GIANTS TURN TABLES ON THE BOSTON RED SOX

New York Won by Score of 2 to 1—Marquard Twirls Wonderful Ball—Teams Even in Championship Race

New York 2
Boston 1

Penway Park, Boston, Oct. 10.—Twenty thousand spectators passed through the turnstiles of Fenway Park today to witness the Boston American League champions engage in the third contest with the New York Nationals for the world's championship. All Boston paused to catch its breath today. A reaction from the exhausting excitement of yesterday's eleven-inning struggle was inevitable, the Red Sox owners said, and pointed to many empty seats in the outfield stands as an evidence of this reaction. Instead of playing the game to-day instead of to-morrow made it impossible for hundreds, unable to adjust their business engagements on such short notice, to attend.

A warm sun and a gentle northerly breeze at noon dispelled the clouds that had threatened rain all the morning. The smart showers during the night had little effect on the infield. Prospects for playing to-day's game were dubious until an hour or two after sunrise. Then the sun shone brightly on the rain-drenched grounds. The rain failed to dampen the spirits of a small number of fans who sheltered by boxes, boards and newspapers, kept their places at the bleacher gates through the night, despite the downpour. One man, who saw yesterday's game, said he had seen yesterday from the grounds in thirty-six hours only long enough to get shaved.

There was much uncertainty over the reserved seat tickets for to-day's game. The Boston club had sold single tickets for three games, numbered one, two and three. Yesterday check No. 1 was punched. To-day was called game No. 2, and it was announced that the next game in Boston would be game No. 3. Regarding the tickets sold in New York for the second game in that city, which was to have been played to-day, it was said at the local offices that these tickets would be good to-morrow.

Darkness ended yesterday an exhausting struggle and one particularly hard on the pitchers. New York has two pitchers who need rest—Tresreau, who was knocked out of the box in the opening game of the series in New York last Tuesday, and Mathewson, who finished yesterday's game under a severe physical strain. "Matty" said to-day: "It was the hardest game I ever went through. I certainly felt all in when it was over." Marquard and O'Brien had been primed to pitch in the third game of the series, but it had been expected that the game would be played in New York and it was McGraw's object to bring Marquard into the box before a home crowd. The Giant southpaw needs sympathetic surroundings to be at his best.

The batting order is:
Boston—Hooper, I. F.; Yerkes, 2 b.; Speaker, C. F.; Lewis, I. F.; Gardner, 3 b.; Stahl, I. b.; Wagner, s. s.; Carrigan, C.; O'Brien, p.
New York—Devore, I. F.; Doyle, 2 b.; Snodgrass, C. F.; Murray, I. F.; Merkle, I. b.; Herzog, 3 b.; Meyers, C.; Fletcher, s. s.; Marquard, p.

The Bostonians were the first on the field for batting practice. The Giants came on the field soon afterwards. Reports that several players of both teams would insist that the team members share, not only in the receipts of yesterday's tie contest, but in the next three games as well, including the New York game last Tuesday, would make five games in all, were scouted by members of the national commission. A rule to cover the question of the games was drafted some time ago by the national commission. The two world series games this year have set a new total record. Although the attendance at the game in New York fell 3,000 short of the figures for last year's opening game in the same city, the total for the two games of the present series is 7,311 greater than for last year's first two contests. Last year 41,567 persons saw the first two games.

THE GAME.

First Inning.
New York.—The first pitch was a ball. Devore singled to centre, after having three balls and two strikes called on him. Umpire Evans was behind the bat. Kiern made the base on errors: Rigler went to right field, and O'Loughlin went to left field. Doyle fled to Speaker. It was an attempt at the hit-and-run play. Devore was out stealing, Carrigan to Wagner. Devore was blocked six feet from the bag. Snodgrass out on a fly to Speaker. No runs, one hit, no errors.

Second Inning.
New York.—Murray made a two-bagger to right centre. Merkle sacrificed, and was out O'Brien to Stahl. Murray taking third. Murray scored on Herzog's sacrifice fly to Hooper, whose throw to the plate failed to catch Murray. Meyers was out Gard-

doubled up Meyers by a line throw to Stahl. No runs, one hit, no errors.
Boston.—Speaker popped up a high fly to Fletcher. Lewis scratched an infield hit. Lewis scored on Gardner's double to right. Gardner was out when Marquard took Stahl's grounder and threw to Herzog, who touched the Boston runner before he could reach the bag. Hendrickson ran for Stahl. Hendrickson made third when Fletcher took Wagner's grounder and threw wildly to first. Wagner stole second. Devore caught Cady's long fly. One run, two hits, one error.

(Concluded on page 2.)

FARM PRODUCE.

Decline in Prices in United States During September.

Washington, D. C., Oct. 10.—Farm prices of the important crops declined 5.5 per cent. between September 1 and October 1 against a decline of 2.5 per cent. in the same period last year and an average decline of 3.1 per cent. during September of the last four years.

THIRTY YEARS' TERM.

Rome, Oct. 10.—For attempting to assassinate King Victor Emmanuel on March 14 last, Antonio Dalba yesterday was sentenced to thirty years' penal servitude.

SAFEGUARDING LIFE AT SEA

REGULATIONS DISCUSSED IN HOUSE OF COMMONS

Eighty Per Cent. of British Vessels Have Adequate Lifesaving Apparatus

London, Oct. 10.—During the debate in the House of Commons on the proposed lifesaving regulations for shipping, drawn up by the Board of Trade, it was stated that there had been a vast reduction in the loss of life at sea, notwithstanding the enormous expansion of shipping. The White Star line fleet had carried seven million passengers without one loss up to the time of the Titanic disaster. It was declared during the debate.

A plea was made for rafts in place of lifeboats as being the safer in time of accident.
Mr. Holt, M. P. of the Holt Steamship line, argued that if it was imperative to improve construction in order to attain greater safety, the shipowners should pass their charges on to a public body.
Lord Charles Beresford argued that it was of utmost importance that ships should be built to float as long as possible after an accident, because the value of a vessel's lifesaving apparatus would depend upon such floating.

That Lord Charles was relying on the stability of ships was the opinion ventured by Sydney Buxton, president of the Board of Trade. Such a reliance, he considered, should not be absolute. Passengers often depended for safety on lifeboats, and future ships should most certainly have adequate lifesaving apparatus. Concluding, Mr. Buxton said he thought that if 80 per cent. of the British vessels were sufficiently provided with such apparatus, then it was not asking too much to insist that the rest adopt the same standard.

GIRL STOWAWAY ON PACIFIC STEAMER

Found on Liner Lurline After Vessel Sailed From San Francisco

San Francisco, Cal., Oct. 10.—Officers of the liner Lurline, just returned from Honolulu, brought word that on the outward trip a young woman stowaway had been discovered, an occurrence unique in Pacific Coast marine annals.

The stowaway, Miss Laura Baker, of Venice, Cal., a pretty girl of 20, went on board as a visitor, and mingling with the passengers, escaped detection until well out to sea. She was put to work as an assistant to the stewardess. A desire to travel was her only motive, she said.

CRUSHED TO DEATH.

Toronto, Ont., Oct. 10.—James Doble, a contractor of 24 Saunders avenue, was killed by the falling of a wall of the old Baptist church, on Queen street and Lansdowne avenue yesterday. Several workmen engaged in removing the structure were caught in the fall of the wall and badly bruised. Doble was caught in the wreckage and died two hours later in the Western hospital. The upper part of the building was being demolished to make way for the erection of the new Parkdale assembly hall on the old foundation.

POWERS ACTIVE IN CAUSE OF PEACE

MORE ENERGETIC INTERVENTION LIKELY

Band of Greeks Suffers Heavy Loss During Attack on Turkish Post

Constantinople, Oct. 10.—More energetic intervention by the powers in order to prevent the outbreak of hostilities on the part of Bulgaria, Serbia and Greece, and to bring about a cessation of the war with Montenegro, is said to be contemplated to-day.

Shots are reported to have been exchanged to-day between the Turks and Bulgarian troops occupying advanced positions on the Turco-Bulgarian frontier at Timush and Kilsura.

The Sultan went to Top Kapu palace yesterday to pray over the relics of the prophet for the success of the Ottoman arms.

It is officially announced that the preliminaries in the peace settlement between Italy and Turkey will be signed Sunday.

Greek Premier's Views.

Athens, Greece, Oct. 10.—The Greek premier, Elefthero Venizelos, still hopes for peace. Addressing a great crowd which had gathered outside his residence late last night, he said: "I still hope that peace will be maintained. Our allies do not desire to make conquests, and what we desire is also conquests, and the interests of the neighboring powers, and represents a first and indispensable condition for the peaceful co-existence of the Balkan peoples and the Ottoman Empire."

The crowd greeted his words with cries of "Hurrah for War," upon which he repeated word for word that which he had already said.

Reply to Powers.
London, Oct. 10.—A Belgrade dispatch says the reply of Serbia and Bulgaria to the powers is negative. The formula is now being discussed by the allied cabinets.

Heavy losses were inflicted by the Turkish troops on a band of Greeks numbering 1,000 men, who attacked to-day a Turkish frontier post near Dhisakala. They were driven back over the frontier, according to a news agency dispatch from Salonica.

The daily Mail's Vienna correspondent quotes the following dispatch from Ottenitza, Roumania, to the Neues Wiener Tagblatt:
"A massacre occurred yesterday (Monday) at Turukal, Bulgaria, near the Roumanian frontier.

"Egged on by agitators from Rustchuk, armed Bulgarians attacked the Turkish inhabitants at the dead of night, pillaged their houses and started a wholesale slaughter, even women and children being sacrificed."

"The Turkish quarter presents an awful spectacle. Piles of corpses are lining the streets. Only a few Turks succeeded in escaping to Ottenitza, which is just across the Roumanian border. A witness of the massacre states that Bulgarian police participated in the slaughter and pillage."

Massacre by Montenegrins.

Vienna, Oct. 10.—Many Albanian villages to the north of the Boyanar river are in flames, according to a dispatch to the Neue Freie Presse from Cattaro. Many fugitives, including some wounded men, already have arrived at Scutari. Some peasants who fled to the frontier posts at Szames were slain by Montenegrins.

Turkey Seeks Money.

New York, Oct. 10.—A dispatch states that the Turkish government has applied to J. P. Morgan & Co. for a loan of \$50,000,000 to finance the Balkan war. If the application is granted it may lead to international complications.

Issues Proclamation.

Cettinje, Montenegro, Oct. 10.—King Nicholas has issued a proclamation summoning the Montenegrins to immediately to the assistance of their brethren in Old Serbia, where he declares women and children are being massacred.
"Montenegro had hoped to secure the liberation of the Servians in Turkey without the shedding of blood, but peaceful endeavors proved unavailing," continues the proclamation, "and no other recourse was left but to take up the sword."
"We are assured in this holy undertaking of the sympathy of the whole civilized world, and we will have the loyal assistance of the Kings of Serbia, Bulgaria and Greece and their peoples who have ranged themselves with the Montenegrins like brothers."

RAILWAY WAR.

Hostilities Between Harriman and Gould Interests May Be Renewed.

Portland, Ore., Oct. 10.—Railroad men of this city agitated in the issuance of an order effective November 4 by the Harriman roads, closing the Salt Lake gateway to the Denver & Rio Grande railway, a renewal of hostilities between the Gould and Harriman interests.

The move, which will effectively bar, it is said, the D. & R. G. from competing in freight business originating east of Denver or west of Salt Lake and destined for Pacific Northwestern points, is believed here to be a retaliatory move by the Harriman interests upon the Goulds for extending their roads to the Pacific coast and proposing to build into Oregon.

VANCOUVER MYSTERY.

Vancouver, Oct. 10.—That deceased came to his death by some means unknown to the jury and by parties unknown, was the verdict returned by the coroner's jury at the inquest on a man named Spinard, who was found unconscious recently on a downtown street, dying soon afterwards at the hospital. None of the witnesses examined was able to throw any light on the man's death or how he came to be in the condition in which he was found.

DUKE'S TERM MAY BE EXTENDED

LIKELY TO REMAIN IN CANADA UNTIL 1914

Prince of Wales and Prince Albert Will Be Welcomed by Their Relative

London, Oct. 10.—It is almost certain that the Duke of Connaught's term in Canada will be extended another year, says Truth, which generally is reliable in such matters.

Continuing, Truth says: "It is very desirable that he should be at the head of the Canadian government when the Prince of Wales and Prince Albert visit Canada in 1914. The extension of the Duke's term will be very popular in Canada. The Duchess of Connaught and Princess Patricia are coming to England for a few weeks' visit in April of next year. They will visit the Crown Prince and Princess of Sweden at Stockholm, and it is probable that the latter will visit Canada next autumn."

PRISONERS BREAK JAIL.

Kenora, Ont., Oct. 10.—Late Tuesday night two prisoners, one Edward Bradford, under sentence at Central Toronto, the other, Arnold Ebert, sentenced to five months in jail, broke their prison by sawing through a panel of their door, gaining the corridor, and making their escape through a window.

It is said Ebert claimed to have a trunk in a stable at Norman, and it is likely that the pair made in that direction, for Mr. Dunochie, proprietor of the stable, reported to the police that a person had entered the stable last night, opened one of the trunks and taken sundry articles.

CHICAGO POLICE OFFICERS DISMISSED

Lose Place as Result of Escape of Two Bank Robbers

Chicago, Oct. 10.—Police Captain J. Mahony and Lieut. Bernard J. Burns were discharged from the police department to-day because of the escape from Chicago, September 10, of two of the members of the gang that robbed the Bank of Montreal at New Westminster, B. C.

Burns attempted to arrest the two robbers single-handed and was beaten nearly to death.

KILLED IN COLLISION.

Chicago Junction, Ohio, Oct. 10.—Engineer Rananah, of Garrett, Ind., was killed and Fireman Leland of the same place was fatally injured in the collision here to-day of Baltimore & Ohio passenger train No. 4 and a string of freight cars, left on the main track. Five mail clerks were hurt, none fatally. None of the passengers were injured.

FORGED RELEASE ORDERS.

Omaha, Neb., Oct. 10.—Discovery of forged orders for the release of prisoners in the county jail was announced to-day. Investigation as to how many of these forged orders have been honored is now being made by the county officials.

MOVEMENT FOR GOOD ROADS

HIGHWAY ASSOCIATION MEETS AT WINNIPEG

President Kerr Tells of Work Carried on in British Columbia

Winnipeg, Oct. 10.—The second annual convention of the Canadian Highway Association, opened yesterday morning in the board room with his worship, Mayor Waugh, in the chair. A number of out-of-town delegates were present and the morning session was spent in reading the minutes of the first convention held last year in New Westminster.

The details of the British Columbia highways was put forth in the report and the possibilities of even greater times in building roads from the United States into Canada was one of the features of the report.

W. J. Kerr, president of the Canadian Highway Association, and the man who has done so much for the good roads movement, made a brief speech on the work that had been done in British Columbia and showed very convincingly that only in British Columbia has the movement accomplished any big results, but he stated that all the provinces from British Columbia to Ontario have shown a keen interest to follow in the footsteps of British Columbia. In order to bring about satisfactory results he felt that a committee should be selected from the assembled delegates from the different provinces to draw up plans for the development of the good roads movement which would be practical in their respective provinces.

For this purpose J. McGeorge, of the Edmonton Board of Trade; Reeve Yeoman, of Kildonan; and R. M. Yeoman, of the Toronto city council, were appointed a committee of three to draft resolutions regarding the development of the highway movement.

The delegates represented prominent positions in the three prairie provinces, with several members of the movement from Ontario. Those present at yesterday morning's meeting were Mayor Waugh, W. J. Kerr, New Westminster; James McGeorge, Edmonton Board of Trade; J. A. Gould, Edmonton city council; H. M. Belcher, president of the Winnipeg Automobile Club; James Weidman, Kesteven, Ont.; Board of Trade; J. B. Barbour, municipality of Lockwood; A. E. Wilson, George Thomson, and A. D. Davidson, members of the Indian Head Rural Municipalities Association; I. E. Argue, member of the Swift Current Board of Trade; T. C. W. Pickwell, Toronto Motor Magazine; Frank E. Mutton, Toronto Automobile Motor League; Robert M. Teasdale, Toronto city council; George M. Reeve, Red Deer, Alta.; J. A. M. Lane, St. Boniface city council; Robert McBeth and S. R. Henderson, Kildonan, members of the Manitoba Good Roads Convention; W. F. Tallman, Winnipeg; and C. F. Boland, secretary of the Industrial Bureau.

FORMER M. P. DEAD.

Digby, N. S., Oct. 10.—Albert J. S. Copp is dead after a lingering illness, aged 51 years. He is survived by a widow and two daughters. He was admitted to the Nova Scotia bar in 1879. In 1896 he was elected representative for Digby county at Ottawa. He was again elected in 1900 and in 1904. In 1908 he was defeated by Clarence Jameson.

AUTO DRIVER FACES SERIOUS CHARGE

Held Responsible for Death of Man Who Was Run Over by Machine

Vancouver, Oct. 10.—Richard Toynbee lies in a police cell charged with responsibility for the death of James F. Gray, through his negligent driving of an automobile on Fourth avenue last Monday night. Owing to the serious nature of the charge bail has been refused.

Yesterday afternoon Coroner Jeffs held an inquest on Gray's remains, and it was chiefly due to the evidence of S. Young, of 1851 Third avenue west, the only eye-witness to the affair, that the jury returned the verdict. That he died at the General hospital, Vancouver, B. C., October 7, 1912, by being run over by an automobile in charge of Toynbee through neglect, in running his machine on the wrong side of the street, earlier the same day, on Fourth avenue at Cypress street.

Guilty of Manslaughter.
A verdict of guilty was returned by an assize jury yesterday against H. C. Hughes, who was charged with manslaughter. Hughes was accused of taking a motor car while intoxicated on the evening of August 8, 1912, and while driving recklessly around the downtown district running over Charles Faus, who died of his injuries.

NO COMPROMISE ON HOME RULE

REPORTED NEGOTIATIONS DENIED BY J. REDMOND

Bonar Law Objects to Government's Proposal to Curtail Debate

London, Oct. 10.—Home rule is the big topic of conversation in Great Britain at the present moment.

In the House of Commons last night further discussion on the time of closure for the debate on the measure took place. It was finally decided that of the 23 days allotted for the discussion and consideration of the bill, 25 would be taken up for discussion in committee, five for the report stage, and two for the third reading.

No dilatory motions will be permitted and the adjournment of the House will take place every night, not later than half an hour after the conclusion of government business.

John E. Redmond stated yesterday that the rumor to the effect that negotiations were in progress for the cancellation of Ulster by leaving it out of Home Rule, were absolutely false. No such scheme, he tersely concluded, had ever been suggested.

An amendment to the closure motion as applied to the debate on the Home Rule measure will be moved in the House. Mr. Bonar Law gave notice to this effect yesterday.

His motion is "that the bill which proposes to establish a separate parliament in Ireland, is in defiance of the clearly expressed wish of a great section of the people, and is the first step in the creation of a separate legislature throughout the United Kingdom, and has not received the support of the country. The measure requires a full and unfettered consideration of the House, and this House declines to apply any restriction to the discussion."

SUBMARINE HAS BEEN LOCATED

WILL BE FLOATED

Several Holes Cut in Conning Tower of Boat by Liner Amerika

London, Oct. 10.—The sunken submarine B-2 has at length been located, and a diver has proven that the boat was not cut in two as originally reported, but that there were several holes in the conning tower.

The submarine, which was rammed by the Amerika, had baffled all attempts to locate her on the part of searching destroyers until yesterday, when the drags employed in the search struck a foreign object and the destroyers were stopped over the spot.

Oil was poured into the sea at this locality, and a diver was sent down to investigate the cause for the striking of the grappling irons.

