CANAL VISIT OF HARDING NEARS END

President-Elect Devotes Last Day of Stay at Ancon to Golf. Makes Address at Banquet With Panama's President Present.

Ancon, C. Z., Nov. 26.—(By the Associated Press.)—Senator Harding devoted today, the last day of his short visit to the Pacific terminus of the Panama canal to recreation, for the most part, although he had several more talks with canal zone officials.

The president-elect rose early for a game of golf and later took a motorboat ride. Late this afternoon he will have a golf round on the course which he will go on board his ship to return to the United States, sailing for Norfolk, Va., tomorrow morning. He will spend a three-day visit here, in which he will study the canal zone, and will then return to his home in Ohio. He will not after he becomes chief executive of the United States.

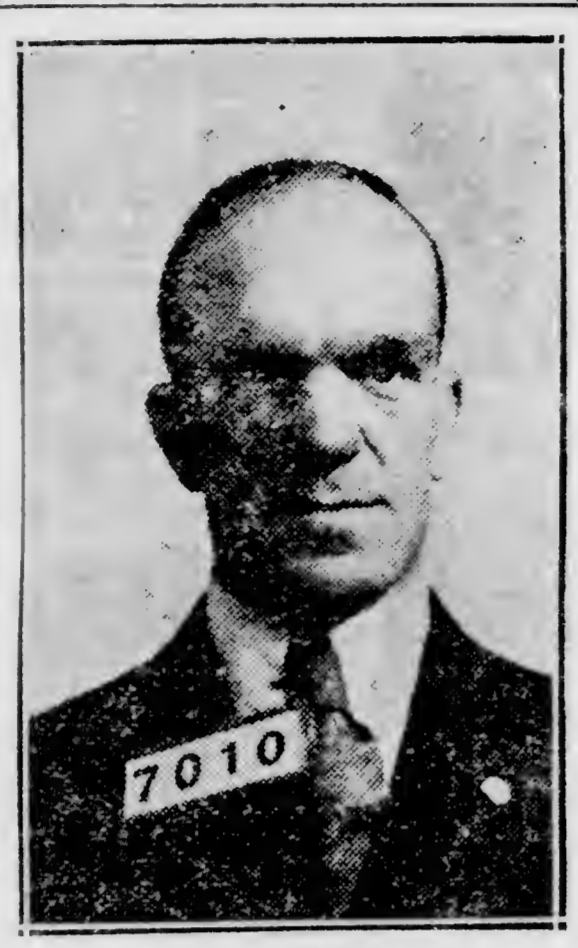

Not the least of these problems are the relations of the new administration with the republic of Panama, with the president of which he exchanged assurances of good will at the banquet given in his honor by President Porras last night.

The question of a proper military force for the canal zone also has engaged his attention and he will be particularly interested in plans of the war department to increase that force to a full division. Senator Harding today had luncheon with Brig. Gen. Kennedy, commander of troops in the canal zone, and had a long talk with that officer, then his morning's golf.

Creates Favorable Impression. Senator Harding's address at last night's banquet created a favorable impression, judging from comments after it was completed.

"The cordiality of your reception and the spirit of your good wishes stir me deeply," he said in his address. "It is a fine thing that you are so reassured of the abiding confidence and friendship of a sister republic. I am wholly convinced I am here as an ambassador, though I am not permitted to forget, however much I may wish it, that I am to come to a real recognition of the fact that I am to be a part of your life, and I will do my best to be so."

Three Killed Near Red Lake Falls. Red Lake Falls, Minn., Nov. 26.—(Special to The Herald.)—Peter Bolstad of Polk county and an unidentified companion were instantly killed by a Great Northern passenger train No. 135 at Red Lake Falls, Minn., today.

Men Identified. Crookston, Minn., Nov. 26.—Three men were killed and one seriously injured today when a Great Northern train struck the automobile in which they were riding eleven miles from Crookston. The dead: A. G. Gjesdahl, Crookston; Peter Holstad, Crookston; N. D. 15; and W. R. Orlie, Minn. 25. G. E. Gjesdahl, 22, is in a hospital at Thief River Falls, Minn. The train which struck the men was bound from Crookston to Roseau, Minn.

\$6,515,537.53 EXPENDED ON LOCAL HARBOR

Balance of \$67,295.47 Available for Further Improvements. Existing Project Authorized by Congress Is 95 Per Cent Completed.

Washington, Nov. 26.—Six and one-half million dollars have been spent by the United States government on the Duluth and Superior harbor, according to the army engineer's annual report, which was made public here today.

The report shows that in the past year the harbor has been improved to the extent of \$6,515,537.53. The engineer's report that the harbor is 95 per cent completed, which is a balance still available for improvements of that harbor of \$67,295.47, which is proposed to spend for the following: New work, \$21,305.61, and maintenance, \$45,486.86.

In discussing the total expenditures from the time congress voted to improve the harbor down to the present, the chief of engineers reports: "The existing harbor and existing project was \$5,505,693.11 for new work and \$1,009,844.42 for maintenance, a total of \$6,515,537.53."

The report will be sent to congress on Dec. 8 when it reconvenes. "The effect of the work done," says the report on the Duluth harbor, "has been to facilitate navigation by means of deeper and wider channels, with the consequent advantages of increased basins and safe anchorages to the harbor, as well as to give refuge to vessels seeking shelter from storms."

The harbor pier at the United States vessel yard, which was destroyed by the fire on the pier at Superior, has been materially reduced by removing the old pier and filling in the space between the old pier and the new pier.

The shore line at the inner end of the harbor is being improved by the construction of a breakwater at the inner end of the harbor. This breakwater will give the harbor a depth of 19 feet. This damage has been repaired.

SWEDISH MINISTER TO UNITED STATES IS DEAD

W. A. F. EKENGREN.

Washington, Nov. 26.—W. A. F. Ekengren, Swedish minister to the United States, died at the legation here today after a brief illness.

ARREST HEAD OF SINN FEIN

Arthur Griffith and Others Taken in Charge by Dublin Police.

Dublin, Nov. 26.—(By the Associated Press.)—Arthur Griffith, founder of the Sinn Fein organization, Prof. John MacNeill, Sinn Fein member of parliament for Londonderry city, and the National University of Ireland, together with a number of others, including Prof. MacNeill's son, were arrested today by the auxiliary police.

The Irish police in Dublin this morning, after the arrest of Griffith, took Arthur Griffith and others into custody at 2 o'clock this morning. Griffith was taken to a police station in Dublin at 2 o'clock this morning.

In the absence of America of Hamon De Valera, president of the Irish republic, Arthur Griffith has been probably the most active spokesman in Ireland for the cause of Irish freedom.

The arrest of Griffith and others is a blow to the Sinn Fein movement. Griffith was a member of the House of Commons in the United Kingdom and was a prominent figure in the Irish independence movement.

HUNTER'S PARK STORE ROBBED

Safe Opened Expertly and \$110 Cash Taken; No Clue.

The Hunter's Park Mercantile company was burglarized at an early hour this morning, the safe being robbed of \$100 in cash and checks of a face value of several hundred more, and the cash register tapped for \$10 additional.

The police are of the opinion that the work was that of professionals. The knob of the safe had been knocked off and a wire used to drop the register. It was then easy to get to the cash drawer in rifling the cash register.

WHEAT DROPS BELOW \$1.50 PER BUSHEL

Chicago, Nov. 26.—Values in the wheat market shrank today below \$1.50 a bushel. It was the first time since peace conditions had been restored that the \$1.50 level was passed on the big downward slide of prices which has been in progress of late.

Two Men Grab Sack of Unset Gems and Make Escape. Walk to Fourth Avenue and Disappear Up the Hill.

Emulating Superior and even surpassing it in boldness, Duluth today scored a daylight robbery which netted the thieves in the neighborhood of \$10,000 and created a sensation on West First street which has perhaps never been equaled in crime annals of the city.

Two men, apparently unaided in escape by a robbery of any kind, robbed the jewelry store of A. L. and S. J. Henricksen at 321 West First street at 10 o'clock this morning, getting away with about \$10,000 worth of unset diamonds and up to noon not being caught.

A. L. Henricksen, who was showing one of the men the store on foot and dashed up Fourth avenue west to second street, where all trace of them was lost. The police are after them, believing that they are hiding in some of the many buildings in the area.

CHANGES IN DEPARTMENTS

Proposed in Bill to Be Introduced by Senator McCormick.

Washington, Nov. 26.—Abolition of the department of interior, creation of two new departments—one to be known as the department of public works and the other as the department of public welfare—and general reorganization of other governmental departments is proposed in a bill prepared by Senator McCormick and introduced today.

The department of public works would include all important engineering and building services of the government. The department of public welfare as outlined in the bill would include all welfare agencies of the government, such as the women's bureau, the department of labor, the pension bureau, the public health service, the bureau of war risk insurance and the vocational training board.

The department of interior, as proposed in the bill, would be charged so as to increase its usefulness to business. Creation of an office in the state department to have jurisdiction over inter-state affairs and territory, such as Alaska, would be provided for.

The alien property custodian's office and the division of secret service would be placed under the department of justice. The office of the comptroller of currency would be abolished and its function transferred to the Federal reserve board.

CANAL VISIT OF HARDING NEARS END

President-Elect Devotes Last Day of Stay at Ancon to Golf. Makes Address at Banquet With Panama's President Present.

ANCON, C. Z., Nov. 25.—(By The Associated Press)—Senator Harding today, the last day of his short stay at the Pacific terminus of the Panama canal, devoted his time to recreation, for the most part, although he had several brief talks with canal zone officials.

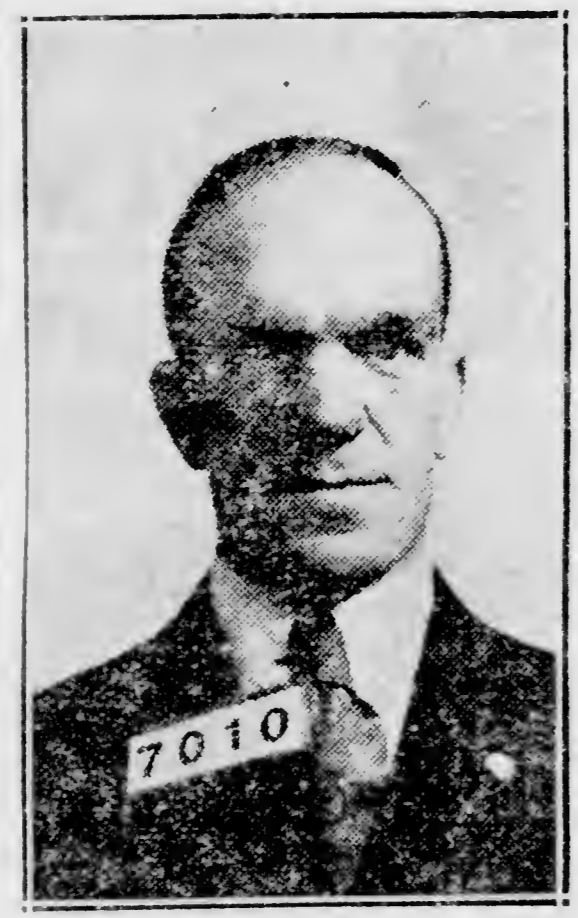

The president-elect rose early for a golf and later took a motor-boat ride. This afternoon he will be in Ancon, where on Sunday he will go on board his ship to return to the United States, sailing for Norfolk, Va., on Monday.

At a banquet given here, in which Harding was the guest of honor, he was presented with a memento which will accompany him to the White House.

The question of a proper military force for the canal zone also has interested the president-elect, who has been seen in the company of military officials.

Senator Harding's address at last night's banquet was a most favorable one, and it was generally believed that he was in good luck in his visit to the canal zone.

BENEFICIARIES OF AMERICAN CHARITY DRIVEN TO SONG

New York, Nov. 26.—American relief administration charity has driven the American beneficiaries to song in order to express their gratitude. At the "Kilmer Bankfest," held at Klagenfurt, the capital of Carinthia, a Thanksgiving festival celebrating the first year's work of the child feeding stations maintained by the relief administration in that city, the following hymn of Thanksgiving was sung:

"We thank you, noble minded, you who give to our children, your bread, your food and bread,
 Yet not by empty shillimer, by splendor and by gold,
 By blessed children's bright eyes deep thanks to you be told.
 "A dreadful war, the children's plight, it was the saddest plight,
 Therefore help us along, as distress will last long,
 Yet not by empty shillimer, by splendor and by gold,
 By loving mothers' happy hearts to you deep thanks be told."

The hymn was introduced by the composer of the words and music, Wilhelm Pawlik to the American Relief Administration European office. The hymn was issued in sheet music form with a gaily waving American flag in full color printed on the cover. The composer directs that the song be sung "with energy and enthusiasm."
 The American Relief Administration, of which Herbert Hoover is the chairman, supplies free meals to the children, and encourages and destitute children in Central and Eastern Europe last winter and is planning to continue the work through the coming winter. The present program calls for the feeding of some 2,500,000 children, improved food conditions having permitted the withdrawal of the American relief workers from some of the countries.

NEWFOUNDLAND ROADS GET GOVERNMENT AID

St. John's, Nfld., Nov. 26.—(By the Associated Press.)—The Newfoundland railway lines, a narrow gauge system of 950 miles owned by the Reid-Newfoundland Co., has been forced to call upon the colonial government for aid in readjustment, and its administration and operation have been placed under the control of a joint commission of seven. The government has a majority of the members of this body.
 The commission also has taken over along with the railway lines the whole system of coastwise water connections along the Newfoundland coast which heretofore have been operated jointly by the government and the Reid-Newfoundland company. Thus the commission is administering virtually all the transportation facilities of Newfoundland, for both passengers and freight.
 A sum of \$1,000,000 in colonial funds has been allocated to the commission to enable it to begin its task of working out the salvation of the railway system. The commission is expected to recommend to the next session of the legislature a permanent plan for operation either by the government, by private interests or jointly.
 These steps were made necessary because the railway lines which before the war suffered an average loss of \$100,000 a year, in the last five years have been compelled to provide for large increases and expenses, notably for coal and wages. As one of its first problems, the railway commission is faced with a demand for further wage increases ranging from 20 to 30 per cent.

IF YOUR EARS RING WITH HEAD NOISES

If you have roaring, buzzing noises in your ears, are getting hard of hearing and fear Catarhal Deafness go to your druggist and get 1 ounce of Parmitin (double strength), and add to it 1/4 pint of hot water and a little granulated sugar. Take 1 tablespoonful four times a day.
 This will often bring quick relief from the distressing head noises. Closed nostrils should open, breathing become easy and the mucus stop dropping into the throat. It is easy to prepare, costs little and is pleasant to take. Anyone who has Catarhal trouble of the ears, is hard of hearing or has head noises should give this prescription a trial.

PRESIDENT AS MEDIATOR

League Asks Wilson to Act Between Turks and Armenians.

Geneva, Nov. 25.—(By the Associated Press)—Serbia, Roumania and Greece yesterday formally notified the assembly of the League of Nations that they are opposed to the admission of Bulgaria into the league.

The council of the league yesterday called President Wilson at the same time as messenger of the same purport were sent to the various powers, asking whether he will accept the role of mediator between Mustafa Kemal Pasha, the Turkish Nationalist leader, and the Armenians.

The text of the message follows: "The assembly of the League of Nations passed on Nov. 22 a resolution couched in the following terms: 'The assembly, anxious to cooperate with the council in order to put an end within the shortest time possible to the horrors of the Armenian tragedy,

has requested the council to arrive at an understanding with the governments with the view of entrusting a power with the task of taking necessary measures to stop hostilities between the Kemalists and the Armenians.'

The council of the league has, after consideration, decided to transmit this resolution to the governments of all states members of the league and also to the government of the United States. The object is to find a power which will use its good offices to put an end as speedily as possible to the present terrible tragedy.

Not for Mandate.

"The proposal does not involve a mandate for Armenia. The council does not wish to suggest an assumption of duties which might be unwelcome, but has felt bound to offer to the United States the opportunity of undertaking this humanitarian task since the fate of Armenia always has been of special interest to the American people and the president of the United States has already agreed to delimit the boundaries of that country. As the matter is of great urgency, the council ventures to ask for a reply with the shortest possible delay."

No meeting of the assembly was held yesterday in order to give members full time for committee work.

After the membership committee had decided to make all the new Russian states wait for admission and the amendment and disarmament committee had expressed themselves in favor of delay, the committee on finance and economics decided it would not act at present on the suggestion of the trustees financial congress that a committee of financiers be chosen to lay

plans for an international credit institution.

Another Conference.

If the assembly approves the committee's decision, another international financial conference will be held next year before anything is done on the suggestions made at the Brussels conference. This is understood to be the plan advocated by the British.

Austria is the only former state which is likely to be admitted to the league without serious opposition. The majority of members of the subcommittee dealing with the applications of Austria, Bulgaria, Albania and Lithuania, presided over by Lord Robert Cecil, are said to favor the admission of Bulgaria, but the Roumanians and Jugo-Slavs have declared they will fight against it, asserting that the entrance of Bulgaria into the league now would create a grave complication. This has been interpreted by some of the delegates as a menace that they will quit the league if outvoted.

The Montenegro government is industriously circulating the delegations and preserves in support of its application for admission to the league, of which neither the council nor the committee on new members have thus far taken notice. Montenegro being considered a part of the Serbian-Croatian-Slavone state.

Sandwich innkeeper, was put over yesterday until Dec. 2. His bond was increased to \$20,000, which was furnished by the minister and his congregation.

Appointment of a nonresident lawyer to conduct the prosecution has been asked by Mrs. Beverly Trumble, who asserts an impartial trial otherwise is impossible in any of the border cities.

FLAG CAUSES SMALL RIOT

Irish Object to Flying of Union Jack at New York Club.

New York, Nov. 25.—The usual quiet observance of Thanksgiving day here was violently interrupted shortly after noon yesterday when crowds which had attended a high requiem mass in memory of Terence MacSwiney, former lord mayor of Cork, rioted at the sight of a British flag decorating the facade of the Union club across Fifth avenue from St. Patrick's cathedral.

After a fight participated in by hundreds of Irish sympathizers, in the course of which plate glass windows of the club were shattered by missiles hurled by members of the mob, order was restored when a cordon of 200 police established itself around the beleaguered building.

The Union Jack, which was the cause of the assault, though taken down at the first demand of the crowds and subsequently removed, still was draped over the sidewalk with the emblems of France and the United States when the fracas ended.

When the clamor of the first onrush was at its height the Lt. Rev. Michael J. Lavelle, pastor of St. Patrick's, clad in his ministerial robes, rushed out of the church and pleaded in vain with the leaders to quell the disturbance.

After mounting and motorcycle police had dispersed the assaulting forces, a survey of the field of battle revealed casualties including a dozen or more slightly injured who had been struck by flying bricks and stones. All windows on the lower floor of the club had been smashed.

Before the beginning of the MacSwiney mass, the attendance which was the largest since the death of the cathedral, a delegation of Irish requested that the British flag be removed. The club superintendent complied, but later on instructions from club officials, the flag was replaced.

When the police was over the flag again caught the attention of hellion members of the congregation who were angered at the reappearance of the emblem. The stones and bricks were secured from a nearby building under construction and the attacks began. A riot call at first brought only a few police, all of whom were fought desperately, using their night sticks freely, but were powerless against the heavy odds.

Believe Back Attackers. Only after the arrival of reinforcements of three times the original number, did the officers succeed in driving back the attackers.

Four arrests on charges of malicious mischief were made. The MacSwiney memorial service was attended by many prominent Irish here, including Edmund de Valera, president of the Irish republic, who occupied a place in the front row.

Monsignor Lavelle paid a tribute to the former mayor of Cork, who died after a hunger strike in Brixton prison, London, calling him "a man whose high record proclaims him just, whose deeds make him a true patriot of the world and whose name will live in the memory of the world."

