# WIRT'S EVERGREENS

## GIVE ALL YEAR BEAUTY

These Evergreens will add dignity and beauty to your home. These kinds are very hardy, having stood the past hard winter and dry summer, which was a real test for Evergreens. All these trees are growing in our nursery, and will be freshly balled and burlapped.

If Evergreens are to be shipped, they should go by express.

Irish Juniper

**ARBOR VITAE AMERICAN** (*Thuja occidentalis*)  
4 to 5 ft. trees \$3.00 each

This Arbor Vitae is very hardy, and dependable in almost any situation. Stands trimming well and for this reason is widely used for hedges. It grows bushy at the bottom and tapering toward the top, thus making an excellent evergreen for entrance and corner planting. Foliage is very soft and flexible and of fine deep green color.

**ARBOR VITAE PYRAMIDAL** (*Thuja pyramidalis*)  
2 to 3 ft. trees \$1.50 each

Of dense, compact growth, narrow and pyramidal in form. Deep rich green color, uniform habit and hardness to withstand conditions here in northern states. It reaches a height of 8 to 10 feet, and usually measures not more than 2 feet in diameter at the base. This is one of many popular pyramidal evergreens.

**ARBOR VITAE SIBERIAN**  
18 to 24 in., balled, \$1.25 each  
24 to 30 in., balled, \$2.00 each

A superb hardy variety, somewhat similar to American, with heavier and fuller foliage and more compact habit. Bears trimming well. This variety is extensively used for backgrounds in foundation plantings, where dense bushiness is required, rather than height.

**SPRUCE NORWAY** (*Picea Excelsa*)  
12 to 18 in., not balled, 40c each  
2 to 3 ft., balled, \$1.50

This is the original Christmas tree, and is highly appreciated because of its rapid growth, its thriftiness, and heavy masses of deep green foliage. Norway Spruce is a tall, picturesque and hardy tree, and well adapted to a wide range of plantings. Can readily be pruned to any desired height.

**SPRUCE WHITE** (*Picea Canadensis*)  
2 to 3 ft., balled, \$1.50

This tree is thoroughly hardy, free growing, not particular about soil. A compact and upright grower of longev-ity. Light green foliage, slightly tinged with blue. An excellent tree for all purposes. Can be sheared and kept to any desired height.

**BLACK HILL SPRUCE**  
18 to 24 inch trees \$1.75 each

This is one of the hardiest of the Spruces. Develops to a very compact, symmetrical tree. The tree is a slow grower, stands trimming well, and is very dark green in color—often looks almost black.

**CUMMUS JUNIPER**  
18 to 24 inch trees \$2.00 each

A new evergreen coming from the north. Very hardy, stands both hot and cold weather—spreading type, growing 24 inches tall. The color is vivid green both winter and summer.

**JUNIPER SPINY GREEK**  
1½ to 2 ft., balled, \$2.00 each  
3 to 4 ft., balled, \$3.00 each

This beautiful variety forms a tall, dense, narrow, conical head, tapering gradually from the ground to a sharp terminal point, and is of fine glaucous color. The growth is slow, so that the tree is well adapted for foundation planting, rock gardens, or places where small or dwarf evergreens are required.

**JUNIPER SAVIN** (*Juniperus sabina*)  
20 to 30 in. trees \$2.50 each

A low many branched Evergreen, sometimes growing 4 feet high. Its branches are spreading and dense. Planted 4 to 6 feet apart forms an excellent border to larger evergreens in the background. It is desirable as a low in foundation groups. It does well in smoky atmospheres.

**JUNIPER RED CEDAR** (*Juniperus Virginiana*)  
5 to 6 ft. trees \$5.00 each

This is one of the oldest, most popular and best known Evergreens. Grows in a compact pyramidal form, stands shearing well, and can be made into many shapes. An excellent, tall Evergreen.

**JUNIPER ANDORRA** (*Juniperus comm. dep. plumosa*)  
18 to 24 in., balled, \$2.00 each

This Juniper has proven a most satisfactory low growing tree. It never burns out, and throughout the year carries a most attractive color. As soon as the frost comes in the fall, it takes on an unusually attractive rich purple bronze color, not the brownish cast sometimes found in Red Cedar. The spring and summer color is a rich bright green. It seldom raises its branches over 18 inches off the ground. It is still quite rare in nurseries and stocks are limited.

