LONG DISCUSSION ON BAND CONCERTS

TENDERS OPENED BY THE CITY COUNCIL

By-Law Repealing Bicycle Lamp Regulation Passes Second Reading—The Free Library Site.

The city council sat till nearly 11 o'clock last night with the result as heretofore shown. Most of the time was consumed in a discussion on almost every communication received.

The first of these was from Hon. Archer Martin, who once more complained of the shortage of water on the higher levels, and asked for a conference to be arranged between the board and complainants. The suggestion was approved and on motion of Ald. Barnard a conference will be arranged, the date of which will be fixed by the Mayor.

H. Dallas Helmecker wrote including a copy of bill 53 of the Municipal Clause, which was reached yesterday afternoon. The same writer also enclosed a copy of bill No. 56 dealing with some railway matters also before the House.

Received and filed, Mr. Helmecker to be thanked for the interest he has manifested in municipal affairs. Frank J. Clarke, secretary of the Tourist Association, informed that the association had written to the management of the B. C. Electric railway in regard to the sprinkling of that portion of the streets which the tracks covered. The reply which the company gave, which he enclosed, was a favorable one, and the association desired to see the council take the subject up with the company, and carry out some improvement.

As Ald. Cameron had a motion coming up affecting the sprinkling of streets the communication was for the time laid on the table. Frank H. Eaton, secretary of the board of school trustees, forwarded a copy of a resolution passed by that board, donating the sum of \$25 towards the maintenance of the swimming baths of Mr. St. Clair and requesting that the council duplicate the sum for the same purpose. On motion of Ald. Yates the latter was referred to the finance committee with a favorable recommendation.

A committee of the Voters' League submitted to the council a copy of a number of questions already published concerning the changing of the original plan for the James Bay reclamation wall. Ald. Vincent asked if the document was signed in type written form. The Mayor replied that it had not been properly signed. The first one whose signature appeared on the list was out of the city for the past eight days, and could not have signed it, while another had told him he would not have anything to do with it.

Ald. Grahame thought that the council should pay no attention to unauthentic documents, and moved that the latter be received and the writer informed that the council cannot consider the document until it was properly signed.

Ald. Grahame moved to arrange a conference, but Ald. Yates moved in amendment, seconded by Ald. McCandless that the communication be referred to the streets, sewers and bridges committee. The amendment was carried.

J. W. Lang, head master of the Collegiate school, asked on the part of the boys for the use of the grounds opposite the Brown memorial high school for cricket purposes. The request was granted.

The Mayor and council of Vancouver have extended an invitation to the city fathers to attend the First of July celebration at the Terminal City.

A. G. McGreggor wrote, enclosing a cheque for \$100 bequeathed by his father to the Old Men's Home, Decidedly, Mr. McGreggor to be thanked.

first in several years, asked that authority be vested in E. C. Smith, of the department, to sign cheques during his absence. The necessary permission was granted. City Clerk Dowler reported that he had received and referred to the city engineer for approval communications from Sarah Sutton requesting the laying of a sidewalk on Simcoe street and from Thomas Mitchell and four others regarding the opening of a drain on John Street between Government street and Rock Bay avenue. Received and filed.

City Solicitor J. M. Bradburn reported advising that the claims of Mrs. Ellen West and Mrs. Ritchie be protested. Received and filed. The city engineer reported as follows: Communications from Mrs. G. Moss and others, asking that a plank walk be laid on the west side of Eford street, the parties interested offering to pay \$20 towards the cost. After looking over the locality in question I would recommend the request be granted. Total estimated cost, \$64.

Communication from R. Wilson, asking to have the north end of Stanley avenue improved. On looking over the above ground I cannot see that the improvement is urgently needed at present. A short piece of sidewalk would certainly be a benefit during the wet season. Total estimated cost, \$31.

The first item was adopted, and the second claim was referred to the streets, sewers and bridges committee. James L. Raymont, water commissioner, recommended the lease of land in Lake district, owned by W. M. Wilson, for a term of years from \$150 to \$175 per year, the amount of rent to be considered as part of the purchase money, provided that the sale is concluded within the term of the lease. Received and adopted.

The park committee reported having waited on the different bands, and invited tenders for the supply of music in the park. The tenders received were from the City Band (of 20 members) offering to give two two-hour concerts for \$50 each. The Fifth Regiment band (26 members) offered twelve concerts for \$500 or fourteen for the same money, providing seven of the events are held on Sunday, and half on week days. Much discussion followed, some being in favor of awarding the contract to the lowest tender, and others of dividing the city's patronage. The report was finally referred back to the committee for further consideration.

The finance committee recommended payment of accounts totalling \$3,611, and also the appropriating of \$1,000 out of the general revenue for Coronation Day festivities. The report of the special committee appointed to interview the government about increasing the breadth of Bastion street was then read. The committee stated that the government agreed to the removal of the sidewalk in front of the court house close up to the building providing that a permanent sidewalk be laid down. The cost of the sidewalk, Ald. Grahame explained, would be \$450. The report was referred to the street, sewers and bridges committee.

Ald. Grahame, Kinsman, Worthington and Yates were, on motion of the first named, appointed to constitute the Court of Appeal on the city assessment. Ald. Vincent motion about the laying of a concrete sidewalk on the north side of Fort from Wharf to Langley streets was then put and carried.

On motion of Ald. Cameron a special committee of three will report on the question of street sprinkling. Ald. McCandless seconded by Ald. Williams, moved: That whereas it is desirable in the event of the ratemakers by their vote deciding to erect a library in this city (whether on land now owned by the corporation, or on land to be purchased for the purpose) that the electors should decide for themselves the site on which such library should be erected.

Therefore he it resolved, that a plebiscite be taken as to the site on which the library shall be erected, in order to ascertain which one the electors prefer, the site receiving the largest number of votes to be the site which shall be selected for the library; and for this purpose the voters shall be those entitled to vote upon by-laws contracting debts.

There was a lengthy discussion on the motion, but it was put and carried. Ald. Barnard's motion for leave to introduce a by-law repealing the bicycle lamp regulation was next brought up. The by-law went through its first and second readings, and the council then adjourned until to-night.

NATURAL HISTORY SOCIETY. Lecture on Volcanic Action by Napier Denison.

At the meeting of the Natural History Society last night Napier Denison, of the meteorological office, spoke on "volcanism and illustrated his remarks by means of a chart on which were shown the active volcanic districts of the world, and also with diagrams and views of the Martique and other eruptions. Mr. Denison explained the various theories extant in regard to the origin of the eruptions. One theory was, he said, that the earth is going through a cooling process, the surface of the earth being a crust covering a molten mass. He drew attention to the fact that the majority of the volcanoes are located near the sea, and the theory was that volcanic action was due to water reaching the molten mass under the crust of the earth and causing a great pressure of steam. It had been noted that fissures are formed at the bottom of the sea and it was conceived that the water reached the molten mass through the fissures, thus causing the eruptions. A more recent theory was that the eruptions were due to the rocks being porous. Records throughout the world showed that no seismic disturbance occurs at a greater depth than 34 miles beneath the crust, and often not more than eight or ten miles. Mr. Denison exhibited a number of very interesting photographs dealing with the ruins left by the historic eruptions of Vesuvius, which destroyed Pompeii.

MOTHER-GOOSE PUZZLE. The King's sons are in the counting-house watching him count his money. Find them.

Times Coronation Number.

On Saturday next, the 21st inst., The Times will issue a special number commemorative of the Coronation of His Gracious Majesty, King Edward VII. There will be twenty pages, eight of which will be printed on fine paper, as a Coronation Supplement, and generously illustrated with half-tones. The latter will include:

PROCEEDINGS OF THE LEGISLATURE

GOVERNMENT AGAIN SUSTAINS A DEFEAT

This Time It is on the Vancouver-Midway Bill—They Drop Public Orders in Consequence.

Press Gallery, June 16th. The government forces stampeded again this evening after a distinct defeat on a motion of Mr. Oliver to discharge the third reading of the Vancouver-Midway bill. This motion carried by a majority of three, Messrs. Ellison, Helmecken and Clifford voting with the opposition. The government at once skipped all its own measures and did not stop for breath till it found safe ground among private bills.

