

# GLENDALE FIRST ANNUAL FLOWER SHOW EDITION

## RICHES OF NATURE

M. B. HARTMANN TELLS OF THE VALUE AND INFLUENCE OF GARDEN SOCIETIES

Standing in deep thought at the funeral of an old friend the other day, I heard the solemn words: "All flesh is grass and all the glory of man as the flower of grass. The grass withereth, and the flower thereof fadeth away, but the word of the Lord endureth forever." As I thought of the truth of divine warning it struck me that just as man needs in him some vivifying power to overcome this mortality, so the external world can only be renewed and revived by cultivation and care, by preservation of the seed, by preparation of the ground and by a constant war against the enemies of the tender root and the delicate branch.

Looking round the wealth of floral beauty that has been gathered together in this pavilion by the diligent hands of the flower-loving people of Glendale, I feel that many of us are learning well the lesson taught by the wise people of old who set forth "Adam's profession" as the most valuable pursuit for mankind. Had it not been for the enthusiastic and undaunted few who have been striving in all ages for the conservation of the natural riches of the United States a great part of this land would now be a barren desert.

As it is a great many of our valuable forests have been cut down and nothing put in their place. Nature has revenged herself on man for this folly and the sins of the fathers are now being visited on their children even unto the third and fourth generation. Devastating floods that have covered fertile lands with a soil destroying coating of mud, devoid of all reproductive qualities, have followed the destruction of the forests and in this destruction have perished many rare shrubs and plants that once beautified the natural gardens of the land.

"In Southern California, nature has been lavish of her wealth and yet much of it has been destroyed by the insensate greed and careless ignorance of men who lived for the moment and cared not if they left anything for those who might come after them. To help to restore and recreate and conserve the floral beauty and horticultural wealth of the land; to teach the children the love of flowers and to instill into the minds of all whom such influences can reach, the value of getting back to the soil and close to nature, are some of the objects of societies such as the Glendale Garden society. By extending the influence of such a society, vast good can be accomplished. I look to see the influence of this society widened and increased from year to year.

"During a residence in England I was struck by the care and diligence with which the working people there having only small patches of ground and many disadvantages wherewith to struggle, yet succeeded in creating gardens and in growing vegetables and making miniature paradises out of what at first might have appeared impossible soil. Here where the soil brings forth abundantly with a little care, there should be and there is an abundant reward for even a little exertion.

"Societies like the Glendale Garden society are the vivifying power that brings new life to the perishing herbage, foliage and floral products of the land. Nothing has given me more pleasure than to assist in the work of this society. I realize that it has already done a great deal to stimulate the love of flowers and gardens in the city and I feel certain that it will aid materially in creating a strong sentiment throughout the land for the conservation of all natural riches and the handing down to the generations to come of a land rich in floral beauty and bringing forth abundantly the fruits of the earth."

## PICNIC AT GRIFFITH PARK

A merry party of Glendale young people enjoyed a picnic dinner at Griffith Park last evening, returning here by moonlight. Gathered under one of the largest of the old, old live oak trees that renders this park such an ideal spot and enjoying the contents of well filled baskets, were Miss Fannie Alice Hagin, Miss Fern Cook, Miss Birdie Shropshire and Miss Helen Mosher; Messrs. David Young, Roger Baker, Dan Hagin and Willard Learned.

## MASONIC INVASION

A HUNDRED MEMBERS OF GOLDEN STATE LODGE DESCEND UPON GLENDALE

Nearly a hundred men from Golden State Lodge No. 358, F. and A. M. of Los Angeles, made their appearance at the Masonic Temple, 532 S. Brand boulevard, Tuesday evening about eight o'clock and from that time until near the midnight hour the Temple was the scene of ceremonies and festivities which only Masons know how to enjoy.

The visitors exemplified the Third Degree in a most excellent manner. At the close of the initiatory ceremonies the crowd made its way to the banquet hall where "Unity" was ready to receive it, appetite and all.

When the pangs of hunger had been somewhat abated, oratory began to flow like water over Niagara. Golden State believes in "preparedness" and as a result they had brought a battery of 42 centimeter guns which were trained on the bunch with fearful effect. Hon. Theodore Kanouse was in command. He ordered Worshipful Master La Fontaine to open the firing, which he did in a most gracious but effective manner. The next shot was a little "Wilde" known sometimes as Charley, the Los Angeles city clerk. After his smoke had cleared away one of those "gas bombs" was thrown into the throng by the Hon. Jack Bean. There still remained a few unmaimed and these few were soon silenced by one Harry Betz, the terrible Dutchman. The closing obsequies were conducted by Mr. Clarence Good, a shy young man who lives in Glendale but is a member of Golden State. Mr. Good took for his subject, "Baseball." He said in part: "Baseball as it is sometimes played is a very dangerous game. I have often seen strong men injured while trying to assist the umpire in making a decision. The Golden State team is in fine shape now and we are quite sure that Unity will not be able to pile up such a score against us as they did last year, when we were defeated to the tune of 23 to 3. We have been coaching an umpire for the coming game and if necessary he will do the stick work in the pinches."

Golden State and Unity will hold their annual joint picnic on May 30, at Verdugo Park. At this time the ancient baseball feud will be once more settled. Worshipful Master Erskine informed his guests that "Unity" has a bunch of sluggers ready that will be able to beat up any old team that Golden State can produce.

With the singing of "America" the boys adjourned toward the peace of repose feeling that they had been rejuvenated by the evening of good fellowship.

## ENJOY MOUNTAIN HIKE

Miss Eula Richardson, accompanied by Miss Margaret Knepper and Miss Enid Fenton of Glendale, and Miss Dorothy Fisk of Los Angeles, returned from a most delightful outing with the Sierra club, which was enjoyed the past few days. The club left Los Angeles by auto, for Palm Springs, then side trips were made from the Springs out in the great Colorado desert, where nature has been most lavish this spring in bringing forth many and varied desert blossoms and cacti. Visits were made to Andreas canyon, where the beauties of the mountain oasis can scarcely be described either by pen tongue or brush. Palm canyon was also the mecca of these hikers and here the native home of the Washingtonian palm, they found thousands and thousands of these favorite tropical trees growing as luxuriantly as though planted in the fertile soil of Glendale.

## LITERARY SECTION

The Literary Section of the Tuesday Afternoon club met at the home of Mrs. C. E. Anderson, 201 N. Louise street, Tuesday afternoon. A most interesting program was enjoyed, Bible Literature being the theme of the afternoon. Mrs. George Adams read an excellent paper on the influence of the Bible on civilization. Dr. Anna McCalla, daughter of Mrs. I. H. Durfee read a paper prepared by her mother on, "The Bible on the Making in the Light of Modern Research," which proved to great interest and benefit. Miss Jolly's paper was on Bible Stories and Bible teaching for children.

## SUBMARINE NOTE REACHES BERLIN EMBASSY

WILSON'S ULTIMATUM TO GERMANY RECEIVED BY GERARD WITH ONE SECTION MISSING

(Special Service to Glendale Evening News)  
BERLIN, April 20.—Wilson's ultimatum to Germany on the submarine question reached the United States embassy here today. Ambassador Gerard reports that one section is missing. He expects to spend the whole afternoon discussing the message with Count Von Jagow. This will be a purely confidential consultation and none of the details concerning it will be given out for some time, it is said.

## FUNSTON WIRES EXHAUSTIVE REPORT

MAJ.-GEN. SCOTT'S ARRIVAL IS AWAITED WITH INTEREST AT ARMY HEADQUARTERS ON THE BORDER

(Special Service to Glendale Evening News)  
SAN ANTONIO, Texas, April 20.—Gen. Funston wired today an exhaustive report of the situation in Mexico and on the border. He is waiting with interest the arrival of Maj.-Gen. Scott, who is to report to the president on conditions. Meanwhile Funston has sent on to Gen. Pershing 2300 troops and is awaiting reinforcements. Carranza has not opposed Gen. Pershing's change of base. Whatever may be the outcome of Gen. Scott's mission it is practically certain that the troops now in Mexico will be retained on the American border even after the Mexican affair is settled.

## BRITISH CABINET CRISIS HAS PASSED

ASQUITH MINISTRY MANAGES TO REACH UNDERSTANDING WITH THE LLOYD-GEORGE PARTY

(Special Service to Glendale Evening News)  
LONDON, April 20.—After a period of great anxiety in which every influence possible to bring to bear on the situation to prevent a dissolution of the Asquith cabinet had been employed the crisis in the cabinet was safely passed this afternoon. It is understood that a compromise has been reached between David Lloyd-George, Minister of Munitions, and the premier. Lloyd-George wanted an assurance that if 50,000 men a month were not forthcoming general conscription would be enforced.

## FRENCH CAPTURE STRONG WORKS AT VAUX

TEUTONS DRIVEN OUT OF TWO HUNDRED YARDS OF TRENCHES LOSE 200 MEN PRISONERS

(Special Service to Glendale Evening News)  
PARIS, April 20.—After a strong attack on fortified positions of the Germans in the neighborhood of Vaux the French succeeded in capturing the positions which the Germans had defended with every imaginable device, including the famous "revolver cannon." The Teutons also lost 200 yards of trenches in the same locality. The French took 200 prisoners. Constant artillery duels are taking place on both sides of the Meuse.

## EXPERTS FORECAST BREAK WITH GERMANY

BRITISH OFFICIALS DECLARE KAISER WILL NEVER GIVE UP SUBMARINE SINKING OF UNARMED VESSELS

(Special Service to Glendale Evening News)  
LONDON, April 20.—Prominent officials here who are well acquainted with German ideas say that they do not believe that Germany will yield to the American demands concerning the submarine warfare. Diplomats of standing who are thoroughly acquainted with the situation say that a diplomatic break between Germany and the United States is certain, and that war is a strong possibility. The submarine is Germany's strongest weapon and the kaiser will never give it up.

## BALLOONIST NARROWLY ESCAPES DEATH

JACK O'CONNELL, LOS ANGELES AERONAUT OVERCOME BY GAS FROM ESCAPE VALVE

(Special Service to Glendale Evening News)  
LOS ANGELES, April 20.—Ballonists Hubert Kittle, Frank Edmonston and Jack O'Connell, who left Los Angeles recently, landed Tuesday night in Telegraph Canyon, near Chino, heading for Santa Ana. O'Connell had a narrow escape Tuesday when the balloon was colse to Monrovia. He had pulled the gas valve and was overcome by the outrush of gas. At the time this occurred O'Connell was up among the ropes close to the valve which had jammed. For a time he was hanging among the ropes unconscious and in imminent danger of falling.

## BIG FLORAL DISPLAY NOW OPEN

GLENDALE'S FIRST ANNUAL FREE FLOWER SHOW SUCCESSFULLY INAUGURATED—JUDGES ARE BUSY—ENTRIES MANY

This week 8000 Glendale citizens are interested in the community flower show which is being held at the corner of Brand Boulevard and Fifth street. Any one who in the past has been of the opinion that a successful flower show could not be promoted in Glendale only needs to visit the show now in progress to be convinced that his opinion was not founded on substantial reasoning. The present show is proving a wonderful success, the only drawback being that the tent is too small to accommodate all of the exhibits entered.

The exhibit is a Glendale flower show only in name for a perusal of the entries makes known the fact

## FLOWER SHOW NOTES

Entries in the Flower Show were so numerous that it was necessary to shift the exhibits early this morning to make room for all.

The Tropico Thursday Afternoon club has a very beautiful floral piece at the Flower Show, consisting of a giant "T" of red roses with an inset "C" of sweet peas.

Peter Oliver can arrange roses with the same skill that he trims grocery windows.

Flowers arrived in baskets, carts, wheelbarrows, suit cases, aprons and containers of all descriptions this morning.

Master Paul Fromm of 249 East Third street has probably the most unique display in the show. It consists of 100 different species of wild flowers, pressed, mounted and properly framed. The collection represents one year's labor for Master Paul.

The boys of the Tropico grammar school have a table well filled with garden vegetables of every kind, showing very clearly that the little workers have been very busy the past few weeks. Tennis courts are all right in their place but they don't compare with a vegetable garden at a flower show.

It seems to be the custom at the Flower Show "when in doubt ask Mr. Hartmann." If he had a score of ears and as many hands they would all be busy.

