CLASSIFIED INDEX

An index in which each work included in this issue is listed under a heading descriptive of its medium of performance or special character. For each entry the name under which it will be found in the first section is given first, followed by the filing title or the title given in the work, or both.

PREFATORY NOTE

The classified index is designed to meet the needs of those who are searching for music for performance, or for music of national characteristics or special subject interest. The headings have been selected and the list of headings constructed on the principle of using specific headings in so far as possible, e. g., "Opera," not "Dramatic Music—Operas." However, headings of broad scope with subdivisions for specific types have been used when the headings are so closely related as otherwise to require numerous cross-references or searching under widely separated headings, e. g., Chamber music - Quartets - String instruments" not "String quartets."

The headings are arranged alphabetically. When subarrangement is necessary, it is sometimes in an alphabetical order of categories (see "Juvenile music") and sometimes in a logical order (see "Chamber music").

To facilitate locating the desired heading, the Classified Index is preceded by a "Table of Headings Used," citing the page number on which the list under each heading starts. Cross-references are included from headings not used, and from subdivisions of a general heading to the broad heading. All cross-references are given in the table, and are not repeated in the index itself. Examples are:

Oratorios. See Choral music - Sacred choral works
String quartets. See Chamber music - Quartets - String instruments

Cross-references are made from one heading to another when the second covers closely related material, e. g., Orchestra. See also String orchestra."

Instructive material for particular instruments is listed under the name of each instrument, e. g., "Violin instruction." Material which is predominantly textual, such as histories, biographies, and works on appreciation, theory, etc. will be found in a separate section at the end called "Books and Pamphlets."

The entries in the index constitute brief references to the main entries in the first section of this volume. The entries consist of the name of the author followed by the title-page title, or the filing title and the title-page title. Each entry in the index is represented by an entry under the composer in the main section, where any other editions registered in the period covered by this catalog will also be found.

The abbreviations used are:
acc. - accompaniment; unacc. - unaccompanied; arr. - arranged.

Choral music. <u>Note:</u> The term "Choral works" in the sub-headings below denotes works in larger forms usually with band, chamber music, or orchestra accompaniment, whereas the term "Choruses" is used for smaller works composed with piano accompaniment or unaccompanied.	315
In determining the number of voices, consideration is given to division passages. For example, when the title-page describes the work as being for two equal voices, the work will be listed with four-part choruses if the parts divide.	
Under the sub-heading "Other combinations" are listed all works for ensembles with addition of one or more solo voices. <u>See also</u>

CLAIMANT INDEX

An index to claimants of copyright, as given on the applications, of all works listed in this issue, arranged alphabetically under the distinguishing word in the claimant's name, e. g.; Lochner, Louis P., Elkan-Vogel Music Corp., Marletta (Edizioni); Schirmer (G.) inc. Forenames or initials used as part of a firm name are placed within curves when the name is written in inverted form, e. g.; Disney (Walt) Music Co.; Fischer (J.) & Bro. Names of firms and organizations are followed by their addresses. When the claimant is a firm, its name is followed by 1) the name under which the work will be found in the first section and 2) the filing title or the title given in the work or both. When the claimant is a person and is also the author, the title of the work only is given; if he claims works written by others, the treatment of names and titles is the same as for firms.

REMOVAL OF DEPOSITS FROM
COPYRIGHT OFFICE

NOTICE is given to authors, copyright proprietors and other lawful claimants that they may claim and remove before January 1, 1953, any article of the following named classes of published works deposited for copyright between January 1, 1949, and January 1, 1950, not reserved or disposed of as provided by sections 213 and 214 of Title 17 of the United States Code and still remaining in the files of the Copyright Office at the time of the request for their removal.

The classes of published works covered by this notice are:

Contributions to periodicals.

Works of art; models or designs for works of art.

Reproductions of a work of art.

Drawings or plastic works of a scientific or technical character.

Photographs.

Prints and pictorial illustrations excluding prints or labels used for articles of merchandise.

Other published works and all unpublished works are excluded from this notice.

The request for the removal of any copyright deposit should be signed by the person entitled thereto or his duly authorized agent. Such request should identify the work by stating the title, author, copyright proprietor, registration number and year of deposit, and should be addressed to the Copyright Office, Library of Congress, Washington 25, D. C.

L. C. card, 6-35347

This number identifies the Library of Congress printed card for the complete series of the Catalog of Copyright Entries.

PREFACE

THIS part of the *Catalog of Copyright Entries* contains a list of the domestic and foreign published music registered in the Copyright Office from July 1, 1951, through December 31, 1951. Included also are selected works registered as unpublished music, and musical materials registered as books, pamphlets, dramas or contributions to periodicals. Renewal registrations of music made in this period are listed in Part 5C.

Arrangement.—This catalog is arranged in four sections. The first section is made up of complete entries containing essential bibliographic and copyright data. These are arranged alphabetically under the heading (i. e., the name of the composer, compiler, arranger, editor or the title). Included also in this section are cross-references from the names of authors of words, arrangers, etc., not used in the heading.