The House met at 2:20 p.m. Evidence Bill. The Attorney-General moved that the report on the Evidence Act Amendment Bill should be adopted. This was agreed to, the third reading being fixed for the next sitting of the House.

Companies' Act Amendment Bill. On the motion of the Attorney-General the bill to amend the Companies' Act Amendment Act, 1901, was read the third time and passed.

Railway Acts Amendment Bill. The bill to amend the Railway Incorporation Acts of 1901 by repealing the alien labor exclusion clauses was read the third time and passed on the motion of the Attorney-General.

Fisheries Bill. The Fisheries Act Amendment Bill was considered in committee, Mr. Murphy in the chair. The Attorney-General moved to strike out subsection (3) of section 2, 'Commissioner shall mean the fishery commissioner appointed by the Lieut-Governor-in-council, and to substitute therefor 'Commissioner shall mean a member of the executive council designated from time to time by an order-in-council as commissioner of fisheries.'

Mr. McBride disapproved of any change being made in the constitution of the fisheries board, and especially in the substitution of one commissioner for the board. When the former bill had been brought in the government had been satisfied with the system of control of the fisheries by a board, and he could not see why there should be such a sudden change of opinion.

The Attorney-General said that to meet the views of people engaged in the fishing business the government had appointed Mr. Halsebrook, a gentleman of great experience, as commissioner of fisheries, and the government believed that the fisheries would be administered to better advantage under the provisions of the bill than under the former board system.

Mr. Oliver said that he had a copy of a letter written by the secretary of the British Columbia Fisheries Association, in which that official disapproved of the appointment of a commissioner to take the place of the board.

Between Life and Death Pure Medicines. The most tender solicitude and careful nursing will avail little if Pure Medicines are not obtainable. Get your physician's prescriptions filled at our pharmacy and you then will be sure that you will not be a victim of the crime of substitution.

DEAN & HISCOCKS. COR. YATES AND BROAD STS.

Mr. McBride—Have you consulted the Fisheries Bill? The Attorney-General—No, sir; the bill does not affect the unions. Mr. McBride thought that it would be a good plan for the government to obtain the opinion of the fishermen as well as of the canner men before passing new fishery legislation. He proposed that the bill should be held over until next session.

Mr. Hawthornthwaite had no desire to delay the passage of the bill, but he was surprised to hear the Attorney-General say that it did not affect the fishermen. Every provision in the bill would affect them.

The amendment was agreed to. On the motion of Mr. Oliver the part of section 4 dealing with the payment of officers of the department was amended, so as to read as follows: 'Such commissioner, overseers, officers and clerks shall be paid out of such moneys as may be appropriated by the legislature, such remuneration to be determined by the Lieut-Governor-in-council.'

Mr. Oliver objected to section 8, which provided that the Lieut-Governor-in-council might make, vary and amend regulations for the better management of lands leased under the act, and for the management of the fisheries.

Mr. McBride asked that the sections dealing with the lease of lands might be held over for the present. He was anxious that valuable forefishery rights should not be given away or trap fishing inaugurated under the bill, except with the further consent of the legislature.

The Attorney-General said that under the original act trap fishing was prohibited under a penalty of \$500, and this bill did not interfere with that provision.

Mr. Oliver pointed out that the leasing of lands for fishery purposes was evidently contemplated in the bill. He was not sure the provision of the original act was sufficient to prevent trap fishing, as the waters might not be under the control of the local legislature.

The Attorney-General expressed the opinion that the existing precaution against trap fishing was sufficient. In referring to the fishing commission which was recently held at Ottawa, he said that the government had wired Mr. Peters to lay before the commission the fact that the fishing business in British Columbia was very different to the fishing industries of the Eastern provinces, and to otherwise represent the province.

British Columbia had not suffered from the absence of a representative at the commission, as the only question discussed had been the disposition of the fish award. When the proper time came the position of the provincial government on the fishing question would be laid before the Dominion authorities.

Mr. McBride said that he was glad that nothing of importance had taken place at the commission, but the fact that the government had had to wire to Mr. Peters was another example of the government's negligence in public affairs. He had nothing to say against Mr. Peters, but it was evident that the government had not taken proper steps in regard to the commission.

Mr. Hester hoped that the sections would pass as they were. He had heard of a big American company which was planning to get hold of all the forefishery rights in British Columbia so as to suppress the British and Canadian canneries. He endorsed the opinion of the Premier that those applications already made for lands should receive prior consideration.

Mr. Kidd said he was unable to understand the meaning of section 8 of the bill, and he did not believe that other members of the House did either.

Nays—Messrs. Melnes, Stables, Gilmore, Hayward, Martin, Prentice, Eberets, A. W. Smith, Prior, Wells, Rogers, Dickie, Hunter, Hall—14.

On a question of privilege Mr. McPhillips drew attention to a statement in the Colonist already alluded to by Mr. Helmecken, which the railway bill was said to contain, a section providing for a ferry as follows: 'Between the termini of the said railway at or near the mouth of the Fraser river, and the most convenient point on Vancouver Island, at Schwartz Bay, or to the most convenient point in that vicinity, so as to afford the most direct feasible route between the said termini and the city of Victoria, and to lay-out, construct, equip, fully complete and maintain or otherwise provide, or cause to be laid out, constructed, equipped, fully completed and maintained or otherwise provided, a railway from the terminus of the ferry on Vancouver Island as above mentioned to the city of Victoria: Provided that a traffic agreement with any company or companies operating a car ferry propelled by steam between the Mainland of British Columbia and Vancouver Island, or operating a line of railway on Vancouver Island terminating at the city of Victoria, shall be a sufficient compliance with this provision as long as a continuous service suitable for the transportation of freight and passengers is maintained between the termini of the railway at or near the mouth of the Fraser river and the city of Victoria.'

These statements were most fraudulent, and a gross breach of the privileges of the House. The bill contained no such section.

Municipal Clauses Act. The Municipal Clauses Act was then committed, with Mr. Hall in the chair. Mr. McPhillips took strong exception to the following clause: 'In any case where a justice or other authority shall have convicted any misdemeanors between the ages of 7 or 14 for an offence against the provisions of this act, or of any by-law lawfully made in pursuance hereof, it shall be lawful for such justice or other authority to direct in lieu of any penalty or imprisonment as a punishment for such offence that such offender receive a certain specified number of strokes with a strap, not exceeding 12 strokes for a first offence, and twenty for a subsequent offence, and upon any such direction a police constable to be nominated by the magistrate directing such punishment shall administer the specified number of strokes, and the same shall be administered in the presence of the medical health officer, the chief police officer for the municipality, and of any one parent or guardian of such child should he or she be known to the police, and after notification desire to be present.'

He attacked this as barbarous and monstrous. Mr. Helmecken said the clause might be beneficial to the children against public morality.

The Attorney-General said flogging might be beneficial where nature had been guilty of criminal assault, but nature revolted at the idea of a big policeman beating a boy aged seven years of age. The clause was not intended to blame the conduct of the children. He knew there were bad boys about Victoria, and he had a personal experience a few evenings since, when he was 'sassed' by some boys of tender years who had caught smoking cigarettes. Yet he would not lend his voice to legislation which would be very unwholesome.

Mr. Hawthornthwaite said such sentiments did credit to the heart and head of the Attorney-General. Such legislation was worthy of an epoch of fifty years ago.

The Attorney-General suggested that the clause might be found efficacious with criminals of the Larry-Mooney class and men who sold liquor to Indians, for instance.

Mr. Helmecken objected strongly to the reformatory at Victoria being contiguous to the jail.

Mr. Curtis had heard that the arrangements in connection with the reformatory were very unsatisfactory. Next session he intended asking for a commission to investigate the matter.

The Provincial Secretary said the reformatory was under a very capable superintendent, who should be paid tribute what he got.

Mr. Curtis—Why do they run away? The Provincial Secretary—Because they are bad boys.

The clause was struck out. Progress was reported and the House rose at 11 till 10:30 to-morrow.

The people of the Davies chapel section of Marshallton, K.C., were thrown into great excitement by a fusillade of bullets being fired into a Mormon meeting by the opposition in the neighborhood. Hardly Lamb was shot in the leg. The Mormon converts, 15 or 16, returned the fire and more bloodshed is feared.

