1. Attached as enclosures 1 and 2 are applications from two (2) local companies requesting permission to dispose of part of their property and buildings.

2. Both of the companies, Shinko Kogyo K.K. and Sanin Kogyo K.K. are listed for reparations but the disposal of subject property and buildings will in no way effect the custody and control of Reparations machinery.

3. This headquarters is hesitant about releasing these buildings as directed by Operational Directive 5/5 because both companies are of the opinion that they are named on the restricted concern list. Unfortunately the present status of this list and exactly what it entails is not easily available to this headquarters.

4. Also attached as enclosures 3 and 4 are lists of the stock holders of these companies.

5. Request direction as to proper action on subject applications.

TO: Commanding General, Headquarters I Corps, APO 301.
ATTENTION: Military Government Section.

1. Complying with Operational Instructions No. 2, paragraph 7-c, enclosed for consideration are four (4) copies of application for conversion of the above subject company from war to peace time products. Also enclosed are four (4) copies of a petition or letter which explains a special process they use at this plant in the manufacture of steel agricultural tools. This special process results in a steel of extra hardness and toughness, particularly desirable in cultivating the rocky farmland of Tottori prefecture.

2. The Hoki factory, a branch of this Agei factory of Shimko Kogyo K. K., was given a permit for reconversion by Headquarters, I Corps dated 13 April 1946.

3. This Headquarters has reviewed this application in detail with the officials of the Company, has inspected the plant and recommends the approval of the application and the issuing of a reconversion permit to cover the manufacture and repair of farm tools and machines, also building hardware, wheels and electric utensils as specified in paragraph 5-b-(3) of application.

Dear sirs,

Please find out the petition as per attached to convert for manufacturing the special agricultural tools. I should like you to consider about the present condition and circumstances of Japan and then you can understand why we intend to manufacture the tools and what the farmers need for the uncultivating soil.

I am sure you would give a special attention to our factory to be in operation immediately. You shall have some samples which our factory made when you want to inspect. We are ready willingly to send them to you at any time and to have your opinion about them.

many thanks.

Very truly yours,

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

SHINKO KOGYO KABUSHIKI KAISHA, AGEI
(Shinko Industrial Co., Ltd.)

Agei-cho, Tohaku-gun, Tottori Prefecture. Telephone Agei - 6

PETITION FOR PERMISSION TO CONVERT

This company was a spinning plant in pre-war time, which we purchased and converted into amunition(cartridge) factory during the war. But we want to call your special attention to the fact that, in the case of conversion to peace-time industry, the building and equipments of the factory are very conveniently available as they are for the production of such articles we want to produce.

Considering present serious condition of foodstaff in Japan, our company has decided, in the aim of increasing agricaltural productions to manufacture the agricaltural tools and machines which are most insufficient at present for the farmers throughout this country.

But as to the manufacture of farming tools and machines, the Agei Factory has already applied for them and been taking every necessary steps.

General shortage of agricaltural tools, civil engineering and building materials and wheels assemblies in Japan at present are so keen that would cause very bad results to agricaltural production in general. And on the other hand it causes farmers living uneasiness. Inadequate transportation facilities result unsmoothness of distribution of necessary goods.

There are two reasons which we have to manufacture the above as follows:-

(1) General shortage of agricaltural tools and their producting facilities are as following:

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

General shortage of the agricaltural tools e.g. hoes throughout Japan at present are about 20,000.000 pieces, while present producing facilities are not more than about 150,000 pieces monthly.

And the orders we have received on hand at present including the hoes and sickles reach 300,000 pieces.

From these points of view our Agei Factory decided to start to manufacture the above mentioned articles.

(2) Quality of the farming tools made by us are as follows:

Instead of ordinary forging process generally adopted hitherto, we manufacture them through the Cementation Process utilizing electric furnaces. And as a natural result the quality is more equal, more stronger and superior than the articles made by the blacksmith shops, because there are a great many places in our country to be cultivated, which have very rough rock soils and the regular hoes could never apply for.

As for the materials, not only we have fairly ample stocks of special steel of which is most suitable to make these articles but also we have a special arrangements regarding general materials with Kobe Steel Works, that has been enjoying the reputation as one of the leading material companies in Japan.