The second section is a "Title Index," in which each registration is listed. The heading under which the full entry is given in the first section follows the title.

In the third section, the "Classified Index," each registration is listed under the medium of performance of the work, or, when the music is of a special type, under an appropriate subject heading.

The fourth section is a "Claimant Index," in which each registration is listed under the name of the person or firm named in the application as the copyright claimant. Names of firms and organizations are followed by their addresses.

Bibliographic Data.—The headings by which entries are alphabetized are given in the fullest known form, with cross-references from pseudonyms, nicknames and forms contrary to normal usage in the particular language.

MARAIS, JOSEF, pseud. See Pessac, Joseph.

GRASSI, ANTONIO DE. See De Grassi, Antonio Joachim.

Each complete entry includes, in addition to the heading, the following elements whenever they apply 1) title and any descriptive data given on the publication; 2) names of all persons associated as authors with the work, together with an indication of their respective responsibilities; 3) place of publication and name of publisher when the publisher is not also the claimant (when the publisher and claimant are the same, name and place of publication appear only in the statement of copyright facts); 4) series title; 5) price, given exactly as it is printed on the copy. Users of the catalog should bear in mind the fact that prices are subject to change.

Filing titles are supplied in order to bring together all excerpts from one work, or to file non-distinctive titles under the name of the musical form. These filing titles are, on occasion, obtained from bibliographic sources. They are placed in curves in front of the title which is given on the work, for example:

*(Roberta) The touch of your hand, from the Musical play Roberta.

*(Concerto, violin, no. 2) Deuxième concerto pour violin & orchestre.

The asterisk preceding the title indicates that Library of Congress printed cards are available. Orders for or inquiries regarding these cards should be addressed to the Card Division of the Library of Congress.

Copyright Data.—The statement giving the facts of copyright registration begins with the copyright symbol © and is followed by 1) a brief

description of the new matter on which copyright is claimed when such a statement is made in the copyright application; 2) the name of the copyright claimant, and, for claimants other than individuals, the place of publication (unless a place has previously been named); 3) the date of publication as given in the application; and 4) the registration number. For those works which are additional volumes or parts in a set, the volume, part or other number is given before the date of publication. In the case of unpublished works, the date on which the last of all the items required to complete registration (i. e., each of the following: copy, application, and fee) was received in the Copyright Office is given in place of the date of publication. Any information contained in the copyright application or the copy of the work itself which relates to an earlier version of the work is given in brief form at the end of the entry.

In the case of each entry the name of the copyright claimant is that given at the time of registration. Any information relating to subsequent changes of ownership recorded in the Copyright Office can be ascertained upon request and upon payment of the statutory search fee to the Register of Copyrights.

Deposit of Copies.—In the case of every copyright entry listed in this part of the *Catalog*, the deposit of copies (or copy) as required by sections 12, 13 or 215 of Title 17 of the United States Code has been made.

Authority.—The *Catalog of Copyright Entries* is published by authority of sections 210 and 211 of Title 17, of the United States Code. Section 210 provides in part: "The current catalog of copyright entries and the index volumes herein provided for shall be admitted in any court as prima facie evidence of the facts stated therein as regards any copyright registration."

Organization of the Catalog.—This issue of the *Catalog* is part of Volume 5 of the Third Series. The parts are numbered according to the alphabetical sequence of classes as listed in section 5 of Title 17 of the United States Code. Letters are added to the part numbers to indicate subdivisions.

The classes of material principally contained in

each part are listed, together with their respective symbols, under the title of the part in the "Table of Organization" which faces the title page in this issue. In each case, the first letter of the symbol is that of the class under which registration is made; the second, if any, is a designation added by the Copyright Office for purposes of statistical analysis of registrations. Foreign works for which two copies have been deposited, under section 215 of Title 17 of the United States Code, are distinguished by a zero immediately following the symbol. The symbol R does not represent a class designated by the Copyright Act, but has been adopted by the Copyright Office to distinguish renewal copyright registrations. Some parts also contain registrations made under symbols other than those listed for the particular part if the subject matter or type of material of these registrations is similar to that generally included.

Orders.—Orders for all parts of the *Catalog* should be sent directly to the *Register of Copyrights, Library of Congress, Washington 25, D. C.* Orders may be placed as follows: (1) as a subscription for a single year or to continue until further notice, or (2) as an order for individual issues. All orders should state clearly the title of the *Catalog* part and the inclusive dates of the issues wanted. For the convenience of subscribers, payment may be made either with the order or upon receipt of an invoice from the Copyright Office. *Checks or money orders should be made payable to the Register of Copyrights.*

The price of each individual number of the *Catalog* is given in the "Table of Organization." The annual subscription rate for each part is twice the price of a single number, since all parts are issued semiannually. The complete *Catalog of Copyright Entries* may be secured on a subscription basis for \$20 a year.

Inquiries.—The Copyright Office welcomes inquiries, suggestions, and comments on the content and organization of the *Catalog*. Please address communications of this nature to the *Chief of the Cataloging Division, Copyright Office, Library of Congress, Washington 25, D. C.*
