TITLE 6—AGRICULTURAL CREDIT

Subtitle A—Offices of the Secretary of Agriculture and War Food Administrator

PART 01—DEBT SETTLEMENT

SETTLEMENT OF CERTAIN DEBTS OF FARMERS

Pursuant to the authority contained in Public Law 518, 78th Congress, hereinafter referred to as the act, authorizing the compromise, adjustment or cancellation of indebtedness arising from loans and payments made, or credit extended to farmers under the provisions of certain acts of Congress, and programs administered by the Department, the following regulations prescribe the terms, conditions and procedures governing such settlements.

- 01.1 Purposes of the act and regulations.
 - 01.2 Definitions.
 - 01.3 Settlement of indebtedness.
 - 01.4 Investigations and findings.
 - 01.5 Delegation of authority.
 - 01.6 Forms and records.
 - 01.7 Departmental Review Committee.
 - 01.8 Penalties.
 - 01.9 Indebtedness referred to Secretary of the Treasury or the Attorney General.
 - 01.10 Scope of the act.

AUTHORITY: §§ 01.1 to 01.10, inclusive, issued under Pub. Law 518, 78th Congress.

§ 01.1 Purposes of the act and regulations. The principal purposes of the act and of the regulations in this part are to provide means of: (a) Settling, by compromise, adjustment or cancellation, relatively small debts long past due and owing to the Government arising from loans or payments made under farm programs administered by the Department; (b) recovering by the Department of substantial sums which are found uncollectible when the indebtednesses are treated as full obligations, and which otherwise would probably never be collected; (c) clearing the accounts of balances so small as not to warrant continued efforts of collection; and (d) the clearing of the accounts of the records

of indebtedness made uncollectible by reason of the death or disappearance of the debtors.

The existence of the act will neither serve as grounds for any relaxation in the general collection policy of the Department nor should it serve as grounds for any lessening of the efforts of farmers to pay their indebtedness.

§ 01.2 Definitions. (a) "Department" means Department of Agriculture including the War Food Administration.

(b) "Indebtedness" with respect to any person, means his debt to the Government under each of the acts and programs listed in § 01.10 hereof.

(c) "Compromise" means final liquidation of the indebtedness through the immediate payment of a portion thereof, and acceptance by the United States of such payment in full satisfaction of the indebtedness.

(d) "Adjustment" means the scaling down of the amount of the indebtedness including interest, conditioned upon the payment of the adjusted amount at some specified future time or times; such adjustment is not to be considered as effective as a settlement under this act until the provisions of the adjustment arrangement have been carried out.

(e) "Cancellation" means the complete discharge, without payment, of the indebtedness and the debtor.

§ 01.3 Settlement of indebtedness. (a) Indebtedness will be compromised, adjusted, or cancelled, upon application by the debtor, and upon the making of all the following findings:

- (1) That said indebtedness has been due and payable for five years or more;
- (2) That the debtor is unable to pay said indebtedness in full and has no reasonable prospect of being able to do so; officers of the Department shall not make such findings on the basis of mere unwillingness to pay on the part of the debtor, or mere financial disadvantage to him, but should find that the settlement is the most advantageous arrangement possible from the standpoint of the Government under the findings herein prescribed. In no event shall

cancellation be made unless, in addition to the foregoing requirements, there is an advantage in removing the indebtedness from the accounts.

(3) That the debtor has acted in good faith in an effort to meet his obligation; and

(4) That the principal amount of said indebtedness is not in excess of \$1,000.

(b) Indebtedness may also be cancelled when any one of the following circumstances is found:

(1) The amount of said indebtedness, including interest, is less than \$10; such efforts of collection have been made as are warranted under the circumstances, and the cost of collection or of continued maintenance of accounts is deemed greater than the amount of the indebtedness;

(2) The debtor is deceased and there is no reasonable prospect of recovering from his estate;

(3) The debtor's whereabouts has remained unknown for two years and there is no reasonable prospect of obtaining collection; heads of agencies designated in § 01.5 hereof will prescribe procedures which will assure that cancellations on this ground will be made only after a diligent effort has been made to locate the debtor, including such contact with other agencies of the Department or otherwise as the amount of the indebtedness and the circumstances warrant;

(4) The debtor has been discharged of the indebtedness in any proceeding under "An Act to establish a uniform system of bankruptcy throughout the United States." [11 U. S. C., sec. 1, et seq.]

§ 01.4 *Investigations and findings.* The heads of agencies designated in § 01.5 shall prescribe procedures for the conduct of investigations to determine the facts incident to the settlement of any indebtedness. These procedures should include, among other things, provisions for consultations with local authorities, businessmen, or local representatives of other Government agencies, or for obtaining the recommendations of committees or other groups or persons designated by each agency for assistance in its regular program, or otherwise. The file relating to each debtor shall contain the formal findings required by § 01.3, together with such evidence as has been obtained in support of such findings.

In order to effect uniformity in settlements, agency procedures should also provide that, where it appears from the application of the debtor or from investigation that the debtor is otherwise indebted to the United States, to the extent practicable consultation should be had (other than in cases under §§ 01.3 (b) (1) and 01.3 (b) (4) above) with any other creditor agencies, to ascertain pertinent information as to the status of such other obligation or obligations. Such information shall be considered in connection with the settlement and for inclusion in the findings.

The head of each agency shall provide for review of proposed indebtedness settlements within his agency by officers or employees designated for that purpose under such conditions as he shall deter-

mine to be adequate to insure the protection of the interests of the United States.

§ 01.5 *Delegation of authority.* The heads of the Agricultural Adjustment Agency, the Commodity Credit Corporation, the Farm Credit Administration, the Farm Security Administration and the Federal Crop Insurance Corporation and any other agency of the Department charged with the administration of any of the acts or programs listed in § 01.10, are hereby authorized within their respective jurisdictions, to exercise any or all of the functions prescribed by the regulations in this part. The head of each of said agencies may delegate and authorize the redelegation of any or all functions vested in him by the regulations in this part, except that the determination of any settlement shall not be delegated beyond the head of the highest field office having jurisdiction.

§ 01.6 *Forms and records.* The Office of Budget and Finance shall prescribe a uniform form or forms for application for settlement of indebtedness under the regulations in this part; and shall require each agency to establish records to insure the immediate availability of necessary information of operations under the regulations in this part.

Each agency shall furnish to the Office of Budget and Finance a report of operations under the regulations in this part quarterly, or for such other periods as the Director of Finance may designate.

§ 01.7 *Departmental Review Committee.* There is established a committee to consist of representatives designated by the head of each of the agencies named in § 01.5 above, by the Solicitor and the Director of Finance, with the designee of the Director of Finance as Chairman, to review the information furnished to the Office of Budget and Finance for the purposes of reporting, when necessary, to the Secretary and the War Food Administrator, and to recommend appropriate amendments to the regulations in this part. For the purpose of assuring uniformity in the administration of the regulations in this part. The committee shall be furnished promptly for review and comment, copies of instructions and procedures prescribed by the interested agencies.

§ 01.8 *Penalties.* The act prescribes the punishment by a fine of not more than \$1,000 or imprisonment for not more than one year, or both, upon conviction, for anyone making any material representation, knowing it to be false, for the purpose of influencing in any way the action of the Secretary or of any person acting under his authority in connection with any compromise, adjustment, or cancellation of indebtedness provided for in the act. The act also prohibits the acceptance by any officer, employee, or other person to whom is delegated any power or function under the act, of any fee, commission, gift, or other consideration, directly or indirectly, for or in connection with any transaction or business relating to the compromise, adjustment, or cancellation of indebtedness under the act.

§ 01.9 *Indebtedness referred to Secretary of the Treasury or the Attorney General.* No settlement shall be effected under the regulations in this part if the indebtedness is pending before the Secretary of the Treasury for compromise, or the Attorney General for collection.

TITLE 6—AGRICULTURAL CREDIT

Chapter I—Farm Credit Administration

[Farm Credit Administration Order 416]

PART 10—FEDERAL LAND BANKS GENERALLY

INTEREST RATES ON FEDERAL LAND BANK LOANS

Whereas, paragraph second of section 12 of the Federal Farm Loan Act as amended (12 U.S.C. 771) provides for interest payments on Federal land bank loans sufficient "to cover, first, a charge on the loan at a rate not exceeding the interest rate in the last series of farm loan bonds issued by the land bank making the loan; second, a charge for administration and profits at a rate not exceeding, except with the approval of the Governor of the Farm Credit Administration, 1 per centum per annum on the unpaid principal, said two rates combined constituting the interest rate on the mortgage; . . ."; and

Whereas, the board of directors of each of the 12 Federal land banks has adopted a resolution requesting the Governor of the Farm Credit Administration to approve, in the exercise of the authority conferred upon him by section 12 of the Federal Farm Loan Act (12 U.S.C. 771, "Second"), the making of loans by the bank to borrowers through national farm loan associations at an interest rate of 4 percent per annum notwithstanding the issuance from time to time in the future of any bonds on behalf of the bank bearing an interest rate of less than 3 percent per annum; and

Whereas, in support of the aforementioned request, each of the Federal land banks has provided me with a statement of its operations and experience which, in my opinion, when considered with the experience of the Federal land bank system as a whole, fully justifies, under present conditions and those that may be expected to prevail during the foreseeable future, the need by each of the Federal land banks of a "charge for administration and profits," as referred to in the above quoted provision of section 12 of the act, of more than 1 percent per annum on the unpaid principal of mortgage loans made through national farm loan associations, to enable each of the banks to pay expenses, absorb losses, establish adequate reserves, and pay reasonable dividends to national farm loan associations; and

Whereas, it is deemed desirable to continue the policy declared by Congress in section 17 of the Federal Farm Loan Act and heretofore followed during the last 11 years, of maintaining, so far as practicable, uniform rates of interest on loans made by the several Federal land banks;

Chapter I, Title 6, Code of Federal Regulations, is hereby amended by adding § 10.27-50, to read as follows:

§ 10.27-50 *Interest rates on loans made through an association or by a*

branch bank. Approval is hereby given to an interest rate of 4 per centum per annum on loans by banks through associations, except loans on the security of the classes specified in § 10.28, and to an interest rate of 4½ per centum per annum on loans made pursuant to Section 672, Title 12, United States Code, notwithstanding that the interest rate on the Federal farm loan bonds of the last series issued prior to the making of any such loans may be less than 3 per centum per annum.

(Sec. 6, 47 Stat. 14, Secs. 4, 12 "Second", 17 (b), 39 Stat. 362, 365, 370, 375, as amended; 12 U. S. C. 672, 665, 771 "Second", 831 (b))

Subparagraph (1) of § 10.28, Chapter I, Title 6, Code of Federal Regulations, and the words "approval has been given to the following interest rates" immediately preceding said subparagraph (1) are hereby amended to read as follows:

§ 10.28 *Special interest rates.* * * * approval is hereby given to the following interest rates:

(1) For loans through associations, one-half of 1 per centum per annum in excess of the interest rate on loans through associations not secured by mortgages on the foregoing classes of farm property, such interest rate not to exceed 6 per centum per annum;

(Sec. 6, 47 Stat. 14, Secs. 7, 12 "Second", 17 (b), 39 Stat. 365, 370, 375, Sec. 25 (b), 50 Stat. 711, as amended; 12 U.S.C. 665, 723 (b), 771 "Second", 831 (b), 724)

Issued this 17th day of January 1945.

[SEAL] I. W. DUGGAN,
Governor.

§ 802.44g *Fair and reasonable wage rates for persons employed in the production, cultivation, or harvesting of sugarcane in Puerto Rico during the calendar year 1945.* The requirements of section 301 (b) of the Sugar Act of 1937, as amended, shall be deemed to have been met with respect to the production,

cultivation, or harvesting of sugarcane in Puerto Rico during the calendar year 1945, if all persons employed on the farm during that period in the production, cultivation, or harvesting of sugarcane shall have been paid in full for all such work and shall have been paid wages in cash therefor at rates not less than the following:

his base tonnages for the four quarters of 1941 in order to determine his consumption quotas for the first quarter of 1945 and subsequent quarters. Having selected one of the two formulas, a publisher must continue to use the same formula thereafter.

These formulas have nothing to do with the computation of tonnages which must be charged against a publisher's consumption quota under the order. The direction does not change the rule that in determining the tonnage used in each calendar quarter a publisher must include the actual gross weight of all print paper which was opened and placed in production, less transit damage. All waste other than transit damage is production waste and must be counted as paper which was used out of a publisher's consumption quota.

(a) *Actual weight formula.* (1) From the invoice weight of print paper withdrawn from inventory for production in the particular calendar quarter of 1941, subtract the weight of all transit damage and production waste. This is the weight of paper comprising the net press run for that calendar quarter.

(2) Divide the number of copies in the average net press run for the calendar quarter into the number of copies in the average net paid circulation for that calendar quarter.

(3) Apply the resulting percentage to the weight of paper comprising the net press run for the calendar quarter. This is the weight of paper comprising the net paid circulation for the calendar quarter.

(b) *Contract or basic weight formula.* (1) In computing the "tonnage of print paper comprising the net paid circulation" of a newspaper in 1941 by the contract or basic weight formula, separate calculations must be made for each section printed on paper of a different basic weight or with a different page size.

(2) Multiply the number of pages in each separate edition printed during the particular calendar quarter of 1941 by the number of copies in the net press run of that edition. Add the results of the above computations for all editions printed during the calendar quarter. This is the aggregate number of printed pages in the net press run for the calendar quarter.

(3) Divide the number of copies in the average net press run for the calendar quarter into the number of copies in the average net paid circulation for that calendar quarter.

(4) Apply the resulting percentage to the aggregate number of printed pages in the net press run for the calendar quarter. This is the number of pages in the net paid circulation for the calendar quarter.

(5) Divide by 8,000. This is the number of 1,000 8-page units in the net paid circulation for the calendar quarter.

(6) Multiply the number of 1,000 8-page units by the weight of 1,000 8-page units or divide the number of single pages by the number of pages per pound.

(7) The weight of 1,000 8-page units or the number of pages per pound may be computed by either of the following two methods:

(i) *First method.* (a) Measure a 4-page sheet and compute the number of square inches in its area.

(b) Multiply by 2 to determine the number of square inches in 8 pages.

(c) Multiply by the contract or basic weight of the paper (that is the weight per ream of 500 sheets, each measuring 24" x 36").

(d) Divide by 864—the number of square inches in a standard sheet 24" x 36". This is the weight of 500 8-page units.

(e) Multiply by 2. This is the weight of 1,000 8-page units.

(f) Divide 8,000 by the weight of 1,000 8-page units. This is the number of pages per pound.

No. 16—2

(ii) *Second method.* (a) Divide 432,000, the number of square inches in a ream (24 x 36 x 500), by the contract or basis weight of the paper. This is the number of square inches per pound.

(b) Measure a 4-page sheet and compute the number of square inches in its area.

(c) Multiply by 2,000. This is the number of square inches in 1,000 8-page units.

(d) Divide by the number of square inches in a pound, determined according to paragraph (a) above. This is the weight of 1,000 8-page units.

(e) Divide 8,000 by the weight of 1,000 8-page units. This is the number of pages per pound.

(iii) *Example.* Assume that a publisher's roll size is 68". The width of a 4-page sheet would be the width of a half-roll of 34". Assume that the cut-off or depth of the page is 22 3/4" and that the basic weight of the paper is 32 pounds. The contract weight of 1,000 8-page units, or the number of pages per pound, may be computed, by the two methods described above, as follows:

FIRST METHOD

- (a) $34 \times 22.75 = 773.5$
- (b) $773.5 \times 2 = 1,547$
- (c) $1,547 \times 32 = 49,504$
- (d) $49,504 \div 864 = 57.29$
- (e) $57.29 \times 2 = 114.59$ pounds
- (f) $8,000 \div 114.59 = 69.814$ pages

SECOND METHOD

- (a) $432,000 \div 32 = 13,500$
- (b) $34 \times 22.75 = 773.5$
- (c) $773.5 \times 2,000 = 1,547,000$
- (d) $1,547,000 \div 13,500 = 114.59$ pounds
- (e) $8,000 \div 114.59 = 69.814$ pages

PART 3211—BISMUTH CHEMICALS

[General Preference Order M-295, Revocation]

Section 3211.1 *General Preference Order M-295* is hereby revoked. This revocation does not affect any liabilities incurred under the order.

