FLOWERING BULBS

FOR YOUR GARDEN

Bob's Blooming Bulbs
"LOS ROBLES GROWN"

GLADIOLI GARDENS
"THE LINCOLN WAY"
ON THE EAST CLIFF DRIVE,
Santa Cruz Cal.

OUR POLICY OF SERVICE

Our SERVICE POLICY in merchandising does not mean just courteous salesmanship, prompt delivery, good measure, and the like.

It consists of a great deal more than those—service in ascertaining and fulfilling the needs and desires of the public in a satisfactory and economical manner, the searching out of the best markets of the world from which may be procured the products best suited to meet our customers' requirements; merchandise which must meet and conform to the very highest standards, and which must also represent the maximum of value that is possible for us to offer at any fair price.

An old Persian proverb says, "The Priceless Ingredient of any product in the world is the Honor, and the Integrity of him who makes it!"

The safe delivery of our merchandise to a customer is never the conclusion of a transaction with us. We are interested in that customer for all time, for in the merchandise he receives is built all the Honor and the Integrity it is possible to include in any product or transaction!

By a close intimacy with the fundamentals of business ethics, by an intimate supervision of the many details involved in growing and marketing, and by a never-ending effort and interest in making our bulbs satisfactory to our customers, we are ever striving to better serve those who purchase from us.

For us, the growing of bulbs is not alone a business. In it we find a rare pleasure which compensates for many of the disappointments and hardships which come in any commercial enterprise. It is doubtful if ever there was a human being with high instincts, who ever was tired by the endless variety, and the glorious colorings of the bulbous flowers.

We would not find this pleasure in business were we to give each buyer just his money's worth of what his order called for, and then call the transaction finished!

Our pleasure is largely found in your pleasure—in the enjoyment you find in your flowers which have come to you from us, and in the delivery of that intangible something called "Good Will" or "Service," and which is always included in the delivery of our orders, "No Charge."

We will continue in our efforts to Serve, for a life-time of willing Service has made us incomparable Friendships of incalculable value.

TERMS

CASH.

Six bulbs at the dozen rate

Fifty at the hundred rate

We prepay delivery charges

REMITTANCES

Customer's personal check preferred and will be customer's receipt. Any other form accepted.

DISCLAIMER

Most of the failures with seeds and bulbs are due to causes entirely beyond our control, such as unfavorable weather, too deep or too shallow planting, slugs, etc.; therefore we give no warranty, expressed or implied, as to description, purity, productiveness, or any other matter of any seeds, plants, bulbs, etc., we send out, and will in no way be responsible for the crop; if the purchaser does not accept the goods on these terms they are to be returned at once.

SHIPPING SEASONS

The shipping seasons are of course dependent upon the range of the planting season. It is advisable to order EARLY and we will deliver as the stock is ready to plant.

INSPECTION LAWS

All stocks are shipped under the supervision of the inspectors of the County Horticultural Commissioner, subject to final passing by your County Commissioner. All stock shipped is supposed to be free from all insects and disease. In case stock should for any reason be condemned by your Commissioner, we will gladly refund the money. That is all we can do.

PLACE YOUR ORDER FOR BULBS NOW!

Deliveries will be made as soon as stock is ready to plant
This insures your planting at the right season.

GLADIOLI

With the exception of questions concerning culture, there is no question more frequently asked than the correct pronunciation of the word, gladiolus. As the official pronunciation is changed with every change of the moon, Dr. Bales of Triangle Farm, Circleville, Ohio, prompted to pen the following lines of doggerel:

Some folks call me glad-dee'-olus, (from gladius, meaning sword)
And some call me glad-die'-olus, a dictionary word.
Some call be gladi-o'-lus, which really is not bad,
But when I bloom my very best, both you and I'll be GLAD.

GLADIOLUS CULTURE

Although no flower gives more satisfaction than the Gladiolus, with ordinary care and culture in average soils, yet it readily responds to high culture, and the superior blooms produced by special attention amply repay for the additional care. Only those who have seen the Gladiolus at its best can realize the vast difference between the blossoms produced by first-class methods and those less carefully grown. We strongly advise our friends to employ only the best cultural methods possible.

It is advantageous to spade in a good covering of manure late in the fall preceding the plantings. The richer the soil and better the care and culture the better the results will be. In the spring, when the soil is in proper condition, spade deeply and pulverize thoroughly. Fresh manure should not be used. Select a sunny location. "Glads" are like folks—they need a lot of sunshine or they appear pale and anemic and sickly.

For a long blooming season, plant at intervals of about two weeks from the first garden-making time until the middle or latter part of June. Bulbs can be planted four inches deep and over in mellow soils, and four to eight inches apart in the row. The deeper planting will help to keep the plants from falling over at blooming time.

Frequent thorough waterings of the soil in the beds at evening is a wonderful stimulant and gives the blooms much greater sun resistance and lasting qualities. Keep the soil well worked, especially early the next forenoon after being watered the previous evening. Always keep a soil crust from forming in the rows among the plants. After blooming spikes begin to show, cultivate only about two inches deep. Do not work the soil when wet. Do not plant too near to walls or shrubbery.

Varieties vary in different soils and seasons. Some do their best only in alternate years. Some varieties produce monster bulbs

while others produce small ones. The bulbs of most varieties have a fine satiny covering, but some have a rough husk.

Slender stakes of wood or bamboo painted a light green make good supports for the spikes at blooming time. Where horizontal lines are used they should be fastened to end posts firmly set and the wires tightly stretched.

If wanted for cut-flower purposes, the flower-spikes should be cut when the first bloom opens. Four leaves of the plant should remain to properly mature the bulb. After cutting the flower-spike, place it in water. One bud after another will open. Each morning cut off the stem on a long slant, remove the withered flowers and give fresh water. Drooping flowers will revive, if placed in a cool cellar over night.

Dig bulbs during October; cut off the top close to the bulb and cure by drying a few days in or out-of-doors, then store away in boxes not over 4 inches deep in a cool part of a frost-proof cellar. Bulbs should not be kept in air-tight packages.

GLADIOLI

| Small..... | .10 | .30 | .50 | 1.00 | 6.00 |
| ORANGE PRINCE—(Vos). One of those rare colors among the Prims. Capucine orange slightly tinted deeper orange. Tall straight spikes with many flowers open at one time | | | | | |
| Large..... | .10 | .30 | .50 | 1.00 | 6.00 |
| Medium..... | .10 | .20 | .30 | .60 | 4.00 |
| Small..... | .05 | .10 | .15 | .30 | 2.00 |

| | | | | | |
|--|-----|------|------|------|-------|
| PARAMOUNT—(K 1918). A wonderful blending of pink and cream. Similar to Mrs. Dr. Norton | ea. | 3 | 6 | 12 | 100 |
| Large..... | .50 | 1.40 | 2.50 | 5.00 | 30.00 |
| Medium..... | .30 | .80 | 1.50 | 3.00 | 18.00 |
| Small..... | .20 | .55 | 1.00 | 2.00 | 12.00 |
| PURPLE GLORY—(K 1926) (R). Deepest velvety maroon-red with almost black blotches. A perfect giant among gladioli. | | | | | |
| Recommended Large..... | .25 | .70 | 1.25 | 2.50 | 15.00 |
| Medium..... | .15 | .40 | .75 | 1.50 | 10.00 |
| Small..... | .10 | .30 | .50 | 1.00 | 6.00 |
| PROF. A. C. BEAL—(Kirchoff). Deep maroon, a flower of good merit | | | | | |
| Large..... | .50 | 1.40 | 2.50 | 5.00 | 30.00 |
| Medium..... | .30 | .80 | 1.50 | 2.00 | 12.00 |
| Small..... | .20 | .55 | 1.00 | 2.00 | 12.00 |
| PINK WONDER—LaFrance pink with yellow shading at base of lower petals, overlaid with a feathering of rose. Extra good pink | | | | | |
| Large..... | .25 | .70 | 1.25 | 2.50 | 15.00 |
| Medium..... | .15 | .40 | .75 | 1.50 | 10.00 |
| Small..... | .10 | .30 | .50 | 1.00 | 6.00 |
| PYTHIA—(K 1918). Magnificent stately spikes of gigantic red blossoms, several open at one time. Showy in the extreme | | | | | |
| Small..... | .20 | .55 | 1.00 | 2.00 | 12.00 |
| Medium..... | .15 | .35 | .65 | 1.25 | 8.00 |
| Small..... | .10 | .25 | .40 | .75 | 5.00 |
| PANAMA — (Banning). A fine deep lavender pink, a true rose color. Fine for bedding | | | | | |
| Small..... | .10 | .20 | .30 | .60 | 4.00 |
| Medium..... | .05 | .12 | .20 | .40 | 2.40 |
| Small..... | | | | .20 | 1.00 |
| PEACE—(Groff 1918). Extra tall spikes of pure white blossoms with lilac feathering in lower petals | | | | | |
| Large..... | .10 | .20 | .30 | .60 | 4.00 |
| Medium..... | .05 | .12 | .20 | .40 | 2.40 |
| Small..... | | | | .20 | 1.00 |

PRINCE OF WALES—(VanZanten 1910). Softest salmon with an apricot undertone. Large flowers and very early. One of the biggest sellers

| | | | | | |
|-------------|-----|-----|-----|-----|------|
| Large..... | .10 | .25 | .40 | .75 | 5.00 |
| Medium..... | .10 | .15 | .25 | .50 | 3.00 |
| Small..... | | | | .25 | 1.50 |

PRINCE OF WALES IMPROVED
—Dark salmon pink with a bright carmine blotch. A beauty, somewhat resembling a sea-shell

| | | | | | |
|-------------|-----|-----|-----|------|-------|
| Large..... | .15 | .40 | .75 | 1.50 | 10.00 |
| Medium..... | .10 | .30 | .50 | 1.00 | 6.00 |
| Small..... | .10 | .20 | .30 | .60 | 4.00 |

