PRIZE WINNERS AT HORSE SHOW

SUCCESS ATTENDS THE THIRD ANNUAL EVENT

Opening Night Made Memorable by Fashionable Attendance and Elite of Equine World

Under the patronage of Lieutenant-Governor Paterson and suite, Lieutenant-Wardmore, D. O. C., and with the largest and most fashionable attendance at any Victoria horse show, the third annual event under the auspices of the B. C. Agricultural Society was opened last night by Hon. W. J. Bowser, minister of agriculture, in a few congratulatory words.

In point of attendance, lighting, and entries in the eleven classes judged last night the show was the best the society has had since the horse show became an established and popular part of the fair in 1908. The boxes last night were filled to their capacity. Handsomely-gowned women graced the proceedings and, the event being under military patronage, the officers of the Garrison and Fifth Regiment were present in uniform.

There was confusion in the boxes, however, some of which were allotted twice over, with a result that patrons were to some extent inconvenienced. The seating accommodation on the west side of the ring, facing the lieutenant-governor's box, was taxed to its full capacity, and above it was noticed an improvement in a raised band stand where Turner's orchestra, in a musical programme most happy in the selection of its numbers, played the whole evening.

No fault can be found with the lighting arrangements this year, as in the past, for the numbers on the contestants' arms could be plainly distinguished at all times, and the patrons were convenience by an announcement board hung from the centre of the ring and visible on all sides, on which the different events were announced and results posted, so that the winners' names could be ascertained without difficulty from the official show catalogue.

Aside from the mix-up in the sales

Dr. Grenside's Statement

Dr. Grenside, of Guelph, Ont., who judged the exhibits at the horse show last night said: "I can certainly congratulate Victoria on its excellent horse show and the quality of the horse-flesh exhibited. The average of quality shown is remarkably high, and the competition very keen indeed. The riding of the ladies is particularly fine. The jumping events were especially good and the riders acquitted themselves well. Draught and delivery exhibits compare favorably with the exhibits at shows in cities many times larger than Victoria."

of the box seats and the fact that a seat was not provided for Grenside, who judged the show, during the evening. In those in the centre of the ring, the arrangements were correct and in keeping with the best managed horse shows. In the box of honor were Lieutenant-Governor Paterson, Lieut.-Colonel Wardmore, Hon. W. J. Bowser, Mayor A. J. Morley, W. E. Scott, deputy minister of agriculture, and the governor's private secretary. Society people of Victoria and Vancouver occupied the adjacent boxes and a smart and cultured audience filled the remainder.

With the exception of the six-horse heavy team there was competition, and keen competition, in every class. The award for the six-horse team, 1,400 pounds or over, went to the Inverholme stock farm, Ladner, exhibiting six magnificent and well-appointed horses, which were cheered and applauded as they made their way round the ring.

BRING ACTION AGAINST PASTOR

Church Divided as Result of Charges of Misappropriation of Money and Jewels

(Times Leased Wire.)
 San Jose, Cal., Sept. 29.—Members of the Emmanuel Baptist church are highly excited and the church is divided against itself as the result of charges that have been made against Rev. John L. Sprouts, pastor of the church. Rev. Mr. Sprouts has been made the defendant in a suit to recover \$1,500, and an amount of jewelry alleged to have been misappropriated by him from the church to his own use. The suit was filed by Mrs. M. J. Sisson, a member of the church. She alleges the money and jewels were left to the church by C. S. Gregg, who died in 1903 after having entrusted the gift to the Rev. Mr. Sprouts. Rev. Mr. Sprouts denies the charges. He established them to split 50% on the part of disinterested members of his congregation. The church workers have taken a keen interest in the affair and some interesting developments are expected.

APPEALS FOR PROTECTION

SITUATION IN CHINA. REPORTED CRITICAL

Missionaries Fear Authorities Will Not Be Able to Hold Chinese in Check

(Times Leased Wire.)
 London, Sept. 29.—British missionary societies in China are flooding the foreign office with appeals that steps be taken at once to protect the British subjects in the central provinces. The conditions about Kingchau and Shanghai are reported as critical, and it is believed that the Chinese authorities cannot hold the people in subjection. Should an uprising become general, the lives of foreigners in Hunan would be sacrificed.

Ready to Strike.
 Manila, Sept. 29.—A strong force of American troops in the Philippines is being held in readiness for word from United States Minister Calhoun at Peking, to proceed to Hunan province, China, to protect American citizens and interests, endangered by a reported uprising of the Chinese.

The Asiatic fleet of the United States has been ordered to be in readiness to sail at once for Hongkong and Shanghai. Army circles are astir here but the officers will not admit that Washington has issued any orders.

Reports received from Hongkong indicate the gravest danger to foreigners in Hunan. The situation there resembles closely that which preceded the Boxer uprising in 1900 which necessitated the interference of the world's powers. The patriotic societies organizing against the Manchu dynasty are reported to be in readiness to strike and to re-establish Mongol supremacy.

Reports of Disturbances.

Washington, D. C., Sept. 29.—Secret dispatches received here to-day confirm the news of disturbances in China, although the war department denies that troops have been ordered to be in readiness to proceed to Chinese territory. The American force in the Philippine islands number 15,000.

WORK DELAYED BY BRICKLAYERS' STRIKE

Saskatchewan's Parliament Buildings Will Not Be Finished by Next Session

(Special to the Times.)
 Winnipeg, Sept. 29.—Premier Scott, of Saskatchewan, was a guest at the Royal Alexandra last night, en route home from Ottawa. He stated the construction of legislative buildings had been slightly delayed by the strike of the Lyall Mitchell Company's bricklayers, but not materially retarded. The buildings will not be finished by the opening of the next session, but will be far enough advanced to house the legislature.

WATERS RECEDING

(Special to the Times.)
 St. Catharines, Sept. 29.—In contrast with the abnormally high water level reached by Lake Ontario a couple of years ago the present time shows an abnormally low level. Those who have watched the lake closely declare that the waters have receded between two and three feet. Some people around think there have been disturbances of the earth under the lake.

WALL BLOWN DOWN

(Special to the Times.)
 Edmonton, Sept. 29.—A terrific wind storm, lasting only four minutes, blew down a portion of the solid brick wall of the new Dominion bank building last evening.

CHARGES AGAINST DOCTOR

San Francisco, Cal., Sept. 29.—Two indictments were returned by the grand jury to-day against Dr. Robert Thompson, alias Dr. Grant, one for alleged murder of Eva Swan, and the other the mutilation of her corpse.

FINAL REPORT
*Victoria, B. C.,

The University Commission begs to recommend that Point Grey in the vicinity of Vancouver be the site for the Provincial University.

THE WORK OF THE CENSOR.

Extract from "explanation" in The Colonist—"Permit me to seal this envelope and return it to you for the present," he (Dr. Young) said in substance. "Now you take charge of it, and when the commission is ready with its final report you send it to me registered by post. Just at the present time local jealousies are excited and local interests run high, and there appears to me to be no advantage likely to accrue through presentation to the public of a report not final and conclusive, as such must only reopen the natural competition for the university site."

"With this suggestion President Murray agreed. He took back with him the proffered report, which was returned as an enclosure with the report-in-chief in the sealed envelope originally containing it."

EXPERT STILL ON THE STAND

HEARING CONTINUED IN RICHARDS VS. VERRINDER

Counsel for Defence Submits Dr. Jordan to Severe Cross-Examination

The hearing of the action Richards vs. Verrinder and the B. C. Dental College was resumed in the Supreme court this morning. Mr. Justice Gregory presiding.

The cross-examination of Dr. Jordan, of Seattle, the expert witness on behalf of the plaintiff, was resumed by E. V. Bodwell, K. C., chief counsel for the defence.

A great deal of time was occupied in an attempt by Mr. Bodwell to show that in view of the opinions of the most eminent authorities on operative dentistry, witness had wrongfully credited Richards with having properly answered questions put to him by the examiners for the dental college.

Dr. Jordan proved a very hostile witness, and Mr. Bodwell found it necessary to handle him somewhat severely. He repeatedly counsel for the defence had to appeal to the court to declare that witness must give a "yes" or "no" answer to a specific question.

On one occasion W. J. Taylor, K. C., counsel for plaintiff, protested against what he termed Mr. Bodwell's "insulting" treatment of witness, and the court asked that the examination be continued without these passages between counsel.

There were many amusing bits between Mr. Bodwell and Dr. Jordan. Counsel spent upwards of half an hour in trying ineffectually to get witness to admit that Dr. Richards had failed to answer correctly the question of how to make a half band in crown work.

MOBS IN NAPLES ATTACK TROOPS

MANY PERSONS SUSTAIN INJURIES

Rioting Follows Attempts of Authorities to Isolate Cholera Patients

(Times Leased Wire.)
 Naples, Sept. 29.—Serious rioting occurred to-day when several hundred carabinieri, assisting the authorities in isolating cholera patients, clashed with the populace.

The rioting was general, almost every attempt to remove a patient being met with stubborn resistance. In the lower parts of the city mobs of several hundred persons formed and attacked the soldiers with knives, clubs and stones. The fighting was spirited. Many were injured.

It was officially announced to-day that twelve deaths from cholera had occurred in Naples since noon yesterday.

MEETING OF PARLIAMENT.

(Special to the Times.)
 Ottawa, Sept. 29.—Owing to Hon. W. S. Fielding's illness it is considered likely that parliament will not be summoned until after the Christmas holidays.

London, Sept. 29.—Many friends in London of Hon. W. S. Fielding, Canadian Minister of Finance, were greatly relieved to learn by a private cablegram received to-day that he was far from being as ill as cables to London newspapers would indicate.

NEW ZEALAND WHEAT CROP.

Melbourne, Sept. 29.—Early spring rains in New Zealand have aided the crops wonderfully, and a splendid wheat crop is expected, in all probability a record.

RECORD ATTENDANCE AT EXHIBITION YESTERDAY

Over Thirteen Thousand People Were on the Grounds on Victoria Day—Everyone Delighted With the Fair

 The attendance at the Fair yesterday constitutes a record in the history of the B. C. Agricultural Association, over 13,000 people passing the paid admission turnstiles.

Favored by the weather, yesterday and with a public holiday, the B. C. Agricultural Association had the satisfaction of seeing the largest attendance rolled up that has ever patronized any preceding fair.

Beginning at mid-day the crowds commenced to pour out to the grounds, every car being packed to the platforms. The resources of the B. C. electric railway were taxed to the utmost, and with the exceptionally heavy traffic there was necessarily some little delay in carrying off the crowds which were waiting along the route.

There were hundreds of children in the crowd. When the schools resumed yesterday afternoon it was with a mere handful of children in every case. By far the greater number had been kept away to go to the fair, and of those who did return a majority had "notes" asking for the bearers to be let out early. So the principals had nothing to do but declare a half holiday each on his own account.

In all something over thirteen thousand people paid for admission to the fair yesterday. All day the crowds swarmed through the buildings and over the grounds. The grand stand was a closely-packed mass of humanity during the track events in the after-

noon, while in the evening the horses shown pavilion was equally well filled. The circus was thronged at every performance, and the side shows did a roaring business.

The stock parade was one of the most popular features of the day, and as the long line of splendid animals passed the stand there was a constant volley of hand clapping in appreciation of them. There is not a doubt that no finer exhibit of stock could be seen anywhere than that entered here.

The broncho-busting and rough-riding display pleased the crowd immensely, and every move of the steeds and their riders was followed with breathless interest. There was a new thrill to every second, and laughter and cheers rang out as the riders were unhorsed or succeeded in taming their fiery mounts. The honors of the day fell to English and Nimmon.

The track events were well contested in the main, and resulted as follows:

Best trotter, mare or gelding—1, Lulu Brinkley, T. J. Smith, Vancouver; 2, Candy Girl, Blanchard Bros., Vancouver; 3, Belle Winklin, Blanchard Bros., Vancouver.

Tandems, mare or geldings—1, White Stockings and Brigham Lady, H. H. Fleming, Vancouver; 2, Sweet Briar and Culveran Queen, W. S. Holland, Vancouver; 3, Hackwood, Gertrude and Red Wing, E. R. Ricketts, Vancouver.

Most accomplished boy rider—1, Master Henry De Roadie, Olds, Alta.; 2, Master S. McCleive, Victoria; 3, Clifford De Macklin, Victoria.

High jumpers—1, Brigham Pearl, S. L. Low, Vancouver; 2, Culveran Queen, H. S. Holland, Vancouver; 3, Sweet Briar, H. S. Holland.

Best lady rider—1, Mrs. W. H. B. Medd; 2, Miss Pooley; 3, Miss Davey.

CHIEF OF SEATTLE POLICE REINSTATED

Mayor Gill Sends Message Withdrawing Notice of Dismissal

(Times Leased Wire.)
 Seattle, Wash., Sept. 29.—Mayor Hiram Gill arrived at his desk early to-day and immediately began an investigation of the graft charges made by Acting Mayor Wardall, which ended in the discharge of Chief of Police Wappenstein by the acting mayor yesterday afternoon, two hours before Mayor Gill returned from a fortnight's cruise. Mayor Gill was in conference with friends till midnight. Wardall has filed his charges against Wappenstein with the civil service commission, charging gross neglect of duty.

Mayor Gill to-day sent a message to the civil service commission withdrawing notice of dismissal of Police Chief Wappenstein, that was made yesterday by Acting Mayor Wardall. Mayor Gill insisted that if Wappenstein is discharged he becomes a private citizen and immune from the investigation of the city council.

Chief of Police Wappenstein arrived home just before noon to-day. He asserts that he came right through from Portland where he spent the day yesterday. He is in charge at police headquarters and issued a statement to the newspapers this afternoon defending his administration and asserting that there is no graft in his department.

FACE PRIVATIONS.

St. John's, Nfld., Sept. 29.—Owing to the almost complete failure of the shore fisheries for the season soon to close it is feared that the privations of Labrador fishermen will be particularly severe during the coming winter. The season's catch is believed to be the smallest in the annals of the fisheries.

