School Song of Shin Nippon Gakuin

Listen! the high sound all round!
The dawn of new Nippon, tells the bell.
The lights of hope are beaming.
Tis for us younger generation.
Strike the bell of awakening.

Behold! the clearing sky above!
The sunrise of new Nippon, glorified morn.
The land of liberty is beginning.
Tis for us younger generation.
Rise afresh in the day of rebirth.

History of Shin Nippon Gakuin

1937

Shin Nippon Gakuin, the institution for delinquent boys, formerly called Koagakuin, was established by K. Shimada and his associates. Recollecting the previous career, which had been very unusual, he was deeply considering for attonement of his past crimes. About this time he was given an idea about the protective work for delinquent boys by S. Shiono, who was then the Minister of Justice, and he made up his mind to devote himself to this important social work. At first he sought advice of J. Mitsuyuki, former Attorney General, before zealous activity had taken

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775 013

place. It needed the support of influential citizens in order to lay solid foundation. He and his associates solicited it from I.Kobayashi, the Minister of Commerce and Industry, Count Hamuro and others. K.Takabatake the present Vice-President, Mrs.Shimada, S.Emori and I. Takahashi were the co-workers who endeavoured in establishment of institution, which required two years of preparation. They obtained the sanction of establishment on the 26th Dec. 1940. In April next year the school buildings were completed at 2305, Kizuki, Kawasaki city and the school started its work. J.Mitsuyuki who had cooperated in establishment of the school, became the first President. The school has been making remarkable improvement and deeply appreciated by both Department of Justice and Tokyo Juvenille Court and boys have gradually increased. On the 6th Aug. 1945 President Mitsuyuki died but every personel has made every effort in persuance of his will. After the defeat of Japan we adopted a new plan and operating on it diligeently since March 1946 with good result.

Principles of Shin Nippon Gakuin

It is our duty to protect and reform unfortunate boys on the principle of international humanism, and contribute to the well being of the people.

We intend to make good responsible citizens by building their character, developing proper intellect and physical training so that they may be able to contribute to the general welfare of society.

We intend to make them acquire some craftmanship by vocational learning according to their respective ability and cultivate indepent spirit, so that they may contribute to the progress of culture and industrial prosperity.

We intend to make them appreciate the value of lavour and contribute to the public welfare through their labour

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775 013

The purpose of Shin Nippon Gakuin

This is a juridical person. It has been established in conformity with the Law of Judicial Protection, and the boys are entrusted from the Juvenille Court. We protect them from committing second offence. We intend to promote their morality, develop their intellect and make them learn some craftmanship. We hope they will be good citizens and contribute to the promotion of the public welfare.

Principle of Reform

Our protective work of delinquent boys is not only preservative measure of the public peace, but also aims at the promotion of their morality. It is based upon the humanity and phiranthrophy. We desire them to share in rebuilding our land without single exception. In brief our work is based on the fresh plan that conform to the request of our land and the spirit of the times.

This school is the largest protective institution our country. We always endeavour to improve the facilities to meet the requirement of our country. It needs the spirit of repentance and atonement of the people as defeated nation to rebuild our country. All the personels of protective institution must have spirit of these as well as boys. Thus a break from misunderstanding between personels and boys could be avoided. Shin Nippon Gakuin was established as a means of atonement by K. Shimada, and all personels, who have been deeply affected by him, co-operate closely with him in this important work of reforming boys. In order to bu ild peacefull Japan, we are making effort to reform boys on democratic principles.

General Program

Items of working

A boy admitted in the school is at first given physical examination and then investigated about his character and family conditions by the staff. The staff meets his parents. The boy is given various test for about a month, after which he is taken in one of the following divisions according to his ability, desire and family circumstances. The divisions are:

Office boy
The boys are attached to offices as office boys.
Outside work
Transportation
They study auto mechanic and driving, and engage in transporting goods to and from school.
Carpentry
They learn carpentry and cabinet making.
Lathe
They learn various lathe work.
Printing
They engage in farming, gardening and breeding.

Outline of lessons

Degree of school education boys received by 258 boys is as follows:

Boys who are illiterate or left primary school unfinished	11%
Boys who finished the primary school course	29%
Boys who finished higher primary school course	48%
Boys who finished middle school or left unfinished	12%

The degree of education they received, however, do not always indicate the standard of their scholarship. We

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775 013

divide boys into three classes, A, B and C, according to the result of our examination disregarding their former schooling. A class is the grade for boys of 1st or 2nd year class of middle school and some talented boys are specially educated. B class is the grade for boys of 4th or 5th year of primary school. C class is for the 1st or 2nd year grade and also some weak minded and physically undevaloped boys, who must be special attention. The subjects taught in A and B classes are as follows:

civics, reading, composition, English, history, mathematics, science, drawing, music and physical drill

Besides, boys learn technique and knowledge through their work in the workshops. For the first one month boys are placed in the preliminary division, being examined and guided. We have teachers and subordinate teachers in every divisions.