**SCOPULORUM** (Colorado Juniper)  
2 to 3 ft., balled, \$2.00 each  
3 to 4 ft., balled, \$3.00 each

Refined, compact, narrowly upright with but one central stem; variable in color from light blue to green, bluest during the hot summer. One of the best Evergreens for hot, dry places.

**JUNIPER PFITZER** (*Juniperus Pfitzeriana*)  
12 to 18 in. trees \$1.39 each  
18 to 24 in. trees \$2.00 each  
2 to 3 ft. trees \$3.00 each

This tree ranks as one of our most important Evergreens of today. It is a Juniper that thrives under many conditions. It succeeds in exposed locations, in full sun, also in shady protected places. Its foliage is of an attractive greenish blue. If left alone it forms an attractive low, broad, irregular form, but by staking up one of the leaders it takes the pyramidal form. An excellent foundation or group Evergreen.

**JUNIPER IRISH**  
18 to 24 in. trees \$1.50 each

This tree grows about 6 to 7 feet tall, and is of slender habit, bright green color, changing to a bluish cast at growing time.

**PINE MUGHO** (*Pinus Mughus*)  
12 to 14 in., balled, \$1.50 each  
18 to 24 in., balled, \$2.50 each

This is the genuine true dwarf Pine. Many stemmed, compact with good green color. It never grows over 3½ feet tall, and 3 to 5 feet in diameter. By annual shearing can be kept any desired size. An excellent evergreen, where one of dwarf habit is wanted.

**DOUGLAS FIR** (*Pseudo-tsuga Douglasi*)  
5 to 6 ft. trees, \$4.00 each

Very tall growing with red-brown bark. Leaves light green, glaucous below. Of thickly conical form, with pendulous branchlets.

Pyr. Arbor Vitae

Mugho Pine

Savin Juniper

Colorado Juniper

Spiny Greek

Blue Spruce

## SPECIAL BLUE SPRUCE

**COLORADO BLUE** (*Picea pungens glauca*)  
14 to 16 in., balled, \$1.50 each

This is one of the Blue Spruces. It is hardy, healthy, and a beautiful tree. The rich blue color enhances the value of the Colorado Blue Spruce for single trees or for group plantings.

**MOREHEIM BLUE SPRUCE**  
2 to 2½ ft. \$ 7.00 each  
3 to 3½ ft. \$10.00 each

This is the true Blue Spruce. These trees are grafted from the very best of the Blues, and are always true in color. The King of Evergreens.

# EVERBLOOMING ROSES

3 yr. plants  
60c. each

Plant more roses. They will bloom the first year. Many of my customers have cut from 15 to 30 blooms the first year.

	EACH	3 PLANTS	6 PLANTS	12 PLANTS
3-year Plants	60c	\$1.75	\$3.40	\$6.50
2-year Plants	48c	\$1.38	\$2.64	\$4.80

**GRUSS AN TEPLITZ (Crimson)**—An extremely useful and dependable variety, succeeding well all over the United States. A profusion of beautiful, clear, crimson scarlet fragrant flowers, borne from June until frost. A vigorous and shapely plant.

**PINK RADIANCE (Silvery Pink)**—Vigorous upright bushy plants bear a continuous supply of very large, light silvery pink to salmon pink flowers on long, strong stems.

**RED RADIANCE (Deep Red)**—Vigorous, upright bushy plant, bearing a continuous supply of very large, beautiful deep red globular flowers.

**DUCHESS OF WELLINGTON (Yellow)**—Intense saffron yellow. Fine, strong-featured Rose familiarly called "Orange Killarney."

**E. G. HILL (E. G. Hill Co., 1929)**—A new red rose of striking form and color. Long, perfectly formed buds opening to high centered, full double flowers of dazzling scarlet, shading to deeper red as they develop. Free flowering, vigorous.

**TALISMAN (Yellow copper red)**—One of the new roses. A wonderful combination of shadings of gold, apricot yellow, deep pink or old rose. The bud is long, perfectly formed. The plant is strong, vigorous grower and heavy bloomer.

**DAME EDITH HELEN**—A magnificent, fragrant, full-bodied new rose of many substantial petals which curl back prettily, holding steadily to one vivid pink color. Remarkable fragrance.

