Why We Do What We Do – and **How?**

2008-2009

SURVIVAL

Early on we do media coverage,
irregular writing sessions & meetings
→ **NO MEASURABLE
AND LASTING EFFECT**

2010 onwards

CONTINUOUS
EXISTANCE

Multiple times writing competitions,
socialization of free knowledge,
collaborations
→ **MORE THAN SURVIVE
WHAT'S NEXT?**

What We **Promote**

WIKI & OTHER
FREE CULTURES

OPEN LICENSE

TRANSPARENCY

What We Promote

- Our reporting and financial training give **confidence** to organizations, community, and individual that want to do activities with grants transparently.
- **Creative Commons License** as solution are growing - all organizations/activities that we facilitate are required/encouraged to use it
- Open & transparent administration **attracted alliances**: The Ministry of People's Welfare, The State Secretary, SAPA, HOT-OSM funded by AUSAID, Ford Foundation, The Lontar Foundation.

Challenges & Lists

- We did not get significant amount of money when we asked companies / government agencies to contribute solely to our Wikipedia cause
- Future: succession plan, hiring dedicated grant manager, exploring different types of activities.

What **it takes**

- Professional people, with the right experiences & contacts
- Professional execution for projects from alliances
- Time, we started small and it gets bigger