At the outset of the trouble, club members sallied later, a crowd of thirty men and two women gathered outside the door and entered the club. Telfair Martin, a lecturer on flags, and several other members of the visitors.

"We'll give you five minutes to take the British flag down," one of them said, according to Mr. Martin.

Attempts to reason with the invaders were unavailing. Mr. Martin declared the crowd attacked him and the other club members, inflicting several minor cuts and injuries on Mr. Martin.

An Open Winter Befriends An Open Season for

Scores of Coats, Frocks, Skirts: In After-Thanksgiving Sales!

—Featuring Low Cost as of the Highest Importance.

PRE-WAR PRICES are impossible. Unless pre-war conditions and standards of living come back—unless two dollars a day and dire unemployment come back—pre-war prices cannot. Not at this time. But a dollar of today may buy even as big a dollar's worth as any pre-war dollar did, value for value. The proof of the pudding is in wearing Glass Block ready-to-wear. For the gentility of the weather report, coupled with special purchases at overstocked primary markets, means this: the Shoppers' Hour has struck—wardrobes may now brighten up.

at **35.00**
Frocks Heretofore Selling
From 50.00 to 75.00

—Frocks for street wear, and a few of those silk modes for informal wear. Only a few of these latter, but such a splendid array of stylish, smart navy blue and black Serge and Tricotine ones. They're the long-line, one-piece frocks that you can pin your faith to, when all other wardrobe items fail. They're braided, embroidered, and some have contrast trim of color.

at **15.00**
Skirts Heretofore Selling
From 18.50 to \$29.50

—Fifteen dollars may have bought such skirts some time ago, but we forget when. Pleated knife or box, or knife and box. And without any pleats at all. Sometimes plaids are pleated in every pleasing shade of brown. Or blocky checks have no pleats to keep in order. Those dashing black and white stripe effects have a host of friends. You wear them with anything.

at **65.00**
Coats Heretofore Selling
From 79.50 to 95.00

—50 modes: Coats and Coat-wraps. Of Silver-tip Bolivia, of Chinchilla, of Chamoistyn, of Goldtone, and Bolivia. Huge, splendid collars of French Seal, Australian Opossum, of Raccoon, and of Nutria. In blue and jade, and all the browns autumn had in her dye-vat. Novelty linings. Lines and lines of pretty stitching. Everything big but the price.

at **89.50**
Coats Heretofore Selling From
115.00 to 150.00

—Coats and wraps of Chamoistyn, Silver-tip Bolivia, Orlando Cloth and Bolivia. Coats with those big wrappy, luxurious shawl collars of Moleskin, Raccoon, Opossum and Nutria. Some even go so far as fur cuffs. Colors of course include many shades of brown, Pekin blue, navy blue and jumper. Lines and lines of stitching and cape and blouse backs are impressive.

EVER get stage-struck? Then you know just how I feel at this very minute. For all the world like years ago when everybody in the county had come for miles to hear little me get right up between the organ and the pulpit to say "Christmas Candle shining bright." But after getting down on my knees, as it were, and begging the Advertising Manager to give me just one wee column in which to talk to folks right from the shoulder, there's nothing to do but swallow my heart and say my name is Marian Lee, and I'm the Personal Shopper.

Water Waves

SPEAKING of stage fright—you don't know how it affects your hair! The other day I got sort of tired of having my hair stand on end with fast—or else fall dumpy down across my patient eyes, so I went down to the Beauty Parlors and had a Water Wave. They assured me it would "last"—and I'm sure mine will—it's very firmly waved. Just like Lake Superior is sometimes. Only the result is different.

Come to The Beauty Parlors tomorrow and have one. It's the famous Nestle Permanent Wave that's steamed in a way that positively won't hurt your hair.

A Vamp

ESCAPED from The Garnet the other day, and glided most sinuously onto the Second Floor, leaving the elevator girl quite paralyzed. Being a woman of courage, I stilled up quite close to her, as she absently cared on our Evening Frocks in the Dress Section. I was positively sure she would choose a stunning green velvet gown, a perfect siren of a gown. But would you believe it! She picked out the most angelic, baby-faced, little Eva of a gown we had in stock. It was of soft blue satin, tulle-trimmed, with halos of silver embroidery all over it. Priced 79.50

"Oh, Dear"

SAID Little Mrs. Perkins, who lives in our apartment: "I wish to goodness the neighbors weren't so fussy. I never seem to want to play the piano until after dinner at night—and those crabby Joneses have such a sensitive baby—I declare I think that child must have an ear trumpet!"

Polly Perkins should have a Brunswick Phonograph and some Brunswick and Emerson Records, though to be sure, the Brunswick plays any record.

The Jones Baby

WAS gurgling an infantile "kick" the other day. It kept spilling orange juice all over its white dress. Finally I discovered there was method in this "spill"—it was going to have a nice, fresh dress on or bust—that was all there was to it! Baby Hangers, 39.

By the way, you should see our Art Department—and if you do, don't forget to look up the little Colonial Lady that manages to be a lady and a lamp at the same time. You can make one yourself. The frame is priced 2.50, and all it needs to make it into "a light that shines" is a bit of silk and gold lace.

Yes, Indeed!

SUPERIOR STREET doesn't look the same today. Wednesday folks were bustling, and hopping along with bundles. Big bundles with yellow feet sticking out—today there is nothing left but "B-O-N-E-S!" And unless Mother is taken out to dinner tomorrow night, she'll probably give you nothing but turkey soup—and it'll serve you right.

Clearing the Deck for Christmas

UNITED STATES CLAIMS RIGHTS UNDER TREATY

Tells Great Britain It Does Not Propose to Be Excluded.

Has Special Reference to Great Petroleum Fields of Mesopotamia.

Washington, Nov. 26.—(By the Associated Press.)—The American government has informed Great Britain, politely, but firmly, that it does not propose to be excluded from participation in the rights and privileges secured under the mandates provided in the treaties of peace. Furthermore, it expects to be heard regarding the terms of those mandates before they are put into force.

The position of the United States is set forth in a note by Secretary Colby to Earl Curzon, the British secretary of state for foreign affairs, and the specific question discussed is that of the Mesopotamian petroleum fields. Mr. Colby's note is dated Nov. 25, and was made public yesterday following the delivery to the British foreign office early this week. It is in reply to a British note of last Aug. 9, which has never been made public, and which deals with the application of the principles of equality of treatment to the territories of the Near East to be placed under British mandate.

The American note takes issue with what is described as the British position that mandates agreements and treaties are to be considered only by states that are members of the League of Nations. It states that the United States, as a participant in the World War, and a contributor to its successful issue, cannot consider any of the associated powers, the mandates provided in the treaties of peace, less than itself, debarred from discussion of any of its consequences, or from participation in the rights and privileges secured under the mandates provided in the treaties of peace.

Accepts Statement.
Mr. Colby says in his note that the American government accepts the statement of the British government

that it has refrained from exploiting the petroleum resources of the mandated territories in question, "and well comes your pledges" that it is far from the intention of Great Britain to "establish any kind of monopoly or preferred proposition in its own interest."

"I need hardly refer again," Mr. Colby continues, "to the fact that the government of the United States has consistently urged that it is of the utmost importance to the future peace of the world that alien territory transferred as a result of the war with the Central powers should be held and administered in such a way as to assure equal treatment to all nations. Indeed, it was in reliance upon an understanding to this effect, and expressly in connection therewith, that the United States was persuaded that the acquisition under mandate of certain enemy territory by the victorious powers would be consistent with the best interests of the world."

To Secure Equality.
It is assumed accordingly that your statements with reference to Mandate A (not described) together with the treatment for the commerce and industry of all states which are members of the League of Nations do not indicate a suggestion on your part that the United States can be excluded from the benefits of the principle of equality of treatment."

Referring to the statement by the British government that the draft mandates for Mesopotamia and Palestine which have been prepared will be submitted to the council of the League of Nations, the American secretary of state says "the United States is, undoubtedly, one of the powers directly interested in the terms of the mandates, and I, therefore, request that the draft mandates be transmitted to this government for its consideration before their submission to the council of the league."

Mr. Colby goes on to say that "it would seem essential that suitable publicity should be given to the draft mandates which it is the intention to submit to the council, in order that the fullest opportunity may be afforded to consider their terms in relation to the obligations assumed by the mandatory power and the respective interests of all governments, which are, or deem themselves, concerned or affected."

Interested Public Opinion.
"The fact cannot be denied," Mr. Colby continues, "that the reported views of Mesopotamians have attracted public opinion of the United States, Great Britain and other countries as a potential factor in the economic situation."

"Because of that fact they become an outstanding illustration of the kind of economic question with reference to which the mandate principle was especially designed, and indeed, a peculiarly pertinent test of the good faith of the nations which have given their adherence to the principle. This principle was inaugurated in the hope of obviating in the future those interna-

tional differences that grow out of a desire for the exclusive control of the resources and markets of annexed territories."

Mr. Colby then frankly states that the American government finds difficulty in reconciling the special arrangement set forth in the so-called San Remo petroleum agreement between Great Britain and France, with the British government's statement that the resources of Mesopotamia and freedom of action in regard thereto will be secured to the future Arab state, as yet unorganized.

"Furthermore," he says, "it is difficult to harmonize that special arrangement with your statement that concessionary claims relating to those resources will remain in their pre-war position, and have yet to receive, with the establishment of the Arab state, the equitable consideration promised by his majesty's government."

Based on Principle.
"This government has noted in this connection a public statement of his majesty's minister in charge of petroleum affairs, to the effect that the San Remo agreement was based on the principle that the concessionary claims of the former Turkish government must be honored. It would be reluctant to assume that his majesty's government is undertaken to honor certain of those claims which cover, apparently, the entire Mesopotamian area. Indeed, this government understands your note to deny having taken such ex-parte and premature action."

"In this connection I might observe that such information as this government has received indicates that, prior to the war, the Turkish petroleum company, to make specific reference, possessed in Mesopotamia, no rights to petroleum concessions or to the exploitation of oil, and in view of your assurance that it is not the intention of your government to establish on its own behalf any kind of monopoly, I am at a loss to understand how to construe the provision of the San Remo agreement that any private petroleum

company which may develop Mesopotamian oil fields shall be under permanent British control."

Has Only One-Twelfth.
Referring to "some allusions" made in the original British note to American supremacy in the petroleum industry, Mr. Colby says that to correct a misapprehension "which your note reflects," he will state that "the United States possesses only one-twelfth, approximately, of the petroleum resources of the world," and "that the oil resources of no other nation have been so largely drawn upon for foreign needs."

"But it is not these aspects of oil production and supply, insofar as they are of domestic interest to the United States with which I am concerned in this discussion," says Secretary Colby in conclusion.

"I have alluded to them in order to correct confusing inferences liable to arise from certain departures, which I believe I discern in your lordship's communication, from the underlying principles of a mandate as evolved and sought to be applied by the allied and associated powers to the territories, brought under their temporary dominion by the joint struggle and common victory."

MANY DISABLED SOLDIERS STUDY AT UNIVERSITY FARM
About 250 disabled soldiers have registered this year at University Farm, Forty-five in the "vestibule school," and about 100 in the school. Twenty-month by the government to these soldiers students at the farm, under act of congress, increasing the allowance for subsistence of each individual from \$10 a month to \$100 a month.

The "vestibule school" is the direct sequel to a contract recently entered into between the university board of

regents and Federal government. The essence of the contract is expressed in the sentence "to take any number of any grade at any time."

There has seemed to be no place in the schools of agriculture for men of elementary training who must have pre-vocational instruction before they are qualified to receive scientific training intelligently. "The vestibule school" has been organized, then, for men of this class. At University farm most members of the class are reviewing elementary studies rather than taking them up for the first time. A few men of foreign tongue are backward from the standpoint of English.

The plan for grade work at the university farm school of agriculture calls for the employment of two teachers, one for the grades and one for agriculture. The board of regents at its session Wednesday voted to employ J. G. Christianson, a student of the university, for grade teacher, and J. B. Taylor, a graduate of the River Falls, Wis., normal school for teacher of agriculture. Marc C. Leager, an alumnus of the university, is the Federal coordinator at University farm. It is his duty to aid in correlating the instruction and to see that the men are correctly classified so that their rapid advancement will be assured.

ITASCA COUNTY SELLS \$250,000 ROAD BONDS
Grand Rapids, Minn., Nov. 26.—Itasca county road work on Babcock routes will get a boost from the county board has just sold bonds to the amount of \$250,000, the funds received to be applied toward the work of construction of the important highways named in this county as under the good roads amendment. This issue of a quarter of a million in bonds is a part of the \$2,000,000 issue that the voters of the county authorized by a 12-1 vote a year ago last August.

The bonds were sold to Kalman, Matteson & Woods and the Mechanics

Trust & Savings bank of St. Paul. The bond house and the bank joined in making the purchase. The bonds were sold for a premium of \$2,255, to be paid the county, and at a rate of 5 1/2 per cent interest. Adding the premium to the money received for the sale of the bonds brings the interest rate down to practically 5 1/4 per cent. No bonus was paid on the sale. The sale is considered a very advantageous one for the county by financial men everywhere. Five firms competed in the bids on the bonds.

DECLARES LUMBER PRICES AT BOTTOM

Minneapolis, Minn., Nov. 26.—Lumber mills in the Far West have practically ceased operations and some companies have even called their logging crews out of the woods as a result of the decreased demand for lumber. D. H. Conn, Carpenter-Clark company, said, Mr. Conn has just completed a trip to Western lumber centers and back. Pointing

out that No. 1 common dimension lumber has fallen from a high point in March of \$31 at the mill to \$18.50 at present, with some sales made under that figure, Mr. Conn declared that lumber is at the bottom prices.

"If people who plan to build next spring expect prices on lumber lower than they can get now, they are mistaken," he said. "To arrive at the Minneapolis wholesale price \$12.00 per 1,000 feet must be added for freight. This was \$13 before the freight rate increase."

Two of the injured are probably fatally hurt. The express car and combination baggage car and smoker of the passenger train were turned over.

TWENTY HURT IN TRAIN COLLISION

Bellefontaine, Ohio, Nov. 25.—Twenty persons were injured at West Liberty, near here, late yesterday when Big Four passenger train No. 18, Cincinnati to Detroit, ran into an open switch and crashed into a freight train standing on a sidetrack.

Two of the injured are probably fatally hurt. The express car and combination baggage car and smoker of the passenger train were turned over.

STATE SUPREME COURT DECISIONS

St. Paul, Minn., Nov. 25.—(Special to The Herald)—The following decisions were announced by the Minnesota supreme court today:
HENNEPIN COUNTY.
Slender Verdict Upheld.
Elmer G. McNisky, respondent, vs. William Kuhlman, appellant.
Plaintiff had a verdict, and defendant appeals from the order denying a new trial.
The cause of action is slander, defendant being charged with having stated in the hearing of third parties that plaintiff was a thief, and it could be proven, on conflicting evidence, the jury found for plaintiff. This court has no right to set aside the verdict, unless it was more deserving of credence than plaintiff's.
The motion for a new trial was also based on the ground of excessive damages given under the influence of passion or prejudice. The damages appear large, but not so large that the inference necessarily is that passion or prejudice moved the jury. Aside from the amount of the verdict there is nothing in the record suggestive of anything improper working to the prejudice of defendant. The verdict found to have been uttered were reasonable per se. They charged plaintiff with the commission of a crime. The verdict was for \$1,000.50. Plaintiff was a young mechanic who had started a garage business in Minneapolis, and the accusation was made in relation to an automobile radiator which defendant claimed plaintiff had stolen. There were some exhibits from which the jury could find actual malice so as to justify adding punitive to the general damages.
The only other assignment of error is "third." Because of error of that kind, the verdict is set aside, and a new trial is granted. This is insufficient; but we have nevertheless examined that part of the charge which is the brief discussed as being erroneous and to which counsel expressly directed the attention. When the part criticized is read in connection with what precedes we see nothing of which defendant could justly complain. No uncertainty or ambiguity in the charge was suggested when given, nor does the brief point out wherein the defect is claimed to be.
Affirmed. **PERR CUTLER.**

HENNEPIN COUNTY.
Right of Cancellation.
Herman Mikolas, applicant, vs. Val Blatz, Breco company, respondent.
Plaintiff sold his business to Melville, taking notes for installments of the purchase price. As part of the agreement, plaintiff leased to defendant, for a long term, the premises where the business was conducted. The lease was terminable by defendant in event Melville defaulted in his payments but with the proviso that all payments being made, Melville becoming embarrassed, plaintiff agreed to accept the notes Melville gave for amount less than the amount due a third party assuming part of the obligation. It was agreed that the new notes should stand substituted for the old and be secured in the same manner by the lease, and that plaintiff should have the same rights in event default as under the old agreement. Defendant was not a party to this agreement but assented to it. Plaintiff had the same right of cancellation, for default by Melville, after the new agreement as before.
The giving of notes for an antecedent debt, with the added signature of a new party, is not absolute payment unless the parties so agree. The court made no finding on this subject. There was evidence from which the court might find that the original debt was not wholly paid. In the absence of a finding, this court cannot assume that the original debt was wholly paid.
It was not necessary that defendant be a party to the new agreement between plaintiff and Melville, if it assented to it, the new note became substituted for the old, for all purposes.
The statute of frauds has no application to this case.
Affirmed. **HALLAM, J.**

RAMSEY COUNTY.
Conduct Admitted Lease.
Michael J. O'Neil, respondent, vs. Watson P. Davidson, appellant.
The refusal to transfer the case to the court calendar, prejudicially, no rights of defendant.
The evidence conclusively established that defendant, after learning of the deed of which he complains, remained in possession of the leased premises and paid several installments of rent. Such conduct affirms the lease, and equity will not decree a rescission.
The title of damages stated in Debel vs. Rosenberg, 14 Minn. 166, is adhered to, namely, that where a lessee has been induced to execute a lease through misrepresentation and deceit of the lessor, the lessee may, after he has full knowledge of the fraud, remain in possession and recover damages arising through the fraud practiced during the unexpired part of the term. He may recover all damages sustained up to the discovery of the fraud.
Affirmed. **HOLT, J.**

RAMSEY COUNTY.
Juvenile Court Reversed.
State of Minnesota, vs. Ed Blanche Mattes and James W. Mattes, petitioners, vs. the Juvenile Court of Ramsey county and G. S. Orr, designated judge thereof, respondents.
1. The intent and purpose of section 1, chapter 257, laws of 1917, read in connection with the last clause of section 13, construed and held, to exclude from the operation of that chapter, as a dependent, child having a parent able to provide for his proper support and who does not consent to separation from him, whether such child be illegitimate or legitimate.
2. In proceedings to commit an illegitimate child to the care of the state board of control under the provisions of chapter 297, laws of 1917, the consent of the mother is essential, in the absence of a showing that the commitment is needed in order to prevent serious detriment to the child.
3. Testimony considered and held, not sufficient to warrant the commitment of an illegitimate child to the care of the state board of control.
4. Where an illegitimate child is in lawful custody of a person other than his parent, by virtue of an order of the district court in habeas corpus proceedings, a juvenile court has no power to interfere with the custody of such child.
5. The provisions of chapter 297, laws of 1917, considered and held, not to be objectionable as class legislation.
The order is annulled.
Reversed. **QUINN, J.**

RAMSEY COUNTY.
Malpractice Verdict Affirmed.
Kate Berland Hays, respondent, vs. Harry E. Lukky, appellant.
In this, a malpractice case, the evidence stated in the opinion was sufficient to support a verdict for \$4,500 charging a physician with negligence in administering the x-ray treatment to a patient suffering from syphilis.
Affirmed. **LEWIS, C.**

RICE COUNTY.
Boundary Line Defined.
James Lawler, respondent, vs. Counties of Rice and Goodhue, et al., appellants.
1. The corners and boundary lines established by the government survey of the public lands are where they were actually marked on the ground by the government surveyors, and the point where a section post or quarter-section post was placed on the ground, if satisfactorily established, is controlling and conclusive as to the location of the corner marked by it, although such location may not accord with the courses and distances shown on the plat and field notes.
2. The evidence sustains the finding of the trial court that the quarter-

section post in controversy was placed by the government surveyors at the point claimed by plaintiff.
Affirmed. **TAYLOR, C.**

McLEOD COUNTY.
No Reversible Error.
James A. Cafferty, respondent, vs. Max Klatt, appellant.
1. Evidence in an action to rescind an executory contract for the sale of personal property, considered and held sufficient to justify the submission of the question of fraud to the jury, and to support the verdict.
2. The bargain constituted an executory contract for the sale of personal property of a particular quality. Under such a contract, when possession is tendered, the purchaser may refuse to accept, if it be not substantially as represented in the contract, and recover the money paid.
3. We find no reversible error in the instructions nor in the rulings upon the admission of testimony.
Affirmed. **QUINN, J.**

WILL URGE PAYMENT OF CLOQUET BONUSES
Cloquet, Minn., Nov. 25.—(Special to The Herald)—Attorney G. V. Barron left Wednesday night for St. Paul to represent the interests of the ex-service men of Cloquet before the state bonus board. A number of bonus claims

for which the Cloquet Lumber company and the Northwest Paper company purchased bonds have not yet been paid. Included in these are a number of approved claims and many unapproved claims, the greater number of which Cloquet men believe are being held up on mere technicalities. Mr. Barron has been given full authority to use "any and all necessary measures" to see that Cloquet doughboys receive their money in time for Christmas.
Attorney Barron will also represent the American Legion before the attorney general to argue for a rehearing in the case of space production men, whose claims were allowed in the minimum of \$50. Service men from Cloquet served about eleven months

and put in claims averaging \$165. These were cut down to a minimum by the bonus board for the reason that the spruce men drew extra pay for part of their service. Mr. Barron will argue that under the terms of the bonus law the only factor that enters into the case is whether or not the men were in the "military service" during the time for which they claimed bonus. All spruce men consented they were subject to military control and discipline and were required to drill frequently. They received honorable discharges for the entire period of service. They were required to purchase their clothing out of their extra allowance and contented that the board has erred in reducing their claims to the minimum.