**MARGARET MCGREDY**—Rich oriental red passing to carmine rose; lasting a long time. Large, free, with spicy fragrance.

**ETOILE DE HOLLANDE**—A vigorous, healthy grower and free bloomer, improving year by year (like Radiance). The flowers are a brilliant crimson red, particularly charming in the half-blown state, continuous all summer.

**BETTY UPRICHARD**—A charming type with rolling edges, a blend of deep toned carmine with coppery orange; the interior being mostly a delicate salmon.

**REV. PAGE ROBERTS**—One of the newer varieties. Flowers of golden yellow, stained copper red.

**MISS ROWENA THOM (Bright Pink)**—Beautiful bright pink, darker at the center. One of the newer kinds.

**MRS. E. P. THOM**—A bright lemon yellow. Long pointed buds, good bloomer, very fragrant. One of the newest roses.

**MME. JULES BOUCHE**—Pure white, slightly blushed at center. A fine bedding type.

**MRS. AARON WARD**—Deep golden orange, shading to cream; the standard yellow, small-budded "corsage rose."

**AMERICAN BEAUTY (Red)**—Large flowers. A profuse bloomer, with very large, deep pink to carmine, cerise flowers, that are delightfully fragrant. Borne on long, stiff stems, heavily clothed with foliage.

**FRAU KARL DRUSCIKI (White)**—Large flowers. An immense pure white, perfectly double rose. Abundantly produced in June and if kept growing, continues blooming all summer. An extremely popular rose, having second place in the "favorite dozen" roses. Plant robust, vigorous and upright grower.

Gruss an Teplitz

Radiance

Talisman

# CLIMBING ROSES

2 yr. plants  
45c each

Hardy Climbing Roses need only a foothold, and the long trails will twine and cling to any little trellis assistance and spread charming clusters over yards of wall space.

	EACH	3 PLANTS	5 PLANTS
2-year Plants	45c	\$1.25	\$2.00

**PAUL'S SCARLET CLIMBER (Scarlet)**—Winner of gold medal as best new climbing rose, at National Rose Society's Exhibition. Flowers are scarlet, shaded crimson; large, semi-double. Corresponds with Climbing American Beauty, Dr. Van Fleet, etc., as to size, shape, and habit. Blooms very long, holding a flower after many June bloomers have dropped their petals; a wonderful rose for trellis or pergola use.

**EXCELSA (Blood Red)**—An intense crimson, with the edges of the petals a little lighter. Produced in immense clusters, very similar to Crimson Rambler, but much superior in color and in glossy, disease resistant foliage.

**AMERICAN BEAUTY CLIMBING (Rich Carmine)**—The moderately fragrant rich carmine, 3 to 4 inch flowers are produced in great abundance. It will succeed in almost any situation, and after becoming established, makes a very vigorous growth.

**WHITE DOROTHY PERKINS (White)**—A sport of Dorothy Perkins, and closely resembles it in every way except its immense clusters of pure white flowers, a most valuable climber.

**DR. VAN FLEET (Deep Pink)**—Probably the best climbing rose in cultivation. Perfect formed long pointed deep pink buds on long stems with several in a cluster, expanding to about 4 inches. It is a vigorous grower, with abundant dark green glossy disease resistant foliage, that is a delight to the eye all summer.

**DOROTHY PERKINS (Pink)**—One of America's notable climbing roses, clear pink, slightly fragrant flowers, borne in great profusion, and lasting a long time. The plant makes a very strong growth, as much as 20 ft. in a season. Foliage is glossy, bright green, and persists until cold weather.

**GARDENIA (Yellow)**—Has lovely golden yellow buds, that open with a shade of white when fully expanded, has attractive, glossy dark green, disease resistant foliage. One of the most dependable yellow climbing roses.

**TAUSENDSCHON (Thousand Beauties)**—Large flowers in clusters. Very fragrant, charmingly ruffled, varying from creamy white to soft pink. Very hardy.

**HIAWATHA (Red and White)**—Very hardy and vigorous climber, bearing in large clusters, small single flowers of dazzling red with white eye. Very free bloomer.

## Shortneck Baby Roses 50c ea.

A distinct and charming class of roses, low growing, seldom exceeding 15 inches in height, and all summer produce an abundance of clusters of small perfectly formed flowers. Not climbers.

**IDEAL (Crimson)**—Bright crimson blooms, borne in splendid trusses on long strong stems. It is a very vigorous grower of bushy habit.

