OREGON GLAD GARDENS

FROST KING, 1927, (Mrs. M. G. Ellis)

A clear coral pink with white throat. Very graceful spike, with large well placed florets.

This variety blooms very early and late for us here in Oregon. The early frosts do not seem to affect it. It continues blooming in our gardens from small bulb or bulblet after the frost has taken everything else.

"Special Frost King Set" \$2.50

Consisting of: 1 No. 3 Bulb; 3 No. 5 Bulbs; 4 No. 6 Bulbs, and 15 Bulblets of Frost King.

COLONEL LINDBERGH

We wish to call special attention to the new glad, COLONEL LINDBERGH. It is a brilliant red with white throat, slightly ruffled, very large florets, many being open at once. It makes a tall, well shaped spike. It is a strong grower and a good bloomer from bulblet. It is very prolific, a good germinator, and produces large bulblets. It attracts great attention and is worthy of its name. It is an origination of Mrs. A. M. HARRISON, who has produced many wonderful seedlings.

SPECIAL SET OF COL. LINDBERGH

1 No. 4, 1 No. 6 Bulbs and 4 Bulblets\$8.50

LADY PRIMERA

Lady Primera is also a splendid origination of Mrs. Harrison's. This is a light colored glad with very large florets, many being open at once. A florist visiting our garden this summer stopped in front of Lady Primera and remarked, "That is my choice of a glad. It harmonizes other colors difficult to use together in funeral designs, etc. We can't get along without such glads."

Originated by Mrs. Merton G. Ellis. Offered for the first time this year.

This dahlia is of the teary type only very double and seldom shows the center. It is very large, often 11 inches or more across, but it is not noted chiefly for its size.