PEACH BLOW—(Cowee 1914). An old fashioned favorite with deep pink, but small flowers

| | | | | | |
|-------------|-----|-----|-----|-----|------|
| Large..... | .10 | .20 | .30 | .60 | 4.00 |
| Medium..... | .05 | .12 | .20 | .40 | 2.40 |
| Small..... | | | | .20 | 1.00 |

PURITY—(Pommert). A pure white with flowers and habit like America. Very good substance

| | | | | | |
|-------------|-----|-----|-----|-----|------|
| Large..... | .10 | .25 | .40 | .75 | 5.00 |
| Medium..... | .10 | .15 | .25 | .50 | 3.00 |
| Small..... | | | | .25 | 1.50 |

PRIMROSE BEAUTY—(K 1918). (Prim). A very pretty yellow prim. Tall, strong spikes of large primrose yellow. Early

| | | | | | |
|-------------|-----|-----|-----|------|-------|
| Large..... | .15 | .40 | .75 | 1.50 | 10.00 |
| Medium..... | .10 | .30 | .50 | 1.00 | 5.00 |
| Small..... | .10 | .20 | .30 | .60 | 4.00 |

PINK PERFECTION—(Hopman 1913). An exquisitely lovely flower of La France pink; throat paler with a peculiar frosted appearance. Graceful willowly stems, and many open at one time

| | | | | | |
|-------------|-----|-----|------|------|-------|
| Large..... | .25 | .70 | 1.25 | 2.50 | 15.00 |
| Medium..... | .15 | .40 | .75 | 1.50 | 10.00 |

| | | | | |
|--|-----|-----|------|------|
| PRINCEPS — (VanFleet 1897). ea. | 3 | 6 | 12 | 100 |
| Rich dark scarlet marked with white, foliage dark green | | | | |
| Large..... | .15 | .40 | .75 | 1.50 |
| Medium..... | .10 | .30 | .50 | 1.00 |
| Small..... | .10 | .20 | .30 | .60 |
| PAR EXEL—A round petaled salmon queen | | | | |
| Large..... | .15 | .40 | .75 | 1.50 |
| Medium..... | .10 | .30 | .50 | 1.00 |

| ROSE GLORY—(K 1916) (R). A very large and splendid ruffled flower of purest pink; deep blotch in the throat | | | | |
| Large..... | .15 | .35 | .65 | 1.25 |
| Medium..... | .10 | .25 | .40 | .75 |
| Small..... | .10 | .15 | .25 | .50 |
| ROSE PRECOSE—Color of Pink Perfection | | | | |
| Large..... | .25 | .70 | 1.25 | 2.50 |
| Medium..... | .15 | .40 | .75 | 1.50 |
| Small..... | .10 | .30 | .50 | 1.00 |

RADIUM—LaFrance pink tinted ea. 3 6 12 100
 lighter. Lower petals have a
 scarlet blotch on a creamy
 white ground

| | | | | | |
|-------------|-----|-----|-----|------|-------|
| Large..... | .15 | .40 | .75 | 1.50 | 10.00 |
| Medium..... | .10 | .20 | .50 | 1.00 | 6.00 |
| Small..... | .10 | .20 | .30 | .60 | 4.00 |

RED CANNA—One grower terms
 it the "tallest glad" having
 grown it six feet in height.
 Brilliant self color

| | | | | | |
|-------------|-----|-----|------|------|-------|
| Large..... | .25 | .70 | 1.25 | 2.50 | 15.00 |
| Medium..... | .15 | .40 | .75 | 1.50 | 10.00 |
| Small..... | .10 | .30 | .50 | 1.00 | 6.00 |

ROSE PEARL—A seedling from
 Wilbrink. Can be described as
 a Wilbrink without the yellow
 marking on the lower petals.
 Flowers are large, well ex-
 panded with a pearl-like lustre

| | | | | | |
|-------------|-----|-----|-----|------|-------|
| Large..... | .15 | .40 | .75 | 1.50 | 10.00 |
| Medium..... | .10 | .30 | .50 | 1.00 | 6.00 |
| Small..... | .10 | .20 | .30 | .60 | 4.00 |

ROUGE TORCH—(Tracy 1914).

An old favorite, a delicate
 cream tinted with pink; lower
 petals have torch-like tongue

| | | | | | |
|-------------|-----|-----|-----|------|------|
| Large..... | .10 | .30 | .50 | 1.00 | 6.00 |
| Medium..... | .10 | .20 | .30 | .60 | 4.00 |
| Small..... | .05 | .10 | .15 | .30 | 2.00 |

1910 ROSE — (K 1915). Very
 large flower of pure, clear rose-
 pink; white central lines on
 lower petals. Very good sub-
 stance and good keeper

| | | | | | |
|-------------|-----|-----|-----|-----|------|
| Large..... | .10 | .25 | .40 | .75 | 5.00 |
| Medium..... | .10 | .15 | .25 | .50 | 3.00 |
| Small..... | | | | .25 | 1.50 |

ROBERT J. KUNDRED — (K
 1918). Medium tall, very bril-
 liant orange vermilion. Very
 showy self color

| | | | | | |
|-------------|-----|------|------|------|-------|
| Large..... | .35 | 1.00 | 1.75 | 3.50 | 20.00 |
| Medium..... | .20 | .55 | 1.00 | 2.00 | 15.00 |
| Small..... | .15 | .35 | .65 | 1.25 | 8.00 |

| | | | | | |
|--|-----|-----|------|------|-------|
| ROSE ASH—(Diener). The color an exquisite old rose, blended with ashes of roses; a lovely combination of color, fine ruf- fled, a tall and straight grower | ea. | 3 | 6 | 12 | 100 |

| Medium..... | .10 | .15 | .25 | .50 | 3.00 |
| Small..... | | | | .25 | 1.50 |

GLADIOLI IN MIXTURES

Mixtures outside of the Primulinum Hybrids are "built to order." You may in order ask for absence of any color. Each mixture is made for the occasion, with equal number of each color. All named varieties. We do not plan to put PRIMS in regular mixtures.

MIXED GLADIOLI—Department store quality. Contains not less than 10 varieties. Full range of color, all strong growers, large flowering sorts.

| | | | |
|---------------------------|-----|--------------|--------|
| Large size.....dozen..... | 50c | 100 for..... | \$3.00 |
| Medium size....dozen..... | 25c | 100 for..... | 1.50 |

PRIMULINUM HYBRIDS—All pastel shades. Well balanced strain varieties of gladioli. Contains many varieties not included in Department Store Mix.

| | | | |
|---------------------------|-----|--------------|--------|
| Large size.....dozen..... | 75c | 100 for..... | \$5.00 |
| Medium size....dozen..... | 40c | 100 for..... | 2.40 |

PRIMULINUM HYBRIDS—All pastel shades. Well balanced strain of these wonderful tinted glads. (See next sheet).

WHY NOT place your order for delivery on 500 or 1000 Mixed Gladioli to be delivered to you EACH MONTH the balance of the planting season?

Primulinum Hybrids

This is why we call them Butterfly glads!

The Primulinum Hybrids are a distinct type of gladioli - a new race - distinguished mainly for their fine and varying shades of yellow, orange, saffron and pastel tints, graceful, slender stems, and airily poised and hooded flowers - reminding of a Butterfly. - Particularly adapted to garden planting.

They are not expensive: Large sized bulbs 25 FOR \$1.00

100 FOR \$3.00 Postpaid.

No. 3 (medium sized) 50 FOR \$1.00 100 FOR 1.50

500 FOR \$7.00

Gift Boxes for the Garden

Make very attractive and lasting remembrances for your friends or the amateur gardener. Such a gift gives great pleasure, as the recipient has the pleasure of planting and growing these flowers.

To meet an increasing demand, we are packing some of the varieties of bulbs in cartons suitable for gift boxes, two of which are described here. We can make up these boxes in any special mixture or price.

Garden Bulbs

Containing our 50 seasonable bulbs, including gladioli, daffodils, hyacinths and tulips. \$3.00.

These boxes are also packed with other bulbs and in all sizes, as listed under the various varieties.

**“To Make the New Year Glad
Just Send a Box of Glads”**

GLADIOLI SEED

Many of the most wonderful commercial sorts of gladioli in demand today were chance hybrids. A wonderful opportunity for you to "produce" a new gladioli. The seed can be grown to produce flowers the first year if sown early and will make splendid bulbs for the second year blooming.

SHOW GARDEN MIXED—Seed taken from seed pods from our trial show garden—all colors.

PRIMULINUM HYBRIDS—Flowers of distinct form which possess the clearest tone and tints of color to be found. From a very fine balanced color assortment.

100 seeds.....25c 1000 seeds.....\$1.75

COLLECTIONS OF GLADIOLI BULBS

GARDEN FULL OF GLADIOLI

A box of 50 bulbs, representing every color of the gladioli kingdom. All large sized blooming bulbs, in a special packed box ready for shipping.....\$3.00

HALF GARDEN—Same as the above, but containing 25 bulbs in mixture.....\$1.50

"ONLY-ONE" COLLECTION

This has been entirely revamped this season. **JUST THE THING FOR THE BEGINNER.** One each of twenty five varieties of standard named varieties of gladioli, well balanced in color, large blooming bulbs. An exceptionally good value, sold for educational purposes. Never before offered at this price. Bulbs are NOT labeled as to name.....\$1.50

"THE BANKER'S 200"

In filling an order for 200 mixed gladioli for an Oakland banker, we thought of adding a little service and kept the varieties separate and so labeled them. The order has brought in so many return or repeat orders, that we include it now as a regular collection. All large sized blooming bulbs, (1¼ inch and 1½ inch and up), 20 each of 10 varieties, named on the bags, our choice of varieties but full range of color, or you may suggest color preference. A wonderful value\$5.00

Medium Size No. 3 Gladioli Bulbs
100 for \$1.50

More about our offer of a mixture of medium sized
Gladioli Bulbs we sell at 100 for \$1.50 postpaid, or
50 for \$1.00. There are 3 sizes (1") and throw fine
blooms. Each order is specially mixed from standard varieties of a large range of color. Wonderful for mass planting. We can recommend them because of the repeat orders and increased demand each season.
If you prefer larger (1 1/2") bulbs there are 50 for \$2.00 or 100 for \$3.00. Some of our customers have standing orders for as many each month.