**GOLDEN SALMON (Bright Orange)**—This is a new Baby Rose which we have tried for the past two years and now have put on the market. It is a bright orange color, very heavy bloomer all summer. Try it, you will like it.

### F. J. GROOTENDORST ROSE

A new rose of great merit. A cross between Rugosa and Baby Rambler. Grows about 3 feet tall. Leaves are finely cut, and last thru heat and dust. The fine BRIGHT RED blooms are borne in clusters all thru the summer.

If you want a rose that will bloom all summer, very seldom attacked by disease, hardy thru the winter, no cutting back or covering, try the Grootendorst Rose. Fine for hedges.

2 yr. plants—47c each; 3 for \$1.29  
10 for \$3.98

# PLUM TREES

2 year trees  
65c each

2 yr.—4 to 6 ft. trees - - - 65c each; 3 for \$1.80

New Plums introduced by Professor Hansen, of the South Dakota Experiment Station, at Brookings, who has originated many new fruits, which are of great value and importance to all sections of the country. One important feature of these Hybrid Plums is their good quality, extreme hardiness, prolificness and early bearing.

**SAPA**—Deep purple skin with purplish flesh. Bears very young and heavy. Medium size.

**OPATA**—Purplish red skin, greenish flesh, heavy bearer, and bears young.

**UNDERWOOD**—Large size, skin greenish yellow with red, flesh golden yellow; juicy and sweet. Very hardy and productive bearer.

**WANETA**—Often bears next year after planting. Skin deep red, flesh yellow. Very delicious and very hardy.

**WILD GOOSE**—Hardy, native, deep red with purplish bloom, flesh yellow, juicy and sweet; rapid grower; early and abundant bearer. July and August.

# APRICOTS

2-year, 4-5 ft. trees—79c each;  
3 for \$2.25

**SUPERB**—The apricot is a very welcome fruit, ripening between the cherry and peach; it requires the same treatment as the plum; good bearer; fruit, light orange, flecked with red. Flesh tender, juicy, sweet and good. Hardy.

# DWARF FRUIT TREES

## DWARF-CHERRY \$1.00 EACH

3 year- 3 to 4 ft. trees. \$1.00 each

We have a very limited number of DWARF CHERRY. These trees grow low and bush. They bear young and heavy Fruit same size and quality as the regular Cherries.

EARLY RICHMOND -- Early Red popular cherry. ripens in June

MONTMORENCY-- Ripens 10 days later than above, large, dark red.

CHERRIES should be planted in well drained soil, rich in limestone. a peck of limestone around cherry trees every few years will help them a lot. Spray with Bordeaux Mixture during the summer....

## DWARF-PEAR \$1.00 EACH

2 year- 4 to 5 ft. trees \$1.00 Dwarf Pear only grows 10 to 12 feet tall. They often bear the second year after planting. can be planted 10 feet apart...

BARTLETT-- A fine yellow juicy mid season pear. ripen on the tree

DUCHESS-- The largest of all our Pears. Sweet and juicy. ripens on the tree....

PEAR and PEACH trees should not be planted in rich soil. Do not cultivate after second year. They grow to fast, which delays their bearing...

## NEW SWEET CHERRY \$1.00 each

At last a SWEET CHERRY (HANSENS) that will bear in the middle west Fruit large and dark red, distinctly SWEET. What makes it so desirable is that it will bear year after year.

The supply of these trees is very limited. 1 yr. 4-5 ft. \$1.00 ea.

# AIR CONDITION YOUR HOME WITH SHADE TREES

WILLOW WISCONSIN WEEPING - The best weeping willow, a very graceful rapid growing tree, this variety will stand more cold weather than any of the willows.. Grows 20 to 25 feet tall.

8 to 10 ft. trees 70¢ each 2 trees for \$1.10

WILLOW PUSSY-- This is the willow that has the large catkins in the early spring., just the tree for planting close to the house for porch or window shade, as it only grows 10 to 12 feet tall..

3 to 4 ft. trees 55¢ each 2 trees for \$1.00

POPULAR LOMBARDI-- This is the tall, slim stately narrow growing tree, and one of the most rapid growing of all our trees. Much planted at the back of lots as a screen and shade..

