SOUND MONEY WINS

Mark Hanna's Forecast of the Election Was Not Very Far Out.

Overwhelming Majority for the Republicans in the Eastern States.

Many of the Doubtful Ones Also Fall into Line for Major McKinley.

Chicago, Nov. 4.—The following table will be found approximately correct as viewed in this morning's light. For McKinley—Maine, 4000 plurality; New Hampshire, 20,000; Vermont, 35,000; Rhode Island, 13,000; Connecticut, 55,000; Massachusetts, 175,000; New York, 285,000; New Jersey, 53,000; Pennsylvania, 300,000; Ohio, 90,000; Delaware, 2500; Maryland, 10,000; West Virginia, 10,000; Kentucky, 10,000; Indiana, 15,000; Illinois, 75,000; Michigan, 25,000; Wisconsin, 100,000; Minnesota, 100,000; Iowa, 70,000; North Dakota, 50,000; South Dakota, 1000.

For Bryan—Colorado, 110,000; Wyoming, 15,000; Idaho, 15,000; Montana, 14,000; Texas, 75,000; Arkansas, 25,000; Louisiana, 40,000; Mississippi, 50,000; Georgia, 25,000; Alabama, 35,000; Florida, 14,000; South Carolina, 50,000; North Carolina, 25,000; Virginia, 20,000.

Doubtful—Washington, Oregon, California, Kansas, Nebraska, Tennessee, Missouri.

The electoral votes in the McKinley states number 294, of Bryan states 119, of doubtful states, 64. Total, 447. Necessary to choice 224.

Nashville, Tenn., Nov. 4.—Further returns show that Bryan has carried the state. Taylor, Dem., has been elected governor. An exceedingly large vote was polled.

Louisville, Ky., Nov. 4.—Kentucky seems sure for McKinley, though the majority is close. In 1235 precincts out of 1683 his plurality is 3506. The counties not heard from include strong Republican as well as silver ones. The silver counties, based on the percentage of the vote already recorded, would give the state to McKinley by 4744.

Topeka, Nov. 4.—It seems practically certain that Bryan has carried Kansas by a small majority. The chairman of the presidential Democratic state committee claims the state by 13,000. Chairman Simpson of the Republican state committee, however, refuses to surrender and declares complete returns will show a victory for the Republicans.

Raleigh, N. C., Nov. 4.—Returns at 2 P.M. indicate that Bryan has carried North Carolina by 10,000. The Republicans will not yet concede the state.

Yankton, S. D., Nov. 4.—Out of 30,000 votes cast and so far counted McKinley has 1500 majority. It is possible that Bryan may get a bare majority when the votes are in.

Portland, Ore., Nov. 4.—Nearly three-fourths of the total vote of Oregon has been received. McKinley's plurality is 4724. The precincts yet to be heard from will reduce McKinley's plurality to perhaps 3000.

St. Louis, Mo., Nov. 4.—This morning less than half the election precincts in Missouri have been heard from. They show a lead for Bryan, which justifies Chairman Cook's claim that the state has gone Democratic.

Tacoma, Nov. 4.—Bryan and the fusion ticket have apparently carried the state by a majority of less than 5000 and will control the legislature.

Lincoln, Neb., Nov. 4.—The following telegram has just been delivered to Mr. Bryan: "Chicago, Nov. 4.—To William J. Bryan—I have all along counted on 150 Southern votes and 68 from west of the Missouri river, which leaves seven for us to get to be successful. I counted on Indiana, Michigan and Minnesota. Have no information except what the press dispatches have sent out to the contrary. The only Southern state I concede is Maryland. (Signed) Jas. K. Jones."

San Francisco, Nov. 4.—California gives 4500 majority for McKinley.

Omaha, Nov. 4.—230 precincts in Nebraska give McKinley 22,180; Bryan 21,835. Two years ago the Republicans received 22,798, Democrats and Populists 18,420.

Cheyenne, Wyo., Nov. 4.—In the northwestern part of the state snow is falling, making returns slow. Both the Democratic and Republican committees claim the state by majorities from 1500 to 2000. The result will be close but the early returns favor Bryan.

Washington, Nov. 4.—There was an air of unceasing satisfaction in administrative circles here this morning over the results of the election.

Wheeling, W. Va., Nov. 4.—Returns from the state show Republican gains over 1892, and there is little doubt but that the state has gone for McKinley.

Canton, Ohio, Nov. 4.—The fever of excitement into which Canton, the home of McKinley, was plunged last night was taken up again early this morning. In fact there was no intermission, and last night was joined with today by an uninterrupted din of screeching. Steam whistles were pulled open to their full

capacity and the tooting was a vast chorus. Bands and drum corps were marching and counter-marching, uniformed and ununiformed. Clubs are parading, artillery companies are shaking the town with cannon salutes and the townspeople en masse are joining in the demonstration of enthusiastic rejoicing over the result of the election.

CONGRESS AND SENATE.

Eastern Papers Predict Complexion of Next House.

Chicago, Nov. 4.—The Times-Herald prints a table of the next house of representatives as follows: Total Republicans 245, Democrats and Populists 122; Republican majority 113; Anti-Silver Republican 232, Anti-Silver Democrats and Populists 3; Republicans for silver 119; sound money majority 113. The present complexion of the house is 224 Republicans, 105 Democrats, 6 Populists and 1 silver party.

New York, Nov. 4.—The Tribune's estimate of the next senate of the United States is as follows: Republicans 42, Democrats 33, gold standard Democrats 4, Populists 5, and doubtful 6.

FROM THE CAPITAL.

A Heated Discussion at a Presbytery Meeting at Ottawa.

Ottawa, Nov. 4.—A heated discussion took place here last night at a meeting of the Ottawa presbytery over the withdrawal of a minister in Montebello, to carry on the work of evangelization in the province of Quebec. Mr. Knowles, of the St. Lawrence Presbyterian church spoke out plainly on the subject, saying that money was wasted in this way when it could be used to advantage in English mission fields in the Northwest. Those of the Catholic religion were well enough where they were. He believed in looking after French Protestants. Knowles' speech created a warm debate but it was finally decided to expend the necessary money to have the Presbyterian missionary at Montebello ordained.

By Associated Press.

The supreme court was to-day engaged in a very important case, that of the schooner E. Gerring, Jr., vs. the Queen. The Gerring was an American schooner seized within the three-mile limit off the coast of Nova Scotia and condemned by the admiralty court of that province. Her cargo of 200 barrels of mackerel, equipment and everything was forfeited. The owners of the schooner appealed to the supreme court. The case was argued to-day, Mr. McEwen, Q.C., of Halifax, appearing for the owners of the schooner and Mr. E. L. Newcombe, Q.C., deputy minister of justice for the Crown. The defence of the owners is that the fish was caught outside the three-mile limit, and they were discharging their nets when the capture was made, having drifted with the wind over the line. The point is as to what constitutes "fishing" or "taking fish" within the meaning of the treaty. Judgment was reserved.

COMPANION OF SIRIUS.

Observations Prove It to be in Its Predicted Position.