GYPSY GIRL IS NOW HELD TO CIRCUIT COURT
Marionette, Wis., Nov. 26.—Magistrate Stevenson, 22 years old, a gypsy girl who attempted a daylight robbery on Tuesday at the Farmers Savings & Trust bank, was held for the circuit court in \$1,200 bond, by Municipal Judge Bernardy.
Male members of the gypsy tribe arrived from Chicago and put up a cash bail, securing her release.
It was discovered later that the girl got away from the bank with \$30 in 20 bills, which was recovered later from her person at the police station.

WILL REMOVE CAR SHORTAGE

New Eastern Grain Elevators to Benefit Northwest Producers.

St. Paul, Minn., Nov. 26.—The 5,000,000-bushel grain elevator under construction at Philadelphia and the proposed erection of a 20,000,000-bushel capacity elevator at New York, will materially benefit farmers and other grain men of the Northwest in removing the car shortage menace, caused by a congestion at the tide water terminals, to C. F. B. Jacobson, railroad and warehouse commissioner, who has just returned from an Eastern trip.

For many years, Mr. Jacobson explained, the Northwest has been greatly hampered in moving grain, flour and other grain products through outlets upon the Atlantic seaboard. The completion of these two enormous elevators, according to the commissioner, will stop this blockading of grain and other shipments.

The action taken at New York and Philadelphia and the movement for similar action at other ports to enlarge the facilities for storing and handling grain and flour may be attributed directly to the persistent agitation of the Minnesota railroad and warehouse commission, backed by the Minnesota legislators. The farmers of Minnesota and the grain interests generally, Mr. Jacobson said.

Capacity Inadequate.

The railroad and warehouse commissioners for years had contended that the principal ports on the Atlantic coast East coast and New York, with a total elevator capacity of only 17,000,000 bushels, less than half that of other classes of elevators, were inadequate to handle the grain and flour from the West during periods of maximum freight movements.

The fact, Mr. Jacobson said, was brought to the attention of the public in 1916 when the "car famine" was most acute and eventually paralyzed one of the transportation systems of the country. An investigation by the commissioner was made at that time and was found that thousands of freight cars loaded with grain had been held for months in the railway yards of New York and Philadelphia. However, the grain could not be unloaded, because of the lack of storage facilities, and as a consequence the railway yards became congested, with freight cars which stopped transportation in the West, where elevators were filled to the bursting point.

Would End Car Famine.

The result of this investigation was reported to the National Association of Manufacturers and "Millers' Commission" by Mr. Jacobson, who argued that if the grain cars could be unloaded promptly on arrival at elevators and moved at once for transportation purposes instead of being held for months at a time for storage facilities, there would be little or no fear of car famine.

Mr. Jacobson at that time urged that the state of New York should inaugurate a plan in the matter of providing storage facilities for this surplus grain and flour, but this suggestion was pronounced as "socialistic" by Commissioner J. D. Carr of New York. Nevertheless, the national association implored congress either to provide the necessary facilities at the ports or to compel the railways to do so. At the request of the Minnesota commission, Senator Knute Nelson and Congressman Rodney Anderson introduced in congress identical bills designed to provide such facilities.

TUSKEGEE APPEALS FOR CHRISTMAS GIFTS

Tuskegee, Okla., Nov. 26.—Principal Moton of Tuskegee Normal and Industrial institute has issued the following appeal for Christmas gifts:

"For many years it has been the custom of philanthropic friends of the institute at this time of the year, to send for distribution among our poorer children in the rural districts of the South, new or old clothing, books, pictures, cards, etc. These gifts have always brought untold comfort and happiness and Christmas cheer to thousands of these people who most otherwise have had little to remind them of the Christmas season.

"For my part, I will be glad this year, as in past years, to serve as the distributing center of any such gifts as our friends may be willing to send. Through our many orphan schools, located in many parts of the South, we are able to know and reach and help the really needy and deserving of these many communities, as well as to help the most worthy and unfortunate of our own student body and of our immediate vicinity.

"The inability of the farmers of the South to realize on their cotton crops because of the high cost of production as against the comparatively low market value of the staple is having its effect on the home life of the poorer people, and we are all the more anxious to be able to supplement what little they can help themselves during this crisis.

"Some friends have seen fit to send checks to be used for the same purpose. Any amount will help. Kindly address parcels or letters to Robert R. Moton, principal, Tuskegee institute, Alabama."

To "Youth-ify" Gray, Streaked Hair

Ask anybody to guess how old you are, and notice how their first appraising glance is directed at your hair.

To be answered—"You can't be more than thirty; I can tell by your hair," must give to any woman who is really forty or more a sense of pride and satisfaction.

But to become prematurely gray at 30 or 40, to look ten years older than

you actually are—that is indeed a bitter experience. However, any woman can, with a bottle of Brownstone, restore to gray, faded and streaked hair all its maiden beauty and the identical color it had in girlhood, whether light golden, medium, dark brown or black. Brownstone is instant in results and absolutely harmless.

At all drugists 50c and \$1.50; two colors—"Light to Medium Brown" and "Dark Brown to Black."

Special Free Trial Offer. For a free trial package of Brownstone, send to The Kenton Pharmacy Co., 537 Coppin Bldg., Covington, Ky. Inclose 11 cents to pay postage, packing and war tax. Test this out.

deduced here, and aim to add to the friendly understanding which becomes our law regarding their exceptional military hero.

"We are further more than friendly neighbors, offering the cup of most cordial association. We are spiritual partners in one of the grandest ventures of the twentieth century transportation. Your freedom and our generous resources combined to link the oceans and the day will come when the commerce of the world will stage its surpassing present here.

"In your own republic you are aspiring to advance your trade. The supreme problem is to further this essential trade, hold it exclusively right and not forget the finer human responsibilities which are essential to spiritual as well as material, upbuilding. It would be folly to produce and exchange as fast as education and uplift and exist.

"The people of America being mirrored here in our canal zone activities, as well believe and trust that you will be a part of a right and true America which believes in liberty for all and that you will be a part of a true America which believes in liberty for all and that you will be a part of a true America which believes in liberty for all.

"Assures Friendship. "I need for assure you new of the friendship of our United States, for your republic. We are deeply interested in the development of your good fortune. More we want our proven

friendship for you to add to the confidence of all America, North, Central and South, in our people and our government. We crave friendly relations and we wish to promote them and make them abiding. We want a spirit of fraternal Americanism which binds the American continent, not in selfishness, not in rivalry of the Old World, but in a mutuality of interest and helpfulness to one another.

wearing away, has been filled in with hydraulic dredging from Superior harbor basin and is now in good condition.

Nearly Completed. "The existing project is 95 per cent completed. With the exception of completing the enlargement of Superior harbor basin authorized by the river and harbor act of July 1916 and completing the dredging of a shoal point in the southern end of East Gate basin authorized by the river and harbor act of March 2, 1919, the existing project is regarded as completed.

Because of the balance on hand, no money is to be asked of congress this year for the Duluth project. It is estimated that not more than \$63,000 will be spent this year and that the total necessary to complete the project will be \$265,000.

Recommended \$78,207,665. Washington, Nov. 25.—Harbor and waterways improvement and maintenance will require appropriation of \$78,207,665 for the fiscal year of 1921.

according to estimates of Maj.-Gen. Lansing I. Beach, chief army engineer here, his annual report made public today. He recommended a rivers and harbors bill, which would be supplemented by sundry civil items aggregating \$10,250 for continuing contracts and other items in other money bills.

Recommendations for appropriations in the various districts include: Duluth district—Grand Marais, \$5,100; Agate Bay, \$6,000; harbor at Duluth and Superior, \$63,500; Port Wing, \$2,000; Ashland, \$5,000; Ontonagon, \$1,500; Keweenaw waterway, \$120,000; Grand Marais harbor of refuge, \$10,000; Warroad harbor and river, \$5,500; Zippel, \$10,000.

Chase Is Unproductive. O. M. Collier, president of the O. F. Collier Lathrop company, saw the men as they went past and when one of the clerks from the jewelry store came out crying and shouting, he looked up the chase. The appearance of the men attracted the attention of Sergeant David Perry who at the time was watching the excavation work for the new fire station. He jumped into an automobile and driving past at the time and drove up Fourth street in the chase. At second street the officer was informed the men had passed but just before he reached the low fourth street, a woman informed the officer that two men had passed that way but were headed down.

The police were immediately called and a description of the thieves, including their height, weight, build and outside clothes within a range of twenty-five miles from Duluth, was issued. It is not believed that the men have left the city and officers in all sections are searching diligently for them.

Heavy Loss in Diamonds. The loss is estimated to be approximately \$100,000. The diamonds were hidden in a box in the jewelry store. The burglars were seen by Mr. Hendricks, who was in the store at the time. He immediately called the police and they arrived in a few minutes. The burglars were seen running away from the store. ARREST HEAD OF SINN FEIN

(Continued from page 1.)

The real "man of straw" was in Dublin Castle, Mr. Griffith declared in a speech before the opening of the Sinn Fein conference in Dublin. In a by-election in June, 1918, he was elected to the house of commons for East Cavan and was re-elected for the constituency and Northwest Tyrone in the general election of the same year. Like the other Sinn Fein members, however, he refrained from taking his seat after the general election. Last year he was elected one of the vice-presidents of the Sinn Fein organization. During the hunger strike of Lord Mayor MacSwiney of Cork he was the author of an appeal to President Wilson and all heads of governments to detain the lord mayor.

Typhoid breaks out. Dublin, Nov. 25.—There is an alarming outbreak of typhoid fever in the Dublin district. Several deaths are being investigated by the authorities, but no evidence has been uncovered to connect the outbreak with the water supply by the Sinn Fein to spread typhoid germs.

CARLTON COUNTY MAN TAKES LIFE

Carlton, Minn., Nov. 25.—(Special to The Herald.)—Matt Emil Johnson, aged 29, son of Mrs. Elizabeth Johnson, who resides just across the road from the John Johnson farm in the town of Thomson, committed suicide by shooting at his home last Monday morning. Mr. Johnson had been suffering with tuberculosis for some time and he thought that despondency due to this was the cause of his death. He is survived by his mother and two brothers, Fred and William, and one sister, all residing at home. They are all very progressive Finnish people and well liked in their neighborhood, which is about four miles from Carlton on the Duluth road. The funeral will be held from the Finnish church next Sunday afternoon, with burial in the cemetery in the town of Thomson.

COURSE IN POLITICS TO START NEXT YEAR

Williamstown, Mass., Nov. 25.—An institution of politics, proposed by President Harry A. Garfield of Williams college, and authorized by the trustees in 1913, but delayed in opening by the war, will hold its first session on the college from July 28 to Aug. 27 of next year. Its object is to advance the study of politics and to the study of international law, international problems and relations. It is planned to have lectures by men of international prominence.

TURN HAIR DARK WITH SAGE TEA If Mixed With Sulphur It Darkens So Naturally Nobody Can Tell.

The old-time mixture of Sage Tea and Sulphur for darkening gray, streaked and faded hair is grand-mother's recipe, and folks are again using it to keep their hair a good, new appearing, which is quite sensible, as we are living in an age when a youthful appearance is of the greatest advantage. Nowadays, though, we don't have the troublesome task of gathering the sage and the musky mixing at home. All drug stores sell the ready-to-use product, improved by the addition of other ingredients, called "Compound" is that, besides being a hair-darkening hair after a few applications, it also produces that soft luster and appearance of abundance which is so attractive. Abundance.

FRIENDS START WORK IN RUSSIA

Philadelphia, Nov. 25.—The American Friends' service committee has announced that it is beginning relief work in Russia. It has just been notified that Miss Anna J. Haines of Mount Pleasant, N. J., an experienced worker, who spent several years in Russia in relief work under the arrangements of the committee and Kerensky, will soon arrive in Leningrad. She plans to go to Moscow, where she will cooperate with Arthur J. Watts, an English Friend, who has been working in Russia for the past six months.

Miss Haines will take \$100,000 worth of supplies, mostly medical, into Leningrad, and she and her assistants will direct their distribution. The committee says the Friends will have complete control of all supplies sent to Russia and will direct them to institutions and

the most needy of the civilian population. They will begin by distributing condensed milk, cod liver oil, chocolate, soap, shoes, stockings and woolen goods, in addition to medical supplies.

Medicines Needed.

Russia's greatest need today is reported to be for medical and sanitary supplies and clothing. The people of the agricultural districts are in want of the medicines. Hospitals in Russia are said to have had no other for five years and when operations are performed the patients are strapped to the operating tables.

Owing to the complete breakdown of the transport system in Russia, the greatest suffering was reported to the Friends to exist in large cities like Moscow and Petrograd, where a huge industrial population cannot obtain supplies. In those cities the distress is reported to be acute. Petrograd has lost 50 per cent of its population within the past four years.

Arthur J. Watts, the English Friend, moved about in Russia without any re-

striction by the soviet government and it is announced that the American Friends will have the same privilege. In October Mr. Watts called to the American Friends' service committee to send a representative to establish a permanent Anglo-American relief work. Miss Haines was sent in response to this call.

INDIANS GATHER CONES.

Seeds Extracted and Planted in Cass Lake National Forest.

Cass Lake, Minn., Nov. 26.—(Special to The Herald.)—Indians of the Inger and Cut Foot Sioux district are making money gathering pine cones and shipping them to the forestry station here under the supervision of George Farley, Cut Foot Sioux forest ranger, where the seeds are extracted, and planted by men in charge of that de-

partment, the seedlings being used in reforestry work in the Cass Lake national forest. This forest, which has a large area in Itasca county, extending from Bull City to Inger, and across on the north side of Winnebigo and across the county line, has also a considerable area in both Cass and Beltrami counties.

Mr. Farley reports that he has bought 60 1/2 bushels of the cones this season, mostly gathered by Indians. One Indian made over \$100 in this manner.

Methodists to Withdraw.

Atlantic City, N. J., Nov. 26.—The house of bishops of the Methodist Episcopal church, in session here today, decided to formally withdraw from the Interchurch World Movement, but to meet the obligation of \$1,500,000 of the Methodist church pledged a year ago.

The Herald prints today's news today.

HOPE WILSON WILL ACCEPT

League Delegates Anxious for President to Act as Mediator.

Geneva, Nov. 26.—(By the Associated Press.)—The attitude among delegates of the assembly of the League of Nations toward the appeal of the league to President Wilson to act as mediator in the Armenian situation appears to be one of hope, with the expectation that the United States will relieve Europe and the league of an embarrassing question.

Behind the admitted necessity of doing something for Armenia there is a conflict of European interests involved. Great Britain, it is understood, would look with great disfavor on intervention by any power having rival interests. Action by the United States in Armenia, it is held, would involve no such complications.

In default of action by President Wilson, general opinion here is that France is the country most likely to offer favorable mediation. The mediation appeal made by the council of the league yesterday to the various powers, at the same time, was accepted by President Wilson was sent. Acceptance by France, however, it is understood, would be on condition of full support by the other powers.

President Receives Appeal.

Washington, Nov. 26.—President Wilson received today the appeal of the League of Nations that he act as mediator in the Armenian situation.

Mr. Wilson already has consented to fix the boundary lines of Armenia, but there was no information at the White House as to his ideas on the subject of mediation.

TWO WOMEN DEFENDANTS IN SUITS FOR DIVORCE

Anna Johnson Isaacson, aged 34, and Anna Johnson Wickstrom, aged 45, are defendants in divorce cases filed by their husbands today in district court. Both are charged with desertion.

Carl J. Isaacson, aged 35, claims that his wife abandoned him on June 26, 1919. They were married on Nov. 28, 1918. There are no children.

Oscar Wickstrom, aged 46, alleges that his wife left him on June 12, 1917. They were married Feb. 12, 1906, in Norway and are parents of six children, the custody of whom is sought by Wickstrom.

Butler Never Inspected.

Madison, Wis., Nov. 26.—That the boiler which exploded at the Stoughton Machine company at Stoughton, Wis., Wednesday, killing four men and one woman, had never been inspected and reported was the official statement today by E. E. Witte, secretary of the industrial commission. An inspect report was held Tuesday. None of the injured

reports not likely until the middle of January. Last year the Dominion of Wales limited an average of eight bushels of wheat for Alberta while the provincial records show the seasonal average of twelve bushels an acre.

Of the 2,500 threshing machines operating this season, about two-thirds are gas engine-driven and the others are operated by steam.

INCREASED THRESHER LICENSES IN ALBERTA

Edmonton, Alta., Nov. 26.—Thresher licenses issued by the provincial department of agriculture for 1920 exceed by 700 or 800 the mark set in 1919 and the total will reach at least 3,500, according to the government's statistics.

The officials estimated that the spring wheat yield for Alberta will be around twenty-five bushels an acre, one of the best in many years. The estimated average already struck by Federal authorities officially is twenty-two and one-half bushels for the province, with completion of official

HOLD-UP MEN!

Superior and even superior in boldness, Duluth today held a daylight robbery which netted \$10,000 and created a sensation on West First street which has perhaps never been equaled in crime annals of the city. Two men, apparently unaided in escape by a vehicle of any kind, robbed the jewelry store of A. J. and N. J. Henrikson at 221 West First street at 10 o'clock this morning, getting away with about \$10,000 worth of uncut diamonds, and up to town not being caught. Although they left the store on foot and dashed up North avenue west to Second street, where all trace of them was lost. The police are after them, believing that they are hiding in some of the alleys or outlying buildings not far from the scene of robbery.

