GAS SHELLS USED BY GERMANS AGAIN

Enemy Succeeded in Capturing Cemetery at Souchez Early This Morning

FIRST ATTACK WAS REPULSED BY FRENCH

German Forces Attacked British Positions and Were Driven Back

Paris, July 12.—The war office gave out the following statement yesterday afternoon:

"At 3 o'clock yesterday afternoon the British army repulsed a German attack which had gained a temporary foothold in some trenches of the first line. The Germans were driven out by an immediate counter-attack.

"In the region to the north of Arras our troops completed the dislodgement of the enemy from certain sections of the trenches where he had been able to maintain himself along a line which we originally had taken on July 8.

"To the north of Souchez an enemy counter-attack, delivered during the night, was repulsed.

"Upon other sections of the front violent cannonades are reported, particularly in the region of Neuport and in the sector of the Alsne, as well as in Lorraine, in the forest of Le Petre, and near the Moncel bridge.

"One of our aviators sent a German aviator to earth this morning near Altkirch. He fell within sight of our lines."

The following statement was issued last night:

"The day has been relatively calm on the whole front. There were artillery actions in the region of the Alsne and Champagne. At Vaux Ferry, in the forest of Apremont, an attempt by the enemy to attack was repulsed easily.

"An intermittent cannonade has been directed against the Remiers wood, northwest of Flirey, and Le Petre forest, and a more violent cannonade against our positions at Fontenelle, Metzeral and west of Allerswiller.

"The enemy has thrown shells on Arras and Rheims again."

The following statement was issued to-day:

"There was great activity during the night upon various portions of the front.

"In the sector of Arras, the enemy, after having launched a large number of asphyxiating projectiles, attempted toward night, to the south of Souchez, an attack which failed. A second attack about 2 a. m. permitted him to occupy the cemetery and some sections of the trenches immediately adjacent.

"A very desperate battle with hand grenades took place in the closely-situated trenches to the southeast of Neuville-St. Vaast without appreciable gain on either side.

"Upon the plateau to the north of the Oise (region of Quenneveres and Nouvron) the bombardment on both sides was particularly violent.

"In the Argonne there was fighting with bombs and mines in which our artillery joined.

"In the Woivre, the enemy violently cannonaded Fresnes-en-Woeivre and attempted several attacks, one near Saul en Woeivre, the others in the forest of Apremont, at Vaux Ferry and the Cow's Head. They were repulsed everywhere.

"In the Vosges the Germans exploded a mine in the proximity of our positions to the southwest of Allerswiller and then delivered a strong attack with several companies, which was thrown back with important losses. We made some prisoners."

KINGS WILL MEET IN ATHENS SHORTLY

Balkan League May Be Revived; Italy Will Be Represented

Rome, July 12.—Efforts to revive the Balkan League, with Italy as the guiding hand, are seen here to-day in reports that the kings of Roumania, Bulgaria and Greece are to meet in Athens before the Greek parliament convenes. Serbia and Italy also will be represented at the meeting.

The continued success of the Italians in their invasion of Austria has led to the belief among diplomats that this nation will be a power to be reckoned with when the time comes to establish the future status of the Balkan States. This belief is having a great influence upon the shaping of the present policies of the Balkan nations.

REPLY WILL NOT BE PREPARED HASTILY

Note to Be Sent by States Will Be Subject of Lengthy Consideration

SECRETARY OF STATE WILL SEE BERNSTORFF

Latter is Seeking Information Regarding Attitude of American Government

Washington, July 12.—The situation between Germany and the United States has taken on such a serious and critical character that the policy of the American government will require lengthy and deliberate consideration that it may have the firmness which the circumstances demand. This was the statement made to-day in high official quarters.

Secretary Lansing, after taking several days to examine the German reply, may go to Cornish after all to confer with President Wilson. The original plan, it was explained, was for the president and Mr. Lansing to confer and for the president then to give the secretary of state a note, which would be submitted to the cabinet on the president's return to Washington. Now the belief is that the president and Mr. Lansing, working independently, will prepare memoranda and confer after their ideas have matured.

Count von Bernstorff, the German ambassador, has asked Secretary Lansing if he wishes to see him and the secretary is understood to have replied that he will see him after he has examined the situation carefully. The ambassador is seeking information on the attitude of the American government toward the German reply. After Mr. Lansing has conferred with President Wilson it is not unlikely that some intimation will be given to the German ambassador of the seriousness with which the United States government regards the crisis.

London, July 12.—The Manchester Guardian concludes an editorial on the German reply to the American note as follows:

"Since Germany cannot obey the laws of humanity while she uses submarines to do cruelties' work, she contends with characteristic logic that it is right for her to break them. It is the kind of logic which the United States has given ample proof that she will not tolerate, and coupled, as it now is, with an attempt to make the United States participate in German methods by communicating to Berlin the names and sailing times of ships that may go safely, thereby implicitly consigning others to their fate, it probably will convince President Wilson of the folly of continuing diplomatic relations with a government so shameless."

London, July 12.—Roman Catholic prelates of the United States have appealed to Pope Benedict to try to prevent war between Germany and the United States, according to a dispatch received from Rome to-day by the Star. The dispatch says:

"Roman Catholic archbishops at Cincinnati and Milwaukee and the Bishop of Toledo have appealed to his holiness urging intervention to prevent the war from spreading to the United States. The suggestion of mediation by the holy see was made to prevent the threatened rupture of relations."

"The pope replied by recommending that the prelates rely upon the wisdom of President Wilson and by urging German-Americans to be loyal to their adopted country."

SENDING TROOPS TO THE DARDANELLES?

Reported That Russia is Moving Men From Port of Vladivostok

Mantla, July 12.—Persons who have arrived here from Saigon, capital of French Cochin China, report that all vessels belonging to the Messageries Maritimes which have been engaged in far eastern traffic, are being transferred into transports to carry Russian troops to the Dardanelles. Whenever a vessel of the Messageries fleet reaches Saigon, it is said, the passengers are transferred and the freight unloaded, after which a large force of carpenters works at top speed to make the necessary alterations. The ships then are sent to Vladivostok to take on troops.

Russia probably would benefit more than any other nation from the forcing of the Dardanelles and the fall of Constantinople, but there have been no previous reports of an authoritative nature to the effect that Russian troops would be sent to the Gallipoli Peninsula to assist the allies in the operations there.

Was Summoned by the King; Earl Kitchener

London, July 12.—Field-Marshal Earl Kitchener, who was spending the week-end out of town, was summoned to the palace on Saturday and was granted an audience by the king.

THINKS BIG DRIVE WILL START SOON

Allies Are Prepared, Says Representative of the British Government

REPORTED TO-DAY THAT LA BASSEE IS BURNING

New York, July 12.—The long awaited "spring drive" of the allies will start shortly, according to Frank Searle, an automobile engineer appointed to represent the British government here, who arrived on the Baltic.

"Something is expected shortly," he said in reference to the allies' offensive movement. "The British government is just recovering from the stupendous task of raising a vast army and things will be ready very shortly now."

London, July 12.—La Bassee, in northern France, where the Germans have maintained their positions in spite of desperate attacks, is believed to be burning. Advice received here to-day says the conflagration is visible from points adjacent to La Bassee.

CAPTAINS URGED TO WATCH AND REPORT

Government Wishes Prompt Information Regarding Suspicious-Looking Craft

Ottawa, July 12.—The first direct evidence of the precautions which the government is taking against the presence of German submarines on the Atlantic coast is in a notification issued to mariners by the marine department, asking them to report suspicious-looking craft. The notice is as follows:

"The masters of all vessels navigating Canadian waters are warned as to the necessity of keeping a sharp lookout and reporting any suspicious craft they may sight. Small fishing and coasting vessels particularly are urged at once to report any such craft to the nearest customs officer for transmission by telegraph, on east coast to the captain in charge of Halifax dockyard and on the west coast to the superintendent of the Esquimaux dockyard."

DID THE SULTAN DIE SEVERAL DAYS AGO?

Paris, July 12.—La Liberté says that the Idea Nazionale, of Rome, has received the following note, viaed by the censor:

"News from Athens and Sofia advises us that the sultan of Turkey has been dead several days and that the Young Turks are hiding the news, fearing political complications."

MAJ.-GEN. HUGHES HAS ARRIVED IN ENGLAND

London, July 12.—Seen by a representative of the Canadian Associated Press to-day, Major-General Sam Hughes, who arrived last night on the Philadelphia, said he was here for the good of his health. He added that he would meet the Canadian officers returning from the front.

TROOPS MOVED BACK TO EASTERN FRONT?

Germans Forced to Change Their Plans for a Drive Toward Calais?

STRUGGLE ON DNIESTER AND ZELOTA LIPA RIVERS

Review of Most Recent Reports Issued by the Several War Offices

London, July 12.—Checkmate of German attempts to advance both in the eastern and the western theatres of war was seen to-day by British military men in the news that Teuton troops destined for an attempt to smash through to Calais again had been diverted to the Russian front to strengthen the Austrians and the army under General von Mackensen, which has been held stationary by Grand Duke Nicholas in Poland and Galicia.

Announcements of success in the west have come almost altogether from Paris and London. There is not a doubt that the offensive of the German crown prince in the Woivre has been stopped by the French, and vague reports of heavy fighting about Arras and La Bassee, while not very enlightening, point to the possibility of an offensive by the allies which may develop into importance.

Commenting on the eastern situation, several military critics here declare that there no longer is a possibility of a Teutonic victory which would prove important. Even should the Russians be driven out of Ivanograd and Brest Litovsk, with the consequent abandonment of Warsaw, it is claimed, the damage to Russian arms or prestige would not be great, for the Teutonic commanders have definitely failed to break through the Russian lines. The farthest point of the enemy's advance, it is claimed here, simply would mark the point from which a new Slav offensive would begin, when, in the opinion of the Grand Duke, the time was ripe.

The Russians were on the defensive again to-day along the Zelota, Lipa and Dniester rivers, their offensive checked by terrific cannonading, but the situation had not developed further than the initial stages of the struggle.

On the Bobr river front, General von Hindenburg was hammering at Ossowetz, apparently in an effort to divert Russian strength from the Lublin front and, possibly, to prepare the way for a frontal attack on Warsaw.

Calls for the return of all Bulgarian reservists from Italy were taken here to indicate that a gathering of the heads of the Balkan States possibly would be to consider their united participation in the war or their continued neutrality. Rome's report that a meeting of the kings of Serbia, Roumania, Bulgaria, Greece at Athens was being planned led to the belief here that all danger of Bulgaria's taking the field with Turkey had passed. The greatest interest was maintained in London in the American-German situation, but the elements to be reckoned with were so many that few prophesies of the probable action of the United States were made.

The most recent announcements issued by the several war offices may be summarized as follows: "French—British and Belgian—Paris admits that the Germans captured the cemetery at Souchez through the use of asphyxiating gases, but declares that this was their only success. German attacks at several points repulsed. The German crown prince's army in the Woivre is being held in check.

Announced that the British forces repulsed a German attack. A hot fight reported in progress at La Bassee, which is said to be in flames.

Russian—Terrific cannonading in the Lublin sector is admitted to have checked the Russian offensive. The Germans are reported concentrating for another drive. Russians surprised and bayoneted many Germans of von Hindenburg's army, which is attacking Ossowetz, on the Bobr river. German and Austrian—Berlin and Vienna were silent as to events on the eastern front, but there were indications that a new great effort was being planned against the Russians. In the west Berlin claimed a repulse of the British north of Ypres and a defeat of the French at Souchez, where the cemetery was taken. Vienna asserts that no action of note has taken place on the Italian front.

Italian—Rome reports actions favored by Italian arms at Monte Piano and in the Ansel valley, with minor victories at Val Grande and on the Isonzo front. Dispatches from Switzerland declare that the Germans again are moving troops close to the Swiss front. They are believed to be destined for a new German offensive in the west.

DEATH ANNOUNCED. Cologne, July 12.—The Cologne Gazette announces the death of Herr von Wedel-Piesdorf, president of the Upper House of the Prussian Diet.

WILL THE CANADIAN CROP BE TAKEN OVER?

Montreal, July 12.—"Persistent rumors on the Baltic shipping exchange connect Sir Robert Borden's visit to England with a British government proposal to take over the whole of the Canadian crop for the allies," says a London correspondent of the Star. "It is impossible to get either a confirmation or a denial of this report from Sir Robert, though British circles suggest that such a situation is possible as a precaution owing to the operations at the Dardanelles taking longer than was estimated at first, and the consequent holding up of the Russian crop."

BOMBS WERE PLACED ON TWO STEAMSHIPS

Howth Head and Baron Napier Warned by United States Navy Department

NEW ORLEANS PAPER RECEIVED A LETTER

Washington, July 12.—Navy department officials to-day awaited responses from the British steamships Howth Head and Baron Napier, laden with mules for the British army and now off the South Atlantic coast, to a warning wireless to them to look out for bombs in their holds. Both vessels sailed from New Orleans July 9, the Howth Head for Dublin and Belfast via Norfolk, and the Baron Napier direct for Avonmouth.

The warning was flashed out over the sea from the Arlington wireless station last night after the receipt by Secretary Daniels of a telegram from a New Orleans newspaper stating that a letter to that paper from a person who signed himself as "Pearce," indicated that explosives had been placed aboard the two vessels.

The writer of the letter also declared his intention of killing J. P. Morgan and Sir Cecil Spring-Rice, the British ambassador, and completing the work of Erich Muentzer, who committed suicide recently after wounding Morgan.

New Orleans, July 12.—A letter received by a newspaper here last night, signed "Pearce," declared the writer intended to kill J. P. Morgan and Sir Cecil Spring-Rice, the British ambassador, and finish the work of Erich Muentzer, alias Frank Holt, who committed suicide several days after wounding Mr. Morgan. It warned persons who had friends or relatives aboard the British steamships Howth Head and Baron Napier, which sailed from New Orleans July 9 with mules for the British army, to watch for reports from those vessels.

The writer declared that it was Muentzer who had warned passengers on board the Lusitania before that vessel sailed from New York that it would be dangerous to make the voyage on her. He also declared that Muentzer personally had called on Charles Frohman and urged him not to take passage on the ship.

ONE TRAWLER SUNK; ANOTHER SHELLED

Syrian Sent to Bottom; One Member of Fleetwood's Crew Killed

Grimsby, July 12.—The British trawler Syrian was shelled and sunk by a German submarine yesterday, the crew landing here to-day.

Grimsby, July 12.—The trawler Fleetwood arrived here shot-riddled by a German submarine. The submarine fired several shots when a quarter of a mile away. One shell passed through the engine room, killing one man and injuring two. The skipper stopped the trawler and appealed to the Germans not to drown him and his crew. The submarine fired several more shots and then ordered the trawler to proceed.

Liverpool, July 12.—The American barque Normandy arrived here to-day with 14 members of the crew of the Russian barque Leo, recently torpedoed off the coast of Pembroke. Though the American ship was nearby when the Leo was sent to the bottom, the German diver made no attempt to molest her.

BULGARIANS MUST BE PREPARED TO RETURN

Rome, July 12.—The Bulgarian consuls throughout Italy to-day were ordered to notify all Bulgarians liable to military duty to prepare to return to Bulgaria at once.

NEXT NOTE WILL BE STRONGER IN TONE

Government of the United States Will Use Emphatic Language

SECRETARY LANSING ALREADY AT WORK

Will Be No Surrender of American Rights, Say Washington Officials

Washington, July 12.—Work was begun to-day by Secretary Lansing on the draft of a note to be sent to the German government expressing the attitude which the United States will take toward Germany's submarine warfare as it affects the rights of neutrals. When it is completed there will be a consultation between Secretary Lansing and President Wilson, who will decide the policy to be pursued.

No intimation is obtainable as yet as to the course which the American government will follow, but there is every indication in official quarters that the relations between Germany and the United States have become so strained as to make it necessary to weigh carefully the phraseology of the next communication and measure fully the responsibility and consequences which may be required by its contents.

There is to be no surrender of American rights in the new note, it is practically certain, according to the view taken by officials thus far, and it also is assured that the German proposals for the immunity of American passenger ships not carrying contraband will be rejected.

Just what steps will be taken by the United States as a result of Germany's failure to disavow liability for the sinking of the Lusitania is most uncertain. It is this issue—the loss of 100 American lives for which Germany has disclaimed responsibility—that has brought the situation to a grave critical point.

