RENEWALS.

The work of renewing our list has been much retarded in the West by the quarantined state of the currency. We hope our friends will look after those who have been obliged to let their names slip, and send us their names as soon as possible, so as to complete their files.

Our Extra, containing "Shrewd Forebodings," embraces only that portion of the story published in the majority of our numbers. Those who desire the story complete must begin their subscriptions with the first number issued in December, and will receive the Extra gratis. To those subscribers who begin with the first number in January, the Extra will be of no value. We make this explanation because some of our subscribers, who began with the first number in January, complain that they have received no Extra.

WASHINGTON GOSPEL.

The Virginia Senators are much alarmed at the prospect of making a demonstration against the Union. At last session the House passed the Homestead bill by a large majority; but this was the majority voting against it. The cause of the change was the objection that the bill gives laws to aliens, or those who are now residents, and are not yet naturalized. This would give a great deal of strength on the part of the Know Nothings in the House. The members of the House are all in a ferment, and it is said that they will go to the aid of the President.
