SHEET MUSIC PRINTING.

Probably not more than one piece in ten pays the cost of publishing; and not more than one in a thousand attains a genuine success. Composers, in sending us manuscripts, will please bear in mind, that it is not an evidence that their productions lack merit, if we do not publish them. There may be many already published on the same subject, and with similar titles. This is especially true of songs. It is also true, that a piece may be meritorious, but not sufficiently striking, to struggle successfully with the great competition which exists, both in instrumental and vocal pieces.

As publishing is our business, we need not say, that we are glad to get good compositions, both words or music, that we think *will pay*; and all who send to us may be sure that we will not stand in our own light by declining to publish such compositions, when it can be done on reasonable terms.

We receive so many manuscripts, that we cannot, as a rule, undertake to return them if rejected, or write long letters explaining why we decline to publish them. Persons sending manuscripts, therefore, will do well to keep copies. When received, they will take their turn in being examined and when accepted the author will be informed.

There are three ways in which we publish music as follows:

1st. Manuscripts received from authors of established reputation and whose names carry sufficient weight, will, if accepted, with compensation varying according to the merit and probable sale of the piece, be published either by paying the author a sum of money, or by giving a copy right

EXPLANATION OF LARGE FIGURES.

In order to facilitate the selection of music, we have divided our Catalogue into SEVEN classes, marked with figures, and showing the different degrees of difficulty. The utility of this system can be seen at a glance, for it not only enable parties residing at a distance to select their music without seeing it, but will be of the greatest advantage to Professors and Teachers.

Figure (1) denotes very easy pieces, for beginners, who have had from one to three months' lessons.

We have lately published a collection of Thirty very interesting pieces for first beginners, called "Schuman's Pets," which have met with decided approval from our best teachers, and are eagerly learned by the young pupils.

Figure (2) stands for pieces that can be played by pupils who have taken lessons from 3 to 6 months.

Figure (3) indicates pieces that can be played by those that have practiced from six to twelve months.

Schuman's Western Echoes, Batiste's Pretty Melodies, Kinkel's Musical Charms and Fairy Circle, Czerny's Popular Airs, Egghard's Boutons de Roses, Krug's Emeralds, Beyer's Repertoire, and the general range of songs, may be judiciously selected for the grades from 2 to 4. They are mostly without octaves.

Figure (4) marks pieces which may be played by diligent pupils, who have had from two to three years' instruction from good masters.

Figure (5), rather difficult; can be performed by those that have practiced well from two to three years.

Beyer's Bouquet de Melodies, Alberti's Beauties of all Countries, T. M. Brown's Elegant Transcriptions, Sid-Smith's, B. Richards', Leybach's, Lysberg's, Spindler's, Voss', Wollenhaupt's, Wallae's composition, and a better class of German songs; Cavatinas from the most famous operas; Sobolew's songs, will be found the most suitable for the grade from 4 to 6.

Figure (6) requires good execution unless they have been previously practiced during the first three years.

Figure (7) — designed for advanced players, or singers of great ability.

The above figures apply to the general instruction of the beginner, and learner, and are not to be taken as a rule.

Please do not fail to read these SUGGESTIONS.

1. Give as near as possible a description of the article required, and if a book or piece of music, the author's name, when known. If the publisher is named, it will frequently facilitate the execution of orders.

2. Always mention the Express, Railroad or other conveyance that you prefer to patronize, *and remember that goods sent by mail are at the risk of the persons ordering.*

3. Whenever it is convenient to do so, mail your orders at such an hour as will insure their delivery in St. Louis before noon.

4. If you have occasion to re-order anything, please write the words "back order" after it, to indicate that it is required upon a former order.

5. In ordering arrangements from Operas, Oratorios, Variations, Four-hand Pieces, &c., the *arranger's* name should be given when known; and, as there may be in existence a dozen or more different arrangements of a favorite theme, by as many different composers, the necessity of compliance with this suggestion will be manifest to all.

6. If you observe errors or omissions, or notice any apparent delay or inattention to orders, please report same, that we may have an opportunity to explain or apply a remedy, if needed.

7. If through mistake, the wrong book, music or other articles should be sent, and the same is returned to us, an invoice should accompany it; which if done, will insure its being credited.

8. Remember that it is at times impossible to complete an order; an unusual demand may exhaust not only our own supply, but that of our neighbor's as well; a book or piece of music may be temporarily out of print, and may remain so for weeks or months, or may be out of stock, when ordered, but on hand in a day or two thereafter; the plates may be destroyed, or if a European production, the American supply may be for the time being exhausted.

9. The fact that prices are changeable does not always indicate an error: the prices of some goods, especially those imported from Europe, are constantly liable to fluctuate.

2d. To authors who have not made for themselves any considerable reputation, *we do not in any case pay either copyright or Cash for their MSS.*, but, if we deem them sufficiently meritorious, will publish them at our expense. In such cases it is usual for the author to take 50 or 100 copies to help start them.

3d. Manuscripts which do not meet our wishes, and which we decline to publish on either of the foregoing terms, we will publish for the authors (they owning the plates and copies), on the following terms; but in such cases we state on the title page "Published for the author."

Terms for publishing Sheet Music for Authors:

Each inside plate.....	\$2.50
Title.....	8.00
Paper.....	2½ cents a sheet
(A piece with 3 or 4 inside pages takes a sheet and a half.)	
Printing per hundred impressions.....	\$1.00
(Each page is one impression.)	
Copyrighting.....	\$1.00
Thus the plates and 100 copies of a piece of the size of "Forest home March" could be furnished for \$22.50

SPECIAL NOTICE.