NO TRACE FOUND OF MISSING HUNTERS

Additional Parties Organized to Search for Two Kenora Men

(Special to the Times.)
 Kenora, Ont., Sept. 29.—No trace has been found of the missing C. P. R. foreman, Stanley McGinnon, and Charles Jones, who are lost in the vicinity of Black River. Three additional search parties have been organized by Mayor Beaudreau, making with Indians, 75 searchers. Hope is rekindled by the chief of the White Dog Indians reporting seeing tracks of two white men near Dry Berry lake, and bearing guns several days since, but he did not then know anyone missing. The fact that their canoe has not been found is also encouraging, as unless an accident occurred, the weather was fine, the men armed and game plentiful.

WITHOUT MONEY FOR FARE.

(Special to the Times.)
 London, Sept. 29.—Canadian Northern agents at Bristol report that thousands of navies of the right quality are available for railway construction if the men could raise the fare to Winnipeg.

WOLVES KILL SHEEP.

(Special to the Times.)
 Guysboro, N. S., Sept. 29.—News received from Geant's Lake and Argyle farming settlements, twenty miles from here, states that a large pack of wolves has made its appearance. One farmer has lost thirty-five sheep and another twenty-six.

Colonel Robertson, 48th Highlanders, Says Regiment Will Not Be Excused From Drill

(Special to the Times.)
 Toronto, Sept. 29.—Col. Robertson of the 48th Regiment, Highlanders, denies a statement credited to F. J. Roche, president of the T. P. O'Connor reception committee, that members of the regiment were to be excused from tonight's weekly drill in order that they might attend the O'Connor meeting. He states that a Canadian regiment cannot take part in a political meeting.

MINISTER SURPRISED.

(Special to the Times.)
 London, Sept. 29.—Hon. A. B. Aylesworth, Canadian Minister of Justice, in an interview here expressed great surprise at statements published in Canadian newspapers to the effect that he would be knighted in recognition of his work in preparing the British case for the recent Hague arbitration. He said he had not heard a word about it on this side of the water.

C. P. R. WINTER SERVICE.

Tri-Angular Ferry Service to Be Maintained—Charmer to Be Withdrawn in November.

The announcement that the tri-angular service will be discontinued on the Seattle-Victoria-Vancouver run next month, emanating from Vancouver yesterday, proves incorrect. As previously stated in the Times the Princesses will maintain their present schedule during the winter. The Charmer will be permanently withdrawn from the Victoria and Vancouver service early in November, being replaced by the Princess Royal until the arrival of the Princess Adelaide, which leaves Scotland for Victoria next week.

ROOSEVELT'S CONVENTION.

Albany, N. Y., Sept. 30.—William Barnes, Jr., in a newspaper editorial to-day urged the Republicans of New York to support the Republican state ticket nominated at the Saratoga convention.

"It was Col. Roosevelt's convention," he said. "Roosevelt made himself temporary chairman. Roosevelt dictated the platform and Roosevelt named the candidates."

TWO SENTENCED TO DEATH.

(Special to the Times.) Barrie, Sept. 30.—To be hanged on December 14 was the sentence pronounced by Mr. Justice Britton this morning on both Mary Dolan and Thomas McNulty, convicted of murdering their illegitimate child and throwing the body into the water. It is a sentence without precedent in the annals of Canadian criminal justice, inasmuch as the male prisoner never saw, much less laid hands on the babe he is condemned to die for murdering.

COOK'S STENOGRAPHER.

Lady Says Explorer Was Possessed of Hallucination But Was Not Deceiver.

The lady who opened a thousand letters a day for Dr. Cook, the Polar claimant, during the hey-day of his fame, is in Winnipeg.

She is Miss Rose Webber, of New York City, and has been spending four months touring Canada and the United States, being now on her way back from British Columbia and California. Miss Webber attracted some attention at the time Dr. Cook disappeared. The finder of poles absent-mindedly evaporated without paying her and she brought an action and was successful in securing \$50.

The lady visitor declared that among those who knew Dr. Cook best, the general opinion was that he possessed an hallucination and was not a deceiver.

She said Walter Lonsdale, his secretary, wrote the accounts of his exploits from the doctor's rough notes. The last time Miss Webber saw Dr. Cook was November 11, Thanksgiving day. She has heard from Mr. Lonsdale since, he is at present at Copenhagen. Miss Webber is certain that Mrs. Cook believed that her husband had really been to the pole.

DR. S. F. TOLMIE IS PRESIDENT

HONORED BY FAIR ASSOCIATION

Hereafter Mayor Will Not Hold Office—Enlarged Executive—Officers Elected

Hereafter the mayor of Victoria will not be represented on the executive committee of the B. C. Agricultural Association as president, but a member of that organization will be elected at the annual meeting to serve in that capacity. This important move was made this morning at the annual meeting held in the Woman's building.

H. Dallas Helmcken, K. C., introduced a motion which read as follows: "That article 4, section 1, of the constitution be amended by striking out the words, 'who shall be mayor of Victoria,' where they occur in the second line thereof.

In support of his motion, Mr. Helmcken stated that he had by personal feelings against any mayor but he recognized, as an active member of the association, that the president needed to devote a great deal of time to do justice to his position. As the city is rapidly increasing in population the mayor's time is now more valuable and he had not sufficient time to administer the affairs of the association in an efficient manner.

Ex-Mayor Hall heartily endorsed the proposal. He also referred to the fact that the city was growing and that all the mayor's time is taken up in dealing with matters concerning Victoria.

Dr. Hall stated that the mayor is not elected to the position of president but is there by virtue of his being chief magistrate. The mayor of the city was forced into the president's chair and although he might not take the slightest interest in the work of the association he still retained that position. A man was needed who had plenty of time at his disposal.

Mr. Grant, mayor of Oak, raised the question that if the mayor was not president would the city assist the association.

To this Mayor Morley replied that the council would be obliged to meet the liabilities of the organization, and would still be represented on the executive.

After considerable discussion, in which nearly every member took part, it was decided that Mr. Helmcken, Dr. Hall and J. Grant regard the motion so as to avoid any technical points which might prove misleading. After a few minutes' deliberation they presented the following motion to the president, which was unanimously carried:

"That article 4, section 1, be amended as follows, by striking out the executive also consist of the president, a secretary, and two others who shall be elected at the annual meeting of the association and three appointed by the city council of Victoria, and substituting the words, 'The officers of the association shall consist of a president, who shall be ex-officio, a secretary and one other elected at the annual meeting of the association and three appointed by the city council of Victoria, who shall constitute the executive.'"

Another important matter dealt with was introduced by A. E. Craddock, secretary of agriculture, that the executive be enlarged. He felt convinced that something ought to be done in order to place the association on a firm working basis.

Mr. Craddock then presented the following resolution: "That necessary alterations be made in the constitution of the B. C. Agricultural Association affecting the officers under article 4, section 1, and that the following comprise a committee for the revising of the constitution: the president, secretary, three members of the city council and four members of the association, to report at the next general meeting."

This was adopted and the members to represent the Agricultural Association were elected this morning as follows: A. E. Craddock, W. H. Price, J. Grant, and W. Lorimer.

The election officers for the ensuing year resulted in the following being appointed: President, Dr. Simon Fraser Tolmie; first vice-president, H. D. Helmcken, K. C.; second vice-president, A. D. Paterson, Ladners; third vice-president, Mrs. Richards; fourth vice-president, F. G. Quick, Royal Oak; fifth vice-president, W. E. Scott; executive committee, Dr. Tolmie, H. D. Helmcken and three members of the council: secretary, Geo. Sangster; advisory board, Joseph Thompson, Sardis; W. H. Baylis, Victoria; J. H. Wilkinson, Chilliwack; J. T. Maynard, Cheam; James Manton, Victoria; Alex. Davie, Ladner; H. Bousail, Chemainus; H. D. Evans, Soanemo; W. Nachtrieb, Victoria; C. Birch, Sidney; Mrs. A. E. Richards, Victoria; Mrs. Sprague, Victoria; G. H. Hagen, Duncan; Dr. A. T. W. Williams Head; David Spencer, Jr., Victoria; Prof. Thos. Sharpe, Agassiz; John Richardson, Port Guelph; S. R. O'Neal, Vancouver; W. H. Price, Victoria; W. S. Holland, Vancouver; Captain R. H. Watson, 108 Mile House; D. B. Ker, Mrs. Willis, Henry, J. A. Robb, Mrs. Hinsel, Mrs. Croft, Thos. Horn, S. P. Mills, K. C.; R. Drake, J. Oliphant, F. Bishop, E. C. Wallace, Tait Dickinson, J. H. Halliday, W. Armstrong, North Saanich, and J. S. Sheppard, Comox.

In proposing the name of Dr. Tolmie for the position of president, Mr. Helmcken stated that he was the life and soul of the association, and if it had not been for his energetic efforts these might have been no show at all. He had worked hard and faithfully on the executive for many years and it was the least the association could do to honor him with this position.

The resignation of Mrs. J. C. Sproule from the advisory board was received with general regret. A vote of thanks was tendered her for the capable services rendered the association during her stay in the city.

A vote of thanks was passed to the press for much-appreciated support in connection with the fair. The Ladies' Auxiliary was also thanked for their services. Votes of thanks were tendered to all the officials of the B. C. Agricultural Association.

MILITARY FUNERAL FOR LIEUT. R. M. GZAWSKI

Remains of Toronto Lieutenant at Aldershot—Thousands Attend Ceremony

(Special to the Times.) Aldershot, Sept. 30.—Several thousand spectators witnessed to-day the funeral of Roy M. Gzawski, lieutenant of the Queen's Own Rifles, Toronto, who died of typhoid pneumonia in the military hospital here on Monday last. Interment took place in the military cemetery, and the ceremony was of a most impressive character. The burial, to which the Queen's Own Rifles were affiliated during their stay, furnished the firing party, and the band and drums of the battalion followed. Among the chief mourners was Lord Strathcona, and the funeral was attended by about 100 officers with detachments from nearly all the corps in camp.

CUSTOMS REVENUE STILL GROWING

(Special to the Times.) Ottawa, Sept. 30.—The customs revenue for September shows an increase of \$1,890,481 over last September. For the first half of the fiscal year the customs revenue total \$25,500,200, an increase of \$6,750,000 over last year.

PROBABLY DROWNED.

Montreal, Sept. 30.—Ralph Seward, artist on the staff of the Montreal Star, has been missing since Tuesday, and there is every reason to believe that he has met his death on Lake St. Louis. On Tuesday residents of Dorval saw a man rowing in a boat on Lake St. Louis. An hour later the boat was picked up, but no traces of its occupant had been found. The missing man lived at Westmount with his mother and one brother.

Woodstock, Ont., Sept. 30.—A McNeel, ex-secretary-treasurer of the Emoro school, was to-day committed for trial at Woodstock on a charge of misappropriation of funds to the extent of \$445.

ENGLAND'S AGED PEERS.

Sixteen born in George IV's reign.—European Sovereigns Youthful.

Lord Strathcona celebrated his ninetieth birthday recently by working all day at his desk in his office as high commissioner for Canada, is not the grand old man of the peerage despite his robust, old age. The Earl of Wemyss—he pronounces his name as if spelled Weems—holds another record. He has been a member of the House of Commons and of the House of Lords uninterruptedly for more than sixty-nine years.

The peerage, like the poorhouse, seems conducive to old age. Lord Gwydder died last year at the fine old age of 98. There are fourteen peers besides Lord Strathcona and Lord Wemyss who were alive when George IV was on the throne, and George IV died in 1820. They are Lord Nelson, Lord Cross, Lord Halsbury, Lord Abernethy, Lord Lister, Lord Ashcombe, Lord James of Hereford, Lord Lindley, Lord Mount Stephen, Lord Peel, Lord Stanmore and Lord Feversham.

Contrasted with the great age of these members of the House of Lords is the comparative youth of nearly all the sovereigns of Europe. George V is a comparatively young man. His cousins, the King of Norway and the Czar of Russia, are also young, while another cousin, the German Kaiser, is still in the prime of life, having barely turned 50.

The King of Spain and the King of Portugal are mere boys, while the Queen of Holland is only 29. The Emperor Francis Joseph, of Austria, is the oldest sovereign in Europe and celebrated his eightieth birthday on Aug. 18. He is in sound health and bids fair to live many more years.

There are 23 pounds of blood in the body of an average grown-up person, and at each pulsation the heart moves 10 pounds.

The new battleship Rio de Janeiro, being built in England for Brazil, will be by far the largest in the world. She will displace 22,000 tons, and her cost will be approximately \$2,200,000.

EXPERT HEARD IN DENTAL CASE SCORED BY COUNSEL FOR THE DEFENCE

Continuation Yesterday of Case of Richards vs. Verrinder and Dental College

The case of Richards vs. Verrinder and the Dental College of British Columbia was continued in the Supreme court yesterday afternoon, before Mr. Justice Gregory and a special jury. The features of the afternoon's proceedings were the declaration of the expert from Seattle for the plaintiff testifying that in his opinion Dr. Richards ought to have been passed by the board of examiners, and the subsequent severe cross-examination of the witness by E. W. Bodwell, K. C., for the defence.

On the court reassembling after luncheon, the examination of Dr. Jordan was resumed by W. J. Taylor, K. C., counsel for the plaintiff.

Much of witness' evidence had to do with the technical methods employed in dental practice. On a number of the questions as answered by Dr. Richards Dr. Jordan found them faulty and incomplete, though the answers of the plaintiff were in the main satisfactory.

One question in the examination papers which had been set before Dr. Richards was: "Wherein is a patient in danger in any other than a recumbent position when anaesthetics are being administered?"

Mr. Taylor—What does that mean?
Dr. Jordan—I don't know.
Mr. Bodwell protested against this witticism on the questions set before Dr. Richards. There was an examiner in the room who was prepared to explain the questions.

Dr. Jordan to Mr. Taylor said he had marked Richards 5 for the answer of the question. If the question had been clearer he would have given him 20.

Dr. Verrinder, the examiner and defendant in the present action, had, it appears from the record of his evidence on discovery, said that Dr. Richards' answer was incomplete as he had failed to mention the "danger" as "anaemia of the brain."

Quoting further from his evidence given on discovery, Mr. Taylor showed that Dr. Verrinder had said he had been surprised at the general excellence of Dr. Richards' papers on subjects set by himself.

Dr. Verrinder.

In regard to the question: "What was the pressure per square inch when vulcanizing at 300 pounds steam pressure?" Dr. Jordan testified that in his opinion both plaintiff's and defendant's answers had been wrong. Dr. Richards had answered 50 pounds to the square inch and Dr. Verrinder had said it was 88 pounds. As a matter of fact all the text books which the witness had consulted showed the pressure to be 75 pounds.

