

WHAT'S THE MATTER WITH IT?

If you think there is anything the matter with your watch, let us take a look at it. Do not put it on ticking itself to destruction. A few particles of dust will, in a week, do more damage than the ordinary wear and tear of a year's keeping time. Every watch is worth taking care of, and we guarantee the finest class of work for the least money in all kinds of repairing.

Invasion of The Transvaal

Organization to Be Completed Before Any Combined Advance is Made.

A Dash for Kimberley Will Follow the Relief of Ladysmith.

In Yesterday's Fighting the Boer Guns Did Little Damage.

(Associated Press.)
London, Jan. 22.—2.30 p.m.—Nothing has been received thus far to-day to indicate that any combined result has been reached by the British forces in the region of upper Tugela, and the lack of information regarding what men and munitions Boers have in reserve prevents accurate determination of the measure of real success attending the two days' hard fighting.

All that can be said is that the British seem to be doggedly advancing in the face of an equally stubborn resistance.

At the close of yesterday's fighting the republicans had merely evacuated their first line of defence to take up another semi-circular position a short distance in the rear, recalling the old burgher ruse by which the Boers have previously managed to entice the British into fatal traps.

The Relief of Ladysmith.
Though there is considerable anxiety as to the immediate result of Gen. Buller's move toward Ladysmith, which later developments indicate was undertaken independent of Field Marshal Roberts, the war office has now come to the conclusion that the relief of Ladysmith is only a matter of a short time.

A Dash for Kimberley.
According to the war office officials' ideas, a dash to the relief of Kimberley

will quickly follow the relief of Ladysmith, and then will come the long spell of organization, and perhaps three or four months will elapse before the columns or column will have the transport in a fit shape to advance with the certainty of meeting with no serious reverses.

The latter conditions are held by the authorities to be absolutely essential before any forward movement towards the invasion of the Transvaal is begun, hence there is small probability of the war ending inside of six months.

Dispatches from elsewhere in South Africa this morning give details of minor happenings and do not illuminate the situation.

Sensational Stories Denied.
The widow of Gen. Wauchope, in an open letter, hotly denies the stories that the general in any way criticized Gen. Methuen. She says Gen. Wauchope's last mention of Gen. Methuen to her was contained in a letter from Orange River, dated November 29, as follows: "I expect Methuen will halt at the Modder River for some days before pushing forward. He has had a hard time of it, and must be a real gallant soul to shove along as he does."

Lord Wolseley has also issued a denial of the report that the war office is in possession of a letter from Gen. Wauchope, written the night before the battle of Magersfontein saying it would be the last letter he would write, as he had been asked to perform an impossible task, and he had either to obey or surrender his sword.

YESTERDAY'S FIGHTING.
After a Hard Day's Fight the British Captured Several Ridges.

Spearman's Camp, Jan. 22.—9.30 a.m.—Early on Sunday morning Gen. Warren commenced a flanking movement on the extreme left of the British position. The infantry advanced at five in the morning among the irregular Tabamag-ma mountains, which ends at Spion Kop. The artillery occupied positions behind and on the plain. The British carefully worked along the hills until within a thousand yards of a commanding kopje on which the Boers were concentrated, concealed behind immense boulders strewn thickly over the hill.

The artillery opened the attack and the batteries worked cautiously, pouring tons of shrapnel among the Boers, who devoted their attention to musketry firing on the British infantry.

The Boers stuck to their rock fastnesses with the greatest tenacity and at the conclusion of the day the British had only advanced across a few ridges.

The Boers apparently had few guns and they did little damage.
Capt. Hensley, of the Dublin Fusiliers, fell mortally wounded while leading his men to seize a fresh point of vantage.

The Telegraphists.
The telegraphists referred to in another column belong to the 1st class army reserve, Royal Engineers. They are selected from "efficient" members of the 24th Middlesex Volunteer Rifle Corps. On enlistment in the Royal Engineers they continue to belong to the 24th Middlesex, and remain attached thereto as supernumeraries. On mobilization they proceed to Aldershot and join the 1st division telegraph battalion, Royal Engineers.

The Late Capt. Hensley.
Capt. Charles Albert Hensley, whose death from wounds received in Natal on Sunday is announced to-day, was born on 21st September, 1865, and joined the Royal Dublin Fusiliers from the Royal Military College of Canada as a lieutenant on 2nd September, 1885, and was promoted captain on 1st July, 1895. Capt. Hensley's name has been very often mentioned in the press dispatches in connection with armored train duty.

Mr. Macrum's Mission.
Paris, Jan. 22.—The Matin, referring to the arrival of Mr. Macrum in Europe, says that the object of his mission is unimportant, and adds if there be any connection between his return and the arrival of Mr. Webster Day's at Lorenzo Marquez, from which point he is to be taken to Pretoria in a special train sent by President Kruger.

It is declared that he represents a department of the United States government in his visit to South Africa, but is there in a personal capacity. It is possible that he will receive a reminder from the interior department that his course is embarrassing to the government.

A dispatch received there from Durban says the German bark Marie, loaded with sulphur, which was captured early in January by the British cruiser Fearless, and taken to Port Elizabeth, has been unconditionally released.

A Reformer's Opinion.
New York, Jan. 22.—Fritz Mosenthal, a member of the Reform Committee of

Organization to Be Completed Before Any Combined Advance is Made.

A Reformer's Opinion.
New York, Jan. 22.—Fritz Mosenthal, a member of the Reform Committee of

Military Movements.

(Special to the Times.)
OTTAWA, Jan. 22.—An order-in-council has been passed for the reorganization of the 10th Regiment of Wales (Canadian) Royal Regiment, with headquarters at Halifax. The regiment is now the Leinster Regiment, with headquarters in Ireland.

The Command of Strathcona's Horse.
(Special to the Times.)
OTTAWA, Jan. 22.—A report is being persistently circulated here that Col. Steele will command Strathcona's Horse. Nothing official can be obtained.

The Patriotic Fund.
OTTAWA, Jan. 22.—The Canadian patriotic fund now amounts to \$59,816.

DEFENCES OF JOHANNESBURG.
Tailing Heaps at the Mines Converted Into Impregnable Forts.

New York, Jan. 22.—Samuel Straton, of Johannesburg, is a guest at the Waldorf-Astoria. Speaking of the Transvaal war, he said:

"I do not believe that the Boers have as yet fought the great battle of the war, or that this fight will occur in the mountain passes in their country. Not even Laing's Nek is more impregnable than Johannesburg, or rather than Johannesburg can easily be made to be."

"The Rand belt of mines stretches for a full thirty miles between Johannesburg and the invading forces at intervals of between a quarter and a half mile apart. At each mine are tailing heaps, that is the mounds of ground, rock and debris from which the gold has been extracted. These tailings, which are of tremendous height and breadth and much resemble in size and contour the waste heaps outside of the anthracite coal mines in Pennsylvania, are each and all practically impregnable natural forts, while the short distance they lie apart, with cannon mounted on them, would make it absolutely impossible for the British to penetrate between. On the other hand, they cannot be battered down and to attack them with artillery would be to simply waste ammunition, for the shells would be lost. Let them explode on any part of the mound, the shifting slag would immediately fill up the hollow thus made and the pile would be as before. Absolutely no advantage would accrue to the attacking party."

THE GRAIN TRADE.
Proposal to Improve the Navigation of French River.

(Special to the Times.)
OTTAWA, Jan. 22.—Hon. J. I. Tarte told your correspondent today that he would ask next session for a sum of \$100,000 to improve the navigation of a French River from its mouth at Georgian Bay to North Bay, on Lake Nipissing, so that steamers of the Great Lakes could bring wheat from Fort William to North Bay, on the C. P. R. Canadian Pacific will place a fleet of steamers on the route to carry grain, and in this way divert it from Buffalo, where it now finds an outlet.

Mr. Tarte says all that is necessary is the building of three locks, making dams, and doing some dredging to permit vessels drawing 18 feet of water to pass through the channel of the river.

THE PACIFIC CABLE.
(Special to the Times.)
OTTAWA, Jan. 22.—In regard to the press dispatch which says that New South Wales is to grant the Eastern Extension Cable Co. a concession of land all the way through, which would interfere with the Pacific Cable, all that Premier Laurier will say is that the matter is now being considered by the Dominion government, and cables are being exchanged between himself and Lord Strathcona.

