Hammond Cedars Intend to Defy Amateur Ruling

Will Play Against Brooklyn in an Exhibition Baseball Game To-morrow

Big Effort to Overthrow Amateur Union; Players Will be Suspended

Vancouver, Oct. 21.—That Hammond Cedars amateur baseball champions, will play the Brooklyn team of the National League here to-morrow is the announcement made this morning.

HE MUST BE GRIEVED Mr. Davis said "for the amateur leaders to take such an autocratic stand which would bar the Cedars from the States last Spring."

"Why wasn't sanction of this withheld? What harm is it doing to our boys to play an exhibition game with the professionals? Who cares whether Brooklyn gets paid or not? Our boys are to get nothing but the services except a chance to meet some of the world's greatest baseball stars and to profit by the experience thus gained."

"Let them go ahead, they know the rules and they know the consequences," declared Mr. Watson, president of the British Columbia Amateur Union this morning.

THE WHOLE STORY. President Watson related the history of the case. The Brooklyn Dodgers, who are on a barnstorming tour, were anxious to play a game in Vancouver, but as there was no professional team there an effort was made to have the Hammond Cedars, amateur champions, oppose them.

ANOTHER WAR? Whether or not the Cedars' action will precipitate another war between the union and those who wish to break down some of the present rules of amateurism is a question which will be watched with interest by all athletes in Canada.

NOT SIMILAR CASES Mr. Davis's reference to the Victoria lacrosse team's barnstorming tour, as he terms it, causes no alarm. It was quite alright because amateurs played against amateurs vs. pros. Vancouver amateur lacrosse teams went on similar errands.

DO YOU KNOW
 that the Canadian Pacific Empresses
 are the largest, fastest and finest
 steamships on the Pacific—and that
 the Canadian Pacific operates the finest
 vessels in the Alaskan service?
 These fleets bring to Canada an im-
 mense volume of profitable trade
 from the Orient and Alaska.

PILLARS OF A NATION'S GATEWAY

'ENDING NOWHERE!' The Western terminus of Canada's first great railway was a clearing in the forest. Victoria hardly more than a village. British Columbia a mining colony of a few thousand people. Wise heads nodded grave concern over the "2,500 miles of rails ending nowhere."
 Yet the men who built the Canadian Pacific, then the world's longest railroad, saw what all see now—not only a road to Vancouver, but a highway through Canada to the Orient.
 On this highway, at the Western gateway, two great cities rear their heads. Great they are, and growing greater. They typify the wealth of a wealthy Province. But their position on the Pacific links them directly

with the nation's commerce and brings them within the greater circle of world trade.
 Ending nowhere! From this unknown port last year, fifty-seven million bushels of wheat were loaded in ships for the world markets. Two hundred and ninety million feet of lumber were exported. A dozen cities and towns have sprung into being to turn British Columbia's resources into wealth, and to augment the traffic that passes in and out of the Great Western Ports.
 Nowhere, indeed! Forty short years have placed Vancouver and Victoria in a commanding position on the international and national charts of trade.

MARKET REBOUND MORE GENERAL

New York, N.Y., Oct. 21 (By R. P. Clark & Co., Ltd.)—The tone of the stock market was very much improved to-day and price enhancement was the order of things, except in one or two isolated cases. Both the steel and the oil stocks were again a weak feature of the day. The buying was again a weak feature of the day. The buying was again a weak feature of the day.

New York, Oct. 21 (By R. C. Bond Corporation)—Upward tendencies were better defined in to-day's market. Irregularities which marred the performance of the industrial list in the previous session were no longer discernible to any important extent. Many features of special strength cropped out.

Chicago, Oct. 21 (By E. C. Bond Corporation)—After a low start, bond prices declined in Liverpool, all grains turned strong and finished with substantial advances. Some of the early selling was due to reports of weaker spring wheat premiums, but this situation evidently resulted in some export business as sales of around 50,000 bushels remained.

Winnipeg, Oct. 21.—Liverpool cables which came 2 to 3 1/2 lower imparted weakness to the wheat market here. Selling prices were 1/2 to 1 cent lower. Following this break, some good buying was done, but the market developed, causing shorts to cover, and prices reacted to a recovery of 1/2 to 1 cent.

At the head of a number of prominent Vancouver citizens, Mr. Boorman took steps to form an artillery reserve, which sent overseas three drafts and one ammunition column, known as "Boorman's Battery."

