PERSONAL.

Mr. John W. Payne has been appointed City Engineer of Akron, O.

Mr. Herschel Roberts, Deputy State Engineer and Surveyor of New York, has resigned. Mr. Jas. L. Tighe has been appointed City Engineer of Holyoke, Mass., to succeed Mr. John J. Kirkpatrick.

Dr. Frank A. Woods has been appointed a member of the Board of Health of Holyoke, Mass., for the term of three years.

Mr. Thomas J. See, of Missourl, has been appointed by President McKinley as Professor of Mathematics in the United States Navy.

Mr. Geo. A. Morris, Resident State Engineer of the Middle Division of the New York State Canals, with head-quarters in Syracuse, N. Y., has resigned.

Mr. Percy S. Hildreth, of the firm of R. W. Hlidreth & Co., 32 Broadway, New York city, consulting and inspecting engineers, sailed for Havana, Cuha, Feh 8, on the ner "Concho."

Mr. J. B. Hardle has been appointed Chief Engineer of the Steel Car Department of the Carnegie Steel Co., Pitts-burg, Pa., which has just received an order for 2,000 steel freight cars from the Baltimore & Ohio R. R.

Messrs. Louis Duncan and M. K. Eyre have formed a partnership under the firm name of Duncan & Eyre, consuiting engineers, with officea at Rooms 1514 and 1515, Empire Building, 71 Broadway, New York city.

Mr. Geo. A. Hamilton, M. Am. Inst. E. E., Chief Electriotan of the Western Electric Co., 22 Thames St., New York city, sailed on the "St. Paul," Feb. 4, for England. He will also viait France, on husiness for the company.

Mr. S. H. Lea, M. Am. Soc. C. E., has associated himself with his brother, Mr. Sumter Lea, Jr., County Surveyor of Jefferson County, Alahama, for the general practice of civil engineering, with offices in the Court House, Birmingham, Aia.

Mr. Daniel Killion, of Philadelphia, Pa., formerly with the General Electric Co., Schenectady, N. Y., has been appointed Superintendent of the North Hudson Heat, Light & Power Co., Jersey City, N. J., to succeed Mr. A. K. Bonta, resigned.

Mr. Lincoln Bush has been appointed Acting Division Engineer of the Iowa Division of the Chicago & North Western Ry., with headquarters at Boone, Ia., to succeed Mr. Hiram J. Siifer, who has been appointed Engineer of Second Track in Iowa.

Mr. Archibald A. Schenck, M. Am. Soc. C. E., of New Rochelle, N. Y., has been appointed Division Engineer of the Madison Division of the Chicago & North-Western Ry., with headquarters at Baraboo, Wis., to succeed Mr. J. P. Coleman, resigned.

Mr. Gurdon W. Merrell, Roadmaster of the Chlcsgo Din of the Chicago, Milwaukee & St. Paul Ry., with headquarters in Chicago, Ill., has resigned to accept the position of Assistant to the General Superintendent of the Norfolk & Western Ry., with office in Roanoke, Va.

Mr. Charles Miller, Vice-President of the Toledo, St. Louis & Kansas City R. R., with hesdquarters in Frank-lin, Pa., has been elected President to succeed Mr. S. H. Kneeland, with offices in New York city. Mr. J. S. Bache has been elected Vice-President to succeed Mr. Miller.

Mr. Geo. L. Heins, of the firm of Helns & Lafarge, ar hitects, of New York city, has been appointed Commissioner of the Capitol of New York by Governor Roosevelt, to succeed Mr. Isaac G. Perry, with offices in Albany. The offics is virtually that of State Architect, and the salary is \$7,500 a year.

Mr. Jeme Tien You has recently heen appointed Resident Engineer of the Imperial Chinese Ry., in charge of the construction of the railway in the Chin Chow extension in Manchuria, China. He is a graduate of the Sheffield Scientific School of Yale University, New Haven, Conn., In the class of 1881.

Mr. Wm. W. Churchill, M. Am. Soc. M. E., who for the past nine years has been connected with Westinghouse, Church, Kerr & Co., 26 Cortlandt St., New York, has been promoted to be Mechanical Engineer. He graduated from Cornell University in 1889, and was the Sibley Fellow in Mechanical Engineering in that institution during the fol-

Mr. H. G. Hetsler, Roadmaster of the Chicago Division

of the Chicago, Burilngton & Quincy R. R., with headquarters in Chicago, Iii., has been appointed Superinteudent of Freight Terminals to succeed Mr. F. A. Delano, whose appointment as Superintedent of Motive Power was noted in our last issue.

Mr. Irving T. Farnham, civil engineer, for a numb of years Assistant Engineer in charge of boulevard and grade crossing work in Newton, Mass., has accepted the position of Principal Assistant to the Chief Engineer of the Massachusetts Highway Commission, with headquarters at 4 Mount Vernon St., Boston.

Mr. Fred. B. Corey, Jun. M. Am. Soc. M. E., Secretary and Mechanical Engineer of the Springfield Elevator and and Mechanical Engineer of the Springheid Elevator and Pump Co., Springheid, Mass., has accepted the position of Mechanical Engineer with the Stilwell-Bierce & Smith-Vaile Co., Daytou, O., but will retain his official connection with the former company.

Mr. W. H. Truesdale, First vice-President and General Manager of the Chicago, Rock Island & Pacific Ry., with headquarters in Chicago, Ili., has been selected by the Nominating Committee of the Board of Directors of the Delaware, Lackawanna & Western R. R., for election as President of the latter road to succeed Mr. Samuel Sloan, the retires on account of age and falling health, after 50 years' service.

Mr. Ignaclo M. de Varona, M. Am. Soc. C. E., Engineer of Water Supply for the Borough of Brooklyn, New York, has obtained a leave of absence, and will return to his old home in Cuha, from which he has been a fugitive since the Ten Yeara' War. Mr. de Varona at that time com-manded a hody of troops, and uarrowly escaped with his iife after being captured in battle. He built the railway from Puerto Principe to Nuevitas hefore that time.

Mr. Henry J. Conant, Manager of the Boston, Mass., office of Westinghouse, Church, Kerr & Co., 26 Cortiandt St., New York, has been appointed to a more re-sponsible executive position, but will continue to make Bostou his headquarters. He graduated from the Massachusetts Institute of Technology in 1887, and has been with the above firm for a number of years, recently having had entire charge of the construction of the new Bos-

Mr. Elon H. Hooker, of Rochester, N. Y., has been appointed Deputy Superintendent of Puhiic Works of New york, to succeed Mr. P. J. McWeeney, resigned. Mr. Hooker ls a graduate of the University of Rochester, Rochester, N. Y., in 1891, and from Cornell University, Ithaca, N. Y., in 1894, as a civil engineer. In 1895 he was the Traveling Fellow of Cornell University, making a special study of hydraulics, and the next year was re-ap-pointed in order to enable him to visit foreign canal and river works. He also studied in the Polytechnicum, Zurich, Switzerland, and in the Ecole des Ponts et Chaussees, Paris, France.

Mr. Jas. D. Layng, Second Vice-President and General Manager of the West Shore R. R., with headquarters in New York city, will retire from active service Aug. 1, 1899. He began his railway career in 1849 as a rodman in the engineer corps of the Ohio & Pennsylvania R. R., and from 1865 to 1871 was Superintendent of the Eastern Division of the Pittshurg, Fort Wayne & Chicago Ry. From 1874 to 1881 he was General Manager of the Pennsylvania Lines, and in the latter year hecame General Superintendent of the Chicago & North-Western Ry. He entered the service of the West Shore R. R. in 1884 as General Manager, and has held the office continuously ever aince. After April 1, the management of the West Shore will he consolidated with that of the New York Central & Hudson River R. R.

OBITUARY.

Mr. John O. Ayers, Superintendent of the Water-Works of Portsmouth, N. H., dled Feb. 2, aged 57.