COLLAPSE OF A PLATFORM.
(Associated Press.)
Toronto, Jan. 22.—An incident occurred at the annual Sunday school anniversary of the Central Methodist church, Dover Court road, last night, which nearly brought the affair to a tragic end. An inclined platform, with nearly 200 children seated upon it, gave way shortly after the services commenced, precipitating nearly half of the youngsters to the floor. The fall was over five feet, but fortunately none of the little ones were seriously hurt. The greatest confusion occurred amongst the parents of the children who were seated in the church auditorium.

MONTREAL ELEVATORS.
(Associated Press.)
Montreal, Jan. 22.—The Barnett & Regard Co., of Chicago, have secured the contract for the construction of the big concrete apartment elevators in Montreal.

J. L. Record, of the firm, has now been. He says work will be started as soon as possible upon the construction of a million bushel elevator, with annex with a capacity of two million bushels more. Most of the steel construction will be secured in the United States.

DENMARK AND THE STATES.
(Associated Press.)
London, Jan. 22.—The Copenhagen correspondent of the Daily News says that Denmark and the United States are arranging that the Danish West Indies shall enter a Zollverein with the United States which may be a prelude of the cession of the islands to the American government.

Campbell's Prescription Store. CORNER OF FORT AND DOUGLAS STREETS VICTORIA, B.C. For Pure Drugs and Chemicals.

The British Advance

Gen. Buller's Forces Move Forward Five Miles in Two Days.

There Has Been Severe Fighting - Naval Guns and Howitzers Do Good Work.

The Boers Are Retreating - British Casualties in Saturday's Fight.

London, Jan. 21. - Shortly after midnight the war office posted the following dispatch from Gen. Buller, dated Spearman's Camp, Jan. 20th, evening: "Gen. Buller, with a part of Gen. Warren's force, has been in action from 6 a.m. to 7 p.m. today. By a judicious use of his artillery he has fought his way up capturing ridge after ridge for about three miles. "The troops are now bivouacking on the ground he has gained, but the main position is still in front of them. "The casualties were not heavy, about 100 wounded had been brought in by 6.30 p.m. "The number of killed has not yet been ascertained."

Held in Check. The following from Gen. Buller, dated Spearman's Camp, Jan. 21st, 6.55 a.m.: "In order to relieve the pressure upon Gen. Warren and to ascertain the strength of the enemy in the position in front of Portgeiters Drift, Gen. Buller made a reconnaissance in force yesterday. This kept the enemy in their trenches in full strength all day. "Our casualties - Third Battalion, King's Royal Rifles - Two killed, twelve wounded and two missing. "Spearman's Camp, Jan. 21 - 9.30 a.m. - Gen. Warren's movement continues. He has forced the enemy from three positions. The Lancashire and Irish brigades are advancing steadily. The fire is very severe occasionally."

Engaged at Day. The following has also been received: "Spearman's Camp, Jan. 21 - 9 p.m. - Gen. Warren has been engaged all day, chiefly on his left, which he has swung forward about a couple of miles. "The ground is very difficult, and it is difficult to say exactly how much we have gained, but I think we are making substantial progress."

British Losses. The war office has posted this dispatch from Gen. Buller, dated January 21st, 1 a.m.: "The following were wounded in action near Warren's Spruit yesterday: "Officers - Staff - Col. B. Hamilton and Major C. McGregor. Second Lancashire Fusiliers - Capt. R. S. Biant and Second Lieutenant M. C. Crofton and E. J. M. Barrett. First Border Rifles - Capt. G. D. Vaughan and Second Lieutenant Marier. First York and Lancashire - Second Lieutenant A. H. Keirley. Second Dublin Fusiliers - Capt. C. A. Hensley (since died) and Major F. English. Second Gordon's - Second Lieutenant D. P. Stewart. And 270 non-commissioned officers and men."

Boer Guns Silenced. Durban, Jan. 21. - The Natal Advertiser has the following from Spearman's Camp, dated yesterday: "Gen. Warren's column attacked a strongly Boer position on the northern ridge of Sain Kop. A heavy bombardment by a field battery preceded the advance. "The Boers eventually replied with two guns, several machine guns and rifles. The British responded similarly, and long-range firing became general, lasting until dark. "Gen. Hildyard drew the Boers from a splendid position simultaneously by a demonstration in their front position, leaving a feeble fire from their Nordenfolds and rifles. "The British naval guns and howitzers shelled the trenches with excellent effect, and many Boers were observed boiling. The British artillery completely silenced the Boer fire, and at night the British infantry occupied an excellent position."

Departure of Canadians. Halifax, Jan. 20. - Part of the Canadian contingent left for South Africa today on board the Laurentian. Thirty thousand people saw the troops parade the streets and embark on the Laurentian. The troops were addressed at the armory by Gen. Hutton, Dr. Borden and Lieutenant-Governor Daly. People cheered themselves hoarse about the last of march. Lord Roberts in Danger. A lady who travelled on board the Donstar Castle, with Lord Roberts to the Cape, writes: "The other night a second-class passenger was found on the deck with a revolver. It was taken from him, and he will probably be tried at Gibraltar for being in lawful possession of firearms. "A non-commissioned officer of the King's Royal Rifles confirms this in a letter to his brother. He says: "There is a rumor that last night a

man was found lounging about outside Lord Roberts's cabin. He was noticed by the sentry, who reported him. The man was searched, and a revolver was found on his person. We have, I believe, some Boer spies on board, and I hope we have a few Scotland Yard detectives. These spies are a very inquisitive set. They want to know all about the different arms of the service."

Lady Smith Garrison Jubilant. Lady Smith's Garrison (Spearman's Camp). The enemy have placed in position new guns throwing eight-inch shells and have been bombarding more vigorously for the last few days, though little damage has been done. "Three of the British force have been wounded. The troops are jubilant over Gen. Buller's successful advance. His guns can be heard distinctly, and the bursting of shells can be seen."

CROSSING THE TUGELA.

Boer Account of Gen. Buller's Movements Towards Lady Smith. Boer Headquarters, Upper Tugela, Tuesday, Dec. 16. (Via Lorenzo Marquez, Jan. 19). - It became known today that 300 English had crossed the Port Drift over the Great Tugela and were on the Federal side. "A display in force had been made to ward Colenso and another northward towards Oliver's Hook-bridge, which was blown up by the Boers a few days ago. "Towards 5 o'clock the alarm was given that the English were coming. The lookouts observed long successive lines of infantry moving down to the new British position, a bush-covered chain of hills known as Swort Kop. Their lines were sometimes lost in the trees standing the river bank. "At 6 o'clock they emerged in open order and advanced in two lines to the low kopjes. "At 6.30 they took up a position, with complete silence on the Boer side, their horses tethered where there was the least danger from chance shells, and the men prepared to make a night of it at their posts. "Night had now fallen. With the gloom came fitful flashes of lightning from the thunder clouds, which had been threatening all day. The clouds eventually separated, showing the moon. Simultaneously with the clear sky well known Dutch hymns were repeated from kopje to kopje, with a weird effect."

BOMBARDING MAKEKING.

Boers Fire Does Little Damage - Plumer is Approaching the Garrison. Makekings, Jan. 6 (by runner to Mochendi, via Lorenzo Marquez, Jan. 21). - We concentrated our artillery, consisting of one little oblong gun on January 3rd, emplacing during the darkness so as to bear on the enemy's big siege gun. We carefully concealed the guns until the next afternoon, when, after the enemy had fired a couple of shells, we let loose our pieces, firing and loading as fast as possible. "One of our shots must have thrown the enemy's siege gun out of position, for it ceased firing. With glasses we could see the Boers rapidly reinforcing at that point. "The next day they moved back their gun seven hundred yards. They placed a five-pounder and proceeded to drop shells regularly into the town. "We have made up our minds to stick it out and have food for another three months. "The whole garrison is enraged at the enemy for firing on the women's laager. All Well."

Makekings, Jan. 10. - All accounts from near and far indicate a recession of the long siege of this place. "Prices of everything, especially provisions, are going up rapidly in the Transvaal on account of the war. "Troops and civilians in Makekings are well. There is little to chronicle in the way of news. Life here is monotonous. "The Boers continue to bombard us, but with small results. On the other hand, the British soldiers are killing many of the bestiggers since New Year's day. "Firing at Women's Laager. Lorenzo Marquez, Jan. 21. - The enemy continues to bombard with field guns and occasional hundred-pound shells. They have again fired at the women's laager but without hurting anyone. "The Relief Force. Lorenzo Marquez, Jan. 21. - A dispatch from Gaboronee indicates that Col. Plumer has worked down this far towards Makekings with three armored trains and a relief force. "The bridge is being rebuilt so that they may proceed."