The orange marmalade display of Carrie B. Wolfe of San Fernando is very complete and the free sample is indeed very fine.

C. H. Woolsey is an expert at classifying and is doing invaluable service.

Miss Zoe Gilbert, Mrs. Kearney, Mrs. Woodruff, Mrs. Fairchild and Mrs. C. H. Clark, of Littlelands arrived about 9:30 with an exhibit from the Home Croft club of Little lands.

The Crystal Ice and Cold Storage company are there "with the goods," both flowers and ice, and their orange punch tastes very delicious.

"Gangway," says Mrs. Ella Richardson, when groups begin to collect and clog the passageways, and it is very evident that it is time to move and get busy.

Mr. Arthur Simpson, the landscape gardener of Hollywood, has on exhibit a collection of pictures of beautiful homes and gardens, made beautiful by correct architectural designing.

The Germaines of Los Angeles have a very beautiful collection of shrubbery on exhibition. Among the collection are some rare specimens.

Mrs. R. W. Meeker has part of their "orange orchard" on display.

Mrs. O'Brien of Pacific avenue reminds one of a busy housewife dressing her little folks for Sunday school, every one of her dozen or more baskets in her display is arranged and rearranged, touched and retouched until every flower looked to her just right.

Miss Olive Williams of 1228 Maple avenue has probably the most diversified and greatest assortment of flowers in her display of any exhibitor at the show.

The Citrus fruit display by the Sparr Packing Co. is very complete and attractive.

On account of the extreme heat in the tent it was found necessary to install several electric fans and aid in the preservation of the flowers.

that it is a community affair and is receiving the support of Tropico, Eagle Rock, La Canada, La Crescenta, Littlelands, Burbank and other neighboring towns. The fact that the show is free makes it indeed a unique affair. Its being a free show does not mean that it is cheap in any sense of the word, for the arrangement of tables, fountains, stands within the enclosure are evidence that neither time nor money has been spared in the attempt to make the Glendale Flower Show rank second to none that has ever been conducted in Southern California.

You must visit the show in order to gain a real knowledge of its beauty and worth to the community.

Through the courtesy of the Public Service Department the much needed fans were promptly installed.

Morris Caruthers, manager of the show, is the busiest man in Glendale. He is wanted in every part of the tent at once.

The judges, Otho Johnstonbaugh, H. R. Richards and Theodore Payne of Los Angeles began their work at 1 o'clock this afternoon.

The La Crescenta Woman's club are alive to the occasion and have a very beautiful basket of roses on exhibit.

In the center of the Littlelands table will be found a basket well filled with vegetables which shows that that thrifty settlement can raise fruits, flowers and vegetables as well as cactus, greasewood and rattlesnakes.

At time of closing the entries there were 150 entrants averaging five entries each, making in all 750 entries for competition. In addition there were 200 entries for display purposes, which shows the enormity of the show and accounts for the crowded condition of show space.

Among the display of Mrs. F. W. McIntire is a very beautiful fern of the vining variety (Asparagus Plumosus) measuring seven feet—one single stem.

The cut flower display of Peter Oliver goes to show that some men have a taste for the beautiful as well as the women folk.

If you have a piece of property for sale and wish to list it with the president of the Glendale Garden Society, please wait until after the Flower Show, as Mrs. Nanno Woods is entirely too busy to talk real estate, and in the meantime be sure that it is well improved with flowers and beautiful gardens.

Kelly and McElroy our hustling florists and nursery men have a display of ornamental trees and shrubbery that surely deserves favorable mention as it is very complete and neatly arranged.

## EXHIBITORS

- Grace Marger.
- Mrs. A. P. Williams.
- Mrs. John Paul.
- Mrs. Frank Thorpe.
- Mrs. L. Richardson.
- Mrs. C. R. Appenfelder.
- Mrs. Clevee.
- Mrs. Leppelman.
- Mrs. E. Z. Barnett.
- Mrs. Mary J. Riggs.
- G. W. Johnson.
- Inez Harrison.
- Mrs. N. P. Harrison.
- Mrs. Brummel.
- Mrs. McDougall.
- Mrs. N. Wood.
- Mrs. Russ.
- Mrs. K. E. Nash.

Distributors  
BROADWAY & KENWOOD STS.  
Glendale 432 Home 2573

**BURBANK**  
Born to Mr. and Mrs. Clarence A. Thompson, a 6 1/4 lb. daughter, Marguerite Jean, Thursday, April 13. Little Marguerite has the distinction of having a great grandmother, Mrs. B. J. Thompson, who is 79 years of age.

Mr. and Mrs. K. Knudson and family were among those from this city who attended the Robinson circus.

Little Miss Mabel Hatch was confined to her home with tonsillitis the past week.

Mr. and Mrs. Rae Sence spent Sunday at Riverside.

J. L. Smith and family motored to Ventura Sunday, where they spent the day with old friends.

Mrs. N. M. Peterson entertained relatives from Pasadena several days this week.

Mr. J. L. Smith, the well known proprietor of the leading implement store in Burbank, has just got in a carload of baling wire. Mr. Smith's prices are as low as those of the city.

**TRUSTEES' MEETINGS**  
**Adjourned Meeting, April 14, 1916**  
A regular adjourned meeting of the Board of Trustees of the City of Burbank was held in the city hall Friday evening, April 14, at 7:35 p. m., when there were present Trustees W. A. Blanchard, C. H. Kline and W. F. Craig; absent, Trustees E. S. Hogle and J. W. Forbes. Trustee Hogle took his seat at 7:45 p. m. Mr. Elmore Jeffery, architect, was present and presented plans and read specifications for the proposed new city hall. On motion the specifications for the building and the plans submitted were adopted and a copy of said plans and specifications were ordered filed in the office of the city clerk.

On motion the publication of a notice to contractors calling for proposals and bids for the new city hall was authorized.

The following bill was allowed:  
**GENERAL FUND**  
J. R. Adams.....\$3.50  
The board adjourned.

**Meeting to Canvass Returns**  
In accordance with the law and with the provisions of Resolution No. 203 of the City of Burbank, the board of trustees of the City of Burbank held a meeting on April 17th, 1916, for the purpose of canvassing the returns of the general municipal election held on the 10th day of April, 1916.

The meeting was called to order at 7:20 p. m., and there were present Trustees W. A. Blanchard, chairman; C. H. Kline, W. F. Craig, E. S. Hogle and J. W. Forbes.

The minutes of meetings of April 11th and April 14th were read and approved, after which, on motion, the board proceeded to canvass the returns of the election of April 10th, 1916.

After a thorough canvass of the returns of the general election held in this city on the 10th day of April, 1916, the board found that the total number of votes cast was 569, and that the following candidates received the votes set opposite their respective names, as follows:

**FOR CITY TRUSTEE**  
J. W. Forbes.....318  
Edgar B. Fowler.....95  
Ray L. Linn.....433  
William L. Pollock.....356  
Addison Sence.....249  
Morris Spazier.....211

**FOR CITY CLERK**  
Emily M. Peyton.....463  
M. J. Farrar.....1

**FOR CITY TREASURER**  
George M. Olin.....404  
Olive Kahl.....1  
R. O. Church.....1  
Mrs. W. A. Blanchard.....1

Jesse Warren Forbes, Ray L. Linn and William L. Pollock having received the highest number of votes, were declared elected as such trustees, to hold office for a term of four years each. Miss Emily M. Peyton was declared elected as city clerk and George M. Olin as city treasurer.

Following the meeting for the canvass of votes an organization meeting of the new board of trustees was held, the newly elected members, Ray L. Linn, William L. Pollock and Jesse W. Forbes, being duly qualified, and proceeded to nominate one of their number as president of the board. On motion of Trustee Linn, W. M. Blanchard was nominated and declared elected on a vote of four to one.

On motion the bond of Emily M. Peyton as city clerk was accepted. The board adjourned.

**Regular Meeting April 18, 1916**  
A regular meeting of the Board of Trustees of the City of Burbank was held at the city hall, Tuesday afternoon, April 18, 1916, when there were present Trustees W. A. Blanchard, president; W. L. Pollock, E. S. Hogle, R. L. Linn and W. J. Forbes.

The minutes of previous meetings were read and approved.

The permanent committees not having been appointed, President Blanchard appointed Trustees Pollock, Forbes and Hogle an auditing committee for the day.

The following bills were allowed:  
**POUND FUND**  
Burbank Review.....\$ .75  
**GENERAL FUND**  
Burbank Review.....\$ 11.60  
Elry J. Pollock.....7.97

Robert N. Allen.....18.50  
**FIRE BOND 1916 FUND**  
C. B. Kahl.....\$ 11.25  
John Forbes.....1.10  
Elry J. Pollock.....15.00  
F. Curt Miller.....2.45  
Neptune Meter Co.....152.00  
Burbank Lumber Co.....9.00  
Title Guarantee & Trust Co.....34.10  
**ELEC. LIGHT BOND 1916 FUND**  
F. H. DeBlois.....\$ 28.75  
E. L. Atchinson.....31.50  
C. R. McMillan.....36.00  
Wm. Redaker.....31.50  
H. Hoffman.....27.50  
F. C. Seaton.....2.50  
J. L. Smith.....7.50  
F. Curt Miller.....1.43  
John A. Roeblings Sons Co.....20.00  
John A. Roeblings Sons Co.....316.50  
Burbank Lumber Co.....41.40

The matter of appointing members on the censorship committee was taken up, but no action was taken in regard to it.

General matters were then discussed, after which the board adjourned.

**Osborn Dignan Dies in Colorado**  
Word was received by the Pulliam Undertaking company of Glendale on Tuesday morning of this week of the death of Osborn W. Dignan, formerly of Burbank, at Canon City, Colorado. Mr. Dignan passed away Monday. The remains, accompanied by his wife, arrived at the Pulliam Undertaking parlors Thursday where funeral services are held today. The Masonic lodge of Burbank, of which he was a member, had the services in charge. Mr. Dignan was for many years a resident of Burbank and was well known here, especially among the older residents.

The Burbank High School baseball team crossed bats with the San Fernando High School team Wednesday afternoon at Burbank, and the home team easily won by a score of 19 to 1.

Mr. J. L. Smith, the well known proprietor of the leading implement store in Burbank, has just got in a carload of baling wire. Mr. Smith's prices are as low as those of the city.

**SUNLAND**

Easter will be observed at Tejung M. E. church. Address by the pastor, Rev. J. H. Auery. Music by orchestra and school, directed by Mr. Walter Maygrove. All invited to attend.

Master Glen Logan of Los Angeles is spending the week with his aunt, Mrs. Percey.

**Doings of the Chamber of Commerce of Sunland**

On Monday evening the Chamber of Commerce held an open meeting at the church and had County Engineer Reagan and Mr. Freye of the Flood Control Committee present. Mr. Freye was the speaker of the evening and he gave a comprehensive review of the flood control work from the beginning of the organization up to the present time. His talk was very interesting and instructive and will no doubt enlighten the people who were present to hear him. Littlelands was well represented as well as Sunland. After the speaking the Chamber of Commerce met at their hall for a business session. The meeting was called to order by President Percey. After the reading of the minutes of the previous meeting, which were approved as read, the reports from the various committees were heard, which all showed progress.

The Highway committee reported much work being done on the Roscoe road in widening it out and cutting off some of the corners at the turns. The committee on Parks reported that a very large substantial payment had been made by the county on the addition to the park. The balance is to be paid about the last of the year. It was suggested that some one be recommended to the Board of Supervisors for supervisor of the park, which was done. The matter of lighting the park was also taken up.

This is a very important point, as there are no lights of any kind and the park is very dark, making it almost impossible to have any doings in the evenings. The lighting was left in the hands of the Park committee. The urgent need of rest rooms was also brought up, and left in the hands of the Park committee.

The committee on th Hall reported that they had submitted the plans of the building to be erected, which was satisfactory to the Rowley Bros. and a committee on Finance was appointed for the undertaking of raising funds for the building. The cost of the building is estimated at \$4,500.00.

**SIXTY DAYS**

"Your Honor," said the arrested chauffeur, "I tried to warn the man, but the horn would not work."

"Then why did you not slacken speed rather than run him down?"