Count von Bernstorff, the German ambassador here, will call on Secretary Lansing in a day or two to learn informally the attitude of the United States toward the German reply. The ambassador is understood to be in thorough accord with his government of its reply, which he regards as satisfactory and as lending itself to further negotiations.

Washington, July 12.—Such intimations as have been received from the White House, as well as the state department, point to the framing of a policy which will express even more emphatically than before the views of the United States government, and the belief is growing that the next note to Germany may include some outline of the intentions of the American government if its demands are not met.

The general comment in executive quarters is that the next American note will define the position of the United States even more clearly than has been done heretofore, so that Germany's subsequent attitude will definitely determine whether diplomatic relations are to be continued.

ASQUITH DID NOT ANSWER QUESTIONS

Discussion of Controversy Over Munitions Would Serve No Good Purpose

London, July 12.—A sheaf of questions designed to bring on a discussion of the shell controversy and the differences between Rt. Hon. David Lloyd George, the minister of munitions, and Viscount Haldane, former minister of war, was brought forward in the House of Commons to-day, but Mr. Asquith firmly declined to satisfy the inquiring members of parliament.

The prime minister stated that any discussion in the present circumstances could serve no good purpose and that it would be detrimental to the best interests of the nation.

Montreal, July 12.—The Allan liner Gramplan has arrived in Plymouth with the 48th battalion of Victoria, B. C., and an infantry detachment from Winnipeg.

ADVANCE MADE ON THE ISONZO FRONT

Italians Have Gained Ground; Austrian Leaders in Galicia Try to Explain

OFFICIAL STATEMENT ISSUED AT PETROGRAD

Attacks on Josefow-Bychawa Front Repulsed by Russian Forces

London, July 12.—Comparative calm exists in the various fighting areas, with the exception of the Austro-Italian front, where the Italians have made a substantial advance in their efforts to invest Trieste. Petrograd is stated that the Russian success over the Austrians, who are said to have lost one of the three corps which began the advance against Lublin. The events powers are reminded, however, that this is only a local triumph on forty miles of a thousand-mile front.

The Austrian operations against the Warsaw railroads have been checked, if not thwarted, which means that the threatened advance on Warsaw is less dangerous now than when the Austro-German attack began.

An attempt is made by Austrian headquarters in Galicia to explain the apparent lull in the Austro-German advance by asserting that the Teutonic allies fixed Lemberg as the objective of the present campaign with the idea of establishing themselves in strong defensive positions to the northward in order to use part of their troops elsewhere. It is claimed that this has been accomplished by establishing lines along the rivers Bug and Zelota Lipa and the Krasnik ridge. It is explained further that the Austrians proceeded beyond Krasnik but encountering unexpected opposition retired on the positions originally selected where they have reloaded all further Russian attacks.

Petrograd July 12.—The following communication was issued by the war office yesterday: "The garrison of Ossowetz during the night of July 9-10 sortied and destroyed enemy saps. In the Ebdavno district we captured and blew up two enemy mine galleries.

"On the front of Josefow-Bychawa the fighting continues. The enemy yesterday held his ground on Hill 118 and the Koverst farm, and delivered vigorous counter-attacks between Bystrzitz and the Koverst farm. We repulsed these attacks, inflicting heavy loss on the enemy.

"South of Bychawa we took 900 prisoners among them 14 officers and three machine guns.

"On all the other fronts there have been no important changes."

London, July 12.—The Russians expect a big German shift to North Poland. The movement of troops from Galicia is thought to presage a new drive between the Niemen and the Vistula.

WAS DISCOVERED BY RUSSIAN AVIATORS

Attempt to Blow Up Outer Fortifications at Ossowetz Failed

Petrograd, July 12.—Part of the Russian forces in Poland again was on the defensive to-day. The war office in to-day's official statement admitted that the Germans, touching their base south of Lublin, from which they had become separated by the rapid advance, and aided by artillery and reinforcements from the Zelota Lipa and Dniester fronts, have checked the Russian offensive temporarily.

The fighting in the Lublin district continues but the situation virtually has resolved itself into a deadlock for the time being.

Interest to-day was centred on the Bobr river front, where General von Hindenburg is attempting the investment of Ossowetz. Unable to overcome the Russian garrison's defence with artillery, the Germans resorted to sapping operations in an attempt to blow up the outer fortifications.

Russian aviators discovered the move on Friday and that night the garrison, making a sortie from three forts, trapped the German engineers in their tunnels and put them to death with the bayonet.

LOOKOUT POST WAS TAKEN BY FRENCH

Sudden Attack Was Made at Point in Champagne District

Paris, July 12.—The following official communication was issued on Saturday night: "The Belgian troops repulsed last night an enemy attack on a point of support on the right bank of the Yser canal, in front of the 'House of the Ferryman' (an important strategic point).

"On our front an artillery action against the works of the enemy before Pricourt, in the rebelion of Albert, gave us good results. There has been merely cannonading on the Alsne front. "A sudden attack has made us masters in Champagne of a German lookout post, the occupants of which were killed or dispersed.

"In the region of the Meuse, the bombardment of the enemy was directed particularly against Sampligny. "An inventory of the material taken by us on July 8 at Fontenelle shows that the enemy left in our hands one cannon, four machine guns, two bomb-throwers, a very great number of rifles, a large quantity of ammunition, an oxygen apparatus designed as a protectant against asphyxiating gases, and a depot of grenades and cartridges of different types. "There has been no activity on the part of the enemy in the Vosges."

IT WAS THE POMMERN WHICH WAS SENT DOWN

London, July 12.—The naval correspondent of the Evening Standard identifies the German battleship sunk in the Baltic by a British submarine on July 2 as the Pommern.

The Pommern was of the Deutschland class of battleships. She displaced 12,300 tons and carried a complement of 226 men. She was completed in 1907. Her armament consisted of four 11-inch guns, fourteen 6.7-inch guns, twenty 24-pounders and six torpedo tubes. The other ships of this class are the Deutschland, Hanover, Schleswig-Holstein and Schlesien.

PLANNING AN ATTACK FROM THE NORTHWEST

Huns Preparing for a Fresh Attempt Against Capital of Poland

Petrograd, July 12.—The principal result of the defeat of the Austro-German left wing near Krasnik, in Southern Poland, and the cause of the subsequent quietness in this region is thought by Russian military commentators to be a general shifting of German forces northward to the Warsaw front and the abandonment of the Galician field to the Austrians under General von Boehm-Ermolli.

Serious activity already has been noted along the Przanysa front and in the Bobr and Grycs section, which is regarded as preliminary to another frontal attack upon Warsaw.

Petrograd, July 12.—The following official statement was given out on Saturday night:

"Near the village of Jednorozets (in Northern Russian Poland) on the evening of July 8 there was a violent artillery fire. Between Przanysa and the Vistula river actions have been becoming more frequent. On the left of the Vistula the Germans on the night of July 9 evacuated the last trenches they had taken from us near Goumine, covering the evacuation with a heavy fire.

"The fighting in the direction of Lublin continued on July 8. South of Usgodow our troops approached the Wyszka river. The enemy continued to hold his ground on Hill No. 118, south of Wilkolaz, and with numerous reserves delivered desperate attacks on the village of Bystrzyca. All were repulsed. We finished the battle here on the afternoon of July 9 by a fierce counter-attack with our reserves, which forced the enemy to retreat in great haste and disorder. Between the Wiepra and the western Bug, on the evening of July 8 and on the following night we easily repulsed enemy attacks in the region of the village of Grabovets and south of Grubecow, near the village of Mieniany.

"On the western Bug, above Kamionka (Galicia), there were rifle fire and cannonading. On the Zelota Lipa river, near the village of Korjow, the enemy on the night of July 9, during the course of frequent attacks, several times reached our entanglements, but on each occasion was repulsed by our fire and counter-attacks. "There is no change on the other fronts."

Vienna, July 12.—The following official statement was issued on Saturday night:

"The general situation is unchanged. North of Krasnik on Friday night the Russians renewed unsuccessful attacks."

IMAGINES GREY IS TO BLAME FOR GREAT WAR!

What the Nieuwe Freie Presse, of Vienna, Has to Say of His Indisposition.

London, July 12.—Sir Edward Grey's illness is the subject of a long article in the Nieuwe Freie Presse, of Vienna. It is a little remarkable for its good taste as for its good sense. "Sir Edward Grey," it starts off, "has trouble with his eyes. Whether this is due to reading the British casualty lists or the names in the new coalition cabinet that is to rescue Britain in her hour of need we do not know." The picture of the British statesman is the familiar Teutonic caricature; he is the cold blooded, furtive, ruthless Machiavelli who tried to engineer the downfall of the central empires.

"Nothing perhaps is so difficult as to portray fully this character in all its compass and in all its strangeness," the paper continues. "A man who has fixed calm written on his face and yet kindled a world war such as history has never seen; a man who has humanity continually in his mouth and welcomes every social political innovation, and yet who has left no stone unturned so long as his hate against Germany might be fulfilled! Probably his nature has a similarity to Robespierre's.

"Sir Edward Grey perhaps may believe what he says, and he also may have succeeded in putting on an outward appearance of mirror-bright purity while within him the vipers of his lusts are hissing, and no means are to him too vile provided that he attains his end.

"In spite of Italy's intervention, in spite of this diplomatic success, his position of power has been questioned. He, who in foreign politics was much more conservative than Liberal, who stood in intimate alliance with the Hotspurs of the opposition, who wanted the annihilation of Germany, is no more recognized.

"And in spite of all the community of ideas between the government and the minority, between him and Lansdowne, the political collapse of Sir Edward Grey is still another expression of the dissatisfaction, the deep discontent that his war policy has produced. "The leave of absence of this British secretary of state is one of the most important events of the world war and should not be overlooked."

COMPLETE SURRENDER.

Pretoria, July 12.—The supplementary terms of surrender signed by Dr. Seltz, the Imperial governor of German Southwest Africa, provide for the transfer to the Union of South Africa of the entire property of the protectorate government, as well as all war material and the military forces.

CASUALTIES AMONG CANADIAN SOLDIERS

Ottawa, July 12.—Eighty-two casualties were reported in the two lists given out yesterday by the militia department, bringing the total reported to date well over the ten-thousand mark, below which the record had been hovering for several days. Six men were reported killed, two of them, previously having been named as wounded, and it was stated that one who had been reported as missing since the battle of Ypres (April 23) is "believed to have been killed." Four were reported as having died of wounds. The number of prisoners officially and unofficially reported is increased by 41 names by the lists. Sixteen men are missing, 12 wounded, one suffering from shock and one ill.

The aggregate number of casualties, killed, wounded and missing, now is 10,661.

FERNIE CAMP INSPECTED BY MAJ. RIDGWAY WILSON

Fernie, July 12.—Major W. Ridgway Wilson, of Victoria, arrived in town on Saturday evening, and with Lieut. Col. Mackay inspected the internment camp here with its 312 men. The major was well pleased with the arrangements and the care being taken of the men.

Yesterday, accompanied by Lieut. Col. Mackay, Capt. Stalker and Lieut. Martin, Major Wilson motored to Morrisey to inspect the buildings and grounds there with a view to making an internment camp for the winter at that place. There are suitable buildings with ample water supply for any number of men likely to be interned in the district, and it is probable that the place will be selected for that purpose. The guarding of the inmates will be in the hands of Lieut. Col. Mackay, of the 10th Regiment, companies A and B furnishing the men for the duty.

Corpl. Cecil Holmes, late of Fernie, who enlisted at Edmonton and was reported at first as missing, now is reported as killed in action.

STATEMENT ISSUED AT CONSTANTINOPLE

Constantinople, July 12.—The following official statement was issued last night:

"On Saturday afternoon an enemy cruiser of the Nelson type, protected by four torpedo boats, appeared before Gaba Teps and fired two hundred shells at our positions without success. The Turks lost one killed and two wounded. Several of our shells struck the ship and forced it to withdraw."

In the above statement the Turks call ships of the Lord Nelson class cruisers. The vessels of that class are battleships.

OFFICES AT SEVERAL POINTS ARE CLOSED

Aliens May Obtain Naturalization Papers in Canada More Easily Now

Ottawa, July 12.—The government has closed alien registration offices at Sydney, Ottawa, Toronto, Brandon, Regina, Calgary and Victoria. The registrars at these places have no further duties to discharge. The government, therefore, has made an order declaring that aliens at such points who wish to become naturalized will not be required to produce certificates of character from the registration officers of their districts.

There has been a considerable naturalization since the war began. A good many Germans and Austrians in Canada have disavowed allegiance to the kaiser and the emperor and have sworn adherence to King George of Britain.

Some naturalization authorities have hesitated to grant certificates, to the embarrassment of aliens who wished to declare their loyalty. Others have granted the certificates when there was no objection taken to the character of the applicant, and where they were satisfied of his qualifications.

There are two naturalization laws in effect in Canada to-day. One took effect at the beginning of the year. It requires five years' residence in the empire and the expenditure of from twenty to thirty dollars for a certificate which makes the holder a British subject throughout the empire. The old one has three years to run yet. It gives British citizenship in Canada only, but the term of residence is only three years and the fee only 25 cents.

It is held that where there is no objection to a person applying for naturalization a judge has no right to withhold a certificate. The authorities, however, have discovered that a German or an Austrian can be dealt with more firmly when naturalized than before.

A German or an Austrian who has not been naturalized and who commits a hostile act can only be interned. A German or an Austrian who has sworn out naturalization and who commits an offence against the security of the state, may be prosecuted for treason and punished with long imprisonment or death.

The order which the government has just issued will make naturalization of aliens an easier process than it has been for some months.

MURDERED SEVERAL

London, July 12.—A dispatch to The Daily News from Athens, dated Saturday, says:

"A Turkish band has entered Bulgarian Thrace, murdering the mayor's secretary, the head of the police and eight others belonging to the village of Kavac. The band was organized and entered on instructions of the Turks, who are trying to frighten Bulgaria into the belief that should she attack Turkey, the inhabitants of Bulgarian Thrace, comprising many Turks, would revolt."

DAINTY FOOD

Turns Pale Cheeks to Pink.

Our best physicians of the present day seek to cure patients by the use of food and right living, rather than heavy drugs, and this is the true method, for only from food can the body be rebuilt.

Many people, after living on poorly selected or badly cooked food for a long time, and when their ailments become chronic, expect the doctor, with some magic potency, to instantly rebuild them.

This is not possible. The only true method is to turn as quickly as can be, from poor food to good. A young lady says:

"I was variously treated for my nerves, stomach, lungs, etc., but none of the treatments gave me relief. About a year ago when my appetite failed completely and I began to have sinking spells similar to fainting, I took all manner of tonics and stimulants, but they were of no effect. I had been brought to quit drinking coffee and taking Postum in its place, and gradually began to get a little better.

"Someone suggested that if I found Postum so beneficial I had better use Grape-Nuts food, as they were both the children of one brain. I commenced on Grape-Nuts food for breakfast, having Postum with it. I found the food so dainty, delicious, and appetizing that I always looked forward to breakfast with pleasure.

"Shortly after commencing this diet, the wretched pain in my side was greatly relieved, and now, a year later, it has gone entirely, also the sinking spells; in fact, my pale cheeks have changed to pink, I have gained back more than the twenty pounds I lost, and am again thoroughly well in every way.

THINK THEY CAN HOLD THEIR NEW POSITIONS

Austrians Profess to Believe That Russians Cannot Dislodge Them

Austrian Army Headquarters in Galicia, July 12.—The relative subsidence of activity on the part of the Teutonic allies during the last week is explained by the fact that the goal set for the Lemberg campaign already has been attained. This was the recapture of the city and the securing of strong defensive positions to the eastward and northward. These positions have been secured along the line of the Zelota Lipa and the Bug rivers and the ridge to the northward of Krasnik.

The Russians attempted a counter-offensive from Lublin against the Austro-German positions north of Krasnik, bringing up heavy reinforcements for this purpose. Owing to this movement the Austrian troops, which had rushed beyond the positions originally selected, withdrew to the ridge, where they have been resisting successfully all Russian attacks. They feel secure in their present positions and it is believed here the positions can be held easily against whatever forces Russia can throw against them.

Indications now point to a period of quiet along the Russo-Galician front, while the Teutonic allies are preparing for operations in other quarters.

