## Explanatory Note

---

A. = Annually.

C. = Coupon.

Interch. = Interchangeable.

r. = Registerable as to principal only.

R. = Fully registered.

S. A. = Semi-annually.

V. = Obtainable in \$500 denominations.

\* = Indicates there is on the face of the bond or note, or in the agreement securing it, a covenant which, in our opinion, obligates the issuing company to pay interest without deduction for the Normal Federal Income Tax of 1%.

† = Indicates that we do not find such a covenant.

## Railway Equipment Obligations\*

---

On the following pages we present short descriptions of the more important equipment obligations of the principal railways. The statements given have been obtained as far as possible from original sources and include some data which, so far as we know, have never been previously published. This information we believe to be accurate, but we would be glad to have our attention called to omissions or errors for insertion or correction in subsequent editions.

♦ By way of introduction we wish to present some considerations bearing on the history and present investment position of this class of security.

As the name indicates, these securities are issued to provide railway companies with funds to pay a part of the cost of new rolling stock—cars and locomotives. They are variously described as Equipment Bonds or Notes, and Car Trust or Equipment Trust Certificates, and are generally issued in one of two forms:

- (1) Car Trust or Equipment Trust Bonds and Notes, which are direct obligations of a railway company or of some association formed for the purpose, and, if the latter, guaranteed by endorsement by the Railway Company. Such bonds or notes are secured by title to the equipment purchased, and by a Contract of Conditional Sale or of Lease of such equipment to the Railway Company as lessee or purchaser, both title and contract being held under a Trust Agreement for the benefit of the bondholders.
- (2) Car Trust or Equipment Trust Certificates secured by title to the equipment purchased and by a Contract of Lease to the Railway Company. The title may be taken in some individual or association, and a contract with the Railway made by such individual or association as lessor and both title and contract assigned to a Trustee, or the title may be vested originally in the Trustee and the lease made by the latter direct to the Railway Company. Certificates are issued by the Trustee, either in the form of a "certificate of beneficial interest" in the lease, or in the form of "shares" in an association acting as above

\*For a more extended discussion of this subject we refer the reader to Chamberlain's Principles of Bond Investment, Chapter XXIII, Henry Holt & Co., New York, 1911.

stated, both title and contract of lease being held under a trust agreement for the benefit of the certificate holders. Payment of principal and interest of the certificates is further guaranteed by covenant of the Railway Company. This latter form is usually called the "Philadelphia Plan," and originated because some of the states and principally Pennsylvania does not recognize the conditional sale as a proper principle for the issuance of equipment bonds.

The Trusts securing these obligations are created for periods running from ten to fifteen years, the former being the usual duration. An initial payment on account of the cost of the equipment covered amounting to from 10% to 25% is usually made by the Railway and notes or certificates representing the remainder—75% to 90% of cost—are issued payable in equal annual or semi-annual instalments with interest payable semi-annually. Bonds so secured have sometimes been issued all maturing at the end of twenty years, a Sinking Fund being provided for the annual retirement of bonds, or for the purchase of additional equipment. These, however, are unusual and the present trend is towards an issue payable in twenty equal semi-annual instalments.

The general terms of the Trust Agreements securing these obligations are now established, and the law covering the validity and interpretation is well settled. The forms are subject to a number of technical variations which do not, however, materially affect the actual security. The Indenture definitely states the amount of the issue, rate per cent., form, and maturity, together with a description of the equipment covered, its cost and the initial payment by the Railway. Each piece of equipment must be marked, as evidence of ownership and for identification, with the name of the Trustee followed by the words "Trustee, Owner" or some similar inscription. The Railway covenants to keep the equipment insured against loss by fire, to maintain it in good order and repair—ordinary wear and tear excepted, to replace items that may be destroyed, and to furnish the Trustees from time to time with lists showing the physical condition of each item.