After being under water for a considerable period, the man reported the sunken submarine was lying on her side at the bottom. Several holes, some six feet wide, had been knocked in the B-2's conning tower.

Although the Admiralty had decided to abandon the search for the sunken vessel, and hold a funeral service at the place where the ramming took place, the vessel will be hoisted and taken to shallow water, where she will be patched up and then removed to the dock at Chatham.

STUDENTS WILL APPEAL.

Seattle, Wash., Oct. 10.—In accordance with regulations passed by the board of regents last spring, President Thomas F. Kane of the University of Washington yesterday informed the political clubs composed of undergraduates that they would not be permitted to have speakers on the campus unless consent is obtained from the board. As a result of President Kane's announcement a meeting last night by Dudley G. Wootton, formerly a representative in congress from Texas, was cancelled and invitations to other speakers are being withheld. The regents will meet next Tuesday and will be asked to repeal the rule.

GIRL SEVERELY BURNED.

Edmonton, Alta., Oct. 10.—Virginia Steel, seven years of age, was so burned about the legs, arms and body when her clothing caught fire from a bonfire that it will be necessary for her mother to give up a large amount of skin for grafting to save the child. Mrs. Steel also was badly burned in extinguishing the flames that were threatening the life of her daughter.

TO ABOLISH CROSSINGS.

Edmonton, Alta., Oct. 10.—Special efforts are to be made this fall by the city to get the Canadian Northern and the Grand Trunk Pacific railways busy building subways at the various level crossings. An order asking these two railways to arrange for the use of one set of double tracks from the eastern boundary of the city to First street, also will be sought.

ROYAL PARTY VISITS ALBERTA TOWNS

WARM WELCOME AT MACLEOD AND LETHBRIDGE

Indians Join in Reception at Old Fort Whoop-Up—Addresses Presented

Macleod, Alta., Oct. 10.—On the arrival of the royal train at 11 o'clock yesterday their Royal Highnesses the Governor-General, the Duchess and Princess Patricia, were received by a great assemblage of the people of Macleod and the surrounding country and escorted to the city hall, where in reply to the civic address His Royal Highness made a reply in which, referring to an expression in the address of welcome in regard to the large number of settlers from across the boundary in this section, he took occasion to add one more to the notable utterances which are signalling the present tour. His Royal Highness said:

"I am well aware that among those whom I am now addressing there are a very great proportion who were not born under the British flag. Most of these will have realized by now that residence under that flag implies no disabilities; all we ask is that the laws of Canada should be obeyed. With this provision everyone is free to come and go, to marry, to live and die as seems best to him and as it pleases Providence. We bring no pressure to bear on anyone to adopt the Canadian nationality for we do not value citizenship which is obtained under compulsion.

"Our American cousins are welcome from over the border. Thrice we welcome our Canadian and British brothers who return to the Union Jack after living under the Stars and Stripes. History is repeating itself. For many years hundreds of young Britishers have sought fortune in the western States; time has brought about a change and the tide has set in the other direction, bringing across the frontier numbers of our neighbors, and whom we are glad to see here."

After the proceedings at the city hall, which included the presentation to their Royal Highnesses of souvenirs of old Fort Whoop-Up, there was a motor drive around the town. The programme for the stay of the royal visitors included for the afternoon an Indian display by Bloods, Piegans and Blackfeet, who were in town in great numbers. Total Three Persons, the Blood who so distinguished himself at the Calgary "Stampede," and whom the Duchess and Princess Patricia saw ride the Oklahoma horse Cyclone, gave an exhibition of riding.

At Lethbridge, Lethbridge, Alta., Oct. 10.—Leaving Macleod, after a six-hour stay there, the Governor-General's train arrived here at a quarter past five, making no stop on the way. At Macleod Premier Sifton joined the royal party. On the arrival here, their Royal Highnesses were taken in carriages for a drive through the principal business streets, previous to the presentation of addresses of welcome, which ceremony took place in a pavilion in the park which forms the centre of the city.

The streets through which the procession passed were crowded with cheering thousands. In reply to the civic address of welcome, presented by Mayor G. M. Hatch, the duke said:

"Your worship and gentlemen, I beg you to accept my very best thanks, as well as those of the duchess and my daughter, for your address of welcome. It gives me the greatest pleasure to visit your city and to witness for myself the progress you have made. I look forward to seeing you, your exhibition grounds and your lake, of which I have already heard, and which are reported to be thoroughly worthy of what your city will one day be.

"The dry farming congress, which will shortly be in session here, excites my greatest interest, and my only regret is that my duties will prevent me from being present. It is a trust that the citizens of Lethbridge and those who live in the vicinity will draw the greatest benefit from the deliberations of the congress; every branch of agriculture will be touched upon, and there will be many lessons to be learned, not only by those who are seeking to make the most of indifferent soil, but also by those who farm land of the better quality. It will be a cause of great satisfaction to His Majesty the King to receive your loyal and dutiful message, for I am sure you are well aware of the great interest with which His Majesty watches the progress and development of every part of his overseas dominions."

The address from the Lethbridge Overseas Club was read by the secretary of that organization, T. W. Clark, and in replying to it His Royal Highness spoke as follows:

"Gentlemen, I have much pleasure in receiving your address, for it gives me an opportunity of saying in person how very fully I sympathize with the objects of the Overseas Club. Your task will not always be an easy one, for mischievous and foolish people will sometimes misunderstand your intentions and will try to invest your work with a political character, which those who have the interests of the club at heart do their utmost to avoid. During his recent visit to Canada, I was very glad to receive a visit from Mr. Evelyn Wrench, your organizer, to whose imagination and energy is due the existence of the club. You are to be congratulated that you have at the helm so wholehearted and strenuous a man, whose youth promises you many years of valuable service and whose entire existence is devoted to his self-imposed task. Your membership is marching proudly on towards the one hundred thousand mark, and in tendering to

the Lethbridge branch my heartfelt wishes for their future, I tender them also to the entire Overseas Club, with the hope that their numbers may always continue to increase, and their work may spread further and further afield, to the lasting benefit of the British empire."

COUNSEL OUTLINES PLANS OF DEFENCE

Declares Men on Trial at Indianapolis Are Lovers of Peace

Indianapolis, Ind., Oct. 10.—What the defence will be in the trial of the forty-five men accused by the government of complicity in the "dynamite conspiracy" was outlined by William N. Harding, attorney for the defendants.

Mr. Harding said it would be shown that the executive board of the International Association of Bridge and Structural Iron Workers never appropriated a dollar to be used for dynamiting. If any one connected with the purpose, the guilty persons, he said, it would be shown, were not among the defendants present.

Referring to letters written by Frank M. Ryan to various business agents, which the government quoted as showing that "jobs" was the term used to designate explosions against employers of non-union labor, Mr. Harding said it would be shown that "jobs" meant only new work which offered opportunity for union men to get employment. He added it would be upon the very letters which the government quoted in the indictments that the defence would rest its case.

The district attorney had just completed an address of twenty-three hours, covering five days. In concluding he described the arrests of J. B. McNamara and Orrie E. McNamara, at Detroit, saying that while in the hands of detectives McNamara had offered first \$5,000 and then \$30,000 if they would free him.

"McNamara said it was no use to arrest him, for behind him he had the iron workers' union, and behind the union the American Federation of Labor," said Mr. Miller. "He said he would raise \$50,000 and employ Clarence Darrow to defend him."

After the proceedings at the city hall, which included the presentation to their Royal Highnesses of souvenirs of old Fort Whoop-Up, there was a motor drive around the town. The programme for the stay of the royal visitors included for the afternoon an Indian display by Bloods, Piegans and Blackfeet, who were in town in great numbers. Total Three Persons, the Blood who so distinguished himself at the Calgary "Stampede," and whom the Duchess and Princess Patricia saw ride the Oklahoma horse Cyclone, gave an exhibition of riding.

ORIENTAL MISSION WORK IN WEST

Rev. A. M. Sanford, Member of Committee of Methodist Brotherhood

Toronto, Oct. 10.—Rev. A. M. Sanford, of Vancouver, took issue at the meeting of the Methodist Brotherhood Mission at Brantford with a stringent resolution of Rev. Dr. George J. Bond, of Halifax, which was intended to censure certain wealthy churches for small gifts to missions. There was a tense situation for a short time. Rev. Mr. Sanford was elected to the western section of the committee having charge of the Oriental work.

ATTORNEY-GENERAL WINS Decision in Action Entered on Behalf of Patient in Hospital for Insane.

Vancouver, Oct. 10.—On the grounds that the property was purchased at an inadequate price to the knowledge of the purchaser, and that the defendant knew that the man from whom he agreed to purchase was at least not a fit person to make a bargain on his own behalf, Mr. Justice Murphy yesterday afternoon, in the supreme court, delivered an important judgment in favor of the attorney-general, establishing what is probably a precedent in this province.

On March 12, 1911, John McDougall entered into an agreement with George A. Mackenzie to buy a lot at Central Park for \$1,000, the terms being \$100 down and \$10 a month without interest. On April 10, 1911, Mackenzie was placed in the hospital for the insane at New Westminster. The attention of the attorney-general was drawn to the transaction between Mr. McDougall and Mr. Mackenzie, and it was pointed out to him that the property was worth from \$9,000 to \$11,000. The property appeared on the assessment roll as assessed for \$3,935, and the attorney-general filed caveats on it.

These were dismissed and the action tried yesterday was launched by the attorney-general in his capacity as a commissioner of lunacy. The allegation was that McDougall knew at the time of entering into the bargain that Mackenzie was of unsound mind and unfit to transact business.

CRUSHED TO DEATH.

Moose Jaw, Sask., Oct. 10.—While driving home from threshing with four neighbors, W. B. Chegwinn was thrown, through the overturning of the wagon, and instantly killed. The pole coming out of the neck yoke, was the cause of the accident.

Angus Campbell & Co., Limited, 1008-10 Government Street

WEALTHY LUMBERMAN FOUND NOT GUILTY

John S. Creech Collapses When Acquitted of Murder of Detective

Aberdeen, Wash., Oct. 10.—John S. Creech, wealthy lumberman, was acquitted of the murder of Frank Welch, Aberdeen detective. The jury came in after being out three and one-half hours. The first three ballots were ten to two for acquittal, the next eleven to one for acquittal, and the fifth unanimous.

Creech thanked his lawyers and the jury, and then collapsed in a chair, half hysterical, sobbing and crying. His wife and son, who were with him, joined in his tears of joy. Creech's trial has consumed seven days, and because of the defendant's wealth and position, has created a stir throughout the state.

During times of peace, France has an army of \$1,000,000,000, but in times of war this can be increased to \$4,000,000,000.

POLITICAL EVOLUTION.

With the progress of events and the "aging" of the civilized sections of the human race, theories of government are placed on trial and there are not wanting numerous and striking evidences that the moral tone of civilized citizenship generally is moving toward a higher note.

The more light thrown on the relation of high protective duties to the extravagant cost of living the more completely will the intelligence of the elector be armed to resist higher tariff exactions when tariff issues are to be decided at the polls.

It is not long since a trust organ in the United States put a question into the mouth of an imaginary interrogator, though the imaginary interrogator proves to be a very persistent personality among the electorate.

What ill-formed conviction widely prevalent among the electorate of the neighboring republic has brought about the present impasse in its political affairs and compelled the people as a whole to repudiate the political machine.

It is the incumbent necessity forced upon the masses by the privileged classes that they protect themselves. This they are beginning to do in the United States and are struggling to begin to do in other countries.

What has brought about the change is the growing recognition by the elector that the kind of government he gets has a direct bearing on his health, happiness and prosperity.

What has brought about the change is the growing recognition by the elector that the kind of government he gets has a direct bearing on his health, happiness and prosperity.

in beginning to find that the vote is not something to give to the man who shouts the loudest or writes the biggest cheque, but is a sharp weapon with which, if he but uses it, he can better his conditions of livelihood.

"ATLAS" OF BRITISH COLUMBIA.

In view of the fact that "the promise made by Sir Richard McBride on the floor of the British Columbia legislature, when introducing his railway policy in February last, was by him effectively made good yesterday in the settlement of the difference which had arisen between the owners of the charter and general enterprise of the Howe Sound and Northern Railway Company and its possible antagonist, the Pacific and Great Eastern Company," it would be interesting to know what are the functions of the Minister of Railways in the McBride cabinet.

In addition to the "Forty Rubber Stamps" there seems to be but a paucity of statesmanlike ability in the province of British Columbia. The load carried by Sir Richard would kill—and indeed has killed—half a dozen other men.

Protective Tariffs. The more light thrown on the relation of high protective duties to the extravagant cost of living the more completely will the intelligence of the elector be armed to resist higher tariff exactions when tariff issues are to be decided at the polls.

It is the incumbent necessity forced upon the masses by the privileged classes that they protect themselves. This they are beginning to do in the United States and are struggling to begin to do in other countries.

NUT COAL

This fuel is every bit as good as the lump coal that you are using. It is much easier to handle than the lump, and gives a bright, clean and economical fire. Let your next order be for Nut.

KIRK & CO. 618 Yates Street and Esquimalt Road. Phones 212 and 139

actly what is fostered by high protective tariffs. Respected and respectable business men are transformed into a distinct species, and under the aegis of protection they inflict upon consumers of their wares burdens grievous to be borne.

No more conclusive evidence of this tendency is needed than is shown in the advertisement of the Keystone Portland Cement Company, which is soliciting subscriptions of stock in Eastern Canadian papers.

The advertisement points out that the company has property at Blairmore, Alta., with its raw material within 1,000 feet, so that there will be no freight charges. The plant when completed is to cost \$300,000, with a capacity of 5,000 barrels of cement per day.

"A small quantity of anthracite coal from near Hanf has arrived in the city in the last few days, and will sell readily. I do not think you need have any anxiety that the price will see an advance."

What is true of the cement industry is true of every industry in Canada. The duty levied on imports enables the manufacturers to levy corresponding toll on the consumers of their productions, and the blind man who has to pay the price is soled with the delusion that he is making the country prosperous.

If the wage-earning classes who are sorely tempted to become revolutionary Socialists in order to secure a "levelling up" of these inequalities in the national citizenship would take one fell swoop at high protective tariffs they would find, in a few months, relief from many of the grievances under which they now suffer.

Glance over a map of Turkey and the Balkans, noting the outlandish names of places where battles are likely to be fought, and it will be realized that for English newspaper readers the threatening war will be what Sherman said it is.

At the instance of Hon. George E. Foster, application is being made to the Interstate Commerce Commission to let Canadian wheat run south as well as east. This is the second time it has happened since the vote of September 21, 1911, settled it that this wheat must not be shipped south.

Wilkins was an enthusiastic golfer, and when his friend Johnson met him coming away from the links a day or two ago he was in a terrific frame of mind.

TO REPLENISH COAL SCUTTLES

SITUATION ARISING FROM MINERS' STRIKE

Local Coal Merchant Satisfied That Prices Will Not Rise—Fuel From Alberta

The price of coal is a serious thing for the householder as well as for the public body or corporation, but while the strike at the Extension and Comberland mines continues there does not seem to appear cause for alarm about the local situation.

Victoria and vicinity are from a number of causes dependent on Vancouver Island coal, and owing to the strike at the pits under the control of the Canadian Collieries, the other companies are working to their maximum to supply the deficiency, and meet orders.

A prominent coal merchant said this morning, "I do not think that there will be an increase of price this winter, nor will the public go short, but what people should do is to place their orders early. It will not be any expecting the coal dealer to fill an order the day he gets it, and private consumers must be prepared to wait for delivery."

"There is a little coal—a few scow loads—coming in from Seattle now, but as a rule, there is small demand for supplies outside Vancouver Island collieries. The Crow's Nest Pass coal is prevented from reaching the coast to a large extent by the freight rates. So far as the Island Collieries are concerned, they must keep busy if the market for fuel in the three large coast towns of British Columbia, apart from Nanaimo itself, is to be maintained without shortage."

This shortage of coal, due to the strike, was referred to at a school board meeting last evening, and it was decided to lay in a stock to the bunker capacity of each school, so that the fuel situation should not become acute during the approaching winter.

NOTED GENERAL ARRIVES IN CITY

Hon. Sir Neville Lytton, Chief of Irish Forces, on Brief Trip

A distinguished visitor to the city to-day is General Hon. Sir Neville Lytton, G. C. B., K. C. B., who comes of one of the most illustrious families in Britain. The general arrived from the mainland this morning, with Lady Lytton, and registered at the Empress hotel.

General Sir Neville Lytton is the general officer commanding the forces in Ireland, an office which he took over in 1908. Born in 1848, he started his military career early after leaving Eton by joining the Rifle Brigade when just twenty years of age.

The general is an enthusiastic cricketer, is a member of the famous Marylebone Club, and may be seen practicing frequently in the nets at Lords.

A TASTEFUL MEMENTO.

Premier Will Reply to Flying Legion Address To-day

This morning Randolph Stuart, secretary of the Citizens' committee conveyed to Premier Sir Richard McBride, a beautiful memento from the Flying Legion of San Francisco, of their visit to this city.

London Opinion. Mistress (engaging servant)—"I hope you have nice print dresses, and I expect you always to wear caps."

A Big Shoe Bargain for Friday. New Fall and Winter Boots for Men and Women, Worth up to \$4.50, to be Sold at \$2.95

HUGE REDUCTION to make so early in the season, but there is a good reason for it. An error on the part of the manufacturer who made a duplicate shipment, and thus overstocked us for a while, is responsible for this big cut in the price.

Every pair is exactly the same that we regularly stock, all are the newest lasts, are made of choice materials, and will give you entire satisfaction both in point of comfort and durability.

HERE ARE SOME OF THE LINES FOR MEN

BUTTON BOOTS are to be had in both black and tan calfskin in all sizes, and are as stylish as you can wish a shoe to be.

LINES THAT SHOULD INTEREST WOMEN

PRACTICALLY every model that can be classed as stylish and really serviceable is included in this lot; at least, all the best lines that can be produced to sell in the regular way at \$4.50 are here to choose from.

TAN CALFSKIN BOOTS are here in the button and lace styles. We have all sizes and as tan boots are one of the favored lines this season, there should be a strong demand for them.

Four Windows Full of the Newest Styles in Women's Waists Tell an Interesting Story of Style Tendencies

WOMEN who are interested in new and dainty garments will find much that is interesting in this showing. We would like to tell you of many of the attractive features, but there are so many styles, all widely different, that it is impossible to do more than talk of them as a whole.

The exceptionally good taste, in both design and color combinations, that is shown in the garments that Dame Fashion has prescribed for this season, would stand lots of praise and there is nothing that we can say in this advertisement that will flatter them.

FANCY WHITE WAISTS come in a great range of handsome designs and are made of choice French voiles, marquisettes and good muslins. The trimmings are both rich and elaborate and consist of Valenciennes laces and insertions, shadow laces and imitation Irish crochet laces.

NET WAISTS in ecru and white, made over a good ground of silk are popular lines this year, and at this store there is a very wide assortment to choose from.

MESSALINE SHIRT WAISTS are here in the plain tailored style. They are finished with turn-back link cuffs and soft collars, while the colors are black, navy, brown and tan.

FANCY SILK WAISTS are to be had in dozens of artistic and pleasing styles and color combinations. The great variety of styles in which these garments come, make it impossible to do them justice with a mere brief description, so we invite your inspection.

Showing the Best of Fall and Winter Suits and Overcoats for Men

IN the View street windows, we are showing some fine examples of the skill of the modern custom tailor. The range of materials is so large, and the assortment of colorings so wide that you will have no difficulty in finding just the suit that will give you entire satisfaction.

We guarantee a perfect fitting garment, designed with a degree of skill that should satisfy the most exacting man in town.

English and Scotch chevrets and tweeds, serviceable serges and a choice assortment of fancy worsteds are the leading materials. The tweeds come in a bigger range of colorings this season than ever before, and plain colors, neat striped effects and small checks are the most popular lines in fancy worsteds.