MINIATURE GLADIOLI

Plant October-November

Blossom Time May-June

The culture of these Miniature Gladioli is very easy. Plant from October to December and you will be rewarded with wonderful blooms in May and June. Plant the bulbs 6 inches apart and 3 to 4 inches deep. Mass planting is very effective, and in our own growing we often get three or more spikes from one bulb. The flowers are borne on long slender stems and are in great demand as cut flowers.

DAFFODILS

Plant October-December—Flowers February-March

To briefly explain the words Narcissus and Daffodil—Daffodil is the English name for a large family of plants and Narcissus is the Latin name; in other words, they are the same thing. However, custom has decreed that they do not mean the same thing, hence the confusion.

The word Narcissus is generally confined to the pure white petaled division like the Poeticus and to the bunch flowered varieties like the paper white. All others are in popular language Daffodils.

We list only the better and the newer varieties. They bloom in March. For outdoor planting, set before December in rich ground four inches below the surface and four to six inches apart.

Note: Due to existing state and federal regulations covering the shipment of narcissus and daffodils, all orders are accepted subject to securing stock meeting these many restrictions.

CROCUS

(PLANT OCTOBER-DECEMBER)
(FLOWER IN EARLY SPRING)

Crocus are of very easy culture. Beautiful upright bell-shaped flowers, with grass-like foliage, and very early. They are at home if planted in grass plots or lawns and make fine borders and potted plants.

HYACINTHS

PLANT OCTOBER-DECEMBER—FLOWER IN MARCH

Hyacinths are very fragrant and come in a great variety of colors. They make a magnificent display when grown outside in a bed. They are also very satisfactory when grown in pots or in glasses of water. We are listing the single type only, as they are far superior to the double, and more certain to bloom. For outdoor culture set the bulbs so that the tops will be 3 to 4 inches below the surface and 6 to 10 inches apart. For pot culture use a 4-inch pot for a bulb or a large pot for 2 or 3 bulbs, and leave the tops of the bulbs just above the surface. After potting give a good watering and set away in a cool place and cover with coal ashes or sand until thoroughly rooted, which takes from 8 to 10 weeks. During this time do not allow them to become dry. They may then be set in a cool, light place until the flower spikes have developed, when they may be placed wherever they are wanted.

Due to the exceedingly high prices on hyacinths we omit the named varieties, advising our patrons to use the bedding size.

BEDDING HYACINTHS

These are good strong bulbs, imported direct from Holland, and will produce fine flowers. Exceptionally fine for bedding in mass effect.

MIXED SHADES

Bedding size, 14-16 cm., 15c each, \$1.50 per 12

Miniature size, 12-14 cm., 10c each, \$1.20 per 12

Light blue shades, mixed. Rose and pink shades, mixed.

Dark blue shades, mixed. White shades, mixed.

Dark red shades, mixed. Yellow shades, mixed.

All colors, mixed.

SCILLAS

(Squills or Woods Hyacinths)

As edgings and masses in beds and borders, Scillas are most valuable. They succeed in shady flower borders and bare shady places and odd corners which often have a desert-like appearance in the flower garden can by their use be rendered bright and cheerful. Prices per dozen and 100 include postage.

SIBIRICA—(The Blue Squill). Bright blue, nothing more beautiful for edgings or pots in early spring, flowering with the Snowdrop. Height, 4 inches. Mammoth bulbs. Doz., 80c; 100, \$5.50; 1000, \$50.00.

CAMPANULATA—Clear blue, very erect in habit (15 inches). Doz., 75c; 100, \$5.00; 1000, \$45.00.

Alba—Pure white (12 inches). Doz. 75c; 100, \$5.00; 1000, \$45.00.

Rosea—Fine rose (15 inches). Doz. 80c; 100, \$5.50; 1000, \$50.00.

PERUVIANA COERULEO—(The Cuba Lily) (Peruvian Hyacinth) Very attractive in the herbaceous border or bed. Height 6 to 12 inches. Broad conical compact raceme of (100-150) purplish flowers. 35c each; \$3.50 per dozen.

TULIPS

DARWIN TULIPS

PLANT OCTOBER-DECEMBER—FLOWER IN APRIL

Darwin Tulips are beautifully outlined, cup-shaped and carried on tall, stiff stems. They vary in color from almost jet black, crimson and scarlet, purple to lilac, mauve, pink and indescribable intermediate blending and pastel shades. Yellow is the one color missing, but this can be supplied from the Cottage varieties listed on following pages and from the richly blended Breeders, varieties may be chosen which will increase the effectiveness of a planting of the pastel tints so prevalent among the Darwins.

PLANTING. Plant four or five inches deep and six inches apart in raised beds or borders so that the bulbs are slightly above the level of adjacent lawn or walks. In preparing the ground, use Bone Meal (three handfuls to a square yard), thoroughly mixed through the soil.

BREEDER TULIPS

Breeder tulips are closer to the parent type of this ancient flower than others. The origin of the tulip is hidden in the dim past. But we know that the Dutch fanciers who in 1634 to 1637 speculated in new varieties during the reign of tulipomania grew the "mother bulbs," or Breeder tulips, to produce new striped varieties by "breaking." The Darwin race is supposed to have developed from the Breeders. For a long time the dark, rich colors of the latter were neglected in favor of the brighter and clearer tones of the other types. But recently taste has changed, and the richly hued Breeders have come into favor.

Though not so tall, perhaps, produce as a rule, even larger blossoms than the Darwins. The colors include many rare among flowers—browns, bronzes, purples, blue-blacks, deep mauves, dull gold and dark lilac all exquisitely blended.

Planting. Plant the same as Darwins.

| A complete collection of all colors of long stemmed tulips made of named varieties listed in this catalog with great care, insuring a wonderful as- sortment for your garden | \$.65 | \$4.50 |
| HOLLAND MIXTURE | .50 | 4.00 |

COLLECTION OF TULIPS

One each of 25 varieties, all different, packed in
a neat box.....\$2.00

The Greatest of Tulips is Louis XIV

YOU CAN BUY 12 THIS YEAR FOR \$1.25

Few will dispute the claim of Louis XIV to first rank among the tulips. It may have a rival in height, though it would be difficult to find one. There may be other varieties as large, and some which compare with it in rich and beautiful coloring. But to match it in all three respects, in dignified height, impressive size, and color all combined, there is no variety that we know. By general consent, Louis XIV has reigned king of all tulips, since it was introduced as a new variety some 12 years ago.

It was priced at \$13.00 a dozen. The price of a tulip is not governed entirely by merit. The fact that there are relatively few bulbs in existence during the first years of its propagation, forces a high price. As the number of bulbs increases this price naturally falls, without any corresponding decline in the merit of the flower. It has been so with Louis XIV, but the drop has not been rapid. In 1926 it was catalogued at \$3.00 a dozen, which was less than some of the newer sorts of far less merit.

This year the large Dutch production gave us a chance to buy a quantity of Louis XIV at a price which would permit us to make a special offer to our customers, and we resolved to do what we could to place Louis XIV bulbs in as many gardens as possible. We offer first quality bulbs of Louis XIV for \$1.25 a dozen; and we urge everyone who has a favorable place to grow them, to invest in at least a dozen of these finest of all tulips. And it may be a century before any better tulip is developed than this truly royal flower.

The rich coloring of this variety is at its best when planted with flowers of a lighter color, and in a position which enjoys the full sunlight. Louis XIV makes a wonderful cut flower, and is often used with petals turned back, to show its beautiful center.

REMBRANDT TULIPS

Rembrandt tulips are in reality "broken" forms of Darwin Tulips. Broken tulips, on account of their odd colorings and variegations, were very popular at one time, and while the modern tendency to favor self-colors is recognized generally throughout all countries, these broken forms pass splendid value. The stems average 18 to 22 inches in height.

EXTRA FINE MIXED.....75c doz; \$5.50 per 100

COTTAGE TULIPS

As with the Darwin and Breeder types, the classification of Cottage tulips is by race and history, rather than any striking difference in appearance. This type is inclined to have pointed petals, sometimes turned back, and the blossom to be smaller and more slender. But they harmonize perfectly with the Darwins and Breeders and supply a quality of clear, bright color which these lack; while they have pure yellows not found in the others.

Every known shade is to be found among these, from deepest crimson, to bright red, orange, glorious yellows, pink and a host of delicate tints of yellow, pink, cream and heliotrope. They blossom a few days later than the Darwins, often carrying the flowering period of Spring bulbs into the early days of June, especially if planted in a shady position. Many sweet-scented varieties are included, such as Ges. Lutea.

MENDEL TULIPS

An entirely new strain of tulips, raised from crossings between Duc von Tholl and Darwin tulips. Most of the acquired varieties produce flowers of the Darwin type but with colors of the early tulip class. Very early.

SUPERFINED MIX.....Each, 10c; dozen; \$1.00; 100, \$6.00

STRIPED TULIPS

Though too gay for modern taste to serve in large plantations, the old-fashioned striped tulips are beautiful. They prove that the Dutch tulipomania was not without excuse, and no gardener who wishes his collection to be representative will be without some specimens.

For indoor decoration a few of these truly beautiful and unquestionably striking flowers will be found most welcome. Particularly in May, when they blossom, will their contrasted shades be welcome both indoors and out. Culture same as for Darwins.

BIZARRES—Mixed. Flowers beatifully blotched, striped and feathered with crimson, pink, scarlet, rose, lilac, and purple on yellow ground. Per doz., 75c; 100, \$5.00; 1,000, \$45.00.

BYBLOEMENS Mixed. White ground, blotched, striped or feathered with lilac, purple, violet, blue. Per. doz., 90c; 100, \$6.00; 1,000, \$55.00

LILY FLOWERING TULIPS

A new class of Tulips very beautiful and decorative. A cross between Darwins and Tulipa Retroflexa. The flowers have the grace and shape of Lilioms as the name indicates.