Bismuth chemicals are subject to allocation under General Allocation Order M-300 as Appendix B materials, subject to Schedule 88, issued simultaneously with this revocation.

Regular and interim allocations heretofore issued under Order M-295 are effective under the schedule, but authorizations to deliver are limited in duration as if originally issued under the schedule. Pending applications need not be refiled.

Issued this 20th day of January 1945.

PART 3281—PULP AND PAPER

[General Conservation Order M-241-a, Interpretation 4]

STATIONERY AND PAPETERIES

The following interpretation is issued with respect to General Conservation Order M-241-a:

The restriction in paragraph (e) (1) on the use of pulp, paper and paperboard on the

production of converted products which are not specifically listed do not apply to paper stationery and papeteries. The removal of these items from List B in the amendment of December 19, 1944 was intended to remove them entirely from the restrictions of the order. They are no longer regarded as "converted products" for the purposes of M-241-a because the operations involved in making them are specifically excluded by paragraph (e) (2) (1).

It follows that the mere packaging of correspondence sheets with envelopes is not regulated by the order. However, since envelopes, in all styles except expansion types, are still included in List B, a converter may not consume in manufacturing envelopes more than 110% of the amount he consumed in the manufacture of envelopes in 1942. There is no prohibition in Order M-241-a against a converter buying envelopes from other manufacturers for resale either as envelopes or for use with paper in making up papeteries.

Issued this 20th day of January 1945.

PART 3287—GOVERNMENT SERVICES

[Limitation Order L-286, Direction 1 as Amended Jan. 19, 1945]

RESTRICTIONS ON MANUFACTURE AND DELIVERY OF AMMUNITION

The following direction is issued pursuant to Limitation Order L-286:

(a) *Restrictions on sale and delivery of ammunition.* (1) There is an increased shortage in ammunition for civilian uses because of increased military requirements. Accordingly, it is necessary to provide for the channeling of available supplies for the period ending April 30, 1945, to Alaska and those areas in the United States where it is most needed.

(2) In addition to the restrictions of paragraph (b) (3) of L-286, during the period beginning January 19, 1945, and ending April 30, 1945, manufacturers may not deliver the type of ammunition described below to any distributors or dealers except those who are located in the areas described below, and distributors who are located in the areas described below may not deliver this type of ammunition to any distributors or dealers except those who are located in these areas:

Type of ammunition	Permitted Areas
Center fire (except .38 caliber and .45 caliber pistol):	Alaska Arizona California Colorado Idaho Kansas Montana Nebraska Nevada New Mexico North Dakota Oklahoma Oregon South Dakota Texas Utah Washington Wyoming

(3) The War Production Board may at any time issue individual written directives to manufacturers or to distributors with respect to the delivery of ammunition either inside or outside of the permitted areas listed above. These directives will be issued only upon a showing that the ammunition is needed to meet the requirements of farmers and ranchers who live in an area where there is an unseasonal or exceptional need for such ammunition for the protection of crops and livestock. Application for such directives shall be made by the manufacturer, distributor or dealer in writing on his own letterhead in triplicate and shall state the facts showing that the ammunition applied for is needed to meet the requirements of farmers and ranchers who live in an area where there is an unseasonal or exceptional need for such ammunition for the protection of crops and livestock. These applications shall be filed with the Government Bureau, War Production Board, Washington 25, D. C., Ref. L-286. In emergency, applications may be made by telephone or telegraph.

(b) *Restrictions on manufacture of ammunition.* Beginning 12:01 a. m. January 1, 1945, no manufacturer, other than the Army or the Navy of the United States, shall manufacture any ammunition except where such ammunition is manufactured:

(1) To fill any order for ammunition to be delivered to, or for the account of (i) the Army or Navy of the United States, Defense Supplies Corporation or the Office of Strategic Services; or, (ii) the Government of any foreign country if pursuant to specific authorization of the Army of the United States or the War Production Board.

(2) To fill any order placed by any agency of the United States Government for ammunition to be delivered to, or for the account of the government of any country, including those in the western hemisphere, pursuant to the act of March 11, 1941, entitled "An Act to Promote the Defense of the United States" (Lend-Lease Act).

PART 3293—CHEMICALS

[General Allocation Order M-300, Schedule 88]

BISMUTH CHEMICALS

§ 3293.1088 *Schedule 88 to General Allocation Order M-300*—(a) *Definition.* "Bismuth chemicals" means any chemical compound of bismuth, in crude or refined form, including, but not limited to, bismuth subcarbonate, bismuth subnitrate, bismuth subsalicylate, bismuth nitrate, bismuth hydrate, sodium bismuthate, etc. The term does not include standard dosage forms (tablets, capsules, ampuls, liquid preparations, etc.).

(b) *General provisions.* Bismuth chemicals are subject to the provisions of General Allocation Order M-300 as Appendix B materials. The initial allocation date is April 1, 1943, when bismuth chemicals first became subject to allocation under Order M-295 (revoked). The allocation period is the calendar month.

The small order exemption without use certificate is 25 pounds or less of any bismuth chemical per person per month and any quantity of bismuth chemicals in containers of one pound or less.

(c) *Transition from M-295.* Regular and interim allocations heretofore issued under Order M-295 are effective under this schedule, but authorizations to deliver are limited in duration as if originally issued under this schedule. Pending applications need not be refilled.

(d) *Suppliers' applications on WPB-2947.* Each supplier seeking authorization to use or deliver shall file application on Form WPB-2947 (formerly PD-602). Filing date is the 20th day of the month before the proposed delivery month. Send three copies (one certified) to the War Production Board, Chemicals Bureau, Washington 25, D. C., Ref: M-300-88. The unit of measure is pounds. An aggregate quantity may be requested, without specifying customers' names, for delivery on uncertified small orders.

(e) *Certified statements of use.* Each person placing orders for delivery of more than 25 pounds of any bismuth chemical per month in the aggregate from all suppliers (excluding quantities in containers of one pound or less) shall furnish with each purchase order for that bismuth chemical a certified statement of proposed use, in the form prescribed in Appendix D of Order M-300. End use may be specified as "medicinal" (specify whether military or Lend-Lease, giving contract numbers, or civilian); "industrial" (specify use and give military contract numbers, if any); "cosmetic"; "agricultural fungicide"; or in terms of any other specified use. Proposed use may also be specified as "for resale on further authorization", "for resale on exempt small orders", or "for export" (specify destination and export license number).

(f) *Toll arrangements.* Any person who has been allocated any bismuth chemical or who has received any bismuth chemical under the small order exemption may deliver it to any other person for processing pursuant to toll arrangement, and it may be so processed, to the extent that the owner would be entitled to process it himself, without application or further authorization under this schedule. There shall be no limitation on the total quantity of bismuth chemicals which a person may process on toll for others under their small order exemption.

(g) *Budget Bureau approval.* The above reporting requirements have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

(h) *Communications to War Production Board.* Reports and communications concerning this schedule shall be addressed to: War Production Board, Chemicals Bureau, Washington 25, D. C., Ref: M-300-88.

PART 1010—SUSPENSION ORDERS

[Suspension Order S-685]

DIX PETROLEUM HEATING CO.

Richard E. Smith, doing business as Dix Petroleum Heating Company at 2109 North Broadway, Wichita, Kansas, between December 31, 1943, and April 14, 1944, sold and delivered or supplied for installation purposes six butane gas systems which constituted liquefied petroleum gas equipment as defined in Limitation Order L-86. With respect to four sales no authorization to install such equipment was ever applied for or obtained as required by Limitation Order L-86 and with respect to two sales applications were made but were denied by the War Production Board; all six sales were in violation of Order L-86. Mr. Smith was familiar with Order L-86 and the violations were wilful; they caused a diversion of critical material to uses not authorized by the War Production Board and hampered and impeded the war effort. In view of the foregoing. It is hereby ordered, that:

§ 1010.685 *Suspension Order No. S-685.* (a) Richard E. Smith shall not for thirty days from the effective date of this order receive or accept delivery of any liquefied petroleum gas equipment as defined in Order L-86. This does not apply to such equipment in transit for delivery to him on the effective date of this order.

(b) The restrictions and prohibitions contained herein shall apply to Richard E. Smith doing business as Dix Petroleum Heating Company or under any other name, his successors and assigns or persons acting on his behalf. Prohibitions against the taking of any action include the taking indirectly as well as directly of any such action.

(c) Nothing contained in this order shall be deemed to relieve Richard E. Smith doing business as Dix Petroleum Heating Company or under any other name, his or its successors or assigns, from any restriction, prohibition or provision contained in any other order or regulation of the War Production Board, except in so far as the same may be inconsistent with the provisions hereof.

(d) This order shall take effect on January 20, 1945.

Issued this 10th day of January 1945.

PART 903—DELEGATIONS OF AUTHORITY

[Directive 23, as Amended Jan. 22, 1945]

MILITARY RATING PROCEDURE

Section 903.135 *Directive 23* is hereby amended to read as follows:

§ 903.135 *Directive 23*—(a) *Purpose.* The purpose of this War Production Board directive is to provide for review by representatives of the War Production Board of certain priorities actions taken by the Army and Navy and other government agencies pursuant to Directive 31.

(b) *Requirement of War Production Board review and approval of certain instruments rating capital equipment and machine tools.* Every preference rating certificate on Form WPB-542 (formerly PD-3A), or purchase order or contract rated under paragraph (e) (3) of Directive 31, which assigns a rating to any delivery of capital equipment or machine tools (whether such delivery is to be made directly to the Army or Navy or other government agency or to a prime or subcontractor thereof) shall, prior to issuance, be reviewed and approved by a duly authorized official of the War Production Board unless exempt under paragraph (e). This review and approval shall be evidenced by endorsing the certificate "Reviewed and approved under Directive 23" over the official signature of the War Production Board.

(c) *Procedure for review of rating actions by War Production Board officials.*

(1) Instruments assigning a rating to the delivery of capital equipment or machine tools required in connection with a production project in a single plant, where both (i) the total cost of all tools and equipment required for the project is less than \$100,000, and (ii) the capital equipment or machine tools do not appear on List A of this Directive, shall be submitted after countersignature by the appropriate Service Officer to the War Production Board field office within whose jurisdiction the tools or equipment are to be located. The instruments shall be approved by a War Production Board official of such office only after he has determined that the item or items requested are required and that no subcontracting facilities are available which are suitable and appropriate for the purposes for which the items are requested, or that such determination cannot be made within ten days after receipt thereof. Purchasers shall not be divided for the purpose of coming within this paragraph. The fact that the equipment or machine tools appear on a single preference rating application or on several such applications shall not determine whether the capital equipment or machine tools are in connection with a single given project, but the War Production Board field office shall determine this after full consideration of all the facts surrounding such application or applications. When an instrument which has been countersigned by the appropriate Service Officer under this paragraph is disapproved by a War Production Board official in a War Production Board field office, the Service Officer may request the War Production Board field office to forward the latter's entire file in the matter, together with a statement of the facts, to the Tools Division of the War Production Board, at the same time forwarding a copy of the statement of the facts to the Army and Navy Munitions Board in Washington. The War Production Board may in its discretion issue the instrument in question.

(2) Instruments assigning a rating to the delivery of either (i) capital equipment or machine tools required in con-

nection with a production project in a single plant, where the total cost of all tools and equipment required for the project is \$100,000 or more, or (ii) capital equipment or machine tools which appear on List A of this Directive, shall be submitted after countersignature by the appropriate Service Officer to the Routing and Issuance Branch of the War Production Board, Washington 25, D. C., or to the appropriate War Production Board field office specified in paragraph (c) (1) at the option of the sponsoring agency. If such instrument or instruments are submitted to the War Production Board field office under this paragraph, the field office shall not approve the same but shall recommend the granting or denying of approval and forward the same together with its recommendation to the Tools Division of the War Production Board for approval or disapproval in accordance with prescribed procedure.

(3) The Tools Division of the War Production Board may from time to time specify certain capital equipment or machine tools as to which instruments assigning a rating to the delivery thereof shall follow the procedure specified in paragraph (c) (2) above, irrespective of whether the capital equipment or machine tools for the project in question may have a total cost of less than \$100,000.

(d) *Approval of placement of certain purchase orders by War Production Board officials.* No person to whom a preference rating has been or is at any time assigned on Form WPB-542 (formerly PD-3A) covering deliveries of capital equipment or machine tools required in connection with a production project in a single plant where the total cost of all tools and equipment required for the project is \$100,000 or more, shall apply the rating or any subsequent rerating to any purchase order unless a War Production Board official has approved the purchase order or it is exempt under paragraph (e). Approval of a purchase order may be obtained by submitting, to the War Production Board field office within whose jurisdiction the tools or equipment are to be located, the purchase order, or a true copy thereof, or a written document containing such appropriate parts of the order as the field office may specify. Before approving the purchase order the field office must determine that no subcontracting facilities are available, or that their availability or unavailability cannot be ascertained within ten calendar days after its receipt of the order. If approval is refused, the person desiring to rate the purchase order may request the field office to forward its file together with its recommendation to the Tools Division of the War Production Board in Washington for final approval or disapproval.

(e) *Exemptions.* (1) Preference rating certificates countersigned under any of the following circumstances are exempt from the requirements of paragraph (b):

(i) Where the total value of the delivery or deliveries rated by the instrument does not exceed \$500. Purchases shall not be divided for the purpose of making this exemption available.

(ii) Where the countersigning takes place outside of the forty-eight States, the District of Columbia and the Dominion of Canada.

(iii) A purchase made pursuant to approval given by a commanding officer, commandant, or the Bureau of Supplies and Accounts of the Navy, or by a commanding officer of a defense command of the Army, in an emergency where the degree of urgency is such that advance approval by a War Production Board official cannot be obtained, provided that in each such case a copy of the rating document is mailed within 24 hours after issuance to the appropriate Regional Office of the War Production Board.

(iv) Where the capital equipment or machine tools are for shipboard use (including floating dry docks), or are for use outside the forty-eight States and the District of Columbia for military operations.

(v) Where capital equipment, not including machine tools, is purchased by or for the account of the Army or the Navy for military operations, or where the purchaser intends to devote the items solely to administrative uses as distinguished from productive or operational uses.

(vi) Where the certificate assigns a rating to a command construction project (as defined in paragraph (c) (3) of Directive 31) of which the capital equipment or machine tools are only a part.

(2) Purchase orders placed under any of the following circumstances are exempt from the requirements of paragraph (d):

(i) Where the dollar value of the items covered by the purchase order does not exceed \$500. Purchases shall not be divided for the purpose of making this exemption available.

(ii) Where the purchase order is being rated by a certificate which was exempted by paragraph (e) (1), or would have been exempted by paragraph (e) (1), if this directive had been in effect when the certificate was issued.

(iii) Where each unit of capital equipment or machine tools covered by the purchase order was listed or expressly referred to either in the certificate originally assigning a rating thereto or in a certificate (such as Form PD-4X) subsequently rerating the same or listed or expressly referred to in an appendix or its equivalent (an itemized list) attached to such a certificate approved by the Facilities Bureau or the Construction Bureau prior to January 22, 1945, or approved by the War Production Board.

(3) Purchases of jigs, fixtures, gauges and special tools designed for the individual job and made for a special application to standard machine tools are exempt from the requirements of paragraph (d).

(4) The requirements of paragraphs (b), (c) and (d) shall not apply to such

cases as may have been exempted in writing by the Facilities Bureau or Construction Bureau of the War Production Board prior to January 22, 1945, or are exempted in writing by the War Production Board.

(f) *Limitation on use of ratings.* In approving any WPB-542 (formerly PD-3A) application for capital equipment or machine tools the War Production Board may limit the use of the rating to a specific make of equipment or may provide that delivery may only be obtained from a specified supplier.

Issued this 22d day of January 1945.

§ 3133.50 *Limitation Order L-340—*

(a) *The purpose of this order.* This order does three things. First, it limits the tonnage of paper which a government may cause to be used for commercial printing. Second, it limits the tonnage of paper which may be accepted by or on behalf of a government. This is based upon its inventory of paper.

Third, it limits the basis weight of paper which a government may cause to be used in printing certain items.