Mr. Benj. H. Brown, architect, of St. Louis, Mo., died Jan. 30, aged 52. For three years past he had been Superintendent of Construction of the new City Hall in that

Mr. John Newham, Supervisor of the Eric R. R., of Newcastle, Pa., died Jan. 28, aged 75. He was a native of England and was formerly a railway contractor, having hulit the main line of the Erle R. R., from Saiamanca, N. Y., to Corry, Pa., and a part of the Cleveland & Pittshurg R. R

Mr. Leland D. Henshaw, Chief Engineer of the Mount Vernon Bridge Works, Mount Vernon, O., dled at his home in that city, Jan. 21, of pneumonia. He was a grad-uate of Kansas University, and during his professional career had been connected with several bridge and structural companies in Pennsylvania, Maryland aud Ohlo.

Mr. Willism Laird, of the firm of Laird Bros., Birkenhead, England, shiphuilders, died Feb. 7. The firm, which has long been one of the foremost shipbuilding concerns in the world, was founded by the late John Laird, the father of Mr. William Laird, about 50 years ago, and dur-Ing the Civil War built the Confederate war vessel "Ala-hama," which was completed in August, 1863.

Dr. Henry Elmo Keyes, chemist, and wife were both accidently asphyxiated by illuminating gas, Feb. 7, at Ardsley Casino, Ardsley-on-Hudson, N. Y. Dr. Keyes was born in San Francisco, Cal., 29 years ago, and was the son of the late Maj.-Gen. Erasmus D. Keyes. He wss a graduate of the School of Mines of Columbia University, New York city, in which institution he was afterwards instructor in Chemistry. He also studied chemistry in Heldelberg, Germany. Recently he had been in the em-

ploy of a large chemical manufacturing establishment in New York. Dr. Keyes-and wife at the time of their deaths were the guests of Col. Eugene Griffin, of the First Regimeut of Volunteer Engineers.

Mr. William Roberts Michie, Assoc. M. Am. Soc. C. E., until recently Assistant Engineer on the Pennsylvania R. R., with offices in Greenshurg, Pa., died of pneumonia R. R., with omces in Greensburg, Pa., died of pneumonia in the Memoriai Hospitai, Johnstown, Pa., Feh. 2. He was born in McDoweil county, North Carolina, Sept. 22, 1866; his father heling Prof. Peter L. Michie, of the United States Military Academy, West Point, N.Y.; and was graduated from the Thayer School of Civil Engineering of Dartmouth College, Hanover, N. H., in 1889. He hegan his railway service on the Pennsylvania R. R., in the engineering department in 1891, heing located at Altoona, Pa. The following year he was promoted to Assistant Engineer, and among other work had charge of widening the roadbed on a portion of the Pittshurg Di-vision and the construction of the Bolivar extension. In 1895 he was placed in charge of the construction of the Radehaugh Tunnel, which was completed two years later. He resigned his position Dec. 31, 1898, intending to go to Cuha, where his brother, Lieutenant Michie, was killed in the battle of San Juan, July 1 last.

THE MICHIGAN GAS ASSOCIATION .- The 6th annual meeting of this association will be held at Lansing, Mich., on Jan. 22-23.

MANUFACTURERS' ASSOCIATION OF NEW YORK .--The 6th annual meeting and banquet of this association was held at the Union League Club, of Brooklyn, N. Y., on Feb. 1, with 300 present.

AMERICAN SOCIETY OF CIVIL ENGINEERS.—A special meeting of this society will be held at the Society House. New York city, on Feh. 10, at which the subject of "Dry-Docks-Stone vs. Wood" will be discussed. Wm. L. Cathcart, late Chief Engineer U. S. N., Commodore Geo. W. Melville, Engineer in Chief, U. S. N., Commodore M. T. Endicott, Chief of Bureau of Yards and Docks, and other officers will be present and take part in the dis-Chas. Warren Hunt, Secy.

UNDERWRITERS' NATIONAL ELECTRIC ASSOCIA-TION .- The special committee of this association appointed to revise the rules and specifications relating to electric wires and construction work, held a meeting lu Chicago on Jan. 9-11. Changes were made in rules pertaining to armored cables, slow-burning weather-proof wires, metal conduits with linings of insulating materials, unilned metal condults and in the specifications for rubber

NEW YORK ELECTRICAL SOCIETY.—The next meeting of this society will be held in New York at the station of the Electric Vehicle Co., 1884 Broadway, on Feb. 14. Mr. G. Herbert Condict, the electrical engineer, will give an informal talk on the "Status of Automobiles," after which the station will be inspected.

Each member proposing to be present will inform the secretary not later than Feb 11 of his intention, saying whether or not he will be accompanied by a lady. A special ticket of admission will be forwarded to the ap pilcant, and no one will be admitted to the building with out a ticket. George H. Guy, Secy.

AMERICAN INSTITUTE OF MINING ENGINEERS .-The 29th annual meeting of the Institute will be held in New York city, Feb. 21-25, as already announced in this

The following is the program:

The following is the program:

Feb. 21, morning, headquarters open at Murray Hill

Hotel; evening, 8 p. m., opening session at hall of the

Am. Soc. of M. E., 12 West 31st St. "The Copper Queen

Mine, Arizona," Mr. James Douglas; Feb. 22, morning

and afteruoon, visit to and session at Columbia Univer
sity; evening, reception and dance at Sherry's; Feb. 21,

morning, session at Am. Soc. of, M. E. hall; afternoon,

free for optional excursions; evening, session at Am. Soc.

M. E. hall; Feb. 24, morning and afternoon, visit to mine

and works of the New Jersey Zinc Co.; evening, optional;

Feb. 25, optional excursions.

AMERICAN INSTITUTE OF ELECTRICAL ENGI-NEERS.—The 131st regular meeting of this society was held in New York city on Jan. 25. Mr. S. Dana Greene, of the General Electric Co.. Schenectady, N. Y., preaented a paper entitled "Electricity on Board Ship." This was an argument for the further adoption of electricity for the operation of auxiliary apparatus on vessels of both naval and merchant marine, based upon the performance of practical electrical apparatus during the recent war with Spain. The advantages of centralizing the genera-tion of power, of transmitting it in a convenient, safe and comfortable form, and using it in efficient and re-liable motors, was well pointed out. Range-finders, telephones and engine indicators were criticised and classed as unreliable when in action. On the other hand, motors, incandescent lamp and search lights were considered of the greatest value

The extremely low efficiency and large coal consumption of the present forms of steam pumps, winch engines, was brought out by tables showing the results of Gibralter to New York. It was pointed o't that any-thing that would reduce this large auxiliary coal conaumption would permit the reduction in amount of coal carried, an increase in cruising range, more weight in

machinery, armor or the like.

In the discussion which followed Mr. Ellhu Thompson described a type of steam engine with which he had been experimenting. This had 4 cylinders, 2½ lns. in diameter, and a 3-in. stroke. With steam at 180 to 200 lbs., the engine gave 4 HP., and an economy of 201/2 lbs. per horse

power. Such engines could he used in connection with power and lighting plants on ship board to generate current at a very reasonable figure. The remarkable work of the electrically-controlled turrets on the "Brooklyn" was mentioned and the statement made that in one official trial the turret was started and stopped 37 times in one inch of peripheral movement.

The conclusion reached was that electric motors could. If properly designed, be installed and wired to do all the auxiliary work on ship board now so generally performed by wasteful steam enginea.

FRANKLIN INSTITUTE .- At the meeting of the Institute held Feb. 3, Mr. F. H. Newell, Hydrographer of the U. S. Geological Survey, delivered the second of a series of lectures on the resources of the West, entitled "The Great Reservoirs Constructed for Water Conservation.