PARROT TULIPS

Their fringed and corrugated petals with their wonderful variation make these old-fashioned flowers the most curious of all tulips. Flowering at the same time as other late sorts; they are entirely distinct from any other; the flowers are thick-petaled with extra long stems, and keep extremely well after being cut. The average height is 15 inches.

EXTRA FINE MIXED.....65c doz.; \$4.50 per 100

IRIS

SPANISH AND HOLLAND IRIS

(Plant During September)

(FLOWER TIME—APRIL-MAY)

One of the most satisfactory varieties of Iris to grow, being particularly hardy. The flowers are of great beauty, having many different blendings in color, and if cut when in the bud will last a long time in water. For best effect they should be planted in clumps or masses of from 25 to 100 or more bulbs, set 6 inches apart and 2 to 3 inches deep. They grow 18 to 24 inches high and bloom from the end of March on through June.

(These should be planted during September. Orders should be booked early, and we will not supply after September 30th. All orders booked subject to crop production.)

SUSIANA MOURNING IRIS

This is a very beautiful and quaint Persian variety growing about 18 inches tall and blooming in April and May. The large flowers are chocolate light gray veined with a network of chocolate lines. The rhizomes should be set 3 inches deep and 12 inches apart. Stock very limited this season.

Strong roots. Price \$1.00 each

IRIS PAVONIA

The true Peacock Iris from Cape Colony and botanically known as *Moraea Glaucoptis*, *Moraea* being the African representative of the Iris. While of a fragile nature, this variety is well worth the while in your garden—a wonderful white iris with segments the size of a quarter dollar with a blue spot at the base like a Peacock eye. Stock is very scarce in America.

Strong corms, 15c each, \$1.00 per dozen

Introduce Your Garden to Some New Iris

GERMAN IRIS

If there were any doubt as to which of the perennials is supreme as a landscape flower, the past season has dispelled it. The improved varieties which make the modern iris seem a different race, were seen in their full effect in thousands of the more advanced gardens in spring; and the verdict was unanimous that of all the pictures possible in the flower garden, that painted by the irises is most brilliant.

What flower can match their wonderful range of color, and at the same time equal their variety of size and form? The only color lacking in the iris, red, is the one least essential in the garden. Of pinks, purples, both red and blue; yellows from pale cream to the deepest gold, it is now possible to obtain varieties of almost any height wanted from 18 inches to 4 feet. There are pure whites low and tall, and the beautifully delicate *plicatas*—white edged with purple—to highlight groups of the duller colors. There are bronzes and browns, and luminous ruby colors, to glow in the sunshine.

Too long have the newer irises been collectors' flowers. The time has come when they must leave the prosaic surroundings of the collectors' rows, and take their rightful places in the garden, where their beauty may be displayed at its best, set off by beautiful surroundings. Give them a background of cool green; group them with studied care for color-harmony and contrast; light up the duller ones with plentiful white; balance the blue-purple with good yellows, and let the pink varieties supply the warmth which completes an entrancing picture.

There is no longer any reason for delay in acquiring some of the better irises. Prices are down and merit has been established so that investment may be made without risk of error. There will always be the very latest introductions, which will interest chiefly those who take pride in the completeness of their list. Even these, at the higher prices, will usually be found a good investment; since the increase should keep pace with reduction in prices. And certainly that garden will soon be out of date which does not begin

now to add to its attractions those varieties which established the modern standard of beauty in this race, and have now become plentiful and moderate in price.

Iris es dominate the border in the period that follows the tulips and precedes the peonies. Their season continues about one month. Those few perennials which blossom with them cannot compare with the irises in grandeur; so that no garden can afford to do without them.

If there is any flower more easily grown, more gratefully responsive to the gardener's care, we do not know it. And our climate seems to have been made for the hardy varieties; they enjoy our cold winters and our hot summers, and ask only a place in the sun, which is well drained. They may be planted in the mid-summer, the autumn or the spring; and they do well in each case.

THE CULTURE OF IRISES

The main cultural detail for the tall bearded or dry irises is drainage and all the sun possible. They require a summer bake to do their best. They also demand a well limed soil. They need no fertilizing but benefit from an occasional dressing of bone meal worked into the soil or a coating of wood ashes in alternating years with lime; or, better still, a coating of gypsum in the spring shortly after growth starts. Gypsum provides the lime element in the form which best suits irises. Gypsum is also the best known preventative and cure of iris rot. It is almost entirely free from insects and disease pests, the rot and borer both being rare and easy to cope with. Ask for circular.

GERMAN IRIS

Due to the necessity of replanting our entire iris acreage this season, we are making all the standard varieties shown below at 25c each; \$2.00 per 12; \$10.00 per 100

- 8.9 ALCAZAR—S. bluish violet, F. deep purple with bronze veined throat.
- 7.8 AMAS—(Macranta)—S. rich blue, F. violet.
- 8.3 ARCHEVEQUE—S. deep violet purple, F. purple.
- BLACK PRINCE—S. lavender violet, F. dark velvety violet.
- 7.5 CAPRICE—Self colored Chinese violet.
- CATERINA—Tall branched violet self, very large.
- CHERUBIN—S. pale mauve, F. pinkish lilac.
- CLARENCE WEDGE—S. helitrope tinged yellow; F. purple red, orange beard.
- CRIMSON KING—Early rich claret purple.
- DOROTHEA—S. mauve, deeper center, F. soft blue with orange veinings.
- COMP di COURACCI.

- ELEGANS—Violet blue and purple.
- 7.8 ELDORADO—A very distinct and striking blend of bronze, helio trope and violet purple.
- 8.0 FAIRY—White with iridescent shading of blue.
- 6.5 GERTRUDE—Deep violet, very fragrant.
- 7.3 HER MAJESTY—S. lovely pink, F. bright crimson tinged darker.
- 7.9 IRIS KING—S. golden yellow, F. garnet, edged yellow.
- 8.6 ISOLINE—Large pink, overlaid with amber.
KHARPOT—Rich dark purple, large flower.
- 7.8 KOCHI—Claret purple self.
- 7.9 LORELY—S. light yellow, F. ultramarine blue, bordered cream.
- 8.2 LOHENGRIN—S. and F. uniform shade of catteya rose, very large.
- 7.4 MME. CHERAU—S. white, edged blue, F. large frilled.
MRS. H. DARWIN—S. pure white, F. slightly reticulated white.
NIEBELUNGEN—S. olive green, F. yellow purple and white.
- 7.8 ORIFLAME—S. bright lavender violet, F. violet.
OSSIAN—S. yellow, F. light claret red; very showy.
- 8.8 PALLIDA DALMATICA—Tall pale blue, scented.
- 8.1 PARC. DE NEUILLY—Well shaped flower of pleroma violet.
PERFECTION—S. light blue, F. dark velvety violet and black, orange beard.
- 7.2 PRINCESS VICTORIA LOUISE—S. pale yellow, F. rich violet, edged cream.
- 7.4 QUEEN OF MAY—S. a charming pink, F. purplish lilac.
QUEEN FLAVIA—Best primrose, yellow.
R. C. ROSE—S. yellow and lavender, F. blue and white edge.

- 8.3 SEMINOLE—30 inches. "S" soft violet rose; "F" rich velvety crimson, brilliant orange beard. An outstanding sort. Mid-season60c each

IRIS NOVELTIES

Iris Japonica Fimbriata—It does well in California outdoors in a shady border, and for description let us quote Bailey: "Leaves uniform, thick, smooth, 1½ feet long; stem slender, as long as the leaves, with a raceme of lilac flowers; tube ¾-inch long; outer segments 1½ inches long with crimped margins, yellow on the claw, crested; finer segments smaller." Introduced from Japan and China. A most wonderful winter blooming Iris.

Strong roots, 50c each; \$5.00 dozen

Iris Foetidissima (Gladwin Iris)—A native of Central and Southern Europe, England, Afghanistan and Algeria. This Iris is very distinct and is recognized by the odor of the broken leaves. The pods remain on the plants in winter, bursting open and displaying rows of orange-red berries. The flowers are rather inconspicuous, of a lilac shade.

Strong roots, 25c each; \$2.50 per dozen
Seed Pods, per dozen stems.....50c

Iris Orientalis (*Ochroleuca*)—One of the largest of the Irises, growing in almost any location. Flower stems rise high above the grass-like foliage, bearing several heads of flowers; yellow, paler or white toward the margin; inner segments lemon yellow.

25c each; 12.50 the dozen

Iris (*Orientalis*) *Aurea*—A rich golden yellow, growing to a height of five feet in California. A native of the west Himalayas. Flowers find ready sale in florists' shops.

35c each; \$3.50 per dozen

HARDY LILIES

Lilies are so beautiful, so fragrant, we are likely to think them too fine for the amateur to grow. But many are hardy, thrifty flowers, capable of surviving conditions which would overcome flowers much less beautiful. Grow them in the border in small groups, with background, where their beauty has a suitable setting for its display. They blossom, as a rule, in midsummer, when fine flowers are at a premium. One of the finest effects in the border is produced by lilies in combination with hardy larkspur.

Lilies Arrive From Japan in November

Most Lily Bulbs, being of late maturity, are not ready before late November.

Outdoor Culture

When planting lilies out-of-doors, see that they have a well drained position, and where they will be shaded from very hot sun. Such places can usually be found around the shrub borders, and in the hardy plant border. Many varieties are termed "stemrooters," that is, they develop roots on the stem up to two or three inches from the ground. These roots are voracious feeders, and on them depend greatly the number and size of flowers. When they appear, the plant should receive a top-dressing of good rich soil on which they can feed freely. Spade over the ground thoroughly to a depth of 18 inches before planting lilies and enrich it with bone meal. Plant the bulbs 4 to 6 inches deep, depending on their size and the soil, deeper in light soil. Put some sand under and around the bulbs.

MADONNA LILIES (*Lilium Candidum*)

Ready July 1—Plant Early

This is one of the oldest, loveliest and best known lilies. Can only be planted in fall. The flowers, of which there are three to twenty on each stem, are snow-white, with heavy yellow stamens and of the most delightful fragrance. It is hardy and will thrive in any ordinary soil, preferring plenty of light and air. Blooms in the open ground about May 30th in California.

