TEXAS.

By an arrival from Galveston we have received Texas papers to the 7th inst.

The News says:
The achomer Mary Elia has brought the first consignment of lumber for the bridge of connect Galveston with the mainband. Mr. Lidstone informs us that he will have reasels arriving semi-monthly, so as to hasten the completion of the bridge. The contractor, Mr. Carvin, is now here, ready to commence operations, and feels pretty confident that he will have it completed within six or eight months.

It is said by these who have resided in Texas for more than twenty years that there has never heen a year in which we have had so much cold weather, so early in the session, it is the general opinion that we shall have an early and a favorable spring for crops.
