NAGANO PREFECTURAL
ECONOMIC INVESTIGATION AGENCY

July 5, 1950

To: Mr. R. A. Hashitani
Mr. L. N. Ida
Kanto CAB

Subject: On an information concerning the
Liquidation of Foodstuff Corporation

I wish to submit to you a report on the Captioned subject which was directed by you on June 28, 1950, as per sheets attached.

Tomiju Ikeda

Tomiju Ikeda
Director,
Nagano Prefectural EIA

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

1. Gist of the information

The government made economic control organizations such as Kodan and Eidan are of little use under the present economic circumstances. The time, I believe, has come that the control system should be thoroughly studied and closed.

I sincerely beg, therefore, that the GHQ authorities be good enough to press the Japanese Government to dissolve the control system, and to take speedy and clear cut measures against the organization.

Note: The private affairs appeared in the letter were just an example the writer wanted to show the unreasonable business conduct of the control organization.

2. Main points of the complaint and results of the investigation

(1) Complaint:

Not only the articles (Machinery, apparatus, etc.) invested to the Foodstuff Corporation were estimated at a negligible price as compared with the market price but all the investors were deprived of their b business. The settlement of accounts has been delayed for more than three years since the dissolution. From the stand-points of the investors and public interests, the problem indeed is a serious and unwarranted matter.

(2) Results of the investigation:

The dissolution of the Foodstuff Corporation took place on February 20, 1948. The liquidation business is being carried out by "The closed Institutions Liquidation Commission," former Bank of Taiwan bldg., 1-2, Marunouchi, Chiyoda-ku, Tokyo. It is said that the settlement is subject to the GHQ's approval.

There is in Nagano the Nagano-ken Foodstuff Corporation liquidation Office and Mr. Imaizumi and Mr. Kondo are in charge of the office. But the businesses carried out by these two are not more than making some reports for the matters referred by the head office in Tokyo. For that reason, the future prospect of the liquidation business could not be obtained by this office, however, the persons concerned with the former Foodstuff Corporation viewed that the liquidation business will last for another half year.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

The balance of the Corporation is said to be favorable, therefore, a certain amount of share for the investors is expected.

3. Measures taken by this office

(1) We investigated the matter with the informer himself on the meaning of the letter and the concrete fact.

(2) Investigation on the actural state of liquidation was conducted with the persons concerned with the Corporation.

(3) The results of our investigation were conveyed to the informer and at the same time the following points were explained to him;

(a) GHQ takes proper steps for matters informed to them by any Japanese national. Accordingly the Kanto CAR authorities ordered this office to conduct a thorough investigation on this particular matter.

(b) The results of the investigation will promptly be reported to the Kanto CAR.

4. Suggestion

As for the present state and future prospect of the liquidation of the dissolved Foodstuff Corporation, an inquiry into the aforementioned "Closed Institutions Liquidation Commission" would be the shortest cut, and the Tokyo Regional EIA is considered to be in the best position to make such inquiries.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

To : KCAR

From: Shinkichi Nishikawa, Toyono, Kamisato-mura, Kamiminochi, Nagano Pref.
The NishikawaShoten, Wholesale dealers in fertilizer,feeds and fruits

Subject: Advocating decontrol.

Everybody knows that various public corporations taking charge of controlled items are entirely inefficient and not up to the wishes of the people. The workers and especially the top ranking personnel of such corporations are merely drawing large sums of pay, committing at the same time, endless irregularities such as misuse and squandering of public funds. Such persons should be made to pay for the damage they had influcted, and be dealt with severely. Fertilizer and foods may now be decontrolled in view of the fact that many consumers refuse drawing rations. Those who object to the decontrol are persons working in the public corporations, as they desire to stay in office longer as possible, and though they say something against the decontrol, it is a mere pretext for their own good. It may be a good idea to have the people vote on decontrol.

When such organizations as the Eidan or Kodan are ordered dissolved, it is usual with them to take many, many years to have all accounts liquidated, to our wonder, and above all, they would not pay back the shares of investors for many years. It may better be ruled that when a corporation is ordered dissolved, there will be fixed a certain period during which the liquidation shall be completed, as in some cases, it would take 3 years or so many years for them to complete the liquidation. Any investment would not be paid back on time. I propose that such investiment would be paid back with interest thereon. Kindly advise the Government accordingly.
I am interested in the Food Control agency (Eidan) in Nagano Prefecture, and it was reorganized into a Corporation (Kodan) 3 years, but no money by way of investment has yet been paid back to me.