The tube of a 12-inch gun, which is used inside, which causes the shot to revolve at the rate of seventy-five times per second as it rushes through the air.

UTAH VISITORS VICTORIA'S GUESTS

ARRIVED IN THE CITY YESTERDAY AFTERNOON

Excursion to Mount Sicker To Day—Something About the Party and Its Itinerary.

Fifty-four members of the Utah Press Association arrived in Victoria yesterday afternoon on the steamer Majestic from the Sound. They were met at the dock by representatives of the Tourist Association and of the Board of Trade, being shortly afterwards cordially welcomed by Mayor Hayward on behalf of the city. A large proportion of the party registered at the rooms of the Tourist Association, after which all were escorted to the legislative buildings, where the provincial law matters were in session. The stately buildings evoked the hearty expressed admiration of the visitors just as their own magnificent structures in Salt Lake City—namely the Mormon tabernacle, impresses all who are fortunate enough to visit that place. They were afterwards escorted to their hotels and after dinner continued their sight-seeing, taking in the museum and other points of interest about the city. Today they are the guests of the Tourist Association, and left this morning for a trip to Mount Sicker, every facility being placed at the disposal of the excursionists. They will return by way of Crofton and Slinx.

To-morrow they will visit Esquimalt, Oak Bay, the Gorge and other favored resorts. Of the fifty-four members comprising the party, half of them are Mormons.

The complete personnel of the party was published in the columns of last night. The list of officers is as follows: President, D. F. Felt, Juvenile Instructor, Salt Lake City; first vice-president, E. A. Littlefield, State Journal, Ogden; second vice-president, N. B. Dresser, Munc. Mercantile, third vice-president, Wm. Bays, Wasatch, Wyo., Harbor City, or Caswell; secretary, J. E. Diehl, Mammouth Record; treasurer, J. E. Diehl, Mammouth Record; recording secretary, M. A. Willman, American Eagle, Murray; treasurer, W. R. McBride, Democrat, Provo; historian, Andrew Jensen, Bluffton, Salt Lake City.

The committee having in charge the trip of the party are as follows: Executive, D. F. Felt, president; J. E. Diehl, corresponding secretary; M. A. Willman, recording secretary; resolutions and memorials, C. W. Penrose; data, Parly P. Jensen; programme arrangement, C. W. Penrose; finance, William Bays; hotels and restaurants, T. E. Hyde; mail, James Dunn; baggage, O. W. Covington; laundry, J. M. Boyden; excursions, C. F. Aldrich; general information bureau, members of the executive committee.

The Press Association left Salt Lake City on Monday week, it being the ninth annual outing. Such a long trip as the present one has never before been taken by the association, but so far they have found that it has been a thoroughly enjoyable and beneficial.

Boise, Idaho, was the first place visited. From there the party went to Portland and then came direct to Seattle, and from the Sound to Victoria.

Perhaps the most distinguished visitor is Charles William Penrose, editor of the Deseret News, which is the official organ of the Mormon church and which has a national reputation as a brilliant journal advocating the doctrines of the Mormon belief. Its editor's name is a household word in every Mormon family. He is beloved by all of the sect and his friends among the Gentiles run far into the thousands. Mr. Penrose, though he has reached an advanced age, is still very strong with his pen and takes active editorial charge of the News. He is also a preacher of considerable note, and although he is seventy years old his voice is frequently heard in the great Mormon tabernacle in Salt Lake. Mr. Penrose has been in the newspaper business most of his life. He was the editor of the Millennial Star, the organ of the Mormon church in Great Britain. He was also editor-in-chief of the Salt Lake Herald for several years. Three years ago President Snow appointed him editor of the Deseret News, which position he has held since. There are several other distinguished Mormons in the party.

The association has in its membership Perry S. Heath of the Salt Lake Tribune, Mr. Heath having been recently purchased it. Mr. Heath is one of the best known newspaper men in the country, was first assistant postmaster-general under Postmaster-General Charles Emory Smith, and was as well one of the late President McKinley's closest friends and advisers.

D. F. Felt, who is now serving his second term as president of the Utah Press Association, has been connected with the newspaper business for upwards of fifteen years. He is a typical Utah man, and is well known throughout his state. He is connected with the advertising department of the Juvenile Instructor, the official organ of the Mormon Sunday school. I. H. Diehl, the corresponding secretary, represents the Mammouth Record, of Robinson.

The following registered at the rooms of the Tourist Association yesterday afternoon: D. F. Felt and wife, J. M. Boyden, J. E. Diehl, C. W. Penrose, N. B. Dresser and wife, A. B. Williams and wife, Mrs. A. B. Williams, J. M. Campbell, Annie S. Campbell, Jessie Young, Jennie Smith, May Anderson, J. B. Felt, Vera J. Felt, Gertrude Felt, Kate Anderson, Emma McMaster, A. Soderberg, Leone Horne, James Dunn, Mrs. Alex. Myles, W. W. Taylor, Emma Hyde, Mrs. J. Pires, Marcus E. Jerns, Wm. Bux, Elizabeth Sellers, S. L. Rodden and wife, J. B. Graham and wife, M. A. Williamson, Miss Fannie Williamson, A. S. Johnson, Miss Cassie Johnson, Dr. Mary P. Silver, Gertrude W. Hassler, Guy W. Hassler, J. H. Fales, Mary E. Fales, and Mrs. Ellen M. Parker.

Twenty persons have taken out insurance policies on the life of a paper inmate of Volterhampton (English) work house, who charges half a crown for the privilege.

A SHAKY CONCERN.

The earth trembled beneath the feet of the government again last night. The ministers lost control of the House and were in a panic. It was feared for a time that the disturbances might be followed by a flood which would sweep the whole outfit out of existence, but a refuge was discerned by a member who retained his presence of mind, all government business was passed over, and shelter was taken for a time in the convenient ark of private bills. The ministry has been saved more than once during the session by allowing itself to drift within that convenient resort. How long it may decide to remain in seclusion this time depends, we suppose, on the success it meets with in its efforts to patch up a truce. The House is not in a mood to put up with a great deal more of dilly-dallage. The members have been kept away a long time from their business because of the strains of a government which has not sufficient strength to carry on the business of the country. They probably fear that they may be called upon to bear their share of the odium which properly should rest upon the shoulders of the men who would govern regardless of the opposition that has developed to them throughout the province generally. There is little hope of the government admitting its impotence and its incapacity and retiring. A combination which would perpetrate such a deliberate fraud as was practiced in order to carry Victoria and save itself for a time is not likely to give up as long as there is a member in the House thought to be of the true governing stamp, that is, capable of being "approached."

THE COLONEL AGAIN.

Colonel Prior, as a representative of this city in the Legislature and as a merchant with large connections in Victoria, assured the House yesterday that the interests of his constituents were well protected in the Coast-Kootenay railway bill. But the Colonel gave his word of honor, pledged his reputation as a soldier and a politician, that the "contract" between the government which he so reluctantly joined and the Canadian Northern Railway was bona fide and binding. Where is that "contract" to-day? It has vanished as completely as the Colonel's honor and reputation as a politician. The Minister of Mines has his doubts as to the feasibility of a railway ferry from the island effecting a landing at any point in British Columbia south of the Fraser river. These doubts will be kept in existence as long as possible and the Colonel's constituents will be encouraged to hope that a landing-place may be found. The question will be still in abeyance when the date of the next general election arrives. It is a matter that must be dealt with in a diplomatic manner. The schemes of the friends of the two great monopolies of the province will gradually unfold themselves and the people will not be shocked too sharply. It will be thoroughly demonstrated by-and-by that there is no suitable landing-place for a railway ferry south of the Fraser river; that the only possible connection is with the Premier's road; also that the C. P. R. is the only transportation company capable of carrying goods between the coast and Kootenay with an eye single to the best interests of the territory. All these propositions may be capable of demonstration, just as it is possible that there is no virtue whatever in competition, as is contended by a railroad man of experience like Mr. Joseph Hunter. At the same time it has been proved to the satisfaction of all Victorians who walk around with their eyes open that there may be conditions in which competition is beneficial; when rates are maintained at an altitude higher than the business affected will stand, for example. If for no other reason than this last one, we believe the Colonel will be asked to explain definitely why he has broken all his pledges.

