**Measure No. 1**

**Expands Veterans' Home-Farm Loan Eligibility**

Referred to Electorate of Oregon by the 1975 Legislature to be voted on at the Primary Election, May 25, 1976, by OL Chapter 117.

**Explanation**

**By Committee Designated Pursuant to ORS 254.210**

This measure would grant the Oregon veterans' farm and home loan to post-Korean and Vietnam veterans (those who served after January 31, 1960) who came to Oregon and lived here for two years prior to May 1, 1977. Under present law they must have entered service from Oregon to qualify.

The measure would also grant the loan to World War II veterans who lived in Oregon for two years between the date of their discharge and December 31, 1965. Currently, the two years residence must have been before December 31, 1952.

If Measure 1 is approved by the voters, an estimated additional 25,000 veterans would qualify for the State veterans' loan.

**Expands Veterans' Home-Farm Loan Eligibility**

**Argument in Favor**

**By Joint Legislative Committee Designated Pursuant to ORS 255.465**

Veterans of World War II and the Korean War who came to Oregon after their military service enjoy entitlement to the Oregon veterans' farm and home loan program if they meet certain residence dates. But post-Korean and Vietnam veterans (those who served after January 31, 1960) in order to qualify for the loan, must have entered service from Oregon. Measure 1 would merely extend to them the same privileges already enjoyed by World War II and Korean War veterans. They should all be treated alike.

As to extending the post-war residency period for World War II veterans, the reason here is that many veterans who came to Oregon in the early 1950s actually have been Oregon residents longer than other veterans who do qualify for the loan.

Passage of Measure 1 will make an additional 25,000 veterans eligible for the farm and home loan, which should result in \$40 million more in loans in the next biennium. This will stimulate the economy of Oregon by:

1. Creating new jobs through home construction, purchase and improvements.
2. Bringing eastern capital into the state through the sale of self-liquidating bonds to acquire the loan funds.
3. Making property taxpayers out of additional veterans, thus helping to share the tax load.

A yes vote on Measure 1 is urged.

**Measure No. 2**

**Discipline of Judges**

Referred to Electorate of Oregon by the 1975 Legislature to be voted on at the Primary Election, May 25, 1976.

**Explanation**

**By Committee Designated Pursuant to ORS 254.210**

In 1968 the people of Oregon added Section 8 to Article VII of the Oregon Constitution (Judicial Department). The added section provided the exclusive methods for removing from office (other than recall by the voters) a judge of any Oregon court and established as grounds for removal (1) conviction of a felony or other crime involving moral turpitude; (2) willful misconduct in office involving moral turpitude; (3) willful or persistent failure to perform judicial duties; and (4) habitual drunkenness or illegal use of narcotic drugs.

Adoption of this section permitted the establishment of the Commission on Judicial Fitness consisting of three judges appointed by the Supreme Court, three attorneys appointed by the Board of Governors of the Oregon State Bar, and three persons who are neither attorneys nor judges, appointed by the Governor. Complaints may be filed against judges with the Commission. The complaints are reviewed and investigated and hearings are held on those which fall within the grounds for removal. If the Commission finds that the conduct of a judge justifies removal from judicial office, the Commission shall so recommend to the Supreme Court. The Supreme Court then reviews the case, and it may remove the judge from office or dismiss the charge.

Experience since 1968 has shown a need for additional and more realistic grounds and methods for the discipline of judges. The present law is too vague and restrictive and this has hampered the Commission and the Supreme Court in dealing with some misconduct which warrants discipline short of removal from office.

The Act before the voters as Ballot Measure No. 2 clarifies and corrects the deficiencies. It strengthens the present law, brings more types of judicial misconduct within the authority of the Commission and the Supreme Court and provides more flexibility and alternatives in disciplining errant judges.

Specifically the measure gives to the Supreme Court authority to censure and to temporarily suspend a judge as well as to remove a judge from office. The present grounds for discipline are expanded to include (1) conviction of a felony or other crime involving moral turpitude; (2) willful misconduct in office related to effective performance of judicial duties; (3) willful or persistent failure to perform judicial duties; (4) general incompetence in office; (5) willful violation of any Supreme Court rule of judicial conduct; and (6) habitual drunkenness or illegal or habitual use of narcotic or dangerous drugs.

Ballot Measure No. 2 was introduced in the Legislature at the request of the Commission on Judicial Fitness. During the Legislature's consideration of the measure, no one testified against it, and only two Senators and one Representative voted against it. The measure is supported by the Supreme Court and by the Oregon Judicial Conference which is made up of all District, Circuit, Tax and Appellate Court judges in Oregon.

**Measure No. 2**

**Discipline of Judges**

**Argument in Favor**

**By Joint Legislative Committee Designated Pursuant to ORS 255.465**

Should a judge be above the law? Or should he be subject to a discipline for abuses of his judicial office? Ballot Measure #2 should be voted "YES" so the Supreme Court will have broader powers to discipline judges and greater flexibility in the kind of discipline to be applied.

Unless this measure passes, the Supreme Court will not have the power to suspend a judge nor to publicly censure for judicial misconduct. And the Supreme Court will not have the power to correct potential misconduct of a judge, concerning his official duties, if the misconduct does not amount to a crime or to heinous dishonesty.

At present, only the most serious types of judicial misconduct may be reached by the Supreme Court in the disciplining of judges. Cases of lesser misconduct go unquestioned.

And, at present, the only discipline available to the Supreme Court in a case involving an Oregon judge is removal from office.

Removal from office is seldom, if ever, used. This means cases of acknowledged judicial misconduct go completely unremedied because the Supreme Court may feel removal from office is too harsh.

The citizens of the state should benefit from the greater flexibility and broader range of coverage provided by this measure.

Temporary suspension from office or public censure should be available to the Supreme Court, and a judge who is generally incompetent in the performance of his duties, or who engages in willful violation of a rule of judicial conduct should be the subject of discipline. For example, appropriate discipline should be available where a judge sits in judgment on his own individual rights to bail or on his or her other personal rights. Judges are only human. Sometimes they fail to decide a case until months after it has been tried. Sometimes they berate the private citizen who must rely on the courts for protection.

The enlarged power to discipline a judge, which is contained in this proposed change in our constitution, can only be exercised by the Supreme Court. So, the independence of the Judiciary is maintained. And, there is no lessening of the independent power of recall reserved to the people in other sections of our Oregon constitution.

For these reasons, we join with Oregon's Commission on Judicial Fitness, which requested that this measure be placed on the ballot, and urge Oregonians to vote "YES" on Measure #2 for broader, more flexible power to discipline judges. People have the right to respectful, courteous and fair treatment by all levels of government, including the judiciary. A "YES" vote on Measure #2 will help the people get the best from their judges.

BALLOT TITLE

DISCIPLINE OF JUDGES

2 Purpose: Amends constitutional section providing that Supreme Court may remove a judge from office for certain misconduct, by adding authority of Supreme Court to suspend or censure as well as remove judge. Present grounds for discipline (felony conviction, failure to perform judicial duties, habitual drunkenness, illegal drug use) are expanded to also include wilful misconduct in office related to performance of judicial duties, general incompetence, and wilful violation of any rule of judicial conduct.

Measure No. 3

Housing Bonds

Referred to Electorate of Oregon by the 1975 Legislature to be voted on at the Primary Election, May 25, 1976.

Explanation

By Committee Designated Pursuant to ORS 254.210

Ballot Measure #3 is a constitutional amendment authorizing the issuance of general obligation bonds not to exceed 1/2 of 1% of the true cash value of the State's taxable property. The bonds would make available funds to lending institutions and qualified housing sponsors to stimulate the State's economy and provide multi-family housing for the elderly.

WHAT WILL THE BONDS PROVIDE?

The bonds would provide up to \$180 million in funds for up to 15,000 housing units over the next five years. Rents are estimated to be 20% below market rate. In order to assure the project is self supporting, some units may be rented at full market rate to renters other than senior citizens.

WHAT ARE GENERAL OBLIGATION BONDS?

General Obligation Bonds are guaranteed by the citizens of the State of Oregon. The State currently has an AAA rating on General Obligation Bonds because no default by the State has occurred. The State Veteran's Loan Program uses General Obligation Bonds. Such bonds are preferred because they provide the lowest interest rate.

WHO WILL ADMINISTER THE LOANS?

The Oregon State Housing Division would administer the housing bonds, seeking proposals from the private sector and public agencies to build or rehabilitate rental housing for the elderly. The State would issue General Obligation Bonds at a low interest rate and then finance rental housing through traditional lending institutions and public agencies. The benefits of lower interest rates would be passed through to elderly tenants in the form of lower rents.

WHEN WILL THE FUNDS BE SPENT?

Housing funds would be allocated throughout the State according to local housing needs. Each city and county would receive its fair share of funds.

Measure No. 3

Housing Bonds

Argument in Favor

By Joint Legislative Committee Designated Pursuant to ORS 255.465

Oregon voters have the chance this election, with a single YES vote, to provide over 15,000 jobs and over 15,000 housing units for senior citizens. If Measure #3 is approved, the state may use its credit to sell \$180 million in bonds to finance rental housing for the elderly.

THIS MEASURE BENEFITS THE ENTIRE STATE. Every city and county will receive its fair share of the construction based upon the number of elderly and the relative housing needs of that area.

THIS IS NOT A TAX MEASURE! The program is financed by using the state's credit—just like the Veteran's Home Loan Program. This lowers the interest rate and makes it much easier for the program to be SELF-SUPPORTING—again, just like the Veteran's Home Loan Program. So far, in 30 years, every veteran's bond has been paid on time, without using one penny of your taxes. This housing program for senior citizens will be handled in the same businesslike way.

BALLOT MEASURE NO. 3 WILL

- 1. Put Oregonians back to work.
- 2. Build needed housing for senior citizens.
- 3. Use the state's credit, not your taxes.

This is why the Legislature overwhelmingly approved this measure and sent it to the people. We hope you will join us in voting YES on Measure #3—to provide jobs for Oregonians and housing for the elderly.

Measure No. 3

Housing Bonds

Argument in Favor

By Housing for Elderly Committee Pursuant to ORS 255.415

Unemployment in Oregon's lumber and housing construction industries has recently been higher than any time since the Great Depression. Although the demand for multi-family housing is rapidly increasing, housing starts have fallen off. And, escalating rents are especially difficult for older Oregonians who live on fixed incomes.

BALLOT MEASURE #3 would allow the State to issue general obligation bonds for construction of multi-family rental housing for the elderly. The bonds are designed to be entirely self-liquidating, the same as the Veterans' Housing Bonds. The benefits of Oregon's favorable interest rate would be passed through to elderly tenants in the form of lower rents, as much as 20 percent lower than market rates. The Oregon State Housing Division would administer this Elderly Housing Finance Program and would make funds available through banks, savings and loans and public agencies. The housing will be constructed in various areas of Oregon according to need.

BALLOT MEASURE #3 can:

- \* Build 15,000 housing units in the next few years.
- \* Create 416 direct jobs and 624 indirect jobs for every 1,000 units—that's 15,000 jobs.
- \* Generate \$367.5 million in business receipts.
- \* Produce \$3.3 million in additional personal and corporate taxes, much of which can offset property taxes.

THE ELDERLY HOUSING FINANCE PROGRAM IS A KEY PART OF THE GOVERNOR'S ECONOMIC STIMULATION PROGRAM. The '75 Legislature overwhelmingly voted in favor of this housing program. Now it is the Voter's turn.

—LET'S GET FOREST PRODUCTS AND CONSTRUCTION WORKERS BACK TO WORK!

—LET'S PROVIDE SUITABLE HOUSING AT RENTS WHICH OREGON'S SENIOR CITIZENS CAN AFFORD!

—VOTE YES ON MEASURE #3!

**Measure No. 3**  
**Housing Bonds**

**Argument in Opposition**

**By Women's Legislative Council Pursuant to ORS 255.415**

THIS IS A NEW ARTICLE TO THE OREGON CONSTITUTION.

\*If passed, it will give the State POWER TO INCUR AN INITIAL DEBT OF UP TO 180 MILLION DOLLARS TO FUND MULTI-FAMILY HOUSING UNITS FOR THE ELDERLY.

\*This is a PERMANENT 'OPEN ENDED' FINANCIAL PACKAGE, because as the True Cash Value of the State increases, the debt allowed for HOUSING BONDS AUTOMATICALLY INCREASES.

THIS NEW ARTICLE OFFERS THREE WAYS TO PAY OFF THE BONDS IN CASE OF DEFAULT.

1. A statewide ad valorem (property) tax.
2. Revenues (interest) from advances to lending institutions.
3. The Legislature may provide monies from the General Fund (basically State Income Tax) and/or levy taxes.

MEASURE 3 WILL FUND HB 2054, ALREADY PASSED BY THE LEGISLATURE. This bill allows the State Housing Division to issue bonds, reinvest bond money and determine who are 'below median income' elderly. There are few specific facts or figures in the bill.

DO NOT BE CONFUSED BY A COMPARISON OF MEASURE 3 WITH THE VETERAN'S HOME LOAN PROGRAM. THE VETERAN'S PROGRAM INVOLVES LESS RISK TO THE TAXPAYER because

1. The veteran operates on a one to one basis. As an individual, he contracts for a mortgage on his own financial capability to pay back the loan.
2. The amount of an approved loan is based on market value of the dwelling or farm.

MEASURE 3 is designed for 'below median income' elderly WITH A LIMITED ABILITY TO PAY. If there is a default on the mortgage, the Housing Division may cover the loss with taxpayers dollars.

\* The DEFAULT RISK IS GREATER for the MULTI-FAMILY housing developer because his ability to repay the state loan depends on the ability of NUMBERS OF TENANTS to pay adequate rents.

