Government Pawn Shop Business Booming as Needy Borrow Money

With the steady worsening of the food situation, Government pawn shops situated in 10 places throughout the city today are doing a flourishing business with an unceasing stream of hard-up people in dire need on cash, according the Mainichi.

Quoting statistics compiled by the metropolitan government over a period of four months from April, this year, the journal said that these pawn shops accommodated 3,030 persons during the period under review.

Of the money borrowers, figures showed that salary men were the biggest single class of pawn shop utilizers, numbering 1,541 laborers second on the list with 546, followed by 186 shopkeepers and 31 industrialists.

These pawn shops were said to be popular with hard-up folks, as they offer loans in a unit as small as ¥100, redeemable in four to six months at an interest rate of ¥1.25 per yen.

People were reported to be flocking to these Government shops in preference to other private pawn shop dealers whose interest rates and regulations are far more severe.

With the soaring of food and living costs, people in want of money are pawning many types of articles. The chief item as collateral, however, is clothing, and some are literally pawning the shirt off their back to purchase staple food.

Extract S-2 Periodic Report No. 189-12 Aug. 47

Following the "Give-Us-Food" rally at the Palace Plaza today, a delegation of the ZENROREN which sponsored the event called on the Premier at his official residence and handed him a resolution urging him to take steps to surmount the food crisis.

Premier Katayama explained the Government program to tide over the food shortage before the new rice crop in the fall and asked for labor's cooperation in its successful execution.

He said that thanks to releases of imported food, complete food ration deliveries in August would be possible. In subsequent months also, he said, complete deliveries would be possible through cooperation between the Government and the public.

Premier Katayama said that the deficit of a family of 4.2 persons would average Y153 in August, Y149 in September and Y76 in October. In November, the family account book would show a surplus of Y399. Family finance would improve gradually as potatos, barley and rice crops are harvested, making it unnecessary to buy blackmarket food.

Premier Katayama exhorted labor representatives to persevere for a few months, trusting in the Government measures.

He declared that the few months to come, in which the food situation would gradually improve, will be the best time to kill the black market.

The ZENROREN delegation, however, was not convinced by Premier Katayama's argument. A heated controversy ensued between the delegation and Agriculture and Forestry Minister Rikizo Hirano, who was present at the interview together with Chif Cabinet Secretary Suehiro Nishio and State Minister Mitsusuke Yonekubo.

Mr. Hirano finally declared that his Ministry's Agricultural Reconstruction Conference would cooperate with the ZENROREN'S Food Policy Committee in order to democratically carry out Government food measures.

Dec 5, 1946.

From: The Personal Benefit Section, the Social Welfare Bureau, Tokyo-to.

To : Tokyo Yokohama Mil.Gov.District, Tokyo Detachment.(Public Welfare Sec.)

Subject: The plan for the improvement of the public pawn-shops.

On the 15 of Nov. 1946, the government officials of all the cities and prefectures of Kanto districts and concerned business men had an assembly in Tokyo-to, to discuss the present condition and future plan of the public pawn-shops.

The conclusion is that the difficulty of managing the public pawn-shops is as follows:

1. Abolition of limitation.

2. The distribution of national help.

3. No interest loan from government.

Such being the case, on the 20th of Nov. the concerning officers both in Tokyo-to and near prefectures - Made und - written appeal for the Finance and Welfare Ministry about the above said terms.
