## TWO SEED GRENADE RECIPES OR HOW TO HIDE ILLEGAL DUMPING SPACE

Assemble the following ingredients:

- |  |  |
|--|--|
| A. Old glass Christmas ornaments<br>Small funnel<br>Pelletized, time-release<br>fertilizer<br>Peatmoss "crumbs"<br>Tissue<br>Seeds - see below | B. Small balloons<br>Funnel<br>Pelletized, time-release<br>fertilizer<br>Peatmoss "crumbs"<br>Seeds - see below<br>sink faucet |
|--|--|

Add seed and fertilizer to grenade membrane:

Add seeds and fertilizer first, followed by moist peatmoss "crumbs". Stuff the opening at the top with a small piece of tissue. Gently shake to mix thoroughly.

Add seeds and fertilizer first, followed by moistened peatmoss "crumbs". Stretch the mouth of the balloon over the faucet mouth and carefully fill with water. Tie off the opening. Gently shake to mix thoroughly.

Instructions for use:

Choose a lot that has a fence and is legally inaccessible. Calculate in advance how many grenades will be needed to cover the area. Check carefully before throwing. Observe all normal safety precautions. Suggested throwing techniques are: for Christmas ornaments - use an underhand throw; for the water balloons - use an overhand throw.

Seed list

for early fall

Soybeans  
Clover