Constipation, Headache, Biliousness, Heartburn, Indigestion, Dizziness, These are the signs of a liver out of order. The best medicine to rouse the liver and cure all these ills, is found in Hood's Pills. 25 cents. Sold by all medicine dealers.

THE RIGHTS OF CAPE DUTCH.

Lord Roberts's Instructions to the British Commanders. Capetown, Saturday, Jan. 20. - Lord Roberts, proposing not to allocate the Cape Dutch and to see that the military respect the rights of non-combatants, regarding the Cape Dutch, has issued, through Lord Kitchener, his chief of staff, the following order: "The Commander-in-Chief wishes to impress upon all officers who may at any time be in charge of columns or detached commands, the grave importance of doing all in their power by good and conciliatory treatment, and of securing compensation for the people of the country in all matters affecting either their own interests or those of the troops. In all cases where supplies of any kind are requisitioned, these must be paid for on the spot, and a receipt for the amount given, and a receipt for the amount given."

"Officers will be held responsible for the observance of the rule that soldiers are never allowed to enter private houses or to molest the inhabitants on any pretext whatever, and every precaution must be taken to suppress looting or robbery by persons connected with the army. "When supplies are absolutely necessary for the subsistence of the army, and the inhabitants are unwilling to meet such demands, commanding officers may after having satisfied themselves by careful personal investigation that such supplies are necessary and available, order these in such case to be taken by force, full receipt therefor being given."

IMPERIAL PARLIAMENT.

The Session Will Be Devoted Almost Entirely to War Measures. New York, Jan. 21. - The Tribune's London correspondent, commenting on the approaching session of the Imperial parliament, says: "The cabinet has made final arrangements for a session of parliament which will be devoted almost entirely to war measures. The ministers propose, but neither Mr. Balfour nor Mr. Chamberlain at the Tugela and relief of Lady Smith will clear both the military and the political situation. Buller's defeat and the downfall of Lady Smith will render the reconstruction of the ministry inevitable. Indeed it is not improbable that there may be a change of government even if Buller's strategic combination be carried out with substantial success. "Mr. Balfour has been loyal to Lord Lansdowne and has accepted without reserve the constitutional theory of the collective responsibility of the cabinet, but he cannot be blind to the dangers and inconsequence of parliamentary discussions upon the conduct of the war and public criticism of military methods. Lord Lansdowne can ease the burdens of the government by coming to an exchange seat with one of his colleagues and Liberal-Unionist journals like the Spectator are urging him to take this magnificent course. Lord Lansdowne is, however, a better man than a minister. He knows that his colleagues cannot dispose of his own responsibilities, and expects his devoted friend, Gen. Wyndham, to make adroit speeches in the House of Commons in defence of the war office. The Liberals are anxious to leave the ministers to stew in their own juice. "Sir Charles Dilke has sent up a trial balloon in his notice in amendment to the Queen's address which will open up the subject of the conduct of the war. The Liberals are not likely to favor this course and much pressure will be brought to bear on him to withdraw the amendment as an untimely attack. "The tactics which Sir Henry Campbell-Bannerman is believed to favor are more cautious. He believes that the Unionist members, like their press, have developed strong critical faculties respecting the management of the war, and they will harass the ministers if left to themselves, whereas they will rally to the support of the government if the signal for attack be raised from the opposition side. "The best speech made from the opposition was Mr. Herbert Gladstone's, last night at Leeds; he identified himself with the course of Liberal imperialism, of which Lord Rosebery and Mr. Asquith are the chief exponents, and rebuked Mr. Balfour's plan that the hands of the ministers were tied by the Unionist riders. He asserted that no British Liberal would have obstructed necessary precautionary measures last July if the government had stated plainly that the military preparation of the Transvaal constituted a grave danger to the Empire. "There was a suggestion in this speech for an adroit turning movement of the ministerial position: President Kruger brought on the war by an ultimatum which forced England to fight, but he would have been more cautious and less aggressive if the ministers had begun to prepare for an emergency in June and had arranged a really formidable scheme of defence."

The South African War as an American Cousin Sees It.

London Daily Mail's Correspondent Describes the Battle of Modder River.

Modder River, Dec. 1. - We had fought two battles in five days, and then, after a short march, had come upon a large pond, and had halted and camped beside it. "When there is time I will tell you what water is - or the taste of it, or even the sight of it - to 10,000 marching men on this parched veldt. We had started from water at Orange River, marched to the hills that lie a few miles beyond Modder River. They interested us because many said that in or beyond them we would meet the Boers for the last time before entering Kimberley, a dozen miles farther on. But we had water aplenty to drink, to wash in, even for bathing on the part of those who pierced the wide, nearly level field of sage tufts and sparse young grass before us. As the afternoon wore on we heard that somewhere just a few miles beyond Modder River, 300 Boers were entrenched. One story was that a part of the force had shot at another party for trying to desert. Another rumor was that, instead of this, all had shot at Kimberley's night air guides, who had sent in to us for help, which we had not supplied. "But, as I say, we were camped beside water, we had fought Two Stiff Battles in Five Days, and we were resting. Take my own case to show how others fared: I had borrowed a waterproof covering from an ammunition cart, and had made a shelter of it over four quilts - two guns and two sticks. I had filled my water-

THE RIGHTS OF CAPE DUTCH.

Lord Roberts's Instructions to the British Commanders. Capetown, Saturday, Jan. 20. - Lord Roberts, proposing not to allocate the Cape Dutch and to see that the military respect the rights of non-combatants, regarding the Cape Dutch, has issued, through Lord Kitchener, his chief of staff, the following order: "The Commander-in-Chief wishes to impress upon all officers who may at any time be in charge of columns or detached commands, the grave importance of doing all in their power by good and conciliatory treatment, and of securing compensation for the people of the country in all matters affecting either their own interests or those of the troops. In all cases where supplies of any kind are requisitioned, these must be paid for on the spot, and a receipt for the amount given, and a receipt for the amount given."

"Officers will be held responsible for the observance of the rule that soldiers are never allowed to enter private houses or to molest the inhabitants on any pretext whatever, and every precaution must be taken to suppress looting or robbery by persons connected with the army. "When supplies are absolutely necessary for the subsistence of the army, and the inhabitants are unwilling to meet such demands, commanding officers may after having satisfied themselves by careful personal investigation that such supplies are necessary and available, order these in such case to be taken by force, full receipt therefor being given."

IMPERIAL PARLIAMENT.

The Session Will Be Devoted Almost Entirely to War Measures. New York, Jan. 21. - The Tribune's London correspondent, commenting on the approaching session of the Imperial parliament, says: "The cabinet has made final arrangements for a session of parliament which will be devoted almost entirely to war measures. The ministers propose, but neither Mr. Balfour nor Mr. Chamberlain at the Tugela and relief of Lady Smith will clear both the military and the political situation. Buller's defeat and the downfall of Lady Smith will render the reconstruction of the ministry inevitable. Indeed it is not improbable that there may be a change of government even if Buller's strategic combination be carried out with substantial success. "Mr. Balfour has been loyal to Lord Lansdowne and has accepted without reserve the constitutional theory of the collective responsibility of the cabinet, but he cannot be blind to the dangers and inconsequence of parliamentary discussions upon the conduct of the war and public criticism of military methods. Lord Lansdowne can ease the burdens of the government by coming to an exchange seat with one of his colleagues and Liberal-Unionist journals like the Spectator are urging him to take this magnificent course. Lord Lansdowne is, however, a better man than a minister. He knows that his colleagues cannot dispose of his own responsibilities, and expects his devoted friend, Gen. Wyndham, to make adroit speeches in the House of Commons in defence of the war office. The Liberals are anxious to leave the ministers to stew in their own juice. "Sir Charles Dilke has sent up a trial balloon in his notice in amendment to the Queen's address which will open up the subject of the conduct of the war. The Liberals are not likely to favor this course and much pressure will be brought to bear on him to withdraw the amendment as an untimely attack. "The tactics which Sir Henry Campbell-Bannerman is believed to favor are more cautious. True Citizenship

Miss Agnes Deans Cameron Shows How the Idea May Be Developed.

Making of a Good Citizen Most Important Business of Any People.

When Mary Stuart, half in pride and half in petulance, asked John Knox who he was that dared to question her actions as Queen of Scotland, came back the answer, "I am a subject, born within the same."

First—The responsibility of each individual, as an individual, to himself, to his family, to his community, to his country, to his world.

