke.

A dark flush suffused his face, and he gave as quickly as it had come, leaving him tense and gray.

"For God's sake, what do you mean?"

He took three steps across to her and caught her shoulder in his strong fingers. Varia felt a wrenching pain as he tightened his grip. She knew he was scarcely conscious of what he did.

"It's true, it's true," she said voicelessly, "he said something about a special license. I heard a motor car leaving."

"We've got to do something, now at once."

He flung himself toward the open door.

But Varia stopped him with a touch. "We can't do anything now. It's too late!"

She did not like the expression of his face, the hard lines that seemed to spring about his mouth, the blind look in his eyes. She went over to the door and closed it softly and came back to her place by the table.

John Amory sank down heavily in the chair that he had placed for her. He leaned forward with his head on his hands. He did not move, but sat there like the statue of Rodin's "Thinker."

The high notes of the silver clock on the mantel sounded silly and mocking, and Varia suddenly moved from her place by the table and went over to him.

"John, please, I loved her, too, don't take it so."

"Thanks awfully, but I'd rather—he dragged himself out of

the chair and stood up as though he were blind.

"Good-night, Varia; it's all right," he said, without looking at her. Then he caught sight of her face, down which the tears were running, though she made no sound, no movement.

"It's hard on you, too, dear," he said gently as though he were slowly waking to consciousness.

"John, don't! It's not for anyone I care, but Nina, not for myself—but for you—if I could do something!"

For one moment he stood looking across at her as though his eyes had betrayed him; then he came closer and looked into her eyes, until he saw a very strange thing happen. Varia's lids dropped and a crimson flood of color swept from the hollow of her throat to her white temples. She was burning with this color that had betrayed her more surely than words could have done, until it receded slowly and she was white again.

"The Varia. . . ." He said gently. "I could help you if you'd let me. You don't hate me because I am her sister? If she had hurt me, instead of you, would you let me go?"

"Varia," he said wonderingly, "believe that you like me, do you?"

A wave of feeling thrilled her; in that moment of ecstasy Varia Grey knew that at last he had awakened to her.

"John. . . ."

(To Be Continued).

Adler-i-ka Again!

"I was bothered with gas on the stomach, belching and general stomach distress. The first bottle of Adler-i-ka gave relief. I feel fine now."

Varia, Greer, Keok.

Adler-i-ka acts on BOTH upper and lower bowel, removing foul matter which poisoned stomach. Brings out all gas, relieves pressure on heart and other organs. EXCELLENT for gas on the stomach or sour stomach. Removes a surprising amount of foul, decaying matter which, you never thought was in your system and which nothing else can dislodge. Prevents appendicitis. Adler-i-ka surprises and gives relief only ordinary bowel and stomach medicines. Ivel's Pharmacy, Cor. View and Douglas; Hall & Co., 702 Yates St. (Adv.)

PROGRAMME OF RECITAL TO-NIGHT

St. John's Organist Has Selected Notable Numbers

(By George J. Dyke.)

Before the music season closes it is gratifying to know that the community is to have one more organ recital given by one of Victoria's largest churches, the St. John Anglican Church, this evening, which will afford another opportunity to all those who have used only ordinary instrument—the pipe organ. The recital is the second this season and is one of a long chain of recitals given by the organist and Burnett during his long-retained position as organist of the church. From observation, Mr. Burnett, as also does Edward Parsons, the organist of the Metropolitan Church, who by the way is planning a series of "Twilight Recitals," next winter, is another of Victoria's organists who realize their responsibility, and who are trying to uplift and improve the music in their churches.

The following are annotations: "Prelude in G major" (first movement) by Charles Marie Vidor, born at Lyons 1845, distinguished composer and organist since 1869 of St. Sulpice, Paris, and member of the Legion of Honor. "The fifth is generally esteemed the best of his eight symphonies. The initial theme with its descending scale and arpeggio sweep is taken up more or less in a variation form, thus giving great scope for skillful registration, and contrasting tonal color. The characteristic theme is finally treated with the dignity and power of the full organ.

"Arcadian Idyl" by Edwin Henry Lemare, has a quaint and pretty theme, with a staccato accompaniment, which calls for dainty effects. It is one of the best of this composer's lighter compositions. Lemare was born at Ventnor, Isle of Wight, in 1865, and has won medals and scholarships at the B. A. M. He made his debut as an organist at the Inventions Exhibition, in London 1884, since which time he has given thousands of recitals. His reputation is worldwide and after the death of William Thomas Best, England's distinguished organ virtuoso—he was generally regarded as the greatest living organist and the legitimate successor to that master.

He visited America and Canada for the first time in 1919, creating a profound impression wherever he went. He is now chief organist at San Francisco, and gives recitals upon the big organ installed at the World's Fair in that city.

"March funebre sulla morte d'un eroe" (Beethoven). This march "on the death of a hero," is from the pianoforte sonata in A flat. With its majestic, noble and rich harmonies, unlike the strains of Chopin, Handel, and Mendelssohn, which suggest the muffled drum and the som-trappings of the solemn cortege; this march has no note of pessimism, but the majestic chords seem to recapture the noble deeds of a great hero struggling successfully against opposing forces.

"In Springtime," by Ralph Kinder, (son of Lemare's pupils) born near Manchester, England in 1876, is now organist of the Church of the Holy Trinity, Philadelphia; is founder of an organ school; and conductor of the Church Choral Society in the same city. His composition is a redolent of Spring with its suggestive passages of birds and Spring flowers, and calls for great exactitude in dainty tonal balance.

"Organ Prelude in D major. Prelude in E minor" (new) "baccarolle," (Jennings Burnett). The three numbers are written by the organist of St. John's, and are characteristically

Phone 514

worthy examples of the author's scholarly attainments, and decidedly fitting for concert use. The first was composed for the opening of the St. John organ eight years ago, and was then played by Clarence Eddy, organ-virtuoso, who greatly admired it, and likened the opening of the number to Guilmant's Second Sonata. The E minor Prelude is a recent composition in modern style and written for the occasion. The Barcarolle is a favorite and is included "by request." It has an effective

running accompaniment to a haunting refrain. It is delightful. "The Storm Fantasia in E minor" in five movements is by Belgian's great and remarkable composer, organist, Jacques Nicolas Lemmens. This number is known the world over; by the greatest "storm" ever written on pure legitimate musical lines. Each movement is a classical gem, which depends upon its effect by genuinely pure means. It is of the usual pastoral character. The shepherd piping dreamily amidst peaceful nature soon gives way to a merrier mood and vies with the birds in cheerful roundelay, apparently heedless of the warnings of an approaching storm—the spitting rain drops—the forboding and stifling gusts of wind—until the rolling peals of thunder accompanied by flashes of lightning, usher the tempest in all its fury. With the last murmurs of the storm's rage are heard the impressive celeste tones in the prayer with tower's chimes leading to the closing movement, which may be described as a hymn of thanksgiving being abundant in beauty and expression and aptly portraying nature refreshed, breathing once more a new life, singing on in joyous gratitude

until the shadow of evening brings peace and rest over all. The members of the choir a well-balanced and effectively rehearsed organization, consisting of about forty voices, can be relied upon to give a good account of themselves in that popular number by one of England's best-known composers, "Saviour, Thy Children Keep," Sir Arthur Sullivan, and in one of the organist's own compositions, "Pierce Was the Wild Willow." The recital will have the assistance of Mrs. Wilson-Jones, a new-comer in musical circles, one who has lived in the best musical atmosphere and a pupil of the great Lamperti, and of Garcia.

Power is to be developed at Kettle Falls, with a view to electrifying T. and N. O. Ry.

S.S. ROBERT DOLLAR IS FINE CARRIER

Newest Addition to Dollar Fleet Now at Vancouver From Leith

Vancouver, May 16.—Chief interest on the waterfront during the week-end centered on the new freighter, the Robert Dollar, in port from Leith, Roads, Scotland, completing her maiden voyage. The big ship is tied up at the Great Northern docks and is being visited by a large number of shipping men.

The vessel is the latest acquisition to the big Dollar fleet and is generally conceded to be the finest and largest. She was bought from the British ministry of shipping by A. Melville Dollar, when he made a special trip to the United Kingdom a few months ago. The ship was formerly the German steamer "Kurland" and was built at Hamburg during the war. The Germans never had an opportunity to even give her a trial trip and not a pound of German freight went into her holds.

The Robert Dollar is the biggest freighter that plies to this port. She is a twin-screw vessel, has four masts and six holds. She carries a crew of seventy men, including two wireless operators. She is in command of Captain Daniel Clinton and will go on the "round-the-world" service of the company.

The ship proceeded from Leith Roads to New York. She had bad weather crossing the Atlantic until within two days of Nantucket, and entered New York harbor in a thick fog. The ship behaved admirably on her maiden voyage. She picked up some cargo at New York and proceeded to Norfolk. From there she came through the canal and made a non-stop voyage to this port. She met the Bessie Dollar a day's run from San Francisco, dipped her ensign and proceeded.

Her cargo, which consisted of only a few hundred tons, comprises coke, molasses, machinery, marine oil, canned milk typewriters, etc. She

will load here for the Orient and will take on lumber and general cargo. The crew of the vessel are all Scotsmen. They are being sent overland to their homes, and Chinese, who arrived on the Bessie, will shortly replace them.

Capt. Clinton is the son of a well-known retired pilot on the Clyde. In the early days of the war he was captured at sea by the famous German cruiser Emden. Chief Officer John Baxter has also had wide marine experience, spending the early days of his life on square-rigged ships. He was for some years at Esquimalt.

John McMillan is second officer of the ship. He was second officer of the Coughlan-built ship "War Charger" on several voyages until she was sold to Greek interests about fifteen months after leaving this port. Chief Engineer J. Dow has also been on the seas since his early boyhood. During the war he joined the Royal Engineers and served with honor in the Mesopotamian expedition. The ship has other men who served with the military and naval forces during the war.

NOTICE TO MARINERS

British Columbia.

(53) Baynes Sound—Denman Island—Character of light to be changed. Date—On or about 15th May, 1921. Position—On west side of island, 1-1/2 miles southward of Village Point.

Latitude N. 49 deg. 32 min. 15 sec. Longitude W. 124 deg. 49 min. 12 sec.

Change in Light.—The fixed white oil light will be replaced by an occulting white acetylene gas light shown from a lens lantern. The red and white sectors will remain as at present.

Remarks.—The light will be unwatched.

Alaska.

(54) Summer Strait—Helm Rock—Gas and Whistle Buoy Established. Position.—On north side of rock, about 1 1/2 miles off Point Baker.

Description.—Red and black steel cylindrical gas buoy showing a flashing white light every 3 seconds, flash 0.3 second duration.

Depth.—15 fathoms.

Remarks.—Whistle sounded by the motion of the buoy on the waves.

In Port To-day From Orient: R.M.S. Empress of Russia

EMPRESS LINER JOGGED ALONG AT EIGHTEEN KNOTS

C.P.O.S. Boat Made Port This Morning From Yokohama; Big Silk Shipment

Completing her 35th eastbound voyage the Canadian Pacific Ocean Services liner Empress of Russia, Captain S. Robinson, R. N. R., made port shortly before noon to-day from Hongkong and Yokohama.

The Russia made the trans-Pacific trip in slightly over nine days, no attempt being made to cut down the fast time established last voyage by the Empress of Asia.

Officers of the Empress of Russia refuse to admit that the Empress of Asia holds the blue ribbon on the Pacific, it being claimed that the Russia had previously made the trip in 8 days 18 hours. The time set up

by the Empress of Asia last trip was 8 days 18 hours, 35 minutes.

On her trip over the Empress of Russia encountered some disagreeable weather, but ploughed along at an average of 18 knots. In addition to her 350 first and second class and large list of Asiatic steamer passengers, the Russia brought in a capacity cargo, including 700 tons of raw silk, valued at about \$4,000,000.

The silk will be shipped East by special train from Vancouver.

Eddie Hubbard, the aerial mail carrier, arrived from Seattle about 1 o'clock and left shortly afterwards with mail for Puget Sound.

The Empress of Russia cleared at 1.45 p. m. for Vancouver.

MANY VOLUNTEER STEWARDS SAILED ON AQUITANIA

Cunard Liner Got Away From Southampton For New York on Schedule

Southampton, Eng., May 15.—The Cunard Line liner Aquitania sailed Saturday for New York on schedule. Predictions had been made by leaders of striking stewards that she would have difficulty in getting away.

Of the 544 stewards on board, 180 were volunteers from the clerical staff of the Cunard Line. The 10-man board were trained stewards, mostly by all union men, who signed despite the strike order.

Riot At U. S. Port.