5 to 6 ft. trees 30¢ each 10 trees for \$2.50

8 to 10 ft trees 60¢ each 10 trees for \$5.00

PURPLE LEAF PLUM- We think this is one of the most beautiful of all our small trees. A solid mass of white blooms in May. The foliage is a bronzy red all summer. which makes it stand out from all other trees.. Has fruit also, and mighty good to eat..Grows 8 to 10 ft.

5 to 6 ft. trees 70¢ each 2 trees for \$1.10

RED BUD ( Judas Tree) This tree blooms with reddish purple flowers early in the spring before the leaves appear. It has large heart shaped dark green leaves. Grows 8 to 10 feet. tall-

4 to 5 ft. trees 60¢ each 2 trees for \$1.00

BECHTELS FLOWERING CRAB-- This is one of the finest of all crabs, large very double flowers in May, resembles little roses, a very showy small tree. Grows 6 to 8 feet tall ..

2 to 3 ft. trees 75¢ each..

MOLINE ELM-- A tall slim growing Elm, with very large dark green leaves, a fine shade tree for small places, also fine for back line planting. This tree is faster growing than most Elms, and lives long.

Grows 30 to 40 feet tall

8 to 10 feet trees \$1.50 each

HARD MAPLE--(Sugar Maple) This is the chieftain of all our trees Rich autumn tints of red and yellow in the fall. Grows 40 to 50 feet tall. 8 to 10 ft trees \$2.25 each...

NORWAY MAPLE--This tree is very much like the Hard Maple, but is claimed to grow faster . 8 to 10 ft. trees \$2.25 each.

BIRCH CUT LEAF WEEPING- This is the beautiful white barked tree, leaves finely cut, long slender branches often reaching the ground. 8 to 10 ft. trees. \$3.00 each

MULBERRY TEAS WEEPING-- Forms a perfect weeping head, long slender branches reaching the ground, Plant two of these trees 6 to 8 feet apart and have a perfect archway, that is covered with green. Grows 8 to 9 feet tall.

5 to 6 ft trees 1 yr. heads. \$2.50 each

CATALPA BUNGEII-- (Umbrella Tree) This tree form a perfect round top, very large leaves, no flowers or seed pods. This should be trimmed very severe late every fall, to keep the ice and snow from breaking the limbs.

5 to 6 ft trees. \$1.75 each.

BIRCH COMMON- This is the common northern white birch, they are more or less of a crooked grower, but very picturesque We have a limited number of these trees.

6 to 8 feet tall \$1.00 each

SHADE TREES should be washed once each month, with FISH OIL SOAP from the ground to the branches, this should be done the first year the tree is planted. it also is advisable to wash the trees for several years. This kills the eggs of bores which kill about 10% of the newly planted shade trees. We have FISH OIL SOAP 35¢ lb.

25¢ each- 3 plants 70¢ 10 plants \$2.00

# SPRAY MATERIAL

- SEND FOR OUR FREE SPRAY GUIDE

Good spray material is almost as important as good plants. Many plants will not survive the attacks of insects, therefore it is necessary to spray, and spray with a material that will control these insects, it is useless to use a spray that will not do the work, it is a waste of time and money. We offer what we think is the best in spray material....

OIL EMULSION ( Kleenup) One of the best sprays for Apple scale Green Aphis, Peach Leaf Roller. This is a Dormant Spray. Apply in March just before the buds appear. Use 3 to 4 gallons to 100 gallons water.. 1 Gallon can \$1.00 - 5 Gallon can \$ 3.50

ARSENATE OF LEAD- For control of coddling moth on tree fruits, Spray when trees are in bloom, then 10 days later, and in August. Also for Gooseberries, Currants, Roses, Potatoes. Use 2 to 3 lbs to 50 gallons water. 1 lb. pkg. 35¢ 4 lb. pkg \$1.00

BORDEAUX MIXTURE- For control of black spot and yellows, on Roses Cherry, and dry rot on Plums and Grapes. 1 lb. can 30¢

BLACK LEAF 40- For control of insects on Roses and tender plants  
1 oz. bottle 35¢

FISH OIL SOAP- For washing shade trees, protect them from borers also for mixing with Black Leaf 40- 1 lb. can 35¢

LIME SULPHUR- Used for a dormant spray on fruit trees, we like Oil Emulsion best.. Use Lime Sulphur for Raspberries. spray before leaves reach  $\frac{1}{4}$  in. 1 lb. can 30¢ 5 lbs. \$1.50

Owing to the past dry season, under stocks for budding and grafting all fruit trees have been very short, thus making a very marked shortage in finished fruit trees, and this shortage will continue for several years.