Lick Observatory, Nov. 3.—The bright star Sirius has a small companion which was discovered by Alvin Clark, Jr., in 1862. It is especially interesting because its existence was predicted in 1844 by Bessel from a consideration of the irregular motion of the larger star. The small star moved about Sirius in an orbit whose circuit is completed in about fifty years. The mass of the small star is about one-half the mass of Sirius, though it has only one ten-thousandth part of its light. The mass of the companion is substantially the same as the sun's mass.

Recent observations at Mount Hamilton by Prof. Aitken on October 24, 29 and 31, and by Prof. Schaeberle on October 29 and 31 show conclusively that Clark's companion of Sirius is in its predicted place, namely in angle 180 degrees 3.75 seconds. The observations in full will be printed in the astronomical journals, officially announcing the discovery at the Lick observatory of the object first found by Clark in 1862.

LAW INTELLIGENCE.

In Sheppard, Bowness and Bigger vs. the city notice of appeal has been given by the city from an order made by the local judge at Vancouver staying the trial of the actions until certain other similar actions are disposed of. The hearing has been set down for the 7th inst.

Full Court: Pacific Casket and Furniture Company vs. Scottish Union & National Insurance Co. This is an appeal from a judgment of the Chief Justice given at Vancouver, allowing the plaintiffs \$1,500. Charles Wilson, Q.C., for appellants and E. P. Davis, Q.C., for respondents.

The ladies of the Pandora street Congregational church opened their day of work this afternoon. Tables laden with many useful and ornamental articles are spread about the hall. Supper will be served from five to eight o'clock. An interesting programme has been arranged for this evening, including tableaux, vivants and posing by Misses Smart and Shaw; dialogues, recitations and solos. The proceeds are to go to the benefit of the church fund.

TO ATTACK HAVANA

That is Said to be the Object of the Insurgent General Maceo.

Spanish Vessels Captured and the Provisions Given to the Insurgents.

New York, Nov. 3.—A dispatch to the Herald from Key West, Fla., says: A prominent Cuban resident of this city said to your correspondent that without assuming the role of a prophet, the Herald could positively announce that the city of Havana would be besieged by Maximo Gomez within the next sixty days. To that end, he said, Gomez and all the rebel forces were now marching westward toward the capital. This Cuban is in direct communication with the insurgents. He also stated that there was no confirmation of a rumor circulated by Cuban passengers who arrived here last night that towns in the immediate outskirts of the city of Havana had been already besieged by the insurgents.

While the Havana papers, many of which were received by the steamer last night, continue to maintain silence in regard to Maceo's movements since his brilliant attack on Artimesa ten days ago, it is still insisted by active partisans here in direct communication with the leaders in Cuba, that he unquestionably crossed the military trocha at that point during the bombardment of the town, and with a small following has since marched through the entire province of Havana, and is now at Colon, a central point in Matanzas province. It is also alleged that his mission there is to concentrate and assume command of the forces of Ricardo, Trujillo, Rojas and other minor rebel leaders who have been operating in that vicinity with his well armed men. Notwithstanding the persistence of this report, the other Cubans here, apparently equally well informed, express doubt that Maceo has left the province of Pinar del Rio, which movement, they say, would imply defeat by the superior forces sent against him by Captain-General Weyler. The explanation is offered, however, that an abandonment of the territory has been made, as General Luis Ribicoba, veteran of the last war, has been left in command of the insurgent forces on the Pinar del Rio, while Maceo has gone eastward in obedience to orders from his superior to operate with Maximo Gomez in the latter's new campaign of invasion.

Gomez has not been heard from since his attack upon the town of Cascorro. The ominous silence of Gomez is said to presage the planning of a series of important attacks on the principal cities within Havana and Matanzas provinces. Philadelphia, Nov. 3.—Private letters received in this city by Saturday's mail from Havana throw light upon recent events on the Island of Cuba. One letter in particular, with the late occurrences in Pinar del Rio, gives a very hopeful view of the present Cuban situation. This letter says that Antonio Maceo has not attempted to reach Havana province, and that although he made an attack upon the city of Artimesa, which was partially destroyed, he did not endeavor to force a passage of the trocha.

It is stated in the communication, which is from Captain Gordo, who recently was in this city, and who is an officer of General Maceo's staff, that the rebel army in Pinar del Rio province is not desirous of making war in Havana and Matanzas at this time. Both of these provinces are comparatively low and flat, and the effect of the copious rains upon the soil is still detrimental to the proper handling of an army. The letter reads:

"To be with the Cuban army in Pinar del Rio does not mean that one is entirely cut off from communication with the outside world. The main system of the republic is not in operation in this province, but the couriers of our commanders reach Havana as regularly as do trains at the Grand Central station of New York.

"Among the accounts that furnished us with the most amusement was that published in the Diario de la Marina, concerning an attack upon Artimesa a few days ago. I hear that the same account was sent to the United States and published as authentic news. Still, after my visit to New York, Philadelphia and Washington City, I feel that the readers of American papers have learned to discern the difference between Spanish and Cuban news.

"At Artimesa the fight was well carried on; some of our heavy guns were used to splendid advantage. We did not attempt to pass the trocha, for it was not a part of General Maceo's programme. Artimesa was quite strongly entrenched, and over 4000 men were there garrisoned. Maceo did not attack with his entire force, but desired to give practice to the artillery. The enemy was amazed, I am sure, for during nearly two hours' time there was no response from the town. General Maceo personally directed the attack. We retired in good order after midnight, after the artillery of the enemy had shelled our position. I do not know the enemy's loss, but our killed numbered 80. We left no dead on the field, but carried off the bodies away. Among the killed was Major Perez, whom you know, and who has been one of our best officers.

"Maceo's force does not amount to so much cavalry, but it has been increased very much since the arrival of the two expeditions."

Havana, Nov. 3.—Lieut. Col. Fondveiele secured information that the insurgents had a camp in the neighbor-

hood of Cagimar, near Guanabacoa, which is just opposite the city of Havana. Lieut. Col. Fondveiele pursued them, and overtook them as they were passing the river at Barucayabo. He took the positions which they held at Redega site, in the mountains of Guanabacoa, and put to the bayonet the last of them in their retreat. The loss of the insurgents was 52 killed, while the Spanish lost one captain and 14 privates. Havana, Nov. 3.—The report that Antonio Maceo crossed the military line after attacking Artimesa and was repulsed with great loss, according to the official account, is again denied, and it is stated that the insurgents upon this occasion acted without union, disobeyed orders, made no attack upon the forts and were unable to capture the Spanish entrenchments. Still, according to the official version of the affair, Maceo, the day after bombarding Artimesa, in conversation with the manager of the firm of Mangas at Pinar del Rio, reported the loss sustained and admitted that it was no easy matter to cross the military line. The Spanish forces are slowly occupying the positions which Maceo may have intended to use, and he is said to be resting in order to care for his wounded.

There are two versions of the whereabouts of Maceo. One of them has it that Maceo and Rubio are in the mountains on the limits of Cabanas and Caya-Jabos, which constitute a part of the Sierra del Rosario, and another report has it that he is in the range of mountains of the Sierra south of San Cristobal. It is difficult to accurately locate him. The Spanish troops are continuing their advance westward towards the insurgent strongholds without receiving any assistance from the troops stationed along the military line, which is being kept further strengthened.