Definitions and Explanations

(b) *Government*—(1) "Government" means the United States Government and the government of any State, county, municipality or local political unit. A State, county, municipality or local political unit may, as a separate government under this order, apportion its consumption quota among its constituent departments, agencies, bureaus and other subdivisions, but such departments, agencies, bureaus and subdivisions may not, collectively, cause more paper to be used in commercial printing than the consumption quota of the government which they comprise.

(2) The Army, Navy, War Shipping Administration and Maritime Commission are exempt from all of the provisions of this order except paragraph (1).

(3) Paragraphs (n), (o) and (p) do not apply to the United States Government as a whole, but only to the Government Printing Office and the Procurement Division of the Treasury Department, and the provisions of those paragraphs apply to each of the above-named agencies separately.

(4) This order does not apply to any government if its base tonnage is less than one ton, or if the total cost of commercial printing purchased by it in the base year did not exceed \$1,000.

(c) *Commercial printing.* "Commercial printing" means all printing and duplicating produced by any type of printing machine covered by Order L-226 or any type of duplicating machine covered by Order L-54-c, List I, Item 5. However, this order does not affect printing which is covered by other orders of the War Production Board, as described in paragraph (i), and printing which is unrestricted, as described in paragraph (j). "Printed matter" includes duplicated matter as well as printed matter.

(d) *Printer.* The term "printer" is used throughout this order, for the sake of convenience and brevity, to include printers who operate printing machines and duplicators who operate duplicating machines. This order applies to a government which operates its own printing plant as well as a government which purchases printing.

(e) *Paper.* "Paper" means any grade, quality, type, basis weight or size of paper, gummed paper, paperboard or bristol used in commercial printing. The term includes paper reclaimed wholly or partly from printed or unprinted waste, as well as paper made entirely from virgin fiber.

(f) *Use.* Paper is "used" when ink is first applied to it by a printer. However, paper is not "used" under this order when ink is applied to it by pen-ruling equipment. Sometimes paper is put through a press more than once, either by the same printer or by different printers; for instance, when a sheet is printed on its second side, or when several colors

are used. For the purposes of this order the paper is deemed to be "used" when the first application of ink is made by a printer. It makes no difference how many other applications of ink are put on the paper by the same or different printers.

(g) *Production waste.* All production waste shall be included in determining the tonnage of paper which a government causes to be used in commercial printing.

(h) *Inventory.* "Inventory" means all the paper which is available for the use of a government in commercial printing. It is immaterial whether such paper is in the printer's hands or in the hands of the paper dealer, government, or other person. Paper in transit is not included.

Consumption Quota

(i) *Printing which is covered by other orders.* Certain types of printing are not covered by this order. When a government adds up the weight of paper which it caused to be used in the base year, it may not count the paper which went into these items. Also, a government may not use the consumption quota which it gets under this order for the printing of any of these items. They are:

(1) Newspapers (defined in Limitation Order L-240).

(2) Magazines (defined in Limitation Order L-244).

(3) Books and booklets (defined in Limitation Order L-245).

(4) Converted products named in Lists A, B, C or D of General Conservation Order M-241-a, except gummed paper.

(j) *Printing which is not restricted.* A government is not limited in the amount of paper which it may cause to be used in commercial printing required for any official election.

(k) *Consumption restrictions for governments other than the United States government.* In the 12-month period beginning July 1, 1944 and ending June 30, 1945, or in the last fiscal year ending prior to January 1, 1946, and in each corresponding 12-month period after that, no government (other than the United States government) may cause to be used for commercial printing any paper in excess of its annual consumption quota which shall be computed as follows:

(1) (i) Select a base period which shall be either the 12-month period ending June 30, 1942, or the last fiscal year ending prior to June 30, 1942.

(ii) Add up the total pounds of paper used in the base period for all types of printing.

(iii) Subtract the pounds of paper used in the base period for all the items covered by other orders as listed in paragraph (i).

(iv) Subtract the pounds of paper used in the base period for the unrestricted items described in paragraph (j).

(v) This is the government's base tonnage from which the required reductions shall be made.

(2) If the government's base tonnage is more than 1 ton but less than 1½ tons, its annual consumption quota is 1 ton.

(3) If the government's base tonnage is more than 1½ tons, its annual consumption quota is 75 percent of its base tonnage.

(4) A government may cause its annual consumption quota to be used for any type of printing which is not covered by other orders as listed in paragraph (i). Also, it may cause any amount of paper to be used in addition to its annual consumption quota for the unrestricted items described in paragraph (j).

(5) If a government is unable to determine its base period consumption in tons of paper, it may, as an alternative, compute the dollar value of its purchases of commercial printing during the base year using the method described in paragraph (k) (1).

(i) If the government's purchases of commercial printing in the base year were more than \$1,000, but less than \$1,110, its annual consumption quota is \$1,000.

(ii) If the government's purchases of commercial printing in the base year were more than \$1,110, its annual consumption quota is 90% of the cost of commercial printing purchased in the base year.

(1) *Consumption restrictions for the United States Government.* After July 1, 1944, no department, agency or other subdivision of the United States Government may cause any paper to be used for commercial printing except in accordance with the conservation orders issued by the Director of the Bureau of the Budget.

(m) *Certification to printer.* No person may order commercial printing on behalf of a government (except the United States Government) and no person may accept such an order, unless the person placing the order furnishes or has previously furnished to that printer a certification in substantially the following form, signed manually or as provided in Priorities Regulation 7 (§ 944.27) by an official duly authorized for such purpose.

The undersigned certifies, subject to the penalties of section 35 (A) of the United States Criminal Code, to the printer and to the War Production Board that he is familiar with Order L-340, and that all orders placed by the undersigned with that printer for items regulated by Order L-340, as amended from time to time, will be in compliance therewith.

This is a one-time certification and need not accompany each individual order for printing.

Delivery Restrictions

(n) *Limit on tonnage which may be accepted.* No government may accept, and no person may accept for a government's use, delivery of any quantity of paper if the government's total inven-

tory of all kinds of paper for use in commercial printing exceeds 60 consecutive days' supply, or if acceptance of the delivery will bring its inventory above this level. The number of days' supply shall be computed at the average proposed rate of consumption during the succeeding 60 days, *Provided*, That the proposed rate of consumption is not in violation of the consumption quota restrictions contained in this order.

(o) *Increase of deliveries.* A government may accept delivery of paper which would increase its inventory to more than 60 consecutive days' supply of paper only in the following two circumstances:

(1) If the amount of a particular item in the government's inventory is less than 30 days' supply, it may accept delivery of not more than an additional 30 days' supply of that item, *Provided*, The amount purchased is required for its production within 30 days of acceptance.

(2) Regardless of the quantity of a particular item, or of all items, in a government's inventory, it may accept delivery of any item which it is entitled to accept under paragraphs (n) and (o) (1) in the unit quantity (e. g., full carload, full truckload, 10,000, 5,000 pounds, 4 cases) in which it accepted delivery of that item in the base period.

(p) *Certification to paper dealer or mill.* No government may order or accept delivery of paper, and no person may deliver paper to a government, unless the government furnishes, or has previously furnished, to the person making the delivery a certification in substantially the following form, signed manually or as provided in Priorities Regulation 7 (§ 944.27) by an official duly authorized for such purpose:

The undersigned certifies, subject to the penalties of section 35 (A) of the United States Criminal Code, to the seller and to the War Production Board that he is familiar with Order L-340 and that all purchases by the undersigned of items regulated by that order, as amended from time to time, will be in compliance therewith.

This is a one-time certification and need not accompany each individual order for paper.

Miscellaneous Provisions

(q) *Limits on basis weights.* Schedule I of Order L-241 provides, "No person may manufacture and no person may cause to be manufactured any of the items listed in this schedule in a basis weight or thickness, area or weight per unit greater than the maximum specified for such use." All commercial printing which a government causes to be produced under this order must be in compliance with Schedule I of Order L-241.

(r) *Records.* In order to secure compliance with this order, every government (except the United States Government) must calculate, as accurately as it can, the tonnage of paper which it used during the base period for the items cov-

ered by this order. It must also keep accurate records of this type of information for each 12-month period beginning July 1, 1944, or for each fiscal year commencing after June 30, 1944. It must preserve these figures and its work sheets, subject to inspection by War Production Board officials, as long as this order remains in force and for two years after that.

(s) *Applicability of regulations.* This order and all transactions affected by it are subject to all present and future regulations of the War Production Board.

(t) *Appeals.* Any appeal from the provisions of this order shall be made by filing a letter referring to the particular provision appealed from and stating fully the grounds of the appeal. Regardless of the provisions of Priorities Regulation 16, no statement with respect to manpower information on Form WPB-3820 (or letter explaining why that form is not filed) need accompany any appeal.

(u) *Communications.* All communications concerning this order shall be addressed to the War Production Board, Printing and Publishing Division, Washington 25, D. C., Ref: L-340.

(v) *Violations.* Any person who wilfully violates any provision of this order or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States, is guilty of a crime and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, materials under priority control, and may be deprived of priorities assistance.

PART 3290—TEXTILE, CLOTHING AND
LEATHER[Conservation Order M-375 as Amended
Jan. 22, 1945]

WORK GLOVES

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of work gloves for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 3290.336 *General Conservation Order M-375*—(a) *Definitions*. For the purpose of this order:

(1) "Work gloves" means any of the following gloves and mittens customarily graded as men's, women's and children's:

Canton flannel gloves and mittens.
Jersey gloves and mittens
Leather combination gloves and mittens.

"Gloves" means both gloves and mittens.

(2) "Put into process" means the first cutting of material in the manufacture of gloves and mittens.

(3) All terms used in this order shall have their usual and customary trade meanings unless stated otherwise.

(b) *General exceptions*. The provisions of this order shall not apply to orders for the delivery of work gloves to the United States Army, Navy, Maritime Commission or War Shipping Administration, or to other persons pursuant to authorization by the Maritime Commission on Form WPB-646.

(c) *General restrictions on processing and manufacturing of work gloves*. (1) No person shall, after May 15, 1944, manufacture work gloves or put into process or cause to be put into process by others for his account any material for the manufacture of work gloves with:

(i) Canton flannel other than 4 harness construction.

(ii) Thumb seam welts or welts at thumb crotch seam, or thumb straps, on other than side split leather or grain leather construction.

(iii) Pairs tacked, stapled or otherwise fastened together.

(iv) Rider tickets.

(v) Imprints on hand portion other than manufacturer's trade mark.

(2) No person shall, after May 15, 1944, manufacture work gloves, or put into process or cause to be put into process by others for his account any material for the manufacture of work gloves, of any style, type and construction not listed in Schedule A of this order, or more numbers of any style than is specified in Schedule A.

Each person who manufactures work gloves or puts into process materials for the manufacture of work gloves shall, within 15 days after May 15, 1944, file with the War Production Board a list of the specific numbers of each style of gloves listed in Schedule A which he in-

tends to produce. The numbers shall be listed in the sequence of Schedule A, and each number fully identified to conform with Schedule A. For example: only one number may be selected in Class 2 Men's Safety Cuff. The selection made should be stated in this form: "Class 2, Men's Safety Cuff, 8 oz. palm, 10 oz. lining, without turtle neck, white back, quilted." If this is the number selected no other number of this style may be made. No person may make any number not set forth on his list filed with the War Production Board, or change from the production of any number of any style set forth in his list to any other number of that style, unless he is authorized by the War Production Board in writing to do so.

(3) The War Production Board may on written application authorize the production and sale of work gloves, other than those enumerated in Schedule A, for specific occupational requirements.

(4) No person shall, after May 15, 1944, manufacture work gloves or put into process or cause to be put into process by others for his account any material for the manufacture of work gloves except in accordance with the specifications set forth in Schedules A and B.

(5) *Exceptions*. The provisions of paragraph (c) shall not apply to:

(i) Work gloves put into process or manufactured prior to May 15, 1944.

(ii) Work gloves made and sold to conform with state, county and municipal safety laws, codes and regulations and in effect on May 15, 1944, and specifically requiring the use of work gloves made otherwise than as specified in this order.

(iii) Work gloves manufactured in the home except when made for sale or for a contractor or jobber or other person who sells the work gloves.

(iv) Work gloves made from materials and supplies in the inventory of a glove manufacturer on May 12, 1944, or purchased by him prior to May 12, 1944, provided such materials and supplies are consumed in the manufacture of gloves before June 30, 1944. However, such gloves may be sold and delivered only before July 31, 1944.

(d) *Restrictions on sales and deliveries*. (1) No person shall sell or deliver work gloves which he knows or has reason to believe were manufactured or the material for which was put into process contrary to the provisions of paragraph (c) of this order.

(2) No manufacturer of work gloves may deliver work gloves packed less than one dozen pairs to a package.

(3) No person shall sell, deliver or accept delivery of any hot mill flannel gloves, except upon a preference rated order, or pursuant to allocation or direction of the War Production Board. However, these restrictions do not apply to sales or deliveries of hot mill flannel gloves by an employer to his own employees, or by a retail establishment from its stocks on hand.

(4) Unless specifically authorized by the War Production Board, no person who purchases work gloves for distribution or sale to his own employees shall accept delivery of work gloves if by virtue of such acceptance his inventory of work gloves will be in excess of the minimum amount of work gloves required to supply the needs of his employees for a period of 30 days.

(e) *Assignment and use of ratings*.

(1) The War Production Board may assign preference ratings for, or allocate, or direct the delivery of work gloves pursuant to application on Form WPB-541 filed with the nearest Field Office of the War Production Board. The War Production Board, in assigning a preference rating for work gloves may specify that the rating shall be valid only to obtain delivery from a designated manufacturer or supplier; in such case the manufacturer or supplier so designated may not reject the order on the ground that he has not in the past accepted or filled orders from that particular class of customer.

(2) No person shall apply, extend or give any effect to any preference rating for work gloves unless the preference rating has been assigned on Form WPB-541, and the order contains the certification required by Priorities Regulation 3 and, in addition, a notation substantially as follows:

This rating was assigned on Form WPB-541
Serial No. -----
(fill in)

In the case where a specific source of supply has been designated the preference rating form must accompany and be attached to the order.

(The above requirements must be met regardless of Priorities Regulation 3. When this is done the requirements of M-328 are met, and it is unnecessary to use any other notation.)

(3) No person who is assigned a rating for more than 10 dozen pairs of work gloves may apply it to get any of them at retail prices. This does not prevent purchase at retail of more than 10 dozen pairs of gloves on an unrated order.

(4) Preference ratings for work gloves will be assigned on Form WPB-541 only to persons operating industrial plants, mines or lumber camps and to such other classes of persons as the War Production Board may from time to time designate. Each applicant for a preference rating must show:

(i) That the gloves are desired by the applicant for distribution or sale only to his own employees for use in their occupations.

(ii) That he has in effect or will put into effect the plan approved by the War Production Board to screen his orders and requisitions for work gloves and to eliminate unnecessary and wasteful use of such gloves. The plan will include a provision requiring each employee to turn in a worn-out pair of gloves before obtaining a replacement, and a provision requiring that soiled work gloves be

washed or cleaned and used until they are worn-out. The Field Offices of the War Production Board will on request furnish the applicant with a copy of the approved plan and will assist applicants in working out practicable methods of conserving work gloves.

(iii) In the case of hot mill flannel gloves, the applicant must show that the gloves are required for his employees handling hot metals or ladles or other extremely hot materials requiring heavy insulation for handling and for which purposes other types of work gloves may not be practicably substituted. He must show the actual number of his employees so engaged.

(5) Any person to whom a rating has been assigned, applied or extended for work gloves who has difficulty getting his order accepted and filled, may apply by letter to the War Production Board, stating the facts, for a designation of supplier or direction.

(f) Obligations with respect to rated puts into process materials for the manufacturers. (1) No person who manufactures or puts into process materials for the manufacture of the types of work gloves mentioned below, shall in any calendar quarter deliver on unrated orders for these types of gloves more than the maximum percentages shown below of his total production of such gloves in that quarter. Unless he so desires, he need not accept rated orders calling for delivery in any calendar quarter of more than the maximum percentages shown below of his production of such gloves.

