

THE CROW'S NESTRY.

Winnipeg Board of Trade Wants Rates to Apply Between That City and Points West.

Mail and Empire Congratulates Laurier on the Magnificent Work He Has Achieved.

Winnipeg, June 3.—At a meeting of the Winnipeg board of trade this afternoon the following resolution was passed and ordered to be transmitted to Hon. Clifford Sifton and the Manitoba Liberal members of the house of commons...

Therefore, be it resolved, That this board on behalf of the business interests of Winnipeg most strongly protest against any such discrimination...

Toronto, June 3.—Discussing the Crow's Nest Pass railway agreement the Mail and Empire says: "All that need be said is, that the Globe does not at all ways treat guarantees on bonds in this light."

The Telegram says of the Crow's Nest Pass bargain that the \$3,500,000 which will go to the C.P.R. under terms it has exacted from the government is a steep price for the extremely moderate advantages promised.

A MARINE BATTLE.

It happened that on one occasion we were cruising off the coast of Japan during a very successful season, and having just "cut in" a very large "fish" were busy "trying out" the blubber.

It fell to the swordfish to lead off, and he launched himself at the whale like a Whitehead torpedo pointed direct at the most vital part. But a gentle swerve of the very excellent presented to the attack, instead of the vulnerable broadside, the oblique impenetrable mass of the head.

But their time had come. After vainly endeavoring by rolling and writhing to free himself from them he suddenly changed his tactics. Rearing himself majestically out of the seething eddies like a mighty column of black rock, he fell backwards, tearing himself away from the clinging monsters.

Men and women—how gratefully they write about Hood's Sarsaparilla. Once helpless and discouraged, having lost all faith in medicines, now in good health and able to do his own work...

HOOD'S PILLS are the best family cathartic and liver medicine. Gentle, reliable and sure.

"I'm not pleased with your school report, Bobby," said his father, with a stern look. "I told the teacher you wouldn't be, but she was too stubborn to change it, the old peccant!"

A FAMOUS FEUD ENDED.

A correspondent of the New York Herald writing from Wheeling, W. Va., tells the story of the ending of the Hatfield-McCoy feud.

At last the ending of the notorious Hatfield-McCoy vendetta, the most extraordinary and bloodiest one in the history of such an episode, has recently come to an end, and once more peace broods over the blood-stained borders of West Virginia and Kentucky.

As in the brave days of old, a treaty of peace had now being sealed—at least, such is the report from the mountain battlefield—with a rough and ready marriage covenant between a prince of the house of Hatfields, in the person of Aaron, nephew of the celebrated "Devil Anse," outlaw king of Logan county...

The wedding came to pass merrily, peacefully and joyfully enough not many days ago, and the great feud, which had been raging for years, was at last ended.

For three years we have never been without Chamberlain's Colic, Cholera and Diarrhoea Remedy in the house," says A. H. Patten, with E. C. Atkins & Co., Indianapolis, Ind.

BEHIND THE PURDAH.

An Englishman, bent on mastering the mysteries of their code of worship, attended Hindu debates where the orthodox and the advanced school met in discussion, says an article in the Quiver.

"We all believe," one of them replied, in the sanctity of a cow and the depravity of a woman." As a rule, they act up to this article of belief, or rather, live down to it.

BUFFALOES DISPATCH A TIGER.

In "Fifty Years' Reminiscences of India," by Colonel Pollok, a very remarkable incident is narrated. A girl having been killed by a man-eating tiger, a herd of buffaloes avenged her death as follows:

POSITION.

everybody in that part of the shop by saying, in a loud, shrill voice: "No, I ain't spending your money or any other man's money, and I'll—"

EASING THE PAINS OF DEATH.

Discussing the question whether it is ever justifiable for the physician to hasten death in case of great suffering, the British Medical Journal asserts that, contrary to general belief, remedies that relieve pain usually lengthen life rather than shorten it.

Sunday-School Teacher—Now, boys, speak right up and answer promptly. Who carried off the gates of Gaza? Every boy (promptly and in chorus)—"Taint me. I didn't touch them gates."

IRON VISITING CARDS.

Among the curious uses to which iron has been placed is that of visiting cards. Many great iron manufacturers have had the metal rolled in sheets so thin that it has been successfully employed for that social use.