Key West, Nov. 3.—Col. Guspierre, formerly of the French army, and Col. Ortega, formerly of the Venezuelan army, with Lieutenants Terras and Carlos Garcia, arrived here this morning from Nashua. These men say they captured a Spanish vessel off the coast of Cuba and conveyed the crew and provisions to the insurgents, after which they embarked on board the captured vessel and arrived at Nashua, where they were detained three days in quarantine. They also report having been present at the action of Gascoaras, and state that Maximo Gomez and other insurgent leaders have sufficient arms and ammunition to carry on the winter campaign. In conclusion they say that the island from Matanzas up is called "Cuba Libre." The men are members of a special committee from Puerto-Principe.

A MESSAGE TO MEN.

Proving That True Honesty and True Philanthropy Still Exist.

If any man who is weak, nervous and debilitated, or who is suffering from any of the various troubles resulting from youthful folly, excesses or overwork, will take heart and write to me, I will send him confidentially and free of charge the plan pursued by which I was completely restored to perfect health and manhood, after years of suffering from Nervous Debility, Loss of Vigor and Organic Weakness. I have nothing to sell and therefore want no money, but as I know through my own experience how to sympathize with such sufferers, I am glad to be able to assist any fellow being to a cure. I am well aware of the prevalence of quackery, for I myself was deceived and imposed upon, until I nearly lost faith in mankind, but I rejoice to say that I am now perfectly well and happy once more and am desirous therefore to make this certain means of cure known to all. If you will write to me you can rely on being cured and the proud satisfaction of having been of great service to one in need will be sufficient reward for my trouble. Absolute secrecy is assured. Send 5 c. silver to cover postage and address, Mr. George G. Strong, North Rockwood, Mich.

A BRITISH OPINION.

What Mr. Druker Thinks of Our Mining Regions.

London, Nov. 3.—Adolphus Druker, Conservative member of parliament in Northampton, has just returned from a trip to British Columbia. Upon being interviewed he said he thought there was a tremendous future for the country and that it was going ahead nearly every where. American capital, he said, had been developing the country, but Englishmen were now spoiling it by the ridiculous prices they were asking for every mining claim. Americans were met in the most hospitable manner, Mr. Druker said he had met with no anti-English element while travelling in British Columbia.

thinness

The diseases of thinness are scrofula in children, consumption in grown people, poverty of blood in either. They thrive on leanness. Fat is the best means of overcoming them. Everybody knows cod-liver oil makes the healthiest fat. In Scott's Emulsion of cod-liver oil the taste is added, the oil is digested, it is ready to make fat.

When you ask for Scott's Emulsion and your druggist gives you a package in a salmon-colored wrapper with the picture of the man and fish on it—you can trust the man.

HAD INDIGESTION!

For a Matter of Some Forty Years or More.

Joseph Gardner, stove dealer, of Bath, Ontario, is a great believer in Dr. Chase's Kidney-Liver Pills for indigestion, constipation, dyspepsia, Bright's disease, rheumatism, and kidney, liver and stomach troubles generally.

Many people suffer from rheumatism, bad blood and diseased kidneys bring it on. Dr. Chase's Kidney-Liver Pills will remedy all this and cure rheumatism, sciatica and all kindred complaints.

KILLED THE SECOND OFFICER.

Third Officer of the Whaler Balaena Under Arrest.

San Francisco, Nov. 3.—Shortly after the whaler Balaena came into port her third officer, Harry C. Bowen, who is charged with the murder of Second Officer Frank Jones, was turned over in double irons to the U. S. marshal, who placed him in a cell at the county jail.

Jones was a bully, it is said, and frequently went out of his way to insult and abuse Bowen and the pair had two open fights, the last of which ended in the death of Jones. Much sympathy is expressed for Bowen by officers and men of the ship, and it is believed a majority of them will testify in his favor at the trial.

TO GLORIFY BERNHARDT.

Arrangements Being Made for the Fair by a Committee.

London, Nov. 3.—A Paris dispatch to the Graphic says: A committee has been formed, including Vicomte Henri de Boreale, Francois Coppee, Ludovic Halevy, Jules Lemaître, Victorien Sardou, M. Sully, Prudhomme and a host of other distinguished Frenchmen of letters, to arrange for a solemn festival to glorify Mme. Sara Bernhardt.

That tired, languid feeling and dull headache is very disagreeable. Take two of Carter's Little Liver Pills before retiring, and you will find relief. They never fail to do good.

THE VOTE IN THE STATES.

Mr. McKinley has been elected president of the United States by a majority at least as large as the most confident of his party could have expected. Not only has the Republican presidential ticket a solid majority of the electoral college, but a very large majority of the popular vote, as well. The control of the new congress will also rest with the Republicans. This in spite of the earnest efforts put forth by its supporters, the free silver heresy has been emphatically rejected by the people of the States, and a financial disturbance averted that would in all probability have caused serious damage. Nor has the vote been so sectional as many people feared it would be. From what used to be called the "solid South" the States of Maryland, Kentucky and West Virginia, have been lost by the Democrats to their opponents—states that were supposed to be as "solid" for free silver as they were at one time for the Democracy. The eastern and middle groups of states have, it is true, gone to McKinley in an unbroken column, while the West and the South have generally supported the silver party, but the exceptions mentioned are worthy of note. We do not suppose there was any such danger of acute sectionalism as some people seemed to fear, but even those most easily alarmed will be reassured by the manner in which the states have ranged themselves. From the very first it was generally agreed that the great central states would have the deciding of the issue, and they have decided in a very emphatic way against undertaking what at best would be a hazardous experiment. It does not seem possible that the free silver doctrine could have been given a more favorable opportunity. The severe depression through which the country has been passing, and all the allied conditions, necessarily inclined the mass of the people to appeal to any remedy that might promise relief. Then Mr. Bryan was the sort of candidate apparently best calculated to secure success for the platform on which he stood. He has displayed remarkable ability and a capacity for heavy campaigning which has never been surpassed in any political contest. If the people of the United States had been at all ready to make the proposed departure the way was most completely open to them. Two attendant circumstances there were that placed Mr. Bryan at a disadvantage, namely the anarchist character of some planks in the party platform and the cogitate character of some of his allies. It is altogether probable that a good many voters were influenced by these two incidental considerations to vote against the Bryan ticket, but one can hardly suppose they were numerous enough to affect the fate of the free silver issue.

THE SCHOOL SETTLEMENT.

In his speech at the late banquet in Quebec Mr. Laurier said there were extremists whose views he did not expect the Manitoba school settlement would meet. On one side were those who would condemn any concession by Manitoba and on the other side those who would not be satisfied with anything less than the restoration of separate schools as they were in Manitoba. The Quebec extremists have been particularly noisy during the last few days, informing Mr. Laurier that he is a "traitor," etc. Those of the other variety are not likely to be less valuable on the other side, and no one need be surprised to find among them people who were not long since ranting about the necessity of "respecting the constitution" and "doing justice to the Manitoba minority." Of course Mr. Laurier does not expect to satisfy the immoderates of either type, and the sensible people of the country do not call upon him to try. They will be satisfied with what Mr. Laurier promised in the following passage of his Quebec speech: "We have reached a just and equitable settlement that will meet the views of all straightforward and honest men. I know that we have people who believe and who hope that we cannot succeed. We have all those devout Catholics who exact that we shall restore everything that they had themselves destroyed. We do not appeal to those, to the men who have traded upon their religion for the past twenty-five years. But we appeal to sincere men, Catholic or Protestant. We appeal to all Christians who want the highest standards to be respected and who will be satisfied with that. To these, I say, that within a few days—within a week at the utmost, we shall be in a position to announce the terms of our settlement. That settlement will be embodied in an act of the legislature of Manitoba which will be drawn up and carried out by a sympathetic government."