Type	Maximum percentage of unrated orders	Maximum percentage of rated orders
Leather combination gloves...	Percent 70	Percent 35
Canton flannel gloves (excluding hot mill gloves and husking gloves or mittens)...	65	40

Production for and delivery on orders of the United States Army, Navy, the Maritime Commission and the War Shipping Administration shall not be included in computing the above percentages.

NOTE: Subparagraphs (2) and (3) formerly (3) and (2) redesignated Jan. 22, 1945.

(2) The War Production Board may from time to time establish percentages with respect to the maximum amount of rated orders that each manufacturer of other work gloves is required to accept and fill, and the minimum amount of other work gloves that each manufacturer must deliver on or set aside for delivery on rated orders.

(3) The War Production Board may from time to time establish minimum quantities of specific types of work gloves that each manufacturer of work gloves shall be required to produce.

(g) Appeals. Any appeal from the provisions of this order shall be made by filing a letter in triplicate, referring to the particular provisions appealed from and stating fully the grounds of the appeal.

(h) Reports. Each manufacturer of gloves shall report monthly his production and deliveries of work gloves on WPB Form 3548. This reporting requirement has been approved by the Bureau of the Budget pursuant to the Federal Reports Act of 1942.

(i) Applicability of regulations. This order and all transactions affected thereby are subject to all applicable regulations of the War Production Board as amended from time to time.

(j) Violations. Any person who willfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact, or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(k) Communications. All reports required to be filed hereunder and all communications concerning this order shall, unless otherwise directed in writing, be addressed to: War Production Board, Textile, Clothing, and Leather Bureau, Washington (25), D. C., Reference M-375.

Issued this 22d day of January 1945.

WAR PRODUCTION BOARD,
By J. JOSEPH WHELAN,
Recording Secretary.

SEC. 10.2 Differentials—(a) Quantity. The maximum delivered prices of hydrogenated and standard shortenings, established in section 10.1 above, are the maximum delivered prices for hydrogenated and standard shortenings when shipped in (1) carlots or (2) the quantity to which the lowest price is usually applied in the processor's published lists. When hydrogenated and standard shortenings are shipped in less than (1) carlots or (2) the quantity to which the lowest price is usually applied in the processor's published lists, the usual or normal differential for such a quantity shall continue to apply.

(b) *Quantity.* The maximum delivered prices of salad and cooking oils, established in section 10.1 above, are the maximum prices for salad and cooking oils when shipped in the quantities usually named in the processor's published lists. When salad and cooking oils are shipped in carlots on which a refining in transit privilege is applicable the usual or normal discount (if any) from the maximum prices established in the schedule shall continue to apply. When shipped in a quantity less than the quantity to which the lowest price is usually applied in the processor's published lists, the usual or normal differential over the maximum prices established in this schedule shall continue to apply.

(d) *Cash discounts.* The maximum prices of hydrogenated and standard shortenings and salad and cooking oils, established in section 10.1, are the maximum prices before cash discounts. The usual or normal discount for the receipt of payment within the period usually specified in the processor's published lists shall continue to apply.

(e) *Area.* The maximum prices of hydrogenated and standard shortenings and salad and cooking oils, established in section 10.1, are basic prices for the three areas named (North, South, and Pacific Coast). The usual or normal differentials which have applied in the past over base prices to some points within these areas shall continue to apply.

(f) *Limitation.* The maximum prices of hydrogenated and standard shortenings and salad and cooking oils, established in this Article X are the maximum prices on sales made by processors. These prices are not the maximum prices on sales made by wholesalers and retailers.

(g) The maximum prices established in section 10.1, shall apply to sales to any person.

(h) The usual or normal differentials for type of purchaser shall continue to apply.

(i) *Branch houses and car routes.* Where a processor sells a brand of standard or hydrogenated shortening enumerated in section 10.1 hereof through a branch house or car route owned by the processor or owned by a corporation more than 50% of whose stock is owned or controlled by the processor, to a purchaser other than (1) a jobber, or (2) a wholesaler, or (3) a purchaser who buys a carlot or that quantity to which the lowest price usually is applied in the processor's published lists, or (4) a purchaser who during the years 1941 and 1942 customarily has bought in carlots or the quantity to which the lowest price usually is applied in the processor's published lists, the processor's maximum price on such sales shall be 106% of the lesser of (i) the amount that he bills his branch house or car route for the shortening so sold, or (ii) the maximum price permitted him by sections 10.1 to 10.2 (h) inclusive, for carlot shipments of the shortening so sold.

(j) *Branch houses and car routes.* Where a processor sells a brand of salad or cooking oil enumerated in section 10.1 hereof through a branch house or car route owned by the processor or owned by a corporation more than 50% of whose stock is owned or controlled by the processor, to a purchaser other than (1) a jobber, or (2) a wholesaler, or (3) a purchaser who buys a carlot or that quantity to which the lowest price usually is applied in the processor's published lists, or (4) a purchaser who during the years 1941 and 1942 customarily has bought in carlots or the quantity to which the lowest price usually is applied in the processor's published lists, the processor's maximum price on such sales shall be 110% of the lesser of (i) the amount that he bills his branch house or car route for the oil so sold, or (ii) the maximum price permitted him by sections 10.1 to 10.2 (h) inclusive, for carlot shipments of the oil so sold.

Sec. 10.3 Maximum prices of brands for which maximum prices are not established in section 10.1. (a) The maximum price of a brand of shortening, the maximum price of which is not established in section 10.1, shall be determined according to the provisions of the General Maximum Price Regulation⁹ except that the period from January 16, 1942 to January 31, 1942 inclusive shall be substituted for the period of the month of March 1942 in determining the highest price which may be charged in accordance with §§ 1499.2 and 1499.3 thereof.

(b) The maximum price of a brand of salad or cooking oil, which is not specifically named in section 10.1, shall be determined according to the provisions of the General Maximum Price Regulation, except that the period from January 16, 1942 to January 31, 1942 in-

Sec. 10.4 Applications for adjustment of maximum prices by processors. If the processor of a brand of shortening, or of a brand of salad or cooking oil, the maximum price of which is not established in section 10.1, feels that his brand should command the same maximum price as those brands for which a maximum price is established in section 10.1, or if he feels that the maximum price for his brand, as computed under section 10.3, is unduly low in relation to the maximum prices of those brands the maximum prices of which are established in section 10.1, he should file an application for adjustment with the Office of Price Administration in accordance with the procedure set forth in Revised Procedural Regulation No. 1. Such application should set forth in detail the reasons why the applicant believes his brand should command the maximum price requested by the applicant in his application. The application should also set forth in detail the price relationship between the applicant's brand and one of the brands specifically named in section 10.1.

Sec. 10.5 Sales of bulk shortening to government agencies. On sales of standard or hydrogenated shortening in drums or tierces holding 300 pounds or more, to the Army, Navy, Land-Lease Administration, or any other government agency, the maximum price shall be the maximum price as determined under the preceding sections of this Article X, plus in the case of standard shortening, .4¢ per pound for each pound of vegetable oil contained in such standard shortening and, in the case of hydrogenated shortening, .2¢ per pound for each pound of hydrogenated shortening so sold.

Where maximum prices for any margarine have been determined, or purport to have been determined, under the provisions of § 1499.2 (b) of the General Maximum Price Regulation prior to August 22, 1944, maximum prices for such margarine shall be recalculated and re-determined in accordance with the provisions of sections 19.1 (b) and (c) hereof.

(b) *Maximum prices of brands that were not sold or offered during March 1942, and that are now sold by processors who sold or offered any margarine during March 1942.* The maximum price of a brand of margarine that was not sold or offered for sale by the processor during March 1942, and that is now sold by a processor who sold or offered for sale any margarine during March 1942, shall be the highest price charged by the processor during March 1942 for the most nearly equivalent margarine sold or offered by such processor during March 1942.

(c) *Maximum prices of brands that were not sold during March 1942 and that are now sold by processors who did not sell or offer any margarine during March 1942.* The maximum price of a brand of margarine that was not sold or offered for sale during March 1942, and that is now sold by a processor who, did not sell or offer any margarine during March 1942, shall be determined under the provisions of Order No. 375 under § 1499.3 (b) of the General Maximum Price Regulation, excepting that in no case may a maximum price so determined be above the general level of prices prevailing for similar margarine in the same general area as that in which it is proposed to distribute the margarine.

(d) *Application for adjustment in certain cases of increased costs resulting from changes in method of manufacture or distribution.* (1) Where a processor, since March 1942, has changed and substantially improved the method of manufacture or distribution of any brand of margarine, or where a processor makes a new brand of margarine that is manufactured or distributed by a different and substantially better method than that under which the most nearly equivalent brand made by him during March 1942 was manufactured or distributed, such processor may apply to the Office of Price Administration, Washington, D. C., for an adjustment in his maximum price.

(2) In any such application the processor shall specify the exact changes and improvements in method of manufacture or distribution claimed to have been made since March 1942, the old and new method of manufacture or distribution, the exact cost (as of the date of the application) of making and distributing the margarine under the method of manufacture and distribution that was used in March 1942, and the exact cost of making and distributing the margarine under the method of manufacture and distribution used at the time of the application.

(3) Any adjustment granted under this section 19.1 (d) will in no case exceed the increase in the direct cost of producing the margarine and the increase in the cost of distribution that is due to the change in method of manufacture or distribution and will in no case be a price above the general level of prices prevailing for similar products in the same general area as that in which the product is distributed.

[Subparagraph (3) amended by Am. 36, 9 F.R. 11763, effective 9-30-44]

(e) *Application for adjustment in certain cases of hardship.* A processor may apply to the Office of Price Administration, Washington, D. C., for an adjustment in his maximum price of margarine where

(1) His maximum price is below the general price level prevailing for similar products, and

(2) He is or will be unable to maintain his production at his maximum price or prices, and

(3) The loss of his production would result in consumers having to pay higher prices for the most nearly similar substitute product available, and

(4) An increase in his maximum price or prices will enable him to continue production, and

(5) The Administrator is of the opinion that an increase in his maximum price or prices would, under all the circumstances, be in furtherance of the purposes of the Emergency Price Control Act, as amended.

The maximum price increase that may be granted to a processor or manufacturer under the provisions of this section 19.1 (e) shall not cause his price to exceed the general price level prevailing for similar products. Subject to this limitation, an increase may be granted not to exceed the total cost of the product, or if the applicant's earnings from all operations before income and excess profits taxes are low in comparison with those of a "representative peace-time period", adjusted for subsequent changes in investment, and if in view of such over-all earnings a small margin of profit is reasonably necessary to permit production, an increase may be allowed estimated to yield such a profit margin.

A "representative peace-time period" means the period of the years 1936 to 1939, inclusive. When 1936 to 1939 does not represent a reasonably normal pre-war (December 7, 1941) period, some other period may be used but its use must be positively justified in the application.

SEC. 19.2 *Maximum prices for branch houses formerly pricing under § 1499.2 (b) of the GMPR.* The maximum price of a brand of margarine sold from a branch house which did not sell or offer for sale the brand of margarine during March 1942 shall be the sum of the supplying processor's ceiling price of that brand of margarine plus the lowest carload freight rate on a per pound basis from the processing plant customarily supplying the branch house, to the branch house. In no case shall a maximum price established under this section exceed the maximum price established by the branch house heretofore under § 1499.2 (b) of the General Maximum Price Regulation.

[Sec. 19.2 added by Am. 33, 9 F.R. 11397, effective 9-22-44. Former sections 19.2 and 19.3 redesignated 19.3 and 19.4 by Am. 33]

Sec. 19.3 *Maximum prices for brands for which maximum prices have been fixed by previous orders of the OPA.* This amendment shall not affect the maximum prices for brands for which dollar-and-cents ceiling prices have been fixed by orders of the Office of Price Administration previously issued; such orders shall continue in full force and effect.

Sec. 19.4 *These maximum prices are for processors or manufacturers only.* The maximum prices established by this amendment are maximum prices for processors or manufacturers only. They are not the maximum prices for wholesalers, distributors, retailers or other sellers.

Sec. 19.5 *Cross references.* Provisions with respect to notification to both wholesalers and retailers will be found in section 1.15 of this regulation.

[Sec. 19.5 added by Am. 37, 9 F.R. 11757, effective 9-22-44; and amended by Am. 40, effective 1-25-45]

Sec. 19.6 *Definitions.* When used in this Article XIX:

(a) "Processor" means (1) the manufacturer or processor, (2) any predecessor in title of, or any corporation or person that conveyed its assets, business, stock-in-trade, good will or trademarks to, the manufacturer or processor, or (3) any corporation, a majority of whose voting stock is owned or controlled by the manufacturer or processor or which owns or controls a majority of the voting stock of the manufacturer or processor.

(b) "Branch house" shall mean a branch house wholly owned by the processor or manufacturer or owned by a corporation, more than 50 percent of whose stock is owned or controlled by the processor or manufacturer.

(c) "Supplying processor's ceiling price" means the processor's f. o. b. plant ceiling price for the plant customarily supplying the branch house for which a ceiling is being established.

[Sec. 19.6, formerly 19.4, redesignated 19.5 and amended by Am. 33, 9 F.R. 11397, effective 9-22-44; and redesignated 19.6 by Am. 37, 9 F.R. 11757, effective 9-22-44]

[Article XIX added by Am. 28, 9 F.R. 7770, effective 9-22-44; effective date of Am. 28 amended by Am. 32, 9 F.R. 10305, effective 8-22-44]

Effective date. This regulation shall become effective August 14, 1943. [MPR 53 originally issued August 9, 1943.]

[Effective dates of amendments are shown in notes following the parts affected.]

NOTE: The reporting and recording provisions of this regulation are approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

PART 1351—FOOD AND FOOD PRODUCTS

[FPR 1, Amdt. 20 to Supp. 7]

PACKED FRUITS, BERRIES AND VEGETABLES OF THE 1944 AND LATER PACKS

A statement of the considerations involved in the issuance of this amendment has been issued and filed with the Division of the Federal Register.*

Supplement 7 to Food Products Regulation No. 1 is amended in the following respects:

1. The definitions of the term "Packed" in section 3 (a) is amended to read as follows:

"Packed" means processed and enclosed in any container, whether or not hermetically sealed. However, the term does not include any product when processed by freezing, drying or dehydrating, nor does it include any of the packed products known as preserves, relishes or pickles packed from other than fresh vegetables.

2. Example 7 in section 5 (a) (4) is amended by changing the phrase "Fancy spinach packed in No. 2½ cans" in the second paragraph to read "Fancy spinach packed in No. 1 Tall cans."

3. The text preceding paragraph (a) in section 6 beginning with the second undesignated paragraph following the list of packed vegetables is amended to read as follows:

To price items where they or other items of the same product (except vegetable greens) were sold during the base period and for which the processor established maximum prices for the 1943 pack under the formula provisions of Maximum Price Regulation 306² or 493,³ see paragraph (a), below.

To price items where they or other items of the same product were sold during the base period and for which the processor established maximum prices for the 1942 pack under the formula provisions of Maximum Price Regulation 152⁴ or 185⁵ or Revised Maximum Price Regulation 233,⁶ but for which maximum prices generally were not established in 1943 or for which dollars-and-cents maximum prices were named for the 1943 pack, and to price vegetable greens other than spinach, see paragraph (b), below.

To price items other than items of packed apples, applesauce, apple juice, sweet cider and cranberries, where they or other items of the same product were sold by grower-processors (including grower-owned cooperatives) during the base period, see paragraph (c), below.

To price items in certain container types and sizes, see paragraph (d), below.

To price items for which the maximum prices for the 1942 or 1943 pack were established by using competitors' maximum prices (except items of products sold by grower-processors during the base period) or by specific authorization, and to price all items that cannot otherwise be priced, see paragraph (g), below.

The processor shall figure a maximum price for each factory at which he processes the item being priced. (However, he may then elect to combine prices as provided in section 10 (f).)

4. The paragraph heading and first undesignated paragraph of section 6 (a) are amended to read as follows:

(a) *General rule for pricing items, where they or other items of the same product were sold during the base period and for which maximum prices were established for the 1943 pack under the formula provisions of Maximum Price Regulation 306 or 493.* In general, this paragraph applies to the pricing of items in those cases where the processor sold some items of the product during the base period and for which he established maximum prices for the 1943 pack under the general formula provisions of Maximum Price Regulation 306 or 493.