These have been built mainly within the mountains of the arld region, for the purpose of storing the flood waters for use during time of drought in the irrigation of the fertile valley lands. The dams which form these reservoirs have been constructed mainly by private or corporate enterprise, there being comparatively few reservoirs built by the states or the national government.

These structures have as a rule been successful from the engineering standpoint, and have made possible the utilization of great tracts of country formerly barren, but now covered with flourishing orchards and vineyards. Fi-nancially, however, they have been as a rule failures, owing partly to had management. In a large way they have paid by making possible the tilling of the soil, the bringing in of a large population, resulting in increase values, but this increase has in few cases redounded to the benefit of the men who have risked their capital.

Most of the large reservoirs are in California, where through hydraulic mining great practical experience has been had in handling and controlling considerable bodies of water. The most notable structures are in the southern part of the state on the headwaters of streams whose channels extend to the Pacific Ocean, but in whose lower course little water flows except during times of flood. These streams come from high mountains upon which there is considerable precipitation owing to the fact that the land rises abruptly from the sea. Among the upper valleys suitable localities for storing water have been found and in part utilized. Great masonry structures have been built closing the outlets of these valleys, and thus holding back the water.

It is by no means a simple matter to plan and construct these dams, for there are many difficulties and dangers to be encountered. If the reservoir is on a main stream, ample provision must be made for passing the floods over or around the dam; otherwise it may be swept away, as has been the case with a number of structures, notably the Walnut Grove dam in southern Arizona. This was overtopped by a sudden flood, quickly swept away and many lives were lost and much property destroyed.

If the floods do not weaken the structure, they will, as a rule bring dnwn great quantities of gravel and mud, which, accumulating in the reservoir, tend to fill it quickly. In the case of one reservoir, costing over \$1,000,000, the reservoir has within four years been filled with sediment to ½ of its capacity. At the same rate it will be completely filled in eight years more.

On account of the difficulties and dangers incident to building reservoirs on the main stream, attempts are made as far as practicable to locate these storage works ou side channels, bringing water to them by means of canals, flumes and tunnels, and thus controlling the amount of water and diverting most of the sediment. In a few casea dangers incident to ordinary reservoirs have been ingeniously avoided by placing these under-ground; that is, by constructing submerged dams across the gravel-filled valley of a large stream. A tight dam reaching to bed rock and extending out an each s.de inter-cepts the waters which percolate through the gravela, and permits this water to be controlled and drawu off at times when the bed of the river may be dry. Tue capacity of such a reservoir is of course limited to the agg.egate of aces between the pebblea or grains of sand

RAILWAYS.

ARLINGTON & BLUFFTON.—J. A. Maxwell, Arlington, informs us that this company has not yet been or anized, and that quthing further has been done than to apply for a charter. It is a local enterprise, having in lew the construction of a steam railway between Arlingman of the Miller of the Construction of a steam railway between Arlingman Blufton, 11 miles.

ton and Biufiton, 11 miles.

ATCHISON, TOPEKA & SANTA FE.—Reports state that this company will soon build a cut-off hetween a point on the Pecos Valley R. R. extension, about 20 miles east of Fort Summer, In Guadaioupe county, N. Mex., west to the Santa Fe Pacific, at Isleta Junction, 180 miles. This will send ail of the transcontinental traffic over the lines southwest from Newton, Kan., to Amarilio, Tex., and directly west over the new route to Isleta Junction, thus saving 250 miles and the heavy Raton and Glorietta range climbs.

saving 200 miles and the acety know and off-rectar languages.

BALTIMORE & OHIO SOUTHWESTERN.—We are informed that the rehabilitation of this railway will begin as soon as the frost is out of the ground. Juat before the line went into the hands of Receivers Harmon and Robinson a isrge quantity of material was purchased, and this will be delivered immediately for use. Ahout 40,000 tons of 85-ib. steel rails have been purchased, and enough will be on hand on March I to enable track-laying to begin at five different points. Each mile of track will be carefully rebalissted and placed in first-class condition, and 101,-600 pairs of continuous rail-ioints will be used. The 2,000 standard box cars and 500 steel coal cars recently ordered will be delivered in March. Forty compound freight engines, weighing 156,000 lbs., and five 10-wheel compound passenger engines, weighing 135,000 ibs., are now being built by the Baldwin Locomotive Works. D. D. Carothers, Engrs., Cincinnati, O.

BOISE, NAMPA & OWYHEE.—It is announced that this

Carothers, Engrs., Cincinnati, O.
BOISE, NAMPA & OWYHEE.—It is announced that this
line will be extended this year from its present terminua
at Guffer. Idaho, south 10 miles through an agricultural
and mining region to Striker Springs and north 60 miles
from Nampa through a grazing and timher district towards
the Seven Devils mining lands. Surveys have been made
and work is expected to begin about May 1. J. M. Clark,
Ch. Engr., Nampa, Idaho.

CH. Engr., Nampa, Idaho.

CHOCTAW & MEMPHIS.—F. A. Molitor, Ch. Engr., Informs us that the Iron superstructure for this conpany's line, now under construction between Little Rock, Ark., and Howe, Ind. Ter., has been awarded to the Pennaylvania Steel Co., Steelton, Pa.

The contract covers over 2,000,000 lbs.

2,000,000 lbs.

COLUMBUS, WELLSTON & SOUTHERN.—This company was incorporated Jan. 31 with a capital stock of \$2,000,000, to build and operate a line hetween Columbus and Weliston, about 70 miles, through the coal fields of Hocking Valley. Among the incorporators are W. H. Stevenson and J. G. Reeves, of Lancaster, O., both officers of the Columbus, Lancaster & Wellston Ry., 23 miles in length.

length.

DENVER & RIO GRANDE.—Clough & Anderson, of Colorado Springa, write us from La Veta, Colo., that their contract with this company is for the construction of 23 miles of new roadbed, from La Veta to Placer. Dirt is now flying on three miles of the survey. Three tunnels from 390 to 600 ft. in length will be built, and the work will he very heavy, mostly of rock. About 500 men are on the work now, and it is expected soon to have from 1,000 to 1,500. Other official information may be found in our last issue. M. H. Rogers, Ch. Engr., Denver, Colo.

DUCHESNE.—Wm. F. Colton, Treas., Sait Lake City, Utah, informs us that about 15 miles of surveys have been made for this proposed line from Colton to Duchesne, Utah, 52 miles. C. W. Bennett, Pres. Sait Lake City,

Utah. 52 milea. C. W. Bennett, Pres. Sait Lake City, Utah.

EASTERN ILLINOIS & MISSOURI.—This company has been incorporated in Illinois, with a capital stock of \$50,000, to build a railway from Cape Girardeau, Mo., on to Marion, Ill., 50 miles. The new line will be a concetion of the Chlcago & Eastern Illinois and the St. Louis Southwestern, or Cotton-Beit Line, to give the latter entrance into Chicago and enable it to reach St. Louis over the Mobile & Ohio R. R. The incorporators are conceted with the Chicago & Eastern Illinois R. R. Co.

FITCHBURG.—The Schenectady Locomotive Works. Schenectady N. Y., is stated to have received a contract for building six 12-wheel 160,000-lh. Treight engines, and two 10-wheel passenger carriers. This company has also added considerably to its rolling stock.

IIANNIBAL & QUINCY.—Incorporated in Illinois with a capital stock of \$125,000. to build and operate a line from East Hannibal to Quincy, Ill., via Pike and Adams counties. Among the Incorporators are Ossian D. Ashley and John C. Otteson, New York; Joseph Ramsey, Jr., and W. H. Blodgett, St. Louis, Mo., all efficials of the Wahash R. R. Co.

