Article 9. Those who acquired the shares of this company and wishing to register their names newly shall submit application drawn up in due form of the company and countersigned by transferrers and transferees together with the shares in question. Same practice shall be applied in cases of registering establishment, change and termination of mortgage.

Article 10. Those who are wishing to change registration of names due to inheritance, bequest and other reasons than transfer, shall submit application drawn up in due form of the company together with vouchers testifying the fact and the shares in question to the company.

Article 11. Those who are wishing to have new shares due to damaged shares or change of denomination, shall submit application drawn up in due form of the company together with old shares to the company.

Article 12. Those who are wishing to have new shares due to loss of their shares, shall submit application drawn up in due form of this company together with original or copy of judgement of exclusion.

Article 13. Those who are wishing to register the manifestation that the shares are trusted property or its termination, shall submit application drawn up in due form of the company.

Article 14. The company shall receive due commissions when change of name, registration, or exchange of new shares are effected according to the preceding 5 articles.

Article 15. Shareholders, mortgagees, or their legal representatives shall register their addresses, names and seal-impressions to the company using due forms of the company. Same practice shall apply to the changes of above.

Article 16. Transfer book of this company shall be closed from next day of completion of every term's audit to the day of finishing regular general shareholders meeting thereof and also from the date of dispatching invitations to the emergency general shareholders meeting to the date of finishing the general shareholders meeting.

Besides above, in case of necessary, the transfer book shall be closed for a certain period after due notification.
In case of above two items, the registration of mortgage and trusted property may also be stopped.

Chapter III General Shareholders Meeting

Article 17. Regular general shareholders meeting shall be convened within 60 days from the next day of completion of every term's auditing. Extraordinary general shareholders meeting shall be convened whenever is considered necessary.

Article 18. President or other director shall preside over the general shareholders meeting.

Article 19. The resolutions of the general shareholders meeting shall be decided by majority votes of shareholders present. In case pros and cons are equal, the chairman shall vote casting vote.

Article 20. Shareholders may use their voting rights by entrusting them to other shareholders present. In such cases, the shareholders present shall testify their status by the due power of attorney.

Article 21. The brief process of proceedings on the agenda of general shareholders meeting and its results shall be recorded on the minute book.
The chairman, directors and auditors present shall write down their names and set their seal-impressions.

Chapter IV Executives

Article 22. This company shall have following executives;

Director: Under 15

Auditor : Under 5

Article 23. Term of office of a director shall terminate with the completion of the sixth regular general shereholders meeting after his assumption and

that of an auditor shall terminate with the completion of the fourth regular general shareholders meeting after his assumption. The terms of office of those becoming directors or auditors by filling vacancies or increase, shall terminate the completion of term of office of other directors and auditors.

Article 24. Directors shall elect one president and some senior managing directors (Senmu) and managing directors (Jomu) from among themselves.

President, senior managing directors and managing directors shall represent the company respectively.

Auditors shall elect one standing auditor from among themselves.

Article 25. Directors shall organize the board of directors to decide important affairs relating to the company's business.

The president shall convene and preside over the board of directors.

In case the president is prevented from doing his duty, one of other directors shall replace his position.

The resolutions of board of directors shall be decided by majority votes of directors present. When pros and cons are equal, the chairman shall vote his casting vote.

Article 26. Remunerations for directors and auditors shall be decided by the resolution of the general shareholders meeting.

Chapter V. Accounting

Article 27. Fiscal year of this company consists of two terms, from April 1 to September 30 and from October 1 to March 31 next year. Audit shall be effected every term.

Article 28. Net profit of the company shall be the balance deducting expenses, losses and depreciations from the gross profit raised during the term.

Net profit shall be disposed of as follows:

1. Legal reserve: More than 5%

1. Taxation reserve: Some

1. Bonuses for executives: Some

1. Dividends for shareholders: Some

1. Amount to be carried to next term: Some

Besides above, other items, are considered necessary may be added.

Article 29. Dividends shall be paid to shareholders or mortgagees registered on the shareholders' list as of the date closing the account of every term. Dividends which are not demanded for payment for 3 years from the date starting the payment, shall be forfeited by the company.

