PREFACE

THIS part of the *Catalog of Copyright Entries* contains a list of the domestic and foreign published music registered in the Copyright Office from January 1, 1951, through June 30, 1951. Included also are selected works registered as unpublished music, and musical materials registered as books, pamphlets, dramas or contributions to periodicals. Renewal registrations of music made in this period are listed in Part 5C.

Arrangement.—This catalog is arranged in four sections. The first section is made up of complete entries containing essential bibliographic and copyright data. These are arranged alphabetically under the heading (i. e., the name of the composer, compiler, arranger, editor or the title). Included also in this section are cross-references from the names of authors of words, arrangers, etc., not used in the heading.

The second section is a "Title Index," in which each registration is listed. The heading under which the full entry is given in the first section follows the title.

In the third section, the "Classified Index," each registration is listed under the medium of performance of the work, or, when the music is of a special type, under an appropriate subject heading.

The fourth section is a "Claimant Index," in which each registration is listed under the name of the person or firm named in the application as the copyright claimant. Names of firms and organizations are followed by their addresses.

Bibliographic Data.—The headings by which entries are alphabetized are given in the fullest known form, with cross-references from pseudonyms, nicknames and forms contrary to normal usage in the particular language.

MARAIS, JOSEF, pseud. See Pessac, Joseph.

GRASSI, ANTONIO DE. See De Grassi, Antonio Joachim.

Each complete entry includes, in addition to the heading, the following elements whenever they apply: 1) title and any descriptive data given on the publication; 2) names of all persons associated as authors with the work, together with an indication of their respective responsibilities; 3) place of publication and name of publisher when the publisher is not also the claimant (when the publisher and claimant are the same, name and place of publication appear only in the statement of copyright facts); 4) series title; 5) price, given exactly as it is printed on the copy. Users of the catalog should bear in mind the fact that prices are subject to change.

Filing titles are supplied in order to bring together all excerpts from one work, or to file non-distinctive titles under the name of the musical form. These filing titles are, on occasion, obtained from bibliographic sources. They are placed in curves in front of the title which is given on the work, for example:

*(Roberta) The touch of your hand, from the Musical play Roberta.

*(Concerto, violin, no. 2) Deuxième concerto pour violin & orchestre.

The asterisk preceding the title indicates that Library of Congress printed cards are available. Orders for or inquiries regarding these cards should be addressed to the Card Division of the Library of Congress.

Copyright Data.—The statement giving the facts of copyright registration begins with the copyright symbol © and is followed by: 1) a brief

description of the new matter on which copyright is claimed when such a statement is made in the copyright application; 2) the name of the copyright claimant, and, for claimants other than individuals, the place of publication (unless a place has previously been named); 3) the date of publication as given in the application; and 4) the registration number. For those works which are additional volumes or parts in a set, the volume, part or other number is given before the date of publication. In the case of unpublished works, the date on which the last of all the items required to complete registration (i. e., each of the following: copy, application, and fee) was received in the Copyright Office is given in place of the date of publication. Any information contained in the copyright application or the copy of the work itself which relates to an earlier version of the work is given in brief form at the end of the entry.

In the case of each entry the name of the copyright claimant is that given at the time of registration. Any information relating to subsequent changes of ownership recorded in the Copyright Office can be ascertained upon request and upon payment of the statutory search fee to the Register of Copyrights.

Deposit of Copies.—In the case of every copyright entry listed in this part of the *Catalog*, the deposit of copies (or copy) as required by sections 12, 13 or 215 of Title 17 of the United States Code has been made.

Authority.—The *Catalog of Copyright Entries* is published by authority of sections 210 and 211 of Title 17, of the United States Code. Section 210 provides in part: "The current catalog of copyright entries and the index volumes herein provided for shall be admitted in any court as prima facie evidence of the facts stated therein as regards any copyright registration."

Organization of the Catalog.—This issue of the *Catalog* is part of Volume 5 of the Third Series. The parts are numbered according to the alphabetical sequence of classes as listed in section 5 of Title 17 of the United States Code. Letters are added to the part numbers to indicate subdivisions.

The classes of material principally contained in

each part are listed, together with their respective symbols, under the title of the part in the "Table of Organization" which faces the title page in this issue. In each case, the first letter of the symbol is that of the class under which registration is made; the second, if any, is a designation added by the Copyright Office for purposes of statistical analysis of registrations. Foreign works for which two copies have been deposited, under section 215 of Title 17 of the United States Code, are distinguished by a zero immediately following the symbol. The symbol R does not represent a class designated by the Copyright Act, but has been adopted by the Copyright Office to distinguish renewal copyright registrations. Some parts also contain registrations made under symbols other than those listed for the particular part if the subject matter or type of material of these registrations is similar to that generally included.

Orders.—Orders for all parts of the *Catalog* should be sent directly to the *Register of Copyrights, Library of Congress, Washington 25, D. C.* Orders may be placed as follows: (1) as a subscription for a single year or to continue until further notice, or (2) as an order for individual issues. All orders should state clearly the title of the *Catalog* part and the inclusive dates of the issues wanted. For the convenience of subscribers, payment may be made either with the order or upon receipt of an invoice from the Copyright Office. *Checks or money orders should be made payable to the Register of Copyrights.*

The price of each individual number of the *Catalog* is given in the "Table of Organization." The annual subscription rate for each part is twice the price of a single number, since all parts are issued semiannually. The complete *Catalog of Copyright Entries* may be secured on a subscription basis for \$20 a year.

Inquiries.—The Copyright Office welcomes inquiries, suggestions, and comments on the content and organization of the *Catalog*. Please address communications of this nature to the *Chief of the Cataloging Division, Copyright Office, Library of Congress, Washington 25, D. C.*