R. R. Co.

INDIA.—Anyone prepared to construct and equip a narrow-gage railway will be interested in the following extract from a letter from Hindestan: "I intend opening a two-foot railway in one of my estates. I hear America is the hest market; therefore, will you kindly ask some of your friends to send me prospectuses of constructions of this cheracter. The total length of track will be 150 miles." We are informed on the best authority that the writer is a wealthy rajah, with large estates in the Decent; that he holds high office under the Nizam and is a progressive and enlightened Hindoo, very desirous of improving his country. We are not at liberty to publish further information, but any communication hearing on the subject may be sent to the office of the Engineering News and will be forwarded promptly.

LAUREL & NORTHWESTERN.—We are Informed that

LAUREL & NORTHWESTERN.—We are informed that W. Gardiner, Laurel, Miss., is president and not chief

engineer of this company, which is now locating a line from Laurel to Leaf River, 20 miles. Arthur J. Cox, Ch. Engr., Laurel.

Engr., Laurel.

LOGANSVILLE & NARROWS PRAIRIE.—This company has been incorporated in Wisconsin to construct a standard-gage line from Logansville northwesterly to the Chicago & Northwestern Ry., at Ableman, Wis., ahout 19 miles. D. B. Hulhert, Prea.; H. L. Hulhert, Secy.; E. F. Dithmar, Treas.

miles. D. B. Hulhert, Prea.; H. L. Hulhert, Secy.; E. F. Dithmar, Treas.

MASSACHUSETTS.—The hoard of aldermen of Boston has passed an order directing the city engineer to prepare pians and estimates of the cost of such alterations of all the crossings of the railways and public ways in East Boston as will avoid crossings at grade.—Reports state that the Boaton & Maine R. R. Co. has completed the preliminary plans for the abolition of grade crossings in Chicopee. Bids will he asked when details have been decided upon, so as to begin the work, if possible, in the spring.—The city council of Worcester has authorized the mayor to appoint a commission, consisting of two disinterested engineers, to consider, with the city engineer, both the depressed and the elevated track plans for the abolition of railway grade crossings.

MIDDLEBROOK.—This company was incorporated in New Jersey, with a capital stock of \$50,000, to construct 1½ miles of line near Bound Brook, N. J. The incorporators are: J. R. Maxwell, Brooklyn, N. Y.; Stephen M. Williams, Roselle, N. J.; Robt. W. De Forest, New York; Samuel Knox, Elizabeth, N. J.; Hiram P. Baldwin, Roselle, N. J.; Geo. O. Waterman, Red Bank, N. J.

MINNEAPOLIS & ST. LOUIS.—Reports state that this company will extend its line this season from New Ulm. Minn., about 150 miles, into Iowa, with a possible extension ister on to Omaha, Neh., 100 miles further. L. F. Day, Gen. Mgr., Minneapolis, Minn.

MISSOURI MIDLAND.—Robert Moore, Ch. Engr., St. Louis. Mo., informs us that the preliminary surveys for

MISSOURI MIDLAND.—Robert Moore, Ch. Engr., St. Louis, Mo., informs us that the preliminary surveys for this proposed line from Columbia to Huntsdaie, Mo., on the Missouri, Kansss & Texss Ry., S½ miles, have been made. Considerable rock work and embankment, it is said, will be required. Several bridges will be huilt. Charles Wiggins, Pres., Bank of Commerce Bidg., St. Louis

Louis.

MONTEREY & FRESNO.—Reports state that the California Construction Co. will soon hegin the construction of this line from Monterey to Holliater, Cal., 45 miles. It is expected to build later to Fresno, ahout 100 miles further east. H. A. Greene, Gen. Mgr.; P. P. Dandrige, Ch. Engr., both of Monterey, Cal.

NORFOLK & WESTERN.—This company is said to have awarded the contract for building about 4½ miles of new track near Christianhurg, Va., to L. H. Vaughan & Co., Roanoke, Va.

OTTAWA & GATINEAU.—This company proposes to extend its lines during the coming season from Gracefield to Maniwaki, Que., 28 miles. G. C. Dunn, Ch. Engr., Ottawa, Ont.

tawa, Ont.

PENSACOLA & NORTHWESTERN.—S. N. Van Praag,
Pres., Pensacola, Fla., informs us that a bill has been
introduced into Congress granting to this company the
right to croas the Alahama, Warrior, Sipsey and Tennessee rivers. Grading will be started as soon as bill has
passed, and the right to go through the naval and military reservations granted. As stated in our Issue of
Jan. 26, the route is from Demopolis to Eutaw, Ala., 432
miles.

PORTSMOUTH & OHIO.—This company has been in-corporated in Ohio with a capital atock of \$30,000, to build a railway from Wharton, O., on the Cincinnail, Ports-mouth & Virginia Ry., to the stone quarries of Reitz & Co., on Carey's Run, in Scioto county. The incorporatora are: Ignatius Reitz, Albert J. Reitz, Henry Bannon, Geo. E. Knicker and William Turner.

E. Knicker and William Turner.

RIO GRANDE wESTERN.—A. E. Gibson, Chn. County
Comrs., Cleveland, Utah, informs us that the construction
of a branch line, from Wellington to Castle Dale, via
Cleveland and Huntington, Utah, is being agitated, but
that no action has yet been taken by the company. This
is the most direct route to the Pacific coast for the Rio
Grande Western, and it would also open up rich coal
fields. The officials are thought to be considering the proiect favorably.

ject favorably.

ST. LOUIS, POMONA & SOUTHERN.—The International Construction & Improvement Co., Jesae French, Pres., St. Louis, Mo., is stated to have received the contract for building this proposed line from St. Louis to Fort Smith, Ark. Preliminary surveys and locations are now being made. It is expected to construct the line between Pomona and Fort Smith. 170 miles, at first, and then the northern extension. H. D. Mackay, Prea., Pomona, Mo.

mona, Mo. SANTA ANA & NEWPORT.—Reports state that thi company has obtained the right of way from Smeltzer' Station to Westminster, Cal., through an agricultural district, and that an extension will probably he hulit. S. Il Finley, Ch. Engr., Santa Ana, Cal.; J. Ross Clark, Vice Pres., of Los Alimetos Sugar Co., is also reported thave purchased this system.

SOUTHERN ALABAMA.—This company was incorporated.

have purchased this system.

SOUTHERN ALABAMA.—This company was incorporated in Alahama Jan. 27, with a capital stock of \$50,000, by J. M. Falkner, Montgomery, Ala.; E. L. Moore, Nashville, Tenn.; H. Smith, H. W. Bruce, C. Quarrier, W. W. Thompaon, J. H. Ringgold, Louisville, Ky. R. Montfort, Ch. Engr., of Louisville & Nashville R. R., Louisville, Ky., informs us that the contract is held by R. M. Quigley & Co., Georgians, Ala., and St. Louis, Mo. The contractors have asked for hids until Feb. 6 for grading, timher work and tunnel on 45 miles, which they will suhlet. The new line will run from Pineapple to Repton, Ala., and will close up a gap in the Louisville & Nashville R. R. E. L. Moore, Pres., Georgiana, Ala.

SOUTHERN INDIANA.—J. R. Walsh, Pres.. 185 Dear-born St., Lalcago, Ill., Informs us that nothing has been decided as yet with reference to the proposed extension from Greenshurg to Richmond, Ind., about 50 miles.

TENNESSEE CENTRAL.—Naugle, Holcomb & Co. 355 Dearhorn St., Chicago, Ill., general contractors, are re-ported to have sublet the contract for constructing the portion of this .ne from the tunnel to Emory Gap, 13 miles. The halance will be built as soon as the engineers, now in the field, are ready. G. T. Bigelow, Ch. Engr., Rockwood, Tenn.

TRAIL & SALMON RIVER.—Frank Moberly, Ch. Engr., Rossland, B. C., informs us that the proposed construction of this line has been postponed until the meeting of the next legislature, in about one year.