The articles made in our factory are for the time being such hand tools as hoes, hatchets etc., but in time, we plan to manufacture those high-class tools as e.g. plow, cultivator, and harrows, which are driven either by cattles or machines.

Through the Cementation Process of our factory, which has been known as excellent, we plan to produce, besides the farming tools, those standard articles as railway rolling-stock assem-

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

blies which are hard to make in any other companies, we have already been favoured with negotiations for orders from the railway authorities.

We do not propose to sell all the farming tools and machines produced in the Agei factory within Tottori Prefecture alone, but we hope to mitigate the serious shortage of such articles throughout this country, so there will never be any fear of surplus production of these articles in Tottori Prefecture. It is obvious that the shortage of such articles is one of the bottleneck of foodstaffs production.

We hope earnestly you will realize these circustances and kindly give the special consideration to this matter.

From the local point of view the farmers of this district are in very anxious if this factory discontinue its work, they have no other means to get farming tools, therefore through several Farmers Associations, Agricaltural Union, Agricaltural Association of Tottori Prefecture Office submitted their petitions to us for supplying those tools as soon as possible.

The next season of rice sowing will begin at the latest June so their demand for these tools should be so keen at present and we believe it is our duty to satisfy their earnest requirement by the time.

The Tottori Prefectural Covernment Office is also so anxious and desirous to prepare the agricaltural tools in view of increasing agricaltural products.

From the local standpoint of viwq, the operation of this factory is highly welcomed by this neighborhood as one of the big scale unemplyment reliefs for the demobilized peoples and those

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

who are out of work in general, and we are having everyday a big throng of application for jobs.

So, if the operation of this factory should be discontinued, it is needless to say that it would threaten the lives of the present workers in our factory. Moreover it will give a great disappointment to the neighborhood and it may cause a serious social problem in the locality, and then we have to call your attention about the above.

With the complete change of the objects and purposes of this company, the trade name of Shinko Arms Mfg. Col, Ltd. has been changed to Shinko Kogyo Kabushiki Kaisha and Hiroto Kimura retired from presidency and in his place. Since then Tomihiko Tago has been appointed president of this company. The above was decided in the general conference in last March, 1946.

4 APR 1946

SUBJECT: Denial of Reconversion Permit to Shinko Arms Manufacturing Co Ltd, Hoki Factory, Tottori Ken.

TO: Commanding General, Eighth Army, APO 343.

1. Reference is made to the following:

a. Application for conversion submitted by Shinko Arms Manufacturing Co Ltd, appended hereto as Inclosure 1.

b. Copy of 5th Indorsement from this headquarters to the 36th Military Government Company denying reconversion permit appended hereto as Inclosure 2.

2. Reasons for this headquarters' denial are stated in Inclosure 2.

3. In addition, the following points are considered worthy of attention:

a. The company lists a rather small machine inventory considering the fact that paragraph 4 d of the application shows a capitalization of 25 million Yen.

b. Likewise the stocks of raw material listed in paragraph 7 appear to be excessive for the types of product which the company planned to produce if granted permit.

5. It is recommended that this plant be considered for inclusion on the forthcoming lists of munition plants to be taken into custody for reparations purposes.

AG 004 - BA 5th Ind GLS/fk

Hq I Corps, APO 301, 4 APR 1946

TO: CO, 36th Mil Govt Co, APO 24.

1. The application of the subject company and the recommendation in paragraph 3 of basic communication are denied. The company will not be granted a reconversion permit.

2. Since the application of subject company was first submitted to this headquarters, a conference has been held in Tokyo covering problems of reparations policy and the listing of additional firms to be taken into custody by the Allied Forces under the provisions of Operational Directive No. 5. New information developed at this conference is responsible for the present denial.

3. The reasons on which this denial is based are as follows:

a. The company was a munitions manufacturer during the war. A supplemental list of plants to be taken into custody, which will be issued sometime in April, will include many munition manufacturers. It is though unwise to grant a reconversion permit to such a company at this time, in view of the fact that it is likely to be included in the reparations listings.

b. The company is distinctly a war-time creation, having gone into operation on 29 Feb 1944. This fact makes it particularly difficult in the light of the latest statement of policy from SCAP to justify the issuance of a permit.

c. There are many other companies in Japan currently authorized to produce the same products which this company intends to manufacture; particularly there is an over-developed capacity for the production of household utensils.