"A light seemed to dawn upon the prisoner. 'That's one on me! I never thought of that.'"

**AT THE USUAL PLACE, SURE**

The class in history had the floor. "Can any scholar tell me where the Declaration of Independence was signed?" asked the teacher. "At the bottom," promptly replied a future vaudeville star.

**SAVE YOUR EYES**

Take advantage of the highly skilled optical work which I am offering, combined with a scientific examination executed with modern instruments.

All my work is guaranteed for one year. My prices are very reasonable, as all work is personally supervised in our own shop.

**Save That \$10.00 Examination Fee, as you are under no Obligation in my office.**

The perfect satisfaction I demand for my patients has enabled me to obtain references from the best known in the valley.

### LITTLELANDS

Word has come to friends in this community that Dr. and Mrs. Edwards, former residents here, are located at present on a ranch at Ontario, where the doctor is recuperating from a nervous breakdown. Because of his illness Dr. and Mrs. Edwards were obliged to give up their work in the college at Loma Linda where they went about a year ago.

The time of the Town Meeting is changed from 7:30 to 8 o'clock on Tuesday evening for the future, also the time of the opening of the library is one half hour later than in the past.

Last Friday night Richard Frost entertained at a party celebrating his thirteenth birthday anniversary. His guests were his teachers and schoolmaster. Merry games and contests made up the program of the evening, after which the young host assisted by his sister, Miss Margaret, served ice cream and cake.

Mr. B. F. Kearney spent last Friday in Los Angeles shopping and visiting with Mr. G. M. Kearney of W. Fifteenth street.

This week some parties from Massachusetts purchased a knoll in the Verdugo Hills east of Mr. G. C. Buck's place. It is a beautiful site for a home, which is being planned for in the near future.

Dr. Kearney and Mr. Ashley finished setting the trees in the school yard last Tuesday. If these make the rapid growth that trees usually make in California, there will soon be plenty of shade on the school grounds.

### Mass Meeting

Because of the invitation to the Board of Trade to attend the mass meeting at Sunland for a general conference Monday night, the usual meeting of the Board of Trade was postponed till 8 o'clock Wednesday evening and the members made the trip to Sunland. Mr. Fry, vice-president of the Society for County Flood Control was introduced by the chairman, Mr. Percy, president of the Sunland Chamber of Commerce. Mr. Fry gave a resume of the work done in the past few years in this line with an account of legislative measures connected therewith.

Mr. Reagan was present, but declined to address the meeting, saying he was there to hear what others had to say and get their views. After Mr. Fry's address, Mr. McGroarty made a motion that a vote of thanks be extended to Mr. Fry which was unanimously carried. Mr. Fry was asked what measures he advocated for flood control, if he was opposed to the check dams. He replied that he was not opposed to the check dams but thought they were not adequate and therefore he favored in addition to them, the building of reservoirs and the spreading of the flow below the canyons. These men are very anxious for state and national appropriation and a county bond issue with no especial assessments on any one. But the people would like to be shown just what will be done with their money before they consent to the measure proposed. It ups to you gentlemen to make matters clear.

Messrs. Lindsay and Hood have sold their interest in the People's Stage company and returned to Los Angeles. Mr. Donnelly has assumed the management and will continue the business.

### Home Croft Meeting

At the Home Croft meeting Friday evening, arrangements were made to take part in the Free Flower Show held in Glendale this week and a committee was appointed as follows: Mrs. Hoffman, Mrs. Kearney, Mrs. Heald, to co-operate with the committee from the woman's club, consisting of Mrs. Fairfield, Mrs. Dean and Miss Gilbert.

Miss Gilbert was selected by the committee to represent Littlelands at the Show and with some of the other ladies take charge of the arrangements of our exhibit.

Thursday morning the committee assisted by Mr. Clark and others met at the club house and completed the work preparatory to sending the flowers to Glendale. The people in the community responded generously to the call. Thanks are due to everybody interested.

Mrs. Duprez, of Los Angeles street spent Friday of last week shopping in the city.

Mr. E. Deming Smith of San Francisco and Berkeley spent the week end at his ranch on Penn street last week. Mr. Smith reports his family happily situated in Berkeley. Mrs. Smith has a class in music and Eugene and Viola are in school. Mr. Smith in his business rounds makes Los Angeles about every two months which makes it convenient for him to run up to Littlelands to oversee his place.

We are sorry to report the illness of Mr. Edward Greenfield, secretary of the Western Empire company. Mr. Greenfield has been seriously ill for some time and is now in a hospital in Los Angeles undergoing treatment under the supervision of Dr. Spates.

### Appointment of Committees

The Managing Board of the Christian Federation at their meeting Wednesday of last week appointed the following committees: Welfare—Miss Rodeheaver, Mr. and Mrs. Geo. S. Lang, Mrs. L. C. Doane, Mr. and Mrs. George Adam and Miss Smellie; Wel-

come—Mrs. Jessie Ward, Mr. J. B. Corea, Miss Carrie Brown, Mr. and Mrs. Jacob Lang, Mrs. Hubbard and Mr. Malona; House Committee—Mr. and Mrs. Edward Darlington, Mr. Andrew Peterson, Mr. L. C. Doane, Mrs. Ema Frost, Miss Zoe Gilbert. Fellowship Committee—Rev. and Mrs. Warnum, Mr. J. B. Green, Mrs. Free, Mr. and Mrs. Maygrove.

The regular meeting of the Bee club occurs next Monday evening, April 23, at the Dean store. Everyone interested in bees be there.

Mr. G. P. Rocky spent last Tuesday in Los Angeles attending to important business.

Mr. J. H. Lamson of Greely avenue, is another one of our citizens who has become the happy owner of an auto which he recently purchased.

### Town Meeting

Announcements at the town meeting Tuesday night were as follows: An entertainment is being planned for a benefit to be used in the upkeep of the club house. The Woman's club have offered to assist in this. Mr. Lamson announced that Miss Murphy, a gifted Irish lady, will give an entertainment consisting of readings from Irish dramas in Irish dialect. This will occur on the night of the 16th of May. Mr. Wieman announced a program for Friday evening, May 12. A Shakespeare memorial. Mr. McGroarty has promised to assist the committee which will insure the success of the program. Mr. Ashley spoke of something to be planned, which would interest everyone in which all might take part.

It was stated that Mr. Malona has for sale eight Minorca hens and three roosters and three Indian runner ducks.

The program was then turned over to the Illinois natives, of which Miss Gilbert is chairman. The program follows:

Thumb sketch of Illinois by Mr. Fred M. Ashley; song, "Illinois," solo by Mr. George Osborne, assisted by a chorus; Music Box echo by little Margaret Frost; Manufactures of Illinois by Mr. C. Van Battum; Song, "Clang of the Forge," Mr. Geo. Osborne; encore, reading, "A Selection from Ida M. Tarbell's 'He Knew Lincoln,'" given by Mrs. Frost; "Reminiscences of a Pioneer" (original) Miss Zoe Gilbert. This with the encore is appended by special request at the end of the program. Next a song, "In the Vale of Monte Vista," words composed and sung by Mrs. J. W. Catt. Mrs. Catt was enthusiastically recalled and sang as an encore, "My Wild Irish Rose." Mrs. Livingston was pianist of the evening.

### Reminiscences of a Pioneer

One time there were some people who were roaming all around; In fact, they didn't know themselves just whither they were bound, At last they all decided they would like to settle down; So they went up in the mountains and founded there a town In the Vale of Monte Vista. It was a lovely spot; Never very cold in winter, nor in summer very hot. Then many homes began to rise upon the mountain side, With gardens planted here and there good tables to provide. And Littlelands, the town was called, and soon became renowned; For scenic views and climate nothing finer could be found. All trades and all professions there; stenographers and teachers, Bookkeepers, plumbers, gardeners, and carpenters and preachers. The medical fraternity well represented too, And folks of leisure settled there with nothing much to do. Now, there was no place of meeting; that wouldn't do at all; So a stone club house was builded and they called it Bolton hall. And there were held the socials, concerts, lectures and all that; And club meetings till the people hardly knew where they were at. A Woman's club, a Bee club, besides a ladies' aid; A Poultry club, a Pigeon club, also a Board of Trade. A club for herbs medicinal, a Garden club or two, A Hom Croft club where were discussed all the topics old and new; Just when to prune the citrus trees, best time to plant tomatoes, And how to fertilize the soil, and how to raise potatoes. Now all these clubs, as one may know, proclaimed the growing city; 'Twas hard to find a living soul who wasn't on some committee. To the worthy chairman tribute, not a duty did they shirk, But they got the folks together and set them all to work. Madames Fairfield, Hoffman, Miles, and Dean, and Woodruff, on the list, And when they said to do a thing 'twere useless to resist. Messrs. Lamson, Hough and Darlington, and Shiras, Clark and Paul, Many others could be mentioned, this isn't nearly all. To Bolton Hall the people went church service to attend, To get books from the library, or visit with a friend; And a colony town meeting was held each Tuesday night, Where all troubles were talked over to try and set them right. They had a moderator who was not one minute late, And he pounded with the gavel and kept the meeting straight.

The man who was most popular was Mr. George C. Buck, Everybody in the colony was wishing him good luck,

For he brought them letters, packages and papers, such a host, They came first class and by express and by the parcel post. And then to cap the climax, as if that were not enough,

He carried all their Christmas gifts and lugged huge bags of stuff; Then dragged his weary footsteps home, so tired when he got there,

That the little landers bought for him a great big Morris chair. One night there was a deluge, and the boulders crashing down Awakened all the people in the little mountain town.

Some streets were roaring torrents, and lots were washed away; Many houses were endangered, and men worked night and day In vain attempt to check or guide that wild destructive stream; That such disaster could occur, how little did they dream.

Next year in Hayne's Canyon many check dams did appear, Built of stone and well constructed to endure year after year. Again the rains descended more torrential than before,

All the high hills were covered like that first great flood of yore. And the people trembling waited; and when the sun came out They hastened from their mountain home and rambled all about;

So overjoyed to look upon Dame Nature's smiling face, With not a stream defiant; not a boulder out of place. There was a man of giant size, he towered o'er all the rest; Like Job he had great patience under such a dreadful test;

He bought a little piece of land chuck full of rocks and stone, And he grubbed, and tugged from morn till night and uttered not a groan.

'Twas the Rev. Mr. Wieman who left no friend in the lurch, And he became the pastor of the Federated Church.

Just because the ground was stony, were the people grieved and sad?

While ever digging, shovelling, would you think that they were mad?

Believe me no! But lively, bright and gay as any jockey; They even had a weather man whose name was Mr. Rocky.

The Colonial Dancing Club we must surely not forget, Where they danced the graceful lancers and the stately minuet.

Then, too, another feature, its fame spreading o'er the land, The pride of all the country round, The Monte Vista Band.

There was a drygoods, hardware store, a hospital for shoes; A drug store and postoffice, and a stand for selling news,

Two grocery stores, a meat store and a thriving lumber yard; To see the town was growing it wasn't very hard.

An office to sell real estate, a store for grain and hay; A new school house where troops of children gathered every day.

And where the touring autos traveled in a constant stream, There was a cosy little store for lunches and ice cream.

Two auto stage lines daily, both for promptness had a name, And if folks never went to town they had themselves to blame.

Of ways for having goods brought out there never was a dearth, For Mr. Osborn's truck line carried everything on earth.

Two very sad things happened, you have heard it o'er and o'er, The fire in the mountains, and the burning of the store.

Events of greatest interest that happened in the town, An excellent reporter promptly jotted them all down.

The Sierras, grand, majestic, and towering far above, The evergreen Verdugos that we reverence and love,

The Big Tejuca Canyon, full of mystery sublime, All foretold the wondrous beauty of that fair and sunny clime;

And it somehow gave the feeling that one could live and die Where the valley lies so peaceful 'neath the mountains and the sky.

—ZOE GILBERT.

### ENCORE

In the good work of committees we always take great stock, And we suggest appointing one to regulate the clock. —Z. G.

This last was very apropos as the Hall clock certainly does need regulating.