NAN BUREN & CARIBOU.—Peter C. Keegan, Caribou, Me.; Allen E. Hammond. Van Buren, Me., and others have introduced a bill in the legislature of Maine for a charter for this proposed standard-gage line from Caribou to Van Buren, about 25 miles. It la desired to secure the bonus of \$4,000 a milè, which Aroostock county voted some years ago to give the Bangor & Aroostock R. R. Ço., provided such a line be built.

WATONWAN VALLEY.—W. A. Scott, Pres., St. Paul, Minn., informs us that surveys have been completed for this proposed line from Madelia, Minn., to the lows state line, via Fsirmount, about 20 miles. C. W. Johnson, Ch.

WEST VIRGINIA & PITTSBURG.—We are informed that this line will be extended from its southern terminus at Camden to Gauley, W. Va., nine miles south to a point near the mouth of the Cherry River. The contract for grading has been let to Joseph Fucey, Weston, W. Va., and work will be begun at once. A. H. Kunst, Gen. Mgr., Weston.

STREET AND ELECTRIC RAILWAYS.

BLUEHILL, ME.—A hill is to be introduced into the atate legislature for the incorporation of the Bluehill & Bucksport R. R. Co., to have a capital stock of about \$220,000, to build a street railway from Bluehill to Bucksport, via Penobseot and Orland, about 18 miles. Rufus P. Grindle, Bluehill; Merrill P. Hinckley and othera are interested.

Interested.

NEWHALL, ME.—Flavius O. Beal, Bangor, Mc., is said to be the promotor of a new electric line to be built between Newhall on the Maine Central R. R., to Naples R. D. Woodman, of Westbrook, is also said to be interested in the construction of a rival line, which would extend to Westbrook

GEORGETOWN, MASS.—The Georgetown, Rowley & Ipswich St. Ry. Co. has been organized, with a capital stock of \$180,000, to build 18 miles of street railway. The incorporators are: C. E. Barnes, 53 State St., Boston; Edmund B. Fuller, Haverhill, Mass., and others.

ton; Edmund B. Fuller, Haverhili, Mass., and others. MAGNOLIA, MASS.—The Magnolia St. Ry. Co. has been organized, with a proposed capital of \$60,000, to connect Gloucester and Magnolia hy a street car line. Wm. B. Ferguson, Malden, Mass.; A. D. Bossum, Chelsea, Mass., and D. S. Presson, of Gloucester, are directors. PALMER, MASS.—The Palmer & Monson St. Ry. Co. is contemplating the extension of its line from Forest Lake to Ware, and from Palmer to Monson, 10 miles. Chas. F. Grosvenor, Pres.

WAYLAND, MASS.—At a hearing in this town, Jan. 28, the petition of the Natick & Cochituate St. R. R. Co. for permission to build to Wayland Centre was favorably acted upon.

for permission to build to Wayland Centre was favorably acted upon.

WHITINSVILLE, MASS.—A street railway company has been formed here, with a capital stock of \$12,000, to operate an electric line between Whitin's station and Whitinaville. It is expected that the new line will form a connection with the Blackstone Valley road and open up a section of territory which heretofore has been dependent upon stage lines. The directors are: G. W. Whitin, J. M. Laseli, Cheater W. Laseli, C. A. Taft, William L. Taft, W. E. Johnson and Robert K. Brown.

JAMESTOWN, R. I.—A petition has been received by the council from N. S. Littlefield and J. P. Kohler asking for a franchiae to build a street railway on Narraganactt Ave., the street connecting the two ferries.

SHELTON, CONN.—C. W. Blakeslee & Sons, New Haven, Conn., are said to have been awarded the contract for the construction of a street railway between Shelton and Stratford.

WOODBURY, CONN.—The Woodbury & Southbury Electric Ry. Co. has been organized in Woodbury with the following directors: James Huntington, Pres.; E. S. Boyd, Secy. and Treaa.; J. S. Bradley, W. M. Anthony and F. C. Boyd. The capital stock is \$50,000, and the line is expected to run from Woodbury through Southbury to Waterbury, and later perhapa to Westville to connect with the New Haven street cars.

NEW YORK, N. Y.—The Manhattan Elevated Ry. Co. has definitely announced its intention to install a system

NEW YORK, N. Y.—The Manhattan Eievated Ry. Co. has definitely announced its intention to install a system of electric motive power on its entire system.

of electric motive power on its entire system.

ROCHESTER, N. Y.—T. J. Nicholi, Pres. of Rochester & Sodua Bay R. R. Co., 267 State St., Rochester, Informs us that 90% of the right of way has been obtained for this proposed electric line to Sodua Point, 38.4 miles diatant. Bids for construction will not be received for some time yet. Le Grand Brown, Ch. Engr., Rochester.—W. Caryl Ely, Pres. of Buffalo & Niagara Falia Electric Ry. Co., North Tonawanda, is reported to be interested in a project to connect Rochester and Toronto, Ont., by an electric railway system.

BRIDGETON, N. J.—The Lawrence township committee passed an ordinance, Feb. 1, granting a franchise to the Bridgeton & Milliville Troiley Co. to extend its tracks to Cedarville.

PRINCETON, N. J.—The New England Electric Politics.

to Cedarville.

PRINCETON, N. J.—The New England Electric Railroad Construction Co., Worcester, Mass., has been
awarded the contract for building the electric railway between Princeton and Trenton for the Princeton & Trenton Traction Co. The line will be about 12 miles in length.
and will be equipped for handling both passengers and
freight. It is intended to make it a model road. E. E.
Carpenter, Gen. Mgr.; Harry F. Lincoln, Engr. of the
Construction Co.

Construction Co.

ALLENPORT, PA.—The Charieroi & Westside St. Ry.
Co. was incorporated, with a capital stock of \$20,000, Feb.
6, to hulld an electric line between Allenport and Speers
Borough, Washington county. The incorporators are:
Chas. F. Thompson, Pres.; J. S. Eberman and Wm. R.
McKean, ali of Charleroi, Pa.; Wm. W. Bell, Pittshurg.
BETHLEHEM, PA.—The Bethlehem & Nazareth Ry.
Co. was incorporated with a capital stock of \$6,000, Feb.
6, to bulld an electric street railway from Bethlehem to
Nazareth. The incorporators are: Jos. J. McKee, Pres.
Felix W. Leinbeck and Alvin Hill, ali of Bethlehem;
Andrew S. Keck, Allentown; Mark T. Schwartz, Nazareth
NAZARETH, PA.—The Nazareth Transit Co. was incor-

Andrew S. Keck, Alientown; Mark T. Schwartz, Naisareth NAZARETH, PA.—The Nazareth Transit Co. was incorporated. Feb. 1, hy Wm. J. Daub, Pres., Easton, Pa.; Jacob H. Holt, Nazareth, and others, with \$48,000 capital, o huild an electric line between Easton and Nazareth. WASHINGTON, D. C.—The commissioners have granted the Capital Traction Co. permission to replace the Love system of underground propulsion on U St. with the system used throughout the city, extending it to the Clucinnati St. bridge over Rock Creek, about two miles. Work will be commenced as soon as the weather permits. HAGERSTOWN. MD.—Douglass. Bros. Millerstown.

Work will be commenced as soon as the weather permits. HAGERSTOWN, MD.—Douglass Broa., Millerstown, Pa., inform us that a surveying party under C. McC. Lemley, Engr., Washington, Alexander & Mount Vernon Ry., is now ascertaining grades over the mountain and probable cost of construction of a 13-mile line of electric railway from Hagerstown, via either Funkstown and Smoketown or Beaver Creek and Smoketown to Myersville, with a connection with the Myersville & Catoctin Electric Ry., now operated by the Frederick & Middletown Electric Ry. Co., and which will provide direct communication between Hagerstown and Frederick, 26 miles.