A JOKE THAT REBOUNDED.

A laughable but very embarrassing case of mistaken identity occurred the other day in a large draper's shop. A gentleman who is a little too fond of joking entered the store for the purpose of meeting his wife at a certain counter.

THE SHAGREENED OJEE wanted to hear no more, but made his way out of the shop, amid the titfers and sly chuckles of those who had witnessed his confusion.

HERE IS A KICK.

To the editor: I have been reading your excellent paper for a long time, and in the main I find it a very satisfactory newspaper, but here is one feature that aggravates me beyond measure and makes me swear (sometimes) that I will stop that sheet.

A GRAVE OF GOLD.

South Dakotans on a Greivous Hunt For Treasure.

W. H. Bouman, editor of the Dead-wood Pioneer; Solomon Star, mayor of Deadwood; John H. Wilson, state attorney; John P. Dockery, W. E. Robertson, chief White Horse, the famous Sioux, are now on their way to the Dead Lands on the strangest treasure hunt of modern times.

The Dead Lands, which they party intends to penetrate from that strange and weird country which the late General Harvey described as "hell with the fire put out." The grave for which the search is to be made is situated a few miles north of Wounded Knee Creek.

For many years it has been tradition in this particular part of the west that in the early sixties a United States paymaster and his escort had been murdered and robbed by a band of wandering Sioux.

A great many of the cases tried before the United States court have their origin in crime and misdemeanors committed on the Indian reservations of South Dakota, and at every term there are in attendance numbers of Indians.

The fight, if such it may be called, took place on the head of Chugwater river, 18 miles west of Fort Laramie, and resulted in the complete extermination of the paymaster's party.

Five years it had been a mystery what became of the money which the official carried. As much of it was in gold, it was believed that part of it had been cached by the Indians, but until the old Indian who told the story detailed the disposition made of the money, the mystery remained unsolved.

Winding Hawk's stamping ground for many years prior to his death was in the country about the present site of Laramie, a rolling prairie whose soil green waves beat up against the abrupt slopes of the Black Hills.

The old man loaded his treasure upon a pony and took it away with him to his teepees. He did not live long enough, however, to reap any enjoyment from his wealth.

the grave of a member of their tribe brings fatal ill-luck prevented any attempt to recover the treasure. Several times members of the party have been prevailed upon to guide prospecting parties to the grave of the chief on the supposition that by permitting the white men to dis-inter the money the latter would themselves incur the responsibility of violating the grave.

NEWFOUNDLAND'S COMMERCE.

The Year Book of Newfoundland, which appeared recently, furnishes some interesting items regarding the industrial and financial conditions of the colony during the past twelve months.

The fiscal year, which formerly terminated on the 31st of December, has now been changed and ends on the 30th of June, consequently for the latter half of 1896 no returns will be available till after the 30th of next June.

The largest trip of seals in 1896 was that of the steamship Neptune, 22,494 seals, the whole weight of the seals taken was 4,610 tons.

DAUGHTER OF A SIOUX CHIEF.

The newest of new women, and yet one of the oldest, if the aborigines may be classed as "old," was yesterday seen on the streets of St. Louis.

In direct contrast to this woman was one of her companions. Taller than she with hair as light as hers was dark, and light-blue eyes, his ready, sunburnt face was partially shaded by the broad-brimmed sombrero, which was tipped to one side on his head.

Between this strangely assorted pair walked a youngster about six years old, and his dress was as stylish as that of his companions.

Balls, pimples and eruptions, scrofula, salt rheum and all other manifestations of impure blood are cured by Hood's Sarsaparil.

HAZARD AT HARVARD.

Hazing, so far as I know it personally, was rather notorious to one's regret on that point. I think I had to regret "Mary Had a Little Lamb" in my nightgown with a pitcher in my hand to a group of appreciative sophomores who were smoking to a man as hard as they could.

Dear Sir: I speak for the Sophomore class when I say that you need have no fear of further roughing if you are willing to follow the example of your classmates.

DEATHS BY ELECTRICITY.

Much controversy has arisen regarding the investigations of Dr. B. N. Hall, president of the Clark university, on things which most produce a state of fear in people.