4. It is requested that you notify the company of this decision.

Application for Permission to Remove A Machine Designated for Reparation.

Sir,

We are always taking great careful about control and custody of machines designated for reparation, and now we are engaged in cleaning and reconditioning of reparations machines with the mechanics of our plant. Now these mechanics are engaged in cleaning and reconditioning of 80 HP Motor (Accessary of Hydraulic Pump, Inventory Number 41-4-160 U, Authorized Use Machine), but they found the difficulties of recondition if so only the repairing equipment of our plant, and the other hand, it needs special technique of repair about coiling and adjustment. Fortunately, there are many skilled mechanics and suitable repairing equipment in Kobe Steel Works Co., Ltd. (Address: 1-36, 1-chome, Wakinohama-cho, Fukiai-ku, Kobe City. Electric Section, Skilled mechanics 80, Formerly our company belong to this company) and therefore we are desiring to remove the motor to the above repairing shop. The removal of this motor is not all parts and it is being sufficient only the parts required condition. (Removal period about 20-25 days)

We will take great careful about the transportation of this machine, and we shall be much obliged if you will kind enough to give us your permission of the above application.

Commending the above to your favourable consideration,

Yours faithfully,

/s/ Tokutaro Matsuoka
/t/ Tokutaro Matsuoka
Manager of Hoki Plant.

APPLICATION FOR AUTHORIZED USE OF REPARATION MACHINERY AND EQUIPMENT

DATE: 18 April 1950

TO: Ministry of International Trade and Industry

FROM: President of Hoki Shinko Kogyo Kabushiki Kaisha
(Former Name: Shinko Kogyo K.K. Hoki Plant)

Address: No 112 Kaida, Agei-cho, Tohaku-gun,
Tottori Prefecture.

II-2-35 41-4

1). Name, Code No. and Category of Plant:

Name; Hoki Shinko Kogyo Kabushiki Kaisha
(Former Name: Shinko Kogyo K.K.,Hoki Plant)

approved 17 Aug 50 ESS/SCAP

Note: This company has been approved , in accordance with the Enterprise Reconstruction and Reorganization Law, to from a new company with following name in January 1950.

Code No. 41 - 4

Category of Plant: Private Owned Munition

2). Location of Plant:

No. 112 Kaida, Agei-cho, Tohaku-gun,
Tottori Prefecture.

3). Present Production:

1. a. Authorized Products:
Steel Props
b. Date of Authorization:
26 February 1949
c. Authorized Quantity:
2,500 Pcs. per month(Maximum)
d. Subject of Permission:
Reconversion Permit for Reparations Plant.

We have received this permission from the General Headquarters, Economic and Scientific Section.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

2. a. Authorized Products:
Wheels
b. Date of Authorization:
8 May 1946
c. Authorized Quantity:
37,000 pcs. per month(Maximum)
d. Subject of Permission:
Permit for Reconversion from War Production and for Resumption of Production of Essential Civilian Commodities.

We have received this permission from the Headquarters I Corps(Kyoto, Honshu)

4). Machinery and Equipment to be Used:

Inventory No.	Name of Machine	Capacity
41-4-142	Hydraulic Press	2,000 tons

(Please see the attached paper)

5). Necessity for Use:

We are planing to manufacture disc wheels of motor-bus and truck(Size: 7.33 x 20 inch), and we believe this production is suitable for the present manufacturing equipment of our plant.

That is, this plant was originally established with the object of press working, and we are intending to use the above applicated machine in the manufacturing process of pressing. and punching work of steel plate(thickness 10 m/m), which to be used for disc wheels.

We have nine(9) "U" marked hydraulic press (including 5 machines belonging to the Department of Finance), but they are mostly 100 tons in capacity, and it is impossible to work with the above capacity due to the steel plate is so thick. Therefore, it was compelled to use this applicated hydraulic press.(capacity 2,000 tons).

We estimate the manufacturing capacity will be increased by the utilizing of this machine(Productive capacity 400 pcs. per month). And on the one hand, it is practically impossible in getting such a special machine in this district, and so we desired the utilizing this applicated machine.