Beaumont, Texas, May 15.—Three persons were shot and seriously injured last night in a riot incident at the seaman's strike at Port Arthur, according to a telephone message to a local newspaper at midnight. Hirshey Patillo, a special officer, and two sailors whose names were not given, were shot in a fight in the dark.

The men had been assigned to guard the office of the McFadden Iron Works because of trouble there, near by between E. R. Canada and the McFadden Company and a number of men who charged the place as a reprisal following a fight Friday night. Union officials deny responsibility for the trouble.

MASTER OF BANTU WITH MONTEAGLE ON MAIDEN VOYAGE

Captain H. M. Bentley, master of the Isthmian Line freighter Bantu, at Vancouver last week-end from New York, was second officer of the Canadian Pacific Ocean Services liner Monteagle when she made her maiden voyage in March, 1920, to New Orleans.

"I saw the ship leave the ways and I was the first second officer on her. I well remember the maiden voyage to New Orleans," said Captain Bentley, as he enumerated all of the officers of the ship. Capt. Jones was in command. He made several trips on the Monteagle between Montreal and the United Kingdom.

POSSESS GOOD HEALTH BY LOOKING AFTER THE BOWELS

A free motion of the bowels, once or twice a day, should be the rule of every one, as half the ills of life are caused by allowing the bowels to get into a constipated condition. When the bowels are allowed to become constipated, the stomach gets out of order, and the liver does not do its work properly on account of not passing bile so that it does through the bowels, but is allowed to get into the blood, thus causing a poisoning of the whole system.

If you would escape constipation, sick and bilious headaches, heartburn, floating specks before the eyes, coated tongue, foul breath; the nasty irritating, bleeding, itching and protruding piles, you should keep your liver stirred up by the use of Milburn's Laxa-Liver Pills.

These pills, being purely vegetable, keep your liver working actively, helping it to resume its proper function, and thereby removing the bile that is circulating in the blood and poisoning the whole system.

Mrs. H. Barrows, Esq., N. S., writes: "I was troubled with sick headaches and constipation. One day a friend told me of Milburn's Laxa-Liver Pills. I got two vials, and found they did me a world of good. I therefore have great faith in them."

Milburn's Laxa-Liver Pills are 25c a vial, at all druggists or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.—Adv't.

HOPE IS ABANDONED FOR MISSING BARGE

Sault Ste. Marie, Mich., May 16.—There is practically no hope entertained for the missing barge Miztec or her crew. Coastguard men are patrolling the beach and islands for traces for any bodies which may be washed ashore.

The Pittsburgh Steamship Company's steamer Maunaloa which went aground on Cedar Reef, Saturday was released by a tug, after taking out her cargo.

The barge in question has been picked up and brought here.

Down-bound steamers report a heavy north gale blowing across Lake Superior with snow.

TO SUPPLY GARNETS.

The Western Abrasive Paper Company Limited of this city, has leased from the Alaska Garnet Mining and Manufacturing Company of Minneapolis, Minnesota, their group of mining claims near Wrangell, Alaska, for the purpose of obtaining a supply of garnets for abrasive purposes. Mr. R. J. Friezel of this city, a director of the company will leave for Wrangell on Wednesday's boat to superintend the mining and shipping of the garnets.

J. F. Fred, Hamilton, 60 years of age, dropped dead at a street corner.

ARE BOUND FROM PEKING TO LONDON

Sir Reginald and Lady Gamble Arrived To-day From China

Sir Reginald Arthur Gamble, associate inspector of the Salt Revenue Department in China, accompanied by Lady Gamble, was a passenger by the liner Empress of Russia, en route from Peking to London. Sir Reginald and Lady Gamble propose to enjoy a holiday in England. Miss Hazel Estey, daughter of the famous piano manufacturer, arrived here to-day by the C. P. S. liner from Yokohama, bound for Boston.

Ernest Johnson, agent for the Admiralty Line at Kobe, accompanied by Mrs. Johnson, also made port by a trans-Pacific liner. They will spend a vacation in the United States before returning to Japan.

Others arriving by the Russia were: I. S. De Beer, wife and two daughters, of Wellington, New Zealand, who have been touring the Orient, and Dr. J. White-Francis, of Shanghai, China. All told the Empress of Russia brought in 300 Japanese passengers, second cabin and several hundred in the Asiatic steerage. Aboard that ship were a party of Chinese students who will make a special study of modern railroad methods with the Canadian Pacific Railway. Arrangements for the bringing of these students to Canada were completed by G. M. Bosworth, chairman of the C. P. O. S., by Mr. W. B. Palmer, of Sioux City, Iowa, an old friend of W. R. Dale, local agent for the Great Northern Railway, arrived to-day from the Orient aboard the liner Empress of Russia. Mr. and Mrs. Palmer left here on a previous, outbound voyage of the Empress of Asia.

EX-PRIZE FIGHTER IS NOW EVANGELIST

Paul Rader, the Preacher With a Punch, Arrived To-day From the Orient

Paul Rader, former prize-fighter, and for some years past pastor of the Moody Church, Chicago, who has been touring the Orient as president of the Christian Alliance, was a passenger by the liner Empress of Russia, arriving to-day from Yokohama. Mr. Rader is completing a journey which has taken him from many parts of the world, studying missions.

He is a man of forceful personality and may be described as an evangelist with a punch.

The Rev. Mr. Rader was in the pugilistic game ten years ago, and after 32 successful fights and a great deal of exhibition boxing, was being groomed to meet Jack Johnson, then the heavyweight title-holder, when the change came in his life that removed him from the squared-circle to the evangelist's platform.

Sick in Orient.

While in the Far East, Mr. Rader contracted blood-poisoning, and this was followed by pneumonia, and the serious ailment the athletic man has never experienced. Even during his illness he held daily conferences with mission workers, but was forced to cancel a series of revival meetings at Canton and Shanghai, and owing to the need of recuperation he was compelled to cancel his scheduled meetings in Tokyo. He spoke before large meetings, however, at Canton and Shanghai, in China, and at Hiroshima, in Japan.

May Speak at Vancouver.

The Rev. Mr. Rader was met on his arrival here, and if the Empress of Russia makes Vancouver in time, an effort will be made to hold a meeting there, before the fighting revivalist proceeds to Chicago.

WRECK OF GOVERNOR SUBJECT OF INQUIRY

Fort Flager Dock Lights, Near Port Townsend, Said to Resemble Ship's Lights

Seattle, May 15.—Because of their resemblance to the lights of a ship, the dock lights at Fort Flager, near Port Townsend, are a cause of confusion to vessels swinging around Point Wilson on their way into the Sound, it was testified by witnesses at the opening session of the trial of Captain H. H. Marden, pilot of the ill-fated passenger steamer Governor, before the local board of the United States Steamship Inspection Service. As pilot, Captain Marden had charged of the Governor when she was rammed aboard by the freighter West Hartland early the morning of April 1.

The Fort Flager dock, it was brought out, has a red light on one side and a green light on the other, so placed that they correspond exactly to the red and green lights of a ship. A road, which runs up the side of the dock is illuminated with white lights which add to the deception, having the appearance of mast lights.

Good Pilot

Four witnesses were examined and all testified that Captain Marden is a conscientious and careful pilot who always keeps a strict lookout and is attentive to all the duties of his position.

Capt. C. W. Sprague and Capt. Thomas Grant, both veteran Puget Sound pilots, testified as to the Fort Flager dock lights.

Lights Cause Confusion

Captain Grant corroborated the testimony that the dock lights cause confusion.

Ernest Kellenberger, second mate of the Governor, who relieved Third Mate Arne Hage at midnight, four minutes before the disaster, was the first witness. He testified that the starboard door of the pilothouse was open. He said that when he arrived on duty, Capt. Marden did not mention the proximity of lights, but explained that a pilot is not required to "report to us." It was dark in the pilothouse. He testified that the glass of the pilothouse windows as it is outside, under certain conditions, especially if the wind is blowing.

Heard Whistle Blow

Kellenberger said he entered the pilothouse a minute after midnight. He had been in the pilothouse two, three or four minutes, he continued, when he heard a whistle blow, and Captain Marden, who had been facing forward in the house in the position of one keeping a lookout, jumped for the starboard door, going out on the starboard wing of the bridge.

"That was about one minute before the collision," said Kellenberger.

The witness said that the fact lights were not reported to him would cause him to infer that there were no lights to report.

He testified he had been shipmates with Captain Marden for two and a half years and said the pilot always had kept a careful and conscientious lookout, attending strictly to his duties at all times. The same testimony was given as to Captain Marden's ability and conscientiousness by Third Mate Arne Hage, who is also on trial before the local board.

Captain Sprague testified that when looking for a deck or a point of land, he always took his position in the pilothouse. This, he said, kept him close to the whistle cord, the ship telegraph and the binoculars. When he heard his whistle blown, he said, he always opened the pilothouse

window in front of him. He has been a Puget Sound pilot for twenty-six years, and paid tribute to Captain Marden as a man of high calibre and a strong sense of responsibility. He then detailed his experiences with the Flager dock lights.

Captain Grant, who also paid tribute to Captain Marden's conscientiousness and ability, has been a Puget Sound pilot for twenty-five years, and has known Captain Marden thirty-two years. He said he always took his position midship, as there he could more easily locate anything in sight or a wharf.

The Marden trial was continued to 1.30 o'clock this afternoon.

MADISON CYLINDER GRINDER

We have just installed a new Madison Cylinder Grinder, which is the latest and most up-to-date grinder on the market. This machine is being used by all the leading automobile and traction engine factories in Canada and the United States. When your cylinders get worn and your engine loses its power, let us grind the cylinders and fit in new pistons and rings, which will make them as good as new, besides the saving in gas and oil in a short time will more than pay for having the work done, to say nothing about the satisfaction you will get out of your engine.

We Give

A 10-Day Tube to anyone who asks. Send the coupon and watch the delightful effects.

You Will Enjoy This new teeth-cleaning method

Brush teeth for ten days in this new way. We supply the test. See and feel the good effects. Compare them with the old ways.

It will be a pleasant test. And it may bring to you, as it has to millions, a new conception of clean teeth.

Whiter teeth

One great object is to fight the film—that viscous film you feel. It clings to teeth, gets between the teeth and stays.

Old brushing methods do not effectively combat it. Much is left intact, forming a dingy coat. And most tooth troubles are now traced to it.

Film is what discolors, not the teeth. It forms the basis of tartar. It holds food substance which ferments and forms acid. It holds the acid in contact with the teeth to cause decay.

Germ-bred by millions in it. They, with tartar, are the chief cause of pyorrhea.

Fight it daily

Dental science has found two methods to effectively fight film. Many careful tests have proved them. Leading dentists everywhere now advise their daily use.

Both are combined in a tooth paste called Pepsodent—a scientific product. And to millions of people it is bringing whiter, cleaner, safer teeth.

Acts like fruit acids

Pepsodent also brings three other effects, such as fruit acids would bring. It brings them regularly and at proper times.

It multiplies the salivary flow—Nature's great tooth-protecting agent. It multiplies the starch digestant in the saliva, to digest starch deposits that cling. It multiplies the alkalinity of the saliva, to neutralize mouth acids which cause tooth decay.

Modern diet, rich in starch, makes these things essential.

Quickly seen

The effects are quick and apparent. No one can doubt the benefits when they are explained.

Send the coupon for a 10-Day Tube. Note how clean the teeth feel after using. Mark the absence of the viscous film. See how teeth whiten as the film-coats disappear.

Feel and see these good effects, then judge if you always want them. They are vastly important. Cut out the coupon now.

Ten-Day Tube Free

TENANT BECOMES OWNER

In 1919 he paid a rental of \$25 a month for five rooms and bath. In 1921 the same flat cost him \$45.

"The only way to beat the landlord is to buy a home," said he to himself.

Within two weeks he became the owner of a two family house, for which he had paid \$9,000—\$2,000 in cash. The interest on his mortgage alone amounted to \$400, and with taxes, insurance, repairs, etc., the annual outlay is close to \$700. Notwithstanding that he pays himself only \$20 a month in rent.

You see, since he became an owner he holds a different view concerning the rights of landlords. He has shifted the greater portion of the burden on to his tenant.

David Sands, a well-known farmer who has been resting from his home in Culloden since last Tuesday, has not been located yet.

The body of Russell Surline, who was drowned in the St. Clair River at Sarnia last Tuesday, has not been recovered.

EXPERIENCE IN GLASSES

In order that customers might receive the maximum of value, we have taught our shopmen that Mechanical Superiority is as much a matter of importance with us as the quality of materials used.

Your prescription will be as perfect as it is possible to make it with trained workmen.