It does not apply to items that were priced in 1942 or 1943 by using competitors' maximum prices, by individual authorization, or by the alternative pricing method of section 19 of Maximum Price Regulation 493, nor does it apply to the pricing of vegetable greens. This paragraph also applies to the pricing of items of the apple products covered by this section that were priced in 1943 by a grower-processor (including a grower-owned cooperative) by using the raw material cost of his closest competitor who purchased apples for use in making the product.

5. Section 6 (a) (4) is amended to read as follows:

(4) *Subtract the 1943 raw material cost.* Next, the processor shall subtract the 1943 raw material cost per dozen containers or other unit as required to be figured under Maximum Price Regulation No. 306 or 493. The deduction shall include any hauling and transportation charges reflected in his maximum price for the 1943 pack.

6. The table in section 6 (a) (5) is amended in the following respects:

a. In the column headed "Price" the statement opposite the phrase "Sales to purchasers other than government procurement agencies" appearing under the listing "Prunes, dried" is amended to read as follows:

Commodity Credit Corporation's resale price for the area in which the processor's customary receiving point is located, if he is also the processor under Supplement 9 to Food Products Regulation No. 1 of the dried prunes used in the item being priced. If he is not the processor, under that supplement, of the dried prunes used in the item being priced, his 1944 raw material cost shall be based on his 1944 weighted average delivered cost for each grade of dried prunes used in packing the item.

b. In the column headed "Price" the statement opposite the phrase "Sales to government procurement agencies" appearing under the listing "Prunes dried" is amended to read as follows:

War Food Administration's support price for the area in which the processor's customary receiving point is located, if he is also the processor under Supplement 9 to Food Products Regulation No. 1 of the dried prunes used in the item being priced. If he is not the processor, under that supplement, of the dried prunes used in the item being priced, his 1944 raw material cost shall be based on his 1944 weighted average delivered cost for each grade of dried prunes used in packing the item.

c. In the column headed "Price" the statement opposite the listing "Group III: Vegetables" is amended to read as follows:

For raw vegetables in Group I, the 1942 raw material cost as required to be figured under MPR 152, plus 20% of that cost.

For raw vegetables in Group II, War Food Administration's average support price for area in which processor's customary receiving point is located. Exception: For tomatoes used in mixed vegetable juices sold to purchasers other than government procurement agencies, Commodity Credit Corporation's 1943 resale price for area in which the processor's customary receiving point is located.

d. The footnote to the table is amended to read as follows:

The raw material prices named in the table above refer to support or designated prices delivered to the processor's customary receiving point, except in the case of blackeye peas, field peas, and spinach (except California), for which the prices include delivery to the cannery. In the case of spinach produced in California, the price named is "uncut in the field". (In figuring raw material costs for spinach used in mixed vegetables or mixed vegetable juices produced in California, the processor shall subtract and add, respectively, the 1943 and 1944 raw material costs on the basis of the "uncut in the field" price for each year.) The actual transportation charges incurred from his customary receiving point to his factory (figured at rate prevailing on June 1, 1943) shall be added to the amount named at the customary receiving point. The location of the processor's customary receiving point is controlling in determining the applicable price in the table, and not the place where the raw material is grown or his factory located. However, if the processor purchases raw material in an area other than that in which his customary receiving point is located, the applicable price in the table is the price named for the area in which the raw material is grown, and he shall add to this amount the actual transportation charges that would have been incurred from his customary receiving point to his factory (figured at rate prevailing on June 1, 1943).

7. Section 6 (b) (2) is amended to read as follows:

(2) Subtract the 1942 raw material cost. Next, the processor shall subtract the 1942 raw material cost per dozen containers or other unit as required to be figured under Maximum Price Regulation 152 or 185. In the case of packed apples and applesauce, the 1942 raw material cost to be subtracted shall be figured by adding to the processor's 1941 raw material cost 8¼% of his "base price" as required to be figured under § 1341.404 of Revised Maximum Price Regulation 233, and in the case of apple juice and sweet cider, the 1942 raw material cost to be subtracted shall be figured by adding to the processor's 1941 raw material cost the amount of 6 cents per gallon apportioned to each unit in the manner explained in § 1341.406 (b) (3) of that

regulation. The deduction shall include any hauling and transportation charges reflected in his maximum price for the 1942 pack.

8. Section 10 (d) is amended to read as follows:

(d) Individual authorization of maximum prices (section 2.5 of FPR 1). This section shall also apply to secondary processors. In addition to the information required to be furnished under section 2.5 of FPR 1, the applicant shall state in the application his case (unit) yields, on the basis of No. 2 cans for vegetables and No. 2½ cans for fruits and berries, for each of the years 1941, 1942 and 1943 in which he packed the product. If he did not pack the product in any of those years, he shall state his current case yields. For the purpose of this supplement, the proposed maximum price shall be deemed to have been authorized 30 days after mailing the application (or all additional information that may have been requested) unless, within that time, the Office of Price Administration has mailed the applicant a notice to the contrary.

NOTE: The applicant should remember to allow sufficient time after the expiration of the 30-day period to permit notification by mail to reach him before he assumes that no action has been taken by the Office of Price Administration during that period.

9. In section 13a (c) (2) (i) the next to the last word in the paragraph is changed from "maximum" to "market".

10. Table 8 in Appendix B to section 16 is amended in the following respects:

a. The text preceding the table is amended to read as follows:

If you pack fruit in syrup of which the density does not correspond to the grade of the fruit, subtract the amount named below for the grade from the price computed from Table 3 or 4 and add to the resulting figure the amount named for the syrup you do use.

Note: If the change in the packing medium is from syrup to natural juice or water, no amount may be added.

b. The definition of "Slightly sweetened water" following the table is amended to read as follows:

"Slightly sweetened water" means water or natural juice and a sweetening agent having a cut-out density of less than 16° Brix.

11. Table 7 in Appendix C to section 16 is amended in the following respects:

a. The text preceding the table is amended to read as follows:

If you pack fruit in syrup of which the density does not correspond to the grade of the fruit, subtract the amount named below for the grade from the price computed from Table 3 or 4 and add to the resulting figure the amount named for the syrup you do use.

Note: If the change in the packing medium is from syrup to natural juice or water, no amount may be added.

b. The definition of "Slightly sweetened water" following the table is amended to read as follows:

"Slightly sweetened water" means water or natural juice and a sweetening agent having a cut-out density of less than 16° Brix.

12. Table 7 in Appendix D to section 16 is amended in the following respects:

a. The text preceding the table is amended to read as follows:

Note: If the change in the packing medium is from syrup to natural juice or water, no amount may be added.

b. The definition of "Slightly sweetened water" following the table is amended to read as follows:

13. Table 7 in Appendix E to section 16 is amended in the following respects:

a. The text preceding the table is amended to read as follows:

Note: If the change in the packing medium is from syrup to natural juice or water, no amount may be added.

b. The definition of "Slightly sweetened water" following the table is amended to read as follows:

"Slightly sweetened water" means water or natural juice and a sweetening agent having a cut-out density of less than 14° Brix.

14. The text preceding Table 7 in Appendix F to section 16 is amended to read as follows:

PART 1364—FRESH, CURED AND CANNED
MEAT AND FISH PRODUCTS

[MPR 336, Amdt. 18]

RETAIL CEILING PRICES FOR PORK CUTS AND
CERTAIN SAUSAGE ITEMS

A statement of the considerations involved in the issuance of this amendment has been issued simultaneously herewith and filed with the Division of the Federal Register.*

Maximum Price Regulation No. 336 is amended in the following respects:

1. Paragraph (a) of section 2 is amended to read as follows:

(a) You will find your ceiling prices for pork cuts on your "OPA List of Retail Ceiling Prices for Pork Cuts" (Article III, section 19, and for sausage products subject to this regulation on your "OPA List of Retail Ceiling Prices for Sausage Products covered by Maximum Price Regulation No. 336" (Article III, section 20) and for canned sausage products which you sell un-canned on your "OPA List of Retail Ceiling Prices for Canned Sausage Products Sold Un-canned" (Article III, section 22) on all sales made to individuals for consumption by themselves or their families off your premises. Except as provided in section 5 (b) (2), you will also use the same ceiling prices on sales to eating places if your dollar volume of such sales during any month does not exceed 20 percent of your total dollar volume of all meat sales during any calendar month. If you desire to sell more than 20 percent of your total dollar volume of meat sales to eating places during any calendar month, you must first meet the requirements of section 5 (b) (2), of this regulation. Thereafter your ceiling prices on all meat sales to eating places, to the extent permitted by section 5 (b) (2) shall be the prices in your "OPA

List of Retail Ceiling Prices on Specially Authorized Sales to Eating Places or Other Retailers" (Article III, section 21). Likewise in those cases where you have been granted permission to make sales to another retailer pursuant to section 5 (d), you will find your ceiling prices for such sales in your "OPA List of Retail Ceiling Prices on Specially Authorized Sales to Eating Places or Other Retailers" (Article III, section 21.) A copy of these lists for your zone and group will be attached to this regulation. A complete price list showing prices for both pork cuts, sausage products and certain canned sausage products sold un-canned may be obtained from your local War Price and Rationing Board or from your District Office of the Office of Price Administration. (If you are a "Group 3 and 4" store you should obtain your copy of the complete price list from your Regional Office of Price Administration Office).

2. Subparagraph (4) of section 4 (a) is amended by deleting the word "and" following the words "Maximum Price Regulation No. 355";

3. Subparagraph (5) of section 4 (a) is amended, and subparagraph (6) of section 4 (a) is added, both to read as follows:

(5) Sausage products purchased by you in cans and which you remove from cans and sell in smaller amounts for which your ceiling prices are established under this regulation; and

(6) The following pork and sausage products for which your ceiling prices are to remain as fixed under the General Maximum Price Regulation: (i) un-canned sausage products which are described in section 2 (a) (1) of Maximum Price Regulation No. 389 (Ceiling Prices for Certain Sausage Items at Wholesale), and (ii) quick frozen cuts which are sold and delivered to you in the individual packages in which you sell them.

4. The second paragraph of section 4 (c) is amended to read as follows:

Any sausage made by you other than the sausage described in section 2 (a) (1) of Maximum Price Regulation No. 389 must meet the requirements for one of the kinds and types of sausage for which prices are established by this Maximum Price Regulation No. 336. Any sausage made by you must also comply with the labeling requirements of section 4 of Maximum Price Regulation No. 389.

5. Paragraph (b) of section 5 is amended to read as follows:

(1) You may sell them retail meat cuts, variety meats and edible by-products, sausage and wholesale pork cuts for which retail prices are specified in Maximum Price Regulations Nos. 336, 355 and 394, but except as provided in subparagraph (2) hereof the total dollar volume of such sales must not exceed 20 percent of your total dollar volume of meat sales during any month. Your ceiling prices for such sales are the ceil-

ing prices fixed by this regulation for sales to individuals for consumption by themselves or their families off your premises. If during any calendar month you exceed the 20 percent limitation herein provided and do not make all sales to such buyers in accordance with the provisions of one of the following subparagraphs (2) or (3) of this section 5 (b), the ceiling prices for all sales made to such buyers during that month shall be those specified in section 21 of this regulation, section 30 of Maximum Price Regulation No. 355 and section 24 of Maximum Price Regulation No. 394, whichever is appropriate, and for violating the 20 percent limitation herein made on your sales to eating places you shall be subject to all the penalties provided by law for such violation.

(2) You may sell them retail meat cuts, variety meats and edible by-products, sausage, and wholesale meat cuts for which retail prices are specified in Maximum Price Regulations Nos. 336, 355 and 394 in excess of 20 percent of your total volume of meat sales during any month only if you conform to the following requirements:

(iv) You file with your district office of the Office of Price Administration a signed statement giving (a) the name and address of your selling establishment or store, (b) sufficient facts to satisfy the criteria contained in subdivisions (i), (ii) and (iii) immediately preceding this subdivision (iv) of section 5 (b) (2); (c) the total dollar volume of meats sold during each three month period of 1942 beginning January 1, April 1, July 1 and October 1, as shown on the basis of your best available records; and (d) the total dollar volume of meats sold during the same period to eating places as shown on the basis of your best available records. This statement shall be mailed to your district office by registered mail and you shall request and receive a return receipt. You shall retain the receipt for so long as the Emergency Price Control Act of 1942, as amended, remains in effect. The records or data upon which this information is predicated need not be submitted but must be available for inspection by representatives of the Office of Price Administration. Any statement filed in accordance with this subdivision (iv) of section 5 (b) (2) shall be assumed to have been filed under the analogous provisions of Maximum Price Regulations 355 and 394 also.

(v) After you have qualified under this subparagraph (2) of section 5 (b) you may, during any current three month

(viii) Any order or authorization to sell to eating places issued pursuant to the provisions of section 5 (c) of this regulation as those provisions existed prior to January 26, 1945, hereby is revoked.

(ix) The Price Administrator's authority relative to the issuance of the provisions of this paragraph (b) is set forth in detail in § 1364.415 (e) of Revised Maximum Price Regulation No. 169 and is incorporated herein by reference.

(x) As used in this subparagraph (2) of section 5 (b), "own or control" means to own or control directly or indirectly a partnership equity or in excess of 10 percent of any class of outstanding stock or to have made loans or advances in excess of 5 percent of the other person's monthly sales. The term "meat" or "meats" shall include only beef, veal, lamb and mutton, variety meats and edible by-products, pork and sausage, but shall not include canned meats. Or

(3) You may sell them fabricated meat cuts pursuant to the provisions of Revised Maximum Price Regulations Nos. 169 and 239 within the limits and at or below the maximum prices specified in those regulations only if you have a quota, and you also may sell them wholesale meat cuts, wholesale variety meats and edible by-products and wholesale

If during any calendar month you exceed the 20 percent limitation herein provided and do not make all sales to such buyers in accordance with the provisions of one of the following subparagraphs (2) or (3) of this section 5 (b), the ceiling prices for all sales made to such buyers during that month shall be those specified in section 30 of this regulation, section 21 of Maximum Price Regulation No. 336 and section 24 of Maximum Price Regulation No. 394, whichever is appropriate, and for violating the 20 percent limitation herein made on your sales to eating places you shall be subject to all the penalties provided by law for such violation; or

(2) You may sell them retail meat cuts, variety meats and edible by-products, sausage and wholesale meat cuts for which retail prices are specified in Maximum Price Regulations Nos. 336, 355 and 394 in excess of 20 percent of your total dollar volume of meat sales during any month only if you conform to the following requirements:

(iv) You file with your district office of the Office of Price Administration a signed statement giving (a) the name and address of your selling establishment or store, (b) sufficient facts to satisfy the criteria contained in subdivisions (i), (ii) and (iii) immediately preceding this subdivision (iv) of section 5 (b); (c) the total dollar volume of meats sold during each three month period of 1942 beginning January 1, April 1, July 1, and October 1, as shown on the basis of your best available records; and (d) the total dollar volume of meats sold during the same periods to eating places as shown on the basis of your best available records. This statement shall be

mailed to your district office by registered mail and you shall request and receive a return receipt. You shall retain the receipt for so long as the Emergency Price Control Act of 1942, as amended, remains in effect. The records or data upon which this information is predicated need not be submitted but must be available for inspection by representatives of the Office of Price Administration. Any statement filed in accordance with this subdivision (iv) of section 5 (b) (2) shall be deemed to have been filed under the analogous provisions of Maximum Price Regulations Nos. 336 and 394 also.

(v) After you have qualified under the subparagraph (2) of section 5 (b) you may, during any current three month period beginning January 1, April 1, July 1 or October 1, sell from your selling establishment or store to eating places a total dollar volume of retail meat cuts, variety meats and edible byproducts, sausage and wholesale meat cuts for which retail prices are specified in Maximum Price Regulations Nos. 336, 355 and 394 not exceeding the total dollar volume of meats which you sold to the same class of trade during the corresponding three month period in 1942. On all sales to eating places after you have qualified under this subparagraph (2) of section 5 (b) you shall use the table of prices contained in section 30 of this regulation, section 21 of Maximum Price Regulation No. 336, and section 24 of Maximum Price Regulation No. 394, designated therein as "Retail Ceiling Prices on Specially Authorized Sales to Eating Places or Other Retailers."