VOTERS SHOULD NOTE THAT—

- \* Public housing enjoys preferential property tax treatment.
- \* Oregon already has 6 State Programs and 3 Federal Programs concerned with low income housing and housing for the elderly.
- \* OREGON has the SIXTH HIGHEST PER CAPITA STATE DEBT IN THE NATION—\$488.35 per person. (U.S. Dept. of Commerce, 1973)

GOVERNMENT'S APPETITE FOR THE TAXPAYER'S DOLLAR IS UNLIMITED! VOTE 'NO' ON MORE STATE DEBT.

**Measure No. 3**  
**Housing Bonds**

**Be It Resolved by the Legislative Assembly of the State of Oregon:**

Paragraph 1. The Constitution of the State of Oregon is amended by creating a new Article to be known as Article XI-I and to read:

**ARTICLE XI-I**

**SECTION 1.** In the manner provided by law and notwithstanding the limitations contained in section 7, Article XI of this Constitution, the credit of the State of Oregon may be loaned and indebtedness incurred in an amount not to exceed, at any one time, one-half of one percent of the true cash value of all taxable property in the state to provide funds to be advanced, by contract, grant, loan or otherwise, to lending institutions and qualified housing sponsors for the purpose of providing additional financing for multifamily housing for the benefit of elderly households.

**SECTION 2.** Ad valorem taxes shall be levied annually upon the taxable property within the State of Oregon in sufficient amount to provide, together with the revenues from advances to lending institutions referred to in section 1 of this Article, for the prompt payment of bonds issued pursuant to this Article and the interest thereon. The Legislative Assembly may provide other revenues to supplement or replace, in whole or in part, the tax levies.

**SECTION 3.** Bonds issued pursuant to section 1 of this Article shall be the direct obligations of the state and shall be in such form, run for such periods of time and bear such rates of interest as shall be provided by law. The bonds may be refunded with bonds of like obligation.

**SECTION 4.** The Legislative Assembly shall enact legislation to carry out the provisions of this Article. This Article shall supersede all conflicting constitutional provisions.

Paragraph 2. The following shall be the ballot title for the amendment proposed by paragraph 1 of this resolution pursuant to ORS 254.060: HOUSING BONDS: "Authorizes bonds up to one-half of one percent of true cash value of taxable property in state to provide funds for advances to lending institutions and qualified housing sponsors to stimulate the state's economy and provide multifamily housing for the benefit of elderly households, such bonds to be paid from revenues generated by the advances and ad valorem taxes."

Paragraph 3. The amendment proposed by this resolution shall be submitted to the people for their approval or rejection at a special election held throughout the state on the same date as the next regular state-wide primary election or at any other special state-wide election preceding the next state-wide primary election.

**BALLOT TITLE**

**HOUSING BONDS**

**3** Purpose: Authorizes bonds up to one-half of one percent of true cash value of taxable property in state to provide funds for advances to lending institutions and qualified housing sponsors to stimulate the state's economy and provide multifamily housing for the benefit of elderly households, such bonds to be paid from revenues generated by the advances and ad valorem taxes.

YES

NO

**ESTIMATE OF FINANCIAL EFFECTS:** Based on an estimate of Oregon's 1976 taxable property, this constitutional amendment would establish a maximum bonding limitation of \$185 million to provide additional financing of multifamily housing for the benefit of elderly households.

**Measure No. 4**

**Authorizes Vehicle Tax Mass Transit Use**

Referred to Electorate of Oregon by the 1975 Legislature to be voted on at the Primary Election, May 25, 1976.

**Explanation**

**By the Legislative Counsel Committee Pursuant to ORS 254.225**

Section 3, Article IX of the Oregon Constitution requires that the proceeds from any tax or excise levied on the ownership or operation of motor vehicles be used exclusively for the construction, reconstruction, improvement, repair, maintenance, use and policing of public highways and streets and for the acquisition, development, maintenance and use of parks, recreational, scenic or other historic places and for publicizing any of these uses and things.

House Joint Resolution 18, if passed, would permit the proceeds of any tax or excise levied upon the ownership or use of motor vehicles, when imposed by a special district formed primarily for the purpose of providing transportation of passengers, to be used for transportation of passengers.

The proposed constitutional amendment would expand the permissible uses of those moneys which are derived from the imposition of motor vehicle registration fees by a special district formed primarily for the purpose of providing transportation of passengers. The amendment would not expand the permissible uses of those moneys derived from other taxes or excises such as motor vehicle fuel taxes, nor would it authorize the state to use any Highway Fund revenues for public transportation purposes. Under the amendment, a special district formed primarily for the purpose of transporting of passengers, such as a mass transit district, could use such moneys for transportation of passengers and highway purposes otherwise permitted by Section 3, Article IX of the Oregon Constitution to the extent such purposes are also permitted by law.

**Measure No. 4**

**Authorizes Vehicle Tax Mass Transit Use**

**Argument in Favor**

**By Joint Legislative Committee Designated Pursuant to ORS 255.465**

**WHY VOTE "YES" ON BALLOT MEASURE NO. 4?**

1. Will bring the Oregon Constitution up to date—to reflect modern transportation needs.
2. Will permit greater local control over transit district taxing and spending, by giving district residents an opportunity to make their own decisions regarding public transportation.
3. Will NOT add one penny to your taxes.
4. Will NOT touch highway fund dollars currently earmarked for highway maintenance and construction.
5. Will provide greater flexibility to transit districts, allowing them to spend funds for operations, rather than just for road-related purposes. (The authority for taxing already exists; this measure provides for spending funds for a wider range of districts' costs).

Ballot Measure No. 4 amends the state constitution to permit use of vehicle taxes for public transportation purposes when such fees are levied by a transit district. The auto registration fee authority can be imposed by a transit district **only** after a positive vote of the residents of the district.

The state has only two mass transit districts: Tri-Met, comprising Multnomah, Washington and Clackamas counties, and Lane Transit District. Jackson County has established a public transportation district which has the same limitations as mass transit districts. The proposed amendment will have no effect whatsoever in areas of the state where no transit district has been established.

The proposed constitutional amendment would have no effect unless the district authorizes a specific tax levy on the automobiles for transit use. If such a levy is authorized, the amendment would provide flexibility in using the proceeds. It would allow a district to use auto registration revenues to improve or expand its system so that public transportation can offer more people a realistic alternative to the automobile.

**REMEMBER! THIS AMENDMENT DOES NOT AUTHORIZE OR LEVY ANY NEW TAXES, AND IT DOES NOT DIVERT REVENUES FROM EXISTING TAXES TO ANY OTHER USE!**

Measure No. 4

Authorizes Vehicle Tax Mass Transit Use

Argument in Opposition

By Women's Legislative Council Pursuant to ORS 255.415

MEASURE 4 seeks to change an Article in the Oregon Constitution that states how motor vehicle taxes may be spent.

- \* The Constitution DOES NOT NOW permit motor vehicle taxes to be used to pay general mass transit costs.
\* The Constitution NOW PROTECTS and ASSURES vehicle owners that vehicle and gas taxes are used for road-related purposes.

MEASURE 4 is a STATE WIDE ISSUE because Oregon voters must decide if taxes, imposed on vehicle owners by a transportation district, should be spent for buses, salaries, administration, advertising, land purchases, construction of terminals and used as matching funds for federal money.

PLEASE NOTE: The explanation on the ballot does not clearly state that MEASURE 4 PERMITS AN ADDITIONAL TAX ON MOTOR VEHICLES. The tax imposed on vehicle owners by a transit district would be IN ADDITION TO REGISTRATION AND LICENSE FEES now required by the State of Oregon.

ESTABLISHED TRANSPORTATION DISTRICTS (for example Tri-Met, Lane Transit and Rogue Valley) would be affected by passage of No. 4.

VOTERS who are not presently living in Public Transportation Districts should remember:

- 1. Goal 12 of State Land Use Planning is "to provide and encourage a safe, convenient and economic transportation system." Under Oregon's 1973 Land Use Act (SB 100) a 'Goal' has the force of law.
2. If and when a transit district is formed anywhere in the State, passage of No. 4 would permit the Transit District to tax vehicle owners to subsidize mass transit and those riding buses.
3. Those within the boundaries of the Transit District would be subject to an additional vehicle tax.

MASS TRANSIT IS NOT SELF-SUPPORTING. COSTS ARE PRIMARILY PAID BY THE TAXPAYER.

\* Approximately 66% of Tri-Met's 1975-76 funding comes from taxes.

PUBLIC TRANSPORTATION DISTRICTS HAVE AN UNLIMITED APPETITE FOR THE TAXPAYER'S DOLLAR!

**WHY NOT THE BEST?**

Jimmy Carter's record of life and service is testimony to his belief in that credo.

Born: October 1, 1924. Age 51.

Education: Graduated from U.S. Naval Academy, Graduate study in Nuclear Physics.

Career: Served under Admiral Hyman Rickover in atomic submarine development program, returned to hometown of Plains, Georgia in 1953 to run the family seed and fertilizer business; elected to Georgia State Senate in 1962; elected Governor of Georgia in 1970.

The Carter family: Wife, Rosalynn, 3 sons, Jack (28), Chip (25), Jeff (23) and Amy (8). The entire family is active in Church and community affairs.

**JIMMY CARTER FOR PRESIDENT**

"I am running for President because I believe that our government can be as great as our people are — and I want to work for that belief.

"Today, people are asking, 'Can our government work? Can our government be decent?' and my answer is YES to both.

"I think our government can be competent, effective, economical, efficient, AND meet the needs of our people.

"I think government can be honest, open and compassionate — able to inspire pride again, replacing the shame and embarrassment that haunts.

"Our whole system is based on trust. Nothing works without it. And I feel certain that I am capable of opening the doors again for honesty and simplicity and trust. That's why I am asking you to vote for me."

Jimmy Carter

**"ISN'T IT TIME SOMEBODY SPOKE UP FOR YOU?"**

That's the question Jimmy Carter asked Georgia's working people when he ran for governor. And after those people elected him, he set about to fulfill his pledge by becoming a servant of the people.

Jimmy Carter fought special interests; launched reforms in mental health, racial discrimination, education, environment, criminal justice, and consumerism. He brought government back to the people.

An able administrator, Jimmy Carter proved that government CAN operate efficiently. He pushed through a tough-minded reorganization of Georgia's overgrown bureaucracy. He eliminated 278 of the state's 300 agencies and slashed administrative costs by 50%. At the same time, he vastly increased state service to the poor, deprived and afflicted — while leaving a surplus of over \$116 million in the state's treasury.

Now Jimmy Carter asks the people of Oregon:

**"WHY NOT AT THE FEDERAL LEVEL, TOO!"**

Jimmy Carter doesn't just talk about governmental reform. He has accomplished it — as a governor with a dynamic program. And he knows it will work in Washington, too.

The people should be able to understand government; it should work openly, honestly, and efficiently. Jimmy Carter pledges to reduce the more than 1900 overlapping, uncoordinated, and wasteful federal agencies.

Jimmy Carter pledges to speak up in Washington for the defenseless young, the aged, those badly in need of services, and the hard-pressed taxpayers who always end up footing the bills.

And Washington needs the same kind of open-door policies that Jimmy Carter brought to Georgia government. The public must KNOW its leaders and HEAR its leaders if it is to TRUST its leaders.

That is the way we can make our government work again. That is the way we can make our government decent again. And this time it's not just an empty promise. This time it's a pledge from a man who has already proved his policies by enacting his policies.

"Our government can express the highest common ideals of human beings — IF we demand of it standards of excellence. It is time for us to reaffirm and to strengthen our ethical and spiritual and political beliefs. There must be no acceptance of mediocrity in any aspect of our private or public lives."

**CHAIRMAN, SENATE INTELLIGENCE COMMITTEE; CO-CHAIRMAN, SENATE SPECIAL COMMITTEE ON NATIONAL EMERGENCIES; MEMBER, DEMOCRATIC STEERING COMMITTEE.**

To an Oregonian, Senator Frank Church is the most experienced and qualified candidate for the Presidency on all issues.

- Frank Church knows the nation and its people. Although only 51, he has served in the Senate for 19 years. When he addresses the major issues of our day he speaks from a solid record of legislative achievements and not from an empty page of promises—from full employment to civil liberties, from Social Security to the cost of utilities.

- Frank Church knows the world, as any American President must. As second highest ranking member of the Senate Foreign Relations Committee, he has a masterful command of the intricacies and relationships of all the nations of the contemporary world.

- And, of course, Frank Church knows Oregon. As Senator from Oregon's sister-state, Idaho, he has spent two decades on the Senate Interior Committee and is a Founding Father of the modern conservation movement and author of the Wild and Scenic Rivers Act and floor manager of the Wilderness Act.

In this era of the Accidental President, America cannot afford to subject its shaken confidence in a candidate who is less than fully prepared for the biggest job in the world—President of the United States.

Senator Frank Church's preparation for the Presidency is written solidly in the record of his diverse and studious career as a U.S. Senator.

- As Chairman of the Senate Select Committee on Aging he has represented millions of forgotten Americans who built this country with their labor. Frank Church has sponsored and passed through Congress landmark legislation to save Senior Citizens from inflation and neglect.

- As a concerned Senator, he recognizes the disastrous financial consequences of a catastrophic illness and believes that public insurance for medical disasters should be adopted. Medical benefits now provided for the elderly must be substantially upgraded. Once this priority program is accomplished we will have a workable model on which to base a national program of health insurance for all citizens.

- As Chairman of the Senate Subcommittee on Multinational Corporations he has courageously conducted the most penetrating investigation ever dared against these powerful corporate giants.

- As a friend of the worker, Frank Church recognizes that America needs more jobs, not more welfare. He has supported public service and public works legislation.

- As a Senator, he pioneered the practice of voluntarily publishing the full and complete details of his personal finances.

- As an Idahoan, Frank Church knows the concerns of rural Americans. Through such legislation as the Rural Development Act and the Emergency Farm Loan programs, Senator Church has worked with the American farmer and rancher in their battles against inflated machinery and fertilizer costs, foreign competition, crop disasters, and animal diseases.

- As Chairman of the Senate Intelligence Committee, he has shown his undivided dedication to civil liberties by exposing the transgressions and abuses of the Internal Revenue Service, the CIA and the FBI.