GERMANS IN NEW YORK SENDING PAMPHLETS

London, July 12.—Many members of the House of Commons and other public men in Great Britain have been the recipients recently of numerous pamphlets from the press of a New York weekly publication which is devoted to the German interests. Quotations from pacifists such as Bernard Shaw, James Ramsay MacDonald and Norman Angell comprise the bulk of the matter.

SERBIAN ARMY HAS RECEIVED SUPPLIES

Rome, July 12.—A Nish dispatch to the Messagero says that large quantities of war munitions have reached Serbia.

The Serbian National Assembly has voted a credit of \$50,000,000 for the continuation of the military operations. The Montenegrin army, it is stated, will march side by side with the Serbian forces into Herzegovina.

AMERICANS AWAIT DECISION CALMLY

New Orleans, July 12.—The Times-Picayune, dealing with Germany's reply to the United States' note, says: "The only question awaiting answer is that touching the further course to be pursued by the United States. The president and his advisers must decide that. The American people await their decision calmly and with full confidence that American rights and the principles of international law and humanity will be firmly supported."

A TURKISH REPORT.

Constantinople, July 12.—The following statement was issued yesterday at

the war office: "Our Anatolian batteries, which had moved forward, successfully bombarded enemy camps at Tekeli Burnu, on the front near Seddul Bahr, and an infantry division which was advancing. A great fire broke out in the environs of Tekeli Burnu."

IS INSULTING.

Columbia, S. C., July 12.—Of the German reply to the United States, the Record says: "The note not only falls short of meeting our demands, but deals too much in adroit, diplomatic perisiflage. In our opinion the last note of the German empire is insulting."

GERMANY ENDEAVORING TO AVOID A CLASH?

Washington, July 12.—Dealing with Germany's reply to the United States, the Post says: "The action of Germany in its relation to American rights at sea speaks louder than its word. No passenger vessel with Americans on board has been destroyed by German submarines since the Lusitania was torpedoed, and it is evident that whatever Germany may say, she is studiously endeavoring to avoid a clash with the United States."

CHARACTERISTIC.

In the negotiations between Sir Edward Grey and Herr von Jagow before Great Britain's entrance into the war, the German foreign secretary made the abominable proposal that this empire abandon its allies on condition that Germany would not annex any part of France but would content herself with the capture of France's great colonial empire.

Von Jagow's note to Washington regarding Germany's submarine activities offers immunity from peril to American life and property in return for not only the betrayal by the United States government of the interests it is sworn to protect but the actual facilitation of German outrages upon humanity and international law.

Prussian diplomacy is hopeless and if President Wilson thinks there is an opportunity for further useful negotiation he must be endowed with superhuman patience. The United States is beginning to appreciate the infernal nature of the insulting treatment Europe has borne with remarkable composure for thirty years.

THE ASSESSMENT TANGLE.

There seems to be no statutory provision under which the civic assessment roll can be overhauled again to avoid the serious inequities which must exist for a year if the decision of the county court on appeals made to it is confirmed by a higher tribunal. Nor is it clear whether a further appeal can be taken. A reduction of \$600,000 has been ordered, and to meet the discrepancy the authorities will have to increase the mill rate beyond the figure they had in mind.

The root of the trouble is the excessive taxable valuation which is common to all communities. In the throes of real estate booms, the get-rich-quick movement almost always produces private and public extravagance. City councils try to help the boom along by borrowing money with which to carry out in two or three years programmes of public improvements which ought to cover at least three times that period.

A correspondent who discussed this matter in our columns on Saturday put his finger on the crux of the question when he declared that the assessment of property should be based upon truth and not upon expediency, speculative possibilities, or subterfuge. As this principle limits our expeditions to the money market and the size of our debt, exercises a check upon extravagance and helps members of civic governments to keep their heads during eras of active speculation, it is bound to be a blessing to the community in the long run.

valuations. Certainly the big American centres, which have grown conservative through years of costly experience, are not. New York bond companies have schedules showing what in their opinion should be the assessment rate, and debt of normally healthy communities according to population, and applications from cities which exceed their arbitrary limits will not be looked at. Victoria is not helping her credit or improving her position in any way by unsound valuations, and some radical changes should be made next year, if no further action is possible now.

TO THE LAST DITCH?

G. H. Ferris, a well known writer on military matters and author of "The Campaign of 1914 and France and Belgium," contributes to the London Chronicle an interesting article on the much-debated point as to the duration of the "furore Teutonius." Mr. Ferris thinks that it is too readily supposed that the Prussian infatuation will hold till the bitter end of a complete and crushing defeat, or until the allies penetrate to the heart of the German empire.

It is quite true that the spirit shown by the Germans in this war is not the spirit of the last-ditch fighter. We know it howled when the food ordinances went into effect. We know that it shrieked to high heaven when the aircraft of the allies give it a taste of its own medicine by bombarding German towns. We know that it is the spirit of the bully, which is not considered even by the German authorities to be stout enough to stand admissions of serious checks.

The great majority of influential newspapers in the United States regard the German note as wholly unsatisfactory and in some particulars downright insulting. Some of the minority journals, not including the German press itself, express the opinion that the note affords an opportunity for friendly compromise. One of them advocates the acceptance of the German offer, the bartering of the rights of their own people, the condonement of the massacre of the Lusitania victims, rather than have any friction with the German empire.

Suppose Germany won this war and prepared to make an onslaught on the United States? What would the timorous element captained by William Jennings Bryan do? Would they advocate resistance? We doubt it. They probably would try to purchase immunity from attack by apologizing for the Monroe Doctrine and offering to finance German territorial aggrandizement in South America.

The Chicago Tribune, which modestly calls itself the "world's greatest newspaper," thinks there is an opening for friendly arrangement on the basis of the German note. A year ago when the Mexican imbroglio was distracting Washington the Tribune was all-fours for intervention. An American army should put an end to this anarchy and lawlessness. The navy should not stop at Vera Cruz, and so forth. Is it because it would cost less, with greater material reward, to settle the Mexican question than it would to vindicate the rights, honor and dignity of the American nation against German lawlessness that the Chicago Tribune is so curiously inconsistent or is it because there are more Germans in Chicago than there are in any German city with the exception of Berlin and Hamburg while the Mexican element is negligible? In any case we are convinced that President Wilson does not think that the United States has yet been degraded to the status of a German protectorate or the Chinese republic.

AN ELOQUENT TRIBUTE.

The Chicago Daily News, an out-and-out supporter of the Quadruple Entente, recently contained the following striking tribute to the part Great Britain has played in the war, the full circumstances of which often are overlooked by not only the paper's contemporaries but by critics in the countries of our allies.

"Here are some of the things Great Britain is doing: 'Holding the seas for the ships of her allies as well as for her own; protecting the coasts of her allies as well as her own; struggling, in co-operation with the French, to smash the Turks and win the Balkans for the allied cause; rendering great aid to the French and Belgian troops in resisting the terrible onslaughts of the Germans on the allied left wing in the west; making loans and supplying munitions

to nearly all her partners in the war; pursuing a financial policy in South-eastern Europe likely to promote the cause of the nationalities; putting into the field more than ten times as many men as she ever promised; guarding her own soil and people against an invasion, which, if it came—and it is believed to be far from impossible—doubtless would be the most savage, the most unsparring, ever known. With how many men? Well, with enough. To hear some people talk, one would suppose that upon Britain were laid the duty of defending every land but her own.

"Britain's wealth and sea power and military power are the one sure safeguard against the triumph of Germany's unparalleled war machine. Without Britain's help, France and Russia certainly must have been crushed. Without Britain's whole-hearted participation in the war, who will say that Italy would have ventured to challenge the mighty and merciless Germanic coalition? With Britain out of the struggle, would there have been any hope of the Balkan States daring to move?"

"And Britain—never forget it—was not compelled to go to the aid of France. Come what might, the most that ever Britain promised France was six divisions—138,000 men. She was not in honor bound to send a single soldier more. She could have stayed out of the war, Germany had begged her to stay out of the war. Disgraced she might have been—as Britons think, must have been—if she had left Belgium and France and European liberty to their doom.

"But she could have done so. Few nations are without disgrace, without historical pages they faint would obliterate. Britain was not attacked. France and Russia were attacked. Britain might have awaited the onset—as America is awaiting the onset. Britain might have stood clear, might have husbanded her resources of men and money, might swiftly have prepared, even might have loomed over the stricken adversaries in the end and claimed the hegemony of Europe for herself.

"Britain did not do so. She threw her trident into the sea. She threw her sword into the sea. She threw her gold into the sea—and she is incalculably rich.

"She threw into the balance her impressive racial record, her prestige, her unrivaled diplomatic skill. She threw—she is throwing—will throw into the balance the whole pulse of her Empire.

"And all for what? For the principle—the fruits of the principle—the liberty of the individual against the despotism of the State.

"Britain, one can believe, may be the author of some acts of which she is proud—may have done some things to cause her, looking back upon them, with full light, to wish they had never been done. But in this war this old and proud democracy is unfolding, applying, a material strength and a moral splendor that for countless ages after this conflict is stilled will be shining undimmed amid the first glories of history."

Austrian headquarters report says that the object of the Austro-German campaign against the Russians having been attained the Teutonic forces now will assume the defensive in strong positions. That being the case why lose thousands of men by intruding them between the Bug and the Vistula? The real object of the Von Makenzen drive was the destruction of the Russian armies, and this failing, a new offensive with the capture of Warsaw as the objective was adopted. This also has failed, and now the Teutons are on the defence. When an army of invasion ceases to invade it confesses failure and opens the way to destruction.

Botha has finished his work, says an exchange. We doubt it. Botha has done well, but there may be something more for him to do, before this war is finished. He would be welcomed by the allies on the battlefields of Europe, and with an army of his veterans behind him he could do much there, to assist in driving the Teutonic hordes back to the place where they belong. We understand that the government of the Union has expressed its desire to assist in this work.

The allies are not going to take any chances by adopting hasty methods. They are handling their job with patience and discretion. Their policy appears to be to keep the Germans butting their heads against the different fronts until they become exhausted. Then, like the specimen national type who, failing to kill J. P. Morgan, smashed his skull in desperation, a final butt will lay them prostrate.

The Vancouver News-Advertiser has been indiscreet. It admits that too high a price was paid for the submarines, but justifies the hold-up upon the ground of an emergency. Sir Richard always has maintained that he did not pay too much for the boats. In fact he holds that they did not cost the country as much as they would if they had been procured in England.

"Holding the seas for the ships of her allies as well as for her own; protecting the coasts of her allies as well as her own; struggling, in co-operation with the French, to smash the Turks and win the Balkans for the allied cause; rendering great aid to the French and Belgian troops in resisting the terrible onslaughts of the Germans on the allied left wing in the west; making loans and supplying munitions

FREEDOM OF THE SEAS.

New York World. Dr. Dernburg's final word to the people of the United States was his best word. He hoped for a continuance of the long and sincere friendship between this country and Germany, whose interests are inseparably intertwined in many respects, and not the least in that they both need and demand the freedom of the seas. It is the freedom of the seas for which President Wilson has been pleading. There can be no true freedom of the seas except as international law is everywhere respected.

THE KAISER'S TERMS.

Hamilton Herald. In a recent letter to a friend at the Bavarian court, Kaiser William is reported to have said that what he is now fighting for is "a peace profitable for the German states." Such a peace, he adds, "could be signed to-morrow if I wished."

It is not hard to believe that the Kaiser sincerely longs for peace and would gladly "sign to-morrow" if he could. But he knows only too well that he cannot have peace on terms "profitable for the German states." When peace comes, the terms and conditions of it are not at all likely to be profitable to the German states. Peace can come only after the dangerous ambition of the Kaiser and that of his people is effectually curbed and their power for making mischief in the world is considerably curtailed.

WAITING FOR BULGARIA.

New York Sun. The entrance of Roumania into the war and the consequent widening of the ever expanding area of conflict may depend not entirely upon the question of the acquisition of territory, although such may be the impression conveyed by the reported offer of the Italian king to act as an intermediary between Roumania and Russia in the adjustment of their future rights in Transylvania and Bukovina. The attitude of Bulgaria is likely to be a strong factor in the decision for or against a rear attack from the "Prussians of the Balkans" neither the Roumanians nor Greeks are in a position to hazard their fortunes on the side of the allies.

MORAL ASCENDENCY.

Full Mail Gazette. It behoves us to look matters in the face and to admit that the relative increase in our losses has been real, and that it has been due to the vehemence of the German attacks, the stubbornness of their defence, and their incomparable and unscrupulous use of every means of destruction their science can devise or their industrial skill produce. We have got to play them at their own game, and we shall. We shall beat them at it, too, for the moral ascendancy which, in the long run, wins battles and brings victory to our men, not with theirs. But if the output of the men in the workshops can lighten losses, there is an unanimous resolve at home that nothing shall be spared to make that output adequate.

RUSSIAN STRATEGY.

Hamilton Spectator. Every actual clash has ended in a Russian victory. The situation is simply this: Grand Duke Nicholas wants to get the two sides on something like equal terms before giving battle, on a great scale. The more the Germans penetrate to the east, the further they are from their base, and the greater their losses in the desultory encounters on the way. Moreover, they are continually spending ammunition. Russia has unlimited supplies of men. Her supply of ammunition is daily improving. At a certain point, probably already chosen, the retirement will cease, and a counter-offensive begin. Then the tide will turn, and the Germans will meet their Waterloo.

TWENTY-FIVE YEARS AGO TO-DAY

Victoria Times, July 12, 1890.

The annual meeting of the Board of Trade was held yesterday, the following officers being elected: President, Mr. R. Ward, and vice-president, Mr. T. B. Hall. On motion the appointment of a secretary was left for the action of the new board.

At the meeting of the Trades Assembly last evening an address to the clergy of Victoria was adopted, the address being a plea to the heads of the several churches to take up the cause of workmen to obtain a reduction in the hours of labor.

Donald Ross, of Ross & Hewlett, who are agents at San Francisco for several Victoria sealers, has left that city for Victoria to find out information with regard to the sealing industry, in view of the threats made regarding them if they enter the Behring sea.

CITY NEGLIGENT IN MATTER OF THISTLES

Just as Much an Offender as Private Citizens Are, It is Stated in Court

Another onslaught against the owners of land who have neglected to comply with the by-law regarding the cutting of thistles before they flower and go to seed is in progress, and it reveals, as always before, that the city itself is as much an offender against the by-law the police are called on to enforce by prosecution as is any individual owner.

There were four cases in the police court this morning. In none was there any allegation that the constables had made any mistake as to the lots upon which the thistles have been growing, or in the fact that good healthy weeds of the Canadian and Scottish varieties had been found flourishing there. In two cases the owners said they had cut the weeds down, one of them doing so this morning. Another thought that the police should give a warning to the owners before putting them to the trouble of coming to court. A fourth claimed that the lot was not his but a partner's.

Court officials mentioned that the city can show as fine a crop of this noxious weed on lands belonging to it as is to be seen on any private ground. The magistrate expressed the opinion that the practical way to deal with this matter, and the more expeditious, was for the city engineer to have the thistles cut down and the cost charged against the property, as is provided for in the by-law.

All the cases were adjourned until Thursday, and if the thistles are cut in the interval, nothing more will be heard of the charges.

DISCUSS SITUATION OF UNEMPLOYMENT

Citizens Pass Resolutions Suggesting Initiation of Various Schemes

The Social Service commission received a deputation of organized and unorganized labor representatives at the Y. M. C. A. Friday evening to discuss the labor situation, and more particularly the formation of a permanent organization to start work for the unemployed on a self-sustaining basis, such organization to meet the needs of the coming winter.

The argument on the pros and cons of the churches' attitude to unemployment occupied some time.

Two principal resolutions were carried. One of them set up a committee to wait upon the government with regard to putting into operation the agricultural credit act, and to bring together the unemployed and the undeveloped resources of the province. That committee is to take the matter up at once.

Rev. Dr. Scott presided, and Rev. Robert Connell acted as secretary.

George Oliver, on behalf of the unemployed, submitted the following statement: "Owing to stress and privation now being experienced by many who are unemployed and without means in this city, it is necessary to take immediate steps to relieve the widespread destitution.

"At a conservative estimate, at least two thousand persons must be provided for during the summer and coming winter, a large proportion of whom are able-bodied and willing to work.

"It is desirable in the public interest that the unemployed should not become a public charge, and that work of a productive character be inaugurated in order to tide over the period of enforced idleness.