MISSING MAN FOUND DROWNED

(Continued from page 1.)

July 27, 1917, appointed as the Fraser Valley and Coastal mainland section representative on the Board. At that time he received the endorsement of Chilliwack residents as being one of the most useful men for the work of the Board.

For many years the late Mr. Nelems was prominent in land settlement work, where he achieved great success with encouraging settlers to the Fraser River Valley. He was a noted expert on settlers' problems and improvement of market conditions, displaying a ready ability to solve

M. H. NELEMS

problems along these lines. The settlers he encouraged to take up land in the Fraser River country prospered exceedingly, and in turn were in hearty endorsement of his nomination to the Board in 1917.

Following the change in the Board that occurred in January, 1919, when several members resigned, the late Mr. Nelems was appointed to the chair, a position that he held until February 23, 1920. Since then he has been in retirement.

The inquest is set for to-morrow.

W. A. PRITCHARD HERE

Does Not Like Island of Yap Incident.

W. A. Pritchard, Socialist, lectured to a fairly large audience in the Columbia Theatre last night, his subject dealing with economic problems of the day. He said that any labor leader who preached that the troubles of the laboring classes could be alleviated through co-operation and arbitration with the capitalist was preaching rot. Such a thing was impossible as the working class would be given nothing more than what they demanded and got themselves, he declared.

In answer to a question from a man in the audience regarding armament, the speaker said that while the United States and Japan were yapping about the island of Yap, which both countries coveted because it was an important coaling station for fleets, and while both these countries were engaged in a keen naval construction contest, Great Britain having suffered during the war and not having any money to keep up the race for sea supremacy, was considerably calling on these nations to maintain peace and reduce their armament.

Mr. Pritchard will speak to-morrow night at the Boilermakers' Hall, Broad Street, on his experiences during the Winnipeg strike.

Announcements

Opening Game Postponed Owing to Heavy Showers

Ceremonies Will Be Performed To-morrow If Weather Clears Up; Victoria Won From Tacoma Yesterday and Evened Up Series; Catcher Anfinson Is Now On His Way to Join Club; Dempsey Reports.

When the man who regulates the activities of the clouds decided to sprinkle Victoria to-day with a real old-fashioned shower he spoiled a lot of sport for 5,000 good-natured baseball fans.

After the brilliant weather of the past two weeks it looked as though one could have banked on sunshine for the opening game here this afternoon. But evidently the moderation spirit hit the clouds last night and to-day everything is wet here below.

When the officials of the Victoria ball club awoke this morning and heard the pattering on the roofs of their homes and then as they sprung to the window saw the streams racing down the sides of the road, they decided that it would be impossible to stage the opener to-day.

Everything will be just one day late. All the ceremonies which were slated for this afternoon will be held over until to-morrow. The parade will start at 4.45 o'clock from the St. James Hotel and the game first ball will be pitched by Hon. William Sloan at 5.15 o'clock.

Tacoma, May 16.—Tacoma and Victoria engaged in a real game of ball yesterday, the Capitals winning 5 to 4 after the hardest fought game of the series. The victory for the visitors gave Cliff Blankenship's men an even break for the series, and the two teams left for British Columbia last night, prepared to renew the fight in Victoria on Tuesday.

The Felines played good baseball, and led until the fifth inning. The score:

Victoria.		Tacoma.	
AB	R H PO A E	AB	R H PO A E
Messner, 3b.	5 0 1 2 1 1	O'Brien, cf.	3 1 2 1 0 0

Batted for Abrams in 7th. By innings: Victoria 0 0 0 2 3 0 0 5 Tacoma 0 0 0 2 0 1 1 0-4 Summary—Stolen bases, O'Brien Church. Sacrifice hits, Gomez, Rego. Two-base hits, Cable, Hanson. Three-base hits, Robke, Hanson. Shoots. Home run, Grantham. Double plays, Handley to Dempsey; Handley to Church to Dempsey. Left on bases, Victoria 8; Tacoma 6. Nine hits five runs off Abrams in 7 innings; no hits no runs off Eley in 2 innings. Charge defeat to Abrams. Struck out, by Hanson 4; by Abrams 3. Bases on balls, off Hanson 2; off Abrams 2; off Eley 2. Passed ball, Stevens. Time of game, 1.55.

The teams arrived here this afternoon from Seattle and will remain idle until to-morrow afternoon. President Rithet expects that the 5,000 fans who had planned to attend the game this afternoon will be able to arrange things so that they can be on deck to-morrow.

Lee Dempsey joined the Victoria team on Saturday and played his first game yesterday. He replaced Murphy at first base and showed up well. He collected a single and was the only infielder who did not contribute an error.

Yesterday's game was an infielder's tussle as far as Victoria was concerned. The Capitals infielders flurried in 19 assists, an turned in two snappy double plays.

San Francisco, May 16.—Ed. Anfinson, catcher of the San Francisco Club of the Pacific Coast League has been turned over to the Victoria, B. C. team of the Pacific International League and "Wee" Ludolph, San Francisco pitcher, has been sent to Des Moines of the Western League, it was announced to-day.

Manager Blankenship juggled about his outfield again yesterday. He put Gatewood, who has been held as a second string catcher, in left field and moved Bankhead over to centre field, benching Light. Shoots is still holding down the right field position, his hitting making it impossible to replace him just now. Shoots slashed out a triple yesterday.

This boy Hanson wades right into the ball. Yesterday he pitched a splendid game and was credited with a double and triple.

Yakima, May 16.—Yakima won yesterday's game from Vancouver by 4-2. At Yakima—R. H. E. Vancouver 2 8 2 Yakima 4 7 1 Happ and Boelke, Eastley and Cadman.

Saturday's Games. Tacoma, May 16.—Tacoma outplayed Victoria in all departments of the game yesterday and won a double header, 4 to 0, and 7 to 3. Cross allowed the visitors to hit two hits in the first game, while homers by Stevens and O'Brien featured. Sensational fielding by the Tigers enlivened the second game. At Yakima—R. H. E. Victoria 0 2 3 Tacoma 4 8 1 Batteries: Washington and Rego; Cross and Stevens. R. H. E. Victoria 3 8 5 Tacoma 7 10 1 Batteries: Easter and Rego; Kimpfing and Kaufman.

Carpentier, Fit and Ready, Reaches New York; Thinks He Will Be Victor

New York, May 16.—Georges Carpentier, European heavyweight champion, arrived to-day from France to prepare for his international battle with Jack Dempsey at Jersey City, July 2.

The French pugilist, with his party, was the centre of interest when La Savoy docked. The champion, immediately was surrounded by a delegation of newspapermen and photographers.

Carpentier Looks Good. Carpentier appeared to be in excellent condition and fairly radiated confidence. Most of the questions asked him were answered by an interpreter but occasionally Georges would inject a direct reply.

This was the case when he was asked who would win the big fight. Without a second's hesitation he replied with a smile, "I."

Tex Rickard, promoter of the championship bout, was at the head of an official welcoming party which awaited Carpentier at the dock.

Lalonde and Warriors Arrive in Vancouver

Vancouver, May 16.—Vancouver Terminal's band of lacrosse stars that will essay to defend the Minto Cup this season will arrive in town to-day, if schedules are not interrupted by unforeseen events. They will hold their first workout soon after their arrival as they can get into their togs.

Newly Lalonde and Doc Crookall will again be out in front, leading the goal-getting attack this season. Those who are accompanying the Flying Frenchman are: Walsh, Shamrocks; Butler, Shamrocks; Watson, Cornwall; Langvein and Brassard. In addition to which there will be Dave Gibbons and Johnny Howard.

Harry Cairns, of the V. A. C., Bill Davis and Pitts will work out with the reorganized Greenhirts and will probably be seen in action before the schedule has gone very far.

No Trouble Lining Up Teams. Manager Ernie Murray, of the Vancouver Lacrosse Club, announced last night that he will have about 18 players out to practice at Con Jones's Park to-night.

"Over at Victoria they have three to spare, so we are not having any trouble over lineups," he added.

At Yakima—R. H. E. Vancouver 2 8 2 Yakima 4 7 1 Happ and Boelke, Eastley and Cadman.

New Westminster, May 16.—A possible silver lining in the lacrosse sky is discerned from a statement made public on Saturday by Charles E. Welsh, former president and manager of the Salmonbellies and at present manager of the Minto Cup.

Mr. Welsh believes the present tangle in the schedule of the Con Jones league is as follows: May 24—Victoria at Vancouver. May 25—Victoria at Vancouver. June 1—Vancouver at Victoria. June 4—Victoria at Vancouver. June 8—Vancouver at Victoria. June 11—Victoria at Vancouver. June 15—Vancouver at Victoria. June 18—Vancouver at Victoria. June 21—Vancouver at Victoria. June 25—Victoria at Vancouver. July 1—Victoria at Vancouver.

RECORD TROUT TAKEN FROM COWICHAN LAKE. Two of the largest trout ever taken out of Cowichan Lake are now on exhibition in Lenfesty's window, Government Street. One fish weighs eight pounds, and the other five. The trout were caught in the neighborhood of Goat Island, and according to Mr. Lenfesty are the finest specimen of lake trout, caught in Cowichan Lake he has ever seen. The fish were caught by a resident of the lake, who reports that the fishing is exceptionally good at present.

Also Win at Oke. The match played at Oke Bay Saturday between teams representing the same two clubs resulted in a win for Victoria by a single point, the scores being as follows: Singles. Child's Play Features Opening Amateur Games

Frank Moore, Conservative Leader, Tried to Gain Point By Argument and Was Banished From Field and Game Broke Up; Elks Won Game By Forfeit; Yarrows Easily Beat K. of C.

Frank Moore, leader of the Conservative party's team in the City Amateur Baseball League, tried to introduce politics into the opening ball game at the Stadium on Saturday afternoon. For some minutes he got away with a lot of heckling and then Umpire McGregor, acting in the role of a four-fisted bouncer, chucked Moore out of the game.

Bob Mellimoyl, who tried to assist Moore in the argument, was also ordered out of the game, and this left the Conservatives with but seven men and they refused to continue to play.

This was the unfortunate ending to the second game of the double-header played at the Stadium. The Knights of Columbus and Yarrows went through the first battle without any trouble, the Shipbuilders winning easily in seven innings by 14-1.

But when the second game was eight innings old Frank Moore pulled a little stunt which was not on the programme. At that time the Conservatives were leading by 7-3.

But when the second game was eight innings old Frank Moore pulled a little stunt which was not on the programme. At that time the Conservatives were leading by 7-3.

After the fire of the argument had died down Manager Lorimer, of the Elks, announced that he did not want to win a game in that manner and that the umpire would order it replayed at a later date.

It is too bad that the opening was attended by such a display. One thousand fans, the largest to attend an amateur game here in years, were packed in the grandstand and took a great interest in the play. Then came the child's play which sent so many of the fans home disgusted.

In the eighth inning Poke Gravin, of the Elks, tried to make third base and Umpire McGregor called him out. Captain Moore said that Gravin ran out of the base lines and then started a wild argument. Umpire McGregor refused to stand for any talk and told Moore to get out of the park. Moore couldn't find a stopper anywhere and so McGregor pointed him to the exit and shortly afterwards Mellimoyl followed him out.

This kind of conduct cannot be tolerated by the amateur league. It will kill the game. A player of Moore's experience should know better. Umpires are appointed to handle the games and players must abide by their decisions, otherwise there will always be confusion and pandemonium.

The Elks and Conservatives provided a pretty game up till the lamentable eighth inning. H. Taddy twirled nicely for the Conservatives and had the Eddie Brown show Woodhouse, who started for the Elks, did not prove a puzzle to the politicians and lasted only four innings. Ray Parfitt, who assumed the burden of travelling a little better.

Conservatives Started Well. The Conservatives scored in the first inning, Moore cracking out a two-bagger and scoring on a wild pitch. The Elks game back in the second and the two bases were hit by the second batter, Gravin's out and R. Copas's single.

In the fourth-inning the Conservatives opened up and scored three runs on a wild pitch, a single and an error. The Elks drove in one run in the sixth and the politicians got another in the seventh and added two more in the eighth. The Elks added another in the eighth and then the game ended.

The box score follows: Conservatives. Newman, ss. 4 1 1 2 2 1 Mellimoyl, 2b. 4 0 1 1 4 0 Moore, 2b. 4 0 0 3 1 4 Potts, c. 4 0 0 0 0 0 Scott, lb. 3 1 0 12 0 Murray, cf. 3 2 1 5 0 0 Coleman, lf. 3 0 1 0 0 0 W. Taddy, p. 3 0 0 0 0 H. Taddy, p. 4 1 1 2 0 0 Totals 32 7 8 22 10 4

Score by Innings—Conservative Club 100 300 12-7 Elks 0 0 0 0 0 0 Summary—Sacrifice hits, Moore; Gravin; Park; sacrifice hits, Mellimoyl, Coleman, Gravin; stolen bases, Moore, Potts, W. Taddy, H. Taddy, 3; double plays, Jackson to Park to Jackson; bases on balls, off Taddy 4; 4 in 2-3 innings; off Parfitt 4 in 4 2-3 innings.