A MERITED DEFEAT.

The bill providing for the construction of the Coast-Kootenay road as introduced by the government, as we have pointed out, was intentionally designed to permit of the eastern section of the line being built, leaving it optional with the company which might undertake the work to proceed through the Hoop Mountains or not as it saw fit. This was not denied by members possessing the confidence of the government who spoke on the subject. It was confirmed by the proceedings in the House last night, in which two of the representatives of Victoria strove to uphold the rights of this city and to hold up their hands for mercy. The debate was one of the most instructive that has taken place this session, because it forced the government to reveal the hand that holds it in power. We recommend all Victorians to read our report of the proceedings.

It is pleasing to note that the government's purpose was defeated, temporarily at least, and that there is yet a chance that the House will insist upon the road being a direct one, which will reduce not only the running time between the coast cities and the great mining centres of the interior, but the passenger rates and the freight charges, thus enabling the agriculturists of the coast sections to get into the best markets in the world which are now so largely supplied from Washington, notwithstanding the duties imposed for the protection of our farmers, who are denied access to the American side.

It is quite certain if the government had had its way the bill would not have been through the House in its original form, and that the work of construction between Midway and Princeton would have proceeded in such a manner as to meet the requirements of the situation and to take up the subsidy. Afterwards the connection could be made with the coast via Spencer's Bridge, as we have pointed out. The Colonel and Mr. Hall endeavored to clear the way for the consummation of this amendment by voting against any embarrassing conditions being imposed upon the ferry connections with Victoria. They have doubts about the suitability of the landings south of the Fraser river. It is surmised that they believe the only landing places are to be found at Vancouver as a matter of fact, if they should receive light, so far the bill again comes up for consideration on Mr. Oliver's motion to secure what has been demanded, a direct line to Midway, they should join the majority which defeated the government last night and prove that they value the interests of their constituents more than the goodwill of any corporation. Messrs. Helmecke, Ellison and Clifford broke away from their accustomed environment. No doubt they had the best night's rest they have enjoyed for many days in the consciousness of duty done. They have made for themselves a record we believe they will be slow to fully by backsliding. Having put their hands to the plough, they should go right through to the end of the furrow. There can be no stability under present conditions. Turn the government out and put an end to the farce.

OUR FRIENDS FROM UTAH.

There is a corps of newspaper men in our midst from Utah. They are accompanied by their wives, and if there be any shortcomings in our walk, conversation and appearance which escape the notice of the one hand they are sure to be spotted by keen observers on the other. The Tourist Association, we are pleased to observe, is doing its best to mollify possible criticisms by taking these important persons around and showing them the most notable of our industrial and scenic features. We believe the pursuits of the people of Utah in some respects resemble our own. Our visitors come from a great mining and agricultural state. It is mountainous like our own, and its climate resembles very much that of the interior of British Columbia. But the atmospheric conditions of Utah are altogether different from those of this coast. The salt through the islands of the gulf, pronounced by travellers who have been in all parts of the world to be unequalled for natural beauty, should be a revelation to them, if they are not very hard to please after what they have seen in other places. The possibilities of the mining industry on Vancouver Island they will perhaps be able to comprehend by what was shown them at Crofton, where the foundations of what is expected to prove a great centre of mining and smelting activity have just been laid.

THE POLITICAL SITUATION.

The political situation these newspaper men, though they be, will not be able to grasp so readily. We have been following the proceedings of our legislature very carefully for more than three months and we have not yet discovered any reason why it should be permitted to afflict us. But we beg to assure our friends that it is an abnormality, that by an unusual combination of circumstances a minority has obtained power and it refuses to accept the usual notice to get out. This state of affairs has a bad effect on business and injures the standing of the province, but it does not interfere with individual liberty, nor is it likely to result in anyone being sent to a "British bastille," although there are no doubt some worthy of heavier punishment than that. We shall rid ourselves of the incubus in time, however. All we ask now is that we be not judged by those who assume to be our rulers. There is no country in the world in which there is greater freedom within the law which is perfect guarantee of freedom than in British Columbia, or in any part of Canada. Some of our neighbors carry around prejudices which can only be removed by travel. The great majority of them cannot travel, and we hope the representatives of the press who are enlightened and intelligent, because they read as well as travel, will do their best to remove such prejudices and to promote cordial relations between the two branches of the great dominant race.

BRITISH LIBERALITY.

A notable and exceedingly liberal provision in the treaty ending the Boer war, is the one by which Great Britain agrees to loan the burghers money with which to resume their "normal occupations" for two years without interest, renewable with interest at 3 per cent. This is better than Grant's "take your horses home to plow with."

Of all the bicycle factories in Germany only six paid dividends last year. Fifteen large factories are on the point of going out of business.

Wedding and Birthday Presents

Among the numerous articles we have in stock suitable for presents, we would draw your attention to some specially fine lines of TEA SERVICES, FORKS and SPOONS, and other pieces, both in solid silver and electric plate. Fish and Dessert Knives and Forks and Carving Sets in cases.

Fine English Cutlery

and a variety of elegant pieces of Cut Glass, mounted with Sterling Silver, any one of which would make a beautiful present at a moderate price.

be the largest that has ever been assembled in so circumscribed a space in the world's history. Stiff regulations will be necessary to prevent accidents. We hope the apprehensions of the American who foresaw the possibility of the little island being sunk in the sea by the weight of the concourse may not be realized.

DIRGE FOR A SOLDIER.

George H. Baker.
Close his eyes; his work is done;
What to him is friend or foe-man,
Rise of moon or set of sun,
Lay him low, lay him low;
In the clover or the snow;
What cares he? He cannot know,
Lay him low!
As man may, he fought his fight,
Proved his truth by his endeavor;
Let him sleep in solemn night,
Sleep forever and forever,
Lay him low, lay him low;
In the clover or the snow;
What cares he? He cannot know,
Lay him low!

AN EMBARRASSMENT OF RICHES.

Toronto Globe.
Many of the complaints that are heard in this country are virtually complaints that we have more of the good things of this world than we can dispose of. Maintenance and the West raise so much wheat that the railways cannot move it fast enough. British Columbia has such an abundance of fish, minerals and timber that a market cannot be found for them. It is clear that this trouble will disappear with time. The country wants more population and more facilities for transportation. Between them British Columbia and the prairie country can supply nearly all the necessities of life, and all that is needed is a greater facility for exchanging their products, and a larger consuming population. A community whose only trouble is that it has too much wheat, beef, fish, fruit, vegetables, timber and minerals, is not badly off, though it may suffer some temporary inconvenience.

BRITISH LIBERALITY.

Seattle Post-Intelligencer.

President Sir Thos. Shaughnessy, of the C. P. R., who arrived last night is spending a very busy day in Victoria. This morning he was interviewed by a deputation from the board of trade, who urged upon him the construction of a hotel in Victoria by the company. The deputation consisted of Messrs. J. A. Mara, C. F. Todd, D. R. Ker, A. G. MacCallister and Secretary Elworthy. Sir Thomas was seen at the Driard, where he and party are staying, and when the subject was brought up stated that the company had not given it any consideration as yet, but it would be referred to the directorate. During the discussion which ensued on the matter Sir Thomas intimated that the hotel business had not always been found profitable by the company. Before withdrawing the deputation obtained from the president the assurance that an answer would be forthcoming at an early date. This afternoon Sir Thomas Shaughnessy and party will visit Bulon's ways, where work on the construction of the new C. P. R. steamer has just been commenced. He leaves tonight on the Majestic, going east from Seattle over the Great Northern.

The bakers and confectioners of the city will meet in Labor hall to-night for the purpose of forming a union.
A general meeting of the Victoria Lacrosse Club will be held at the Calladon Park after practice on Thursday night.
Mrs. Alice E. Tovey is in town awaiting the arrival of the steamer Victoria, of which her son is chief engineer.
On account of the rough weather the final heat in the J. B. A. Club races could not be rowed last evening, and was postponed until to-night.