### PEANUTS AND PROSPERITY

The little colony of Gambia in West Africa is enjoying unprecedented prosperity all on account of the peanut. It is said that nearly the entire population of one hundred and fifty thousand is now engaged in raising peanuts, and with such profit that the colony has not only paid its debt, but has one million dollars in its treasury.—Exchange.

Business success is (in part) a matter of good guessing—and the rest is hard work, horse-sense, and economy!

A high-speed flashlight photographic outfit, with an exposure of but one-two-thousandth of a second, can accurately photograph an outdoor scene after dark.—Exchange.

### LA CRESCENTA ITEMS

The Crescent Circle held their regular meeting at the home of Mrs. Mary Thompson on New York avenue on Thursday, April 13. Nearly all the members were present and three new members, Mrs. Bessell, Mrs. Koons and Mrs. Rudy.

Owing to the unavoidable absence of Mrs. Seymour Thomas, a letter from her was read, giving an account of the picture that is being exhibited in Los Angeles in order to raise funds for the widows and orphans of artists that have fallen at the front. Seymour Thomas who is in charge of this exhibit while in Los Angeles has resided in Paris for nearly 25 years and will be ready and willing to receive any contributions for that cause.

The Circle decided to adopt a "War Baby" for a year. Thirty-six dollars will keep a baby for one year and this money given to a widowed mother will permit of her keeping her baby with her, furthering the preservation of home life and baby life, for it is a well known fact among investigators that babies do not thrive in institutions. Any one interested in the babies can communicate with Mrs. V. B. Claffer and Mrs. Leon Betrand of La Crescenta, and they will be glad to tell you all about it.

The Circle voted to send a basket to the Free Flower Show in Glendale. Mrs. Nettleton and Mrs. Coff are working up a basket that will show the wonderful roses that can be raised in La Crescenta Valley. Mrs. Nettleton's rose garden is at its finest and hundreds of choice blooms are ready for cutting.

The next meeting of the Circle will be at Mrs. Bessell's at "The Hi Up Ranch" in May.

A. M. E. Schultz, Secretary.

To some wicked men it is a deep theological question as to whether or not an angel would get mad waiting dinner for as long as twenty-five minutes!

### MAUD, UP TO DATE

Maud Muller on a summers day Raked the meadows sweet with hay.

The judge chugged by with the usual fuss,

This time in a jolting old jitney bus.

But Maud just snickered from afar, As her eye caught sight of the ancient car.

She bent her head and raked the grass, And all unnoticed let him pass.

And quoth, as she gave the hay a bat, "He can't win me with a rig like that!"

While the judge with a sigh sped on and on, And moaned, "There's another nickel gone!"

### SO LONG, LETTY

"They tell me that your new cook Letty is an angel. Is she?" "I hope so; she lighted the fire with gasoline this morning."

**FAR EASTERN MONROE DOCTRINE**

Just how many troubles in the international field a weak hand in the external interests of the United States may stir up can be seen in the tone of the Japanese at present toward the question of the Philippine islands. The intention of the present American government to abandon the islands which have been ruled over by the United States so long has at once brought from intelligent and even responsible Japanese the declaration that while Japan is not desirous of occupying the Philippine islands, which are unsuited climatically for Japanese occupation and which are overrun by cheap Chinese labor, at the same time the mikado and his people will not permit any foreign nation to attempt to take over the islands after the present government has carried out its policy of desertion.

This is a Far Eastern Monroe doctrine that may yet have far-reaching consequences. Japan professes not to covet the territory; yet it is certain that she would take it over the moment the Americans had deserted it. Japan in short would be glad to take over the Philippines but is not anxious to pay anything for it. She is not even anxious to fight for it; because she believes that ultimately the islands will fall to her lot anyway. It is possible that the islanders might ask Japan to come in and rule and govern and teach and instruct them. That is hinted at and there are many ways in which such a consummation might be brought about. It is certain that Japan would find no difficulty in finding either excuses for annexing the islands or means of getting responsible Filipinos to ask that country to come in and exercise a paternal rule over them.

It is true that Japan cannot colonize the islands to any great extent, at least the Japanese profess to believe that the climate is not suited to their people; but that need not prevent her from having garrisons there just as the United States has, nor stand in the way of the exploitation of the commerce of the island and their fortification against possible western invasion of the Far East.

It is practically certain that the abandonment of the Philippine islands by the United States is to be the signal for an intimation to the world by Japan that all other nations must keep their hands off. The United States itself will be told that having abandoned the islands it has no further interest in them nor further right to exercise any supervision or restriction over them.

Japanese writers have recently indicated that it would be a good thing if Japan took away the Dutch possessions in the Far Indies on the ground that the Dutch have never developed them and that they would be better in Japan's hands. Japan would then proceed to fortify the islands and the Straits and Western nations would have to ask the permission of the mikado to pass into Far Eastern waters.

Meanwhile Japanese capitalists are buying up sugar land, rice land and hemp land all over the Philippines and will probably effect a peaceful annexation of the territory which may ultimately bring on a forcible occupation and actual annexation by right of arms. Japan is teaching the people of the Far East that it is time they had a Monroe doctrine of their own and that it is also time that they should unite against the Western exploiter. No country would welcome American abandonment of the Philippines more than would Japan.

**GERMAN INTRIGUE IN PERSIA**

Germany's secret service is one of the most efficient of such bodies ever known. Money has been lavished on it by means of which the Teuton spies have penetrated everywhere. Into the sacred precincts of the navy department at Washington they managed to get some months ago and induced some base employe to steal the latest dreadnaught plans. That is only one specimen of their doings, which have extended from blowing up munition factories to setting fire to ships in the New York docks.

Everywhere the indefatigable German spy has gone. His work has been easy, for other nations have not been suspecting his presence and have welcome the suave, well-educated and plausible men and women of the kaiser's secret service as genial companions. This has been specially the case in Persia, where a plausible and clever German, Rassmuss, by name, has moved and shifted the petty chiefs and the big chiefs of the southern part of that land very much as a chessplayer moves the pawns, kings, queens, castles and bishops.

Herr Rassmuss has a perfect genius for playing on the native Persian imagination. Of course this is not so very difficult when one has learned the creed of the superman and justifies the means by the end. The doctrine is not new and the world has fought it through centuries; but it always keeps cropping up and will not be downed until many ages are past. If humanity is to keep its freedom it would do well to ponder what is happening in Persia, where outside powers are walking up and down as they choose, where the natives have no liberty or choice of action and where an evil genius like Rassmuss is setting them by the ears one against the other until the time shall be ripe for the kaiser to reap the profit of all this manipulation by taking the whole land over— if he ever comes to that stage.

Persia is a goodly land. It is a desirable country. In active hands it might be made to produce as in the olden days and its position on the globe makes of it a key position to the wealth of the East. No wonder that the outside nations finding a nation like the Persians who did not believe in preparedness should have used the land as if it were their own, Russia in the north, Britain in the south and Germany everywhere. Under the clever manipulation of Herr Rassmuss one of the leading Kashgai tribes has rebelled against the Persian government and is working hand in glove with the rebels who have gathered strength and also an organization and military drill as well as an astonishing equipment

**DESTRUCTIVE TORNADO HITS KANSAS CITY**

TEN DEAD IN KANSAS CITY VICINITY AND SIX KILLED AT STOVER, MO.

(Special Service to Glendale Evening News)  
KANSAS CITY, April 20.—A destructive tornado struck this place this morning, cutting a wide swath of ruin in its advance. Six persons were killed in this vicinity and more than 100 injured. Several houses were blown down, crops were destroyed and cattle and horses killed. At Stover, Missouri, six persons were killed and much damage done to property. Many persons were injured.

of modern machine guns and an abundance of ammunition wherewith to serve them.

It is no secret that the Aladdin's lamp that has produced all this wonderful effect is in the cunning hands of Dr. Rassmuss, who has played on the susceptible Persian as easily as the famous Empson would have played on the flute. Rassmuss has but one tune, "Deutschland Ueber Alles," and he plays it to his own satisfaction and to that of Germany. The native rebels, however, do not understand this. They think that their "great and good friend," as Queen Liliuokalani of Hawaii once called Grover Cleveland, is actuated only by an altruistic desire for their welfare. They are likely to find like the poor Hawaiian queen that the altruism of some people is all for themselves and means the ultimate despoliation of the fools who trust them.

**CITY TRUSTEES' MEETING**

Pursuant to motion of adjournment adopted at the regular meeting of April 17th, the Board of Trustees met at the City Hall at 3:45 p. m.

Present at roll call: Grist, Jackson, Muhleman, Jackson, Woodberry. Trustee Grist was excused at 4:00 p. m.

The City Manager made a report in regard to the Flood Control committee, and on motion of Trustee Woodberry, Mr. Frederick Baker was appointed to represent the City of Glendale at a meeting of that committee to be held in Los Angeles, April 20th.

The City Manager brought to the attention of the Board the condition of affairs in connection with the Fire Department, referring particularly to necessary appropriations for that department and explaining the conditions in reference to the same. In his opinion it will be necessary to secure a pump for the present engine and other necessary additional equipment at an estimated cost of about three thousand dollars; such expense usually being taken care of by a bond issue. The cost of new tires and wheels for the Fire Engine and a few other necessary expenses that must be incurred in the very near future amounting to from \$400 to \$600, can be provided for in the budget.

The matter was discussed informally, but no action was taken.

An application from L. O. Hood for permit to run an auto bus previously presented to the Board, being approved by City Manager, was on motion of Trustee Muhleman, granted.

An application was received from L. W. Ball for a position in the employment of the city and ordered to be filed.

A petition was presented to the Board signed by H. L. Adams and a number of other property owners on Pacific avenue requesting that the Board take the necessary steps to grade and construct curb and sidewalk on Pacific avenue from the southerly line of the City of Glendale northward to Broadway. On motion of Trustee Jackson the petition was received and ordered to be filed, and the City Engineer instructed to prepare the necessary resolution providing for the improvements asked for in the petition.

Demands as follows were allowed:  
Glendale Press ..... \$50.50  
A. W. Randolph ..... 60.00  
H. C. Kinser ..... 12.50  
Board adjourned.

**"FLOWERS," "FLOWERS," "FLOWERS"**

Flowers everywhere, flowers in vases, flowers in baskets, flowers in pots, flowers in fancy jardiniere, flowers in tin cans, yes and flowers in ice, and the one who fails to visit the Glendale Free Flower Show will miss one of the brightest pages in the history of the Glendale Garden Society.

**SPRING**

- A crocus hiding in the grass,
- A flash of wings;
- A tinkle from a loosened brook
- That softly sings.
- A sunbeam tempering the air
- Erstwhile so chill,
- And from the woodland's dim retreat
- A whip-poor-will.
- A patch of blue amid the gray
- Of skies above;
- A bluebird's call, a robin's chirp,
- All these we love.
- May has for us so many lures,
- As on she hies
- Beneath the fitful smiles and tears
- Of springtime skies.

### Personals

The Glendale Evening News office has had a foretaste of the Flower Show this week, Miss Boles of the rose farm, Mrs. Ella Richardson and Mrs. Thomas Addison, remembering us with roses from their gardens, which are magnificent at this time.

Earl Brown and brother, Milton Brown, have returned from a delightful camping trip with a party of fellow students and will resume their studies at Glendale Union High School Monday morning with a vim and enthusiasm that is characteristic of Young America after a few days recreation from studies.

Mrs. Nettie H. Frantz of Ivy St. was stricken with apoplexy some days ago. She has partly recovered but is still in danger. This is the second stroke she has had. Her daughter, Mrs. E. M. Witt, of 1457 W. Broadway, has been waiting on her since her affliction. Hopes of Mrs. Frantz' recovery are entertained.

In most interesting letters, containing a wee bit of homesickness, however, Miss Gladys Brunson, who left for her home in Rossland, Canada, recently, writes that while Glendale is reveling in delightful warm sunshine and flowers are blooming in glorious riot here, she has the satisfaction of realizing that the temperature is a trifle above zero in Rossland and that just one glimpse of Glendale and one breath of the pure ozone and warm sunshine of the Jewel City would be gratifying.

Mrs. Ruby J. Smart, president of the City Woman's Christian Temperance Union, gave an address yesterday in Trinity Auditorium. The occasion was held by the federation of Unions, of over two hundred and fifty members. The subject was "The Cry of the Nations." This learned address was enthusiastically received, and it was unanimously voted to have the address printed and distributed. This honor Mrs. Smart most modestly declined, but agreed to give her services to as many missionary societies and unions as her strength will permit.