Yarrows All the Way. Yarrows had things their own way in their game with the Knights of Columbus. Eddie Brown showed splendid form on the mound for the Shipbuilders and came within an ace of getting a no-hit-no-run game. Only one single was chalked up by the Knights. R. Oatman checking in with that hit.

Yarrows had no trouble assuming an early lead. Talbot, who started to pitch for the Knights, had nothing and yielded nine hits in three innings which, with ragged fielding led the Shipbuilders trot in with thirteen runs.

After Yummy McGregor relieved Talbot the Shipbuilders were unable to get far. In the four innings they did not collect a hit off McGregor, although they forced in one run.

The box score follows: K. of C. R. Oatman, ss. 3 0 1 1 1 3 Brynjolfson, lb. 1 1 0 7 0 0 Johns, 2b. 1 0 0 1 0 1 Carlin, cf. 2 0 0 0 0 0 Speers, lf. 2 0 0 1 0 1 Lockard, rf. 3 0 0 0 1 0 Matthews, 2b. 3 0 0 1 2 0 Davis, c. 2 0 0 5 1 0 Talbot, p. 1 0 0 1 0 0 McGregor, p. 1 0 0 1 0 0 Totals 23 1 1 18 6 6

KING'S DAUGHTERS' HOSPITAL EXTENSION

Effort Will Be Made to Secure Isolation Ward and Nurses' Home

Duncan, May 16.—Closely allied with the subjects to be discussed at the convention of the King's Daughters, to be held at Duncan June 8 and 9 is the future of the King's Daughters' Hospital there.

Opened on a limited scale in April, 1911, as a memorial institution, it has expanded until the time has come when the customary auxiliary buildings essential to an institution receiving Government recognition have become necessary, entailing probably some reconstruction in the system of management.

The most urgent requirements are a nurses' home, and an isolation ward for infectious cases. The institution as originally opened was expanded in 1912, and then in the following year a maternity ward was added. It was this ward which was burned out some years ago, and rebuilt later. Now, in addition to a small building recently given by Mr. Corfield, and re-erected on the hospital property, where it has been adapted for institutional purposes, the pressure on the accommodation has been so great that the verandas have had to be used for various purposes connected with the hospital. Last month the average number of patients was 26 and the accommodation very considerably.

At the convention here next month the status of the King's Daughters to the institution will doubtless be considered in the light of the added responsibilities of the building. Victoria representatives regularly attend the meetings here, and continue to demonstrate the kindly interest in the institution which they have done since its establishment. On the second day of the convention it is proposed to hold a function at the beautiful home of Mr. Elkington.

bridges, which are greatly needed here.

Louis Proux left on the last boat for Vancouver to receive medical treatment.

The residents are looking forward to receiving a visit from the Minister of Agriculture in the near future.

Duncan—Captain and Mrs. Sunderland, formerly of this district, are the guests of their son, Mr. Harcourt Sunderland. They will return to England in November.

Duncan, May 15.—The situation disclosed at the meeting of the Cowichan Children's Aid Society, held on Friday under the chairmanship of President G. A. Gheke, proves that a larger share of support must be forthcoming if the Society may be able to care for all the suitable cases from so wide a district. One case concerned a child recently sent to the Protestant Orphanage in Victoria, the other that of a child sent to the Children's Aid Home, Vancouver. Other cases before the meeting were adjourned for further information to be secured.

In deciding to vote \$25 to the funds of the Protestant Orphanage in Victoria, the members expressed the view that the Cowichan endeavor to provide for the cases which have gone to outside institutions for care, but that more funds should be placed at the disposal of the society to enable the officials to place neglected children in proper institutions.

GREEK PLAY IS PROGRESSING WELL

Report of Committee in Charge Bespeaks Great Success for Production

The Greek play "Danae" contains so much of novelty and interest that it is not surprising that unusual enthusiasm is being aroused over the preparations for the first Al-fresco play.

Generally it is hard to get people to attend the early rehearsals of an amateur production. Not so with "Danae." Twice a week the B. C. College of Education is crowded with principals and chorus to say nothing of the audience who come to look on. Owing to the fact that several of the principals and dancers are at present in Ermine, the full cast has never yet been assembled, but from sixty to sixty-five of the 100 performers manage to attend most rehearsals.

The prologue is specially popular. In this Mrs. Browne has outlined the story of the play in blank verse, and Mr. Macey's delightful music will ensure its instant success. Eighteen singers take part in the prologue, which is being coached by Mrs. A. B. Sanders amongst them being: Mrs. Cuthbert Holmes, Mrs. Arthur McCallum, Mrs. Scharff, Mrs. Mogg, Miss P. Beck, Miss B. M. Pemberton, Miss G. Hudson, Miss Watson, Miss Carey, Miss Burns, Messrs. Evelyn Mitchell, Percy, Morris, Wheatley, Hoare, Richards, Gillam, Godfrey and Capt. Mogg.

At present the dances and the musical numbers are being practiced separately to save time, but before long they will be included in the general rehearsal. On Thursday next there will be a specially large attendance as it is intended to go right through the dialogue of the play with the processions and incidental music. Mrs. H. B. Beaven is bringing a party including Vice-Admiral Sir Edmund and Lady Pears.

The date of the play has not yet been fixed. The producer has, on Mrs. Brownlee's behalf, invited the heads of departments and the principal characters to tea at the Empress Hotel to-morrow to discuss the question of the most suitable date. Mrs. Beaven and Mrs. Adams Beck have very kindly consented to act as hostesses, since the actresses is at present in the South. Mr. Napier Denison will also be consulted, for it is felt that weather conditions will be one of the essential factors in making this first Al-fresco play the really phenomenal success it deserves to be.

The promoters of the B. C. College of Education are very much gratified to hear that Mrs. Nichol, wife of the Lieutenant-Governor, has expressed her intention of attending the rehearsal of "Danae" next Thursday if possible. Not only is her kind action appreciated on account of the official position which her husband holds but still more because it is a splendid endorsement of the play by an accomplished musician and artist, whose opinion and views on matters connected with the drama will be of the greatest value to those responsible for this new undertaking.

While Touring—Chiclets

If the road is dusty or the day close—you'll find wonderful refreshment in the zippy flavors, the crisp white candy-coating, and the tonic qualities of Chiclets.

They sweeten the mouth, help put your digestion in order, help keep the teeth right.

And you can get them in your favorite flavor—tingling Peppermint, luscious Tutti-Frutti, tempting Spearmint.

Sold by most stores, ten Chiclets for 5c.

ANNOUNCEMENT TOO LATE TO CLASSIFY

Advertisements for this Classification will be received on the day of insertion only and may be handed in or phoned as late as 12.30 p. m. The charge under this heading will be 2c. per word, with a minimum of 12 words.

(To insure publication the same day, regular classified advertisements must be received not later than 11.45 a. m.)

NOW BIGGEST COMEDY PRODUCERS

The Christa Company now produces twenty-four two-reel comedies released each year through Educational Film Exchanges. Besides these comedies Christa is also the producer of a single reel Vanity comedy, released weekly through the same exchanges.

Neal Burns, Dorothy Devore, Bobby Vernon, Helen Darling, Vera Steadman, Eddie Barry, Earl Rodney, Victoria Daniel and others are in the Christa comedies; and Mary Wynn, Irene Dalzell, Henry Murdoch, Frank Feeley and others in the single-reel comedies.

FLEET FOOT Sport Shoes

THE very name suggests the kind of shoes they are. FLEET FOOT—light, easy, flexible—springy and buoyant when walking the links—firm and sure when on the tennis court and bowling green.

FLEET FOOT shoes were designed originally for sport. Men liked them so well—found them so restful and comfortable—that they demanded FLEET FOOT styles for every-day wear.

Then wives and mothers and girls in dainty summer gowns insisted on having FLEET FOOT Pumps and Oxfords.

Now, there are styles for every member of the family—men, women, boys and girls—for morning, noon and night—work and play—in town and for holiday time.

Get the genuine FLEET FOOT shoes have the name stamped on them. It pays to get the genuine FLEET FOOT—pays in style, comfort, long wear and economy.

Ask your Shoe Dealer for Fleet Foot and make sure you get Fleet Foot.

Concert at Luxton

Luxton Hall—Luxton Hall will be the scene on Thursday evening next of a concert and dance, promoted by kind friends in aid of a returned soldier, recently married, whose home unprotected by insurance, was entirely burned out a fortnight ago.

The sympathy of Mrs. R. H. Pooley has been enlisted in the enterprise, and she has promised to arrange an attractive programme. Dancing and refreshments will follow the musical part of the proceedings, and the ladies are asked to contribute cakes, fruit, or sandwiches, in order that all unnecessary expense may be spared.

Courtenay May Queen

Courtenay—In a very close contest, Miss Dorothy Hames was chosen by the Courtenay School to be its second May Queen. The last similar festival was held two years ago when Miss Mildred Cunningham had the honor of being crowned.

It is hoped that the celebration which has been postponed on account of the Chatsouqua will be held on May 31 so that the May spirit will still be present.

The programme includes a parade from the school to the Agricultural Grounds where the coronation will take place. The Maypole will then be danced following the old custom. Other folk-dances include the Swedish Oxen Dance, the Danish Shoemaker's Dance and the Italian Tarantella. Appropriate songs will be given by the school.—Comox Argus.

Come to Victoria

Ladysmith—Mr. and Mrs. John Michie left, on Thursday morning, for Victoria, where they will stay for a few weeks with their daughter, Mrs. Paton. Mr. and Mrs. Michie are among the oldest residents of the district, having lived in Ladysmith since the city was born, before that time living at Wellington, and their many friends will be sorry that they have decided to make their future home in Vancouver.

Receives a License

Nanaimo—Mayor Bushby has paid a visit to the dairy of J. J. Dickinson, and following a thorough inspection the Mayor announced that Mr. Dickinson is again permitted to sell milk within the city limits. The Mayor found everything at the dairy in first class shape, and accordingly Mr. Dickinson was issued a license to again sell milk within the city limits.

Next Week's Celebration

Nanaimo—The committee in charge of the sports to be held in connection with the celebration on May 24, last night completed their programme of events. The children's sports will be held on Comox Road Park, and will commence at 9 a. m. The adult sports will take place on the Cricket Grounds.

New Policeman

Nanaimo—At a meeting of the Board of Police Commissioners held Friday night, Mr. Fred Rowbottom was appointed constable on the city force. His position was made vacant by the resignation of Police Officer John Pearson. There were eight applications before the Board.

Co-operative Movement

Cobble Hill—During the last few days the district has been thoroughly canvassed to gain support for the Cobble Hill Farmers' Co-operative Association. Monday evening a public meeting will be held in the Old Hall at which the organizing committee will resign and directors will be elected to carry on the work; also the matter of a business site will be discussed. C. R. Whitney Griffiths and others will speak at this meeting.

Sayward News

Sayward—J. A. McDonald, road foreman for the district, has moved into his new home. Mr. McDonald is one of the new soldier settlers. Before moving to Sayward he resided in the Comox Valley, and he states that he is well pleased with his choice in moving to Sayward.

The weather during the past week has been very unsettled and cool. Cherries, pears and strawberries are in bloom, gooseberries and currants have formed, and rhubarb is plentiful and the outlook for the fruit crop looks favorable.

Mrs. A. Brown, Sayward's delegate to the Child Welfare convention recently held in Victoria, arrived home and reports a very successful convention. She expresses herself well pleased at the reception she received. Mrs. Brown reports that she was unable to see the Hon. Minister of Public Works regarding the building of

HAS MEMBERSHIP OF OVER THOUSAND

Metropolitan Church Was Opened Just 30 Years Ago

Metropolitan Church, Victoria, has closed a most successful year of history under the pastorate of Rev. W. J. Sibley, D.D., who came to this church in June last after a pastorate of seven years in Mt. Pleasant, Vancouver. During the year the interest in the work of the church has been shown to be a growing one by the increasing congregations and the enlarging activities in the various organizations.