"It is also desirable that any plan looking to the alleviation of those conditions should be made as far as possible, self-supporting. To this end committees should be appointed to work out the details and by prudent and systematic effort, utilize the industrial unit thus created to the best advantage.

"A committee should be appointed whose duty it shall be to take hold of and store such footstuffs as are now available and particularly that portion going to waste owing to over-production or lack of market.

"Another committee should be organized for the purpose of industrially organizing the unemployed and distributing foodstuffs among them.

"A financial committee will have to be appointed to interview the municipal authorities and provincial government. This committee should secure a letter of credit for the general committee in order that full advantage may be taken of the wastage occasioned by over-production; thus making the same available to the industrial unit so organized during the unproductive period of the undertaking.

"It is proposed to utilize the unemployed in cultivation of vacant lots and unused acreages within the city and immediate vicinity, and to obtain from the city officials free use of water, tools and means of conveyance which the city has at its disposal.

"To obtain by purchase or employment of workers so engaged, a supply of fresh fish foods which are plentiful at all seasons and moderate in price. A portion of the catch should be preserved and stored for future use in event of interruption of the supply.

"It is proposed to utilize the services of the unemployed in cutting and storing of fuel for the winter months and upon any other form of activity of a productive nature.

"We recommend therefore for the

VICTORIA PRISONERS OF WAR WANTING FOOD

Pitiful Appeal in London Paper From Men in Gies-sen Camp

There are some one or two Victoria boys in prison camps in Germany in want of food, notwithstanding the statements that have been made that the men are being looked after in this regard.

In a recent issue of the London Evening News, which has a prisoners of war fund, appears an extract from a letter from an unnamed soldier who is a prisoner in the Giesesen camp. He says:

"Who will send us anything in the food line? There are two of us and we have no friends, at any rate this side of Victoria, B. C. You need have no fear that anything you send us will not be most deeply appreciated."

Another Canadian writing from the same camp, says:

"I shall be eternally indebted to you if you can get me a parcel of eatables. I have no friends from whom I can get either food or money to purchase food. I was captured on April 24."

In both these cases the men were apparently taken prisoners at the time the Canadians made the splendid recapture of the four guns which had been taken by the Germans.

Five shillings sends a parcel of nourishing food to any individual man named or, if no individual is named, to some deserving and needy case among the prisoners. In the case of the Victorians the names of the men referred to in the paper of June 23 will be known in its London office.

Will Hold Concert.—Ward H. Saanich, Red Cross society, will hold a concert in aid of the fund at Cloverdale, Cloverdale avenue, Wednesday at 8 p. m.

New Greenhouse.—Alderman Dilworth has taken out a building permit for a greenhouse at the rear of Boyd street, costing \$1,000.

Matinee Club Gymkhana.—It is the intention of the matinee club to hold a free-driving meet at the Willows track on Saturday afternoon, July 24, the first race beginning at 2 o'clock. Admission will be free to the grounds, and to the stand, twenty-five cents. There have been several of these meets held, and as a result the Belgian and Red Cross funds have benefited to the extent of about one thousand dollars. The meetings have been interesting in the past and well-attended. There are many good horses owned here, and owners are very keen for the success of their entries.

Sunday School Picnic.—The annual Sunday school picnic of St. John's church took place on Saturday. After a short service conducted in the church by the rector, Rev. F. A. P. Chadwick, the children and teachers journeyed to Cordova Bay in jinnys. A number of the parents of the children went on the excursion, and all agreed that it was one of the most enjoyable the congregation had ever held. After luncheon a splendid programme of races and sports engaged the attention of the children, at the close of which the prizes were presented to the winners by Mrs. R. W. Perry and Mrs. Duncan. The refreshments were well looked after by Mrs. Andrew, who was assisted by Mesdames Fulton, Sawyer, Hawkins, Burt, Pender, Jeeves, Rolf, Leach, Argue, McPhee, Townsley, Grey and Ault, and the Misses King, Hatford and Sutton.

Victoria Hive No. 1.—Ladies of the Maccabees will hold the regular review at usual hour and place on Tuesday, July 13. Business of importance to all Maccabees will be transacted. Officers and members who can do so are asked to attend at 7:30 for a short drill.

Vagrant Given Chance.—Early this morning Dolle Johnson was arrested in Chinatown by Detectives Murray and Macdonald. It was about four o'clock when they found her, and as she could not give a satisfactory account of herself she was taken to the lock-up. This morning she pleaded not guilty when arraigned in police court, and was remanded in her own recognizances until to-morrow. In the meantime she will probably take the hint, and relieve the city of her presence, thus saving it expense.

A very pretty wedding was celebrated at 8 o'clock on Saturday evening at St. Mary's church, Oak Bay, the principals being Edith Cassie, daughter of Mr. and Mrs. H. J. Austin, of Lewis street, and Ernest Macdonald, second son of Mr. and Mrs. J. D. Macdonald, of Monterey avenue, this city. The rite was performed by Rev. G. H. Andrews in the presence of a gathering of relatives and friends of the bride and bridegroom. The former wore a smart and very becoming costume of cream serge with lace hat trimmed with pink roses, her bouquet being of bridal roses and pink carnations. Miss Maude Macdonald, a sister of the bridegroom, acted as bridesmaid, and the best man was Clyde Macdonald, the bridegroom's brother. The newly married couple left for a brief honeymoon trip, which will be cut short by the departure this week for England of Mr. Macdonald, who is going with the Armament Supply Corp. which leaves in the next few days. ☆☆☆

Mrs. Hanley was greatly excited when a neighbor came in to call upon her one morning. "Just think!" said she, walking over to the other end of the room. "That fellow entered in broad daylight and actually stole the clock off the mantle!" "And you say your dog was in the very same room?" "Yes; but he couldn't do anything," returned Mrs. Hanley, loftily. "Fido is only a watch-dog."

AT THE THEATRES

COLUMBIA THEATRE.
Mary Pickford, the ever-popular movie star, will be seen at the Columbia for the first half of the week in one of her greatest screen successes, "A Good Little Devil," the famous fairy play adapted from the French by Austin Strong.

To-night is contest night at the Columbia, the feature being a nail-driving contest for ladies which should provide some good fun. Those who witnessed the first wood-sawing contest last week will hardly miss contest nights at the Columbia hereafter.

VARIETY THEATRE.
The international favorite of the movies, Carlyle Blackwell, is starring in a six-act production by the Favorite Players at the Variety theatre for the first half of this week, commencing to-night. "The High Hand" is the title of the play, and is an inspiring romance of love, politics, capital and labor. This picture is of exceptional interest and is sure to please. "The Boob's Romance," featuring Robert Leonard, late star of the "Master Key," is a two-act comedy of a high order. Bob Leonard is at his best in pictures of this kind, and is sure to create one continuous roar of laughter. "The Animated Weekly" will show happenings in various parts of the world. The latest musical selections appropriate to the pictures will be furnished by the Variety orchestra under the direction of Walter Charles.

ROYAL VICTORIA THEATRE.
The new programme of pictures being shown at the Royal Victoria theatre for the first three days of this week is well worth a visit. The photographs are all new to this city, and the photography is well above the average. "The Reaping," a two-reel photograph, contains a very touching story of mother love. Poverty and riches are shown in strong contrast and the ending brings a good round of applause. "The Park Honeymooners" is a comedy that has a way of showing how an educational subject can be made as interesting as a love-story. "Striking Views of New York City Parks" furnish the background for a number of diverting and laughable episodes. Antonio Moreno and Bettie Gray are capital as the Honeymooners. In addition to the above views there will be shown a two-reel comedy drama, "The Confession," in which an all-star cast has been selected to fill the different roles. The Selig Pictorial shows some very interesting views from different parts of the world, the balance of the programme being finished off with two good comedies, "To Save Him for His Wife" and "Count Macaroni."

are numbered among the best of the rapid-change artists.

Another big feature is the costly engagement here of Edith Helena, late star of the Metropolitan Opera Co., and gifted with the highest voice in the world.

The bill also promises to be popular for a return engagement of Kitner, Haynes and Montgomery, "the swells at sea," who made such a pronounced hit with their melodies and patter at this house last season. All three have excellent voices.

The new show has what promises to be a further drawing card in Kelley and Galvin, "the actor and the Italian," who have been meeting with marked success thus far on their tour of the circuit.

Barto and Clark, a popular and experienced pair of entertainers, will be present with a line of songs and dancing that is expected to please all hands.

The Morton brothers, novelty entertainers, will also be among those present on the new programme.

ALLEN PLAYERS.
Twenty prizes will be given away at the Princess theatre to-night, and each will be well worth possessing. In addition to these excellent prizes, the Allen players will present Bret Harte's idyll of the west, "Tennessee's Partner," one of those plays which live forever in the affections of the people, being as wholesome and lovable as "Mrs. Wiggs," and "The Virginian." Miss Felton will be the little girl of the southern mountains, "Tennessee," with the southern drawl and her quaint way of doing the right thing. Elton Egan will be the big "Partner" with the soft voice and picturesque chivalry of the south. Mrs. Allen and Charles Connors will figure as the comedy-team of the play. The entire strength of the company will be used for the production, and "Tennessee's Partner" will undoubtedly be the "hit" of the season.

MAJESTIC THEATRE.
"The Patriot and the Spy" is the name of the four-reel Mutual Masterpiece which is being shown to-day and to-morrow at the Majestic theatre as the feature item on the programme is a spectacular drama of war-time. It tells of two young people who marry in a continental village and receive the congratulations of all save the rejected suitor. He hides his time while the couple live happily and are blessed twice with children. War is declared after the husband has suffered an injury for life and the rejected suitor enlists. At the front he distinguishes himself, becomes a sergeant and then is captured. In prison, his spirit languishes, and he accepts an offer to become a spy. Returning to his native village, the spy tells a thrilling story about how he escaped and is applauded by all. The patriot takes him home, and never hears how the spy made love to his wife behind his back. The wife, however, turned him down as hard as she had done before she was married.

The spy now signals to the enemy that the village is free of troops, and when the foreign contingent arrives he tells the commander that an attempt will be made to blow up the bridge behind them. Then he goes back to the village, says help is on the way—the bridge must be destroyed. The patriot offers to do this, and is caught red-handed and sentenced to be hung. The spy now openly taunts him, telling him he is going to take his wife. As the spy is struggling with the wife, the patriot appears. He is wet and covered with blood, for the rope

broke and he dropped into the river and swam ashore. Approaching troops shoot the spy by mistake and the patriot and his wife escape.

"Lunnon's an owl place, laddies," said a young Scotsman, who had just returned to his native town after a visit to the Metropolis. "The bare-faced swindlin' I had tae put up wi' was dreefdu!' Soon after I arrived I saw a placard at a bookstall, 'Twenty thousand-word novel for a penny.' Weel, I bought one, an' would ye believe it, there were just nineteen thousand, nine hundred and ninety-eight words in it, counting the title!"

A street bootblack, who was a regular attendant at a Sunday school, was very disappointed when at the annual prize-giving he found that his reward was a copy of Browning's poems. The next Sunday, however, the superintendent announced that any scholar not pleased with his prize could have it exchanged. The boy went up with his, "What have you there?" "Browning." "And what do you want in exchange?" "Blacking!"

Rather unexpected was the reply of a Mrs. Tommy Atkins to a gentleman who inquired if her husband was at the front—"Yus," she said, "an' I hope 'e'll serve the Germans as 'e served me."

SHRINERS LEAVE FOR SEATTLE CONVENTION

Many Lodgemen Visited Victoria Yesterday; Entertained at Local Temple

Members of the local Gizeh temple joined at the Seattle boat yesterday afternoon those Shriners who arrived here earlier in the day, and proceeded to the annual session of the Imperial council which commenced in Seattle to-day. The local shrine yesterday held a demonstration at the Masonic temple in honor of the visitors, and following this, the whole company with eighteen pipers, and the local patrol of twenty-eight in the lead, marched to the boat. Many ladies accompanied the shriners' party to Seattle, where they expect to be all the week on convention business. Among the local delegation are Imperial Potentates Stephen Jones and C. A. Walsh, who will have part in the Imperial council proceedings.

The local patrol, at the head of which is Thomas Davis, will compete for the drill prize, and has been engaged in preparation here for several weeks. They will appear in the competition in a uniform particularly patriotic. The patrol consists of the following: President, Thomas Davis; vice-president, L. D. McLean; captain, J. F. Scott; lieutenants, W. J. Thompson and W. Scott; secretary, R. Hunt and Messrs. R. G. Morrison, Charles O'Neil, P. R. Scurrell, T. W. Hawkins, J. A. McKenzie, R. Morrison, D. L. Johnson, W. O. Wallace, T. H. Allen, B. C. Richards, A. Brown, J. D. Christie, S. M. Manuel, R. J. McKnight, F. J. Bissler, William Bryce, T. H. Tomlinson, R. Wilson, W. H. Beuerle, H. J. Austin, F. V. Hobbes, H. F. MacLachlan and the bugler, I. Wilson.

Other prominent officers of the local shrine who are attending the convention are Potentate W. H. Richdale; Chief rabban, Hon. Thomas Taylor, M. P. P.; assistant rabban, J. Jardine, and illustrative recorder, E. E. Leason. To-day is Canadian day at the convention, and Gizeh temple has been assigned the place of honor in the procession that will escort the carriage occupied by Imperial Potentate Frederick R. Smith, Rochester, N. Y., chief officer of the order in America. To-night the Gizeh patrol will perform a drill in front of the grandstand, and the delegation will have headquarters during their stay in Seattle at the Arctic club.

OFFICER OF MYSTERY SHIP HERE YESTERDAY

B. F. Tracey, Who Was Chief Engineer on the Sacramento, Passed Through on Puebla

Encountering splendid weather on her trip north, the steamship City of Puebla berthed at the outer docks yesterday morning from San Francisco with a fair-sized passenger list and about 100 tons of freight for this port.

Chief Engineer B. F. Tracey, of the steamship Sacramento, whose owners and brokers in San Francisco have been indicted by the federal grand jury for violation of the neutrality laws of the United States, passed through on the steamship for Seattle to take up the duties as chief engineer on the steamship Parlor.

Last fall the Sacramento, of the Northern & Southern Steamship Co., cleared from San Francisco with a cargo of supplies for Valparaiso, but she put into an island off the coast of Chile and transferred her supplies. The Sacramento was formerly the German steamship Alexander.

Encountering splendid weather on her trip north, the steamship City of Puebla berthed at the outer docks yesterday morning from San Francisco with a fair-sized passenger list and about 100 tons of freight for this port.

FAILURE OF COMPANY ASKS PRIZE COURT TO CONDEMN SHIPS

Hamburg-American Steamship Co. Was Very Powerful; War Brings Its Downfall

London, July 12.—A local insurance newspaper has published a report that the Hamburg-American Steamship company has failed, having suffered immense losses as consequence of a number of its steamers being captured, while others have been interned by neutral powers or compelled to remain in German ports.

This is one of the most significant items received over the cable for some time, as it illustrates the Fatherland's financial condition. The Hamburg-American line is one of the most powerful steamship companies in the world, and if it has failed to avert downfall, it is quite certain that numerous other concerns of smaller standing have met the inevitable doom.

Before the outbreak of war the great German company was carrying on a prolific business. It owned and operated a fleet aggregating over 1,500,000 tons and was constantly opening up new trade routes. Following the sudden clash in Europe, and the subsequent failure of Germany's much-vaunted navy to do its duty in protecting its shipping, all vessels of the Hamburg-American line were either seized or forced to tie up. Ships flying the houseflag of this company can be found in nearly every Chilean port, in many United States ports and in ports in various other parts of the world.

Great Britain seized a number of ships which happened to be in ports of the empire and her cruisers captured the great many prizes. Germany's navy failed to strike a blow early in the war, and since then the preponderance of strength against her has been vastly increased.

Denial issued. According to a cablegram this morning a Berlin newsagency semi-officially denies the report that the Hamburg-American line has failed, but no official denial is forthcoming.

ASKS PRIZE COURT TO CONDEMN SHIPS

Norwegian and Swedish Vessels Found to Have Carried Supplies to Germany

London, July 12.—On behalf of the crown, the attorney-general, Sir Edward Carson, today asked the prize court to condemn the Norwegian steamships Alfred Nobel, Kim, Bjornstjerne Bjornson and the Swedish steamship Friedland, which have been detained for some time by the British authorities.