Large bulbs, 25c each; \$2.50 per 12

LILIUM PARDLINUM (Native California Tiger)

Rich scarlet and yellow, spotted rich brown.

Strong bulbs, 20c each; \$2.00 dozen

Ready November 1—Blooms in August

LILIUM LONGIFLORUM

Ready July 1—Blooms June 1st

Large trumpet shape, pure white in color and of a delicious fragrance.

Strong bulbs, 25c each; \$2.50 per dozen

LILUM MYRIOPHYLLUM (Regale)

Ready in November—Blooms in July

A new and very rare lily from China. The flowers are white, shading to yellow in the center, with a pink tinge on the outer edges. A strong grower, some 3 or 4 feet high. It is deliciously scented, and its extreme hardiness makes it a valuable lily for outdoor planting.

First Size, each, 40c; dozen, \$4.00
Mammoth Size, each, 75c; dozen, \$7.50

JAPANESE HARDY LILIES

Ready December to February—Summer flowering

LILIUM AURATUM

Ready December

The Gold-Banded Lily of Japan—The most beautiful variety of all the lily family; should be in every garden. Flowers white, dotted crimson, with a clear golden band running through the center of each petal; very fragrant. A splendid lily for pots, or for planting out in the shrub or plant borders. In either way it is very handsome, its large flowers and delicious perfume make it one of the most valuable of all. It is perfectly hardy with ordinary protection and suitable soil.

First Size, (8 to 9 in.), each, 25c; doz. \$2.50; 100, \$18.00

AURATUM PLATYPHYLLUM

Ready December

This is without a question one of the most wonderful lilies in cultivation. The leaves are very long and broad and the stems attain a height varying from 7 to 10 feet. The flowers are similar in color to Auratum, heavily spotted, but much larger, the petals more overlapping, and of greater substance.

First Size, 8 to 9 in.), each, 35c; doz. \$3.50; 100, \$25.00

LILUM SPECIOSUM (Lance-Leaved Lily)

Ready in December

These lilies are probably the most popular of all, succeeding equally well in open border or in pots. When fully open, the petals curve gracefully on the flower stem, exposing the beautiful rose and crimson markings, which characterize the Rubrum and Melpomene types.

RUBRUM—White, spotted and rayed rosy red. We consider this the most satisfactory of the Speciosum class.

First Size, 8 to 9 in.), each 25c; doz. \$2.50; 100, \$18.00

MELPOMENE—White, spotted and splashed deep crimson.

First Size, (8 to 9 in.), each 25c; doz. \$2.50; 100, \$18.00

VARIOUS HARDY LILIES

HENRYI—A new, rare, and very beautiful lily from China. The flower stalks, 3 to 5 feet high, carry 5 to 8 large flowers each; apricot spotted brown. Each, 35c; dozen, \$3.50; 100, \$25.00

TIGRINUM SPLENDENS—Very hardy native lily; orange, spotted purple. Each, 25c; dozen, \$2.50; 100, \$18.00

CALLA LILIES

Ready August—For Fall Planting

CALLA (Richardia)

WHITE CALLA LILY (Aethiopica)—A well-known plant of easy culture for winter bloom, and makes a handsome house or window plant. For outdoor planting, plant crown immediately below surface of ground. Requires moisture.

To aid profuse blooming keep dormant from the middle of June until last of September; pot on receipt in good, rich soil, using 6 to 8-inch pot, give light and heat in abundance. Both foliage and flowers are attractive in this desirable winter bloomer.

First Size (1¼ to 1½ in.) weight, doz. 1 lb. Each, 15c; doz., \$1.50; 100, \$10.00.

Select Size (1½ to 2 in.), weight, doz., 2 lbs. Each, 30c; doz. \$3.00; 100, \$20.00:

Mammoth (2 to 2½ in.), weight, doz. 3 lbs. Each, 45c; doz., \$4.50; 100, \$35.00.

DWARF WHITE CALLA (Godfrey)—Almost an everblooming sort. Culture same as Aethiopica.

Strong Bulbs, 25c each; dozen \$2.50

ARUM PICTUM—A so-called black calla. An arum of very dark purplish black reminding one of the Jack in the Pulpit.

Blooming size bulbs, 35c each

SPOTTED LEAF CALLAS

Ready November 1st—For Later Planting

YELLOW CALLA (Calla Elliottiana)

New and beautiful variety; same habit of growth as ordinary white Calla; flowers same size and shape, rich, clear, lustrous golden yellow; foliage dark green, with translucent creamy spots, strong bulbs.

First Size (1½ to 2 in.). Each 15c; doz., \$2.00; 100, \$15.00

Mammoth (2 to 2½ in.). Each, 25c; doz., \$2.50; 100., \$18.00.

Jumbo (2½ in. and up). Each, 30c; doz., \$3.00; 100, \$22.00.

IVORY WHITE CALLA (Maculata)

Habit and culture identical to Elliottiana. Leaves dagger shape, spotted white. Flower a pure ivory white. Very hardy.

Strong bulbs, each, 25c; 2.50 per dozen

ANEMONES

(Spring Flowering)

Plant September to January

The blossoms of the St. Caen anemones resemble poppies, the flowers are beautiful and come in a great variety of dazzling blues and reds. They flower early in the spring and make a wonderful carpet for a bed or border.

Plant the bulbs, after soaking them overnight, 1 inch deep and 6 inches apart.

| | Doz. | 100 |
|--|--------|---------|
| DE CAEN—Or poppy flowered single mixed..... | \$.75 | \$ 5.00 |
| Second size bulbs..... | .60 | 4.00 |
| Third size bulbs..... | .50 | 3.00 |
| ST. BRIGID—Semi-double (but most strains have some singles) | .75 | 4.50 |

| NERINE SARNIENSIS—See under Nerine. | | | |

ALSTROMERIA

(Peruvian Lily)

AURANTIACA—

A variety of Chilean Lily with spikes of lily-like flowers which are orange or yellow spotted red. A fine cut flower of long lasting qualities. Open exposure plant 6 inches deep. Plant in December, bloom in summer. Rich yellow orange.

Strong bulbs, 25c each, \$2.50 per 12

RANUNCULUS

Nothing produces a brighter or more gorgeous effect in spring than beds of Ranunculus; the flowers are all good for cutting, and the culture is very simple. They thrive in any ordinary garden soil, but should have protection in spring from the late frosts and sharp winds. Plant outside later end of March or early April, as soon as frost is out of the ground, or earlier in the hot bed if desired for early cutting. Plant in November for early spring bloom in frames. Set the tubers 3 to 4 inches apart, pressing them firmly into the soil, claws downwards, and cover them with sand, then with soil; keep the crown of the tubers two inches under the surface. During dry weather the plants should be given abundance of water.

| | Ea. | Doz. | 1.00 |

| EGGLESTON—An Australian strain very similar to Tecolote, except that bulb is much longer | .10 | .50 | 3.60 |

AGAPANTHUS UMBELLATUS

(Lily of the Nile)

While really a plant, it is often listed under bulbs. The flowers are bright blue, produced in umbels of 20 to 30 on stalks two to three feet tall. A long season bloomer. Evergreen the year round, and makes enormous plants. Can also be utilized for tubs.

Strong single divisions, 50c each, \$5.00 per 12, postpaid.

Larger divisions, \$1.00 and \$2.50, with delivery charges extra.

FREESIAS

(For delivery until October 1st)

Although the culture of Freesias is simple and easy, there is a drawback in that the bulbs have a habit of going on strike. You may plant a nice young bulb which looks the picture of health, which for a whole twelve months gives no signs of life and then starts to grow as if nothing had happened.

The variety most known is the white Freesia Purity, the one-grown at Santa Cruz for commercial purposes. We are offering this season some decided acquisitions of merit, with strong branching stems.

GLOXINIA

Ready for shipment Jan. and Feb.

One of our handsomest summer blooming, tuberous-rooted plants. It makes a very fine pot plant, requiring about the same cultural directions as Begonia. One bulb to a 4-inch pot. The colors range through pink, scarlet, violet and white bordered. We are able to offer them in mixture only. 45c each, \$4.50 per dozen.

TUBEROUS ROOTED BEGONIAS

(January delivery)

Best known as pot plants, but may be used outdoors in plunged pots. Tubers are good for several years.

Rose, white, yellow, orange, scarlet and crimson.

SINGLE—Separate colors or mixed, 25c each, \$2.50 per 12.

DOUBLE—Separate colors or mixed, 35c each, \$3.50 per 12.

BABIANA

A curious gentian blue flower blooming in May, with crocus-like flowers. Plant 3 inches apart and 2 inches deep.

Price per dozen 50c; per 100, \$4.00

IXIAS

Plant in October, bloom in May

The Ixia is a beautiful little winter-flowering bulb, with long, slender, graceful spikes of bloom. The colors are rich, varied and beautiful, the center always differing in color from the other parts of the flower, so that the blossoms, expanding in the sun's rays, present a picture of gorgeous beauty. Very desirable for pots.

| | Ea. | Doz. | 100 |
|--------------------------------|--------|--------|---------|
| ENGLISHTON—Wondrous rose | \$.10 | \$.60 | \$ 4.50 |
| Mixture of many colors..... | .10 | .50 | 3.00 |

MUSCARI (Grape Hyacinth)

Beautiful little flowers for planting in masses either in shade or sun. Once planted, they multiply rapidly and send up flower stems by the score each year. Also adapted for growing indoors. Plant six bulbs in a five-inch pot. Perfectly hardy.

HEAVENLY BLUE—The best blue. Each, 10c; dozen, 40c; 100, \$3.00; 1000, \$25.00.

LEUCOJUM VERNUM

(Spring Snowflake)

Pretty bulbous plants allied to the Snowdrop, but of much stronger and bolder habit, growing in rich soil from 1 to 2 feet high, and producing freely beautiful large white flowers, distinctly tipped with green; excellent for cutting. When once planted, they take care of themselves. The first year, however, a good mulch should be given so as to protect from freezing, bulbs being California-grown. Should have a place in all hardy collections, particularly shady nooks; can be grown in pots.