Under either of the forms of issue described above the title to all the equipment remains in the Trustee until the debt is fully paid and under the Trust Agreement and Lease or Contract of Sale the Trustee has the right in case of default to take possession of and sell the property covered, and also has a right of action against the Railway Company for principal and interest of the debt, or for any part which may be represented by deficiency in the amount realized at such sale of the equipment.

The initial payment of part of the cost provides an immediate margin of security for the equipment obligations. The annual depreciation of the equipment as estimated under the rules of the Master Car Builders Association is: for wooden car bodies, and trucks other than all metal, 6%; for wooden car bodies with steel underframe, 5½%; and for all metal car bodies and trucks, 5%, upon the yearly depreciated value thereof. Where, therefore, the principal of the debt is paid in instalments as above, the margin of security under normal conditions of business would constantly increase as the earlier maturities are paid off.

**Table showing depreciated value of equipment and per cent. of margin of security over outstanding notes at the end of each year of the life of ten-year equipment trust, payable in equal instalments:**

Wooden Equipment

The wonderful increase in the number of all-steel passenger cars placed in service in the country since January 1, 1909, is all the more remarkable when we remember that the first modern experimental all-steel passenger car for use on steam roads was not placed in service until 1906. The use of the steel frame, side door suburban car on the Illinois Central in the fall of 1902 was probably the first move toward the introduction of steel passenger equipment. Experience of a crude design of side door equipment in temporary use during the Chicago World's Fair demonstrated the value of this principle in handling suburban traffic and a steel frame was adopted for the superstructure because of its marked advantages for this type of construction.

The Pennsylvania Railroad officers became interested in the development of an all-steel car because of the necessity of providing fireproof equipment under the North and East Rivers in connection with the terminal in New York. The first experimental cars for through passenger traffic were built by the Pennsylvania Railroad at the Altoona and the Southern Pacific at the Sacramento shops. These were built in 1906; but it was not until the middle of 1907 that the first real move was made toward the introduction of the all-steel car for passenger service. Today many of our roads use nothing but all-steel or steel underframe equipment on their high-class passenger trains. The behavior of these cars in rough service and wrecks has indicated their value from a safety standpoint, although there is still a considerable question as to the best type of design to properly dissipate the end shocks and afford the greatest protection.

One of the most important considerations in connection with Equipment notes is that in cases of receivership or reorganization of a Railway Company, it is the practice to maintain payment of both principal and interest of equipment issues under authority of Court, the Court authorizing the Receiver to borrow money for this purpose if necessary. This principle is based on the fact that the equipment is necessary to the operation of the property, and that the railway, as a *quasi*-public corporation, must be kept in operation for the public convenience. From this it has usually resulted that equipment obligations have fared better in reorganizations than the mortgage bonds of the reorganized or foreclosed company. A study of the history of the various Receiverships of the past years forcibly illustrates this point as well as the soundness of this plan of financing and the protection afforded the investor.

The following railway companies, reorganized between 1888 and 1914 either with or without foreclosure, all had outstanding equipment obligations. In every case principal and interest of such obligations were paid in full,

while other securities, with a few exceptions, were reduced in rate or amount, or both:

Atchison, Topeka & Santa Fe Railroad.  
Baltimore & Ohio Railroad.  
Buffalo & Susquehanna R. R. Corp.  
Central Railroad & Banking Company of Georgia.  
Chesapeake & Ohio Railway.  
Chicago & Southern Railway.  
Columbus, Hocking Valley & Toledo Railway.  
(Now Hocking Valley Railroad).  
Kansas City, Pittsburgh & Gulf Railroad.  
(Now Kansas City Southern Railway).  
New York, Lake Erie & Western Railroad.  
(Now Erie Railroad).  
Norfolk & Southern Railway.  
Northern Pacific Railroad.  
Philadelphia & Reading Railroad.  
Richmond & Danville Railroad. }  
Georgia Pacific Railway. } Now Southern Railway.  
Seaboard Air Line.  
Southern Indiana Railway.  
Toledo, St. Louis, & Kansas City Railroad Co.  
(Now Toledo, St. Louis & Western Railroad).  
Union Pacific Railway.

