MANSLAUGHTER CHARGE IN MOTOR TRAGEDY

U.S. WORLD AVIATORS AND LOCATELLI PILOTING PLANES ACROSS NORTHERN ATLANTIC

When Three Aeroplanes Left Reykjavik, Iceland, for Frederiksdaal, Southern Greenland, at 8.35 a.m., Flying Conditions Were Excellent; Machines Made Hop-off From Surface of Bay Without Difficulty.

Reykjavik, Iceland, Aug. 21.—The United States army world fliers and Lieut. Locatelli, Italian airman, hopped off from here at 8.35 o'clock this morning. The weather was fine and flying conditions were excellent. All of the take-offs were made easily, none of the fliers having the slightest difficulty in leaving the water. The fliers are heading for Frederiksdaal, near Cape Farewell, at the southern tip of Greenland, a hop of about 825 miles.

AFTER NOISY SESSION FRENCH CHAMBER UPHOLDS MINISTRY'S NEW DAWES REPARATIONS PLAN

Paris, Aug. 21.—The Chamber of Deputies this evening upheld the Government by 320 votes to 209, defeating a motion to refer the London accord on the inauguration of the Dawes plan to a commission.

Paris, Aug. 21.—The Dawes reparations-plan and the steps taken at the London Conference to make it effective were overshadowed by violent Communist demonstrations in the Chamber of Deputies to-day when Premier Herriot went before the Chamber and Senate, read a long declaration embodying the Government's case and asked for it the approval of the legislature.

The Communists monopolized the debate and manoeuvred in such a fashion that the entire afternoon was devoted to their motion for an adjournment until the Senate should vote the Amnesty Bill. Not a word of discussion about the work of the London conference was heard.

PARLIAMENT TO DECIDE

Paris, Aug. 21.—Premier Herriot put the Dawes reparations plan and the London agreement for making it effective before the Chamber of Deputies this afternoon and told the members:

"I, for my part, have chosen, but nothing first has been done and Parliament, in its turn, can choose."

Evacuation of the Ruhr, the Premier said, had dominated everything at the International Conference in London and he had to "choose between the re-establishment of an inter-allied entente and the continuance of isolated action."

ARBITRATION PRINCIPLE

M. Herriot emphasized that arbitration was the great principle established at the London conference and asserted France would gain by it. "For it would need a great deal of the future, could gain the majority of votes which enabled her to enter the Ruhr."

The reparations problem in which France was the most interested party, had now been taken from the political into the economic field, the Premier said, "and we have given a very large role to United States citizens in our organization, which was done designedly."

"We can only rejoice," M. Herriot continued, "to have associated with us the great American Republic which has all the authority necessary to supervise the execution of the programme which was due in a large part to its initiative."

FREEDOM OF ACTION

France's new freedom of action, M. Herriot said, "had been defended to the utmost in London, but the situation had become grave. Then Premier MacDonald of Great Britain in two letters had reminded the French and Belgians of the declaration they had made when they entered the Ruhr, that they had done so merely to enforce payment by"

ZANNI'S AEROPLANE DAMAGED SO BADLY IT WAS ABANDONED

Hanoi, French Indo-China, Aug. 21.—Major Zanni's aeroplane, which overturned on his attempted hop-off for Canton, was so badly damaged that it could not be repaired, it has been established. The Argentine flier at present is at Hongkong awaiting instructions from his manager.

SILK ROBBERY IS CARRIED OUT BY GANG IN NEW YORK

New York, Aug. 21.—Six armed men held up a silk truck in Madison Square to-day and took the truck and its cargo of silk valued at \$50,000. Scores of persons witnessed the holdup.

HEROIC LEADER OF WORLD AIR EXPEDITION DUE

Major Stuart MacLaren and Lieut. Plenderleith to Arrive in Morning

Will Address Canadian Club at Empress Hotel Tomorrow

SPORTSMEN

"No one hopes more than I that the American fliers will succeed in getting across the Atlantic to-day," said Major Stuart MacLaren, leader of the British attempt to fly round the world, at Vancouver to-day.

"If they get decent weather with a clear landing space at the other end, they have a chance, but one essential I should think would be a favorable wind, for the reason that a very large amount of petrol must be carried for a flight of 225 miles, and it means that only with the aid of a fair wind could they make it."

"They are splendid sportsmen and deserve to succeed."

Major Stuart MacLaren, whose dogged perseverance in attempting to circumnavigate the globe by air won for him the admiration of the world, will be to-morrow the guest of Victoria.

After being tendered a rousing reception at Vancouver, Major MacLaren, accompanied by Flight-Lieut. William Plenderleith and Col. L. E. Broome will arrive by steamer to-morrow morning.

Meanwhile they arrived to-day M.M.C.E. Thiapval, which transported the British fliers and their wrecked Vickers-Vulture amphibian plane to this coast from Bering Island, in the North Pacific, where the expedition came to grief.

Ten Labor Banks In Eastern U.S. Soon

Albany, N.Y., Aug. 21.—The Brotherhood of Locomotive Engineers Security Corporation filed in corporation papers with the Secretary of State yesterday. Although no definite information is available, it is reported on good authority the corporation will finance ten labor banks to be operated by the Brotherhood in Eastern cities.

ONTARIO WHEAT FIELD FIFTY-FOUR BUSHEL TO ACRE

Stratford, Ont., Aug. 21.—Fifty-four bushels of Fall wheat to the acre taken off a field on the farm of W. W. Ballantyne in Downie Township is believed to be the record for Perth County. The average yield of Fall wheat for the Province of Ontario is about twenty-two bushels to the acre.

33,063 ACRES ON PRAIRIES BOUGHT FOR MENNONITES

Winnipeg, Aug. 21.—The newly-organized Mennonite Land Settlement Board for the placement of settlers from Lubau, who will arrive in Canada shortly, has purchased 33,063 acres of farm lands in Saskatchewan and Manitoba, according to information obtained here.

VICTIM OF AUTOMOBILE ACCIDENT

D. T. Ballantyne (in the centre of the group), who together with A. D. McLachlan, was killed instantly when struck last night by a motor car on the Saanich highway.

OFFER TO PURCHASE THE WILLOWS PARK HAS BEEN RECEIVED AT CITY HALL

An offer to purchase the Willows Park has been received at the City Hall, and will be presented to the aldermen in council in the course of the next few days. An outline of the proposal has already been made to some members of the council.

This proposal, which is made by absolutely distinct persons to the Colwood Park Racing Association, whose offer was rejected in January, is based on an immediate cash payment, and the balance at the time when the city can give title. That condition could not arise until the end of 1925, as the city leased the park to the B. C. Agricultural Association last December for a term of two years.

This offer affects the Oak Bay jurisdiction as well as that of the city, for while the title is freehold to the city, it is understood they would ask the district council to set a fixed rate of taxation over a term of years, and to accept a definite fee for the racing privilege, subject to the remission of the fee if by amendment of the Criminal Code racing were halted in Canada.

To protect the exhibitions of the Agricultural Association the offer is based on a willingness to guarantee access to the grounds for the purpose of fairs for a term of years, and for public use of the oval at such times as it is not wanted for horse racing, presumably to earn some revenue from athletic privileges.

As many points arise from the proposal which would entail most careful consideration, and which has now been submitted in writing, it is expected most careful attention to the details will be given by the Mayor and aldermen.

TRIAL POSTPONED

Gaffney, S.C., Aug. 21.—Arrested on charges of disorderly conduct and United States Senator Nathaniel B. Dial and his opponent in the primary campaign, John M. McMahon, State Insurance Commissioner, had their trial postponed until after the campaign when a hearing was held last night in police court.

William J. Bryan Injured, But Able to Deliver Lecture

Terre Haute, Ind., Aug. 21.—William Jennings Bryan was injured last evening when an automobile in which he was speeding from Tuscola to Mattoon, Ill., turned over on the highway. He was bruised and cut about the head and face, but was able to give a scheduled lecture on arrival at Mattoon.

News of the accident was withheld last night at Mr. Bryan's request, as he did not want Mrs. Bryan, who is ill at their home in Florida, to know of the injury.

DOIST, AIRMAN, IS GIVEN WELCOME AT CITY OF MARSEILLES

Marseille, France, Aug. 21.—Captain Georges Pelletier d'Oisy, the French aviator who early in June completed a Paris-to-Tokyo flight, arrived here to-day on the steamship Porthos, which had been purposely delayed in order that the aviator's welcome should not be spoiled by his debarking at night.

The captain and his mechanic were taken aboard the municipal yacht Miette, on which the mayor and other notables had gone out as a welcoming party.

BOAK CAR PILED UP AFTER SAANICH MOTOR TRAGEDY

MOTORS IN SAANICH MUST TRAVEL AT SLOWER SPEEDS

Police Commission Establishes Controls at Danger Points

Reeve Robert Macneil to-day gave instructions to the Saanich Police to rigidly supervise the traffic on Saanich highways, and authorized the use of every possible means to limit speeds of motors to reasonable figures, with additional restrictions upon traffic at all points where a clear view ahead is unobtainable.

"Saanich residents and Victoria citizens last year made many complaints of the operation of speeder traps on the Gorge Road and the East Saanich Road; these objections appeared reasonable to the Police Commissioners. Up to the present, this year's Commission has not permitted the use of such methods of controlling traffic, believing that the good sense of motorists could be relied upon," said the Reeve.

"This distressing double fatality has terminated all such concessions to all motorists, however. If necessary, the Commission will employ special constables. All means at our disposal will be used to bring back to Saanich highways the caution in driving which has apparently vanished, if the complaints of the past few weeks, together with the many accidents reported to the police, are to be taken at their apparent value."

The patience of the Police Commission was about exhausted two weeks ago, the motoring public was warned through the press of the possibility of reimposition of stringent restrictions on driving, with all that is implied in the way of police traps.

Lightning Killed Man and Horses

Weyburn, Sask., Aug. 21.—Working with a disc in a field fifteen miles from here yesterday, Edgar Elliott was struck by lightning and killed. Two of the six horses on the team were also killed. Elliott's parents live in Vancouver.

Astronomers Making Many Photographs Of Mars Now

Flagstaff, Ariz., Aug. 21.—Arenas that may be continents, vast sections of marshland or prairie, the remains of what are believed to have been the oceans that once divided the surface of the planet are continually and regularly shifting on the planet Mars, according to the gaze of scientists at Lowell Observatory here.

When the air is steady, according to Professor Earl Sillpher, photographic expert and astronomer, he captures the planet's appearance on very sensitive photographic plates.

While the question of the habitability of Mars is a live one with practical astronomers here, the experts do not bother their heads about whether men or beings like men are on Mars going about daily rounds of duties and pleasures like those on the Earth.

"Those of us who are attempting to determine the temperatures and the conditions of atmosphere on the planet in an effort to ascertain the possibility of human habitation there, are making many fine measurements. The work is progressing with the aid of the Coebert radiometer, whose measurements of electrical currents are reputed to be the most sensitive achieved by man, less than a billionth of an ohm."

LOCAL DOCTOR RELEASED TO-DAY ON \$10,000 BAIL AFTER HEARING IN COURT

Trial of Dr. E. W. Boak, Charged With Causing Death of A. D. McLachlan and D. T. Ballantyne in Saanich Automobile Accident, Set for Tuesday.

Following the double fatality on the Saanich Road at 9.25 last night when the bodies of A. D. McLachlan, sixty-seven; and D. T. Ballantyne, sixty-six, were picked up terribly mangled from the ditch, Dr. E. W. Boak was arraigned before Magistrate Jay in Saanich police court this morning, charged with manslaughter. H. A. Maclean, K.C., for the accused, requested bail. E. L. Tait, appeared for the Crown, Magistrate Jay fixed bail at \$10,000 and adjourned the case for trial on Tuesday.

Investigation of the circumstances of the tragedy, by the Saanich police, and a postmortem at the premises of the B. C. Funeral Company, where the bodies lie, formed the developments of to-day. Coroner E. C. Hart, after a preliminary view of the scene of the accident this morning, took charge of the bodies which are now under guard until the post mortem is completed. Dr. John H. Moore will perform the autopsy this afternoon.

The first word of the accident was conveyed by L. H. Tweedie, an employee of the Shell Oil Company who telephoned the city police for the ambulance. Constables Raines and Wilkerson responded, and brought the bodies of the two elderly men back to the city. Owing to the darkness little could be done with the cars until this morning.

TOURIST TRADE IS HELPING TO BUILD UP CITY

Advertising of City's Advantages by Publicity Bureau Is Bringing Results

While the tourist trade will this year leave in Victoria more than \$3,000,000 the Victoria and Island Publicity Bureau, so far from considering it sufficient in itself, is using the argument chiefly as the most efficacious method of building up the city industrially and residentially.

In past years cities attempted to attract industries and residents by direct appeals through the press and other channels of publicity and also by offering special inducements to large business concerns to locate in their borders. After many years of such efforts these methods were abandoned because it was discovered that the results were practically nil.

The majority of the newer cities in districts in America originally advertised directly for industries. To-day they are all aiming to this result by what is known as the tourist route.

SOVIET NOTE NOT GIVEN TO MINISTERS

M. Yoshizawa, in Peking, Refuses to Meet M. Karakhan's Request

Peking, Aug. 21.—K. Yoshizawa, Japanese Minister to China and senior diplomat at Peking, has informed M. Karakhan, Russian Ambassador to China, of his refusal to situate among the members of the diplomatic corps representing the protocol powers the Kygkhan note regarding the transfer of the Russian legation to the Soviet Government.