At this point the court asked Mr. Taylor what the status of the case would be were the court to find on examination of the papers in discovery that there was no evidence of conspiracy.

Mr. Taylor said the plaintiff would seek a remedy for injury through wrongfully being deprived of opportunity to practice in this province.

Mr. Bodwell said he would contest that point.

Mr. Taylor asked Dr. Jordan if, after having examined Dr. Richards' papers, he believed plaintiff should have been admitted to the college.

Mr. Bodwell objected and said Richards was not admitted because the examiners had not passed him. The only action which Richards had was the one set out in the statement of claim—that is, for conspiracy and fraud.

The court was of the opinion that Dr. Jordan, unless he knew the standard, was hardly in a position to answer the question.

Mr. Bodwell, quoting from the act, read the clause providing that the college had full powers to reject candidates.

The court held it might be open to prove conspiracy by circumstantial evidence. He allowed the question on that ground.

Mr. Bodwell asked that his objection be noted.

Dr. Jordan then answered the question in the affirmative. Dr. Richards had, he said, passed a most creditable examination.

The court ruled against Mr. Taylor's question—whether witness thought Richards well-acquainted with his work.

Mr. Taylor—Was there anything in the papers to show that Richards was incompetent?

The court would not allow the ques-

tion nor several others of the same nature.

Mr. Taylor desired to have his objection to this ruling noted.

Mr. Bodwell then undertook the cross-examination of Dr. Jordan.

Witness said his fee were to be \$50, and \$100 each day he remained here. He had passed dentistry in Baltimore. He was a student on that occasion. The State of Washington's board of dental examiners made it a rule not to admit dentists to practice without examination. His principal business was to prepare pupils for examination in any state in the Union. He had eighteen now on the list preparing for Washington. His business was not to get men to pass the examination. He wanted to pass only qualified men. He had frequently rejected pupils whom he thought would not make good dentists.

Mr. Bodwell—You coach a man so he may pass that examination?

Witness—No; I instruct the pupil so that he may be declared competent as a result of his ability.

He denied that the fact that he was friendly with the president of the board of examiners in Washington had helped him in his business. He also denied that the president had helped him to get Dr. Richards admitted in Washington. He had asked the president of the Washington board to take up the matter of Dr. Richards' admission in British Columbia with the board in Victoria. This was purely out of kindness to Richards.

He only instructed pupils in theory. He was not interested in his practical work. He had nothing to do with that. He would not send any man for examination unless he had diplomas from a reputable college. Witness denied that he used his influence on occasion to pass men past the board provided they paid for it.

Mr. Bodwell contended that it was clear the witness had no concern whatever as to what ability the man possessed, as long as he got by the board.

Witness agreed that if examinations of candidates were to be of practical value to the public they must be of such a character as to ensure that dentists would be proficient.

A man who did not understand how to treat a patient who fell down in a faint ought not to be allowed to practice dentistry, the witness answered.

Mr. Bodwell contended that while witness was of this opinion, his business was, nevertheless, to get his pupils over such questions.

Mr. Bodwell scored Dr. Jordan severely for his having repeatedly questioned the ability of the examiners in Victoria.

Witness denied that he had been attempting to discredit the ability of the examiners, and did not wish to be put down on the record.

Mr. Bodwell—Why, of course you don't want to go on the record that way, but you have been saying it all day.

Witness admitted that in making an examination of Dr. Richards' papers he had not studied "Black," an English authority on operative dentistry.

Dr. Jordan was still on the stand when court adjourned until this morning.

PROBING ELECTION OF U. S. SENATOR

Witness Says He Confessed When Told Perjury Indictment Would Be Quashed

Chicago, Sept. 30.—State Senator Holtslaw testified before the Lorimer investigating committee yesterday that his confession that he received \$2,500 to vote for Lorimer for United States senator, was influenced by the fact that he was told the Springfield perjury indictment pending against him would be quashed if he confessed.

State Representative Beckmeyer testified that Lee O'Neil Browne had handed him \$1,000 in a St. Louis hotel, remarking, "Here is your Lorimer money." He testified that Browne told him there would be more later and told of the St. Louis "jack pot" meeting.

Upon cross-examination Beckmeyer said he had twice told the Chicago grand jury that he had not received money from Lorimer or anyone else. Later, he declared, a detective, "sent by State's Attorney Layman" got him drunk and he told the grand jury "all it wanted to know."

Beckmeyer said no money or other inducement had been offered him for his vote for Lorimer, either before or after Lorimer's election. He told the committee he would have voted for Lorimer even if there had been nothing in it for him and said that the only way he was able to connect Lorimer with the \$1,000 that Browne gave him was Browne's own statement, "here's your Lorimer money."

CONFESES MURDER

Russian Youth Murders Companion and Robs Body of Victim.

Melbourne, Sept. 30.—The murder of a Russian youth of large possessions in the back blocks, while on a hunting trip with a companion, has had a dramatic outcome.

The assassin turns out to be the friend of the deceased who was arrested at Melbourne and found to be in the possession of money supposed to belong to the murdered man. He has now confessed his crime, which he says was suggested by the reading of sensational literature of the "Deadwood Dick" variety. His name is Hinkovitch, and with the man now dead, Wisnand, he left Russia in March last in search of adventures. On the hunting trip they quarrelled, and he declares he killed his companion with an axe while he slept. He robbed the body of the money and made his escape.

HOOKWORM AMONG HINDU IMMIGRANTS

Number of Men Held at San Francisco Quarantine Station Victims of Malady

San Francisco, Cal., Sept. 30.—In the discovery of the prevalence of hookworm among the immigrants from the province of Punjab by the medical corps at Angel island, the opponents of oriental immigration believe they have found a way to stop the influx of Hindus. Of 17 immigrants now held in the hospital at the island, Dr. M. W. Glover claims that all but five are victims of the malady.

The result of the discovery may effect not only Hindu but all oriental immigration. Chinese immigrants, the only ones examined, according to the immigration physicians, are afflicted with the same disease.

The rate of Hindu immigration is now said to have reached 5,000 a year.

REWARD OFFERED FOR ARREST OF MURDERERS

Detectives Are Striving to Secure Members of the Black Hand

Revelstoke, Sept. 30.—The provincial authorities have posted bills offering a reward of \$1,000 for the capture of the murderers of Mr. Julian.

There are five or six trained men under the direction of the chief provincial constable working night and day to secure the criminals. It is no secret that the police believe that the Black Hands who may reside here assisted the strange men who came here to do the deed.

The murderers were evidently strangers in the district, sent from elsewhere for this purpose and as Mr. Julian was dead for twenty-four hours before his body was found, the perpetrators have secured a long start.

Two strange men carrying packs were noticed on the train by the dead man's daughter the day her father was killed, but she saw only their backs and is unable to furnish any accurate description of them.

IRRIGATION CONGRESS

Pueblo, Colo., Sept. 30.—The federal control of interstate waters was overwhelmingly endorsed yesterday by the committee on resolutions of the National Irrigation Congress in session here. A minority of the committee will present a report favoring state control, but it is probable that federal control will be endorsed by a great majority of the members.

The morning session was opened by John Barrett, director of the bureau of American republics in an address on "Irrigation and Conservation in Our Sister Republics." Representatives of Australia, Germany and Russia followed Barrett.

OBSERVANCE OF LORD'S DAY.

London, Sept. 30.—At the church congress at Cambridge, Canon E. A. Welch, in the course of a discussion on Christian unity, speaking from the Canadian viewpoint, testified to the amount of co-operation for moral and social reform among religious denominations in Canada. In consequence the general morality, at least in some respects, was better than in England. He referred to the snobbishness which sometimes characterized the relations between the church and nonconformity here. It rarely happened in the case of Canadian Methodists or Baptists that a substantial increase in bank balances gave birth to a conviction of the truly apostolic character of the

THAT SCHOOL HOLIDAY.
Yesterday afternoon shortly after one o'clock the pupils of the schools were seen hurrying home, having been at that late hour granted a half-holiday. By the time they arrived home and had been prepared for an afternoon's outing they were too late to see most of the best features at the fair. Their day was spoiled, and yet they did no work at school. Some one is worthy of very severe censure for this state of affairs. If a half-holiday had been granted, the pupils would have gone home to lunch and could have been ready to go with their parents. Somebody who was too dense in the upper works to understand children should be informed that the parents of Victoria will not stand for action of that kind. The school board claims it had not the power to grant a holiday, and that the department of education would not consent to it. This may be correct, but we see nothing in the School Act which should prevent the trustees giving a half holiday if they see fit to do so. The government grant is given on the basis of the number of teachers employed, and not on the school attendance, so that nothing would be lost to the city unless the government deducted a portion of the teacher's allowance, which it would hardly be small enough to do on such an occasion as the one at issue. The outcome of yesterday's muddle has caused irritation to hundreds of parents, and the children have sense enough to know that there is mismanagement somewhere. If the fault is with the Department of Education, the city members would do well to see that an inquiry is instituted in order to prevent a repetition.

ASSISTING SETTLERS.
There is a movement on foot in Winnipeg to raise a large fund for the purpose of paying the fares from the Old Country of those families whose heads are employed in that city. Already ten thousand dollars has been promised and further large subscriptions are expected. An investigation has shown that there are a large number of men employed in Winnipeg who send as much as possible of their wages to the Old Country for the support of their families, and they find it very slow work saving sufficient money to send for them. The merchants and others of the prairie capital take the position that it would be better for the city to have the wages of the men spent right at home, besides being more in line with the progress of civilization that the parents should be able to spend the winter together instead of having to wait a year or two while the necessary money is being saved. The movement is a most interesting one. It is something wholly new, so far as we know, and is well worthy of emulation. It is possible that there may be a number of similar cases in Victoria if a man

has a wife and five or six children to support in the Old Country, and also has to board himself here, there is little margin for saving a sum sufficient to bring the family out. If the man has been proved to be a good citizen, it seems to be a most suitable way to assist immigration to send for the rest of the family. The transportation is advanced in the form of a loan, which is to be repaid from the wages of those who receive the aid. In this way the fund is made useful for future operations, and the result should prove most beneficial.

A DEGENERATE.

We are told on the very highest authority that no man can serve two masters. This epigrammatic expression of a fundamental truth may be applied to institutions as well as to individuals. A newspaper, for example, cannot serve the interests of two cities. That is, not as a general rule, and particularly when under a given set of conditions, such as have been created by the McBride government in its treatment of the university question, there arises a conflict of interests. The authority we have quoted goes on to say that the individual whose heart is divided in its allegiance must love one master and despise the other. To apply the proposition to a concrete case, the Colonist in defending the shuffling and manipulating in connection with the university question demonstrates the fact that it is a Judas, ready at any time to betray for thirty pieces of silver or its modern equivalent the interests of the city from which it derives its sustenance. It prefers picking up the crumbs that fall from the table in the buildings over the bay to standing up manfully for justice to its constituents. Because the Times has called public attention to some of the features of the reports of the University Commissioners, to statements which on their face are contradictory of each other, and which furnish ample reason for a suspicion that the selected educationists were not permitted to report in accordance with their real judgment, it has been described by its subservient contemporary as "silly when it is not sour." If the Times were as destitute of principle as the Colonist, and were capable of being twinned with both mouths sucking sustenance from a common bottle of pap, possibly it too would be a consenting party to the despoilment of Victoria. If our contemporary could but realize the state of public opinion in the city, upon which it does not altogether depend for its existence, it would wisely refrain in the future from lecturing the people on "loyalty." It has no comprehension of the meaning of the term, either in its personal, local, national or Imperial application. And, if it cares to pursue the subject farther, we have the proofs in our possession.

The rain this week would have been very welcome were it not for George Sangster and his ilk.
The doctors are busy enough seeking a remedy for a new disease, but what most people are most interested in how to prevent an old one. Indigestion, for instance.
An eastern newspaper advises its readers to visit the autumn woods. It may be all right in the East, but there is too much risk of being shot in the British Columbia woods to make the visit enjoyable.
The problem of the proper government of cities is almost as old as the hills, yet it is as difficult of solution as ever. The difficulty usually is that the man who makes a study of the question is one who cannot persuade the people to elect him to a position where his ideas would be useful.
An alleged Ottawa dispatch to the morning paper says that "in spite of the protests of Hon. Wm. Templeman, Ralph Smith of Nanaimo and the Liberal executive of Vancouver," the Trade and Commerce Department has resolved to sift the Chinese smuggling cases to the bottom. As there is absolutely no truth in this report, it is probably a case of another Ottawa forged telegram.

Some of the Aldermen of the Hamilton City Council claim that the Board of Control there acts with such a high hand that a council is useless. There is accordingly a movement on foot to abolish the council and enlarge the board of control. Hamilton has apparently proved that a change in method does not improve matters. What is needed is a group of first class aldermen with a real business man for mayor.
Hon. Richard McBride stated this morning that he was not sure whether he would be in a position to make an announcement to-day in regard to the Island Railway. He did not expect he would be able to do so. He had been working on the matter in conjunction with the railway officials for the past two weeks, but was not yet quite ready. Two or three weeks ago Mr. McBride stated that he would make an announcement by the end of the month, if not earlier. His statement this morning was in reply to a query as to whether he was ready to make the promised announcement.

Here is an idea given currency in the Toronto Globe which should command itself with special force to the

people of British Columbia, and which may be attainable when we elect a government with some faint conception of its duties and responsibilities: The people of Ontario should vigorously endorse the resolution by Mr. Kelly Evans and Judge Fraalick that all lands unsuited for agriculture and all inland waters suitable for game fish should be the property of the public. Private preserves have been encouraged and promoted to such an extent that game and fish protection is being discredited in the public mind. Let the public have an interest, and feel that their rights are safe, and there will be a general desire to respect and enforce the law.

Yesterday the steamer Teucez of the Blue Funnel line broke all previous records for a freighter in crossing the Pacific Ocean. She made the run from Yokohama to this port in less than thirteen days. It is expected that the newer steamers of the same line will make the voyage in less time even than that. These steamers carry scarcely any passengers, but they bring large quantities of freight to this port. Every month from one to two thousand tons of food stuffs and other articles of commerce arrive here, and large quantities are also discharged at Vancouver. The line has done much for the building up of Victoria, and will doubtless do more. It is to be congratulated on giving such a good service and on keeping up with the times in building new and improved craft, everyone of which is better than its predecessor.