The following railway companies, reorganized after foreclosure, either paid their equipment obligations in full or offered the holders an advantageous exchange of securities which amounted to considerably more than such payment. Other securities were reduced in rate or amount:

Denver & Rio Grande Railway.  
Norfolk & Western Railway.

The Atlanta, Birmingham & Atlantic R. R. Company has been in the hands of receivers, but was bought in by the General Protective Committee in June, 1914.

The following roads are at present in the hands of a Receiver:—

Buffalo & Susquehanna Railway.  
Chicago & Eastern Illinois Railroad.  
Chicago, Peoria & St. Louis Railroad.  
Cincinnati, Hamilton & Dayton Railroad.

Colorado Midland Railway.  
International & Great Northern Railway.  
Kansas City & Memphis Railway.  
Missouri, Oklahoma & Gulf Railroad.  
New Orleans, Texas & Mexico Railroad.  
Pere Marquette Railroad.  
Pittsburg, Shawmut & Northern Railroad.  
St. Louis & San Francisco Railroad.  
Trinity & Brazos Valley Railway.  
Wabash Railroad.  
Wheeling & Lake Erie Railroad.

All of the foregoing are in default on one or more issues of mortgage bonds, but, with the exception of the Cincinnati, Hamilton & Dayton Railway Company and the Pere Marquette Railroad Company, are meeting their equipment obligations. There are special conditions surrounding the Cincinnati, Hamilton & Dayton Railway issue, which make its case one from which general conclusions cannot be drawn. Regarding the default in the principal of Pere Marquette Equipment issues, an agreement has been reached between the Receiver of the road and holders of these bonds whereby the Receivers are to deposit a certain sum each month with the Columbia Trust Company of New York to be applied to payment of interest and principal of these equipment obligations.

From the above review it will be noted that in practically every case of railway reorganizations the principal and interest of equipment obligations have been paid in full or the holders otherwise reimbursed without loss. Final settlement in the matter of an issue of the Detroit Southern Railway Co., now the Detroit, Toledo & Ironton R. R., is still pending. The Company defaulted in June, 1908, in the payment of the interest on \$1,656,000 Car Trust Notes. The equipment covered by these notes was sold, and, as we understood, was purchased by or on behalf of the noteholders and all of the notes were used in payment of the purchase price. The notes have not yet been cancelled, but it is expected that they will be turned in shortly and the matter closed.

While these securities are not generally listed on any exchange the majority of the issues enjoy an active market and sale can usually be made without difficulty. In view of the foregoing we believe that this class of security combines in as high a degree as any, the three essential requirements of a good investment, namely: security, marketability and interest return. //

## RAILWAY EQUIPMENT OBLIGATIONS

**American Refrigerator Transit Co.**  
Equipment Notes Series "C" . . . 5%

Dated May 1, 1913            Due \$105,000 S.A.  
   to May 1, 1923  
Issued \$2,150,000            Outstanding \$1,785,000  
\*Int. pay. May and Nov. 1 at F.T. & S. and F.  
   Nat., N. Y.  
Trustee, F.T.&S., Chic.      Form C, r.

SECURITY:

2,000 Steel Underframe Beef Cars  
Equipment cost \$2,632,000. Outstanding notes  
represent 67% of original cost.

**Ann Arbor R.R. Co.**  
Equipment Notes Series "A" . . . 5%

Dated Nov. 1, 1909            Due \$33,000 S.A.  
   to Nov. 1, 1919  
Issued \$660,000            Outstanding \$330,000  
\*Int. pay. May and Nov. 1 at B.  
Trustee, B.                            Form C

SECURITY:

500 Steel Gondola Cars  
300 Steel Underframe Box Cars  
Equipment cost \$826,880. Outstanding notes rep-  
resent 39% of original cost.