Such being the case, we shall be very greatful if you would kindly to give us your permission of use.

10 April 1950
Date

SUBJECT: Reconversion Permit for Reparations Plant

TO: **Shinko Kogyo K.K. (41-4)**

1. In accordance with Memorandum from the Supreme Commander for the Allied Powers to the Japanese Government, dated 22 November 1946 (SCAPIN-1355), the **Shinko Kogyo K.K.** is permitted to produce at their **Hoki** Factory located at **130 Kaida, Agei-cho Tohaku-gun, Tottori Pref.** the following additional items:

Item	Maximum Quantity
Parts for Mining Machinery	**Unlimited**

(Nothing Follows)

2. The temporary use of the following additional reparations machinery is authorized:

N O N E

3. A program will be immediately initiated to substitute non-reparations machinery for reparations machinery in temporary use.

4. The acquisition of material, parts and sub-assemblies as well as the disposition of finished products and the establishment of sales prices will be in accordance with the regulations of the Japanese Government.

5. This permit is issued subject to any and all directives affecting reparations plants which have been issued or may hereafter be issued by the Supreme Commander for the Allied Powers. Reports will be rendered as required by current directives and instructions.

FOR THE CHIEF, ECONOMIC AND SCIENTIFIC SECTION:

MAURICE E. [illegible]
Chief, Industry Division

Incl 1

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

Copy

Date: 31 March 1950

TO: The Supreme Commander for the Allied Powers

THROUGH: The Minister of International Trade and Industry

FROM: Shinko Kogyo Kabushiki Kaisha
Hoki Plant

SUBJECT: Application for Approval of Use of Machines Designated as Reparations.

Applicant:

(1) Name: Shinko Kogyo Kabushiki Kaisha
Hoki Plant

(2) Address: 130 Kaida, Agei-cho, Tohaku-gun,
Tottori Prefecture.

1. Name of Reparations Plant:

Shinko Kogyo Kabushiki Kaisha
Hoki Plant

Code No. 41 - 4

Note: The company has been approved, in accordance with the Enterprise Reconstruction and Reorganization Law, to form a new company with the following name in January 1950.

HOKI SHINKO KOGYO KABUSHIKI KAISHA

2. Location of Reparations Plant:

130 Kaida, Agei-cho, Tohaku-gun,
Tottori Prefecture.

3. Name of Goods in Production:

(1) a. Authorized Products:
Steel Props
b. Date of Authorization:
26 February 1949
c. Authorized Quantity:
2,500 pcs. per month(Maximum)
d. Authorization Number
None
e. Subject of Permission:
Reconversion Permit for Reparations Plant.

41-4 Sec. II

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

(2) a. Authorized Products:
Wheels
b. Date of Authorization:
8 May 1946
c. Authorized Quantity:
37,000 pcs. per month(Maximum)
d. Authorization Number:
IG-342
e. Subject of Permission:
Permit for Reconversion from War Production for Resumption of Production of Essential Civilian Commodities.

4. List of Machines to be Used:

Inventory No.	Name of Machine	Type, Capacity and Measure	In Suspension or Temporary Operation	Quantity
41-4-143	Hydraulic Press	3 Poles Vertical Type Capacity 100 Ton Stroke 1,000 mm Dia of Ram 250 m/m	In Suspension	1
41-4-147	Hydraulic Press	ditto	ditto	1
41-4-150	Crank Press	Vertical Type Motor Driv.(50 HP) Capacity 350 Ton Stroke 450 m/m Revolution 6	ditto	1
	Total			3

5. Reason for Necessitating Operation:

We are manufacturing steel props for mining as main products of this company since the March 1949, and in those days we started for the above manufacture, the necessary equipment of this production was sufficient with the machinery which were authorized to use by the Headquarters. But recently, we have received large quantity of orders of steel props for mining from Kyushu coal-mine district, therefore it compelled to use more machines as listed with the object of increasing production capacity and saving of the cost of production.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

That is, the above listed machines placed in the main working shop, and it is the most suitable and effective in the progress of manufacture, such a working of pressing and punching of steel plate. And the other hand, it is difficult for us in getting these machines in such present situation of fund shortage, and there is no machine in this district as this, even if we intended to purchase.