WEATHER FORECAST—Fair to night and Friday; westerly winds.

### Personals

R. M. McGee transacted business in Long Beach Thursday.

Mrs. F. W. Kille and son Eugene are spending this week at Long Beach.

Mrs. S. S. Elliott and children, Arthur and Cornelia, are visiting relatives at Ocean Park.

Mr. and Mrs. A. S. Chase and children motored to San Diego Saturday and returned yesterday.

Mrs. Minnie Patterson and daughter, Emma, of 1463 Riverside drive, are spending two weeks at Balboa.

Mrs. J. J. Banta, who has been ill for the past three months, is just getting able to be out again.

Mrs. H. L. Clotworthy and Mrs. H. F. Bertelson are at Bellflower today, attending a Reciprocity meeting of the Woman's club of that place.

Mr. and Mrs. Charles F. Parker of North Central avenue are enjoying the comforts and pleasures of a handsome new five-passenger Velle auto.

Edward B. Ellias has returned from Orange County, where he has been spending the past few weeks in the interest of his business relations.

Dr. T. C. Young returned Thursday morning from a day's fishing trip at Silver Lake, where he was fortunate enough to secure about 18 lbs. of black bass.

Mrs. Blake Franklin and Mrs. Mabel Ocker, are at Compton to attend a Reciprocity meeting of the Woman's club. These ladies represent the Tuesday afternoon club of Glendale.

Dr. L. R. McCalla came down from Bishop recently to join his wife, Dr. Anna McCalla, who has been at the home of her parents, Dr. and Mrs. I. H. Durfee, and will remain in Glendale for a few days.

Miss Brunson, who had been the house guest of her cousins, Mrs. E. B. Ellias and Miss Emily Ellias, of Ivy street, for several months, returned to Canada to her father, who resides at Rossland.

Mrs. R. S. Antibus of 508 Lomita avenue entertained informally at dinner Wednesday evening, complimentary to Jewell Bainbridge of Minneapolis, Minn., who is sojourning in Southern California.

Mr. and Mrs. A. Teague of Alvarado street, Los Angeles, and Mrs. Nanette Smith of Los Angeles, were guests at afternoon tea at the home of Dr. and Mrs. Colin Cable, 755 Columbus avenue, Wednesday.

Mr. F. C. Frank of 1442 Vine St. received a telegram from Marysville, Mo., Saturday, informing him that his father had been taken seriously ill. Mr. Frank started for Marysville immediately on receipt of the message.

Dorothy Bonnell, who sustained a basal fracture of the skull in an automobile accident, has recovered consciousness and is able to recognize such of her immediate relatives as have been permitted to visit her at the Sanitarium.

J. W. Pearson brought some especially fine asparagus to the News office Wednesday. The Pearsons have been enjoying this toothsome dainty for some time. Mr. Pearson's brother, Guy Pearson, who is a New York shipper, sends it here from Oakley, Cal., where it is grown.

Mr. and Mrs. Henry C. Galey and three children of Yuma, Arizona, arrived this morning. Mrs. Galey and children leave this evening for Oregon, where they will spend the summer. Mr. Galey will remain for some time with his mother, brother Clarence and sister Mabel, of 1444 Salem street.

Mrs. V. A. Kemp and her daughter Leona, of Maxbass, N. D., who have been visiting in Pasadena for about a month, are house guests at the home of Mr. and Mrs. A. H. Lankford, 225 Cedar street. They will return to North Dakota after completing their visit to the Pacific coast.

Mrs. Coral Harrison Sloan, who was so seriously injured in a recent automobile accident, has so far recovered that she was permitted to be removed to her own home on Myrtle street, Monday. Mrs. Sloan, though still very weak, has been none the worse for the removal and hopes to make definite recovery in her own surroundings.

Mr. Vernon Snively, Chief of Police Snively's son, who was to have had a prominent part in the Alumni play which is to be given soon, has had to give up the part owing to unexpected business calling him to the North. Mr. Lawrence Lawson, whom Glendale identifies with past successful plays, has been given the part and this alone assures the success of the new play.

Dr. A. E. Johnson who came to Glendale from Cloquet, Minn., last December and opened offices at 1110 1/2 West Broadway, leaves today for his former home where he will spend a part of the summer and when he returns he will be accompanied by his wife, son and daughter. Dr. Johnson is enthusiastic about Glendale as a place for a home.

### TROPICO

Guy Rice, accompanied by his mother, Mrs. L. C. Rice, and Mrs. R. G. Bennett and Miss Frances Bennett motored to Lindsay the first of the week, where the ladies will visit a few days while Mr. Rice is looking after his numerous business and ranch interests in Lindsay and vicinity.

Mrs. B. B. Crocker, of Los Angeles was the guest Wednesday of Mrs. Edgar Stuart Ayres of West Park avenue.

Mr. and Mrs. Eustace Benton Moore attended the fourteenth anniversary of the Independent Order of Redmen, which was held in Los Angeles. Mr. and Mrs. Moore had as their guests Miss Ressie Alford of Los Angeles, upon this delightful occasion.

Miss Hope Armstrong, who was the guest of Los Angeles friends at a delightful over Sunday house party at Venice, has returned to her home on Blanchq avenue.

Mrs. Samuel A. Pollock of West Park avenue, accompanied by her mother, Mrs. Elizabeth Kasseall, were the guests of Mrs. Pollock's uncle, Mr. Jaspar C. Sears, at a luncheon Wednesday.

Mr. and Mrs. Fred Webster motored from Burbank, Wednesday and were the guests of Mr. Webster's parents, Mr. and Mrs. Daniel Webster of North Central avenue.

Mrs. Mabel Hutchins has returned from a recent visit to Independence, where she motored with her son and daughter, Mr. and Mrs. Gale Morgan, and is again the house guest of Mrs. Louise Purnell, of West Tenth street.

Mrs. Karl E. Hollingsworth of Virginia Place will leave Friday morning for Whittier, where she will be the over-Sunday guest of her aunt, Mrs. Mont Baugh. Mr. Hollingsworth will join Mrs. Hollingsworth Saturday and spend Easter at Whittier.

Mrs. A. J. Frankland is ill at her home 321 Boynton avenue and is thus obliged to cancel all social duties.

After an absence of three months, spent in Alhambra, Mr. and Mrs. H. J. Farnham have returned to Tropico and are once again pleasantly domiciled at their former home, 331 Halstead street.

Miss Phoebe Armstrong, an accomplished pianist, with her sister, Miss Dorothy Armstrong, whose violin numbers are always so pleasing, will present a musical program of piano and violin solos before the Cosmos club of Los Angeles, Wednesday, April 26.

### GLENDALE FOOTHILLS

George Marsh, of San Rafael St., who was so badly burned the other day by the upsetting of a kettle of boiling water, has improved greatly. He was able to sit up for a little Thursday and the extensive burns are healing nicely.

Dr. O. L. Sharp of Los Angeles is in charge of the practice of Dr. J. E. Eckles, who is enjoying a brief vacation in the hills north of Azusa.

The Rev. Julius Soper of the Casa Verdugo Methodist Episcopal church is holding services every night this week, this being Easter week. He was assisted Wednesday evening by the Rev. C. R. Norton of Glendale, a former pastor of the church.

Among the guests at the entertainment which Mr. and Mrs. George Mitchell, Kenneth road, are giving in honor of their daughter, Mrs. Fancher of San Francisco, is Mrs. J. A. Legge of 200 N. Louise street, Glendale.

Mr. Daniel E. Fuller, whose large ranch at the corner of Central avenue and Kenneth road produced this year a very large and excellent crop of oranges, has sold the whole the whole crop to the Southern California Fruit association.

### EVERYBODY WELCOME

A joint celebration of the Odd Fellows and Rebekahs is to be held Tuesday night at the Oddfellows' hall and all their friends are invited. If you want to see a live time come up. A fine program has been arranged and there is to be dancing for all who wish. Also cards and other games. Everybody come. All cordially invited.

### CLUB WOMEN INVITED

The Woman's club of Lankershim invites the members of the Glendale Woman's club to the California Art exhibit and lecture, by Alma May Cooke, Friday, April 21, 2:30 p. m., Weddington hall.

### EASTER SERVICES ON MT. RUBIDOUX

A most impressive sight, well worth seeing. Make the trip by "Buick Six" and enjoy the sights enroute and around Riverside: Leave 2:00 Sunday morning and back at noon. Can accommodate four people. Round trip, \$3.00 each.  
Paul V. Tuttle, Phones Glend. 50, Glendale 660-J. 205t2

### NEW MUSIC STORE

#### A. M. SALYER OPENS PERMANENT PIANO BUSINESS IN GLENDALE

A. M. Salyer, who has been in the piano business in Los Angeles for nearly thirty years, has opened a business in Glendale where he intends to remain permanently. The Salyer Piano House, 1112 Broadway is a commodious store that bears evidence of the proprietor's good taste and judgment in pianos. Mr. Salyer is an expert in the piano business, having handled those instruments so long that he knows exactly how to suit any customer.

In the Salyer store there are to be found grands, players, uprights and renters. The famous Fischer piano is here with its mellow tones; the Emerson, a grand family piano; the Shoninger, one of the best all-round instruments on the market and the Irving, which with a player attachment is one of the best utility instruments to be had. Incidentally, Mr. Salyer has donated the use of an Irving player piano for the use of the Free Flower Show, during the three days it runs this week.

Mr. Salyer believes in Glendale. Many years ago he acquired a large building on San Fernando road, where he intended to begin the manufacture of pianos; but circumstances prevented the project being put into effect. The Salyer piano factory was on Avenue 20, on the east side of Los Angeles. All Mr. Salyer's interests are in Tropico and Glendale and he thought that he might as well move out here and save money. The difference in rent is a great saving and the business is just as good.

"My first orders in Glendale were for five pianos," said Mr. Salyer. "Four of these went to Los Angeles. My friends do not forget me and I anticipate that I will retain a good part of my old business. I always treat my customers well and never mislead them. I attend to their interests as well as to my own and thus I can always count on having their recommendation. This makes for business."

"When I came into Glendale, I imagined I would start only a very limited business and believed that I would have difficulty in getting even that on a going basis. As it is, I have launched out into a wide business and it is on the increase. My daughter, Mrs. Frank Webber, who is thoroughly acquainted with all the intricacies and needs of the business, assists me in the store. In the back of the store we have a commodious repair room and also that goodly sized room where the player pianos will ultimately be all kept. You see we have fitted it up like some ecclesiastical establishment. The stained glass is in keeping with music, anyway. Here too, we have all kinds of organs and Victrolas."

"I have a long lease on this building and will make this a permanent piano house for Glendale. Stocked like a city warehouse, it should prove an inevitable attraction to those who wish to get advantage of the lowest prices going."

It is rather singular that with the high cost of everything in the trade, especially the steel wire, the prices of pianos have not gone up. The cost to the manufacturer is very much greater and yet the retailer is expected to sell to the public at rates not higher in any way than those of some years ago. How long that will be the case I cannot say. I hope it will not be changed, for the public's sake."

### DOROTHY BONNELL BENEFIT

The tickets for the Dorothy Bonnell benefit are being placed on sale by the committee in charge. Every citizen of Glendale is urgently requested to purchase one or more seats. In order to raise the necessary funds, to care for the immediate needs of this dear little girl, it is necessary for every citizen to lend a helping hand, and make the tribute unanimous.

The following business firms have most graciously offered service in the sale of these seats:

Cornwell and Kelty Hardware store.  
The Munson Drug store.  
Glendale Pharmacy.  
G. O. Roach Grocery, 815 Brand.  
Many kind hearted people have offered to make a house to house canvass for the sale of these seats. If any others wish to give their services likewise, it will be highly appreciated by the committee in charge.