WINES AND INTOXICANTS.

To the Editor:—I am sorry that Mr. Fairall thinks of any audience in Victoria as a "prejudiced audience." I have before now begun to speak on the great temperance question when my audience, or very many of it, howled like wild beasts in the desert. I suspected it was because they were prejudiced; but I can assure Mr. Fairall that he will find no such an audience either at the A. O. U. W. hall Thursday night or St. Andrew's Friday night. As I can promise him a most unprejudiced audience and a most respectful hearing for either night, I sincerely hope that he will kindly favor us with an attempt to do what he has so largely promised. Of course, I know he "can't do it." He thinks he can, so there's the rub. Let us see if he, or any of his friends, have the courage of their convictions. He wants to know if I think the wine Noah got drunk on was intoxicating. Well, that is a funny question. Mr. Fairall must be a joker. If Noah didn't get drunk on intoxicating wine what was it that he got drunk on?

I shall not only show on Thursday night that the use of intoxicating beverages is contrary to the word of God and condemned by the Bible, but also that the liquor traffic contradicts every principle of political economy.

Let all who have to pay taxes, raise revenue and all who are interested in a wholesome and wealth-producing trade hear the discussion of the question. D. V. LUCAS.

BRITISH STEEL MAKING.

During the last week the British Iron Trade Association has collected and published the statistics of the production of steel in the United Kingdom for the first half of the present year. The figures show an almost unprecedented increase of output, which is a specially interesting fact in view of the discussion that has been going on for the last year or more as to the alleged superiority of German methods and the success of Continental competition. It appears that the total production of steel for the first six months of the present year was as much as 1,969,320 tons, or at the rate of 3,632,640 tons a year, which is by far the largest output of steel hitherto arrived at in a single year by any European country. The figures have, however, in several years been exceeded by the steel output of the United States. The largest increase of output seems to have taken place in the open hearth steel industry, which, although not much over 25 years old, and scarcely worked on a commercial scale 20 years ago, now yields over 2,000,000 tons per annum. This is an advance which is without parallel in any other branch of British iron making, and is perhaps, unique in the history of British industry. The north of England, where only a few hundred tons of open hearth steel were produced fifteen years ago, is now producing the material at the rate of over 800,000 tons a year. Scotland is not making quite the same amount of progress, but even there the advance has been marvellous seeing that 292,782 tons were produced there in the first half of the present year, where only a few thousand tons were produced at the only works of the kind established in Scotland a few years ago.

As far as the Bessemer steel industry is concerned, it appears that there has been an augmentation of 103,662 tons during the first half of the present year on the output of the corresponding half of 1895. But the most striking feature of this branch of the steel industry is that it has fallen behind the open hearth manufacture, instead of having a large lead as it had a few years ago. Indeed, to go even further back than 1887, the output of Bessemer steel was then at least twice as much as the make of Siemens, or open hearth steel, whereas it has now fallen more than 300,000 tons a year behind it. This fact is not alone due to a preference for open hearth steel. It is also a function of the diminished demand for steel for railway purposes, to which Bessemer metal has hitherto been chiefly applied, and to the increased demand for steel for shipbuilding, and kindred purposes, to which open hearth steel was particularly suited. It is the great demand for new shipping, both in Great Britain and in other countries, that has chiefly stimulated the demand for metal of this latter description, while the increase in the output of Bessemer metal is mainly due to the increased requirements of railway companies at home and abroad.—London Times.

HOTEL ETIQUETTE.

Following are the "rules for the guidance of guests" posted in a hotel at Little Cayuse Creek, Col.: "All guests with shooting irons or other weapons must check them before entering the dining room. Waiters are too scarce to be killed. "Gents are requested not to attract waiters' attention by throwing things at them. This is no deaf mute asylum. "Seven kinds of pie are given with every dinner. "Tablecloths are changed every Sunday. "Our food is all of the best quality. Our milk is pure, eggs new laid and the butter speaks for itself. "Guests are requested to be respectful to the waiters. Funeral expenses in case one should die from heart disease. "No more than six eggs will be given to each guest at one sitting. Any guest found trying to work off his shells on a neighbor will be fired from the table. "Benefits found riveted together can be opened with a chisel supplied by a waiter. The use of dynamite is strictly forbidden. "Disputes over articles of food must be settled outside. "Don't lasso the waiters, because the guest who can't throw the rope will be at a disadvantage.

BLOOD-THIRST.

The passion of which the word "blood-thirst" is truly descriptive seems to be a kind of temporary mania excited in human beings by killing human beings, and in them only by that act. Animals are free of it. Even the great felines, with their ferocity developed by generations of hunger, never display it—never, for example, attack whole herds for the pleasure of killing beasts which they cannot eat. There is a faint approach to it in the dog who "worries" a flock of sheep, but he does not kill on the spot, and seems at all events to be actuated not by lust of blood or even by the spirit of tyranny, but by an insane desire for a special dainty—the fat of the sheep's liver. The human being with the blood-thirst on him wants most to kill after he has been killing. Soldiers, otherwise most respectable, have acknowledged the feeling as rising in them after a hard-fought day when many friends have fallen round them—and there are moments in battle when, as the soldiers say, they "see red," and in many armies, perhaps in all, it is difficult for their officers to induce them to give quarter. Killing relieves their burning thirst for vengeance. There are moments in almost every campaign, as all military historians know, when even highly disciplined soldiers seem to lose their reason, when their officers are powerless, and perfectly useless carnage cannot be stopped. The existence of this passion, which no experienced soldier doubts, is the true explanation of the awful slaughter which occurred in some ancient and some Asiatic battles, and of that ghastly incident of warfare among savages, their almost constant habit of killing the wounded.

It explains also the devilish excitement and thirst for more slaughter which, as the record of scenes like the St. Bartholomew murders or the murders recently committed in Constantinople prove, falls upon a crowd which has shed much blood. Many, perhaps a majority, do not feel it, but the ferocious remainder seem to go literally and medically mad, with an impulse which has in it that of the murderer and of the hunter combined, and unless controlled by some form of terror they will go on killing while victims remain to be discovered. A separate passion of blood-shedding arises in them, and tigers would be less cruel, the cruelty—it is one of the strangest of the arcana of human nature—increasing with the absence of resistance. It might, indeed, be possible to hold them partly irresponsible, but for the fact that they can instantly be reduced to order and sanity by appealing to their fears. A few soldiers, a volley, and the wildest mob, mad, literally mad to all appearance with blood-thirst, will become on the instant reasonable, will take orders, will abandon, and in some instances even regret, its frightful excesses. A whiff of grape shot would have calmed the French Terrorists at any moment, and a thousand of the Irish Constabulary with rifles would restore the worst mob of Constantinople to comparative sanity in ten minutes.—London Spectator.