Second—The responsibility of each individual, as a citizen, to his fellow citizens, to his community, to his country, to his world.

Third—The responsibility of each individual, as a member of the commonwealth, to the commonwealth, to his fellow citizens, to his country, to his world.

Fourth—The responsibility of each individual, as a member of the human race, to the human race, to his fellow citizens, to his country, to his world.

Fifth—The responsibility of each individual, as a member of the universe, to the universe, to his fellow citizens, to his country, to his world.

Sixth—The responsibility of each individual, as a member of the earth, to the earth, to his fellow citizens, to his country, to his world.

Seventh—The responsibility of each individual, as a member of the nation, to the nation, to his fellow citizens, to his country, to his world.

Eighth—The responsibility of each individual, as a member of the state, to the state, to his fellow citizens, to his country, to his world.

Ninth—The responsibility of each individual, as a member of the city, to the city, to his fellow citizens, to his country, to his world.

Tenth—The responsibility of each individual, as a member of the town, to the town, to his fellow citizens, to his country, to his world.

members, so in Sparta we find sickly infants killed off, Helots tortured, and even theft and treachery on the part of individuals excused for the apparent advantage of the state.

The early days of Christianity set a new standard. Then for the first time was preached the importance of the individual. Then men began to learn that people were not by God considered in the mass; that as individuals they had lives to live and souls to save.

Greeks and Romans in building up the state ignored, or rather subordinated, all claims of the individual to live a full and true life as an individual.

In the early days of the Christian era, in the struggle for individual salvation, enthusiasts often forgot the world to lead lives of prayer and fasting, or of a sort of isolation, the fact that they had duties to the great human whole of which they formed a part.

Now it seems to me under my third head, "The Standard of True Citizenship Today," that in forming the ideal citizenship which shall fulfill all the needs of the present, we must recognize the good in both the Greek and Roman, and in the modern, and we must blend them together.

From the home to the school is a natural gradation. In those earliest and only years of life when the child enters the world, and when his mind is like a sponge, it is his mother's duty to give him the right foundation for his life.

From the home to the school is a natural gradation. In those earliest and only years of life when the child enters the world, and when his mind is like a sponge, it is his mother's duty to give him the right foundation for his life.

From the home to the school is a natural gradation. In those earliest and only years of life when the child enters the world, and when his mind is like a sponge, it is his mother's duty to give him the right foundation for his life.

is God; and Myrrh—that He is also man, and doomed to the bitterness of death. We find in this the same that we find in the world has within him God and man, which if it be true, then that which will triumph over his lower nature and open out to him the wider and fuller life of which this is the beginning.

What can I hope to write of the high privileges of motherhood that has not been said? It is just one aspect of a mother's responsibility that I would look into in a little—that for which Roman matrons were chiefly esteemed. The mother should look upon her children, not as belongings of her own, or personal appendages.

They are her children first, but long after the parents have passed away the children will belong to the state; and their value as citizens is largely determined in those early days in the home, where they learn or fail to learn the great lessons of truth and justice and love, of faithfulness and altruism, that regard for others that is to be the basis of their true citizenship in the afterlife.

From the home to the school is a natural gradation. In those earliest and only years of life when the child enters the world, and when his mind is like a sponge, it is his mother's duty to give him the right foundation for his life.

ment system of government should be given to every child of over ten years of age in our schools. He should know the leading features of monarchical government, of responsible government, of Federal government, of the Republic, of the Empire, of the same time by these various forms of government; and yet it is forebodingly true that with all this we are essentially a self-governing people.

So much for the home and the school. Then comes the public school. It is not the school, or the municipal government, or the crown appointment of the judges, and the independence of the judiciary.

How can we promote good citizenship? How can we get a child to put a hand on the power of the press? So many people take their thoughts at second hand and adopt the opinions of others ready-made.

The conversation of most people, especially in the public school, is the result of their own party paper. How can we all, then, parents and teachers, editors and teachers, and society at large, help our future citizens?

First—By keeping carefully all the laws of our country, but because they are laws. To be specific: Don't ride your wheel on the sidewalk and their best about it; your son will do the same thing on his first opportunity.

Second—By teaching the child to read, to write, to think, to act, to be a citizen. To be a citizen is to be a member of the community, to be a member of the nation, to be a member of the world.

Third—By teaching the child to be a citizen. To be a citizen is to be a member of the community, to be a member of the nation, to be a member of the world.

Fourth—By teaching the child to be a citizen. To be a citizen is to be a member of the community, to be a member of the nation, to be a member of the world.

Fifth—By teaching the child to be a citizen. To be a citizen is to be a member of the community, to be a member of the nation, to be a member of the world.

Sixth—By teaching the child to be a citizen. To be a citizen is to be a member of the community, to be a member of the nation, to be a member of the world.

Seventh—By teaching the child to be a citizen. To be a citizen is to be a member of the community, to be a member of the nation, to be a member of the world.

Eighth—By teaching the child to be a citizen. To be a citizen is to be a member of the community, to be a member of the nation, to be a member of the world.

Fraternity and Gentility

Members of the Arctic Circle Make Merry at a Banquet Saturday Evening.

Appropriate Speeches and a Good Programme Contribute to the Enjoyment.

Gentility was undoubtedly the keynote to the character of the gathering on the occasion of the banquet of the Arctic Brotherhood on Saturday evening. There was a spontaneity in the festivities not often met with in functions of this nature, while all present were possessed of a determination to actively participate in the one great effort to make everybody enjoy himself.

Although the aims and objects of the Brotherhood may perhaps be confined to the district almost embraced by the frigid zone, there was nothing indicative of the northern chilliness about those who gathered around the table, but on the contrary an abundance of warmth and cordiality. The dining hall in the Dallas Hotel was ablaze with light, while the long table tastefully and temptingly covered—the strains of the music from Messrs. Driscoll and Arnold, representing the Fifth Regiment orchestra, contributed to a scene that will linger long in the memories of all present.

Shortly after 8 o'clock, with the opening selection the banqueters led by Captain John Irving, chairman, seated themselves at the table, those present being as follows: Capt. John Irving (chairman), F. F. Scharschmidt, J. S. Harvey, H. M. Price, Bro. Wilkinson, A. P. Briggs, J. P. Nerich, John Piercy, H. Ella, Capt. Rant (vice-chairman), Frank Hinds, and E. H. Munro, representing Bennett Lodge, No. 2; Capt. E. W. Johnson, P. D. Whitehead and Bro. "Beckham," representing the "Mother Lodge" at Skagway, and Col. Doyle, C. Courtney, J. G. McKenna, C. L. Cullin, W. Langley, H. Langley, C. W. Clifford, M.P.P., T. J. Watson and J. D. Graham, representing Atlin Lodge, and Bro. Merks, H. Austin, J. and B. Savannah and others. A large number of the brethren were unable to attend, but telegrams were received wishing success.

The menu card, most artistically arranged, was as follows: MENT. Potages. Malmosk. Consomme, a la Moccasin. Poissons. Fried Salmon, a la Russe, sauce au bacon juice, Lake Bennett Grevling. Entrees: Fried Snowballs. Husky Sweetbread, Skagway Prawns en sauced. Roast.

Stuffed with Mince, Yukon Goose, Minceberry Sauce, Atlin-Pilgrimage, stuffed with Nurguts, Arctic Ravens, White House Sauce. Discrete. Dawson Agout, Klondike Strawberry Tartlets, Riggs-Extract, Yukon Boulders. Flip-jacks. Desiccated Cabbage, Arctic Fruit (transacted) Beans.

After the participants had done complete justice to the appetizing luxuries mentioned in the above card, Chairman John Irving proposed a health to "The Queen," which was responded to with the greatest enthusiasm by the accompaniment of the National Anthem. In an excellent speech Capt. Rant, chief of the circle at Bennett, proposed the toast to the "President of the United States," emphasizing the remarkable good fellowship existing between "our comings from across the border" and "we who bow to the Union Jack." Misunderstanding had sprung up between us to disturb, but their meeting in the North had dissipated all prejudice, while amity and friendship reigned supreme. This toast was taken with great ovation, the orchestra striking up "The Star Spangled Banner" and "For He's a Jolly Good Fellow."

Bro. P. F. Scharschmidt proposed the health of "Her Kindest, the Arctic Queen." Mr. Scharschmidt spoke glowingly of the vastness of the North—the great gold region bounded on the south by Juneau, north by Dawson, and soon no doubt by Cape York. All this region was under the undisputed sway of Her Majesty, and of all her subjects none were more loyal than the organization known as the Arctic Brotherhood which admitted of no boundary line.

