REMARKS:

This is undoubtedly the worst day-nursery in this prefecture. It is operated by the Korean Association for Korean children. The 19 children were in a small, unheated, filthy room with one "supervisor" of teenage. The only instrument for recreation was a broken piano of ancient vintage. The manager pleaded insufficient funds as the reason for its inadequacy. However, the Welfare Chief of Niihama city stated that he had informed the manager how to apply for subsidies to cover cost of care and administration, but the manager never applied. Strong recommendations were made to correct the above listed deficiencies at an early date or ~~xxxx~~ be closed. A follow-up inspection will be made during the coming month.

Comment on the Tendencies of
Some day-Nurseries

There are ~~6~~ 5 day-nurseries, both public and private, in Ehime Prefecture, while the number of kindergartens is about 18. The former are presided by the Child Welfare Section, and the latter by the Education Section.

The day-nurseries should take care of children who are neglected at home or whose parents could not work for their living, if their children were not taken care of, while they are working.

But there are some day nurseries which are run just like a kindergarten and are day-nurseries only by their names; they have not tried to induce poor families to leave their children at the day-nurseries while they work. The reason why they are nominally day-nurseries is that, at the time of their establish-

P. T. O.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

ment it was easier for them to get authorization for establishment than as a Kindergarten, because the minimum standard of a kindergarten was more difficult to meet than a day nursery. It is not fair that a day nursery only by name should receive the distribution of relief goods like L.G.R.A.

Such nurseries should be transferred to kindergartens under the education section, or change their policy and try to induce the poor to leave their children at the institution.

Mission should work more for the utilization of day nurseries. Generally speaking, people on relief are not bright, and they do not think of leaving their children in the care of day-nurseries unless they are induced to do so, or some have not even heard of them.

The first difficulty for poor parents in sending their children to nurseries is that they have not enough clothing for their children to be dressed in. At homes they are in rags, and their parents cannot bear to send their

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

children out in the rags. The children under such needy circumstances should be given special distribution of clothing for attending day-nurseries, which will mean giving work to their parents, or at least to their mothers.

Welfare Report

Date: 22 June, 1948

By: R. Amano

On Sumino-cho Occupation Agency

1. Name of Institution: Izumigawa-cho Occupation Agency.
2. Address: Sumino-cho, Niigun
3. Managing Agency: Town Welfare Section
4. Building (owned): 33 "tsubo" on 300 "tsubo" site
5. Number of clients: about 7 till April, 1948.
6. Type of Work: Straw-rope making.

The above-mentioned occupation agency was closed in April, 1948, as the building was needed as a branch primary school, and it is used as two classrooms.

In the coming fall the building will be evacuated, and it will be used as an occupation agency again. The town authorities are looking for a suitable type of work to begin with in the fall, because the straw for rope-making is hard to get in the area, and they want to have another type of work. They would like to ask the Welfare Officer of M.G. to recommend them a suitable type of work for export, if it is possible.

Welfare Report

Date: 9 June, 1948

By: A. Amano

Remarks on "Mikage" Day Nursery:

Mr. Ishimaru, the person in charge, is a chief Minsei-iin in Kuwabara area and "Shinto" priest. At present he lets a part of the shrine building and his own house next to it be used by the children. He says that he intends to contribute the profit of his own 7 "tan" forest for the expenses of the day nursery because he is so eager to do good social work. He is going to have a new building constructed in the near future with the wood produced in his forest.

Though he is a priest, he has no intention to give any religious program to the children. He is contriving how to handle children democratically, and he is eager to keep close touch with M. G. Welfare Section and get its guidance.

He wants to get aid from Prefectural and local governments, but it has not been decided yet.

It is recommended that 7 other Minsei-iin in that area should cooperate

P. T. O.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

in referring the children on relief to it, so that their parents may find it easier to work during their absence, and that the expenses for those on relief should be aided from Government.

It is also recommended that blocks and sand boxes should be furnished as they can be easily provided.