Article 30. The company shall furnish the attested copy of the accounting or abstracted copy to shareholders on demand at the due commissions fixed by the company.

Report on Examination (Designation of Successor Company) No. 189

Zaibatsu Appointees
Examination Section

1. Applicant Company:

Toyota Jidosha Hambai K.K.

221, 1-chome, Sasajima-machi, Nakamura-ku, Nagoya-shi.

(Representative: President Seitaro Kamiya)

2. Reason of Application:

The application has been filed concerning designation of successor company in accordance with the provisions of Article 9, para. 3 as the applicant company, having been established as of 3 April 1950 to handle loss insurance business, was transferred as of 25 May of the same year from the Toyota Jidosha Kogyo K.K. (hereinafter called as the parent company), Mitsui restricted company, part of its business, i.e. sales department of automobiles and their parts. Three second companies were established under parent company's final reorganization plan while the parent company itself also is continuing its existence.

3. As the result of examination the applicant company has been decided to be designated as successor company for the following reason.

Reason: (1) The company was transferred from the parent company the right in respect of sales of automobiles and parts, it main line of business, without compensation though there exist no capital relation with the parent company with no credits and liabilities succeeded therefrom while its 80 million yen capital was, in most part, raised among the 15 establishment promoters, small part having been offerred for public subscription.

(2) Whole of those 15 promoters are either officials or employees of the parent company.

(3) Of the five officials, four are former official or employee of the parent company while almost the whole of the employees are succeeded from the parent company's sales department.

(4) In relation to customers the company purchases automobiles from the parent company and parts and accessories from the parent and other companies for distribution to sales agencies in every prefecture throughout the country. In substance the company may well be deemed as the parent company's sales department made independent.

(5) As to its name the company succeed the parent company's "Toyota".

(For Reference)

The Toho Rayon Co., Ltd. was established in June 1934 with the capital of Yen 10,000,000 (in 1938 increased to Yen 15,000,000, paid up Yen 12,500,000) then named as the Toho Jinzosen-I (synthetic Fiber) Co., Ltd. In June 1940 this Company was amalgamated by the Nihon Yushi Co., Ltd. and became the textile section. By the recommendation of the Commerce and Agriculture Ministry, the textile section was bought by the Teikoku Sen-I Co., Ltd. in Feb. 1945, and continued the enterprise as the chemical fiber section. Since July 1st. 1946 the chemical fiber section adopted the independent account, with the project of forming an independent company, separating from the Teikoku Sen-I Co., Ltd. irrelevant to the Deconcentration Law. On July 1st, this chemical fiber section established the independent company named as the Toho Rayon Co., Ltd. with the capital of Yen 120,000,000, as one of second companies of the Teikoku Sen-I Co., Ltd. to be engaged in same enterprise by same members of the staff as before. From the fact as aforementioned, the Toho Rayon Co., Ltd. is one of second companies, however in view of the different nature of enterprise from flax industry, all members of the staff have been engaged only in the rayon staple business for years, moreover this chemical fiber section had been under the management of the Teikoku Sen-I Co., Ltd. for six months (Feb.-Aug. 1946), scarcely had no effective control by the Yasuda Zaibatsu.

Balance Sheet, (Estimate by the Re-organization Plan)
(The Toho Rayon Co., Ltd.)

Subject : Petition concerning the Toho Rayon Co., Ltd.
not being successor company.

As previously reported, the Toho Rayon Co., Ltd. was established as a second company of the Teikoku Sen-I Co., Ltd. in accordance with the authorized reorganization plan of the Enterprise and Reorganization Law. The Company believes that it is not a successor company according to the Law concerning the Elimination of Control by Zaibatsu Families. We solicit your kind recognition of this matter and hereby submit to you the explanations for the Petition as per attached statement.

The Toho Rayon Co., Ltd.

Y. Sasaki
.....
President

July 28th, 1950.

(1) Historical survey of the Toho Rayon Co., Ltd.