Bro. John Piercy responded, dwelling on the mystery, the great North, shrouded by fogs and a chilly atmosphere, but withal of glorious possibilities. As a representative of Queen Victoria, Mr. Piercy presented the chairman with the last piece of ice taken from Her Majesty's domain. This evoked great applause, and the usual "For He's a Jolly Good Fellow."

In proposing the "Mother Camp," Bro. J. D. Graham told how the order was first formed—on board the steamer City of Seattle on a voyage to Skagway. The principles were most commendable and embraced assistance to the sick, social fraternity and mutual welfare.

Capt. Johnson responded in a few appropriate words, and concluded by proposing a toast to the chairman, Capt. John Irving, amid great enthusiasm.

Capt. Rant proposed the health of "Arctic Lassies." Bro. C. W. Clifford, M.P.P., responded. The Press was proposed by Bro. J. S. Harvey and responded to by representatives of the Times, Colonist, Atlin Globe, Bennett Sun and Bro. Whitehead. "Our Northern Home" was proposed by Capt. Langley and responded to by Bro. C. Courtney, after which the chair-

Vin Mariani

"Vin Mariani Encircles the World."

AND IT IS A TRUISM TO SAY "VIN MARIANI IS ALWAYS ATTENDED BY A NOONDAY SUN."

It can be had in St. Petersburg, Edinburgh, London, the United States, Cuba, Australia, the Philippines, South Africa, Canada, Japan, the Indies, Hong Kong, etc., etc.

It is Crowned with the Praises of the Great.

VIN MARIANI

THE IDEAL FRENCH TONIC.

Mariani Wine has written endorsements from more than 8,000 Canadian and American Physicians. Mariani Wine is specially indicated for Nervous Affections, Throat and Lung Diseases, Dyspepsia, Anæmia, Weakness from whatever cause, Profound Depression or Exhaustion, La Grippe, etc.

TRY THIS TONIC OF WORLD FAME.

BORDEN'S EAGLE BRAND

CONDENSED MILK

It is a mistake to take the dealer's unkindly notice, supposing it to be "just as good." It is not. He knows it. So do you. BORDEN'S CONDENSED MILK CO. NEW YORK.

man, Capt. Irving, in an appropriate speech gave "A Health to the Arctic Brotherhood," dwelling on the various gold rushes from the days of '49 to the days of '98, '99, and the wonderful opportunities to be encountered in the North.

This being responded to by representatives of the various lodges, the members then proceeded to attire themselves in their lodge regalia—enormous fur coats, reaching below the knees. Thus attired, and presenting a most imposing spectacle, the circle was photographed by Mr. Savannah.

Throughout the evening the orchestra rendered excellent music, while Mr. Berks contributed materially to the programme in "Soldiers of the Queen."

Cake walks, songs and musical selections composed the remainder of the festivities, after which a most enjoyable function was brought to a conclusion with the singing of the National Anthem.

The committee who were mainly responsible for the carrying out of the arrangements were P. F. Scharschmidt, T. J. Watson, Atlin; J. S. Harvey, Bennett, secretary.

WOMEN'S AUXILIARY SOCIETY.

Volunteers Called For to Do Necessary Sewing for the Needs of the Hospital.

The sewing and distributing committee of the Women's Auxiliary Society, Royal Jubilee Hospital, met recently to make arrangements for the necessary provision of the needs of the hospital in this respect. All present volunteered to undertake a certain quantity of sewing, but there is still a great deal awaiting volunteers. All members or friends of this society can procure work by calling at the hospital any day during the evening week, in the morning, or on Friday, all day. If this is not convenient, a post card to the secretary, Women's Auxiliary, giving name and address is all that is necessary, and work will be sent promptly.

The different articles in hand are sheets, pillow cases, night-gowns and night shirts, muslin, towels, jackets, wrappers, flannel gowns, tray cloths, etc. Donations towards this reserve stock will be very acceptable. From those who do not care to sew, and can take the form of material—socks, blankets, quilts, table-cloths, towels, blankets, quilts, table-cloths, etc.—The initial presence of the work undertaken by this society have been very heavy, and therefore any assistance of this kind will be most gratefully received, and will be addressed, care of The Secretary, Women's Auxiliary, Royal Jubilee Hospital, or donated through any member of the society.

"HE MISTAKES THE EFFECT FOR THE CAUSE."

That is what the person does who fails to cure rheumatism or any other disease by relieving the symptoms. He only soothes the pain, and the cause of the disease remains. It neutralizes the acid in the blood, and thus permanently cures rheumatism. It tones and strengthens the stomach, restores its natural digesting fluids and permanently cures dyspepsia. HOOD'S PILLS cure constipation. Price 25 cents.

CITY NEWS IN BRIEF.

Give your friends Blue Ribbon Tea. Have you seen the \$1 per dozen Painted Cops and Sancers at R. A. Brown & Co's, 80 Douglas street?

Upon the conclusion of the sermon in the First Presbyterian church last evening Mr. J. G. Brown sang "The Holy City."

At the fortnightly meeting of the Natural History Society, to be held this evening, Lieut. Danneberg, R.N., will lecture upon the subject of "Tides."

The honorary treasurer of the Mansion House fund acknowledges, with thanks the donation of \$2 from two children named Woods in Grand Prairie.

On Wednesday evening of this week the annual meeting of the congregation of the First Presbyterian church will be held, when the annual reports will be submitted.

The sergeants' mess of the Fifth Regiment C. A. holds their semi-annual meeting in the mess room on Tuesday evening. A full attendance is requested as business of importance will come up.

All our tea trays require 25 minutes to infuse" was formerly the yarn on some grocers' bags. It is wonderful how easily and quickly a delicious cup of "HONDI" can be made. See directions on the packets.

Rev. Dr. Campbell conducted the services this morning at the residence of Mr. William Ver. Amelia street, in connection with the funeral of his son Reginald, aged three years and six months, who died rather suddenly on Saturday evening.

In addition to the bricklayers of the city, the masons' guild of Victoria are taking steps to form themselves into a union. Messrs Barr and Rose, of Vancouver, having been in the city for several days in connection with the step. The journeymen masons are also contemplating the formation of a union.

Those desiring a musical treat should not miss attending the Metropolitan church choir concert to be given Tuesday evening, January 23rd, at 8:15. The choir have for some time been preparing under Mr. Hicks' direction for this event. A splendid programme of glee, quartets, and solos, also violin selections by Miss Smith will be rendered. This will be good, don't miss it. Admission 25 cents.

The Royal Academy of Music and the Royal College of Organists announce the appointment of Mr. H. W. Washburn as honorary local representative of the board for Victoria, H. R. H. the Prince of Wales having approved the appointment. Syllabus A. and B. for 1900, and all information may be obtained from Mr. Washburn, at 33 Vancouver street, or from Col. McLean, of the Board of Trade building in Montreal.

The management of the Savoy theatre promise their patrons for this week one of the best bills yet presented. The programme will include a combination of opera, circus and farce comedy. The feature of the entertainment will undoubtedly be Ethel Lynwood, known to all theatre-goers as the "Human Knot." Miss Lynwood was a resident of this city for years, and made her professional debut here as a patient nurse this week. In addition, a charming young lady direct from Eastern triumphs. Miss Joseph Bright, a popular favorite with Victoria audiences, has returned by popular request. This will be the farewell week of Hamilton and Sinner, these performers and the opportunity should not be missed of seeing their act. Clifford and Welch, the comedy boaters, will appear in an entirely new act, which promises to be very amusing. Lilla De Puff will introduce her skits, dance, while Misses Marlan and Brockwell and Smith and Ellis will appear in new specialties. The Waterman Sisters promise a treat this week.

January sale 20 per cent. discount. Stevens, 21, Jenkins, 84 Douglas street. Superfluous hair and all facial blemishes removed by electrolysis. Electric Padlor, 114, Yates street.

Four samples of 1900 Crawford bicycles can be seen at Onas & Fleming's, Broad street, and they are beautiful.

A meeting of the Sothy harbor improvement committee will be held in the city hall to-morrow morning at 11 o'clock.

Tree Pruners, Pruners, Knives, Hedge, Trimmers and Garden Tools cheap for cash, at R. A. Brown & Co's, 80 Douglas street.