In opening the case Sir Edward said thirty-eight other vessels with similar cargoes had been captured, Copenhagen, he declared, had virtually been turned into a depot for the feeding of German troops. The cargoes in question consisted for the most part of American packing houses and lard, which is used extensively in Germany in place of butter. There were many cases of products used in the manufacture of German sausages. Altogether no less than 23,274,880 pounds of meat and meat products was included in the cargoes.

On July 11 Kim and Friedland were quantities of rubber listed as gum.

Four Oriental liners are now steaming across the Pacific from Oriental ports, and two will berth here this week while the other pair will be along late next week. Word was received this morning by cable, stating that the Blue Funnel liner Ixon, Capt. Strout, cleared from Yokohama on Thursday and that the steamship Canada Maru, Capt. Ixon, of the Osaka fleet, left the same port the following day, twenty-four hours behind her schedule.

It is expected that the Nippon liner Aki Maru, Capt. Noma, will arrive from the Far East on Thursday afternoon, and that the Chicago Maru, Capt. Surge, of the Osaka line, will come in the following morning. Neither of the vessels has been in communication with the coast wireless stations, but the Aki should flash a radiogram to-night. The Aki has about 700 tons of freight to discharge here, and a number of passengers will disembark. The Chicago has no passengers for this port and her freight list is light.

ANOTHER OLD SAILOR IS QUITTING THE SEA

Capt. Fullert, a Japanese Pilot for 22 Years, Comes to States to Live on Farm

Portland, Ore., July 12.—After acting as a pilot on the Inland Sea, Japan, taking steamers back and forth between Kobe and Moji, a distance of 275 miles, 22 years continuously, Captain P. C. Fullert has about decided to become a resident of the United States. He arrived from Kobe on Saturday on the American barque John Ems, making the trip in the capacity of second mate. By birth he is a German, but he left the land of his nativity when 25 years old. He now is 64. His pronunciation is more like that of an Englishman than a Teuton.

Captain Fullert plans to leave today for California. If he can find one suitable for sale he says he intends to buy a farm down that way and bring his family over that way and he is anxious to have his children educated in this country, a reason he assigns for the contemplated change of his residence to this side of the Pacific. The captain talks Japanese like a native, but he never mastered the art of writing that language.

In 1876 Captain Fullert was a member of the Mitsu-Bishi Steamship company, the first navigation concern ever organized in Japan. Later it amalgamated with the Nippon Yusen Kaisha, which has steamers plying in various quarters of the globe. He was master of one of the vessels operating in the coastwise trade in Japan for seven or eight years. It was later he became an Inland Sea pilot.

Many Germans Prisoners. The captain states there are about 4,000 German prisoners in Japan, having been captured when the garrison of Tsingtau fell. He asserts the prisoners are well treated. In groups of several hundred they are housed in various cities of the Island Empire. Under guard they are taken out every day for a short stroll to provide adequate exercise. It is stated they are given a liberal allowance of good, nourishing food. Many of them are quartered in old temples.

John Wilson is the name of a 15-year-old Japanese boy who also arrived on the John Ems. His father hailed from Sweden, dying soon after he was born, and his mother is Japanese. He may go to California to attend school. The lad speaks English fluently.

LEAGUE WILL CONTINUE TO KEEP SIX CLUBS IN NORTHWESTERN CIRCUIT

Sale of Players to Majors Will Recoup Losses; to Keep Leafs Intact Until Backer is Found

With the Victoria team playing under the control of the Northwestern league, the directors at yesterday's meeting decided to finish the season as a six-club circuit. Nothing was said as to the limit of the schedule, but it is probable that the national commission will cut down the schedule to about August 15, so that the clubs will not lose too heavily by holding their franchises. This action floors all rumors that the circuit might drop two clubs. Every club in the league expects to dispose of at least one player to a major league club this fall and by this means recoup losses. The Northwestern league will continue to direct the Victoria baseball club until a backer is found for it, according to a decision of the league directors here to-day. The Victoria team has been ownerless since Joshua Kingham surrendered his control of it.

Godfrey, the Victoria second baseman of yesterday, originally bailed from Arlington. He has had experience in the Western Canada league. Bill

Rose was going too strong for even those hitters whose eyes are already astute, so Godfrey could not be expected to show much in the hitting line. Neither did he have many hitting chances.

Aberdeen plays in Seattle this week, for four days at least, after which John S. Barnes has the option of moving the club to the Gray's Harbor country. Victoria is engaged in Vancouver and Spokane in Tacoma.

Bob Blewett, president of the Northwestern league, will continue to act as manager of the Victoria club.

Cleveland, July 11.—Joseph L. Birmingham, former manager of the Cleveland American league baseball team, yesterday filed suit for \$20,000 in common pleas court here against Charles W. Somers, owner of the team, to recover salary and damages alleged to be due because Somers terminated his contract, discharged him as manager and released him as a member of the team.

Birmingham's petition says his contract was for the seasons of 1914, 1915 and 1916 at \$4,000 a year, with \$1,500 additional as an option of his services, and that it contained no ten-day clause, being what has come to be termed an "iron-clad" contract.

VICTORIA TENNIS PLAYERS WINNERS

Hillside Put Up Plucky Fight Against Older Club; Many Close Games

On Saturday afternoon Hillside Lawn Tennis club played a return match with a team from the Victoria Lawn Tennis club on the grounds of the latter. The scores were as follows: Bone and Brown (V.) beat Wilson and Inglis (H.), 7-4.
Bone and Brown (V.) beat Andrews and Hunkin (H.), 5-2.
Bone and Brown (V.) lost to Charlesworth and Muncy (H.), 3-8.
Clute and Scrivener (V.) beat Wilson and Inglis (H.), 6-5.
Clute and Scrivener (V.) beat Andrews and Hunkin (H.), 6-5.
Clute and Scrivener (V.) lost to Charlesworth and Muncy (H.), 3-8.
Terry and Forbes (V.) beat Wilson and Inglis (H.), 6-5.
Terry and Forbes (V.) beat Andrews and Hunkin (H.), 5-2.
Terry and Forbes (V.) beat Charlesworth and Muncy (H.), 6-5.
Victoria L. T. C. won by 7 matches to 2, or 55 games to 44.
Terry and Forbes, for Victoria, did excellent work, winning all three of their matches, whilst for Hillside, Charlesworth and Muncy were the pick.

LEAFS BEATEN BY SUPERIOR PITCHING

Bill Rose Unbeatable in Twirling Duel at Seattle; Godfrey Playing Second for Leafs

Seattle made it five out of eight against the Victoria club yesterday when Bill Rose held the Leafs to five widely scattered singles and won 3 to 0, over George Boice, who joined the Leafs on Saturday. The former Tacoma twirler was in great form and pitched a five-hit contest, but he allowed Barth to connect for a homer and pitched a five hit contest, but he allowed Barth to connect for a homer in the sixth, with Shaw on first. Both clubs played errorless ball, and Victoria sprang a new second baseman in Godfrey, who formerly played in the Western Canada league. The Leafs miss Haworth's heavy hitting. Ted Kayler celebrated his return to the game with two hits.

Tacoma, July 12.—Tacoma and Aberdeen divided a double-header yesterday. Aberdeen taking the first game 7 to 5 and Tacoma winning the second 5 to 0. House blew up in the sixth inning of the first game after errors had filled the bases, and Aberdeen scored six runs. The only hit made off Peterson in the second game was after two chances to retire the side had been missed.

Spokane, July 12.—Spokane won from Vancouver yesterday 8 to 4 and seven of the nine games of the series. Brinker and McQuarry, for Vancouver, each got a home run.

BOISE WINS POLO TITLE

Spokane, July 12.—Boise won the third annual Northwest polo championship here yesterday from Spokane by a score of 7 to 7 goals. The winning goal was made in the last three-quarters of a minute of play. The first half ended with 7 to 4 goals, in favor of Boise, and the last half netted Spokane three goals. Spokane was ahead for three minutes in the last chukker. Oster, who arrived from Boise last night, put over four goals for his team, and Pettit for Spokane made a like number.

GOODYEAR MADE IN CANADA
Fortified Tires
Blow-outs—by our No-Rim-Cut feature.
Skidding—by our "On-Air" cure.
Loose Treads—by many rubber rivets.
Insecurity—by 175 braided piano wires.
Punctures and Shading—by our double-thick All-Weather tread.

Fortified Tires That Protect In 5 Ways Against Trouble

Fine rubber, staunch fabric and good workmanship are not enough to protect a tire from trouble. Many makes besides Goodyears have those things. But Goodyear Tires alone are fortified in five costly ways against the worst attacks that a tire encounters.

So they have proved out best in countless tests when run with rival tires on opposite wheels.

For your own sake please note these five exclusive defenses—

Fortified Against Rim-Cutting by our No-Rim-Cut feature, that best combats rim-cuts. Millions of tires have proved that.

Fortified Against Blowouts by our "On-Air" cure, that saves so many blowouts due, in rival tires, to wrinkled fabric.

Fortified Against Loose Treads by our Rubber Rivets, formed in each tire. They reduce loose tread risk 60 per cent.

Fortified Against Insecurity by our 126 piano wires, vulcanized in each tire base. They make the tire secure.

Fortified Against Punctures and Skidding by our All-Weather Tread, tough and double-thick. It gives you maximum tread wear. It minimizes punctures. And its sharp-edged grips are resistless.

And besides these five defenses, Goodyear Fortified Tires give you perfectly balanced construction.

In any make one often gets a lucky tire. It avoids mishap and misuse and makes a rare record.

But why trust to luck? Why not *always* buy the tire that averages best because it is built in the best way known to resist attacks?

Legions of tire users have learned these things in the past four years. And so this year we doubled the capacity of our factory at Bowmanville, Ont.

Prices Reduced

As our output multiplied, reducing factory cost, our prices came down with it.

We gave our latest reduction Feb. 15th—in the face of the war tax on all our raw material.

Today Goodyear Tires are saving the user 37 per cent of prices that prevailed two years ago. So ask your dealer for our low price on the size you use.

VICTORIA TEAM IS WAITING FOR WORD

Terminals Win Close Game From Royals; Eastern Lacrosse Scores

While no word has yet been received from Vancouver with respect to the P. C. A. L. A. game which is scheduled for the Terminal City on Saturday next, the Victoria twelve will go right ahead practicing with the prospects of playing the scheduled match. Coach Springer fully believes that his team have the chances of their lives to take the jump in the amateur series, and he thinks that with Harry Coutts and Joe Dakers in uniform, that he will be able to beat the Mann cup holders.

President Ed. Christopher has called a practice for to-morrow night at the Royal Athletic park and he wants every one of the squad in uniform. The defeat at New Westminster has not shaken the faith of the club officials in the team, and they look for a decided improvement in the showing of the club at the Terminal City.

Montreal, July 11.—The Nationals jumped into the lead in the National Lacrosse Union yesterday, when they defeated the Montreal team by a score of 11 to 4. The game was the most strenuous and probably the most excit-

ing in years in Montreal, and, favored with fine weather, drew a record crowd for lacrosse games for the past five years.

Cornwall defeated Shamrocks at Cornwall by 10 to 4 on Saturday after a hard game. The score was a tie at the end of the first quarter. Shamrocks led, 5 to 4, in the second, and Cornwall 6 to 5 in the third. In the final quarter Cornwall ran away from the Montreal men.

In the Queen City league at Toronto, the Rosedale team turned the tables on the Tecumshs Saturday, defeating the Indians by a score of 9 to 2. It looked a very even thing between the two Toronto teams, and it will be a hard matter for either to win the right to meet the winners of the N. L. U. in the play-off for the eastern championship.

Vancouver scored their second win of the season in the mainland pro. series, 4 to 3. The teams:

CUP DEFENDED FOR FIFTH CONSECUTIVE TIME

There were many matches on the Victoria greens on Saturday afternoon and all the rinks were occupied—the centre of attraction was the contest for the McKenize cup, held by Yates and Sturges since it was donated. This time Stevenson and Dunn tried hard to win the trophy, but failed by one point thus leaving the cup in the possession of the defenders, who have won it now for the fifth time in succession.

In the championship doubles, the following contests were played off during the week. Webster and Lothian defeated Sturges and Alexander; Webster and Lothian defeated Stevenson and Wright; Downwell and Allen defeated Dunn and Robertson but later on went down to defeat by Fairfull and Ferguson. This leaves Webster and Lothian to play off the finals with Fairfull and Ferguson.

SEVEN HUNDRED TEACHERS AT WORK

Summer Course Gathers Large Party to Take Advantage of Instruction

About seven hundred teachers are taking advantage of the summer school, which has been in progress for the past two weeks in Victoria, and will continue for three weeks more. The school is affording an opportunity to the teachers in the city and rural schools, but also an avenue for continuing instruction in many branches of education.

The practical value of the summer course inaugurated last year is shown in the reports of inspectors to the education department on the work of the teachers, in which it is demonstrated that the standard shows an improvement by the educational facilities afforded last summer. The assistant superintendent of education, G. H. Dean, is in general charge of the arrangements, the classes being divided between the High school and the Normal school, with the supplementary use of the centres maintained by the city school board for manual training and domestic science.

The department is not this year holding any physical training classes, while on account of the war the cadet instructors' military training course, formerly given by the militia department in connection with the training at Macaulay plains, is not being held, there being no officers available for instruction.

The attendance this year shows an increase of 250 on the numbers enrolled in 1914, after allowing for the number who indicated their intention of taking the course, but were unable to do so for various reasons.

The introduction of a course in English literature and French is a novelty this year, while advanced courses are given for the first time in rural science, arts, and economics. An important addition is the special effort being made to train rural teachers in the outlines of the course, so that it will be possible to give the pupils under their charge some limited instruction in the use of tools, without the expensive equipment of a manual training centre.

Taking the courses in order, there are 184 enrolled for the preliminary rural science course, and 77 for the advanced course. The lecturers are: Preliminary course in Rural Science: J. W. Gibson, M. A.; Director of elementary agricultural education. School Gardening: Principal H. B. MacLean, of Victoria Model school. Soil Studies and Field Husbandry: J. C. Readey, district supervisor of agricultural education, Chilliwack. Animal Husbandry: S. H. Hopkins, assistant live stock commissioner. Dairying: T. A. F. Wiancko, assistant dairy instructor. Horticulture: W. H. Robertson and H. Thornber, assistant horticulturalists.

Poultry-keeping: H. E. Upton, poultry instructor. Plant Study: J. W. Eastham, plant pathologist, Vernon. Bird Study: Director Kernode, provincial museum, assisted by T. Wilson, inspector of Indian orchards. Forestry: Dr. Judson F. Clark. Entomology: R. C. Treherne. Advanced course: Mr. Gibson takes methods and organization; Mr. MacLean, school gardening; Mr. Readey, soil study (in which he has the assistance of G. H. Unwin), and field husbandry; Mr. Terry, poultry-keeping; Mr. Eastham, plant study, and Mr. Treherne, entomology.

Other instructors are Professor Macdonald, live stock commissioner, who takes animal husbandry; Dairy Instructor Rive, who takes dairying; H. J. Robinson, bee-keeping, and R. M. Winslow, provincial horticulturalist, horticulture. A group of lecturers (H. R. Christie, H. K. Robinson, W. J. van Dusen, and R. E. Benedict), will speak on forestry.

Art course, preliminary and advanced courses: John Kyle, A. R. C. A.; C. H. Scott, J. G. Sinclair, Spencer P. Judge, J. S. McMillan, George Broadner, and Miss Weil. The preliminary course is being taken by 113 students, and 33 are taking the advanced course. The applied design section of the advanced course includes copper and brass repousse. Vocational music and elocution—73 registered. Miss E. M. Coney, music mistress at the Provincial Normal school, Vancouver, assisted by Miss J. Norris. This course is at the Normal school only.

Manual arts, for which there are 40 enrolled, is in charge of Supervisor W. H. Binns, manual training supervisor for the city school board. Manual training, for which there are 10 enrolled, is under Supervisor L. A. Campbell, of the Saanich schools. Household economics—Preliminary and advanced sections. The instructors are: Miss A. H. Juniper, supervisor of domestic science, Victoria; Miss E. Berry, supervisor at Vancouver; Mrs. M. A. Martin, supervisor at South Vancouver; Miss M. E. MacKenzie, domestic science mistress, Provincial Normal school, Victoria, and Miss Boorman, Victoria. Eighty are taking the preliminary course, and 27 the advanced.