### MRS. STEWART ENTERTAINS

Mrs. C. J. Stewart entertained a number of her Glendale and Los Angeles friends in her charming home at Brand boulevard and Ninth street on Monday evening, April 17. There was instrumental music and singing, also a short talk on the Higher Philosophies by Miss Mary de Witt. Refreshments were served and everyone had a most delightful time. Those present were Dr. Weber and his sister Miss Weber of Los Angeles, Mrs. Lee, Mrs. O'Hanuan, Mrs. Worsley, Mrs. Berry and son Mr. Berry, Mrs. Borthick and daughter, Miss Lina, Mrs. Walter Ross and Mrs. Myton, Mrs. H. Harmon and Miss de Witt, as well as their charming hostess Mrs. Stewart.

The Evening News boosts whatever is worth boosting. The Flower Show is worth boosting.

# TO CHICAGO for \$13.00

would be very low expense for such a long trip. That is the price, however, for a lower berth in the standard sleeper from California points.

An upper berth is only \$10.40, and if you will be contented to go in the tourist car, which is a very comfortable way to go, a berth will cost you only \$7.00, or \$5.60 for an upper.

Whichever you take, first-class or tourist, you may travel in a Limited Train and go through in less than three days, via Salt Lake route and Union Pacific;

Or you can take a little longer and go through Colorado and Denver.

No matter where you wish to go, if it can be reached via Salt Lake City, the Salt Lake Route will serve you well.

SUMMER EXCURSIONS TO EASTERN CITIES will commence in June. Round Trips Good Three Months at Reduced Fares.

Let me tell you about them.

**E. B. MURPHY, Agent**  
GLENDALE

### ENTERTAINMENT AT LA CRESCENTA

Under the auspices of La Crescenta civic interests the usual entertainment will be given in the schoolhouse, Tuesday evening, April 25, at 8 p. m. This will be a motion picture show of great interest. The first item will be a 3-reel drama entitled "The Bomb Boy," which will be followed by various interesting scenes from travels in foreign lands. Pathe's weekly news service will keep the people in touch with the great world and they will be sent home in a good humor by the closing reel, which shows "Home Life Made Merry."

### MAD BULL FATALLY GOES RANCHER

SAN JOSE, April, 20.—Kenneth Evans, a well-known rancher of this place, went out to attend to some cattle which were in a field some distance from the ranch house. On his way he took a short cut through another field where a bull was kept. The animal gave chase to the rancher and in an accession of mad fury gored him repeatedly. Evans is on the point of death.

### MRS. POTTER PASSES AWAY

Funeral services of Mrs. Flora M. Potter, beloved wife of Mr. H. W. Potter, formerly of Glendale, were held at the family residence, 2433 East Sixth street, Long Beach, Tuesday and interment occurred in Forest Lawn cemetery, the remains being interred beside those of her daughter, Miss Grace Potter.

### NEW UPHOLSTERY SHOP

R. Raymond, late of London, England, has leased the store room at 318 S. Brand and will conduct a high class upholstery establishment. Mr. and Mrs. Raymond chose Glendale as their home after visiting many other cities in Southern California.

May 11 and 12

### A NOBLE CHARACTER

The man of nobility of character does not recollect injustice, for accurate recollection, especially of injuries, is not characteristic of the magnanimous man, but he rather overlooks them. He is not fond of talking of people, for he will neither speak of himself nor anybody else, for he does not care that he himself should be praised nor that others should be blamed.—Aristotle.

### RIGHTNESS

Nothing can be great which is not right.—Dr. Johnson.

GARDEN SOCIETY ACTIVITIES

1915

- Oct. 3.—Constitution adopted. Oct. 26.—A Get-Together Meeting. 16 present. Nov. 18.—Public Stereopticon Lecture by Professor George Maxwell of Los Angeles, High School, 8 o'clock p. m. 200 present. Nov. 24.—Plant Exchange inaugurated. Dec. 2.—Talk by Professor C. L. Schufeldt of Los Angeles. 40 present. Dec. 15.—Merchants' Window Box campaign started. N. B. This movement has not yet met with general cooperation.

1916

- Jan. 13.—Talk by City Manager Watson on Vacant Lots, City Parking and Tree Planting. Jan. 17.—Glendale City Trustees granted the Garden Society \$100 towards expenses of Free Flower Show. Feb. 3.—Public Stereopticon Lecture by Professor C. L. Schufeldt, High School, 8 o'clock p. m. 200 present. Feb. 19.—Free Matinee for Children at Palace Grand (by courtesy of Mr. Jensen). 500 present. March 9.—Reception to members and friends. 160 present. March 24.—Benefit at Palace Grand for Free Flower Show. \$70 net profit. April 6.—Plant Party. 75 present. April 14.—"Joy ride" of 50 members to Pasadena Flower Show.

- April 20, 21 and 22.—First Annual Free Flower Show. April 29.—Saturday—President's Flower-Giving Day. See note below. May 4.—Public Stereopticon Lecture by Theodore Payne, wild flower expert, on "California Wild Flowers. High School auditorium, 8 o'clock p. m. Public cordially invited. June 1.—Annual Election of Officers. Address, "How Philadelphia Makes \$28,000 Per Annum on Its Vacant Lots." Churches, schools, clubs, fraternal organizations, municipal departments, Chamber of Commerce, etc., are invited to send representatives. July.—Date to be fixed later—Excursion to Busch Gardens, Pasadena. August.—Date to be fixed later—Annual Mid-Summer Outing.

NOTE—Flower Giving Day. On Saturday morning, April 29, the President, Mrs. Nanno Woods, will leave Glendale at 10 o'clock in an automobile filled with flowers,—common garden flowers of bright colors and staying qualities, such as long stemmed geraniums, cosmos, petunias, gypsophila, mignonette, marigolds, nasturtiums, stocks, sweet peas, and wild flowers such as lupines and sunflowers,—all tied into convenient bunches. She will drive to La Plaza, Los Angeles, and will there distribute from the automobile these bunches of sweet flowers to the less fortunate residents of the city, who rarely ever see a flower. Mrs. Woods invites all owners of automobiles to join this flower-giving trip. She asks the residents of Glendale to cut suitable flowers from their gardens and to tie them in attractive bunches. Also school children are asked to do likewise, and to gather wild flowers early on Saturday morning. Automobile owners should collect these flowers from their neighbors and friends, and be in readiness to start from Brand and Broadway at 10 o'clock sharp. Not alone members of the Garden Society, but all Glendale folks are invited to join this trip. Let there be a grand procession of Glendale autos filled with Glendale flowers, flying Glendale pennants. Let thousands of Glendale flowers be given in this way to hundreds of Los Angeles' city poor.

OFFICERS

- President . . . MRS. NANNO WOODS Vice-President . . . PROFESSOR C. HOUDYSHEL Vice-President . . . FREEMAN KELLEY Secretary . . . MORRIS E. CARUTHERS Treasurer . . . C. H. WOOLSEY

SPIRIT OF JUDAS

Rev. George M. Morrison, pastor of Pilgrim Congregational church of Pasadena will speak at the Congregational church this evening. Mr. Morrison has served this church for eight years. He is a strong preacher, a man with a most beautiful and devout spirit. Mr. Morrison stands very high among the ministry.

The attendance last evening was the largest so far this week. Rev. A. B. Strong gave an interesting and able sermon. He showed the contrast between the Mary, who chose the better part and Judas, who asked "How much will you give?"

The world is blasted by men of the Judas type. Such never see a sunset or the good in men. Such men are always suspicious, distrusting the motives of people.

Life is made up of choices. It is easy to bargain away your conscience, purity and faith.

Erastus Johnson operated a ferry across the Alabama River. One day he was accosted by a poor white stranger who wanted to cross, but hadn't the wherewithal. 'Rastus scratched his woolly poll perplexedly, then queried, "Don' yo' got no money 't all?"

"No," was the dejected reply. "But it doan' cost yo' but three cents ter cross," insisted 'Rastus.

"I know; but I hain't got three cents." After a final pondering, the ferryman remarked, "I done tell yo' what; a man what ain't got three cents am jes' as well off on dis side ob de ribber as on de odder;"—The Congregationalist.

In a pocketknife described in Popular Mechanics, old or broken blades may be readily replaced. The blades are fitted with open grooves in their shanks, so that they may be removed or inserted quickly. This knife can be supplied with blades for many purposes. It can be changed from a penknife into either a pruning knife or a sportsman's blade.—Exchange.

A little girl, the daughter of a physician, was in great trouble. On Christmas she had received a ring with a pearl in it. Two days later, she poked her head in at the door of her father's office. "Father," she sobbed, "I've lost the little pill out of my ring."—The Christian Advocate.

Exceedingly delicate electrical apparatus has been perfected for measuring the brightness of a star, the variation of moonlight and other celestial phenomena of light.—Exchange.

"I see that Marconi has invented a device by which you can see through brick walls."

"Somebody invented that long ago."

"Who was it, I'd like to know?"

"The man who first thought of putting windows in 'em."—The American Boy.

To be hopeful is to be happy—that is, if you don't fret and worry by being too dreadfully and dreamily hopeful.

To work on, serve on, love on, unnoticed and unpraised, is perhaps the finest heroism earth can show.—G. H. Morrison.

"It is a blessed poverty which is gained by making others rich."

### THE REVIVAL OF PEWTER FOR PRACTICAL USE

For some years pewter has been sought for and delighted in an ornament and treasured heirloom, but today it is being revived for its practical value. One of the oldest pewter manufacturers in America, a silversmith's firm, has renewed its making in the original patterns.

The recommendations for pewter are many: It is of small cost and of great beauty, being unpretentious, of soft color, and simple in design. Its simplicity makes it especially appropriate for the little household, particularly of merit for the country home, where it need not receive the care of real silver and may be left from season to season if its owner so fancies.

In the new-old pieces to be had are plates, pitchers, sugar bowls some with ruby glass linings, which give the best of rich color effect against its gray edge, porringers that are duplicates of some of the very oldest specimens, candlesticks, meat dishes, gray boats, candelabra, muffineers, bread trays and vegetable dishes, and whole oil lamps, sirup jugs and other pieces necessary to complete table furnishing.

### RADIANT SISTER OF THE DAY

Radiant Sister of the Day, Awake! arise! and come away! To the wild woods and the plains, Where the pine its garland weaves Of sapless green and ivy dun Round stems that never kiss the sun; Where the lawns and pastures be, And the sandhills of the sea:—

Where . . . The daisy-star that never sets, And wind-flowers, and violets, Which yet join not scent to hue, Crown the pale year, weak and new; When the night is left behind In the deep east, dun and blind, And the blue noon is over us, And the multitudinous Billows murmur at our feet, Where the earth and ocean meet, And all things seem only one In the universal sun. —Shelley.

### LAND SPECULATORS ARE ATTACKED BY UNIVERSITY

In a bulletin of the University of Minnesota on "Social and Economic Survey of a Community in the Red River Valley," by Professor Weld, occur these words:

"The increase of tenancy in this section is causing alarm among the farmers and townspeople, and the activity of the land speculators is perhaps the one thing above all others that is complained of most bitterly. The reason generally assigned for the growth of tenancy is that old settlers who obtained their land for practically nothing have been induced to sell by what seems to them the generous offers of the land men. These land men often make large profits on single transactions. Five dollars an acre is a small profit for them; it more commonly runs up to ten dollars an acre, and sometimes fifteen or twenty dollars. Many a retired farmer in the village deplors the fact that he ever sold out; and farmers still on the land complain most bitterly of the operation of the land speculators."

Speculative values are worth absolutely nothing to any farmer who does not intend to dispose of his farm unless he desires to borrow on it. Real values are based upon productivity, social surroundings and nearness to market, due either to distance or good roads.—Successful Farming.

### MAKING A MUSTARD BALL

If you have never watched a mustard ball sprout, says the Philadelphia North American, you should start one at once. This is a little experiment which richly rewards one.

First secure a good, round sponge. Put it in a basin of water and see that it is thoroughly wet. From a florist secure a quantity of mustard seed. Take your sponge out of the water and let it drain until it has ceased to drip. Now put your mustard seed all over it—into all the little holes and crevices you can find—and hang it up in a window or attach it to the bottom of your canary's cage. Every day see that the sponge is moist; soon you will be signs of sprouting. Be careful that the sun does not shine directly on the ball until it has sprouted well. After that it will not matter. You have no idea how pretty this green ball can be until you have tried it.

