Citações na Wikipédia

Você verá muitas **citações** em qualquer artigo da Wikipédia. Quando as fontes de um texto tiverem sido citadas, você verá uma nota de rodapé na frase.

Adicionar citações é super **importante**. Certificar-se de que os artigos são bem citados ajuda a evitar que sejam excluídos.

About the work [edit]

The Dinner Party was created by artist [Judy Chicago](#), with the assistance of numerous volunteers, with the goal to "end the ongoing cycle of omission in which women were written out of the historical record."^[2]

The table is triangular and measures forty-eight feet (14.63 m) on each side.^[2] There are 13 place settings on each of the three sides of the table making 39 settings in all. Wing I honors women from Prehistory to the Roman Empire, Wing II honors women from the beginnings of Christianity to the Reformation and Wing III from the American Revolution to feminism.^[2]

Citações manuais

The screenshot shows the Wikipedia edit interface. On the left is a sidebar with navigation links. The main editing area contains a text editor with a toolbar and a paragraph of text. A dialog box titled 'Add a citation' is open, showing three tabs: 'Automatic', 'Manual', and 'Re-use'. The 'Manual' tab is selected and highlighted with a red box. Below the tabs are several citation templates: Website, News, Basic form, Book, and Journal. A red arrow points from the text box to the 'Manual' tab.

Clique em **Manual** para usar um modelo e insira sua origem manualmente. Isso é útil quando a citação não aparece como você gostaria com a opção padrão "automática".