PORTSMOUTH, VA.—The Portsmouth & Smithfield R. R. Co. has been organized to build 35 miles of electric rail way. H. L. Maynard, Pres.; Col. C. Fenton Day, Vice Pres.; Smithfield, Va.

HUNTINGTON, W. VA.—The Huntington Connecting Ry. has been incorporated with a capital stock of \$50,-000, to build a street railway in this town. E. E. Canda, New York; Ely Ensign and W. H. Banks, Huntington.

New York; Ely Ensign and W. H. Banks, Huntington. CLEVELAND, O.—W. C. Jones, Ch. Engr. of Cleveland & Eastern R. R. Co. 710 New England Bidg., Cleveland, informs us that eight miles or grading have beeu completed on this proposed line from Cleveland to Burton, via South Euclid, Gates Mill, Chestertown, Fullertown, Munson and Chardon, 36 miles. Contracts have still to be let for all the track-laying, ballasting, power house, engines, cars and overhead materials, except poles, electric iccomotives, etc. H. P. McIntosh, Pres. Guardian Trust Co.; H. Clark Ford, Chn. of Construction Com.—W. H. Ford, Cleveland, has been granted a franchise to build a street car line on the Shunpike road. Work must begin before July 1.

July 1.

IRVINGTON, IND.—The commissioners of Marion county have granted a franchise to the Indianapolis, Greenfield & Eastern R. R. Co. to build on the National Road from Irvington to Hancock county. Work to begin before Sept. 1. Chas. M. Cooper, Iudianapolis, is interested.

KALAMAZOO, MICH.—A. D. Prosser, Detroit, Mich., has 'petitioned the council for a franchise allowing the Grand Rapids & Kalamazoo Electric Ry. Co. to enter the city. The projected length of complete line is 55 miles. HARVARD WIS.—The Chicago, Harvard & Geneva Lake R. R. Co. has been incorporated, with \$50,000 capital stock, to huild an electric line from Harvard to the Wisconsin summer resort lakes near Lake Geneva. The incorporators are: C. T. Bundy, Eau Claire, Wis.; L. C. Church, Walworth, Wis. Reports state that the Continental Construction Co., Boston, Mass., has received the contract for the entire construction work, and that it will sublet the contract for the power house and car harn. The generators and motors will be furnished by the General Electric Co., Chicago, and the rails by the Illinois Steel Co.

Steel Co.

SIOUX CITY, IA.—Reports state that D. M. Robbins, St. Paul, Minn., has sold the elevated rallway in this city to the Sioux City Transit Co., composed of A. M. Jackson, Pres.; A. D. Wilson D. M. Robbins and others. The road runs from the Union Depot for a distance of about four miles to Morning Side, a suburb. About a mile of the track is elevated, and it is proposed to tear down about four blocks of this and spend the money obtained from the sale of the Iron work for new equipment.

FRESNO, CAL.—S. N. Griffith is interested in the proposed construction of an electric railway in Fresno.

CAIRO, EGYPT.—The Westinghouse Electric & Mfg. Co., Pittshurg, Pa., has received an order for the equipment of 14 trolley cars of the ordinary type for use in

ELECTRIC LIGHT AND POWER.

FORT PREBLE, ME.—Bids are asked until March 6 for furnishing and setting up an electric light plant at Fort Preble, as stated in our advertising columns. Maj. S. W. Roessier, U. S. Engr., Portland, Me.

HOUSATONIC, MASS.—Chas. E. Collender is reported as making efforts to secure subscriptions for lights from the proposed plant at the Giendale water power.

LOWELL, MASS.—The control of the Lowell Electric Light Co. has been secured, by Boston capitalists, headed by Stone & Webster, Archs. and Engrs., 4 Post Office Square, Boston.

AUBURN, N. Y.—E. H. Heuling, Cy. Cik., writes us that the city is not taking steps to build a plant. It is simply trying to have the charter amended, so that it may vote on the question of municipal ownership of any plant or for an extraordinary expenditure without going to the legislature each time.

NEW YORK, N. Y.—Bids are asked until Feb. 20 for furnishing the electric current necessary to supply the lights of the city prison for 1899. F. J. Lantry, Comr. PORT JERVIS, N. Y.—The contract will soon be let for the addition to the power plant of the Part Lewis Lights of the city prison for 1890.

PORT JERVIS, N. Y.—The contract will soon be let for the addition to the power plant of the Port Jervis Light Power Co., according to reports.

ex Power Co., according to reports.

RENSSELAER, N. Y.—The capital stock of the Kinderhook Light & Power Co. will be increased to \$2,000,000, according to reports. The company has secured the rights along the Kinderhook Creek, including a water fall, for which it is said \$125,000 was paid. James Purcell, Valatia, N. Y., is interested.

which it is said \$120,000 was paid. James Purcell, valatia, N. Y., is Interested.

HOBOKEN, N. J.—Reports state that A. K. Bonta, formerly Mgr. North Hudson Electric Co., will organize a new company with a capital stock of \$300,000, to huild a plant to furnish light and power to this city and North Hudson county towns. The Hoboken Land & Improvement Co. is interested in the organization of the new company. There is a possibility that the new concern will furnish the electricity for the operation of the Hoboken R. R. Warebouse & Steamship Connecting Co., a freight troiley line running along the river front.

WESTFIELD, N. J.—C. W. Hanlen, Township Committeeman, writes us that the committee wants to find out if the people are in favor of the town owning its plant, as it is stated that the present rates are high.

DORRANCETON, PA.—Councilmen Johnson, Weller and Froehlich have been appointed a committee to secure information for a plant.

PHILADELPHIA, PA.—Frank M. Riter, Dir. Dept. Pub.

and Froeblich have been appointed a committee to secure information for a plant.

PHILADELPHIA, PA.—Frank M. Riter, Dir. Dept. Pub. Safety, has submitted a report on the cost and maintenance of a municipal plant for 2,000 arc lights capacity. The whole expense that would be entailed by the erection of the plant suggested would he \$1,037,627. The city owns a lot on 24th St., above Chestnut, upon which the plant could be erected, and also owns a lot of poles, pipes, cahles, etc., which are valued at \$333,564, which would reduce the cost to that extent and make it necessary to appropriate \$702,003. The cost of maintenance would be \$100.82½ per lamp a year, which is about \$70 less per lamp than the city is now paying.

NEWHOPE, PA.—The question of electric lighting is being considered, according to reports.

BALTIMORE, MD.—Bids are asked until Feb. 15 for turnishing and installing a plant at the Mount Royal Pumping station, as stated in our advertising columns. Wm. L. Kenly, Ch. Engr. Water Dd.

FORT MONROE, VA.—We are informed that the following bids were received Jan. 24 for furnishing the government works with four storage batteries, as advertised in Engineering News; (1) 3 non-portable and 1 portable; (2) wiring, lamps, etc.:

Electric Storage Battery Co., Philadelphia, \$4,332

Electric Storage Battery Co., Philadelphia.\$4,392	
McCay Engineering Co., Baltimore, Md 4,345 \$1,25	39
Brown Elec. Const'n Co., New Haven, Conn. 4,300 96	39
H. W. & H. G. Smith, Norfolk, Va 1.14	10
N. J. Foundry & Machine Co., New York *6.715	
'ingshury. Sam'i & Co., Baltimore, Md 4,243 1.51	
K. E. Drew, Manchester, N. H 4.373	

^{*}Including wiring, lamps, etc.

GREENWOOD DEPOT, VA.—It is proposed by the directors to build a power plant for the use of the Miller Manual School, near this place. Professor Vawter, Principal, may be addressed.

LYNCHBURG, VA.—Propositions are asked by the board of electrical control until Feb. 10 for preparing plans for the proposed electrical plant.

the proposed electrical plant.

NEW LONDON, N. C.—A company is reported to have been organized by Col. E. B. C. Hambley, Oxford, N. C.;

J. S. Henderson, Salisbury, N. C., and others from New York, to huild a power plant on the Yadkin River, to cost about \$1,000,000. J. Pierpont Morgan, Broad and Wall Sts., New York, is said to be interested.