A. J. Henrikson, who was showing one of the men the diamonds, is in a hospital suffering from a bad cut on his head, caused by one of the robbers hitting him with the butt of a revolver after throwing ammonia in his face. At about 10 o'clock two men appeared and asked to see some watches and diamonds. One of the men de-

FAVORS LAKE VESSEL LINES

Bill Proposing Ownership by Railroads Hit by League Decision.

Completely reversing its former decision, the National Industrial Traffic League, at a recent meeting in New York, city declined to endorse a senate bill proposing railroad ownership of lake steamship lines. Word to this effect was brought back to Duluth by Fred S. Keiser, who attended the meeting as a representative of the traffic commission of the Duluth Commercial club.

The fight against the proposed bill was led by the Duluth commission on the ground that it would permit railroads to adjust lake freight rates in such a way that Duluth would lose its advantage as a lake port. Railroads now are not permitted to own lake boats under the so-called divestment act, passed several years ago.

Indorsed at Louisville.

At the Louisville meeting of the league two months ago, the proposed bill was indorsed by a majority of sev-

enty-one. Since that time an article against the measure, written by Mr. Keiser, has appeared in The Traffic World, the largest traffic magazine in the country, and copies of the article have been sent in pamphlet form to all members of the league. Failure of the league to indorse the measure, it is believed, will have an important effect on the action of congress.

At its New York meeting the league also reversed a former decision favoring a temporary increase on demurrage charges as a means of alleviating the car shortage. It was decided last week that in view of the present business depression which has made a far greater supply of cars available, increased demurrage charges were inadvisable.

The local traffic commission fought strongly for the new stand. A committee was also appointed to meet with a committee from the American Railway association in December and advise them that the league would absolutely oppose any further attempt to increase freight rates.

Mr. Keiser was elected a director and a member of the league's executive committee.

HONOR PASTOR AND WIFE.

Rev. and Mrs. Kluxdal Given Big Purse and Reception.

Rev. and Mrs. Gurnud Kluxdal were given a reception at Zion Lutheran church, Twenty-fifth avenue west and Third street, last night. The affair was in the nature of a surprise and recognition of Mr. Kluxdal's work as pastor of Zion church.

The reception was the occasion for

the presentation of a \$100 purse to the pastor and his wife, C. M. Hanson, chairman of the program committee, made the presentation speech. Rev. J. H. Stouberg, pastor of the First Norwegian Lutheran church, followed with a talk on "Appreciation." Mr. Kluxdal then responded with a review of the year's work, which included the subscription of \$10,000 to round out the church's program. A buffet lunch was served by the women of the congregation at the close of the program.

"BUDDIES" DRAWS MANY DULUTHIANS TO PLAZA

Many Duluth people went to Superior last night to see "Buddies," the George V. Hobart musical play, at the Plaza, and a full house greeted the players. The play, the music and the company pleased.

This play, which entertained Broadway for a year, has a distinctly original story, clever dialogue, tuneful music, and is well staged. It will no doubt draw another large audience tonight.

The cast has been carefully chosen and numbers among good singers and players in its list. Joseph Herbert, Jr., Benjamin Maloy, Olive Reeves-Smith, Carrie Redcliffe and others play prominent roles.

MORE BARGES FOR THE MISSISSIPPI

St. Louis, Mo., Nov. 26.—Nineteen 3,000-ton steel barges and four towboats will be in operation on the Mississippi river between St. Louis and St. Paul by next spring, it is announced at the offices of the government barge line here.

Illinois coal probably will be carried north, the announcement says, and Minnesota iron ore on southbound trips. Twelve of the barges recently were released by the builders in Stillwater, Minn., and Dubuque, Iowa, and one of the towboats has been launched.

The barges are 200 feet long and when loaded to capacity have a 2-foot draft. They draw only one foot when empty. They have double bottoms, twenty-two compartments, and are fitted with pipe lines and steam pumps for receiving and discharging liquid

cargoes such as oils and molasses. They are forty-eight feet wide and ten feet deep.

The war department, which has supervision over the service, has sent wireless outfits here to be set up in St. Louis, Memphis and New Orleans. Six towboats plying between here and New Orleans will be fitted up with apparatus for emergency purpose.

MANY ROTARIANS WILL GO TO MILL CITY MEETING

One hundred and twenty-five members of the Duluth Rotary club will attend the big joint meeting of Rotary clubs to be held in Minneapolis next Thursday evening, according to reports

given at the weekly meeting of the club held at the Spaulding hotel today. The plans include taking of a special train over the Soo line from Duluth, leaving at 1 p. m., arriving in Minneapolis at 5:30, and the return leaving the Twin Cities at midnight.

Reports of the success of the recent big brother banquet were given by Joseph Smith, Thomas W. Walker and an account of a big game hunt.

Thief River Falls Choral Club. Thief River Falls, Minn., Nov. 26.—The Thief River Falls Choral club has just been organized to promote community singing among the people of

the city and to develop the talent that is here. Officers elected were O. F. Melby, president; W. A. Barnard, vice president; Miss Dora Holmes, secretary-treasurer; Mrs. N. K. Harris, Harlan, and Miss Maude Johnson, director. The club will hold regular meetings on Friday evening of each week, starting next week.

ALL RECORDS SMASHED SAY BIG DRUG FIRMS

Now Conservatively Estimated That Minnesota Will Require Over 65,000 Bottles of Tanlac for December and January Business.

CARLOAD ARRIVES FOR MINNESOTA

Wonderful Success Preparation Has Achieved Here Has Far Exceeded All Expectations.

Announcement has just been made by the Minneapolis Drug Co., the well known wholesale druggist, that they have just received a solid carload of Tanlac, containing 30,000 bottles, to supply the large and rapidly growing demand for this well known medicine in Duluth and surrounding territory.

The fact that approximately 450,000 bottles of over fifteen carloads of Tanlac have been sold and distributed by this firm since its introduction in this state a little over two years ago, is a business item that will, no doubt, attract attention and be read with widespread interest.

As a matter of fact, Tanlac has already become the sensation of the drug trade in the United States and Canada. In the entire history of the drug trade in this country no other medicine has ever made a record worthy of comparison with the truly phenomenal sales record made by Tanlac.

The greatest drug firms of the country have voluntarily come forward and stated in solid plain figures the record-breaking sales everywhere. The enormous popularity of Tanlac is the one great outstanding proof of its merit. No remedy of less than superlative quality could possibly attain such a huge sales record nor gain, as has Tanlac, the unqualified endorsements of thousands of well known men and women who stand for the best in their communities.

The greatest test of any medicine is the "repeat" sales it enjoys. Tanlac's phenomenal sales have been possible because of the fact that men and women who buy one bottle invariably return for the second. Tanlac accomplishes actual results and so, almost

HAS BIG SALE IN MILWAUKEE

Milwaukee Drug Co. Says Tanlac Is Undisputed Leader Among Proprietary Medicines.

The following letter has just been received from the Milwaukee Drug Co., of Milwaukee, Wis., one of the largest and best known drug houses in America, which gives ample evidence of the rapidly growing and widespread popularity of Tanlac.

Fourth National Bank Bldg., Atlanta, Ga.

Tanlac continues to hold the rank of undisputed leader in this territory, and the increasing sales after Tanlac has been the sensation of our trade for two years, is most phenomenal. Undoubtedly, it is giving entire satisfaction everywhere, and it is something that has come to stay. We say this because our best trade is in the district where it has been in use the longest.

In the short period of two years, time we have given you orders for 200,322 bottles, thus breaking all records for this city.

Very truly yours,
Milwaukee Drug Co.

At once, wins the firm faith of its takers.

In just a little over five years' time approximately 16,000,000 bottles of Tanlac have been sold, an average of almost one bottle for every family in America. This record eclipses any achievement of the past in the field of medicine, and it becomes all the more remarkable when it is realized that Tanlac is sold only through duly authorized agents.

A further proof of the extreme popularity of Tanlac is the fact that it has now become necessary to have it shipped here in original carload lots, and it is conservatively estimated that this market will require approximately 1,500 bottles per day for December and January alone.

Tanlac is sold in Duluth at the W. A. Abbott drug stores under the personal direction of a special Tanlac representative. Also the leading druggists in every town throughout the county. Wm. Isaacson, Gowan, Geo. W. Swanson, Culver, Woodwood, Merc. Co., Floodwood, Wilfrid, Longtin, Grand Lake, P. O. Saginaw, Fairbanks Store Co., Fairbanks, George Lentic store, McKinley.—Advertisement.

URGES FULL CO-OPERATION

President Finch of Commercial Club Points Out Possible Improvements.

Utilizing the plan of organization to the fullest extent that the city may receive the greatest amount of good from the Duluth Commercial club was the suggestion offered by members of the club who are members of the division of commerce and industry at a meeting today noon by President Benjamin Finch. This was the first time that a general meeting of the committees of a division has been called and is part of the plan of activities of the club for the coming year.

President Finch asked for an estimate of the amount of work that you and other committees will follow out this scheme of organization we will have a well ordered plan with committees functioning in a proper businesslike manner.

In the absence of Vice President Stockman of the division of commerce and industry, it is the duty and honor of your president to preside at the first meeting of his division.

"I believe this is the first time that all the committees of this division have been called together and it is my purpose to call a joint meeting of the committees of each division in the next few days.

"Let me state that as I have studied the plan of organization of the Commercial club that is, and can be of most service to our city. The Commercial club does stand for advancement and upbuilding of our city. It has a membership of almost 1,600; it has quarters which it has really outgrown, and has now referred to the Vice President of organization affairs one suggestion for increased room, which, if carried out, will provide an excellent meeting place for other clubs, trade associations, and so forth.

"Do you know that Duluth ranks third in the United States in its size in per capita wealth? If you don't know, I will tell you that this information was given by the educational committee last year, but its report could not be published because your club did not have the funds.

"Do you know that we raised 25 cents and spent one cent on a campaign for civic and commerce activities? Do you know that other cities raise and spend 75 cents to \$1.00 each man for Duluth from \$75,000 to \$100,000.

Receipts and Disbursements. In other words, our sustaining membership of 126 local firms, individuals, and corporations gave us \$25,000 for this year. Last year your club had \$5,000. From dues and profits and our expenditures were a trifle over \$20,000 for civic and commerce activities.

"Do you know that our agricultural committee used \$1,000 of the carrying charge and because we had no more, went out and raised \$2,000 to carry their program? Our club has a ways and means committee under Director Heister, whose work is to carry some of these funds. But, gentlemen, our ways and means committee cannot increase our income unless we have a well prepared plan properly safeguarded and well worth doing. It is up to the civic and commerce division's committees to see to it that their work can be sold to ourselves and the business interests of Duluth. We have got to give value for our money and we will not give our money unless we know it is used for a good purpose and is there any higher or better object that we promote the interests of the city in which it is used and call our home?"

"Here is the agricultural committee; it met twenty-three times last year, doing more than any other committee. It is an informed unit of the club? It is informed that last year some \$10,000 to \$12,000 was raised outside of our club expenditures for publicity, good roads, agriculture and waterways. That means several solicitations and probably more than the same amount.

Must Get Help. How is the civic and tax committee of the civic division to properly represent the business interests of Duluth unless you have assisted in solving the problem at home and can give them the information to present to our representatives and senators. This committee has to have funds to pay its own necessary expenses.

"The traffic committee of this club is supported practically by a few wholesalers, clearing houses, banks, board of trade through their subscriptions to the sustaining membership, but all business, wholesale and retail, many wage earners in them and in our railroads, too—save and retain, through proper rates more business is done here, more goods handled, and more cars moved. Is there any other organization that can do this?"

"We are all interested in the Lakes-to-the-Sea Waterway project. It takes money to have delegates go to the various meetings. It takes money to study port terminals and to bring experienced men here to tell us about such terminals in other places, and can only be done through an organization such as we have.

Budget for Each Activity. We now come to the only way in which a general program of activities can be carried on and funds raised and that is to provide a budget for each activity, and it is up to the committees of this division to make such for their own work, based upon last year's expenditures and the program they expect to carry out this year. When you have done this the finance committee will examine them, including the budgets from the committees of other divisions, and report to the board of directors, and when approved it is then up to the ways and means committee to sell your efforts to the business and professional interests of Duluth. Your vice chairman must hand them in to the director chairman not later than Thursday noon, Dec. 2.

"Another thing before I close: Your directors meet regularly on the first and third Fridays of each month, or as often as required, and we request that you now set at least one day each month on which you will meet. Meet in your club at the club anyway and is asking too much for you to give one or two hours each month for your club work? If it is so much for you kindly send us word so that others may be drafted for your work.

"It is possibly a little early to give out definite announcements for an 'Over the Top' dinner, but it will be devoted to waterways and port terminals with speakers of national reputation, and it is my hope at that time to announce that the club's budget committee has sold our club's budget so that we can have \$50,000 to spend this year and carry out a complete live program including publicities and conventions, which we need to develop.

"In closing, I do want to thank you for your attention and state that I appreciate the cordial cooperation and attention shown me by your other officers and it is my earnest wish that I may be of service to you during the coming year."

Classes in religious instruction will be organized at 10 o'clock next Sunday morning, to which all parents are asked to send their children.

Warms Against Draying. A warning against the use of commercial trucks for draying purposes for which the drivers charge a fee has been sent out by Mr. J. Seegal, city inspector. Information has been sent to the drivers of the trucks, that a number of drivers of trucks, after completing their day's work, have made use of the vehicles to do heavy draying, for which they have been in the habit of charging a nominal fee. Those in draying houses, they are subject to arrest and a fine. Mr. Seegal, one of the city's best firms, has been draying with the company's trucks last week and when the matter was reported to the firm he was immediately discharged, according to Mr. Seegal.

MORE MINES TO BE CLOSED

Butte Properties Affected by Condition of Metal Market.

Butte, Mont., Nov. 25.—(Special to the Herald.)—Reports continue in circulation to the effect that several mines now in operation are to be closed down on account of the condition of the metal market. At the present time the Anaconda company has nine properties in operation and in addition there are the North Butte, East Butte, Davis Daly and Tuolumne workings, although not by any means at normal. Of the many, the only one producing any large quantities of the metal is in operation. An effort has been made to ascertain the truth of the reports of impending further closing down, but the managers of all properties declare that there is not any present intention of further curtailment at the present time, nor any intention of a cut in wages. Through the close down of the Butte and Superior there have been thrown out of work close to 600 men, only forty men being retained for development work in the Black Rock. Of the 600 men employed in the Poulton, West Gray Rock and Alice of the Anaconda company, all the married men and those having dependents have been provided with work at other properties.

The Alta Property.
S. L. Bright of Chicago, who is at the head of the company of Eastern capitalists who have taken over the Alta property in the Corbin district, is at the property busily engaged in making preparations to operate the property on an extensive scale. Arrangements have been completed for the erection of a 1,000-ton mill and work is to be commenced at once. It is intended to equip the mill with the latest and most improved machinery. The Alta in the past has been one of the richest producing mines in the state, and after a very thorough examination by mining experts the report, Mr. Bright says, fully justifies the new company in going ahead with mining on an extensive scale.

At 50 Per Cent Capacity.
The Anaconda, North Butte, East Butte and Davis Daly are operating at between 40 and 50 per cent normal. The latter two are fully justified in the present capacity and in the ore treated there is a considerable quantity of copper. The small properties being operated throughout the state are being operated by the Champion company in the Deer Lodge district is expected to be ready for the treatment of the silver output around the first of the year. The ore

at the present time is being treated at the Washoe smelter in Anaconda.

Orders have been issued by the Anaconda Copper Mining company curtailing the output of the electrical zinc plant at Great Falls by 50 per cent. In other words, the output, which has been 10,000,000 pounds a month, has been reduced to 5,000,000 pounds a month. This, of course, reduces the force now employed by one-half. It is understood that the Emma mine in this city, which is altogether a zinc and silver property, will continue to operate up to around normal for the present at least. The closing down of the Poulton, West Gray and Alice mines will reduce the ore output sufficiently to correspond with the reduced output of the zinc plant.

Inspecting Mines.
A S. Donnell and G. A. Redner, mining men from Finance, are in the city inspecting the mining properties and also looking over the electrical equipment for the operation of the mines. Also connected with the electrical mines of the Anaconda company they went to Anaconda and Great Falls to inspect the operation of the smelters and other plants. They also had a conference with Montana power officials in regard to electrical operations.

Flotation in Speed Production.
W. M. Woodbury, vice president and general manager of the Flotation Mining company, has returned from New York where he went a few weeks ago on matters connected with the company. It is understood that Mr. Woodbury was able to satisfactorily straighten out some matters of business, and that as a result silver production will go ahead on a greater scale than at present.

Canadian Ore to Idaho.
As a result of the ruling of the Interstate Commerce commission allowing a cut in railroad rates from British Columbia, a large quantity of ore is coming into Idaho for treatment at the smelter of the Bunker Hill & Sullivan company smelter at Kollon. Authority has also been given to Rio Grande to extend special rates from British Columbia for lead ore and concentrates to the Mivalde, Murray, Garfield and Toole plants, smelting points in Utah.

North Butte.
Robert Linton, president of the North Butte company, after spending several days in the city, inspecting the company's property, has come East. Mr. Linton stated that he was well satisfied with the operations of the properties.

CERTIFICATE OF INCORPORATION OF NORTHERN POLE AND LUMBER COMPANY.
The undersigned, associate ourselves together for incorporation under and pursuant to the laws of Minnesota, in and to the effect that we do hereby certify the existence of incorporation.

ARTICLE I.
The name of this corporation shall be NORTHERN POLE AND LUMBER COMPANY. DENFELD BOYS WILL GIVE BANQUET AND PROGRAM

Plans for the Denfeld Boys' club basket social, which is to be held Monday evening at 8 o'clock at the Denfeld school, are well under way. An invitation has been extended to all the girls of the high school, although the attendance is not limited to the school. Alumni of Denfeld are especially invited to be present.

Baskets brought by the girls will be auctioned off to the highest bidder and the entire proceeds will go to help defray the expenses of the club's delegates to the older boys' convention at Fairbault.

High school clubs over the entire state will be represented at the conference and Denfeld's delegates will be

WOMEN NEED SWAMP-ROOT

Thousands of women have kidney and bladder trouble and never suspect it.

Women's complaints often prove to be nothing else but kidney trouble, or the result of kidney or bladder disease.

If the kidneys are not in a healthy condition, they may cause in the other organs to become diseased.

Pain in the back, headache, loss of ambition, nervousness, are often times symptoms of kidney trouble.

Don't delay starting treatment. Dr. Kilmer's Swamp-Root, a physician's prescription, obtained at any drug store, may just be the remedy needed to overcome such conditions.

Get a medium or large size bottle immediately from any drug store.

However, if you wish first to test this great preparation send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample bottle. When writing be sure and mention this paper.

MRS. LILLIAN BURR DIES AFTER BRIEF ILLNESS

Mrs. Lillian Burr, aged 70, 507 North Seventy-sixth avenue west, widow of the late George Burr, died last night at a local hospital after a short illness. She is survived by her mother, Mrs. Anna Nelson, four children, three sisters and four brothers.

The funeral services will be held at Olson & Hoppen's undertaking rooms at 2 P. M. and at 2:30 P. M. at Westminster Presbyterian church, 301 North Fifty-eighth avenue west. Rev. W. L. Staab, pastor of Westminster church, will officiate. The interment will be in Onesta cemetery.

CAR GOES OVER BANK

Andrew Johnson, 108 North Fifty-sixth avenue west, and family narrowly escaped injury yesterday when their car skidded off a grade in the Knife river country and rolled down a steep embankment.

The car, which was driven by Johnson, attributes his escape and that of his family to the fact that he was driving very slowly at the time the accident occurred. The right front wheel, top and windshield were smashed.