Each, 10c; dozen, 75c; 100, \$4.50

MONTBRETIAS

These fine varieties of Montbretias are so easily grown and the results ordinarily obtained so gratifying that we take great pleasure in recommending them to our customers.

Plant during December, January, February and March, they will produce flowers during July and August. They are nearly ever-green and make wonderful cut flowers. Each bulb produces several fine spikes of flowers 20 to 36 inches in height. Use the same culture as for Gladioli.

ROSEA—(New) Rose pink—20c each, \$2.00 dozen.

KING EDMUND—A beautiful golden yellow. 15c each, \$1.50 per dozen.

IMPROVED AURANTICA—A large flower of magnificent orange yellow. Grows tall. One of the very finest. 15c each, \$1.25 per dozen.

GERMANIA—A wonderful shade of scarlet orange, very showy. 15c each, \$1.25 per dozen.

FIRE KING—Like its name, fiery scarlet red. 15c each, \$1.25 per dozen.

CREAM—Light tan in color, large flower, remindful one of a freesia, closely following the freesia in blooming season. 15c each, \$1.00 dozen.

MIXED—This mixture contains eight separate colors of the finest. 10c each, \$1.00 per dozen.

OXALIS

Most of these Oxalis flower from October until Christmas, and later. Easily grown, requiring only a good, somewhat peaty soil, with considerable light, for their successful growth. Dozen and 100 prices include postage.

GRAND DUCHESS—Lavender, pink and white, doz., 30c; 100, \$2.00.

BERMUDA BUTTERCUP—Per doz. 30c; 100, \$2.00.

HIRTA—From the Cape. Forms small plants bearing deep rose colored flowers. Very showy. Form large clumps of tubers on roots. Each, 10c; dozen, 60c; 100, \$4.50.

NERINES

The so-called Spider or Guernsey Lily. Has the appearance of a miniature amaryllis; stems 6 to 18 inches; umbels of 10 to 12. Plant September to December 6 inches apart and 4 inches deep.

SARNIENSIS—Bright crimson, the earliest of all Nerines. Strong bulbs, 25c each; \$2.50 per dozen.

TRITONIA

We have always listed this bulb under LAPEYROUSIA, but other seed stores list it under TRITONIA. It is often called the flame-colored freesia or the pink freesia.

| | | |
|--------------------|--------|---------|
| | Doz. | 100 |
| Strong bulbs | \$.50 | \$ 3.75 |

TRITELEIA

Grown as pot plant or in borders. Flowers 1 to 1½ diameter, segments violet streaked through the center. Hardy. Native of Argentine.

WATSONIA

Plant September-October—Blossoms May to July

Watsonias are similar to gladioli and are in bloom from May on. The spikes grow from 3 to 4 feet tall, and bear many stalks of gladioli-like flowers. They thrive best in a sunny location. Plant the bulbs 3 inches deep and 8 inches apart.

NEW HYBRIDS

Fine Mixture of all colors, in shades of salmon, lavender, rose, orange, and new white. Doz. \$2.00; 100, \$15.00.

LAPEYROUSIA

A so-called Tritonia, or flame-colored freesia. 50c dozen, per 100, \$3.75.

ORNITHOGALUM

(Star of Bethlehem)

A dwarf, hardy, bulbous plant bearing umbels of green and white flowers in April and May. Plant six inches apart, four inches deep, from September to November. Strong bulbs, 15c each, \$1.00 per dozen; \$4.50 per 100.

SPARAXIS

Plant October-December—Blossom March to April

Beautiful flowers borne on graceful spikes; colors of the brightest shades. They are tigated, blotched, spotted, streaked and flushed. Plant like baby gladioli.

| | Ea. | Doz. | 100 |

| TRI-COLOR | \$.10 | \$.50 | \$ 3.75 |

ZEPHYRANTHES

(Summer Crocus)

Fairy Lilies

Wonderful little edging plants, with decorative grass-like leaves; growing about a foot high and bearing a lovely flower about two inches across. The bulbs multiply rapidly and bloom profusely.

| | Ea. | Doz. | 100 |
|--------------------------|--------|--------|---------|
| CANDIDA—Pure white | \$.10 | \$.75 | \$ 4.50 |

FLOWER SEEDS

ANTIRRHINUM (Snapdragon)

For gorgeous coloring few flowers can match Snapdragons. The flowers are of very large size, very fragrant and are produced on immense long spikes, which render them extremely well adapted for cut-flowers. They are easily raised from seed in any rich sunny bed. If intended for winter flowering inside, cut back in September.

TALL MAXIMUM (Giant Flowered)

These are a wonderful advance in size over all other varieties, each bloom measuring 2 to 3 inches across.

COPPER KING—Velvety copper-scarlet.

GOLDEN QUEEN—Bright deep golden-yellow with lilac-rose throat.

PURPLE KING—Rich purple.

THE ROSE—Rose pink.

WALLFLOWER—Brownish orange and copper-red shades.

SNOWFLAKE—Pure snow-white, yellow tube.

MAXIMUM (or Giant Flowered), MIXED—All the above and others.

Each of above, pkt. 15c.

TALL LARGE FLOWERING—24 to 36 INCHES

APPLEBLOSSOM—A charming pink shade on a white ground, with a white throat.

BRILLIANT—Rose.

CORAL ROSE—Dark rose.

GOLDEN KING—Yellow.

ROSE QUEEN—Brilliant rose pink.

MAJUS GRANDIFLORUM MIXED.

Each of above, pkt. 15c.

SEMI-TALL SORTS—18 to 20 INCHES

Are particularly good for bedding, as they require no staking. The flowers are most wonderful, in many new shades and tints.

GLORIA—Rich deep rose.

GOLDEN QUEEN—Rich yellow.

GRENADIER—Vivid orange, white throat, yellow lip.

NELROSE—Salmon-pink.

QUEEN OF THE NORTH—Regular bushes covered with large white flowers.

SILVER PINK—Delicate rose pink, seemingly covered with a silver sheen.

Each of above, pkt. 15c.

SPECIAL MIXTURE OF SNAPDRAGONS

Includes all these any many other charming varieties and a packet will furnish you with a never-ending color combination of long-stemmed cut flowers suitable for home, church or hospital decoration. 1 oz., \$1.50; $\frac{1}{4}$ oz., 40c; $\frac{1}{8}$ oz., 25c; pkt., 15c.

ASTERS

A popular half-hardy annual produced in a great variety of classes, and an almost endless number of colors. The tallest grow about two feet high, and some varieties of dwarfs are not over eight inches high. The best method of culture is to sow the seed in boxes and transplant when large enough to handle. The seed can be sown, however, in the row where the plants are to remain, thinning them from six to twenty inches apart, according to variety.

AMERICAN BEAUTY (Early Flowering)

Attains a height of 2 to 3 feet of branching habit. Flowers large, borne on long, stout stems. Planted with Crego and Giant Branching will bloom at same time.

| | | |
|-------|-------------------|------------------|
| White | Carmine-Rose | Lavender |
| Rose | Purple | September Beauty |
| | Mixed, all colors | |

AMERICAN BEAUTY (Late Flowering)

Is similar in type of flower and growth to the wellknown Late Branching Asters, but differs in that all the large blossoms are produced on much longer and heavier stems. The flowers are fully double to the last.

| | |
|--|--|
| White | |
| Carmine-Rose (same shade as American Beauty) | |
| Purple—beautiful rich, velvety purple. | |
| Lavender—beautiful, clear lavender. | |
| September Beauty—delicate, soft shell-pink. | |
| Rose-Pink. | |
| Mixed—all colors. | |

THE KING

In form the flower is entirely distinct from any other variety; petals somewhat resemble the quilled varieties, but are much larger and broader, those in the center being curled and incurved, completely covering the crown. In shape and size the bloom is round, full and very large.

| | | |
|---------------|-------------------|----------|
| White | Rose | Crimson |
| Blackish Blue | Pink | Lavender |
| | Mixed, all colors | |

CALIFORNIA DOUBLE GIANT

A new family of asters produced by a California seed grower and specialist in asters. They combine the robust habit of growth and length of stem that characterizes the Beauty type and the Crego or Ostrich Feather type of flower. A true non-lateral type.

Peach Blossom
Light Blue

Dark Purple
White

Dark Rose

Each of the above, pkt. 15c; 6 for 75c

DELPHINIUM

(Annual Larkspur)

These handsome Larkspurs are very effective in borders and planted amongst shrubs. The graceful spikes of bloom are much valued for vases. They continue long in bloom. Sow seed in the open border either in early spring or late fall so germination may take place very early in the spring.

STOCK FLOWERED

Dark Blue Dark Rose Flesh Pink Lilac
Lustrous Carmine (Newport Pink Sky Blue White

Each of the above, $\frac{1}{8}$ oz., 25c; pkt. 15c.

Mixed, all colors, oz. 60c; $\frac{1}{4}$ oz. 20; pkt., 15c.

GIANT HYACINTH-FLOWERED MIXED

Derives its name from the striking resemblance of the flowers to a double Hyacinth. Delicate colors. Pkt., 15c.

SPECIAL MIXTURE

Annual Larkspurs. A charming mixture containing all the bright and delicate shades, makes wonderful cut flower material and should be planted generously.

Oz. \$1.00; $\frac{1}{4}$ -Oz. 30c; pkt. 15c

MARIGOLD (Tagetes)

In late summer, when many bedding plants are past their prime, Marigolds afford a wealth of color that is simply invaluable. The African varieties produce large self-colored blossoms on tall plants; the French are smaller, but the colors and markings are very interesting, some of the varieties being elegantly striped and spotted.

AFRICAN (Fistulosa Type)

African Tall Double Orange—Beautiful formed flowers of gigantic size and bright color; height, $2\frac{1}{2}$ feet. Pkt. 10c. $\frac{1}{4}$ oz. 50c; oz. \$1.50.