Such being the case, we should feel it very greatful if you would pay yuor kind consideration for the above application, and give your permission to us.

Shinko Kogyo Kabushiki Kaisha

Signed: _____

Tokutaro Matsuoka,
Responsible Custodian of
Hoki Plant.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

Copy

Application to Convert a Designated Reparations Plant

TO: Minister of International Trade and Industry

FROM: Shinko Kogyo Kabushiki Kaisha
Hoki Plant

DATE: 21 January, 1950.

1. Name of Plant

Shinko Kogyo Kabushiki Kaisha
Hoki Plant

Code Number 41 - 4

2. Location of Plant

130 Kaida, Agei-cho, Tohaku-gun,
Tottori Prefecture.

3. Name of Products Planned.

Parts of Mining Machinery
(Take ups of conveyer belt)
(Reduction gear of belt conveyer)
(Trommel)
(Booms of electric shovel) etc.

4. Experience of the production planned.

We have not engaged to manufacture the above articles in the past, but we have been produced steel props for mining which is main products of this plant.
Therefore, we believe it is possible to manufacture with our experience.

5. 1939----1945 Production

1939----1943 None
This company was established in 1944, therefore no record available.

1944------	Iron Shell Casing	41,231 pcs.
1945------	Iron Shell Casing	128,229 pcs.

41-4 Sec III

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

6. Period of desired permission.

We are planning to begin the working from the day of permitted, and it will be continued till the reparations installation to be removed.

7. Scale of production planned by month for period on this application.

Parts of Mining Machinery
(Take ups of conveyer belt)
(Reduction gear of belt conveyer) } 800 pcs.
(Trommel) (Monthly Max.)
(Booms of electric shovel) etc.

8. Name of location to which products are to be delivered.

Dowa Kogyo K.K.
Yanahara Kogyo-sho
Address-----Yoshioka-mura, Kume-gun,
Okayama Prefecture.

Nippon Kogyo K.K.
Kawayama Kogyo-sho
Address-----Kawayama-mura, Kuga-gun,
Yamaguchi Prefecture.

Kobe Seiko-sho K.K.
Address-----Wakinohama-cho, Fukiai-ku, Kobe.

9. Scale of proposed change in physical facilities.

This working is possible by use of machines which were authorized by the Headquarters for our civil production and EX machines. There is no need of changing equipments or to extend the manufacturing capacity for this plan.
List of machinery necessary for manufacture as enclosed herewith.

10. Intended expenses for conversion.

It is sufficient with the present manufacturing equipments and employees, and we do not need more expenses for this plan.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

11. Plan to continue the production after reparation removed.

We estimate it is impossible to continue the working if the reparations machinery were removed.

Shinko Kogyo Kabushiki Kaisha

File No.61
Econ-H

5 February 1949

SUBJECT: Application Requesting Permission to Manufacture Iron Frames

TO: Commanding Officer
Chugoku Mil Govt Region
APO 317

1. Attached as inclosure 1 is an application from the Hoki Plant, of Shinko Kogyo, 130 Kaida-cho, Tohaku-gun, requesting permission to produce iron frames. The above plant submitted application as inclosure 1 20 August 1948 through Japanese channels but no reply has been received. It is thought that this situation should be brought to the attention of higher headquarters.

2. This company which is listed for reparations in SCAPIN 1258 has been manufacturing farming tools and equipment in accordance with their operating permit as shown in the inclosure. However, due to the current tight money situation and a general lack of marketing methods they are experiencing increasing difficulty in selling their product. Therefore, it has been necessary for them to find a more saleable product if they are to continue in business. While this factory is not large by general standards, it is one of the largest in this prefecture and its loss would be keenly felt.

3. It should be noted that the nature of the new product is similar to the products currently being manufactured. Hence no change in the factory set up or its equipment will be necessary. Further a loose interpretation of their present operating permit would cover this new operation. The chief difference being, of course, that this equipment will enable this factory to find an immediate market for their product.

4. Recommend that subject application be approved and the operation permit of this factory be expanded to include the manufacturing of iron frames.

2. In compliance with the provisions of SCAPIN 1355 the HOKI KOJO of Shinko Kogyo K.K., (41-04, Munitions) has submitted a petition to the Japanese Government, requesting authority to enlarge on the number of articles manufactured in the companies plant. No reply to this petition has been received.