The precedessor of the Toho Rayon Co., Ltd was the Toho Jinzo Sen-I (Synthetic Fiber) Co., Ltd., which was founded in June of 1934, with the capital of Yen 10,000,000, (incresed to Yen 15,000,000 in September of 1938, Paid up Yen 12,500,000) to conduct the manufacture and spinning of various synthetic fibers, also the finishing and sale of synthetic fibers' products.

The promoters of the Company were as follows :-

Naozo Igarashi	Sueo Nishio	Manzo Oda
Kiichi Ohnishi	Heisaburo Okawa	Ryoji Oshima
Chokyuro Kadono	Teruo Tanabe	Seitaro Yamaguchi
Ruizo Fujikawa	Shintaro Atomiya	Hatsutaro Akashi
Toshio Sasaoka	Gunshori Mochizuki	Tatsumi Mochida

The stocks of the Company were subscribed by the public at the time of establishment, the share holders were 985 in all, and it was obvious that no Zaibatsu encroached in the share holding whatsoever.

The first board of Directors were consisted of the following members :-

President	Shintaro Atomiya
Junior Managing Director	Ryoji Oshima
Junior Managing Director	Toshio Sasaoka
Director	Hatsutaro Akashi
Director	Chokyuro Kadono
Director	Tatsumi Mochida
Auditor	Seitaro Yamaguchi
Auditor	Ruizo Fujikawa

The manufacturing Tokushima plant of the Company is situated at Kitajima Town, Kitano District, Tokushima Prefecture, the fore runner in the manufacture of the rayon staple in Japan, especially as to the manufacture of crimped rayon staple this plant was the first and produced it in 1940. By the continuous manufacturing process the products of the plant were recognized by the public as superior in quality, and the technics has been occupying the leading position in the field of crimped rayon staple industry to the present time since its production on the commercial basis in 1940.

However, the Company had been compelled to be amalgamated by the Nihon Yushi Co., Ltd. in June 1940 by the undermentioned reason.

During the World War, as the result of stronger enforcement of war effort, the chemical industry was involved by the re-organization plan, consequently the amalgamation was inevitable and unavoidable.

Before the amalgamation, the Toho Jinzo Sen-I Co., Ltd begun the manufacture of synthetic fiber by using soya beans as raw material, incidentally the Nihon Yushi Co., Ltd. was planning the extraction of oil and manufacture of fiber from the soya beans. In view of the technical advantage and same project, the later approached the Toho Jinzo Sen-I for the amalgamation. Under the general trend then prevailed, the Toho Jinzo Sen-I gave careful consideration and decided for the amalgamation with the Nihon Yushi Co.

After the amalgamation, the enterprise of Toho Jinzo Sen-I Co. became the Textile section of the Nihon Yushi Co. and Ryoji Oshima joined the board of directors as managing director, Yoshihiko Sasaki and Shigeo Sasaoka as director.

Afterward in July 1941, for the purpose of expansion of the Textile section, the Niigata Rayon Silk Co., Ltd. (capital Yen 3,000,000) was amalganated by the Nihon Yushi Co. and obtained the Patent right which was in possession of the Niigata Plant. The Patent was for the process of dyeing viscose of rayon staple and this process was adapted by the Tokushima Plant. Owing to the scarcity of metalic materials the contribution for the war effort became more severe. As the rayon industry was considered as the peace time industry, by the war-time re-organization plan, the Tokushima Plant was forced to contribute in December 1941 the spindles numbering 11,956 and again in June 1944 4,398 spindles, totalled 16,354 in all.

In August 1943, by the recommendation of the Japanese Authority, the Niigata Plant, after having made the contribution of equipments amounted to more than half portion, was sold to the Mitsubishi Mining Co., Ltd.

Henceforth the textile section was restored to the original structure in reality, the enterprise by soya beans operated by the Nihon Yushi Co. had to be ceased when the import of Manchurian soya beans was closed. Consequently the Tokushima plant which was originally founded by the Toho Jinzo Sen-I Co., began to operate without any relation with other sections of the Nihon Yushi Co., and scarcely there were changes in the personnel.