(vi) Furthermore, you shall, upon each sale to eating places, keep the records required by section 9 of this regulation, section 7 of Maximum Price Regulation No. 336 and section 9 of Maximum Price Regulation No. 394. If your dollar volume of meat sales during any current three month period to eating places is in excess of the permitted dollar volume as determined under this paragraph (b) (2), or if you otherwise violate or fail to comply with any of the requirements hereof, your authority to make such sales shall be subject to revocation and you will be liable to other civil and criminal penalties imposed by law.

(vii) The filing of the statement required by this paragraph (b) (2) shall not preclude investigation by the Office of Price Administration of the facts stated therein or of any facts relating to the nature of the business carried on by the person filing the statement or any action or proceeding arising from such investigation.

(viii) Any order or authorization to sell to eating places issued pursuant to the provisions of section 5 (c) of this regulation, as those provisions existed prior to January 26, 1945, hereby is revoked.

(ix) The Price Administrator's authority relative to the issuance of the provisions of this paragraph (b) is set forth in detail in § 1364.415 (e) of Re-

The term "meat" or "meats" shall include only beef, veal, lamb and mutton, variety meats and edible by-products, pork and sausage, but shall not include canned meats; or

(3) You may sell them fabricated meat cuts pursuant to the provisions of Revised Maximum Price Regulations Nos. 169 and 239 within the limits and at or below the maximum prices specified in those regulations only if you have a quota, and you also may sell them wholesale meat cuts, wholesale variety meats and edible by-products and wholesale sausage items pursuant to the provisions of Revised Maximum Price Regulations Nos. 148, 169 and 239 and Maximum Price Regulations Nos. 389 and 398, subject only to the volume limitations, if any, specified in those regulations: *Provided*, That you do not sell them any retail cuts. Your maximum prices for such sales shall be those established in the cited wholesale regulations.

(c) You may make sales to purchasers who are not individuals making purchases for consumption by themselves or their families off your premises, and who are not purveyors of meals or other retailers; but if you sell to such purchasers, you may sell or deliver to them only those wholesale meat cuts, wholesale variety meats and edible by-products, and wholesale sausage items for which maximum prices are established in Revised Maximum Price Regulations Nos. 148, 169 and 239, and Maximum Price Regulations Nos. 389 and 398; and such sales or deliveries must be made at or below the maximum prices established in those regulations.

(i) That you customarily filled telephone orders during the year immediately preceding May 17, 1943;

(ii) That you have continued to fill telephone orders since May 17, 1943, on those items which do not require grinding, boning, rolling or cubing in the customer's presence;

(iii) That your inability to fill telephone orders on items which required grinding, boning, rolling or cubing in the customer's presence has resulted in delay in filling orders and has caused inconvenience to you and your customers since May 17, 1943; and

(iv) That you have knowledge of the rules of this Maximum Price Regulation No. 355 with which you must comply in filling telephone orders for ground, boned, rolled or cubed cuts of meat.

The filing of such statement shall not preclude investigation of the facts relating to the nature of the business carried on by the person filing the statement, or any action or proceeding arising from such investigation.

VEAL, LAMB AND MUTTON CUTS AND ALL
VARIETY MEATS AND EDIBLE BY-PRODUCTS

A statement of the considerations involved in the issuance of this amendment has been issued simultaneously herewith and filed with the Division of the Federal Register.*

Maximum Price Regulation No. 394 is amended in the following respects:

1. Section 2 (a) is amended to read as follows:

(a) You will find your ceiling prices for each grade of kosher beef, veal, lamb and mutton cuts on your "OPA List of Ceiling Prices for Kosher Beef, Veal, Lamb and Mutton—Fresh, Frozen or Cured" (Article II, section 19), for kosher variety meats and edible by-products on your "OPA List of Retail Ceiling Prices for Kosher Variety Meats and Edible By-Products" (Article II, section 22), and for kosher sausage products on your "OPA List of Ceiling Prices for Kosher Sausage" (Article II, section 23), on all sales made to individuals for consumption by themselves or their families off your premises. Except as provided in section 5 (b) (2), you will also use the same ceiling prices on sales to kosher eating places if your dollar volume of such sales during any month does not exceed 20 percent of your total dollar volume of all kosher meat sales during the same calendar month. If you desire to sell more than 20 percent of your total dollar volume of kosher meat sales during any calendar month to kosher eating places, you must first meet the requirements of section 5 (b) (2) of this regulation. Thereafter, your ceiling prices on all sales of kosher beef, veal, lamb and mutton, variety meats and edible by-products and/or kosher sausage to kosher eating places, to the extent permitted by section 5 (b) (2) shall be the prices listed in your "OPA List of Retail Ceiling Prices on Specially Authorized Sales to Kosher Eating Places or Other Kosher Retailers" (Article II, section 24): Likewise in those cases where you have been granted permission to make sales to another kosher retailer pursuant to section 5 (d) you will find your ceiling prices for such sales in your "OPA List of Retail Ceiling Prices on Specially Authorized Sales to Kosher Places or Other Kosher Retailers" (Article II, section 24). A copy of the list showing prices for each kind of kosher

retail meat cut, kosher variety meat and edible by-product and kosher sausage product can be obtained from your local War Price and Rationing Board or from your District Office of the Office of Price Administration.

2. Paragraph (b) of section 5 is amended to read as follows:

(1) You may sell them retail meat cuts, variety meats and edible by-products, sausage and wholesale meat cuts for which retail prices are specified in Maximum Price Regulations Nos. 336, 355 and 394; but except as provided in subparagraph (2) hereof, the total dollar volume of such sales must not exceed 20 percent of your total dollar volume of meat sales during any month. Your ceiling prices for such sales are the ceiling prices fixed by such regulations for sales to individuals for consumption by themselves or their families off your premises. If during any calendar month you exceed the 20 percent limitation herein provided and do not make all sales to such buyers in accordance with the provisions of one of the following subparagraphs (2) or (3) of this section 5 (b), the ceiling prices for all sales made to such buyers during that month shall be those specified in section 24 of this regulation, section 21 of Maximum Price Regulation No. 336 and section 30 of Maximum Price Regulation No. 355, whichever is appropriate, and for violating the 20 percent limitation herein made on your sales to eating places you shall be subject to all the penalties provided by law for such violation; or

(2) You may sell them retail meat cuts, variety meats and edible by-products, sausage and wholesale meat cuts for which retail prices are specified in Maximum Price Regulations Nos. 336, 355 and 394, in excess of 20 percent of your total dollar volume of meat sales during any month only if you conform to the following requirements:

(iv) You file with your district office of the Office of Price Administration a signed statement giving (a) the name and address of your selling establish-

ment or store, (b) sufficient facts to satisfy the criteria contained in subdivisions (i), (ii) and (iii) immediately preceding this subdivision (iv) of section 5 (b) (2); (c) the total dollar volume of meats sold during each three month period of 1942 beginning January 1, April 1, July 1, and October 1, as shown on the basis of your best available records; and (d) the total dollar volume of meats sold during the same periods to eating places as shown on the basis of your best available records. (vi) Furthermore, you shall, upon each sale to eating places, keep the records required by section 9 of this regulation, section 7 of Maximum Price Regulation No. 336 and section 9 of Maximum Price Regulation No. 355. If your dollar volume of meat sales during any current three month period to eating places is in excess of the permitted dollar volume as determined under this paragraph (b) (2), or if you otherwise violate or fail to comply with any of the requirements hereof, your authority to make such sales shall be subject to revocation and you will be liable to other civil and criminal penalties imposed by law.

(iv) That you have knowledge of the rules of this Maximum Price Regulation No. 394 with which you must comply in filling telephone orders for ground, boned, rolled or cubed cuts of meat.

The District Director may, if the conditions of paragraph (c) (1) of this section are met, grant an increase in the inventory reserve. However, the total inventory reserve shall in no event exceed the amount of the capacity of the storage facilities specified in paragraph (b) (3) of this section.

He shall also revoke an inventory reserve, or any part thereof, upon recommendation by the Petroleum Administration for War. The Board will, in case of revocation, require the surrender of any coupon sheets or the issuance to it of a ration check equal in gallonage value to the amount revoked, or deduct the amount from any renewed ration for the purpose issued to the applicant.

Section 3.21 is added to Revised Supplementary Regulation No. 14 to read as follows:

Sec. 3.21 Industrial cotton stitching thread. (a) This section establishes maximum prices for industrial cotton stitching thread but applies to you only if you are a producer and manufactured this type of thread prior to January 1, 1945. The maximum prices established herein are not applicable to domestic sewing thread, or to industrial weight goods such as flyer twister threads and cords, or to ring twister threads and cords 10s and coarser in plies 3 and heavier, or to threads generally classified as bag sewing twine.

(b) The maximum price per unit for industrial cotton stitching thread sold by you shall be determined in the following manner:

(1) Find the difference between the maximum price per pound (as of January 1, 1945) for the yarn from which the thread is processed and the maximum price per pound for that yarn which prevailed on June 29, 1944;

(2) Multiply the result obtained in subparagraph (1) by 47%;

(3) Find the actual amount (in pounds) of cotton yarn in the unit of industrial thread being priced hereunder and multiply that amount by the result obtained in subparagraph (2);

(4) Add the result obtained in subparagraph (3) to your 1944 maximum price per unit for the thread being priced;¹ and

(5) The result arrived at in subparagraph (4) shall be rounded off to the nearest cent.

(c) For each ticket size of industrial thread which you manufacture you shall keep a record showing (1) the brand name; (2) the color group of the thread; (3) the finish and put up; (4) the yards per selling unit; (5) the yarn size used in the thread; (6) the pounds of yarn per unit of thread; (7) the maximum price for the yarn on June 29, 1944 and the maximum price as of January 1, 1945 for that yarn; (8) your 1944 maximum price for the thread as defined in the footnote to subparagraph (4) above; and (9) your maximum price for the thread as established by the application of the formula in paragraph (b) of this section.

Section 8, paragraph (c) is amended to read as follows:

(c) *Applications for adjustment*—(1) *When adjustment may be granted.* The Price Administrator may by order adjust the maximum prices established under this regulation for one or more plants of any seller who can show:

(i) That increased costs result in hardship which will impede his production of essential supply of industrial wirebound boxes, and

(ii) That his existing maximum price is less than manufacturing costs if his current over-all profits are favorable in relation to those of a representative peacetime period; or that his existing maximum price does not exceed total costs if his current over-all profits are comparable to his over-all profits for a representative peacetime period; or that his existing maximum price does not afford a reasonable profit if current over-all profits are unfavorable compared to those in a representative peacetime period.

(2) *Factors which may also be considered.* The following factors are relevant to the consideration of whether maximum prices are at such a level that production or supply of industrial wirebound boxes is impeded or threatened.

(i) Whether greater efficiency in production or merchandising can reasonably be expected so that an adjustment would not be necessary.

(ii) Whether the seller previously sold the particular item under consideration at a price which was below his total unit costs.

(3) *Form and contents of application.* Applications under this section must be filed in accordance with Revised Procedural Regulation No. 1, issued by the Office of Price Administration.

All applications must contain:

(i) Profit and loss statements and balance sheets in the detail normally prepared by the applicant, covering the company's entire operations by years from 1936 through 1939 and for the last full calendar or fiscal year and the available interim period for the current calendar or fiscal year. The applicant may submit, in addition, data for other years if, in his opinion, they are more truly representative of his normal operations.

(ii) Condensed profit and loss statements broken down as between (a) wirebound department and (b) all other departments by years from 1936 through 1939 and for the last full calendar or fiscal year and the available interim period for the current calendar or fiscal year. A breakdown of sales between (a) industrial wirebound boxes and (b) all other products is to be submitted for the same periods.

(iii) A complete breakdown showing footage produced and manufacturing costs of lumber and veneer produced for use in manufacturing industrial wirebound boxes for each plant owned,

operated or controlled by the manufacturer for the last full calendar or fiscal year and the available interim period for the current calendar or fiscal year.

(iv) A breakdown of all manufacturing costs of industrial wirebound boxes for each plant for which adjustment is sought for the last full calendar or fiscal year and the available interim period for the current calendar or fiscal year. Lumber and veneer costs and the footage purchased and manufactured should be shown separately for each period. No applicant is permitted to reflect for purchased veneer, costs in excess of the maximum prices for box grade veneer in Maximum Price Regulation 176 or the General Maximum Price Regulation, whichever is applicable.

(v) A schedule of payroll data is to be submitted showing for one year preceding the filing of the application (a) payroll basis (weekly, semi-monthly, etc.); (b) number of employees per month; (c) number of man-hours worked per month; (d) total payroll per month; (e) effective dates of all wage increases granted by the War Labor Board. OPA Form 675-994-b for submitting this information will be supplied upon request.

Companies which have previously submitted any of the above-required data may omit such items from the data submitted with their application and indicate when they were submitted.

If any of the above information has been submitted prior to application on OPA Forms A & B for any of the specified periods or if the exact information required in this amendment has been reported as part of a prior application for adjustment or a maximum price, the applicant may so indicate and omit these periods from the current application.

The filing of over-all profit or loss statements for 1936 through 1939 is optional, provided reports are available from the Bureau of Internal Revenue. Should the applicant prefer this information will be requested by the OPA directly from the Bureau of Internal Revenue.

This amendment shall become effective January 27, 1945.

NOTE: All reporting and record-keeping requirements of this amendment have been waived by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 22d day of January 1945.

Administrator.

PART 1394—RATIONING OF FUEL AND FUEL PRODUCTS

[Rev. RO 11, Amdt. 44]

FUEL OIL

A rationale for this amendment has been issued simultaneously herewith and

19 F.R. 2357.

has been filed with the Division of the Federal Register.*

Revised Ration Order 11 is amended in the following respects:

1. Section 1394.5001 (a) (25b) is added as follows:

(25b) "Residual oil" means fuel oil commonly known as residual oil (as opposed to distillate oil), including grades Nos. 5 and 6, and all blended or rebranded fuel oils having the same specifications as commercial standard grades Nos. 5 and 6. The term also includes all fuel oils having a viscosity of more than 50 seconds (Saybolt Universal at 100 degrees F.).

2. Section 1394.5158 (a) is amended by substituting for the phrase "Forms R-1102 or R-1103," the phrase "Form R-1102 (Revised)."

3. Section 1394.5162 (a) is amended to read as follows:

(a) A ration figured pursuant to §§ 1394.5361 (a) (1), 1394.5362 (a) (1) (1), 1394.5366 (a) (4), 1394.5373 (b) or 1394.5378 (b) may not be used to acquire or consume any grade of fuel oil other than residual oil.

4. Section 1394.5349 (a) is amended by deleting from the first sentence the following parenthetical phrase "(Grades Nos. 5, 6 or Bunker 'C' having an A. P. I. gravity of 20° or below)."

5. Section 1394.5352 (a) is amended by substituting for the phrase "Form OPA R-1103 or Form OPA R-1103A," the phrase "OPA Form R-1103 (Revised)."

6. Section 1394.5353 (a) is amended by deleting the phrase "or (c)".

7. Section 1394.5355 (a) is amended to read as follows:

(a) The Board shall deduct from the allowable ration the amount of fuel oil and ration evidences on hand for the purpose for which the ration is required. The ration shall then be issued in Class 3 coupon sheets.

8. Section 1394.5356 is added to read as follows:

§ 1394.5356 *Renewal of domestic cooking or lighting rations.*—(a) *When the ration may be renewed.* A ration for domestic cooking or lighting may be renewed not earlier than thirty (30) days before the end of the period for which the current ration was issued unless the Board finds that the current ration fails to meet the applicant's minimum needs due to a change in circumstances or a miscalculation of needs, in which event it may be renewed sooner.

(b) *How to apply for a renewal.* Application for the renewal of the ration shall be made in the same manner as an original application or by filling out and signing the renewal application on the back of OPA Form R-1103 (Revised). However, in the case of domestic cooking, if the applicant claims that his minimum needs for the purpose exceed the maximum ration allowable under § 1394.5353 (b), he must, in addition, submit his signed statement explaining why he needs more than the maximum ration allowable and the period during which such needs will continue.

*Copies may be obtained from the Office of Price Administration.