Clean, cold cash—a discount of 20 per cent. on all cash sales of over one dollar until January 31st in all lines of clothing, men's furnishings, hats etc. at Reid's winter clearance sale, 122 Government street.

Messrs. Onions & Plimley have opened a branch establishment of General Hardware and Cooking Utensils next door to their Bicycle store on Broad street, and are selling at the lowest cash prices. Give us a trial.

To-night at 8 p.m. the Epworth League of the Metropolitan church, Pandora street, will hold its monthly missionary meeting, which will be one of unusual interest, the principal feature of the meeting being a short address by a lady who has had practical experience in foreign mission fields. A cordial invitation is extended to all strangers and young people of the city.

On account of the testimonial concert to Mrs. Greig there will be no rehearsal of the Philharmonic Society this week. Due notice will be given of the rehearsal next week. There will be no orchestral rehearsal of the Messiah this week, and only one chorus rehearsal, namely, on Thursday next, when members of the chorus are requested to attend at the city hall at 8 o'clock.

Mr. Thompson, of the Centennial Flour Mills, who arrived from Japan on the steamer Ryojin Maru, a few days ago, is daily expecting the arrival of a Japanese steamer chartered by him to carry a full cargo of flour to the insular kingdom. The steamer is coming via Honolulu, and she has doubtless been detained because of the presence of plague there. She will go into quarantine at Diamond Point on her arrival at Port Townsend from the islands.

Ald. Brydon has given notice that at the meeting of the council to-night he will move that in accordance with the power granted by a by-law for the construction of permanent sidewalks in the business portion of the city, that Government street between Comorant and Flagward streets be laid with concrete sidewalks and granite curbs, as provided for in the by-law; also that the city engineer be instructed to refer to the council an estimate of the cost of said works, the same to be completed as provided for in clause 7 of the said by-law.

Chief Deary of the fire department was reminded of the approach of Chinese New Year this morning by the receipt of a box of crackers for some time past fire crackers to be distributed among the men. The chief is authorized for the statement that the present controversy regarding the commencement of the twentieth century has penetrated to Chinatown, the delegates being particularly dogmatic in their assertions that the afrosaid century commences on their New Year, which will be celebrated on January 30th.

Two folders, which are among the best railway literature that has been given to the public for some time, have been issued by the Great Northern railway, and Mr. Wurtel, the local agent of the company, is distributing them in this city. One is entitled "Across America," and in 100 pages of well printed and well written matter it tells of the scenic beauties, the comfort and convenience of the company's line. A number of illustrations are given. The other booklet deals with the Nippon Yusen Kaisha steamers, and is replete with pointers for tourists and shippers who have dealings with the Orient.

Chow Him, an aged Chinese who died on Friday, was buried, or rather the remains were carried to the cemetery and brought back for shipment to China, on Saturday afternoon. There was a big turnout of Chinese, and the Chinese quarters were crowded with a number of whites who had gathered to witness the obsequies. A large canopy was erected on the street, and there service was held after the Chinese manner for about an hour, then, headed by the Chinese musicians and the mourners attired in sackcloth, the Chinese paraded to the cemetery. There the usual papers were burned, and the coffin was carried off and the remains were brought back to Hanna's parlors for shipment back to China.

During the speeches at the banquet of the Arctic Circle, in the Dalhousie hotel on Saturday evening last, some interesting information was given as to the formation of the order. This occurred on the steamer City of Seattle during one of that vessel's trips from the Sound to Skagway. At the latter city, consequently, was established the mother lodge, from which branch lodges were rapidly formed in the many rapidly thriving towns of the northern regions. The first at Skagway is a splendid structure, and is always crowded on the occasion of assembling of the members. Lodge No. 2 of the order is established at Bennett, where a patient has been erected, the lumber being the gift of Capt. John Irving. Lodge No. 3 is at Adlin, and has a large membership roll, which is rapidly increasing. The rules and regulations provide that any may become a member unless he has been baptized, and that the object of the order are crossable, providing for mutual welfare and assistance. There are fully one thousand members, a branch being also established at Dawson.

The nearest Hotel of Sideboards, Cabinets, Hall Stands, Tables and Bedroom Suits in B. C. can be seen at Weller Bros., "The House Furnishers."

Radam's Microbe Killer. GREAT BLOOD PURIFIER. Will Cure Your Rheumatism.

JOHNS BROS. AGENTS. 250 DOUGLAS STREET.

The choir of the Metropolitan Methodist church are giving a secular concert in the school room of the church to-morrow evening, commencing at 8.15.

The death occurred at his father's residence, 21 King's road, yesterday, of William J. Turpel, second son of W. Turpel, of Turpel's ship yard. He was a native of Maitland, N.S., and was 22 years of age.

Very successful revival services have been in progress during the past week in the school room of the Centennial Methodist church. This week the pastor will be assisted by Rev. Mr. Reid, evangelist, of Vancouver.

Yesterday afternoon W. G. Armstrong, general organizer of the American Federation of Labor, organized the musicians of the city into a union, when many of the musicians of the city became members. Another meeting will be held in Salmon's hall on Sunday next, when the remainder of the musicians of the city are expected to enter the new organization.

Mr. Armstrong will organize the musicians of the city at a meeting in the Williams book and on Thursday evening will form a union for the barbers. He expects to form a similar organization among the building laborers toward the end of the week, as well as one among stage employees. The object of the union, as explained by Mr. Armstrong, is purely for the protection of home industry, and for the purpose of insuring the patronage of the class named for these businesses and industries which are established in the city, as well as to obstruct a similar competition in the world of labor.

Mayor Hayward has selected the following gentlemen to deal with matters arising out of the sending of Victorians on the mounted contingent to South Africa. It will be remembered that this power was conferred on his worship at the last public meeting in the theatre on Wednesday evening last. Those comprising the committee are: The Mayor, chairman; James Duncanson, M.P.P., Mayor; George Baker, Lieut. Col. Grayson, C. H. Longtin, H. D. Helmcken, M.P.P., A. C. Finlay, M. E. Cameron, Trustee; McCandless, W. Edgway Wilson, T. L. Graham, Herbert Cuthbert and George Jeeves. In connection with this matter the names are requested to state to the committee responsible for the recent patriotic entertainments in the drill hall, at a meeting held on Tuesday last, decided to disband on the understanding that the mayor would form a representative committee, as has since been done, to attend to all matters of that nature, and that the small balance of \$50.25 be turned over to the general fund.

On Thursday evening next the first banquet of the Yorkshire Society, recently formed in this city, will be held at the Imperial Hotel at the corner of View and Douglas streets. This was decided upon at a meeting held at the rectory of Christ Church Cathedral a few evenings ago when arrangements were left in the hands of the following: Canon Beauland, James E. Martin, W. T. Williams, H. Frith, Jesse Longfield, R. S. Oddy and Herbert Outhbert. The attendance at this banquet will be restricted to Yorkshire men and for this reason the committee is anxious that every Yorkshire man in the city hand in his application for membership without delay. The dishes at the forthcoming feast will be distinctly Yorkshire ones, and the gathering will serve a useful purpose in bringing together and familiarizing the acquaintances of those who hail from the shire of Broad Acres. The meeting referred to the following were appointed to draft a constitution and by-laws, which will be submitted for the approval of the society as a whole one hour previous to the opening of the dinner: Canon Beauland, W. P. Winslow, W. F. Fallerton, Thos. C. Sorby, and Herbert Cuthbert.

The attendance at the drill hall concert on Saturday night was unusually large, the floor being crowded with promoters and the seats all being taken as well. There must have been 300 people present, and indeed the large attendance could not be regarded as other than an indication of revival in this formerly popular entertainment. The concert was heartily appreciated by all attending, and in musical merit was quite on a par with the previous concerts of the series, while the programme was most agreeably diversified. The intermezzo "La Rose" was a dainty bit, was artistically rendered. The "Cocoanut Dance," and the selection from Calcutta's charming comic opera "Amorita," were perhaps the most pleasing numbers on the programme. Miss Lottie Baker sang "The Sweetest Dream of All" in her usual good style and received a hearty encore. Little Miss Anita Morse in her song and dance, "I'm Such a Naughty Kid," was certainly a decided hit; Miss Morse has a strong, clear voice, and has a promising future. She will prove a good "extra attraction" for any drill hall concert. There is no "extra" booked for next Saturday evening, but Bandmaster Fina promises an exceptionally fine musical programme, including the overture to Rossini's masterpiece, "William Tell," Gottschalk's descriptive fantasia, "The Dying Poet," Gounod's ballet music from "Faust," a selection from the always popular "Gelsina," and others.