HUNTERS RETURN WITH QUARRIES; DEER EVERYWHERE

In what they claim to have been the record shoot of the season, C. E. Peterson, A. J. Schwaner and Avery Schweizer, all of Minneapolis, Arthur J. Merchant, 4426 West Superior street, Everett, 2901 West Second street, E. M. Witherell, 427 Onondaga street, and Arthur McClave, 6 North Fifty-fifth avenue west, have returned from a hunt, each with a deer to his credit.

Arthur McClave in speaking of the hunt today said that there seemed to be deer everywhere.

Euclid Assembly Party.

Euclid assembly of Euclid lodge, No. 198, A. F. & A. M., will entertain at its second of a series of winter parties Tuesday evening at the West Duluth Masonic temple, 615 North Central avenue.

Its first party was given last month and was attended by a large number of members and friends. Other parties will be given during the winter and spring.

Injured in Auto Accident.

Arthur Wicklund, 232 South Fifty-sixth avenue west, and Heri Meland were injured late last night when a street car struck the auto in which they were riding at Sixty-sixth avenue west and Grand.

They were removed to a local hospital, where it was determined that their injuries were slight. Both the street car and the automobile were going east on Grand when the street car hit the auto from behind.

Merchant Wins Action.

A jury in district court this morning awarded a verdict for the defendant in the case of Cusick O'Brien against A. Pickman, proprietor of the Fieldman Department store at 314 Central avenue.

The plaintiff's suit to recover \$100, the purchase price of a fur coat bought last January. She alleged that the garment was shoddy and defective.

Two Small Fires.

Fire started at the residence of Mrs. Kathryn Hall, 507 North Fifty-eighth avenue west, at 10:20 o'clock this morning. The damage amounted to approximately \$100. The fire was caused by defective wiring. A second fire due to defective wiring occurred at the residence at 311 North Seventy-eighth avenue.

West Duluth Briefs.

Mr. and Mrs. J. E. Boudine, who were guests at the home of Mr. and Mrs. A. J. Racette, 813 North Fifty-eighth avenue west, the last few days returned to their home in St. Paul last night.

The Citizens' State bank is open for all banking business from 6 to 3 p. m. Saturdays.

Mr. and Mrs. L. H. Chapman of Cook, Minn., are visiting at the home of Mr. and Mrs. E. F. Chapman, Riverside.

SOCIALIST PARTY IS AGAINST PATRIOTISM

Buenos Aires, Oct. 26.—(By the Associated Press.)—The Socialist party of Buenos Aires has resolved to take no part in patriotic demonstrations.

This resolution was incorporated in its platform for the coming municipal elections and reads:

In 1921, districts of the capital, assembled in congress, reaffirm that our party is a party of class internationalism organized and that patriotism, or the idea of country, has served up until now only to misguide the labor movement from its true interests, and resolves that its representatives in the deliberative bodies abstain hereafter from taking part or in any form intervening in acts of patriotic homage.

POETRY CHAMPIONSHIP CONTESTS ANNOUNCED

Buenos Aires, Oct. 25.—(By the Associated Press.)—Poetry championship contests will be held in Buenos Aires in 1921, which will participate in American invited to participate and prizes amounting to about \$4,000.

The contests will be held in the month of verse, called in Spanish "Juegos Florales" or "flower games," is being organized by the young women's committee of the Argentine Patriotic League.

Through the Argentine diplomats in all Spanish-speaking American countries, poets from every part of the hemisphere will be invited to take

More Railroads Wanted.

Madrid, Nov. 6.—(By the Associated Press.)—There is agitation throughout Spain for the building of new international railway lines. Promoters of the agitation demand railway extensions so as to establish international routes from Vigo to Budapest by way of Marseilles and from Madrid through Paris to Berlin and Warsaw.

Utility Workers' Pensions.

Buenos Aires, Oct. 25.—(By the Associated Press.)—Employees of private companies performing public utility service, such as street car, telephone, telegraph, gas and electric supply concerns, would receive government pensions under a measure just sanctioned by the Argentine senate. The measure is based on a similar project passed by the chamber of deputies, but as it is different, it will require the sanction of the lower house before it becomes a law.

Two Banks Close Doors.

Fargo, N. D., Nov. 25.—Two more North Dakota banks closed their doors today. They are the Farmers and Merchants bank at Sherwood and the Farmers' State bank at Rhame.

WEAK WOMEN

cannot hope ever to become strong and well again unless they have plenty of good, rich, red blood of the kind that organic iron—Nuxated Iron—does make. Nuxated Iron is like the iron in your blood and like the iron in spinach, lentils and apples, while metallic iron is iron just as it is. Every woman needs organic iron in her system. Nuxated Iron does not injure the teeth nor upset the stomach; it is an entirely different thing from ordinary metallic iron. It quickly helps make rich, red blood, revitalize worn-out, exhausted nerves and give you new strength and energy. Over 4,000,000 people annually are using it. For sale by all druggists. Beware of substitutes. The genuine has N. I. stamped on every tablet. Always insist on having the genuine.

POLISH-BOLSHEVIK GLASH IS AVERTED

Warsaw, Nov. 24.—(By the Associated Press.)—Armed conflict between Polish forces and Bolsheviki troops which have reached the Polish frontier along the Zbrucz river was narrowly averted yesterday when the Bolsheviki began a bombardment of the town of Podwoziska, about twenty-five miles east of Tarnopol. Polish military authorities protested against the bombardment, which caused the deaths of five persons and serious injury of sixteen others. The Poles were preparing to attack

the Bolsheviki when the bombardment stopped and the soviet commander sent a delegation to the town, explaining the place was fired upon because the Bolsheviki believed the place was east of the armistice lines in the hands of Ukrainians.

lish frontier and have been disarmed by the Poles and sent to various internment camps.

OVER 100,000 ATTEND ITALIAN'S FUNERAL

Bologna, Italy, Nov. 24.—Nearly 100,000 persons today witnessed the funeral of Deputy Giordana, the Constitutionalist, who was slain during the riot at the municipal hall on Sunday. The wife and mother of the dead man followed the hearse and as they passed along the street, many weeping women kissed their hands. The Nationalists have removed the

name plate from a street called by the Socialist administration after Spartacus, substituting for it a plate bearing the inscription "Giordana street." In revenge, Socialists fired a dozen revolver shots at street car employees who declared themselves anti-Socialists while passing along this avenue. There were no casualties. Nationalists rushed to the rescue of the men who were attacked, but their assailants had disappeared. Police officers have searched the house of Martelli, a Communist leader, who was arrested yesterday and declared they found books showing bank deposits of 40,000 lire. Martelli is alleged to have attended Sunday's meeting carrying a basket which contained bombs covered with napkins. On be-

ing asked as to the contents of the basket, he is said to have answered: "Cakes, to celebrate the ceremony." On the closed door of the chamber of labor, some one today affixed a placard bearing the inscription, "Closed for the Cowardly Murder of Giordana."

Red Lake Chicken Show. Red Lake Falls, Minn., Nov. 25.—(Special to The Herald.)—The second annual show of the Red Lake County Poultry association will be held at Plummer Tuesday, Wednesday and Thursday, Nov. 30, Dec. 1 and 2, and according to President G. A. Krueger

and Secretary S. J. Rice there will be birds entered from all parts of Minnesota, North and South Dakota. In addition to \$400 premiums allowed by the state some \$300 in special merchandise prizes will be offered. Prof. C. E. Brown of the Northwest School of Agriculture at Crookston will be judge.

CHOOSING SPEAKER AND DIVIDING PATRONAGE BY THE HOUSE CAUCUS

By R. M. Hitchcock, Representative, Sixtieth District.

Hibbing, Minn., Nov. 26.—In response to an informal call of ten of their number about 120 members of the next house of representatives met in St. Paul last week. Along with them came some 150 former house members and others who wanted jobs in the next house. For some time members were using each other's hands like long lost brothers, new members submitted to a bewildering succession of introductions, groups formed, melted away, reformed and dissolved by the hour, faces and names with heads close together whispered mysteriously (secrets of state), everybody hit the trail to room 232, where they stood first on one foot and then on the other waiting for a chance to whisper your name desired to Billy Nolan—Billy Nolan whom no group or or but whom everyone seemed to think was a "chick." Billy Nolan, who sympathized warmly with your position and made you feel that you were almost as important as Jake Preis, while all the time you knew very well that he had his chairman of committees picked out and written on a postcard in his inside pocket; Billy Nolan, speaker of the next house by common consent because every member of the last house swears he was the best speaker any Minnesota legislator had ever had. Through all this handshaking and ear-whispering and salve spreading, the job hunters and their respective members towing their white noses about ten a duck.

Thursday afternoon and Friday morning the different districts caucused and agreed upon the patronage which would ask of the house. The eighth district held its caucus, named McPart, in or Koochiching and Hennepin and Kliffman of St. Louis county as its "steering committee." Indorsed S. V. Sucky of Hibbing for second assistant clerk of the house and Jim Preston of Duluth for first assistant. The caucus adjourned. A steering committee, it may be said in passing, is a bunch of flock absorbers to whom you can "pass the buck" whenever some good fellow buttonholes you and demands your vote for some other almost equally good fellow down in his district. The steering committee makes the going a lot easier.

Nolan Chosen. At 2 o'clock Friday afternoon the members of the house met in open caucus, elected John B. Peterson of Stearns chairman and Otto Neuman of Traverse secretary and in about one minute—unanimously named W. T. Nolan of Hennepin for speaker. Mr. Nolan was found without the slightest difficulty, was brought in and made the usual unusual speech for which he is noted. Oscar Amosson, for several sessions chief clerk of the house, was unanimously indorsed for that position. The caucus then recessed for twenty minutes to give the members of the steering committee of the various congressional districts an opportunity to put their heads together and agree upon a slate for the other house. The slate-makers did their work with neatness and dispatch until they came to the task of selecting a postmaster for the house. Here they stuck. The second district demanded Morse of Murray, while the tenth district insisted on Swanson, a former house member. Neither side would budge. The drawing of lots was proposed, objected to as favoring too much of gambling; overruled on the ground that politics is all a game anyway. So the two candidates were brought in and Swanson drew the postmastership and Morse drew the residential postmastership and both were draw the same salary, and everybody was happy, especially the members who had been cooking their heels so long outside in the hall. The caucus reconvened, heard the report of the

combined steering committees, promptly ratified their action and adjourned. The patronage allotted to the eighth congressional district was that of second assistant clerk, and S. V. Sucky of Hibbing was unanimously named for that position. As the caucus included more than 100 of the 121 members of the house, its action is equivalent to election. Other house employees agreed upon were: Sergeant-at-arms, Henry Holst, Mankato; first assistant clerk, Charles O. Stevens, Warren; postmaster, S. J. Swanson, Colfax; chaplain, Rev. W. S. Howard, St. Paul; first assistant sergeant-at-arms, William McCracken, Spring Valley; enrolling clerk, Mark Buckman, Little Falls; engrossing clerk, Ralph Norgaard, Whasaton; assistant postmaster, C. O. Morse.

Marketing Committee Appointed. Probably the most important action taken by the house caucus, aside from the nomination of a speaker, was the determination to attempt a thorough going solution of the most serious problem which today confronts the farmer—the problem of securing a stable, farm-controlled market for the products of the farm. To that end the caucus named a committee of ten, one from each congressional district, to secure at once all possible data on the subject, digest this material and if possible whip it into the form of a bill or bills ready for the consideration of the legislature at its opening in January. It is hoped in this way that much time may be saved and that direct information upon this all-important subject may be early in session be presented to the members for their study and discussion.

The committee of ten will confer with Governor-elect Preis, who has made co-operative marketing of farm products one of his most vigorously championed platform planks; the committee will advise with Commissioner Holmberg of the state department of agriculture, and it will thoroughly sift all material that can be secured; if possible it will draft the necessary measures to afford the farmers of the state relief. A subcommittee is already at work and the full committee will meet at the state capitol Dec. 2.

Gov. A. Wilkinson of Washington county, third district, is chairman of this committee of ten, and the other members are: George Wicker, first district; John G. Gerlich, second district; T. J. Greene, fourth district; W. L. Norton, fifth district; A. E. Rako, sixth district; O. C. Neuman, seventh district; R. W. Hitchcock, eighth district; N. T. Moeen, ninth district; Elias Nordgren, tenth district.

The thought that seemed to be everywhere in the air during the two days of last week when the recently elected members of the next house met at St. Paul, the thought that seemed to be seriously present in every mind, was the thought that the coming session must see the enactment of sound and far-reaching legislation for the benefit of the people of the state. If this thought resolution holds its strength, it is impaled for four months after Jan. 1, Minnesota will become an epoch-making body.

written report of the caucus will be published in almost every country paper in the state. The Minneapolis Tribune's brilliant political writer, George B. Akerson, hovered in the office and saw pretty straight down into the scheme of each one of us. C. J. Buell, a weedy sample of nature's biennial crop of quack-grass, was there too, butting into every conversation. Buell is the president, secretary, treasurer and whole body politic of the Minnesota Tax Reform association. Illegitimate offspring of 1000's of fathers, he has for his sole purpose is to separate gullible St. Paul jobbers and wholesalers from their own Buell's strong line is boasting at the beginning of the session of the overwhelming vote he has for the tonnage tax and at the end of the session biting his nails in wrath and disappointment. Were it not for the fact that Mr. Buell is a bit busy just now disseminating information as to his own greatness, he would run up to Duluth some day and convert the whole town to the tonnage tax between trains.

The newly elected Nonpartisan Leagueers were not at the caucus—they unanimously stayed away. Half a dozen of the labor members were there, however. Counted among the missing, also, were such house leaders as P. Christianson, who will again be chairman of the appropriations committee; Charles H. Warner, reckoned as one of the keenest and cleverest of the house members; Ralph Parker, former speaker. Some who were there: George Wicker, author of Amendment No. 2, which was beaten Nov. 2; John G. Gerlich, who turned the tables on his Nonpartisan League opponent of two years ago and "came back." C. M. Hendrick, who denies that he has "struck hands" with Anthony Welch, league leader, on the tonnage tax issue; William C. Elise, newly elect from Red Wing, who was lieutenant in France of a company of over 200 Hibbing boys; George Nordlin, labor leader, flanked by J. P. Cummings and Albert James, Jr., mild of manner, but said to be capable of breathing terrible socialist threats—ings and slanders; John J. Levin, who raised the salary of every district judge in the state \$500 at the last session; Memorial Kolonen, winner by seven-vote margin, aged 23, youngest member of the house; W. E. Nolan, who brought home the bacon; Frank E. Ninnocks, famous for his glad hand and the white carnation that blooms forever fresh in his buttonhole; Victor Holmquist, who recanted from his Nonpartisan League renounced the party and beat them hip and thigh; J. D. Ross, who flatly told his neighbors in Western Minnesota that a tonnage tax is unjust, and utterly refused to campaign, but had office thrust on him by more than 1,000 majority anyhow; Tom Girling, whose constituents are beginning to say it's no use to hold an election in his district—Tom always cops it off anyhow, and many others, including the following: Scribner, Bernard; William C. Elise; McFarlin, Hitchcock.

GOPHER GOLD STAR RECORDS RUSHED

St. Paul, Minn., Nov. 25.—Members of the Minnesota war records commission are eager to complete the records of gold star men in Minnesota. Memorial certificates are being sent daily to relatives of former soldiers who made the "supreme sacrifice" in the World War. It is hoped by Franklin F. Holbrook, executive officer of the commission, to complete mailing of certificates to next of kin before the term of Governor Burnquist expires in January.

FORBIDDEN FRUIT
GRAPE SYRUP**
from California — — the Garden of Eden

A delicious table syrup made from the pure juice of California wine grapes. Nothing is added—only water is taken out. The red alicanti Forbidden Fruit Grape Syrup has the tang and wondrous flavor of the alicanti grape. It is delightful and delicious.

It is more economical than ordinary syrups. Its flavor is so pronounced that you only have to use a tiny bit.

The white muscat Forbidden Fruit Grape Syrup retains the distinctive flavor of the muscat grape, but introduces it to the palate in a new and delightful form. It is unlike anything you have ever tasted—so distinctive and pleasing.

The patented Serailian process retains the delicious flavor and bouquet that ordinarily escapes in the form of vapor when the grapes are boiled.

Forbidden Fruit Grape Syrup is delicious on hot cakes and waffles—on bread and muffins in place of jelly—in puddings, on ice cream and in sauces in place of wine.