PRESS OPINIONS

Good for Victoria.
Taking a glass full of cracked sunshine, pour over it a full measure of optimism. Add two jiggers of cheerfulness, a dash of knocker's bitters, and shake until the bubbles of good spirits rise and gather around the rim of the universe. Hit it with a long shot from the siphon of enthusiasm and drink while fizzing.
Having stowed three of these potions inside your belt go down to the river and watch the water raise and think of the freight just coming into the country. Walk along the streets of the city and notice where new buildings are starting, some are building and others are finished.
Then pick out the most chronic grouch you know. Grasp him firmly by the lapel of the coat, stick your finger in his eye and emit a large and derisive "Ha ha." If he protests turn him around and gently but firmly plant a swift kick just about the pistol pocket.—Itditaro Pioneer.

Smugglers.
There seems to be a sort of class dishonesty among wealthy society women in the matter of smuggling. The record shows that the fair culprits hail from all sections of the country. They come from Montana as well as from New York, from Minneapolis, and Chicago, and Omaha as well as from Boston, and Baltimore and Philadelphia. Despite their wealth, they have, strongly developed, all the characteristics of the bargain-hunter and evading the customs officers offers an opportunity which they apparently cannot resist.—Portland Telegram.

Just the Difference.
Nothing brings into such striking contrast the attitude of the Liberal and Conservative parties, with regard to the Mother Country, as recent statements made by Sir James Whitney and Sir Wilfrid Laurier. The former clearly expresses the view that Canada's loyalty depends upon the attitude of the Mother Country with regard to Imperial preference, while Sir Wilfrid Laurier declares to the world that the loyalty of Canada to the British Empire is not dependent upon any tariff agreement.—St. John-Telegraph.

Wanted—The Birds.
Residents of Rockliffe have complained that boys and young men indulge their hunting instincts very recklessly in the vicinity of the residences. It is stated also that the youngsters make no distinction in the objects of their aim. Life, form and feathers is all that is necessary to arouse the barbaric predatory impulses that lie semi-dormant in the young "hunters." Consequently the wild canaries, orioles, robins, bluebirds and others, beautiful in song or plumage or both, fall into the same class as the ubiquitous sparrow. There are many reasons why this should not be allowed. The practice is dangerous and likely to cause injury or worse to the residents. Besides this the birds are wanted and should be given every encouragement to take their place in the Beautiful Ottawa scheme without molestation. Then again such tiny and helpless and in many cases useful creatures are not suitable objects of many sport. The practice should not only be suppressed by authoritative action but should be discouraged by all classes of the community, particularly by parents and guardians.—Ottawa Citizen.

Tariff Question.
The appeals made to Sir Wilfrid Laurier by the farmers of the west for marked reductions in the Canadian tariff have resulted in a very general discussion of the whole question. The Canadian Manufacturers' Association has since visited the west and presented its case for the consideration of the free traders of that section. One feature of the discussion is that which relates to the conduct of the Canadian manufacturers. They are told by so strong a protectionist journal as the Toronto World that they must manufacture goods cheaper, and that unless they can produce home-made articles equal in quality to imported goods, they cannot expect anything but a demand for free trade. If the Canadian people have to pay more for an inferior article manufactured at home they will naturally insist that the foreign article be given freer admission to the country. They might be disposed to pay a little more for an article of equal quality manufactured at home, in order to uphold the industries of their own country, but they have a

right to insist that they get at least as good an article as is sold at a lower price on the other side of the border.—St. John Telegraph.

ATTEMPT TO BLOW UP HOUSE

MAN WITH BOMB IN POSSESSION ARRESTED

Found on Porch of Chicago Residence—Overpowered After Struggle
(Times-Leased Wire.)
Chicago, Sept. 30.—What is believed to have been an attempt to dynamite the home of Mrs. Potter Palmer was made public today. Fred Wahlenmeyer, 24, is under arrest on suspicion of being either a dangerous maniac or a plotter to kill members of the Palmer family. Wahlenmeyer was arrested last night on the porch of the Palmer home, and a bomb ready for ignition was in his possession.
Wahlenmeyer rang the bell at the Palmer home. The butler said Mrs. Potter Palmer was sick. Suspicion was aroused and the police were notified. When they arrived they found Wahlenmeyer waiting outside the door with a butcher knife in his hand. He resisted, but was finally overpowered.
Wahlenmeyer said he had seen a man crawling toward the porch and had attacked him. The bomb with fuses attached was lying on the porch. He admitted having made it. The bomb was filled with smokeless powder and nitro glycerine. The fuse showed evidence of having been lighted. After being taken to the police station he declared he was engaged to marry a niece of Senator Cummins. Emily Wahlenmeyer, a sister of the man under arrest, told the police he was insane as a result of an injury to his head.

In the Potter Palmer home at the time of the man's arrest were: Judge Honore Palmer, Mrs. Potter Palmer's brother, Honore Palmer, her son, and Mrs. Potter Palmer. Since the incident, the house has been guarded.
A note starting "Dear boy" and signed "Mary Beamesolnes" was found in Wahlenmeyer's pocket.
City physicians were unable to determine whether Wahlenmeyer is insane or not. It is believed he planned to get a reward from Mrs. Palmer by playing the role of a "hero."

LONDON'S LORD MAYOR.
London, Sept. 30.—Sir Thomas Y. Strong yesterday was elected lord mayor of London without opposition. Sir Thomas is a temperance advocate, and enjoys the distinction of being the first teetotaler chosen as chief magistrate of the metropolis. He was born in 1837, and in 1900 married the eldest daughter of the late James Hartnell.
The lord mayor-elect will be sworn in on November 30, and the following day, as usual, will be marked by a general holiday, and a great pageant.
The lord mayor of London receives a salary of \$50,000 a year. By right of office, the lord mayor will become a chief butler and cupbearer to his Majesty, and the lord mayor elected today will play an important part in the exercises and ceremonies at London upon the coronation of King George next June.

BOY DROWNED.
Bellingham, Wash., Sept. 30.—Harry Brown, aged 4, son of Mrs. Jennie Brown, of this city, was drowned yesterday in Whatcom creek. The body was found this morning after the creek had been partly drained.
Whether he was alone at the time of his death or whether playmates saw the tragedy and are afraid to tell of it cannot be ascertained.

BOWLING CHAMPIONSHIPS.
(Special to the Times.)
Montreal, Sept. 30.—Arrangements are now being made by the Canadian Bowling Association to hold a big championship tourney here early in the spring, and the officials of the association are already making their plans for the securing of alleys for the occasion.

ACQUITTED.
(Special to the Times.)
Winnipeg, Sept. 30.—Before Judge Walker this morning R. C. Edwards, editor of the Eye Opener, was acquitted of a charge laid against him by the Lord's Day Alliance last March.

PERSONAL.
Henry McGregor arrived from Vancouver last evening on the Chamer to spend a few days here.
Geo. H. Agnew, for some time with Watson & McGregor, left on a visit to his home in Stockport, England, today, via C. P. R. and Empress of Ireland.
Grand Trunk Pacific steamships new make night run to Vancouver, leaving here at midnight on Thursdays and Sundays.

Hon. Richard McBride returned last evening from Agassiz, where he had opened the fall fair, the tenth held by the Agassiz Agricultural Association. Mr. McBride had officiated at the opening of the first exhibition and he took occasion to refer to the strides made by the district in the decade.
W. S. Drewry, chief water commissioner, has just returned from Cariboo, where, with his brother commissioners, J. M. and J. T. Robinson, he sat in adjudication of a number of water disputes at courts held at Alkali Lake and 156-Mile House. A number of disputes were offered for settlement; several of which had been of long standing, and all of which were amicably settled.
Hon. J. M. Gibson, Lieut.-Governor of Ontario, was in the city yesterday afternoon and left in the evening for the Sound. He was accompanied by Mrs. Gibson, Miss Gibson, Miss Mulock, and Captain Young, A. D. C. His Honor had not been on the Coast for eighteen years and was impressed at British Columbia's great development.

OBITUARY RECORD

At Mayne Island the death occurred a few days ago of Miss Maria Louise, daughter of the late Dr. and Mrs. J. H. Robitson. Deceased had been ailing for a long time. The remains were interred in the cemetery of the island.

Yesterday afternoon the remains of Frank, the infant son of Mr. and Mrs. Carlou, Cloverdale avenue, took place at 2:30 o'clock from the Victoria Undertaking parlors, where Mr. Denner conducted services. Many sympathizing friends were in attendance and the floral tributes were numerous.

There passed away yesterday afternoon at the family residence, 2123 Spring road, Cybil Cecilia, the infant daughter of Mr. and Mrs. August Westendale, after a short illness. The funeral took place this afternoon at 2:45 o'clock from the house, and fifteen minutes later at the Roman Catholic cathedral. A number of friends attended and the little casket was covered with flowers. Interment was made in Ross Bay cemetery.

The funeral of Clarence Pendwyn Aston took place from Hanna's parlors this afternoon.

SERVICES AT TEMPLE EMANUEL

At this evening's Sabbath service at Temple Emanuel, corner Pandora and Blanchard Ave., Rabbi Joseph Zelsler will deliver a sermon on "The Influence of Religion and the Temple on Men." Ps. LXXXIV. Services begin at 7:30. Members, their families and friends are requested to attend. Everybody is invited. Seats are free.

The provincial police have not as yet secured any clues as to the identity of the three men with whom Frank Julian left his home at Revelstoke and who are supposed to have murdered him. Julian seems to have been the only person who saw his three visitors.

"THE WITCHING HOUR"
 A REMARKABLE PLAY

John Mason and a Strong Supporting Company Present it at the Victoria

In "The Witching Hour," which was produced by John Mason and his company in a small but highly appreciative audience at the Victoria last night, Augustus Thomas has given to the dramatic stage one of the most remarkable as well as one of the most successful plays that has yet emanated from the pen of an American. To go further, he has achieved a task never completely achieved by any author, although in some respects he has surpassed it. Casting aside the tradition of his craft he has invaded the realm of the occult for his materials, and with the latter boldly attempted to demonstrate the potentialities of the elusive forces which psychologists are striving to identify with animal magnetism. Although restricted by the limitations of accepted language, it has contrived, by the employment of masterful technique, to demonstrate the existence, and in some measure the comprehension, of the kindred phenomena—hypnotism and telepathy, both voluntary and spontaneous.

"The Witching Hour," it is evident, is a title bestowed on the play for advertising purposes only; as the association of advertising with the occult is hardly dealt with, while, impressive, is actually quite irrelevant. Neither time nor place have any bearing on the working of the strange influences of which he treats.

At the opening of the play the audience is made acquainted with a singular group of individuals, Jack Brookfield is a professional gambler of a superior kind and his fashionable home, which he shares with his sister, Mrs. Campbell, and his niece, Viola, is nothing more respectable than an expensive gaming house. Clay Whipple, the accepted suitor of Viola, is a young man who has inherited from his grandfather, through his mother, an antipathy to card games which approximates insanity. His horror of the jewel is discovered by a tipsy frequenter of the house who wears one in his tie. The drunken man makes sport of the boy's aversion and insists on flashing the jewel before his face until, in a moment of temporary madness, Whipple strikes him with an ivory paper knife. The laughter of the spectators is turned to groans of despair as the man falls. One of the eye witnesses, the wife of Whipple, by agreeing to a new trial after experiencing a personal demonstration of his own beliefs.

Mr. Justice Prentice, judge of the Supreme court and student of animal magnetism and kindred phenomena, has a real part in the plot. It is through him that Brookfield learns his own powers as a hypnotist and telepathist, and it is he who takes the role of Whipple's fate by agreeing to a new trial after experiencing a personal demonstration of his own beliefs.

The story is too long to tell, but it is sufficient to say that telepathy is revealed in almost all its known phases as the agency through which the victim of inherited superstition is finally saved from the gallows. In each act of the four into which the play is divided the audience follows a series of thrilling incidents, culminating in potent climaxes which no playwright could surpass. The dialogue is brilliant, the comedy element never out of place, and the action so logical that the uninitiated skeptic is forced to admit that mere coincidence is not all-explaining—that involuntary mental communication is not only real, but always operative, no matter how little understood or how seldom recognized.

From every standpoint "The Witching Hour" is the finest production seen at the Victoria in several seasons, and it is unfortunate that a counter-attraction prevented an attendance in keeping with its excellence. John Mason, as Jack Brookfield, displayed the rare talents which have distinguished him as one of the brightest actors in the galaxy of present-day dramatic stars. Like the author of the play, he has discarded the traditions of the theatre in favor of individual liberty of action. It is no idle observation that "The Witching Hour" and its leading actor preface the coming of "the great American play," which will establish a school of new thought in the world of drama, owning allegiance to the intellectual and scientific research of the age, and fearing no subject in its demonstration of the theatre, as an educational institution.

Grace Reals as Mrs. Whipple, Miss Bohm as Mrs. Campbell, and Miss Jerome as Viola distinguished themselves in their respective roles by the restrained yet convincing emotionalism which the play demands. The part of Clay Whipple was satisfactorily played by Clinton Present. Harry Leighton as Mr. Justice Prentice, and Harry West as Frank Hardmuth, were excellent, and the other members of the company supported Mr. Mason in a manner beyond criticism. So well, indeed, that the audience demanded repeated curtain calls to pay tribute to all of the leading characters.

The staging was superb, especially in the first and last acts, where the scene is a magnificently furnished living room, the walls concealed beneath rich hangings of Genoa velvet, creditable oil paintings hung with taste and consideration, the furniture suggestive of wealth and refinement. In every detail of scene-setting neither expense nor effort was spared to provide a suitable environment for the author's creations.

"The Witching Hour" will come to Victoria again in all probability, and when it does a vacant seat will be rarer than a dry winter in Victoria.

**MATCHES TO-MORROW
IN SOCCER LEAGUE**

Second Day of Season—Bays and Garrison at Oak Bay Best Attraction

MATCHES TO-MORROW

James Bay and Garrison, at Oak Bay. Referee, S. J. Thompson.
Victoria West and Cedar Hill, at Royal park. Referee, D. McDougall.
Empress and Esquimalt, at Beacon Hill. Referee, G. Allison.
North Ward and Foresters, at North Ward park. Referee, A. Locksley.