SHIPPING NEWS. HAPPENINGS OF A DAY ALONG THE WATERFRONT.

There is still no news of the long missing steamer City of Seattle, and great is the anxiety for her in not only this city, but in Vancouver, Seattle and other coast ports. She is held between five and six days overdue from the north. The Seattle usually makes the round trip in seven or eight days. Tuesday morning, January 9th, at 5 o'clock, she sailed from Seattle with 43 passengers bound for Lynn Canal. Steamer Parillon, which arrived on the Sound on Monday last, passed her one hundred miles this side of Juneau. When the City of Seattle, which arrived some days ago, reached Juneau on Sunday, the 14th inst., there were posters on the wharves there announcing that the Seattle would return from Skagway and sail from that port for the Sound on the evening of that day. She had not arrived there, however, when the Topeka left that port on the evening of that day. It is thought by all that she has undoubtedly met with an accident, perhaps broken her shaft or gone ashore, or it may be that she has gone into one of the sheltered harbors of the North to await there a statement of the storm.

There are two steamers due here from the North today, the G.P.N. steamer Tees and the Cottage City, the latter being some 20 hours late now, and those interested in the overdue Seattle are looking with anxious eyes for the arrival of these vessels in the hope that they will bring news of the missing vessel. Steamer Tees of this port, Seattle, sailed for a Vancouver fishing company, is also overdue from the North. She was expected at Vancouver four days ago from the fishing grounds. The Seattle has been remarkably free from accident in her voyages of the past few years in the hazardous northern waters, but a pitcher that goes often falls the well, etc.

About a year ago the "brake" shaft of the Amur was broken, and it had not been for the timely arrival of the steamer Amur she would then have no doubt gone ashore. The Amur picked her up and towed her to Juneau, where she was repaired and came South under her own steam. For the services rendered, the Amur was awarded a certain amount of money by the admiralty courts here, and the officers received a share of the award. There was a rumor on the streets on Saturday evening that the Amur was coming down in tow, disabled, but on tracing the rumor to its source it was found to have been originated as have many others by some of the inducements in guesses and then gives them out as facts. While it is probable that such may be the case there is no information to that effect. The Seattle is ten years old. She was built in Philadelphia as a sister liner to the lost City of Kingston in 1890 under orders of D. B. Jackson at a cost of \$225,000. Capt. Melville Nichols, who had brought the steamer City of Kingston around the Horn, went back to the Atlantic coast and brought the new steamer to Seattle. She ran between Seattle and New Whatcom, until the completion of the railway made it impossible for her to compete profitably for the trade. Then she was tied up for some time at Tacoma, and on the commencement of the rush to the Klondike some three years ago, she was chartered by Capt. George Roberts and Engineer Lent for that service. They earned considerable money with her. After their charter had expired, she ran North under the agency of the Dalhousie, Capt. Roberts continuing in command until about a year ago, when he was replaced by Capt. Hunter. The Seattle is a vessel of 912 tons. She is 244 feet long, 40 feet on the beam and 15 feet depth of hold.

Ship Enroll is expected to get away from the quarantine station to-morrow and proceed to Vancouver to load lumber.

Steamer Miowera, of the Canadian-Australian line, is due on Wednesday from Honolulu, Brisbane and Sydney.

Tug Lorne yesterday took the bark America to Union, where she will load coal.

Steamer Yosemite left Vancouver at 1:30 p.m., connecting with the train.

Steamer Goodwin, of the Northern Pacific line, is due from the Orient.

SHOCKING ACCIDENT. Laceration of Woodcraft Results in the Death of a Jap and in the Mutilation of Two Others.

On Saturday afternoon another of those terrible accidents which are directly responsible for the laceration of woodcraft occurred at Puffin Harbor, Salt Spring Island. As a result of it one Jap died this morning in the Jubilee hospital, another got five more than another day, while the third, although badly broken up, is likely to recover.

The three men belonged to the frequenters of the Japanese employment agencies in the city, who, in default of finding any other means of making a living, resort to wood cutting, in which they have no experience. They were at the time in the employment of Capt. Warren.

Having chopped the tree almost through, and finding that it was swaying precariously to falling, the men ran over to another timber, which was lying almost balanced across a second tree. They took up their position on one end of this balanced tree, expecting that the one at which they had been chopping would fall in the opposite direction. Instead, it fell across the opposite end of the timber upon which the men were standing, which acted like a spring board and threw them to a great height into the air.

The unfortunate fellows fell across logs and other obstructions and were terribly broken up. Provincial Constable Hosking was notified, and brought them over to Sitka in a sail boat, whence they were brought to Victoria by the V. & S. train last night.

It is probable that an inquest will be held on the case of the man who died.

The accident merely emphasizes the risks taken by Orientals in undertaking work for which they are untrained and in which they have had no experience. It is only a few months since three Chinamen in the Spanish peninsula met with an accident similar to this one, one of their number being killed by a falling tree crashing into their tent, which was pitched to leeward of the timber. Similar instances of deaths with which every white man with the slightest experience in the woods is familiar has been responsible for numerous fatalities among the same races.

YAGUITS' LAST STAND. Over Two Hundred Killed—Mexican Casualties Number Eighty.

(Associated Press.) Nogales, Ariz., Jan. 22.—Carriers from Macagrate confirm the account of the last stand of the Yaguitos against the Mexicans under Gen. Lorenzo Torres.

Official telegrams received in Nogales place the Mexican loss in killed and wounded at 80, and a message sent over the government wires last night confirms the report of the killing of the Yaguitos chief, Tetabate, with 200 hundred of his best fighters.

The 500 Indians taken prisoners will be brought into Ortiz to-morrow, and also Father Beltran and the Josephine sisters who were rescued.

COUNT CASTELLANE. (Associated Press.) New York, Jan. 22.—The Count and Countess Castellane arrived this morning on the French liner Lorraine. The Count gave an unqualified denial to the report that he had been in the House of Representatives on the ground that financial reasons necessitated a departure for New York. He was much incensed by this publication, and threatened to cause the editor of the Figure on his return to Paris.

To-day's session of the police court was a very busy one, a large number of cases coming up before the magistrate. The first was that of Sam, a Cowichan Indian, who was fined \$6 or ten days for drunkenness. John Rowland was fined \$2.50 for a similar offence, while Ah Jim, who was remanded on Saturday on the charge of stealing two cans of coal oil from Turner, Beeton & Co., was convicted and sentenced to three months imprisonment with hard labor. Also Brockewitz, J. Terrell and Geo. Carlin were charged with cruelty to their horses. Brockewitz pleaded guilty, and sentence was suspended; the other two were remanded until to-morrow. John Harding was charged with stealing a gold watch from Mrs. Maripole, Yates street. The case was remanded until to-morrow. A considerable portion of the session was taken up by the case of John Fay, charged with assaulting and attempting to rob M. Meiss, the accused being committed for trial. A similar charge against A. Beattie, who is alleged, was implicated with Fay, is being heard this afternoon.

P. D. Whitehead, editor of the forthcoming Alaskan Magazine and Canadian Yukoner, the first number of which is expected to be on the book stalls by the beginning of the month, has completed his canvass of the city, and reports meeting with great success. A feature of the initial number will be a complete reproduction of the full page write-up of Victoria as portrayed by the northern trade, which appeared on the last page of the report of the B. C. Board of Trade. Mr. Whitehead intends to make the Yukoner a first-class publication and is in communication with Kipling and other famous writers in the hope of securing contributions from their pens.

A meeting of the Cofax Rebekeh Lodge will be held in the lodge room, Douglas street, to-morrow evening, when business of importance will come up for consideration. A full attendance is requested.

Are free from all crude and irritating matter. Concentrated medicine only. Guaranteed Little Liver Pills. Very small; very easy to take; no pain in griping; no purging. Try them.

All our Fine Hats at \$1.50. Both regular and broken sizes. All these goods are worth from \$3.00 to \$4.00. A clear give-away of \$1.50 to \$2.50 on each hat. Everything goes at \$1.50. Stamps added. Geo. R. Jackson 57 Government Street.

If you want to find out which is really the best tea in Canada, buy a package of Blue Ribbon Beylon and it won't take you long to decide.

Along the Waterfront.