(c) *Determination and issuance of renewed ration.* All the provisions of this order applicable to the determination and issuance of the original ration shall apply to the determination and issuance of a renewed ration. However, in the case of any application for a renewed ration for domestic cooking, if the Board finds that due to the type of equipment used for the purpose, illness or other extraordinary circumstances, the applicant's minimum needs exceed the maximum ration allowable under § 1394.5353 (b), the maximum may be exceeded for the period during which the minimum needs are greater than such maximum.

9. The text of § 1394.5361 (a) (1) is amended by deleting the parenthetical phrase "(Grades Nos. 5, 6 or Bunker 'C' having an A. P. I. gravity of 20° or below)".

10. The text of § 1394.5366 (a) (4) is amended by deleting the parenthetical phrase "(as defined in § 1394.5361 (a) (1))".

11. Section 1394.5373 (b) is amended by deleting the parenthetical phrase "(as defined in § 1394.5361 (a) (1))".

12. The text of § 1394.5378 (b) is amended by deleting the parenthetical phrase "(as defined in § 1394.5361 (a) (1))".

13. Section 1394.5391 (b) is amended by substituting for the phrase "Form OPA R-1102" the phrase "OPA Form R-1102 (Revised)".

14. Section 1394.5391 (d) is amended to read as follows:

(d) The Board shall deduct from the allowable ration the amount of fuel oil, ration evidences and ration credits on hand for the purpose for which the ration is required. The ration shall then be issued in Class 3 coupon sheets except that if the amount of fuel oil that the applicant may acquire during the period for which the ration is issued is 5,000 gallons or more, a ration check will be issued instead of coupon sheets at the request of the applicant. However, if a ration check (or fuel oil deposit certificate) evidenced the previous ration for the purpose, a ration check only will be issued.

15. Section 1394.5391 (f) is added to read as follows:

(f) Section 1394.5415 explains how a ration issued under this section may be renewed.

16. Section 1394.5401 (d) is amended to read as follows:

(d) *How the ration shall be issued.* The Board shall, except in the case of additional rations, deduct from the ration the amount of fuel oil and ration evidences or ration credits the applicant has, or is expected to have, on hand at the beginning of the period for which the ration is issued. The ration, the renewed ration or the additional ration, as the case may be, shall then be issued in Class 3 coupon sheets except that if the amount of fuel oil that the applicant may acquire during the period for which the ration is issued is 5,000 gallons or

more a ration check will be issued instead of coupon sheets at the request of the applicant. However, if a ration check (or fuel oil deposit certificate) evidenced the previous ration for the purpose issued to the applicant, a ration check only will be issued.

17. Section 1394.5402 is amended to read as follows:

§ 1394.5402 *Rations for miscellaneous uses—(a) Who is eligible.* The person controlling the use of any fuel oil burning equipment used for a necessary purpose not otherwise specified in this order, or any person requiring fuel oil for any necessary purpose other than the operation of fuel oil burning equipment may apply for a ration for such purpose. However, a person shall be deemed not to require fuel oil (for a purpose other than the operation of fuel oil burning equipment) if an adequate supply of a substitute material other than a refined petroleum product is available to him at a reasonable cost.

(b) *How application is made.* Application shall be made on OPA Form R-1102 (Revised) by the person specified in paragraph (a) of this section, or by his agent. The applicant shall supply the information required by the form. A single application may be made for all the units of equipment for which a ration is required.

(c) *How the ration is figured—(1) Farm and household purposes.* The allowable ration for a farm or household use shall be the amount of fuel oil needed for such purpose during the six (6) month period beginning with the date on which the ration is required.

(2) *Operation of ships.* The allowable ration for the operation of a ship during the three (3) month period beginning with the date on which the ration is required shall be the amount specified in whichever of the next three subdivisions is applicable.

(i) For the non-occupational use of a ship, not more than one hundred and twenty-five (125) gallons or the number of gallons equal to four (4) times the manufacturer's rated horsepower of the motor or motors propelling the ship, whichever is less.

(ii) For the occupational use of a ship for pleasure cruising, guiding or fishing parties, or sightseeing, not more than one hundred and twenty-five (125) gallons or the number of gallons equal to four (4) times the manufacturer's rated horsepower of the motor or motors propelling the ship, whichever is less.

(a) However, where the application states that only residual oil will be consumed for such use of the ship and the application is accompanied by a currently valid permit from the Office of Defense Transportation (under Administrative Order ODT 24 of that Office) approving the number of gallons of such fuel oil to be used for the operation of the ship during the three (3) month period for which the ration is needed, the allowable ration shall be the amount of fuel oil needed for such purpose during such three (3) month period, but in no event

more than the amount approved by the Office of Defense Transportation in the permit. A ration issued upon such application may not be used to acquire or consume any grade of fuel oil other than residual oil.

(b) Upon recommendation by the Office of Defense Transportation that all or part of a ration issued under this subdivision (ii), pursuant to a permit from that Office, be revoked, the Washington Office, or the Regional Administrator, District Director or Board having jurisdiction will revoke such ration or such part as may be recommended by the Office of Defense Transportation.

(iii) For the occupational use of a ship (other than that specified in subdivision (ii)), the amount of fuel oil needed for such purpose.

(a) However, no ration shall be issued for the operation of a ship of foreign registry for which an individual export license for fuel oil issued by the Foreign Economic Administration is required except upon presentation to the Board of satisfactory evidence that the applicant has been authorized by that agency to acquire fuel oil for the purpose; in such case the ration shall be the amount of fuel oil approved by the Foreign Economic Administration for the operation of the ship.

(b) No ration shall be issued for the operation of a ship if fuel oil may be acquired for its operation by checks drawn upon a ration bank account of the War Shipping Administration.

(The term "ship" as used in this section includes boat, vessel or other means of conveying persons or property by water.)

(3) *All other purposes.* The allowable ration for any purpose other than that specified in subparagraphs (1) and (2) of this section shall be the amount of fuel oil needed for such purpose during the three (3) month period beginning with the date on which the ration is required.

(d) *How the ration shall be issued.* The Board shall deduct from the allowable ration the amount of fuel oil, ration evidences and ration credits on hand for the purpose for which the ration is required. (No deduction shall be made for fuel oil on hand representing inventory reserve established pursuant to § 1394.5405.) The ration shall be issued in Class 3 coupon sheets except that if the amount of fuel oil that the applicant may acquire is 5,000 gallons or more (if the period for which the ration is to be issued is three (3) months) or 10,000 gallons or more (if the period for which the ration is to be issued is six (6) months), a ration check will be issued instead of coupon sheets at the request of the applicant. However, if a ration check (or fuel oil deposit certificate) evidenced the previous ration for the purpose, a ration check only will be issued.

(e) *Renewals.* (1) A ration issued for the nonoccupational use of a ship (pursuant to paragraph (c) (2) (i)) or for the occupational use of a ship for pleasure cruising, guiding or fishing parties, or sightseeing (pursuant to paragraph

(c) (2) (ii) may be renewed not earlier than 15 days before the end of the period for which the ration was issued. All the provisions of this order applicable to the determination and issuance of the original ration shall apply to the determination and issuance of the renewed ration.

(2) A ration issued for any other purpose pursuant to this section may be renewed in the manner specified in § 1394.5415.

18. Section 1394.5406 (a) is amended by substituting for the phrase "Form OPA R-1102" the phrase "OPA Form R-1102 (Revised)" and by substituting for the phrase "Form OPA R-1100 (Revised) or Form OPA R-1101 (Revised)" the phrase "OPA Form R-1100 (Revised) or OPA Form R-1101 (Revised)".

19. Section 1394.5406 (c) is amended to read as follows:

(c) The Board shall deduct from the allowable ration the amount of fuel oil, ration evidences and ration credits on hand for the purpose for which the ration is required. The ration shall then be issued in Class 3 coupon sheets except that if the amount of fuel oil that the applicant may acquire during the period for which the ration is issued is 5,000 gallons or more, a ration check will be issued instead of coupon sheets at the request of the applicant. However, if a ration check (or fuel oil deposit certificate) evidenced the previous ration for the purpose, a ration check only will be issued.

20. Section 1394.5406 (d) is added to read as follows:

(d) Section 1394.5415 explains how a ration issued under this section may be renewed.

21. Section 1394.5407 (b) is amended by substituting for the phrase "Form OPA R-1102" the phrase "OPA Form R-1102 (Revised)".

22. Section 1394.5407 (d) is amended to read as follows:

(d) After determining the allowable ration the Board shall issue Class 3 coupon sheets except that if the amount of fuel oil that the applicant may acquire during the period for which the ration is issued is 5,000 gallons or more, a ration check will be issued instead of coupon sheets at the request of the applicant. However, if a ration check (or fuel oil deposit certificate) evidenced the previous ration for the purpose, a ration check only will be issued.

23. Section 1394.5408 (b) is amended by substituting for the phrase "Form OPA R-1102" the phrase "OPA Form R-1102 (Revised)".

24. Section 1394.5408 (d) is amended to read as follows:

(d) The Board shall deduct from the allowable ration the amount of fuel oil, ration evidences and ration credits on hand for the purpose for which the ration is required. The ration shall then be issued in Class 3 coupon sheets except that if the amount of fuel oil that

the applicant may acquire during the period for which the ration is issued is 5,000 gallons or more, a ration check will be issued instead of coupon sheets at the request of the applicant. However, if a ration check (or fuel oil deposit certificate) evidenced the previous ration for the purpose, a ration check only will be issued.

25. Section 1394.5408 (f) is added to read as follows:

(f) Section 1394.5415 explains how a ration issued under this section may be renewed.

26. Section 1394.5415 is added as follows:

§ 1394.5415 *Renewal of miscellaneous rations*—(a) *When the ration may be renewed.* A ration issued pursuant to §§ 1394.5391, 1394.5402 (other than paragraph (c) (2) (i) and (ii)), 1394.5406 and 1394.5408 (for which application must be made on OPA Form R-1102 (Revised)) may be renewed not earlier than thirty (30) days before the end of the period for which the ration was issued unless the Board finds that the current ration for the purpose fails to meet the applicant's requirements due to a change in circumstances or miscalculation of needs, in which event it may be renewed sooner.

(b) *How to apply for a renewal.* Application for the renewal of the ration shall be made in the same manner as an application for an original ration, except that if the application is made more than thirty (30) days before the end of the period for which the current ration was issued, the applicant must submit with his application a statement showing why his current ration is insufficient to meet his requirements for the balance of the period for which it was issued.

(c) *Determination and issuance of renewed ration.* All the provisions of this order applicable to the determination and issuance of an original ration shall apply to the determination and issuance of a renewed ration pursuant to this section.

27. Section 1394.5462 is revoked.

28. Section 1394.5501 is amended to read as follows:

§ 1394.5501 *Expiration of coupon sheets.* (a) Coupon sheets other than Class 3 coupon sheets and those Class 4, 5 and 6 coupon sheets to which any Period 4, Period 5 or definite value coupons are still attached expire at midnight of the last day of the period for which the coupon sheet was issued.

29. Section 1394.5502 is amended to read as follows:

§ 1394.5502 *Expiration of ration: cessation of use or change in ownership, control or use.* (a) A ration shall expire:

- (1) Upon cessation of use for the purpose for which it was issued; or
- (2) Upon cessation of use of the fuel oil burning equipment for which it was issued, by the person to whom it was issued; or

(3) Upon change in control over such equipment. However, a ration issued

for heat or hot water, or both, for use in any premises, shall not expire upon change in control over the equipment if a member of the family of a person to whom a ration has been issued has acquired control over the equipment. In that case, the ration shall be deemed issued to that member of the family.

(b) No consumer shall accept a transfer of, or use, fuel oil for a purpose for which a ration was issued to him after his right to use fuel oil for the purpose has expired for any of the reasons in paragraph (a) of this section.

30. Section 1394.5503 (a) is revoked.

31. Section 1394.5503 (c) is amended by inserting immediately before the period at the end thereof the phrase "for any of the reasons in § 1394.5502 (a)".

32. The undesignated center headnote, "Issuance of Further Rations", preceding § 1394.5551 and §§ 1394.5551 and 1394.5552 are revoked.

This amendment shall become effective on January 26, 1945.

PART 1499—COMMODITIES AND SERVICES
[MPR 188, Amdt. 48]

MANUFACTURERS' MAXIMUM PRICES FOR SPECIFIED BUILDING MATERIALS AND CONSUMERS' GOODS OTHER THAN APPAREL

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.*

Maximum Price Regulation No. 188 is amended in the following respects:

1. Section 1499.158 is amended to read as follows:

§ 1499.158 *Fourth pricing method; specific authorization by the office of*

*Copies may be obtained from the Office of Price Administration.
19 F.R. 8232.

Price Administration—(a) Maximum prices. The maximum price for any article or group of related articles which cannot be priced under §§ 1499.155, 1499.156, or 1499.157, or which cannot be priced under §§ 1499.155, 1499.156, or 1499.157 without undue hardship, shall be the price or prices in line with the level of maximum prices established by this Maximum Price Regulation No. 188, fixed by the Price Administrator or his duly authorized representative. The maximum price will be fixed in the form of an order establishing a maximum price or a method for determining maximum prices for the applicant. The order may also establish maximum prices for sales by persons other than the manufacturer. Maximum prices so established for sales by persons other than the manufacturer supersede maximum prices fixed by other regulations for such sales.

(b) *Reports of maximum prices.* Prior to first offering the article for sale, the manufacturer shall submit to the office of Price Administration, Washington, D. C., a report in duplicate applying for specific authorization of a maximum price.

A form for this purpose is obtainable at any Office of Price Administration District or Regional Office. Before submitting his report to the National Office, the manufacturer should consult the appropriate District Office to make sure that the form is properly completed. The National Office may refer this report to the appropriate field office for action.

The report shall contain a description in detail of the article (including the manufacturing process), a statement of the facts which make it necessary to price the article under this section, and the proposed maximum price, with a detailed explanation of its computation. If the manufacturer bases his report on undue hardship, he shall include in it all the information required by paragraph (e) of § 1499.157. If the manufacturer applies for approval of a pricing formula for a line or group of related articles, he shall include in his report a description in detail of the articles, including the manufacturing processes, and the manner in which they differ from one another, a statement of the pricing formula he proposes for such articles or the maximum prices he proposes, with a detailed explanation of their computation and the reasons why such maximum prices or pricing formula will establish maximum prices in line with the level of maximum prices established by this Maximum Price Regulation No. 188. The manufacturer should also submit a sample of the article being priced, if practicable; and, upon request of the Office of Price Administration, shall submit such a sample, or in lieu of a sample, a photograph or blueprint or other illustration of the article being priced. In addition, the manufacturer shall submit such other relevant information to supplement his report as the Office of Price Administration may require. Upon receipt of the authorization, the manufacturer may offer the articles for sale in accordance with the terms of the authorization.

In the case of an article for which a maximum price must be determined under this section for a sale to the United States Government or an Allied Government, the manufacturer shall submit the report required in the above paragraph of this paragraph (b) ten days after the formation of the contract. The manufacturer may at any time offer for sale, sell, or deliver the article at a tentative price to such government or agency if he informs the purchaser that the maximum price must be determined under this section. In such case he must refund any amounts collected in excess of the price so determined. The price shall remain tentative until the maximum price has been determined in the manner provided in this regulation.

2. Section 1499.158a is amended to read as follows:

§ 1499.158a *Delegation of authority.* Any Regional Administrator, or any District Director authorized by the appropriate Regional Administrator may issue orders under § 1499.158 establishing maximum prices in accordance with the terms of that section.

This amendment shall become effective on the 27th day of January 1945.

Issued this 22d day of January 1945.

CHESTER BOWLES,
Administrator.

Chapter XXI—Office of War Mobilization and Reconversion

WAR CONTRACTS

POLICIES OF CONTRACT CURTAILMENT, NON-RENEWAL AND TERMINATION

By virtue of the authority vested in me by section 101 (c) 2 and pursuant to section 203 (c) of the War Mobilization and Reconversion Act of 1944 (hereinafter referred to as "the act") I hereby prescribe the following policies to be followed with respect to the curtailment, non-renewal or termination of war contracts.