African Tall Double Lemon—Like the above but a pure citrus yellow. Pkt. 10c, $\frac{1}{4}$ oz. 50c; oz. \$1.50.

African Tall Double Mixed—Pkt. 10c.

FRENCH

The flowers are much smaller than the African, but are greatly prized for bedding.

Tall French Single Brown—This fine flower is being grown extensively for florists. It is a combination of beautiful shades of brown and fine for cutting. Pkt. 10c, $\frac{1}{4}$ oz. 25c.

Tall French Mixed—In shades of yellow, brown and tricolors. Height, 2 feet. Pkt. 10c; oz. 25c.

Dwarf French Mixed—Like the above but only 10 inches high. Pkt. 10c.

Dwarf French Legion of Honor—The flowers are single and a dark, velvety brown, gracefully surrounded by a distinct gold ring. The compact, bushy plant flowers abundantly and is more lasting than any other annual. Pkt. 10c; $\frac{1}{4}$ -Oz. 25c.

DOUBLE FLOWERING STOCKS

The Stock is one of the many popular plants used for bedding. For brilliancy and diversity of color, fragrance and duration of bloom it is unsurpassed. Sow the seed in pans or boxes and transplant when large enough to an open sunny location. Be careful to save the weak and delicate plants as these usually throw the best doubles. It is also a good idea to plant rather thickly so that the single can be weeded out as they appear. Stocks are one of our best winter blooming plants. May be planted from August to March for a succession of winter and summer bloom.

STOCKS

This wonderful new strain of Stocks is of branching habit, making it possible to break long branches of flowers from the main stalk without injuring or destroying the beauty of the plant. The flowers are large and many of them on a stem. The sweet perfume of the Stocks make them most desirable for garden or for vases and the Bismark is the very latest improvement.

| | |

Collection—One packet each of the above eight separate colors, \$1.50.

BISMARK MIXED—All colors.....Pkt. 25c, $\frac{1}{8}$ oz. 75c

EARLY MAMMOTH BRANCHING NICE

This type is excellent for bedding and borders and is splendid for cutting. We offer fine varieties in separate colors and a choice mixture. Height 18 inches.

GIANT CARMINE ROSE (Abundance)—Very large spikes. Pkt. 15c.

GIANT WHITE AND CARMINE (Almond Blossom)—Large, white flowers shaded with carmine. Pkt. 15c.

GIANT OLD ROSE (Belle of Naples)—Pkt. 15c.

GIANT CHAMOIS AND ROSE (Golden Sheaf)—A new shade cham-
ois shaded with rose. Pkt. 15c.

GIANT PALE VIOLET (Parma Violet)—Pkt. 15c.

GIANT SILVERY LILAC (Empress Augusta Victoria)—One of the
best. Pkt. 15c.

GIANT CANARY YELLOW (Monte Carlo)—Pkt. 15c.

GIANT FLESH PINK (Beauty Blanc)—Pkt. 15c.

GIANT DARK BLUE (Summer Night)—Pkt. 15c.

GIANT ROSY LILAC (Queen Night)—Pkt. 15c.

GIANT BRIGHT VIOLET—Rich violet or purple. Pkt. 15c.

GIANT NICE—Finest Mixed. Pkt. 15c. $\frac{1}{8}$ oz. 75c.

WINTER FLOWERING SWEET PEAS

Classed as Early Flowering Sweet Peas, for if planted in August or September they may be brought into bloom in the late Fall and early Winter. The planting season in California is from the first of August until the last of January. The varieties selected have long stems with three to four blooms to the stem.

(25 seeds in the packet)

EARLY ALL WHITE—Largest waved pure white.

EARLY AMETHYST—Light purple, very fine.

EARLY AVIATOR—Dazzling crimson scarlet.

EARLY BLUE BIRD—Violet blue, extra large.

EARLY COLUMBIA—Salmon rose, standard with white wings
(Early Blanche Ferry.)

EARLY CREAM—Immense frilled blossoms.

EARLY GLITTERS—Standard bright fiery orange, wings deep
orange.

EARLY HARMONY—Finest lavender.

EARLY HERCULES—Extra large florist pink.

EARLY ILLUMINATION—Salmon cerise.

EARLY LAVENDER KING—A new lavender.

EARLY ROSE QUEEN—Rose-pink.

EARLY IRENE—Lavender George Herbert.

EARLY ROSE DORE—Rose pink suffused orange.

Each of the above, pkt. 15c, $\frac{1}{2}$ oz. 45c

NEW INTRODUCTIONS

- EARLY GRENADIER—Dazzling scarlet.
EARLY MRS. KERR—Salmon. A sensation.
EARLY NEW BLUE—Deep blue extra large.
EARLY ORANGE KING—Glowing intense orange.
EARLY STARLIGHT—Clear lavender blue.
EARLY SWEET LAVENDER—Pure lavender self.

Each of the above, pkt. 25c, ½ oz. 75c

\$1 COLLECTION

EARLY FLOWERING SPENCER SWEET PEAS

Rainbow Collection of Early Flowering Spencer Sweet Peas, 1 pkt. each of 10 varieties noted below for \$1.00.

Lavender—Sweet lavender; Rose—Hercules; Orange—Orange King; Pink and White—Columbia; White—All White; Blue—New blue; Red—Aviator; Cerise—Glitters; Rose Pink—Rose Dore; Purple—Amethyst.

EARLY FLOWERING ORCHID MIXED—A well balanced mixture of many fine varieties including some of the late introductions and improved strains. This mixture is just as good as are the named sorts. Plant one ounce to a 30 foot row. Pkt. 10c, ½ oz. 40c, oz. 60c, ¼ lb. \$2.00, lb. \$6.00.

Butterfly or Spencer Varieties

The most beautiful blossom in shape, size, color and fragrance, produced so abundantly and long on lightsome, free-hearted, happy plants, Its flowers dance and sparkle in the sunlight the whole summer through, ever changing, yet ever beautiful. You can cut armfuls of flowers yet it smiles and pursues its beneficent way. It is easy to grow Sweet Peas, because they fairly spring into radiant life in the hands of those who love them.

- APPLEBLOSSOM—Standard rose, showing veins of deeper rose, wings light carmine, the whole color overspreads on primrose.
AUSTIN FREDERICK IMPROVED—A new lavender.
BLUE PICOTEE—White, edged violet-blue.
COMMANDER GODSALL—New, violet-blue.
CONSTANCE HINTON—Of enormous size. The best white for outdoor planting.
CRIMSON KING—A rich deep crimson, the best red, does not burn.
DEFINANCE—A fine large orange-scarlet.

DOBBIE'S LAVENDER GEO. HERBERT — Improved Florence Nightingale, opens a little mauvish, but clears to pure lavender.
ELFRIDA PEARSON—Large deep blush waved buds and young flowers having a bronze sheen.
FIERY CROSS—A new shade of Turkey-red or military red.
GEORGE SHAWYER—Giant salmon-rose.
GIANT ATTRACTION—Fawn-pink, cream ground.
GOLDEN GLORY—Glowing orange.
HAWLMARK PINK—A wonderful shade.
HEBE—Large bright pink.
ILLUMINATOR—Bright salmon, cerise sparkling with orange.
KING EDWARD VII—Rich waved crimson.
KING WHITE—Produces gigantic flowers absolutely pure white.
MAJESTIC CREAM—Rich deep cream.
MARGARET ATLEE—Apricot pink on cream ground.
MASTERPIECE—Clear lavender self, slightly flushed rose on standard.
MISS CALIFORNIA—Orange-salmon with cream-pink.
PICTURE—Flesh pink suffused creamy apricot.
MRS. TOM JONES—Bright delphinium-blue, a very attractive color.
PRESIDENT HARDING—Peach-red, a new shade.
ROYAL PURPLE—The best purple.
ROYAL SCOT—The most brilliant scarlet. It does not fade or burn in the hottest sunshine.
TANGERINE—Deep orange-colored flower, almost approaching the color of a tangerine orange.
THE CARDINAL—Brilliant poppy-scarlet.
WARRIOR—Rich chocolate-maroon.
YOUTH—Large white, pink picotee edge.

Each of the above, pkt. 10c; oz. 40c

Special Mixture

Spencer Varieties. This mixture is one we make ourselves from named sorts of late flowering ruffled or Spencer varieties and a few of the early flowering ruffled. The result will be a gorgeous display of wonderful blossoms for a long period of time if cultural directions are followed in planting seed and subsequent care in watering.

Pkt. 10c; oz 30c; ¼ lb. \$1.00; lb. \$3.00

Later Introductions

HEAVENLY BLUE—A new delphinium blue, pkt. 15c.
MARY PICKFORD—Dainty cream pink suffused salmon, pkt. 15c.
WEMBLEY—Lavender suffused plumbago blue, pkt. 25c.
PINK PERFECTION—Rose pink cream ground, pkt. 25c.

10 BEST SWEET PEAS

Each year this collection is revised, newer varieties being included as the older ones are dropped.

Price, one (regular size) packet of each for 75c. If purchased separately would cost \$1.00. We cannot make any change in varieties.

DAHLIA FLOWERED ZINNIAS

By F. C. McNabb in Western Homes and Gardens

Dahlia Flowered Zinnias were originated in Southern California. They are different from the Giant Zinnias in the following respects; Petals are cupped, flowers are cupped. Shades are very pleasing and the flowers are extremely large. They are a sensation wherever they are shown.

The Giants and California Zinnias are very similar except that the petals are over-lapping and the centers are high. Flowers are extremely large but not quite so large as the Dahlia Flowered Zinnias. Flowers in both types are extremely doubled.

Seeds should be planted after the soil is warm. Cold soil will decay them. They are better planted in the open ground and thinned to twelve or fifteen inches apart in the row. The first flowers to open are rather slow in developing. The longer they are left on the plants the larger they will grow. Removing the faded flowers is important, or cutting them when they are full grown. Plants will branch readily when the flowers are cut. It is well to cut with long stems and keep them branching near the ground.

