## This Is Important

IT BECOYES OUR PLEASURE to present this, our second catalogue, ani we take the occasion to thank those who have so kindly favored us with their orders during the past year. It is also desired to assure those who have never doalt with us, that we will in the future, as in the past, use every ondeavor to comply wili all demands in a prompt and satisfactory manner.

TLE NURSERY.—Our Nursery is located at Menlo Park, San Mateo Cuunty, on the Southern Pacific Railroad, midway between San Francisco and San Jose.
Srock.-All stock offered is strong and haalthy, true to name and free from insect pests. Constant watchfulness is exercised to prevent the propagation of weak or imperfect stock, and varieties have been selected with a special view to their adaptation to the soil and climate of California.
PACKING.-All orders are packed by those experienced in the art, and so carefully are plants prepared for shipment that complaints from bad packing are exceedingly rare.

PRICES.-No attempt is made to outdo other establishments in prices. It costs money to grow good stock and we have no other kind for sale. Socalled cheap stock generally proves very dear in the end. Prices hare bcen made as reasonable as possille, quality of stock considered. Special prices will be made for large orders.
SHIPPING.-Plants should, whenever practicable, be sent by express, as larger, stronger stock can be given, but every care will be exercised in selecting stock and in packing mail orders for points not accessible by express.
MISTATKES.-The greatest pains are taken to prevent mistaikes in filling orders, but should any be detected, prompt notice of the fact and circumstances will assure correction without delay.
CORRECT ADDRESS.- Be careful to write your orders and full name and address very plainly; attention to this will obviate much confusion, delay and possible loss.

SMALL ORDERS.-As the expense attending the packing of small orders is often nearly or quite as great as that attending those of greater size and value, patrons are requested to add 10 ceats for packing on all plant orders of a less value than $\$ 1$.
SEMNTTTANCES.-Mowey should be sent by Wells, Fargo Express or by Postoflice money order, drawn on Sin Francisco.

SHERWOOD MALL MURSERIES, TIMOTHY HOP\&INS, Propristor,

Menlo Park, California.

## A GARDEN OHAT

Another planting season has rolled around and we greet our friends and wish them one and all a successful year in the garden. It will be noticed that several new features have been introduced into our catalogue, and a number of carefully tested new varieties have been added to the lists, while some that have proven themzelves less desirable or have been superseded by something better have been discarded.

Not having sufficient room to conduct our rapidly growing business, we have during the past year erected a number of commodious greenhouses, and we now have by far the largest and most complete floral establishment on the Pacific Coast. Our stock is in fine condition, and it is with no small degree of pleasure that we look forward to the general satisfaction which it will give those of our friends who favor us with their orders.

The past year has been a prosperous one for California, and the time is opportune to adorn barren door-yards, and fill up vacant places in the flower garden or add new beauties. Perhaps shade trees are lacking or the planting of a hedge is in contemplation. It is much better to decide just what is wanted early in the season and send in your order; thus, the rush is avoided and the most careful individual attention is secured.

## PLANTS AND FLOWER SEEDS FREE TO PUBLIC SCHOOLS

We desire this year to make a special effort to popularize our beautiful fowers, and, at the same time, benefit the public. To accomplish this, we have decided to send out free of charge, when the amount of postage or express is remitted, a package of plants, or collection of sweet pea seeds to the children of every public school in the State, who will pledge themselves to carefully cultivate the same within the school grounds. All such orders must be signed by the teacher in charge and the name and location of the school given.

Most of our schoolyards and buildings are so barren and uninviting that it is little wonder that the children want to stay at home or go anywhere rather than to school. This neglectful system is all wrong, and is crude and barbarous. The finer instincts of our children should be fostered and cultivated, mot only by surrounding them with beautiful flowers and trees at home, but the schoolyards should be made so beautiful that they would take a pride and delight in having an individual ownership in them. A mere memorizing of the contents of books doed not mean education in the higher sense; but, in the contemplation of nature in its most beautiful and parfect forms, the thoughts are lifted out of the rugged, tortuous channel of life's routine, and placed upon the higher plane of original investigation, which may lead to the greatest possibilities.

## NOVELTIES

It bas for a long time been the complaint among flower lovers of the Pacific Coast, that they were obliged to send East for all of the newer varietics and novelties in flowers. We have after careful deliberation concluded to at one etroke remedy thidevil, by placing our establiahment on a par with other large firms in this respect.

We have at considerahle trouble and expense arranged with several of the most noted and reliable Eantern Chrysanthemum and Carnation Growers, to offor their choicest novelties simultaneously with their appearance in the East and at the same prices.