The second day's matches of the soccer season will be played to-morrow, the senior as given and the second division matches according to schedule.

The Bays and the Garrison eleven were both successful last Saturday and these appear as a well-matched pair for the game at Oak Bay.

Another match that will be close, and attract considerable attention is that between North Ward and the Foresters, which will be played at North Ward park.

The Victoria West eleven, with one win and last year's championship to defend, has selected the following strong eleven to play against Cedar Hill at the Royal park: Goal, Beane; full-backs, Prevost and McDiarmid; half-backs, Bailey, Pettifer and Thackeray; (A); forwards, Okell, Sherritt, Fouson, S. Thackeray and J. Wright.

The matches in the second division are: Victoria West vs. Oak Bay; Esquimalt vs. Baraca; Garrison vs. Beacon Hill; Fifth Regiment vs. North Ward.

The North Ward senior team for to-morrow is Dougan, Cowper, McDonald, Brynjolfson, Brown, McCarter, McGuire, Dakers, Sweeney and Howden. Reserves, Higgins and R. Dakers.

For the Fifth Regiment against the North Ward second division match at Beacon Hill to-morrow the following players will be on the ground at 2.45: Kroeger, Whittle, Lawson, Barber, T. Mair, W. Mair, A. Pynn, Smith, Savage, Lee, John Mair and William Mair. Referee, L. Campbell.

Eleven golden weddings were celebrated at the little town of Morbecque, in Belgium, recently. The twenty-two husbands and wives, whose ages aggregate 1,688 years, attended church together, after which a banquet was held in their honor at the municipal hall.

**FRANKIE THORN WINNER
OF MILE TROTTING RACE**

First Place in Hunt Club Flat Mile Goes to a Vancouver Mare

Frankie Thorn, owned by W. Marshall, won the \$500 trotting purse at the fair ground track yesterday afternoon, winning two straight heats without difficulty from Mabel Hall, driven by F. Ripplinger, and three other starters.

There was, as has been the case in the other heats at the exhibition, considerable trouble in getting the horses away at the start, especially in the first heat. Finally the horses were allowed to go, to satisfy an impatient crowd which had been kept waiting. The winner and Mabel Hall went to the front at once and ended the heat in the order given, with Dr. Williams third and Yukon, which broke badly, fourth. The time for the mile was 2:20.

The time for the second heat, in which a better start was made, was 2:25, the race being practically the same as the first trial. Frankie Thorn made the running with Mabel Hall behind and Yukon, which did not break in this heat, in third position.

Carrie Campbell won the hunt club and riding school members mile flat race. The mare is owned by T. J. Smith, Vancouver, and second place was carried by Mrs. Dave Spencer's Earlene, with S. Perry Mills' Lady Melvina, third. There were nine entries and the winner just nosed out second after a hard run up the stretch for the winning post.

SPORT NOTES.

The soccer executive met last night, and particularly dealt with the constitution, making considerable progress. The junior schedule was again postponed, this time for a week.

An important matter was brought up by Alexander. The latest importation of boots are cleated in the wrong way. It was decided that all cleats will have to be changed to straight bard or studs, as called for in the rules.

The Oak Bay and Fifth Regiment second division game is to be played. The greatest snafu in was not allowed. This match was not played because there was a misunderstanding about the grounds.

In the new constitution there is a clause that the B. C. A. A. U. definition of an amateur shall rule. The soccer men, however, refused to pass this out of hand and left it over for another meeting.

A meeting of the building committee of the Victoria West Athletic Club takes place to-night at the Catherine street clubhouse. Monday night there will be the regular meeting of the V. W. A. A.

The Nationals and the world's champions play an exhibition game at Vancouver to-morrow afternoon. Lalonde and Lavolette announce that the Nationals can beat the Royals on neutral ground. They are getting their chance, anyhow.

The second fall billiard handicap is now opened for entry at the Empress hotel. The first handicap is down to the finals between Lewthwaite, owe 25, and Mann, owe 73.

C. A. Heal secured a splendid bag in the Highland district. He obtained a six-pronged buck weighing 185 pounds. The head is being mounted by E. Whitaker.

**CLOSE SEASON FOR
PHEASANT SHOOTING**

Cowichan and Islands Districts Are Only Places Sportsmen Can Legally Shoot

Many hunters are under a misapprehension as to the opening of the pheasant shooting season, and where the birds can be shot. There are only two places adjacent to Victoria where pheasant shooting is legal. These are Cowichan and the Islands electoral districts.

Pheasants are reported scarce this year, the only likely locality for the game being at Salt Spring Island, where they are fairly plentiful.

Pheasants cannot be shot in Metchoin, the Highlands, Saanich, Esquimalt and other near-by places, and those caught taking birds in these districts other than Cowichan and the Islands electoral district will be liable to heavy fines and imprisonment.

The season opens in the districts named to-morrow.

In a big Atlantic liner there are over 1,000 tons of piping of various kinds. The boiler-tubes if placed end to end would stretch about 100 miles, the condenser-tubes over twenty-five miles. The condensers pump up more than 30,000 tons of water a day, and the turbines consume about 1,000,000 cubic feet of air per hour. No fewer than 2,000 separate pieces of steel are used in the main structure of the ship.

**RUGBY TEAMS OUT
FOR FIRST MATCH**

Wanderers Will Play the Victoria Club at Canteen Ground To-morrow Afternoon

The first Rugby workout of the season will be held to-morrow afternoon at the Canteen ground, when a Victoria fifteen will meet the new Rugby club fifteen, the Wanderers, in a practice match.

Rugby followers welcome the advent of a third team into the soccer season, and look forward to better practice in preparation for the coast and provincial matches as a consequence.

The match to-morrow afternoon starts at 4 o'clock, and the Victoria fifteen is requested by the secretary to catch the 3:30 car from the city.

The practice will not be played the full match time, but a general workout with the teams opposing one another will be held, the periods probably, in view of the first time out, being shortened.

While many of the Victoria Club members are away from the city and the full strength of the club is not available, a team that will put up a good game has been got together to oppose the new men. It will consist of Johnston, full-back; Vincent, Nason, McGuigan, three-quarters; Newcombe, and M. Scott, halves; Kennedy, L. Sweeney, D. Scott, Heineke; Hiscocks, Brown, J. Sweeney and W. Cooper, forwards.

St. Catharines, Sept. 29.—The action of the trustees of the Mann Cup in ignoring the wishes of the C. L. SACRED CONCERT ON SUNDAY PROHIBITED

Vancouver City Council Rejects Motion to Appoint Supervising Engineer

Vancouver, Sept. 29.—Lively discussion marked the last meeting of the city council. Criticism was let loose when a letter was read from the mayor reporting on the condition of certain thoroughfares and making certain recommendations, one of which was that a supervising engineer should be appointed. Mayor Taylor took the floor and pressed for the adoption of the resolution. He believed that the general public would approve of the engagement of an engineer who was capable of grasping the idea of an engineering plan covering the area which would be covered by Greater Vancouver, even if the official demanded a salary of \$20,000 per year. The city had in the last few years paid out large sums for special engineers which might have been saved had a supervising engineer of high rank been engaged. On bridge work it was possible to secure plans for bridges from companies operating in the field and have the construction work looked after carefully by the city's engineer. At the same time the official could plan out a comprehensive sewerage scheme for the district which would form the enlarged city. The speaker said he was convinced the citizens were not satisfied with the present condition of affairs in the engineering department and the protests of the ratepayers should be heeded.

Ald. Stevens said he considered the present city engineer a first-class officer, but intimated that he doubted his ability to meet the large questions which the development of the city forced upon him. The motion to appoint such a supervising engineer was lost.

A vigorous attack was made on the bench grading system through an effort to hold up certain permanent grades based on this form of engineering in the east end, but the board of works and its allies rallied to the support of the recommendation. By the close vote of six to five the council agreed to ask for the tramline on Sixteenth avenue to Westminster avenue to Oak street, promising that the city would not insist on the company laying permanent tracks on the stretch for at least five years. In view of the strong protests on the part of civil engineers of the city, approval of the appointment of Waddell & Harrington as

permanent bridge engineers was withheld and the subject referred back to the finance committee.

The division of opinion in the council drifted from matters pertaining to the board of works to Sabbath observance questions and the aldermen voted down the application of the Welsh choir to hold a sacred concert in the Empress theatre on a Sunday evening next month. From Sabbath observance the discussion passed to civic finances and, after much discussion and by another close vote, it was decided that money by-laws covering only the purchase of False Creek waterfront and sewer extensions should be submitted to the electors next month.

FAVORS GIVING LAND TO HOSPITAL

Delegation Presents Needs of Institution to New Westminster City Council

New Westminster, Sept. 29.—At the meeting of the city council a delegation from the board of control of the Royal Columbian hospital was present and formally asked the city for the site on the Queens park reserve between Leona and the Queen's park grounds. The request was laid over for the time being until the city solicitor for the mayor had gone over the proposition. J. J. Jones addressed the council, briefly pointing out the disadvantages of the present location. One of these was the noise from locomotives and sawmills and boat whistles. Another was the sewerage connection and would have to build its own system to the river. However, the factor that overwhelmed all others was that the cost was too great at present. He stated that the hospital board had figured on an expenditure of about \$150,000 and had called for competitive plans on that basis. But the lowest tender they received was \$249,574, almost \$100,000 more than they were prepared to spend. This amount did not include the furniture, which would count up to another considerable sum. The board, in considering the matter, had arranged to substitute some of the materials specified for something not so expensive and had thus cut down the cost until it was about \$200,000, all told. This amount was rather large, but if the city would grant the lot asked for, then the present location in Sapperton could be present or rented and the hospital would make enough out of that to undertake the extra expense.

H. T. Kirk, who supported Mr. Jones in his petition, stated that Sapperton had been found to be too far away in some emergency cases and consequently it was more desirable to have the hospital as near the centre of the city as possible.

The arguments advanced seemed to have weight with the council and Ald. Jardine moved that the council give to the hospital its rights in the land. Mayor Lee asked if that could be done without a vote of the ratepayers and as there seemed to be some doubt on that subject the matter was left with Mayor Lee and the city solicitor to determine.

However there is not much doubt but that the city will give the hospital the land. Mr. Jones stated that members of the hospital board had interviewed members of the government and had been assured that there would be no opposition from that quarter. "The sentiment of the council is certainly in favor of granting the site."

Mayor Lee will bring in his report next Monday night.

What Other People Think

QUITE INTERESTED.

To the Editor:—I confess I am quite interested in the proposal that all who had a hand in cooking the university site report should visit the bishop, and I am curious to know just what occurred when the services of the eminent divine were enlisted on the previous occasion to clear the skirts of those responsible for an equally grave "indiscretion." I happened to be in England at the time, and I am glad to know that the bishop, who I am sure has been most noble and generous in his service, is aroused and I would like to see it. Would you be so kind as to reproduce it in your columns for the benefit of myself and many others?

If space permits and occasion warrants, the Times may take an opportunity of gratifying the curiosity of its correspondents.—Ed.

RULE OF THE ROAD, ETC.

To the Editor:—Writing of "turning to left or right," correspondents to the papers (notably he in the Colonist of 28th inst.) might confine themselves more to the point, without rooting up from the dim ages obsolete customs that might have been profitable when the world was young. In the more enlightened age, in England and British Columbia, we "turn to the left," and, properly speaking, pedestrians also should keep to the left to avoid collisions as people will naturally walk on the side they drive on. The reasons for a driver turning to the left and sitting to the right having been concisely explained by a correspondent in "Times" of 12th inst., I will not trouble you by repeating them. Your correspondent "E. A. Hall" is also of opinion that turning to the left is, in the abstract, the correct style of driving, and I do not think it necessary for the colonist referred to should (with editorial sanction) call E. A. H. a "driveller," which being interpreted means a fool or an idiot. In the same issue the editorials in the "Times" are described as "the old saws of 'wood,' etc. Well, sir, taking a distinctly unpolitical view of matters and judging purely upon the merits, I would say, in personalities and questionable statements, your contemporary is invariably "top dog."

IF WE HAVE BEEN BUNCOED.

To the Editor:—In a weak defence from an imaginary attack on Mr. McBride, the Colonist states that "the people of Victoria did not seem to care particularly about attending meetings called in behalf of the university."

It is a fact that the people of Victoria did not think that the choice of a place of such importance would be affected one way or another by mass meetings and resolutions.

It is a fact that we were equally ready to leave the selection of a fit and proper site either to the Premier himself, to the Lieut.-Governor in council, or to an expert and instructed body of arbiters.

It is a fact that in leaving the matter to a royal commission we neither over-stepped the bounds of delicacy nor assumed the "air of a prophet."

It is a fact that the commission would be necessary to guard ourselves against marked cards.

Probably our chief reason of failure to attain even an honorable mention in that unanimous report is this: We did not at any time think that Victoria, or Vancouver, or Nelson, or Nanaimo, had very much to say individually to a province seeking its best college site.

We were, vicariously or otherwise, might be disappointed and surprised, but not hurt or disgruntled.

If the province has been buncoed by an imitation commission tied to the thumb twist of a provincial board of George & Eric, then we will have a few words to say about it, with or without the Colonist's good-will.

BRITISH COLUMBIAN.

MOORE & WHITTINGTON'S MILL.

To the Editor:—In the Colonist dated September 28th, we notice among the letters to the editor one under the heading "Mr. Morphy Protests," and signed by Mr. Geo. A. Morphy.

The parts of the letter sound reasonable to the unacquainted with the facts, we desire, first of all state that Mr. Morphy would be among the last to protest were he not well paid to do so, as we believe his ideas are more progressive than those of the "Dunsmuir Castle property" and Linden avenue with Bridge street are, to say the least, amusing.

The question is tragically asked, "Why do we build on the 'Old Adams mill-site'?" which has been represented and is generally understood as the proposed location, and answered, simply because the waterfront land value is high.

No, sir, that is not the reason. In the first place, we do not own the property; second, as far as we know, the property is not in the market, although we admit we have made no special effort to find out; and, thirdly, we may about as well start a manufactory in a chicken house as on a small site entirely on piling facades on a forty-foot street, with no opportunity to turn loaded teams.

