HYOGO LIAISON OFFICE

REMARKS

NAME OF PLANT: THE CHUO KOGYO K.K.

This plant has no appreciable stock of materials for construction use, those worth mentioning being only the existing plant equipments, which are now in use for custody of the reparation machinery and storage of materials. Further, this plant has already started operations as one converted to civil necessities production, and has been designated as one of the main civil necessities factories in Hyogo Prefecture. Efforts are being made at the plant for the production of spinning machines and such like. As a matter of fact, it has already filed an application for exemption from the list of reparation plants.

If the buildings and materials (steel materials used for the factory) of this plant are removed as materials for construction use, it will deal a mortal blow on the present production process and the percentage of their utility will of necessity be reduced to half.

For reasons stated, we ask you for your kind consideration in case P.D.s are issued for equipments now in use at the plant.

Taichi Hosoya
LOCAL LIAISON OFFICER

The outline of the present condition
of the factory.

20 th Jan. 1947.

This factory was established in Feb. 1936 aiming at the manufacturing of the sale of textile machineries, their ~~the~~ accessories and pig-iron casting. Although, during the war, by the order of army, amunitions were manufactured at a part of the plant, it was abolished at once after our surrender and on the date of May 20 th 1946 we obtained from S.C.A.P. the official permission from our conversion to civil industry and started the manufacturing of our original line.

We were appointed by S.C.A.P. as one of the reparations plants on the dated of 13 th of Aug. 1946.

We are now appealing to S.C.A.P. for exception the above appointment.

On the date of 8 th of Dec. 1946 we received from the governor of Hyogo Prefecture the appointment as the staple civil industrial plant of making textile machineries.

If the application for our exception were to be permitted by S.C.A.P. and the whole of present equipments were to be used the following monthly production could be turned out.

Textile machines

Carding machine	10 set
Reeling machine	150 "
Spining machine	20 "
Casting	50 tons

At present we have order in hand such as 2 Doubler and 2 Reller Card from Mitsubishi Kasei, 2 Platt Card from Kanegafuchi etc. however as our stock of material especially of steel

are not sufficient to fill the requirement, moreover, as the supply of material is becoming harder we afraid if we could fulfill the future demands.

Your faithfully

Chuo Kogyo Kabushiki Kaisha
Itami Factory.

Manager G. Miyazawa.