This is a great stride for California floriculture, and has hitherto never been attempted.

We hope another year to extend our offering of novelties to other classes of plants.

It now remains to be seen to what extent the public will support our enterprise, but we feel confilent that our friends will appreciate this effort in tlieir behalf, and that by another season the wisdom of our course will have been clearly demonstrated.

The descriptions of novelties are those furnished by the originators and intioducers.

## NEW CHRYSANTHEMUMS

## PITCHER AND MANDA'S 1892 NOVELTIES

## SET OF TWELVE OF THE HAIRY (HRS. ALPHEUS HARDY) TYPE

MISS ANNIE MANDA. - Flower very high and compact, perfectly double, incurved, of the purest white. The numerous petals are well furnished with long, glandular, hair-like outgrowth, giving the flower a unique appearance, far surpassing the celebrated Mrs. Alpheus Hardy. The plant is of a strong and vigorous habit, carrying the flower erect on a stout stem. Another recommendation is that the flower is sweetly scented.
W. A. MANDA. -The New Golden Yellow Hairy Chrysanthemum. Flower very large, of a clear golden yellow color. The plant is vigorous in growth, and the flower is borne upright on a stout stem. This is the grandest introduction from Japan made during the past year, and no collection can afford to be without thim variety.

MR. H. BALLANTINE.-Flower rather flat, showing the center somewhat, of a beautiful old gold or bronzy color. A free grower and a good acquisition.

MARBLE.-Flower pure white, of medium size, the strongly incurving petals ovenly imbricated, giving the flower a compact and solid appearance.

PEARL SHELL.-Flower very large, semi-double, of a beautiful pale pink. A free growing plant.

NACRE.-Flower large, almost double, of a fine eilvery pink color; petals incurved.

ALABASTER.-Flower large, white, with a yellow center, borne upright on a stout stem; petals incurring.

PEERIESS.-Flower of loose terture, white, with yellow center. A good srower.

CHASTITY.-Large, full flower, white, with a yellow center; petals strongly incurred.

SIMPIICITY.-Flower of good size, white, with a green center; petais incurred.

VANITY.-Flower large, semi-double, of a lilac pink color; petals sparingly hairs, incurved.

PURITV.-Flower rery large, single, pure white, with a large, yellow, button-like center; petals very broad, slizhtly refleaing.

Price, $\$ 1.00$ each; $\$ 10.00$ for the set of 12 .

## SET OF PRIZE INCURVED VARIETIES

FARRY MAY.-Flower rery large and deep, full double, forming when wellopened a massive sphere; color, deep old gold, with occasional reins of red; petals rery broad and thick, spoon-shaped. Foliage rery luxuriant, thick and leathery, deep green, quite distinct among chrysanthemums. One of the most vigorous growing of all varieties in cultivation and unsurpassed for growing either $8:$ a standard, as a bush plant, or for cut blooms for exhibition purposes.

MISS M. COLGATE.-Flowers perfectly hemispherical, compact with a full center, pure white; petals broad, incurred. A grand pure white variety, a strong grower and free flowerer; good for all exhibition purposes.

MR. HICKS ARNOLD.-A strong growing and floriferous variety, bearing large, full double flowers of an old gold color, lighting up wonderfully by artificial light. When fully open the flower is almost spherical. The freest growing variety known and one which may be grown with success for almost any purpose.

MRS. DR. I. A. MANDEVILIE,-Large flower, perfectly spherical, with broad, incurred petals of a terra costa yellow. Plant of vigorous habit and good for exhibition purposes.

MR. D. S. BROWN.-Flower medium size, semi-double, of a clear canary yellow color when first opening, but changing to cream color as the petals expand. A distinct color.

MISS BERIHA N. ROBISON.-Flower rose-pink with red center, very early, of large size and good substance. One of the earliest and best varieties for exhibition purposes, either as pot plants or cut flowers.

GEORGE SAVAGE.-Flowers very larce, pure white, with broad, strongly incurved petals, making the flower almost hemispherical and very solid. A grand variety, of vigorous, free fluwering habit, and useful for cut blooms for exhibition.

MRS. JOHN EYERMAN.-Flower semi-globular, full double petals decidedly spoon-shaped, the lower hali being tubular, while the limb is broadly expanded; upper surface rose-pink, lower pale lilac. A grand Variety for exhibition purposes.