Sts., New York, is said to be interested.

MACON, GA.—Benj. L. Jones, Macon, writes us that it is proposed to build a power plant on the Oemulgee River, about 7 miles from here, sufficient to operate all the factories, machine shops and street car lines, and to light the city. G. L. Patrick, Engr. and owner.

ROME, GA.—A committee, consisting of D. B. Hamilton, Jr., Chn.; Frank Kane and B. T. Haynes, has been appointed to investigate the question of municipal ownership. It is thought that a plant of 100-arc light capacity can be huilt for \$10,000. The power will be furnished from the water-works pumping station.—H. M. Smith, Cy. Engr., writes us that be is investigating the cost of a plant, with a view to the city constructing the same.

SAVANNAH, GA.—Rids are asked until Feb. 17 for fur.

SAVANNAH, GA.—Bids are asked until Feb. 17 for fur-inshing and placing certain combination gas and electric iight fixtures in the public building in this city. W. Bi Howeil, Asst. Secy. Treasury Dept., Washington, D. C. LAFAYETTE, ALA.—The legislature has been asked to grant this place authority to issue \$20,000 in honds for a plant and water-works.

BLOOMVILLE, O.-J. F. Walker, Mayor, writes us that this place on Jan. 30 voted 51 in favor of a plant and 101 against it.

CINCINNATI, O.—Collector Voight, Custodian of the Federal Building, has asked the U. S. government to build a new plant for the Federal Building, to cost about \$35,000.

\$35,000.

COLUMBUS, O.—Local papers state that the plant of the Columbus Electric Light Co. will be greatly improved and extended. A. P. Lathrop, Pres., and W. F. Kelly are in the east for the purpose of buying the machinery. WEST UNION, O.—H. S. Erimes, Portsmouth, O., has applied for a 25-year franchise.

BOURBON, IND.—The Western Engineering & Construction Co., J. P. Dales, Agent, 459 Irving Ave., Chicago, Ill., submitted the lowest bid Jan. 25 for constructing a plant and water-works at \$25,220.

EVANSUILLE IND.—An engineer will be engaged at

EVANSVILLE, IND.—An engineer will be engaged at once to prepare plans for a plant of about 500 arc lights capacity; estimated cost, \$60,000. Michael Gorman, Pres. FRANKLIN, IND.—The franchise of the Franklin Water, Light & Power Co., for public lighting, it is stated, expires next year, and there has already been applications made for franchises from other parties.

GRAND RAPIDS, MICH.—We are Informed that the following bids were received Feb. 3 for constructing the electric lighting station; all bidders of Grand Raplds: Hauser, Hayden & Owen (accepted), \$35,992; C. F. W. Gentz, \$37,366; Campbell & McNabh, \$38,316; Charles Connell, \$38,750; James Curtis & Co., \$42,830, and Van der Moien & Brill, \$45,470.

Molen & Brill, \$45,470.

SAULT STE. MARIE, MICH.—Bids are asked until March 1 for constructing and installing turbines of 45,200 HP. for the plant of the Michigan-Lake Superior Power Co. H. Von Schon, Ch. Engr. Last September the Michigan-Lake Superior Power Co. began active construction work on a water-power canal that will develop 40,000 HP. At present work is progressing only on the lower section of the canal. Early in the spring operations will be rushed all along the line. The canal is to be completed by April 1, 1900. Contracts for its construction aggregate aimost \$2,000,000.—The Chandler-Dunbar Water Power Co. has about perfected arrangements to increase its water-power canal from its present capacity of 10,000 HP. to 35,000 HP., at a cost of about \$75,000. The work will probably be begun this year. As soon as the development is made there will be built here a pulp mill and a paper mill to use the increased power.

ChilCAGO, ILL.—The following bids were received by

CHICAGO, ILL.—The following bids were received by the deputy commissioner of public works, Jan. 29, for installing plants in the Springfield Ave. and in the Central

Park Ave. pumping stations:		
	Springfield	Central Par
Bidder.	Ave.	Ave.
Arthur Frantzen & Co	\$3.085	\$3,000
Henry Newgard	2.440	2.200
Western Electric Co	2.381	2.218
D	0 400	0.000

CHICAGO, ILL.—Bids are asked until Feb. 14 for furnishing 300,000 are light carbons. E. G. Schubert, Secy. West Cbicago Park Comrs., Union Park, Chicago. CHICAGO, ILL.—The engineering committee of the drainage board has decided to ask for propositions for developing the water power of the canal at Lockport. It is thought that about 30,000 HP, can be secured.

is thought that about 30,000 HP, can be secured.

MARSHFIELD, WIS.—The Marshfield Electric Light & Power Co. has been awarded the contract for furnishing lights for five years. No municipal plant will be built.

BOSCOBEL, WIS.—Bids are asked until Feb. 10 for furnishing and installing a plant to cost \$9,000, according to reports. C. W. Menkhausen, Cy. Cik.

IOWA CITY, IA.—It is stated that the plant of the Iowa City Electric Lighting Co., located at Coralville, three miles from here. was destroyed by fire Feb. 1, causing a loss of about \$20,000.

MILTON, IA.—The question of building a plant is

MILTON, IA.—The question of building a plant is being considered, according to reports.

WINONA, MINN.—Geo. Z. Heuston, Cy. Engr., writes us that a report, together with an estimate on the construction of a municipal plant, will probably be made by the committee about the middle of this month.

WELLINGTON, KAN.—W. A. Renn writes us that the council has been asked to call an election to vote on the question of issuing \$100,000 in 4 per cent. bonds for a plant and water-works. No election has yet been ordered, nor is likely to be before spring.

NEBRASKA CITY, NEB.—It is stated that the Nebraska City Water and Light Co. proposes to put in new boiler, a 300-HP. Corliss engine, a 3,000 light altenating dynamo, etc. Work will probably be begun in t spring. D. P. Rolfe, Gen. Mgr.

BOULDER, COLO.—It is stated that work will soon be begun upon a plant for this place; it is to be completed in June. J. W. Deane, Denver, Colo., and Hollis French, Elec. Engr., may be addressed.

HAMILTON, MONT.—The electric plant of the Ana-conda Copper Mining Co. was destroyed by fire Jan, 30. causing a reported loss of \$7,500.

NORRIS, MONT.—Plans are being prepared Madison Canon power piant. The dam will be the Lower Madison Canon, about eight miles eris. In a distance of nine miles there is a set, out of which there is obtained an effective left, by means of dam and flume. The plant will, 0,000 HP. O. B. Suhr, Engr.-in-Charge, North City lighting commission for lighting the electricity for five years. Bond, \$250,000.

SEDRO, WASH.—The plant of the Mount Vertic Light Co., it is reported, will be removed to it if a satisfactory franchise will be granted.

TACOMA, WASH.—W. R. Rush, Gen. Mag. Smelting Co., writes us that part of the bids fing the machinery for the plant to operate the works are received; estimated cost, \$40,000. will have a capacity to furnish 150 16-c. p. light works are received; estimated cost, \$40,000. will have a capacity to furnish 150 16-c. p. light new plant of the machinery for the plant of the board to investigate the subject of a municipal plant. RED BLUFF, CAL.—The plant of the Teham Light & Power Co., recently built, was destroy Jan. 27, causing a reported loss of about \$12,000 Cross, San Francisco, the owner, will probabil at once.

ie plant

at once.

SAN FRANCISCO, CAL.—The board of supervisors has authorized Mayor Phelan to engage an engineer to prepare a report upon the subject of a municipal plant, it to be submitted 60 days from Jan. 24. Supervisors Lackmann and Perrault may he addressed.