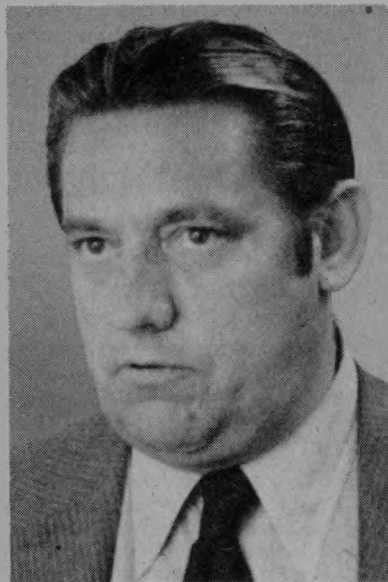

- As an influential member of the Senate Foreign Relations Committee, he was among the first three Senators to oppose the folly and tragedy of Vietnam. Closely following the late Senators Gruening of Alaska and Morse of Oregon, Senator Church showed courage and moral balance long before such a stance became popular. Frank Church counsels us to stay out of Third World civil wars. He warns us that America must reassert its moral strength by making rational judgments which exclude support of corrupt governments in the name of expediency.

There comes a moment in the career of such a man when his leadership is so proven and polished by years of broad experience that he is ready.

Now is that moment for Frank Church.

Ellen McCormack is a wife and mother. After graduating from All Saints High School in New York, she served as a legal secretary. For the past four years, Ellen has written a newspaper column that is distributed weekly to 40 newspapers across the country.

Ellen has been married for 26 years to Jack McCormack, a deputy inspector for the New York City Police Department. Ellen and Jack have four children — Kathleen, Anne, Ellen, and John — and two grandchildren — Brian and Tara. Tara appears with Ellen in one of her 30-second TV commercials.

Ellen believes that a number of feminist leaders ridicule the traditional role of wife and mother. Meanwhile, the views of other women are ignored because women who disagree with the feminists value their position in the home and usually do not run for public office. Therefore, although she has not previously served in government, Ellen McCormack has entered the Presidential race in order to discuss with the American people certain policies of the national government that she considers to be of serious concern for American family life.

**STATEMENT OF ELLEN McCORMACK**

I am running for President because there are certain principles in which I believe deeply. In addition to my view that women who support the traditional values must express themselves in order to neutralize what the feminists are doing in our name, I believe in the Right to Life of every human being from the first moment of existence until the last moment of death.

Those who advocate abortion often admit that it takes a human life but they contend it does not matter because the baby is so small. But I believe there is no human being too small . . . or too young . . . or, for that matter, too old . . . or too handicapped . . . or too dependent . . . or too anything else not to count. Our society can — and with our help it will — respect the dignity of every human life.

I also believe that the future course of our country should be determined not by politicians alone — but by all the people. Politics is too important to be left to the professional politicians, and I hope my campaign will be helpful in this regard.

"Jackson is well worth watching . . . liberal at home,  
tough and unyielding abroad."

James Reston  
New York Times

Many say that Scoop Jackson's record on issues vital to  
Oregonians is reason enough to give him your vote on May 25.

He says no. Look to the total record, the total man. On that  
basis — personal integrity, demonstrated competence, and a  
unique blend of toughness and compassion — Jackson is  
PREPARED for the Presidency.

The promise lies in the record, not in a campaign speech. And  
it is a record of special significance to Oregonians. Whether it  
be timber policy, stopping attempts to divert the waters of the  
Columbia River, protecting fisheries, designing sound  
environmental legislation, or saying "No" to the shipment of  
nervous gas across our state, Jackson has been there when we  
needed him.

Now America needs him.

Whether it is a commitment to national health insurance,  
getting the economy back on track, saying "no" to big oil's  
price hikes, or putting a lid on inflation, Jackson is the only  
candidate who has told the American people what he will do  
and how he will do it. No "wait until I'm President for the  
details." No vague generalities. No "learning" to be Presi-  
dent.

Beyond a vote for a man of exceptional character nurtured in  
the Northwest — a vote for Scoop Jackson is a vote for a solid,  
well-considered platform:

**"JACKSON MEANS JOBS"**. Increase housing production. Stimulate depressed industries. Public service jobs during high unemployment. Put people to work restoring our national forests and parks. Improved minimum wage and working conditions. Economic development for rural areas. Assistance to workers displaced by energy shortages. The record is clear: a 97 percent voting record from the AFL-CIO, far ahead of any other candidate.

**HEALTH CARE**. A comprehensive program based upon enactment of a national health insurance program and improve health care.

**ENERGY**. Led the fight in the Senate to roll back domestic oil prices and to reduce dependence on foreign oil. Led the fight to begin development of alternative energy sources.

**ENVIRONMENT**. Jackson is the acknowledged national leader in making sure that when we modify our environment, we do it to preserve for future generations.

**FOREIGN POLICY**. Jackson believes that detente is a noble and essential goal. But it requires far harder bargaining on our part — a foreign policy based upon morality and fairness and true stability of relations.

**CIVIL RIGHTS**. Consistent support for the strongest possible civil rights legislation and enforcement, whether in voting, housing or jobs, since the first major Civil Rights Act of 1957.

**STEWARDSHIP OF THE NORTHWEST**. Jackson has worked hard to preserve the economy and the environment of this region. Jackson has not hesitated to act. When the people have called, he has responded. On stopping the nerve gas shipments. On protecting the Columbia River waters from attempted "raids." On enhancing our fisheries.

The record is equally clear on women's rights (National Organization of Women Honor Roll), legislation to aid the elderly, and plans for bringing inflation under control.

Scrape away the glib speeches, the campaign promises, the TV "images." Look at what is left of the candidates. At bedrock, look for the man you can trust.

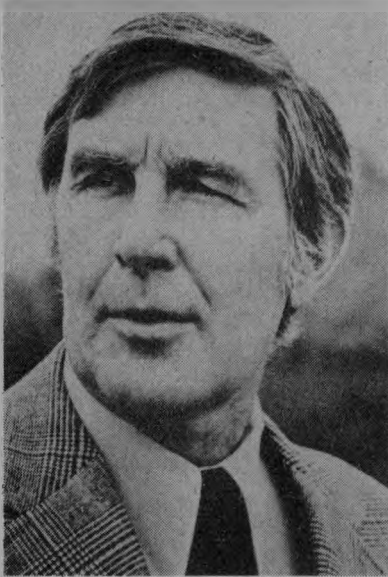

People have already come to expect solid performance from Jackson. They can tolerate nothing less from our next President.

John Kennedy counted on Scoop Jackson — he made him Democratic National chairman in 1960. We can count on him today, and tomorrow.

In this age of TV-made candidates, Jackson does stand alone. He was not invented yesterday by a campaign strategy. He will not blow with the wind. He will not fade in the glare of publicity. He has earned your vote.

"Sen. Henry Jackson (D-Wash.) has suddenly emerged as the most powerful Democrat in the country."

UDALL**

For  
President  
of the  
United  
States

Occupation: U. S. REPRESENTATIVE 2nd District, Arizona  
Educational Background: University of Arizona B.A., LL. B.  
Occupational Background: Pima County (Tucson) Attorney  
Prior Governmental Experience: Elected to the U. S. House of Representatives, 1961; now serving 8th term

Born in 1922 in the Arizona hamlet of St. John's, MORRIS KING UDALL grew up on the nation's most barren frontier. He credits the creativity and self-reliance of the people and the harshness of the environment with shaping the values he has brought with him to public life.

"In our community," he wrote, "existence itself depended on a commitment to the conservation of scarce resources. Everything was recycled and nothing was without value."

As chairman of the House Subcommittee on Energy and Environment, MO UDALL has worked to conserve scarce resources, protect our environment and develop new, clean, safe sources of energy;

- For three successive sessions of Congress, he has led the fight to enact tough regulations to reclaim land after coal strip mining;
- He secured the environmental safeguards on the Alaska Pipeline project;
- He authored the Non-Nuclear Energy Research and Development Act which established the nation's first major program of research into solar, geothermal and other non-nuclear energy sources.

New energy resources are a key to rebuilding a battered economy. But MO UDALL believes our top economic priority must be full employment. "Our community in Arizona started with a commitment to use every individual to their full potential — to make full use of our human resources." A top priority of an Udall Administration would be federal investment to stimulate jobs in business and a public service jobs program — not make-work jobs, but services that need to be performed — for those who are unemployed.

In addition, MO UDALL's experience puts him in the unique position of understanding the inter-relationship of Energy-Environment-Economy. The President who directs this nation's foreign policy, as well as its domestic programs, must understand these issues. Intelligent, workable answers to questions of development, distribution and conservation of resources are critically important to world peace and domestic tranquility.

The Udall family has a long record of leadership in their state and service to the nation. Mo's father, Levi S. Udall, was

Chief Justice of the Arizona Supreme Court; his mother, Louise Lee Udall, took an active interest in Indian affairs — her book, *Me and Mine*, is a moving account of the life of a Hopi Indian woman. Mo's brother, Stewart, served for eight years as Secretary of the Interior under Presidents Kennedy and Johnson.

From his family's public service experience, Mo brings another set of values to his own career: he was strongly influenced by his father's conviction that politics and money don't mix. In his 15 years in Congress, MO UDALL has never accepted an illegal campaign contribution and was among the first to make voluntary disclosure of his personal finances more than ten years ago. And he has been a leader in legislation to reform the electoral process. HE CHALLENGED THE CONGRESSIONAL SENIORITY SYSTEM LONG BEFORE IT BECAME A POPULAR TARGET; HE CO-AUTHORED THE FEDERAL ELECTION CAMPAIGN ACT TO LIMIT THE INFLUENCE OF SPECIAL INTEREST MONEY IN CAMPAIGNS; AND, BELIEVING THAT CONGRESS SHOULD DELIBERATE IN FULL VIEW OF THE PUBLIC, HE HAS NEVER PERMITTED THE SUBCOMMITTEE HE CHAIRS TO HOLD A HEARING OR DEBATE BEHIND CLOSED DOORS.

Here is what others have said about MO UDALL:

- RAMSEY CLARK, former U. S. Attorney General states: "The failure of American politics has been a failure of character. Mo Udall has character. It's the first requisite of leadership. I've watched Mo Udall's character come through in the hard fights for civil rights, civil liberties, the needs of the poor and the cause of peace. We need his strength in the White House."
- JOHN KENNETH GALBRAITH, former economic advisor to President Kennedy, states: "Udall is calm . . . solid . . . with a sense of humor. He still believes in decent, compassionate government, will deal equitably and fairly with corporate power and personal privilege, will work honestly to reconcile full employment with reasonably stable prices. He has a superb record on environment and conservation, and takes a suitably detached view of the higher wisdom of the Pentagon."
- ARCHIBALD COX, the Watergate prosecutor fired by Richard Nixon, endorsing Mo Udall's candidacy, called him "a man of uncommon moral strength."

The question at the heart of the 1976 election is a simple but very fundamental one. Who can best get America moving again by restoring faith in government and putting government back to work openly and responsibly for the benefit of all the people. As Archibald Cox has said, "We can't survive on a diet of cynicism, lack of vision and little faith."

Oregon Democrats can look to MO UDALL as a President who will hear the voices of all Americans, not just the voices of the oil companies and the wealthy campaign contributors. He can bring the kind of leadership to the White House which will represent the interests of working Americans, whether they be farmers, businessmen, factory workers, teachers, clerks or the millions of others who have labored so long to build a nation and now ask only that their government listen to their needs and stop wasting their tax dollars.

Democrats have a unique opportunity this year to choose among a talented pool of candidates. It is time we chose our best. It is time we chose a President with the practical experience and knowledge to lead and work with our Congress. MO UDALL has been a leader in Congress for innovative solutions to new problems. He has approached the present and the future with the values and insights he has learned in the past. He won't tell you easy answers. He will tell it like it is. "We have come to the end of an era, not the end of the road. In the future our lives will be different, but if we are smart they can also be better."

- President of the United States, August 9, 1974—

**TO OREGON REPUBLICANS:**

My family and I hold a special place in our hearts for Oregon. Many of you may know that the late Congressman, Walter Norblad and Mrs. Norblad are the Godparents of our daughter, Susan. Our trips to Oregon have given us fond memories of old and new friends, together with a continuing appreciation for your state's natural beauty. In this regard, I congratulate you for working so hard to make the Hells Canyon National Recreational and Wilderness areas possible. Signing that bill on December 31, 1975 was a most satisfying way to end the old year and begin the new.

We truly have a new beginning in our bicentennial year: respect for the office of the Presidency has been restored, and the economy is improving.

In my 1975 State of the Union Address, I informed Congress and the Nation that our national problems were increasing at an alarming rate; however, by January of this year, significant progress had been made in finding realistic and workable solutions:

The rate of inflation has been cut almost in half. Over two million more Americans are on the job today than were employed when we reached the bottom of the recession. Almost 800,000 Americans obtained new jobs in January alone. At my insistence, we are getting people back to work without spending billions for inflationary, "make-work" job programs recommended by some members of the Democrat-controlled Congress.

When I took office as President of the United States, my goal was full recovery without inflation. We are well on our way to achieving that goal because we have followed a steady course of reduced taxes, a temporary increase in unemployment compensation, a drastic cut in Federal spending and renewed business confidence to stimulate production and jobs.

As President, I must be concerned with the State of the Union, while you are understandably interested in the State of Oregon. Naturally, we have common concerns, but you have special needs. I believe I know what concerns you, and I hope you will agree with my proposals to help you solve some of Oregon's problems.

We all desire a more healthy economy, but people seldom agree on the proper means to reach this goal. In Oregon, I am sure you will concur that a necessary condition of a healthy economy is freedom from the petty tyranny of massive government regulation.