The argument in Dowler vs. Union Assurance Company occupied most of yesterday's sittings of the Full Court. Their Lordships reserved judgment.
The next appeal called was Rae vs. Gifford, an appeal from the judgment of Mr. Justice Martin on the preliminary objections in the matter of the New Westminster election petition. The main question to be decided is as to whether His Lordship was right in holding that the petition to unseat Mr. Gifford was not presented within the twenty-one days after the election return, as required by the Election Act. The return was made to the deputy provincial secretary, not later than 9.30 a. m. on Saturday, September 21st, last, and the petition was presented to the registrar of the court about noon on Saturday, October 12th. Mr. Justice Martin decided that time began to run in favor of the respondent member the moment the return was made, and that therefore the 21 days allowed had elapsed when the petition was presented. From this decision Joseph Martin, K.C., is appealing. The argument was continued this morning, I. P. Duff, K.C., and A. E. McPhillips, K.C., being on behalf of the respondent, and at its conclusion the appeal was dismissed with costs by a majority judgment, the Chief Justice and Mr. Justice Drake confirming the decision of Mr. Justice Martin, while Mr. Justice Irving dissented. The member for New Westminster is therefore confirmed in his seat.
This afternoon the appeal in Saunders vs. Russell is being heard, I. P. Duff, K.C., representing the plaintiff, who is appealing; H. R. Robertson being opposed to him.
Mr. Justice Walker having returned from the upper country, the appeal in Nichol vs. Pooley will be heard as soon as he is ready to take his place in the Full Court.
Eleven appeals have so far been argued at this sittings, and as six others were removed from the list, being Vancouver appeals, there are still twenty-one cases to be argued before the court rises. The cases in order are Re Assessment Act and Lot 1, Albersell, and Harris vs. Dunsmuir. The argument in Saunders vs. Russell will probably occupy the attention of the court until 1 p. m. to-morrow.

Mr. Justice Drake presided in Chambers this morning, and disposed of the following applications:
McKewen vs. Le Roy, A. H. McNeill, K.C., for the plaintiff, and for leave to pay into court the sum of \$500 as security for costs of an appeal to the Supreme Court of Canada, which was granted. The application was unopposed.
The Upper Yukon Consolidated Co. vs. Bennett, on behalf of Wilson Bros., of which case Mr. Justice Drake has reserved his judgment until the hearing of a petition to wind up the company. His Lordship fixed Tuesday at 10 a. m.
The application for an injunction in Finch vs. White Bear was still further adjourned.

THE HUTCHESON CO., LD., VICTORIA, B. C.

City News in Brief.
—Get the best at the lowest price possible! D. I. Test & Coffee Co., Douglas and Johnson streets.
—Twenty guineas amounting to Nineteen Thousand, Eight Hundred and Fifty Dollars were granted by the Directors of The B. C. Permanent Loan & Savings Company at the last meeting held on Monday, the 13th inst.
—Weekly excursions to Port Angeles, Port Townsend and Seattle on steamers Rosalie and Majestic. One fare for round trip. Return tickets good on other steamer, on sale Saturdays and Sundays. E. E. Blackwood, Agents.
—Special Rates to Denver, Col.—On June 22nd and 23rd the Northern Pacific railway will sell tickets to Denver, Col., and return on account of the International Sunday School Association Convention at greatly reduced rates. For full particulars call on C. E. Laing, General Agent, corner Yates and Government streets, Victoria, B. C.
—A recreation building is to be erected at Work Point barracks. In another column will be seen an advertisement calling for tenders for the structure, which will be a frame one. Tenders will be received up to 12 o'clock noon on the 20th, and plans and specifications may be seen at the B. E. division office between 8 a. m. and 4 p. m., Sundays excepted.

Let us put on a policy for you.

A POSTPONEMENT—The Garden Party advertised as taking place to-morrow at Marfield, under auspices of the ladies of the Church of Our Lord, has been postponed until next Tuesday, 24th June, owing to the lamented death of the Hon. B. W. Pearce, a member of the congregation of that church.
—John Stahl, Jr., and wife, of Bountiful, Utah, are guests at the Poodle Dog. Mr. Stahl is one of the Press Association now visiting Victoria, representing the Davis County Clipper.
—About 80 of the Chicago Temple of Shriners, who have been attending the annual communication at San Francisco, will arrive in the city by the steamer Majestic this afternoon, and leave tonight again for the Sound. They will be entertained while here by a committee of local Shriners.
—The remains of the late Mrs. Grace Simpson were laid at rest this afternoon. The funeral took place at 2.30 p. m. from the residence of Mrs. W. H. Lowe, 131 Quadra street, and at 2.45 at the St. John's church. Religious services were conducted by Rev. P. J. Jans. There was a large attendance of sympathizing friends.
—The Sons of St. George held a meeting last evening, when it was decided to hold a ball in connection with the coronation festivities on June 27th. The committee having the arrangements in hand will leave no stone unturned to make the affair a success. The best orchestra will be engaged, and a first class musical programme given. The hall will be adorned in a manner appropriate to the occasion.
—The garden party which was to have been held to-morrow afternoon and evening at "Warfield," the residence of Bishop Cridge, under the auspices of the ladies of the Reformed Episcopal church, has been postponed to Tuesday, the 24th. This was done in deference to the memory of the late B. W. Pearce, whose death occurred this morning, and who has been a warm friend of the Bishop for forty years or more.
—Herbert Alexander was the victim of a very painful accident the other day. He was holding a gate open to allow his father's team through when one of the horses kicked him severely in the face. The boy was unconscious for some time after he was removed to the Provincial Royal Jubilee hospital, but he is now reported to be progressing favorably toward recovery.

—The Canadian Pacific and Canadian Northern railways are advertising special excursion rates from Winnipeg and other points in Manitoba and the Territories to Victoria, tickets good to return for 60 days. The rate from Winnipeg, Portage la Prairie and Brandon is \$45 for the round trip, while from points west of those mentioned the rates is reduced in proportion to the distance. The Tourist Association has been instrumental in inducing the companies to grant these exceptionally favorable rates, and hopes to see a large number of visitors from the prairie take advantage of them during the next two months. The Northern Pacific and the Great Northern are offering suitable rates from Manitoba, Minnesota and Dakota points to Tacoma and Seattle.
—A couple of drinks did not appear when their names were called in the police court this morning so their bail was arrested—\$10.99 in one case and \$11 in another. Tom, an Indian, was fined \$5 and \$1.00 costs, or ten days' imprisonment for a similar offence, while a first offender in this respect was fined \$2.50. The case of Thos. Baynon, charged with vagrancy, was dismissed. A warrant will be issued for the arrest of Samuel Woods, who is charged with frequenting a house of ill-fame. He has doubtless left the city. The charge of assault preferred against the pound-keeper went over until Thursday. The case of George, the West Coast Indian, charged with aggravated assault on another brave was not called, as the victim had not sufficiently recovered to appear. Particulars of the trouble are published in another column.
—Ice Cream Freezers, Refrigerators, Wire Meat Covers, Lemon Squeezers and other useful goods for summer in great variety at Welford.

ROW ON TURRET ROCK.
Indian Has Skull Fractured in Scrimmage—One Assault Caught.
There was trouble at Turret Rock and Victoria last night, doubtless originating in the usual way—whiskey. Charlie, a West Coast Indian, was sitting on the green talking in the landscape, which consisted of a row of cottages, when he was set upon by other Indians, and vigorously pounded. He managed to free himself, but was again caught and hammered, and only escaped by plunging into the harbor and swimming to his sail boat.
In the meantime the police were notified, and hastening to the scene of the disturbance, found the injured Indian in his boat. His injuries were examined by Dr. F. Hall, and it was found that his skull had been fractured. He was removed to St. Joseph's hospital, and this morning was reported to be progressing as well as can be expected. Robert, who is charged with aggravated assault, was arrested in his den by Sgt. Redgrave and Constables J. Wood and O'Leary. It was at first thought that he would put up a fight, but the officers had him handcuffed promptly. The other assailants have not been caught.
A method has lately been invented of converting sawdust into smelting gases, something after the manner in which acetylene gas is manufactured. It is expected to revolutionize the iron-making industry.
In Fiji there is a curious custom which arrives in myriads on the coast on a certain day. The waters are so full of them as to resemble vermicelli soup. After laying their eggs nothing is left of them but empty skins.