-Frederick Schneider, the proprietor of the London saloon, was charged before the police magistrate this morning with having discharged a revolver in that saloon. His defence was that it went off as he was taking it from the drawer to put it in his pocket. When arrested by Sergt. Hawton and Officer Palmer, who heard the report of the firearm, and immediately took the accused in charge, he denied having the revolver. Officer Palmer however, took it from his hip pocket. He was fined \$25 or a month's imprisonment by Magistrate Macrae, and the revolver was confiscated.

-During last month 1,968 books were lent by the Victoria public library. The ladies borrowed the larger percentage, taking 1,048 and the gentlemen 922. The average number lent daily was 78 and the highest number in one day was 148. Forty-six new names were placed on the book during the past month, 21 being ladies and 25 gentlemen. The following books were presented to the library during October: "Hypatia," by Charles Kingsley; "The Moslemist's Victim," by A. Dumas; "Campaign Echoes," by Youmans, and a series of maps of British Columbia, Quebec, New Brunswick and Nova Scotia, by the Geological Survey of Canada, from Ottawa.

-A very successful concert was given in the East Fernwood Presbyterian church last evening. The attendance was large and the programme was an excellent one. Doings in Marine Circles During the Past Twenty-Four Hours.

Port Townsend, Nov. 4.—The United States steamer Bear arrived early this morning direct from Unalaska. The Bear has been patrolling the northern sea. Upon the breaking up of the patrol the Bear proceeded north, taking up supplies and equipments to Point Barrow and other whaling stations. It is thought here that the Bear will headquarter at Port Townsend, and be used in case of accidents which occur to shipping every winter off Cape Flattery, she being about the only vessel in the revenue service which is in a fit condition to withstand the fierce winds and seas which prevail. Captain Frank Tuttle, recently promoted from a lieutenantcy, is in command of the Bear, having succeeded the veteran skipper, Captain Michael Healy, who the latter was relieved on the charges of drunkenness and conduct unbecoming an officer.

On Sunday the Northern Pacific liner Olympian sailed for this port from Yokohama. Among her cargo she has 100 bales of silk, a large quantity of tea, curios, etc. Her passenger list is very large. The Victoria, of the same line, will sail outward on Friday morning with 100 passengers. She has a full cargo of machinery, cotton goods, lumber and flour. Twelve of the inward bound Chinese are still being held on the Victoria awaiting further examination.

The Mexico left for San Francisco last evening with the following passengers on board: E. Duchemin, A. D. Campbell, F. J. Rob and wife, Miss J. L. Brown, J. L. McBain, R. Hocking and Edward Donald.

The British bark Orrella, Capt. Stuart, has finished loading salmon at the outer wharf and will leave for London tomorrow evening. Her cargo consists of over \$1,000 cases.

The O. R. & N. steamer Mount Lebanon has arrived at Portland from the Orient. She is due here on the 10th inst.

The tug Lorne returned last evening from towing the lumber-laden ship Grenada to sea.

ONE OF THE RAREST BOOKS.

Among the books of a comparatively recent date, if the seventeenth century can be described as such, is, as the Elzevir collector well knows, the famous "Fatisar Francols," a small duodecimo printed by Louys and Daniel Elzevir, at Amsterdam in 1655. A faulty and poor impression of a work issued in Paris, two years previously. This book has become the most sought after of all the Elzevir works, just because it is wrongly thought to be the scarcest. It has fetched prices ranging in France so high as 4,000 francs. The reason for the supposed rarity is, of course, that, instead of being placed on its first appearance on the shelves of the curious or the studious, the little volume was chucked to pieces by the great house of books and kitchen maids. Genuine enthusiasts in the printers art have hoped to see the price diminished in presence of the revelations lately furnished concerning it. Its market value, however, shows no signs of diminution, and that one copy sold in England during the last seven or eight years fetched at Sotheby's on June 16, 1895, the sale being that of the Earl of Orford, the preposterous price of £100.—The Gentlemen's Magazine.

All cases of weak or lame back, backache, rheumatism, will find relief by wearing one of Carter's Smart Wood and Belladonna Backache Plasters. Price 25 cents. Try them.

Men's Suits at Half Price.

Just 42 of them, no more no less. The 43rd man will get left. These suits sold at \$7, \$8, \$10, \$12, up to \$18 the suit; you may have your choice of the lot at half, \$3.50, \$4, \$5 and \$6. Most of them are in odd sizes, 36 to 42; some not quite up to the top notch of style, but all of them good strong serviceable suits. If you buy one of them and find after getting it home that you do not like it, bring it back and get your money. That's the rule on everything in this store.

CHAPTER XLIII.—AT THE OLD HOUSE.

Jera Le Britta tried hard to preserve a composed demeanor, as the last words of the driver of the carriage at the gate revealed to him in a flash the golden opportunity of a lifetime. It did not require much thinking to surmise the true condition of affairs. The man before him was one of Ralph Durand's fellow-plotners, and he had been sent hither for the village clergyman. Why? why, but to enable Durand to carry out his pre-arranged plan. Doubtless, the two men had hastened to Durand after the runaway accident, and had reported the escape of Sydney Vance. Thoroughly frightened, the villain had been obliged to act quickly. He proposed to hasten the marriage ceremony. He had sent this man to secure a licensed clergyman to officiate. He did not know Le Britta, for that momentary glance through the broken door of the prison wagon had been too fleeting to fix his features on his mind. More than that, he did not know this clergyman by sight. "He takes me for the minister," murmured Le Britta, excitedly. A wild suggestion entered the photographer's mind. Recent perils, a late acquaintance with exciting and unfamiliar events of a decidedly sensational nature, had made him more reckless than usual. Dare he assume the place of the clergyman—dare he accompany the man in the carriage? What would be the result; whether would it lead him to productive benefit or trouble the intrepid Le Britta was resolved to locate the imprisoned Gladys Vernon, was determined to save her from wedding the scoundrel Durand if possible. "Ah! a marriage ceremony," spoke Le Britta, with quiet dignity. "Where are the parties to the contract?" "It's—it's quite a distance, sir," spoke the man with marked agitation. "It's—it's a peculiar case." "It must be to include such haste. May I ask who sent you?" "My—my friend, sir; a Mr. Durand. Quite wealthy gentleman." "And the bride?" "A young lady. Both are awaiting you. I was instructed to say to you that your fee will be large and promptly paid. In advance, if you like. Please don't disappoint me, sir! You are the only clergyman in the district we can reach." "Very well, I will go," announced Le Britta. The driver seemed delighted. He hurried him to the carriage, bestowed him safely within, and, springing to the seat, urged up the horses. Jera Le Britta reflected seriously. It was easy to accept a situation, but more difficult to face it when its issues became complicated. He saw his mistake as he cogitated over the possible results of his strange journey. When they arrived at their destination he would find himself in the midst of Durand and his friends, and probably at some isolated spot. He should have learned more from the driver—have secured police assistance—a score of theories presented themselves to his mind, now that it was too late to act. The carriage proceeded swiftly. It must have traversed fully ten miles by lonely and unfrequented roads ere a halt was made. Le Britta was astonished as he looked from the carriage, for the spot was the self-same one by the riverside whither the boat had taken him the evening previous—the lonely house where he had sprung into the prison-wagon to rescue Sydney Vance. Twice Le Britta was on the point of springing from the vehicle and escaping, for he foresaw nothing but trouble when he was confronted by Durand and recognized by him, as he would certainly be. The thought that in every dilemma of the past, however, aid had come at an unexpected time, a realization of the fact that within an hour the destiny of innocent Gladys Vernon would be made or marred, urged the photographer to proceed with the exploit in hand, at least until he had penetrated the lair of the enemy, and had learned how the land lay. "This way, sir," spoke the driver, as the carriage halted. It was directly at the side of the old house and near a vine-covered porch, and as he sprang from the driver's seat and opened the carriage door, he started up the steps. "Rather dark and mysterious this, I fancy," murmured Le Britta. "Oh! that's all right, sir. There's only a few minutes talk, a big fee, sir, and I'll drive you home again." "But why all this haste?" persisted Le Britta. "Mr. Durand will explain all that satisfactorily to you. This way; just sit down for a minute or two, and excuse the darkness. I'll bring a lamp and sit Durand." He pushed a common wooden chair toward Le Britta as he spoke. The latter could not see it, he could only feel it, and, groping about, he sat down and waited in painful reflection. The door stood open, the horses and carriage were without, escape lay at hand. It was not too late yet to retreat. He listened. Only the departing footsteps of the driver down some uncarpeted corridor echoed vaguely on his hearing. Was Gladys Vernon in the building? Were Durand and the driver the only other occupants?