ANOTHER GOVERNMENT OFFICE LEAVING CITY FOR VANCOUVER

Major Godfrey, in charge of the Soldiers' Settlement Board work on the Island, told The Times this morning that in four or five weeks from to-day the work of the Soldiers' Settlement Board will be handled from Vancouver, with the exception of the Island field staff, and a certain amount of local work that is to be carried on by Major Godfrey himself, with the aid of a male stenographer. Major Godfrey will act as the representative of the Soldiers' Settlement Board for the Island, while the assistant will be employed in the capacity of a clerk to meet local inquiries and other work that is likely to continue for a while until the change has been entirely effected.

Major Godfrey explained that the work of the Soldiers' Settlement Board on the Island had been put into such a shape that it could readily

\$1,425 by the Sunday School, of which latter sum \$500 was given to missions. Through a generous bequest by the late David Spencer, supplemented by further amounts from members of the family, the church has been furnished and redecorated, and now presents an appearance that is most pleasing and conducive to worship. The work of the choir, under the direction of G. A. Downard, the choirmaster, and E. Parsons, organist, has been largely instrumental in maintaining the interest of the people in the public worship of Sunday.

The officials are contemplating the installation of a new heating plant during the present summer. It is interesting to recall that this beautiful place of worship was erected and dedicated on May 17, thirty years ago.

The membership, which stands at more than one thousand, has been increased during the year by nearly one hundred, and the evangelistic spirit has been well maintained.

The financial situation is most gratifying, there having been contributed during the past year, a total budget of \$12,500.

Of this amount \$3,550 was given to the general missionary funds of the church, \$1,182 to the Woman's Missionary Fund, \$1,229 to the Chinese Famine Fund. Nearly \$800 has been raised by the Ladies' Aid Society,

Recent revelations of the adventurous lives led by members of the Secret Service raise the question, "How many people have heard of the King's Watch?"

This decoration, regarded as one of the greatest honors the King can bestow, is awarded to Secret Service men only.

The decoration consist of a gold hunter watch of exquisite workmanship. Inside the case is inscribed the words, "For services rendered."
 GEORGE

About twelve of these decorations were won during the war. The services rendered by one of the brave recipients—a naval officer—will serve to illustrate that the King's Watch is a hard-earned honor. The officer in question, an excellent German linguist, spent eighteen months mixing with enemy sailors at the German naval bases of Kiel and Wilhelmshaven. He transmitted the information he obtained to our Government, to whom it was invaluable.

Every country has its special decoration for these adventurous men. One Central American republic awards a tiny gold dagger, inscribed with words similar to those on the King's Watch.—Tit-Bits.

IS TUTOR IN THE ART OF LOVE

Constance Talmadge Stars at Royal This Week

Constance Talmadge's latest starring vehicle, "Lessons in Love," which is the attraction at the Royal Victoria Theatre all this week, commencing to-day. "Lessons in Love" is an adaptation from Douglas Murray's stage play, "The Man From Toronto." It is a story of hidden identity. Two old men attempt to pick a husband for their only daughter, a charming young girl. One of these old men tries to induce his nephew to come East and meet the girl. He

rides to take a hand in her own affairs. She is not one to place herself on exhibition for a prospective husband to look over and reject, as may please him. She hides her identity behind a serving maid's uniform, and, thus disguised, plays fast and loose with him. Of course, he falls in love with her and she with him. There is a serious misunderstanding towards the end, but the decidedly complex situation is finally smoothed out.

FAMOUS HORSE IN MOTION PICTURES

"Black Beauty" at Dominion Will Be Great Attraction

"Black Beauty," known and loved for forty years in every part of the world where books are read, has come to life. The wonderful horse whose autobiography was recorded by Anna Sewall to delight millions of readers in every civilized country on earth is to be seen in action. His life, through all its changing phases of playful colthood, early pleasures, trials and fears; its contacts with the lives of other horses and of humans; its hardships, dangers and triumphs,

will be unfolded on the motion picture screen.

"Black Beauty," faithfully rendered from the phenomenally popular story by Anna Sewall, will be shown at the Dominion Theatre this week.

All the charm, the vital interest and the pathos of the wonderful story have been retained in the visualized version produced under the most extraordinary difficulties ever met and triumphantly overcome in carrying out a motion picture enterprise. The story of "Black Beauty," complete to the smallest detail and incident, is presented in the picture version as it is in the "Autobiography of a Horse" put forth by the world-famous author.

Every equine character in the book is present in the Vitagraph special production, and every human character as well. In the film version a thrilling romantic drama is woven about the humans, and in many phases of this Black Beauty participates without being aware of its nature, and always in accordance with the conduct and the mental processes of the most famous horse in fiction, precisely as described in Anna Sewall's great work.

In achieving this result, Mr. and Mrs. George Randolph Chester encountered almost insuperable difficulties in making the "Inside Story," formed of events and situations which Black Beauty could not observe, a strong and virile part of the powerful picture drama without in any way detracting from or altering Anna Sewall's story.

Many of the spectacular and thrilling scenes in the book have important bearings upon the "Inside Story," which Mr. and Mrs. George Randolph Chester wrote into the screen version to accompany the complete visualization of Anna Sewall's "Black Beauty." Notable among these are the "Stormy Day," when Black Beauty, with the knowledge that did not depend on reason, refused to go out on the broken bridge, and so saved Squire Gordon and John Manly from death; the hard ride for the doctor to save Mrs. Gordon's life and the burning stable.

Lives of all giraffes remind us it would surely get our goat if we caught a cold and had to suffer two yards of sore throat.

VARIETY

DOUGLAS FAIRBANKS

BACK AT VARIETY

Ever Popular Star in "The Mark of Zorro"

The Fairbanks studio grounds have more of the resemblance to a large gymnasium than a motion picture plant.

When one enters through the gate the first sight that commends itself to him is a general view of the male members of Douglas Fairbanks' company that may be seen disporting themselves about the place in the participation of various athletic stunts under the watchful eye of Lewis Hippe, Fairbanks' expert trainer. All the newest and best gymnastic appliances are rigged up and almost each and every member of the organization is invariably striving to emulate the agile "Doug" in the performance of the different feats of skill.

Here stout, flabby men are made leaner while the thin, emaciated, hollow-chested ones are made stronger by a very practical innovation of exercise injected into the curriculum of motion pictures by Fairbanks. Those handicapped by the possession of too much avoidpulp take great solace in purging themselves of it simply by indulging in a few minutes daily of strenuous exertion; while those of a frail body can certainly attest to the efficacy of light calisthenics that has enhanced their stamens considerably.

Far off in one corner the lithe "Doug" can usually be seen diligently practicing the most difficult gymnastics as one good method of maintaining his perfect condition of body and health. Nearly all of the new feats of skill displayed in "The Mark

of Zorro" by "Doug," which will be seen at the Variety Theatre beginning to-day, were first conceived and eventually perfected on the grounds of the Fairbanks' studio before their appearance upon the silver sheet.

GRAND OPERA STAR

SHOWN IN LOVE

"Romance" Is Columbia Offering; A Beautiful Story

"The return of the real story of love to the screen," is the way in which picture-reviewers everywhere have unanimously been describing Doris Keane's wonderful success in "Romance," the United Artists Corporation's production which was written especially for Miss Keane by Edward Sheldon.

It is said to be full of poetic imagination and charming sentiment, while the love romance of the prima donna and the clergyman is as novel and unusual as its very mention suggests. Miss Keane as the sparkling Grand Opera star, Mme. Cavallini, is credited with an absolutely new success, one that puts her in the front rank of screen artists and which has won for her the enviable reputation of being the greatest emotional actress on the screen, as well as on the stage.

It is a pleasure to know that this really beautiful story, with its fascinating actress, is to be the leading attraction at the Columbia Theatre to-day.

George Randolph Chester, who is now on the Pacific Coast, personally directing the Vitagraph special production, "The Son of Wallingford," has just received a wire from his agent that the Small-Maynard Com-

"BLACK BEAUTY"

A Famous Story Made Into a Master Picture

In the great field of motion-picture production, there occasionally stands out a masterpiece so beautifully produced, so clean and wholesome in theme, story and moral, that it is at once pronounced a classic of the screen. Such a picture is "BLACK BEAUTY."

All the elements that go into combination to make life invigorating, enjoyable and entertaining have been interwoven in this simple story of life in 1870. The rainy day in which the bridge across the river was swept away; that day when "Black Beauty" saved his master's life; the rescue of the horses from the burning stables; the hunt, and the race between horse and locomotive are some of the big spectacular scenes in this film that cost an enormous amount to produce.

It is as sweet and clean a story as ever was filmed. For years the book has been read and reread by children and adults and ranks in popularity with the first half dozen classics of all time.

When audiences applaud a film-play, it is from the heart out. And such sentiment will you see and hear at any performance during the run of "BLACK BEAUTY"

The race between "BLACK BEAUTY" and "Lightning" and the locomotive is alone worth visiting the theatre for.

THIS is the one film you cannot afford to miss. It will live for years and be remembered as THE MASTERPIECE OF 1921

All children up to 14 years of age can enter the contest. Drawings accompanied by name, address and age of contestant, must be handed in at the box office of the theatre not later than Friday, May 20.

First Prize, \$20; Second, \$10; Third, Sixty Days' Free Pass to the Dominion.

Prizes will be awarded at the Matinee, Saturday, May 21.

GRIPPING PICTURE
FILMED AT ROMANO

"The Witching Hour" Will Be Presented This Week

Can you "guess" what the other man is thinking? Is a man who thinks murder equally guilty with the wretch who actually commits the deed?

These and many other, ethical problems made "The Witching Hour" one of the greatest stage successes of all times. The Augustus Thomas triumph has now been filmed as a William D. Taylor Realett special and will be shown at the Romano Theatre to-day.

To interpret this gripping play of a strong man's will Mr. Taylor needed—and secured—a really all-star cast. Elliott Dexter, famous leading man of many Cecil B. de Mille productions, was considered a perfect

choice for "Jack Brookfield," the gentleman gambler who came to realize that his ability to "guess" the other man's hand was cheating just as much as if he had slipped cards up his sleeve.

Mary Alden, of "Birth of a Nation" fame, has the mother role created by Jennie Eustace. Clay Whipple, the hot-headed youngster who had an inherited loathing for the cats-eye, is cast by the juvenile lead, while Ruth Renick, formerly leading lady for Douglas Fairbanks, plays opposite him. Other players include Robert Cain, Winter Hall, Charles West, Genevieve Blinn, L. M. Wells, Clarence Geldart and Jim Blackwell. The camera work is by James Van Trees.

One half of the construction of silos will be loaned to farmers by the Saskatchewan Government, under the Rural Credits Act.

John Duffy, Bienheim, aged 73, died on Wednesday as the result of having his leg amputated, his wife having died the previous Sunday from worry.

"MERCHANT OF VENICE" TO-NIGHT

John E. Kellard Will Appear in Role of "Shylock"

Miss Isabel Merson, the talented and attractive leading woman with John E. Kellard, made her first appearance before the footlights at the Little Theatre founded in London by the Baroness Burdett Coutts, the well-known patroness of dramatic art, who assisted Sir Henry Irving so greatly in his early struggles to achieve eminence.

Miss Merson remained for several years with the stock company of the Little Theatre, gaining much valuable experience and advancing rapidly in her chosen profession, finally becoming the leading woman of the organization. It was while playing at the Little Theatre that she attracted the attention of the distinguished producer, Granville Barker, who recognizing her ability offered her the leading role in a production he was then making in London, which she accepted. She remained under Mr. Barker's management for several seasons, leaving him to accept an offer from Beerholm Tree, with whom she appeared during his successful London engagements, as Portia in "The Merchant of Venice," Lady Macbeth in "Macbeth," Katherine in "The Taming of the Shrew," and in a number of other leading female roles. Since her engagement with Beerholm Tree, Miss Merson has appeared with a number of New York successes, and was especially edgaged by Mr. Kellard for the present tour.

Mr. Kellard is to present "The Merchant of Venice" at Pantages Theatre to-night, and "Hamlet" to-morrow night.

"ROLLING STONES" NEXT AT PRINCESS

Prepare Fine Set of Musical Comedies This Summer

"Rolling Stones," a comedy drama of great strength and beauty, will be produced by the Mildred Page Players at the Princess on Wednesday next. It is one of the biggest successes New York has had in years. Built upon a splendid plot, with many original twists, it is a vehicle worthy of any artist. Mr. Alden will again be seen in the leading role and the whole cast will play to advantage. Miss Page, Miss Berkeley and Miss Mully will be seen as three distinct types of girls, each in her way as charming as the other. On Wednesday night there will be a prize for the one guessing nearest the correct number of words spoken by Lee Jaxon in "The End of the Trail," last week.

The Summer season at the Princess promises bigger and better productions all the time.