—On Thursday evening next at the city hall, commencing at 8 o'clock, the prize committee in connection with the exhibition will hold a meeting. Several meetings of the printing committee have been held recently, at which considerable business has been transacted.
—Two cricket matches are already scheduled to take place on Saturday. One is between the Victoria first eleven and the Garrison aggregation at Beacon Hill, and the other a game between the Victoria second eleven and the Fernwood team at Goodacre field.
—The young people of the Epworth League at Spring Ridge took charge of the programme at the W. C. T. U. Mission on Saturday evening. It is needless to say that the social was a success. The Gospel meeting will be held on Wednesday at 8 o'clock.
—To-morrow evening in the school-rooms of the Cavalry Baptist church an ecclesiastical social will be given by Miss Underhill and her pupils, assisted by Miss Dier, pianist, and Master James Locke, violinist. Admission will be free, but a collection will be taken during the evening.
—A regimental order issued yesterday by Major Munro makes the following announcement: "The following promotions having been recommended, the undersigned will act as second lieutenant provisionally, pending publication in the Gazette, and are posted to companies as under: To No. 5 company, Sgt. J. A. McTavish; to No. 1 company, Co. Sgt. Major E. R. Vigor; to No. 3 company, Sgt. W. K. Winney; to No. 2 company, Sgt. B. W. D. Harris."

THREE DEATHS.
John Pape and Mrs. Balle Passed Away Yesterday—Mrs. Penketh Died This Morning.
John Pape, a well known hack driver, died at the Provincial Royal Jubilee hospital yesterday, the result of injuries received at the Victoria Hotel by a kick in the neck and face from a horse. The force of the blow broke his skull and jawbone and crushed his face terribly. Medical skill proved of no avail, and he succumbed yesterday. He was well known in Victoria, being a member of several lodges, among which were the K. of P. and Alexander, Sons of England. Deceased was 50 years of age and a native of England. The remains will be laid at rest on Thursday morning. The funeral will take place at 10 o'clock from the parlors of W. J. Hanna, one of the members of Alexandra lodge, Sons of England, will attend in a body, while many of the members of the local Knights of Pythias will also be present.
The death occurred yesterday at the Provincial Royal Jubilee hospital of Mrs. A. A. Balle, wife of Leonard Balle, of this city. Deceased was the daughter of Mr. and Mrs. John Young, of No. 1 Hill street, and had a wide circle of friends and acquaintances in Victoria by whom the news of her death will be received with regret. She was a native of Berry Dale, Perry Sound district, Ontario, and was 19 years of age. The funeral has been arranged to take place on Thursday at 2.30 p. m. from the parents' residence.
Mrs. Richard Penketh, of 125 Quadra street, passed away suddenly this morning. She was well known in Victoria, having resided here a number of years. Deceased was a native of England and 63 years of age. She leaves to mourn her loss, two sons and two daughters, together with a husband. The remains will be laid to rest at Ross Bay cemetery on Friday afternoon at 2.30 p. m.
A person who has totally lost the sense of hearing in one ear, although he may imagine that the defect is of little consequence, cannot locate the direction of a sound to save his life, even when the centre of disturbance is quite near him.

—The Toronto Globe points out that the Mutual Life of Canada being now in its thirty-third year has the advantage to be gained by long experience and stability. The President, Mr. Robert Melvin, in his annual address dwelt upon the fact that notwithstanding the large transactions of the past year the expenses were less than in 1900, and the lowest percentage of expenses of all the companies doing business in Canada, which shows that while the company made rapid and substantial progress its affairs are prudently and economically administered. Intending insurers should obtain the rates and plans of the Mutual Life of Canada from B. L. Drury, Provincial Manager, 34 Broad street.

ARTIFICIAL CLAY.

Artificial clay, according to German reports, is receiving increased attention abroad. This ceramic novelty, which is used for the manufacture of artificial stone, tiles, gutters, etc., is composed of sand, chalk, cement, liquid glue and petroleum.

HOPE FOR ALL

NO DYSPEPTIC NEED DESPAIR OF BEING CURED. There is at least a Sure Remedy For All Diseases of the Stomach—Not Only Instant Relief but a Permanent Cure.

WHY BIRDS MIGRATE.

Speaking of birds coming back from the south, let me explain, so far as I can, where they have been, why they went and why they take the trouble to come all the way back again.

PAIN'S CELERY COMPOUND

HAS PROVED A BLESSING TO ALL RANKS AND CONDITIONS OF PEOPLE IN SUMMER. A GOVERNMENT OFFICIAL SPEAKS.

CHARACTER IN HANDSHAKING.

Something about a man's health may be told by the way he shakes hands. The firm, hearty shake of a sincere man may be rather rough, so that one is taught he has a grip, but it indicates stamata, while denoting absence of tact and refinement in points to physical strength.

CRIME AND FINGER-PRINT.

There is a curious article in Cassell's Magazine, by Mr. Tighe Hopkins, on "Crime and the Finger-Print," describing the manner in which Mr. Francis Galton's system of identifying criminals by their finger-prints, taken by Indian ink on white foolscap, as superseding the Bertillon anthropometrical system of identifying them by measuring certain portions of the framework, which in the adult do not change.

PAIN'S CELERY COMPOUND

HAS PROVED A BLESSING TO ALL RANKS AND CONDITIONS OF PEOPLE IN SUMMER. A GOVERNMENT OFFICIAL SPEAKS.

CHARACTER IN HANDSHAKING.

Something about a man's health may be told by the way he shakes hands. The firm, hearty shake of a sincere man may be rather rough, so that one is taught he has a grip, but it indicates stamata, while denoting absence of tact and refinement in points to physical strength.

PLACER MINING IN THE YUKON TERRITORY

Six leases of five miles each may be granted to a free miner for a term of twenty years, at the discretion of the Minister of the Interior.

PLACER MINING IN THE YUKON TERRITORY

Creek, Gulch, River and Hill Claims shall not exceed 250 feet in length, measured on the base line or general direction of the creek, gulch, or river, and shall not exceed 2,000 feet in width.

PLACER MINING IN THE YUKON TERRITORY

The person or company staking a claim, whether in gold or silver, must hold a Free Miner's Certificate.

PLACER MINING IN THE YUKON TERRITORY

The discovery of a new mine is entitled to a claim 1,000 feet in length, and the party consists of two 1,500 feet altogether, and the party must be charged with the cost of the party ordinary claims only.

PLACER MINING IN THE YUKON TERRITORY

Locations suitable for hydraulic mining, having a frontage of from one to five miles, depth of one mile or more, may be leased for twenty years, provided the ground has been prospected by the applicant.

PETROLEUM.

Any unappropriated Dominion Lands shall, after July 1st, 1902, be open to prospecting for petroleum.

Abbey's Effervescent Salt

is made from the Salts extracted from the juices of fresh fruits. Harmless, yet most effective in relieving the system of all impurities. Tones up the Bowels and promotes gentle and regular action.

A teaspoonful in a glass of water in the morning.

Will permanently cure all stomach troubles, dyspepsia, sick headache, liver and blood disorders.

All Druggists sell it.

Provincial News.

MILNE LANDING.

The annual meeting to elect a road boss was held here on Saturday last. A great deal of interest was taken in the election this year owing to the fact that a few voters had induced the late Otter Point road boss to run in Sooke, which resulted in defeat. The majority of voters decided to stand by one of their own number, Mr. Phillips receiving 17 and J. Poitree 16 votes.

TRAIL.

The Trail Ride Association has elected W. H. Aldridge as honorary president and W. J. Dextit as honorary vice-president. Rev. Mr. Irvine was chosen captain, and the other officers are: James R. McDougall, first lieutenant; Geo. Weir, secretary; F. George Morin, treasurer; J. D. Viets and S. G. Blythe, auditors. The league matches commenced on Saturday, and will be continued on the three Saturdays following.

NEW WESTMINSTER.

The provincial police received word yesterday of a shooting at Aldergrove, of which but meagre particulars have come to hand. Constable George Calcutt at once prepared to set out to investigate and to bring the man, named Monaghan, here as prisoner. Monaghan, a blond, about the age of Arthur Goldsmith, as the result of bad blood, which had existed between them for some time. The victim was said to be in a very serious condition.