Physical education and recreation

Most delinquent boys have some defect in physique or mind and it is important to give them special educational program. As physical education we have the radio exercise, baseball, pingpong, boxing, swimming and other sports. We give boys these according to their physical constitution and desire. For their culture and amusement we have lecture-meeting, books, papers, chess, checker, playing-cards, drama, music-meeting etc. It is remarkable that they have self-government. These do not only cultivate self-consciousness, but also education become more effective.

On ~~every~~ other sunday we hold sunday-school and on the other sundays and holidays boys are allowed to go out.

Betterment of life

It is difficult to obtain articles of daily needs in Japan today, nevertheless the welfare-section makes every effort to improve their living condition and our medical service is available twenty-four hours day. They take bath everyday. Every boy is given a mattress, two quilt and blankets, which are disinfected by exposing to the sun and they are repaired and cleaned. The staff always make efforts to prevent infectious disease. In January and February last year, when we had the epidemic of influenza, we combatted it very successfully.

Hygiene and Medicine

Medical examination and Treatment

Newcomers undergo medical examination and thereafter once a month. Sick boys receive proper medical treatment and those who are weak are mitigated from their work. In Japan the disease of respiratory organs is prevalent, especially among juvenils. We are making every effort to prevent it. There are some boys, who have led vagrand life. They are very susceptible to be infected with the disease and it is important task to prevent it. We always clean and ventilate rooms, clean and disinfect clothings with D.D.T. etc. Sickness of contagious nature is taken into an isolated ward.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775 013

Medicine and Medical Supplies

Much medicine and medical supplies, bandage, cheese-cloth, plaster etc. are obtained through government agency. We are making every possible effort to mutritious diet to maintain their health, but it is not always easy task under the prevailing condition.

Result of physical examination

weight		on 8th Mar. 1946
more than	50 kilograms	6 boys
more than	40 kilograms	13 boys
more than	30 kilograms	14 boys
below	29 kilograms	3 boys

Owing to preper exercise, nutritious diet, medicine and injection of vitamine, these boys gained in weight in month.

How to treat boys

Treatment

Boys are given grade marks every month according to Provisions of Examination. Full mark of lessons is 20, practical exercise is 30, conduct is 50 and the t total is 100 . They are given from 100 to 50 yen award according to their grade, but the cost of living deducted from that. The best boys, who obtained full marks three months running, are given prize.

We are making every effort to give each boy at least 2000 calories a day.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775 013

Result of protection

The merits of boys are recorded according to Provisions of Examination and release of boys are determined on these records. About 1000 boys went out from the Main School. About 65% of them making their living as good citizens, 20% is under probation and it is regretable, 15% is failure. We are making every effort to make perfect the result.

Orivusuibs if Examination

When boys pass one year diligently in our school, We usually apply to Juvenille Court for release.
We, however, continue the protection, if their total of monthly marks is below 1200.
Marks are recorded every month. Full mark is 100 and superior boys may be given more than 100.
According to their marks boys are classified as follows:

A class	more than 80
B class	- from 60 to 79
C class	from 40 to 59
D class	from 20 to 39
E class	below 20

When some boys obtain more than 1200, they are applied to Juvenille Court for their release, even if they have not yet one term, one year.
Monthly mark is divided as follows:

Practical exercise	30
lessons	20
conduct	50
total	100

It is decided by the head of rehabilitation-section based upon the reports of teachers.
Boys, who planned desertion or violated rules, are not given mark for a few months.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775 013

They may be put back in the lower class.
When the boys are applied for release according to the preceeding provisions, the decision must be passed at a meeting of school officials and section heads.

The release of boys, who are sick or under certain unavoidable circumstances, is decided as mentioned in the preceeding article.

Boys, who have obtained full mark for three consecutive months are prized.

These provisions have taken effect from April 1943.

SUBJECT: Operational Directive 23, Hq Eighth Army, 25 April 1949, subject, Publicly Owned Repatriation Camps and Housing Projects Operated by Private Organizations

NO	DATE	FROM	TO	REMARKS
1	28 April	PWO	SMGO	Attached is a list of facilities that must be taken into consideration in providing surveillance to above OD. Would it be possible to determine what action Navy will take in regard to this OD. Section plans to exercise surveillance through Prefectural Welfare Officials; however, adequate and complete surveillance can be assured only through personal inspections of facilities listed. ----------Robert W. Stemple, Public Welfare--1.t.d.

This memo was returned to Lt. Hastie to keep from Mil. Gov. Sect. I keep with no comment. Sec't O - had discussed this matter with Lang or I Corps. It is assumed they keep with handle.

NOTES

Jurisdiction, as listed above, was determined by geographical location of the facility concerned. In terms of responsibility for management of the various City managed dormitories it is recognized that such responsbility is vested with the Yokosuka City government which is within the Navy area of jurisdiction.

Inspections of <u>all</u> the facilities listed should be made in order to determine if actual management is being carried out by City Officials as reported.

It seems certain that the first 5 dormitories listed must be considered and management returned to government agencies. The sixth dormitory listed presents a problem in that it is managed by a private agency but the buildings utilized are government property. It is reported that the last 6 dormitories are actually being managed and operated by Yokosuka City officials, and if such is the case, it will not be necessary for Yokosuka City officials to take action in regard to compliance with En Shi 286.