"If I only had a weapon," murmured Le Britta, "I would boldly face these scoundrels. As it is— He took a step toward the door. Retreat seemed prudent. Better to watch the house in hiding, than risk exposure and defeat by boldly facing overpowering numbers. Just then, however, from the direction the driver had taken, sounded footsteps, then a light glowed, and then a quick voice spoke sharply.—"Who's that?" "Durand's voice!" murmured Le Britta, excitedly. "Tom!" "Ah! you have returned? Glad of it. Bill only just came back. I was afraid you might miss finding a minister, so I posted him off, too." "Well, I've got your man." "What man?" "Mr. Dane, the minister of Acton." "What?" Durand's tones expressed the profoundest surprise. "I say I've got the minister." "Mr. Dane of Acton?" "Yes, just brought him. He's in that room waiting to see you." "Nonsense!" "Nonsense, I say!" reiterated Durand, forcibly. "Bill himself has just brought Mr. Dane of Acton, and he's with the bride now!" (To be Continued.)

RYCKMAN'S KOOTENAY CURE.

He Used the Medicine Himself and Recommends It.

BE SURE AND READ HIS LETTER.

University of Ottawa, Ottawa, Canada, April 10, 1896. Dear Mr. Ryckman, I wrote you in July last stating that I derived much benefit to my health from taking two bottles of your truly marvellous remedy "Kootenay Cure." Since then I have taken three more bottles, and am now pleased to be able to inform you that I am freed from chronic and acute rheumatism, Diabetes and La Grippe. This is the first winter since 1890 that I have escaped from having several severe attacks of La Grippe, and notwithstanding the incessant and onerous duties of my position in this university, I have, thank God, enjoyed excellent health since August last. I have recommended the remedy to many persons, both inside and outside of the university and in most cases with entire success. These include persons suffering from Rheumatism, Bright's Disease, Bolls, Salt Rheum, Loss of Appetite, General Debility, Insomnia, Sonambulism, Skin Diseases, Dyspepsia, Nervous Debility, La Grippe, etc., etc. In some of these cases the patients had been under the care of physicians for several months without relief and were cured by using a bottle or two of "Kootenay." I shall adopt it as the "Family Medicine for this Institution." Yours truly and gratefully, (854) J. M. McGuckin, O.M.I., D.D., Rector.

LOSES A YEAR'S SALARY.

Li Hung Chang's Punishment for a Little Indiscretion.

Pekin, Nov. 3.—Although advised to deprive Li Hung Chang of all his offices, the Emperor substituted for this punishment the loss of a year's salary.

A dispatch on Oct. 20th announced that Li Hung Chang has been appointed minister of foreign affairs and at the same time an imperial edict was issued ordering the great Chinese statesman to be punished for presuming to enter the precincts of the ruined summer palace, while visiting the Dowager Empress of China.

Celery-Nerve Compound is unexcelled.

Mr. Geo. Reid, G.T.R. Operator, New Hanbury, Ont., writes as follows: "I was troubled for two years with Bolls and Dyspepsia and the worst kind. Tried several medicines, but none gave much relief. Until I tried Manley's Celery-Nerve Compound my blood was in a dreadful state, but I am happy to say your medicine cured me."

THE TARTE-GRENIER CASE.

The Defendant's "Bluff" Telegram to Hon. Mr. Tarte.

Montreal Star: In answer to the dispatch sent Saturday to Hon. J. I. Tarte, by W. A. Grenier of La Libre Parole, calling on the minister not to delay his return so that the trial for libel might proceed, Messrs. Danrond & Brodeur state that at the same moment of the sending of the telegram they were served with the following copy of a motion to be presented on Nov. 2 by Messrs. Cornellier, Fontaine and La Belle, counsel for Mr. Grenier.

Whereas the defence in this case is specially long to prepare; Whereas the defendant has a plea of justification to offer; Whereas the facts, the justification of which must be pleaded, extend back a number of years, and that consequently the resources will be lengthy and difficult;

Whereas, for these causes, the defendant needs a supplementary delay to prepare his said defence; There be granted to him by this court a delay of one month to produce the said defence, the whole with costs, distracts to the undersigned.

(Signed) Cornellier, Fontaine & Labelle, Counsel for Defendant. The above notice of motion is accompanied by the following sworn statement dated Oct. 27th:—"And the said W. A. Grenier, the defendant in this cause, being sworn in the Holy Evangelists, disposes and says that all the allegations of the present motion are true, and that the delay asked for will be necessary to produce the defence. And has signed, etc. (Signed) W. A. Grenier. La Patrie, commenting on the above, says: "As all the facts are the same in the criminal as in the civil suit, how is it that lengthy researches are necessary in one case and not in the other? No bluff if you please! There was really no reason to send the dispatch in question."

FIRE AT COLDSTREAM.

Lord Aberdeen's Study Completely Destroyed.

Vernon, B. C., Nov. 3.—The Governor-General's study was completely destroyed by fire last night. Nothing in the office was saved. The origin of the fire is unknown. The loss is about \$900, partly insured. The office is about 100 yards from their house, but the house was saved.

NEW WESTMINSTER.

There is a great demand for hay in the interior, and the Brackman & Ker company of this city have an order to ship to parties there a consignment of ten carloads. The price at present is \$10, but it is expected to rise.

VANCOUVER.

A few days ago Mr. J. Crean returned to Vancouver from the Shoal Bay district. Speaking of the district generally, Mr. Crean says that he has every confidence in its future, since several well defined iron-bearing veins have already been discovered, and the character and values of the ores met with, as shown by the development work done thus far on a number of the claims, indicate that the newly-established mining camp will be a permanent one.

T VADA ISLAND.

A Raper, who is on a visit to Nanaimo, from Texada, gives the following news of the mines: On the Copper Queen, which is incorrectly called the Van Anda, the two large two-story buildings are now just completed. The shaft has reached 90 feet below the surface and is looking exceedingly well.