DR. H. A. MANDEVILLE.-Flowerlarge, full double, bright chrome yellow; petals very long and twisted, with a swirled habit, the upper incurved, while ths lower are relensd togard the stem. One oi the grandest varieties in cultivation.

MOHICAN.-Flower large, of a deep mahogany color; petale incurved, covering the center well when fully expanded. Plant of vigorous growth and habit, and the fluwer of a dietinct color in collentions.

PAWNEE.-Flowera very large, Indian red, with yellow shadinge, massive, incurved. A fine late-flowering variety.

MRS. T.F. MERCER - Flower large, blyah white; potals broad, incurved, the inner regularly ink ricaled, the outer more sprealing. One of the best varieties for exhinition purposes, and valuable on account of its lato flowering.

Price, $\$ 1.00$ each ; $\$ 10.00$ for the set of 12 .

## SET OF PRIZE REFLEXED VARIETIES

MRS. E. D. ADAMS.-Flower rery laree; pinla of inodum width, rery $\operatorname{long}$, twisted, the outer ones swirled, as if the flower had been turned swiltiy on its stem; color pure white. One of the beat a :d mo t diutinct white Chrysanthemums in cultivation. We had specimens meazuring i3 inches over the flover from tip to tip of petals. Makes a grand bush plant.

MRS. W. S. IKIMBALL.-Flower very large, full double pale bluch or craamy white with a yellowish center; petals very broad, rufluxed. Gne of the finest varietiea for exhibition purposes.

MISS ADA McVICKER.-A plant of strong laalit, prolucing immense creamy white flowers with broad, thick, refl $x$ ed petali. is gr nd var.ety and ore of the best for either specimon blooms, bush plarits or standuris.

MRS. J. HOOD WRIGHT. Flower lurce, full dowlle, of the presest white, with reflex twisted petals; a strong grower and one of the tinest early varietiee in cultivation.

COL. H. M. BOIES - A plant of vigorous habit, producing very large, rosepink flowers with twisted petals, veined with a lighter shade; very full centerA granl exhibition variety.

FRANCES TAREOX.-Large flower, with full center; petals broad, convez, silvery pink, with a narrow line of pale lilac at the extreme elge. A fine early flowering variety.

MRS. HERSERT LEON.-Flower very large, full double pink, with broad. reflexed petals. A very fine early variety.

IIRS. GALLAGHER.-Flower large, semi-globular, with full center; potals deep maroon crimson above, paler below. One of the very bast dark varieties.

MRS. E. D. CHURCH.-One of the earliest varieties in cultivation. Flowers full double, of medium size, borne on stout stemz and lasting long in p rfection. Color pink, in various shades.

MRS. R. BENNER. - Flower medium size, of a deep lilac-pink color, with a red center. A very strikinglure variety.

BASY CLEVELAND -Flower semi-globular, full double, of medinm size, with broad petals. Color, lilac-pink, a very fine and telling color among Chrysanthemums.

MR. A G. RAMSAY.-Flower of medium size, full center; petals broad, upper surface of the expanded limb deep Indian red, yellowish at the tip, under surface yellowish, veined with lines of red A striking sort.

Price, $\$ 1.00$ each; $\$ 10.00$ for the set of 12 .

## SET OF SIX ANEMONE FLOWERED

HERALD.-One of the grandest of the section. Florers very-large, bright golden yellow; the central florets tubular, large, an inch or more long, notched at the rim, crowded into a compact head. Ray petals in a single row, rery long, drooping with age.

ECRET.-Flower of medium size, pure white; central petals strap-shaped, standing upright; ray petals in a single row, reflexed.

DOVE.-Flower pure white ; central petals short, erect, ray petals numerous, partiy incurving.

PIGEON.-Flower pale delicate pink, the disk petals strap-shaped, very numerous and crowded; ray petals few, reflexed.

DUCK. -Flower medium size, white, the ray petals in several roms.
HERON.-Flower very large, rose-pink; ray petals in several rows.
Price, $\$ 1.00$ each; $\$ 5.00$ for the set of 6 .

## SET OF TWELVE PRIZE SINGLE-F!OWERED

NEWARK.-Large, pure white flower, with very broad and thick, round petals.

NEWTON. - A fine free grower with large ह̂owers of rose-pink color.
TRENTON.-Large, pure white flower, with narrow, pointed petals.
PRINCETON.-Large flower of bright golden yellow, with pointed petals.
CAMDEN.-Large, lilac-pink flower, with tubular spathulate petals.
SALEM. - Flower of salmon-rose, with tubular spathulate petals.
BOONTON.-Large, rose-pink flower, with narrow, pointed petals.
RAHWAY.-Large, white flower, with reflezed, pointed petals.
HACKENSACK.-Tery large flower of lovely pale pink; petals strongly spoon-shaped.