THE HOLY GRAIL.

The Bruges correspondent of the Pall Mall Gazette says: "The procession of the Holy Grail of Bruges, as it is called, is one of the most interesting and imposing annual ecclesiastical pageants to be seen in this country."

PAVED WITH GOLD.

The streets of Prescott, Ariz. and Johannesburg, in the Transvaal, are paved with gold. To be sure, the proportion of gold is small, about 1/4 in. in the top of earth rock, but it is gold nevertheless.

GRAND FORKS.

Grand Forks, May 30.—Judge Ward Spinks, of Vernon, has been holding court in this city, two cases coming before him. The first was that of Hugh McGuire vs. Mrs. John Folger, involving the title of the former to a half interest in the Black Bear mineral claim in Wellington camp. The decision was given for the plaintiff.

The defendant filed a counter claim of a half interest in the Little Babe mineral claim in the same group as the Black Bear. The Little Babe has one of the best surface showings in this section and the case concerning it aroused general interest here. At a depth of eight feet the ore assays as high as \$93 in all values, and the lead is from 10 to 12 feet in width.

According to an agreement between McGuire and Folger the latter was to have a half interest in this and other claims for recording them and furnishing a grabstake. It was shown during the trial that McGuire, who was forced to be absent from this locality shortly after the discovery of the claim, made provision to have it recorded in his own name on the last day when this could be done, in case Folger failed to record it. Immediately after the time passed Folger had the claim re-located and recorded it in his name, not knowing that McGuire had checked him. The court checked that Folger had no interest in this claim, having failed to carry out the terms of his agreement with McGuire.

The other case coming before Judge Spinks was that of Mrs. Clark vs. Abe Hall. The former has two claims, the Wellington Square and the Snowbird, which adjoin each other. Hall claimed the first named on the ground that both claims were on the same lead and could not, under the law, be held by the same party. The jury in this case, however, held that the allegations were not supported by the testimony, and declared for the defendant.

The suit for running a 50-foot tunnel on the Grey Eagle claim, which lies almost directly above the northern limit of this city, was let today to Messrs. Porter & Morgan, recent arrivals from Durango, Colo.

ROSSLAND.

Rossland, June 1.—There was some excitement today over the fact that three promising properties here had shut down—the Monte Cristo, the Palo Alto and the California. The trouble is said to be a lack of treasury funds or on account of dissensions in the directors.

It was rumored yesterday that the Coloma company had purchased the Monte Cristo. This was heard everywhere. The Spokesman-Review correspondent was informed by Frank Loring, of the Coloma, that there was not a word of truth in it. There might, however, have been some flicker that gave rise to this rumor, for today the Monte Cristo shut down. Mr. Oliver, the manager, gives the same reason for the shut-down of the Monte Cristo as did Mr. Mulholland, of the Deer Park. Mr. Oliver says the operation of the Rossland and Spokane exchanges made the closing down of his mine compulsory. The Palo Alto also closed down this morning, and the California has stopped work.

On the other hand, the Le Roi has made another rich strike at a depth of 570 feet in the shaft. The War Eagle is now in the best kind of ore, and the leading mines generally never had better showings than they have today.

The Rosslander.

W. L. Parrish has sold his quarter interest in the Pine Ridge Gold Mining Company, owning mineral claims at Deer Park, to J. B. McArthur for \$3,000.

Piled in the office window of the Silver Queen Mining Company, 111 Columbia avenue, is about 800 pounds of ore which Edward C. Finch, the general manager, brought down on Saturday last from that company's property on Cariboo creek. Very little rock appears among this ore which contains chalcocite, galenite and pyrrhotite. All taken out of the mine so far has assayed from 40 to 400 ounces in silver, from a trace to 9 ounces in gold, 5 per cent. lead and some copper, making it a high grade proposition from the start. The ore brought down by Mr. Finch was much admired by mining men. C. C. Woodhouse, Jr., is making a test of its concentration qualities.

Rossland Miner.

There were 294 locations recorded last month at Rossland, and the office force has been so busy that Recorder Kirkup has had to add an additional clerk to his staff. To a Miner reported Recorder Kirkup said yesterday: "Never since the first days of the camp was the outlook more promising. There was more development work done last month than any month previous." The office has been enlarged, and the room formerly used as a courtroom is now occupied by the recorder's clerk.