The Victoria, on which Mr. Raper has been working, makes no report at present, but things are supposed to be looking well. There are on the Victoria shaft ten men working. The owners of the Surprise—Vancouver and Union parties—are pushing work on their tunnel.

The Dunsmuir, which is owned by the Van Anda company, has four men on it and looks well. The Haven, which is about three miles from the Dunsmuir, has several men at work, though the news has as yet been received from them.

Both tunnels of the Monte Cristo are in solid ore, the force of miners has been increased, and it is believed they have almost reached shipping ore. On the Jumbo a solid body of pay ore has been developed ten or twelve feet wide and at least 125 feet long and over 100 feet high.

The Red Mountain is in luck again. A new ledge from eight to ten feet wide has been found on the south end of the ledge. The drift in which an excavation was being made for the new compressor plant. This excavation is within a thousand feet of the War Eagle north side line and very close to the Mugwump ground.

made in the Mayflower. The wise began some time ago near the mouth of the tunnel on the south vein was down 64 feet last Wednesday and for several days before there had been 12 inches of ore in the bottom which ran about 170 ounces in silver and \$13 in gold, giving a total value of about \$114 per ton. This is probably the richest ore, taking it right through on the average, every found in the camp.

Dr. Campbell and E. Bouche have an interest in four claims on Salmon river, midway between Waneta and Nelson from which some very rich ore has been taken. The particular claim from which the ore comes is the Tamarac. An opening only 6 feet deep shows a good body of ore from which assays running up to \$234 and \$410 in gold have been made. The ledge is four feet wide but the clean ore is not over half that width.

A company which has been working along quietly but effectively is the Eastern Star Gold Mining Company. It owns the Palm, claim situated between Rock and Murphy creeks, and about a mile northeast of the Highland. The claim has been surveyed and a crown grant has been applied for.

Customs Inspector Clute has been ordered by the department to make a report on the necessities of the district as regards customs facilities and he has decided to recommend that Rossland be created a port of entry with outposts at Trail and the new station on the Red Mountain railway at the boundary line, which it is said will be named Butte. The Rossland office will meantime be moved into the next building, which is being handsomely fitted up.

The Rossland mineral belt is constantly being widened by development work. Especially is it extending northeast, southwest and southeast. In another column attention is called to the fine showing made by the Palm to the north east of town. The progress of development on Lookout mountain to the southeast is well known and now there is a story to tell of what is being done to the southwest on the south end of O. K. Mountain and on Sophie Mountain beyond.

For the past two weeks the Walters company, controlling one-half of the Gold Hunter group, has had a force of men at work prospecting the property on the surface. Last week, seven samples taken from five openings occurring at intervals throughout perhaps two thousand feet of ground along the course of two veins gave the following interesting results: No. 1, 2-7-10 per cent. copper, 5 ounces of silver, 176-100 ounces of gold ore or \$41.15 per ton; No. 2, trace of silver, \$12.60 gold per ton, No. 3, 4-6-10 per cent. copper, 2 ounces of silver, 2-8-10 ounces gold or \$47.55 per ton; No. 4, trace of silver and 77-100 ounces of gold or \$15.50 per ton; No. 5, nothing; No. 6, six per cent. copper, 5 ounces of silver and 181-100 ounces gold or \$36 per ton.

The Trail smelter is now treating over 350 tons of Rossland ore per day. This assistance of any of the refractory furnaces which have all been shut down for lack of fuel. This shortage of fuel is now about overcome. The Nevada now has an abundance of two feet of nearly solid pyrrhotite. This is in the drift from the bottom of the 75-foot shaft. The ore was encountered on Tuesday at a distance of about ten feet from the bottom of the shaft. The ore shows a nice percentage

of copper in it but its gold value is not known. Work has now been begun on the St. Paul under the management of Moynihan & Campbell. The shaft is already down 20 feet, and some very good looking quartz carrying very pretty copper pyrites has been found. The indications are very favorable for the finding of a solid ore body in a short time.

The strike on the Ivanhoe is very important, since it has a bearing on all the district on Sophie mountain and it carries at least a fair value in gold. A very pretty ledge of quartz has just been opened on the Norway, a claim lying on the east base of O. K. mountain, a few thousand feet south of the O. K. mine. One assay showed \$5 in gold. This is very encouraging. It is a free milling quartz, resembling closely the O. K. ore, with the exception that no galena or copper pyrites can yet be observed.

On Saturday the Old Hundred and Wednesday mineral claims were purchased from the original owners by Reddin & Jackson and F. J. Walker for \$7,000, practically cash. The property consists of twenty-nine acres lying between the Nest Egg, Sunset and Tuesday mineral claims. It is on Deer Park mountain, about half a mile from the business centre of Rossland.

In the Snowdrop a tunnel has been started on the ledge that shows a full face of quartz from which assays ranging from \$1 to \$12 have been obtained. No. 1 shaft in the California has six inches of clean ore, and there is more or less ore through the entire bottom. No. 2 shaft on the new north and south vein has some ore, and everything points to the near approach to a solid body. In the lower tunnel there are two feet of beautiful quartz all heavily mineralized. The face is improving every day.

A strike is reported in the Ivanhoe shaft, which is down about 35 feet, and a crosscut tunnel has been driven in 100 feet to cut the ledge and connect with the shaft. Early this week 18 inches of ore were opened up in the bottom of the shaft. The ore is the ordinary iron sulphide streaked with gray quartz. An assay showed \$10 in gold. The ledge is five feet wide and the walls well defined. After being put down 32 feet No. 2 shaft in the Phoenix has two feet of clean shipping ore in the bottom, and a drift has been started to the west into the hill on the vein which now shows and has shown from the start two feet of absolutely clean fine-grained pyrrhotite. This ore carries very little sulphur, but averages over \$30 per ton in gold.

Railroad employees, bicyclists, teamsters and other men who are subject to much jolting, are often troubled with pain across the small of the back. This indicates the "Railroad Kidney," an insidious precursor of serious illness. On the slightest symptoms of backache take Chase's Kidney-Liver Pill—one is a dose—and thus obtain instant relief. For all kidney troubles they have no equal. 25c per box.

Highest of all in Leavening Power.—Latest U. S. Gov't Report

Royal Baking Powder

ABSOLUTELY PURE

BRITAIN IS PLEASED

All the London Papers Comment Favorably on Bryan's Defeat.

Causes Considerable Excitement and Buying on the Stock Exchange.

High Tariff is Not as Bad as Free Silver, Says the London Star.

London, Nov. 4.—The election of McKinley as president of the United States had a marked effect upon American securities here to-day. Business on the stock exchange opened with a rush to buy Milwaukee and Louisvilles, which advanced quickly and were followed by the entire list advancing from \$2 to \$6, which sent brokers flying hatless in every direction to join in the wild hubbub inside, while in the streets customers were coming up by the dozens. According to the general impression the election will result in a rapid diminution of gold withdrawals for the United States and no doubt McKinley's victory has favorably affected the stock exchange throughout. Consols opened 1/4 higher than yesterday. A leading English stockbroker in an interview with a representative of the Associated Press said: "McKinley's election boomed the whole market. Large buying orders from New York were sent after the result of the election was known in the United States and started the market. This was followed by the English buying American and English stocks."