As the events were developed by the war, the Nihon Yushi Co. considered as to disposal of textile section. At that time the Teikoku Sen-I Co., Ltd. contributed the whole equipments of the Tamashima Plant (originally founded by the Taiyo Rayon Co., Ltd.) which had been manufacturing the rayon staple and rayon filament.

By the mediation of the Agriculture and Forestory Ministry, the textile section of the Nihon Yushi Co. was sold to the Teikoku Sen-I Co., thus the Tokushima Plant with the whole employees was placed under the management of the Teikoku Sen-I Co. The following personnel joined the board of directors of the Teikoku Sen-I Co. from the Nihon Yushi Co.:-

as Senior managing director,	Ryoji Oshima
as Director	Takeo Takagi
as Auditor	Yoshihiko Sasaki

Above mentioned three personnel were members of the executive staff of the Toho Jinzo Sen-I Co. before the amalgamation with the Nihon Yushi Co.

For many years prior to the purchase of the Tokushima plant, all the plants of the Teikoku Sen-I Co. have been operating on the consumption of natural fibers such as flax and silk. The chemical fibers produced by the Tokushima plant were entirely different from the natural fibers in both technics and labor conditions, hardly existed any horizontal relationship with the natural fibers' enterprise, neither did in the inter-changes of personnel. Consequently the chemical fiber section had always free hand in its operation and enterprise. Noteworthy fact is that after six months since the purchase of the Tokushima plant by the Teikoku Sen-I Co. the war was terminated. By those reasons as explained in the foregoings, the Zaibatsu influence had scarcely extended to the affairs and management of the Tokushima plant during such short duration as six months.

Under the post war condition, the chemical fiber section of the Teikoku Sen-I Co. contemplated for the separation by a formation of an independent company in the near future and from July 1st, 1948 the

separate independent account system has been adapted, having started the enterprise on independent basis free from the flax and silk sections.

By the Re-organization Law dated the May 31st, 1950 in accordance with the final order, the chemical fiber section established an independent company as one of the second companies of the Teikoku Sen-I Co., having thus regained the originality founded by the Toho Jinzo Sen-I Co., Ltd.

(2) Details of assets and consigned investment.

The investment consigned by the Teikoku Sen-I Co. for establishment of the Toho Rayon Co., Ltd. was Yen 120,000,000 and the transfered assets were amounted to Yen 1,181,457,909,48. These assets are owned by the Toho Rayon Co. as defined by the final order, namely most of the fixed assets were belonged to the Toho Jinzo Sen-I Co. and are obtained after the adaptation of separete independent account.

Contrasts of the fixed assets at the time of the amalgamation with the Nihon Yushi Co. (May 1940) and at the time of establishment of the Toho Rayon Co. (July 1950) are as follow :-

	(May 1940)	(July 1950)
Lands	113,409,83 (Tsubo)	100,303,03 (Tsubo)
Buildings	27,430,91 (")	28,151,12 (")
Equipment		
Steeping Press	16	16
Shredder	21	21
Vacume Kneader	20	25
Viscose Spinning	9	9
Scouring Machine	10	9

Dryer	10	10
Spindles	58,340	60,486

(Cause for increase of spindles is that after adaptation of independent account system from July 1948, chemical fiber section spent its own fund for the increase.)

As seen in the above contrast, there was not significant increase except in number of the spindles, thus the originality founded by the Toho Jinzo Sen-I Co. has been always maintained.

(3) Executive Personnel.

The executive personnel of the Toho Rayon Co., Ltd. are nine, among whom Yoshihiko Sasaki, Takeo Takagi, Tsutomu Suwa, Naohiko Matsunami, Ihachi Otake, Shoji Mori, had been either the executive member or the employee of the original Toho Jinzo Sen-I Co. Akira Yamanouchi joined the Taiyo Rayon Co., Ltd. in 1938 and remained with the Teikoku Sen-I Co. after the amalgamation took place between two companies, he has been the Tokushima plant manager since January 1950. Kiyori Kameda joined the Taiyo Rayon Co., Ltd. in 1934, remained with the Teikoku Sen-I Co. after the amalgamation as the manager of the Osaka Branch, most of the business are of chemical fibers, he became a director upon the establishment of Toho Rayon in July 1950. Fumio Ouchi joined the chemical fiber section in January 1950 as a consultant and became a standing auditor when the Toho Rayon Co. was established.