Fifty-nine are registered for English literature and French. The former subject is in charge of F. G. C. Wood, B.A., late English master at the High school, and French is in the hands of Madame Sanderson-Mongin. The teachers are entering into their work with determination, and it is certain that when the course closes very great benefit will accrue to the pupils in general throughout the province.

Ivy Leaf Social Club.—The next basket picnic of the Ivy Leaf Social club will be held on July 13 at Prospect lake. The party will leave the city hall at 10 a. m.

WILL PAY VISIT TO JORDAN RIVER PLANT

Council Members Invited to See Hydro-Electric Development; Other Business

The B. C. Electric Railway company has extended an invitation through the local officials to the mayor and members of the city council to visit the Jordan River hydro-electric plant of the company. The cars will leave the company's offices at 8 a. m. to-morrow, the party leaving early as the drive is a long one. Recently the Vancouver city council visited the Lake Buntzen plant.

This evening the chief business before the aldermen will be to determine whether there shall be an appeal in the assessment cases decided by the county judge last week, and probably the action which will be reached at a private meeting to be held before the session will be confirmed in council.

The Friendly Help association will, it is stated, ask through the finance committee for further funds. Votes to this account have been complicated by the necessity of making some provision for the military training, where as the council had adopted, as a matter of principle, the idea that the supplies given as relief should be earned by actual labor at some job, the nature of which would be determined by the capacity of the applicant to work.

The joint meeting of ministers and laymen who met on Friday evening with regard to unemployment will ask the council this evening to appoint a committee of its members to co-operate in the object which the organization has in view.

The medical officer will report on the applications of milk vendors for registration under the terms of last year's by-law, and while several are certain not to register till the last day, there will be a substantial list ready.

Both the city engineer and Mr. Foreman have been acting as hosts for Rudolph Hering, the veteran engineer, during his visit to Victoria. Mr. Hering, after seeing the Sooty water-works, expressed his approval and commendation of an enterprise which is beyond the capacity of most cities of the size of Victoria, while other features of the construction programme greatly impressed him.

McLean, Vancouver; Mrs. J. Johnson, Vancouver; Miss M. Miller, Rossland; Miss L. L. Thomas, Victoria; Miss A. L. Bruce, Vancouver. All medical men rank as captains, nurses as lieutenants. The work of organization was started only a few weeks ago, under Major E. C. Hart, but already besides the medical and nursing staff there has been selected a corps of the men necessary for the other work of the unit, and these, about 175 strong, are now training in military, first-aid and ambulance work at Macaulay Plains.

TOURISTS YESTERDAY NUMBERED HUNDREDS

Several Large Parties to Be Here This Week; Many Motorists Coming

Yesterday was the busiest day at the Belleville street wharves that there has been this summer. Several hundred tourists came in on the steamers from the Sound and Mainland, and in the afternoon the downtown streets were thronged with visitors.

The Shriners on their way to the big gathering in Seattle this week made a striking figure in their fezzes, and they were joined here by members of Gizeh Temple going across to the ceremonial session to be held there. This afternoon a party of some two hundred came in under the conduct of Mrs. Alexander, of Birmingham, Alabama, and registered at the Empress hotel. They will remain here until tomorrow afternoon, when they go on to Seattle and San Francisco. This is the first of Mrs. Alexander's parties to be brought here, and hereafter all her Pacific coast parties will include an overnight stay in Victoria. She generally has two every summer. Several other parties are due here this week, and from now on to the end of the tourist season there will be many passing through the city.

One of Saturday afternoon's visitors was W. C. Piper, Minneapolis, president of the Associated Real Estate Exchanges of the United States and Canada, which body has been meeting in convention in Los Angeles. He describes that city as most up-to-date in its appeal to tourists' travel, and decidedly original in some of the methods it adopts. A public-spirited citizen of means secured permission from the city council to rope off several blocks of the residential section, and he had the roadways waxed. He had several orchestras engaged and open-air dancing was indulged in by residents and visitors. He also had a number of musicians in troubadour costume playing in the grounds of residences on these streets, and the whole effect was most successful. Los Angeles is the city which was described in a recent issue of a popular weekly magazine under the title of "the city which was made by advertising."

Los Angeles is the mecca of the motoring world, and the headquarters of the Automobile Club of Southern California is the centre from which is being directed hundreds of motor tours from all parts of the States and Eastern Canada. The club has splendid offices, among the pictorial decorations of which are two large views of Victoria, and its rooms are the resort of all motorists who visit Southern California. More than 82,000 motoring parties have been routed along the Pacific coast this season from the club headquarters, and in one day a week ago there were no less than 157 parties booked for the exposition in San Francisco. Many of these will come as far north as Victoria and Vancouver Island, the attractions of which are being advertised here both through the agency of the V. & I. Development association and the Automobile club.

OBITUARY RECORD

The funeral of the late Salvador Peretti, whose death occurred at Saanich on Wednesday last, took place on Saturday afternoon at 2 o'clock, Rev. Father Anselm Wood conducting the service. The pallbearers were Messrs. Albert G. Payne, J. Manonny, Messrs. Saitance, and Tony Peretti.

The death is reported to have taken place at North Yakima on June 30 of Lambert Le Quay, a native son of Victoria. The deceased, who was fifty-five years of age, was the youngest son of Francis and Julia Le Quay, the latter having been associated for many years with the Hudson Bay Company. Besides one nephew living here, R. Leeman, the deceased gentleman is survived by two sisters and several nieces and nephews in Washington. Interment took place in the Odd Fellows cemetery, Seattle, on Monday, July 5.

Information Wanted.—Information is wanted as to the present whereabouts of Owen Edgar, who is supposed to be a resident either in the city or district. His friends here for some time, and they are anxious as to his welfare. Anyone having knowledge of Mr. Edgar is asked to communicate with the local Y. M. C. A.

WANT VICTORIANS TO BUY MACHINE GUNS

Messrs. Marpole and Ricketts Coming Here Shortly to Start Subscription Campaign

Another call is to be made on the purse of rich and kind-hearted Victoria, and it is expected that the response on this occasion will be as hearty and as generous as in the past. C. M. Marpole and E. R. Ricketts, two well-known men of Vancouver, are coming here in a day or two to interest the people in the financing of machine guns. Many other cities and towns in British Columbia have fallen in line with the campaign for raising money for this noble purpose, and the capital is now to be called upon to do her part.

The machine gun is playing a very important part in the gigantic conflict now raging in Europe, and a huge supply is necessary in order that the Canadian boys may be able to help stop the onslaught of the German hordes. A number of business men in Vancouver conceived the scheme of starting a campaign for raising funds for purchasing guns. The committee asked for fifty rapid-fire, and the task has almost been achieved. New Westminster has promised five guns.

When the appeal was made the Vancouver police announced that they would contribute one gun, but their subscriptions have been so heavy that they are now practically assured of a second donation. The employees of the B. C. Electric set out to raise one gun, and have succeeded in getting two. The Vancouver Bar Association has raised \$2,300, which will buy two guns, and the association hopes to swell this amount until they are in a position to buy three guns.

Chilliwack has started a campaign, and Mayor Barber set the ball in motion by subscribing \$100. It is expected that this town will contribute \$1,000. In fact, a unique movement is on foot. A patriotic lady has started out to find 500 persons who are willing to contribute \$2 apiece. This municipality hopes to be able to buy one gun. Just how many guns Messrs. Marpole and Ricketts desire Victoria to contribute is not known. Their plans will be announced immediately upon their arrival in this city.

Prince Rupert's third contingent arrived in Vancouver on Friday afternoon on board the G.T.P. steamer Prince George. The detachment, consisting of 147 men, is in command of Captain Vanderbyh. A report from Vancouver regarding the arrival of the men runs as follows:

"A detachment of 147 men, recruited at Prince George and other points along the line of the G.T.P. and in Prince Rupert, arrived from the north on Friday afternoon and left for the Vernon camp the same night. The men who have been enlisted for service with the 62nd Regiment, Lieut.-Col. H. D. Hulme's new command, are of a very good type, well set up, used to hard work and keenly enthusiastic about their new calling. Col. Hulme and Capt. Bout, his adjutant, met the contingent at the dock and marched up to the drill hall with them. The brass and bugle bands of the D.C.O.R. played the northern contingent down to the station, where the boys were given a hearty send-off."

While the work of signing on men in Vancouver for the 62nd is proceeding steadily and the complement is growing daily, the call for recruits is not being met with the same prompt response as with the earlier units. Unless volunteers come forward more quickly than they are at present it will be necessary to institute a regular enlistment campaign among the thousands of young men in Vancouver who are eligible for military duty.

Col. Hulme states that he expects to leave for the Okanagan this week with his staff and the first draft of recruits from the lower mainland, to establish his headquarters at the main provincial camp and proceed with the organization of his command. Full military honors were accorded at the funeral of Lieut. Ward C. Greer, who had many friends in Victoria, whose death was reported from Vernon a few days ago, which took place this morning. The service was held in St. Paul's church at 10.30 o'clock. The 11th Irish Fusiliers furnished a firing party and officers and detachments of the local regiment and the 104th New Westminster Fusiliers marched in the cortege and paid their last respects at the graveside. The 6th D.C.O.R. band and the pipers of the 72nd Seaforth's furnished the music. Subalterns of the 6th Field Co. Engineers, 6th D.C.O.R., 72nd Seaforth's, 11th Irish Fusiliers, and 104th New Westminster Regiment acted as pallbearers.

CHILDREN'S CHAPTERS HAD SUCCESSFUL FETE

About \$100 Cleared as Result of Saturday's Garden Party

As the result of the Children's Chapters' fete held on Saturday afternoon at the beautiful grounds kindly lent for the occasion by Mrs. Rattenbury at her residence at Beach Drive, total receipts amounting to \$119 were taken. Owing to the generosity of friends of the chapters the expenses will be very light, and it is anticipated that about \$100 will be cleared in all, the sum to be divided equally between the Red Cross society and the Associated Children's charities of the city.

The enterprise was a complete success, and reflects the greatest credit on the youthful workers in the Sunshine Chapter, under the regency of Mrs. Rattenbury; the Daisy Chain Chapter, under the regency of Mrs. McDiarmid; and the Rainbow Chapter, regent, Mrs. Innes. The grounds were very prettily arranged, and the various stalls with their attractive appointments—and pretty girls made a charming scene. A number of the members of the I.O.D.E. chapters and the Women's Canadian club were present, and besides these and the other visitors were a number of the boys from St. Michael's school, who assisted in many ways, and also gave an interesting gymnastic exhibition and demonstration of Swedish drill that was much enjoyed.

Miss Thain's orchestra was present and played almost continuously during the afternoon. Quite a feature of the proceedings was the symbolic dance in which Good was seen triumphing over Evil. The parts of Good and Evil were taken by Miss Alma Bray and Miss Kate Benwick respectively, and the following were wood nymphs: Misses Anna and Ruth McBride, Mary Rattenbury, Mabel Rhodes, Mary Jameson, and Marjorie Currie. Little Marjorie Renwick filled the role of a bee, and there were in addition about thirty fairies who wove lightly in and out among the other characters of the dance. The dancers were all trained by Miss Phyllis Davis, and Peggy Pearce played the music.

Another feature was a Welsh dance, performed in costume by Kate Renwick. The various attractions in the grounds were in charge of the following: Sunshine chapter, stall of fancy articles, also cut flowers; Daisy Chain chapter, candy stall; Rainbow chapter, ice cream. The Sunshine chapter, which was active in making the arrangements for the whole affair, also conducted a clock-golf tournament, which netted well for the funds taken during the afternoon. The three chapters combined in helping with the serving of the afternoon tea, and other delicious refreshments which were in charge of Mrs. Rattenbury. The Rainbow chapter girls had charge of some artistically arranged lemonade wells, which had many patrons. The candy stall in charge of the Daisy Chain chapter cleared about \$20, and the Sunshine chapter took almost the same amount with the sale of the dainty articles made by the girls.

The gate receipts were collected by Mrs. Wollaston, who gave invaluable service in this respect. Among the visitors present at the delightful function were: Lady McBride, Mrs. Griffiths, regent of the Municipal chapter; Mrs. Curtis-Lampson, Mrs. Neurons, Mrs. Luxton, Mrs. Jenkins, Mrs. Mathews, Mrs. McMicking, Mrs. W. J. Roper, Mrs. Thompson, Mrs. Innes, Mrs. Barton, and many others.

Friendly Help, Appeal.—The Friendly Help association has had several calls this week from men urgently requiring clothes before they can take positions which they have been offered. Suits or articles of underwear, boots, etc., will, consequently, be very much appreciated.

Few Men Have Chance Still.—Those men who failed to secure tests of their capacity for armament labor supply in this city may obtain further information from John Day, care of the Labor hall, if they are prepared to pay their fare to Vancouver. This offer holds good for five days, but only turners, shipwrights, cooper-smiths, fitters, shoemakers, and machinists need apply. Nearly 250 men have been accepted from this city for munition-making in Great Britain.

CUBS WON BOTH WEEK-END GAMES

Balcolm Stars in Double Bill Against Coal City Team; Moore Slugs Ball Hard

Hawkins' Cubs took both week-end games from the Nanaimo Federals. On Saturday they defeated the Federals 13 to 1 at the Royal Athletic Park, and duplicated the feat yesterday afternoon on the latter's diamond by the score of 16 to 3.

Both games were too one-sided to be interesting. The Cubs outplaying the Nanaimo boys in all departments of the game. Willie Balcolm started Saturday's game for the locals. He held the visitors to three scattered hits in six innings and was relieved by Alec Straith. The latter also twirled a nice brand of ball, allowing but three hits and one tally while he fanned seven men.

Balcolm again occupied the mound yesterday at Nanaimo, and held the home team to three tallies. The offerings of Shepherd were batted hard by the Cubs.

SHRINERS AT SEATTLE

Seattle, July 12.—Thirty-six special caravans of members of the ancient Arabic Order of the Mystic Shrine, on the way to attend the 41st Imperial council, arrived in Seattle to-day.

NIGHT ATTACKS BEING MADE BY AUSTRILIANS

Are Making Desperate Attempt to Advance Through Carnic Alps

Udine, Italy, July 12.—According to reports from the front, the Austrians are making a desperate attempt to penetrate Italy through the Carnic Alps. They are relying chiefly upon night attacks, which so far invariably have failed.

The Italians have redoubled their efforts against all the forts protecting the Pusteria valley, along the river Drava, as well as the occupation of Nischnen or Toblach, on that river and on the railway line, Trent could be resupplied only through Innsbruck. After having bombarded Platzwife and the newly-terraced Fort Landro, the most important of the system of fortifications closing the great Alemagna road leading to Austria, the Italians now are giving their attention to the forts forming the flank protection of that highway. These are all armored and each is divided into sections, one provided with armored casemates for long range cannon and the other with machine guns for near defence. All have steel cupolas.

The two accused men were brought up in the New Westminster police court this morning and remanded for a week.

The arrests on Saturday night were made by Provincial Constable Fred Markland and Immigration Officer McColl.

MANY CITIZENS DESIRE TO GIVE MACHINE GUNS

Ottawa, July 12.—Senator Loughheed, acting minister of militia, stated to-day that since the announcement the other day that gifts of machine guns would be acceptable, many offers have been received, while inquiries from prospective donors as to how they should proceed are even more numerous. In all cases those who desire to make gifts of machine guns are being advised that the money should be sent to the militia department, which will arrange for the guns. The machine guns are to be allotted to the regiments named by the donors.

REMINDER OF FIRST INTER-CITY BALL GAME AT COAL CITY

To-morrow night North Ward and Victoria intermediate teams will meet on the North Ward park at 6.30 o'clock. This game will be the playoff of one of the tie games which occurred last week. The teams will lineup as follows: Wards—Quinn or Plows, c.; Milne p.; Menzies lb.; Curtis, 2b.; Big-ham, s.s.; Lambere, 3b.; H. Curtis, i.f.; Purdy, c.f.; right fielder yet to be selected. Victorias—Hopkins, c.; Parfitt, p.; Carne, lb.; Wheeler, 2b.; Ham-burger, s.s.; James, 3b.; Baker, i.f.; Gillingham, c.f.; Heyland, r.f.