All newspapers comment upon the election. The Star remarks: "We, in England, have reason to rejoice over the overwhelming defeat of the attack upon the gold standard. Great ills may be in store, but no high tariff can inflict a title of the ruin which Bryan's victory would have entailed. There will be an immediate improvement of business, for the election of McKinley, or rather defeat of Bryan, will restore confidence in the financial honesty and stability of the United States. The sound, common sense of the American people has saved the Republic from worse than civil or foreign war."

The Globe states: "Had the polling run close encouragement would have been afforded to Democrats to maintain soft money and socialism as planks in their platform, but, in face of the ignominious rejection of these revolutionary principles by the American electorate, the managers of that party can scarcely keep alive an agitation which ended so disastrously. From an outside standpoint, the most satisfactory outcome of the battle is the crushing blow it strikes at the cause of confiscation all the world over and the event clearly proves the average American elector declines to associate himself directly or indirectly with the expropriation of property by confiscation."

The Canadian Gazette has this to say on the subject: "Canadians join with the English in hearty congratulations to the great republic over this fresh evidence of its good sense and honesty."

The St. James' Gazette congratulates the United States upon the result and adds: "Especially the rout of Altgeld, the Anarchist governor of Illinois, who made the personal fight against President Cleveland." The same paper adds the following comments: "The movement will take more than one defeat before finally killed and looks very much as if our American kinsmen were more likely beginning a great social and economic struggle than at its end."

A financial article in the Daily Telegraph suggests that possibly the silverites in the United States, smarting under defeat, will foment an agitation taking form of riots, which may seriously affect the prices, at least temporarily.

The Sun says: "The great republic has risen magnificently to a great occasion. By the rising of an almost united nation the silver craze has been effectually scorched, if not killed."

The Westminster Gazette says: "With the election of McKinley, the great scare vanishes for the moment. But while the perils of free silver are avoided for the present, the perils of protection and capitalism, in more extreme forms, remain to be encountered. Putting out of sight the results in this country, which must follow the fresh access of McKinleyism, no one friendly to the United States can view the prospect without alarm. If the tyranny of commercial and financial corporations is not abandoned, there must be a growth of Populism and aggravation of the ill effects which, when the next struggle comes, will threaten more dangerous consequences."

The Pall Mall Gazette, during the course of an editorial, says: "A lesson is to be drawn from the decision with universal consent in this country as being emphatically in the credit of the great American electorate. It implies that the democracy, when confronted

with issues vital to its future, will rally to the reality and repudiate the sham. Between Altgeld and Bryan, they succeeded in pulverizing their cause until dust is substantial in comparison." The article in the Pall Mall concludes with a tribute to President Cleveland, whom it says "has discarded the traditions of a lifetime and lent his authority to financial righteousness."

EAST OF THE ROCKIES

Announcement of School Question Settlement Expected on Friday.

Hon. Mr. Tarte to Return to Winnipeg to Confer With the Government.

Montreal, Nov. 4.—During a fire at the east end of the abattoir a little after 10 last night three children of the book-keeper of the abattoir were burned to death. They were Charlie Hazel Wood, aged 13, Florrie, aged 11, and Gerrie, aged 9. The fire had done its worst in the case of the baby. What was left of Gerrie was disfigured beyond recognition. The skull was bare and to a casual observer it looked as if it had been struck severely by some portion of the building. The body was black as a cinder. The other two were less disfigured, but in the case of the whole three, all the evidence went to show that the poor children had been literally scorched to death. The most pathetic part of it all was that both father and mother vainly attempted to save them at the risk of their lives, the mother picking up a bundle of clothing which she fondly believed were two of their children till she fainted in the arms of the fireman who caught her outside. The damage to the buildings amounted to little.

Winnipeg, Nov. 3.—Hon. Mr. Tarte is to-day visiting Prince Albert. He is expected to return to Regina tomorrow. Yesterday at Regina he was presented with a civic address. In reply the hon. gentleman said that the more he travelled across the prairie the more he saw what a country of capabilities it was and one of which no reading of pamphlets could give an idea. It was a land of which they all ought to be proud. He was glad to find that peace and harmony prevailed among them. In the east they had little difficulties, rancors and overcoatings, but he was glad to find that nothing of the kind existed in the Northwest. In regard to his position as minister of public works, he said that he did not occupy that position for his party alone, but for the whole Dominion of Canada. (Cheers.) The fate of political warfare had placed his party in power, rightly or wrongly he would not say, but they were in to stay as long as they could and as long as he was there it would be not only his duty but his earnest pleasure to attend to the wants and needs of all portions of Canada.

The assembly then became conversational with the minister, after which he drove to visit the Indian industrial school. Collingwood Schrieber left Winnipeg for the West last night. The deputy minister's trip is to inspect the work done by the C.P.R. between Kamloops and Yale. If his report is satisfactory the government bonus to this work, \$570,000, will be paid out. The work was commenced six years ago and is nearly completed. Mr. Schrieber said he would not inspect the Crow's Nest Pass with a view of determining the advisability of building a road through it. There is too much snow there at present to permit inspection. Mr. Schrieber will return next week.

The Victoria Hockey Club, champions of Canada, has raised a fund for the erection of a monument over the grave of Fred Higginbotham. He was a member of the champion hockey team, and was accidentally killed a month ago and his body buried at his old home in Bowmanville, Ont.

Winnipeg has been agitated by a series of burglaries lately, chief of which was the cleaning out of Andrew's jewelry store. To-day a great sensation was caused by the arrest of Michael and Anthony Egan, members of the well known railroad contracting firm of Egan & Sons. Nearly all the stolen jewelry was found in their possession.

Robert Moran, a well-known young farmer of Holland settlement, is now on trial here for the murder of his sweetheart Hannah Hatton. The young girl had been pregnant. On the night of March 30 she went walking with Moran and next morning her body was found on the prairie with her throat cut. Blood stains were found on Moran's clothes.

Toronto, Nov. 4.—The Globe says: "The school settlement, from all that can be gathered, is the result of maintaining the national character of schools, unity of system, and the principle of state control, while permitting a certain amount of denominational instruction that, as Premier Laurier says,

will not satisfy everybody. To secularize the schools completely would be to render them unacceptable to a large body of people. As a way out of the difficulty nothing could be fairer than the plan suggested by the Manitoba authorities, leaving the matter largely under the control of parents.

Winnipeg, Nov. 4.—Friday is awaited with great interest by local politicians. Hon. Mr. Tarte will on that day return to Winnipeg from Regina and hold a conference with the Greenway government regarding the terms of the school settlement. It is considered that on Friday a public announcement will be made of the settlement. Until that time the nature of the compromise is being carefully kept a secret, and all forecasts are merely guesses.

How to Cure Bilious Colic. I suffered for weeks with colic and pains in my stomach caused by biliousness and had to take medicine all the while until I used Chamberlain's Colic, Cholera and Diarrhoea Remedy which cured me. I have since recommended it to a good many people. Mrs. F. Butler, Fairhaven, Conn. Persons who are subject to bilious colic can ward off the attack by taking this remedy as soon as the first symptoms appear. Sold by all druggists.