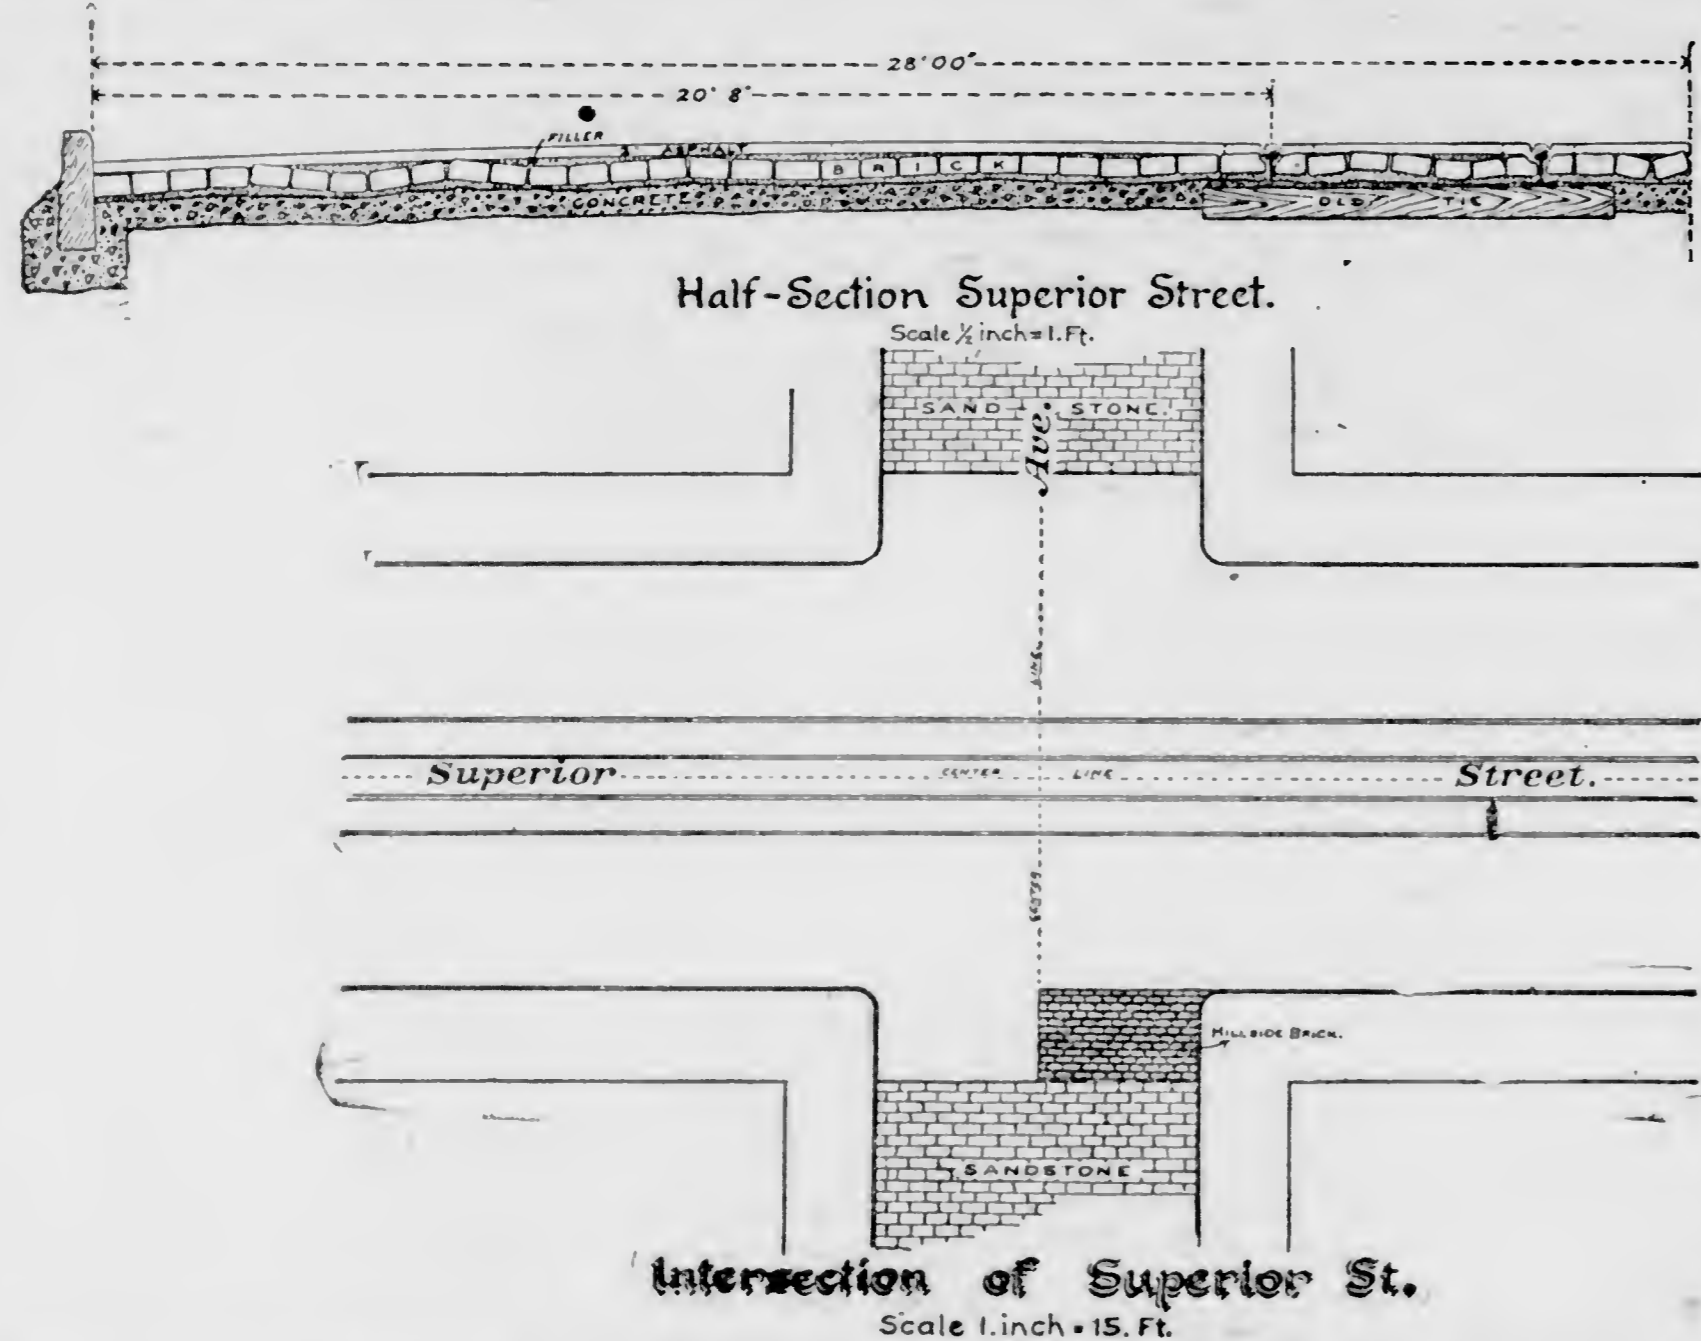

Forbidden Fruit Grape Syrup makes a refreshing beverage that has the wine grape flavor. You simply dilute with water.

Forbidden Fruit Grape Syrup has high food value and is a wonderful aid to digestion.

THIS IS HOW BERT FARRELL PROPOSES TO PAVE SUPERIOR STREET, LAYING ASPHALT OVER PRESENT BRICK SURFACE; GOOD FOUNDATION

The accompanying cut shows the plan of paving the avenue intersections of Superior street with hillside brick to give teams a foothold in climbing the grade. The avenues are now paved with sandstone, and it is the intention to lay brick from the sandstone to a point below the line of Superior street.

Superior street from Third avenue east to Eighth avenue west is to be paved with asphalt next spring, if the present plans of Commissioner J. A. Farrell are carried out. According to present arrangements the street will be given a coating of asphalt to a depth of two inches on top of the present brick pavement. The upper side of the street intersections will be paved with hillside brick, for half the distance from the center of the street, to give teams a foot hold.

"Superior street has for some time been badly in need of repaving," declared Commissioner Farrell, "and it is a question whether the street could go through another season without a new surface. I have studied the repaving of business streets in other cities and found that in many of the Eastern cities this plan of surfacing brick with asphalt has proven very successful. It is the cheapest form of paving for such a street and another big factor in

choosing this class of material is that it will set and can be used inside of twenty-four hours.

"This would mean that during the entire time of paving the busiest street in the city it would be necessary to close only one block at a time to traffic. With concrete it would be necessary to close the street for a period of three weeks to allow the cement to set.

Curbs High Enough.

"The curbs along this street are high enough to permit of this form of repaving and by raising the surface, sufficient depth could be had to give it a good wearing quality. Another thing is that it would be impossible to get a better foundation than the present brick. It is perfectly solid and has settled as much as it ever will. We would first thoroughly wash the brick, cleaning out all the dust and dirt and then lay a binder of asphalt and rock on which the asphalt would be laid. The work would go forward rapidly as soon as started and owing to the quick setting of this form of paving, the

at present and indicates how the asphalt will be laid over the brick. The city draftsmen in bettering the drawing reversed the appearance of the street, but it should be considered from the viewpoint of the lower part of the picture representing the upper side of the street and vice versa.

street would be closed to traffic only a block at a time and this would be but for a few days.

"The street car rails would have to be raised two inches before the work is started, but if they should start at either end of the proposed job, the paving contractors could follow them without much delay. The present rails are laid on concrete stringers, running parallel with the rails and supported about every ten feet by wooden ties. These stringers settling and the ties giving has been the cause of the tracks shifting the way they have. The result is a very crooked line through the business district, which would be remedied when the rails are raised.

"Superior street needs repaving, possibly as badly as any other street in the city, and the public works department will endeavor to have the work done as early in the spring as is possible. Of course it all depends on the property owners along the street, but from conversations I have had with some and the opinions expressed, I have little expectation of any opposition to the improvement."

MANY GO TO CALIFORNIA

Large Number of European Immigrants to the Pacific Coast.

Chicago, Nov. 25.—Large numbers of immigrants from Europe are going to California, according to W. J. Black, passenger traffic manager of the Santa Fe system. He said they are mostly aliens who returned to Europe to fight for their native countries.

"The California-bound immigrants are chiefly French, Italians and Greeks who are very good agriculturalists and find in the vineyards and orchards of California the best opportunity for their abilities," Mr. Black said.

"Now that the war is over, most of them are coming back and they are furnishing California with the largest stream of immigration I think it has ever had. This has been going on some six months and increasing slowly. I believe they average between 500 and 750 a month."

No Immigrant Trains.

The immigrant trains that used to be run to Chicago before the war have not been resumed, Mr. Black said. One reason he said was that there were not enough immigrants to justify them, and another reason was that the Pullman tourist car was taking their place.

From information gathered from railroads here it does not appear that many immigrants coming West are settling on farms. Some plans are being considered by roads, F. W. Falligan, assistant to the supervisor of agriculture of the Chicago, Milwaukee & St. Paul railroad, reported, for assisting immigrants with funds to locate on favorable lands in the Northwest. It requires some money, however, for the immigrant to establish himself on his own land, and the observation at several railroads is that as a general thing immigrants arriving here are not so "overly burdened."

APPEALS TO JEWS FOR CO-OPERATION

Buffalo, N. Y., Nov. 25.—An appeal for the co-operation of all Jews in America toward converting Palestine into a "true Jewish homeland" was made here today by Julian W. Mack, president of the Zionist organization of America, in an address opening the twenty-third annual convention of the organization.

Mr. Mack declared that the time for theoretical propaganda in favor of the principles of Zionism had ended with the creation of a free Jewish state in the Holy Land under the guarantee of a British mandate—that it is a definite and concrete problem now, the up-building of the Jewish homeland.

"Four decades to come this will require the united effort of the whole Jewish people," he said.

Mr. Mack laid stress upon the necessity of all Jews laying aside their differences of opinion regarding how the task of reconstruction should be undertaken. He appealed for support for Sir Herbert Samuel, first high commissioner under the British mandate, who recently called for aid in securing a Palestinian governmental loan of \$3,000,000 to be used for railway improvements, telephone and telegraphic lines, a road system and the erection of government buildings.

JAPS AT CHANG-TE FLEE TO KOREA

Tokio, Nov. 25.—(By the Associated Press.)—Reports today from Seoul, Korea, state that the Japanese consul at Chang-Te, Manchuria, has fled to Keizan with the Japanese inhabitants of Chang-Te, owing to the presence of 500 Chinese bandits.

The Chinese inhabitants of Chang-Te, according to the reports, declare the unrest in the region is due to the operations of the Japanese forces which recently ousted Chinese farmers to operate against Chinese bandits. They threaten a massacre of the Japanese residents as a retaliatory measure.

WIDOW OF LORD MAYOR SAILS FOR AMERICA

Queensdown, Nov. 25.—Mrs. Muriel MacSwiney, widow of Lord Mayor Terence MacSwiney of Cork, and Mary MacSwiney, his sister, who are journeying to the United States to testify before the Committee of One Hundred investigating the Irish question, embarked quietly on the steamer Celtic today. Few people were aware that they were sailing.

They were accompanied on the tender which took them to the Celtic by

SAYS FAMILY OF FIVE NEEDS \$2,632

New York, Nov. 25.—A living wage for a family of five in New York city is \$2,632.68. It was estimated today by John P. Mines, president of the Printing Press and Feeders' union, in presenting demands for an increase of wages in the printing trade.

These figures were arrived at, he said, by an actual canvass of homes of printers and an analysis of current prices on 400 miscellaneous articles necessary to the average wage earners' household.

Expenditures were itemized as follows: Food, \$871.80; clothing, \$529.96; rent, \$127.25; light and heat, \$68.62; household equipment, \$59.23; miscellaneous, \$555.75.

RED LAKE FARMER IS SUDDENLY SUMMONED

Red Lake Falls, Minn., Nov. 25.—(Special to The Herald.)—George W. Dyce, well known farmer of Louisville town, was stricken with heart failure at his home Sunday and died in a few hours. He was born in O'Brien county, Iowa, April 21, 1881, and when 19 went to Swan River, Minn., where he lived for many years. He came to Red Lake county in 1912. Last March he married Miss Lydia Knack, who survives him, also his father, William Dyce of Louisville, and two sisters, Mrs. M. E. Millard of Clark, S. D., and Mrs. J. S. Smith of Swan River, Minn. The funeral was held Wednesday from the home, the Rev. S. M. Kelly, pastor of the Red Lake Falls Presbyterian church officiating. Mr. Dyce belonged to the Odd Fellows.

There's No Picture Like the Picture of Health

The greatest masterpiece in the Art Gallery of Life is Nature's "Picture of Health". It is a marvelous portrayal of the human body at its best. One beholds in its composite details a true symbol of strength. It presents a figure of striking appearance in its erect carriage, clear skin, sparkling eyes, strong limbs, steady nerves and firm muscles, fairly vibrating in animation—keen, alert, fresh, and spirited; with an air of unbounded confidence and a face radiant in color and illuminated with a glow of hope and cheerfulness.

LOUISE GLAUM

in **"LOVE MADNESS"**

Story By C. Gardner Sullivan

Greater Picture Than SEX

With all the lure of a beautiful body and a clever brain, Louise Glaum in "Love Madness" penetrates the haunts of the underworld and the heart of the murderer who must die that her husband may live.

WOMEN!

If the man you loved was condemned to die is there anything you would stop at to save him? Louise Glaum in "Love Madness" says "No!" and so, with all the lure of a beautiful body, she traps a crafty plotter and brings her husband back from the Valley of Shadows.

SHARKS REAP BIG PROFITS

Illegal Purchase of Savings Stamps and Thrift Stamps.

Minneapolis, Minn., Nov. 25.—As a result of reports and arrests in other parts of the country, which indicate that financial "sharks" are reaping profits of hundreds of thousands of dollars through the illegal purchase at big discounts of United States War Savings stamps and Thrift stamps, J. C. Kibbee, director of the Ninth district government savings organization, has issued warnings and is taking steps to present facts concerning these criminal transactions.

United States secret service and police officers are co-operating.

The savings organization has been advised that at San Francisco, Jacob Spolin and Walter Kohn, officers of the Union Bond company, have been arrested by secret service men on warrants charging them with having misled investors through War Savings stamps discount operations.

Complaints were sworn to by Stephen Connel, chief of the United States San Francisco secret service division, furnished by C. A. Farnsworth, associate director of the government savings organization.

Four Are Cheated.

A startling state of affairs, whereby the poor have been cheated out of their small savings, has been uncovered. One instance is cited in which a boy sold \$100 worth of Savings stamps to sharks for \$30.

By means of signs in windows, by personal solicitation with customers and by carefully worded advertisements, the sharks have managed to obtain, at greatly reduced rates, immense quantities of War Savings stamps.

In San Francisco the postoffice records show that the various dealers have cashed more than \$100,000 worth of these stamps during the last few months.

The specific charge against the two men under arrest is the altering of the government obligation. The law provides that only the owner of stamps shall redeem them. These stamps may always be cashed in at the postoffice, and only at the postoffice as they are non-transferable for more than was paid for them, the interest increasing in value 1 cent each month.

As Relief of Foolishness.

"To sacrifice these stamps to 'sharks' for 10 to 15 per cent or even more," says Mr. Kibbee, "is the height of foolishness on the part of the holders and makes a criminal out of the buyer."

The law also provides that a purchaser shall not buy more than \$1,000 worth of these stamps in any one year. The San Francisco reports show that in that city this has been violated by the companies which, it is charged, have in their possession many thousands of dollars worth of stamps. Prosecution may be instituted against such money-grabbing concerns for transacting, through the mails, an alleged illegitimate business.

"Crooked buyers remove the stamps

IS GOING TO REBUILD ROOF CHICKEN "FARM"

Milwaukee, Wis., Nov. 25.—Because of domestic pressure, Edwin L. Rosenberg, president and treasurer of the Milwaukee Seed company, stated yesterday that in all probability he would rebuild the scientific chicken farm and fancy pigeon loft formerly located on the roof of the building occupied by the company which was recently destroyed by fire.

Mr. Rosenberg said that for the first time in more than five years his wife had been forced to purchase eggs at the present price of 80 cents per dozen, and that "it was about killing her."

All that remains of the stock of 400 blooded White Leghorn chickens were a few with wings and tail feathers over the wire enclosure and to the ground forty feet below, and were picked up by spectators and taken home.

While chasing the chickens which they hobbled with string and placed in a convenient alley, some of the bystanders were thoroughly drenched by water lines being played on the fire. Mr. Rosenberg stated that he officially made these people a present of the chickens.

Were Laying Many Eggs.

The chickens at times were laying as high as 200 eggs a day, Mr. Rosenberg said. The coop which housed them was 80 by 30 feet and thoroughly

protected by fireproof material. All modern improvements such as running water, electric lights and long French windows on the southern exposure were embodied in the coop.

The scheme originated, Mr. Rosenberg said, several years ago when he brought in a few chickens from his country home, placed them in a coop on the roof of his business establishment, to supply his children with fresh eggs. It was then found that the grain sifted from the seed was sufficient to feed a large number. The first coop was then fitted up as a pigeon loft and the new building with the improved runways and modern conveniences constructed.

Above the ruined building the pigeons, all of which escaped the fire, are circling. The birds, consisting of fancy strains of homers and runts, refuse to desert their old home, the runts perched on convenient buildings while the homers wing the air.

MANY IMMIGRANTS EXPECTED BY CANADA

Ottawa, Ont., Nov. 25.—It is estimated that the immigration movement into Canada for the present fiscal year will approximate 150,000, the newcomers being very largely from Great Britain and the United States.

The high water mark in Canadian immigration was reached in 1915, when 423,486 persons entered the dominion. For the first six months of the present fiscal year Canada's immigrants numbered 95,005, an increase of 38 per cent over the movement for the corresponding period last year. In the number of origin they were divided as follows: British, 52,768; United States, 30,763; others, 11,474.

At present the dominion is receiving a considerable influx of Polish Jews. These are being examined and must comply absolutely with the regulations before being permitted to come in. Many are being sent back.

LITTLE BENNY'S NOTE BOOK

His monthly reports were given out in school yesterday, mine being so bad it was pretty near the worst one I ever got, but not quite. And after supper I started to get ready to give it to pop for him to sign, thinking, G, I better not be too bold about it. Its no use making him feel worse than necessary. And I said, Pop, I bet after this im going to be so wonderfull in school I bet my reports will be the best in the room.

Thats an intrisging bet, I hope you win it, stronger things than that have happened, the personoty I never heard of, say, sed pop.

Maybe theyll be the best reports in the hole school, I sed, and pop sed, The age of miracles is still with us. Meening just because you know a thing, aint going to happen that dont say its impossible, and I sed, I bet ill get such good reports youll think it must be somebody elst.

Ill know damn well it is, sed pop. And he kin on smakin' and I kep on wonderin' weather to hand him my report yet, thinking, Heck, I nite as well prepare him for it. And I sed, As long as I know im going to get such grate reports from now on, it dont make any differnt wat kind I used to get, does it, pop?

Have you by any sindow of a possibility of a doubt got a report to show me, sed pop.

Sir? Yes sir, I sed, And I handed it to him, pop saying, Ah, ha, I tisset there was an libidum in the woodpile. And he looked at the report and flats w'y I had to see to had the after supper and also w'y I didnt have any recess money today and w'y I dont expect any tomorro.

CLAIM PERMISSION TO MAKE AIRPLANES

Dresden, Germany, Nov. 24.—Written permission for construction of airplanes of the type sold to an American firm and held in Germany, has been given by the Entente control commission. It is declared by the firm making the machines. It is also asserted that the shipment to America of the eleven machines now in the hands of the commission at Hamburg was sanctioned by an export commissioner, as they are of a civilian type. The construction of these machines has never been open to

objection from the Entente commission, and the airplanes do not come within the provisions of the Versailles treaty, it is said.

It was declared yesterday that these machines which are made of aluminum would be held until Article 201 of the Versailles treaty directing the delivery of air material to the Allies had been complied with. At that time it was stated the German government would protest to the Allies against the action of the commission.

PASSPORTS ARE UPHELD

Attempt to Abandon Systems Now in Operation Is Opposed.

The Hague, Nov. 24.—(By the Associated Press)—American diplomatic officials abroad who are in possession of evidence of propaganda schemes originating in Moscow are opposed to any attempt to abandon the United States passport and visa systems now in operation. This is because they are convinced that the Russian soviet government has been attempting to send hundreds of dangerous agitators to the United States.

War-time passport regulations have been considerably modified, both for American and foreigners seeking American visas, in the past few months and every attempt will be made, it was said, to make travel as easy as possible abroad next summer. But, in face of the evidence which has accumulated during the past few months, believed to indicate a determined effort by the Bolshevik government to spread its jurisdiction in America, the diplomatic officials do not wish to surrender their most potent safeguard against its possible success.