Oregon farmers know what I mean. We are wasting millions of working hours and billions of consumers' dollars because of bureaucratic red tape. The American farmer, who not only feeds 215 million Americans but also millions worldwide, has shown how much more he can produce without the shackles of government control. I know how important agriculture is to Oregon. When I spoke in January to the American Farm Bureau, I said, "We start this bicentennial year with justifiable pride in our agricultural strength and progress. I pledge to do everything in my power to keep farm income high, and it will be." We must preserve the family farm and family-owned businesses, and I have proposed to Congress estate-tax and inheritance changes so that family businesses and family farms can be handed down from generation to generation without having to be sold to pay taxes.

An indispensable ingredient of a sound economy is a healthy housing and construction industry. In January, I called for additional housing assistance for 500,000 families. I had already authorized subsidized construction for 250,000 new or rehabilitated homes. My administration has lowered interest rates to make more mortgage money available, which should give the housing industry another needed boost. What's more, I have proposed rapid depreciation for new business construction in areas experiencing unemployment over 7 per cent. This program is benefiting the construction industry as it creates productive, permanent, well-paying jobs in the private sector.

I would like to give government back to the people; therefore, I have recommended a five-year extension of revenue sharing to help state and local governments solve problems at home. I want to consolidate 59 separate Federal programs and provide flexible Federal dollar grants to help local education, child nutrition and social agencies. However, those who propose to save billions in taxes by a wholesale shifting of Federal programs to state and local governments are misleading the people. This would inevitably result in reduced services and a crushing rise in state and local taxes.

Americans are no longer dying on the battlefield. We are at peace, and I pledge to work diligently to ensure and maintain accord at home and abroad. In order to accomplish this, our nation must be militarily strong and flexible to meet any potential adversity. That is why I recommend a significant and essential increase in the Defense Budget for fiscal 1977. It provides for real growth in purchasing power, and includes the cost of our all volunteer-forces.

In closing, I'd like to remind you of one of our common goals: we would like life for our children to be better than it has been for us, just as our life has been better than the lives of our fathers and mothers. I know it will be better. I have no doubt that we will see a resurgent and confident America providing leadership and inspiration for people throughout the world. I trust you will give me your support as you vote May 25.

Republican

**RONALD  
REAGAN**

**For  
President  
of the  
United  
States**

Occupation: Columnist and commentator on public affairs.

Education: Graduate of Eureka College, Eureka, Illinois, where he was a leader in student government.

Occupational Background: After college, became a sportscaster for radio station WHO in Des Moines, Iowa. In 1937, signed a contract with Warner Bros. that launched a movie and television career extending into the 1960's. Elected president of the Screen Actor's Guild Union five times and served on its board for 16 years.

Prior Governmental Experience: In 1966, elected Governor of the State of California, winning reelection in 1970.

#### A WINNER!

Ronald Reagan was elected Governor of California in 1966 by a margin of nearly one million votes over the incumbent Democrat. In 1970, he was reelected by a margin of almost 600,000 votes. These landslide victories were accomplished in a state where Democrats outnumbered Republicans by more than three to two.

#### A GREAT GOVERNOR!

Reagan, as chief executive of the nation's largest state, demonstrated outstanding ability to cope with administrative problems. When he came to office in 1967, Reagan was confronted by a state deficit of \$194 million. When he left in 1975, the state had a surplus of \$500 million. That accomplishment wasn't easy, or without its moments of conflict, but it was done in keeping with the pledges Reagan offered when he sought the governorship.

In spite of a growing population he kept the size of state government virtually the same. He enlisted the aid of private citizens to help him find solutions to state problems. He reduced welfare rolls by more than 300,000 — yet increased benefits to the truly needy by an average of 43%. He obtained substantial tax relief for property owners, renters and senior citizens. During his administration, state support of education increased dramatically, making tax relief at the local

level possible. By 1973-74, 45 of the state's 58 counties were able to cut their property tax rates — many for the second year in a row. Under Reagan's leadership, new laws were enacted providing for stiffer penalties against rape, robbery, burglary and drunk driving.

**RONALD REAGAN, OUR NEXT PRESIDENT, SAYS:**

**DETENTE.** "Through détente we have sought peace with our adversaries. We should continue to do so, but must make it plain that we expect a stronger indication that they also seek a lasting peace with us. Too often we act as if a concession on our side — with none by them — is automatically helpful to the process as a whole. Détente will work only if it is a two-way street — something for something."

**FEDERAL GOVERNMENT.** "We can and must reverse the flow of power to Washington; not simply slow it, . . . . What I propose is nothing less than a systematic transfer of authority and resources to the states — a program of creative federalism for America's third century." "The more government we can keep at local levels in local hands, the better off we are and the more freedom we will have."

**DEFENSE.** "A decade ago we had military superiority. Today, we are in danger of being surpassed by a nation that has never made any effort to hide its hostility to everything we stand for. As a nation, we must commit ourselves to spend whatever is necessary to remain strong. To be second is to be last."

**CRIME.** "It does no good to take guns from the law abiding. The most effective gun control is mandatory sentences for those who commit crimes with guns in their possession. When a would-be lawbreaker knows he can kill without facing the ultimate penalty, when he knows that parole or probation may come easy for him, we cannot say we have effective deterrents to increased crime."

**INFLATION.** "The one basic cause of inflation is government spending more than it takes in. When Washington runs in the red, year after year, it cheapens every dollar you earn; it makes a profit on your cost-of-living wage increases by pushing you into higher tax brackets; it borrows in the capital market to cover its deficits, cutting off business and industry from that capital which is needed to fuel our economy and create jobs; it robs your savings of value; and it denies retired people the stability they need and expect for their fixed incomes. The cure: a balanced budget. The federal government must set a timetable, a systematic plan, to balance the budget — and it must stick to it."

**FEDERAL SPENDING.** ". . . Washington is spending a billion dollars every day and goes into debt a billion and a third dollars every week. As a result, real spendable weekly income of the average American worker is lower than it was a decade ago — even though in these 10 years the same worker has increased his productivity 23 per cent. In the words of Jefferson, that is taking from the mouth of labor the bread it has earned."

#### REAGAN DOES WHAT HE SAYS!

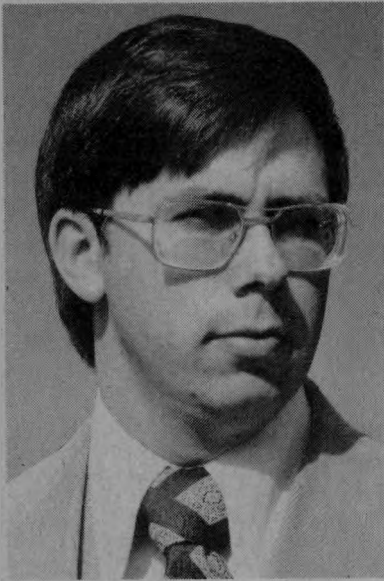

Ronald Reagan is a man of integrity who does not say things just because it is politically advantageous. He means what he says. He was that kind of Governor, and he'll be that kind of President.

**Democrat**  
**DICK GROENER**

**For**  
**Secretary**  
**of State**

DICK GROENER, President Pro Tempore of the Oregon Senate, has served in the Oregon Legislature for 18 years.

During that time he has chaired, or been a member of, just about every standing committee in both House and Senate. He knows government inside and out.

An Oregon native, he attended Oregon City High School and Gallups Island Academy in Boston.

He is a partner in a general insurance agency and lives in Oak Grove. He and his wife, Chloris, have been married 35 years and have three grown sons.

DICK GROENER offers a record of accomplishments that no other candidate for Secretary of State, Democrat or Republican, can match. He is seeking this high office because he is ready.

**DICK GROENER BELIEVES IT TAKES  
TEAMWORK TO GET THINGS DONE**

DICK GROENER believes Oregon's Secretary of State should assume a new leadership role in solving the major problems of the day. He should view himself as part of a team of elected officials with the common goals of building job opportunities, strengthening the state's economy, and creating a new spirit of cooperation among all elements of our society.

During his 18 years in public office, DICK GROENER has taken the lead in pushing through legislation of great benefit to the working men and women of Oregon, the consumers, the taxpayers, the senior citizens—in other words, the people. He had to work as part of a team to achieve those goals, and the great working relationship he has established with Governor Bob Straub's administration will enable him to step into the job without breaking stride.

DICK GROENER can be an effective member of Oregon's leadership team at the outset because he has served his apprenticeship. He has gained a thorough knowledge and understanding of the issues. And he has learned how to get things done—by working together with people.

He won't be the kind of Secretary of State who sits in an ivory tower and tells people what to do, and how to do it. He will be accessible to any citizen who seeks him out—as he has been during the 18 years he has made this pledge to the people of Oregon: "AS LONG AS I HOLD PUBLIC OFFICE, MY DOOR WILL ALWAYS BE OPEN TO ANY PERSON I CAN HELP IN ANY WAY."

**DICK GROENER IS A  
PROBLEM SOLVER FOR PEOPLE**

DICK GROENER receives calls from all over the state—from people who need help in solving their problems and know they'll get a helping hand from the senior Senator from Clackamas County. In this regard, he is truly a Senator for all of Oregon. He will continue to be a leader for all the people.

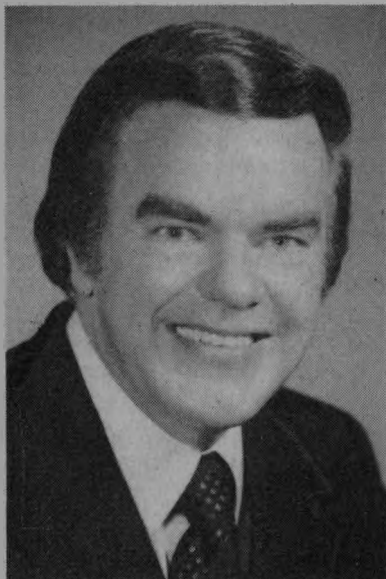

Look at just a few of his accomplishments:

- As Chairman of the Labor Committee, DICK GROENER saw the need for legislation tying Workmen's Compensation and Unemployment benefits to the cost of living. He was the prime mover in gaining passage of these long-overdue measures. He was instrumental in raising widow's benefits, assuring that families of workers killed on the job will be able to stay off welfare and enjoy a decent standard of living.
- Long before "consumer protection" became a battle cry, he raised the issue of hidden interest costs. Today, as a direct result of his vision and determination, the people are served by a law that requires full disclosure of interest rates and costs on all retail instalment purchases. DICK GROENER also was the first Oregon legislator to call for a ceiling on retail and auto financing charges.
- He recognized the need for a Uniform Building Code to assure home buyers of high quality materials and workmanship. At the time, only 16 of Oregon's 36 counties provided any kinds of standards, and those local codes that did exist conflicted with each other. By hosting a series of meetings over 18 months, DICK GROENER was the catalyst in bringing labor, management and government agencies together to hammer out a new statewide code which is now a model for the other 49 states.
- One of his proudest achievements was his successful fight for repeal of the unfair Relative Responsibility Act which for years had saddled low and middle income Oregonians with the burden of supporting indigent relatives.

**DICK GROENER BELIEVES IN  
SPEAKING OUT ON TODAY'S ISSUES**

DICK GROENER believes we must achieve a balance between industrial development and environmental protection: "We must have cooperation now between labor and industry to get our economy moving, but many well-meaning environmentalists seem bent on locking up the resources of America. I'm against smokestacks, but I don't like the endless delays that even a clean industry like Hewlett-Packard is forced to endure. We just can't tolerate delays in some of these projects at a time when 30% of Oregon's construction workers are laid off. We also have to start developing alternative sources of energy before we find ourselves back in the horse and buggy days—without a horse."

**LET'S GET OREGON MOVING—  
WE CAN DO IT TOGETHER WITH GROENER**

Democrat  
**BLAINE  
WHIPPLE**

For  
Secretary  
of State

**BLAINE WHIPPLE . . . A PROFILE**

Oregon State Senator Blaine Whipple isn't afraid to fight red tape and bureaucracy. He's known as the "can do" Senator.

He is Chairman of the Senate Task Force on Public Employees' Retirement, is subcommittee Chairman of the State Government Operations Committee and serves on the Intergovernmental Affairs Committee and the Senate Executive Appointments Committee. Last session, he was Vice Chairman of the Local Government and Elections committee and a member of the Revenue and Transportation committees.

A third term at-large member of the Washington County Intermediate Education District, he has been Board Chairman three times. He is a leader in numerous civic and professional organizations and is completing his eighth year as elected Democratic National Committeeman.

Born in Martin, S. D. Feb. 22, 1930, the Senator earned a master's degree from the University of Oregon and a bachelor's degree from the University of Minnesota. He served in the Navy during the Korean War. He is a successful businessman and president of his own brokerage company. He has been active in business management and is a former newspaper editor and reporter.

Blaine and his wife Ines (Peterson) Whipple live in eastern Washington County. Daughter Judy, a cum laude graduate of Seattle Pacific, is a graduate student and student senator at Gordon Conwell Seminary in South Hamilton, Mass. Son Bob, a ninth grader, is up to his ears in sports and also a student senator. Son Scott finds soccer and wrestling a fun part of his second grade experiences.

**SENATOR BLAINE WHIPPLE GETS THINGS DONE**

- Oregonians now earn interest on property tax reserve payments (SB 269 sponsored by Senator Whipple).
- Oregonians didn't pay a state income tax on their 1974 federal tax rebate (SB 619 sponsored by Senator Whipple, incorporated in HB 2008).
- Oregonians who purchase property by land sale contract now have their rights protected (SB 206 sponsored by Senator Whipple).
- Oregonians have the right to vote for public campaign financing (HB 3008 sponsored by Senator Whipple).

- Oregonians still have access to all public records because Senator Whipple, the first legislator to discover the unconstitutionality of the criminal records law (HB 2579), led the fight to call a special session Sept. 16, 1975 to repeal that law.

**BLAINE WHIPPLE BELIEVES GOVERNMENT SHOULD HELP US OR LEAVE US ALONE**

Senator Blaine Whipple is the kind of fighter Oregonians want in public office. Like you, he is fed up with excuses and halfway solutions from government and believes government should either help us or leave us alone.