The above mentioned personnel are not effected by the Law for the termination of Zaibatsu family control. As to the employees of the Toho Rayon Co, all of them have been engaged in the business of chemical fibers and nearly all the staff in responsible positions have been in the employment since the establishment of the Toho Jinzo Sen-I Co. in 1934.

(4) The matter for reference.

The Teikoku Sen-I Co., Ltd. was the designated company by the Ordinance No. 657 of year 1945 (re the restriction and dissolution), but has been released from the application of the Ordinance by the memorandum of the G.H.Q. dated May 7th, 1950.

.....

DECLASSIFIED AUTH: EO 11652 SEC. 5(E) AND 5(D) OR (E) NNDS # 779012

Report on Examination (Non-Successor Company) No.188

Zaibatsu Appointees
Examination Section

1. Applicant Company:

Toho Rayon K.K.
8, 2-chome, Nihonbashi Muro-machi, Chuo-ku, Tokyo.

(Representative; President Yoshihiko Suzuki)

2. Reason of Application:

The application has been filed concerning designation of successor company in accordance with the provisions of Article 9, para. 3 as the applicant company, along with the Teikoku Seima K.K. and Chuo Senyi K.K., was established as of 1 July 1950 as a second company of the Teikoku Senyi K.K. (hereinafter called as the old company), Yasuda quasi-direct affiliate company, under its final reorganization plan. The old company was dissolved as of the date of establishment of the above second companies.

3. As the result of examination it has been decided that the applicant company be not designated as successor company for the following reason.

Reason:

1. The applicant company is the separation of the chemical textile department of the Teikoku Senyi to be made independent. This chemical textile department was formerly the Toho Jinzo Senyi K.K. (Toho Synthetic Textile Co., Ltd.) which was established in 1934 for the purpose of manufacturing, spinning and processing of various synthetic textiles with various textile businessmen and local fames as its promoters. The company had never belonged to any particular Zaibatsu with its stocks raised publicly.

In 1940 when the chemical textile business was required to undertake reorganization with intensification of the war and the Toho Jinzo Senyi was forced to be merged into other house, it selected the Nippon

Yushi K.K. of the Nissan lineage as its destination and became Nippon Yushi's textile department. Later the Nippon Yushi lost interest with textile business and in February 1945 through fortunately obtained good-office of the Ministry of Agriculture and Commerce whole of the textile business was sold out to the Teikoku Senyi with entire employees in the department also transferred.

The scope and substances of the textile department at the time of the sale was almost the same with those of the Toho Jinzo Senyi.

The plants of the Teikoku Senyi were manufacturing natural textiles of linen and silk while the textile department of the Nippon Yushi was in the line of chemical textile. There existed no business correlation between these two departments thus necessitating no exchange of personnel also. Not only with this loose connection but with only half year under Yasuda influence after the merger as the war came to its termination and shortly, in November 1945 the Yasuda Zaibatsu ceased its control over the affiliates, Yasuda's influential control over the chemical department is deemed to have been extremely weak. Later the department was decided to be separated into a independent concern in the future and as from 1 July 1948 was being run on an independent account basis.

2. In addition to its above-mentioned history, the most part of its assets invested and transferred from the old company as it was separated were those formerly belonged to the Toho Jinzo Senyi K.K. or procured after the independent account system was established.

3. As to the officials, none of them is indigenous employee of the old company, mostly being former officials or employees at the time of Toho Jinzo Senyi and the staff employees are almost those employed by the Toho Jinzo Senyi.