Yesterday the Japanese Nippons and North Ward teams played a tie game at Central Park, each team scoring 11 runs. In the afternoon the Nippons defeated the Burnsides team 11 to 3. On August 29, 1891, the first Victoria and Nanaimo game was played at the Coal city, the game resulting in a victory for the Victoria team by the score of 19 to 5. The Victoria team lined up as follows: Huxtable, p.; Lenfesty, c.; Partridge, lb.; Haynes, 2b.; Robinson, 3b.; Smith, s.s.; Askew, r.f.; Meidram, i.f.; Gouge, c.f.

Navy League Chapter.—The Navy League Chapter, I. O. D. E., will hold its monthly meeting to-morrow at the King's Daughters' rest room, 719 Courtney street. As this will be the last meeting before the summer vacation it is hoped that all the members will attend.

ALLEGED THEY AIDED GERMANS TO ESCAPE

E. Hamel and D. Kitzel Appeared in Police Court at New Westminster To-day

Vancouver, July 12.—Two farmers, Ernest Hamel and David Kitzel, were arrested at Hall's Prairie on Saturday night and are held in jail on charges of high treason. They are German-born but have lived in Canada for more than thirty years and long ago became British subjects.

It is alleged that in April they committed treason by assisting two Germans named Kelpel and Seford to escape from British Columbia across the boundary into the United States, and so on to Germany, where these men have joined their regiments to fight against British soldiers.

Hamel and Kitzel lived on farms close to the international boundary, a short distance north of Blaine, and it is alleged that at that place they got their German friends over the border. The offense, if proven, is punishable by death.

These are the first charges of treason brought in western Canada since the outbreak of the war. In Toronto a former German some time ago was charged but succeeded in regaining his liberty.

Both the men now held are very well known. Kitzel is about 70 years of age. When the officers visited their farms on Saturday several other persons ran for the woods and later crossed the boundary into the United States. The authorities believe the men now charged have been assisting Germans to a wholesale extent to escape and get back to Germany to fight. Kelpel was an officer in the kaiser's army.

The two accused men were brought up in the New Westminster police court this morning and remanded for a week.

The arrests on Saturday night were made by Provincial Constable Fred Markland and Immigration Officer McColl.

NOTE IS TOO CRUDE TO PROVOKE EVEN DISGUST

London, July 12.—That abandonment by the United States of its demands upon Germany would cause a break in friendship between Britain and the United States is the declaration set forth to-day in an editorial in the Evening Standard. The editorial runs in part:

"The German note is too crude to provoke even disgust. Assurances are given—after a fashion, but acceptance of them would make the United States the vassal of Germany and her political accomplice in murder.

"President Wilson, having first demanded security for Americans as their legal right, cannot accept the German reply as a concession without eating his own words. "Should the United States abandon its stand, the cordial relations between Britain and the United States which have prevailed for a century would be compromised."

The impression in official circles is that the United States will carry on no more diplomatic correspondence with Germany over the kaiser's submarine warfare, but will stand by her demands and sever diplomatic relations with Germany if the Germans commit any act which Washington regards as violating the demands voiced in President Wilson's note.

MORE MACHINE GUNS WILL BE SUPPLIED

Vernon, July 12.—More machine guns of the very latest type will be purchased by the cities, towns and various smaller centres of the interior of the province for forces now in training at the central mobilization camp. Lieut.-Col. W. M. Davis, commanding the 54th battalion, Kootenay, stated to-day that he had been advised by Greenwood that that city would contribute at least one machine gun to the Kootenay boys.

Vernon citizens already are making arrangements for a campaign, and the cities of Nelson, Revelstoke, Kamloops and Chilliwack are expected to be not one whit behind the others. Chilliwack, whose entire population is devoted to the 47th battalion by reason of Major Coote, a pioneer of Chilliwack, being in that battalion, is expected to send a gun and maybe two. Lieut.-Col. W. N. Winiby, who is in command of the camp in the absence of Lieut.-Col. J. Duff-Stuart, said to-day that every officer and man in the camp must feel proud to be the recipients of such splendid gifts.

PREMIER NORRIS ON STAND AT WINNIPEG

Tells Commission There Was No Foundation for Statements Made

Winnipeg, July 12.—The Liberal defence in the matter of the charge that there had been a bargain between the political parties in Manitoba, made by C. P. Fullerton on behalf of fourteen private Conservative members of the legislature who allege that a considerable sum of money was involved, was concluded at noon to-day after Premier Norris had denied emphatically that he had any knowledge of the transactions which had been told of by other witnesses. The commission then adjourned until Friday. In the meantime the counsel will be able to refresh their memories from the thousand or more pages of evidence taken. The argument probably will take the greater part of one day. With this over, the commission will report within thirty days.

Hon. T. C. Norris denied that he had been a party to any negotiations relating to a sawing-off of election protests or that he had used William Chambers to act for him or the Liberal party in any negotiations. He denied that he had known that Chambers was receiving any money and he denied the statement of Hon. J. H. Howden, former attorney-general, who swore that Mr. Norris had told him any arrangement Chambers made would be all right. Mr. Norris declared that Chambers' name had not been mentioned in any connection with Mr. Howden's going to the chairman in reference to the work of the commission.

Mr. Howden was in court and heard this evidence, but was not called to the stand again.

Premier Norris told of the interviews with Sir Rodmond Roblin which had preceded the change in government, and swore that there had been no bargain, but that the new government had been left free to take any action it desired.

Thomas Kelly, the contractor, had interviewed him (Norris) shortly after he had taken office, asking for a confidential interview, which Mr. Norris had refused. Kelly had said that if he had to fight, he would fight hard and with any means at his disposal, intimating that some Liberals might be involved. Mr. Norris had told his caller that that was his private view.

Hon. Edward Brown, provincial treasurer, and James H. Ashdown, a well-known merchant here, briefly declared that they, as members of the committee in charge of the Liberal election protests, had given no authority for any arrangement that they be discontinued. They also denied evidence which connected them with the alleged disposal of the money which Chambers had received. They were not cross-examined.

GERMANS CLAIM THAT THEY CAPTURED 158

Say There Was a Fierce Struggle at the Souchez Cemetery

Berlin, July 12.—The Germany army headquarters staff issued the following statement to-day:

"In the western theatre—On the northern slope of Hill No. 60, to the southeast of Ypres, a part of the British position was blown up. "A battle at close quarters on the western boundary of Souchez is progressing.

"The much-fought-for cemetery to the south of Souchez, situated on the road to Arras again is in our possession. It was captured last night by storm after a fierce struggle. Two French officers and 156 men were taken prisoners and four machine guns and one mine-thrower were captured.

"At Combrès and in the forest of Ailly the enemy commenced an attack last night after strong artillery preparation. Near Combrès the enemy succeeded in penetrating our line, but was driven out again. In the forest of Ailly an enemy infantry attack broke down in front of our positions.

"In the northern hills in the Ban de Sapt a section of wood was cleared of the enemy.

"At Albertweiler, northwest of Aitkirch, we made a surprise attack on an enemy division in its trenches. An enemy position was captured over a width of 500 yards. Our troops finally went back into their own line of trenches in accordance with our plans, taking a few prisoners with them, unmolested by the enemy.

"In the eastern theatre—On the road from Suwalki to Kalwaria, in the region of Lipina, our troops took the outer positions of the enemy over a width of four kilometres (2.40 miles). "In the southeastern theatre—The situation with the German troops remains unchanged.

GEN. BOTHA REPLIES TO EARL KITCHENER

London, July 12.—General Botha, prime minister of the Union of South Africa, has replied as follows to Earl Kitchener's cable congratulating him on the conquest of German Southwest Africa: "I most cordially thank you for your kind congratulations, which are highly appreciated by all. I hope that soon many of my men here will take their share in the greater task in Europe."

COL. J. A. CURRIE IS BACK FROM FRONT

Officer Commanding Fifteenth Battalion Arrives at Montreal

Montreal, July 12.—Colonel J. A. Currie, commander of the Fifteenth Battalion (48th Highlanders, Toronto), whose vivid description of the Canadian work at St. Julien attracted attention, arrived here to-day. Interviewed, he said:

"You cannot fight cannon with bayonets. To sit in the trenches with a rifle is a poor way to greet Germans. You have to have the biggest guns we can make. We will have to make them faster than the Germans.

"Our men are the finest in the world. The Germans themselves say so. We heard frequently after St. Julien that there is no finer infantry in the world than the Canadian Infantry. We must have more men all the time, however. Of my original battalion (the 48th Highlanders) there are only sixty-three men left. The Patricia's have had about 2,700 men pass through their ranks. We have two divisions in the field and we must have four more ready from which to draw.

Speaking of the battle-front, Col. Currie said one would think that it all were a higher opening today. "The German shell-fire is amazing," he said.

"Our men's courage and nerve when wounded is amazing. They never groan. Germans often cry out before they are hurt. There are brave among them, of course, but they cannot compare with ours as a class. I have to abandon the practice of calling on men to volunteer for 'dangerous service,' as so many of them have been attempting something."

CELEBRATION AT VANCOUVER.

Vancouver, July 12.—Loyalty to the empire was the keynote of to-day's Orange celebration, which was taken part in by thirty-nine lodges representing some five thousand members, many of whom are away fighting for the empire at the front.

CONCERTED SELLING BY PIT TRADERS IN WHEAT

(By F. W. Stevenson & Co.)

Chicago, July 12.—Excessive rains over Sunday in different sections of the wheat belt gave a higher opening today. At one cent advance from the previous close hedging pressure developed, and in the absence of outside buying demand of futures the local Chicago element helped the decline by selling concertedly. They were successful in carrying prices down two cents or more and there was not much snap to be noted in quotations on finishing trades. Sentiment continues of a mixed character and the backing and filling tendency which attaches to the market is for want of some new impulse in either direction.

SOUND STRENGTH IS SHOWN BY LEADERS

Slocan Star Now Earns 7 Per Cent. on Par Value; Inquiry Develops

Leaders in the market showed sound strength without recording further gains Saturday. Coronation kept its advance and Lucky Jim was tendered bullish interest. It is reported that Slocan Star Mining now is earning roughly 7 per cent. on its par value of \$1. without compounding its zinc output, which is being stored, but which could fetch a high price. The company is out of debt and some rich streaks have been opened up at depth. Trading in the shares has been inactive for a long time, but significant inquiry is entering the market, and first made itself actually felt at to-day's session. The price level is around 25c-30c a share.

BAYS CAPTURED INTER-CLUB RACES AT THE SHAWNIGAN LAKE REGATTA

Splendid Contests Featured Lengthy Programme; Successful Dance Held Saturday Evening; Complete Results

James Bay oarsmen triumphed in Saturday's regatta at Shawnigan, the blue and white carrying off both of the feature events, while the individual winners were largely representatives of the local club. Splendid weather greeted the athletes for the annual Shawnigan regatta, and a big crowd witnessed the races from the shore, while the lake was fairly dotted with various kinds of craft. The races produced some of the keenest competition witnessed on the lake for many a day, and in the junior four-oared event, the J. B. A. A. crew won by a scant three feet after a gruelling struggle over the one mile course. Billy Kennedy topped the winners in the canoe events, while Rev. Mr. Alken successfully defended the Harvey & Briggs challenge cup.

It was a big afternoon's sport for the campers at the lake and the residents of that well known resort, the splendid handling of the regatta including the expedition running off of the different events adding greatly to the day's enjoyment. Never has there been better racing in the canoe events, the finishes all being of the "blanket" order, while there was plenty of fun in the greasy pole and upset canoe contests. There was no lack of entries for any of the events, big fields facing the starter in the canoe races, while in the motor boat contests, nearly all of the power craft at Shawnigan entered.

Shawnigan's rowing representatives covered themselves with glory by their highly creditable showing in the two inter-club events. In the senior four-oared clash, rowing against the crack J. B. A. A. quartette, they were defeated after a splendid race in which the Shawnigan crew led right up to the finish. The junior fours brought out a real classic struggle. James Bay jumped into the lead at the start, and though the Shawnigan crew came on strong at the end, they were nose out, the Bays winning by three feet in a terrific drive. Geo. Kingsley stroked both of the Shawnigan crews, and when it is remembered that the S. L. A. A. have had limited training, and very little expert coaching, their grand efforts will be fully realized.

Over one hundred couples attended the annual dance in the evening, and a most enjoyable evening was spent. The special train carried quite a few to the lake, while Percy Raymond chaperoned a party of Elks to the regatta in his Oldsmobile. The committee in charge

ATHLETIC STAR FALLS AT FESTUBERT

Leading his platoon against a German block house at Festubert just as Victorians have seen him leading a three-quarter movement in many a Rugby match, Corp. Frank Gallier died a hero's death, and his end came as a severe shock to those who have closely followed the career of this crack athlete.

The late Corp. Gallier was not only a brilliant Rugby star, but he was equally good at boxing, ice hockey, lacrosse, cricket, baseball, rowing and basketball. He was remarkably fast, and combined speed with the necessary courage to carry him over many of the obstacles that curb the career of less courageous youths. As a middleweight boxer he held the British Columbia middleweight and heavyweight championships in 1911. He also won the school championship at St. An-

dro, his cleverness being his greatest asset. He tended goal for the St. Andrew's team that won the Little Big Four honors previous to that year, and was also a member of the St. Andrew's Rugby team. Upon his return to the coast he was always prominent in Victoria athletics and was even to the front. He played for the Victoria Cricket club, the Law Students Rugby fifteen as well as the Victoria representative team, the Victoria City Hockey club, and other teams. He represented the J. B. A. A. in middle distance races at the B. C. A. U. championships, and won many honors in basketball, baseball and lacrosse.

Corp. Gallier's loss will strike home to local athletic enthusiasts, as it takes away one of the brightest of our younger stars. His never-failing courage and sportsmanship was always a model for the younger athletes.

Civil Service justified the confidence of their supporters on Saturday when they administered a severe defeat to the highly rated Fifth Regiment eleven, the Artillerymen getting the surprise of their lives, the final score being 194 to 102. The defeat sends the Albion eleven into second place in the league standing, while the Fifth Regiment are now resting in third place. The Civil Service team are now in fourth place and must be considered a possibility for runner-up in the final standing. Garrison won a hard-fought match from the lowly Congo's, the latter putting up a surprisingly good fight against the soldiers. Only a strong rally by the Garrison eleven at the close of the match enabled them to carry off the honors. Albions and Victoria A2 won in rather easy style.

The splendid handling of the Civil Service club was perhaps responsible for the defeat of the redoubtable Fifth. The Civils had run up the nice total of 194 before retiring, Morley, Howland, Belton, Freeman and Lowden having useful scores around the 35 mark, that helped roll up their total. The first two Fifth Regiment wickets fell for quick eggs, the soldiers being unable to touch Westwood and Wells. Belton with 62 was high scorer, Earnshaw leading the soldiers with 27.

Good hitting was witnessed in the Congo-Garrison match. The Garrison team had to go the limit to win, and when the Congos had retired seven Garrison batsmen for a total of 27, it looked as if they would win. R. H. Pooley, however, put together a nice 60, and started a Garrison rally that ended in victory. Collett, of the Congos, had a splendid 62. The score:

ORANGEMEN ATTEND SERVICES IN BODY

Large Congregation at Congregational Church Hears Splendid Sermon by Rev. Robson

A very large congregation of Sons and Daughters of England and Orangemen and Orange ladies, who yesterday morning attended services at the First Congregational church, was supplemented by those of the regular congregation who could find seats or standing-place in the big auditorium. The occasion was the special service held for the two orders by Rev. John Robson, who chose as his text 2 Samuel, 10, v. 12: "Be of good courage and let us play the men for our people and for the cities of our God; and the Lord do that which seemeth Him good." There was special music, the choir singing an anthem, and sacred solos being given during the services.

The procession proceeded to the Congregational church from the Orange hall, Yates street, headed by the Orangemen's band. There were about three hundred of the Orangemen and Orange ladies, and nearly the same number of Sons and Daughters of England. The former marched in sections headed by the officers of the respective lodges, Grand Master Leonard Tait, Past Grand Master Grimason, and Past Grand Master Dilworth (of Manitoba), with other officers and members of Lodge No. 1428, leading the line. After these came the officers and members of Lodge 1510, then the officers of Sir Edward Carson Lodge and members, followed by two ladies' lodges. After these came the various lodges of the Sons and Daughters of England, wearing their badges.