MITFORD.-Flower pure white, with long, narrow petals.
ORANGE.-Flower bright golden yellow, with large, broad petals.
BURIINGTON.-Flower pure white, with long, tubular petale.
Price, 75 cents each; $\$ 7.50$ for the set of 12 .

## SPAULDING'S 1892 NOVELTIES

In speaking of these Novelties, Mr. Spaulding says, "I desire to call your attertion to the collection below, which I guarantee to be the best trelve ever distributed in one set:"

ROSLYN. - A superb, clear, Mermet rose pink, petals thick and heavy, cupshaped, solid to the center, immense in size, having been exhibited eleren irches across, habit the best, stems stiff and erect, foliage luxuriant, the hest pink in commerce. ## NEW OAPNATIONS

## E. G. Hillu's 1992 SET

MRS. HITT.-Free growing and very long-stemmed; flover large and of fine form; calyx perfect; color, gluwing pink, a brighter shade than Tidal Wave.

WAITE DOVE.-A grand white fringe variety of large size; stems quite E'iff and very long; foliage heavy ; color, very pure.

ATTRACTION.-Extremely showy, bright rosy scariet, nicely fringed and double; good stems and perfect calyz. A color universally admired.

BEN HUR. - Woftpirk of the Wihlur shade but brighter; petals broad and heavy; stems long and stuut. An exquisite variety and a fine grower.

INDIANA.-The most biantifil of tho variegated carnations; ground pure white, heavily flakel in rosy pink; flower large and fringed; stem long and stilf. A fine grower.

This set las bean universally almired at the Eastern shows, all of the rarieties having received certificates of merit.

Irice, 30c each.

## NEW 1892 SEEDLING CARNATIONS <br> AS DESCRIBED BY INTRODUCERS

AURORA.-l'ink, the winner of the Ladenberg Silver Cup at Malison Square Garden, dew York, Nuv. 6, 1891, for the best pink carnation of recent introduction; a seedling of Century and Grace Wilder; delicate pink, fragrance deli̧htful; a strong, haulsomo plant, coming into bloom quickly. Price, 30c each. Ready for delivery Fehruary 1st.

THOS. CARTLEDGE.-Carmine, closely resembling La Purite in color; vigorous grower; early to come in flower, and extremely prolific; a great acquisition. Price, 30 c each.

GRACE DARLING.-Pink, plant vigorous and of medium size; an carly and profuse bloomer; flowers on long stems and in eprays; of good size and very double; a clear, pure color, slightly darker than Grace Wilder; well tested and a prcfitable commercial variety. Price, 30c each.

PEARL. - White, very large; frequently from three to three and one-half inches across; full and crisp; occasionally a rosy blush; a good bloomer, wi.h rarcly any tendency to burst; stems longand stiff; very strong grower; awarded honorable mention at Philadelphia, and Certificate of Merit at New York exhiLitions, spring of 1891. Price, 25 c each.

PURITAN.-White, large; very full and of gool substance; lasting, if well grown, a long time after being cut; quite fragrant and an early and continnous lloomer. Price, 25c each.

## ROSES

COULD ONE desire roses more beautiful then those of California! Here they attain a perfection which may well excite the enry of less favored regions. They lend an idealistic beazty to our gardens and a soft radiance to our oftentimes embowered houses, that go far towards mitigating the everyday cares, furnishing a source of neverending and ever-increasing enjoyment.

The very finest varieties of roses are now offored at such reasonable prices as to place them within the reach of everyone, and a very small outlay and a little fostering care will insure 2n abundance of the most beautiful flowers nearly the year round.

Roses easily adapt themselves to circumstances and will grow with but little care, but a healthy bush and an abundance of flomers is always the reward of generous treatment. They do best in a rich loamy or clayey soil, and can safely be planted any time from February 1 st to the last of May, or in the fall. When planting cut the bushes back to sound eyes turning outward. Remove all weakly wood, spread the roots out naturally, and trim broken ends smooth. If the plant is from a pot and the ball still remains, loosen it slightly before setting in the ground. Firm the soil around the plant well, being careful to surface with dry, pulverized earth. Only water when the plant shows signs of needing it, and give no fertilizer until the first growth has hardened.

None bat the choicest varieties are enumerated, and none but those specially adapted to the climate and soil of California. Our stock is all etrong, healthy, and free from insects.