GLOBE, ARIZ.—We are Informed that Ernest Abs Hagen, 338 Byrne Bldg., Los Angeles, Cal., has made a preliminary report on a proposed water power development of 800 HP. at Globe. It will be used to furnish power to mines, electric light plants, street car lines, etc.

ROSWELL, N. MEX.—The chairman of the town trustees writes that a franchise was granted to J. J. Cooper, of Trinidad, Colo., about three weeks ago. The plant is to be in operation by July 1. It will have a capacity for turnishing five 2,000-c. p. arc and 300 16-c. p. incandescent lights, and will be operated by water power; estimated cost, \$8,000. Work will be begun at once.

LOGAN, UTAH.—Christian Garff is reported interested

descent lights, and will be operated by water power; estimated cost, \$8,000. Work will be begun at once.

LOGAN, UTAH.—Christian Garff is reported interested in a proposed plant in this place to furnish 1,200 HP.

HAMILTON, ONT.—The Cataract Power Co. has applied for a 10-year franchise. The city has asked the company for the rate for furnishing 500 arc and 1,000 incandescent lights. H. R. Lyden, Engr.

LINDSAY, ONT.—Mr. McHugh, M. P., has applied to the Government for permission to operate a power from water power furnished by the Morrishurg canal at this place. Parties from Petersburg have also applied for similar privileges.

MORRISBURG, ONT.—A Brodeur, M.P., Dundas, Ont., and Adam Johnston, of Morrishurg, have asked the government to grant them authority to use water power from the Morrisburg canal.

CASCADE CITY, B. C.—It is reported that the Dominion Mining & Development Co., Ltd., has acquired the water power on Kettle River at this place. It has advertised for bids for cutting and delivering 60,000 lin. ft. of round timber for the cribbing of the dam.

DALWHINNIE, SCOTLAND.—The Highland Water

timber for the cribbing of the dam.

DALWHINNIE, SCOTLAND.—The Highland Water Power Syndicate has applied to Parliament for permission to build a plant at this place to utilize the water of Loch Ericht for power purposes. It is proposed to secure over 30,000 HP.; estimated cost, \$5,000,000. The engineers are Geo. Anderson, Edinburgh, Scotland; R. Middleton, 35 Parliament St., S. W., London, and Kincald, Waller & Manville, 11 Great George St., S. W. London.

SHANGHAI, CHINA.—Blackall & Baidwin, 39 Cortlandt St., New York, constructing engineers, who are the New York agents for the Shanghai municipal council, have heen informed that the contract for the additional electric light plant to be erected at Shanghai has been let to an European concern. Bids for the electric railway and telephone concessions will be received by Blackall & Baidwin until March 15 and 31, respectively.

RANGKOK SIAM—The New York "Lowers of Com-

BANGKOK, SIAM.—The New York "Journal of Com-nerce" states that the Siam Electricity Co., Ltd., have een formed in Copenhagen, Denmark, with a capital tock of \$160,000, which in April will be increased to 500,000.

merce" states that the Siam Electricity Co., Ltd., has been formed in Copenhagen, Denmark, with a capital stock of \$160,000, which in April will be increased to \$500,000.

NEW COMPANIES.—Wrightsville Electric Co., Wrightsville, Pa.; \$50,000, with \$500 paid in; Calvin G. Smith, D. S. Cook, Wrightsville; J. E. Baker, York.

Campton Electric Light Co., Campton, N. H.; \$2,000.

M. C. Dole, H. M. Fifield.

Elimwood Light & Power Co., Elmwood, N. Y.; \$100,000.

Robert C. Pruyn, Alhany; W. L. Elkins, Philadelphia. John Dunfee, W. B. Kirk, P. J. Mack, Syracuse.

Porto 'Rico Co., Trenton, N. J.; \$1,000,000; to manufacture and sell gas and electric light in the West India Islands; Matthew Randall, Nathan J. Mitchell, Elmund C. Aisop and Frank B. McAvoy.

International Incandescent Light Co., Philadelphia, \$1,000,000; A. E. Stilwell, Pres. Kansas City, Pittsburg & Gulf R. R. Co., Kansas City, Mo. A Massachurg & Gulf Road, who has secured the rights for this state. Companies are also being organized for Ohlo, Kentucky, Illinois, Rhode Island, Maryland and other states. The special field of the company is suburban lighting for towns and cities not baving electric plants.

Corunna Lighting Co., Corunna, Mich.; \$20,000; C. M. Nolley, D. M. Lowe, D. C. Nolley, F. Clark, M. Mead. Rockford & Belvidere Electric Ry. Co., Chicago: \$50,000; H. L. Jewell, W. H. Vorhis, C. B. Masilch, W. Settle Power Co., Seattle, Wash.; \$1,250,000; to install a plant capable of furnishing 12,000 HP. at the falls on Cedar River; E. H. Ammidown, Pres.; T. A. Noble, Engrand Secy., Balley Bidg., Seattle.

BRIDGES.

WATERVILLE, ME.—Reports state that Wm. T Hanes. Harvey D. Eaton and others have incorporated the Ticonle

WATERVILLE, ME.—Reports state that Wm. T Hanes, Harvey D. Eaton and others have incorporated the Ticonic Footbridge Co., and will petition the legislature for a charter to construct a steel bridge dver the Kennebe River between Waterville and Winslow; estimated cost. \$20,000.

BOSTON, MASS.—Bids are asked until Feb. 20 for the abutments of a bridge over the railway on Sweet St. Wm. Jackson, Cy. Engr.

BROOKLYN, N. Y.—Bids are asked by the department of bridges, Stewart Bidg., New York, until Feb. 14 (post-ponement from Feb. 2), for constructing the Bridge over Newtown Creek, at Greenpoint Ave.

RUFFALO, N. Y.—The board of aldermen has passed resolution to construct a bridge to cost \$6,000 over the reck on Sprenger St.

NEW YORK, N. Y.—Bids are asked by the East River or dee commissioners, 49 Chambers St., until Feb. 18, for until ship the material and constructing the ateel towers to ded spans of the new East River bridge, as described in our advertising columns. Lewis Nixon, Pres.:

Bills E. Lane, Seey.

and cod spans of the new East Niver bridge, as described in our advertising columns. Lewis Nixon, Pres. Smith E. Lane, Secy.

WILMINGTON, DEL.—The water commissioners have awarded a contract to the Edge Moor Bridge Co., at 83 103, for a bridge over the Brandywine race.

DARLINGTON, S. C.—Bids are asked until Feb. 9 for constructing a bridge 65 ft. long over Black Creek. W. Shey, County Supervisor.

SHEVEPORT, LA.—Bids are asked until March 9 for constructing a bridge over Cowhide Bayou, Ward No. 1. A. Duringer, Cik. of Parish.

MASHVILLE, TENN.—The Tenuessee Central Ry. Co. bas engaged Waddeli & Hedrick, Consult. Engrs., Gibraland Black. Kansas City; Mo., to prepare plans and specifications and to superintend the construction of new bridges for its line. Jere Baxter, Pres., Nashville, Tenn.; Go. T. Bigelow, Ch. Engr., Rockwood.

BIRMINGHAM, O.—Plans are being prepared for a new bridge, according to reports. J. C. Hausen, Pres. County Comra., Sandusky.

CLEVELAND, O.—The King Bridge Co. has submitted the lowest bid for constructing the Center St. bridge superstructure, at \$36,999.

SOMERVILLE, O.—L. A. Dillon, County Engr., Hamiiton, O, has submitted plans for a bigh truss bridge, 200 × 22 ft., over Seven Mile Creek; estimated cost, \$15,800.

MOLINE, ILL.—A contract has been awarded to the J. G. Wagner Co., Milwaukee, Wis., for constructing the new Rock River bridge.

COINCIL BLUFFS, IA.—C. E. H. Campbell and James Seculin Council Bluffs, have been awarded a contract by