A. E. Smith, of Smith & Whitesome, returned somewhat unexpectedly on Monday evening from his trip to the Salmon river country, he having made some discoveries up there of much value. He reports a big excitement at Waneta, Salmo and other points in that district over some important strikes on Fish creek, a small stream running into the Pond d'Oreille river from the north, about seven miles from Waneta. The claim which appears to be attracting most attention is the Gladstone No. 2, owned by the Gladstone Mining Co., and running \$114 in gold, silver, lead and copper. The country in which the discovery was made is one about which little or nothing was known. It was wholly unprospected, but prospectors, Mr. Smith says, are now flocking in there and many claims are being staked off. Mr. Smith reports a big find on the divide between Beaver Creek and the Pond d'Oreille rivers. The discovery was made by R. H. Hamill, of Rossland, last Thursday, who located the Gold Cup group of four claims, three of them being on the same lead. The ledge was stripped for 50 feet and was opened at several places. The vein was 2 feet wide and consists of quartz carrying gold, silver, lead and copper. Mr. Smith brought a lot of the ore in Rossland and an assay yesterday showed a total value of \$22.50. The quartz is of a beautiful clear variety, and is slightly oxidized. No prettier ore has been found in the Salmon river region. Mr.

A Reliable Ruby Rim.

A Bicycle That Sells for \$54, But Worth More Money.

In order to meet the popular demand for a low-priced wheel we have manufactured the RUBY RIM, but while selling it at a low price, we have been careful to avoid the defects common with the generality of cheap wheels. The RUBY RIM possesses the happy distinction of being

The Biggest Bicycle Value In the Dominion To-day.

The frame is enamelled black and the rims red, the combination making a very pleasing effect. It is made of high grade material, and is finished better than the bulk of the \$100.00 wheels. It is a bicycle built to wear and give honest satisfaction, while it is second only to the peerless Red Bird in easy running qualities. Best of all, however,

It is Fully Guaranteed

by the most liberal of guarantees. This is pretty good evidence that we do not entertain any doubts concerning its quality. The fact of this guarantee coming from a Canadian manufacturer makes it doubly valuable, as repairs are easily got, and should there be a possible defect, no time is lost in making it good. The Ruby Rim is sold at our various agencies throughout the Dominion, and if you are a prospective purchaser, you will find it worth your while to examine it. Of course \$54.00 is the spot cash price.

The Goid Bicycle Co., Ltd., Brantford, Ont.

Branches . . . Toronto, Ont. St. John, N.E. Sydney, Australia. Montreal, Que. Winnipeg, Man. Capetown, S. Africa.

Smith was so well pleased with the property that his firm took an option on a one-third interest for \$10,000. He says the vein is in perfect contact between gray porphyry on one side, and red porphyry on the other, there being a good seam of red gouge on either side.

SLOKAN CITY.

Messrs. J. Davis and William Finley left Thursday to begin work on the Pitburg Fraction on the north fork of Lemou creek.

R. W. Gibson, of Birtle, Manitoba, who recently purchased the Boston, on Lemou creek, has been opening up the claim with gratifying results.

During last week about fifty prospectors were camped in and around the summit forks of Lemou Creek and more were reported coming in daily.

Stephen Tripp and Tom Tobin have a find worth having. About three and a half miles from Slokan City they discovered a 15 foot ledge of quartz, with at least 200 tons of ore in sight. Breaking off a chunk with an axe, it was brought to the city and assayed, and found to contain \$4.80 in gold and \$10 in silver. The boys are not anxious to reveal the location of their claim, but it is evident that they have made a valuable discovery.

Work is to commence this week on the Meteor group on Lemou creek, owned by John A. Finch and C. L. Hoffman. The group consists of the Meteor, Ottawa and Cultus, the latter being an extension of the Howard. Mr. Hoffman states that it has a very rich showing and will be developed as rapidly as men and money can accomplish it. The Meteor seems to be the star claim of this promising group of Lemou properties, and the news is informed by Mr. Hoffmann that samples from this property assayed from 175 to 1900 ounces in silver and about \$20 in gold. There has been 100 feet of the ore chute uncovered, which is 20 inches wide, and the indications now are that this claim will prove to be a genuine bonanza.