THE MEN'S SUITS

Various models are here to choose from, including the single and double-breasted styles, the sack style that is so popular with business men who wish a conservative but serviceable line, and the dressy semi-fitting styles that please the young men.

NEW STYLES IN MEN'S WINTER OVERCOATS

Three-quarter length coats half lined, Chesterfield style, also full length coats with shawl collars with belted backs are to be found in this assortment. Some of these lines are made with neat roll collars and lapels, serviceable military and the two-way collars are also strongly represented, and in every case the garments are made to stand rough wear, give a full measure of comfort, and are tailored and trimmed in a style that would do credit to the best of made-to-order garments that you could buy.

Men's Sweaters for \$1.00

A SPECIAL FOR FRIDAY'S SELLING SERVICEABLE, medium weight, wool and cotton ribbed sweaters, made in the coat style are to be sold on Friday at \$1.00 and they are a bargain worth getting after.

She Washed.—She washed the family clothes in one of our galvanized wash tubs because they are clean, light, durable. They won't rust, they have no hoops to drop off, they have a place to attach the wringer. In fact they are the best tubs for family use. 90c, \$1.00, \$1.25 and \$1.50. R. A. Brown & Co., 1302 Douglas St.

School Expenses for Month.—The public school expenses for the month of September were \$2,952.78, of which the largest item was for books on account of the opening of term. This supply absorbed \$329.

Merchants' Lunch at the Bismarck

Y. M. C. A. Meeting—At the Y. M. C. A. on Sunday afternoon there will be a meeting for men at which Rev. G. K. Bradshaw will speak on educational work. J. G. Dunford will sing. The meeting will commence at 4 o'clock.

Duchess Street Hall.—The fire hall now under construction on Duchess street for the city by Luney Brothers will be rushed to completion, but is not expected to be ready for occupancy till the first week of December. It is over a year since the proposal was mooted for the construction of this hall, to serve also as a garage.

Taxes Coming In.—The city treasurer is able to report that the municipal taxes are beginning to flow in satisfactorily, and this evidence of financial stability may be taken as affording a record of the ability of the citizen to meet the demands for civic taxation. To date over \$100,000 have been taken in over the counter, which is a larger sum than was received in the corresponding month during which the rebate encourages prompt payment. It will not be, however, till the end of the month that the rush will take place at the office.

The Ladies' Choral Class.—The weekly rehearsals of the Ladies' Choral Class, which is now about to enter upon its eighth season, will shortly be resumed at the Poplars, 1050 Burdette avenue. The exact date will be announced immediately upon the receipt of the music from England. In the meantime the conductor, Miss Archbutt, will be glad to give all particulars and to enroll new members upon application at the above address, and also requests that all former members will do her the favor of communicating with her as soon as possible, in order that arrangements may be made.

B. C. ELECTRIC TO BUILD

Garage and Meter House on Site of Old Barn on Pembroke Street.

A reinforced concrete block with brick walls is to be constructed by the B. C. Electric Railway on Pembroke street, on the site of the old barn used for cars.

It will be used for a garage and motor room, and there will be a walled enclosure at the rear for the storage of material. The cost is about \$10,000. Plans have been lodged with the city building inspector with a view to a permit being issued.

Permits for a number of frame houses on Durban and Carnesw streets have been taken out by the Bungalow Construction Company, ranging from \$2,500 to \$4,000, and also for one house each on Steel and Clara streets. There are seven permits in all. A permit has also been issued to Thornton Fell for alterations to the brick building at the corner of Fort and Broad streets.

WILL AWAIT ORDERS.

Mobilization of Greek Army Affects Local Residents—May Go to Europe Shortly.

The situation in the Balkans, at any rate so far as the intervention of Greece in the struggle is concerned, having taken a brighter aspect in the last 24 hours, the representative of the Pan-Hellenic Union in New York has replied to the local Greek colony that they will be further advised when they send on reservists called to the colors. Another transport will leave New York next Thursday with Greek residents from America, and before that time the local association will have heard more fully of how the matter stands.

Everything is ready, however, for sending forward the contingent when necessity arises. The young men are for the most part at the Crescent for battle against the Turks, and when the time comes, and to wipe out the memories of the last disastrous appeal to arms with the Turks.

TWENTY-FIVE YEARS AGO TO-DAY

Victoria Times, Monday, October 10, 1887. Mrs. Jessie Anderson, wife of the late Robert Anderson, died at her residence, Loch End Farm, Burnside Road, on Saturday last. She was sixty years of age and came to Victoria thirty-five years ago. On the Pastime club grounds, New York, to-day, W. J. M. Barry broke the twelve pound hammer throwing record, throwing it 122 feet. The previous record was 115 feet 7 1/2 inches. He threw 114 feet in a one-hand throw, breaking the record of 95 feet, and in the British style of one turn, threw the hammer 139 feet 11 inches, nearly 20 feet above the record. Montreal, Oct. 10.—Senator Senecal is dying. The honor of knighthood has been conferred on Chief Justice Adam Wilson, of the court of Queen's Bench, Ont. Capt. Devereaux was installed this morning as superintendent of the dry dock at Esquimalt. Mr. Shakespeare, M. P., and others went over from the city to congratulate him on his appointment and to be present at his installation. This year's Manitoba wheat crop consumed 1,728,536 pounds of twine to bind 432,132 acres of wheat ground in that country, the cost of which was about \$400,000. Mr. Pullman's brandy costs him \$50 a quart. The Alta California wishes he would drink poorer liquor and put better soap in his sleeping cars.

CHARLES R. BUNTING DIED THIS MORNING

Highly Esteemed Member of Times Business Staff Succumbs to Operation. Charles R. Bunting, of the business staff of the Times, passed away at St. Joseph's hospital a few minutes after 5 o'clock this morning, following an operation performed yesterday afternoon. He had been ill for some time, suffering from a recurrence of the trouble, in the form of a malignant growth, for which he was operated upon five years ago, and last week he entered the institution in the hope that surgical skill would bring about the restoration of his health. Unhappily, his constitution had become too greatly weakened to enable him to rally from the effects of the operation, and after a gallant fight he passed peacefully and uncomplainingly into the great beyond.

The news of Mr. Bunting's death came in the nature of a poignant shock to his many friends—and all who knew him were his friends—throughout the city. Although his affliction had made noticeable inroads upon his health in the last few months, he was too brave a soul to strike his colors in the face of pain and bore his suffering with characteristic cheerfulness and fortitude. He was born in this city forty years ago, and upon leaving school was employed first in the Northern Pacific Express office. Subsequently he became accountant for Fell & Co., grocers, leaving that firm to join the staff of Challoner & Mitchell. It was while there that his health failed him for the first time and he underwent a successful operation for the malady which necessitated the operation yesterday. Regaining his health to a considerable extent, he joined the business staff of the Times. He was an expert accountant, absolutely reliable and steady, and withal a man of unimpeachable integrity, holding the entire confidence of his employers. Tolerant and generous, the friendships he made were lasting.

"COMMUNITY BUILDING"

Through the good offices of L. N. McLean, third vice-president of the Victoria Progress Club, the members of the club and others in attendance at the club dinner next Tuesday night will listen to an address by D. M. Lively, of Portland, to address Progress Club.

The dinner, promised to be a function. It will be held in the Westholme Grill, chairs being taken promptly at 7.30. After the menu is discussed the announcement of the Literary Essay on the Future of Victoria will be made. The programme committee is inviting a number of representative men in other organizations in Victoria to give short addresses. The tickets for the function are being placed on sale to-day and will be available for others than members of the club.

Harvest Festival Services.—Harvest Festival Services are being held at St. Barnabas' church to-day, and this evening commencing at 8 o'clock which will be full choral evensong at which the Rev. C. E. Seager, of St. Marks' hall, Vancouver, will be the preacher, the musical arrangements being as follows: Organ, prelude; professional hymns, 345; proper psalms, 65 and 159; hymn, 348 and 357; offertory hymn, 348 and 357; offertory anthem, "When Thou Hast Gathered in Thy Corn." Simper; vesper, "Lord Keep Us Safe This Night"; organ, postlude.

WEATHER BULLETIN

Daily Report Furnished by the Victoria Meteorological Department. Victoria, Oct. 10—5 a. m.—The pressure is abnormally high over the Washington coast and over the great lakes, but a disturbance in Northern British Columbia has caused a decrease of pressure in Vancouver Island and at Kamloops and in Western Washington, and temperatures are moderate on the Pacific slope. In the prairie provinces frosts have been general. Forecasts: For 24 hours ending 5 p. m. Friday, Victoria and vicinity—Light to moderate winds, chiefly cloudy, with showers to-night or Friday. Lower Mainland—Light to moderate winds, unsettled, with showers. Reports at 5 a. m. Victoria—Barometer, 30.18; temperature, 50; minimum, 48; wind, 8 miles S.W.; weather, clear. Vancouver—Barometer, 30.29; temperature, 48; minimum, 46; wind, 4 miles E.; weather, rain. Kamloops—Barometer, 30.06; temperature, 44; minimum, 44; wind, 6 miles N.; rain, 66; weather, cloudy. San Francisco—Barometer, 30.08; temperature, 69; minimum, 58; wind, 4 miles N.W.; weather, clear. Edmonton—Barometer, 29.82; temperature, 32; minimum, 30; wind, 6 miles S.W.; rain, 31; weather, clear. Winnipeg—Barometer, 30.18; temperature, 32; minimum, 32; wind, 6 miles N.; rain, trace; weather, cloudy. Victoria Daily Weather. Observations taken 5 a. m., noon, and 5 p. m.—Wednesday: Temperature: Highest, 56; Lowest, 38; Average, 46. Bright sunshine, 3 hours 24 minutes. General state of weather, fair. POTATOES AS EXHIBITS. Big Difference in Estimated Value of Property at Humpback Reservoir Site. Some fine potatoes were exhibited to the arbitration court yesterday afternoon from the bottom lands at Humpback bridge, near Goldstream. They were grown on the lands of Mr. Payne, who is claiming a larger share of compensation from the city for expropriation of twelve acres for waterworks

Fits Right Into the Family Circle

It is really remarkable how quickly the COLUMBIA GRAPHOPHONE becomes "one of the family." Two days after one enters a home for the first time every member of the family, from baby to grandfather, wonders how this splendid, almost human, companion could have been left out so long.

And, indeed, it is to be wondered at that families that have no COLUMBIA can go on missing the great pleasure and educational profit of its presence. It cannot be on the score of expense, because it costs little or nothing to keep a COLUMBIA up, and the low prices and extra easy terms that we allow on all styles of these machines makes the buying of them a small matter.

You cannot make the acquaintance of the Columbia under better auspices than by ordering one of the new cabinet models, as shown in the illustration. Get this fine Grafonola now and enjoy this winter as you never enjoyed a winter. This machine is a masterpiece, has all of the big features of a \$250 Grafonola, is finished in oak or mahogany, has large sound chambers, ensuring rich, full tone; double spring motor and latest and best reproducer and record album compartment for 60 double-disc records.

Our Price Only \$65 On Terms as Low as \$1 a Week See This Great Grafonola To-day.

SPORTING NEWS

COAST HOCKEY PROMOTERS WILL RAID EAST FOR STARS

Lalonde's Departure for the East Means That Peace Negotiations Will Be Dropped—Lester Patrick Now at Ottawa

Eastern hockey moguls have thrown down the gauntlet, and there is little hope for peace between the National Hockey Association and the British Columbia Hockey Association. The offering of a fat contract to Newey Lalonde to have him manage the Canadiens in the N. H. A. this winter means that the Eastern magnates refuse to agree upon a truce, and the battle is on. Lester Patrick's visit to the East is timely, inasmuch as the Coast hockey manager will be able to war with the Eastern club owners in their own territory. Just what will be the outcome remains to be seen. Manager Patrick, before he left the Coast, stated that he would interview the National Association on different matters, one of which was the formation of a hockey commission to regulate salaries and control the professional game.

Plans were also under way for a visit to the East, next spring, of the Coast champions. It is now thought that if Geo. Kennedy carries out his contract with Lalonde and robs the Vancouver club of their centre star, the Coast promoters will call off all negotiations with the Easterners. The Patrick boys were willing to go before the N. H. A. clubs and present their wants, but it is now likely that they will find the Eastern clubs of the players that they require, regardless of salaries. Lalonde is the only member of the Vancouver lacrosse team going East at this time. F. J. Cummins, the Cornwall defence fielder, has located here permanently, and Dot Pielan is also thinking of sticking out here. Len McDougall will probably be the only other importation of the lacrosse season to leave and he will go to his ranch at Central Butte, Sask.

CHALLENGERS WERE AGAIN BADLY BEATEN

St. Kitt's Managed to Notch a Solitary Goal While V. A. C. Secured Seventeen.

Vancouver, B. C., Oct. 10.—By a total score of 17 goals to 1, the Vancouver senior amateurs successfully defended the Mann cup against the St. Catharines. The first match last Saturday resulted in a shutout, 17-0, and yesterday the champions ran in another 17 goals, while St. Kitts managed to break into the score sheets once. It was more than a defeat for the Ontario champions. It was a complete rout. In retaining the silverware for another year, the westerners put up a record score for a championship inter-league match.

The overwhelming victory of the V. A. C. boys can be attributed to their superior knowledge of the finer points of the national game. They had the challengers beaten at every angle, and it was the best senior amateur team in the east that they trimmed so decisively. The score will not be encouraging to other teams east of the Rockies that may be thinking of migrating westward in search of lacrosse trophies. Crookall scored heavily for Vancouver again. He scored 9 goals, his record for the series being 16 goals out of 24.

The game was clean until the latter part, when both teams started to mix it up freely, but there was no extremely rough work. Vancouver players spent 50 minutes and St. Kitts players 30 minutes on the penalty bench. The attendance was 1,600.

CHICAGO GAME OFF.

Chicago, Oct. 10.—The second game of the series for the city championship between the Cubs and the White Sox, scheduled for this afternoon, was called off on account of rain.

Distinctive Styles and Quality in Our Hats

Fashion's every demand is anticipated in our styles. Back of these styles is the finest quality that a hat can embody. The hat is the last touch that either mars or makes your good appearance. Every dress-particular man should select it carefully. You'll do well to examine our silk-finished hats and velours if you are thinking about new headgear.

RUGBY SEASON WILL OPEN ON SATURDAY

Union Refuses to Transfer J. B. A. A. Players to Oak Bay Club

James Bay rugbyists announce that they will place a strong team in the field on Saturday, despite desertion of three of their players to the Oak Bay Club. Applications for transfer were refused at last night's meeting of the Victoria Rugby Club, of Houston, Ken Macdonald and Scott, of former J. B. A. A. stars, who desire to play for the Oak Bays.

Two games are scheduled for Saturday next, the opening day of the Barnard Cup League season, both at Oak Bay between the James Bays and Welsh Club at 2.15 and the Oak Bays and Law Students at 3.30. At last night's meeting of the union, Mr. Bennett-Thompson was selected to referee the first, and Mr. A. D. B. Scott the second.

HITTING RECORD

If Joe Wood ever stumbles, good evening.

day next, the opening day of the Barnard Cup League season, both at Oak Bay between the James Bays and Welsh Club at 2.15 and the Oak Bays and Law Students at 3.30. At last night's meeting of the union, Mr. Bennett-Thompson was selected to referee the first, and Mr. A. D. B. Scott the second.

NINE PENNANTS HAVE BEEN WON BY BOSTON

The veteran baseball editor of the Boston Globe, Tim Murnane, while in reminiscent mood before the Boston Red Sox cinched the pennant this year, wrote: "In my twenty-four years on The Globe I have reported the games at home and have traveled with the teams on the road. In that time Boston has had eight pennant winners. That means that just one-third of the time I had the satisfaction of seeing the players go through all the disappointments and thrills of a rugged baseball campaign.

"The managers of the winners were: Mike Kelly, once; Frank Selee, five times, and James Collins, twice. The captains, or the men who led the boys on the field were: Mike Kelly, once; William Nash, three times; Hugh Duffy, twice; and James Collins, twice."

Snodgrass, one of McGraw's steady outfielders.

BRVES' SECRETARY RETIRES THIS MONTH

Boston, Oct. 10.—Peter Kelley, secretary of the Boston Nationals, will retire when his term expires November 30. Mr. Kelley has served as secretary under Presidents John Dovey, John P. Harris, William H. Russell, William B. Winslow, John M. Ward and James L. Gaffney.

CAPONI MEETS MARSHALL

Chicago, Oct. 10.—Tony Caponi and Ray Marshall were matched here last night for a fifteen-round fight at St. Joseph, Mo., on October 23, and were signed for a bout at the same number of rounds at the same place on November 28. The latter match will be at 133 pounds.

Will the Old Man make good?

GRIFFIN TO REFEREE.

San Francisco, Oct. 10.—Jim Griffin was selected to referee the McCarthy-Kaufmann twenty-round heavyweight fight here Saturday, after the managers of the men had disagreed on several other candidates. Griffin refereed the second Attell-Murphy fight and is popular with the fight followers.

DANIELS TO BOX WAGNER.

St. Joseph, Mo., Oct. 10.—Freddie Daniels, of St. Joseph, and Billy Wagner, of Chicago, will box fifteen rounds here to-night before the Business Men's Athletic Club. The boys will weigh in at three o'clock at 133 pounds.

WORLD'S SERIES STAR

Rube Marquard, Giants' famous southpaw, who is expected to win his game from the Red Sox.

Can he get away with it?

TICKET SCALPERS ACTIVE AT CHICAGO

Chicago, Oct. 10.—Ticket scalpers made a record of pitching but 97 balls in a recent 11-inning game against the Cubs and White Sox found the ven-

Snodgrass, one of McGraw's steady outfielders.

ture a losing proposition. On almost every street car leading to the game tickets were offered by these dealers at \$1.50 an hour before the game. As time for play approached the tickets could be bought for \$1, the regular price for reserved seats, and finally at game time for fifty cents.

The difference between the drawing power of a first division team fighting for a pennant and a second division team with nothing to fight for but fourth place is to cost W. W. McCredie, Portland owner, many thousand dollars this season. President McCredie has not compared the attendance of 1911 and 1912, but he says that the figures for this season will be nearly 50 per cent. less than for last year, when the Beavers won a Pacific Coast League championship.

WORLD'S SERIES STAR

Chief Meyers, McGraw's sturdy backstop, whose hitting has been a prominent feature of the games to date.

WORLD'S SERIES AVERAGES

Because of the great local interest that is being taken in the world's series, the Times will give from day to day averages of all players taking part in the series, and the figures of the first two games are given below:

JOE BAYLEY WILL GO TO CALGARY FOR A GUARANTEE

Manager Condon Refuses Burns' Offer of Gate Percentage—Canadian Champion May Fight in 'Frisco This Winter—Bout With Pal. Brown Unlikely

If Tommy Burns imagines for one minute that Joe Bayley is going to travel to Calgary for the mere fun of looking over the scenery, the Calgary fighting impresario is very badly mistaken. According to Manager Condon, who has the Victoria ring star under his wing, Bayley will not sign up until Burns offers better terms, and neither will he go East until he has been guaranteed an amount that will pay him for risking his title.

Manager Condon, however, is just as clever as Burns in regard to financial matters, and his answer to Burns' telegram was short and sweet. It is just possible that Bayley will be seen in action on the coast during the winter fight carnival in that section of the country.

both clubs Huggins will insist on his release being given for a consideration. President Herrmann has settled on Huggins as the man for the job.

much higher than that, as he has been showing much better form with the willow toward the fag end of the season.

Bobby Kerr has taken over his new duties as secretary-treasurer of the Hamilton Amateur Athletic Association.