3. In view of the local importance of the Hoki Kojo to the economy of Tottori Prefecture, it is recommended that the plant be given authority to engage in the manufacture of iron frames as requested in inclosure 1 to the basic letter.

TOTTORI PREFECTURAL OFFICE

30 October, 1948

Subject:- Application for Permission to Use A Borrowed Machine

Thru:- Tottori Prefectural Liaison Office

To:- Commanding Officer, Tottori Military Government Team.

41-4 II

Attached herewith is an application on subject above submitted to you by the manager of Hoki Plant of Shinko Kogyo K.K.

The induction motor therein mentioned has been borrowed by the said plant from Kobe Steel Works, Ltd. for the purpose of civilian goods production instead of the 80 HP motor, registered No. 41-4-160 which is now under repair with your authorization given on 21 Oct., 1948.

Your special arrangements will be much appreciated for authorization to use the motor as EX machine for the production of civilian goods.

Application for Permission to Use the Borrowed Machine

Sir,

The machine, as per attached, we have borrowed from the Kobe Steel Works Co., Ltd.(No. 1-36, 1-chome, Wakinohama-cho, Fukiai-ku, Kobe City) for the purpose of civil production use in place of 80 HP Motor(Accessary of Hydraulic Pump, Inventory No. 41-4-160 U) which is under cleaning and repairing.

This 80 HP Motor is the most necessary machine for our present civil production, and therefore, production capacity of our plant will be decreased if the Motor stopped the working for the cleaning and repairing.

Such being the case, we hereby beg to you, and we shall be greatly obliged if you will be kind enough to give us your permission to use this borrowed machine as EX Machine.

Yours faithfully,

Tokutaro Matsuoka

Tokutaro Matsuoka,
Manager of Hoki Plant.

1. Reference is made to attached application of Shinko Kogyo K.K., Agei-cho and letter of Tottori Prefectural Office requesting permission to use certain machinery designated for reparations for workers welfare.

2. Permission for the use of this machinery was implied in your original reconversion permit and the subsequent designation of this machinery for reparations does not change this status. You are therefore authorized to paint a "U" on this machinery following the code number and use subject machinery as outlined in your application.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

TOTTORI PREFECTURAL OFFICE

1 Oct., 1948

SUBJECT: Application for Permission to Use Machines Designated for Reparations.

THRU: Tottori Prefectural Liaison Office

TO: Commanding Officer
Tottori Mil Govt Team

I have received an application for permission to use machines designated for reparations from Tokutaro Matsuoka, Manager of Hoki Plant, Shinko Industry Co. Ltd. No.130 Kaita Agei Town, Tohaku-gun, Tottori Prefecture.

The machines in question have been used for the welfare of the workers of the plant, and were never used during the war for manufacturing war materials. Those machines were registered on inventory sheet at that time when the plant was designated for reparations. But it was the view of the Tottori Military Government Team that those machines were to be removed from the inventory sheet for the above reason.

Recently, however, they have been reregistered upon the instruction of Mr. Laffin, Officer in charge of evaluation of reparation equipments of the 8th Army, who inspected the plant on 24th September 1948.

I request that those machines are equipment used solely for the welfare of the workers of the plant, and hereby beg your fair consideration thereon and particular favour to permit them to use.

Governor of Tottori Pref.

Chief of Liaison Office,
Tottori Prefecture

29 September 1948

Commanding Officer
Tottori Military Government Team
Tottori.

Application for Permission to Use Machines Designated for Reparations.

Sir,

These articles, as per attached list, are workers' welfare use of our plant, and they were not used during the War for manufacturing War Materials. At first, these articles were registered on inventory sheet and reported to Tottori Military Government Team, and it was the view of this Military Government Team that they will be exempt from the register for the above reason.

But recently, it was the indication from the Eighth Army that we must register these articles on inventory sheet.

Such being the case, we newly inventoried these articles, and we shall be greatly obliged if you will be kind enough to give us your approval of use these machines .

Commending the above to your kind consideration,

Yours faithfully,

/s/ Tokutaro Matsuoka
/t/ Tokutaro Matsuoka