Our patrons will greatly oblige us by observing the following, whenever they have occasion to return music to us by mail, and thereby save loss, inconvenience and time.

1) Music to be sent through the mail should be rolled together tightly, the title pages on the outside.

2) The wrapper should be sufficiently strong to protect single copies against bending or breaking in the mail bag.

3) The wrapper must neither be sealed, nor pasted, nor be held together by a pasted label, but must be tied with a couple of strings so as to enable the post-office to examine the contents of the package without destroying the wrapper or address label.

4) The sender's name and residence should be written on the address label, as the post-office does not stamp packages like letters with the name of the sending post-office.

5) The package must not contain any letter, bill, or written remarks whatsoever; *a fine of 12 cents for every one cent of the ordinary package postage being imposed by the post-office for the violation of its regulations.*

IF YOU WISH ANYTHING NOT IN THIS CATALOGUE, ask for it. We keep in stock every thing published in the country, and the best of the European Publications. **So no matter where you see a Piece of Music, or Music Book, advertised,** we can always supply it at the Publisher's Price.

PARTIES LIVING AT A DISTANCE can be supplied with Music and Instruction Books as cheaply as those living within a few miles of our Establishment. They have merely to order the Music or Books they desire, and they will receive the goods by return mail, at a rate of one half cent per ounce. (When retail price is sent, mail costs are not charged.)

PARTIES LEAVING THE SELECTION WITH US will please state the amount of Music they wish; also the Style, Character, Difficulty, etc. We take particular pains with orders of this description, and feel confident of giving entire satisfaction, **when orders are sufficiently explicit.**

We never **EXCHANGE MUSIC** that has been **SPECIALLY ORDERED**, unless we make an **error** in filling the order. This rule is strictly adhered to, as we reorder every piece of music that we sell, and could not exchange without duplicating our stock. **TEACHERS USING LARGE QUANTITIES OF MUSIC**, will save time and trouble by allowing us to make their selections.

OUR TERMS TO REGULAR COSTUMERS are **Monthly Cash Payments**. Transient Orders should be accompanied by the **Cash**.

REMITTANCES MAY BE MADE AT OUR RISK, by Postal Money Order, or Draft on St. Louis. We seldom lose letters containing currency, but cannot be held responsible should they go astray. It is therefore advisable to remit by Money Order; and if you expect to continue your orders, it is best to open an account with us, and save yourself the risk, bother and expense of small remittances.

Never send **Music** without notifying us, as we have no means of guessing where it comes from.

It is very important that you **READ YOUR LETTERS** before sending them, being careful to see that your **Residence, County, and State**, are given, and that your name is signed to the same. We can guess at the contents, even when very badly written, but we are frequently puzzled in making out addresses, especially when no signature or **State**, is given. If you are a **Teacher**, always write "**Teacher**" after your name with your first orders, so that we may know that you are entitled to the discount.

NEVER SUPPOSE that we know what your previous letter contained, or what Pieces were sent you last week, or month, as the chances are that we know nothing about it. We receive many letters every day, and probably no one clerk would handle any two letters of yours (unless some particular selections are to be made). It is therefore advisable, that each letter tells its own story. It is also advisable to have your **Music Orders** in a list by themselves, and not scattered throughout your letter.

We take especial pains in the selection of Music for Academies and Teachers.—Being musicians ourselves, and having had long experience as Teachers and Dealers, we are enabled to meet the wants of our Customers in this particular probably better than any other house in the country. Besides this, all our Clerks are musical, and the English, German, French and Italian languages are spoken in the house.

 We have selected from our latest and most popular issues, pieces of the same degree of difficulty and inserted them here for the accommodation of Teachers and Amateurs.—Only *good* and *saleable* pieces will be found in these selections, and the gradation may be relied upon as correct.

 As **Exchanging Music** has become quite an abuse in the music trade, we submit the following rules of our establishment to the consideration of our customers.

1 We are, at all times, willing to rectify mistakes, if we have made them ourselves.

2. If music has been ordered by giving only a general description of the pieces desired, and we fail to hit the taste of our patrons, we are willing to exchange it, if returned *immediately*.

3. Music, which is not our own print, we *decline* to exchange, as our orders are sent off *daily*, and the music that is sold, is replaced *at once*.

4. To *Teachers* and *Academies* we send music in quantities with the privilege of selecting from and returning what is not wanted, *they* paying the expense of transportation *both ways*.

SCHUMAN'S

 PRICE - - 75 Cts.

It is conceded by all competent teachers that the above methods, notwithstanding their cheapness, exceed in real value all similar publications that have hitherto appeared. The theoretical part will enable pupils of ordinary capacity to become in the shortest time possible, familiar with the elements of music in general, while in the practical part they are made thoroughly acquainted with the use of the instrument by means of illustrations and a number of very carefully selected exercises. Besides this, the books contain the latest and most popular Melodies, Dances, Marches, etc., and are, in regard to type and paper, gotten up in a style which cannot be excelled

First Supplement.

N. B.—All previously published Supplements are absorbed into the present.

An asterisk (*) prefixed to a title indicates that the piece is embellished by an illustrated title page.

We call especial attention of the Trade, Teachers, Academies, Conservatories, etc., to the correctness and superior print of our editions. The best QUALITY of paper, only, is used. No pains are spared in selecting good turning places ; attention to the newest method of fingering ; breathing-places in vocal music are carefully marked and our translations of Foreign Songs are of such a character that the accent and cor rhythm are carefully preserved, while the sense and beauty are faithfully reproduced.