### THE KITCHEN BOUQUET

One may make one's own kitchen bouquet for flavoring, if desired, although these bunches of herbs come ready prepared at most groceries. Take four branches of well-washed parsley stalks—if the branches are small, use six—one branch of well-washed soup celery, one blade of bay leaf, one sprig of thyme, and two cloves. Fold the smaller ingredients inside the parsley branches, so that they will not fall out while cooking, tie tightly with a string and use when called for by various recipes.

### A PROPER REASON

Maud—"You seem to like Jack's attentions. Why don't you marry him?"  
Marie—"Because I like his attentions."

### A QUEER JUDGMENT

On the same day two Filipinos were granted, and one Japanese was denied, citizenship in the United States by a federal judge in Hawaii. The applicants were all of Asiatic stock, so the refusal was not based on that charge. What, then? On the Mongolian origin of the Japanese. But the people from Europe of Mongolian ancestry enter the Atlantic ports of the United States and are naturalized without the slightest obstacle being put in their way. Fortunately the judge who rendered this decree does not believe in the justice of the law he had to interpret, and he has urged the rejected applicant and his fellow Japanese to take their case to Congress to get a law that is discriminating on other lines than racial differences.

### DRAPERIES THAT EDUCATE

New hangings, designed for children's rooms, have an educational as well as a decorative purpose. Window curtains, draperies for book shelves, and other hangings, are made of unbleached muslin; across the bottom is stenciled a pattern of tall grasses, mixed with thistles and milkweed stalks, cattails and sumach. These are true to nature and can easily be distinguished by the child. Above the grasses are stenciled birds of various sorts, in colors as nearly correct as possible, which may be used to teach the children birdlore. The birds are outlined with silk stitches, which make them stand up from the cloth and seem very real. In other designs, butterflies are used in place of birds, and various field flowers instead of grasses.

### A RIBBON BOARD

The long, smooth, narrow boards on which bolts of silk are wrapped make excellent washboards on which to launder ribbons. Children's hair ribbons need frequent cleansing, and ribbons used on hats and gowns demand occasional freshening. If ribbons are washed and ironed, however, they become stiff and unpliant, whereas washing them on a board keeps them soft and smooth. Lay the ribbon on the board and, with a small nail brush, wet it thoroughly and plaster it down. Then soap the brush well and scour the ribbon, keeping it flat on the board. When it is clean, rinse the soap out of the brush and brush the ribbon down several times with clear water. Always brush lengthwise, with the weave of the silk. Place the board in a corner where the ribbon may dry—not over a radiator or in the sun—and, when it is dried, it may be gently pulled from the board, practically as soft, yet crisp as new.

### SPICED SWEETBREADS

Parboil a pair of sweetbreads, dice them, and put them in a stew pan with a teaspoon of onion juice, two tablespoons of chutney sirup, a grating of nutmeg, several cloves, a stick of cinnamon and a slice of lemon. Let it boil up once, then take it off and cool slowly. Drain and saute in butter, then drain again and add two tablespoons of whipped cream. Beat lightly with a fork and serve on rounds of toast, garnished with cucumber fingers and olives.

### GLAZED ONIONS FOR GARNISHING

Small pearl onions make an attractive garnish for planked dishes or for boiled meats. If glazed, they are greatly improved in appearance and flavor. Select a quart of onions of uniform size, very small; peel the sides only and pare the roots neatly, being careful not to cut them. Place them in a pan, with a tablespoon of butter, and sprinkle them with a pinch of powdered sugar. Glaze them in a slow oven for 15 minutes. Place them in a stone jar and use for garnishing, when required.

### HOW WOULD YOU END THIS?

As a steamer was leaving the harbor of Athens, a well-dressed young lady approached the captain, and pointing to the distant hills, inquired, "What is that white stuff on the hills, captain?"  
"That is snow, madam," replied the captain.  
"Well," remarked the lady, "I supposed so myself, but a gentleman just now told me it was grease."  
"It is Greece."  
"But"—  
"But"—

### USE OF DISTEMPER

Cupboards and shelves in the kitchen and pantry can be painted throughout with washable distemper. It dries quickly and hard, is very clean in appearance and can be easily renewed and is better than paper.

### SOME PEOPLE NEVER SATISFIED

Guest calling to clerk at two o'clock in the morning—"There are two mice fighting in my room. What kind of a cheap place is this?"  
"What price did you pay for your room?" asked the sleepy clerk.  
"Fifty cents," replied the irate guest.  
"Well, what do you expect for fifty cents, a bull fight?" asked the clerk.

### HOME-MADE INDEX CABINET

In almost every home there arises a need of classifying and keeping in orderly fashion cuttings, important reference letters, memoranda, book and music lists, and other semi-valuable data, which must be properly cared for to be available.

A cheap way of making such an index is to have three wooden shelves boxed one above another, placed against the wall and enclosed by two wooden doors and a lock. The two lower shelves are perpendicularly divided into 13 small compartments each; these compartments should be at least two inches wide, marked alphabetically. The top shelf may be left open for photographs, card dies, cuts, or anything of the sort which may accumulate.

The doors will keep the contents of the cabinet free from all dust, and the carpenter will, for a reasonable price, make the cabinet of yellow pine, staining it to match the workwork of the room. The compartments of the lower shelves may be divided horizontally, if so desired; this will not materially increase the cost of making.

### WIDER REFORMATION

There is much that is admirable in modern civilization. It is rich in knowledge, and not poor in private virtue. But private virtue unsustained by virtue of the public system is oppressed and disabled. And this is the type of oppression which we are now called upon to recognize, to encounter, and subdue.—David Atwood Wasson.

### MORNING

The busy lark, the messenger of day,  
Saluteth in her song the morning gray;  
And fyrr Phoebus ryseth up so bright  
That all the orient laugheth for the sight;  
And with her stremes drieth in the greeves  
The silver dropes hanging on the leaves.  
Chaucer.

### BAGDAD, IN THE BOY'S VISION

When the breeze of a joyful dawn  
blew free  
In the silken sail of infancy,  
The tide of time flowed back with me  
The forward-flowing tide of time;  
And many a sheeny summer-morn  
Adown the Tigris I was borne,  
By Bagdad's shrines of fretted gold,  
High-walled gardens green and old;  
True Mussulman was I and sworn,  
For it was in the golden prime  
Of good Haroun Alraschid.

Often, where clear-stemmed platans guard  
The outlet, did I turn away  
The boat head down a broad canal  
From the main river sluiced,  
where all

The sloping of the moonlit sward  
Was damask work and depe inlay  
Of braided blossoms unmown, which crept  
Adown to where the water slept,  
A goodly place, a goodly time,  
For it was in the golden prime  
Of good Haroun Alraschid.  
—Tennyson "Recollections of Arabian Nights."

### THESE TEARING TIMES

There was a young fellow named Whitney,  
Who tore through the streets in a jitney,  
The police hollered "Stop!"  
But he said to the "cop,"  
"If you want me you'll have to come git me!"

### THE DAWNING OF THE YEAR

All ye who love the springtime—and who but loves it well  
When the little birds do sing and the buds begin to swell!  
Think not ye ken its beauty or know its face so dear,  
Till ye look upon old Ireland in the dawning of the year.  
And the blackbird on the hedge in the golden sunset glow  
Trills with saucy, side tipped head to the bonny nest below!  
And the dancing wind slips down through the leaves of the borean  
And all the world rejoices in the wearing of the green!  
For 'tis green, green, green all the happy night and day;  
Green of leaf, and green of sod, green of ivy on the wall,  
And the blessed Irish shamrock with the fairest green of all.  
—Mary Elizabeth Blake.

### BAKED APPLES WITH MARSH-MALLOW

One of the nicest ways to cook a baked apple is to core it and place in the center one marshmallow. As the apple cooks, the marshmallow bubbles up and no sugar need be added.

The following advertisement is displayed in the street cars of Youngstown, Ohio:—The owner of Federal street frontage makes money every time a child is born or a stranger moves into Youngstown. Population makes value. Buy at the right value now.

Mob-law is no law—Christ was mobbed by a set of pious-talking villains who jabbered about the "good" of their country.

### SUFFRAGE TOUR OF COUNTRY

Mrs. Alice Snitjer Burke and Miss Nell Richardson recently set out from New York city, in their little yellow automobile, on a 15,000-mile tour of the United States. In the interests of the National American Woman Suffrage Association, they will carry news of the association's plans for the demonstrations at St. Louis and Chicago during the Democratic and Republican conventions in those cities.

Their route runs south from New York along the Atlantic seaboard, by way of New Orleans and Galveston, and along the Texas, New Mexico and Arizona border into California, as far west as San Francisco, through Oregon and Washington to Seattle, thence east through South Dakota, Iowa, Illinois and to New York.

The car will carry suffrage banners and literature, says the Woman's Journal, and will be used as a rostrum for suffrage speeches at the different places where stops are made. One of the ways in which expenses of the trip will be defrayed is by selling the Woman's Journal.

Mrs. Burke is an Illinois woman who has lived in California and Colorado. Miss Richardson is a Virginian.

### DID YOU KNOW

That the derivation of the word "salad" shows it to be "something to be eaten with salt,"

That buckwheat is really not a wheat at all, but a near relative of sorrel, dock and bindweed,

That peanuts, although commonly classed as nuts, are in reality a legume and closely related to beans, peas, etcetra?

That chocolate and cocoa are products of an American plant and apparently were not known until after the discovery of America?

That cucumbers and melons rank as fruits, not as vegetables?

That pumpkins were originally called "pompions," and were raised by the American Indians before the white men came?

### HOW HOLLY PROTECTS ITSELF

Every one knows how the holly bush protects itself from cattle, says My Magazine. The leaves are covered with very sharp spines, so arranged that they point in all directions, but there is a very striking characteristic of the holly that is not so well known. In an animal, it would almost be regarded as a sign of intelligence. When the holly has reached a height of about eight feet and ceased to be a bush, but is then a small tree, it no longer produces spines on its leaves, the spines being no longer needed for purposes of protection, as the cattle cannot reach so high with their mouths.

### THE FINISH NOT FIT TO PRINT

"You're a swindler," exclaimed Mrs. Gobb, as she entered the bird store. "You're worse than a highway robber. You ought to be ashamed of yourself to cheat a poor, innocent woman the way you did me. That parrot I bought of you last week is a fraud. You knew it was a fraud. You said it was a fluent talker, and you charged me a big price for him, too, and that bird hasn't said a single word since I got him. Not one word. Do you hear me? Not one—single word."

"Perhaps," suggested the bird fancier mildly, "you didn't give him a chance."

### WHY THEY'RE SO DARN LONG

Aged clergyman to young curate:—Always remember in preaching a sermon that the great secret to success is simplicity. The beginner, after choosing his text, should divide his sermon into three parts. In the first part he tells the congregation what he is going to tell them; in the second part he tells them; and in the third part he tells them what he has told them!

### ANOTHER GREAT DAY COMING

Two Irishmen employed in construction work on the New York subway were engaged in conversation on a Broadway surface car.  
"You are gettin' industrious lately, Pat?" said Mike.  
"Yis," said Pat thoughtfully. "I was arrested for smashin' O'Hara last week an' the joodge said if I ever came back on the same charge he'll foine me twinty dollars."  
"So," observed Mike, "you're workin' hard to keep your hands off O'Hara?"  
"Divil a bit," exclaimed Pat, "I'm working to save up thim twinty dollars."

### MORAL—DON'T KICK

It was one of the "ten-twenty-third" vaudeville houses, where moving pictures are shown. An oriental act had just been concluded, and incense filed the house.  
"Usher," complained a pompous man in an aisle seat, "I smell punk."  
"That's all right," whispered the usher confidentially, "just sit where you are and I won't put anyone near you."

Too many people pray on their knees on Sunday and then prey on their fellow men on week days.