Oregonians want accountability from government. They want government to operate effectively. As the state's chief auditor, the Secretary of State can insist on accountability from government. Blaine Whipple will.

Like each of us, Oregon counties and cities are fighting the battle of higher costs and not enough money. Therefore, making your government accountable and getting full measure out of each tax dollar will be the chief goal of Blaine Whipple's service as Secretary of State.

Oregonians are concerned about government by administrative rules, about the increasing tendency of agencies and bureaus to regulate our lives, acting as prosecutor, judge and jury as they administer the very rules they created.

Blaine Whipple joins you in this concern. As Secretary of State, he will work closely with the Governor and the Legislature to make certain that Oregonians affected by proposed administrative rules are listened to before the rules are adopted.

Senator Whipple doesn't fit the labels. He calls them as he sees them. His concern is matching solutions to problems. Getting things done. Accomplishments. That's his strength.

**AN OPEN LETTER TO OREGONIANS FROM SENATOR BLAINE WHIPPLE**

Dear Fellow Oregonians,

The Secretary of State is number two in state government. Since state law places the Secretary of State in direct line of succession to the Governor, you want to elect someone with maturity, judgment, experience, administrative ability and a broad knowledge and genuine history of concern for Oregon's future.

I believe I have those qualifications and I ask for your support.

As the state's chief election officer, I'll dedicate myself to preserving our election rights with full regard for the intent as well as the letter of the election law, free of intrigue of favoritism.

As a member of the State Land Board, I will bring a voice for conservation and preservation to the management of Oregon's resources.

My practical experience as a successful businessman will assure efficient administration of the office, and help me bring accountability into all levels of state government.

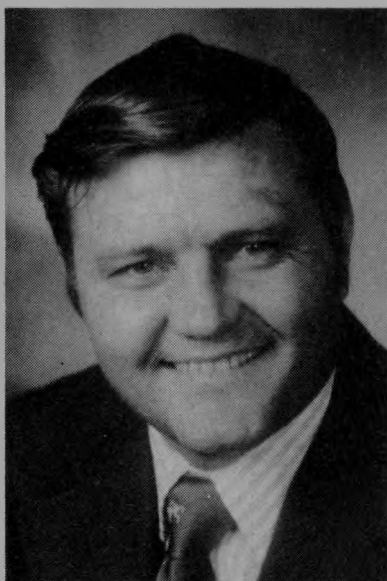

Sincerely,  
Blaine Whipple

# Candidates for State Treasurer

**Democratic Candidates**

**Democrat**  
**MEL GORDON**

**For  
State  
Treasurer**

MEL GORDON, the senior member of the Multnomah County Board of Commissioners, has been elected to that post continuously since 1963.

He also is experienced in government at the state level, having been elected to the Oregon House of Representatives from Multnomah County.

MEL GORDON, as the former owner and operator of Standard Batteries, Inc. and Mel Gordon Tire Company, knows what it means to meet a payroll.

He is a former president of Northwest Battery Manufacturers, and former Oregon Chairman of the Society of Automotive Engineers.

MEL GORDON, a lifelong resident of Portland, attended public schools and Northwest Business College in that city. He served in the Armed Forces, 1942/45.

#### "THERE'S GROWTH AHEAD WITH MEL GORDON"

MEL GORDON has a plan for stimulating the economy and creating new jobs. He calls it the "Oregon Plan," and it's a solid program for helping our state grow stronger financially through solid investments and the stimulation of economic growth and vitally needed new jobs.

He is excited with the challenge provided by the office of Oregon State Treasurer, and with the opportunity of working with Governor Bob Straub, the state's Congressional delegation and local officials in solving our current problems. He knows government leaders at all levels. He works with them constantly, and he has the kind of rapport with them that is needed now, in this time of high unemployment and inflation. He is already part of the team.

#### HIS "OREGON PLAN" WILL CREATE NEW JOBS AND A HEALTHIER ECONOMY

MEL GORDON intends to push a ready-made program for economic development at the local level. That program is the economic development revenue bonding authority extended to county governments by the 1975 session of the Oregon Legislature. Under the enabling legislation, Oregon's counties can issue bonds for revenue-producing facilities in amounts up to five million dollars. The State Treasurer is in

the position of approving the bonding proposals. However, MEL GORDON will do more than just approve proposals—he will actively seek out qualified new industries, and he will listen to local labor, business and civic leaders to learn how best to meet local needs.

#### MEL GORDON'S "OREGON PLAN" IS AN INVESTMENT IN OREGON'S FUTURE

As the watchdog of Oregon's investments, consistently operating under the "prudent man" rule, the State Treasurer must see that we always receive the highest rate of return on our investments.

MEL GORDON wants to put more of that money into building a sound economic future for the people of Oregon. He believes it can be done—and with absolutely no risk. In other words, it won't cost the taxpayers a dime.

Right now, Oregon is investing millions of dollars in certificates of deposit and commercial paper in the eastern financial centers. Two years ago, when eastern banks were short on cash and long on interest, this made sense. Today, interest rates favor investments in Oregon banks—and every dollar deposited with an Oregon bank increases the amount the local bank can loan to local businesses. (The state's money is safely deposited and fully protected while it draws interest, and only the banks run the risks.)

MEL GORDON also believes that we can have a growing economy in our state, and a quality environment as well. He wants to see a closer relationship between economic planning and land use planning.

As one of three members of the State Land Board, MEL GORDON will protect the public interest in the state's land and water resources. But he plans to carefully examine the views of all Oregon citizens whose property is, or has been, impacted by Land Board decisions.

#### MEL GORDON HAS THE EXPERIENCE WE NEED IN STATE GOVERNMENT

His duties at the county level include Board liaison with both the Office of County Management and the Department of Environmental Services.

MEL GORDON has broad experience in investment management, having served for more than a decade as a member of the Multnomah County Public Safety Retirement Board and Employee's Retirement Board.

He is Multnomah County's representative on the Boards of Directors of both the Columbia Region Association of Governments (CRAG) and the Metropolitan Service District (MSD), as well as county liaison with Tri-Met, Port of Portland, Portland Chamber of Commerce, Environmental Quality Commission, Land Conservation and Development Commission (LCDC) and the Portland Development Commission. He was a member of the Governor's Task Force on Transportation, 1972-74.

MEL GORDON is immediate past president of the Association of Oregon Counties. He was national chairman of the Energy and Environment Committee of the National Association of Counties and currently serves on the NAC Board of Directors, as well as the Federal Energy Administration's Environmental Advisory Committee.

Republican  
IRVIN MANN

For  
State  
Treasurer

Occupation: Stockman

Educational Background: Univ. of Ore.—undergraduate and Law School—1936-1942

Occupational Background: U.S. Navy-1942-45; self employed livestock raiser-Wallowa Co.-1946-49; Umatilla Co. 1949-73; Yamhill Co.-1974 to date

Prior Governmental Experience: Sixteen years—4 term legislator; 5 yrs. Port of Umatilla Commissioner; 3 1/2 yrs. Dir. State Dept. of Agric.

The proper purpose of state government is to provide services of value to people that they cannot better provide for themselves.

Government's success or failure depends on its fulfilling THIS function rather than being negative, contentious and restrictive upon the public's normal pursuit of livelihood and growth.

The state treasurer's duties are principally in two areas: administration of state owned lands and investment of public funds.

In the administration of lands, special concern should be for what is going to be done FOR people—land owners and land users—rather than what is going to be done TO them by all-powerful state agencies.

Elected state officials should be visible to the public and responsive to public opinion and not buffered from the affected public by an unresponsive bureaucracy.

The investment of retirement funds and pooled public funds is being carried out strictly in accordance with state law.

Pooled investment of public funds is a valuable help to local property tax payers.

As a guide to state investment policy, the legitimate wishes of Oregon financial institutions CAN be reconciled with the best interests of public employees and local governments. The treasurer must devote full attention to this problem.

JOHN E. SMETS

For  
State  
Treasurer

Occupation: Machinery Manufacturer, Owner of Smets Machinery Co., Lake Oswego

Educational Background: Univ. of Washington 1951 BA in Business Administration

Occupational Background: Corporate and marketing management in wood products field.

Prior Governmental Experience: Present member of the Health Education Advisory Comm. of the Department of Education of the State of Oregon, Chairman of Task Force of Industrial Advisory Comm. of Lake Oswego. Former Councilman at Edmonds, Wash.

John Smets offers the voters of Oregon an opportunity to elect a man with proven business and management experience. This is what the office requires.

John Smets is a hard working successful businessman. He has attained this position through practicing basic American principles of free enterprise and just plain good management techniques.

As State Treasurer, John wants to apply these principles of management to the Treasurer's office. He would initiate a thorough study of the benefits to be derived from a strong emphasis on investment of state funds in the development of new energy sources and in the support of Oregon business and industry. This will help create new jobs and improve the economy of the state.

John Smets is a man with deep and sincere beliefs in the necessity to face the issues and to make the sacrifices needed to cut government costs, reduce bureaucracy, lower and correct our tax structure, and to administer the funds of the State of Oregon in a prudent and businesslike manner.

Smets believes the impact of the Treasurer's decisions on an item by item and day by day basis will reflect ultimately in some form to raise or lower the property taxes of the homeowner and the businessman. This is all the more reason why this office should be occupied by a person with proven financially successful business background.

He knows that all Oregonians are interested in getting the top dollar from any use of state lands administered by the State Land Board on which the Treasurer sits. This is especially important since Oregon lands represent vast natural resources in the geothermal field and other energy potentials.

And as a successful businessman, he knows that Oregonians of all ages have what it takes to help get the Oregon economy back to a climate of good jobs with security and a future. Smets has said, "The national government and big business with New York offices could take a lesson from us in Oregon as we continue to demand fiscal responsibility in our state and local governments."

# Candidates for Attorney General

**Democratic Candidates**

**Democrat**  
**JAMES A.**  
**(JIM) REDDEN**

**For**  
**Attorney**  
**General**

Jim Redden believes that a candidate's personal qualities are as important as his stands on the issues. That is why he wants you to know:

**JIM REDDEN — THE CITIZEN:** Jim Redden was born March 13, 1929. He and his wife Joan have two sons, Jim, 24, and Bill, 20.

An Army veteran, Jim Redden attended Boston University's College of Business Administration, and is a graduate of Boston Law School (L.L.B., J.D.).

**JIM REDDEN — THE PROFESSIONAL:** Jim Redden practiced law in Medford from 1956 until his election as State Treasurer. During that time he also served with distinction as a judge pro tem and was elected to the Oregon State Bar's Board of Governors.

Jim Redden recently opened his Oregon Bar Association records to the public, because he believes in the people's right to know.

**JIM REDDEN — THE COMMUNITY LEADER:** Jim Redden served on the Advisory Commission to the State Insurance Commissioner which drafted Oregon's CONSUMER ORIENTED NO-FAULT INSURANCE LAW. He also served on the Public Employee Relations Board, and as chairman of the Task Force on Collective Bargaining.

**JIM REDDEN — THE LEGISLATOR:** Jim Redden was elected State Representative in 1963, 1965 and 1967. As a legislator, Jim Redden co-authored OREGON'S FAMOUS BEACH BILL, drafted the first legislation to PROTECT THE BATTERED CHILD, led the fight for HOME OWNER PROPERTY TAX RELIEF, and was one of the first to battle for SENSIBLE LAWS TO PROTECT OUR ENVIRONMENT.

Jim Redden served as the Democratic Majority Leader in 1967, and was selected "MOST EFFECTIVE STATE REPRESENTATIVE" by the Capitol Press Corps at the conclusion of the 1967 session.

**JIM REDDEN — THE STATE TREASURER:** Jim Redden was elected State Treasurer by an overwhelming majority of Oregonians in 1972. As your State Treasurer, Jim Redden fought for and won OREGON'S AAA BOND RATING, which

will save \$64 million in interest payments over a 10 year period. He also started the nation's first LOCAL GOVERNMENT INVESTMENT POOL, which earned \$7½ million for local governments last year.

Jim Redden is the only candidate for Attorney General with IN-DEPTH EXPERIENCE IN ALL THREE BRANCHES OF GOVERNMENT. This background makes Jim Redden THE BEST CHOICE FOR ATTORNEY GENERAL.

**JIM REDDEN FOR ATTORNEY GENERAL**  
**THE ONLY DEMOCRAT WITH THE PROGRAM**  
**AND EXPERIENCE TO GET THE JOB DONE.**

The problems facing Oregon's next Attorney General are tough and complex. Crime is rising at a rate close to 20% a year. The cost of utilities and consumer goods continues to skyrocket. Red tape is making state government unresponsive to the people, and costs taxpayers thousands of dollars a year.

Oregon's next Attorney General must have a program to meet these problems. He must be someone who will work for the public interest . . . someone who will place the office of Attorney General above partisan politics.

And Oregon's next Attorney General must have the ability to see his program enacted into law. He must have broad legal experience, a knowledge of the inner-workings of state government, and the ability to work with the Governor and the Legislature. And he must be an administrator who will GET THE JOB DONE.

Jim Redden is the only Democrat for Attorney General with both A PROGRAM TO MEET TODAY'S PROBLEMS, AND THE EXPERIENCE TO MAKE IT WORK. As your Attorney General, Jim Redden will:

**WORK TO REDUCE CRIME** by urging the adoption of a system of swift, sure sentences for convicted criminals . . . with additional penalties for crimes committed with a gun.

**PROTECT THE CONSUMER** and Oregon's honest businessmen and women through fair enforcement of the state's Consumer Code and tough new Anti-Trust Laws.

**CUT GOVERNMENT RED TAPE** by representing the needs and concerns of the people during the governmental decision-making process.

As a lawyer and judge pro tem, Jim Redden earned a reputation for honesty and hard work. His knowledge of the law, and expertise in courtroom procedure, are vital to the Office of Attorney General.