The refusal, it was said, was due to irrelevant matters and personal allusions contained in the note. Yoshizawa is expected to have suggested to Karakhan that he draft his note in more moderate terms.

IS STUDYING WESTERN CONDITIONS

Meeting various publicity bodies and officials of the Department of Agriculture is Eldred G. F. Walker of Bristol, England, an experienced agricultural journalist, who is touring Canada to renew acquaintances with various phases of country life.

Mr. Walker, who is connected with The Western Daily Freeman, Bristol; The Bristol Evening News; and The Bristol Observer, says that conditions are rapidly becoming normal in Great Britain. Labor has assumed a more conciliatory attitude, and the cost of living is falling.

Mr. Walker, who is the author of several books, including one entitled, "Canadian Trails," is revisiting Canada after an absence of twelve years, and for two months has made visits to numerous agricultural districts from coast to coast.

There was again a heavy attendance at the Fair to-day with the interest in the exhibits added to by the fact that most of the awards have now been placed. Stock awards, poultry awards and the remainder of the goat awards are announced to-day.

NEW YORK MAN CONFESSES HE SET OVER 100 FIRES

New York, Aug. 21.—A self-styled Dr. Jekyll and Mr. Hyde—an unassuming young man of twenty-six—blatantly confessed to the police yesterday that he had caused over 100 incendiary fires on Manhattan Island in the last few months, "just to see the fire engines in action."

"It was a lot of fun," he explained with a smile, "to stand in front of a burning house and know the people running from the place so madly didn't know the one who had made all the excitement was right there looking at them."

BOY OF ELEVEN SENT THREATENING LETTER TO FRANKS

Earl Smith and Brother, Seventeen, Under Arrest in Chicago

Chicago, Aug. 21.—Earl Smith, eleven-year-old schoolboy, is under arrest, charged with having sent a threatening letter to Jacob Franks, father of the murdered fourteen-year-old Robert Franks.

The lad was said to have admitted his seventeen-year-old brother, Fielding, and other companions were confederates in demanding \$5,000 from Mr. Franks on the threat that his wife and daughter would be killed.

Earl told the detectives Fielding had dictated the letter and the older boy was also arrested.

PHILIPPINE INVESTMENTS

Manila, Aug. 21.—The Senate passed a bill requiring all foreign insurance companies to invest fifty per cent of their profits made in the Philippine Islands in Philippine securities or real estate. The bill is now before the House.

MRS. W. MAYWORTH OF VANCOUVER WAS KILLED IN OTTAWA

Ottawa, Aug. 21.—Mrs. W. Mayworth of Vancouver was killed here last night when an automobile driven by G. Weston of Ottawa skidded on a wet pavement into a telegraph pole.

Mrs. Mayworth, who was sitting in the rear seat, was thrown out of the car and received injuries about the head from which she died.

Mrs. Mayworth with her sisters, Mrs. A. J. Mason of Winnipeg and Mrs. Matcovski of Detroit were in Ottawa attending the golden wedding celebration of their parents, Mr. and Mrs. W. R. Taggart.

PATHETIC TRAGEDY

Pathetically sad is the tragedy that took the lives of two men who born in the same town, and whose bosom friends through sixty-six odd years of life. Just how they came to their end is lost in a mist of uncertainty, through which police investigators to-day were trying to piece together the events of the accident leading up to the double tragedy.

Mr. McLachlan had spent the evening with a friend at the Ballantyne residence on North Quadra Street. At 9.20 p.m. both left the house, the host to see Mr. McLachlan to the Lake Hill bus due to leave ten minutes later. Within fifty yards of his own gate the body of Mr. Ballantyne was picked up later, terribly mangled. That of Mr. McLachlan lay near by.

SKULLS CRUSHED

The skulls were crushed, and human brains were scattered along the road.

AMERICAN DAY AT PROVINCIAL FAIR IS SATURDAY FEATURE

Over Eight Thousand People Passed Through Willows Gates Yesterday

The interest shown in the great stock entry, the betless horse racing and trotting racing and keen jumping competitions, the exceptionally good displays in the buildings combined with the ideal weather have assured the success that was hoped for by the organizers for the Provincial Fair at the Willows Park.

Citizens Day, yesterday, there were over 8,500 people in attendance and the enthusiasm with which the trotting and horse races and the jumping exhibition was received had induced the officials to stage a similar programme Saturday which has been billed as American Day and Club Day. Invitations are extended to the many United States tourists visiting the city and a request is made through the press that service clubs and ex-service men's clubs organize parties for the fair to help make it the real community event that Fall fair should be.

HORSE WAS KING

The horse, which was king on Wednesday, will sign again on Saturday and the fine jumpers and runners which were received with such enthusiasm by the great crowd which lined the grandstands yesterday will be on view again. In addition to the six races and other events of the horse show, there will be a stock show, there will also be another live stock parade Saturday, starting at 3 o'clock. A band will be in attendance.

There was again a heavy attendance at the Fair to-day with the interest in the exhibits added to by the fact that most of the awards have now been placed. Stock awards, poultry awards and the remainder of the goat awards are announced to-day.

Since 1728

the secret of FRY'S world-wide success has been its delicious flavor.

AFTER NOISY SESSION FRENCH CHAMBER UP-HOLDS DAWES PLAN

(Continued from page 1) The Germans. And the German delegates in London, through the British Prime Minister, had made it plain that the Reichstag would not accept the proposed plan unless the Ruhr were evacuated. Nevertheless, M. Herriot went on, he had come before the Cabinet in Paris "decided to limit to a maximum of one year the military occupation of the Ruhr."

He said that this was to risk again a rupture of the conference, the Premier added, and he became convinced that if France remained in the Ruhr except for a definite stay she would stay there absolutely alone.

SUBSTANTIAL GAINS

The advantages he had obtained at the London Conference, the Premier insisted, "do not strike the imagination, but they are substantial advantages."

They would appear considerable to all those who believe with the experts that defaults and penalties must be avoided as much as possible and that the reparations problem must be solved peacefully and righteously.

The Premier asked Parliament whether it wanted "to follow chimeras, to foster illusions, and to repeat your illusions, or to assure to France realities."

MUTUAL ASSISTANCE

M. Herriot repeated his promise to go before the Assembly of the League of Nations at Geneva in support of the Pact of Mutual Assistance and to urge the League to organize its right of investigation under the Treaty of Versailles in regard to states whose armaments are limited by treaties.

He said the French delegation had done its utmost in London to bring forward the problem of inter-allied debts, but it had found it impossible to graft this question on the question of the execution of the Dawes plan. This, however, he added, would be discussed at another conference.

M. Herriot reminded Parliament that he had obtained an agreement from the British at London that they would not withdraw from the Cologne area until it was determined that Germany was fulfilling her obligations.

VIOLENT OUTBURST

A violent display by the Communists forced Paul Painleve, President of the Chamber, to discontinue the sitting after the Premier had finished his statement.

M. Marty's language had been so unrestrained that M. Painleve at various times warned him, but when he finally produced the Communists' immunity poster and waved it from the rostrum, M. Painleve put on his hat, signifying the session was at an end.

EXTREMISTS NOISY

The Communist deputy then started to scale the secretary's desk and to occupy the Speaker's empty chair, but the ushers prevented this move in time and hastily evacuated the Chamber and its galleries while the

Extreme Radicals kept on crying "Amnesty."

The phrase which made M. Painleve suspend the sitting was Marty's shouted declaration: "All the Ministers are filthy scoundrels."

KINDERSLEY SAILORS AWAITING RESCUE

(Continued from page 1) crippled by the frozen waters of the southern part of the Arctic Ocean and returned to her thirty-eighth annual cruise in the north.

SAILORS ARE ASHORE

San Francisco, Aug. 21.—Word was received here, to-day by Liebes & Company, furriers, that their gasoline schooner Arctic, sent North for furs each year, is a total wreck and her cargo destroyed after being crushed in the ice off the Alaska coast August 10.

The crew list of the Hudson Bay Company Motorship Lady Kindersley, Captain Gus Fossler, Vancouver, was reported to Shipping Master Campbell in Vancouver before the vessel cleared from there for the North, was as follows:

Abbie Seaman—J. Yavosky, Vancouver; J. Fitzgerald, Vancouver; O. Hanson, Vancouver; H. H. Pribuy, Vancouver; John Fraser, Vancouver; and A. Kilop, Vancouver.

Other ratings—G. Jones, Vancouver; steward, R. C. Turner, Victoria; cook, J. Pitman, Manchester; wireless operator, C. J. Cotton, Vancouver; carpenter, and G. Wayne, Vancouver, carpenter.

HEROIC LEADER OF WORLD AIR EXPEDITION DUE HERE

(Continued from page 1) On her arrival here the Thielpal steamed into Esquimalt Harbor, which is her base of operations in the Dominion fisheries service.

Major MacLaren and Lieut. Plenderleith will be the guests of the Esquimalt naval officials at the naval barracks over the week-end, and will leave Sunday for Vancouver en route East.

TO SPEAK HERE

At noon to-morrow Major MacLaren will speak at the Empress Hotel of his experiences during the

attempted world flight before the Canadian Club here.

Major MacLaren has signified his intention of seclusion, and declined the invitation of one of Victoria's service clubs to speak, as he stated by wire that he was engaged, but he thanked the club for its kindly message of greeting and said that he was sorry he could not accept the invitation of the organization.

Major MacLaren pays Flight Lieut. Plenderleith a high compliment, when speaking of their adventures shortly after leaving Akayab and getting into the fogs of the mountain country, he said: "The machine was buffeted about like a cork in a torrent, and Plenderleith was wonderful."

WELCOME AT VANCOUVER

Squadron Leader MacLaren arrived in Vancouver as modestly as he had done elsewhere. Yesterday when hundreds had gathered at the docks to cheer him, he debarked at Jericho Beach and went to the docks with Flight Leader Godfrey by car. It was not for some time that the public realized he was among them.

It is not the first time Mr. MacLaren has been in British Columbia, and when he first came here no cheering crowds greeted the future hero. He came to get a job, and like many more who arrived from the Old Country in 1919 he found some trouble in securing it, landing a position eventually as timekeeper. He finds the present reception somewhat embarrassing after the experiences of the past.

HIS STATEMENT

He explained to the press in Vancouver: "I feel I cannot say enough in appreciation of the splendid aid Canada has given us. Without her aid and the fine assistance of the Thielpal it is hardly likely we should be here."

The warmth of our welcome here only adds to the obligations of myself and my companions to the Dominion."

The Thielpal drew into Jericho Beach at Vancouver after 3 o'clock yesterday and the launch tender of the Royal Canadian Air Force immediately came out to meet it. Squadron Leader A. E. Godfrey, officer commanding the Vancouver unit of the air force, boarded the Thielpal from the hull of the wrecked seaplane was slung over the side and towed to the station, where it will be crated and shipped to England. The engine was loaded on a dory and put in the Jericho Beach machine shop. It is likely that it also will be sent back to England as the firms which supplied hull and engine will probably wish to make certain tests as to how the machine stood up under its gruelling task.

Plenderleith, Lieut.-Col. Broome and Sergt. Andrews were greeted by the personnel of the Jericho station and shown over the equipment there.

LOCAL DOCTOR RELEASED TO-DAY ON \$10,000 BAIL AFTER HEARING IN COURT

(Continued from page 1)

east side of the road for a distance of some six feet. Both bodies were found in the ditch, just off the paved way, and at some distance from what police believe to have been the point of impact.

The two men had walked on the left hand or east side of the road, the correct position in which to avoid traffic approaching from the city on their side of the road. They were struck from behind.

From car marks in the roadway, now much confused, owing to the heavy motor traffic that has passed since last night, police believe that the car driven by Dr. Duck, an Oldsmobile model, sighted the two men at the side of the road, for the car bore away from the crown of the road to the west, or right hand side, and finally climbed a slight bank before coming to rest with both wheels in the ditch on the other side.

The car following believed to be that of Dr. Boak, a McLaughlin Six, appears to have turned out to the east, or left side of the road as if making an effort to breast or pass the first vehicle. The wheels of the car left the paved way, crossed into the ditch and bank at the side of the road and shot through a hedge to fall some ten feet to a declivity on the other side.

At the juncture of the place where the McLaughlin car left the paved way and crossed into the ditch, say the police, blood stains were found. Further on by several feet were the marks made by the two bodies as they were later found.

The actual accident appear to have been unseen except by those in either car. Three passengers including drivers rode in each car, it is understood, all men, returning from the crash at Brentwood Bay. After the crash a crowd collected quickly and aid was called. Both injured men were beyond human aid, however, and their bodies were turned over to the city police for conveyance to the city.

Three occupants of one of the wrecked cars rode to the city in the ambulance.

POLICE AT WORK

Saanich police arrived on the scene shortly after the fatality, and reported to daylight-to-day to take measurement and to try and reconstruct the tragedy of the night before. Chief Brogan, Sergeant Rankin and other officers are still working on the affair, with a view to clearing up the mystery surrounding the actual impact which killed both men.

The late Mr. Ballantyne was born at Lanark, Ontario, sixty-six years ago, coming to Victoria thirty-eight years ago. He was employed as a compositor in local newspaper offices and more lately in the Government printing office, from which he retired on pension in September last year. The late Mrs. Ballantyne predeceased her husband by three years. Of a wide circle of friends the late Mr. Ballantyne found in the late Mr. McLachlan his closest companion. They spent the evening together and met death at the same instant

and in the same manner. The late Mr. Ballantyne leaves to mourn his loss one daughter, Mrs. E. W. Andrews, Ross Street, and three sons living at home, Allan, Gordon and Clyde respectively.