Though he has not seen a big league game in twelve years, Amos Reno picks New York to beat Boston in the big series. Amos used to be the high gun on the New York club and still has a soft spot in his heart for the big town. Not a player on either club was

Han Myers ends the Northwestern League season with something like 120 stolen bases, the modern day record. In 1910 Billy Zimmerman, with Utica in the New York State League, stole 106.

The suggestion is made in the east that the new Baseball Players' Fraternity should adopt a Greek letter name in order to give the new organization tone. Sigma Nu Lambda, meaning slaves no longer, is a good one.

The manager who is fortunate enough to win a pennant and then repeat on the following year is surely endowed with more than the ordinary amount of good fortune. Any of them will admit it. Portland, New Orleans, Minneapolis and Rochester of last year's class A teams had each won pennants for two straight years. But to win a third is another question, and Minneapolis is the only one of the quartette to achieve the distinction. The others have all been distanced.

Hooper, right fielder of Jake Stahl's great outfield.

There will be no Glidden automobile tour this year. That was announced by the national tour committee of the American Automobile Association, which decided to postpone the contest until next year. The principal reason given was that many automobilists who wanted to enter the contest did not

playing in the majors when Amos was a star, so he knows nothing about them except from hearsay. Both New York and Boston are kid teams.

Two, and possibly four, handsome prizes are assured for the lucky runner who breaks the tape first in the annual Gold Seal championship road

race on Thanksgiving Day, Monday, October 28.

Arthur Kores, the new shortstop drafted by Portland from the Des Moines Western League club, is one of the players on whom the Portland management is banking strongly. He is a player who is considered the class of the Western League at short, and had a batting average up to September 1 of .286. If taken for the last part of the season his figures would have been

The Victoria Ladies' Hockey Club will hold its first practice game on Saturday next on the Oak Bay park ground at 1.30 p.m.

Of 31 different leagues of different classification in all parts of the country, there will be but five of them who will show teams winning the pennant for two consecutive years.

MARIA WILL NOT BE IN TILL NEXT WEEK

Lorne Has Gone to Rupert With Barge—Bringing Teresa Here on Her Return

It is expected that it will be the beginning of next week before the big Italian sailing ship Maria Teresa, Capt. Matarro, is towed to this port to load her cargo of lumber at the Canadian Puget Sound mills for Sydney, Australia. The tug Lorne, Capt. Cutler, which is to tow the windjammer from Vancouver to this port, has just left Seattle with a barge for Prince Rupert. It will be several days before she returns south.

The Maria Teresa is now taking on ballast at Vancouver, and it is expected she will have completed this work by the time the Lorne reaches there from the north. The tug will bring the barge across the Gulf, and if the tide is good she will tow her into her berth at the mills. The Maria will load 2,000,000 feet of lumber at this port, the majority of which will consist of ordinary timber.

Of late the Puget Sound mills have had to refuse orders for offshore shipments. If the company could supply the timber several vessels could have been loaded here since the American schooner Polar is left. There is a great demand for lumber in Victoria, and the mills are restricted to a certain extent in their shipments to foreign ports.

Aryan Leaves for Boston. The full-rigged American ship Aryan, which loaded a cargo of lumber and heavy timbers at Port Blakely for the Atlantic coast, was towed to sea today, and has begun her long voyage to Philadelphia. The lumber and timbers will be used in shipbuilding on the east coast. The big square-rigger was the last wooden American ship built, and her voyages are always watched with interest. She is owned by Eugene F. Carver, an attorney of Boston, whose father was one of the principal sailing ship owners of the Atlantic coast at one time. The vessel probably will load a cargo of blacksmith coal for the return voyage.

Capt. W. M. Mallett, master of the American ship Dirigo, which has been overhauling at Seattle, as yet has received no orders from the vessel's owners. However, it is believed that the vessel will load wheat on the Sound for the United Kingdom instead of barley for New York, as had been planned.

TOW LAST SEALERS TO NEW MOORINGS

Diana and Ainoka Go to Esquimalt—All of Company's Schooners Moved

Last of the sealing schooners owned by the Victoria Sealing Company, which have been lying at Point Ellice for the past few years, to be removed to the new anchorage for the fleet at Esquimalt, the Diana and Ainoka were towed around yesterday afternoon. The sealing company has now tallied its part in freeing the fairway in the upper harbor, and it is hoped that the harbor master will see that the other parties who are responsible for the blocking of much of this stretch of water, will clear the course.

The sealing company has disposed of 13 or 14 of the sealers to different craft left. Some time ago the harbor master brought action against the company for blocking the fairway at Point Ellice, and the company was ordered to remove its schooners. The new moorings at Esquimalt were secured, and the vessels not sold were towed there. The only schooners now lying at Point Ellice are those belonging to private parties, and it is expected that they will be removed very shortly.

Ask About Schooners. The officials of the sealing company are still in receipt of a number of communications daily from Vancouver, Seattle, San Francisco and other coast points asking for information regarding the schooners. It is expected that before long all the sealers will have been sold, and the last relics of what was once one of Victoria's chief industries will have departed to finish their days as barges or fishing schooners.

HEAD LIGHTS

From San Francisco the Pacific Coast steamship Umatilla, Capt. Reilly, is expected to arrive in port late tonight. She has a big cargo for Victoria and a good list of passengers.

The steamship Arabien, of the Danish East Asiatic Company, which will inaugurate the service of that concern from Europe to Victoria, was reported calling at Punta Arenas on Friday last.

The Chilean barque Royal Sovereign, with a cargo of lumber from Vancouver, was reported arriving at Valparaiso on September 25, after a slow passage.

The steamer Latouche with 50,000 cases of canned salmon from South-eastern Alaska ports, reached Seattle yesterday morning.

Bringing a cargo of 20,000 cases of canned salmon and the crews of the Shaker and Cathcen canneries, the steamer Santa Ana has reached Seattle.

Her overhauling completed, the steamship Seward, of the Alaska Steamship Company, came off of the drydock at Seattle Tuesday. She will load a cargo for San Francisco and upon her arrival in the south will be turned over to the Pacific Mail Steamship Company for the Panama trade.

The steamship Harpalayee sailed from Milke, Japan, en route from Chinese ports to Puget Sound, on Monday. The vessel will load under charter to Balfour, Guthrie & Co.

Word has been received here stating that the Pacific Coast steamship Umatilla, Capt. Reilly, will not arrive here until 9 o'clock to-morrow morning. She is being delayed by bad weather.

The C. P. R. steamer Princess Mary is now in the Victoria Machinery Dept ways having the damage she suffered when she bumped the Frankmount in Vancouver repaired.

India has an annual output of coal exceeding twelve million tons, ninety per cent of which comes from Bengal.

SAILING RACE FROM SOUND TO FLATTERY

Yawls Gwendolyn II, and Ortona Arrange for Longest Race Held in These Waters

One of the longest and most interesting sailing races to be held on the waters of Puget Sound and the Straits of Juan de Fuca, will start from Seattle to-morrow morning. Arrangements for the 250-mile race, talked of early in the summer between the fifty-eight-foot yawl Gwendolyn II and the forty-eight-foot yawl Ortona, both of Seattle, were completed a few days ago and the owners decided upon the course. From Seattle the two yawls will sail to Cape Flattery and return to the Sound, which will make it the longest race of its kind ever held in North Pacific waters.

The Gwendolyn II is owned by Lloyd Johnson. As an entry in the Los Angeles-Honolulu race four years ago she became well known all over the coast. She is probably one of the finest heavy weather sailing yachts on the north coast. In a light wind, however, she does not show up so well as some of the finer-drawn-out craft, and the new yawl, Ortona, belonging to John Graham, belongs to the latter class.

The Ortona has shown on several occasions during the summer that she has good speed in light air, while in a breeze she goes down to her lee rail without much persuasion. When she gets down to her rail, however, she is a difficult boat to send over any further and she should make a good showing against the Gwendolyn. The skipper and crew of the latter craft are anxious that a howling southeaster shall blow for the race, and at this season of the year the chances are favoring them. It is expected that the race will require from three to six days to finish.

"Ted" Geary, the well known marine architect of Seattle, will sail the Ortona, which was designed by him. Both yawls are well known in Victoria, having come in on visits at frequent intervals, and the race will be watched with interest by all yachting men of this port.

COOK OF CELTIC FELL INTO HOLE TO DEATH

Nanaimo, Oct. 10.—August Ehrenfried, cook on the steam freighter Celtic plying between Vancouver, Victoria and Nanaimo died in the local hospital yesterday morning from injuries received the previous night when he plunged headlong down an open hatch a distance of eight feet.

The Celtic arrived in port Tuesday from Vancouver with a quantity of freight and moored alongside Hirst's wharf. The cook was up town early in the evening, and is presumed to have returned to the boat about 11 o'clock. He was perfectly sober at the time as is proven by members of the crew who met him up town a few minutes before that hour. Ehrenfried is supposed to have boarded the steamer by way of the boat deck and stumbling, fell into the open hatch.

Just how long he had lain at the bottom of the hatch is not known, but his groans were heard by second engineer Reeve, who summoned assistance, and the injured man removed to the hospital, where it was found he had sustained a fractured skull and internal injuries. Everything possible was done for the sufferer, but he passed away without regaining consciousness.

The deceased was about 30 years of age.

IMMENSE GRAIN CARGO TAKEN BY WILLESDEN

Portland, Oct. 10.—Drawing 27 feet and 3 inches, the greatest draft at which a vessel ever attempted to leave Portland at the present low stage of the river, the British steamship Willesden, Captain C. E. Cox, started down to the sea yesterday morning en route to Avonmouth, England, with 302,120 bushels of grain, valued at \$236,725.60. It consists of 152,413 bushels of barley, valued at \$116,960 and 149,707 bushels of wheat, worth \$119,765.60.

Except that taken out by the Norwegian steamship Bjornstjerne Bjornson, of last season's fleet, which left with 305,000 bushels of wheat, that aboard the Willesden is the largest grain cargo ever to leave Portland. Captain A. L. Pease, who piloted the battleship Oregon up and down the river in June, is directing the course of the big Briton to Astoria. She is expected to cross out to sea today. Shippers state that it is even a greater feat to take the Willesden from Portland to a zero stage, than it was to bring the Oregon here in the summer during the annual rise of the Columbia. The Willesden is drawing about the same amount of water as did the Oregon, while the river is at least 10 feet lower now than it was in the early part of the summer.

DRYDOCK STEAMER NOW LATEST TYPE

UNIQUE VESSEL BEING PLANNED AT PORTLAND

Will Be Submerged and Load Scows—To Carry 5,000,000 Feet of Lumber

Plans for the queerest vessel ever built, a type which experts say gives promise of revolutionizing the shipping business on this coast if put into practical use, are now being prepared by a number of Portland men, including E. H. Dodge, of the Dodge Lumber Company; F. A. Ballin, a naval architect, and J. C. B. Lockwood, engineer for the Port of Portland. As soon as all the plans are perfected it is understood that a contract will be let for the building of this peculiar craft. When the ship is ready for service she will be operated between Portland and San Francisco.

This new vessel will be known as a drydock steamer, and it will have capacity for carrying 5,000,000 feet of lumber at a trip. Like a floating drydock, it can be submerged to a certain depth. While partially under water scows loaded with lumber may be run into compartments built on pontoons at each side of the steamer proper. Five scows on each side can be taken care of, making a total of 10, and each with capacity for handling 500,000 feet of lumber.

There will be three sets of scows, 10 in a set, one group of which will be kept at each end of the route, and the third in transit. By following this rule the scows at the ends of the route may be loaded and ready to take in charge by the steamer immediately on her arrival. Coming from San Francisco, the scows will be loaded with general freight, which will be discharged after

PUT INTO STANLEY WITH MASTER ILL

Portland, Ore., Oct. 10.—Bound for Portland from Rio de Janeiro to load wheat, the German ship, Tersichore, put into Port Stanley, Falkland Islands, October 6, because of the illness of Captain Noreika. A message to that effect was received yesterday by the Merchants' exchange. The vessel is under charter to M. H. Houser, and sailed from Rio de Janeiro August 16. It is her first voyage to this port.

FOR SAN FRANCISCO AND SOUTHERN CALIFORNIA

From Victoria 9 a. m. every Wednesday, S. S. UMATILLA or CITY OF PUEBLA, and 9 a. m. every Friday from Seattle, S. S. LOVERNO or PRESIDENT.

For Southeastern Alaska, Oct. 5, 11, 17, 23, 29, S. S. SPOKANE or CITY OF SEATTLE leaves Seattle at 9 p. m.

Seattle, Oct. 10.—Although she was expected to reach Bethel, on the Kuskokwim river, September 2, no word has been received from the power schooner Bender Brothers, which sailed from this port August 19.

THREE WARSHIPS ARE SLATED FOR DOCKING

Shearwater Will Occupy the Stocks After Algerine—Rainbow Will Go in Later

For several weeks the drydock at Esquimalt will be engaged by the warships stationed here as the three ships are all slated for thorough overhauls. The sloop-of-war Algerine was floated into the dock a few days ago to have her hull scraped and painted and will be coming out very shortly. Upon the return of the sloop Shearwater from Comox, where she is carrying out her regular gun practice, she will occupy the stocks for about a week. Later, it is understood, the Canadian cruiser Rainbow will go into dock and have her hull scraped.

The Algerine and Shearwater are undergoing overhauling preparatory to their annual cruises to the South Seas. No date has yet been set for the sailing of the ships, but it is expected that they will be taking on coal and provisions very shortly and will clear the beginning of next month. This year the Algerine will make the long cruise to the mid-Pacific islands south of the equator and the Shearwater will visit Pacific coast ports as far south as Acapulco.

The Rainbow is still tied up to the coaling wharf at Esquimalt and it is not known when her new crew will arrive to man her. She has not been in dock for some time and her bottom is very dirty. During the time the Rainbow is lying idle the crew is busy keeping everything aboard in shipshape style, and the big cruiser is in excellent trim to proceed to sea. Her engines have been thoroughly overhauled and are capable of turning over at 18 knots.

From Victoria to Your Atlantic Liner Cheaper, Pleasanter and More Convenient

You who intend to spend Christmas abroad, take note of this unique arrangement offered for the first time out of Victoria. By paying down one flat sum—very much less than what you could possibly do the trip for individually—you can have all the problems of transportation and travel solved for you before you leave Victoria, so that all you will be called upon to do is enjoy the trip.

On December 8, next, a party bound abroad, will leave Victoria under the personal direction of Mr. Claude A. Solly. The baggage of all members will be collected and taken care of, and from the time members leave Victoria until they board their steamers at New York or Portland, Me., their every want will be provided for, transportation, transfers, meals, hotels, sleeping accommodation—everything—and all much cheaper than could possibly be done by individuals.

The party will take train at Seattle on board the famous new, all-steel express of the Chicago, Milwaukee & Puget Sound Railroad, "The Olympian," traveling first class or second class, as they elect. Throughout the entire trip every comfort of the party will be studied and provided, and the members will be landed at either New York or Portland, Me. (according to what steamer they book for) in ample time to catch the sailing of December 14, the last Christmas sailings from America.

This trip will connect with the following liners, all sailing December 14 FROM NEW YORK:

S. S. Kronprinzessin Cecilie, North German Lloyd, 20,000 tons, Plymouth, Bremen.

S. S. Carona, Cunard line, 20,000 tons, Liverpool.

S. S. Oceanic, White Star line, 17,240 tons, Southampton.

S. S. Minnehaha, Atlantic Transport line, 13,500 tons, London.

FROM PORTLAND, ME.:

S. S. Teutonic, White Star-Dominion line, 10,000 tons, Liverpool.

APPLICATIONS FOR RESERVATIONS SHOULD BE MADE AT ONCE. FULL INFORMATION AND ALL PARTICULARS ON APPLICATION.

SPORTING NEWS

PATRICK SAYS THAT LALONDE WILL STICK

Coast Manager, Now in the East, Has Lines Out for Greatest Stars in Game

Ottawa, Oct. 10.—Lester Patrick, the Victoria hockey magnate, arrived in the city this morning from the west. He is after Taylor, Benedict, Ronan, Gerard, Kendall, Lowery and Lesueur. Patrick will remain here for a couple of days, when he will go to Montreal and Quebec. It is rumored that he will endeavor to sign up Jack McDonald and Marks, of Quebec's champion seven.

SPORT NOTES

Nick Williams has been unstrutting in his praise for Bill James, the Seattle kid pitcher who goes to Boston. Now we know. James, it develops, beat Portland seven games this season without a skip. He finished with a percentage of twenty-six victories and eight losses, twirling five shut-outs and twelve contests exercised a five-over Tacoma, winning ten games without a defeat, and Jimmy Clark, third ranking gunner, took six consecutive games from the tallenders.

A New York baseball writer recently penned a paragraph that the Giants were full of fire and would make things hot for the Sox when they tangled. This looks as if Wood wouldn't last long when brought into contact with them.

President Bob Brown hopes to land Sport McMurdo for next season's team.

Mathewson got a bad start, but steadied down and pitched grand ball. With perfect support he would have held the Red Sox to two runs at the most. His control was wonderful, not an opposing batter getting a base on balls, and his curves broke over the corners of the plate nicely.

A match with Pal Brown has been promised the winner of the Scoble-Barreault bout at Edmonton on Saturday.

With one win to work on, the Red Sox entered the fray full of confidence, while the Giants were grimly determined to even up their defeat of yesterday. Odds of 19 to 4 were offered that the American champions would win the series, and there were plenty of takers.

Transit Road and St. James street are closed to through traffic until further notice. R. FOWLER, Municipal Engineer.

BOSTON'S GREAT OUTFIELD IS BEST IN THE COUNTRY

Critics throughout the land are unanimous in asserting that the Boston Red Sox possess the greatest trio of outfielders in the big leagues today, and a peek into the records bears out the statement. Individually, the three players who guard the outer garden for the new champions of the American League are not the best, but collectively they form a combination that is hard to beat.

ATTENDANCE FIGURES FOR THE TWO GAMES

Attendance—55,878. Receipts—\$134,496. Players' share—\$72,087.36. Club's share—\$4,029.42. Commission—\$13,249.90.

PHYSICAL INSTRUCTION IN PUBLIC SCHOOLS

Attempt to Put Into Operation Training Received by Teachers

The matter of extending cadet instruction in the schools occupied the school board last evening, in a report from the superintendent of schools, E. B. Paul. Mr. Paul recommended certain proposals having in view the development of physical training, and thereby putting to use the information which the teachers had gained in two seasons of instruction in physical drills under the terms of the Strathcona trust.

The national commission figures for attendance and receipts at today's game are as follows: Total attendance, 55,878; total receipts, \$134,496.36; commission's share, \$13,249.90; players' share, \$72,087.36; each club's share, \$11,356.56.

The Eddy Trust. Boston, Mass., Oct. 10.—A trust estimated at \$2,000,000, created by the will of Mrs. Mary Baker Eddy, founder of the Christian Science church, for the benefit of the denomination, was declared void by the Massachusetts supreme court yesterday. The court holds, however, that a charitable trust has been created and that new trustees may be appointed to administer it.

BRIDGE BUILDER KILLED. Edmonton, Alta., Oct. 10.—While changing his footing on the top tier of the immense steel bridge of the C. N. R. over the Pembina river at Entwistle, Joseph Johnson, a structural ironworker, accidentally touched the trigger of the pneumatic riveter, which rebounded, struck him in the forehead, and sent him hurtling through the air to a terrible drop of 170 feet to the river below. The falling man struck an out-jutting beam on a lower deck of the bridge and the body's drop was deflected from the open water into a raft upon which the man fell on his head and was instantly killed.

THE BEST WHISKY SOLD IN CANADA, regardless of nativity, is the

Special Selected Whisky

of the Corby Distillery—pure—straight whisky—without artificial flavor or color—sold in bottles under Government seal.