The zinnia is one of the most brilliant and satisfactory of the annuals, and one of the easiest to grow. It may be planted outdoors in California until July or August with a certainty of a fine crop in bloom during the late summer and autumn. It is one of the annuals in which a late start is no great handicap as it will not spring into vigorous growth until the weather is warm. They like rich soil and full sun. Also want a good supply of moisture to do their best and should be liberally watered in spells of drought.

Bodger's Dahlia Flowered Zinnias

Indicating the excellence of this Improved Strain of Zinnias John Bodger & Sons Company were granted an Award of Merit by the Royal Horticultural Society of England, 1924. This wonderful flower creates a sensation wherever it is grown and it has probably gained popularity more quickly than any other improved garden flower offered in recent years. The large size, fullness of petals, extraordinary color range, and good keeping qualities have all contributed to its popularity. The flowers resemble in appearance the Decorative Dahlia and is called the Dahlia Flowered Zinnia for this reason. When in full bloom they often measure five to six inches in diameter and many of our friends who have grown them take the trouble to write to us and even send us pictures of the wonderful flowers they have produced. The Dahlia Flowered Zinnia is strictly a California introduction and since it is so easily grown and is immune from disease at this time we cannot recommend it too highly to our friends. The colors do not always come entirely true but the variations are desirable colors.

Dahlia Flowered, 3 to 4 Feet

In formation the broad petals are closely imbricated, sometimes seeming almost to be piled one upon another. The flowers often measure 4 inches in depth and 6 to 8 inches in diameter. In general appearance the flowers compare with the Show Dahlias.

- 130 ILLUMINATION—Similar to Exquisite but a striking self-color of deep rose. (Tyrian Rose).
- 131 CANARY BIRD—A delicate shade of primrose—very large and holds its color well until out of bloom.
- 132 BUTTERCUP—An immense deep creamy yellow. A very desirable flower, which should be included in every collection.
- 133 CRIMSON MONARCH—Rich crimson. By far the largest and best of red shades. Flowers often eight inches in diameter.
- 134 DREAM—A fine, deep lavender, turning to purple (Mallow Purple).
- 135 EXQUISITE—By far the most pleasing of our collection. Color light rose with center a deep rose. (Tyrian Rose).
- 136 GOLDEN STATE—A very rich orange-yellow (Cadmium). Yellow in the bud, turning to an attractive orange when in full bloom.
- 137 OLD ROSE—This is adequately described by its name, as it is of the real old rose shade; it is large, and for charm and beauty we consider it ranks next to Exquisite.

(See next page for other varieties)

- 138 **ORIOLE**—It is an immense orange and gold bi-color, changing slightly as it ages, but at all times worthy of the beautiful bird for which it is named.
- 139 **POLAR BEAR**—A very large pure white, the best white yet seen in Zinnias. True Dahlia form.

Each of the above, pkt. 25c; 5 for \$1.00

Collection—One packet each of the above named varieties of Dahlia Flowered Zinnias, for a most gorgeous display, \$2.00

Gold Medal Dahlia Flowered Mixture

This mixture contains all of the zinnia novelties and is a most wonderful collection. It will make an excellent garden show and produce fine flowers for cutting. Pkt. 25c.

GIANT DOUBLE QUILLED ACHIEVEMENT

- 158 The petals are partially tubular or quilled giving the flower somewhat the appearance of a cactus dahlia and displaying a rich variety of colors mostly of the warmer shades, such as salmon, old rose, deep rose, lilac, bronze and dark red tones. On the reverse side the petals are light or dark lilac, making a wonderful combination of colors.. The plants are of strong, robust growth and produce an abundance of very large, double flowers often 5 inches in diameter. Pkt., 25c.

GIANT PICOTEE

A remarkable new and distinct class with beautiful double flowers in orange, flesh, lemon, pink, and cerise, each petal being distinctly tipped with various shades of dark, resembling the Picotee Carnations.

- 156 **GOLDEN PHEASANT**—A variety of the above, having flowers of a deep orange with maroon tips. Pkt., 25c.
- 157 **GIANT PICOTEE MIXED**. Pkt., 25c.

Small Flowered Zinnias—Haagaena

- 160 Of new introduction, dwarf, the plant carrying small, prettily marked flowers. A variety when better known will have a big demand. Pkt., 25c.
- 170 **LILLIPUT DOUBLE MIXED**—Small double flowers. Dwarf compact bushes and profuse bloomer. A good Zinnia for cutting. Pkt., 25c.

GRASSES FOR LAWNS

Grass seed for lawns may be planted in the fall or in the early spring. Use every effort to have ground in best of condition before sowing. Prepare soil well and after sowing the seed sprinkle with bone meal, and rake seed in lightly, and roll down but not too tight. If weather is warm, it is advisable to mulch with straw. Keep wet. Use one pound of seed to 200 square feet except clover, then use one pound to 300 square feet. It pays to plant thick.

Each fall with the first rains, try applying bone meal, blood and wood ashes dusted over your lawn. Regular periods of rolling will improve its appearance.

Fancy Kentucky Bluegrass (*Poa Pratensis*)

The greatest of all lawn and pasture grasses for this country. It requires time to establish itself and should be grazed on lightly for the first two years. The seed may be sown in very early Spring or in September. Sow 40 to 60 pounds per acre for pasture and 100 to 135 pounds to the acre for lawns.

EXTRA FANCY SUN CURED SEED—Specially re-cleaned and of high germination; 1 lb. 50c; 10 lbs. \$4.00; 50 lbs. \$18.00; 100 lbs. \$35.00.

Red Top Grass (*Agrostis Alba*)

This grass is well adapted to moist and acid soils but will grow and succeed on any and all kinds of soils. It is one of the most valuable grasses for pastures and meadows but not quite as nutritious as Timothy for hay. Sow in Fall or Spring with or without a nurse crop. To sow an acre of pasture use 8 to 10 pounds of fancy or 20 pounds of virgin Red Top. It is invaluable in a lawn grass mixture as it comes quickly and protects the slower-growing grasses until they can establish themselves.

Extra Fancy re-cleaned solid seed, (32 pounds per bu.): 1 pound, 40c; 10 pounds, \$3.50; 50 pounds, \$15.00; 100 pounds, \$25.00.

White Clover

Extra fancy seed. Price, ½ pound, 40c; 1 pound, 75c; 10 pounds, \$7.00.

Prices subject to market changes.

BATTLESHIP GOPHER GUN

REDUCES THE STAR BOARDER TO A MINIMUM

The simplest gun on the market. Built of highest quality manganese bronze and number one brass. Danger of harm from premature discharge at a minimum. Spring trouble eliminated by use of ordinary $1\frac{5}{8}$ inch by $\frac{1}{8}$ inch rubber band for firing control. Easy swing of the keel permits cleansing of parts, and reduction of back-fire.

The success of "shooting gophers" is positive if the gun is properly placed. Notice in the illustration how the gun should be placed on the level of the run. Try an old table knife to clean out the run and to form a slot to fit the gun.

DO NOT pull out firing pin until gun is in place. Gun does NOT need oiling. Use .38 S. & W. blanks.

\$1.75

FERTILIZERS

As prices are dependent on cost of raw products in open markets, price list of fertilizers will be furnished on request.

COLOR PLATES

For the reason that seldom does a color plate do justice to the flower it illustrates, we have purposely refrained from color plates in this catalogue.

However, for educational purposes, by schools and garden clubs, there is a demand for color plates. To meet such a demand we have secured colored plates and offer them as follows:

DARWIN TULIPS AND HYACINTHS

A six page folder (7 3-8x11) depicting TWELVE DARWIN TULIPS TO BEAUTIFY YOUR HOME GARDEN and FOUR SELECTED HYACINTHS. The front cover shows a bed of tulips alongside a lawn, with inset of three flowers in color. Plans for planting described on reverse.

GLADIOLI COLLECTION

A three page colored folder showing twelve gladioli in color with group of three on the cover. Fourth page gives planting instructions.

IRIS

A beautiful six page iris plate favoring twelve wondrous iris, with a beautiful cover and back. Blue print plans for favorable plantings.

These may be had in lots of 25 to 100 at.....10c each

JUST THE THING FOR YOUR GARDEN CLUB

TOO LATE!

Your Bulb Order Should be Sent in Today

It is so easy to postpone placing your bulb order until the season is passed for proper planting

A large proportion of your success with bulbs is due to planting AT THE PROPER TIME

*So Check Over This List Now
Send it in For Booking Now
And the Bulbs Will be Delivered you
as Ready and in Proper
Time For Planting*

How Easy and How Satisfactory

At Christmas, a box of bulbs is always a lasting gift. An acceptable gift to meet your purse.

BEGINNERS' BULB OFFERS

SPRING BULBS

\$1 To introduce to you the variety and beauty of spring flowering bulbs we will send the following, all of first quality: 6 Scillas, 6 Crocuses, 6 Gladioli, 6 May-flowering bulbs and 6 Narcissi—30 bulbs in all—for **\$1**, postpaid.

\$5 We will send bulbs of the finest quality of our selection, all named varieties, or single colors, no mixtures, bagged separately with names on bags—the following assortment: 25 Crocuses, 25 Scillas, 25 Gladioli, 50 May-flowering Tulips, 25 mixed Daffodils, 18 Paper White Narcissus for indoor growing—168 bulbs for **\$5**, prepaid.

\$10 We will send bulbs of the finest quality and of the better named varieties, bagged separately, with names on bags—the following assortment: 50 Crocuses, 50 Scillas, 25 Gladioli, 50 Darwin Tulips, 25 Cottage Tulips, 25 Breeder Tulips, 45 mixed Daffodils, 30 Paper White Narcissi for indoor growing, 25 Bedding Hyacinths—325 bulbs for **\$10**, not prepaid.

\$25 We will send bulbs of the finest quality and of the better named varieties, bagged separately, with names on bags, in the following assortment: 150 Crocuses, 150 Scillas, 100 Gladioli, 150 Darwin Tulips, 150 Cottage Tulips, 100 Breeder Tulips, 100 mixed Daffodils, 25 Paper White Narcissi for indoor growing, 25 Bedding Hyacinths—950 bulbs—for **\$25**, not prepaid.