The late Mr. McLachlan was also born in Lanark, Ontario, sixty-seven years ago. He came to Victoria in 1902 and was engaged in harness making in the first years of his stay in this city. He later joined the ranks of the transmission staff of the B. C. Electric Railway, retiring three months ago when faced with a major operation from which he was just recovering at the time of his tragic death. The late Mrs. McLachlan predeceased her husband in December, 1923. One daughter and two sons survive, Mrs. A. M. Duncan, 1030 Empress Avenue; C. R. McLachlan, Park View Apartments, and M. N. McLachlan, manager of the A. & K. interests at Prince Rupert.

MANY AT SCENE

The scene of the tragedy this morning was visited by hundreds of automobile parties from the city. One by one the sightseers probed about the roadway and ditches until shocked by fragments of human remains still lying in the ditch. Examined by laylight both cars bear very little marks, except what might come through their course in leaving the road. The Boak car has a bent and broken headlight on the right side of the vehicle, and suffered some damage in plunging over the bank. The other car rests on four wheels in the ditch on the other side of the road, almost unscratched.

INQUEST

The Times-to-day Dr. E. C. Hart, coroner, stated that an inquest would not be held until the police have made a thorough investigation of the whole affair. The results of the post mortem this afternoon will be laid later before the inquest jury. Head injuries, it is understood occasioned death in both cases.

BOY OF ELEVEN SENT THREATENING LETTER TO FRANKS

(Continued from page 1)

Fielding told the officers, they said, that several days ago his little brother showed him a crude letter addressed to Mr. Franks and demanding money.

IN SPIRIT OF FUN

"That letter is no good," the officers said Fielding told Earl. "Here, use this one."

The older boy then dictated the letter Mr. Franks received, doing it in a spirit of fun, he insisted.

ARGUMENT BY COUNSEL

Chicago, Aug. 21.—Failure to hide sufficiently the body of Robert Franks was the breaking point in the plot of Nathan F. Leopold Jr. and Richard Loeb, according to the state's analysis of the crime given to-day before Judge John R. Caverly by Joseph Savage, Assistant State Attorney. In impassioned denunciations of the defendants and with waving arms and pounding fists, Mr. Savage told the court that if Leopold had forced the body well into the culvert

instead of pushing it with his foot, it would not have been found. "They would not have been apprehended in 100,000 years," said Mr. Savage.

IDENTIFICATION OF BODY

He described the attempts to get \$10,000 ransom from Bobby Franks' father, pointing out that the identification of the body had become known to Mr. Franks only five minutes before he received his last message from "George Johnson," the name used to sign the ransom letter. "It was a coldly intellectual plan, devilish in its deliberation," said Mr. Savage.

DEFENSE ARGUMENT

After Mr. Savage concludes the defence will start its final summing up. Walter Bachrach is scheduled to make the first address, paralleling Mr. Marshall's legal reasoning. He will be followed by his brother, Benjamin, and these arguments are expected to consume the balance of this week.

Clarence S. Darrow and Robert E. Crowe, state attorneys, will match eloquence in the last of the arguments which are leading up to the sentence Judge Caverly is to pronounce.

DOCK STRIKE ENDS

Havre, France, Aug. 21.—The dock employees who went on strike recently returned to work to-day on the terms of the companies. The strikers had demanded an increase in wages.

It's Easy Now to Curl Hair to Stay Curled

To curl the hair to stay curled, nothing equals the simple simerine method. If a little liquid simerine be applied with a clean tooth brush before doing up the hair, the loveliest wave effect imaginable will soon be in evidence, and this will last the longest time, regardless of temperature or humidity. The curliness will look perfectly natural, and the hair will be beautifully glossy, yet without the least excess of stiffness.

Liquid simerine is quite inexpensive, costing not more than twenty cents an ounce at any drug store.

ANNOUNCEMENTS

The Vogue School of Millinery now open for Fall season. Phone 2587.

Ask your grocer for Maltby's Creamery Butter; quality guaranteed.

Butter—Insist on the best! Look for fresh made Salt Spring Island creamery.

Razor Blades Resharpened—F. D. Cox, 627 Fort Street.

Neties to Housewives—Buy Frostone Preserving Peaches now. Later arrivals will likely be higher in price.

Dr. Irene Bastow Hudson has moved to 639 Harbinger Avenue. No change of telephone. Office in Stupart Building as before.

### FIFTY THEATRES IN U.S. MAY CLOSE AS RESULT OF STRIKE

New York, Aug. 21.—Unless their demands are met before Labor Day, between 4,000 and 5,000 stage hands, musicians and other theatre employees throughout the United States will go on strike. Fifty theatres, exclusive of vaudeville, motion pictures

and burlesque houses, either will have to close their doors or attempt to break the strike with the aid of non-union help, it is estimated. The unions are demanding wage increases ranging from ten to fifty per cent.

### JUMPED TO DEATH

Winnipeg, Aug. 21.—Despondent because of ill-health, Peter Kosowies, sixty-eight, a retired laborer, jumped to his death from the top of a nine-

story departmental store building in the centre of Winnipeg's business district yesterday. His head struck the sidewalk and his skull was fractured.

### RE-MARRIAGE POPULAR

Toronto, Aug. 21.—Fred Williams, issuer of marriage licences at the City Hall, states that up till August 19 he issued licenses to no fewer than eleven couples whose divorces were made absolute on June 19, to re-marry each other.

## SIR WILLIAM BRAGG SPEAKS IN WINNIPEG

Distinguished Physicist Are Traveling West With British Association Members

Winnipeg, Aug. 21 (Canadian Press Staff Correspondent).—There is a great similarity between the work of the scientist and the explorer of a new country, said Sir William Bragg, distinguished physicist, in addressing a luncheon tendered to visiting members of the British Association by the City of Winnipeg to-day. "Like the onward march of civilization, the progress of science is a succession of rushes. The pioneer forces a passage over a range of mountains and finds a valley lying before him which must be explored before the next range is attempted. Just so then scientific research, the solution of some difficult problem or some far-reaching discovery, opens out a great field of fascinating and useful inquiry.

"One of these forward rushes is in progress at present in the light thrown on the nature of atoms by Sir Ernest Rutherford and in the analysis of the crystals of solid substances by the use of X-rays. "We can put as yet, in what way this new knowledge will be brought home to us, but that its effects will be profound we may be perfectly sure. Physical science in the present is full of possibilities and promise."

Winnipeg, Aug. 21.—Eminent members of the British Association for the Advancement of Science, now traveling westward across Canada had no conception of Ontario as an industrial centre. Amusement has been expressed at the rapid growth of the mining industry on each of the occasions when the trains stopped to permit a survey of mines and concentrating plants, but the conviction that the use of the most up-to-date methods has been a feature of the big development of the past decade was brought home with telling force by a visit to Ingo's Falls and the properties of the Abitibi Paper Company.

Views expressed in an interview with the Canadian Press by Lord Bledisloe, chairman of the Rothamsted Experimental Farm in England, were typical of the feeling toward New Ontario which has developed among the distinguished visitors as a result of what they have seen in the last four days. Lord Bledisloe said:

"To see the enterprise with which new industries have been developed in this region is one of the most striking aspects of my visit to Canada. The variety of metals obtainable in the different mine areas in such a continuity is not found in most metalliferous districts.

**FARM AREA GROWS**  
 "The vegetation throughout the clay belt shows that the area is fertile and worth developing, agriculturally. Farming will become increasingly important as settlement pushes out from the present centres. In my opinion the forests are an endless source of supply, but they must be cared for. Fire damage must be held in check, and the methods of reforestation must be systematized."

### Graham Looks For Solution of Problem of Freight Rates

Woodstock, Ont., Aug. 21.—"The present Crow's Nest Pass situation cannot continue," declared Hon. G. F. Graham, Minister of Railways, when, with Premier King and Hon.

## SOVIET WELCOMES NEW BRITISH PACT

Russian Government to Begin Work on Details of Agreement Saturday

Moscow, Aug. 21.—The negotiation of a treaty between Soviet Russia and the British Government at the recent conference in London was hailed as a triumph for the Red diplomacy at a meeting of the Soviet last night.

The Government will begin work on further details of the agreement Saturday, after the Soviet delegation has made its report to the Council of Commissioners.

Christian Rakovsky, who headed the London delegation, and Foreign Minister Teltcherin spoke to the workers at last night's meeting. M. Rakovsky, after reviewing the progress of the negotiations and the terms of the agreement, said:

"The treaty was not signed without scratches as its birth was most complicated."

His terms, he pointed out, did not conflict with the principles of the Soviet regarding nationalization and the annulment of debt. The principal reasons made were only of a practical character.

Only claims which the Government considered practical or acknowledged to be necessary in compensation of social justice would be paid, he said.

He predicted that the treaty would be ratified.

## LIGHTNING STRUCK NEAR COOLIDGE HOME

Telegraph Line at Store in Plymouth, Vermont, Was Damaged

Plymouth, Vermont, Aug. 21.—Lightning struck about the President's home here during the severe storm late yesterday afternoon and night, one bolt putting out of commission the telegraph apparatus in the temporary business office of the general store. The store is situated about fifty yards from where the President and his family are staying at the home of his father, John Coolidge. Electrical workers were kept busy several hours repairing the damage, but no material injury was done by the bolt.

President Coolidge and his family apparently were not disturbed. No wires go into the Coolidge home and the real effect of the bolt was not felt there.

## SAN FRANCISCANS TO RECEIVE SUMS

German Property Seized During War Will Pay Old Insurance Claims

San Francisco, Aug. 21.—Some 900 property owners in San Francisco who suffered losses in the 1906 fire, for which German and Austrian insurance companies refused to recognize claims, will be reimbursed to the full amount of their policies, with an additional five per cent. The claims amount to more than five million dollars.

Payment of the policies was made possible by the seizure of assets of the foreign companies valued at \$25,000,000, which the Government took over when it entered the Great War and since has refused to restore on the ground that the insurance claims had not been paid.

## OF INTEREST TO AUTO TOURISTS

In arranging your Summer trip, you will be pleased to learn that effective July 3, there will be two sailings of the Motor Princess between Bellingham and Sidney, leaving Sidney for Bellingham at 10.45 a.m. and 6.10 p.m., from Bellingham to Sidney at 7 a.m. and 2.30 p.m., daily, including Sunday.

If you have not made the eluent, which you can do by also including the trip between Vancouver and Nanaimo, with sailings from Vancouver at 5 a.m. and 1 p.m. (for all-sized cars), 10 a.m. and 5 p.m. (for smaller cars), daily except Sunday; Sundays at 5 a.m. and 1 p.m. (for all-sized cars). From Nanaimo to Vancouver at 7 a.m. daily except Sunday and Monday (for small cars), 2.15 p.m. daily except Sunday (for small cars), 9 a.m. and 5 p.m. (for all-sized cars) daily, including Sunday.

## SOVIET WELCOMES NEW BRITISH PACT

Russian Government to Begin Work on Details of Agreement Saturday

Moscow, Aug. 21.—The negotiation of a treaty between Soviet Russia and the British Government at the recent conference in London was hailed as a triumph for the Red diplomacy at a meeting of the Soviet last night.

The Government will begin work on further details of the agreement Saturday, after the Soviet delegation has made its report to the Council of Commissioners.

His terms, he pointed out, did not conflict with the principles of the Soviet regarding nationalization and the annulment of debt. The principal reasons made were only of a practical character.

Only claims which the Government considered practical or acknowledged to be necessary in compensation of social justice would be paid, he said.

He predicted that the treaty would be ratified.

## Bavaria Holds World Record For Drinking of Beer

Munich, Aug. 21.—Bavaria holds the world record for beer drinking with sixty-seven gallons per person a year, according to a German statistician.

Holland is next with fifty-four and one-half gallons per capita. Ten years ago the average in England was thirty-one and one-half gallons, but now it amounts to thirty-nine gallons.

The French are the champion wine drinkers, with 28.3 gallons per capita.

## WINDERMERE CAMP VISITED BY TEACHERS

Delegates Who Were in Victoria Enjoyed Themselves There

Windermere Camp, B.C., Aug. 21.—A pow-wow that would have done credit to David Thompson and his dusky voyageurs was held last evening by members of the Canadian Teachers' Federation in the log fort built in memory of that intrepid explorer on a promontory overlooking Lake Windermere.

The teachers, on route to their homes on the prairies and in Eastern Canada after their convention in Victoria last week, arrived at the Windermere bungalow camp yesterday morning on a special Canadian Pacific railway train.

They were met by the Windermere president of the Windermere Board of Trade, R. G. Hamilton, and B. G. Hamilton, secretary of the Board of Trade, which had charge of the day's entertainment. Golf enthusiasts made their way immediately to the links. Women who had riding tops and those who could improvise their explored the country on horseback. A motor drive to the Government Experimental Farm, where R. G. Newton, superintendent, received the party, was followed by a visit to the Windermere Creamery.

There some of the members of the party were thrown into conversation by the discovery on the Windermere scales that they had gained from three to eleven pounds since leaving the East.

A dance in the evening at the Thompson Memorial Fort was the crowning event, and the echoes of merriment around the palisade and bastions of the fort might have aroused the envy of ghosts of the early travelers who first made known to the world this favored valley. The place is a favorite home of authors and members of the Canadian Women's Press Club. Helen Sandwell lives here. Murray Gibbon has a Summer home about two miles away, and Eva N. McKowen lives at Cranbrook.

The teachers had luncheon and dinner at the bungalow camp, slept in their train, which was packed for occupancy all day, and left early this morning for Banff by motor, over the Banff-Windermere highway.