It is easy to say "Build on the waterfront and we will not oppose you." We have waterfront at our sawmill, and do not require more; but would not be opposed to it, if it suited our needs, but let anyone interested glance at the map, and, familiar with the harbor, it will be discovered that the only available sites suitable for business are on the reserve.

Next question, "Why should 147 residences be depreciated 10 to 20 per cent. by a few thousand dollars extra expenditure?"

What about the facts? Long before we placed our present premises in the market we were on the look-out for a suitable site to build a new factory, convenient to the water, railroads and city, and to which no objection could be raised from a residential standpoint. Finally we located what we considered a suitable site, meeting these conditions and purchased six lots extending from the corner of David street and Bridge street south. If there are 147 houses that would be depreciated in value from 10 to 20 per cent. due to our mill, as from actual count in the block there are only fifteen places to live in, several cannot be called residences, and the total assessed value of all improvements in the block is only \$150,000, or nine thousand dollars, on the authority of the city assessor's office, and five of the cottages are on our own property. In the block adjoining, bounded by Hillside avenue and John street, we do not think the value is less than \$200,000.

Now, about the boulevards and ornamental shade trees: Starting at the corner of David street and Bridge street and walking along David street on dilapidated old wooden sidewalks below the street level, notice the surroundings and compare with Linden avenue and the Dunsmuir Castle property; next along Turner street and see the beautiful shade trees grown without cost to the city. Note, also, the primeval condition of the road, as it has not yet been graded. Then, turn down Hillside avenue and walk down an old sidewalk, glance across the street and see the three block walk had many years ago and think

of the improvements for which the property owners are heavily taxed.

On Bridge street there is a permanent walk, but as we own the property in the block facing it and have paid the taxes, no one else is suffering.

Now about depreciation in the value of property, we note in the letter, it is to be from 10 to 40 per cent. At the council meeting, Mr. Morphy solemnly stated it would be at least 25 per cent. Possibly in another week or so, if manufacturers desire to secure a site, values will be much the other way.

The trouble the Woodworkers had to secure their site is still in mind. So we visited the locality to find out how much they had depreciated land values in their vicinity. We found there a "hive of industry." That looked good to one who desires to "see Victoria grow." The manager stated they started with twelve men and now have seventy. They have brought twelve families into the city, the men to operate special machines. When asked about adjoining property values, he stated that a year ago they were offered property next to them for \$10,000. Now they have an option at \$20,000 on it. Property that was offered not long ago at \$5,000 is now on the market at \$5,000.

We do not claim, Mr. Editor, that what we propose to build will immediately cause values to jump, but in the words of a gentleman who refused to sign a petition against us, "You cannot spoil it for a residential site, as it is spoiled long ago. The best way is to encourage manufacturers to the locality and it will soon pay to move out to a more desirable locality."

There are other statements in the letter to which we should like to reply, but hesitate to trespass on your space.

The locality is in our opinion, the place for industries. Large sums are spent advertising Victoria and inviting manufacturers to come here. Then a few "so-called" progressive and prosperous citizens who will welcome industries (see letter) do all in their power to chase them out.

The council have twice decided in the streets, bridges and sewer committee meetings to issue a permit, and have in courtesy listened to those who hope soon to be on good terms with neighbors had to say.

If Victoria needs industries, we hope without more delay the necessary permit will be issued.

SHOOTING AFFAIR AT PRINCE RUPERT

Man Shot by Companion Who Notices Police—Had Quarrelled Over Money.

Prince Rupert, Sept. 29.—Joseph Beaulieu was shot by his partner, Alphonse Richer, in a shack on the waterfront, about a mile to the west of the wharf, and died at the hospital the following morning.

Alphonse Richer arrived at the police station and said that he had shot his partner in a shack about a mile distant.

Sergeant Regan and Constable McEwen, and Dr. Tremayne, accompanied by Richer, proceeded to the cabin. Lying on his face in a bunk was Beaulieu, groaning and semi-conscious. A hurried examination by Dr. Tremayne disclosed a wound in the left breast just over the heart, apparently just missing the heart but penetrating the lung. The wounded man revived a little and asked for a drink of water. The wounded man was taken to the hospital where he succumbed to the wound.

From statements made by Richer, it would seem a quarrel arose over some money, amounting to \$14.

In the midst of the quarrel a 22-caliber rifle held by Richer went off. Richer says he did not intend to shoot. It just went off.

The deceased was about 40 or 45 years old. Richer seems about the same age.

Richer appeared in the police court on a charge of murder and was remanded.

THE HOME PHYSICIAN

Dr. Morse's Indian Root Pills Care Most of the Family's Ills.

Perhaps if the children, and the "grown-ups" too, always ate exactly the right quantities of the right things, at just the proper times, and in every other way obeyed the rules of health, there would be no sickness in the family, and no need of medicine.

But they never have and probably never will, so in every family there are sure to be more or less frequent attacks of sick headache, biliousness, indigestion, constipation, and kidney and liver troubles, and occasionally some one is "sick in bed."

It is worth a good deal to the mother, then, to have on hand that perfectly safe and reliable remedy for these ills—

Dr. Morse's Indian Root Pills.

They invigorate those organs which cleanse the body of waste and impurities, regulating the bowels, stimulating the kidneys and opening the pores of the skin.

Thus Dr. Morse's Indian Root Pills cure the common ailments and keep the family healthy. This they have been doing for over half a century in every part of the world.

"I speak as one who knows."

Semi-ready physique type features will be most strongly appreciated by odd-sized men, of different type from the ordinary—men with short legs and full waists—men with long legs and medium or small waists—men with arms longer or shorter than the average—men who have previously had to accept "stock" sizes, which went with the waists and chest sizes, and which have in most cases proven too long or too short to be worn with comfort or good form. There is the security of a correct fitting and high quality of cloth materials which cannot but appeal to the man who has heretofore been compelled to have his clothes made to order by a retail tailor.

Would You Enjoy Vigorous Old Age?

Then use Duffy's Pure Malt Whiskey. It brings health and strength to every one along life's pathway. It aids digestion, stimulates and enriches the blood, invigorates the brain, builds nerve tissue, tones up the heart, fortifies the system against disease germs, makes the old feel young and prolongs life.

Mr. A. H. Jordan, of Cuba, N. Y., has lived a strenuous life, but he is strong, vigorous and active at 84 years of age. Recently he wrote: "I use Duffy's Pure Malt Whiskey regularly, and think there is no better medicine for old people in their declining age. A few months ago there was published a little history of my early life as the oldest man now living in the town of Cuba, N. Y. I have lived a strenuous life, in earlier days following the river on lumber to Pittsburg and Cincinnati and hunting all over the northern part of Pennsylvania."

All druggists, grocers and liquor merchants, or direct, \$1.50 per large bottle. Write for free medical booklet and doctors advice.

SOCIAL AND PERSONAL

Miss Stewart left yesterday afternoon for Montreal.

Mrs. Jenkins is entertaining friends who arrived yesterday.

Mrs. Crane, Oak Bay, is entertaining guests during the exhibition.

George A. Fraser returned to town by yesterday's boat from Vancouver.

H. A. Munn has returned from a hunting and hunting expedition to Albern.

Mr. Spedding, editor-in-chief of the Glasgow Record, is paying Victoria a visit.

Hon. Price Ellison, minister of lands, returned yesterday from up-island points.

Dr. and Mrs. Gunn, Winnipeg, are the guests of the former's sister, Mrs. McLean.

Miss Frances Ferguson, Savona, has arrived to become a student at St. Ann's academy.

Mrs. J. T. Held, Spanish road, was at home to a number of friends at the tea hour on Wednesday.

Mr. and Mrs. D. H. Riddell and Miss Nancy Riddell, Albern, are the guests of relatives in town.

The Misses Russell, Boyd street, will not receive to-morrow, but on the second Saturday of October.

E. R. Ricketts, lessee of the Victoria theatre and the Vancouver opera house, is over on a business trip.

Mrs. Albert Wyldie and daughter, Victoria, have returned to town from their summer home at Shawnigan Lake.

Dr. C. J. Fagan, secretary of the provincial health board, returned yesterday from an official visit to Fernie, upon which he will report.

Mrs. John Todd, who has been for some weeks visiting relatives here and in Seattle, left last night for Hazelton, where she will join her husband.

Mrs. M. A. Wall and her daughter, Miss Alice Wall, returned last night on the Charmer after a two months' visit to relatives and friends in Nova Scotia.

Mrs. Alkman was hostess at a very smart tea yesterday afternoon. The decorations were very prettily carried out with autumn flowers, and the hostess was charmingly gown.

On Saturday evening the first dance of the High school students will be held in A. O. U. W. hall, with Mrs. George Simpson in charge. Throughout the season these dances will be given under the chaperonage of the McGill faculty.

Miss Cocker has been singing with much acceptance throughout the fair in connection with the Fletcher Bros. exhibit in the woman's building. Mrs. G. Smith has been acting as her accompanist, and their joint performances have been much enjoyed by visitors.

Sir Edward D. Stern and Lady Stern, London, are visitors to Victoria, and are at the Empress. Sir Edward is a major in the Berkshire Yeomanry, in which he has had 29 years' service, and has been deputy lieutenant of Surrey.

Lady Stern is a daughter of the late Sir George Jessel, master of the rolls.

The Misses Leiser were hostesses at a very pretty shower party to Miss Ruby McE. Smith on Tuesday afternoon. The table decorations were particularly beautiful in green and white, the centre piece being a huge golden shoe filled with blossoms of golden glow.

Among the guests were: Mrs. Vincent, Mrs. Robert Jamieson, Mrs. Briggs, Mrs. Stanley McE. Smith; Mrs. J. W. Spencer, Mrs. Fred White, Mrs. Alkman; the Misses Goodacre, Hiscoc, Spencer, McCulloch, Marvin, Sketchley (New York) Musie and Raymond.

WEDS AMERICAN GIRL.

Tacoma, Wash., Sept. 30.—From all indications Tacoma is to become a haven for love lorn Japanese who wed American girls.

Scarcely had Kunio Toda and Miss Raya Read been united in the bonds of matrimony on Wednesday when Tsuneji Tanaka, said to be a wealthy merchant of Los Angeles, appeared at the auditor's office and secured a license to marry Miss Enright Rotermyer, who accompanied him. Tanaka and his bride-to-be left in an automobile for some small town south of here and said that they would be married immediately.

Kunio Toda and Miss Read had a series of misfortunes which in one instance, landed them in jail before a Japanese Baptist minister of Tacoma finally made them man and wife. Starting from Salt Lake, Toda and Miss Read went to Oakland where at the instigation of the girl's father, who

HOW TO BUY DIAMONDS

The store, jeweler or otherwise, which tells you the truth, even about invisible features of the goods it sells, is most conscientious about giving you your money's worth.

When you buy a diamond here, you are told if it has an invisible flaw, if the color is imperceptibly "off," if the weight is a fraction less than it is rated.

You know what you get, and what it is honestly worth. That is our way.

The Evening Chit-Chat

BY RUTH CAMERON

I want to take exception to a very old proverb to-day—Half a loaf is better than none.

In one application that is true, of course, but in another sense I think it is away off.

For although in getting half a loaf is certainly better than none, in spending I think it is more often worse than none.

That is, if you are going into a venture of any sort, it doesn't pay to go in in half-a-loaf style.

On a paper on which I once worked the management decided to feature a certain big festival. "Feature," let me explain to the uninitiated, means "give a lot of space to."

"We will send all our special writers and cartoonists to this affair," said the editors, "and have them write and draw a lot of stuff that will interest and flatter these people. Then we will advertise on the grounds what splendid accounts we are giving of the festival, and that will make all those people buy our paper, and we shall get our money back in advertising."

All of which would have been very splendid if they had only done it in a whole-loaf style.

But they didn't. Somewhere in the process the management evidently lost its courage about spending all that money, and instead of advertising the paper's intention to devote so much space to its reports of the convention in a wholesale way that would have brought results, the management stuck up a few posters so small and obscure that no one who wasn't looking for them could have found them, and left it at that.

Result—Because they lost their nerve and spent so little in their attempt to attract attention, they failed utterly, and the money they did spend accomplished absolutely nothing, and was completely thrown away.

If they had spent three times as much they would undoubtedly have had a hundred times the results.

Half-a-loaf-ism is the worst kind of economy. Isn't it better to spend more than you really can afford and get it back twice over 'in results, than to spend half as much and then lose it all?

Big money often gets big money. Small money often gets lost.

The man who puts all he can afford and then some, into a venture, burns his bridges behind him and therefore goes ahead with a desperation and determination that are almost sure to bring success.

He mustn't lose and therefore he doesn't!

All of which, although I have put it in terms of money because that was the easiest way to express it, is meant to apply just as much to the whole-hearted use of other things—time, and energy, and self for instance.

If you are about to start any venture, whether it be getting up an entertainment, winning a man's love, or going into business for yourself, remember that half a loaf is better than none applied to getting, not to spending, and go about it in a whole-loafed way, or not at all.

Ruth Cameron

GRACEFUL EVENING CLOAK

Winter fashions are usually first indicated by cloaks and wraps and early predictions are that the extra-wrap or outer garment will be an important factor in the winter wardrobe.

This model is a charming creation in old blue silk, with deep revers, collar, cuffs and inset pieces at waist line and panne black velvet. The buttons are silk covered and the loops are bias bands of same. The backs of all wraps are most carefully planned so that as much length of line as possible is given. They are also cut to give a sleek appearance.

Capt. Parkinson and Engineer Brown Congratulated—Big Cargo for Victoria.

Capt. Parkinson and Chief Engineer J. M. Brown were recipients of many congratulations on the record trans-Pacific run of the Holt liner Teucer, while the big blue-funnel boat lay at the outer wharf yesterday afternoon. The remarkable record hung up by the Teucer, which was briefly reported in yesterday's Times, is the more remarkable in view of the fact that the steamship encountered considerable heavy weather on the passage from Yokohama and lost fully three hours while off the strait on Wednesday night.