# APPLE TREES

2 year, 4 to 5 ft. trees  
5 trees \$3.90; 10 trees \$7.60

**80c each**

## WINTER VARIETIES

- DELICIOUS**—Fruit large, nearly covered with brilliant dark red; flesh fine grained, crisp and melting, juicy, with a delightful aroma; of very highest quality. December to February.
- GRIMES GOLDEN**—Medium golden yellow, with white dots, crisp, tender and juicy, excellent; tree vigorous, hardy and productive. November to January.
- NORTHERN SPY**—Tree rapid upright grower, and late bloomer. Fruit large, and roundish, skin thin, smooth, greenish covered with light and dark stripes of purplish red. Flesh fine grained, tender, with a peculiarly fresh and delicious flavor. A fine old variety. December to June.
- BEN DAVIS**—Bears at an early age; an important variety to apple orchards, as it is a heavy pollenizer. Heavy and sure bearer; striped red color; good keeper. December to March.
- STAYMAN'S WINESAP**—Fruit large, striped, nearly covered with red; flesh greenish yellow, very juicy and aromatic; very good; a strong, spreading grower; a good, early bearer; the best of our late winter apples. January to May.
- ROMAN STEM**—Medium size, yellow, of good quality, very productive, tree a slow grower when young.

## SUMMER VARIETIES

- EARLY HARVEST**—Medium, to large, roundish, bright straw color; flesh white, good quality. July.
- RED JUNE**—Medium, oblong, hardy, and productive; deep red color, flesh white, tender, rich and sub-acid. August.
- YELLOW TRANSPARENT**—Medium, yellow, good quality, productive, early bearer. July.
- BENONIA**—Tree upright, rapid grower. Color, dark red with yellow blush; flesh creamy color; flavor unlike any other apple. Fine eating or cooking. This is about the last of the summer apples.

## AUTUMN VARIETIES

- DUCHESS OF OLDENBURG**—Large size, roundish, streaked with red and yellow; flesh white, juicy, acid. September.
- FAMUESE (Snow)**—Medium, deep crimson, flesh snowy white, tender. Tree slow crooked grower. October and November.
- GOLDEN SWEET**—Fruit large, pale yellow; flesh tender, sweet and rich; hardy and a good grower. August and September.
- WEALTHY**—Large, roundish, smooth, nearly covered with dark red; flesh white, fine, juicy, sub-acid; quality very good; good grower and productive. October.

## SELECT PERSONALLY SHRUBS, TREES AND PLANTS

Hundreds of our customers come to the Nursery every year, select their Shrubs and Plants, and take them home in their cars. It will save you money to do this, also you see just what you are getting. (Open Sundays).

## 3 year APPLE TREES 98c each

5 to 6 ft. - - - - 98c each; 5 for \$4.50; 10 for \$8.50

- ALL RED DELICIOUS**—Has the same size, flavor and shape as the common Delicious, but this variety is a deep bright red, which completely covers the apple. Flesh is very white, crisp and very juicy. Heavy bearer.
- YELLOW DELICIOUS**—Fruit golden yellow; flesh pure white; very crisp and juicy; very fine quality. Tree bears young with enormous crops. The old fruit growers claim this is the peak in apples.

**JONATHAN**—Medium, nearly covered with brilliant stripes of lively red; very showy, juicy, excellent; trees spreading and slender; bears early. November to February.

**ANOKA**—A really good apple. Bears in two and three years. Fruit large and very much like Wealthy, ripening in late September to October. Very hardy and vigorous grower, very productive.

## 2 year CRAB APPLES 80c each

**RED SIBERIAN**—Grows in clusters and the tree is simply loaded when fruiting. Bears very young; fruits in Sept. Use these for jelly and pickles. This is the little red one.

**WHITNEY**—Fruit very large, yellow striped with red; flesh yellow, very juicy and fine grained, flavor rich and almost sweet. August.