The management is arranging a string of musical comedies with which to startle their patrons into even greater interest and appreciation. Miss Page calls her clever company "The Made-in-Victoria Show" and it, for the high standard set by this popular stock company is such that it is bound to be a credit to any city.

"Rolling Stones" will give you a chance to laugh to your heart's content and still it has enough heart to appeal to make a really warty while evening's entertainment.

It will begin Wednesday night, and continuing the rest of the week with the Saturday matinee. Capt. Kidd's contest prize is \$25.00 this Saturday. Some one is going to be lucky.

WHAT WILL THE DICKY BIRDS SAY? THAT IS THE QUESTION TO-DAY

They Say a Lot About "Salary Grab" and Other Things

With indignant citizens writing to editors about it, street corner debates and public meetings of protest, the now famous sessional indemnities increase of the Provincial Legislature has been pretty well thrashed out. But it remained for the ever-original R. N. Hincks to put the question to an absolutely impartial tribunal and immortalize it into the bargain. And now if you are still interested in increased salaries for over-worked M. P.'s you can hear "What the Dicky Birds Say"—and a lot of other things, too, about it. Mr. Hincks has asked them and their reply, is as judicial as one would expect. But to hear their judgment you must visit The Little Theatre on Oak Bay Avenue where the Victoria Operatic and Dramatic Society is producing "Erminie" and wait for the appearance of that always popular comedian Bob Webb, whose "Dicky Birds" song has taken a large part of the town by storm.

Mr. Hincks has shot his playful arrows at many public foibles before now but never with such deadly effect as in his new song. And Mr. Webb, who is always a generous half of any show in which he appears handling the bow the Hincks' darts lose none of their point. The Dicky Birds, replying to thundering encores, have also considered the activities of the local police commission, the cabaret problem and a number of other highly entertaining topics. And the best part of it is that, thanks to Mr. Hincks, they usually add one more verse to Mr. Webb's song every night.

And Still It Grows

Judging by the deafening applause that has greeted Mr. Webb's appearance on the stage every night so far the public wouldn't object if the

Dicky Bird song was continued into a volume or so—and if Mr. Hincks doesn't stop improving it the ditty will overshadow all the other good things that have been prepared for theatregoers at the Little Theatre. As a matter of fact, people who saw the show on its first night have returned again just to hear the latest verdict of the "Dicky Birds," and to reveal an off-stage secret. Mr. Webb has his work cut out remembering all that "The Dicky Birds Say."

However, the Dicky Birds don't monopolize the show by any means. There is a generous supply of other songs in "Erminie," and with people like Miss Eva Hart and Jimmie Hunter rendering them they are well worth hearing. But the very best proof that the society's first offering in its new home is proving one of its most successful efforts yet, is the crowd which fills the Little Theatre every night and will continue to do so all this week.

May Allison, the blonde Metro star whose latest picture "Dated" is being filmed at the West Coast Studios of Metro at Hollywood, Calif., has a domestic inclination when not before the camera.

At her beautiful home in the motion picture colony in the western city, among other little domestic touches Miss Allison has a cat who recently presented her owner with four little kittens. After the first few days the mother cat took to staying out nights and Miss Allison was annoyed with the kittens crying until she hit upon the expedient of sitting on the front porch and letting the

cat family bawl energetically until mother came rompin' home to see what was the matter.

Wyndham Standing has been added to the cast of Hugo Ballin's "Ave Maria" and will, of course, play the leading masculine role, whilst Mabel Ballin is to be the heroine of the romantic story written by a Dominican nun, Sister Eileen.

Standing's role, the first he will have essayed since his return from a holiday in England, is ideally suited to him. Had the deceased author of "Ave Maria" known him on the screen she could not have created a character more closely identified with the leading man's personality and artistry. His part is that of a young Englishman who comes to America to manage a steel mill and subsequently finds himself involved in a complex psychological problem.

"NOTHING LIKE IT"

All Christie is working on a new comedy, "Nothing Like It," which depicts the efforts of Dorothy Yevora as a small town girl in putting on a play, using the props which a stranded theatrical company left in the town opry house. The show advertises the New River will be swayed and a chariot race with real horses. How the Nile overflows on the orchestra by the villain's machinations is really the crux of the action. Dorothy Devore, Earl Rodney, Gene Corey, Eddie Barry, Helen Darling, Ward Caulfield and others are in the latest offering.

BELASCO WITH CHRISTIE

Jay Belasco, who with Ethel Lynne some time ago made up a popular team in Christie Comedies, is back with Al Christie to appear in one of the new Christie two-act comedies.

Princess Theatre

4 Days Commencing Wednesday, May 18.

No advertisement for less than 15c. Minimum number of words, 12. In computing the number of words in an advertisement, estimate groups of three or less figures as one word. Dollars, marks and all abbreviations count as one word.

Advertisers who do not desire any replies addressed to a box at The Times Office, should forward to their private address. A charge of 10c is made for this service.

Birth Notices, \$1.00 per insertion. Marriage, Card of Thanks and Memorials, \$1.00 per insertion. Death and Funeral Notices, \$1.50 for 1, 2 or 3 insertions.

BIRTHS, MARRIAGES AND DEATHS

BIRTH. FERNIE—On the 15th inst., at his residence, on Oak Bay Avenue, William Fernie; born at Kimberley, Huntingdonshire, England, April 18, 1877.

TACKETT—At 2 a. m., Sunday, May 15, at his parents' residence, 1132 Yates Street, Victoria, James Gordon Tackett, born February 11, 1911, in this city. Remains are resting at the B. C. Funeral Co., 757 Broughton, from whence the funeral will take place on Wednesday, May 19, at 2 p. m.

GWENAP—At the residence of Mr. Joseph Hilton, on the 15th inst., James Owen, a resident of this city for 45 years; born in Burnham, Cornwall, England, aged 79 years. The remains are resting at the B. C. Funeral Co., 757 Broughton, from whence the funeral will take place on Wednesday, May 19, at 2 p. m.

RODWELL—On the 15th inst., at the family residence, 2276 Ashcroft Bay Road, Harriet Jane Rodwell, aged 12 years, a native of England, and a resident of Victoria for the past 11 years. She is survived by four sons and four daughters; her husband having predeceased her on October 19, 1913.

The remains are resting at the Thompson Funeral Home until Wednesday morning, May 19, when they will be removed to the family residence. The funeral will take place at 2.30, proceeding to the Society of Friends Church, on Fern Street, where service will be held at 3.15. Interment will be in the family plot in Ross Bay Cemetery.

SPENCER—On May 11, at her home, Esplanade, Mary Spencer, aged 68 years, and born in Lancashire, England, and a resident of Saanich district for the past ten years. She deceased leaves to mourn her loss four sons, George, John, Samuel, and James; and two daughters, Mary and Westley, in England; also one daughter, Mrs. John Crompton, in Southampton, England.

The funeral will take place on Tuesday, May 17, the cortege leaving the Grand Funeral Chapel at one o'clock, and at two o'clock service will be conducted at St. Stephen's Church, Saanich, by Rev. J. S. Archibald, pastor. Interment at St. Stephen's Cemetery.

BROWN JUG NOW MODERN HOTEL

J. B. Plumb Opens Renovated Premises Under Name of Albany Hotel

After having been closed for several months, the premises at 1021 Government Street, famous in the olden days as the "Brown Jug," have now been opened as the Hotel Albany, under the management of J. B. Plumb, Mr. Plumb was formerly proprietor of the Brunswick Hotel, and of the St. Helens Apartments in this city.

The premises, on Government Street, which are situated over the Irish Linen Store, were at one time occupied by the Great War Next-of-Kin Association, one of the service organizations here, and have been extensively altered and renovated. The furnace system has been changed, with hot and cold water available in every room, and with an elevator service installed.

The premises have been re-decorated and newly furnished throughout, and now present a very pleasing appearance under the present management. The hotel will be known as the

90% of the flavor in Cakes and Pastry is due to the quality of the flour.

VELVET FLOUR

For Better Cakes and Pastry

—is the source of that delicious, all-inviting flavor, of an appetizing fragrance, of a delicacy of sight and touch, which do justice to your baking efforts. Velvet is as pure as it is wholesome, is as refined as it is flawless, has a convenience in baking you will instantly appreciate, permits an economy that will surprise you. Save money and worry with Velvet—strike this new note of flavor in delicious home-made Cakes and Pastry.

Remember, the flavor is in the flour: **VELVET puts in the FLAVOR**

TWO SITES OFFERED FOR CONSIDERATION

Amusement Centre Suggestions Laid Before Chamber of Commerce

The site for Victoria's amusement centre has been recommended to the Chamber of Commerce by the Sites Committee under the chairmanship of R. J. Robertson.

The report which was read at today's luncheon at the Dominion Hotel reads as follows:—

"We recommend the piece of property fronting on the east side of Government Street between Belleville and Elliott Streets, and known as the Grand Trunk Pacific Hotel site, as being the most suitable site for the auditorium, swimming baths, bowling alley and other indoor attractions.

"For outdoor attractions we recommend that portion of Beacon Hill Street from the entrance at Rupert Street to the intersection with the year's playground.

The resolution dealing with the selection of these sites was adopted unanimously. The members of the committee are Messrs. Lindlater, Parfitt, McGregor and Purser.

Alternative Site.

As an alternative site, the committee recommends the site of 495 feet on Douglas Street, 315 on Michigan Street and 315 feet on Toronto Street. The taxes on this property amount to over \$300 a year. In 1912 an offer of \$75,000 was refused for the property and clear title will be given to-day for \$15,000.

In connection with the first proposal affecting the G. T. P. property, it is understood that it could be obtained for a sum equivalent to the amount of taxes.

The whole matter has been laid over for two weeks and consideration will be given the question in the meantime.

WANT BEACH DRIVE AS SECONDARY ROAD

Saanich Contentions Upheld by Chamber of Commerce

Strong support of the contention of Saanich Council that Beach Drive should be classed by the Government as a secondary road, was voiced to-day's directors of the Chamber of Commerce.

Saanich points out that part of the Island Highway classed as primary and part of Quadra Street as secondary road form the only highways in the municipality in connection with which the Government gives any financial aid.

Capt. George McGregor, Alderman A. E. Todd, J. C. Hendry and others spoke in favor of the proposed classification.

It was pointed out that ninety per cent. of the motor travel was from points outside the municipality. That the Government secured a large revenue from that source, and, therefore, should grant aid in the maintenance of the highways.

It was decided to back up Saanich's claim by sending delegates on a deputation to the Government if necessary.

WORK OF THE CHAMBER OF COMMERCE

The Committee on Committees has appointed Herbert Kent as chairman of the Band Committee. The work of this committee will be to promote municipal band music as this is considered to be one of the chief features in creating an attraction for tourists and as part of the development of the Amusement Centre scheme.

The Chamber of Commerce is in receipt of a letter from the Provincial Department of Public Works stating that tenders are being invited for the paving of the Island Highway from Colwood Hill to Langford. The Chamber recently took this matter up with the Government urging that the work be carried out as soon as possible.

CHILDLESS WOMEN

Please Read This Letter And See What Normal Health Will Do For You

Berwick, Ont.—"I had organic trouble, and after taking Lydia E. Pinkham's Vegetable Compound and Blood Medicine all my troubles passed away. I was made strong and well and have been ever since. Now we have a fine baby boy six months old, and I know that I would not have this baby and would still be suffering if it had not been for your remedies. My husband and myself are both well and healthy and we are both glad to have a child. Lydia E. Pinkham's Compound makes women normal, healthy and strong.

In many other homes, once childless, there are now children because of the fact that Lydia E. Pinkham's Compound makes women normal, healthy and strong.

If you have the slightest doubt that Lydia E. Pinkham's Vegetable Compound will help you, write to Lydia E. Pinkham, Medicine Co. (confidential), Lynn, Mass., for advice. Your letter will be opened, read and answered by a woman, and held in strict confidence.

ON WAY TO OTTAWA

Premier Oliver Leaves Halifax; Hon. E. D. Barrow Is Guest at Abbotsford.

Premier Oliver left Halifax yesterday for Ottawa, which he expects to reach to-night, according to a telegram to James Morton, his secretary here. The Premier will likely again visit his father in Grey County, Ontario, before starting for Victoria. Hon. Mr. Oliver is not expected home until early in June.

Attorney-General Farris is at his office today, after having attended the dinner given at Abbotsford at the end of the week to the Hon. E. D. Barrow, Minister of Agriculture. The Hon. Mary Ellen Smith also attended the function.