1. *Basic policy.* Curtailments of war production or terminations of war contracts shall be integrated and synchronized with the expansion, resumption, or initiation of production for other war purposes and, to the greatest extent compatible with the effective prosecution of the war, of production for non-war use. In the planning and application of curtailments and terminations of war contracts, the paramount consideration at all times shall be the retention in war production, to such extent as may be necessary, facilities with a proven capacity to produce known and contingent future requirements. Subject to this overriding objective, disruption of the national economy should be minimized to the greatest extent practicable, by promoting maximum employment and equalization of the production load among all sections of the country.

2. *Curtailment and termination policies*—(a) *In general.* When curtailment of production in a procurement program by a contracting agency (as defined in section 601 (b) of the act) will require the termination of less than all outstanding prime contracts related to the program, each contracting agency shall retain in war production to such extent as may be necessary, those facilities which it has found from experience to be capable of producing required items of desirable quality at the desired schedule rates. The facilities so retained must be fully qualified and the specific principles of selection hereafter prescribed, shall be applicable only as between facilities so qualified. No contractor shall be disqualified simply because he is a small contractor.

(b) *Principles of selection.* As between qualified facilities each Contracting Agency, in selecting prime contracts for curtailment, non-renewal or termination shall be guided, wherever applicable, by the following criteria until and unless hereafter modified or amended:

(1) *Effect on sub-contractors.* To the fullest extent possible, the contracting agency should take into account the bearing of all pertinent factors upon subcontractors; for example, in regard to critical labor areas or the use of transportation facilities, the location of the prime contractors may be less important than the location of major subcontractors.

(2) *Costs.* Prime contracts affording lower unit costs to the Government should be retained where other factors are equal, but the obvious importance of this factor and the ease with which it can be applied must not result in disregarding other pertinent factors. As in the case of initial procurement, prime contracts may be retained even though involving higher prices than the contracts terminated, whenever necessary to give due weight to other factors. The cost factor will, however, grow in importance as manpower, transportation and other shortages are overcome.

(3) *Facilities useful for other production.* (a) Facilities which can be utilized for other war production or for essential civilian production should be released in preference to terminating war contracts at plants not readily adaptable for such other production. In addition to physical facilities, the availability of engineering and other technical staffs able to effect speedy change-over should be considered in this regard.

(b) Where the released facilities will not be required for other war production or essential civilian production, preference should be given to those able to reconvert to other civilian production for which labor and material are available. This consideration may be particularly important where a war contractor is located in a single industry community dependent on the business of the contractor.

(4) *Financial condition.* Prime contractors requiring Government financial assistance in the form of guaranteed loans or advance payments at substantial credit risk may ultimately be of

greater expense to the Government than prime contractors with a higher contract price per unit.

(5) *Government-owned versus privately-owned facilities.* (a) Prior to the defeat of Germany, in determining the priority of release between Government-owned and privately-owned facilities, consideration will be given to retention of maximum flexibility for the production of known or contingent future requirements.

(b) With the defeat of Germany, privately-owned plants, not normally engaged in production of a military character, will be given first priority of release from war production in order to facilitate their reconversion to civilian production, due consideration being given to the wishes of the contractors. Government-owned plants will be kept in operation or reserve until their production is clearly no longer required for military needs. However, where a plant is located in an isolated section with no opportunity for displaced workers, the exercise of wise administrative discretion may prompt other action.

(6) *Location in critical labor areas.* Manpower shortages in critical labor areas designated by the War Manpower Commission as Group I or Group II Areas should be relieved by terminating war contracts for materials being produced in such areas to the greatest extent possible. Particular attention should be given to the location of principal subcontractors as well as prime contractors.

(7) *Performance.* (a) War contractors' records for meeting or anticipating required schedules should be reviewed.

(b) Reports of technical inspectors and other data indicating quality of product should be weighed.

(c) War contractors with a record of economic use of critical materials, machinery and equipment and efficient utilization of labor should be retained in preference to those with a record of over-ordering or waste, or of labor hoarding, rapid labor turnover, or excessive absenteeism.

(d) Where practicable, companies responsible for the development and engineering of specialized products will be retained in their manufacture in preference to those companies which are merely licensed for their manufacture.

(8) *Pro-rata partial terminations.* Where all other factors are in substantial balance, a curtailment of war production by a contracting agency may be spread pro rata over all affected prime contracts by partial terminations. The possibility that the operations of some war contractors may be reduced below an economic production rate must, however, be taken into account in this connection.

(9) *Security.* The security factor should be considered, based on location and dispersion.

(10) *Smaller war plants.* Independent smaller concerns within the scope of the Smaller War Plants Act (Public Law 603, 77th Congress) should be retained to the fullest extent possible except where the prime contractor would elect termination in order to be released

for permitted civilian production. Similar preference should be accorded prime contractors with a large number of subcontractors in the Smaller War Plants category.

(11) *Stage of completion.* War contracts not yet in production or in earlier stages of production should be terminated in preference to contracts nearing completion (in order to avoid waste in scrapping work in process and to reduce termination claims).

(12) *Stand-by facilities.* Facilities retained should have existing or potential capacity for production of known and contingent future requirements. Safeguarding of future requirements normally will require maintenance in operation of more than one source of supply for any important non-stock item.

(13) *Transportation.* The burden of transportation facilities should be minimized by retention of war contractors accessible to raw materials, purchased components and destination, in preference to contractors requiring cross-hauls or long distance deliveries.

(14) *Type of contract.* Fixed-price prime contracts should be retained in preference to cost-plus-a-fixed-fee prime contracts, other factors being equal, where both types of prime contracts are outstanding under a procurement schedule.

3. *Administration of cutbacks*—(a) *Cutback planning by contracting agencies.* In reducing procurement schedules and terminating war contracts and in cases of non-renewals, each contracting agency shall plan, to the greatest extent practicable, to achieve the following objectives:

(1) To shift any manpower, facilities and materials released into other war production;

(2) To reduce or eliminate termination claims by enabling war contractors to change over to other production with minimum delay or loss of productive capacity;

(3) To provide prime contractors with notice of termination as far in advance of the cessation of work as is feasible and consistent with national security, without permitting unneeded production or performance, in order to enable the contractor and his employees to prepare for the cessation of work; to notify prime contractors of substantial changes in requirements as far in advance as is feasible, particularly where prospective changes involve major items such as ships, tanks, heavy duty trucks, etc.

(b) *Clearance of cutbacks with War Production Board.* Pursuant to authority heretofore conferred on it by me as Director, Office of War Mobilization on June 5, 1944, the Production Executive Committee of the War Production Board has established uniform policies and procedures with respect to the clearance by it of the proposed cutbacks and terminations of the contracting agencies (except subsistence and certain other programs specifically exempted by the Production Executive Committee), before such cutbacks and terminations are put into effect. The authority heretofore conferred on the Production Executive Com-

mittee shall continue to be exercised by it, or under its direction, until and unless hereafter revoked or modified by me.

4. *Consultation of agencies and parties in interest.* (a) The Chairman of the War Production Board shall formulate and put into effect such plan or plans as may be necessary and appropriate to provide for full and prompt consultation between the appropriate executive agencies (as defined in section 601 (a) of the act), the war contractors and the representatives of the employees of the war contractors for the purpose of obtaining the most effective use in other war production or in production for non-war use of facilities and manpower to be released through anticipated curtailments or terminations or non-renewal of war contracts.

(b) In the formulation of such plan or plans, under the authority hereby delegated, the Chairman of the War Production Board:

(1) Shall consult with the contracting agencies and the War Manpower Commission through the medium of the Production Executive Committee of the War Production Board and with such representatives of other parties in interest as he may determine;

(2) Shall provide for the execution of such plan or plans, to the greatest extent practicable, through existing administrative machinery such as the Production Readjustment Committee of the War Production Board, established by General Administrative Order No. 2-186 dated December 3, 1944, its affiliated agencies, and the Area Production Urgency Committees.

(c) Such plan or plans shall be submitted to me for approval by the Chairman of the War Production Board before being put into effect. Such submission shall be made no later than 30 days from the effective date hereof.

Director.

CONTRACTING AGENCIES

REPORT OF CHANGES IN PRODUCTION AND MATERIAL REQUIREMENTS TO WAR PRODUCTION BOARD

By virtue of the authority vested in me by section 101 (c) 2 and (d) of the War Mobilization and Reconversion Act of 1944 (hereinafter referred to as "the act"), the following orders are hereby issued to effectuate the purposes of section 203 of the act.

1. The Contracting Agencies as defined by section 601 (b) of the act shall continuously survey their product and material requirements and shall report to the Chairman of the War Production Board on current and anticipated changes in such requirements and on all anticipated curtailments of war production or termination of war contracts.

2. Until and unless revoked or hereafter modified, the authority vested in me by section 203 (a) of the act, to require and receive the reports specified in

paragraph 1 of this order and to prescribe the form and detail thereof, is hereby delegated to the Chairman of the War Production Board. Such authority shall be exercised by the Chairman of the War Production Board after consultation with the affected Contracting Agencies and with due regard to security considerations. To the greatest extent practicable, such reports shall be in accordance with the existing reporting procedures and data compilations of the Contracting Agencies.

3. The Chairman of the War Production Board is hereby authorized, after consultation with the Production Executive Committee of the War Production Board, to issue such orders as may be necessary or appropriate fully to effectuate the provisions hereof and the Contracting Agencies shall comply with the orders so issued by the requisite action within their respective organizations.

4. The Chairman of the War Production Board shall furnish me with regular reports, in such form and detail, and at such times as may hereafter be requested by me or pursuant to my direction, regarding:

(a) Current and anticipated changes in requirements, and anticipated curtailments of war production, reported by the Contracting Agencies; and

(b) The measures taken or to be taken with respect to the accomplishment of such requirements as changed and the proposed utilization of any resources prospectively to be released by reason of such anticipated curtailments either in other war production or, where permissible under the act, in non-war use; and

(c) Such other matters as may be required for the full effectuation of the purposes of section 203 of the act.

TITLE 43—PUBLIC LANDS: INTERIOR

Chapter I—General Land Office

[Circ. 1568a]

PART 192—OIL AND GAS LEASES

EXTENSION OF CERTAIN FIVE-YEAR LEASES

Sections 192.14d and 192.14e relating to an extension of the term of certain five-year leases are hereby amended and a new section is added to read as follows:

§ 192.14d *Preference right of lessee to a new lease.* Pursuant to section 1 of the act of July 29, 1942 (56 Stat. 726), upon the expiration of the five-year term of any noncompetitive oil and gas lease issued for a period of five years and maintained in good standing under the law and the applicable regulations, the record title holder has a preference right over others to a new lease for the same land pursuant to the provisions of section 17 of the act of February 25, 1920, as amended (49 Stat. 674, 30 U.S.C. 226), and under such rules and regula-

tions as are then in force, to the extent that such land is outside of a known geologic structure of a producing oil or gas field on the date of the expiration of the lease, provided he files an application therefor within 90 days prior to the date of the expiration of the lease.

The lessee must, within the period beginning 90 days prior to the date of expiration of the lease and ending on the date of expiration, submit an application under oath in accordance with the regulations (43 CFR 192.23; Par. 10, Circ. 1386) accompanied by a proper filing fee (43 CFR 191.5) and the first year's rental (43 CFR 192.52 or 71.6).

§ 192.14e *Extension of five-year leases.* The act of December 22, 1943 (57 Stat. 608), extends to December 31, 1944, the term of any five-year lease expiring prior to that date, maintained in accordance with the applicable statutory requirements and regulations, to the extent that it embraces lands which on the date of the expiration of the lease are within a known geologic structure of a producing oil or gas field. The act of September 27, 1944 (Public Law 442, 78th Congress), extends to December 31, 1945, the term of any such lease expiring prior to December 31, 1945, on the same conditions.

Inasmuch as the law requires that rentals must be paid annually in advance, no lease will be considered as extended under the provisions of the acts until rentals are paid to the end of the extension period and compliance has been made with all other statutory requirements and regulations.

§ 192.14f *Protection of lessee's right to preference lease and extension of lease.* If the record title holder of any five-year noncompetitive oil and gas lease is uncertain whether all or any portion of the lands covered by his lease will fall within the known geologic structure of a producing oil or gas field on the date of the expiration of the lease, and is consequently uncertain whether to apply for a new lease under § 192.14d or to pay rental for an extension of his lease under § 192.14e with respect to the land in question, he may, in order to protect his rights, proceed under both sections with respect to the land in question as though it fell within the scope of both sections. Upon the determination of the proper category into which such land falls, it will be considered that the lessee has proceeded under the applicable section of the regulations, and refund will be made to him of any excess in rentals which he may have paid in proceeding under this section.

(Sec. 32, 41 Stat. 450, 30 U.S.C. 189; Sec. 1, 56 Stat. 726, 30 U.S.C. 226b; 57 Stat. 608, 30 U.S.C. 226b; Public Law 442; 78th Congress, 2d sess.)

Commissioner.

TITLE 47—TELECOMMUNICATION

Chapter I—Federal Communications
Commission

PART 1—RULES OF PRACTICE AND PROCEDURE

APPLICATIONS FOR PERMITS TO CONSTRUCT
NEW RADIO STATIONS OR MAKE CHANGES
IN EXISTING RADIO FACILITIES

The Commission's statement of policy of January 26, 1944, (9 F.R. 1064) relating to the construction of new radio stations and the making of improvements in existing radio facilities, is to be interpreted in the light of present conditions, which require that all available manpower and critical materials be devoted to the furtherance of the war program.

In this connection, the War Production Board has advised the Commission that:

Installation of new broadcasting services will be reviewed with extreme care. All such applications received and showing that the required equipment was on hand were approved until the latter part of December. The increasing problem of finding manpower for war industries has made it necessary to consider the manpower needed to construct, operate and provide maintenance for additional stations.

It is not felt that the general premise that "broadcasting is in the war interest" will longer suffice to support the use of manpower and maintenance materials for new stations. Applications must be critically reviewed from the standpoint of available manpower and the need for the service to contribute to the war effort. The use of manpower cannot be approved unless an actual contribution is to be made.

In view of this, it will be the Commission's policy to designate for hearing all applications involving construction of new standard broadcast stations unless the applicant establishes (1) that the construction will result in making service available to a community which does not receive primary service from any existing broadcast station and (2) that all requirements of the January 26, 1944 statement of policy have been met.

Applications for changes in existing standard broadcast facilities will be handled in the same manner except where the change does not involve substantial construction work and costs less than \$500.

No change will be made in the Commission's handling of commercial FM and Television applications which will be kept in the pending file.

Dated: January 16, 1945.

By the Commission.

PART 97—ROUTING OF TRAFFIC

REROUTING OF FREIGHT TRAFFIC BECAUSE OF
WEATHER INTERFERENCE

At a session of the Interstate Commerce Commission, Division 3, held at its office in Washington, D. C., on the 20th day of January, A. D. 1945.

It appearing, That, due to extreme weather conditions in the States of Connecticut, Delaware, Illinois, Indiana, Kentucky, Maine, Maryland, Massachusetts, Michigan (Lower Peninsula), New Hampshire, New Jersey, New York, Ohio, Pennsylvania, Rhode Island, Vermont, Virginia, and West Virginia, common carriers by railroad are unable to transport traffic offered to them over pub-

lished tariff routes; in the opinion of the Commission an emergency exists requiring immediate action to best promote the service in the interest of the public and the commerce of the people. It is ordered, that:

(a) *Weather conditions—rerouting of freight traffic.* Each common carrier by railroad subject to the Interstate Commerce Act operating in the States of Connecticut, Delaware, Illinois, Indiana, Kentucky, Maine, Maryland, Massachusetts, Michigan (Lower Peninsula), New Hampshire, New Jersey, New York, Ohio, Pennsylvania, Rhode Island, Vermont, Virginia, and West Virginia is hereby directed to forward freight traffic routed over its line by routes most available to expedite its movement and prevent congestion without regard to the routing thereof made by shippers, or by carriers from which the traffic is received, or to the ownership of cars, and practices of said carriers with respect to car service are hereby suspended and superseded insofar only as conflicting with this order.

(b) *Application.* The provisions of this order shall apply to intrastate and foreign as well as interstate commerce.

(c) *Rates to be applied.* That inasmuch as such disregard of routing is deemed to be due to carrier's disability, the rates applicable to traffic so forwarded by routes other than those designated by shippers, or by carriers from which the traffic is received, shall be the rates which were applicable at date of shipment over the routes so designated.