## 2 year PEACH TREES 45c each

	EACH	5 TREES	10 TREES
2 year trees—5-6 ft.	45c	\$2.10	\$4.00
1 year trees—3-4 ft.	30c	\$1.40	\$2.50

- ELBERTA**—The great American market peach; produces big, profitable crops. Fruit large, bright, attractive, yellow with crimson shading; flesh firm and of good quality. Will ripen perfectly when picked green. One of the best for home or market use. Free stone. September.
- GOLDEN**—Good size, golden yellow inside and out, of very good quality. Tree very hardy and a good bearer. Has proven to be a good variety here. September 10 to 15.
- J. H. HALE**—Of large size, ripens earlier than Elberta, and is of good quality. Color, golden yellow inside and out, with red cheek. September.
- CHAMPION**—Fruit large, delicious, sweet, juicy; skin creamy white, with red cheek; handsome, hardy and productive, and a good shipper; adhering slightly to the stone. White flesh. August 15th.
- ALEXANDRE**—One of the earliest peaches. Ripens in July. White, almost overcast with red, white meat, very juicy.

- CROSBY**—Freestone, medium size, bright yellow, streaked with carmine; annual bearer; hardy. September 15th.
- ROCHESTER**—The fruit is large, yellow, sweet, juicy and of delicious flavor; keeping and shipping well; skin prettily blushed and mottled. Strong growing and hardy, an annual and prolific cropper, ripening about August 10th.
- SOUTH HAVEN**—One of the newer peaches grown much in Michigan. It stands our cold winters better than any of the other varieties. Flesh golden yellow; rich and sweet; firm, excellent shipper and keeper; freestone; ripens 2 to 3 weeks ahead of the Elberta. Tree is hardy, healthy and is a vigorous grower and heavy producer.
- HALE-HAVEN**—This is a cross of the J. H. Hale and the South Haven, which develops a very large Peach of the Hale type and with the hardiness of the South Haven. We do not believe that Hale-Haven is quite as hardy as the South Haven, the fruit however, is much larger. Try a few trees of this new variety.
- GOLDEN JUBILÉE**—A new early peach, large size, golden color, rich flavor, freestone. A good shipping variety.

## 3 year 5-6 ft. CHERRY TREES 80c each

5 trees \$3.85

**EARLY RICHMOND**—This is the early popular cherry that is planted so much. Medium red, hardy, immensely productive, ripens the last of June.

**MONTMORENCY**—The large, late, dark red cherry. This cherry has become very popular on account of size. It is very meaty—ripens about 10 days later than the Richmond.

## 3 year 4-6 ft. PEAR TREES 95c each

3 trees \$2.70    5 trees \$4.50

- BARTLETT**—Large size, rich, yellow color, with a blush; very juicy and highly flavored; good to eat from the tree. This is the variety that is sold at fruit stands.
- KEIFFER**—The best late pear—does not ripen on the tree. Pick them before frost and lay them away. Heavy and sure bearer; good for canning.
- DUCHESS**—The largest of the eating pears, flesh white, very juicy, and excellent flavor. October.
- SECKLE**—The small, sweet pear. Surely fine to eat from the tree. The tree is a low grower, but very hardy. September.

- DOUGLAS**—Here is a BLIGHT-FREE PEAR—in which is combined the best qualities and habits of all leading varieties—with the drawbacks of none. It bears even more profusely than the Keiffer. It begins to bear at an earlier age than any other pear on earth. It ranks with the best in shape, size and coloring.
- LINCOLN**—Medium size, clear yellow flushed with red. Very hardy and very productive. Either canned or eaten fresh its flavor is delicious. Tree bears very young, and is a sure bearer from year to year.

# STRAWBERRIES

For Home or Market

Wirt's Quality Home Grown Plants

LIBRARY  
RECEIVED  
★ FEB 16 1937  
U. S. Department of Agriculture

Place your order for Strawberries early. Plants will be very scarce this year same as last year. Owing to the dry weather, many old patches died out. We have a nice lot of plants this year. Add 10% for postage.

Dunlap Strawberry

## EXTRA EARLY VARIETY

**PREMIER**—An extra early variety, heavy bearer. Berries are long and slim, good early market or home berry. About 10 days ahead of Dunlap.

25 plants 40c; 50 plants 70c;  
100 plants \$1.25; 200 plants \$2.00  
1,000 plants \$7.00

## EARLY VARIETY

**SENATOR DUNLAP**—This is the best known variety in the United States. It bears well in all localities, producing big crops and big berries. Very hardy; rich dark red color. Good plant producer, making wide, heavy rows.