W. H. Bailey, returned soldier, has been appointed bailiff of the Third Division Court at St. Thomas.

OPTIMISM PAYS IN BUSINESS

B. C. E. R. Director Sees No Reason For Losing Courage

With long lines of railway and a comparatively small population, Victoria presents the biggest railway transportation problem confronting the B. C. Electric Railway Company, according to T. Blundell Brown, director of the company since its incorporation and prominent in the financial world, in a statement to The Times this afternoon. Mr. and Mrs. Brown arrived here on Saturday, and are staying at the Empress Hotel.

"It is simply a matter of how we are treated by the public as to whether we carry on the railway portion of our service or not. It simply depends on the railway does not pay we will have to quit and it is essential that invested capital gets a fair deal."

Mr. Blundell Brown believes in optimism, however, and sees no good in a pessimistic attitude, no matter how dark the situation may look.

"Optimism produces what we are after, and there is no use sitting down and growing and in waiting waiting for other people to come in and spend money to help things along.

According to Mr. Blundell Brown, Victoria and Vancouver Island has a great future as a tourist attraction. "The world that Victoria and the Island," he said, "Why try to spoil it with industries when after years of talk about the great tourist industry seems to have been proved that there is not much chance of establishing them.

Thousands of people should be visiting Vancouver Island every year, and this should result in a steadily increasing revenue if the traffic is properly nourished and encouraged.

Speaking of the part played by the B. C. Electric Railway Company in the development of Victoria and Vancouver, Mr. Blundell Brown rolled back upon his chief factor in the opening up of new subdivisions. Virgin forests were invaded long before homes and business houses were thought of and many portions of the mainland and Vancouver Island, which are now prosperous communities are one of the results of the enterprise of the English promoters who were fearless enough to lay out the capital for the venture.

These things are not to be forgotten by the public of British Columbia when in times of financial stress the company finds that it requires their hands, stated Mr. Blundell Brown.

OBITUARY RECORD

There died at 4 o'clock yesterday morning at his parents' home, 1132 Yates Street, little James Gordon Hackett, son of Mr. and Mrs. James J. Hackett. Born February 11, 1913, he was the youngest of a family of six children. He was a bright and cheerful child, and his death was a great loss to his parents and friends.

The funeral will be held at 2 p. m. at the St. Andrew's Episcopal Church, 215 P. St. The Rev. T. W. Gladstone will officiate.

The death occurred on Sunday afternoon at 5 o'clock of James Gwennan, a resident of this city for the past several years. He was born in Cornwall, England, and arrived at Victoria on July 25, 1875. He was an employee of the city for many years. He left no immediate relatives, his wife having predeceased him 14 years ago. The death took place at 1040 Pembroke Street, the residence of Joseph Hinton. The funeral will be at 2 o'clock on Wednesday, service at the B. C. Funeral Chapel being conducted by the Rev. Dr. Sippel.

The streets of Chinatown were thronged yesterday with crowds numbering some ten thousand people in connection with funeral ceremonies for the late Chong Sue, a prominent Chinese Freemason. The Masonic Ceremony for the Burial of the Dead was conducted in the Chinese temple at the Chinese Masonic Temple, Piggard Street, where a large marquee was erected for the occasion. The ceremony was attended by a large crowd, which lasted over an hour, the cortege left for the Chinese cemetery. The Chinese marshal led the procession, followed by the G. W. V. A. brass band, after which came the hearse, followed by fifty carriages and brought up by a band of Chinese musicians. Large numbers of handsome floral tributes were laid upon the casket. As the impressive cortege with its music and flowers and its floating banners, approached the place of interment, a number of interested spectators gathered to witness the proceedings, in addition to the numerous mourners accompanying the remains. The crowd at the cemetery reached close on a thousand people. No larger funeral has ever taken place in Victoria.

TEACHERS TO TAKE SUMMER SCHOOL

(Continued from page 1.)

Bowman, Edmonton, and Miss E. Berry, Vancouver. The course will include preparation of foods, health, hygiene and sewing.

The courses in vocal music and elocution will be under Miss E. N. Conroy, music mistress of the Normal School, Vancouver, and F. T. C. Wickert, L.L.C.M., supervisor of music, New Westminster.

Library Specialists Coming.

Miss Gertrude Andrus, specialist in children's literature, Seattle, and Miss Helen Howe, assistant reference librarian and special lecturer in library economy from the University of Washington, are coming to give the course in Children's Literature and School Libraries.

Other courses are: Writing and Penmanship by H. B. MacLean, Normal School, Vancouver, and R. W. MacKenzie, former instructor in penmanship, Spratt-Shaw School, Victoria.

Physical Training and Education by Miss Margaret L. Brackett, of the Chelsea College of Physical Education, and the physical director at MacDonald College, Quebec.

Certificates of graduation are to be given to all teachers who complete courses.

Application for admission to the Summer School is to be made to the Superintendent of Education, Victoria. A calendar of the school is being sent out.

WILLIAM FERNIE CALLED BY DEATH

(Continued from page 1.)

Famous Landmark.

Mr. Fernie lived there with his housekeeper and his gardener, Mr. Humphries, who has been in his employ for the whole of that period. The large and commanding house, with its beautiful garden, with its seasonal array of bloom, its "carpet bedding," its monkey puzzle, and its shade trees, was well known landmark to residents and visitors at Oak Bay.

Mr. Fernie suffered a stroke in November of last year, and was making an excellent recovery when he unfortunately fell and fractured his hip. Since then he has been confined to his bed, where he has been visited by his family and friends cheerfully and hopefully of being up and about once more with the returning Spring.

One of his closest friends, visiting him Friday night found him full of peace and joy in the garden of his beloved garden, which has always been his one great interest and recreation. His death, which came suddenly and peacefully at night, was a surprise to all who knew him.

Mr. Fernie is survived by two sisters, and in England, as well as nieces and nephews. He was a member of the G. W. V. A. and his life overseas during the great war.

A Philanthropist.

The G. W. V. A. and other patriotic and philanthropic organizations along with the vast extent of his generosity and sympathy, the major part of his offerings having been made anonymously and in ways unknown to the general public and even to his friends. Thus he "did good by stealth" and will be mourned by numbers throughout the country who know him only by name as a generous and kindly benefactor.

Mr. Fernie having expressed the wish to be cremated, arrangements have been made by the B. C. Funeral Co. for the body to leave the residence this evening at 5 o'clock, the cremation taking place at Vancouver to-morrow. On the return of the remains the cortege will proceed from the wharf to the cemetery, where the coffin will be laid in his brother's plot.

SINN FEIN ATTACKS MADE IN ENGLAND

(Continued from page 1.)

Raiders who fired the house of one member of the Royal Irish Constabulary also shot and seriously wounded a tenant of another member of the Constabulary.

At Tooting raiders fired the residence of the father of a member of the Constabulary. Similar acts of incendiarism were carried out in West Kensington.

Wounded.

In one place the raiders evidently made a visit to the wrong place, but in a scuffle with the occupants in the house they shot and wounded a man and his wife.

Murders.

Dublin, May 15.—Three Government officers and the wife of one of them were shot and killed in an ambush last night at Ballyrean, four miles from Gort, County Galway. The party was riding in a motor car when it was ambushed by forty men. Military and police reinforcements sent to the scene were fired upon and one constable was seriously wounded.

In Cork.

Cork, May 15.—(Associated Press.)—Sinn Fein raiders shot and killed in Cork following the bombing of the police barracks at Blackpool.

The home of Liam Roiside, a Sinn Fein member of the British Parliament, was raided. He was absent, but the priest who was staying in the house was shot and died some time later.

Patrick Sheehan, a "Republican," who was newly-married was shot through the heart.

After the shooting a sergeant and four policemen, while going for a priest, were raised. Two constables were killed and another wounded.

Broke Window.

The Roiside house occupies a secluded position in Jamestown. The raiders, after surrounding the house, knocked at the door and when admission was denied they broke a window, but found it barred by shutters. A masked man then climbed the trellis and entered the bedroom of Mrs. Roiside. She struggled with the man, who dropped his revolver.

The noise brought the mother of Mrs. Roiside. Thereupon the man left by the window. Meanwhile the glass panel in the hall door had been broken and another masked man, who was seen to enter the house, shot O'Callahan, and a maid in the corridor.

"Surely you won't shoot a priest?" exclaimed the maid.

There was a momentary pause and then the man flung his arm around the priest's neck, drew him close and shot him back of the shoulder. The man then grasped the revolver, but three shots were fired, breaking pictures on the wall. The men then fled.

Father O'Callahan crumpled up unconscious. He died later in the hospital. He was a great speaker and a teacher in the Irish Munster College.

Shot in Homes.

Three men were shot in their homes Saturday night. The son of one was wounded. A soldier of the Essex Regiment was shot at Bardon Saturday while acting as a guard for soldiers playing football at Troughal, twenty-seven miles east of Cork.

Raid.

Military raids started at 11 a. m. Sunday and continued until 3 a. m. Sunday. There were intervals where rifle and pistol shots were heard. Many houses were searched, including the residence of Father Ahern. Considerable damage was done.

Three civilians were wounded in fighting between members of the constabulary and armed civilians at Dromadaleague.

A constable was shot dead at Inishannon.

London, May 15.—In Ireland nine policemen, two soldiers and several other persons were killed Saturday and Sunday in attacks and counter-attacks. For general and organized violence Saturday and Sunday probably were the worst in Ireland since January, 1919. All the casualties except one occurred in the area of the Southern Parliament.

Miss Barrington, only daughter of Sir Charles Barrington, of Glenstal Castle, County Limerick, and head of

GENERAL ELECTION HELD IN ITALY

(Continued from page 1.)

Confident.

Rome, May 15.—Reports of Socialists success at Turin, Florence and Bologna in the parliamentary general election held yesterday have been received but Constitutionalists of this city went to bed last night firm in their belief that their party would hold a comfortable working majority in the next Chamber of Deputies.

There were quite serious riots in a number of Tuscan and Piedmontese cities where Socialists and Communist clubs with the Fascist or extreme Nationalists.

EDUCATIONAL WEEK INAUGURATED TO-DAY

Kumtux and Gyro Clubs Listen to Interesting Addresses

Educational week was launched to-day at a combined luncheon of the Kumtux and Gyro Clubs held in the Chautauque tent, corner of Vancouver Street and Pandora Avenue. The speakers were Trustees George Jay, Mrs. H. W. Graves and Harold Cross. Mr. Jay was the first to speak, referred to the vast increase in the attendance at the public schools, and the urgent need for additional accommodation. As an example of the great growth in the number of children attending the school Mr. Jay stated that in April of last year 5,668 children were enrolled while in April of this year the attendance was 6,134. Mr. Jay stated that within the next two years it would be necessary to add 114 for non-shareholders.

BRILLIANT AURORA PART OF GREAT DISTURBANCES

(Continued from page 1.)
heavens in indescribable brilliance and beauty as if an invisible painter were splashing the sky from zenith to horizon with pink and red and quickly blotting out the first streaks with vast daubs of purple.

The colors changed and flashed so rapidly that the beholder could not imagine himself looking through a huge kaleidoscope. At the very zenith a great fluffy billow of radiant cloud-like light suddenly appeared and marked the climax of the display. This wave of brilliance twisted and turned for a moment or two while the rest of the sky glowed in splendor, and then assumed the shape of a great white feathery wing. This wing gradually faded across the sky and disappeared.

For some minutes superb brilliant color streaks remained to light up the sky, continually changing and vibrating against the background of the stars. The Aurora Borealis, however magnificent, could possibly compare with the spectacle of the night sky only in the long streamers of light remained. In a short time these, too, sank down to the horizon and disappeared.

Seen All Along Coast.
Comparatively few people witnessed the display as it lasted only a short time. To the south, however, the people of California and Oregon crowded the streets and high buildings to see the beautiful summer spectacle. The lights were visible as far south as the Mexican border for the first time in the memory of old residents, and completely isolated the region from the eastern portion of the United States by disrupting all telegraph communication. The spectacle sent residents of the Southern Pacific Coast section flocking to the roofs of skyscrapers buildings for the first view of the sky splendor.

The borealis was seen plainly, according to reports, at San Diego and several points surrounding that city. Los Angeles, San Bernardino, Stockton and other points. At Boulevard, a small mountain town between San Diego and the Imperial Valley, near the Mexican border, reports were that it was an exceptionally brilliant spectacle.

All telegraph companies reported their facilities prostrated from the coast eastward. Communication was maintained up and down the coast, but all efforts to turn the lines of communication toward the east were unavailing.

Caused by Sun Spots.
Electric influence exerted by the northern lights, believed to be caused by an unusually large sun spot, continued yesterday to play havoc with telegraphic traffic throughout the United States.