FROM SEC. 3(2) AND 3(3) OR (E) KNOW # 775012

Reason for Non-Successor Company

As stated in the written application, this company was completely separated and incorporated as the second company of Toyota Motor Co., Ltd., under the reorganization plan based on the Law of Reconstruction and Adjustment of Enterprise. All the assets, employees, and business that had been belonged to Toyota Motor Co. were entirely transfered to this company.
According to the Article 1., Imperial Ordinance No. 567, 1946, it is quite right that this company that was established as the second company of Toyota Motor Co., may be called the successor company, as Toyota Motor Co. is the restricted concerns.
However, from the point of view that Law for Termination of Zaibatsu Family Control aims at the elimination of man power control by the Zaibatsu Family - exclusion of the control of the Management by the Zaibatsu family and its relative officials, there exisits no fact that the company has been connected with any Zaibatsu and controlled by any Zaibatsu officials as in the case of Article 3, of the said Law. To say in details, Toyota Motor Co., the parent of this company, has been designated as the restricted company under the Article 3, Enforcement Regulation of the Law for Termination of the Zaibatsu Family Control, but the officials of that company have been non applicable persons to the Zaibatsu's officials all the time since and as well as at the time of the enforcement of the Law. The reason why Toyota Motor Co., Ltd., was designated as the restricted company by the Mitsui Family was due to the fact the Mitsui Headquarters, directly, and Toyo Cotton Trading Co. indirectly, had owned some of the company's shares. These shares should be disposed of in accordance with the proper laws concerned, but with the exception of the ownership of shares by the Mitsui Family, Toyota Motor Co. has had no connection with any Zaibatsu in the personal relation.
As to the officials of this company it is quite evident that not only Mr. Ninomiya, executive director who have been once an employee of this company but also other officials were all free from the Zaibatsu officials, as shown in their curriculum vitates attached.
In view of the foregoing reason, although this company is the second company of Toyota Motor Co., this company has no connections with any Zaibatsu in the control of its officials, and we wish to ask for your kind consideration on recognization of non-successor company.

Yours truly,

Aichi Enamelled Ware Co., Ltd.

Executive Director.

Subject: Application for Designation of Non-Successor Company.

This company was established on the 16th of December, 1949, as the second company of Toyota Motor Co., Ltd., that was designated as the restricted concerns under the Article 3, Detailed Enforcement Regulation of the Law for Termination of the Zaibatsu Family Control. An application for designation for non-successor company has been submitted you in comformity with the paragraph 3, Article 9, of the said Law, but we hereby wish to make an additional application with the detailed reason attached.

Yours truly,

Aichi Enamelled Ware Co., Ltd.

Masao Ninomiya
Executive Director

PURSUANT TO THE PROVISIONS OF PROC. SEC. 3(E) AND 3(J) OR (E) NNCC # 119012

Reason for Non-Successor Company.

This company was incorporated as the second company of Toyota Motor Co., Ltd. under the reorganization plan based on the Law of Reconstruction and Adjustment of Enterprise. All the assets, employees, and business that had been belonged to Toyota Motor Co. were entirely transfered to this company.

This plant was operating the spinning & weaving industry as the Aichi Plant of Chuo Spinning Co., Ltd. that was merged into Toyota Motor Co., Ltd. on Nov. 22, 1943 under the war-time second reorganization plan, concurrently, all the assets and the employees of the former company were transfered to the latter. At the request of the Japanese Government, the operation of spinning industry was abolished and air-craft industry was operated there. After the surrender, the reconversion into civilian goods having been permitted, this plant has operated the business as the manufacturer of enamelled iron ware and rebuilding of automobile under the name of Enamelled Ware Dept. and Automobile Service Dept. of Nakagawa Plant, Toyota Motor Co. respectively.

But as the result of the authorization of reorganization plan of Toyota Motor Co. this company was estiblished separating from Toyota Motor Co., Ltd. with the inheritance of the assets and the employees that had been belonged to the Enamelled Ware Dept.

The four officials of this company have been the employees of the Enamelled Ware Dept., of which two had been, as the attached each personal history shows, the employees of Chuo Spinning Co. before they became the employees of Toyota Motor Co. that amalgamated Chuo Spinning Co.

Though this is the second company of Toyota Motor Co., and the business of the company is different from that of Chuo Spinning Co. it may be considered that a part of Aichi Plant of Chuo Spinning Co. was made independent as it were.

In view of the foregoing reason, we wish to ask for your kind consideration on recongnization of non-successor company.

