Sora-mame	Broad-bean	2,889	Good	211,000	250,000	118%	The crop of mulbery is under investigation. Therefore, the figure includes the estimated amount, contrary to that of wheat and barley.
Kuwa	Mulberry leaves	16,452.2	Good	27,500,000	31,920,000	116%	

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 719513

Condition of wheat and barley.

a. The growing condition of wheat and barley plants from seeding season until April was reported previously. Therefore, the growing condition since then shall be reported. As good weather was restored after the beginning of May, they recovered their growth. Afterwards, owing to the rainy and windy weather, however, they are growing too weak and slender. Some plants of barley in the alluvial soil and of second crop wheat were fallen down.

b. Condition of harmful worms and diseases.
After the middle of May, various diseases occurred rapidly. In particular, akakabi-byo, brown rust and tachigare-byo occurred in barley plants and stem-rot, powdery mildew, akakabi-byo and moth in wheat plants. Tachigare-byo shows an increasing tendency.

c. The damaged acreage and the estimate of crop decrease is now under investigation.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 77513

3. Condition of harmful worms and diseases

Crops damaged	Harmful worms or diseases	Acreage affected	Place damaged	Degree of damage	Measures taken

6 May 1950

SUBJECT: MONTHLY AGRICULTURAL IMPROVEMENT REPORT

THRU : KANTO LIAISON & COORDINATION OFFICE

TO : HQ.,KANTO CIVIL AFFAIRS REGION
(ATTEN: CHIEF OF NATURAL RESOURCES DIV.,Economic Section)

Monthly Agricultural Report (For April)

A. Matters concerning experiment and research program.

The Agricultural Experimental Station and the Tea-industry Research Laboratory which were the experimental and research facilities in Saitama Prefecture were merged into an agricultural experimental station at an estimated cost of 20,000,000 yen. Therefore, the authorities concerned organized an association for setting up an agricultural experimental station which will be, for farmers, a reliable and familiar facilities and a sound foundation of technical agriculture.

And the first consultation was held as mentioned below:

a. Date of consultation : 13 April 1950

b. Place of consultation : Foodstuffs Hall, Urawa City

c. Attendants : 45 persons

d. Subject for discussion : A program concerning the consolidation and expansion of the Saitama Prefectural Agricultural Experimental Station.

B. Principal activities concerning agricultural improvement.

1. Outline of short courses, study meetings and consultations

Name	Date of opening	Place	No. of attendants	Object
Consultation on work management	1 Apr.	Urawa City	12	Close liaison and consultation with Guidance Federation and other organs
Short course for agricultural farm advisers	6 Apr.	Masubayashi-mura	20	Guidance of a disinfection method for paddy rice seeds
"	7 Apr.	Daimon-mura	23	"

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

Name	Date of opening	Place	No. of attendants	Object
Consultation on work plan	7 Apr.	Agric. Improvement Sect.	25	Concerning the agricultural farm advice program for May
Paddy rice plantation course	10 Apr.	Kawagoe City	55	A disinfection of rice seeds and a fertilization and management method of a rice-plant nursery
"	11 Apr.	Sugito-machi	60	"
"	12 Apr.	Kumagaya City	77	"
Rural women's course	"	Matsuyama-machi	300	To elevate the status of rural women
Fleece clipping course	18 Apr.	Fukuhara-mura	40	Guidance of clipping the fleece of sheep
Consultation of Agric. farm advisers	24 Apr.	Irumagawa-machi	72	Concerning the agric. farm advice program and its execution
"	25 Apr.	Kumagaya City	70	"
"	26 Apr.	Kazo-machi	49	"

2. Other matters carried out.

Manuscripts on the following matters were sent in to the J.O.A.K Station and newspaper offices for propaganda.

Date of sending in munuscripts	Subject
1 Apr.	On opening an exhibition and sale of hens.
3 Apr.	How to keep quails. Cultivation of peppermints.
10 Apr.	Method of utilization of hot beds. Method of breeding cows.
17 Apr.	Withering disease of barley plants. Growing of mushrooms. Prices of quails.
24 Apr.	Pre-seeding fertilization and additional fertilization.
8 Apr.	Events in the Second Women's Week.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

3. Making and distribution of prints.

Classification	Name	Outline of contents	No.of pages	No.of copies	To whom distributed
Pamphlet	Agricultural Extention News	The point of peanuts cultivation and others	14	4,300	Agric. farm advisers, agric. improvement committee-men and others
Handbook	A.B.C to bring up 4 H Club	How to lay down the plan of activities and others	12	5,000	Study meeting of the youth and others

		1	Toyooka-mura, Kitakatsushika-gun		
Ditto	Powdery mildew	1	Koshigaya-machi	Slight	Spraying
"	Stem-rot		Sporadic	Moderate	Spraying

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 77513

Crops damaged	Harmful worms or diseases	Acreage affected	Place damaged	Degree of damage	Measures taken
Barley	Stripe disease		Sporadic	Slight	
Ditto	Leaf miner	0.7	Toshima-mura, Kitasaitama-gun	Slight	Spraying
		0.7	Kawabe-mura, Kitasaitama-gun		
"	Wireworm	1	Shichihongi-mura, Kodama-gun	Moderate	-
		1	Toyooka-mura, Kitakatsushika-gun		
"	Aphid		Sporadic	Slight	Spraying
Potato	Potato flea beetle	5	Tokorozawa-machi, Iruma-gun	Moderate	Dusting
		1	Ogose-machi, Iruma-gun		
Broad bean	Ring spot	30	Higashiyoshimi-mura, Hiki-gun	Moderate	Spraying and Dusting
"	Chocolate spot	"	"	"	"
Garden peas	Leaf miner	0.1	Raiha-mura, Kitasaitama-gun	Slight	Spraying
Japanese colza	Sclerotinia rot	0.5	Kumagaya (Tamai)	Slight	Spraying
"	White rust (Albugo)	"	"	"	"

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775813

4. Reference data concerning wheat and barley.

1. Since the temperature in the sowing-season (from Oct. to the beginning of Nov.) was 1 or 2 degrees lower than the average year, it took the seeds much time to germinate. In addition, owing to the much rainfall, the germination of wheat and barley seeds sowed in the paddy fields prior to the rice planting was quite unfavorable and some of the seeds were spoiled. Therefore, the seeds had to be re-sowed in many places.

2. As the temperature during the period from December last year to March this year had been always high (except the temperature low at the end of Feb.), wheat and barley plants gradually grew up retrieving their slow growth, with the result their hights are exceeding those of normal year at present. Though the number of stalks of barley plants is rather small, that of wheat plants shows the increase of more than 10%.

3. On account of much rainfall since April, barley and wheat plants weakened and uselessly got taller. As it is presumed that the weather hereafter may cause the outbreak of harmful diseases and insects, we are devising preventive measures against them mobilizing all the agricultural farm advisors stationing at each district, Agricultural experimental stations and other agencies concerned in the prefecture.

5. (1) Area under reclamation.

Same as the figures of previous month.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 77513

(Data) a. Planting condition

Kind	Settlers	Farmland increasers	Total
	cho tan	cho tan	cho tan
Barley	23.2	78.5	101.7
Wheat	208.6	237.1	445.7
Rye	3.7	1.5	5.2
Irish potato	66.9	68.4	135.3
Tea	35.8	39.6	75.4