Special prices on large quantities.

## TEA ROSES

Every lover of flowers in California is so well acquainted with Tea Roses that a special description is unnecessary. They are valued alike for their beauty of form, color and sweetness, and for their free and continuous-flowering qualities. They require more praning when in dormant state than any other class of roses, and the flowers should not be allowed to fade upon the bushes. A dusting of sulphur is the best remedy for mildew; tobacco, tea or dust and buhach will destroy the green aphis. The green-striped bugs (diabrotica), have to be caught by hand in the morning when they are clustered in the faded flowers.

Only a few of the choicest varieties are offered; strong plants from $2 \frac{1}{2}$ and 3 inch pots.

WABAN.-This is docidedly the novelty of the season among roses, and undoubtedly one of the most beautiful varieties ever produced. In every way similar to Catherine Mermet except in color, which is a rich Syrian rose. Price, $35 c$ each.

CATHERINE MERMET.-Clear, rosy, flesh pink, shaded and reined wi.h amber; silver lastre, large size, magaificent buds, generally concoded to be one of the finest tea roses in existence. Price, 15 c and 20 c each.

TMADAME HOSTE. - A fine new variety, varying in color frum irory white to cream; fine buds, free-flowering. Price, 20 c and 30 c each.

NIPHETOS.-Pure white, long, graceful buds, delicate tea scent, free-flow. ering, highly prized. Price, 15 c and 20 c each.

PAPA GONTIER.-Crimson rose, with a lighting of yellow, buds long and fine, robust grower and free bloomer, strong tea fragrance. Price, 15 c and 20 c each.

PERLE DES JARDINS.-Rich straw color, sometimes deep canary, flowers and bude very large and beatiful, free-flowering, foliage very handsome; a great favorite. Price, 15 c and 20 c each.

RAINBOW.-A sport from Papa Gontier, a more robust grower and freerflowering than its parent. The petals have great substance. The ground color is a bright La France pink, beautifully stripod and splashed with rich carmine. Price. 2.) each.

SUNSET.-Rich tawny saffron and orange, similar in character of growth and flower to Perle des Jardins, of which it is a sprout; a beautiful rose. Price, 15 c and 20 c each.

THE BRIDE.-Pure ivory white, excepting in color identical with Catherine Mermet, its parent; buds of grand size, carried high and erect on bright, smooth stems; an all round good rose. Price, 15 c and $2 \overline{\mathrm{c}} \mathrm{c}$ each.

THE QUEEN.-A new, pure white variety of vigorous growth, flowers medium size, borne in profusion. Price, 15 c and 25 c each.

AGRIPPINA.-Richest shade of crimson, medium-sized flowers, profuse and continuous bloomer. Best hedgerose. Price, 15 c and 20 c each.

MALMAISON.-Rich flesh-colored flowers, of large size, beautiful buds, one of the oldest and best of roses. Price, 15 c and 25 c each.

DEVONIENSIS (Magnolia Rose).-Delicate creamy white, blush center, exquisite buds. Price, 15 c and 20 c each.

DUCHESS DE BRABANT.-Soft shell pink, globular and sweet, an old favorite. Price, 15 c and 20 c each.

ETOILE DE LYON.-Brilliant chrome yellow, medium-sized flower, very free bloomer. Price, 15 c and 20 c each.

MARIE GUILLOT.-Pure white, fine both in bud and open flower, one of the best white roses. Price, 15 c and 20 c each.

SAFRANO.-Euff-tinted apricot yellow, ideal tea rosebud, fragrant. An old \&avorite. Price, 15 c and 20 c each.

MARIE VANN HOUTTE.-Creamy white, outer petala suffused with reddish pink, large and beautiful buds. Price, 15 c and 20 c each.

## HYBRID TEA ROSES

The Hybrid Tea Roses have been nearly all introdiced in the last few years, and come of them have proven prime favorites. They are produced by crossing the Teas with Hybrid Perpetuals, the resulting varieties combining the free-flowering qualities and delicate shades of the one, with the brilliance, fragrance and vigor of the other. They do best when given a semi-season of rest, and should not be pruned as freely as the teas.

AMERICAN BEAUTY.-Deep, brilliant pink, shaded with carmine; buds snd flowers extra large, duuble and exceedingly sweet ; flowers borne on strong, erect stems, closely get with rich, leathery foliage. Price, 25 c and 35 c each.

DUCHESS OF ALBANY.-"Syrian rose;" an exquisite shade of clear, deep pink; a sport of Lis France, similar in growth, character of flower and iragrance to its parent; one of the finest roses of recent introduction. Price, 20e and 35 c each.