- 3rd—One dozen baby size Pacific Milk—Elmer Roos, 2987 Eton Street.

## Whiteman in Barn Rehearses Orchestra For World Jazz Tour

New York, Aug. 21.—Paul Whiteman has taken his touring jazz band to his country estate in Long Island. Here in a deserted farm house, the famous leader who made high-brows recognize jazz, rehearses his band for a trip around the world.

Clad in bathing suits, the musicians struggle with new strains of syncopation, while outside ducks quack and chickens crow and cackle.

During recess moments the musicians dash to the beach, but two minutes away, and after a refreshing dip, return dripping to the toil of preparing a programme to be heard around the world.

After playing across the continent and doubling back, Whiteman will take his organization of music makers to London, Paris and other principal cities of the world.

He will be accompanied by his wife and recently arrived heir, Paul Whiteman and various members of his band became very friendly with the Prince of Wales during their London engagement last season. It is expected when the Prince arrives here to attend the international polo contests that Whiteman and his band will have prominent place on his programme.

## WORKERS' PARTY'S STARTING CAMPAIGN

W. Z. Foster is Organization's Candidate For Presidency of U.S.

Chicago, Aug. 21.—Active campaigners for the Workers' Party ticket, with William Z. Foster of Chicago for President of the United States and Benjamin Gitlow of New York City for Vice-president, will wage their fight almost exclusively in the large industrial centres of the country, their headquarters here announce.

### TO LEAD SPEAKERS

Mr. Gitlow will head a dozen prominent Communist speakers who will start on a nation-wide tour this month, carrying "the Communist message" to the workers and farmers. "Wherever it is possible to get presidential electors on the ballot, a state campaign will be opened. In Illinois their candidate for Governor is William F. Dunn, Chicago. According to the official programme the party plan is "to run candidates nationally in the states, and locally under the name of the Workers' Party, wherever it is possible for us to put candidates on the ballot, and to include the nomination of presidential electors in every state in which we can get on the ballot. The national office will issue a series of campaign leaflets which will be distributed by the party organizations in millions of copies."

The party headed by La Follette as well as the Democratic and Republican parties will draw fire of the Workers' Party speakers. "It is the supreme duty of the Workers' Party," the central executive committee has announced, "to rise against the petty bourgeois alliance which is menacing the workers. La Follette is a menace to the labor movement. Part of the organizations which participated in the

WELL DONE MACLAREN

If the British attempt to fly round the world had been undertaken by two or three machines instead of one it is fairly certain that the people of Victoria would not have had the pleasure and privilege of extending a welcome to the gallant party which will arrive in the city to-morrow morning.

Major MacLaren and his companions very naturally feel that an unkind fate has cheated them out of the prize upon which they set such store. After overcoming many formidable obstacles during the most difficult and trying part of their journey it must have been particularly galling to meet defeat just as they were about to emerge from the uncertain and treacherous elements of the Bering Sea and make their final leap into a more friendly atmosphere.

From the narrative which already has been told in part, and from the modest references of a more personal nature which Major MacLaren will no doubt make when he addresses the Canadian Club to-morrow, British people the world over will realize once again that the sporting instinct of the race will not down. The "expedition" was not necessary; its leader and his companions knew that complete success would merely demonstrate the feasibility of flying round the world in a heavier-than-air machine.

On the other hand both British and American efforts to circle the globe by the aeroplane route were tests of human endurance and mechanical skill. Pluck and resource underwent many challenges and did not fail. The British aeroplane, particularly the engine, did wonderfully well; but it was asking too much.

PROGRESSIVE SAANICH

In many forms of public enterprise the municipality of Saanich has demonstrated its progressive capacity. Its latest example of community labor and co-operation may be seen in the Main Building at the Fall Fair.

The stranger who examines an exhibit of this kind must be seized with the capabilities of the locality from the point of view of production. It is there demonstrated that this part of Vancouver Island is capable of producing the manifold variety of vegetable for which there is ample demand.

In the Saanich exhibit, moreover, there is both a convincing demonstration of the producing capacity of the municipality and a tangible reminder of what can be done in the way of attractive advertisement by combined effort. In fact our neighbor's entry is another striking tribute to the progressiveness of the municipality.

A GOOD ARRANGEMENT

FROM the general idea of the plan which is contained in a dispatch from Ottawa it looks as if the arrangement which the Hon. J. A. Robb has made with the British Government in respect of financial assistance to settlers who are ready to go on the land in Canada ought to work successfully.

It was hinted some time ago that the Minister of Immigration had persuaded the authorities in London to assist financially in the actual and immediate settlement of emigrants in addition to the making of loans in respect of transportation. This is the scheme which has now been embodied in an agreement to which Mr. Robb attached his signature yesterday.

It is expected that two or three thousand will form the first batch to take advantage of the new arrangement and that these, for the most part, will take up farms which have been surrendered by those who secured them under the soldiers' settlement scheme. These migrants, however, will be selected according to their qualifications. They will have to demonstrate their suitability before any financial obligation is accepted in their behalf.

While the agreement into which Mr. Robb has entered is obviously a start in the right direction as far as obtaining settlers from Great Britain is concerned, it is to be hoped that

its success will persuade the British Government that the expenditure of public funds on loans of this character would be a good deal more beneficial to the national exchequer than the payment of doles without prospect of return of any kind.

Selective immigration, of course, must be taken as merely an incidental as far as the plan to get more population for this country is concerned. There will have to be, and none better than the Minister of Immigration realizes its importance, a general influx of the average immigrant if national development is to progress as rapidly as the economic condition of the country demands.

The plan which is about to be launched, however, should make for certain success in the case of several thousand newcomers. This in itself ought to react advantageously on the broader sense and focus more attention upon the advantages Canada offers to the willing worker.

SUCCESS AT SUMAS

ONLY a comparatively short time ago the waves of Sumas Lake were washing over more than 30,000 acres of fertile land. Nothing could be produced on this large area. Annual submersions foiled the farmer.

The scene has changed. To-day the swish of the waters has been replaced by the clatter of binders. The final answer has been given to those sceptics who used the Sumas reclamation scheme as a political football—held it up in the Legislature and on the public platform as a sample of the Government's alleged profligacy and incompetence.

Mr. Barrow defended this project against all comers. He was justified in his optimism. Thirty thousand acres of the most fertile land in the Province are now at the disposal of the agriculturist. Nature has yielded a victory to the skill of man.

A PRACTICAL EXHIBIT

FOR its magnificent and highly instructive exhibit at the Fall Fair the Forest Branch of the provincial Department of Lands is entitled to the warmest congratulations.

The tableau of the "green forest" conveys some idea of the beauty which should be preserved by those who go into the timbered districts on holiday bent. It issues a mute appeal to campers who are not always as careful as they might be with fire and warns the careless individual in general that his thoughtless act may result in a landscape of blackened sentinels.

In the timber section one may learn something of the importance of the industry and the markets to be developed. And it is an excellent idea to let the general public know what the natural resources of the Province mean by displaying them in a form which can be understood.

One of the chief reasons why British Columbia's timber exhibit at the British Empire Exhibition at Wembley has been such a success is because the woods of the Province are there shown in their finished state.

The complete bungalow is worth ten times more as an advertisement of interior and exterior finishings than it would be if the same materials had been assembled in a more or less museum-like collection.

It must have cheered the members of the British Columbia Agricultural Association to see so many people at the Fair yesterday afternoon. Those who went certainly had their money's worth.

We are now told that a forged telegram induced Emperor Francis Joseph of Austria-Hungary to declare war against Serbia in July, 1914. Germany was the source of many fables before the war. This one from Vienna can keep them company.

The United States is worrying over the fact that when Great Britain pays the next instalment of her debt at Washington she will pay it in gold. To be choked with gold is apparently as bad as being choked with anything else.

South Africa's view of the proposed Imperial Conference is that it is doubtful if much would come of it unless the Dominion Prime Ministers themselves were there. There is point in the argument; and the British Government should fix a date that would suit everybody.

THE DIFFERENCE

From The Vermillion Standard Henry Wise Wood said that in 1919 everybody was prosperous. In 1919 we were cashing in the chips, but now we are clipping in the cash.

NOTORING IN THE COUNTRY

From The Philadelphia Bulletin The farmer is not an unreasonable person. He likes his kind. He rather enjoys a visit with city folks. Any motorist who has toured at all extensively will bear witness to the kindly courtesy and quick and forthcoming in case of accident or wayside repairs. But the country is not a sort of no man's land, in which everybody has license to do damage at will. And the holidaying Philadelphian, for the sake of his city's good name, should so conduct himself that the villager and agriculturist will regard him as something better than a common nuisance.

WHAT IT WILL COME TO

It was upon the Rue de Sparks in "nineteen-twenty-six" That the traffic got congested And tied into a fix. The crowd it kept on growing Till it got out of hand, The police could not control it. There wasn't room to stand. The clerks they ran out of the stores. The customers as such, So see what it was all about, And watched the crowd to swell.

It was not Mary Pickford, Nor yet the Prince of Wales, Nor yet spotted unicorn, Head of an fairy tale, What was this weird, uncanny sight That made the people stare? 'Twas just a lady walking Abroad—with UNBOBBED HAIR.—Zootica.

Dr. Frank Crane on "The Revolt of Youth"

(Copyright)

In dealing with what is known as "the revolt of youth" we must take into account what education is.

Much of the revolt of youth is an expression of the spirit of independence, a revolt of the young person against adopting the ideas or methods that are not his own.

According to Dr. W. S. Howard, Corresponding Secretary of the Board of Sunday Schools of the Methodist Episcopal Church, one phase of what has been called the revolt of youth may truthfully be called the collapse of restraint.

"Parents have almost quit raising their children," said Howard, "they wear no badge of authority, and society in general refuses to train up children in the way they should go."

This of course is not so. The children of to-day are as good as they ever were and the children of to-morrow will be better. Dr. Howard's alarm is merely at a revolt against authority and it is not authority that children need so much as the proper development of their individuality.

This is not a plea for the absence of restraint among children, but it is rather a plea for placing the restraint in the right place. It should be within them.

Attention has been called to the collapse of authority. There is no collapse of authority. The only right place for authority is within one's self. No amount of training or discipline will do anyone any good if it is training and discipline in response to an outside stimulus.

It must be inside. The child should be trained to exercise and use his own faculties. In the using of these he will develop the necessary strength.

If more attention is paid to the development of children in the proper way and less attention to the sustaining of certain standards of society for children, more good will be done.

We should always keep in mind in matters of education that in a short time we will be gone and the responsibility of the world will be placed upon the shoulders of the children. Anyone who realizes this will realize that it is more important to develop strength in children than it is to develop our own authority over them.

Allegiance of Iroquois Indians in 1688

ON August 21, 1688, the new Governor, Sir Edmund Andros, whom King James II. of England had just sent to rule the colonies of New Jersey, New York and New England, sent a letter to the Governor of Canada, the Marquis de Denonville, officially announcing his arrival, explaining his commission to administer the continent as far as the Pacific Ocean, and, to the intense annoyance of the Marquis, affirming that the Iroquois Indians were British subjects and their lands British lands. This was the same pretension which Sir Edmund's predecessor as Governor of New York, Colonel Thomas Dongan, had advanced the year previous, when he had at last persuaded his royal master to accept responsibility for these savages and to own them as subjects. The Marquis de Denonville and his predecessors had combated this idea most strenuously, claiming the Iroquois as their Sovereign's subjects, and claiming the Iroquois lands as French territory by right of prior discovery, which was true enough, and by right of the occupation by the Jesuit missionaries. On this claim the choleric Governor Dongan, an impetuous, though acute, Irishman, had poured scorn in several vigorous, if ungrammatical letters, and had proceeded to obtain a dominance of the Iroquois in a succession of councils. The Marquis had complained most bitterly to his sovereign, and Louis of France, whose influence over the policies of England had been very great since the return of Charles II. in 1670, managed to procure the removal of the offending Dongan.

That the new governor, Sir Edmund Andros, should begin the dispute afresh, abating not a jot the British pretension to rule the Iroquois, was most exasperating, and, further, the Iroquois had now taken the warpath and were most effectively terrorizing the whole French settlement in the valley of the St. Lawrence. The Marquis had no doubt whatever that they had been set on by the English colonial administration, and, though Governor Dongan denied this, there is no doubt that at least his attitude and his policy were responsible for the extent and the fury of the Iroquois movement.

It is safe to assume that when the Iroquois accepted the King of England for their lord they had not the least idea of what was meant. It would seem that they thought they were securing a powerful protective ally. They could not afford to break with the English, for they needed English trade. It was from the English, at Albany that their guns, ammunition, knives and kettles came, and as the years passed they became more and more dependent upon an increasing number of articles of civilization, which the English supplied for fewer beaver skins than the French demanded. Moreover, they had acquired a taste for English rum, and though they could get equally as drunk on French brandy, it was a more costly commodity.

In spite of this dependence on the English they had been wont spasmodically to attack the English settlements as recently as five years back, when Lord Howard of Effingham, Governor of Virginia, had met them in council at Albany, and had arranged that the English would only supply them guns and ammunition if these were never used against Christians. But that they would have surrendered their control of their lands or their independence is unthinkable. Their whole course afterward denied this. Their scheme was to balance themselves between the rival French and English, never surrendering their freedom of action to either one. For ten years from this time they carried off fitfully, their attacks on the French, working in the interests of the English, but then, becoming alarmed at the westward expansion of the latter, desisted from this course in a last futile attempt to maintain their neutrality and the integrity of their domain along the southern shores of Lake Ontario. Even in this they were not successful for long, and the last great struggle between France and England for supremacy in North America, the Seven Years' War from 1756 to 1763, found the majority of them fighting with the English who were so soon to utterly dispossess them.

