TOKUSHIMA MILITARY GOVERNMENT TEAM

Japanese District Shikoku Report of Month of May Date 10 June
Expediter's Name Yutaka Nishitani

Expediter Data:

1. Number of coal mines with less than 30 days' supply visited by expediter Unknown.
2. Number of times expediter contacted Military Government None.
3. Number of coal mines with less than 30 days' reserve supply of mining timber (as of end of month) None.
4. Is this an improvement over previous month? Yes X No ___.
5. Did expediter aid in overcoming obstacles in delivery of mining timbers? Yes ___ No X.
6. Indicate name of agencies the expediter conferred with in order to meet the scheduled delivery of mining timbers:
   Unknown
7. Action taken or agreed to be taken by above agencies in order to meet scheduled mining timber deliveries: Unknown
8. Number of mines with less than 30 days' supply spot-checked by Military Government None.
9. Did the spot-checks confirm expediter report? Yes ___ No ___.
10. Action taken by Military Government in assisting expediter: None
11. General mining timber situation:
    a. State briefly any bottlenecks in production and delivery of mining timbers: (See other side)
12. Number of mines reported on during the month (Number of Form R-2 Reports) None.
13. Recommendations:

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 17503

Remarks: The three small coal mines in this prefecture have encountered no difficulty in procuring mining timbers due to the small quanity they require and the fact that all of the timbers are obtained locally. All of the mine operators are of the opinion that their allocation for timbers is adequate and that they will have no trouble in obtaining them. The Japanese expediter for this region is on the Ube Local Coal Bureau at Ube, Yamaguchi and that is probably the reason that he has not been in this prefecture. Mine operators and prefectural officials were unaware of there being an expediter for this area until informed of such by Military Government.

(37)

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 17503

Annex D to MG-4, Reports Control Symbol MG-11(R2), Headquarters Tokushima Civil Affairs Team, APO 1050, September 1949

ARTHUR L. MITCHELL, Captain, CRD, Economics Chief

1. Agriculture

a. Crop Conditions - Considerable damage of the rice crop by insects and disease has been reported as follows:

Rice-blast	6,919 chobu
Bacterial leaf blight ...	1,380
Stem-rot	750
Others	675
Rice stem borer and paddy borer	12,750
Leaf-hopper	5,365
Rice bug	1,450
Others	1,865
Total	31,094

Judith typhoon also flooded about 5,000 chobu of rice-land just at the time of earing, so extensive damage resulted. Some reduction in the sweet potato crop is also expected due to floods, and insect and disease damage. Vegetables were plentiful and shipments were as follows:

Designated Area	Shipment Quota	Shipment Results	Percentage
Outside (for Kobe & Osaka)	195,000	255,000	130%
Inside	188,000	191,000	101%

b. Agricultural Extension Service - Lectures and demonstrations on all phases of the extension service continued throughout the month. Work on the formation of new 4-H clubs showed good results and ten new clubs were formed. There are now 77 active agents in service in the prefecture. With the raising of the qualifications for agents, the six vacancies that exist are becoming increasingly hard to fill with capable men.

2. Crop Collection - Purchase results of 1949-wheat and barley and potato collection as of September 23 is as follows:

Wheat and Barley	180,010 koku
Miscellaneous	1,798 koku
Total	181,808 koku

Percentage 104.9% (against legal quota 173,300 koku)

White potato ..... 1,217,546 kan

Percentage 83.8% (against legal quota 1,462,000 kan)

36

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 17503

With over-delivery of barley considered on the established ratio of 1 koku barley equivalent to 180 kan white potatoes as permitted by central government, then the overall collection has gone well over the 100% quota. It is not expected that any more white potatoes will be turned in. Pre-planting quotas for 1950 barley and wheat were made from prefecture to gun on 13 September; from gun to village by 29 September; and it is expected that sub-allocation to individual farmer will be made by 20 October.

3. Food Distribution

a. The present food situation, food on hand, in this prefecture is as follows: (unit: metric tons)

Carried over to October	16,850
Estimated aquisition during October	13,000
Estimated consumption during October	7,500
Carried over to November	22,350

b. Supply and demand amount during September (as of 25 Sept) is as follows:

Supply	Carried over (from Aug)	20,991	ton
	Delivery	1,432	
	Released	962	
	Total	23,386	ton
Demand	for general consumer	3,739	
	for farmer	1,860	
	for laborer	180	
	Others	756	
	Total	6,535	

So the amount carried over to October is about 16,850 ton.