VANCOUVER.

King, arrested under the name of Gray, as a vag, who turned out to be a professional thief and jail breaker. He was merely from the city jail here, was given two years imprisonment on Monday by Police Magistrate Russell. The Sisters of Providence will erect a new up-to-date hospital of stone and brick in place of the present St. Paul's. It will cost \$75,000. Rev. Dr. Faber, of Spokane, has accepted a call from the Congregation Emmanuel, of Vancouver.

PHOENIX.

A few days ago two men were hurt at the Knob Hill mine while springing a deep hole on that property. J. McClusky was loading the hole, had put in the powder, and lighted the fuse, and was pouring in water when the blast went off. His eyes were almost blown out, and his partner, A. Hedges, did not rise to the blast because he was close to the hole. McClusky was taken to the Phoenix hospital, recently opened, and last week the surgeon in charge found it necessary to take out what remained of both eyes. The case is peculiarly sad, as McClusky has no friends or relatives that are known. He is a single man of about 40 years, and a native of Quebec, and is now left without sight and without means of support.

PERSONAL.

H. A. Collins, illustrious potentate of the Toronto Shrine, who is on his way back from the annual session of the Imperial Temple in San Francisco, where he was elected third officer in command, is in the Victoria. He is on his way back East. A. C. Gordon, travelling organizer for the Sons of Scotland, is at the Dominion hotel. It is expected that a camp of the society will be organized in Victoria. Among the arrivals at the Dominion yesterday were: A. Finlayson, of Paisley, Ont.; and James Cunningham, of New Westminster.

S. A. Wilde, Canadian customs officer at Seattle, is paying a brief visit to Victoria. He is at the Dominion hotel. Chas. J. Hutchison and wife and G. W. Hassler and wife are among the tourists at the Dominion hotel. E. W. Molander, of Mount St. Helens, and E. Hall, of Demeross, are among the guests at the Victoria hotel.

Mr. and Mrs. Robert Martin, of Hazelton, Ont., are visiting their son, Justice Martin, of this city. Miss Cole, of the Boomerang, left by the Roanoke this morning for Seattle for the summer holidays. Mr. John, gentleman, user of the Black Rod in the Senate, Ottawa, is visiting the city.

THE DIRECTOR HAS HAD FAIR SUCCESS

SECURED A CATCH OF OVER SIX HUNDRED

Sealing Association Met Yesterday to Consider Demands of Indians—Fibery Cruiser Named.

Victoria sealers received good news yesterday. It came by cable from the captain of the schooner Director, which vessel, the message stated, put into Hakodate with all well on board and with a catch of 620 skins. This is the largest catch that has been reported since hunting operations were commenced this year, and in fact the only one of which news has been received coming from the vessels working on the Japan coast. The fish commission fishery schooner, and if all enjoy proportionately the success of the Director they will assist materially in making up for the shortage of the spring catch. The schooner will be joined by a fleet of six off the Copper Island coast, and if the season happens to be favorable may not after all prove the unprofitable one that it has up till now been regarded.

The cable news was read at a meeting of the Victoria Sealers' Association yesterday afternoon, when several matters pertaining to the management of the business on this coast was discussed. The most important of these was the advance in pay which the Indians are demanding before signing for Behring sea cruises. The increase asked is altogether beyond the reach of the Sealers' Association, and of course cannot be given. After considerable discussion of the subject it was decided to leave the matter largely in the hands of the captains of the various vessels for adjustment. Two of the schooners are now on the coast looking for native crews and the whole fleet to be sent to Behring sea will shortly be in search of Indian crews.

NAMED THE KESTREL. The name of Kestrel has been decided on by the Minister of Marine and Fisheries for the new Dominion fishery protection cruiser building at Vancouver. The vessel is being constructed by A. Wallace, of Vancouver, and is being put together at the foot of Granville street. She is now in an advanced state of construction, being ready for the reception of the boiler, built by Tolson, of Toronto. The new steamer is one of two which the Dominion government has built for the fisheries service, the Georgia, the vessel turned on in a Victoria shipyard, being already in operation on the Fraser. She is 101 feet over all, 24 feet by the beam, and 11 feet depth of hold. In christening her the Kestrel the department is following up the line of selecting the names of ships for the fisheries protection cruises. The bird of that name is a small, slender European hawk of a reddish fawn color, streaked and spotted with white and black.

N. K. Y. LINEER. Two of the Nippon Yusen Kaisha fleet will be in port to-day. The Toka Maru arrived this morning from Seattle on her way outward for the Orient, while the Kaga Maru passed Carmanah at 9 o'clock this morning inward bound. She should reach port this afternoon. She is bringing from the Orient for Victoria 107 tons of freight and 64 Chinese. The Toka has a very large cargo and a good number of passengers. To the list there were added three Japs, one European and one Chinese.

MARINE NOTES. Commencing in August the regular steamers plying on the Canadian-Australian route will take place at Suva for Vancouver. They will only take mail passengers, as the extra steamer to be placed on the route will make a big cleanup of the raw material at the Fiji Islands. A San Francisco dispatch says: "News has been received from Honolulu that the British barque Fantez Kern, laden with coal, from Newcastle, Australia, to which port, caught fire at sea and was abandoned by the crew, who safely reached land." R. M. S. Empress of Japan remained a very short time in port last night on her way to the Orient. A list of the steamer's passengers was given in last evening's Times.

The schooner J. D. Everett, loaded with lumber from the Hastings mill, and which called here several days ago to secure a crew, will proceed to sea to-day. Steamer Queen is due from San Francisco this evening. The City of Puebla will sail for the Golden Gate to-morrow evening.

The American barkentine Amaranth, lumber-laden from Hastings mills, arrived at Taku on June 9th. A St. Johns, Nfld., dispatch says the outbreak of smallpox in Labrador is growing more serious. The fisher folks on the northern coast of Newfoundland are appealing to the colonial government to urge the Canadian minister to prohibit intercourse between the infected locality and the remainder of the seaboard, where the ravages of smallpox would be very severe, did the disease once spread to it.

David Jones, who for many years was a teacher in the public schools of Nanaimo, died in Seattle hospital of pneumonia on Saturday. He was 40 years of age, and unmarried.

Ease for the Feet. If your feet are sore, itching, painful, tender, burning, chafed or blistered, slakers powder of Foot Eeze in each shoe. Its effects in giving the feet ease and making them cool and comfortable are something marvellous. Sold by drug stores at 25 cents a box, or sent by mail, postage free. D. V. Stott & Jerry, Bowmansville, Ont.

COFFEE is king of the Breakfast Table. It can spoil a good breakfast; it redeems a bad breakfast. Food feeds the body; coffee feeds both body and wits. It stimulates and arouses! Six hundred years has found no substitute for it. But unless you drink extra pure coffee you lose the subtle invigoration and might as well drink water. There are many ways of missing pure coffee; there is one sure way of getting it. Ask your grocer for Chase & Sanborn's Coffee and refuse substitutes.

"Seal Brand" In 1-lb. and 2-lb. Tin Cans (see opposite page) Other high grades in richly-colored parchment bags (moisture proof).

ANNUAL TRAINING AT FORT MACAULAY

REGIMENT TO MARCH OUT NEXT THURSDAY

And Will Spend Nearly Two Weeks in the Artillery and Fortress Instruction.

As announced in these columns last evening the Fifth Regiment, C. A., will commence its annual course of active training in camp at Macaulay Point on Thursday. In this connection the following regimental order has been issued by Major Monro, commanding the regiment.

The regiment will parade on Thursday evening, June 19th, at 7.30 o'clock in front of the drill hall, and will then proceed to Macaulay Point. Dress-Field day order, with haversacks; forage caps to be carried on right shoulder strap; great coats folded and strapped to the waist belt. Each man will provide himself with cleaning materials, brushes, etc., knife, fork, spoon, plate and cup. The following are the hours fixed for parades, etc., on week days during camp: 5.15 a.m.—Reveille. 5.45 a.m.—Breakfast. 6.15 a.m. to 7.45 a.m.—Drill and instruction. 8.45 p.m.—Dinner. 7.30 to 8.30 p.m.—Drill and instruction. 9.15 p.m.—First post. 9.45 p.m.—Tattoo. 10 p.m.—Lights out.