The color of this whisky is the golden glow from years of mellowing in charred oak barrels—at an evenly warm temperature. The flavor is the natural, mild sweetness of ripe old grain. That fiery, harsh, smoky taste of ordinary whisky is entirely absent.

SHE SUFFERED TEN MONTHS

Mrs. Blankenship Tells of Her Restoration to Health by Lydia E. Pinkham's Vegetable Compound.

Elliston, Va.—"I feel it my duty to express my thanks for what Lydia E. Pinkham's Vegetable Compound has done for me. I was a sufferer from female troubles and had been confined in bed over one third of my time for ten months. I could not do my housework and had fainting spells so that my husband could not leave me alone for five minutes at a time. Now I have been restored to health and it has come from taking Lydia E. Pinkham's Vegetable Compound. Whenever I see a suffering woman I want to tell her what this medicine has done for me and I will always speak a good word for it."—Mrs. ROBERT BLANKENSHIP, Elliston, Va., Montgomery Co.

Was Helpless—Now Well.

Trenton, Mo.—"About two years ago I had female trouble and inflammation so bad that I was literally helpless and had to be tended like a baby. I could not move my body or lift my foot for such severe pains that I had to scream. I was very nervous and had a weakness. Lydia E. Pinkham's Vegetable Compound has helped me to such an extent that I think there is no medicine like it for female troubles. I am up and able to do my work again and I give you full permission to publish my letter for the sake of other suffering women."—Mrs. V. T. FURNESS, 329-10th St., Trenton, Mo.

W. E. Wheeler has arrived in the city from Shawinigan Lake, and is staying at the King Edward hotel.

Hon. T. Cecil, with Mrs. Cecil, are here from London, England, and at present are at the James Bay hotel.

W. F. Wilson has arrived from Stockton-on-Tees, England, and is among the guests at the Empress hotel.

At "Dingley Dell," the residence of the bride's parents, a very pretty wedding was celebrated yesterday afternoon.

The following guests are registered at the Dallas: Mr. and Mrs. G. P. Napier and family, city; Mr. H. R. Townsend, Nelson; Mr. Stevens, city; Rev. and Mrs. Arthur, Rev. and Mrs. Sander-

"HAIR THAT GIVES FATHER TIME THE LAUGH"

We are just about as old as we LOOK. People judge us, by the way we LOOK. The man or woman with grey hair is beginning to get in the "Old Timer's Class." This Twentieth Century does NOT want GREY hair—it wants the energy of Youth. The big things are being done by the YOUNGER generation.

There's a sort of "Has Been" look about those "Grey Hairs." There's always one to criticize and smile scornfully. Father Time is a stern disciplinarian. Get the best of him. Give him the laugh. Do not be a "Has Been." It's unnecessary. Use HAY'S HAIR HEALTH.

presented to the groom by the stewards of the Empress of Japan. The happy pair, who were the recipients of numerous honeymoon presents, are spending their honeymoon in Seattle, the bride wearing a dress of navy blue serge with a big blue picture hat trimmed with Oriental embroidery and a black cigarette. On their return they will live at 507 Royal Alexandra apartments, Bute street, Vancouver. The groom's gift to the bride was a gold bracelet watch, and to the bridesmaids gold and jade brooches, to the little flower girl a pearl necklace, and to the best man gold cuff links.

The Evening Chit-Chat

By Ruth Cameron

One of those very kind reader friends who do me the compliment of thinking I know about ten times as much as I really do, asks me to express my opinion and prescribe a cure for seven or eight kinds of erring husbands.

The last kind mentioned is "a husband who speaks sharply to his wife without occasion and ridicules her opinions."

My dear friend, if you think I am a sane and sensible woman, you must already know my opinion of that kind of a man. And as to the matter of a cure for him—well I speak sharply to my wife without occasion and ridicule her opinions. If I knew such a remedy I should be tempted to make my everlasting fortune by forming a corporation to sell it.

If a census could be taken of husbands who think they love their wives and yet never hesitate to humiliate and wound them by speaking sharply to them or making fun of them, I suspect that every town would yield its hundreds and every city its thousands and tens of thousands.

Now there are undoubtedly very few of these men who would not be horrified at the thought of being capable of inflicting physical pain on their wives.

They would probably knock a man down if he suggested to them that such a thing was possible.

And yet I know that the heart of every woman who has a husband like this will give me a speedy affirmative when I ask if the mental pain and humiliation which she suffers from being constantly rebuked and ridiculed is not quite as keen as physical pain.

A woman cannot help wanting to have her opinion received with some respect and her foolish little mistakes overlooked, even if she is a wife. And mind you, when I speak of ridicule I don't mean the tender raillery that is half jest and half pride, I mean the unsympathetic, ridicule that brings a lump to the throat and makes the heart sore.

Now I know that some of the men I am accusing would defend themselves by saying, "But if you could only hear the utterly foolish things my wife says."

That will be some justification, prisoner at the bar, on one condition. Would these same things arouse your derision if some pretty young stranger said them? Or would you listen as deferentially as if the pretty young thing were dropping pearls and diamonds of wisdom from her lovely lips?

No, prisoner at the bar, that won't let you off. Your wife said just as foolish things before you married her and you didn't find it necessary to be rude and disagreeable to her then.

Please consider yourself, insofar as the district attorney can accomplish it, proven guilty of a cruelty that is just as cruel and just as hard to bear as physical cruelty.

What is the penalty? That you go at once and tell your wife that you are thoroughly penitent for being so thoughtless and that you are going to turn over a new leaf.

BANDITS SECURE \$3,000.

St. Louis, Mo., Oct. 10.—Bandits who used an automobile, waylaid Thomas J. O'Meara, a saloonkeeper, to-day, and took from him a grip containing \$3,000 in cash. They held off a crowd of pursuers with revolvers and escaped.

The number of the automobile was obtained by the police. O'Meara had drawn the money from a bank at cash cheques of workers near his saloon.

Compared with the amount of tea annually consumed in 1893, the United Kingdom to-day consumes over three times the amount.

INQUEST ON BODY OF JAPANESE BOY

ONE OCCUPANT OF ELEVATOR IS FOUND

Office Boy in Pemberton Block Saw Accident—M. Pownder Makes Statement

That there were occupants in the Pemberton block elevator Tuesday afternoon when a Japanese elevator boy named Takekono Koroyeda met his death by a fall to the bottom of the elevator shaft, and that these did not make any move towards reporting the matter developed this morning at the inquest held at the city hall, where Edward A. Wootton, an office boy employed by Pemberton & Son, told the coroner's jury that he was on one of the floors of the building when the accident happened, and saw an elderly man and a young man in the elevator when the Japanese fell. The boy saw the elderly man endeavoring to push his way out of the elevator while it was in motion and the door was open. In attempting to push past Koroyeda the witness said, the elderly man failed to get out of the moving elevator, but that the Japanese was pushed forward falling out on to the passage way. He attempted to hold to the floor, but his body fell under the cage of the elevator, which was going upward. The Japanese could not hold, and fell down the shaft. The elevator continued to go upward, and the boy ran down stairs to the basement and obtained help for the Japanese.

There were others who saw the two men in the elevator, George A. Fraser, druggist, and J. A. Smart, real estate agent, Pemberton block, assisted the two men to leave the elevator while it was between two floors. Mr. Fraser, at the inquest this morning, said he saw the position of the unattended elevator, and went to Mr. Smart's office for a chair by means of which one of the two men was enabled to leave the cage. Mr. Smart corroborated Mr. Fraser in these particulars.

Witnesses were called who testified that the elevator was in perfect running order, except that a buffer was misplaced, and was found at the bottom of the shaft, believed to have been dragged from its position by the elevator boy in the course of his fall.

Another witness, William Charles Caplan, stated that although the elevator boy was seriously injured, no report of the accident was made to the police. A telephone message to him from police headquarters about 9 o'clock at night was the first conversation he had with the authorities about the matter. After he had accompanied the boy to the hospital he went back to the building and found the elevator doors locked. He gave as his reason for not notifying the police of the accident that he did not think of it.

The jury's verdict was that the deceased came to his death by accident, and recommended that the police in every endeavor to locate the two men in the elevator. The jury also commended Edward A. Wootton for his action in going to the assistance of the injured boy, and for the manner in which he gave his evidence. The jury consisted of T. B. Colville, H. D. Hume, W. E. Piddock, N. C. Badger, G. van Buskirk and A. H. Fleishman.

One of the men in the elevator, the elder of the two, is M. Pownder, residing at 1499 Blanshard avenue. He attended at the city hall this morning after the inquest had been held, and from there went to the detective office by advice and made a statement. He was questioned by Inspector Perdus, who took a statement from him in writing.

Mr. Pownder's statement was as follows: "I stepped into the elevator on the ground floor and was going to the second floor. I called 'Two!' as I entered the car. There was another gentleman in the elevator beside myself. The elevator went up, and I thought we passed the second floor. I turned to tell the elevator boy and got a glimpse of him sliding off the floor of the elevator. The machine came to a stop between the second and third floors, and the other passenger and myself got out. I am quite sure that there was only myself and one other passenger in the elevator at the time, and I am also sure that the elevator made no stop up to the time the boy fell out and it came to a stop between the second and third floors."

EXPECTED HERE

Three Prominent Men Who Will Visit Victoria Shortly.

Among the prominent men shortly expected in Victoria are three of especial interest. These are Major Ernest C. Meysey Thompson, F. G. Naumann and Hon. A. E. Forget. Major Ernest Meysey Thompson is one of the most brilliant members of the imperial parliament, few men having such a firm grasp of the great questions of the day, as the member for the Handsworth division of Staffordshire. He has retained the seat since the year 1906.

F. G. Naumann is head of the great Naumann Gepp Company, Ltd., of London, Eng., who do the most extensive coffee trade of any company in the world. He is making a short business trip to the Dominion accompanied by his chief American representative, George Lawrence, of New York. Mr. Naumann is expected here this afternoon.

Hon. A. E. Forget is the former lieutenant-governor of Saskatchewan and first came to western Canada in 1876. He is now a member of the senate. He came west to Vancouver to attend a meeting of the Prudential Investment Co., of which he is a director. In all probability the senator will pay a short visit to this city.

ECONOMICAL WHOLESOME RELIABLE PURE MAGIC BAKING POWDER

LOCAL NEWS

An Unusual Passenger.—Yesterday an Indian brought a large panther, which had just been shot, into the city by train. It is believed that the animal was killed not far beyond Duncan. Great interest was evinced by the other passengers in the boat and his dusky slayer.

Building Permits.—Building permits have been issued by the Oak Bay authorities to W. Easton for a six-roomed house on Hampshire road south at a cost of \$3,900; also to Thomas Grayson, for an eight-roomed house on Cranmore road, at a cost of \$3,000.

Classes Postponed.—Miss Constance Bromley's classes, which were to have recommenced next Monday, will not open until the following Monday, October 14. Pupils are asked to please make a note of the postponement of the classes until the date given.

Change in Train Schedule.—There is a slight change to be noticed in the E. & N. train schedule which comes into effect on Sunday next. The trains will leave Victoria at the usual time, special at 8 o'clock and the ordinary at 9, but returning the special will follow half an hour behind the ordinary train from Duncan.

Plaintiff Gets Damages.—In an action for damages before Judge Lampman, in the county court yesterday afternoon, the plaintiff in Sprout against Clarke obtained \$50 damages and costs. The plaintiff was driving with other in a buggy on Strawberry Vale, when the defendant ran into the buggy in attempting to pass it. The plaintiff was thrown out and her hip dislocated.

Sunday Meetings.—Rev. Mr. Bradshaw will deliver an address at the first of the Sunday meetings of the local Y. M. C. A. at 4 o'clock on October 13. The service, which will take the form of an educational rally, will be interspersed with musical items, and J. O. Dunford, vocalist, will give selections. It is expected that these Sunday meetings will prove highly popular in the city, and will be of incalculable good in promoting religious work and knowledge among members of the association.

From Far Afield.—Among the enquiries received at the office of the Vancouver Island Development League was one from as far afield as Vernet-le-bains, a health resort in the Pyrenees. Another letter received was from Pretoria, South Africa, from which point several persons have lately expressed their intention of emigrating to this island in the near future. The interest in this city taken by people in the Old Land seems unflagging, and this morning brought another large batch of correspondence from all parts of Britain. Most of these, however, were merely applications for information about this district and did not contain any special points of interest to the general reader.

THE FASCINATING WIDOW.

Julius Ettinge Proves a Remarkable Woman, Superbly Gowned, But Show Lacked Voices.

Appearing before a large house in "The Fascinating Widow" at the Victoria theatre last night, Julius Ettinge followed the same lines of impersonation as the Rothwell Browne Company, Herbert Charles and L. N. Berrens, was distinctive indeed for the splendor of his costumes and the womanly grace with which he wore them. The "lines" to his feminine figure were developed remarkably well with the aid of padding.

Mr. Ettinge was a very dashing widow, Junoesque in appearance and dazzling also. Those who entered the theatre late, and after he had appeared as a man, must have remarked upon the magnificent creature before them on the stage.

The chorus work of the production was exceedingly good both musically and in their costumes. The Fascinating Widow contained an immense amount of comedy, but, as a musical show, could have been improved by the inclusion of at least one good voice in the cast.

MEETING OF FIRE WARDENS.

Provincial Officials Gather to Exchange Opinions on Past Season.

Chief Forester Macmillan, Divisional Fire Warden Markland, Graham and Stillwell were in conference yesterday over the results of the past season's work. In the Cowichan Lake district precautions are being taken by the Victoria Lumber Manufacturing Company to prevent fires by setting aside a strip 100 feet wide on either side of the railway, cleared of all brush, logs and stumps, and cleared of the slashings. This serves as a protection against fire breaking out from sparks falling from locomotives attached to the logging engines.

BOARD OF TRADE QUARTERLY MEETING

To Be Held To-morrow at 3 o'Clock—Much Important Business.

The quarterly general meeting of the Victoria Board of Trade will be held in the Bastion street rooms at 3 o'clock to-morrow, Friday afternoon.

A large amount of important business is to come before the meeting and G. H. Barnard, M. P., has announced his intention of being present.

The reports of the committee with regard to the claims for compensation by owners of sealing schooners being put out of business will be considered. An interesting discussion is also expected to take place on the Panama Canal situation. The Canadian Chamber of Commerce has asked the board for endorsement of their own action with regard to the Canal treaty, and individual opinions will be asked for from members at to-morrow's meeting.

Another committee to report will be the pilotage committee and the subject will be the charges on the port. On the shipbuilding question the proposed memorial to the Dominion government to assist shipbuilding in Canada will be thoroughly dealt with.

A part of the time of the meeting will be devoted to dealing with the proposed alteration in clause 16 of the general meetings by-law. Notice of the proposed change has already been given, which is as follows: To strike out the word "July" in the second line and insert in lieu thereof the word "April." Strike out the word "April" in the fifth line and insert in lieu thereof the word "July," the object being to change the month of the annual meeting to July instead of April.

BIGAMY CHARGE IS WITHDRAWN TO-DAY

Magistrate Frowns on Practice of Carrying Revolvers in Peaceable Victoria

Absence of jurisdiction was suggested this morning to Magistrate Jay as a reason why Alonzo Brownell, charged with bigamy should be released from custody. Mr. Webster appearing for the accused, who is a resident of Nanaimo, mentioned that the accused had been married at Westminister, was alleged to have committed bigamy in South Africa and is now a resident of Nanaimo. He did not see where the magistrate had jurisdiction under those circumstances. There was no appearance this morning of the informant who previously alleged bigamy against accused and therefore the magistrate on the application of the provincial police, allowed the charge to be withdrawn. Brownell was then released from custody.

The practice of carrying revolvers, against which the police magistrate has previously spoken, was again condemned to-day when a man named Del Alnutt was brought guilty to being in possession of a revolver. He was fined James Taylor, a man charged with indecent exposure, was fined \$15. The case of H. P. Winsby, charged with obstructing an automobile on the occasion when he broke his automobile lamp by bumping into the machine of G. R. Hughes, was remanded until Monday for the attendance of witnesses. The witnesses Mr. Winsby requires are Mayor Dier, of Ladysmith, and another resident of that town. He announced this morning that his witness would be in Victoria on Monday, and to accommodate him his case was set over till then.

LADIES' MUSICAL CLUB.

Enjoyable Concert Will Be Given at Alexandra Club To-night.

Everything points to a most auspicious opening for the amateur season of the Ladies' Musical Club to-night at the Alexandra Club, and a large proportion of the five or six hundred to whom invitations have been issued promise to be present for the occasion. It is gratifying to find on the programme of the first concert of the year such well known names as that of Miss Eva Hart, Miss Maude Scruby, and Miss Long, all of whom, both as musicians and as teachers of the art in which they so ably show their skill, are favorites with the music-loving public of both this city and Vancouver. Miss Long has lived in Victoria for the past two years, and has been heard with great pleasure on the part of her audience on a number of occasions, while Miss Eva Hart, who only came to this city late last spring, has already been heard in some of those delightful songs of Liza Lehmann, Noel Johnson, and other composers whom she so expressively interprets. Miss Maude Scruby, one of the few cellists whom the west may pride itself on having in its midst, has come down from Vancouver for the express purpose of performing at this concert—although it is to be hoped, now that she has decided to take pupils in Victoria, that she will be heard oftener than hitherto. Lastly, the Arion Club, the male voice choir which is famed beyond the environs of Vancouver Island for its splendid choral work, will give some numbers on this evening's programme, and those who gather to get a foretaste of the 1912-13 season's concerts will find in this gathering many of the elements from which the forthcoming entertainments will be built up.

Have You Visited Our New Basement Department?

YOU should. The bargains we offer in kitchen ware, china, cut glass, brassware, toilet articles, stationery, etc., are remarkable. Our buying for this department was made at a time of year when prices were extremely low, and consequently we can sell our goods at unusually small figures. Everything stocked is of standard make, and reflects only the best workmanship and skill.

One feature of this new department is our 5c, 10c, 15c, 20c and 25c counters. On these are assortments of useful articles—all to be sold at the one price fixed for that particular counter. You will be surprised to see what bargains are to be found there.

Blouse Specials Underwear Bargains

One of the best bargains in our line of Ladies' Tamaline Silk-Blouses in navy and white, brown and white, cadet and white stripes—running on the bias. Set-in kimono sleeves and high tuckled collar. Reverse in front. Collar and cuffs edged with piping of self color.

Special Sales Price \$3

Another special line of Blouses purchased solely for our Anniversary Sale, are those of crepe de chene in evening shades of reseda, iris, sky, pink and cream. Made with round neck and three-quarter length sleeves and finished with narrow bands of black velvet.

Special Sales Price \$5

JUBILEE HOSPITAL AND PUBLIC VOTE

Question Will Be Discussed With Mayor Beckwith—V. & S. Situation

The opportunity which will be taken to-morrow afternoon of laying before the mayor the situation in connection with the Royal Provincial Jubilee hospital, and the proposed by-law for the city's contribution of \$200,000, will give the needs of the institution in order to advise the council in connection with the by-law. It is not likely it will reach the citizens before the January election, as the experience of last November was convincing enough that it is useless putting a by-law so late in the year with any hope of passage.

Nothing definitely has been determined yet whether the V. & S. railway offer will come back to the city council. The formal meeting of the company held yesterday was merely the statutory one to comply with the law, and the directors had no power to make any terms in the negotiation now pending.

OBITUARY RECORD

The funeral services of the late John Gaunt were held yesterday afternoon at 2:30 from the Hanna-Thomson undertaking parlors. Rev. Mr. Thorpe officiating. There was a large attendance of friends, and many beautiful flowers covered the casket. The following acted as pallbearers: Messrs. A. Allison, J. C. Wright, H. W. Driver and Few.