As a legislator, Jim Redden is remembered as a man who listens to all sides of an issue, and then acts. His knowledge of the legislative process will allow him to see his ideas and programs enacted into law. And he knows when government can be helpful . . . and when it should leave you alone.

As State Treasurer, Jim Redden demonstrated the skill needed to run the Attorney General's office. His talents as an administrator will produce the most work for the lowest possible cost.

Jim Redden has a PROGRAM GEARED TO TODAY'S PROBLEMS, the KNOW-HOW TO MAKE IT WORK, and a REPUTATION FOR GETTING THINGS DONE.

**VOTE JIM REDDEN FOR ATTORNEY GENERAL.**  
**HE'LL GET THE JOB DONE.**

**Democrat**  
**DON WILLNER**

**For  
Attorney  
General**

**Occupation:** Practicing lawyer for 25 years. Heads up his own law firm in Portland.

**Education:** Graduate of Harvard College and Harvard Law School.

**Prior Governmental Experience:** State Senator, 1963-73; State Representative, 1957-59; Part-time Circuit Judge, 1973-75. Chairman, Governor's Commission on Youth, 1975.

**DON WILLNER IS A DIFFERENT KIND OF CANDIDATE THAN WE'VE SEEN IN A LONG, LONG TIME.** He believes the Attorney General should protect private citizens as well as he protects the state. As Attorney General, he will be responsive to public needs by making sure that government functions lawfully in the way it treats consumers, small businessmen, farmers, working people — all citizens.

**WILLNER'S THE ONE CANDIDATE WITH THE CREDENTIALS TO BE A GREAT ATTORNEY GENERAL.**

He's the one candidate who can back up what he promises with what he's already delivered for Oregon. He was leading consumer causes long before "consumer protection" became an everyday phrase. For years he's been a well-known and well-respected attorney in suits for people against big business and big government. For years he's been gathering the high-level legal experience that the role of an effective Attorney General demands.

**A GREAT ATTORNEY GENERAL MUST BE A SUPERIOR ATTORNEY.** Don Willner's been an outstanding attorney in the public interest for 25 years.

- The Attorney General heads up the largest law firm in the state — the Department of Justice. Don Willner is the only Democratic candidate with long and hard experience as a legal administrator. He is the only candidate experienced as head of a law firm.
- The Attorney General must author legal opinions. Don Willner is the only Democratic candidate who has written legal opinions as a circuit court judge pro tem and as a law review articles author.

- The Attorney General takes appeals cases before the highest courts. Don Willner has had significantly greater experience than any other Democratic candidate in taking cases before Oregon and United States appellate courts.

**SHOULD THE ATTORNEY GENERAL BE AN ADVOCATE FOR PUBLIC INTERESTS? DON WILLNER BELIEVES HE SHOULD.** As private citizen and state legislator, he has been a leader in the public interest for over 20 years.

- In **CONSUMER PROTECTION**, Don Willner authored Oregon's first law against deceptive trade practices in 1965.

He wrote the laws protecting citizens from bothersome telephone solicitation and requiring disclosures in retail installment sales.

He is past national president of the 30 million-strong Consumer Federation of America.

- In the area of **CITIZENS' RIGHTS**, Don Willner has championed the right of privacy against computer data banks. He led the fight against wire tapping in the 1971 Oregon Senate. For 20 years he has been a major voice in meaningful civil rights activity.

- In **ENVIRONMENTAL ACTION**, Don Willner authored the laws establishing the Oregon Scenic Rivers and the Oregon Recreational Trails systems.

He is a leader in the fight for the rights of Oregon's sports fishermen.

**THE ATTORNEY GENERAL AS "THE PEOPLE'S LAWYER" — WHAT THIS MEANS TO YOU:** It means that Don Willner's office will be open and accessible to people in all walks of life, in all levels of government. It means he will get in the people's interest above all else.

- He will be the first Attorney General to seriously implement the office's function as head of the Consumer Protection Division. He will give citizens a greater role in the utility rate-making process. He will protect and educate consumers without letting government limit your freedom of choice.
- He will take anti-trust action to protect the small businessman and to enhance the free enterprise system.
- He will see to it that government agencies act lawfully in the way they treat private citizens.

**NO OTHER OREGON LEADER IS SO QUALIFIED TO BE ATTORNEY GENERAL.** His public service and experience in a broad cross-section of activities is unparalleled. Look at his record of leadership: National President, Consumer Federation of America; President, Northwest Regional Council of Boys Clubs of America; Member, National Panel of American Arbitration Association; Director, National Institute of Consumer Justice; Chairman, Governor's Commission on Youth; Moderator, KGW-TV "Viewpoint"; Director, Portland Chamber of Commerce. He has received awards from the Oregon Division of the Izaak Walton League; the Oregon Wildlife Federation; the Oregon Recreational Trails Commission; the American Veterans Committee; the Oregon Consumer League; and Boys Clubs of America.

Don and Pat Willner have four daughters. He takes time to enjoy outdoor activities like tennis, river running, mountain climbing and hiking. He is a veteran of World War II.

General

Occupation: Attorney at Law

Education: Graduate of Dayton high school. B.A. in Economics, Willamette U. Graduated cum laude with Dr. of Jurisprudence degree from Willamette. Winner of Bancroft-Whitney Award for outstanding achievement in study of Criminal Law while at Willamette.

Occupational background: Member, Oregon State Bar and American Bar Assn. Admitted to practice before the Oregon Supreme Court, and U.S. District Court of Oregon.

Prior Governmental Experience: State Representative, four years. Committee assignments: Select Comm. on Subdivision & Consumer Protection, Judiciary, Agriculture & Natural Resources, Human Resources. Asst. to Cong. Wendell Wyatt, Summer 1967, and Sen. Mark Hatfield, 1967-68.

Personal: Married to Mary Hadlock and father of one son. Member Rotary Club and active in church work. Mary is a teacher of the deaf and has taught at Oregon State School for the Deaf.

#### STAN BUNN—THE STRONG ONE—FOR ATTORNEY GENERAL

Rarely has a man of greater talent and integrity become a candidate for the position of Attorney General—the Chief Criminal Justice Officer of Oregon and a person whose strength, actions and decisions have such broad impact on the citizens of this state.

An exceptional student of the law, he has coupled this knowledge with a significant background gained in both Washington, D.C. and in the State Legislature. Stan Bunn has demonstrated through the years that he has the training and background for the job as well as a refreshing willingness to be firm and decisive as well as fair. He is direct in his answers and has the ability to clearly state a position. Above all, he is a man of action, strength and integrity.

#### STAN BUNN'S VIEW OF GOVERNMENT

- **Credibility**—"Two overriding issues today are credibility in government and getting government to respond to the needs of the people. I believe there is no excuse for not conducting the business of the people in an open and forthright manner. As Attorney General I would open the office to the public at least once a week as a means of learning about what the people are truly concerned."

- **Red Tape**—"Government must be reminded that it works for the citizens and not for the bureaucracy. A vital activity of the Attorney General's office is to advise state agencies and to determine that the agencies' rule-making follow legislative intent."
- **Consumer Protection**—"The law says simply and clearly that business should not lie to the consumer. As Attorney General, I would vigorously enforce that law."
- **Anti-Trust**—"Our anti-trust division should concentrate its limited resources in those areas uniquely monopolistic in Oregon and not tag after the Federal Government, following its lead."

#### EXCERPT FROM A 1976 SPEECH BY STAN BUNN

While I am a candidate for Attorney General, there are two issues which I believe every candidate for public office must face. It does not matter whether that person is a Republican, Democrat or Independent.

The two issues that you, the voters, must ask each candidate for his or her views on are: (1) credibility in government; and (2) responsiveness in government. By credibility in government I mean that we must elect to public office only those people who are willing and ready to tell us clearly and simply how they stand on the issues . . . without trying to skirt the issues . . . dodge the tough questions . . . or other wise disguise where they stand.

I believe that candidates must forthrightly tell the people where they stand and explain their positions.

" . . . EQUALLY IMPORTANT . . . DO THEY DO WHAT THEY TOLD US THEY WOULD DO?"

Even this is not the total answer. Equally important to you is to know that when they go to Salem or to Washington, D.C. . . . that they will do what they told us they were going to do.

A major problem today are candidates who say one thing in Eastern Oregon . . . or in Central Oregon . . . or in the Willamette Valley and then yet another thing when they go to Salem or to Washington, D.C. I believe that we deserve . . . and must have the same response in every area and at all times.

"LOOK AT WHAT I TOLD MY CONSTITUENTS . . . AND LOOK AT THE RECORD."

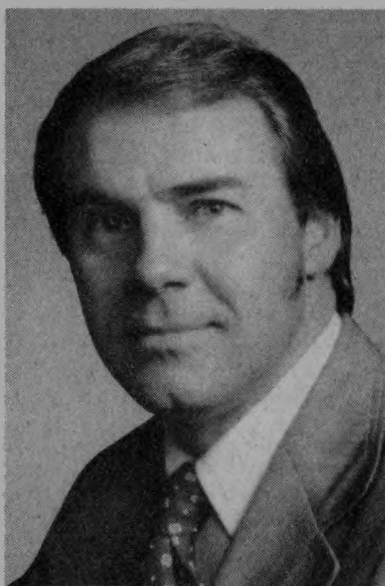

It would be my hope that you would have an opportunity to look at what I told my constituents in the campaigns of 1972 and 1974 when I was a candidate for the State Legislature . . . and then look at my record to see that I actually did what I said I would do and voted as I indicated I would. That . . . to me . . . is the kind of credibility that the voters must ask of every candidate . . . Democrat, Republican or Independent.

" . . . THE PEOPLE ARE NOT GETTING THE RESULTS THEY WANT"

The question of responsiveness in government is also of vital importance to everyone. During my two terms in the Legislature, it seemed to me that no issue concerned the people more than their feeling that the Federal government and the State government through their agencies were simply not getting results and not responding to the needs of their citizens.

This concern cut across all philosophic lines . . . conservative . . . liberal and moderate. It cut across party lines as well . . . and was shared by young and old.

This concern must be answered now! Those in government must understand that the patience of the people is at an end. They must understand that honest people trying hard to live productive lives and to care for the needs of their families are concerned as they have not been for many years. I would like to do my part to bring about the changes that are needed and will pledge to you that my answers are the same wherever I go and I will make no promises which seem impossible of fulfillment.

#### JIM DURHAM HAS BEEN TESTED

As Deputy Attorney General, Oregon's number two legal officer, Jim Durham has been responsible for administration of the Department of Justice since 1971. He has personally participated in working out solutions to most of the state's problems and served as liaison between the Attorney General's office and the Governor. He has gained experience for the Attorney General's office which no other type of legal practice makes possible. Jim Durham has been decisive. He has been practical. And his record of performance shows his deep conviction to advance the interests of Oregon and its people. Jim Durham's proven leadership and professional capability is responsible for major achievements in consumer protection and anti-trust enforcement. He embraces the philosophy that action, not rhetoric, gets things done. This is how Jim Durham has operated in every job he has undertaken.

#### JIM DURHAM IS TRUSTED

In 1975, former Governor Tom McCall wrote, "There was no more valuable contributor to the McCall administration than Jim Durham. Your sagacity was unflinching—even beyond your soundness as a lawyer. You are unstoppable—and deservedly so."

And Lee Johnson, the Attorney General, said "Jim Durham's keen mind, flexibility and integrity have contributed beyond measure to the success of our efforts in the Attorney General's office."

Jim Durham is indeed trusted—and respected. He has earned Lee Johnson's endorsement as his successor.

Jim Durham believes Oregonians want and deserve an Attorney General with the integrity to give sound legal advice on controversial political questions. He will follow his conscience and call the shots as he sees them. He believes he is ultimately responsible to the people of Oregon for the performance of his office and he will not fail in that trust.

#### JIM DURHAM IS TOUGH

Let's get it done. That's the attitude Jim Durham brings to the Attorney General's office. Performance, not promises; action, not words; these will keynote Jim Durham's administration of the Attorney General's office.

In short, Jim Durham is committed to effective government, to responsive government, to an Attorney General's office that helps protect and expand the opportunities so unique to the Oregon way of life. When it comes to that commitment, Jim Durham is tough.

Am an Independent (Abe Lincoln) Republican who likes to tell it like it is and hear it like it is.

I am proud to be an Oregonian and an American.

I am grateful for the wonderful heritage I share with others in a land;

Where all men are created equal. Given equal political rights and given equal opportunity.

Where the highest office attainable is that of AMERICAN CITIZEN.

Where men may serve but never govern.

Where life, liberty and the pursuit of happiness are unalienable.

Where private property is secure as is the right to protect it.

Where a "SPIRITUAL CIVILIZATION" that says IN GOD WE TRUST is still a self evident truth.

Where there is yet a realization that GOD GOVERNS IN THE AFFAIRS OF MEN and EXCEPT THE LORD BUILD THE HOUSE, THEY LABOR IN VAIN THAT BUILD IT has a profound meaning,

And, Where it is yet possible to reach a higher logic, achieve a higher reason, develop a new consciousness and awaken the individual potential that is within all of us.

To again live by what we know to be true, just and valid is the challenge we all face.

**For**  
**Attorney**  
**General**

Tuck Wilson was born in the East March 31, 1939 and came to Oregon as a young man. He graduated from Lewis & Clark College in 1963 and Northwestern School of Law in 1967. During Law School he worked as a law clerk interviewing witnesses and doing legal research.

After being admitted to the Oregon State Bar in 1967, he practiced law in Portland for seven years. In 1974 he was appointed Oregon's Assistant Secretary of State. He resigned in December, 1975, to seek the office of Attorney General.

His wife Janice is a Vice-President of the First National Bank of Oregon, in charge of the Affirmative Action program. They live in southeast Portland with their son Channing. An Army paratrooper for three years, Wilson is an avid pilot and owner of a 1948 Stinson airplane.