SOMETHING ELSE TO THINK ABOUT

From The New York Sun The insurance company statisticians find that the suicide rate is decidedly low in the steel and coal producing centres, McKeesport, Pittsburgh, Scranton and Pueblo. Where the struggles of life are hardest, and most unrelenting people seldom quite get around to asking themselves whether life is worth living or not. Unconsciously they assume that anything which comes so hard must be worth its cost.

Toronto, Aug. 21.—The money received by the liquidators of the Home Bank in settlement of the double liability claim on the shareholders now amounts to \$450,000, it is announced.

Sidelights on a Great Industry

THE CAUSE OF HIGH LUMBER PRICES

PROFITS A VARIANT BETWEEN FIXED PRODUCTION COSTS AND CURRENT WORLD MARKET RATES

Further Taxation Means the Passing of British Columbia Forest Industries

A LUMBERMAN these days has to pay considerably more for a suit of clothes than he did before the war. If he demurs at the price he is told that profits are no greater, and is handed a recent clipping from a newspaper proving that there are fewer rich tailors and more bankrupt ones to-day than there have ever been in the history of the clothing industry. The lumberman accepts the situation because his own industry furnishes a parallel.

Although it is certainly the most reasonably priced of all building materials to-day, lumber costs considerably more than it did in 1914. Yet there is not a cent more profit to be made in its manufacture than at that period.

It must be realized that the price of lumber is not fixed by the lumberman. He is helpless between the lower millstone of production costs and the upper one of keen sales competition.

The lumberman pays the market rate for first-class labor, up-to-date machinery, smart transportation, effective distribution, and, above all, he pays one-third of the taxation of the Province. He is no more able to fix these items than to set them. On the other hand he receives the market rates for his product—rates fixed by world-wide competition, not only of foreign lumber but of wood substitutes.

In a word, if the lumberman makes poor lumber he cannot sell it, and if he tries to increase the price of his product, he is in the same predicament.

Any further increase in the cost of producing lumber, especially in the form of increased taxation of raw material, can only result in the crushing to death of British Columbia's premier industry.

# IN WOMAN'S DOMAIN

## POPULAR GYM WEDS TEACHER

### Marriage Last Night of Miss Christina Williams and George Hebden

At the First Congregational Church last evening Rev. Clem Davies united in marriage Christina Williams, eldest daughter of Mr. and Mrs. W. Williams, a popular member of the North Ward School teaching staff, and George Albert Arthur Hebden, second son of the late Mr. A. P. Hebden and Mrs. Hebden.

The church had been prettily decorated by Mrs. Hammond and Miss Betty Phillips with dahlias and ferns. During the service the Victoria City Temple Choir, of which the bride is a member, sang "The Voice That Breathed O'er Eden." Mrs. Grace Deaville was at the organ.

The bride was beautifully gowned in ivory crepe de Chine with veil and orange blossoms and carried a shower bouquet of Ophelia roses. Mrs. A. R. C. Hebden, matron of honor, was in mauve crepe de Chine and silver lace with white hat, and Miss Nora Williams, the bridesmaid, wore a similar pink duchesse satin and white picture hat. Both carried bouquets of Columbia roses and mauve sweet peas. Mr. A. R. C. Hebden, brother of the bridegroom, was best man, and Messrs. J. Hedley and W. McEwan acted as ushers.

After the ceremony a reception was held at the home of the bride's parents, 154 King's Road, the rooms being prettily arranged with sweet peas and streamers in the pastel shades. Among the many beautiful gifts was a silver cake basket from the North Ward School staff and a piano lamp from the Diggon Printing Company and staff of which the bridegroom is a popular member. Mr. Hebden is also a member of the City Club.

Mr. and Mrs. Hebden left on last night's boat for the mainland and on their return will make their home at 1773 Lillian Road.

## WOMAN JUDGE HONORED IN BRITAIN

### WILL LECTURE ON CHILDREN'S HEALTH

#### Professor J. H. Burn, Noted Savant, to Speak at Victoria College

Members of Women's Institutes and other organizations particularly interested in child welfare are evincing a keen interest in the lecture on "The Health of Children," which is to be given by Professor J. H. Burn on Monday evening. The lecture will be given at the Victoria College under the auspices of the local branch of the University Extension Association.

Professor Burn is a distinguished member of the party of noted savants with the British Association for the Advancement of Science, and has been attending the convention of that body in Toronto. His lecture will be given instead of the lecture on "The Movement of Water in Plants," which was to have been given by Professor Henry Dixon.

Members of the Women's Canadian Club will be admitted to hear Major MacLaren's address before the Canadian Club to-morrow, following the lecture on "The Health of Children." Admission will be granted only on production of membership ticket, a rule which will be rigidly enforced.

Miss Gladys Irvine, Mrs. Kingston, Mrs. Arthur Harvey, Mrs. A. V. Macan, Mrs. Norman Payne, Mrs. Brentzen, Mrs. Mitchell, Mrs. Wiley, Mrs. McCurdy, Mrs. Ray Green, Mrs. W. J. Holmes and Mrs. Austen. Mrs. Proctor presided at the daintily decorated table.

Mr. and Mrs. P. S. Burnes and their daughter, with Mrs. Wm. Burnes, who have been visiting relatives in the city for some time, will leave on Sunday by motor for their homes in San Francisco. They will be accompanied by Mrs. R. E. Burnes of Niagara Street who will spend some time holidaying in the South.

The weekly Military 500, held by the Sons of Canada, on Tuesday, was much enjoyed by those attending. The scores were very close, the ten bid being made at only six different tables, with Mrs. L. Campbell and Mr. Wood finally taking the honors.

The other winners were:—1, Mrs. Denyer, Mrs. Service, Mrs. Fanthorpe and Mr. R. A. Hunt; 2, Mrs. Sharp, Mrs. Fimmel, Messrs. Guppi and A. Spout; 3, Mrs. L. Campbell, Messrs. Rennie and Wood.

Many applications have been received for tickets for the fanned dance which is to be held at the Colwood Golf and Country Club to-morrow evening under the auspices of the club committee, but a few may still be secured. The dance will be at the home of Mrs. E. E. Heaton, 1909 Craigdarroch Road, who is acting as convener of the arrangements. Heaton's orchestra will be in attendance with excellent music and a perfect floor members and their friends may be assured of a delightful evening.

Dancing will be from 8 until 1. The supper arrangements are in the hands of the club caterer.

At the home of Mr. and Mrs. George F. Waites, Camosun Street, yesterday afternoon at 1 o'clock, a pretty ceremony united in marriage their third daughter, Edith Mary, to Mr. Robert W. Walton of Victoria. Rev. W. P. Freeman performed the ceremony, the young couple standing beneath a floral horseshoe made by girl friends of the bride, Miss Gertrude Cook, played the Wedding March as the bride entered in her gown of peach bloom brocade, taffeta and cream lace, attended by her sister, Miss Aldyth M. Waites in orchid taffeta. Little Winnie Waites, a younger sister, was the dainty flower girl, and Frank Waites, brother of the bride, was best man. Later Mr. and Mrs. Walton left on a honeymoon trip to Seattle and on their return will reside at 217 Wildwood Avenue.

Some very pretty costumes were in evidence at a most enjoyable fancy dress dance at Harbor House, Ganges, Salt Spring Island, on Friday last. Mrs. Allan, Mrs. Brown and Mr. Tallack officiated as judges and awarded the prizes for the best male costume to Mr. Stanley Haggett.

Victoria's optometrists held their annual picnic yesterday afternoon in the park at the Experimental Farm, Saanich. Among those who were in the party were Mr. and Mrs. Noid, Mr. and Mrs. A. P. Blyth, Mr. and Mrs. Andrew Blyth, Mr. and Mrs. W. I. Rowlands, Mr. and Mrs. Gordon Shaw, Mr. and Mrs. Doherty, Mrs. M. E. Paton, Misses Winifred, Ketch, Mr. Sibbald and Mr. Chris. Wade.

The following wedding announcement from "Canada" of August 9 is of interest to local friends of the bridegroom: "At St. Cuthbert's Parish Church, Edinburgh, on July 30, by the Rev. R. P. Fisher, B.V., assisted by the Rev. G. W. K. MacPherson, brother-in-law of the bride, Paul A. H. King, D.F.C., M.B., Ch.B., son of the late Michael King, Victoria, B.C., to Miss C. Buchanan, M.A., the fourth daughter of Baille and Mrs. R. C. Buchanan, Cardon, 4 Mortonthorpe Road, Edinburgh."

Mrs. J. G. Holmes entertained at her home in Carberry Gardens yesterday at bridge and mah jong in honor of her daughter, Mrs. A. E. Stude of Vancouver. The guests included Mrs. George Johnston, Mrs. L. W. S. Cockburn, Mrs. Hedley, Mrs. Brodigan, Mrs. Harold Eberts, Miss

## SPENCER'S HOSTS TO MANY GUESTS

### Home Products Building Houses Fine Display

Popular though the David Spencer Limited display in the Home Products building at the Willows Exhibition has been since the show opened, yesterday as Citizens Day proved almost beyond the abilities of the courteous attendants of the charming tea room to handle. Throughout the afternoon a constant stream of guests called at the fine display of British Columbia groceries. To accommodate the ladies in charge and partake of the tea, coffee and cakes dispensed so hospitably.

Many of the visitors were surprised at the range of kitchen and table supplies now made in British Columbia under the direction of David Spencer Limited, the great array of varied products being one of the most attractive features of the display. It is hoped that there will be a good turnout of members and their friends for this occasion.

## SOCIAL AND PERSONAL

Mr. W. Gordon Fraser of Winnipeg is registered at the Empress Hotel.

Mrs. S. M. Greer of Washington is staying at the Empress Hotel.

Mrs. E. Parnell has returned from England and the Continent.

At the Dominion Hotel are Lieut. and Mrs. T. B. Howell, United States Navy.

Mr. and Mrs. Charles E. Fay of Boston are registered at the Empress Hotel.

Mr. and Mrs. Hunter Gordon and daughter of Regina are registered at the Empress Hotel.

Mrs. C. H. Slingby, Oak Bay, is leaving on Sunday to spend a month's holiday in Los Angeles.

Mr. and Mrs. P. McCarter and family have left on a week's motor trip as far as Eugene, Oregon.

Miss M. Armstrong of Ottawa and Miss A. Armstrong of Prince Rupert are registered at the Strathcona Hotel.

Miss M. Gibson and Miss E. Kelley of Los Angeles are visitors in Victoria and are guests at the Balmoral Hotel.

Mrs. Coste and Miss Peggy McBride, who have been staying home in Vancouver, returned today.

Mr. and Mrs. P. Pentress Hill of San Francisco are visitors in Victoria, and are guests at the Empress Hotel.

Among the visitors in Victoria from Portland, Oregon, is Mrs. Phillip Jackson, who is a guest at the Empress Hotel.

Miss Nancy Sharples and Miss Mamie McKenzie of the Calgary telephone staff are visiting friends in Victoria.

Mrs. Ann Taylor of Yale Street and Mrs. Winterbottom of Monterey Avenue are spending a week at Qualicum.

Mrs. F. C. Grevelt of Calgary, accompanied by her son and daughter, are visitors to the city, staying at 734 Burdett Avenue.

Lady Cameron returned to the city from Vancouver where she was the guest of her daughter-in-law, Mrs. Leslie Cameron.

Mrs. A. C. Rutlan, Wilmet Place, has as her guests her cousins, Mr. and Mrs. William Allan of Winnipeg. Mr. Allan is night editor of The Manitoba Free Press.

Mrs. Gordon Hunter and Miss Morden, who are spending a few days in Victoria, were visitors to Bellingham yesterday and to-morrow will return to Shawnigan Lake.

Miss Gertrude Scott has returned to her home at Craigdarroch Road from Prince Rupert where she spent some time visiting her brother-in-law, Mr. and Mrs. G. Paul.

Captain Sparks, who for the past eighteen months has been in command of the cable ship Restorer, and Mrs. Sparks, will leave Victoria the end of the month for their home in Southampton. En route, Captain Sparks will visit in Chicago and will call on the Mauretania from New York.

**WOMEN PLEASED BY DISPLAY OF LABOR SAVING MACHINERY**

A staff of great interest to the ladies at the Willows Fair is the display of household labor-savers made in the Home Products Building by A. E. Taylor & Co.

Every afternoon and evening a throng of interested women have surrounded this stand, watching with interest the operation of the "white Cap" electric washing machine which employs the time-tried "dolly" system in well-built wooden tubs. The "White Rotary" washing machine which runs so silently without attention, driven by tiny electric motors, also received their meed of attention, while vacuum cleaners and other home comforts for the ladies are also displayed and demonstrated.

Grandpa, splendid form revealing, triumphs through "that Kruschen feeling!"

## The "Old Boys" Race

It's an easy thing for our "Old Boy."

Nearly fifty years have passed since he won his first race on the same ground. To-day he can not only leave his contemporaries panting just as hopelessly in the rear, but can even beat men young enough to be his sons.

And he's fully as dangerous a rival at work as well—a business friend worth cultivating. His secret is simple, for all the wonders that it works. He has preserved through the long years the vigour of youth, which will not be denied, and the joyous, care-free outlook of boyhood's days.

His was the will to be healthy, and he found the way when, years ago, he began to tip a tiny pinch

of Kruschen into his first cup of coffee or tea every morning.