The funeral of the late Mrs. Fullerton took place yesterday afternoon from the family residence, 1614 Craigflower road, Rev. Dr. Scott, assisted by Rev. George Dean, officiating. There was a big attendance, and a large number of floral tributes. The following acted as pallbearers: Messrs. A. J. Hewson, H. Monteth, H. Siddall, A. Nichol, Capt. G. W. Gidley and A. J. McKenziel.

OPINION ON ASSESSMENT CASE.

Effect of Yesterday's Decision on Local Improvement Assessment Appeals. There is considerable satisfaction in city hall circles that the ruling of the court of revision on the Victoria West Assessment was not disturbed, because had the revision been upset it would have encouraged other references to the courts in local improvement and similar cases where a municipal court has to fix the assessments levied by its officials. There will be a court of revision on several local improvement by-laws for work in the Fairfield and other districts next Wednesday at the city hall. Usually there are not many cases of

Personals

Miss Maude Scruby, of Vancouver, is the guest of Mrs. Richard Nash, 1605 Pemberton road, for the next few days.

Rev. William Stevenson, who has been visiting in Vancouver since Monday last, returned to Victoria to-day.

A quiet wedding was celebrated on Monday evening at the Emmanuel Baptist manse, when Miss Selma Willoughby, of Ampleforth, Yorks, England, was united in marriage to Mr. Edward Dawson, of this city, the ceremony being performed by Rev. William Stevenson. The groom was supported by Perry Wells, Mrs. Wells attending the bride as matron-of-honor.

A quiet but pretty wedding was solemnized yesterday afternoon at 2:30 when Edith Genevieve, only daughter of the late H. M. Cowper and Mrs. Cowper, was united in marriage to Mr. Clarence Earl McLean, of New Westminster, the ceremony taking place at the Reformed Episcopal church, and Rev. T. W. Gladstone, assisted by Rev. Dr. Reid, officiating. Only the immediate friends and relatives of the young people were present.

The bride, who was given away by her uncle, Harry Burr, of Brulville, B. C., looked charming in a graceful gown of white pearl embroidered satin, with which she wore tulle veil and orange blossoms, and carried a bouquet of white roses and maidenhair fern. She was attended by one bridesmaid, Miss Ena MacLean, a sister of the groom, who wore a pretty blue satin frock and a big picture hat, her bouquet being of pink carnations and fern. Mr. Henry Cowper, the bride's brother, acted as best man.

Immediately after the ceremony the bridal party adjourned to the home of the bride's mother, 540 Niagara street, where a reception was held and light refreshments served, the happy pair receiving the felicitations of their friends, and leaving by the afternoon boat for Seattle on their way to California and other southern parts. On their return in about three weeks' time Mr. and Mrs. MacLean will make their home at New Westminster.

The groom's gift to the bride was a pearl necklace, to the bridesmaid a pearl ring, and to the best man cuff links of nugget gold.

RULER OF GREECE AROUSES ENTHUSIASM

King George Declares People of Country Will Do Their Duty

Athens, Greece, Oct. 10.—Great enthusiasm has been aroused throughout Greece by a speech made by King George to several thousand people who had assembled at the palace to welcome him on his return to the capital last night. His Majesty said: "I am convinced that the Hellenic people will always carry out their duty. I have full confidence in the government which has given so many proofs of its patriotism."

At the conclusion of the speech a great shout of "Long live the King—long live Greece—Hurrah for the war!" was raised by the gathering, among which were members of the cabinet and of the Holy Synod and a number of diplomats.

GUILTY OF CONSPIRACY.

Tacoma, Wash., Oct. 10.—Guilty as charged was the verdict of the jury in the cases of C. E. Houston and John P. Bullock, tried in the federal court on a charge of conspiracy to defraud the government on coal contracts in Alaska.

The jury was out nineteen hours. The court ordered the defendants to appear November 9 for sentence, when motions for a new trial and an arrest of judgment will be heard.

THE BECKER TRIAL.

New York, Oct. 10.—The jury which will try Police Lieutenant Charles Becker, charged with the murder of Herman Rosenthal, the gambler, was completed to-day. The twelfth man was the eighth foreman of the second panel.

Witnesses for the prosecution were on hand early, and with them the informers, Rose, Scheppe, Vallon and Webber.

CONSTIPATED, BILIOUS, HEADACHY, LIVER TORPID?—CASCARETS SURE

Turn the rascals out—the headache, biliousness, constipation, the sick, sour stomach and foul gases—turn them out to-night with Cascarets. Don't put in another day of distress. Let Cascarets sweeten and regulate your stomach; remove the sour, undigested and fermenting food and that misery-making gas; take the excess bile from your liver and carry off the decomposed waste matter and constipation poison from the bowels. Then you will feel great. A Cascaret to-night will straighten you out by morning—a 10-cent box from any drug store will keep your head clear, stomach sweet, liver and bowels regular and make you feel bully and cheerful for months. Don't forget the children.

10 Cents. Never gripe or sicken.

"CASCARETS WORK WHILE YOU SLEEP."

THE SCHOOL BOARD AND FINANCES

DIFFICULTIES WITH MEETING PAYMENTS

City Health Officer Replies to Criticism About Location of Substation Near School

Finding that only \$37,000 remain towards paying for the new High school under construction by Dinsdale & Malcolm, the school board last evening decided to refer to its finance committee the question of how to meet the progress payments when they came due.

The consolidation of the two by-laws for the High school and extraordinary expenditure voted by the rate-payers this year, and authorized to be consolidated at the meeting of the city council on Monday with a view to the sale of the debentures, was referred to by Trustee Staneland.

The chairman, George Jay, thought it was probably done in order to hasten the raising of money. They knew the difficulty of floating loans at the present time in London.

The secretary stated that the city comptroller had pointed out the difficulty he had in paying the last cheque due, owing to the pressure on the city treasury.

Woodland Road Station.

To Trustee Staneland, who inquired about the effect of the Woodlands road garbage sub-station on the Sir James Douglas school, owing to its proximity to the playground of the school, Dr. G. A. B. Hall said that the city health committee had taken all these matters into careful consideration before recommending the site. The building would be fully covered up, and there would be no offensive features, as had already been frequently explained in the press. He had been worried by callers about this matter, who had the strangest notions about what constituted the health committee's proposal. There was no intention of allowing the garbage to remain, but it would be shifted daily to the incinerator for destruction.

Trustee Staneland observed that the children were curious, and would be quickly there to examine the contents of the bunkers.

Dr. Hall said it would not hurt them if they did. They could see nothing but what the garbage cans at their own backdoors contained.

Instruction of Girls. The secretary of the Y. W. C. A., Miss Brayshaw, asked for the use of the Pemberton gymnasium for the inauguration of physical training among the working girls of the city. She requested its use one day a week, and the application was granted free of cost.

New Northside School. Reports on the progress on the new High school and Burnside school, were received, but the building and grounds committee secured further time for report in the cases of the James Bay school, congestion at the Sir James Douglas school, and the purchase of additional land at Bank street.

So far as the Quadra street site in concerned the committee reported in favor of a plot of land having a frontage on Finlayson and Quadra streets, and to the continuation of Fifth street when it is opened up. This lot was offered the board by Grant & Lineham at \$22,000, with allowance for the land required in case of street extension.

Captain McIntosh described the price as an outrage, and a holiday.

In order that the chairman may have an opportunity of seeing the properties offered the board, the selection will be made at a special meeting to-morrow evening.

A Lost Certificate. It transpired that a fire which had consumed the personal belongings of T. W. Hall, when at Calgary, had destroyed his first-class teacher's certificate gained in England. On appointment under this board the superintendent of education, Dr. Robinson, stated that a temporary certificate had been granted till June, 1913, by which time the department of education hoped the teacher would be in a position to satisfy the board of his capacity and qualifications.

The Recent Reception. It was decided to convey to the principals of the schools, on the suggestion of Mrs. Jenkins, a vote of thanks for the manner in which the arrangements had been carried out for the reception of Their Royal Highnesses the Duke and Duchess of Connaught on October 1.

The board decided to vote Instructor Ian St. Clair an honorarium for instructing school pupils in swimming during the past season.

Singing Lessons. In recommending an increase of salary to Supervisor of Singing H. J. Pollard, Superintendent Paul stated that the plan of teaching singing in the schools would have to be amended, in accordance with the expressed wish of the board. They proposed that extra instruction should be given after school hours to those teachers who needed it, so that they in turn could pass on the methods to the children.

Trustee Riddell thought the time had come for a certificated teacher, and while he agreed that Mr. Pollard had been faced with great difficulties, he believed the board should take the whole matter under consideration.

The increase was voted, and the recommendations will be considered.

DYSPEPSIA MADE HIM MISERABLE

Suffered Agony Until "Fruit-a-tives" Cured Him

Hundreds of people gladly testify to the wonderful curative powers of the famous fruit medicine, "Fruit-a-tives." To those now suffering with Indigestion, Dyspepsia, or other Stomach Troubles, this letter of Mr. Stirling, the well known real estate operator of Western Ontario, shows the way to a speedy and certain cure.

Glencoe, Ont., Aug. 15th, 1911. "Fruit-a-tives were so beneficial to me when I suffered with distressing Dyspepsia, that I wish to inform you of their satisfactory results.

"Although I have, in past, suffered agony with Dyspepsia, I am now in perfect health. 'Fruit-a-tives' accomplished the desired result.

"N. C. STIRLING." "Fruit-a-tives" will cure every trace of Indigestion, Dyspepsia, Sour Stomach, Bloating, Pain After Eating, Biliousness and Constipation.

"Fruit-a-tives" is the only remedy in the world made of fruit juices and valuable tonics.

50c. a box, 6 for \$2.50, trial size 25c. At all dealers or sent on receipt of price by Fruit-a-tives Limited, Ottawa.

Y. W. C. A. CAMPAIGN FOR BUILDING

WAS INAUGURATED YESTERDAY EVENING

Banquet Attended by Prominent People Was Held

The warmest support was given to the Y. W. C. A. campaign idea last evening when the directors entertained a number of the leading business men of the city to a banquet at the Alexandra Club, His Worship Mayor Beckwith, occupying the chair, and introducing the subject of the campaign to the gathering. Those gathered around the board included a number of the ministers of the city, Rev. W. Leslie Clay, Rev. Mr. Gladstone, Rev. J. P. Warnicker, and Rev. Otto Gerlich; also a number of business men, provincial members, and others in a position to help forward the work—F. Behnson, M. P. P.; C. H. Lugin, F. C. Niven, J. Forman, H. J. Knott, W. H. Mitchell, president of the Y. M. C. A.; F. C. Sayers, general secretary of the Y. M. C. A.; Albion Jones, H. T. Knott, and several others, the ladies present including Mrs. Adams, president of the Y. W. C. A.; Miss Bradshaw, general secretary; Mrs. Niven, Mrs. James Forman, Mrs. Scales, Mrs. Williscroft, Mrs. W. A. Mitchell, Mrs. Moseby, Mrs. Smith, Miss Bromley-Jubb, and Miss Fawcett.

Letters of regret were read from His Honor the Lieutenant-Governor and Mrs. Paterson, and Premier and Lady McBride, the last named being one of the patronesses of the association.

His worship, in introducing the subject, called attention to the number of self-supporting women there were in this city at the present time, and said that, while the number was not more than 2,000, about half of this number were away from home, and the number was constantly growing.

which the ladies of the board of the Y. W. C. A. had undertaken in opening the campaign for a fund to raise a new and larger building was worthy of the heartiest support of each and every citizen, and those who had the money to give would, he hoped, be liberal in their gift and assist the enterprise in the manner which it deserved.

Mrs. Adams, who was called upon by the mayor to speak, outlined the work of the institution, and said that it had been a policy of the institution never to turn a girl away when she went to them. Not only did the girls receive assistance by going to them, but they also went out to meet the girls, and the Travellers' Aid had done a big work in meeting every incoming boat and assisting the girls in any way possible. The management always endeavored to educate the girls to a realization of their responsibilities—and their efforts had been rewarded with success in nearly every instance. Referring to the interview she had had with Sir Thomas Shaughnessy regarding a grant from the C. P. R. for the new building, this had only been satisfactory in so far as his endorsement of the idea was concerned, as the C. P. R. only assisted young men—this, however, liberally, as they had themselves built a Y. M. C. A. at Portage la Prairie which had cost them \$75,000. The Y. W. C. A. movement was no less worthy than the men's movement, however, said Mrs. Adams, and the city could give its money to a more worthy cause than that of the protection of the girls and women and the making of a better type of womanhood. The moral character of the city was a matter of some consideration, and the moral character of the nation was but a reflection of the moral character of its women.

Following Mrs. Adams' address Miss E. Bradshaw spoke to the meeting, and outlined the nature of the classes which are to be conducted in the new building, chief among which would be classes for the study of domestic science, where girls could be taught in a practical way how to cook and keep house. Foreign girls would also be given help by the classes in English, which would give them an opportunity of learning this indispensable language.

Mrs. Gerald Scales pointed out that

Two New Victrolas

It is with great pleasure that we announce the advent of two new Victor-Victrolas. These types embody all of the most modern improvements in tone quality, cabinets, record filing systems and mechanical construction.

Finished in finest figured mahogany, either of these types is an ornament to your home. A product of the celebrated Victor factory, we cannot praise them too strongly. You must see and hear them to judge of their value.

Latest Type Hornless Gramophones

Style Number Eleven is priced at \$135 Style Number Fourteen is priced at \$200 We invite you to our cosy Victrola parlors to listen to your favorite singer or soloist on the Victrola. Other styles from \$20 to \$250 Come in to-day and view the Largest Stock of Victor Victrolas Ever shown on the Island.

WILL BE REPRESENTED.

Victoria Schools Will Have Exhibit in Permanent Collection at London, Eng.

The city is to be represented at an exhibition of the drawing work of schools in different parts of the empire being formed at the present time by George Mason of Stoneleigh, Streatham Place, Brixton Hill, London.

The exhibition is to be of a permanent character, and will be representative of various schools of artistic thought as developed in the institutions of learning.

Miss Mills, the supervisor of drawing in the schools, has obtained the consent of the board to send three examples of each grade in the Victoria public schools. Mr. Mason will pay all expenses of the transfer of the examples to London.

Payne Arbitration—The arbitrators heard Councilor Quick, the well-known Saanich farmer, as a witness for the city in the Payne arbitration affecting Humpback reservoir site, at the session this morning. The case is expected to finish to-day.

HAD BAD SORE FOUR YEARS ZAM-BUK HAS HEALED IT!

Mrs. Wilson, 116 Wickson Ave., Toronto, says: "About four years ago a sore spot appeared on the right side of my face. This spot increased in size until it became about half an inch in diameter and very painful. I went to a doctor, but the ointment he gave me did not have any good effect. The sore continued to discharge freely, and was most painful. I had it cauterized, tried poultices, and all kinds of salves, but it was no good, and I continued to suffer from it for four years! "A sample of Zam-Buk was one day given to me, and I used it. Although the quantity was so small, it seemed to do me some good, so I purchased a further supply. "Each box did me more and more good, and, to my delight, before I had been using Zam-Buk three weeks, I saw that it was going to heal the sore. In less than a month it was healed! "I know a lady in the east of the city, whose husband suffered for years with an open sore on his leg. On my recommendation, Zam-Buk was tried in that case. The other day, when I saw her, she told me that it had healed the sore completely. "My daughter, who lives in Lethbridge, Alta., has also used Zam-Buk with the same satisfactory result. I think it is, beyond all doubt, the finest healing balm known."

Such is the opinion of all persons who have really tried Zam-Buk. It is a sure cure for eczema, piles, abscesses, ulcers, scalp sores, ringworm, cuts, burns, scalds, bruises, and all skin injuries and diseases. 50c. box, all drug-gists and stores, or post free from Zam-Buk Co., Toronto, for price. In case of skin disease use also Zam-Buk soap, 25c. tablet.

FATHER VAUGHAN ON SOCIALISM

BRILLIANT ADDRESS AT ALEXANDRA CLUB

"Socialism Not the Cure All," Says the Great Jesuit—Relations of Capital to Labor

That Socialism is not the panacea for all ills, was, broadly speaking, the foundation on which Father Vaughan last evening built a superstructure of clever, telling argument, interspersed with flashes of true Irish wit that filled the hall with laughter intermittently the evening through. The Alexandra Club hall was thronged with a crowd composed of all classes, eager to hear the famous priest give his popular lecture.

After being introduced in a few fitting words by Mayor Beckwith, and after thanking the people of Victoria for their cordial welcome to him, the Father figuratively buckled on his armor and tackled the great problem of Socialism, which he designated as "the burning question of the hour." He hoped at the outset that he would not hurt the feelings of the Socialists; his quarrel was not with them, but with Socialism.

As a matter of fact, the lecturer went on to state, the world was under a deep debt of gratitude to the Socialists. He had set a splendid example of hard working and fighting for a cause; of self-sacrifice and enterprise for an idea; and all actuated by the very highest of motives. In that regard the Socialists set us a great example. We were too domestic, too parochial.

Utter Egyptian Darkness.

The propaganda of Socialism which had been hurled at mankind by would-be reformers, had at least accomplished one great thing for the world. It had revealed social sores, long hidden; it had shown the utter Egyptian darkness of the great chasm which yawned between plenty on the one side and penury on the other; it had unbared the mighty evil which, chained great-civilized nations in the form of sweat-industries, of men working for a bare pittance, of girls living their stunted, almost hopeless lives in the great factories and laundries of the old country. They had cast aside the veil which shrouded the figure of Truth and shown it to the world in a manner that was praiseworthy.

"And I thank God bless them for it," said Father Vaughan. But having said that for the Socialists, having met him on common ground on that point,

he must perform now shake hands with him, and say good-bye. Now their way lay in different directions. He could be friendly with all Socialists, of course. There was a good old tradition in the old country that people could hold different views, and yet be good friends. He had met Mr. Balfour and Mr. Asquith at the same table, and the presence of a great opponent had not seemed to spoil their dinner, nor did either attempt to eat the other's dinner.

But though he could be friendly with the Socialists he could not see eye-to-eye with them when they averred that Socialism was the cure-all for the social and industrial problems of the hour. The Philosopher's Stone was the one thing sought after by mediaeval alchemists to transmute all baser metals to gold, but it had never been accomplished; neither would Socialism accomplish all that was expected of it.

But just as the pursuit of the Philosopher's Stone helped on chemistry, so Socialism, though it would not cure all ills, had been fruitful in the study of sociological questions, and had produced among right-thinking men the desire to uplift the condition of the worker. With deep and real feeling vibrating in his voice, Father Vaughan told of his love for the poor.

God's Aristocracy. "I have immense sympathy for God's aristocracy, the poor," he said. "I know them; I love them. They are so simple, so patient, so kind and true.

"I work officially among the smart set in the west of the great metropolis—but I spend all my free time among God's set in the East End. I can tell you one lovely thing, that may, perhaps, be useful to you in your march along the long road that we call Life. Sometimes at the end of a hard day's work in my parish, I have come to the evening when I made it my rule to go to the poorer end of the city, and I have felt too tired to go, too worn out to stir from my room. And then the feeling has come to me that after all labor, that they are waiting for me down yonder, and will welcome me as only the really great of heart can.

"They have my heart and my sympathy. Gladly would I lay down my life for any one of them if I need be, but I tell them that Socialism is not going to cure them, no more than ice on a pillow will cure a fever. The fever is inside. It is not what we have that mauls us. It is what we are. It is character that moulds us."

Soap-Box Oratory.

