PREFACE.

THE object of this work is to include in ONE GENERAL ALPHABETICAL LIST all those who have any definite position arising either—

From Hereditary Rank—Peers (with all their children), and Baronets ;

From any recognised Title or Order conferred upon them by the Sovereign—Privy Councillors, Knights and Companions of the three British Orders ;

From their positions as Members of Parliament ;

From any of the higher grades of the legal, military, naval, clerical, or colonial services of the State—Judges, Generals, Admirals, all Bishops, Deans and Archdeacons (but only of England), and Governors of Colonies.

And Deputy-Lieutenants and Magistrates for the Counties of England and Wales, Commissioners of the Lieutenancy of the City of London, Queen's Counsel, Serjeants-at-Law, Presidents and Vice-Presidents of Learned Societies, AND THE OWNERS OF A LARGE NUMBER OF THE PRINCIPAL SEATS IN ENGLAND, which, in the present edition, have been nearly all included.

There have been previously published many books giving a more detailed genealogical history of some of these classes, such as the volumes published under the names of Burke, Lodge and Walford :

this work does not profess to supersede any of these books, from all of which it is both in plan and character totally distinct. It includes twice as many names of living persons as any one of them, and its distinguishing feature is that, from its ALPHABETICAL ARRANGEMENT, anyone using it can at once ascertain whether there be any person bearing a particular title, and, if so, to what family he belongs.

As in the previous editions, the proof of every entry has been submitted to the person referred to (with the exception of those instances in which no address in the United Kingdom has been obtained), and the correctness of the work is thereby ensured.

It is respectfully requested that any notices of alterations and any corrections may be forwarded to the Publishers.

PRECEDENCE AMONG LADIES.

The daughter of a peer does not lose her own rank should she marry a person not a peer, or a bishop; but if she marries a peer her title and precedence are merged in his, *e.g.*, if the daughter of a duke marries a baron, she takes the rank of a baroness. But if the widow of a duke marries a baron, she retains her own rank of duchess. The widow of a peer or knight may retain her title notwithstanding her second marriage, but she does so only by courtesy. The widow of a baronet, however, enjoys her precedence for life by right. Official rank and precedence is not communicable to the wife, but the wife of the Viceroy of Ireland and of a lord mayor has precedence derived from her husband's office.

Extract from the "Pictorial World," Dec. 27, 1879.

I have before me some of the best photographs I have seen for a long time, which have been taken by Messrs. Brown, Barnes, and Bell, of Regent Street, and represent the various characters in the successful comedy, *Betsy*, now running at the Criterion. The portraits of Miss Lottie Venne, Mrs. Stephens, Mr. W. J. Hill, Mr. Lytton Sothorn, and Mr. Giddens, are all remarkably good, and the different groups are taken with a degree of clearness and fidelity to life that will render them peculiarly acceptable as mementoes of Mr. Burnand's amusing work. Messrs. Brown, Barnes, and Bell are certainly to be congratulated on the artistic skill displayed in these admirable portraits.

BARNARD'S PATENT FOLDING BASSINETTES.

BY HER MAJESTY'S ROYAL LETTERS PATENT.

BARNARD'S PATENT FOLDING HAMMOCK BASSINETTE.

Price from Two Guineas each.

PATRONISED BY THE ROYAL FAMILY, and strongly recommended by Medical Men as the safest and most portable BASSINETTE ever invented. The weight is only 7lb., and they are far preferable to ordinary infants' beds made of iron or wickerwork; the former are hard and heavy to move about, and the latter are cumbersome and easily put out of shape. Barnard's Patent obtained the Highest Honours at Vienna, Philadelphia, and Paris Exhibitions, which establishes their superiority. They are largely sold for home use and the Colonies, especially India. Intending purchasers are invited to inspect them before choosing any other, when they will see the advantage of these Bassinettes, as they are perfectly safe, while those on rockers are liable to be overturned where there are other children.

WILKINSON'S Granite Concrete Pavement,

NOW OF ESTABLISHED REPUTATION.

ABOUT 8,000 yards of extra strong quality are to be laid in stables and yards of the New Barracks at Knightsbridge, being preferred by the WAR OFFICE AUTHORITIES to Granite Paving Sets. A considerable quantity has been some time in use at the Wharf of the ARMY CLOTHING ESTABLISHMENT, PIMLICO, and given great satisfaction. The material has also been extensively used for Railway Platforms at Newcastle, Tynemouth, Shields, Hexham, Blyadon, Durham, Ferryhill, East Hartlepool, West Hartlepool, Northalleaton, Leeds, Bradford, Edinburgh, Dundee, Leuchars, Berwick, Hawick, Galashiels, Ardrossan, &c. Several thousand yards are specified to be used at extensions at Sunderland, Carlisle, Glasgow, &c. It was first extensively used about twenty-five years ago at the Works of Sir W. G. Armstrong & Co., in Newcastle-on-Tyne, and is now well known in England, Ireland and Scotland; like all good things, it is being imitated, and a great quantity of inferior work produced. W. R. WILKINSON & CO., Newcastle-on-Tyne, having made this a speciality of their business, are largely patronised by the Nobility, the most eminent London and Provincial Architects and Engineers, and by the War and Post Office Departments of Her Majesty's Government, all the work done being guaranteed. It has been used, and is the best material, for Stables, Coach Houses, Stable and Court Yards, Kennels, Barns, Byres, Seed Warehouses, Markets, Mills, Slaughter Houses, Bacon Curing Houses, Weaving Sheds, Cellars for Storing Ale, &c., Maltings, Granaries, Street Footpaths, Dye Houses, Aquariums, Winter Gardens, Conservatories, Churches, Schools and Play-grounds, Kitchens, Pantries, Larders, Wash-houses and Corridors. In the basement of Dwelling Houses for Kitchens, Passages, Cellars, &c., it is impervious to damp and vermin, an agreeable color and easily cleaned; used for Warehouses, Mills, &c., it can be laid on Upper Floors, on Wood, or other supports; lessens the risk of damage by fire both from above and below; in Stables it lessens the quantity of straw used for bedding.

Architects and Engineers, to insure having perfect work, are recommended to specify CONCRETE PAVEMENT TO BE LAID BY W. B. WILKINSON & CO., NEWCASTLE-ON-TYNE.

Work guaranteed for 5 years without extra Charge. Quotations given on application to—

The Map, which extends to about four miles east and west from Charing Cross, is sold separately.