Beginning Friday night, wire chiefs reported this natural phenomenon had injected extra voltage into their wires, causing "earth currents" and interrupting traffic. The same conditions continued throughout Saturday and Sunday, causing increasing intense Saturday night, causing one of the severest disturbances known in thirty years.

For more than an hour before midnight Saturday, nearly every telegraph wire leading from New York and Chicago was out of commission. Ocean cables also were slightly affected. Curiously, however, the disturbance seemed to strengthen wireless signals. Intensity of the disturbance was lessened yesterday.

Huge Spots on Sun.
Washington, May 16.—Interruption of telegraphic communications by electrical influences due to the presence of spots on the sun, will pass away within twenty-four hours, in the belief of naval observatory officials.

The present spot, or group of spots, estimated by naval observatory officials as 94,000 miles in length and 21,000 in latitude, was nearest the earth Saturday night and Sunday, though the rotation of the sun was moving away, these officials said that leaving out of consideration the decreasing effect of the spots on electrical currents on the earth, though the usual breaking up of the regular rotation of the sun would soon carry the spots so far from earth as to make their influence negligible.

The theory that the Aurora Borealis resulted from sun spots, and was advanced by Dr. J. A. Brashear, late Pittsburgh astronomer. The theory has never been definitely accepted, naval observatory officials asserted, but the fact that spots on the sun usually are accompanied by electrical disturbances has resulted in almost general acceptance of the theory.

Spots Photographed.
The spots now present on the sun, and which were visible to the naked eye to-day with a smoked glass, were first photographed at the naval observatory last Monday. The spots, according to Dr. D. H. Peters, were about one and a half to two days old. The following day the photographer showed the spots to be much agitated, the gaseous vapors of which they were composed resembling a cyclonic storm. Dr. Peters said, yesterday's photographs, taken about noon, showed the spots to be near the solar meridian.

Naval observatory officials said presence of such a large group of spots at this time was most unusual.

Spots Seen Here.
The sun spots referred to in Washington dispatches have been observed also from the Gonzales Meteorological Observatory here, Superintendent Napier Denison stated this morning. The spots, he said, were visible last Thursday, Friday and Saturday and were unusually large.

Electrical Disturbances in Europe.
London, May 16.—Telegraph and telephone lines in the British Isles and throughout all Northern Europe have been seriously interrupted by the great magnetic storm which virtually paralyzed wire transmission in the United States Saturday night and Sunday night. Cables between England and the United States were affected early this morning and transmission was badly delayed.

The disturbance is believed to have caused a fire which destroyed a telephone exchange at Karlstad, a Swedish town about 160 miles west of Stockholm. The building was destroyed.

India's Terrified.
San Bernardino, Cal., May 15.—Appearance of the Aurora Borealis Saturday night caused an Indian on the Colorado Desert to become panicky, according to reports brought here to-day. The phenomenon as seen from the desert was declared to be of rare beauty. In Big Bear Valley, in the San Bernardino mountains, the lights puzzled hundreds of people spending the week-end at the resorts. The perfection of the lights on the

STOCKS INCLINED TO ADVANCE TO-DAY

(By Burdick Brothers, Ltd.)
New York, May 16.—Stocks were inactive during the first hour this morning and little change was recorded. However, towards midday the list began to advance slightly, and the afternoon session found much activity especially in the motor and oil stocks. The market closed with higher prices at the close.

TO-DAYS TRADING IN WINNIPEG MARKET

Winnipeg, May 16.—The lightness in the May wheat future was again in evidence to-day when unexpected strength developed, and prices advanced 6 1/2 cents from 114 1/2 to 121 1/2. This was followed with a little reaction during the latter part of the session. At the high of the day the price stood at 118 1/2 and at the close 114 1/2, a gain of 5 1/2 cents from Saturday. With the futures advancing to 145 there was liberal offerings in the cash wheat market and considerable wheat changed hands around 140, sufficient to satisfy the demand. There was a discount of 1/2 cent under the May.

CHICAGO GRAINS ADVANCE TO-DAY

(By Burdick Brothers, Ltd.)
Chicago, May 16.—The grain market showed strength from the opening here to-day and further gains were registered. The weather reports received stated that some parts were suffering badly for want of moisture, and this had the tendency to encourage the long interests to make purchases and also force shorts to cover.

BROOM CARNIVAL PLANS MATURING

Many Novelty Features Will Be Displayed

An entirely made-in-Victoria product will be used at the Queen of the Carnival Ball and Broom Festival on the evening of May 24, when one of the most novel songs on the broom of Beacon Hill will be presented. The song itself is being written by Ernie Down, and the elaborate electric effects are being made by Mr. Maynard. All of the artists are now preparing for the grand entertainment that will be presented, and with Mrs. Gibson in charge of the music for this part of the programme, everything is an assured success. Mrs. Pooley, Miss Eva Hart, Mrs. Chas. Wilson, Mrs. Seldon Humphries, Mrs. Dolly Rochfort, Miss Mamie Fraser, Mr. Angus and Mr. Ingledew have offered their most valuable and talented assistance, while Miss L. Nicholas is assisting with the assembling of the chorus. Mr. Ingledew needs no introduction to Victoria patrons, he will put on two of the most elaborate acts. One entitled "Health, Wealth, and the Girl You Love," is put on with elaborate effects and is sure to take the "house" with a storm. The other number by this talented artist and his assistants will be "I Love You Dear," a new waltz song.

Visitors Phone 7211

When you need a comfortable car, see Brentwood, Albert, the Lakes, etc., or the Georgian Circuit, with an experienced executive driver. Terms Moderate

A NEW SERVICE 13 Pounds For \$1.00

We will take 13 lbs. of clothes, wash them thoroughly and return them to you for \$1.00. If you include DRY, bed and table linen it will be returned ironed, ready for use. Each bundle will be washed by itself and no marks will be put on clothes.

SEND ANYTHING YOU WISH, 13 lbs. for \$1. Each additional lb. 5c. Phone 172.

MIGHT BECOME A LAND OF VINEYARDS

Vast Possibilities For Island in Wine Industry

Vancouver Island may become a land of vineyards and the centre of a great wine industry if plans that have been discussed for the promotion of the loganberry industry are carried out. An interested party has gone so far as to suggest that an expert from France be brought here to supervise the making of wine from berries grown on Vancouver Island.

It has been said that Saanich Peninsula and up the east coast of Vancouver Island constitutes one of the finest areas in the world for the growing of berries suitable for wine making. The development of the fruit and its flavor is all that could be desired in this respect, and the climate is most suitable for the production of immense crops.

One visitor from the prairies has already taken a deep interest in the fruit and the amount of employment that has signified his willingness to put capital into a plant when more complete details are forthcoming regarding the local situation.

It is possible that the Victoria and Island Development Association may send a representative to Oregon in company with representatives of the Fruit Growers' Association thoroughly to investigate and report on methods of handling this business in a country where it has proved a big success and a money-maker. Those who are interested in the matter are confident that large revenues could be produced by the development of the industry here.

It is claimed that if facilities for handling all the berries that could be produced here were provided nearly everyone, even the vacant lot cultivator, would find it to advantage to cultivate the loganberry. It has already been shown that there would be a tremendous market for the product and the amount of employment that the development of the industry would entail would bring about a happy condition of affairs generally.

FLOCKS OF STARS

Every new invention of the astronomer's observatory enlarges the distance he can peer into space and measure its receding boundaries, so that one can never say which is the farthest star.

But we can say which is at the farthest distance measured. This honor is at present borne by a tiny blur of light, which has no name, and a few years ago was not noticed, but which is now identified in the New General Catalogue of stars as Number 7,096—or more precisely, N.G.C. 7,096.

It is not really one star, but a great flock of stars, probably containing more than the equivalent of a quarter of a million of our suns; and it is so far away that if some unknown astronomer could flash a light signal at us from one of the suns or planets there, it would be nearly a quarter of a million years before that message could reach us.

There is good reason to believe that this flock of stars is moving toward us. It is hardly necessary to say that it will take a long time coming.

The fastest moving star—it is not really a star, but a blaze of gas which will some day become a star—travels at the rate of about 750 miles a second. If it were coming toward us from the same place as the "farthest star" it would take 67,000,000,000 years to reach us.—Tit-Bits.

MRS. NANCY WESTCOTT, of Syracuse, N. Y., who declares Tanlac is the greatest medicine on earth. Says it built her up to where she is just brimful of new life and energy.

"I just think Tanlac is the greatest medicine on earth and I can never praise it enough for what it's done for me. For two years I was in a badly rundown condition. I had no appetite, and after every meal I would be an awful distress from indigestion and bloating. My nerves were on edge, and I could never get a good night's sleep. I felt tired and worn out all the time, was losing weight, and many times was so weak I couldn't look after my housework. I just felt miserable.

"Tanlac helped one of my friends so much that I began taking it and I have certainly built me up into splendid health. My appetite is so big I can hardly get enough to eat now, and I am never troubled, a particle with bloating or indigestion. My nerves are as steady as a clockwork, and I sleep like a child at night. I have recovered my strength and am just brimful of new life and energy. In fact, I feel better than I have in years. My gratitude towards Tanlac is unbounded."

The above statement was recently made by Mrs. Nancy Westcott, 121 Market St., Syracuse, N. Y. Tanlac is sold in Victoria by D. E. Campbell and all drug stores.

DESCRIBES REMEDIES TO DESTROY PESTS

W. Downes Gives Hints on Checking Infestations

The season of the year when insect pests are a constant worry to the gardener and farmer, says W. Downes, Dominion Entomological Branch, has once more come round, and it behooves those who wish to preserve their fruit, vegetables and flowers to take precautions against the enemies who will, if allowed, destroy the result of their labors and render nugatory their best efforts at cultivation.

Tent Caterpillar

The Tent Caterpillar is apparently not so much in evidence this year as formerly, although it must be borne in mind that there should not on that account be any slackening of the measures to control it. Wherever seen the tents should be clipped off and destroyed or the following spray may be used to prevent the stripping of foliage by caterpillars: Lead arsenate (powder) 2 ounces, water 4 gallons. For an all-round spray to destroy aphids at the same time add Blackleaf 40, half an ounce, soap 3 ounces. The attacks of Tent Caterpillars come in regular cycles of from five to seven years dependent upon the abundance or otherwise of the parasites and diseases which keep

HEALTH CRUSADE URGED FOR SCHOOLS

Tooth and Handkerchief Drills Planned, Especially For Rural Districts

A health crusade in the schools of British Columbia, with tooth and handkerchief drills, is the plan being taken up by the Women's Institutes of the Province under the Child Welfare Council and the Public Health Department under Dr. Henry Esson Young.

Green Fly

For Green Fly spray with Blackleaf 40 one ounce, water six gallons, soap one half pound. If caterpillars are present the addition of 4 ounces of arsenate of lead powder, or 3 ounces of paste, will make an effective all-round spray.

TOOTH AND HANDKERCHIEF DRILLS

Planned, Especially For Rural Districts

The idea is the inculcation of all health habits, and making them an important part of the school course. It is planned to guarantee that wherever possible a child shall leave school with health established.

Root Maggots

Root Maggots for cabbage and allied plants are best prevented by applying the following solution to the young plants a day or two after planting: Mercury bichloride (corrosive sublimate) 1 ounce, water 15 gallons. Use just sufficient liquid to saturate the ground around the base of the plants or two or three inches. Make one application just after planting and another within ten days.

DEEP HOLLOW COUGHS ARE MIGHTY DANGEROUS

That same cough is every where you go, deep and hollow. Why—because consumptive. First it was a cold, next came Catarrh, vitally decreased when the trouble was very serious. Never neglect a cold, not even a little one. Never trifle with sore throat or Catarrh. Get out your "Catarrhozone Inhaler," breathe deeply into your lungs the healing soothing vapor of Catarrhozone. Let Catarrhozone clear out the nostrils. You'll wonder at the change when you use this healing remedy. It's really splendid for coughs, colds, bronchial irritation and Catarrhal trouble. Sold every where. Two months' treatment \$1; small size, 50c. (Adv.)

HEALTHY AND HYGIENIC AND ALL FURNITURE SANITARY AND EASILY AND FREQUENTLY CLEANED

1. Pure drinking water only from a sanitary drinking fountain.
2. Facilities for washing hands and individual towels.
3. Sanitary toilets, never neglected and no cesspools.
4. Obscene and defacing marks absolutely removed from schoolhouses.
5. All flies and mosquitoes excluded by screens.
6. Playgrounds of adequate size for all rural schools.
7. Window space to be at least one-fifth of floor space in area, and lighting to be from left side of room and rear.
8. Every mother in rural school districts should be present at the medical examination of the school children and be with the health officer when he makes an inspection of the sanitary conditions of the school.