**TUCK WILSON: EXPERIENCED GOVERNMENT ADMINISTRATOR**

In October 1974, Tuck Wilson was tapped to be deputy to Secretary of State Clay Myers. In that capacity he had responsibility for supervising and coordinating the elections, auditing, public record and Land Board duties of the office.

**TUCK WILSON: ACTIVE REPUBLICAN**

Since 1960 Wilson has held various party positions and aided Republican candidates for local, state and federal office.

"He's had considerable political organizing experience and has obtained results."

**THE BEND BULLETIN**  
December 12, 1975

**TUCK WILSON: EXPERIENCED ATTORNEY**

"A bright, young and politically savvy lawyer."

**THE OREGON STATESMAN**  
November 12, 1975

He founded his own law firm shortly after graduating from law school. His interest in politics led to involvement in a series of campaigns and eventually to his appointment as Assistant Secretary of State.

In 1973 he provided leadership for legislation clarifying public employee collective bargaining rights and responsibilities. He has also demonstrated legal know-how on committees like these:

- Chairman, Oregon State Bar Committee on Labor Law
- Author, Continuing Legal Education articles
- Member, CRAG Criminal Justice Advisory Committee
- Ad Hoc Member, State Law Enforcement Council

**TUCK WILSON: A COMMON SENSE CANDIDATE**

In eight years under Lee Johnson, the office of Attorney General has gained immeasurably in stature and influence. The office is well-managed now; Tuck will continue to manage it well, and retain the qualified people Lee has attracted to office.

Wilson faces tough problems with common sense.

**NON-PARTISAN ATTORNEY GENERAL NEEDED**

Tuck Wilson would seek legislation making the Attorney General non-partisan, with a two term limit.

"The attorney general is a counselor to elected officials of both parties, and an arbiter of disputes as to the interpretation of our statutes and constitution. In these roles, the attorney general must function free of the appearance of political partisanship."

**HANDGUN REGULATION**

Tuck Wilson courageously approaches the burgeoning problem of handguns, 30 to 40 million of which are in circulation now, with over 2.5 million more being sold each year. Their number correlates directly to their use in crime, accidents and suicide.

Wilson does not propose banning handguns. But he does advocate:

- Prohibiting the sale of "Saturday Night Specials."
- Licensing of handgun owners and the registration of their weapons
- Granting exclusive authority to issue concealed handgun permits to the state police.
- Making violations of handgun laws a felony, subject to mandatory prison terms.

"There is a lot to what the candidate says, and what he wants to do. There are some 30 to 40 million handguns already circulating in America, and in our opinion, meaningful controls are necessary now."

**COOS BAY WORLD**  
December 4, 1975

"Wilson thinks the state will have to go one step further to insure some good from the registration of handguns. He admits that the registration will work only when the judiciary has authority to prescribe mandatory prison terms for felonies committed while armed. Though some see Wilson as a Don Quixote, his tough stand on a controversial subject is a fresh wind blowing in the stagnant political climate. BMcG."

Commentary "Young Candidate no Don Quixote"  
**OREGON CITY ENTERPRISE COURIER**  
February 23, 1976

**SENTENCING CRIMINALS**

Tuck Wilson would seek to eliminate the growing disparity between the sentence a criminal receives and time actually served. Wilson believes judges should have the power to prescribe terms during which the defendant will not be eligible for parole.

**EXPANSION OF DETENTION FACILITIES**

Overcrowding of existing detention facilities is a factor influencing early parole. Many local jails are understaffed and in poor condition.

Tuck Wilson supports the state development of multi-purpose regional facilities that would supplant the present multi-layered system, and add to our detention capabilities.

Nonpartisan  
**BERKELEY (BUD)  
 LENT**

**For Judge  
 of the  
 Supreme  
 Court,  
 Position No. 2**

Occupation: Oregon Circuit Judge.

Educational Background: Lents Elementary, Franklin High.  
 Colleges: Reed, Occidental, Willamette University Law School.

Occupational Background: sawmill, railroad, docks, editor, lawyer.

Prior Governmental Experience: Bonneville Power Admin. lawyer; member Oregon State Legislature (over 10 years in House and Senate).

Ours is a government of laws, not men. In the last few years Americans have become acutely aware that they must be very careful in selecting which men and women will make the laws, enforce them and interpret them—and do so without favoritism of any kind.

Americans have had enough injustice!

Berkeley Lent spent time getting ready to be a judge. As a legislator he was a leader in fights to help average Oregonians—against a sales tax and the infamous raid on the veterans' home loan fund, for lower property taxes by increasing state aid to schools, for more just and humane treatment of injured and unemployed workmen, for better safety laws for your protection.

His nickname is "Bud." He is not a stuffed shirt; his closest friends today are the same ones he's had for years. Before he became a lawyer in 1950 he worked at the kinds of hard jobs described above. He is a World War II navy combat veteran, a member of V.F.W. Post No. 1442 and B.P.O.E. Lodge No. 142.

What should the taxpayers of Oregon expect from judges in return for their salaries? Surely, they have a right to expect a high degree of competence, fairness, judicial temperament and diligence or productivity. The other candidates for this position are Judge Shirley Field, Multnomah County District Court (a court of inferior jurisdiction) and Judge Jason Lee of the Court of Appeals in Salem. Comparisons seem in order.

As between Field on the one hand and Lent on the other, consider: A few months ago, "The Oregonian" published an evaluation of Multnomah County judges based upon a survey

by the newspaper of those lawyers who regularly appear in the courts and are in the best position to "judge the judges." In the four categories above listed (competence, fairness, temperament and diligence) the trial lawyers rated Judge Field 11th (last) in each and every category among the eleven district court judges. Judge Lent (among the eighteen circuit court judges) "scored in the top 25 per cent of the field in all categories" and at the top in the fairness category.

As between Lee on the one hand and Lent on the other, consider: In 1975 Judge Lee wrote a mere 25 of the Court of Appeals' opinions while the other judges of that court averaged 84.8 opinions each. Is Lee productive? Is the taxpayer receiving his money's worth? On the other hand, for the last year for which records were kept for all 65 state circuit judges Judge Lent ranked in the top eight in the number of cases tried; seven-eighths of the circuit judges tried fewer cases than he did.

Also, Judge Lee's judicial competence has been questioned by the press as well as lawyers and judges. The survey mentioned above shows lawyers find Judge Lent highly competent. Lent's legal ability has long been recognized by the press. In 1968, The Oregonian: "... talented attorney..." The Oregon Journal: "... fine legal mind and general legislative talent..."

In 1974 Judge Lent was recommended for the Supreme Court by the Salem "Capital Journal" and "The Oregon Journal." The Capital Journal: "As a legislator Lent was vigorous and decisive. That's what he is now as a circuit judge. He works hard and fast. He's known for integrity." The Oregon Journal: "... the candidacy of Judge Lent offers an opportunity for providing the Supreme Court with a vigorous mind of above average legal ability..." Judge Lent is expected to earn substantial newspaper endorsement in this election.

Judge Lent was raised in the Lents District of southeast Portland which is named for his pioneer great grandfather, the first settler in the area, who donated land for the first Lents school. Coming from this district of working people, Lent during his elective career has had the strong support of organized labor.

A Supreme Court justice should be a scholar. In law school Judge Lent was an associate editor of the Willamette Series of Legal Handbooks. For years he was an associate editor of the American Trial Lawyers' Journal. He has authored articles for law reviews and countless papers to continue the legal education of practicing lawyers.

He has been active in Bar Association matters: President of the Western Trial Lawyers' Association, vice-president of the Multnomah Bar Association, chairman of the State Bar's Committee on Civil Rights.

In early March, Judge Lent volunteered to make his confidential record kept by the State Bar open for inspection and challenged all other lawyer candidates for public office to do the same.

Judges must work harder to ensure fairer treatment of every person and to guarantee that no person is favored before the law. To sit in judgment, impartially, takes a balanced and experienced jurist. Judge Berkeley Lent is just that. No more, no less. He merits your vote for election to Oregon's Supreme Court.

The Oregon Court of Appeals, created in 1969, was given jurisdiction of most appeals from the Circuit Courts and from orders of state administrative agencies. Litigants can petition the state Supreme Court for review, but review is denied in 90% of the cases.

The Court of Appeals has, in such cases, become a court of last resort, emphasizing the importance of the right of the people to have a choice in the election of judges. Unlike most state offices, the vast majority of judgeships are filled as political appointments, — the method by which the incumbent originally became a judge of the Court of Appeals.

The Oregon Journal on March 4, 1976, reported that certain judges of the Court of Appeals, in an unprecedented interview, publicly criticized the competency of one of its members, bringing to light a state of extreme dissention in this important judicial body.

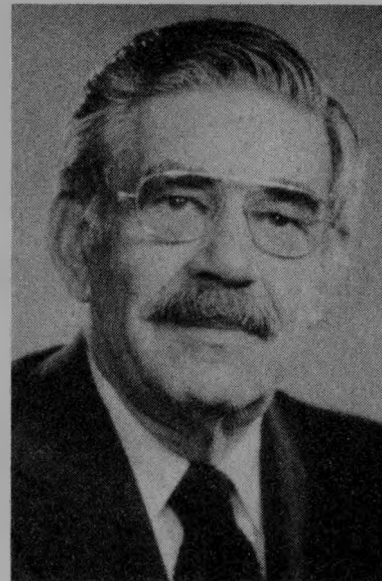

As a voter, before you cast your ballot, ask yourself these questions:

1. Why is there dissention on this court?
2. Why would these judges air their grievances publicly?
3. Can a court torn by such dissention properly render justice to litigants?
4. Why, of 408 opinions by the Court of Appeals in 1975, have 301 litigants sought review by the Supreme Court of Oregon?

If answers to these questions give serious doubt as to the stability of the Court of Appeals under the six year leadership of the present chief judge, then you as a voter should resolve that difficulty by replacing the incumbent.

Rod Kitson has the ability, experience and dedication, if elected to the Court of Appeals, to accomplish fairness and justice, no matter how much hard work is necessary, and to write opinions in a way to demonstrate that his desire for justice cannot be satisfied until he grasps the facts, and then confronts the issues forthrightly, fairly, and with judicial honesty and humility.

I am Chief Judge of the Oregon Court of Appeals, having been appointed to the court in 1969 and elected to the court in 1970.

I was born in Portland on December 26, 1915, and attended grade and high schools there. I received my law degree from the Northwestern School of Law of Lewis & Clark College.

I served in the United States Army for almost five years during World War II. From 1946 until 1959 I practiced law in Portland. For nine years during that period I was also a member of the Portland School Board, an unpaid position, and served two terms as Chairman of the School Board.

From 1959 to 1966 I was a circuit court judge in Multnomah County. For ten months during that period of time I sat as a judge of the Oregon Supreme Court.

When I was appointed to the Court of Appeals in 1969 I was elected Chief Judge by the other members of the court and continue to serve as Chief Judge.

I am a member of the Urban League, the American Red Cross, the Oregon Historical Society and other civic organizations. In 1963 and 1964 I served as Chairman of the Portland School Board's Committee on Race and Education.

Although the number of cases has almost tripled in five years, the Court of Appeals has no backlog of cases awaiting hearing. We decide the cases promptly and do our best to decide them fairly. If re-elected to the Court of Appeals I will do all I can to maintain that situation.

**Democratic Candidate**

**AL ULLMAN**

**For  
Representative  
in Congress**

**Second  
Congressional  
District**

Occupation: Member of Congress

Educational Background: A.B., Whitman College; M.A., Columbia University

Occupational Background: Teacher; Real Estate developer.

Prior Governmental Experience: Congressman representing Oregon's 2nd District since 1957. Chairman, House Ways and Means Committee; Co-Chairman, Joint Committee on Internal Revenue Taxation; Chairman, House Budget Committee, 1974; Co-Chairman, Joint Study Committee on Budget, 1973; former member, House Interior Committee, Advisory Commission on Intergovernmental Relations.

Not long ago Al Ullman was a freshman congressman from Baker. Now he's chairman of the Ways and Means Committee in the U.S. House of Representatives—but he's still from Baker. He cares about Oregon and its people.

Al knows that titles and labels don't mean that much in Oregon. It's what you do that counts. Al Ullman has done a lot.

He led the way to today's laws on pensions and trade. He fought a lonely battle for a way to control government spending. He won, and the congressional budget system was born.

When the economy went sour in 1974 and 1975, it was Al Ullman's bill that cut taxes and gave the country needed jobs and new confidence. Too many people in Oregon are still out of work. Too many can't keep up with prices. But these problems won't be solved with slogans. Al is working to find the real solutions.

He is one of the toughest watchdogs of Social Security. And he has drafted a national health plan that won't be run from Washington and won't break the federal bank.

Few men better understand the Oregon concept of balanced growth than Al Ullman. Over the years, he has helped the farmer create thousands of acres of arable land. He's worked for rural development, sound timber management and resource research. He stands behind those water and sewer grant programs that are a basis for industrial growth in all areas of the state.

It was Al who wrote much of the law that preserves Hells Canyon in its natural state. He was a major force in setting up Lava Lands Interpretive Area, and protecting the John Day Fossil Beds and the Klamath Indian Forest. Before that, he helped to establish the Minam Wilderness and to guarantee funding for the Willamette Greenway.

Al Knows these things are important to people in Oregon. He cares enough to do something about them.

Let's keep Al Ullman in Congress.

The Wolfer family came to our legislative district five generations ago as farmers in the historic Aurora Colony. Curt Wolfer was born near Silverton and raised on a farm.

He completed his schooling at Oregon State University in International Business. In 1965 Curt went to work for an investment company. He is now owner and manager of GLC Advisors Ltd. The firm is a registered investment adviser and a member of the Chamber of Commerce. Curt, his wife Conda and their two-year-old son Christopher live in Silverton.

In 1972 and 1974 Curt was elected to the House of Representatives and in 1975 took time from his business to be Vice Chairman of the Labor and Business Affairs Committee. He also served on the Local Government and Urban Affairs Committee.

Between legislative sessions, Curt Wolfer serves as an alternate on the Trade and Economic Development Committee and on the Judiciary Committee.