**Ann Arbor R.R. Co.**  
First Lien Equip. Notes Series "B" 5%

Dated Jan. 1, 1911            Due \$30,000 S.A.  
   to Jan. 1, 1921  
Issued \$600,000            Outstanding \$330,000  
\*Int. pay. Jan. and July 1 at Em.  
Trustee, Em.                            Form C

SECURITY:

13 Locomotives  
4 Passenger Cars  
2 Café-Parlor Cars  
5 Motor Cars  
105 Steel Box and Refrigerator Cars  
1 Steel Car-Ferry  
Equipment cost \$853,407. Outstanding notes rep-  
resent 38% of original cost.  
Redeemable at 102%.

## RAILWAY EQUIPMENT OBLIGATIONS

**Bessemer & Lake Erie R.R. Co.**  
**Conneaut Equipment Trust Bonds 5%**

Dated April 1, 1909                      Due April 1, 1919  
 Issued \$300,000                      Outstanding \$300,000  
 \*Interest payable Apr. and Oct. 1 at H. T. Hob.  
 Trustee H.T. Hob.                      Form C

SECURITY:  
 25 Locomotives  
 (Not on the market)

**Bessemer & Lake Erie R.R. Co.**  
**Meadville Equipment Trust . . . 5%**

Dated March 1, 1911                      Due \$55,000 A.  
    Mar. 1, 1922 to 1931  
 Issued \$550,000                      Outstanding \$550,000  
 \*Interest payable Mar. and Sept. 1 at H. T. Hob.  
 Trustee H.T. Hob.                      Form C

SECURITY:  
 35 Locomotives

**Bessemer & Lake Erie R.R. Co.**  
**Albion Equipment Trust . . . . 5%**

Dated June 1, 1912                      Due \$75,000 A.  
    June 1, 1923 to 1932,  
    \$100,000 June, 1933,  
    \$100,000 June, 1934  
 Issued \$950,000                      Outstanding \$950,000  
 \*Int. pay. June and Dec. 1 at H. T. Hob.  
 Trustee H. T. Hob.                      Form C

SECURITY:  
 500 Steel Gondola Cars  
 400 Steel Underframe Box Cars  
 100 Steel Box Cars

**Boston & Albany R.R. Co.**  
**(N.Y.C. & H.R.R.R.)**  
**Equipment of 1912 . . . . 4½%**

Dated Oct. 1, 1912                      Due \$500,000 A.  
    to Oct. 1, 1927  
 Issued \$7,500,000                      Outstanding \$6,500,000  
 †Int. pay. Apr. and Oct. 1.  
 Trustee, G.                      Form C, r, R.

SECURITY:  
 Equipment costing 10% in excess of bond issue.  
 Guaranteed as to principal and interest by the  
 New York Central.

## RAILWAY EQUIPMENT OBLIGATIONS

**Buffalo, Rochester & Pittsburgh Ry. Co.**  
Equipment Bonds Series "A" . 4½%

Dated May 1, 1889                      Due May 1, 1919  
Issued \$500,000                      Outstanding \$495,000  
\*Int. pay. May and Nov. 1 at A. Iselin & Co.,  
N. Y.  
Trustee, G.                              Form C, r.

SECURITY (now pledged)

731 Gondola Cars  
7 Combination Cars  
4 Baggage Cars  
5 Coaches  
1 Snow Plow  
9 Locomotives  
1 Café Parlor Car  
1 Pile Driver  
1 Scale Test Car  
1 Locomotive Crane

Valued as of July 22, 1914, after allowing for depreciation, at \$888,748.

Sinking Fund of 5% per annum for purchase of bonds at par or of additional equipment as further security.

**Buffalo, Rochester & Pittsburgh Ry. Co.**  
Equipment Bonds Series "B" . 4½%

Dated May 1, 1901                      Due May 1, 1921  
Issued \$1,000,000                      Outstanding \$993,000  
\*Int. pay. May and Nov. 1 at A. Iselin & Co.,  
N. Y.  
Trustee, G.                              Form C, r.

