FROM: CINCFE *334 POSCO*

TO : DEPT OF ARMY.....

INFO: CG PHILCOM.....ROUTINE

EX50810 For CSGLD/E 1. Reurad W 89861. Subject is Renewal of Contract W 427-200-QB-227, Pacific Oil Storage Company. There are no known deficiencies against the interests of the government in the present POSCO contract. No question has been raised concerning proper performance for three years by POSCO with Luzon Stevedoring Company as subcontractor.

Separate contract with Luzon Stevedoring Company for Manila port operations is being terminated on 30 June 49. Final arrangements are now in process for new contractor.

No other firm in Manila area has equipment capable of proper performance of Luzon operations under POSCO contract. If contract not renewed POSCO has option of completing payments and acquiring complete ownership of oil barges which option was passed by POSCO to Luzon as subcontractor. It is believed Luzon would exercise their option which would force POSCO to in turn exercise their option. No other suitable barges are available in the area except for Army barges which would have to be converted at costs considered excessive in view of fact that handling POL through Pandacan is an interim method to continue only until bulk products are deliverable to Clark by pipeline.

In view of foregoing and particularly the fact that Luzon contract for port operations is being terminated best interests of government dictate renewal of POSCO contract with Luzon as subcontractor.

GD PET/REC/MHS/lea

G-4 PETROLEUM DIVISION

MEMORANDUM FOR RECORD:

16 June 1949

Subject: Renewal of Contract W 427-200-QB-227, Pacific Oil Storage Co.

1. DA rad W 89861 indicates that DA is not favorably considering CINCFE's request for renewal of the Pacific Oil Storage Company contract from the standpoint of information presently available, and recommends ascertainment of a substitute proposal for handling petroleum supply in the Philippines by any other means possible. That rad further indicates that if other means are not possible, the contract deficiencies against the interest of the government (approval of Luzon Stevedoring Company as subcontractor to Pacific Oil Storage Co.) must be corrected.
2. Present contract with POSCO provides for receipt of products at Bataan Terminal, operation of the terminal, and distribution of products to points of consumption. The distribution to points of consumption involves barging from Bataan to interim storage at Manila in Pandacan terminal. POSCO contract provides that Luzon Stevedoring Company, as a subcontractor, will receive products at Bataan Terminal and will transport such products by water to Manila.
3. No other firm in Manila area has equipment capable of performing work called for in subcontract with Luzon Stevedoring. Furthermore, POSCO, under its contract with the U.S., has the option in the event of termination or completion of the contract, of completing payments and acquiring complete ownership of barges furnished by the US, and POSCO, in turn, passed this option on to Luzon Stevedoring. It is believed that Luzon would exercise this option in the event of termination or completion of the contract.
4. No other suitable barges are available in the area except Army barges which would have to be converted at an excessive cost, considering that barging from Bataan to Pandacan is an interim means of supply to be discontinued when bulk products can be supplied to Clark Field by pipeline.
5. This rad furnishes the foregoing information to DA, and indicates that since the Luzon contract for port operations, which are separate contracts from the POSCO subcontract are being terminated, the best interests of the government dictate renewal of the POSCO contract with Luzon as subcontractor. The objections raised regarding failure to safeguard the interests of the US are in connection with the Luzon contracts for port operations, and no question has been raised regarding Luzon subcontracts with POSCO which have been in