Mr. P. H. Lantz, manager of the Dominion Mines Company, which is in reality a syndicate of Eastern Canadian capitalists who are going about the mining in a sensible and practical manner, has completed a trail to the Silver Wreath, about two and a half miles from town, and Friday packed out supplies with which to start six men to work on the property.

Mr. E. Gleason came down from the Chapleau mine this week and reports a big strike in that property. Charles Street, Charles Moore, George Haggerty and Paul Nelson have taken a contract to run a 90 foot tunnel on the lead, and have been working a night and day shift since commencing work. Last week, at a distance of 40 feet from the opening, they struck a five foot ledge of fine looking ore. The rock is heavily copper-stained and in appearance is different from any ore thus far exposed in that section.

KASLO.

It is said that the season's output of the Payne mine will be awarded to some one of the smelters which have bid for it at Anacosta, Mont. The wagon road is expected to be completed during the present week, when shipments will at once begin, as a considerable quantity of ore has accumulated during the compulsory cessation of shipments.

Ralph Gillette has sold an undivided one-quarter interest in the mineral claim Kaslo, situated at the head of the South Fork of Kaslo creek to T. Layton Jones and J. T. Tipping.

The Washington mine will this week begin shipping concentrates from the mill, which has been run steadily since it started up with an abundance of water.

J. T. O'Toole records an agreement dated Rossland, April 20, by which he receives a bill of sale of undivided one-quarter interest in the Congress, both in Jackson basin, as collateral security for an indebtedness of W. E. Ellis. Upon payment at maturity the bill of sale is to become void.

C. L. Lytle and D. Barrett, of the one part, and O. G. Laberee, of the other, record a prospecting agreement, to remain in force for five months. Work is to cover a portion of the East Kootenay district.

J. G. Entor, G. G. Dixon and R. J. Hurd record a prospecting agreement with Charles Kennedy, by which he is to receive a quarter interest in all located claims and a certain monthly salary. These are the second parties to record an agreement of this nature in accordance with the recent amendments of the Mineral Act, passed at the last session of the legislature.

Charles R. Hardy has assigned to John P. Redding an undivided one-half interest in each of the mineral claims, Oxford and Eureka. The first is located at the head waters of the northeast fork of Grey creek, about one mile and a half southwest of the Gordon, and the other is on Blue Grouse mountain at the head waters of Canon and the northeast fork of Hooker creek, adjoining the Leadville mineral claim.

John P. Redding has sold to Henry Eumelen, of Okanagan Mission, an undivided seven-eighths interest in the mineral claim, Kootenay Star, about two miles from Kootenay river and about two miles east of the east side of Kootenay lake. Monsignor Eumelen is the titular bishop who is just now representing the Roman Catholic bishop of New Westminster in a pastoral visit to the Kootenays.

Health and happiness are relative conditions; at any rate, there can be little happiness without health. To give the body its full measure of strength and energy, the blood should be kept pure and glycoric, by the use of Ayer's Sarsaparilla.

Windsor Salt. Ask your grocer for Windsor Salt. For Table and Dairy, Purest and Best.

BURMESE GIRLS.

In every household the daughter has her appointed work. In all but the richest merchants' houses the daughter has to bring the water from the well evening and morning, says Blackwood's Magazine. It is the gossiping place of the village, this well, and as the sun sets there comes running down all the girls of the village. As they fill the jars they will lean over the well and talk, and it is here that are told the latest news, the latest flirtation, the latest marriage, the little scandal of the place. Very few men come. Water carrying is not their duty, and there is a proper time and place for flirtation. So the girls have the well all to themselves.

Almost every girl will weave. In every house there will be a loom, where the girls weave their dresses and those of their parents. And very many girls will have stalls in the bazaar. Other duties are the husking of the rice and the making of cheroots. Of course, in the richer households there will be servants to do all this, but even in them the daughters will frequently weave, either for herself or for her parents. Almost every girl will do something, if it be only to pass the time.

Will positively cure sick headache and prevent its return. Carter's Little Liver Pills. That is not talk, but truth. One pill a dose. See advertisement. Small pill. Small dose. Small price.