The loss occasioned by the steamer Monmouthshire because of the illness of one of her Chinese passengers is estimated at \$10,000. The steamer, which was chartered by the N. P. line, was bound, and it is said had Capt. Evans taken her to the Columbia with a case of smallpox on board he would be liable to a heavy fine, and moreover he would have been ordered to some quarantine station. That at Williams Head being the nearest and the most completely furnished and equipped, he decided to go there. That he was satisfied with the treatment received at the station is shown by what he has to say in the following letter:

"Sir—If not taking up too much of your valuable space, I should like very much to say a word in commendation of the steamer Monmouthshire at Williams Head. We arrived in the harbor on the evening of the 18th instant with one mild case of smallpox on board. We came ashore at the quarantine station next morning and found everything in readiness to commence fumigation, which was a great surprise. Having been at sea for nearly thirty years, and during that time having been in ships with every contagious disease under the sun on board, and having undergone the process of fumigation in all parts of the world, and having paid a certain amount of attention to the way in which it has been done, I must say that the various ports that I have been to could take a lesson from the efficient way in which the quarantine station at Williams Head and his staff at Williams Head. Still there is a point which none of us appreciated very much, that was going into a hot bath at midnight, and then having to walk over rocks about half a mile at 2 a.m. with the temperature at freezing point, to the sleeping quarters, with our beds on our backs, like the pilgrims crossing the desert to Jerusalem. At the same time this was done by my sanction, and the kindness of Dr. Watt, who already had been to my knowledge, about 36 hours on his feet, to facilitate the dispatch of the ship, and at the same time doing everything thoroughly. More perfect I have never seen. I do not think if we had arrived in a plague-stricken ship, as there is a quarantine station to be built at Astoria shortly, I only hope that they will have as perfect an arrangement there as here, and I feel that I can not leave the port without thanking Dr. Watt and his staff for their courtesy and the efficient manner in which they conducted the fumigation."

W. A. EVANS, Master.
William Head Quarantine, Jan. 21.

THE BRAVE THAT ARE NO MORE.

"Her Majesty the Queen has been deeply affected by the brave losses with which the British victories in South Africa have been fought. She has been seen of late frequently weeping in her apartments."—Cable message.

"See, dearest, this is how we fought the battle with the Boer."
So prattled on the little prince who played upon the floor.
Deploying all his leaden troops, with swords and guns complete.
In set array of battle at the Royal Lady's feet.

"These picture-books that I have piled to make the mountain height,
Are rocks on Mount Inghit, where we won the first great fight;
And there advanced the stormers—you can almost hear the cheers
Of the Devonians and Gordons and the Dublin Fusiliers."

"Impati, as it towers above, is clothed in morning mists,
But you can see the cannon of the Boer artillery;
In leaps the Dubs, and Devins and the Highlanders go down;
But over their dead bodies, see, their comrades win the crown!"

"And this is General Symons—you can mark his proud, keen eye—
His trumpet rides close to him, and hears his peanion blow.
His lance for the marksmen. 'Hut' the Mauser bullet pierces him,
And now upon the battlefield the gallant soldier lies."

"Put up your leaden soldiers, child, my heart is stricken sore,
Your valiant battles, fought for peace, I can bear no more.
No heroes of Solomoni! Oh, lady, ones laid low!
My name was last upon your lips eight fifty years ago!"

"And since I shed those first proud tears, by mountain, plain, and sea,
No year has passed that has not stilled my heart, and ever
In many a land death came to them, in many a fearful shape—
From Comorin to Candahar, from Cairo to the Gibe."

"By far Shanghai river, I can see brave Wilson's band,
Surrounded by the savage foe that closed on every hand;
And ere they died upon the spear points, the steadfast and serene,
Bareheaded, facing to the foe, they sang 'God Save the Queen!'"

"And still that temper blis the hearts, at home and over seas,
Of those who bear my standards far, to wave on every breeze,
For me, forsaking wife and child, they find a soldier's bier;
And I, who had a wife then? Naught but this—a woman's tear."

TRANS-ATLANTIC TRANSPORTATION.

Trans-Atlantic transportation companies have again increased their rates because of the scarcity of tonnage and the prospect of heavy travel for the Paris exposition. There will be a general advance of about ten per cent.

Barb Acste, which sailed from here after loading coal at Departure Bay in November, has reached Honolulu in a distressed condition, after a passage of six days. She was long overdue, and here was all but given up for her when she arrived. She encountered heavy storms after leaving the Straits. Her crew had a terrible time. The cabin and fore-cabin were flooded, and much of the stores were ruined. The crew were placed on short rations, and to add to their troubles the fresh water gave out. A ship was sighted and furnished 200 gallons of water to the bark.

W. Lorimer, who purchased the wrecked schooner, here at auction some weeks ago, is again offering her for sale. As will be seen from the foregoing, she is in a very poor condition, and is being offered for her and her cargo. The wreck is lying at the mouth of Clayquot harbor.

CROMWELL'S BIBLE.

Mr. John Morley, in his Century series on Oliver Cromwell, tells how the Bible of the Lord Protector differed from the Bible of today.

Cromwell's Bible was not what the Bible is today. Criticism, comparative, chronological, philological, historical, had impaired its position as the direct word of God, a single book, one and whole, one page as inspired as another, one text as binding as another. Faith in the literal construction of the words was pushed to an excess as much resembling a true exposition, or over-belief in anything imputed to the Catholics. Science had set up no reign of law, no hinted a doubt on the probabilities of miraculous intervention. No physical theories had dimmed faith in acts of specific creation; the aerial perspective and vistas of time were very primitive. Whatever happened, great or small, was due to wrath or favor from above. They were tornated by no unbinding, as Rankin says, how "the secrets of divine things could be brought into such direct connection with the complications of human affairs." The God to whom Cromwell in heart as in speech appealed was not "a remote, heavenly, or mysterious, allegoric hypothesis," but the Lord of Hosts of the Old Testament. The saints and Puritans were the chosen people. All the denunciations of the prophets against the oppressors of Israel were applied to the letter against bishops and princes. And to Moses and Joshua, Gideon and Barak, Samson and Jerubbaal, were the antitypes of those who now in a Christian world thought themselves scalled, like those heres of old time, to stop the mouths of lions and turn to fight the armies of the aliens.

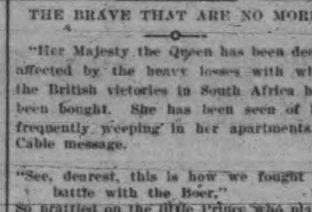

CHARMS AND WITCHCRAFT.

The Malay is a firm believer in the efficacy of charms. He wears amulets, places written words of magic in houses, and sports a tiger's claw as a preventive of disease. If he is especially primitive and backward, when he enters a forest he says, "Go to the left, go to the right, spirit of grandfather (the elephant); I loose the fingers upon the howling."

The Malay believes in witches and witchcraft. There is the bottle lip, the Pe-ling, which feeds on its owners blood till the time comes for it to take possession of an enemy. Then there is a horrid thing, the Penangulian, which possesses women. Frequently it leaves its rightful abode to fly away at night to feed on blood, taking the form of the head and intestines of the person it inhabited, in which shape it wanders abroad.

Such beliefs may perhaps have their origin in metaphysics, which in other ways has some foothold among the common people. For instance, elephants and tigers are believed sometimes to be human souls in disguise, and so the Malay addresses them as "grandfather," to allay their wrath and avoid direct reference to them. Crocodiles also are often regarded as sacred, and special charms are used in fishing for them. One such, given by Sivan, is as follows: "Oh! Dangerous, tortoise flower, receive what I send thee. If thou receivest it not, may thy eyes be torn out!"—Popular Science Monthly.

Perhaps you don't know what artistic effects and economical advantages you can gain by using our Sheet Metal Fronts with Cornices, Door and Window Caps, etc., all complete.

They give durable, fire proof looking like new at small cost—and are invaluable for use in all new up-to-date structures.

We make Metal Fronts to suit any building—they are easily applied and give enduring satisfaction.

Estimates furnished on receipt of outline-giving shape and measurements of building.

Better read our catalogue—it's full of interesting building information. Shall we send you one?

ERYTHREAS.

This Dangerous Blood Disease Always Cured by Burdock Blood Bitters.

Most people are aware how serious a disease Erythreias is. Can't run it out of the system with ordinary remedies. Like other dangerous blood diseases, though, B. B. B. can cure it every time.

Read what Rachel Patton, Cape Chin, Bruce Co., Ont., says:

"I wish to state that I used Burdock Blood Bitters for Erythreias in my face and general run down state of my health. I tried many remedies but all failed to cure. I then tried B. B. B. Two bottles nearly cured me and four bottles completely cured me."