Leaving Yokohama at noon on the 17th inst. the Teucer experienced fine weather for two days, when moderate high seas running. The blue-funnel liner was carrying nearly 8,000 tons of cargo and kept up a steady average of over 15 knots in spite of this unfavorable weather, which continued for a whole week. On Tuesday, as she was approaching the coast of Vancouver island, the weather moderated and her engineers and officers, who take great pride in her performance, tried to make port under twelve and a half days. In the afternoon a fresh wind came up from the southeast and, increasing during the night, blew with terrific force on Wednesday. Although plunging heavily in the big sea, which grew with the wind, the Teucer made

Put Back to Land Injured Captain and Cook—Bound for Chemainus

Twenty days from San Francisco, the American schooner Allen A., Captain Shipsey, sailed up to an anchorage off the outer wharf this morning and will be towed up to Chemainus mills to load lumber for Dutch harbor.

The Allen A. experienced heavy weather off the coast of Oregon, but got into the straits on Wednesday, with a S. E. wind helping her just in time to escape the storm which sprang up from that direction and delayed the Holt liner Teucer. The schooner first left San Francisco, riding light, for Chemainus on September 2nd, and was on fire shortly after leaving the Golden Gate, her foremast being burned. Capt. Hendricks and the ship's cook were both injured, and the Allen A. put back to San Francisco to land them. Capt. Shipsey took command and the schooner left again on the 9th.

MARINE NOTES

The Union steamer Camosun came over from Vancouver this afternoon, and will be hauled out for repairs.

The Holt liner Antioch will shift from the Sound to load lumber at Vancouver on Monday. She is due to sail on October 5th.

The U. S. revenue cutter Rush has finished her annual patrol of the Behring Sea and will remain on station in Alaska during the winter.

The Canadian-Mexican liner Henley arrived at Manzanillo from this port on Wednesday and left the same day for Salina Cruz via Acapulco.

The Canadian-Australian liner Marama has returned to Vancouver after coaling, and is loading cargo at C. P. R. pier 1. She will sail on October 7th.

The steamer City of Topeka will take the sailing of the City of Puebla, now dry docked on the Sound, for San Francisco, leaving here next Wednesday morning.

Nine special cars will be required to dispatch the silk cargo of the Tacoma Maru, due here from Yokohama on October 5th, from Seattle to New York. The Tacoma Maru is bringing silk valued at \$1,500,000.

The tug Holyoak has been dispatched to Prince Edward Island to tow the steamer Santa Ana to Seattle. The Santa Ana, which left Seattle on the 21st for Klawick, Prince Edward Island, broke her propeller shaft. She has no passengers aboard.

A survey of the steamship City of Puebla, which grounded off Bellingham and is now docked at Seattle, revealed the fact that only slight damage was sustained by the vessel. Several plates were bent, but no serious injuries to the hull were found.

With the exception of the captain the oldest man of the crew of the Danish barque Danmar, now lying at Portland, is only 23 years of age. This is the youngest crew ever seen on a wind-jammer on this coast.

Illustrating the decadence of the American mercantile marine a dispatch announces that the tank steamer Currier, recently launched at Quincy, is the first vessel built for foreign trade in a Massachusetts shipyard for fifty years.

The Chilean ship County of Linnithgow, Capt. Muller, which has been lying in the Royal Roads awaiting orders since Sept. 18, will be towed to Tacoma to-morrow morning by the tug Lorne to load lumber for Chile ports.

On Sunday the steamers Joan and City of Nanaimo will take exhibits from the fall fair back to Mainland and Gulf ports. Stock exhibits which will be taken to New Westminster for the coming exhibition will be shipped via Vancouver by the regular steamers.

The P. C. S. S. C.'s steamer City of Topeka, which is due from San Francisco, had not been reported up to the time of going to press. The Topeka is one of the line's older and slower steamers, and as heavy weather is reported from the Washington and Oregon coasts, may not arrive until tonight. She left San Francisco, taking the Puebla's place, on Tuesday at 2 p. m.

The steamer Princess Beatrice will sail for Skagway to-night. It is expected that the Beatrice will make connections at Skagway with the W. P. & Y. train in time to catch the last Yukon river steamer for the interior, which is scheduled to leave White Horse on October 2th, the same day that the steamer is due at Skagway. She will take a large load of freight from Victoria and Vancouver for interior points.

The time used is Pacific Standard, for the 120th Meridian west. It is counted from 8 to 24 hours, from midnight to midnight. The figures for height refer to distinguish high water from low water.

The height is in feet and tenths of a foot, above the average level of the lowest low water in each month of the year. This level is half a foot lower than the datum to which the soundings on the Admiralty chart of Victoria harbor are reduced.

India was in possession of a steel secret once, which is lost now. This was the laying with gold of steel blades, in such a manner that the strength of the blade was not impaired nor its temper spoiled.

HOLT LINER TEUCER.

Which arrived in port yesterday afternoon 12 days, 15 hours, 52 minutes out from Yokohama, breaking her own trans-Pacific record by seven hours and establishing her supremacy as the fastest steamship of the Blue Funnel fleet.

good time and Chief Engineer Brown was reckoning on reaching port in the remarkable time of 12 days 12 hours when the steamship was forced to slow down off the strait on account of the heavy weather and a drizzly mist which came off the land. Three hours were lost through this delay, the Teucer reaching William Head 12 days 15 hours and 52 minutes from Yokohama, and the outer wharf one hour later.

This record is nearly seven hours better than that established by the Bellerophon, which steamed from Japan to Victoria in 12 days 21 hours and 20 minutes, beating the time of the Teucer, 12 days 22 hours 42 minutes. So far it is ahead of the steaming time to the credit of the remaining vessels of the Holt fleet that the Teucer's supremacy is established as the fastest boat of the blue-funnel line. Her time has never been equalled by any steamship outside of the royal mail Empress liners sailing out of this port.

Not only did the steamship break the speed record but she closely approached her record for cargo carried from Yokohama to this coast. Altogether she brought 7,600 tons of mixed freight, including close on 1,000 tons of silk, approximating \$600,000 in value. For Victoria she has 4,700 tons of cargo, which will be landed on her return, for Vancouver 4,000 tons, for Tacoma 4,700 tons and for Seattle 300 tons. Altogether her cargo is worth in the neighborhood of \$1,000,000.

Of the 404 Chinese passengers which the Holt liner carried from Hongkong 360 landed here most of them being residents of British Columbia returning from visits to China.

The catches on the hull of the steamship Teucer, which is lying at the outer wharf, are being examined with a view to settling differences between the owners and underwriters. They are being made more efficacious by cement and it is expected that the use of the pumps will no longer be necessary to keep the vessel dry when the work is finished.

Interviewed at Tokio by a Japanese newspaper, Manager Ito, of the Nippon Yusen Kaisha, explained the recent cut in saloon rates between this coast and the Orient as a matter of self-preservation and pointed out that the N. Y. K. was not receiving sufficient business. The Japanese line, not being a member of the trans-Pacific line association, is at liberty to reduce fares to suit its business and for that reason no answering reductions, which might precipitate a rate war, have been made by any of its competitors.

An Interesting Element of Advertising

An advertisement is like a story, it is interesting according to the telling.

If you write it, and the Times tells it, then there are two elements of interest united—you know the goods advertised, and the Times vouches for your intelligence with its acknowledged veracity.

The people of Victoria not only rely upon the Times, but respect those who obtain access to its columns. Every-day readers of the every-day Times easily cultivate a confidential acquaintance with even its occasional advertisers.

It is all very simple, just as we said, like the telling of a story. Be the story ever so good, a great deal rests with the teller. And a good teller can do wonders with a good story.

EXPERT STILL ON THE STAND

(Continued from page 1.)
Counsel contended that Fitchard had shown how to make a full band only. Witness replied that what the candidate had described was a "modified half bandy".

Mr. Bellwell next led the witness along the path of describing the mysteries of a "bridge with united abutments," his examination on this line occupying much of the time before the court rose for lunch.

The hearing was resumed at 2:30 this afternoon, and it is hoped by sitting until a late hour and possibly with a night session to have the case concluded to-day. On the opening of the case yesterday Mr. Justice Gregory warned counsel for both sides that in the event of the case not being finished to-day it might be necessary to have a new trial, as the jury could hardly be permitted to remain at large during any lengthy period of adjournment. On counsel expressing belief that the case might be concluded to-day the hearing was begun.

Much interest is being taken in the case locally, this being evidenced by the considerable number of spectators in attendance. The members of the bar, other than counsel engaged, are also keenly interested in the case. E. P. Davis, K. C., of Vancouver, occupied a seat within the rail this morning.

RECORD ATTENDANCE AT EXHIBITION YESTERDAY

Today is American Day at the fair and in spite of the somewhat threatening weather, there is a very satisfactory attendance this afternoon, the cars being all well-filled on the outward trip.

Secretary McGaffey and staff of the Vancouver Island Development League, have taken full advantage of the opportunity presented at the Fair—Fair to some valuable propaganda work, and that the most convincing evidence that this effort will prove of great and immediate benefit to this section of British Columbia.

The neatly fitted up booth of the League is situated just within the entrance to the main exhibition building. Yesterday proved an exceptionally busy time for the attendants, hundreds calling for pamphlets and leaflets and pending to say nothing of the thousands of questions which were asked by the visitors and answered.

This being "American Day" an even busier time is expected. Much admiration has been expressed regarding the three paintings of Campbell river scenes which surmount the booth of the League.

Hicks & Lovick
In the main hall, Hicks & Lovick have arranged a most creditable display of the celebrated pianos and organs for which they are agents. Among the different makes which they are exhibiting are: Mason & Hinch, Steck & Co., Henry Herbert, Pianola Piano and the removed Thomas organ. There is a large crowd around this exhibit all day long listening to the impromptu programme which is given on the pianola piano. Several paintings of Maynard, the famous Canadian artist, are being exhibited in connection with this display and included in them is an excellent picture of Beacon Hill park, which attracts the attention of all on account of its idyllic.

included in the exhibit of the Fletcher Bros., which is situated on the first floor of the Woman's Building, is the famous Bahning Player Piano, one of the best makes on the continent. The instrument is magnificent and one of its most striking features is the sweetness of tone. In this display there is an splendid assortment of Ghepard Heintzman pianos, showing the different styles of cases. Fletchers are also exhibiting Esty Baby Grand and Lansdowne pianos, as well as a number of Columbia graphophones and gramophones. Chairs have been placed around this exhibit and the public is invited to visit Fletcher Bros' stand and hear the entertainment which is given daily.

Montelius Piano House.
Although only established in this city a comparatively short time, the Montelius Piano House has gained an enviable reputation as the result of placing before the public goods of the first quality. This company has a very extensive exhibit of pianos, graphophones and other instruments at the exhibition.

Jamieson's.
An excellent display of tea, coffee and essences has been arranged in the main building by W. A. Jamieson, the Port street tea and coffee importers. His stand has been prettily decorated with yellow and white, and the exhibit of the various brands of tea and coffee is very attractive. Demonstrations are being given, which will prove beneficial to the young housewife, on the best way for the making of a delicious cup of tea or coffee.

ALASKA'S GOVERNOR WILL RETAIN OFFICE

W. E. Clark Announces Intention to Serve Full Term of Three Years
(Times Leased Wire.)
Juneau, Alaska, Sept. 30.—Governor Walter E. Clark has reconsidered his determination to quit his official post as governor of the territory and will stay the full term, three years. He made this announcement last night after he had been invited into the Juneau lodge of Elks.

Governor Clark said that when he came to the territory he promised the administration to stay a year at least. "I am satisfied now," he declared, "that it is best for me to stay on the job."

A Correction.
By a typographical error in the description of the arts exhibit in the Times-Mess-Chambers was credited with some of Mrs. Banfyde Daniel's best pictures—"Waiting," No. 44, a very beautiful pastel of a well known local young lady, "Daisy Chalmers," No. 28, a decorative portrait, and a clever and striking piece of work, No. 64, "My Sister," a fine-like sketch in water-colors, showing in the black veil covering the pleasant, matronly face those delicate touches in which Mrs. Daniel excels. Two faintly-tinted drawings by the same artist are also much admired.

The Circus.
Al. G. Barnes' animal circus is being attended by throngs of people and the very fine performance presented is a source of general favorable comment. There is a large collection of wild animals and the daring shown by their trainers is watched with eager interest. It seems almost incredible that the animals could be trained as these have been. The ring performances are very entertaining and a couple of mirth-provoking clowns keep the fun going.

SEATTLE MAN MURDERED.
New York, Sept. 30.—John McDaniel, a miner, was shot and instantly killed early to-day by members of a gang known as the "Forty Thieves." "Kid" Seery has been arrested. He admitted the shooting. Papers found in McDaniel's pocket show him to have been prominent in Seattle. A photograph of a girl taken by a Seattle photographer was among his effects.

New Orleans, La., Sept. 30.—The publishing plant of the New Orleans Times Democrat was partly destroyed by fire to-day. The loss is estimated at \$125,000, partly insured.

AEROPLANE VS. MOTOR.

Springfield, Ill., Sept. 30.—Barney Oldfield and Phil Wells will race ten miles as the feature event of to-morrow's motor races here, it was announced to-day.

Walter Brookins in his aeroplane and Barney Oldfield in his racing car, will run a "circular" race on a circular course. Brookins will receive a handicap of one mile.

INTERESTING DISCOVERY.
Remains of Early Christian Church on Mount of Olives Dates Back to B. C. 330.
Advices from Jerusalem are to the effect that recent excavations on the summit of the Mount of Olives resulted in the discovery of the remains of a "Christian church dating from about 330. The floor of the nave is still buried. That of the transepts is entirely exposed. It is of mosaic and is perfectly preserved. There is a baptismal pool in the south transept. One tombstone has been found, bearing the inscription "Theodosius" in Greek, which is quite legible. In the chance there are two separate mosaic floors of different designs, one thirty inches above the other. The lower is considered to be a floor of St. Helena's church, dating from 330, while the upper floor is a restoration by the Crusaders. The site is taken as the place where Christ taught the disciples how to pray.

Scaffold Collapses.
Seven Men Fall Twenty-Five Feet and One May Die.
Winnipeg, Sept. 30.—The scaffolding erected by the Manitoba Clothing Company, Main and Rupert streets, collapsed yesterday morning, throwing seven men twenty-five feet to the ground. S. Sensone, a bricklayer, a young Englishman, received internal injuries from which he will probably die. Three others are in the hospital. This was the building which partially collapsed last week while excavations were being made on an adjoining site for an hotel.