Emigrants Are Assisted. "So far as the would-be emigrant is concerned," the American official said, "things have just been simplified for him that in ten minutes' time, he is

aiding his own government consider him a worthy subject and has so evidenced this by giving him a passport, he can answer all the questions we want to know about him. If he is satisfactory he can get his visa the same day and be on his way to the United States speedily.

"The American traveling abroad will get all the assistance possible to give him. If he fears because of the necessity of securing visas from various other countries and objects to frontier inspections, he must remember that perhaps the man who sat next to him in the railway car was a Bolshevik or an anarchist, en route some place with a bomb, who might be stopped at the frontier before he could throw the bomb.

"Americans coming abroad will save themselves much difficulty if, just as they go to the bank before leaving to get a letter of credit, they will secure at foreign consulates in America visas permitting them to enter all the countries they wish to visit."

Navy Bolshevik Agents. While most of the Bolshevik agents en route to America seek to get through on false seaman's certificates or by other surreptitious means, according to American officials here, there are a number of navy ones who appear at American passport bureaus from time to time, and request legitimate visas.

During a recent week at an American passport bureau in Holland, out of twenty-five persons refused visas, four were known to be revolutionary agitators and three were international criminals.

The United States surgeon general's office has recently established at some of the big embarkation ports in Europe bureaus of sanitary inspection and quarantine, which, co-operating with the local medical authorities, seek to prevent diseased emigrants from entering the United States.

The whole effort, one official said, is to prevent control and medical inspection, to control the situation on this side, thus relieving Ellis Island and the other immigrant stations at home of much work.

SUGAR CROP HEAVY; PRICES TO BE LOW

Supplies of sugar will be abundant and reasonable prices will prevail in this country for an indefinite period ahead, in the opinion of refiners and brokers. Reports have been received to the effect that the crop of sugar beets last season in the leading producing states was much larger than had been counted upon early in the season.

All the twenty-seven sugar beet factories in the Utah-Idaho region are now working at capacity with trainloads of beets pouring in daily at each. The season has been so favorable that it is thought every beet will be out of the ground before any freezeup overtakes farmers. Two years ago unexpectedly early frosts caught thousands of tons of beets in the ground, and they became almost an entire loss.

As a result of the special efforts being made to increase production, it has been mentioned that the Utah-Idaho Sugar company's factory at Brigham City, Utah, has treated 25,000 tons of beets during the last five weeks. In one day 2,485 bags of sugar were turned out.

Officials of the Amalgamated Sugar company reported the completion of the seasonal digging of beets at its Utah and Idaho plants. The season's production of sugar is estimated at 1,500,000 bags of 100 pounds each. Last week the company distributed \$3,000,000 to farmers at a rate of about \$12 a ton for October deliveries. The distribution is a still larger sum to growers is expected on Dec. 15.

The production of beet sugar at the plant at Chicago, Minn., is expected to set a new high record this season. As a result of the returns realized, it is predicted that farmers in Minnesota will take up the raising of sugar beets upon a larger scale next year.

RECITALS GIVEN AT LOW PRICES

Chicago, Nov. 26.—Recitals by famous musicians with the best seats selling at 50 cents will be introduced in Chicago this winter.

Jacob Handelman is sponsor for the new plan. He proposes to hold concerts in the larger theaters and halls scattered through the residential districts as an especial appeal to the adjacent neighborhood.

"There are 500,000 music enthusiasts in Chicago's residence districts," Mr. Handelman said. "That is, one out of every six men and women here derives a soul satisfaction when hearing beautiful melodies. But the trouble is they cannot afford to pay from \$2 to \$10 to hear a renowned violinist, cellist, or soprano. And so they either saturate themselves with the cannibalistic jazz or they go without."

"I would rather entertain 4,000 people with good music at 50 cents a seat than 1,000 at \$2. Europe, in musical culture, is far ahead of us because the masses are provided with the best of musicians and singers at low prices. In Bern, Switzerland, the greatest artists appear at the workmen's hall. The tickets are 10 cents. In many other European cities minimum prices are charged at popular concerts. It can be done in Chicago, too."

Mr. Handelman has selected Victor Young, a Chicago boy, born in the West side ghetto, as the artist for his first concert. Mr. Young recently returned from Russia, where he was conscripted by the Bolshevik army while studying the violin.

Sealdsweet Grapefruit for Food and Health

Tune the meal and tone the system. Nature's own aids to the digestion of other foods. Appetizing, delicious, refreshing and strengthening.

The ideal fruits with which to begin breakfast and end dinner. True food-fruits, delightful and beneficial at every meal, they may be served in a wide variety of ways.

Say Sealdsweet Soon This week, Today, Now! To Your Fruit Dealer

Say to your fruit dealer:
"I want Sealdsweet grapefruit and oranges."
"This season I shall expect you to supply them to me regularly."
Say this to him right away, that he may have opportunity to provide for a stock of these superior grapefruit and oranges.
Say also that some nearby wholesale house will regularly furnish him Sealdsweet fruits out of carload shipments received direct from the cooperating growers who form the Florida Citrus Exchange.
Say Sealdsweet to your fruit dealer and keep on saying it; if he hesitates, tell him you insist on having Sealdsweet grapefruit and oranges. Most good dealers like to sell them because they give such satisfaction.

To make sure of dependable grapefruit and oranges, look on boxes and wrappers for the Sealdsweet trademark of Florida Citrus Exchange.

The Florida Citrus Exchange is a great body of 5,000 grapefruit and orange growers who sell their own fruits to avoid speculation in them.

Sealdsweet Oranges-Better Because Juicier

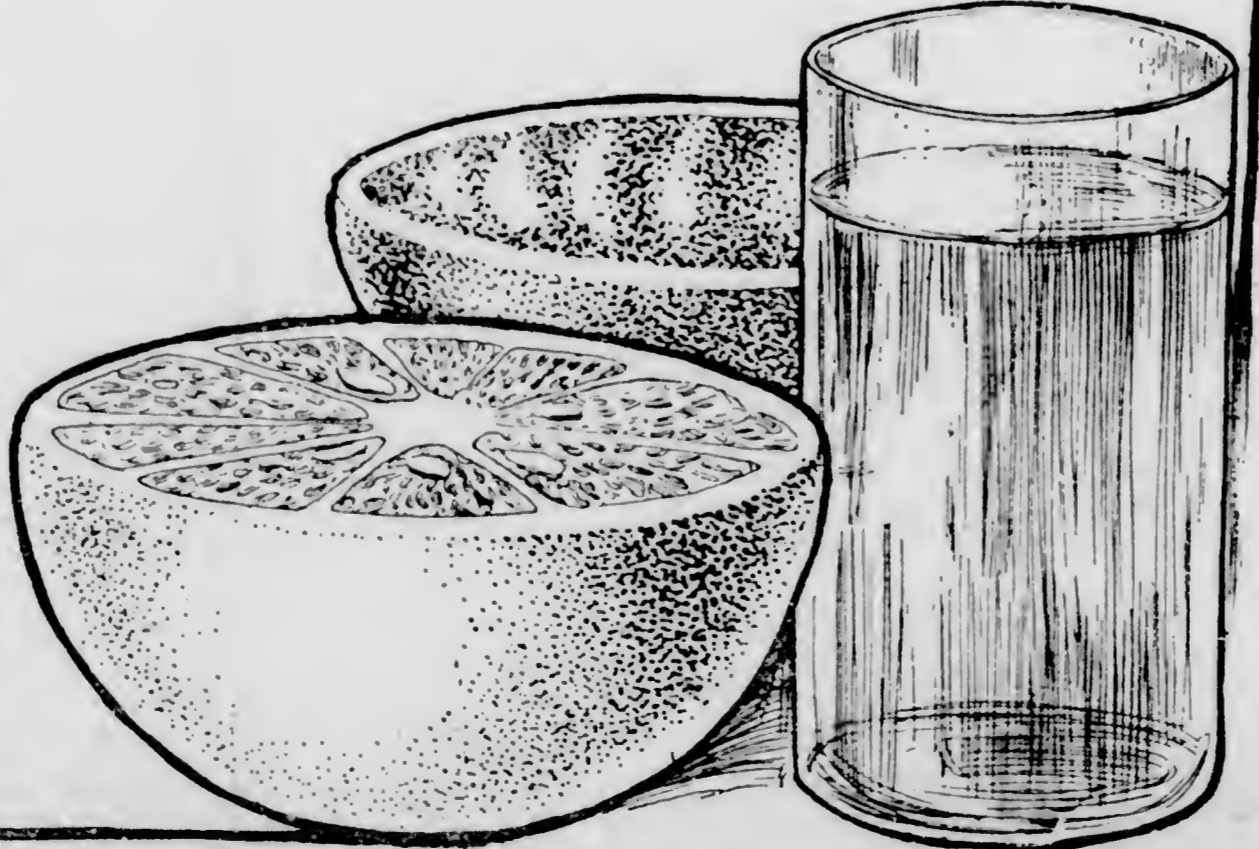

All oranges are good, but Sealdsweet oranges are better than most. They are better because heavier in juice, the food and health element of oranges. Buy Sealdsweet oranges for your health's

sake; enjoy them because of their rare deliciousness. Try Florida Sealdsweet oranges and see for yourself how much more juice they give than oranges from sections less favored by nature.

Ask Your Doctor

Why you feel "off color"

He knows the reason—the underlying cause. And will tell you, most likely, that what you need is a good physic.

He knows, too, that the poison germs in your system multiply by minutes when waste matter remains in the intestines. They imperil your health. They invite sickness and disease.

The waste must be removed without loss of time. A day—even half a day—is too long. That is why advanced medical science warns against old-fashioned, slow-acting cathartics. These cathartics allow time for the waste to spread disease.

When accumulated waste matter remains in the system, it quickly generates poisons which enter the blood. You know the results—perhaps too well. Foul breath, coated tongue, mental depression—and these seem unimportant when you know your health is laid open to the dangers of appendicitis!

The danger of constipation

Constipation brings on colds, headaches, influenza, rheumatism, indigestion, pneumonia and most human ills. Your physician will tell you the importance of removing the waste matter from your system at once. He will tell you the dangers in slow-acting, old-fashioned, over-night cathartics.

Thousands of well-informed physicians now recommend a harmless mineral water as the safe laxative to take. They prescribe it for their patients, young and old, because its action is sure—the results prompt and complete. This water is known as Pluto.

The effectiveness of Pluto Water is due to the minerals it contains. They soften the waste accumulation. The water helps to flush it gently away. The action is pleasant and gentle—entirely free from the griping effects of old-fashioned cathartics.

Millions have found health

Millions of people have now found health at this source. Those smiling faces you see—those ruddy cheeks and clear, healthy complexions—need no longer be the cause of envy. You, too, can keep your health at par.

See your druggist today. Ask for a bottle of Pluto Water. Use it at home—first thing in the morning or before meals. Know its pleasant, gentle action. Convince yourself of its prompt, complete results. Learn how it restores normal, healthy activity. Protect your health—feel fine again!

Thousands take Pluto Water even though the bowels move with apparent regularity. They know the health value of a periodic cleansing.

Pluto Water is the reliable home laxative. Physicians everywhere recommend it and suggest that it be kept always handy. It is equally effective for children and grown-ups. As a laxative take 1/2 tumbler of Pluto; as a cathartic, 1/2 tumbler; as a purgative, 1/2 tumbler—add hot or cold water to fill glass. Bottled at French Lick Springs, Indiana.

GUARDING OF IMMIGRATION

Questionnaire Is Sent to Governors by the Civic Federation.

New York, Nov. 26.—The following letter, with questionnaire, has been mailed to the governors of the several states by the National Civic Federation:

"Sir: Late experiences at the leading Eastern ports of entry into the United States, especially New York, show a very marked increase in immigration. It appears probable that from July, 1920, to July, 1921, not less than a million immigrants will be received.

"Most reports, especially from Ellis Island, indicate also that the percentage of those classes which we have heretofore considered undesirable is greatly increased, owing to the present interpretation given to the immigration law, for example in favor of those who claim to be coming to this country on account of religious persecutions in their own country, and those who are members of the families of others questioned for admission. Considerable numbers of the mentally afflicted and feeble minded have been admitted under bond, while the number of illiterates of women and of children and old people who are likely to become public charges has very decidedly increased.

"Many of those most familiar with the situation feel that the whole question should be thoroughly investigated immediately, with reference to prompt action by congress and the executive.

"The National Civic Federation is desirous to sound as well as it may the sentiment of the different sections of the country with reference to doing whatever may be within its power to help to carry out plans that seem desirable. In order, therefore, that we

may have a basis for judgment and a sure ground for action, may I venture to ask you to reply to the following questions:

1. Should the 'asylum' or 'land of refuge' provision of the immigration law be employed as a pretext for the admission of those otherwise excluded, such as illiterates and diseased and feeble-minded immigrants?

2. All things considered, do you favor a decisive restriction of immigration by further legislation? If so, which of the methods frequently proposed do you prefer?

3. Would you favor the amendment of the immigration law in the following particulars: (a) To provide the immigration authorities with information contained in foreign criminal and police records; (b) rephrasing that part of the law which excludes criminals; (c) to provide a moderate increase in the physical requirements for admission; (d) to require all aliens to register and report once a year to some governmental authority; (e) to strengthen the law with respect to the inspection of alien seamen; (f) to provide for the examination, as to eligibility of aliens seeking admission into the United States, by consular or American immigration officials stationed abroad? Respectfully yours,

J. W. JENKINS,
Chairman Department on Immigration.

SLIGHT INCREASE IN LUMBER BUYING

Chicago, Nov. 26.—"On the whole, purchasing of lumber" says the American Lumberman, "has shown a slight increase. The bulk of the new business is for immediate shipment and few buyers are seeking to cover their 1921 requirements. Retailers have refrained from ordering this fall and have allowed their stocks to run down. The retailers have not experienced brisk business this fall, but nevertheless, a good deal of lumber has gone into consumption, with the result that now the retailers are confronted with the necessity of getting some rush shipments to take care of such business as comes in. Consequently these orders are being placed at the nearest source of supply.

"Lumber producers do not expect a rush of business until the spring; the

consensus is that the next two or three months will be dull. Soft wood prices in many cases are at or slightly below the present cost of production. If they go lower a reduction in wages will be necessary; in fact, in the Southeast and in at least one case in the North decreases of wages have been announced.

"The national shortage of homes is increasing and the belief that a building boom must start unquestionably lends encouragement to all divisions of the lumber industry. The housing shortage has been growing for years, as is shown by the following table:

Year	Families	Dwellings
1890	11,482,213	12,620,152
1900	14,130,145	16,187,715
1910	20,255,555	17,835,845
1915	22,740,499	19,822,517
1916	23,292,887	20,243,951
1917	23,795,219	20,472,900
1918	24,875,051	20,829,029
1919	25,319,443	20,900,000

"From the period of 1916 to 1919 the number of families increased by 2,026,556 while the number of dwellings increased only 626,249, thus indicating clearly how the housing situation is steadily becoming worse and how a great potential market for building materials is being created."

DIVIDEND TO WHEAT GROWERS IN CANADA

Winnipeg, Man., Nov. 26.—A final dividend of 18 cents a bushel will be paid to farmers by the Canadian wheat board, according to an announcement made after a recent audit of the books of the board. The payment will be made on "participation" certificates, the method used by the Canadian government to return to farmers' profit made by the government on their 1919 wheat above the guaranteed price.

This payment will bring the 1919 price based on Northern wheat in storage at Fort William, to \$2.65 a bushel or of \$2.50 at points of shipment in Manitoba, Saskatchewan and Alberta. The board has already distributed \$38,000,000 on interim dividends and it is expected, will be completed before the first of the year. More than \$40,000,000 represents the share of farmers in the prairie provinces. The other \$6,000,000 will go to Eastern Canada and British Columbia.

AMERICAN CANNING GIVEN GOLD MEDAL

Paris, Nov. 26.—(By the Associated Press.)—The canning unit of the American committee for devastated France won the gold medal at the horticultural exhibition just held under the auspices of the Horticultural Society of France at the Jardin d'Acclimatation in the Bois de Boulogne.

The award was made on a collection of 1,000 jars of fruit and vegetables prepared this summer under the supervision of Mrs. Bernice Davis, director of the unit, who visited twenty-six departments and gave demonstrations in home canning.

Last June this unit was awarded the 'medal vermeille' at the horticultural exhibition.

TO MAKE PALESTINE SELF-SUPPORTING

Buffalo, N. Y., Nov. 26.—To populate Palestine with a preponderating body of self-supporting Jews, who will develop into a homogeneous affair, ultimately becoming a self-supporting commonwealth, is the problem being dealt with by the annual convention of the Zionist Organization of America, which began here yesterday.

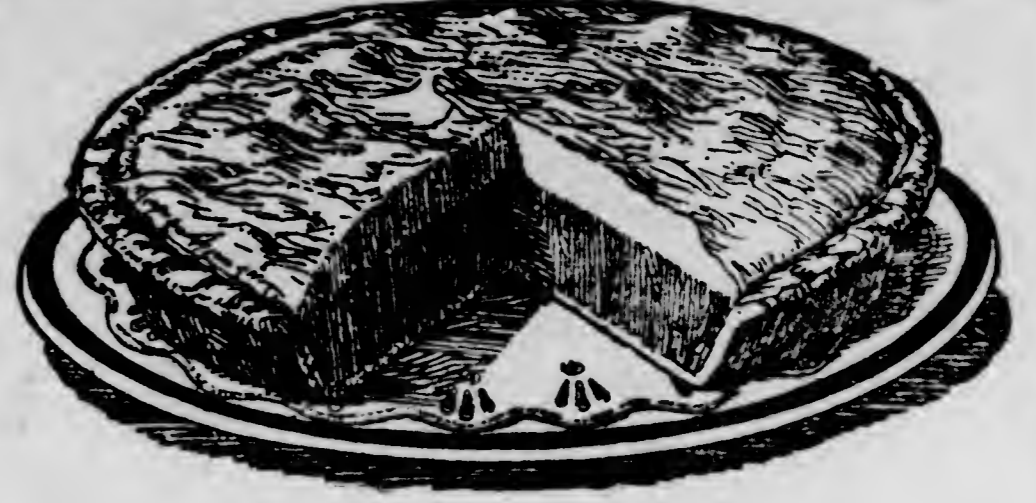

Practically the whole of this task must be carried out by the Jews of this country, agents of that organization say. They assert that the war and its aftermath has almost completely impoverished European Jewry, and the depreciation of the money of such countries as Russia, Poland, Austria and Roumania has compressed the remaining wealth to an almost irreducible minimum.

They add that European Jewry can contribute to the development of Palestine as the national homeland only the human material in the form of hundreds of thousands of poor, penniless, now competing every port from Danzig to Constantinople, and even along the Pacific, awaiting opportunity to reach Palestine. While there is a small percentage of these refugees who have managed to escape with considerable capital, most of them are destined to be hewers of wood and drawers of water, farm hands and day laborers. The

Zionists declare that most of the money and constructive advice as well as the technical skill required for Palestine's development must come from the Jews of this country, and that the time has come for the Zionists to make work.

it possible for all Jewish organizations and individuals to participate in the work.

Quick Lemon Pie

Real Lemon at its best

Now comes Jiffy-Pie—real lemon pie, made by the makers of Jiffy-Jell.

It comes in a package, almost ready-made. The sugar is there, the egg yolk, powdered milk, corn starch and tapioca. The real lemon essence is there—derived from lemon peel. It comes sealed in glass so it cannot deteriorate.

Add water, cook a little, and the filler is ready. You have the utmost in a lemon pie.

Perhaps you also make good lemon pie. But think of the time and the trouble. Think how rarely you serve it—the finest pie that's made.

Jiffy-Pie saves most of that trouble. It makes lemon pie convenient, quick and economical. You will serve it twenty

times as often when you let us make it for you.