BEDTIME STORY

Uncle Wiggily and Katy

Copyright, 1924, by McClure Newspaper Syndicate. By Howard R. Garis

Once upon a time, as Uncle Wiggily was hopping through the woods, on a pleasant day in October, he chanced to pass by a spring of water. And from the spring a faint little voice cried: "Oh, save me! Save me! I've fallen in and I can't swim!"

Katy, answered the bunny with a low and polite bow of his pink twinkling nose. "Are you all right now?" "Yes, thank you," answered the bug called Katy.

So Uncle Wiggily went on through the woods, and that evening, when he was hopping over to Uncle Butcher's house to play a game of Scotch checkers, all of a sudden the Fuzzy Fox began to chase the rabbit. Now it happened that on this very afternoon the Fox had caught a fine, fat chicken for his supper.

What's that! barked the fox.

"I've fallen in the spring," was the answer. "Please help me to get out!" "I shall be very happy to do that," spoke Uncle Wiggily. He hopped toward the spring, for a quick look showed him that neither the Woozle Wolf nor the Fuzzy Fox was there. Splashing about in the cold water of the spring was a bright green bug, with large wings.

So the Fox chased the poor bunny fat chicken for his supper. But when he laid it down a minute, to clean some dirt off his tail, some other animal slipped up and took away the chicken of the Fox. The Fox was very angry, and he said he wished he knew who had taken his chicken. "I think it was my sister Katy," said the Fox, as he gnashed his hungry teeth. "Wait until I catch Katy! But as long as I haven't a chicken, I'll go out and see if I can catch Uncle Wiggily."

ONTARIO INQUIRY Hamilton, Ont., Oct. 21.—The judicial inquiry by Judge Snider into charges made by E. C. Settell in a letter addressed to Sir Adam Beck, head of the Ontario Hydro-electric Commission, will not commence for two weeks, Judge Snider said to-day. The judge had been summarizing the charges contained in the letter, and Settell will be asked by the court if this summary covers the allegations made by Settell regarding the administration of hydro affairs. If he agrees that it does, then those concerned will be notified and given two weeks to prepare their defence.

Even while she gave parties to introduce Anna and look her about with her, she whispered into willing ears that the beautiful stranger was an old sweetheart of a Representative—soon-to-be-Senator—Blake. "You know, of course, my dear Anna, that she and his wife have separated." Delicately she hinted at the marriage of convenience which had terminated Blake's romance with Anna Denniston. Very adroitly she suggested that Miss Denniston's presence in Washington signified the renewal of their relationship. The universal reaction to her confidences was just what she had expected and desired. It soon came to be whispered about that Anna and Blake were more than friends. Blake himself knew nothing of this. Even Anna didn't hear of it for a long time, time in which to wonder why her drawing room remained deserted, why her tea table, offering the choicest viands procurable, had no eager, chattering, admiring circle around it.

Anna had leased an expensive apartment in a fashionable and exclusive neighborhood. She had delved deep into the legacy left by her mother to furnish it with the best. The rugs alone were worth a small fortune. The brocades on her Empire furniture proclaimed a sinful extravagance. Priceless lace at the windows protected the rich interior from the gaze of passersby in the street. Anna sought the most expensive imported tea, left a standing order with a fashionable caterer for cakes

NEW PLAN FOR LAND REDEMPTION AROUSES INTEREST

Some inquiries are now being made in connection with the fifteen-year plan for delinquents whose property has not been redeemed in the necessary time, it was stated at the City

Hall-to-day. Under this system property which has reverted would be held for fifteen years, the buyer to guarantee interest and future taxes, and meanwhile to pay off the charges which have accrued, and thus rendered the property delinquent.

PLEA FOR PAYMENT OF CITY TAXES

Chairman of Finance Committee Issues Statement to Public

Civic Taxpayers Are Asked to Hasten Payments Before October 31

Emphasizing the fact that the chief problem which the City Council has to face in keeping taxation within limits is the failure of some taxpayers to make their payments, Alderman Sargent, chairman of the civic finance committee, issues a statement. With the double object of asking delinquents of 1923 taxes still to make payments, and save the property affected, and also to urge citizens to make payments of current taxes before the penalty clause becomes effective on Friday week, Alderman Sargent says: "If owners do not pay the taxes levied against their properties, the properties revert to the city, and cease to be taxable, and those that are left have to assume the added burden."

STRONG CONTROL

The practical way to prevent increases in taxation is to refuse to increase city debt and keep a strong hold on expenditures. Those who advocate looseness in any line of civic expenditures to-day are no friends of good management. It can be shown how taxes need not be higher next year than they are this year, and they must not be.