4. Fertilizer - Distribution condition of fall fertilizer (as of 25 Sept) is as follows:

	Ammonium Sulphate Equivalent	Super Phosphate Equivalent	Potash Equivalent
Central Gov't Allocation	100%	100%	100%
Amount Delivered to Dealers	61 (5)	64 (3)	70 (0)
Amount Delivered to Farmers	47 (2)	47 (1)	65 (0)

Figures in parentheses show percentage as of same date of last year.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 17503

5. Fishing

a. Fisheries Cooperations - During the month, six new Fishery Co-operatives were approved by the prefectural government. This brings to 34 the number of cooperatives with prefectural approval. Eight other associations have had their general membership meetings to establish a cooperative. There are seven more associations scheduled to hold their general meetings in the near future. It is expected that by the end of October there will be 49 cooperatives and one federation in the prefecture.

b. Fish Catch - Receipts and deliveries of fish for the month is as given below:

Fresh Fish

(1) Amount received 80,400 kan (from the Ken 57,975 kan
(Outside Ken 22,425 kan

(2) Amount shipped out 3,166 kan (to Osaka 200 kan

(Kyoto	5,000	Shiga	4,000)
(Hyogo	4,000	Osaka	6,000)
(		Tottori	2,000)

6. Mining - Coal production for the month declined with only 1,565 tons being produced. Pyrite production also took a serious drop with only 742 tons being mined.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 17503

7. Forestry - Sixty two (72) chobu of land was reforested during the month bringing the total of area reforested to date to 1,170.9 chobu. Due to shortage of funds, the program is not progressing as well as planned.

8. Transportation - The 80 ton steel barge being converted to an oil carrier at the Fujioka Iron Works under authority of ESS, SCAP (569.7 (10 May 49) ESS/IND) was completed and launched on 21 September. Two smuggling boats were picked up by the police. These two boats had been running between Okinawa and Shikoku carrying sugar, cotton, vermifuge, etc.

9. Economic Investigation Board - This agency was very active during the month. Rape-seed oil processors were closely checked, and many violations brought to light. Conferences with village headmen, police commissioners, and police of a great many towns and villages were held, with a representative of this section attending, to endeavour to offset the laxness in suppressing economic crime violations. This program is to continue for one more month. Restaurant control also was stressed by this agency during the month, and 180 violations were detected.

1. Forwarded herewith petitions from Governor of Tokushima Prefecture, for release of the Tokushima Rifle Range at Tokushima City, and the Matsushige Airstrip at Matsushige-mura.

2. The Tokushima Rifle Range is occasionally used by this team for range firing of the carbine, but it is no longer needed, and it is recommended that it be released to the Japanese government. If released, the prefecture plans to use the land for new dwelling houses, and the site of a Police Training School.

3. The Matsushige Airstrip is currently used for emergency evacuation of sick or injured Occupation Force personnel requiring hospitalisation, and for landing of unannounced planes. With the termination of Civil Affairs Teams, this airstrip is no longer needed. However, the local Detachment of Counter Intelligence Corps has expressed a desire to retain the services of this airstrip.

SUBJECT: Release of Former Military Installation

THROUGH: Commanding Officer, Shikoku Civil Affairs Region, APO 1060

THROUGH: Commanding General, 25th Infantry Division, APO 25

TO : Commanding General, Eighth Army, APO 343

1. Under date of 19 July 1949, a request for release of the remainder of Kuramoto Barracks, a former Japanese army installation located in Tokushima was forwarded to your headquarters, a copy of which is enclosed herewith.

2. Serious consideration has been given to this request for release, and it is strongly recommended that approval for its release be granted. The original portion of this installation already released to the Japanese government is being used by the Tokushima Medical College, and they could use the remaining portion very well as a school building. The occupation forces have no further need for this installation.

3. Request that this letter be attached to and made a part of the original request which was submitted under date of 19 July 1949.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 17503

July 13, 1949

To : Tokushima Military Government Team

From : Governor of Tokushima-Ken

Subject: Application for release of Former Japanese Army Installation

1. Name & Location of installation

Name : Medical Affairs Room of Former Japanese Army, 150th Corps in Shikoku.

Location: Kuramoto-cho, Tokushima City

2. Land area : 108,000 sq.ft.

3. Building area and type (particulars of buildings as per attached papers)

Number of buildings: 4

Building area : 2,464 sq.ft.

4. General description of installation:

The installation was a medical treatment facility belonging to the former Japanese Army, 150th Corps, but later was used by the Occupation Forces as a part of Kuramoto Barracks. Since the removal of the corps, the installation has been until recently used by the remaining British Intelligence Corps.

5. Reason for application:

The installation is a part of Kuramoto Barracks released to be used as a school building of Tokushima Medical College. As the college is now speeding up in completing the facilities as a medical college I hope you will kindly release the installation so that the said purpose may be realized.

Signed by: Kageyama Shigehito
for Governor of Tokushima-ken.

SUBJECT: Fluorescent Lights

TO : Commanding Officer, Shikoku Civil Affairs Region, APO 1050

In compliance with paragraph 2 a, (1), (2), (3) and (4), Daily Bulletin Number 99, your headquarters, dated 23 June 1949, the following information is given:

a. Number of fluorescent lights in use in Tokushima prefecture: 2800.

b. Amount of power: 36,143 KWH monthly or approximtely 126,500 KWH for a season, and paid for by the farmer-user.

c. Who finances the program; For each lamp farmer pays ¥5000 and prefecture subsidy of ¥1000 additional for purchase of lamps.

d. Recommendations: Use should be discontinued as experiments indicate they catch more beneficial insects than harmful ones.