SECURITY (now pledged):

29 Locomotives  
19 Passenger Cars  
19 Coke Cars  
2 Gas Motor Cars  
1 Tank Locomotive  
1,354 Gondola Cars  
3 Locomotive Cranes

Valued as of July 22, 1914, after allowing for depreciation, at \$1,767,841.63.

Sinking fund same as Series "A."

**Buffalo, Rochester & Pittsburgh Ry. Co.**  
Equipment Bonds Series "C" . 4½%

Dated May 1, 1901                      Due May 1, 1921  
Issued \$1,000,000                      Outstanding \$904,000  
\*Int. pay. May and Nov. 1 at A. Iselin & Co.,  
N. Y.  
Trustee, G.                              Form C, r.

SECURITY (now pledged):

53 Locomotives  
1,033 Gondola Cars  
10 Box Cars  
1 Combination Car  
1 Wrecking Crane  
1 Locomotive Crane

Valued as of July 22, 1914, after allowing for depreciation, at \$1,693,428.91.

Sinking fund same as Series "A."

## RAILWAY EQUIPMENT OBLIGATIONS

**Buffalo, Rochester & Pittsburgh Ry. Co.**  
Equipment Bonds Series "D" . 4½%

Dated Nov. 1, 1902                      Due Nov. 1, 1919  
Issued \$2,000,000                      Outstanding \$752,000  
\*Int. pay. May and Nov. 1 at A. Iselin & Co.,  
N. Y.  
Trustee, G.                                  Form C, r.

SECURITY (now pledged):  
45 Locomotives  
3 Passenger Cars  
301 Box Cars  
1,213 Gondola Cars  
10 Stock Cars  
23 Refrigerator Cars  
76 Coke Cars  
4 Combination Cars  
1 Baggage Car

Valued as of July 22, 1914, after allowing for depreciation, at \$2,235,144.74.

Sinking Fund 6% per annum to buy bonds at 105 or better. If they cannot be purchased at this price the Trustee draws them by lot at 105. Sinking fund bonds to be cancelled.

**Buffalo, Rochester & Pittsburgh Ry. Co.**  
Equipment Bonds Series "E" . 4½%

Dated May 1, 1904                      Due May 1, 1922  
Issued \$2,000,000                      Outstanding \$1,156,000  
\*Int. pay. May and Nov. 1 at A. Iselin & Co.,  
N. Y.  
Trustee, G.                                  Form C, r.

SECURITY (now pledged):  
30 Locomotives  
10 Passenger Cars  
1,988 Gondola Cars  
102 Box Cars  
2 Combination Cars

Valued as of July 22, 1914, after allowing for depreciation, at \$2,239,493.59.

Sinking fund same as Series "D."

**Buffalo, Rochester & Pittsburgh Ry. Co.**  
Equipment Bonds Series "F" . 4½%

Dated April 1, 1907                      Due April 1, 1927  
Issued \$3,000,000                      Outstanding \$1,773,000  
\*Int. pay. Apr. and Oct. 1 at A. Iselin & Co.,  
N. Y.  
Trustee, G.                                  Form C, r.

SECURITY (now pledged):  
27 Locomotives  
2,135 Steel Gondola Cars  
515 Box Cars  
1 Steel Coach

Valued as of July 22, 1914, after allowing for depreciation, at \$3,536,192.21.

Sinking Fund 6% per annum of bonds issued for purchase or redemption by lot at par. Sinking fund bonds to be cancelled. Subject to call for Sinking Fund at par. Subject to redemption as a whole or in part at 102.

## RAILWAY EQUIPMENT OBLIGATIONS

Canadian Northern Ry. Co.  
Imperial Rolling Stock Co., Ltd.  
First Mortgage Bonds Series "L" 4½%