TWO TRAPPERS DROWNED.
Lose Their Lives by Capsizing of Canoe on Gulf Lake.
Winnipeg, Sept. 30.—After clamping to an upturned canoe for eight hours, and then walking sixty-five miles, Nicholas Elwood brought word of the drowning in Gulf Lake of W. T. Coleman, of Renfrew, Ont., and Albert Dixon, of Saskatchewan. The three were going into the bush for a winter's trapping.

THE PASSING SHOW

Majestic Theatre. "The Indian Raiders" is one of the big headlines for to-day and Saturday, an Indian picture which so faithfully reproduces the actual life of the plains that one wonders at the accomplishment. The picture is presented as a transcript of an actual occurrence which typifies much of the life of the part and preserves in permanent form scenes which have gone never to return. "The Affair of an Egg" is a case where a romantic country maiden writes a love message on an egg. The egg is served, and the young man before whom it is placed, seeks the writer. He finds her a splinter of uncertainty. The reason—egg has been in cold storage for more than twenty years. In "Tulips" the flowers are seen developing from the bud to the full bloom, thence through the various stages of fading and decay. An infinite number of pictures and a great deal of labor were required to secure this film, and now that it is done one wonders at its revelations. "Muggsy Becomes a Hero" is a comic film. Poor Muggsy is in trouble again but as usual comes out of it with flying colors. Miss McEwen will sing "Wedding Bells."

Crystal Theatre. A high standard of picture entertainment is being maintained at this house and the series of Big, Old Country sporting events, continues to draw large and enthusiastic crowds. "The Grand National" and "The Football Cup Tie" on the bill for to-day and Saturday are specials which are bound to please. "Getting Rid of Uncle" is a first-rate amuser. "One Good Turn" is a picture story in a very forceful manner. "Dots and Dashes" is a thousand-foot subject of real live merit. "Carlo's Devotion" is a splendid subject bound to appeal to all. "Big Drum" is another subject completing a fine programme, full of "go" and interest and suiting all tastes. Special children's matinee Saturdays.

BOURASSA'S PROPOSAL

Montreal, Sept. 30.—Henri Bourassa, the ultra-French leader, is advocating that French-Canadians confine their investments and savings to French banks.

THE ADVANCE MAN

Viola Allen in "The White Sister." "The White Sister," the new play which Miss Viola Allen, accompanied by James O'Neill and the greatest supporting company ever organized, including Minna Gale and Henry Stanford, brings to the Victoria theatre tomorrow evening, will be the third drama with the scenes laid in Latin countries in which the actress has appeared in six years, the two previous efforts being "In the Place of the King," a drama of old Spain, and "The Eternal City," a play of modern Rome, written by E. Marion Crawford and Hall Caine respectively. In each of these Miss Allen met with more than the ordinary measure of success, and by those who are entitled to express an opinion, "The White Sister" is considered full of possibilities for the actress that neither of the other two held.

"The story of the play," said Mr. Crawford, a short time before his death, "deals with a subject which was brought to my attention but a year ago. In this respect it was much like "The Cardinal," played by E. S. Willard, and which was written by Louis N. Parker. Both these plays had their origin in a bit of real life; both were told by a village priest, and both have become plays. I imagine Italy is full of such things as these, and yet they creep out to the surface very seldom. In the case of "The White Sister," which Miss Allen is to play, the situation is, I think, one which should appeal strongly to women—all women—for it deals with a girl who, while engaged to be married, feels it her duty when her fiancé is ordered to the front in pursuance of his duty as an officer of the Italian army, to let him go without a protest. When she discovers from the list of the killed that he is among them, she enters a convent. Unfortunately for her, the report of the young officer's death was erroneous, and he returns to find her behind the convent walls. To me it is a very pretty problem for woman-kind. In fact, I have often wondered what the average woman would do with such a situation as that, supposing she was placed in it. Of course I know what the real woman did in the story that was told me, which is the thing she does in the play, but when we deal with ideals upon the stage, and per-

haps the ideal woman is not a safe hazard in a matter such as this."

After the first performance a number of prominent Roman Catholics of Chicago were selected to attend a performance and report the peculiarities of "The White Sister" in their relation to the church. The result of the churchmen's visit was a statement issued by the Catholic publications to the effect that Miss Allen's play was based entirely upon fact, as far as the principles of the church were concerned, that Catholics would appreciate the play and enjoy it; that Miss Allen's characterization of the nun was beyond reproach; and that people of every sect and creed could find no objection to any part of the performance, as the delicate subject of religion in general and Roman Catholicism in particular was treated in a most unusual manner, with deftness and dramatic power.

THE MOTOR BOAT IN WINTER.

When the boat has been hauled up to its final position it should be supported by extra timbers under its keel and at the sides, and every precaution taken to render it damage-proof against the highest gales that blow. The craft should then be covered entirely with a protection of some sort to keep out the rain or snow. Even though the boat is of the cabin variety, and the interior can be closed tightly by means of the hatchways and ports, or windows, it is advisable to board over the entire hull, decks and cabin. While it is not absolutely necessary to cover every portion of the hull, wet weather, followed by the hot sun of Indian summer or early spring, may serve to dry out the planking or open up the seams, and consequently, if possible, it is advisable to enclose every part of the craft during the winter, even though considerable more time and labor will be required. The lockers should be opened and the covers of the seats removed to allow a circulation of air and to dry out the dampness that will have collected during the summer.

All fuel should be removed from the boat in order to make "assurance doubly sure." In addition to this, in case of fire and there is any difficulty with the insurance companies, it is better to be able to furnish proof positive that not a drop of gasoline was left in the boat or boat-house. The coils should be left in a dry place, but it will be useless to try to save the dry batteries, no matter how strong they may be, as they deteriorate so rapidly that they would be absolutely worthless for ignition purposes the next spring.—Lawrence LaRue, in October Outing.

CHAFED AND ACHING FEET

Make Walking a Misery to Many Who Do Not Know of DR. CHASE'S OINTMENT

How far can you walk without suffering in one way or another from discomfort to your feet? Modern footwear is a prison house and the result is chafed, scalded, inflamed feet. You can get a world of comfort by using Dr. Chase's Ointment when your feet give you trouble. This treatment is so delightfully soothing and healing that it helps you as soon as applied. Unlike unsanitary powders, which clog the pores, Dr. Chase's Ointment makes the skin soft and smooth and prevents corns and bunions. When the feet are chafed, scalded, itching and tired it takes out the stinging and burning and its benefits are both quick and lasting. Do not let anyone talk you into accepting a substitute. If your dealer does not have Dr. Chase's Ointment clip this ad, and mail it to us for a free sample box. Edmondson, Bates & Co., Toronto.

PRIZE WINNERS AT HORSE SHOW

(Continued from page 1.)

The proceedings opened with sixteen entrants appearing in the combination horses event, mare or gelding, to vehicle, animals to be unharnessed and ridden under saddle in the ring by the drivers. Dr. Greenidge took 49 minutes to separate the first three from the entries, so close and keen was the competition. It was noticeable that all horses last night were driven without the check rein. The award was finally made, for first to "The Moor," a six-year-old black gelding exhibited by Miss Helen Farrell, Seattle. "Lee's Eagle," from the Riverside Farm, Renton, Wash., took the red ribbon and third place was won by "Comrade," a three-year-old brown gelding owned by W. S. Holland, Vancouver.

Seven entries, four from Dixi H. Ross & Co., two from the West End Grocery, and one from the Bakeries, Limited, came under the judge's eye in the three-year or over, mare or gelding, under 1,300 pounds, shown to four wheel city delivery carts, and a splendid black mare, "Lady Dixi," received the honor award, while her stable mate, "Silver R," a handsome grey, over which the judge pondered long before giving the first award, was announced second.

Dixi Ross, with one and two, had to be content in this event for the West End Grocery Company's "Shorty" gained the third ribbon. Saddle horses, novices, 15.2 and over, three years and over, brought out eight competitors and the winner was found in Miss Violet Pooley's handsome seven-year-old brown mare, a beautiful stepper, which wore her blue ribbon proudly. The verdict was extremely popular and the mare and her rider were loudly applauded as she cantered round the ring after having received the decorations.

The Riverside Farm, Renton, with a brown gelding six years old, "The Parson," took the second ribbon and third was secured by a Calgary seven-year-old gelding, "Why Not," exhibited by L. Durand.

In this event one mare proved wild in the ring and, after kicking on several occasions and having sent her hind heels into the withers of another competitor, was ordered by Dr. Greenidge to leave the ring. The six-year-old bay gelding "Belle Star," ridden by Samuel McCleaver, a boy still in his teens, and owned by Mrs. Dave Spencer, was not placed, but the exhibit drew much attention to the youngster who rode it, and who showed hands and seat as good as any of the green people who were in the ring, and better than some of them.

In Shetland pony to harness first prize was won by "Trinkets," exhibited by Robt. Thorburn, Vancouver, driven by a little girl, and shown in a stylish pony cart. There was only one other competitor, "Sonny," exhibited by Mrs. F. W. Hall. "Sonny" tried to make a race of it round the ring, but as he was stubborn on occasions of the turns he had to be content with the red.

In the competition between pairs of mares or geldings shown to a Victoria, the Victoria Transfer Company entered two pairs that received a round of applause, which died down suddenly as "Highland Laddie" and "Brighton Pearl" attached to a stylish equipage, entered the ring, with coachman and footman on the box, arrayed in the most correct and fashionable groom's uniforms. The trappings of this pair, their stepping and action, drew forth a burst of applause, but the handsome exhibit gained only second prize.

The first went to "Sweet Briar" and "Culraven Queen," exhibited by W. S. Holland, Vancouver, two fine young animals. The equipage was not nearly so smart as the S. L. Howe entry and the Victoria was dirty and lacked neatness, while the coachman and footman were not uniformed in the same style. The Howe entry, however, refused to stand, the restive horses having to be driven round the ring to quiet them and award one went to the Holland exhibit.

The most popular event of the evening was the jumping, in which twenty entries went over the hurdles. "Haida," the first horse out, an exhibit of W. H. B. Medd, Victoria, set a score of six clear jumps, each taken in the stride, without a balk, which the other exhibitors could not make. "Sarcie" balked and refused three times, being disqualified. "Earliest" made three jumps, struck the hurdles twice, and cleared the last. "Ruby," with young Samuel McCleaver, refused twice, and made four clear jumps, but the horse did not take off well. The boy was too small to bring his mount well over without trouble, but his loud and ringing "Hip Hip," to the horse as he brought it to the hurdle caused great amusement and made the lucky youngster very popular. The lad took a seventh hurdle for luck and cleared the brush in good style with a last "Hip" as the horse rose in the air.

"Never Mind" made five jumps and a fault. Mrs. George E. McDonald and "Pedro," made six clean jumps; "Sport," with Miss C. Davie of Victoria, up, balked and was taken from the ring. "Miss Pooley" and "Stella," cleared four hurdles and the mare then cast a shoe, and at the next hurdle kicked the top rail but made the final jump successfully.

"Comrade," "Flash," "Golden Crest" and "Muskrat" all made six clean jumps, but not one of them took the hurdle with the grace and stride of "Haida." "Comrade," exhibited by W. S. Holland, Vancouver, gained the second ribbon, and "Flash," exhibited by Victor Spencer, gained the third.

The Inverholme stock farm showed the best pair of draught horses to vehicle; J. Richards, Victoria, second, and the Pemberton stock farm third. For horse 14.3 to 15.2, to runabout.

Pair of mares or geldings, 15.1 and over; to be shown to a Victoria—1, Sweet Briar and Culraven Queen, exhibited by W. S. Holland, Vancouver; 2, Highland Laddie and Brighton Pearl, exhibited by S. L. Howe, Vancouver.

Combination horses, mare or gelding; to be shown in an appropriate vehicle and judged for a horse best suited for harness purposes. The horse to be unharnessed in the ring and shown under saddle—1, The Moor, exhibited by Miss Helen Farrell, Seattle; 2, Lee's Eagle, exhibited by Riverside Farm, Renton, Wash.; 3, Comrade, exhibited by W. S. Holland, Vancouver.

Shetland ponies, in harness, not to exceed 12 years of age, to be shown in a harness, not to exceed 12 years of age, to be shown in a harness, not to exceed 12 years of age.

Pair of mares or geldings, three years and over, under 1,300 pounds, used for city delivery, shown to four-wheeled vehicle—1, Silver R, and Lady Dixi, exhibited by Dixi H. Ross & Co.; 2, Why Not, exhibited by L. Durand, Calgary.

The horse to be unharnessed in the ring and shown under saddle—1, The Moor, exhibited by Miss Helen Farrell, Seattle; 2, Lee's Eagle, exhibited by Riverside Farm, Renton, Wash.; 3, Comrade, exhibited by W. S. Holland, Vancouver. Saddle horses, novices, 15.2 and over; three years and over, brought out eight competitors and the winner was found in Miss Violet Pooley's handsome seven-year-old brown mare, a beautiful stepper, which wore her blue ribbon proudly. The verdict was extremely popular and the mare and her rider were loudly applauded as she cantered round the ring after having received the decorations. The Riverside Farm, Renton, with a brown gelding six years old, "The Parson," took the second ribbon and third was secured by a Calgary seven-year-old gelding, "Why Not," exhibited by L. Durand. In this event one mare proved wild in the ring and, after kicking on several occasions and having sent her hind heels into the withers of another competitor, was ordered by Dr. Greenidge to leave the ring. The six-year-old bay gelding "Belle Star," ridden by Samuel McCleaver, a boy still in his teens, and owned by Mrs. Dave Spencer, was not placed, but the exhibit drew much attention to the youngster who rode it, and who showed hands and seat as good as any of the green people who were in the ring, and better than some of them. In Shetland pony to harness first prize was won by "Trinkets," exhibited by Robt. Thorburn, Vancouver, driven by a little girl, and shown in a stylish pony cart. There was only one other competitor, "Sonny," exhibited by Mrs. F. W. Hall. "Sonny" tried to make a race of it round the ring, but as he was stubborn on occasions of the turns he had to be content with the red. In the competition between pairs of mares or geldings shown to a Victoria, the Victoria Transfer Company entered two pairs that received a round of applause, which died down suddenly as "Highland Laddie" and "Brighton Pearl" attached to a stylish equipage, entered the ring, with coachman and footman on the box, arrayed in the most correct and fashionable groom's uniforms. The trappings of this pair, their stepping and action