He hasn't missed a morning since. The little tasteless daily dose—each pinch a perfect blend of the six salts, essential to body well-being—keeps him always in perfect trim. Kruschen free his system from all the clogging impurities that are the result of too much indoor work and the cause of a host of "minor" ailments. It keeps the liver and kidneys keyed up to concert pitch. Clear, vigorous blood courses through his veins. Every fibre of his being tingles with glorious vitality.

You have the will to be healthy. You can find the way. Get a bottle of Kruschen—and start a new life to-morrow.

Tasteless in Coffee or Tea  
Put as much in your breakfast cup as will lie on a 10 cent piece. It's the little daily miracle that does it.

# Kruschen Salts

Good Health for Half a Cent a Day

A 7c bottle of Kruschen Salts contains daily use for adults is "as much as will lie on a 10 cent piece," taken in your breakfast cup of coffee or tea. Every drug store carries Kruschen. Get a 7c bottle to-day.

SOLE IMPORTING AGENTS: CHARLES GYDE & SON, MONTREAL.

## 5-Lb. Phone Book New York's Latest

New York, Aug. 21.—New York's new telephone book is being distributed.

It contains 820,000 numbers and weighs five pounds. Automatic phones are being used in many districts. As soon as the physical changes can be made, all phones in New York will be operated by the automatic system. You dial your number instead of giving it to the operator.

## HUDSON'S BAY CO. CHANGES DISPLAY

Much Praise Given Artistic Display of Furs in Home Products Building

The Hudson's Bay Company's display of splendid fur garments at the Willows Fair, which has been such a feature of the Home Products building for the past three days, was this morning completely changed. The showing for the remainder of the week being advance models of the latest ideas in winter coats and dresses.

The beautiful examples of the furrier's art, shown for the first three days of the exhibition, have been the subject of an unusually large number of inquiries. Interest centred upon the striking and valuable Siberian grey squirrel coat, shown in the centre of the rustic garden, and the companion white cone and fox opera wrap, though discerning eyes quickly recognized the greater value abiding in a real Alaska black seal and the beautiful example of Persian lamb full length coat.

Many of these delightful garments now withdrawn were extremely costly, yet American visitors to the Fair conceded that they were rare bargains compared to the types of competing attire now offered to the South.

The new array now occupying the artistic garden setting are fur-trimmed cloths of the latest modes, the materials including peachbloom, duvetyne, teddybear, flamingo and many others of the present vogue. Dame Fashion finding the changed display so interesting in its forecast of the coming winter, as was the splendid display of furs with which the Hudson's Bay Company welcomed their visitors earlier in the week.

## BOARD FILLS STAFF VACANCIES

Several Appointments Are Made in Prospect of New Term

Several appointments were made to the teaching staff of the Victoria schools by the City School Board last evening.

W. H. Muncy is to be principal for the school which will place of Principal Sallaway, on leave until December.

W. H. Webber, Miss Ethel McFarlane and Miss V. E. Morris have been appointed to the school staff.

Noel Collison is appointed to the staff of graded schools, assignment to be announced later.

Miss A. T. Miles is to take the subject of English in the Victoria College, on part time, it has been decided.

Georges Halet was appointed instructor in French at the Victoria High School.

Reporting for the buildings and grounds committee, Trustee Litchfield reported completion of the work of repairing the Boys' Central School and the grounds at the Victoria West School in front of the building. All schools would be in shape by the reopening of school, Major P. J. Riddell stated.

## TO SUPPLY ACCOMMODATION

Permission was given for the use of schools for the British Association lectures next week, both Monday for the University Extension Association and on Tuesday for Professor Edgington's lecture on the Einstein theory.

FINANCE  
In the absence of Trustee Beckwith, who is on his way home from the Old Country, Trustee A. G. Smith reported for the finance committee.

Strict attention to the teachers' salary schedule in making appointments was recommended, except when special exceptions were ordered, and was approved on report from the finance committee.

School expenditures were reported to be \$270,881 as compared with \$262,025 in the corresponding period of 1923.

## COULD NOT VISIT

In thanking the board for courtesies in connection with the recent convention of the Canadian Teachers' Federation, Harry Charlesworth, secretary of the convention, wrote regretting that he had been unable to get the delegates to stay over Saturday to visit the High School, but owing to engagements in Vancouver most of them had left on Friday evening after the last session, instead of carrying out Saturday engagements.

## EMINENT EDUCATIONIST TO SPEAK IN VICTORIA

Dr. Peter Sandiford, professor of education at the University of Toronto, an authority on psychology as applied to children, will start work under the Educational Survey Commission. He will take intelligence tests throughout the province, and will report to the survey on the general standard. He has found throughout the province.

Dr. Sandiford, who holds several university degrees from various colleges, is one of the speakers here at the evening session on Monday at the Pacific Northwest Library Association, when his topic will be "Adult Education: The Problem and its Possibilities."

## HOW COAL MINERS OPERATE IS SHOWN AT WILLOWS FAIR

The high-grade coal mined on Vancouver Island forms the subject matter of an educational display at the Willows Fair, where the ingenuity of members of the staff of J. Kingham and Company have prepared for visitors to the Home Products Building a working model for a coal mine in operation. This shows the manner in which the coal lies in the ground, and the operations on coal seams at different levels by means of shafts and working tunnels. The foreground of the display is occupied by prepared coal of different classes, ranging from blocks weighing more than half a ton to the smallest sizes of furnace fuel.

EMMA ALEXANDER TO DOCK HERE TO-NIGHT TO AUCTION SHIP HELD IN SEATTLE

Has Full Passenger List For Victoria; Dorothy Sails To-morrow

The latest messages from the Ss. Emma Alexander, Admiral steamship in the Pacific Coast service, stated that the ship will be in Victoria at 10 o'clock this evening with a full passenger list. The Emma has carried capacity loads for the past several months on practically every trip and bookings are still pouring into the offices of the company operating her both here and elsewhere.

The Dorothy Alexander, of the same line, leaves here to-morrow morning at 9 o'clock, and she, too, carries a capacity list of passengers. Bookings for the September and October sailings of these boats are already very heavy, and indications are that the passenger travel during these months will be only slightly decreased over that of the present month, so far as these ships are concerned.

VICTORIAN PASSES TELEGRAPHY EXAMS

Ottawa, Aug. 21.—Among amateurs successful in passing the July examinations of the Department of Marine and Fisheries in radio telegraphy and awarded certificates are: H. Elworthy, Victoria, and E. R. Potruif, Port Alberni.

TALTRYBIUS TAKES PROTESILAUS' RUN

Coming Here From Orient With Cargo of Silk; Taking Back Lumber

The Blue Funnel liner Taltrybius will reach this port on August 23, reports Rithets, superintendent of the line. On August 13 this vessel left Yokohama with a light cargo for Victoria and a large and valuable silk cargo for trans-shipment to New York.

MAKURA TO ARRIVE IN EARLY MORNING

Royal Mail Steamer From Australia Comes to Port To-morrow

According to the latest wireless dispatches from the Canadian-Australasian liner Makura, the ship will dock here early to-morrow morning and will be at William Head at 6 o'clock. There is a good passenger list on board, including seventy-five first class, seventy-five second class and fifty-third class passengers.

SAAN FRANCISCO SHIPPING

Saan Francisco, Aug. 21.—The Tairo Maru, of the Toyo Kaisha Steamship Company, arrived here yesterday from Japan with a large cargo, which included 1,535 bales of raw silk valued at \$1,500,000. The silk was transferred to a Southern Pacific train for Eastern points.

WESTMINSTER CLEARINGS

New Westminster, Aug. 21.—The bank clearing here during the past week were \$821,837.

WILL BERTH HERE TO-MORROW FROM AUSTRALASIA

CHINESE BANDIT AND POLICEMAN KILLED

Y. C. Bau, Publishers' Manager, Fought Thugs in Street of Shanghai

Shanghai, Aug. 21.—Y. C. Bau, Chinese managing director of the Commercial Press, Limited, the largest publishers in the Orient, was wounded to-day when he refused demands of two bandits for money.

AVIATOR KILLED

Newport News, Va., Aug. 21.—Sloven Bromley, Jr., aeronautical engineer with the National Advisory Committee, was killed, and Smith J. DeFrance, American ace, major in the reserve service and general aeronautical engineer with the Advisory committee, received what probably will be fatal injuries last night at Langley Field when their aeroplane dropped to the waters of Back River from an altitude of a little more than 1,000 feet.

Other People's Views

Letters addressed to the Editor and intended for publication must be short and legibly written. The longer an article the shorter the chance of insertion. All communications must bear the name and address of the writer, but not for publication unless the owner wishes. The publication or rejection of articles is a matter entirely within the discretion of the Editor. Responsibility is assumed by the paper for MSS. submitted to the Editor.

SEATTLE SHIPPING

Seattle, Aug. 21.—Approval was given yesterday by the Port of Seattle Commission to a lease for two acres of harbor area north of a site occupied by the Washington Machinery and Equipment Company plant at the Smith Cove terminal to the Olympic Refining Company.

SAANICH RATEPAYERS

To the Editor:—With reference to a letter appearing in the issue of the Evening Times of yesterday's date, to the Saanich Ratepayers, from H. H. Grist, president of the S.C.A.R., re the passing of an account for the sum of \$355 by an official without the authority of the police commission, I beg to reply.

Wills Sainte Claire Owners Endorse Union Non-Detonating Gasoline The Good Motors of Today Deserve the Best Fuel

THERE are a great many excellent automobiles being manufactured today. The motors in them have been brought to a high point of efficiency. They require only a fuel worthy of them to "make good" the smoothness of operation, the speed, power and hill-climbing ability that have been so carefully built into them.

Don't waste these fine qualities in the purchase of an inferior gasoline.

Union Gasoline is produced to bring out the best in the finest motors. It gets the utmost out of all motors.

Getting a good fuel is merely a matter of careful selection on your part.

Union Gasoline has the quality of non-detonation which means less tendency toward "knocking" on hills, and in slow, heavy pulls, quicker acceleration and a smoother, more vibrationless speed.

Be fair to your motor. Give it the best fuel you know.

PRINCE OF WALES
BIG WINNER AT
VICTORIA SHOW
Carries Off Twelve Prizes For Cattle; Manitoba Entry Does Well
Taking twelve first prizes in all in the shorthorn-classes the Prince of Wales entry from the E. P. ranch was a heavy prize winner at the Victoria Fall Fair to-day. George A. Arbutuckle and Lemberg, Saskatchewan, ran him a close race in several of the classes. The E. P. senior champion, junior champion and grand champion bulls won more blue ribbons. The Saskatchewan entry beat the E. P. entry in the two-year-old bulls. W. C. Short of Edmonton carried off the premier honors for cows. J. W. Crawford and Sons of Pipestone, Manitoba, swept the board in the Hereford entries. Awards made to-day are as follows:

SHORTHORNS
Bull, three years and over—1, H. R. H. Edward Prince of Wales; 2, Geo. A. Arbutuckle, Lemberg, Sask.
Bull, two years—1, Geo. A. Arbutuckle; 2, Prince of Wales; 3, Geo. A. Arbutuckle.
Bull, senior yearling—1, Prince of Wales; 2, W. C. Short, Edmonton.
Bull, junior yearling—1, Jas. Turner, Toronto.
Bull, senior calf—1, Prince of Wales; 2, W. C. Short; 3, Geo. A. Arbutuckle.
Bull, junior calf—1, Prince of Wales; 2, Geo. A. Arbutuckle.
Bull, senior champion—1, Prince of Wales; 2, Geo. A. Arbutuckle.
Bull, junior champion—1, Prince of Wales; 2, Geo. A. Arbutuckle.
Bull, grand champion—1, Prince of Wales; 2, W. C. Short; 3, W. C. Short.
Cow, three years and over—1, W. C. Short; 2, Prince of Wales; 3, W. C. Short.
Cow, two years—1, W. C. Short; 2, W. C. Short; 3, Prince of Wales.
Cow, senior yearling—1, Prince of Wales; 2, Geo. A. Arbutuckle.
Cow, junior yearling—1, Prince of Wales; 2, Geo. A. Arbutuckle; 3, W. C. Short.
Cow, senior calf—1 and 2, W. C. Short; 3, Prince of Wales.
Cow, junior calf—1, W. C. Short; 2, Geo. A. Arbutuckle; 3, W. C. Short.
Cow, senior champion—1, 2 and 3, W. C. Short.

HEREFORDS
Bull, three years and over—1, J. W. Crawford & Son, Pipestone, Man.

# AT THE THEATRES

## Universal Star At Columbia in Western Picture

Hoot Gibson fans will have an opportunity to see the Universal star in the most thoroughly "western" picture of any in which he has appeared for many months in "Ride For Your Life," which comes to the Columbia theatre to-day.

It is a dramatic story of California's gold rush days, and Gibson is featured as a hard-riding cowboy who mistakes a bandit. It is the type of picture made famous by Gibson and which made Gibson famous, even before the star's dramatic versatility was so recognized as to remove him from distinctly Western roles for a time.

It is the kind of picture that Gibson began his screen career in several years ago, as a cowboy extra, and offers him a remarkable opportunity for the display of his wonderful horsemanship.

Gibson is a dazed-in-the-saddle Westerner. He was born on a Nebraska cattle ranch, and moved with his family to a large ranch near Pendleton, Oregon, while he was still a youngster. Here he established a reputation as a bronco rider and all-around cowboy that quickly spread beyond the local community. Twice he won the prize belt of the Pendleton roundup. This feat made him the champion all-around cowboy of the world.