It is made by the same people as make Jiffy-Jell desserts. You know those fruity dainties, with the real-fruit sealed in glass. The same high ideals are back of Jiffy-Pie.

We will pay your grocer for the first pie if you are a Jiffy-Jell user. Present the coupon to him—get the package. See how easily and quickly you can make the pie.

Compare it with your own pies. Ask how your people like it. Then remember that Jiffy-Pie is ever at your call. It costs only a few cents to serve it. It is little work to make it.

You'll be glad to know of Jiffy-Pie. Cut out the coupon now.

Please your taste—Both are Good

Swift & Company realize that taste is a matter of the individual; therefore, they make both Premium Oleomargarine and Gem Nut Margarine.

Both products are equally pure and delicious.

They are made from different ingredients and differ slightly in flavor to please individual taste.

Their delicate flavor makes them suitable for serving at table; their fine shortening qualities make them favorites wherever good cooks turn out superior cakes and pastries.

The fact that they are most moderately priced as well as most nutritious is an added advantage.

Both products share in the advantages of the famous Swift system of wide distribution.

Both are made in fourteen conveniently located factories, so both are fresh, pure, and delicious when they reach you.

Not a hand touches either product in manufacture or in packing.

IT'S not a bit of trouble to have plenty of good things to eat on hand all the time, when you use Calumet Baking Powder.

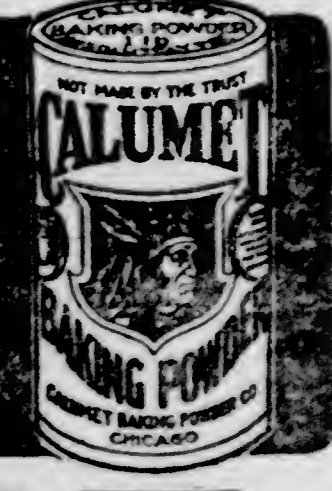

It never allows baking trouble. You don't "dread" to bake. There is nothing to worry about—and that really is the hardest part of it.

Mix up a batch of biscuits—the finest kind of cake—it's all the same. There is never but one result—the sweetest and most palatable of foods.

There is not as much worry over baking costs either. Because Calumet costs less—when you buy it—the price is moderate.

—the Kind Mother Uses!

CALUMET BAKING POWDER

It costs you less when you use it—because you don't use as much of it—it has more than the ordinary leavening strength.

You get more out of the flour, sugar, eggs, shortening, etc., because there are no failures—no waste.

The most critical of baking powder judges gave it highest awards, World's Pure Food Exposition, Chicago,—Paris Exposition, Paris, France.

The largest selling brand in the world.

A pound can of Calumet contains full 16 oz. Some baking powders come in 12 oz. cans instead of 16 oz. cans. Be sure you get a pound when you want it.

Calumet Doughnut Recipe
4 cups of pastry flour, 3 level teaspoons Calumet Baking Powder, 1/2 teaspoon of salt, 1 cup of sugar, 2 eggs, beaten together, 2 tablespoons of melted butter, 1 cup of milk. Then mix in the regular way.

NEWS OF THE NORTHWEST

THREE KILLED AT CLEAR LAKE, WIS.

Clear Lake, Wis., Nov. 26.—Three persons were killed and four others injured when the automobile they were riding in was struck by a passenger train on the Chicago, Minneapolis, St. Paul & Omaha railroad at a grade crossing near here late Wednesday night. The dead are the 10 and 12-year-old sons of Mr. and Mrs. J. O. Johnson, a farmer, and Johnson's father-in-law, Mr. and Mrs. Johnson, their 18-year-old son and 7-year-old daughter were injured. When the railroad conductor declared he had stopped at the railroad right-of-way and then started across the track in an attempt to "beat" the train. The machine with the occupants was carried 100 yards. The injured persons are in a critical condition and physicians hold out little hope for their recovery. One of those killed was Elmer Johnson, a student at Minnesota college at Minneapolis. He had just returned to Clear Lake and the family met him at the station to escort him home. The accident happened shortly after they left the depot.

BADGER K. C. GIVE \$1,000 FOR CHILDREN OF GERMANY

Milwaukee, Wis., Nov. 26.—The Knights of Columbus state council yesterday made a Thanksgiving donation of \$1,000 for the starving children of Germany. Badger Skerthorn Sale. Livingston, Minn., Nov. 26.—Twenty-seven head of purebred Shorthorn cattle brought \$12,100, or an average of \$448.14 per head, at a public sale held in the stock pavilion here yesterday. A bull brought the top price of \$1,200.

NORTH DAKOTA COW IS RECORD BREAKER

Fargo, N. D., Nov. 26.—A North Dakota heifer, Carleton Pioneer Sigs, No. 42177, has broken the seven-day world record for fat production in the junior 2-year-old class, producing in seven consecutive days 4,577 pounds of butterfat, the equivalent of 31.93 pounds of 80 per cent commercial butter. The test was made under supervision of the North Dakota Agricultural college and will be certified to the Holstein-Friesian association. The heifer is owned by Valance Mankowski, Moorhead, N. D. She is a grand daughter of King Sigs, four of whose sons have sired world-record butter cows in the seven-day division. Her dam is Johanna de Boy in Venders, a Holstein-Friesian cow that was formerly champion in the 120-day class. Test Made at Farm School. The test was supervised by the North Dakota Agricultural college under the supervision of Prof. Dice. The heifer was placed in a light, roomy box stall at all times. Two forty-eight hour constant watch vermiculon tests were conducted. The cow was always within sight of the supervisor on duty and likewise the sample box was under constant watch, being double locked, each supervisor retaining his own key. The milk was searched before every milking, with two supervisors present. During this seven-day test 126.6 pounds milk and 7,760 pounds fat, which is at the rate of twenty-seven pounds fat, or thirty-four pounds butter, for the week.

MINNESOTA BLACK FOX FARM LARGEST

St. Paul, Minn., Nov. 26.—(Special to the Herald.)—Mrs. C. P. Fitch and W. A. Riley are collaborating at university farm in a study of animal parasites of the fox. "Up to recent times," says Dr. Riley, a study such as this would have been regarded as useless, but with the development of fur-farming and with choice pairs of the black fox selling as high as \$1,000 each, while good breeding stock is worth several thousands of dollars, anything which may affect the quality of the fur, if not even the life of the animal, is of great importance. "Minnesota," says Dr. Riley, "has the largest black fox farm in the United States. Many other colonies and farms are scattered over the state, but the largest is at Twin Cities. A prime black fox is worth many times what a high grade hog or cow would bring in the market."

Badger Judge Ousted Under Espionage Act Not to Get Salary. Madison, Wis., Nov. 26.—Judge J. M. Becker of Green county, who was convicted on Aug. 7, 1918, under the espionage act, has been ousted from his office as a result of having been ousted, according to an opinion rendered by Attorney General Clegg. The district attorney of Green county, after he had been convicted a successor was appointed. The attorney general's department that such a conviction creates a vacancy or legal vacancy as would the death of the incumbent. A claim for compensation for the time he lost.

As has been pointed out above, the statute at the time of the claimant's conviction provided for his restoration to office or payment of the emoluments of office to an individual convicted, and whose sentence was reversed on appeal. The decision reads: "When the claimant was convicted of the offense, he automatically lost all right to office and to the compensation provided for the discharge of his functions."

Wadena Robber Sentenced. Wadena, Minn., Nov. 26.—Buckley Taylor of Jamieson, N. D., third member of the four placed under arrest for the robbery of the St. Cloud depot, after serving ten years in the St. Cloud reformatory, after making a full confession, implicated two men who were ready in custody, De Meyer and Brunner. Buckley is an ex-convict of the whole affair, was taken before Judge Casser Tuesday morning and sentenced. The arrest of the fourth man is practically certain.

Game Law Violators Fined. Cable, Wis., Nov. 26.—Leiner and Jacob Fauber of Milwaukee, who were found by Game Warden W. S. Rogers to have carcasses of two deer hanging at their camp without the necessary tags, were fined \$50 each by Judge Ruff. The same judge fined Albert Winters, W. Kruger and Joe Ringerson, Jr., also of Milwaukee, \$50 each for killing deer out of season.

DAKOTA BRIEFS

Bismarck, N. D.—The total tax rate in Burke county for 1920 will be 2.86 per cent each \$100 worth of property. The 1919 rate was 2.82 per cent \$100 of property. The tax rate for the city, county and state combined has been figured by Auditor Phiberty on the basis of estimates made by the various boards. Lemmon, S. D.—A Lemmon Community club was organized with J. B. Smith as president and Rev. Martin Hyink secretary. One of the chief objects will be to promote better feeling between the townspeople and farmers. MINNESOTA BRIEFS

Moose Lake—Paul Weske, who for several years has been in partnership with his brother, George Weske, in the City-Mont market in this town, sold his interest to Louis Nemoz, lately associated with the Carlton County produce company. Maltova—E. R. Krollow of Maltova has returned home from Osborne camp after a five days deer and small game hunting, having bagged a 200-pound buck and a large number of birds. Paysonville—The Farmers' Co-operative creamery at Hawick, Minn., was destroyed yesterday by a fire starting from a defect in the smokestack leading from the boiler room. A new churn and the book accounts were saved. Minneapolis—The board of education shall be permitted to permit in Minneapolis grade schools, as a result of a controversy among members of the Parents and Teachers' association of Simmons school, A. J. Barnett, a member of the association said. St. Cloud—W. H. Aiden received a message from Pasadena, Cal., stating that his aunt, Mrs. Julia Gregory, a former resident of St. Cloud, passed away on the 24th of this month. Mrs. Gregory's son, Percy, left this city some twenty years ago and since then have been residents of California. Red Lake Falls—Gunder Austra post of the American Legion gave a basket social and dance at the swell hall Friday evening, which was fairly well attended. The prizes were given for the best baskets. The Red Lake Falls orchestra played. The annual ball of

PENINSULA BRIEFS

Ishpeming—The Standard Oil company has started work on the erection of its gasoline service station on the lot formerly owned by James A. Blackney, corner of Division and Second streets. The two buildings, a store structure and dwelling, which occupied the lot, were razed last spring, soon after the company acquired control of the property. Crystal Falls—Ore is still being shipped from this district but not in the volume that it went out in before the cold snap came on. Most of the mines are getting ready for the winter and only such ore as must be sent for-

ward to fill boats expected at the shipping docks will be sent forward from this time out. Negaunee—The largest deer that passed through Sawance for the season was a 255-pound buck, killed by a Chicago hunter in the vicinity of Egan. Houghton—Plans are already under way at the Michigan College of Mines for athletics at the college this winter. The hockey team has started practice indoors and candidates for the basketball team are already in training. Ishpeming—Frank Armstrong will spend several months visiting his father, Richard Armstrong, who has been a resident of the city for over twenty years. Mr. Armstrong was accompanied by his mother, who will make her home here with her husband. Marquette—E. E. Gallon of Lansing has conferred with President James H. Kaye of the Northern State Normal in the city in regard to training teachers for consolidated schools in the Upper Peninsula. The great difficulty is declared to be to obtain suitably trained teachers for these schools, especially those who have lived in the Upper Peninsula long enough to familiarize themselves with conditions here. Marquette—Physical services were held Wednesday for Miss Edith, who died Saturday at St. Luke's hospital. She is survived by her mother, one sister and one brother.

THE SHIPBOARD SCANDAL

The local legion post was given Thanksgiving evening. St. Cloud—The depot at Sartell was robbed by sneak thieves Sunday, the robbery being the third one of the village station in 1920. The loot included an army officer's uniform, valued at \$65, various other articles of soldier's clothing and three tickets to St. Paul. Red Lake Falls—The annual Red Cross roll call campaign is being conducted in Red Lake county by the Red Lake County chapter under the direction of P. E. Pouliot, county roll call chairman who has appointed assistants in all the towns and villages of the county. The local Red Cross is largely engaged in aiding the work of the county public health nurse, Miss Ruth E. Phillips, and the interest manifested throughout the county is indicative of good results from the campaign. Pine City—The annual meeting of the Pine County Agricultural society will be held in the village hall here Saturday, Nov. 27, at 2 o'clock p. m. Sturgeon Lake—Funeral services were held here Tuesday for Mrs. Anna Przybylski, widow of Mr. Przybylski, who died Saturday at St. Mary's hospital in Duluth after an illness of two weeks. She was born in this county fifty-two years ago and has been in this county thirty-one years, twenty-nine of which were spent in residence here. She is survived by six daughters and two sons. A crew of fourteen men, many members started latching the D. B. S. ball Monday. A different crew will be on hand each day until the work is finished. Fergus Falls—Willard S. Freeman, a baker of St. Cloud, filed a petition in bankruptcy in the United States court here, placing his assets at \$24,497.77, of which \$15,400 is exempt, and his liabilities at \$21,613.26. Of the net, \$15,000 is in residence property and this is mortgaged for \$10,000.

Why I like to make Troco

A. E. Hoffman speaks "Because the perfection of Troco solves a serious food problem. There should be more foods of high quality at moderate cost." Highly nutritious "It is highly nutritious, made from coconut fat and milk, Nature's great food substitutes." All can afford it "It provides the average American family with as delicate a product as anyone, anywhere, can serve, at a price all can afford." Quality standardized "So I am glad to be making Troco for the millions. And I promise to make it and keep it the de luxe nut margarin—as good as my lifetime of experience and the splendid facilities at my command can make it."

30 years a butter expert Mr. Hoffman has spent 30 years making and judging fancy butter and teaching butter making at leading dairy schools. He puts the same sweet, delicate flavor into Troco that made his butter famous. He supervises the production of Troco in every detail, working in the up-to-the-minute plant built to meet his ideas. For sale by all dealers.

DAKOTA BRIEFS

Bismarck, N. D.—The total tax rate in Burke county for 1920 will be 2.86 per cent each \$100 worth of property. The 1919 rate was 2.82 per cent \$100 of property. The tax rate for the city, county and state combined has been figured by Auditor Phiberty on the basis of estimates made by the various boards. Lemmon, S. D.—A Lemmon Community club was organized with J. B. Smith as president and Rev. Martin Hyink secretary. One of the chief objects will be to promote better feeling between the townspeople and farmers. Canoy, S. D.—Mrs. Ellen Baller may have a record of Canoy, recently celebrated her 92nd birthday. Sioux Falls, S. D.—A dependent, because he was denied citizenship papers by court, M. M. Bok, 45, a well-to-do farmer of Douglas county drowned himself in a lake near his home. Huron, S. D.—The trustee of Huron college, who will leave next week for Cedar Rapids, Iowa, to become president of Coe college. Rapid City, S. D.—Lumber which Ray Smiths of this city obtained through the purchase of an old house, about with the intended purpose of selling a club cabin has been carried away by thieves. There were about 2,000 feet of the lumber. Rapid City, S. D.—The resignation of John L. Burke as mayor of Rapid City has been accepted by the city council. A special election will be conducted Dec. 14, when a new mayor will be elected. Some citizens favor the city manager plan. Rhinelander, S. D.—Mrs. Ole Warren is dead at her home here of pneumonia. She is survived by her husband, two children and five grand children. Mrs. Warren was one of the early territorial pioneers of Dakota, coming here from Green Bay, Wis., in the spring of 1875, settling upon a congested fourteen miles from this city, where she resided until seventeen years ago, when she and her family moved here.

WISCONSIN BRIEFS

Rhinelander—Walter Broume, 29, of Watertown, Wis., died here, the victim of (meads county's first fatal hunting accident this season. Broume was shot in the right leg when a rifle in the hands of Arnold Gevers of this city accidentally discharged. Hurley—Iron county will make another attempt to procure the services of a county agricultural agent. The

The Coming War Between the "Closed" and "Open" Shop

In the belief that the "open-shop" crusade is intended to undo everything union labor has accomplished and to "feudalize America," the heads of the American Federation of Labor are making war plans. These labor leaders agree "that a united front must be presented to these attacks, and that every unwarranted attempt to reduce wages and working conditions to pre-war levels must be resisted with every legitimate weapon." Thus, as the Baltimore Sun notes, labor and capital are lining up for a finish fight. The leading business interests "will bargain collectively with labor only when forced to do so" and "a concentrated campaign of the employers' interests already has been launched against organized labor on the reaffirmation of the 'open shop' principle and on the stand that wages must be reduced as part of the process of deflation." The labor situation is probably the biggest problem that confronts the great mass of the American people today, and as this article in the "DIGEST" this week—November 27th—presents opinions from all sides, it will be read closely. A Woman's Love for Silk Stockings Is Perfectly Natural

Why shouldn't a woman wear them, especially nowadays when short skirts would make common hosiery seem quite out of place.

And here is good news! For tomorrow and Monday we are offering the following specials, which you may see in one of our show windows.

All Silk Stockings de Luxe, Special \$2.75

Choose from Kayser or La France. Such stockings have been selling for more money, as you know well enough. They are the aristocrats in the way of fine silk hosiery. The Kayser are all silk—and there are all sizes in white, black and outsize.

The La France are all silk with garterproof hose tops. Choose from black, white, eel, cordovan, rose, taupe, gray, navy, champagne and pink. Buy them here, and buy them now for self or for Christmas giving at \$2.75 the pair.

\$2.15 for \$2.50

Burlington Silk Stockings

The new fashioned seamless foot. It is most comfortable—it is reinforced for extra wear. Choose from black, eel, cordovan, leather and gray.

\$1.69 for \$2.00

Burlington Navy Blue Silk Stockings

An excellent quality which we have only in navy blue.

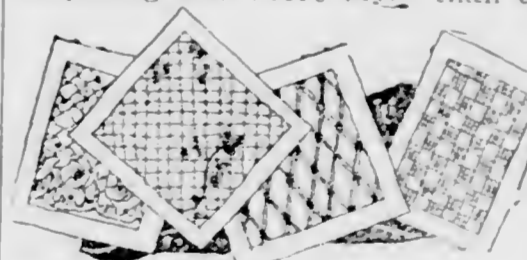

Several Specials in Fiber Silk Hosiery—Also Very Attractive

Christmas Veilings On Sale at 89c

For the small hat with the fur coat could anything add more style than a handsome veil?

Choose from open meshes and fine meshes in dots, spots and designs that will enhance your complexion. They lend softness and individuality to the costume. Select the veil which seems most becoming—and there is always one mesh which seems just a bit better suited to your type than any other. **89c**

And these new \$1.00 and \$1.25 veils are the very last word in veils of their class. Tomorrow we offer them as a special at 89c the yard.

Let Yours Be a Youthful, Graceful Figure

The fine lines, the alluring curves, yet with all the rather straight silhouette are artfully developed by this season's newest models in REDFERN CORSETS.

It is said that their designers are among the highest priced in the designing world, but because of their great popularity the cost is spread over so many thousands of corsets that REDFERNS really cost no more than ordinary corsets of the better class.

For the average figure there are new back-lace models in Redfern Corsets.

The low bust line is so artfully contrived that a beautiful curving contour results. Somewhat higher in back, they give support to the shoulder. The long snug fitting skirt is cleverly gored and stayed with just the right amount of free hip space.

The elastic lacing below the front clasp gives freedom of movement without disturbing the effect of the corsets.

This beautiful model is a pink broche and is offered at \$10.00. Many other models in Redfern corsets are here variously priced at \$5.00 to \$7.50.

The Charm of the Gray Millinery

IS JUST AS BEWITCHING AS THOUGH YOU PAID THE REGULAR PRICE.

But instead of the regular prices you need only pay—

\$12.95 or \$16.95

for any \$18.00 to \$22.50 cloth, velvet or silk hat. for any \$25.00 to \$28.50 cloth, silk or velvet hat.

Many new Fur Hats again this week—are priced at \$15.00, \$18.00, \$22.50 and \$40.00