2. Reason for Application:

The application has been filed concerning designation of successor company in accordance with the provisions of Article 9, para. 3 as the applicant company was established on 16 December 1949, together with the Nippon Denso K.K. as of the same date and the Minsei Boseki K.K. as of 15 May 1950, as a second company of the Toyota Jidosha Kogyo K.K. (hereinafter called as the parent company), Mitsui restricted company under its final reorganization plan. The parent company is continuing its existence.

3. As the result of examination the applicant company has been decided to be designated as successor company for the following reason.

Reason:

The applicant company is the former Enamel Division of parent company's Nakagawa plant separated to be an independent company with 4 million yen capital wholly invested by the parent company with spot goods and other assets, liabilities and personnel also transferred.

(2) In its history the applicant company was formerly the Aichi Plant of the Chuo Boseki K.K. absorbed into the parent company in November 1943. The Chuo Boseki itself was a house in the Toyota lineage.

Reason for Non-Successor Company

As stated in the written application, this company was completely separated and incorporated as the second company of Toyota Motor Co., Ltd., under the reorganization plan based on the Law of Reconstruction and Adjustment of Enterprise. All the assets, employees, and business that had been belonged to Toyota Motor Co. were entirely transfered to this company.

According to the Article 1., Imperial Ordinance No. 567, 1946, it is quite right that this company that was established as the second company of Toyota Motor Co., may be called the successor company, as Toyota Motor Co. is the restricted concerns. However, from the point of view that Law for Termination of Zaibatsu Family Control aims at the elimination of man power control by the Zaibatsu Family - exclusion of the control of the Management by the Zaibatsu family and its relative officials, there exisits no fact that the company has been connected with any Zaibatsu and controlled by any Zaibatsu officials as in the case of Article 3, of the said Law. To say in details, Toyota Motor Co., the parent of this company, has been designated as the restricted company under the Article 3, Enforcement Regulation of the Law for Termination of the Zaibatsu Family Control, but the officials of that company have been non applicable persons to the Zaibatsu's officials all the time since and as well as at the time of the enforcement of the Law. The reason why Toyota Motor Co., Ltd., was designated as the restricted company by the Mitsui Family was due to the fact the Mitsui Headquarters, directly, and Toyo Cotton Trading Co. indirectly, had owned some of the company's shares. These shares should be disposed of in accordance with the proper laws concerned, but with the exception of the ownership of shares

by the Mitsui Family, Toyota Motor Co. has had no connection with any Zaibatsu in the personal relation.

As to the officials of this company it is quite evident that not only Mr. Hayashi, former Director of Toyota Motor Co., but also other officials who have had no career in the service of the Zaibatsu as its officials as shown in their curriculum vitaes attached are completly free from the Zaibatsu's officials.

In view of the foregoing reason, although this company is the second company of Toyota Motor Co., this company has no connections with any Zaibatsu in the control of its officials, and we wish to ask for your kind consideration on recongnization of non-successor company.

Yours truly,

Nippon Denso K.K.

Torao. Hayashi

Report on Examination (Designation of Successor Company) No.186

Zaibatsu Appointees
Examination Section

1. Applicant Company:

Nippon Denso K.K.
1, Mitamayama, Kariya, Kariya-shi, Aichi-ken.

(Representative;
President Torao Hayashi)

2. Reason for Application:

The application has been filed concerning designation of successor company in accordance with the provisions of Article 9, para. 3 as the applicant company was established on 16 December 1949, along with the Aichi Horo K.K. as of the same date and the Minsei Boseki K.K. as of 15 May 1950, as a second company of the Toyota Jidosha Kogyo K.K. (hereinafter called as the parent company), Mitsui restricted company, under its final reorganization plan. The parent company is still continuing existence.

3. As the result of examination the company has been decided to be successor company for the following reason.

Reason:

(1) The applicant company is the separation to be made independent of parent companies electric enamelling plant with 15 million yen capital wholly invested with parent company's spot goods. Other assets, liabilities and personnel including officials are also transferred from the parent company.

(2) From historical viewpoint the company was formerly the Chuo Boseki K.K. Kariya North Plant which was absorbed into the parent company in November 1943. This Chuo Boseki itself was a company under the Toyota control.