He began his dramatic career in Bud Atkins' famous wild west show which toured the world. His first picture work was as a hooter for a famous Western star. From that humble position he graduated to small parts and feature roles until he became a star.

### Where to Go To-night

Dominion—"Monsieur Beaucaire"  
 Pantages—"The Shadow of the East"  
 Columbia—"Strangers of the Night"  
 Playhouse—"Putting It Over"  
 Capitol—"Boy of Mine."

## SHADOW OF THE EAST NEARLY KILLED MAYO IN RICKSHAW CRASH

A catastrophe was narrowly averted while taking exterior for the William Fox special, "The Shadow of the East," which is showing at the Pantages Theatre. In one of the scenes, there is a long shot showing Frank Mayo, in the leading role of Barry, being rushed up to his bungalow in India in a rickshaw. Two men pull, and two push the vehicle, because of the many hills they are supposed to climb.

Director Archibald called: "Action." The rickshaw boys started to run and the rickshaw, with Mayo in it, raced up the path to the bungalow. The conveyance collided with an enormous stone, wobbled uncertainly in mid air, then decided not to turn over. If it had turned, Mr. Mayo might have fallen over a steep precipice.

## SYMPHONY AT DOMINION THEATRE THIS EVENING

A very pleasing repertoire of musical hits has been selected by Director Prescott for to-night's concert, to be rendered by the Dominion Symphony Orchestra. Among the numbers to be played are:

- "Monsieur Beaucaire"..... Rosal
- "La Cinquaintaine"..... Gabriel-Marie
- "Minuet"..... Beethoven
- "Valse Triste"..... Sibellus
- "Love Song"..... Prinn
- "Waiting"..... Ancliffe

Leading up to the main picture of the evening Mr. Prescott has selected a most adaptable musical prelude which synchronizes with the picture that it introduces. This is the "Grand March" by Tannhauser. "Monsieur Beaucaire" is the feature production and introduces Rudolph Valentino in a new role which theatregoers are sure to be pleased

# PLAYHOUSE

TO-NIGHT

with. His success in "The Sheik" is totally eclipsed by this new picture, the first he has appeared in for two years. Directors have spent lavishly on the production and the capacity house that marked the initial showing indicates to the fullest extent the popularity of America's famous actor. The management advises those intending to see this production to secure their seats early if they do not wish to be disappointed.

## TARKINGTON STORY REPLETE WITH GAY THOUGHTS OF CHILD

"Boy of Mine," produced by J. K. McDonald for First National, is from the pen of Booth Tarkington, and centres about a child, and while it is highly amusing to children, it is of even more appeal to adults. It is a human interest drama with a range of appeal that covers picture-goers of all ages. Tarkington has so cleverly built the story that children can focus eyes and thoughts on the actions of the juveniles and adults can look upon the child artists as merely incidental to the building of a great plot.

Ben Alexander, who played the role of "Penrod" in "Bill Latimer," a typical small-town boy. Rockcliffe Follows, who was Ben's stern father in "Penrod and Sam," is seen in the antithesis of that type. This time he is a lover of children and a man who understands them.

"Boy of Mine" is interpreted by an all-star cast which includes Henry B. Walthall, Irene Rich, Rockcliffe Follows, Ben Alexander, Dor Farley and Lawrence Licalzi. It was directed by William Beaudine. The picture will be seen at the Capitol Theatre.

## VIOLA DANA IN SEARCH OF THRILL LISTENED TO LOS ANGELES BAND

Viola Dana, the Metro star whose latest success, "In Search of a Thrill," is now at the Playhouse, is nothing if not a "trickier" for realism.

Miss Dana has the role of a pleasure-loving flapper who seeks diversion such as Paris affords to its butterflies in cabarets and resorts, which incidentally form a colorful background for some of the exciting episodes in the picture. But how can one be honestly diverted, Miss Dana reasoned, unless there is really something to divert one? It's all very well in other words, to pretend you're having a glorious giddy time, but unless you really are enjoying such fun you can't fool other people into thinking it.

So one of Los Angeles' best hotel orchestras was imported to the Metro studio, to create the right atmosphere for the cabaret scenes. They were so successful, as a point of fact, that their jazzy strains nearly disrupted the morale of the studio, for that working afternoon, at any rate. But art demands some sacrifices, and since Miss Dana declared that the cabaret scenes couldn't have been improved upon, the end merited the means.

Oscar Apfel directed "In Search of a Thrill," which was photographed by John Arnold, and adapted to the screen by Basil Dickey from the story by Kate Jordan. Warner Baxter, Rosemary Theby, Mabel Van Buren and Templar Saxe appear in the star's support.

## INTERPRETER NEEDED TO CONTROL DANCING STAR AT DOMINION

Paulette Duval, Parisian danseuse, makes her debut in motion pictures in "Monsieur Beaucaire," the Paramount production of Booth Tarkington's story with Rudolph Valentino in the title role. Miss Duval, who is known in Paris as "La Belle Duval," has been in this country but five months. She came to dance in the Ziegfeld Follies and was seen at the New Amsterdam Theatre for three months.

Miss Duval was born in Boan-Sua-lesquich, Republic of Argentina, South America. At an early age she went to Paris and later found her place on the Parisian stage as a dancer. She has been featured in reviews at the Casino de Paris, the Ambassador and Alhambra Theatres.

Her work in "Monsieur Beaucaire," which plays at the Dominion Theatre, all this week, while the first picture work she has done recently, is not her premiere before the camera. She appeared in an American made picture "Nero," which was made in Italy. She had the role of the Empress of Poppea.

Miss Duval does not speak English and it was necessary for Director Sidney Olcott to have an interpreter at his side, while filming scenes for the picture in which she appears.

## PAT O'MALLEY TO BE SEEN AT CAPITOL NEXT WEEK

When Pat O'Malley, who plays an important role in the Metro-Goldwyn version of Charles G. Norris' "Bread," which is coming to the Capitol Theatre on Monday, first appeared on the screen he was known as Patrick O'Malley. But Patrick O'Malley's engagements were scarce.

Patrick suddenly had a hunch. He thought that if he removed the "rick," he would have smooth sailing. And he did. No sooner had he become known as Pat than he was besieged by a flood of engagements which has never abated.

Pat was born in Dublin. While still a child he came to the United States, and establishing himself in Forest City, Pa., where he was educated. He soon decided upon a stage career and made his debut as a slack wire walker in vaudeville, carnivals and circuses.

He then played in stock for a few years, appearing in the British Isles, France and Germany. He returned to

# Fruit Pies

— whether strawberry or raspberry, cherry or plum, apple, peach or raisin — are at their best when "RAISLEY" is used instead of baking powder.

# Raisley

means crispness and lightness, because it raises evenly and perfectly, and ensures uniform cooking throughout. Its damp-proof packing keeps it active.

Make your own self-raising flour for biscuits, cakes, rolls and pastry, by using one part "Raisley" to eight parts of your regular flour.

Originated by Brown & Polson, of Paisley, Scotland, who make the famous Brown & Polson Corn Starch, the standard of excellence.

"Light Fare Recipes" gives 120 pages of Old Country recipes and cooking hints. Mailed for 3c. stamp.

Measrs. Hark & Sterling, 1461 Dominion Bldg., Vancouver, B.C.

the United States, where, in Florida, O'Malley's best pictures are "Brothers Under the Skin," "The Eternal Struggle," and "Happiness," in which he played opposite Laurette Taylor.

Mr. O'Malley stands five feet eleven inches in height and weighs one hundred and sixty-eight pounds. He has lustrous brown hair and roguish blue eyes.

"Bread" is a pictureization of Charles G. Norris's novel as published by E. P. Dutton and Company. Victor Scheringer directed the picture and Albert Lewyn and Lenore Coffey adapted the story to the screen.

# CAPITOL—NEXT WEEK

# THE SURPRISING SEX

## Starts Saturday, August 23

# A Real Thriller! Read It!

**ZIEGFELD FAMILY HOLDS ITS OWN LITTLE STAR REVUE**  
—Flo Ziegfeld doesn't pass all of his time worrying over his famous Follies. Nor does Mrs. Ziegfeld (Billie Burke, you know) devote all her attention to her new play, "Annabelle." Both frequently go to their estate at Tarrytown to witness the performances of their little daughter, Patricia. They present a charming family picture, don't they?

**PAY HOMAGE TO UNKNOWN SOLDIER**—Lieutenant-General K. Wada of the Imperial Japanese army mission, now touring the United States, visited Arlington National Cemetery and placed a wreath of flowers on the tomb of the Unknown Soldier.

**"OH SEE THE FUNNY MANS!"**—Maybe they can make you smile. They amused a great throng at a recent garden party in Regent's Park, London, where masked carnival characters are still hot stuff.

**NOW THE COURTS WORRY ABOUT BOBS**—What is the fine distinction between a "boyish bob" and a "mannish trim"? The question is to be settled for the first time in the courts at Atlantic City. Miss Laura Norton started out to become "boyish" and left the barber chair entirely too "mannish." Some 500 hairs too many had been clipped from her head, she says, and she demands \$1 for each of them from Michael Schloss the barber. The male Dallah sheared this feminine Sampson of the great strength that lies in beauty, and thus reversed in modern setting the Biblical tale, she avers. She lost her job and could not get another, she recites. And, to set a precedent for all bobbed womanhood, she up and sued for damages. The photographs herewith reproduced have been introduced by her lawyer as evidence and the rest is up to the judge who will have to possess Solomon-like tact if he is to face his wife after the verdict.

**CANADIAN GIRL TO WED MILLIONAIRE'S SON**—Miss Verna Watson, the pretty Toronto dancer, who is "the first sweetheart" of the twenty-two-year-old son of a New York millionaire. They will be married next May at "Pickfair," the palatial Beverly Hills home of her cousin, the famous "Mary," and her equally renowned husband, "Doug."

**WANT A SHOWER?—THEN TRY THIS**—The idea of the game here pictured is, for the motorcycle rider to attain a high rate of speed and with the dexterous use of his tilting rod upset a bucket of water hanging loosely in the air. Thus he wins both a cold shower and a point. The game made its appearance at a motorbike circus held recently in London. If you think the trick is easy, try it yourself.

**BATH DAY**—This is Saturday night for "Sugar," pet raccoon of little Miss Peggy Schafer, seven of Miami. Peggy insists on washing his neck and ears though she has been known to protest at similar ceremony for herself.

**ROUGH**—"Gretchen" gets a little rough with "Nancy," the camp cat. Nancy's head seems to be in danger in Gretchen's mouth, but Gretchen practices restraint in such matters.

**DISTINGUISHED SCIENTISTS ON THE HUNT**—Botany section of the British Association paid a visit to the sphagnum marsh northwest of King, about thirty miles from Toronto. Both men and women waded through mud and water in their enthusiasm for collecting specimens. Left: Two American women botanists examining a find in the marsh, kneeling, Miss A. M. Starr and standing Miss A. J. Stokey, both of Mt. Holyoke College, Mass. Right: One of the best known botanists of Great Britain is Dr. A. B. Rendle, F.R.S.

**WHITE HOUSE MOVES HERE**—When President Coolidge goes to his home town in Plymouth, Vt., executive offices of his staff will be established on the second floor of this old village building. It was in this building that the president was born. The lower floor is occupied by the village store and is a gathering place for villagers, while the upper story has been used as a public hall. Arrow indicates room where the president will transact business.

**GAS BUGGY BIOLOGIST**—C. C. Wagoner, entomologist and botanist of New York State, and his car, "Rosy Aphie." Mr. Wagoner follows his profession to the extent of mingling with the bugs and ants twenty-four hours a day. He motored from New Highlands, New York, to attend the meetings of the British Association.

**SCHOOL DAYS**

Copyright, 1924, by The McClure Newspaper Syndicate

By DWIG

DAY DREAMS.

**KLUX MASCOT**—Here is "Kleagle," mascot of the Atlanta K.K.K., as he appears in full regalia.

**"HAIL THE CONQUERING HEROES"**—Outstanding heroes of Portugal to-day are two army flyers who followed the old trail of the dauntless early era Portuguese explorer, Vasco de Gama, from Lisbon to Portugal, to Macao, China—some 11,000 miles in 115 hours' flying time. They visited in San Francisco en route home. They are Major S. de Belres (left) and Major Brito Pais.

**MOTOR TRUCK WILL BE HER TAXI**—Doors of the Michigan Soldiers' Home Hospital will have to be moved to permit the departure of Mrs. Winnie Hopkins, thirty-seven, who, known as "700 pounds of good cheer," will leave the institution. A motor truck will be her taxi to her home at Milwaukee.

**BEDTIME STORY**  
**Uncle Wiggily's Pocketbook**  
 (Copyright, 1924, by McClure Newspaper Syndicate)  
 By Howard R. Garis

Baby Buntz, the little rabbit girl, had just come up on the sandy beach of the seashore, after having been in bathing. Baby Buntz was very hungry. Splashing in the salt water made her want to eat two cabbages and part of another one—almost.

"If I only had a penny I would buy myself a popcorn ball at the candy booth on the boardwalk," said Baby Buntz to herself. "Oh, how hungry I am!"

The little orphan rabbit girl, who was staying for a while at the driftwood bungalow of Uncle Wiggily at the seashore, looked up and down the beach.

"If I could only find a penny in

**BE CONVINCED!**  
 Let us show you that this is today's best buy.

- 1—A comfortable and attractive little five-room bungalow with all the conveniences. Nice large lot with lawn and large oak shade trees. Handy to car, and low taxes.
- 2—Complete furniture for five rooms, all in good condition.
- 3—Overland 30 touring car with spare tires and accessories. All in good running order.
- 4—Garage and chicken house (about two dozen birds).