LA FRANCE.-Delicate, silvery rose, shading to silvery peach blossom, very large, globular form, petals sharply re-curved, delightfully fragrant and a free bloomer; a great favorite. Price, 15 c and 20 c each.

METEOR.-Dark, velvety crimson, exquisite buds and delicious fragrance, free-flowering; one of the finest. Price, 20 c and 30 c each.

SOUVENIR DE WOOTTON.-A beautiful shade or carmine crimson, beautiful in bud and expanded flower, sweet-acented and free-flowering; robutit grower. Price, 15 c and 20 c each.

## HYERID PERPETUAL ROSES

The Hybrid Perpetuals are among the grandest of roses, but they do not produce their fiowers as freely as other classes. Their large size, rich coloring and sweet fragrance have, however, endeared them to the heart of every flower lover. They require strong, rich soil and bloom from the old wood.

GEN. JACQUEMINOT.-Rich, velvety crimson, large and beautiful buda and flowers; fragrance exquisite; a good grower and bloomer; an old favorite. Price, 10 c and 20 c each.

MAGNA CHARTA.-Clear, rosy pink, flushed with carmine, very large, globular, fragrant; strong grower. Price, $15 c$ and 25 c each.

PAUL NEYRON.-Bright pink, vigorous grower, and nearly a constant bloomer. One of the largest of all roses. Price, 15 c and 20 c each.

## POLYANTHA ROSES

These fairy-like roses are exceedingly beautiful. They are of low, compact, but graceful growth, and are profuse bloomers. They are conscientiously recommended to all lovers of rare and beautiful roses, and they will please all who plant them. They are excellent for weddings, cemetery planting or borders. The weak wood should be occasionally thinned, and over-vigorous ahoots stopped. All dead flowers and spent flowering wood should be removed.

MME. CECIL BRUNNER.-Salmon pink, with rich salmon center; exquisitely formed buds, delicalely scented, profuse bloomor. Price, 15 c and zuc each.

CIOTHILDE SOUPERT.-Pure white flowers, pinkish center, borne with wonderful ireedom, regular grower; a new rose of great merit, fine for bedding. Pri e, 15 c and 20 c each.

MIGNONETTE.-Dark pink, blooms in immense clusterg. Price, 15 c and and 20 c each.

## CLIMBING ROSES

The climate of California is specially adapted to the bighest cievelopment of the finest climbing roses. Only plant enough of them, and your house will be continuously wreathed in fragrant blossoms. Weak or dead wood and faded flowers should bo carefully cut away. The branches should be firmly fastoned with some pliable material in the way which they are desired to grow.

LAMARQUE.-Snowy white, melium size, profuge bloomer, a strong, sealthy grower; the best white climber for gencral purposes. Price, 15 c and auc each.

MARECHAL NEIL. -Deep sulphur yellow, large and heautifully formed buis, sweet fragrance, vigorolls grower. Should be planted in warm, sunny locations. I'rice, 15 c and 25 c each.

CLIMBING NIPHETOS.-Pure white, long buda, gimilar to its parent Niphetos, excepting its robust climbing habit; plant in sheltered locations (new). Prico, 25 c and $3 j \mathrm{c}$ each.

CLIMBING PERLE DES JARDINS.-Rich straw color, large and beautiful buds, of robust climbing habit; in other respectasimilar to its parent Porle der Jardins. A new rose of promise. Pri e, 25 c and 35 e each.

REINE MARIE HENRIETTE.-Dark crimson, very large, pointed buds, etrong grower. Price, 15 c and 20 c each.

## FIELD-GROWN ROSES

For planting in the early fall or winter, dormant Field-frown Roses are the most suitable. Ilaving stronger branches and ronts they are in better condition to resist the vicissitudes of the season, and quickly etart into vigurous growth. It is our custom every spring to plant out many thousands of small roses and carefully cultivate them for this trade. Our stock this season is particularly fine, and all those who purchase will surely be pleased. Strong plants, each, 35 c ; ten, $\$ 2.25$; per $100, \$ 20.00$.