## What Electricity Will Do.

Every day, seemingly, we read of some new application of electricity in the home. The number of household tasks turned over to electricity in the past few years is astonishing. An engineer of the General Electric Company has prepared the following list of household applications of electricity which is truly astonishing:

- Furnish illumination for the house.
- Heat water for shaving or the bath.
- Percolate the breakfast coffee.
- Toast bread.
- Fry eggs or anything that will fry.
- Operate the sewing machine.
- Iron the clothes.
- Make the tea in a samovar.
- Cook food in a chafing dish.
- Curl a woman's hair.
- Heat the bath room or other rooms on cool mornings.
- Lift or lower dumb waiters.
- Energize doorbells and annunciators.
- Vibrate the massage vibrator.
- Ozonize (purify) the air.
- Wash the dishes.
- Ignite cigars.
- Keep hot the heating pad (used in place of hot water bottle).
- Warm the milk for baby day or night.
- Pop corn.
- Amuse the children by running electric toys.
- Protect houses from burglars.
- Give electric baths in bath cabinets.
- Poach eggs, cook the cereal or heat milk.
- Operate the washing machine and clothes wringer.
- Run the vacuum cleaner.
- Cool rooms with an electric fan.
- Knead the bread and bake the bread.
- Purify the drinking water.
- Grind, mix, churn, whip cream, make ice cream, polish silver, etc.
- Carry the family in the electric automobile.
- Warm an electric blanket for outdoor sleeping.
- Polish the floors (electric floor polisher).
- Sterilize water or utensils.
- Make ice—furnish refrigeration.
- Play the piano and phonograph.
- Mix family beverages.

### "DO IT ELECTRICALLY"

#### LA CANADA

The La Canada Valley Improvement association held its meeting Saturday, April 15, at 8 o'clock, in Club Hall. The business was transacted, then the program was in order. Miss Ivy Dawson of Los Angeles favored the audience with several beautiful selections. Mr. St. Clair of the Glendale Evening News then gave an exceedingly interesting and instructive address on "Different Phases in Alaska." The people who heard this remarkable address now have a better and clearer idea of Alaska, its climate, its people and its many wonders. Mr. St. Clair also passed pictures of Alaska among the audience. The pictures were wonderful and very interesting and the people appreciated them very much. They were also grateful to Mr. St. Clair for coming here and telling us of his travel in Alaska. It is hoped he will come again soon. After this delightful program, ice cream and wafers were served.

Mr. Charles West of Los Angeles is spending a few days with his cousin, Mrs. E. G. Metcalf of the "People's Grocery."

Mrs. Cora Franklin of Los Angeles spent Saturday and Sunday with her parents, Mr. and Mrs. McMullin.

A supply of government seeds has been sent to Postmaster A. E. Metcalf from Congressman C. H. Randall for distribution. All those wishing to take advantage of these free seeds call at La Canada Post office as soon as possible, for the supply is limited.

The Ladies' Aid society will give supper at the church, Friday night, April 21, at 6:30 p. m. Everyone come. This will be as good a supper for 25c (just 1/4 of a dollar) as you can get any place for this price. Come and all have a good supper and a good time. Friday, 6:30 p. m.

If any one in La Canada wishes to trade 3 or 4 acres for Long Beach property, just see Mr. A. G. Williams. The people in Long Beach will take a great interest in our valley and will prove to be good and helpful citizens.

Mr. W. H. Ready, who has for some time been working on the Murphy ranch, formerly owned by Dr. Schieffman of Pasadena, is now seeking a new place. Mr. Ready has proven very successful in caring for Mr. Murphy's place and anyone needing a new man will not be sorry if they hire Mr. Ready.

There has been a Republican club formed in La Canada. Wednesday of this week some of the La Canada people are going to La Crescenta and try and organize a club there.

The Missionary Society held its monthly meeting Wednesday afternoon at 2:30 p. m. at the home of Mrs. H. L. Cooper. Officers for the following year were elected. Dainty refreshments were served.

Mr. and Mrs. Seright, with Mr. and Mrs. Maynard of Pasadena, spent Saturday and Sunday camping at "Oakwyde" in the Arroyo Seco.

A "musicale" under the auspices of the La Canada P. T. A. will be held Friday afternoon from 2 to 5 at the home of Mrs. McDonald on Homeward avenue. Everyone is urged to come. There will be a silver offering.

The church grounds are being improved and vines and various flowers are going to be set out, as soon as the church is painted. This corner is expected to be the prettiest spot in Los Angeles county.

Mr. H. L. Cooper and son are remodeling the store buildings for J. W. Stultz on Michigan avenue.

The parsonage is being remodeled. Large windows and a fireplace is being put in. The grounds are also being improved.

The choir of the Congregational church, under the leadership of Mrs. J. Penfield, will render two beautiful anthems Sunday morning.

"Praise Praise to Thee," and "Christ, Our Passover." Everyone come and hear the Easter services and music.

The Misses Green, Henrietta and Faye Crossland spent a few days of their vacation at Venice.

Miss Margaret Armstrong entertained Miss Elsa Anderson at lunch Sunday evening.

The children's Easter program will come when Sunday School regularly comes, from 10-11 o'clock. Everyone come and be there on time. The church services will begin at 11 p. m. as usual.

April 20, 1916.  
By a unanimous vote of the Board of Directors of the Valley Water Company of La Canada, held at the office of the company, Thursday, April 13, 1916, the price of the treasury stock of said company was fixed at \$7.50 per share.  
Respectfully,  
F. D. LANTERMAN, Sec.

Artist—"I paint only for pleasure."

Fair Critic—"And only for your own I presume."—Fliegende Blätter.

#### DOROTHY BONNELL BENEFIT

Tickets for the benefit to be given in aid of Dorothy Bonnell, at the Palace Grand theater can be obtained at Munson's drug store, Cornwall & Kelly's, McKee's grocery, the Glendale Pharmacy, and the J. A. Roach grocery, 815 Brand Boulevard.

#### FUEL BRIQUET INDUSTRY IN 1915

Over a million dollars worth of briquets were made out of waste coal dust in 1915, the exact production being 221,537 short tons, valued at \$1,035,716. This was the largest output in the United States for any year with the exception of 1914. The manufacture of this type of fuel is, however, still in its infancy, and according to C. E. Leshner, of the United States Geological Survey, a good many years will probably elapse before the briquet industry assumes very large proportions. The work of briquetting this low-grade material and converting it into fuel suitable for higher uses is, however, practicable conservation and as such deserves far more attention than it now receives in this country. European countries, more thrifty in their use of coal, have developed the briquetting industry to large proportions. Most of the mechanical difficulties of manufacture have been solved in this country and the future growth of the industry now depends upon the development of markets for the product. The producing plants are, however, so widely distributed and the total production is so small compared with that of other kinds of fuel that the conditions affecting the market for the output of each plant are more or less local and peculiar. In general, in the East, briquets compete with anthracite as domestic fuel, and nearly all the output of the eastern plants is manufactured from anthracite culm. The people of the eastern cities, accustomed to the incomparable anthracite, have not taken very largely to these briquets, probably largely because of the volume of tarry smoke given off by nearly all kinds of briquets when they are first ignited, and perhaps partly because it has not been possible to offer them at a price enough lower than that of anthracite to induce their extended use.

#### AN UNDERWATER RESIDENCE

"Some twenty miles from the mouth of the Ocklawaha, at the right-hand edge of the stream," Sidney Lanier wrote that he had found "the hand-somest residence in America. It belonged to a certain alligator of my acquaintance, a very honest and worthy saurian and of good repute. A little cove of water, dark green under the overhanging leaves, placid, pellucid, curves round at the river edge into the flags and lilies. . . . This house of my saurian is divided into apartments, little subsidiary bays which are scalloped out by the lily-pads according to the sinuous fantasies of their growth. My saurian, when he desires to sleep, has but to lie down anywhere; he will find marvelous mosses for his mattress beneath him; his sheets will be white lily-petals; and the green disks of the lily pads will straightway embroider themselves together for his coverlet. He never quarrels with his cook, he is not the slave of a kitchen, and his one house-maid—the stream—forever sweeps his chambers clean. His conservatories there under the glass of that water are ever and without labor filled with the enchantments of strange underwater growths; his parks and his pleasure-grounds are bigger than any king's. . . . Lastly, my saurian has unnumbered mansions, and can change his dwelling as no human householder may; it is but a flip of his tail and, lo! he is established in another place, as good as the last, ready furnished to his liking."

#### DENMARK'S DEVELOPMENT

Denmark holds the world's record for intensive farming. After Germany had taken Schleswig-Holstein, Danish experts figured that their development must come from within and they proceeded to develop the arid wastes of Jutland, which have now become tremendous producers of agricultural and dairy products. The Danes claim that they have solved most of Europe's intensive farming problems and that much of German efficiency in this direction has been learned from them. The little kingdom is one of the greatest dairy producers in the world and its butter is exported to every part of the earth. It is found in Mexico and even in the far off islands of the antipodes as well as in Patagonia. Its reputation in Europe, particularly in England, is unexcelled and vast quantities have been shipped for years to all the countries of Europe. American business men have always admired the wonderful cow-feeding methods employed by the Danish farmers, who tether their cattle in a row in such a way that they can eat but a certain section of grass in a day. The next day they are moved forward in the meadows and it is worked out on such a minute basis that by the time the cows have reached the end of the pasture the grass is again ready for grazing at the beginning. — Wall Street Journal.

#### BENEFIT READING CIRCLE

Despite the fact that this is vacation week, and the children are either at home and require mother's presence there, or away with her on some delightful jaunt, eighteen mothers met yesterday for the regular session of the Mutual Benefit Reading circle at the home of Mrs. Charles H. Toll. Mrs. W. H. McMaster enrolled with the circle, and as visitors Mrs. Begg, Puffer and Sherman of the Pacific avenue and Colorado Boulevard schools were present, preparatory to inaugurating a circle at the Pacific avenue school next Wednesday, April 26, at 11 a. m. They will use an unoccupied room, and will serve tea, the members bringing basket lunches.

Mrs. N. C. Kelley read in a delightful manner, "The Boy and the Scarlet Coat," "Katie McMahon" and "A Starved Soul," all stories from "Misunderstood Children," by Elizabeth Harrison. At the next meeting of the circle, a questionnaire on the whole volume, which is to be completed at that time, will be a feature. This will serve in the nature of a review of the volume, before taking up the reading of another of the books in the course. The selection of the next subject of study will be made at the next meeting.

The Glendale Federation of Parent Teacher Associations, under whose direction this work is being done, will be most happy, through its Educational committee, Mrs. Charles H. Toll, chairman, to assist in any possible way those desirous of forming neighborhood circles. Mrs. Toll will be glad to answer inquiries as to what the course is as to scope and requirements, and give practical suggestions as to starting the circles and selecting the books to be used.

The next meeting will be held at Mrs. Toll's residence, 1635 Kenneth road, North Glendale, on Wednesday, April 26, at 11 a. m. Take the 10:30 car at Brand Boulevard and Boardway. Come to the end of the line, where an automobile will meet all who come. Bring luncheon, and prepare to remain until 2 o'clock. All interested in securing a better knowledge of childhood are cordially invited.

#### PREPAREDNESS PROGRAM AT WOMAN'S CITY CLUB

On account of the universal interest in, and the need for a greater understanding of it, the Woman's City Club will give, Monday, April 24th, to the discussion of preparedness.

The speakers for the day are Mrs. Andrew Stewart Lobinger, the first president of the club, who will speak for preparedness, and Mrs. Seward A. Simons, president of the Friday Morning club, who will speak against it. A distinguished guest of that day will be General Woodruff, who comes from San Francisco to attend this meeting and who will also address the club.

Several members, among whom are Mrs. E. R. Brainerd, Mrs. E. T. Earl and Mrs. Felix Howes, will entertain guests at luncheon. The usual fee for admission to the program will not be charged and the public is cordially invited to be present.

The discussion from the floor of the club is always one of the most interesting and instructive parts of the program and added time will be given to this on next Monday.

Luncheon at 12. Program, 12:45, at Blanchard Hall, 233 S. Broadway.

#### SACRIFICE

Is sacrifice so hard a thing?  
We give a useless seed  
To God's kind care, and lo! we reap  
A harvest for our need.  
We give a scanty draught to one  
Who faints beside the way;  
There flows a fountain for our thirst  
Some hard and weary day.  
We give a little flower of love  
To light a darkened room;  
And lo! our gardens overflow  
With beauty and with bloom.  
Ah, sacrifice is but the door  
To dwellings of delight;  
And selfishness the subtle key  
That locks our joys from sight.  
Mary F. Butts.