Father Vaughan stated that he had spent much time in studying the Socialists and their methods of appeal. He called them his soap-box friends, and the amount of "soft soap" they used in their arguments was prodigious. They would point out to their hearers, the workers; how they were being ground under the Juggernaut car of Capitalism; how to vote, to their cause would secure them a fair living wage. He had seen them go among the small farmers and demonstrate to their own infinite satisfaction that the multi-millionaire farmer would crush them out of the market. Into the town they would go,

and descend from their lofty platforms upon the iniquities of the sky-scrapers and huge department stores; they would demonstrate how the small shopkeepers were being starved out by gigantic enterprises and sound the clarion rally-call to the red flag.

Then they would call upon the agnostics, the atheists and the purely pagan, and point out to them the martyrdom of Jesus and revivings they had to face in remaining true to their own just and legitimate opinions. "We are not concerned about any star-land; we seek our heaven here and now, so rally to our standard. We are not going to be priest-ridden and parson-dictated to."

Then they would go to religious people and try to bandage their eyes by arguing that Socialism was not a religious but a sociological question.

"If it were purely a political question," pursued Father Vaughan, "I would not attempt to speak of it—I have no politics. I do not even vote. Socialism is not so much an economic question, as it is an ethical question. It entails evolution, modern, a material view of history, and must be regarded not as a new way of getting money, but as a new way of life altogether. It aims at shifting the centre of gravity of life. Our heaven, according to the propaganda set forth, is to be experienced on earth—a sort of terrestrial paradise.

"It is materialism that makes the Christian and the Socialist walk in opposite directions. One says 'Heaven above,' the other 'Earth beneath.' It is the people, they say, who are to redeem the people."

The Plans of the Socialists.

Continuing, Father Vaughan touched on the plans which Socialists stood for. Briefly, they wanted the socialization of the instrument of all the wealth produced, and all methods of distribution. They so often quoted the post office as an example of what they meant. They could not choose, in his opinion, a worse example. The post office was not an instrument in the production of wealth—those who write the letters and send the parcels are the producers. The post office does not even distribute it, for it has to employ railway companies and steamship lines.

Trenchantly the Father dealt with the socialistic glorification of the state as the "summum bonum" in man's felicity.

"They would make the state the one landlord," he said. "Stripped of all its stage-clothes, what is the state? Did the state create man? No, but man created the state. It was meant to be his servant, his minister, and not his tyrant and master. Man is prior both in nature and time.

"The state has been brought not to assimilate but to assist, and to look to the well-being of all by looking to the well-being of each. When the state waxes to encroach on our private undertakings, then it is time for us to stand up and dictate terms."

The lecturer then dealt with some of the absurdities and anomalies of the Socialistic programme. The problem financially was so gigantic that it was impossible to think of it in plain terms of arithmetic. If everybody was

so good that they could live under Socialism they would not require Socialism at all.

"I am a Socialist."

"I am a Socialist," said Father Vaughan amid laughter. "I belong to the Jesuit order. I have nothing of my own in the world. We are bound by vows of poverty, chastity and obedience—absolute obedience. If I want to go anywhere I go to my Order and ask for money. When I have done what I wanted to do, I return all that I have left over. It is a poor affair to be a Jesuit. Yes we are Socialists because we believe in a 'land beyond the stars.' And it fills me with a great joy, a misty rapture to know that I am trying to make this old world a little better, a little purer. It is a grand, a wonderful thing to be a Jesuit."

Continuing, Father Vaughan dealt with man's eternal instinct—to have a home of his own, to be able to put a little money in the bank, to provide for old age. He was quite certain that Socialism would destroy that idea, root and branch. They evidently did not regard family life as sacred. Some of the Socialistic classics even advocated that men and women should regulate the number of children. In short, the terrible thing is that they want to dictate terms to God. One of the reasons for the frequency of divorce was the fact that men and women often lived together in the animal sense—and naturally became satiated and sought new mates.

"Unless you lift up marriage to the height which God intended," said the lecturer fervently, "it becomes nothing more or less than legalized prostitution. Under their regime, the children would belong to the state, and all the lovely and beautiful relations of family life, the love of father for child, of sister for brother would be swept away in one great wave. What would the earth be without the home?"

Equality of Opportunity.

Forcefully Father Vaughan dealt with the great fallacy of the equality of opportunity. Men born with equality of opportunity seldom attained the same heights. Twins out of the same cradle would succeed in varying degrees almost always. Why, some of the greatest millionaires of Canada had been born practically in the gutter. It was the stuff and the grit that was in them; the perseverance and the doggedness that brought them through. They had bared their faces to the rain and the sunshine, and had fought the battle of life unflinchingly.

"I tell my own countrymen," he continued, "when they come out here, to put their eyeglass in their pocket; to cover up their knickerbockers with a strong pair of overalls, and get their nose down to the grindstone. I love to study the lives of the men of this continent who have 'made good.'"

"It was a question of thoroughness," he continued. "The crossing sweeper had been born practically a thing of beauty by diligence and care." "We are not creatures of environ-

ment," said Father Vaughan. "We are architects of it."

With consummate skill he took up the parable of the chessboard and the pieces in the game of life. "Just as you cannot play the game with the pawns alone so in the game of life, you need the hierarchy, the king and queen, the bishops and the knights."

"But," he added with a smile, "they all go into the wooden box at the end."

The lecturer finished his discourse by suggesting the remedy, which Socialism could not supply. Lack of understanding was the main cause, especially in those who employ labor. They should try to understand the servant question. They should try to uplift others, to build settlements, and homes and clubs, and to introduce some of those little human touches that meant so much in grey lives. A wide berth should be given to the paid agitator whose business it was to create a row when there was none.

Another good plan, suggested Father Vaughan, would be to allow the employees to have some little monetary interest in the firm or company, so that the position of the worker to his work be not so impersonal. He should have some little share in the gains, but realize that his share did not mean all of it.

There should be legislation, he asserted to stop all sweating industries, which was a crime and a tyranny on the part of the employers.

There was something else. People should remember that they were all members of a great Christian Empire, and that the one great liberator and reformer was Jesus Christ. We were suffering from too little Christianity; we had taken it out of schools where it had

formerly been headmaster. The great Reformation which the Socialists dreamed of, had better begin at home. We ought to try and reform ourselves, our homes, our streets, our town. "One thing is certain," concluded the lecturer, "the present relations between Capital and Labor must either be ended or mended."

CIVIC NOTICE

RE MUNICIPAL ELECTION, 1913.

The attention of persons desiring to qualify as "HOUSEHOLDERS," or "HOLDERS OF TRADE LICENSES," to vote at the Municipal Election to be held on the 2nd Thursday of January, 1913, is drawn to Section 8 of the "Municipal Elections Act," which provides that "in the case of the holder of a Trade License, or in the case of a Householder, he or she, shall during the month of October in each year, make and cause to be delivered to the Clerk of the Municipality, a Statutory Declaration made and subscribed before a Justice of the Peace, or a Notary Public, in form, and to the effect of Form 1 in the schedule to the said Act, in the case of the holder of a trade license, and of Form 2 in said schedule in the case of a householder."

"HOUSEHOLDER" shall extend to and include any person of the full age of 21 years who occupies a dwelling, tenement, hotel or boarding house, who has been a resident in the Municipality from the first day of January of the current year, and who shall, unless exempted by the provision of the proviso at the end of sub-section (157) of Section 88 of the Municipal Act (which exempts certified efficient militiamen and persons over the age of 60 years from paying road tax), have paid directly to the Municipality all rates, taxes or assessments, which are not chargeable on land, which rates, taxes or assessments so paid shall amount to not less than two dollars, due to the municipality for the current year, other than water rates or taxes, or license fees for dogs."

Section 9 of the said Act further provides that "No declaration shall be accepted by the Clerk of a City Municipality unless it be delivered within 48 hours after it is made."

Section 5 further provides that "No person who is not a British subject shall have his name placed upon any municipal list of voters."

Forms of declaration may be obtained and the necessary declarations made at the office of the City Assessor, 2nd floor, City Hall, Douglas street, WELLINGTON J. DOWLER, C. M. C.

Victoria, B. C., October 1st, 1912.

Notice to Printers

TENDERS

Will be received at the office of the undersigned until Monday, the 14th inst., at 3 p. m., for Printing and Binding the Municipal Voters Lists for the year 1913.

Samples and specifications may be seen at the office of the City Clerk, City Hall.

The lowest or any tender not necessarily accepted. W. GALT, Purchasing Agent, Purchasing Agent's Office, City Hall, Victoria, B. C., Oct. 9th, 1912.

While unobjectionable anonymous communications will be published, the name and address of every writer of such letters must be given to the editor.

PROGRESSIVE CLUB'S SLOGAN COMPETITION.

To the Editor.—As no mention is made of the result of the above competition, in the account of the above club's meeting, reported in last evening's Times, perhaps the committee having the matter in hand might enlighten those that took part in the competition as to what progress has been made. It is now over a month since the competition closed, a gold watch, etc., being one of the prizes offered for the best "slogan" selected by the club.

PRO BONO PUBLICO.
Victoria, B. C., October 9, 1912.

BETTER LET WOMEN ALONE, FATHER.

To the Editor: In last evening's Times we read with interest the account of Father Vaughan's address at the Canadian Club. This morning the Colonist reports the same, with additions, in the shape of anecdotes, humorous they are supposed to be, but we fail to see it, although the audience is reported to have been so amused that they laughed exceedingly. The father refers to suffragettes, but his experience with them must have been very limited, or the women were very easy with him, as the stories he told sounds very pointless and are very far fetched in our opinion. That he knows nothing of women, we can very easily take for granted, and no one would seriously expect the Catholic clergy with their rigid retention of medieval ideas to countenance such a movement as this until it has undeniably established itself. So we would advise Father Vaughan to stay by subjects he has knowledge of and meantime leave suffragettes and women severely alone.

SOLDIERS' AND SAILORS' HOME, ESQUIMALT ROAD.

To the Editor.—The following extracts are taken from a letter in your weekly contemporary of the 28th September last, and seeing that there has been no reproduction or question of its veracity, as a disinterested observer on either side I would like to know why the present occupant, who I believe is a minister and one of the trustees, has occupied the building as a private residence (free of rent, I presume), for now over six years, and considers possession nine points of the law in thus prostituting the use for which the home was built. It does seem outrageous that the soldiers and sailors for whom the home was built by public subscriptions, should be shut out, and I further think the public have a perfect right to know what use the money is being put to which is collected in the shape of rentals, for lectures, meetings, etc. The newly formed municipality of Esquimalt have met there and held their meetings, and it is hoped they will remove this state of apathy and arouse public action in the interests of the men who are by every right entitled to the home intended for them.

To those who may not know the history of the place allow me to say that the building situated on the Esquimalt road, corner of Admiral's road, was built about eight years ago by public subscription, including \$1,000 from the provincial government, for the express purpose of providing a home for the sailors and the soldiers of the garrison who have no home.

The building was kept open for about two years, and controlled by a board of trustees, who are still acting and are well known men of this city. About six years ago it was closed, and one of the trustees, the present occupier, has used it as a private residence ever since, in spite of repeated applications to open the place for the sailors and soldiers who were homeless.

OBSERVER.
Victoria, B. C., October 8, 1912.

"Baby Mine."

W. A. Brady, Ltd. presents "Baby Mine," Margaret Mayo's play of a thousand laughs, which kept New York in convulsions of laughter for one solid year at Daly's theatre, and which duplicated its New York success at Sir Charles Wyndham's Criterion theatre, London. This comedy will be seen at the Victoria theatre to-night.

"Baby Mine" is a play that has been a positive success from its first production. The aim of the authoress and producer has been to create real fun, and they have succeeded.

The Sheehan English Opera Company will present "The Trysting" at the Victoria theatre on Thursday, October 17.

The Sheehan Company this season, is by far, the largest and strongest English opera company ever taken in tour, in respect to the double all star cast, the large chorus and the special grand opera orchestra.

When the Sheehan English Opera Company appeared here last season, Mr. Sheehan was suffering with a severe cold, but not wishing to disappoint his many admirers he managed to finish his performances though forced to cancel three weeks of his following tour. After a three months' trip in Europe and mountain climbing and other healthful exercises, Mr. Sheehan emerges this season reduced in weight and singing better than ever in his wonderful career.

BREAKS A COLD IN A FEW HOURS—PAPE'S

First Dose Pape's Cold Compound Relieves All Grippe Misery

After the very first dose of "Pape's Cold Compound" you distinctly feel the cold breaking and all the disagreeable grippe symptoms leaving.

It is a positive fact that a dose of Pape's Cold Compound takes every two hours until three consecutive doses are taken will cure Grippe or break up the most severe cold, either in the head, chest, back, stomach or limbs.

It promptly ends the most miserable headache, dizziness, head and nose stuffed up, feverishness, sneezing, sore throat, running of the nose, mucous catarrhal discharges, soreness, stiffness and rheumatic twinges.

Take this wonderful Compound with the knowledge that there is nothing else in the world which will cure your cold or end Grippe misery as promptly and without any other assistance, or bad after-effects as a 25-cent package of Pape's Cold Compound, which any druggist can supply—it contains no quinine—be sure you get what you ask for—accept no substitute—belongs in every home. Tastes nice—acts gently.

The World Admires a Strong Man ARE YOU ONE?

Would you like to have your friends point to you as they used to do and say: "There goes a strong man?" Do you wish your eye to be so bright, your step so firm and your form so erect that men and women will admire you and remark your manly bearing? These are the thoughts uppermost in the minds of modern men—physical and mental perfection, strength and power.

Who does not like to be strong, to feel that he is equal in strength to any man of his age? You can if you will obey the appeal here made to you. Drugs have been tried and have failed. You know that; but Electro-Vigor cannot fail. It is Electricity, and "Electricity is Life." It gives you the oil with which to set the machinery of your blood in motion, and a few months' use of it will assure you health and happiness for the rest of your life.

ELECTRO-VIGOR

Is a girdle of dry cell batteries, which you wear about your waist while you sleep. It is charged, ready for use, when you get it, and generates its own power constantly. There is no nasty vinegar or acid to bother with; no trouble—no odor.

All night long it pours a steady stream of electricity into the nerve centres, saturating the weakened tissues with its life. This is strength. From it comes the vim, the energy, the fibre of perfect physical and mental action. It renews the health and happiness of all men.

Free to All

To any man who will mail us this coupon we will send prepaid free, our 100-page illustrated book, in which we tell how to restore strength to the sick and weak with Electricity. Don't wait a minute. Call or send for this book now. Consultation and advice free. Office hours 9 to 6. Wednesday and Saturday evenings, 7 to 9. Sundays 10 to 12.

BIRTHDAY CALENDAR

IF THIS IS YOUR BIRTHDAY

An active year is foreshadowed with satisfactory returns for your efforts. You will see opportunities for advancement and will take care that they are not wasted. Those born to-day will be successful and by their own efforts will rise to high positions. They should be trained to have patience, the quality they most need.

Birthday Congratulations TO

Beardmore, Walter Dowker (Toronto); born, Hamilton, 1849; merchant and company director.

Bell, James, M. D. (Montreal); born, North Gower, Ont., 1852; surgeon and professor at ... served in Northwest rebellion as regimental surgeon.

Borden, John William (Ottawa); born, Grand Pre, N. S., 1856; brother of Premier of Canada; in railway service in early life and later a banker; now accountant of militia department and paymaster-general of the militia.

Clarke, Hon. George Johnson, K. C., M. P. (St. Stephen, N. B.); born, St. Andrews, N. B., 1857; Conservative M. P. for Charlotte since 1903; speaker of the legislature since 1909.

Gallant, Sylvain Timothy, M. P. (Plymouth, P. E. I.); born, Bloomfield, P. E. I., 1866; Conservative M. P. for Prince since January, 1912.

Hamilton, Lieut.-Col. Robert Baldwin (Toronto); born, Toronto, 1847; mining broker and soldier; served in Queen's Own Rifles for 31 years, being its commanding officer for eight years; one of the founders of the Boy's Brigade; for many years one of the most eminent lacrosse players in Canada and founder of the National Amateur Lacrosse Association.

Leslie, John (Ottawa); born, Montreal, 1847; private secretary to five ministers of justice; for many years secretary to the deputy minister of Justice.

Ogden, Isaac Gouverneur (Montreal); born, New York, 1844; came to Canada, 1881, as western auditor of C. P. R. and named general auditor in 1883; later was comptroller and now third vice-president of the company.

Roche, Francis James, M. A. (Toronto); born, Whitby, 1865; barrister, soldier and politician.

IDEAS OF A PLAIN MAN

BY DR. FRANK CRANE

The ugliness of modern cities is due to the ugliness of the principles of the society that builds them.

They are fit enough expressions of the spirit of competition, which is the Mr. Hyde in the soul of modern business.

Competition is fighting, and that was never anything but ugly.

It is co-operation that is beautiful. It is only when we learn team-work that we cease to get in each other's way, to gore,

stumble and trample.

And we shall have to wait until we learn how to trust one another and work together, until we master the secret of social organization, until we learn how to save all the waste humanity as we now save all the waste hog, until we find a place for the weak as well as for the strong, until we feel the city, the country, the race as we now feel the family and the business house, we shall have to wait till they build cities that shall be vast, divine, splendid housings for the activities of mankind.

And we shall have to wait until we learn how to trust one another and work together, until we master the secret of social organization, until we learn how to save all the waste humanity as we now save all the waste hog, until we find a place for the weak as well as for the strong, until we feel the city, the country, the race as we now feel the family and the business house, we shall have to wait till they build cities that shall be vast, divine, splendid housings for the activities of mankind.

And we shall have to wait until we learn how to trust one another and work together, until we master the secret of social organization, until we learn how to save all the waste humanity as we now save all the waste hog, until we find a place for the weak as well as for the strong, until we feel the city, the country, the race as we now feel the family and the business house, we shall have to wait till they build cities that shall be vast, divine, splendid housings for the activities of mankind.

And we shall have to wait until we learn how to trust one another and work together, until we master the secret of social organization, until we learn how to save all the waste humanity as we now save all the waste hog, until we find a place for the weak as well as for the strong, until we feel the city, the country, the race as we now feel the family and the business house, we shall have to wait till they build cities that shall be vast, divine, splendid housings for the activities of mankind.

And we shall have to wait until we learn how to trust one another and work together, until we master the secret of social organization, until we learn how to save all the waste humanity as we now save all the waste hog, until we find a place for the weak as well as for the strong, until we feel the city, the country, the race as we now feel the family and the business house, we shall have to wait till they build cities that shall be vast, divine, splendid housings for the activities of mankind.

And we shall have to wait until we learn how to trust one another and work together, until we master the secret of social organization, until we learn how to save all the waste humanity as we now save all the waste hog, until we find a place for the weak as well as for the strong, until we feel the city, the country, the race as we now feel the family and the business house, we shall have to wait till they build cities that shall be vast, divine, splendid housings for the activities of mankind.

And we shall have to wait until we learn how to trust one another and work together, until we master the secret of social organization, until we learn how to save all the waste humanity as we now save all the waste hog, until we find a place for the weak as well as for the strong, until we feel the city, the country, the race as we now feel the family and the business house, we shall have to wait till they build cities that shall be vast, divine, splendid housings for the activities of mankind.

And we shall have to wait until we learn how to trust one another and work together, until we master the secret of social organization, until we learn how to save all the waste humanity as we now save all the waste hog, until we find a place for the weak as well as for the strong, until we feel the city, the country, the race as we now feel the family and the business house, we shall have to wait till they build cities that shall be vast, divine, splendid housings for the activities of mankind.

And we shall have to wait until we learn how to trust one another and work together, until we master the secret of social organization, until we learn how to save all the waste humanity as we now save all the waste hog, until we find a place for the weak as well as for the strong, until we feel the city, the country, the race as we now feel the family and the business house, we shall have to wait till they build cities that shall be vast, divine, splendid housings for the activities of mankind.

*Away with
Drugs!*

Look at the diagram below. It shows how the lungs and the stomach are entirely separate organs reached by entirely separate tubes. What you swallow goes to the stomach. What you breathe (and only what you breathe) gets to the lungs and air passages direct.