DEBT REDUCTION

"Now, in the face of all these costly and permanent improvements and necessary financial adjustments, which have been made in a little over four short years, there is a net reduction in the city's gross debt of over \$500,000. The following is the comptroller's statement of our city debt, covering the period I have just outlined:

Table with columns for Bonded Indebtedness, Additions, Local improvements, Jubilee Hospital, Johnson St. Bridge, etc.

financial activities our temporary loan at the bank for the 1924 current expenditures has been altogether \$1,000,000 and of this we have repaid \$437,000, the balance to be paid from receipts of taxes being \$513,000.

MAKE REGISTRATION EASY FOR VOTERS

Aldermen Approve of List of Commissioners Submitted By Mayor

In accordance with the City Council's plan to obtain a more complete list of householders and of persons entitled to accept registration, was approved by the City Council last night. The Mayor submitted the following list of persons for appointment by the council to administer oaths and take and receive declarations in connection with the registration of the municipal voters' list for the year 1924: John Baxter, City Hall; James McKee, Daily Times; Robert A. Milne, Daily Colonist; Miss Margaret Gray and Mrs. Mary Stewart, Public Library; James A. Angus, 1321 Rockland Avenue.

ELECTORS TO VOTE ON SUMMER TIME

Aid. Woodward's Motion For Plebiscite Finds Only One Opponent

In spite of the scant attention given to the matter last week when Alderman Woodward raised it, the City Council last night decided in favor of again putting daylight saving up to the electors. Alderman Woodward in moving the motion asserted that it was a matter on which the electors should give their opinion, and found Alderman Sangster as his only opponent.

"If it were universal it would be all right," said Alderman Sangster. "It would be better for all if there were more work and less play." Alderman Sangster also protested against the plebiscite on the ground of expense.

Alderman Woodward, taking up Alderman Sangster's objection on the ground of expense, said Alderman Sangster had previously voted to ignore the wish of the ratepayers on the plebiscite of two years ago.

SUGGESTS SURVEY OF CITY WORKERS

Alderman Has Plan For Civil Service Board to Govern Staff

A survey and classification of all city employees to provide for a plan of promotion and remuneration for the different positions in the service of the corporation was advocated by Alderman W. Marchant at last night's council meeting.

The by-law providing for the formation of a civil service board consisting of three aldermen, with the City Comptroller an ex-officio member and the heads of each department, consultant members was before the council, but on Alderman Marchant's suggestion was tabled for a week.

The council chamber was well filled with City Hall employees present to hear Alderman Marchant outline his plan.

GRANT TO MEET EXHIBITION LOSS

A grant of \$281.80 to the Y.W.C.A. and payment of \$142.43 to the municipality of Oak Bay, the balance of taxes due on the Willows grounds, were authorized by the City Council last night on the recommendation of the finance committee. The grant to the Y.W.C.A. is equivalent to one year's taxes on Courtney Street annex.

In view of the fact that there will be an excess in pari-mutuel receipts over the amount placed in the estimates for the year, sufficient to cover the deficit in connection with the annual fair held by the B.C. Agricultural Association a grant of \$2,962.19 was made to the association to cover the deficit.

OPPORTUNITIES TO INVEST SHOULD BE TOLD TO TOURISTS

Banks or Finance Commissioner Could Help Island Says Visitor

Most Inviting Field on the Continent, Los Angeles Banker's Opinion

"Your section of British Columbia is the most inviting field of opportunity on the continent to-day, and certainly no man could have a more delightful ambition than to live in and be a part of Victoria," Roger M. Andrews, vice-president of the Citizens' National Bank of Los Angeles, says in a letter to C. P. W. Schwengers, president of the Victoria Chamber of Commerce, in which he sings the praises of Vancouver Island after an enjoyable summer visit.

"I have seen thousands of United States citizens move into central and north central Canada and then move back again. Their failure was not the fault of the country but because of their inability to carry out work which they were not personally, financially or temperamentally fitted," he says. "You have in your section of Vancouver Island so great a diversity of resources and so rich an opportunity in various lines that generations in the future will rise up and call you blessed for the unselfish work which your organization is now doing. Your line of least resistance, if you will permit the suggestion, is to the visitors and tourists who not only should be shown the golf links and the observatory but whose attention should be invited either through your banks or through some special finance commissioner to the opportunities of profitable investments in the development of the natural resources so analytically set forth in your speech at Cobble Hill, which instantly attracted my attention."

"As you know, I am vice-president of the Citizens' National Bank of Los Angeles, and take quite an active part in the work of our remarkable Chamber of Commerce. It is no disloyalty to southern California for me