## COLLECTIONS OF ROSES

The following collections hare been arranged to facilitate the selecting of varieties by those who are not familiar with the most desirable sorts. An opportunity is also given those who desire to secure a nice assortment at redured rates. No particular variety or varieties are guaranteed, but whenever there accompanies the order a statement of the purpose for which the roses are desired, the collection will be made to conform as nearly as possible to the wishes of the purchaser. None but the best varieties are used in the collections.

| No. 2, 10 " | \$125 | 175 |
| No. 2, 20 " | 225 | 300 |

## CHRYSANTHEMUMS

For centuries past the Japanese have regarded the Chrysanthemum with a peculiarly intense national love. Graduaily it has won its way in our own conntry, until to-day it is only second to the rose in popularity. During the last few yeare wonderful strides have been made in the production of new varieties, many of them being so unique and varied in color and fantastic in form, as to baffle the skill of the artist in description.

Chrysanthemums come at a time of the year when other flowers are the scarcest, even roses in the open ground having ceased to bloom. They have a flowering season extending over a period of several months, and the expanded flowers last a long time either on the bush or when cut. No garden is complete without its collection of these beautiful flowers. We have taken great care to have our plants true to name and to discard all unworthy sorts.
Chryaanthemums, whether grown in pots or open ground, should have rich zoil and be kept growing continuously. A sunshiny, sheltered location is best. Plenty of water should be given, and as the flowering season approaches, regular applications of weak manure water should be made. If very large show flowers are desired, cut away all side shoots, leaving only one or two of the strongest stems and as many buds. The most satisfactory way is to pinch bacik the small plants to induce vigorous, bushy growth; allow a number of strong shocts to remain, from which remove from one-half to two-thirds of the flower buds. The result will be an abundance of large-sized fowers.

Please write both the name and number of the variety plainly in oriering.
For 1892 varieties see Novelties.
Plants ready for shipment March 1st.

## CHRYSANTHEMUMS INTRODUCED IN 1851

This list contains the choicest of all the varieties introduced last year, all of which we have flowered.
124. CLARA REIMER.-White, with lavender markings, fine for pot culture. Price, 15 c each.

112. W. W. COLES.-Terra cotta, whorled center; a popular variety. Price, 20c each.

## FERNS

Ferns are a beautiful class of plants that are each year increasing in public estimation. Indeed, there are but few more beautiful sights than well grown specimens of the varieties offered, possessing, as they do, the highest order of graceful delicacy of foliage.

The ferns offered are the sorts most useful in the cut flower trade. They should be grown in pots in shaded or partly shaded locations, and should be kept constantly moist without having the soil soggy. A season of rest should bo allowed, the proper time being indicated by the foliage.

Fine, larye plants, prices upon application.
ADIANTUM CUNEATUM.-The very best variety for general purpores; large, beautiful fronds ; fine for cutting.

ADIANTUM FARLEYENSE.-This may be called the queen of maidenhair ferns; pinnules are large and delicate, and of an exquieite shade of sof́t pale ẹreen, large and graceful fronds; rase and heautiful.

## GARNATIONS

Carnations are so universally planted and admired that a general description eeems hardly necessary. They are so easily grown in all parts of California, cinlezace such a diversity of beautiful shades and colors, and have such a delightful fragrance, that no garden is complete without its bed or border of carnations.

We take particular pride in our collection, which is the choicest to be found in California. Ouly those varieties are offered which have been thoroughly tested. and are adapted to general planting.

Carnations will thrive in any good garden soil, the richer the better, but fertilizers should never be brought in direct contact with the plants. Long, straggly shoots or over-vigorons growths should be stopped by pinching until a strong, bushy, symmetrical plant is formed, when flower shoots may be allowed to grow; give plenty of water when growing vigorously and when flowering.

We offer the following from $21 / 2 \mathrm{in}$. pots (strong plants ready in March, larger plants later):

For 1892 varieties see Novelties.
Price, our selection 10 choice sorts, $\$ 1.25$.
GOLDEN GATE.--Pure yellow, the finest of its color, full and double, a vigorous and healthy grower, better than Buttercups. Price, 20c each.

SNOWFLAKE.-White, large, finely formed flower. Price, 10c cech.

## SWEET PEAS

Sweet peas have justly been classed among the most artistically beautiful and sweetest of flowers. To foster the growing taste and meet the popular demand for this beautiful flower, we annually, at considerable trouble and expense, collect all of the newest and best varieties from both Europe and the United States, and after carefully testing them, offer the finest to our customers. So great has the demand grown for our unrivalled collections that about five acres are each year devoted to their culture.

Only the choicest novelties and standard varieties are offered in the appended list. 'These Sweet Peas should not be confounded with the ordinary stock sorts sold by seedsmen. None need hesitate to order, as their great beauty, size, sweetness and vigor of growth cannot fail to give the greatest satisfaction. Sow the seed in good garden soil from October to April, at intervals, for a succession of flowers. Do not allow them tosuffer for water and give some slight support. Do not allow flower spikes to go to seed, as it will greatly shorten the flowering sealson.