Owner leaving the city and will sell the whole business for only \$2,100 on terms. You can't beat it.

the sand," she whispered. But not a penny could she see. However, she saw something almost as good as a penny—she saw Uncle Wiggily walking along the beach and twinkling his pink nose.

"Oh, I know what I'll do," laughed Baby Buntz. Quietly she ran up behind the old rabbit gentleman. "Boo-hoo!" she cried, loudly.

"Ouchie! Mercy me! Who is it?" exclaimed Uncle Wiggily, jumping around.

"Ha! Ha! I fooled you, didn't I?" laughed Baby Buntz. "You thought it was the fuzzy fox, didn't you? But I hope I didn't scare you so

stick to my wet fur. Then I'll look like Baby Buntz when she comes out from bathing. I'll pretend to be Baby Buntz. I'll slip up behind Uncle Wiggily and say 'I lost that first penny and I need another. He'll think I'm Buntz. He'll open his pocketbook to give me another penny and I'll have a chance to nibble his ears.'

So the sly Wesel dipped himself in the ocean. Then he rolled in the white sand which stuck to his wet fur. Then the Wesel slipped up behind Uncle Wiggily. Making his voice sound as much as he could like Baby Buntz's, the Wesel said:

"I—now—I lost my penny, Unkie Wiggily!"

The bunny turned quickly and opened his pocketbook. But just then the wind blew some of the sand off the Wesel and Uncle Wiggily saw who the bad chap was.

"Oh, ho! You can't fool me!" cried Mr. Longears. Then he opened his pocketbook wider and as the Wesel thrust his nose forward Uncle Wiggily pinched the nose of the sly, old chap in his strong pocketbook.

"Wowh! Wowh!" howled the Wesel. "Oh, my nose!" And, pulling his nose loose, away he ran, not even stopping for a penny.

Baby Buntz laughed when she heard how the Wesel tried to be like her, and Mr. Longears laughed also. And if the red ribbon band on the rag doll's hat will play a jolly tune for the hop toad I'll tell you next about Uncle Wiggily and the loud voice.

**FIRE FIGHTERS ALERT TO PROTECT FORESTS**  
 Well Organized During the Present Dangerous Season in United States  
 Just Fourteen Years Ago Great Fires in Northwest Occurred

Washington, Aug. 21.—The fierce forest fires that have raged this summer, especially in California, bring to mind the great national disaster that occurred in August, 1910.

Fourteen years ago this month the United States was startled by stories of gigantic forest fires in the Northwest, and when on the morning of August 29 the telegraph wires carried the story of a terrible conflagration driven by high winds the country was appalled, even though the extent of the disaster was not realized.

But within a few days the whole nation knew that the most destructive forest fires recorded in the history of the United States were being fought in the Northwest, and that Northern Idaho and Western Montana were the scenes of the fiercest battles with the "Red Enemy of the Forests" ever fought by Uncle Sam's forest rangers.

**DANGEROUS CONDITIONS**  
 Conditions in the West this summer are again at the highly dangerous point and officials of the Forest Service are anxious. At the end of July 150,000 acres of land inside the boundaries of the National Forests in California alone had been fire-swept, the worst fires ever experienced there in the season. Large fires also burned in Washington, Oregon, Idaho, Montana, Utah, Colorado, New Mexico and Arizona. The Forest Service is on the alert. Men and equipment have been mobilized at strategic points. The battle with the "Red Enemy" is on in earnest. Human lives and public and private property are at stake in this relentless war.

"Who will win? With the co-operation of the public to prevent many caused fires, which now form eighty per cent. of the total, the Forest Service believes it has a good chance to cope successfully with its dangerous foe, particularly if nature will refrain from causing hurricanes and give the drought-stricken areas some relief, and that there will not be a repetition of the 1910 disaster."

**A GREAT LOSS**  
 Before the flames died away that year over 4,000,000 acres of national forest land was laid waste. The timber destroyed totaled over 6,000,000,000 board feet, and the money loss for standing timber alone stood at \$2,000,000. These figures do not take into account the losses on privately-owned forest land. Human life was also lost in the great 1910

**C. W. Bardeen Died In Syracuse, N.Y.**  
 Syracuse, N.Y., Aug. 21.—Charles W. Bardeen, seventy-six, nationally known educator, author and publisher, died here after a long illness.

**WHEN THE MAIL CAME IN**  
 By REX BEACH  
 World Famous Author of Successful Fiction

"I've let him go," she said. "Yes, and you helped me. Only for you I'd have broken down; but I want you to know I've done one good thing at last in my miserable life. I've held in. He never knew—he never knew. O God! what fools men are!"

"Yes," I said, "you did mighty well. He's a sensitive chap, and if you'd broken down he'd have felt awful bad."

"She grasped me by the coat lapels and shook me. Yes! that weak little woman shook me, while her face went perfectly livid.

"He'd have felt badly, eh? Man! Man! didn't you see? Are you blind? Why, he asked me to go with him. Think of it—that great, wonderful man asked me to be his wife—me—sly Marceau, the dancer! Oh, oh! Is it funny? Why don't you laugh?"

I didn't laugh. I stood there, picking pieces of fur out of my cap and wondering if ever I should see another woman like this one. She paced about over the skin rugs, tearing at the throat of her dress as if it choked her. There were no tears in her eyes, but her whole frame shrank and shuddered as if from great cold, deep set in her bones.

"Why didn't you go?" I asked, stupidly. "You love him, don't you?"

"You know why I didn't go," she cried, fiercely. "I couldn't. How could I go back and meet his mother? I Some day she'd find me out and it would be his life. No, no! If only she hadn't recovered—No, I don't mean that, either. I'm not his kind, that's all. Ah, God! I let him go—I let him go, and he never knew!"

She was writhing now on her bed in a perfect frenzy, calling to him brokenly, stretching out her arms while great, dry coughing sobs wrenched her.

"Little one," I said, unsteadily, and my throat ached so that I couldn't trust myself, "you're a brave girl, and you're his kind or anybody's kind."

With that the rain came, and so I left her alone with her comforting misery. When I told Kink he sputtered like a steam boiler, and every evening thereafter we two went up to her house and sat with her. We could do this because she'd quit the theatre the day the boat took Prosper away and she wouldn't heed Eckert's offers to go back.

"I'm through with it for good," she told us, "though I don't know what I'm good for. You see, I don't know anything useful, but I suppose I can learn?"

(To be continued)

**Notice to Breeders of Livestock**  
 Mr. Erick Bowman, the discoverer of The Bowman Remedy, claims that in treating 70,000 cattle in the United States the results have been successful in 98% of the cases treated. Are your dairy cows and heifers causing you trouble? Are you obtaining results in calves and milk that satisfy you? Do your cows (according to your knowledge of their capacity) produce as much milk as they are capable of producing? Feeding a number of boards at a time should be sent to its butcher. These are matters that can be put right. Delays are fatal. Why not consult The Erick Bowman Remedy Co. Office and Factory, 518 Yates St. Particulars Will Be Furnished Upon Application to the Manager

**CHARLES G. DAWES STATES HIS VIEWS**  
 U.S. Republican Vice-Presidential Candidate Makes Speech of Acceptance

Evanston, Ill., Aug. 21.—The United States campaign of 1924 was declared by Charles G. Dawes, in accepting the Republican Vice-Presidential nomination last night, to be a contest between "progressive conservatism" and "dangerous radicalism."

The nominee, speaking to several thousand who gathered on the lawn of his home here, asserted the former position to be that represented by President Coolidge, the latter to be exemplified by the La Follette independent candidacy, and, interposed, the Democratic Party, with one Conservative and one Radical candidate on its ticket, hoping to get votes by avoiding the issues.

**TELLS OF ATTACK**  
 Contending that a formidable attack has been launched on the fundamental principles of the constitution, Mr. Dawes characterized the La Follette movement as the "chief opponent of the Republican national ticket," and said he considered adherence to the principle fundamental of the constitution the foremost issue in the November election.

The issue was stressed by the nominee in his address, but he also discussed two other questions at equal length, the League of Nations and the World Court.

He announced his stand on the Republican platform, declaring against any entrance into the League and assailed the Democratic position as "an invitation to again enter that fog of debate on the public referendum."

**FOSSILS FOUND IN WESTERN KANSAS**  
 Remains of Camels, Rhinoceroses, Horses and Dogs

Lawrence, Kans., Aug. 21.—Half a ton of fossil bones, all of them new for the University of Kansas Museum and some of them new to science, have been discovered in Sherman County, Kansas, according to H. T. Martin, curator of the museum. Mr. Martin and Curtis Hesse, laboratory assistant, have spent four weeks near Goodland, Kansas, and shoveled more than 100 tons of sand in uncovering the fossils.

"Parts of at least fifteen species of mammals were recovered," said Mr. Martin. "These included three species of camel, one as large as a small giraffe, the smallest size of a sheep, two species of rhinoceros, three species of three-toed horse, dog, cat, peccary, deer and three species of mastodons.

**IN LAKE BED**  
 The fossils were found in a formation that apparently had once been a small lake bed, some 100 feet square, and several feet under ground, making it necessary to use a plough and scraper to get down to the fossil-bearing sands.

"The bones, which are of a jet black, were found scattered over the entire space, but parts of bones that we sometimes found widely separated fitted together perfectly."

Apparently," said Mr. Martin, "these bones were distributed by freezing, either through ice on the lake or a glacier. That is the only way I can explain the sharply broken and irregular distribution. No complete skeletons were found."

"We are highly pleased with the

**MRS. LAURA L. HEATH DIED IN LONDON**

Guelph, Ont., Aug. 21.—A cablegram has been received here telling of the death in London, Eng., of Mrs. Laura Lemon Heath, who was accounted one of Canada's greatest song writers. Mrs. Laura Lemon Heath wrote a number of patriotic numbers, but apart from these her best selection was "My Ain Folk."

Laura Lemon was the daughter of the late Andrew Lemon, Q.C., of Guelph and Winnipeg, and widow of William Heath of Winnipeg. She has two daughters, Cecil and Audrey, in England.

## WONDERFUL FLOWERS ARE SHOW FEATURE

### Entry of Agricultural Products Lighter But Quality is Excellent

Owing to the advanced date of the show the entry of agricultural products at the Provincial Fair has not been quite so large as last year, but the quality observed in the vegetables, fruit and flowers is particularly worthy of note. J. R. Purdy, director in charge of agricultural products, remarks that the early and dry season may account for the smaller entry of roots and referring more particularly to potatoes, stated that it is hardly possible to find an exhibit of potatoes in the show that was not touched with disease that could be detected by judges although not by the ordinary observer. To-day there are many entries that are completely free, he stated.

There is an increased entry of flowers this year, which has won great admiration from all visitors, and competition in this section, both between the professional and amateur gardeners, has been keen. Among the arrays of flowers that have been commented upon is the exhibit of a big group of gladioli by H. M. Palmer, which has been highly commended and awarded a diploma. The City Park Nursery has another noteworthy display, not entered for competition, of begonias and fuchsias.

Dinner table decorations are shown off to better advantage this year in a reserved section, where they are given the space they are entitled to.

## BLACK COATS

The smartest of black coats have two scarfs, one of black and one of white.

## Stock Awards at Victoria Fair

Cattle, sheep and swine awards made at the Victoria Fair are announced as follows:

- ### CATTLE
- #### Holstein-Friesian
- Bull, 4 years and over—H. Bonsall, 1; Colony Farm, 2; J. M. Steves, 3.
  - Bull, 2 years old—J. W. Crawford and Son.
  - Bull, senior calf—Colony Farm, 1; Colony Farm, 2; J. M. Steves, 3.
  - Bull, junior calf—H. Bonsall, 1; J. M. Steves, 2; J. W. Crawford and Son, 3.
  - Bull, junior champion—H. Bonsall, 1; Colony Farm, 2; J. M. Steves, 3.
  - Cow, 4 years and over—Colony Farm, 1; H. Bonsall, 2; H. Bonsall, 3.
  - Cow, with yearly record, official or semi-official, 4 years and over—Colony Farm, 1; Colony Farm, 2; J. M. Steves, 3; H. Bonsall, 4.
  - Cow, dry, 3 years and over—J. M. Steves, 1; J. M. Steves, 2; H. Bonsall, 3.
  - Cow, 3 years old—J. M. Steves, 1; J. M. Steves, 2; J. M. Steves, 3; H. Bonsall, 4; Colony Farm, 5.
  - Cow, senior calf—Colony Farm, 1; Colony Farm, 2; J. M. Steves, 3; J. M. Steves, 4; H. Bonsall, 5.

## Waterproof, Sun-proof Gold-Seal Congoleum Art-Rugs

Showers may beat down on the Gold-Seal Congoleum Art-Rug on the porch, the hot sun may glare down on it, but the colorful pattern is unharmed.

Seamless—Easily Cleaned  
Gold-Seal Congoleum Art-Rugs cannot take up dirt and sand because they are made all in one piece with a smooth, firm surface. A few strokes of a damp cloth is all the cleaning required to make them spick and span.

So varied are the designs that you can select one of these labor-saving rugs for any room in your home. Moreover, Gold-Seal Congoleum Rugs lie flat without fastening, and never curl at the edges.

These splendid, serviceable rugs are so moderate in price that they are within range of the most modest purse.

CONGOLEUM CANADA LIMITED  
1270 St. Patrick Street, Montreal, Quebec