A guard consisting of one sergeant, one corporal, one trumpeter, and six men will be mounted every evening at 7.30, and relieved at 5.45 next morning by the camp police. For Thursday night, June 19th, No. 5 company will furnish the guard.

Orders for Thursday, June 19th, Second Lieut. Stevens; next to duty, Second Lieut. McTavish. The orderly officer will be on duty from 5.45 a.m. of the day named until 5.45 a.m. of the next day. Promotion.—To be acting regimental sergeant-major until further orders, Sergeant Holtzer.

The tent accommodation for the officers and men will be prepared before-hand. No. 3, 4, 5 and 6 companies will undergo instruction in fortress drill at Macaulay Point, and Nos. 1 and 2 companies will devote their time to field artillery drill. At the regimental parade last night Lieut. Col. Holmes, D. O. C., presented Major Monro, commanding the Regiment, and ex-Bandmaster Haynes, long service medals, the recipients having had seventy years' service. In making the presentation the district officer commanding made a complimentary speech to which Major Monro and Mr. Haynes replied in suitable terms. The latter was a member of the Imperial Sappers and Miners in British Columbia in the early days. The presentation took place after a drill, the regiment being drawn up in a square. The parade state showed a total of 123 as follows: Ten officers eight sergeants and 105 rank and file.

SPORTING

THE TURF MATCH RACE

New York, June 17.—It has been definitely settled that the match race between Thos. Lawson's Barntown and E. E. Mathers's Lord Derby for a side stake of \$20,000, shall take place at Hartford on Saturday, August 2nd. The horses have been matched, and forfeits of \$5,000 have been posted for same time.

BASKETBALL INTERMEDIATE MATCH

A match which is being looked forward to with a great deal of interest is Saturday's game between the intermediate teams Capital City and Fernwood. Both aggregations are practicing regularly, the one with the object of avoiding another defeat, and the other for the purpose of making a good showing when their first appearance in the arena. This will be the Capital's first game, and although it is reported that they have been rather unfortunate in losing some of their best players, one of whom was C. Kennedy, who is rowing in the senior crew, they will no doubt be able to hold their own. With A. Belya in the box and Ed. Whyte behind the bat the battery will be a first-class one, while their fielding is reported to be of an exceptionally fine character. The Fernwood team is already known. The boys have been practicing regularly and the trivler, Frank Moore, and catcher, H. Macmillan, promise to give the James Bay boys some surprises on Saturday.

YACHTING PRACTICE LAST NIGHT

Last evening the Young Nationals held a practice at Beacon Hill. The team is getting in shape for a match on Saturday with another local aggregation.

TIDE TABLE

Table with columns: Date, Time, Height, etc. for Victoria, B. C., June 1902.

The time used is Pacific standard for the 120 meridian west. It is counted from 0 to 24 hours, from midnight to midnight. The height is in feet and tenths of a foot. Zero of above heights corresponds to 11 feet in the fairway of Victoria harbor. Equalized at Dry Dock.—From observations during six months, May to October, compared with simultaneous observations continued at Victoria by F. N. Denison. For time of high water, add 14 minutes to L. W. at Victoria. For time of low water, add 11 minutes to L. W. at Victoria.

Weller Bros. are now showing a great many patterns of yard wide stair carpets in Brussels, Wiltons and Axminsters, in rich and effective colors and handsome designs.

Every three persons in Berlin, one has a savings bank account, or, more accurately, ten of every twenty-seven.

Cook's Cotton Boot Compound is successfully used monthly by over 100,000 ladies. Sells everywhere. Ladies who need it, take no other, as all mixtures, pills and ointments are dangerous. Price, 50c. per box. No. 8, 10 degrees stronger, \$1 per box. 1 or 2, mailed on receipt of price and two-cent stamp. The Cook Company, Windsor, Ont. No. 1 and 2 sold and recommended by all responsible druggists in Canada.

No. 1 and No. 2 are sold in Victoria at all responsible Drug Stores.

In order to assist the Tourists' Association in their work of attracting visitors to Victoria, and at the same time furnish a reliable guide of the best hotels, restaurants and private homes for summer travellers, the Times is making a feature of this directory. Space will be provided on specially favorable terms to advertisers in order to make the column as complete as possible.

On the improvements on lot 12, block 28, Fairfield estate, belonging to J. Sherbourne, have been removed, the assessment on same struck off. The land is assessed at \$500.

NEW MACHINERY INSTALLED. Lenora, Tree and Key City Plants Being Improved—W. Buxton From Sicker.

With the advancement of the summer season the work on the different Mount Sicker mining properties is increasing.

On both the Lenora, Tree and Key City mines new machinery is at present being installed, and arrivals from Sicker state that it will not now be any length of time before both the latter become active shippers.

At the Lenora men are employed in installing quite an amount of new machinery, among which is a new 100-horse power boiler supplied by the Vancouver Engineering Works and a seven-drill compressor, purchased of Holman & Co., of Cambridge, Cornwall.

At the Tree men are employed in installing quite an amount of new machinery, among which is a new 100-horse power boiler supplied by the Vancouver Engineering Works, and a seven-drill compressor, purchased of Holman & Co., of Cambridge, Cornwall.

At the Key City men are employed in installing quite an amount of new machinery, among which is a new 100-horse power boiler supplied by the Vancouver Engineering Works, and a seven-drill compressor, purchased of Holman & Co., of Cambridge, Cornwall.

At the Lenora men are employed in installing quite an amount of new machinery, among which is a new 100-horse power boiler supplied by the Vancouver Engineering Works, and a seven-drill compressor, purchased of Holman & Co., of Cambridge, Cornwall.

ANIMALS TRAPPED FOR THE MUSEUM

SOMETHING ABOUT THE WORK OF TRAPPERS

How They Prepare the Pelts for Exhibition—Hunters Carry a Large Outfit.

Although the old-time trapper has almost entirely disappeared before the advance of civilization, there are probably quite as many pelts now trapped for their value as in the palm days of Daniel Boone or Davy Crockett.

The casual visitor to Harvard, however, sees nothing of this army of specimens. They have their own part of the museum quite to themselves and are not to be seen in the dark cases.

Unlike the trapper of the old frontier period, the man who goes out to trap for a museum has to be sometimes of a taxidermist. The old frontiersman could skin an animal, as does his successor, but it is doubtful if many of them could have been willing to prepare them for market neatly as the modern collector.

When an animal is captured it is immediately measured for its length over all, the length of the paws and tail and the height of its ears.

Philadelphia, June 15.—Mrs. Rachel Saylor, a widow, was today shot and killed at Coatesville, Pa., forty miles west of here, by Harry N. River, of Newville, Pa., who was also killed by a bullet from his revolver while struggling with another woman for possession of the weapon.

DOGS OF WAR.

The latest military use to which the Germans have succeeded in training dogs (the accounts of recent trials, at least, point to much success in that direction) is for the humane purposes of the ambulance corps.

The world's ships carry 100,000,000 tons of merchandise a year, and this one-quarter by weight is coal and one-tenth wheat.

his own accident and not so much a part of nature's regular evolution of new varieties.

When the trapper has taken the first measurements he proceeds to skin his animal; the pelt is then stuffed with cotton until the creature is again its natural size, and fine wire is inserted in the paws and tail to keep them from breaking; finally the specimen is stretched on a board until thoroughly dry, each paw being fastened with a pin, and every skin shall have a uniform museum shape and be equally convenient to handle.

An ideally perfect condition would cover the district studied so thoroughly that not only would every animal be represented but each animal would be seen under all possible local conditions. A summer coat, for example, is very different from a winter one and any thorough knowledge of an animal must be this fact, as well as a long list of other factors into consideration.

Of the whole race of Germans is gradually being transformed from a rugged, shouldered, fat people into straight and slender soldiers, and this has been entirely due to hard military discipline.

Notice to Contractors. Tenders will be received by the undersigned at the Royal Engineer Office, Work Point Barracks, up to 12 noon, on the 20th inst.

EXECUTORS' NOTICE. IN THE SUPREME COURT OF BRITISH COLUMBIA. IN THE MATTER OF THE ESTATE OF SAMUEL DALY HARRIS, DECEASED.