## NOVELTIES 1891-92

Price, per package, 25 c. except where noted; a package cantains about $5 / 2 \mathrm{oz}$.

PRINCE OF WALES. - White ground, ahaded and striped mauve.
RED AND VJHIIE.-White ground, clear bright red stripes.
THE QUEEN.-Rosy pink and light mauve ; a charming contrast of colors.

## PELARGONIUMS

Pelargoniums, or Lady Washington Geraniums as they are sometime a called, grow and blossom with remarkable luxuriance in California, particularly in the coast counties. They furnish at nearly all seasons of the year, a profision of flowers, whose unique colorings it is most difficult to describe. Pularguniams are among the most satisfactory flowers that can be planted, as they grow vigorously for years, and require but little care when once established.

Plant in warm, sunny, well-drained locations, in good soil, pinch in overvigurous shoots to keep the plant symmetrical. Keep faded flowers cut off and give water sufficient to keep them growing.

All of the varieties offered are so beautiful that it may prove quite dimeult to select a few sorts.

The whole collection will be sent at the reduced rate of $\$ 6.00$; price, single plants, 40 cents each. Stock on hand is extra large and fine, but is in limiterl supply. Orders will be booked for younger stock for future delivery at much reduced prices.

BEAUTY OF OXTON.-Upper petals, rich maroon; lower petals, dark crimson, maroon shading, light center; petals, crimped, edged with white.

DOCTOR MASTERS.-Upper petals, nearly black, shading to rich crimson margin; lower petals, small blotch, broad margin.

DUCHESS OF BEDFORD.-Pure white, delicately veined and sharled with clear rose.

EMPRESS OF INDIA.- White, shaded with rose; large flower.
GLORIE DE TOURS.-Orange, with large, dark blotches.
GLORIA PATRIA.-White ground, crimson shadings on upper petals.
GOLDEN GATE.-Lower petals, light, margined with vermilion; upper petals, dark.

İEYSTONE BEAUTY.-Petals light, with dark markings.
LOUISE ORNER.-White, with delicate wine-red shadings.
LORD CLYDE. - White, with maroon blotches.
MRS. JOHN SAUL.- Rich glowing vermilion, light ceuter, light margin to petals; large trusses.

MME. VIBERT.-Vermilion and white, with dark, velvety blotches.
MME. THIBAUT.-White ground, richly blotched with crimson.
MRS. COUFLAND.-Perle white, very slight purple veins in upper petals; a magnificent sort.

OCCIDENT.-Ground color, a delicate pink; upper petale, very dark.

PRINCE OF PELARGONIUMS.-Soft, clear pink ground, with marooa botches.

PRINCE OF WALES.-Bright vermilion, with light center and edges; vory free-fowering.

QUEEN VICTORIA.-Rich vermilion, petals broadly margined with pure white, the apper blotched with bright maroon; petals peculiarly crispy, giving sppearance of being double.

## VIOLETS

The sweet, modest Violet has won a warm place in the affections of the Deople of California. It is particularly popular on account of the ease with which it can be grown, the large size and abundance of the flowers produced and the long flowering season:

Our violet fields are about five acres in extent and are by far the largest and finest in the United States.

Violets delight in a partially shaded location and during the growing and blooming season should not lack for water. If large, fine flowers are desired, the pianta must be given plenty of room and kept free from runners. All the varicties make pretty borders.

Strong, bealthy plants. Price per $10,45 \mathrm{c}$, per $100, \$ 3.00$.
SWANLEX WHITE.-Finest double white, very sweet; should be given more sunlight than the purple varieties, as the flowers are liable to a greenish tint when too much shaded.

MARIE LOUISE.-Dark purple, very large, double and sweet, profuse bloomer, and regarded by many as the finest of all double violets.

NEAPOLITAN.- Light purple, large, double and deliciously sweet, profuse bloomer.

THE CZAR (Russian)-Single purple, very dark and sweet; vigorous grower, flowers borno on long, erect stems; preferred by some to any other violet.

## PALMS

No class of plants adds so much to the tropical beauty of California gardene as the stately but ever-graceful palms. They are among the noblest and moss admired of trees, in every country in which they thrive. For grand avenues or landscape effects they are unexcelled. Plant them in good soil, and give plenty of water the first year until the roots become established. The ground should bo occasionally loosened and pulverized.