Now you see how useless it is; when you have a cold, or a cough, or bronchitis, or catarrh, to dose the stomach (which may be quite healthy) with drugs! What you need is something you can breathe to the lungs direct!

That is Peps.
Peps is the name of a new scientific preparation containing highly medicinal essences and pine extracts, condensed into tablet form. You put a Peps on your tongue, and as it slowly dissolves, these volatile essences turn into vapor. You BREATHE the remedy to your sore, ailing chest and lungs, direct—not swallow it to your stomach, which is not ailing. The healing fumes, thus breathed down, bathe the delicate, inflamed membranes of your breathing-tubes, and pass right on to the tiny passages of the lungs—a course no liquid or solid medicine could possibly take.

The Peps fumes are healing and antiseptic. They heal sore tissue and kill disease germs. Peps brings pine forest fumes to your home, instead of you going to the pine forest!

Just as the open-air cure—the breathing cure—is the only rational cure for consumption, so the Peps breathing cure is the only rational cure for catarrh, colds, coughs, asthma and bronchitis.

Dominion Senator Praises Peps
Senator Derbyshire, of Brockville, writing from the Dominion Senate, Ottawa, says:—
"I am pleased to express my high opinion of Peps. Some time ago I contracted a very bad cold, which settled on my lungs and bronchial tubes. I almost lost my voice, was constantly coughing, and experienced considerable pain. A friend offered me a box of Peps, and I tried them. I was very much pleased with their almost instant action. They seemed to go direct to the sore places, stopped the coughing, and made my breathing easier. I continued their use for a short time, and they completely cured my cold."

Peps are best for children, too, because they contain no opiates or poison. 50c. box, all druggists and stores. Write for free trial packet to Peps Co., Toronto, or 25 Princess St., Winnipeg, sending 1c. stamp for postage, and this advertisement.

ARCHBISHOP BRUCHESE VISITED THE CONVENT

And Gave Instructive Address to the Students—Lauds the Malahat Drive

His Grace Archbishop Bruchese, of Montreal, yesterday afternoon visited St. Ann's convent and addressed the big gathering of girls. A short programme was given, consisting of a performance of Durac's "Fantasie," with organ accompaniment, those at the piano being the Misses May, Tolle, Myrtle Stewart, Norma Manley and Patricia Burns, after which all the students rendered a chorus of greeting with great enthusiasm and feeling.

A very pretty action followed the reading of an address of welcome by Miss Freda Richter, who, on behalf of all the students, expressed the delight which they felt in the presence of so distinguished a visitor, and one whose name was known from east to west throughout the Dominion, and loved wherever spoken. Little Miss Katherine Fraser, a daughter of Mr. and Mrs. J. S. C. Fraser, carrying an enormous bouquet of white chrysanthemums which nearly concealed her, then stepped to the platform and presented the floral gift to His Grace, who spoke a few kindly words and smilingly held out his ring for the child to kiss.

Addressing the children the Archbishop reminded them that they all belonged to the great family of St. Ann, and that there were about 15,000 of their small sisters scattered throughout the Dominion. He was reminded on seeing the portraits of Their Majesties, the King and Queen, of the visit which the King had paid to one of the Montreal convents when he was Prince of Wales. Referring to the visit of the Duke and Duchess of Connaught recently, he had heard that they had expressed their regret at not having had time to visit the convent, and could quite appreciate this as he could not have remained in the city for more than a few hours without wanting to visit them.

In speaking of the beauties of Victoria, His Grace said he had taken the famous drive from Sorrento to Amalfi, and he did not consider that it in any way rivalled the beautiful Malahat drive over which he had driven that morning. Victoria had changed within herself greatly during the past few years, and the splendid advance of today had only been gained by long struggles and sufferings on the part of the early settlers and pioneers in religious work. It would all be wasted unless the younger generations were to profit by the experiences of those who worked before them in the field of religion. Eternity awaited us all, and it would only be by learning at an early age what one's duty on earth was that they could live a life consecrated to God. At His Grace's request, Rev. Father Nicolay granted the children a holiday for the remainder of the day, the occasion concluding with the singing of the convent class song by the students.

Among those on the platform with His Grace were the sisters, Very Rev. Father Nicolay, vicar-general; Rev. Father Fraser, of Esquimalt, and Rev. Father Heynen, of Nanaimo. His Grace is spending his holiday in the quietest manner possible, and it is not anticipated that he will preach during his stay here, although it is expected that he will celebrate pontifical high mass at St. Andrew's cathedral on Sunday next. Up to the present he has spent most of his time motoring about the city and its environs, J. C. Hart having taken him for a drive on the evening of his arrival here, and Frank Sehl having taken him yesterday morning for the drive mentioned over the Malahat road.

JAP POACHERS ON THE SAANICH ARM

Illegal Fishing Reported to Be Rapidly Depleting the Waters of Fishing Grounds

"For ways that are dark and tricks that are vain" the "heathen Chinese" has nothing on his cousin the wily Jap. At least that is the opinion of sportsmen who have hitherto looked to Saanich Arm to provide them with healthy recreation. The said sportsmen are not in pleasant humor just now. They aver that while the Dominion government has formally set the Arm and all the shore waters adjacent thereto as places where only sportsmen shall exercise their art, Japanese continue to reap rich reward as commercial fishermen. That is to say, the department has made regulations and vaunted itself overmuch on its care for the interests of sportsmen, but it takes absolutely no measure to see that its regulations are enforced.

EXTENSIONS OF THE TELEPHONE SERVICE

An Addition to Recently Opened Exchange is to Be Made

The British Columbia Telephone Company announces more improvements in the Victoria office. A short time ago the Times made public the fact that five new sections on the switchboard were being installed in the local office. These are to accommodate 3,000 subscribers. In an interview regarding these improvements Secretary Halse said:

"We propose to spend in the course of the next six months approximately \$1,000,000 for telephone extensions in British Columbia. This sum includes the cost of the immediate construction of two and possibly three new exchange buildings in Greater Vancouver, an addition to the Victoria exchange which we built recently and which will have to be duplicated to take care of the rapidly increasing new business; new pole lines, cable lines and rebuilt lines which in many cases will require new poles and complete new wiring."

"In Victoria our lists are growing enormously. Last month 589 telephones were installed. We have let the contract for the construction of exchanges in Fernwood and Hillside districts, Victoria. We thought when we built the new exchange which was recently put into operation in Victoria that it would be sufficient to take care of the growth of the city for the next ten years but we find that we must begin at once the duplication of the structure to be up to the demands. We are now installing five new sections on the switchboard at the Victoria office and this will accommodate 3,000 subscribers."

"The new submarine cable to connect Vancouver with Nanaimo and Vancouver Island is now being manufactured at Henley's, London, and will be shipped on April 1. This cable will be laid between Point Grey and Newcastle Island. This will necessitate building new land lines from Vancouver to Point Grey and also stringing lines between Victoria and Nanaimo. The present cable connects with Beltingham, thence across San Juan Island and to Telegraph Bay, near Victoria. The new cable will be within Canadian waters for the entire distance."

SOUTH PARK SCHOOL PAINTING CONTRACT

Labor Representatives Secure Promise of Analyses of Samples in Board's Possession

The latest development of the South Park painting contract is the consent by the board of school trustees that the samples left with the board at the previous hearing shall be analysed to see if the results compare with those taken by a workman on the contract, J. Moulton. The latter have been submitted to the government analyst, who has declared them defective.

This action was allowed by the school board last evening, after hearing a deputation from the Trades and Labor Council, for whom Phil R. Smith acted as spokesman. Mr. Smith asked why the board paid the contractor after the Painters' Union had lodged a protest, and why an inspector was engaged without technical knowledge? The workmen of the city wanted to know these things, and if the board did not satisfy them, there were many threats of voting against school by-laws.

The chairman, George Jay, pointed out that the remark was in the nature of a threat, and the board would not allow themselves to be influenced in any action they might take by such statements. Mr. Moulton spoke of taking the samples in the presence of the board's inspector, Mr. Fairley, from the kettle where he was working, and stated he had been removed immediately from the job by the foreman, after an argument about the quality of the contents.

Mr. Fairley first referred to the unpleasant position created for himself by the innuendo thrown broadcast in this case, and explained that some of the work was such that the full proportion of white lead set out in the specifications could not have produced the color desired. The wall color would carry the percentage required. The samples he himself took were fair, of good material, and fully up to specification.

H. J. Sheen, president of the Trades and Labor Council, also spoke. In answer to a question from Mr. Smith, Mr. Fairley said he did not claim to be an expert in painting, that was not his occupation. He, however, knew when good work was being done. It was decided to have the analyses made of the samples in possession of the board. Trustee Jay said he did not think they could do much, the contract having already been closed up and Barclay paid.

An Important Consideration

With every man and woman who has the ability to earn or acquire more money than immediate needs demand, is the judicious investment of that money. Bank interest is slow. So are mortgages and loans, comparatively. Well-selected residential real estate in a fast growing district offers safety and assurance of excellent profits on a very small outlay and at practically no risk. There is no residential property on the Victoria market to-day at similar price and terms that compares with

A Home Of the highest and best type, amid delightful surroundings, possessed of a wealth of sunshine and fresh air, in a district that has already been marked as the location of many of Victoria's finest suburban homes. Note that several high class houses have already been built in "Irvine Place," while others are either fast nearing completion or are about to be started. One house in this district that has recently been made ready for occupancy cost \$20,000.

A Garden The soil in "Irvine Place" is, by actual analysis, among the richest and most productive in this portion of Vancouver Island. For years this very district has been famous as an agricultural district. The large lots in "Irvine Place" permit the residents to have delightful gardens and these are very easy to achieve owing to the soil's fertility.

An Investment As an investment, "Irvine Place" takes the lead over all other moderate-priced subdivisions in Victoria. This district is forging ahead as a residential suburb at a tremendous pace. Values have already advanced materially in a few months, and will advance again shortly. Developments of the most important kind may be looked for here. And yet we are selling "Irvine Place" lots at our original prices, despite the fact that acreage adjoining is being sold for more money and on stiffer terms.

Your very best plan is to see "Irvine Place" this very day and select a lot or two. The prices now start at

Only \$600

And the terms are merely 10% cash and 10% quarterly. Motors at your disposal at any time

COUNTERFEIT BILLS.

Ottawa, Oct. 10.—Counterfeit Dominion bills of the one and two denominations are in such abundant circulation as to cause anxiety in the finance department, and special efforts are being made by the secret service to locate the source of supply. The counterfeiters are a rather clumsy imitation, yet they appear to be taken by great many people without question and are especially plentiful in Nova Scotia and New Brunswick.

BURGLARS LOOT POST OFFICE.

Wapato, Wash., Oct. 9.—The post office was entered by burglars here early Tuesday morning, the safe blown with nitro-glycerine and \$300 in stamps and about \$35 in cash taken, \$2 of which was in pennies. Several registered letters and some books of stamps in the safe were not taken. The burglars escaped in a rig taken from the barn on Monday night. Sheriff Day, with bloodhounds, started on the trail towards Toppenish.

Healthy, Wrinkle-Free Skin Easy to Have

(From The Woman Beautiful.)
A dull, drab, muddy complexion, or a blotchy, pimply or freckled skin, can be a quite simple, harmless and inexpensive method, be changed to one of flower-like radiance and purity. One ounce of common mercuric wax, sold by druggists generally, will remove the most unightly complexion in from most unightly complexions in from one to two weeks. By its remarkable absorptive power, the withered, faded or discolored layer of this skin-skin which hides the healthier skin underneath, is gradually flaked off in tiny, almost invisible particles. This is done so gently, there is no inconvenience, and no trace is left on the skin except that of enhanced beauty. The wax is smeared on like cold cream before retiring, and removed in the morning with warm water. If the skin be wrinkled or saggy, a face bath made by dissolving loz. powder of salicylic acid in 1/2 pt. with honey will be found most effective. Combining both astringent and tonic properties, this tightens the skin and braces up its supporting muscles.

NO RHEUMATISM THIS WINTER
Thanks to GIN PILLS
Thanks to GIN PILLS

DON'T you want to have ONE WINTER free of Rheumatism?
Don't you want to enjoy life as other men enjoy it?
Don't you want to eat and sleep and work as healthy, normal men do, instead of being all crippled up with Rheumatism or Kidney Trouble?
Then take GIN PILLS and conquer your old enemy for good. Mr. Beaudry did, with the help of the GIN PILLS.

RAILWAYS TRY TO AID FARMERS

C. N. VICE-PRESIDENT BEFORE COMMISSION

Freight Rates Framed With Object of Increasing Prosperity of Country

Ottawa, Oct. 10.—D. B. Hanna, vice-president and general manager for the Canadian Northern railway, continued his evidence this morning at the railway board's inquiry into western freight rates. Mr. Hanna commented on the fact that there is a great demand in Saskatchewan and Alberta for branch lines. Branch lines do not pay, however, and a portion of the cost of their operation must be taken from the earnings of the main lines. If all the branch lines demanded were built the

RATEPAYER TO SUE IF THE CITY PAYS

ACTION IN VIEW ON BARNUM'S DAMAGES

Solicitor Briefed to Watch for Payment of Jury's Verdict in Hypnotism Case

As an aftermath of the Barnum-Beckwith damage suit, it was announced this morning by a prominent lawyer that he has received instructions to take proceedings against individual members of the city council who vote in the affirmative, should the council agree to pay the damages awarded Mr. Barnum and costs. The person instructing the solicitor is a ratepayer of the city. When the Barnum-Beckwith suit was first started and the mayor served with a suit for damages, the matter was taken before the city council at the request of the mayor by the city solicitor. F. A. McDiarmid introduced the matter to the aldermen with a tentative suggestion that they should indicate what course should be taken regarding the suit. With very little talk about the matter a motion was put that the council assume the responsibility of the cost of the proceedings, and pay any damages that might be assessed against the mayor. The motion passed without dissent and one of the aldermen spoke at the time upholding the mayor's action. During the progress of the trial it was stated to the jury that the action was against John L. Beckwith, in person, and not against the mayor of Victoria. The legal opinion was given that the city was not liable for illegal acts committed by the holder of the office of mayor, and the jury was addressed towards that end. Following the verdict instructions have been given that should the council pay the damages assessed by the court against Mr. Beckwith, a writ for recovery from the individual members of the council, or whoever passed the payment, will be taken. The plaintiff to the action, R. G. Barnum states that he is not satisfied with the verdict, as the sum of \$1,000 will not reimburse him for money out of pocket by the stoppage of his performances. He claims, through the figures given in evidence, to be \$1,800 in cash out of pocket, aside from his routing loss, and aside from his claim for damages for false imprisonment. He estimates his loss of time and money through the arrest and prosecution to be at least \$3,000. He has no appeal from the verdict of the jury, and the case stands on the judgment entered Tuesday evening.

CONSTRUCTION CAMPS FOR C. N. P. BUILDING

Murdoch & Co.'s Contract Commences at Port Alberni End

Some days ago the Times announced the arrival on the island of J. A. Murdoch, senior member of the contracting firm of Murdoch & Company, who with J. M. Mercer have the contracts for the portion of the Canadian Northern Pacific railway from Cowichan lake to Barkley Sound.

Mr. Murdoch has been in Port Alberni making arrangements for a start from the end, and the news of the west coast city says in connection with this matter: "An order has been placed with the Canadian Pacific Lumber Company's mill at Port Alberni for 300,000 feet of lumber to be used for the building of construction camps, and it is being filled with all dispatch, one scow load, 35,000 feet, having been delivered at the point where the men started work.

"The work now under way is the building of a wharf and headquarters for the forty miles of construction. The bulk of the supplies for the whole section will be landed at this wharf and distributed from there inland to Cowichan lake and along the canal.

The work of building a wagon road inland is to be commenced immediately, and a freighting ship, to deliver supplies along the canal, will arrive next week. Arrangements are being made with the owners of local craft to take care of the passenger carrying business. Spread along the line from Cowichan lake to Port Alberni there will be from 1,500 to 2,500 men.

The contract calls for a completion of the grade within a year, and it involves the expenditure of nearly one million and a half dollars. The contractors have not yet been handed the profile of the line beyond a point three miles this side of Port Alberni or China Creek, but are expected to receive it any day. From this point there have been two alternative lines located for the purpose of choosing the best passage through the city. The choice is yet to be made, but as soon as it is made there will be another construction camp established and it will be within the city limits.

There will be over a million and a half feet of timber required for bridging on this section, and it will be supplied by the Port Alberni branch of the Canadian Pacific Lumber Company.

PASSING SHOW

The Empress Theatre.

When Barney Gilmore sings the melodies of old Ireland at the Empress theatre this week he finds warm appreciation, especially from that part of the audience, which holds memories of the island from which they or their forefathers came. Mr. Gilmore's act is essentially Irish. He entitles it "A Jolly Ramble Through Ireland," and includes a melange of things Irish, from songs to pictures. After singing some Irish numbers in a fine tenor voice he presents a number of views made on a recent trip to Ireland, starting from Cork and closing with scenes in the Lakes of Killarney.

The problem of heredity furnishes the plot for the dramatic playlet in which Walter H. Brown and associate players, a company of four, appear to good advantage. It is entitled "His Father's Son," and deals with the outcropping of a criminal taint in the son after the father had forgotten his old ways after a life of respectability for ten years.

A ragtime number which is lively from start to finish is that presented by two sprightly girls, Misses Cecile Weston and Louise Leon. The latter is a pianist of no mean ability, and holds a medal gained in a competition recently held in New York, in which 200 contestants took part. Miss Weston sings several good numbers, accompanied by Miss Leon.

Mr. Bobby Long and Miss Mamie Ling offer a burlesque billed as "Fun in a Gymnasium." The couple of comedians, one an attenuated young man of 4 feet 4 inches in height and of the narrowest dimensions, and the other a diminutive miss, present some good comedy, and win many a laugh. Alf Holt, who is noted as a traveller, contributes some good mimicry, imitating many things from feline operatics to planning machines, and is freely applauded. He brings a special drop curtain, which adds much to the setting of his act.

If you have built castles in the air your work need not be lost; that is where they should be. Now put the foundations under them.—Thoreau.

GROWS BEAUTIFUL, HEAVY HAIR, WE PROVE IT—25 CENT "DANDERINE"

Destroys dandruff—Stops falling hair—Cleans and invigorates your scalp—Delightful dressing.

To be possessed of a head of heavy, beautiful hair; soft, lustrous, fluffy, wavy and free from dandruff is merely a matter of using a little Danderine. It is easy and inexpensive to have nice, soft hair and lots of it. Just get a 25 cent bottle of Knowlton's Danderine now—all drug stores recommend it—apply a little as directed and within ten minutes there will be an appearance of abundance; freshness, fluffiness and an incomparable gloss and lustre and try as you will you cannot find a trace of dandruff or falling hair; but your real surprise will be after about two weeks' use, when you will see new hair—fine and downy at first—yes—but really new hair—sprouting out all over your scalp—Danderine is, we believe, the only sure hair grower; destroyer of dandruff and cure for itchy scalp and it never fails to stop falling hair at once.

If you want to prove how pretty and soft your hair really is, moisten a cloth with a little Danderine and carefully draw it through your hair—taking one small strand at a time. Your hair will be soft, glossy and beautiful in just a few moments—a delightful surprise awaits everyone who tries about two weeks' use, when you will see new hair—fine and downy at first—yes—but really new hair—sprouting out all over your scalp—Danderine is, we believe, the only sure hair grower; destroyer of dandruff and cure for itchy scalp and it never fails to stop falling hair at once.

NOTICE IN THE SUPREME COURT OF BRITISH COLUMBIA

In the Matter of the Estate of Louis Lanot (Sometimes called Louis Lanox), Deceased, and In the Matter of the Official Administrator's Act.