25 plants 35c; 50 plants 60c;  
100 plants \$1.00; 200 plants \$1.80  
500 plants \$4.00; 1,000 plants \$6.00

## MID-SUMMER VARIETY

**BLAKEMORE**—A new variety. Berries large and solid, good keeper and of high quality. Its fine features are that it stems easily, stands dry weather, plants grow large and hold the berries well off the ground. Good red in color.

25 plants 35c; 50 plants 60c  
100 plants \$1.00; 200 plants \$1.75  
500 plants \$3.60; 1,000 plants \$6.00

## EVERBEARING VARIETY

**MASTODON**—The elephant of strawberries, and bears lots of big berries from summer until frost. Plants set in April had ripe berries July 11th, and the first week in August 160 quarts every five days per acre, and in September 576 quarts per acre every five days. The late berries sure bring the price. This is the newest and best everbearer on the market today. Try a few of the plants. Supply limited. Order early.

12 plants 30c; 25 plants 60c;  
50 plants \$1.00; 100 plants \$1.50

Our Strawberries are all grown here at Alpha, and are freshly dug. Strawberries should be planted 16 to 18 inches apart in the rows and the rows 4 feet apart. Set the roots straight down. If you spread them out they dry out.

## BLACKBERRIES

**ELDORADO**—Very productive and hardy; extra fine quality; sweet flavor, without core; fruit very large, jet black. We think this is the best of blackberries.

12 plants 50c; 25 plants \$1.00;  
100 plants \$3.50

## ASPARAGUS

	12	25	50	100
2 yr. size	30c	55c	\$1.00	\$2.00

WASHINGTON—

A new rust resistant pedigreed asparagus. A fine, fancy variety for home or market use. Tender, large and high quality.

## RHUBARB

	3	12	25	50
2 yr. size	Roots 25c	Roots \$1.00	Roots \$2.00	Roots \$3.80

NEW STRAWBERRY—

Large, early, tender and fine. The old reliable pie kind.

Cumberland Raspberry

**LATHAM**—This is one of the leading varieties of the Reds. The fruit is large and solid, does not mush or break apart. The plants are almost disease-proof. Try a few of this variety, you will like them. A coming new red variety.

## RASPBERRIES

STATE VARIETIES WANTED

	12	25	50	100	1000
Cumberland.....	59c	\$1.00	\$1.90	\$3.50	\$25.00
New Logan.....	59c	1.00	1.90	3.50	
Latham (Red).....	59c	1.00	1.90	3.50	25.00
Columbian (Purple).....	80c	1.50	2.60	5.00	

We have the following variety in 2 year transplants which will bear a fair crop of berries this year if planted early:

CUMBERLAND—	12	25	50	100
2 year bearing age.....	78c	\$1.50	\$2.60	\$5.00

QUALITY PLANTS—FRESH DUG

**CUMBERLAND**—One of the largest blackberries known; its immense size firmness and great productiveness entitles it to consideration. Unusually strong grower, throwing up stout, stock canes; perfectly hardy. The most valuable profitable raspberry grown for home or market use. Fruits for long season.

**NEW LOGAN**—An early Blackcap ripening a full week ahead of Cumberland. The fruit is of high quality and full size; free from crumbling. The color is deep, glossy, purplish black. The Logan is highly resistant to drought, cold weather and disease. The canes are extra large and strong. Try a few of this new Raspberry.

**PURPLE COLUMBIA**—Deep purplish red, highly flavored, extra strong canes, wonderfully productive; berries very large. There is nothing finer grown in the line of fruit than this variety for table use, canning, etc. This variety does not sprout.

## Chinese Elm

This New Variety of Elm has proven very popular the past few years. It is one of the fastest growing spreading shade trees we have in this climate. It grows 6 to 8 feet a year. The tree is tough, fast growing, free from disease and stands dry weather. The Chinese Elm can be trimmed into any shape desired. It is a good Hedge type, making a low or tall hedge. Chinese Elms are scarce, owing to the big demand the past few years. Better order early, and get the best selection.

14 to 16 ft. trees, 1½-2 in. diameter.....	\$3.80 each
12 to 14 ft. trees, 1¼-1½ in. diameter.....	\$2.90 each
8 to 10 ft. trees.....	\$2.00 each
6 to 8 ft. trees.....	\$1.00 each
4 to 5 ft. trees.....	\$ .50 each
18 to 24 in. seedlings for Hedges.....	50c for 10 plants
	\$2.00 for 50; \$3.50 for 100