The procession made quite an imposing line as it moved along the principal downtown thoroughfares, the route being from the hall up to Port street, thence by way of Government and Yates streets to Blanshard avenue. At the corner of Pandora avenue the line turned up Pandora, forming up outside the church before entering the edifice.

Rev. Mr. Robson announced his subject as "Our Living Soldiers." The connection between David, and his text: "Be of good courage and let us play the men, etc.," was obvious. In a brief foreword the speaker explained that as all creeds, whether Catholic or Protestant, were fighting together in the Empire's common cause to-day, he would not touch on this side at all. For nearly three-quarters of an hour the minister spoke eloquently on the duties of the moment, and the momentous problems to be faced by soldier and citizen alike.

Referring to the text, Mr. Robson reminded his congregation of the discourteous treatment meted out by Hannu, king of the children of Ammon, to the messengers sent by David to carry messages of comfort on the death of Nahash, Hannu's father. Even as their garments had been torn to shreds to dishonour David, so his text promised a dishonour to recently the promise made by her to the other nations of the world. She had broken faith. Rulers of European powers had sought a peaceful solution of the vexed question which had arisen little more than a twelvemonth ago. Diplomacy had even brought about conversations between Russia and Austria which promised an understanding. Right in the midst of these, however, Germany declared war. The enemy had done her very utmost since then to destroy national life. But brave soldiers had rallied in their thousands to the protection of the Empire, and were still fighting for the principles of honor and liberty.

But it was not only the men in the trenches who were engaged in the warfare, Lloyd George said, but England was rallying men together to engage in the manufacture of munitions. Besides this, again, there were many other industries necessary to the efficiency of the army, the manufacture of clothes, the supply of food, the great business of the nation to be retained. Proceeding, Mr. Robson emphasized the importance of economy in the conduct of the national life, one of the points which he brought out being that in Canada alone last year the sum of \$103,000,000 had been spent in liquor. This, he said, would equip and keep at the front an army of 100,000 soldiers for a year.

The Orangemen's association was doing a splendid thing in stamping out this national waste through the liquor traffic, he said. The old disgrace had been wiped out, and it was now contrary to their constitution to allow liquor-dealers to belong to lodges—a clear sign of the disfavor with which the business is regarded.

Other commendable features of the order were referred to, and finally the minister dealt with the spiritual side of their faith. The open Bible was the central fact in the work of the order. In all processions and marches organized by the Orangemen the Bible was at the forefront. With this in mind he urged them to stand like men for their God in their capacity as citizens, faith in Christ being the foundation of their life.

Dealing last of all with the final part of the text: "And the Lord do that which seemeth Him good," Mr. Robson pointed out how the nation must be prepared to submit everything to God with a trusting belief that righteousness would prevail and the battle be to those who were arrayed with the weapons of justice.

BAYS CAPTURED INTER-CLUB RACES AT THE SHAWNIGAN LAKE REGATTA

Splendid Contests Featured Lengthy Programme; Successful Dance Held Saturday Evening; Complete Results

James Bay oarsmen triumphed in Saturday's regatta at Shawnigan, the blue and white carrying off both of the feature events, while the individual winners were largely representatives of the local club. Splendid weather greeted the athletes for the annual Shawnigan regatta, and a big crowd witnessed the races from the shore, while the lake was fairly dotted with various kinds of craft. The races produced some of the keenest competition witnessed on the lake for many a day, and in the junior four-oared event, the J. B. A. crew won by a scant three feet after a gruelling struggle over the one mile course. Billy Kennedy topped the winners in the canoe events, while Rev. Mr. Alken successfully defended the Harvey & Briggs challenge cup.

It was a big afternoon's sport for the campers at the lake and the residents of that well known resort, the splendid handling of the regatta, including the expeditious running off of the different events adding greatly to the day's enjoyment. Never has there been better racing in the canoe events, the finishes all being of the "blanket" order, while there was plenty of fun in the greasy pole and upset canoe contests. There was no lack of entries for any of the events, big fishbait races in the motor boats, while in the motor boat contests, nearly all of the power craft at Shawnigan entered.

Shawnigan's rowing representatives covered themselves with glory by their highly creditable showing in the two inter-club events. In the senior four-oared clash, rowing against the craft of J. B. A. A. quartette, they were defeated after a splendid race in which the Shawnigan crew led right up to the finish. The junior fours brought out a real classic struggle. James Bay jumped into the lead at the start, and though the Shawnigan crew came on strong at the end, they were nosed out, the Bays winning by three feet in a terrific drive. Geo. Kingsley stroked both of the Shawnigan crews, and when it is remembered that the S. L. A. A. have had limited training, and very little expert coaching, their grand efforts will be fully realized.

Over one hundred couples attended the annual dance in the evening, and a most enjoyable evening was spent. The special train carried quite a few to the lake, while Percy Raymond chaperoned a party of Elks to the regatta in his Oldsmobile. The committee in charge

had to abandon the usual programme of land events, because of the heavy aquatic programme, the success of the latter rewarding those in charge for concentrating their efforts to make the regatta the huge success that it was.

Complete Results. Sailing race, Class B—Rev. Mr. Alken defended the Harvey & Briggs Challenge cup. Motor launch race—H. Maloney; 2, H. Kingsley. Outboard motor race—J. Lonnott; 2, T. C. Fletcher. ATHLETIC STAR FALLS AT FESTUBERT

Leading his platoon against a German block house at Festubert just as Victorians have seen him leading a three-quarter movement in many a Rugby match, Corp. Frank Gallier died a hero's death, and his end came as a severe shock to those who have closely followed the career of this crack athlete. The late Corp. Gallier was not only a brilliant Rugby star, but he was equally good at boxing, ice hockey, lacrosse, cricket, baseball, rowing and basketball. He was remarkably fast, and combined speed with the necessary courage to carry him over many of the obstacles that curb the career of less courageous youths. As a middleweight boxer he held the British Columbia middleweight and heavyweight championships in 1911. He also won the school championship at St. An-

drew's, his cleverness being his greatest asset. He tended goal for the St. Andrew's team that won the Little Big Four honors previous to that year, and was also a member of the St. Andrew's Rugby team. Upon his return to the coast he was always prominent in Victoria athletics and was ever to the front. He played for the Victoria Cricket club, the Law Students Rugby fifteen as well as the Victoria representative team, the Victoria City Hockey club, and other teams. He represented the J. B. A. A. in middle distance races at the B. C. A. U. championships, and won many honors in basketball, baseball and lacrosse. Corp. Gallier's loss will strike home to local athletic enthusiasts, as it takes away one of the brightest of our younger stars. His never-failing courage and sportsmanship was always a model for the younger athletes.

FIFTH REGIMENT AGAIN DEFEATED

Garrison Won an Exciting Match From Congo's; Albions Won Easily

Cricket Leaders.	F.	W.	L.	Pts.

Saturday's Results. Civil Service, 194; Fifth Regiment, 102. Garrison, 158; Congregationals, 148. Albion, 104; Five C's, 40. Victoria A2, 184; Civic Association, 118. Civil Service justified the confidence of their supporters on Saturday when they administered a severe defeat to the highly rated Fifth Regiment eleven, the Artillerymen getting the surprise of their lives, the final score being 194 to 102. The defeat sends the Albion eleven into second place in the league standing, while the Fifth Regiment are now resting in third place. The Civil Service team are now in fourth place and must be considered a possibility for runner-up in the final standing. Garrison won a hard-fought match from the lowly Congo's, the latter putting up a surprisingly good fight against the soldiers. Only a strong rally by the Garrison eleven at the close of the match enabled them to carry off the honors. Albion and Victoria A2 won in rather easy style.

The splendid bowling of the Civil Service club was perhaps responsible for the defeat of the redoubtable Fifth. The Civils had run up the nice total of 194 before retiring, Morley, Howland, Belsion, Freeman and Lowden having useful scores around the 50 mark, that helped pull up their total. The first two Fifth Regiment wickets fell for duck eggs, the soldiers being unable to touch Westwood and Wells. Belsion with 62 was high scorer, Barnshaw leading the soldiers with 27.

Good hitting was witnessed in the Congo-Garrison match. The Garrison team had to go the limit to win, and when the Congo had retired seven Garrison batsmen for a total of 27, it looked as if they would win. R. H. Pooley, however, put together a nice 60, and Mr. R. H. Pooley, not out for 60, Bdr. Kelly, b. Erickson, c. Collett, 27. Corp. Martin, b. Collett, 27. Gr. Needham, c. Erickson, b. Collett, 27. Sgt. ORANGEMEN ATTEND SERVICES IN BODY

Large Congregation at Congregational Church Hears Splendid Sermon by Rev. Robson

MAKING PROVISION FOR UNIVERSITY WORK

McGill College Instruction Will Be Carried on in Fall

The university of the province will commence its lectures on September 23, the examinations beginning on August 26. The necessity for a start is due to the fact that McGill university college, Vancouver, which has been operated under the auspices of the Royal Institution for the Advancement of Learning in British Columbia, is ceasing its work this year. The university will take the work over, supplementing it by additional courses in geology, mineralogy, scientific basis of agriculture, chemistry, physics, bacteriology, public health, history, economics, French, German, Latin, and it is hoped in English, mathematics, mining and some other branches of engineering.

A joint committee of the Royal Institution for the Advancement of Learning and University of British Columbia is now arranging the details connected with the taking over of the work by the university. These include the transfer of the students, equipment and buildings of McGill university college of Vancouver, and the engagement of members of its staff for the coming year. There were 222 students registered in Vancouver and 79 in Victoria, in McGill university college during the past year.

The increased work will enable a full four years' course with options, to be given in arts, so that the degree of B. A. may be obtained, and a three years' course in engineering. As only three years in arts and two years in engineering have been given in McGill university college, all its old students will be able to proceed with their work in their home institution.

A calendar outlining the work of the coming year is in preparation and will be made public as early as possible. In general it may be said that matriculation and work of the first three years in arts and the first two years in applied science will remain as in the calendar of McGill university college of last year. The changes will be principally the additional classes above referred to for the extra years.

The university site at Point Grey is cleared and the foundation has been laid for some of the new buildings. The university will complete the steel concrete work for this building during the summer.

Dean Klinck, of the college of agriculture, has been cultivating plots on the campus for experimental work in agriculture. In addition to preparing the ground for class purposes, this experimental work will furnish information of great value to the agricultural industry of the province. Data are being accumulated as to methods of increasing fertility of various soils and the adaptability of numerous types of fodder and other crops to the region.

The coat of arms adopted by the university has been designed by the Richmond Herald. It consists of the arms of the province with an open book in place of the union device. The motto is "Tuum est" (it is yours).

The university will start with a library of 20,000 volumes.

The ex-Bishop of Manchester, the late Dr. Moorhouse, was one of the happiest and wisest of Churchmen, and was never more pleased with himself than when telling a good story. One of his favorites was that of the old lady who started a missionary on his return from India with a question which showed how dangerous a little knowledge is. "Pray, my lord," said she, "is it true that in India you call the female converts zenanas and the male converts bananas?"

"I don't like that man." "Don't like him? Why, my dear fellow, you don't know him." "That's why I don't like him. He refuses to meet me."

The prizes for the flower show and for the regatta were presented during the evening at the S. L. A. hall by Mrs. Gordon Hunter.

Shortly after the flower show was concluded a musical programme followed, including a may-pole dance and a solo by Miss Gardner. The dancing

showed careful training, and it was much appreciated by the large audience.

CHAIRMAN OF BOARD NAMED BY DEPARTMENT

Mr. Justice Macdonald Will Preside Over Conciliation Board

As it has been impossible for the arbitrators to reach an agreement on the street railwaymen's terms with the B. C. Electric Railway company, a chairman has been appointed by the federal minister of labor.

Mr. Justice Macdonald has been chosen, and he will act with A. G. McCandless, an ex-mayor of Victoria, who appears for the company, and J. H. McVety for the men, on the board of conciliation.

The electricians employed by the company, who are also affected by the cut in wages proposed by the representatives of the company, are taking a vote on their attitude to the renewal of the agreement. The ballots will be counted in Vancouver.

Opposition to the acceptance of the company's conditions appears to be based not only on the ten per cent. cut in wages, but the readjustment of working conditions, which they claim will represent a far greater reduction than that percentage would indicate.

Speaking at the American Club luncheon in Vancouver on Saturday, General Manager Kidd gave some idea of the extent of the output of hydro-electric plants owned by the B. C. Electric Railway company in this province.

On the mainland the Lake Buntzen plants represented an output of 85,000 horsepower, and on Vancouver Island hydro-electric plants furnished 23,000 horsepower. In addition to these hydro-electric plants the company had steam plants available for use in emergency, with an output of 37,000 horsepower. This large output represented a very considerable factor in the possible development of the coast district of British Columbia along industrial lines, as it provided the company with a large reserve output, subject to demand.

The development of these water powers, said Mr. Kidd, represented roughly an expenditure of \$15,000,000. Mention of this figure was made because of the fact that it was often thought that electrical energy could be sold for practically nothing, no account being taken of the plants. This was a factor which must be remembered,

ed, as many millions had been lost on this continent because of the development of water powers which were unable to earn revenue to pay a return on investment. When it was remembered that to produce one horsepower per year it was necessary to make a capital expenditure from \$50 to \$150, some idea of the cost of construction would be gained. Because of this large initial outlay, no company could afford to sell its power at merely nominal rates. In Vancouver and Victoria, however, the B. C. Electric was selling power for industrial and commercial enterprises at as low rates as in any other part of Canada and very much lower than many other points on the Pacific coast.

NEW PASTOR PREACHES AT CENTENNIAL CHURCH

Rev. A. S. Colwell, B. A., Arrived Here on Friday to Take Charge

Rev. A. S. Colwell, B. A., who succeeds Rev. Thomas Green as pastor of Centennial Methodist church, arrived in the city on Friday last to take charge of his new duties. On his way from Woodstock to the coast he traveled through the States to San Francisco, where he spent a short time at the fair before coming to Victoria.

His pastoral duties began yesterday, when he occupied the pulpit both morning and evening, preaching strong sermons to large and appreciative congregations. For the morning service he chose for his text Mark V, verse 19, "Go to thy house unto thy friends, and tell them how great things the Lord hath done for thee." The speaker very forcibly emphasized the necessity of following the path of duty in all phases of life, and showed that this would lead to the certain fulfillment of every noble desire. Only through faithful and obedient service to God could true pleasure and happiness come.

In the evening, having chosen Romans XII and part of verse 19, "Set not your minds on high things but condescend to things that are lowly," as his text, he pointed out that condescension was the stepping stone to success. To do small things was the task of most men. Only the few did great deeds, and these but seldom, while the doing of small deeds of love and kindness elevated men to greatness of character.

Mr. Colwell proved himself to be an able and persuasive speaker, and his labors will undoubtedly have far-

reaching effects in the moral and religious welfare of the church and community. Throughout his pastorate here he will undoubtedly have the undivided support, sympathy and co-operation of every member and adherent of his congregation.

Mrs. Colwell, who at present is visiting her mother in Moose Jaw, Saskatchewan, will arrive in the city in the course of two or three weeks.

A PIONEER PASSES

Alexander L. Fortune, First White Settler in Okanagan Valley, Dead at 85.

Alexander Leslie Fortune, the pioneer settler of the Okanagan valley, died at his home near Enderby on Monday last. Mr. Fortune had reached the age of 85 last January and had been in critical health for some time.

On June 15, 1866, Mr. Fortune arrived in the valley, the first white man to set foot there. He was one of a party that left St. Paul, Minn., in 1862, and trekked across the prairie northwards to Fort Garry, now the city of Winnipeg. From there he drove across the Canadian northwest with ox teams

by way of Fort Edmonton and the Yellowhead Pass to the Cariboo country, and after trying his hand at mining there, traveled down the old Cariboo road and into the Okanagan valley. There he took up land and had over since engaged in farming and stock-raising. He was one of the best known stockmen in the province.

Mr. Fortune was born at Godmanchester, in the province of Quebec, where his father was a physician. In 1855 he married Miss B. M. Ross, daughter of Murdoch Ross, of Lancaster, Ont. He was a member of the Presbyterian church and it was his proud boast that he taught the first Sunday school organized between Winnipeg and Victoria. The funeral took place on Wednesday at the Enderby Presbyterian church, his services being conducted by Rev. A. A. Dow, the pastor, and Rev. J. Henderson, Armstrong. Among the pall-bearers was Ald. George Bell, Victoria, former reeve of Enderby.