**INTEREST ON RESERVE FUNDS** In 1975, Curt Wolfer sponsored and helped pass a bill to require **INTEREST TO BE PAID ON NEW HOME MORTGAGE RESERVE ACCOUNTS**. Financial institutions have required in their mortgages that property taxes be paid into a reserve account, but paid no interest on the money, although the homeowner's money would not be used for months to pay the taxes.

**NATURAL RESOURCES** In 1973 Curt Wolfer was one of the **SPONSORS OF THE 50-MILE FISH CONSERVATION ZONE** off the Oregon coast. Curt helped over-ride the Governor's veto to help protect Oregon's offshore fisheries. This action by the State of Oregon helped prompt the 1976 U.S. Congress into passing a 200-mile fishing limit.

**VOTE ON TAX INCREASE** In 1975 Curt Wolfer **OPPOSED THE 14% INCREASE IN THE STATE GASOLINE TAX AND THE 27% INCREASE IN THE WEIGHT/MILE TAX** (which is already the highest in the nation). The Legislature passed the measure. Curt sponsored the referendum petition which stopped the taxes from increasing until the people vote on the measure in November. **Prior Governmental Experience: 15 years total work experience in various county offices.**

Loyd Green is a long time rural resident. He knows the problems that small towns and rural areas face. He's been active in church groups (Clarkes United Methodist Church), community groups (Grange, Elks), and in earning an honest living.

Loyd Green will take to Salem the experience, maturity, and knowledge we know we need. He will make only two commitments to District 28 residents: The commitment to listen, and the commitment to work hard. That's why we need him.

Loyd Green says:

"It's time to take positive steps toward solving the problems Oregon is facing and will be facing."

"That means that the State Legislature cannot continue to increase Oregon's budget by 41 percent every two years.

"That means that back-door taxes termed by the 1975 legislature as tax reform cannot continue to increase every two years by 1/3 billion dollars.

"What it does mean is that government must learn to live within its budget as you and I, as average citizens, must do.

"What it does mean is that the philosophy of government must be returned to its original meaning: A servant of the people, not the people's master."

That's why we need Loyd Green.

State  
Representative  
Twenty-ninth

RAY KULBACK, Democrat, 58, is currently in a retired status. He was formerly an insurance agent with Travelers Insurance Co. and the Independent Order of Foresters (a fraternal organization). Prior to that he was a skilled machinist for 18 years; his last job in this field was with Hughes Aircraft Company. Preceding his years as a machinist he was a photoengraver for Milprint, Inc., a national printing firm located in Milwaukee, Wisconsin, where he was born and raised.

RAY KULBACK attended South Division and Boys' Technical High Schools in Milwaukee where he learned the machinist trade and studied commercial art. After high school he studied journalism at the Milwaukee Vocational School. He also successfully completed the insurance course necessary for licensing as an agent.

RAY KULBACK is not now and never has been on the public payroll except for military pay. He has been in non-paying citizen activities for years. He is currently a Democratic precinct committeeman. He is active in the Yamhill County Democratic Party and is chairman of the Senior Citizens Committee. He was recently elected as delegate to the State Democratic Pre-primary Convention. In Milwaukee he was active in labor union affairs for approximately ten years and served as president of Local 356, United Paperworkers of America.

RAY KULBACK believes that the public utilities commission should be restructured in favor of the consumer. He feels that a three-person public utilities commission, elected by the people, would work toward that end.

RAY KULBACK also believes that a source of income, different from the increasingly-burdensome property tax, must be found for state school support. Property taxes hurt everyone, but especially the elderly living on fixed incomes.

RAY KULBACK, Democrat, says, "The Watergate investigation proved that people should be put back into government so that government can once more return to the people."

RAY KULBACK lives with his wife, Shirley, at Rt. 1, Box 23, Dayton. He has three grown children, two living in Yamhill County. He invites you to visit or call him at 864-3388 if you'd like to discuss the important issues of this campaign.

**Prior Governmental Experience:** Past member of the Aumsville School Board

Chuck Baker has a feel for your problems having worked and lived among you all his life. He was born in Salem and has lived with his wife Margie and six boys near Aumsville for the past 15 years.

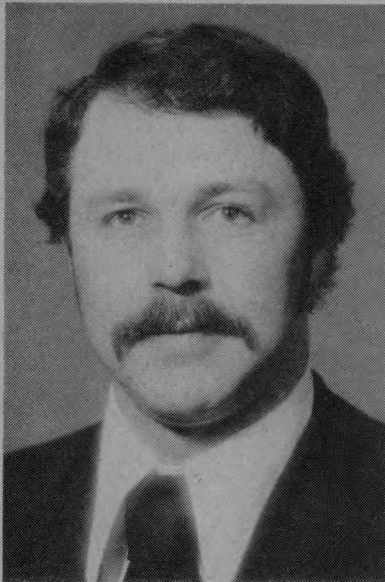

His work experiences have put him in close relationship with you. He has taught or been principal at Salem, Fruitland, Detroit, Scio and Grand Prairie with recent substitute teaching at Aumsville, Cascade and Jefferson. As Director of the Santiam Girl Scout Council he has worked closely with young women and adults in six counties including Marion and Linn. Chuck's most recent occupation is the culmination of a long dream; a 300 acre family partnership row crop farm near the Wheatland Ferry.

Cited as reasons for running were the need to recognize the rights of women; support the least considered minority in the state—the farmer; critically examine higher than inflation costs of medical care, insurance, and utilities; cut red tape and unnecessary government involvement in our lives to a MINIMUM with a resulting savings in TAXES; and to closely look at zoning and the Willamette River Greenway program.

Chuck doesn't claim to have all the answers but he feels that government should remain in the hands of common people and that we all should strive for a higher public morality where individuals look beyond their private interests.

## Republican Candidates

**Republican**  
**VERN W. MILLER**

**For  
State  
Representative**  
**Thirty-first  
District**

If something needs to be done, Dr. Vern Miller will do it. He is a man of deep integrity, purpose, spirit and action—evidenced in his lifelong private profession as a physician and surgeon, as well as in his lifetime public service as a leader in community & governmental affairs.

Born in Linn County, Vern attended public schools in the Aumsville-Turner area and showed his remarkable determination at an early age by graduating from the University of Oregon & its medical school during depression times, working his own way through a good bit of it in logging and a wide variety of other jobs.

Vern interned at Letterman General Hospital in San Francisco and then embarked on his medical career in Salem while continuing post-graduate studies to earn membership in the American College of Surgeons. During World War II, Vern spent six years in the Army Medical Corps, with Oregon's famed 41st Division in South Pacific combat zones and Army hospitals. He returned home in 1946 as a Lt. Col. and, with typical energy, immediately plunged headlong into a wide range of community activities.

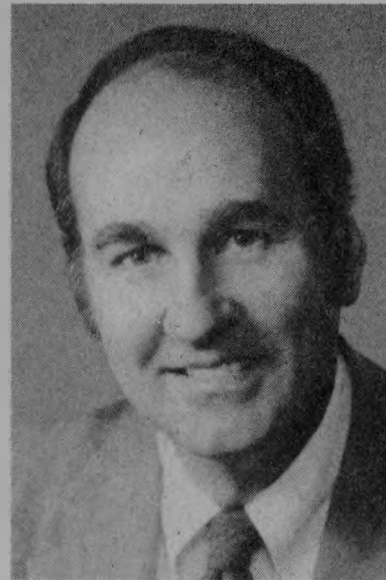

Dr. Miller was appointed as an alderman in 1958 and was elected Mayor in 1965. When he stepped down in 1972, he had served our city longer than anyone else in its history—a total of 14 years—all without remuneration. Providing, according to local tributes, honest, open sensible city government and "unsurpassed leadership during the critical period of our greatest urban growth." During this same period, Vern Miller also served as chairman of the Mid-Willamette Valley Council of Government, president of the League of Oregon Cities and member of the executive committee of the National League of Cities where he served as an impressive spokesman for all smaller U.S. city problems.

Awards? Here are a few. 1956 Marion-Polk County Doctor of the Year. 1972 OMA Doctor-Citizen of the Year. Salem First Citizen in 1972. 1973 Mission Mill Leadership Award.

But Vern doesn't like to dwell in the past. It's the future that counts with him and what he hopes to do to renew public trust in government so we can get on with the job of building an even better Oregon for upcoming generations. In his own words, "We must be able to generate enough confidence to get people to work TOGETHER to make progress. Government exists to provide essential services to citizens. People, also, must make contributions of their talents to provide programs in the best public interest in PUBLIC HEALTH & SAFETY, BUSINESS & JOBS, and PUBLIC EDUCATION."

Dr. Vern Miller is an indefatigable man who believes you can do anything you make up your mind to do. We think he's got a lot to give. We know we've got a lot to gain. That's why we strongly urge you to elect Vern Miller State Representative!

**AL RIEBEL IS A CONCERNED CITIZEN . . .  
NOT A PROFESSIONAL POLITICIAN**

Here is a truly concerned citizen who shares your fears about the problems being created for all people by expanding government . . . inflation . . . and the growing tax bill which hits hard at both working people and those retired on fixed incomes.

Al Riebel is a new voice . . . a young family man with fresh ideas and roots deep in Salem. He shares your concern about where the Legislature is taking us and wants to be part of the change which will bring government closer to the people. A man of integrity, he will work for all of the people in his district, not just a select few.

Like many of you, he is weary of the "business as usual" attitude which is seen in far too many public officials. Al Riebel believes that vigorous efforts must be made to change attitudes and to cut down on both the cost of government and the size of government. At the same time he is concerned about the manner in which we are all losing our individual freedom through ever-increasing regulation and interference of government in our everyday lives.

A practical man, Al Riebel is a native Oregonian who understands and appreciates the concern we all have for protecting Oregon's liveability. But he believes we must protect jobs as well as the environment and that beefing up Oregon's economy is a priority item.

WARREN THOMPSON is concerned about the future of Ore-

cerned about the irresponsible spending of the recent sessions  
of the Legislature. "It is time that District 32 has a fiscally  
responsible Representative in the Legislature who will  
remember that state funds come from the tax-payers pocket  
and should be used to their maximum benefit to the tax-  
payer."

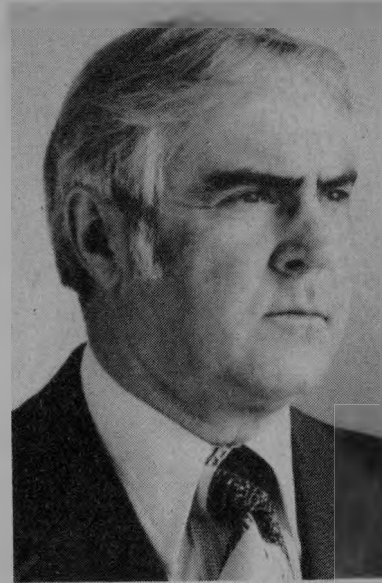

George Strozut, respected civic leader and former Salem

have followed his growth and achievements with real per-  
sonal interest. His achievements were outstanding, includ-  
ing, among others, the rank of Eagle and the founding of a  
nationally known and respected Explorer Post. I am currently  
working with him on the Salem Suburban Advisory Commit-  
tee and especially appreciate his openmindedness, his careful

property owners are being injured. Warren has shown a spe-

Since high school Bob has worked as a gas station attendant, an ornamental iron worker, a logger, and a grocery store manager.

Bob graduated from Yoncalla High School and has attended Linn-Benton and Chemeketa Community colleges. He has also attended Willamette University and the University of Oregon.

In January 1975, Bob was appointed to the Marion County Planning Commission and in January 1976, he was re-appointed to a four year term. He served as Assistant Sergeant-at-Arms in the Oregon Senate during the 1975 session, which allowed him to learn the legislative process first hand.

Bob's community activities include:

- "Big Brother" at the Marion County Juvenile Center.
- Managing a Little League team in the Leslie League.
- Member of the Salem City Club.
- Founder of the Marion County Demo-forum.
- Currently working to improve park facilities in Keizer.

Bob has been active in the Marion County Democratic Party the last several years. He has been an active member of the campaign committees of Wayne Morse, Bob Straub, Jim Redden, and Keith Burbidge. Bob has also served as Treasurer and as a delegate to the State Democratic Convention in 1974 and Chairman of the delegation to the 1976 convention for the Marion County Democratic Party.

One of Bob's major concerns is skyrocketing utility costs and their effect on the budgets of middle and low income persons. Cheap power is gone forever but we must do everything we can to hold down costs. Assuring a monopoly that for every dollar it spends it will get back a dollar plus is no way to encourage that monopoly to hold down costs. The American Institute of Architects estimate that we can save as much as 12.5 million barrels of petroleum per day by 1990 by encouraging the construction of energy efficient buildings. Bob feels more diversified jobs will be created with less capital outlay through such a conservation attempt.

He believes we must bring home dramatically to first-time juvenile offenders that law-breaking is a serious matter. **Marion County****Measure No. 6****FIVE YEAR SPECIAL LAW ENFORCEMENT LEVY**

Referred to the People by the  
Marion County Board of Commissioners

**EXPLANATION**

Twenty nine additional law enforcement personnel will be added to the Marion County Sheriff's Office to broaden the security and investigative scope of the Sheriff's Department.

Because of the lack of present manpower, clearance of crimes reported is at a low level. The number of crimes coupled with the sharp increase in population and density in the suburban areas of Marion County have reduced the amount of service the Sheriff's Office has been able to give to the citizens of Marion County.

The hiring of additional personnel through regular budgetary allowances has been unable to keep pace with the demands for service over the past ten years.

With the passage of this five year operating levy at a cost of \$676,463 per year (approximately \$.36 per thousand dollar evaluation, or \$10.80 per \$30,000 home) it will allow the Sheriff's Department to add 15 patrol officers, 3 investigators, 3 correction officers, 2 deputies to work in Community/School Liaison and Youth Services Team, 2 warrant and court deputies, 1 radio dispatcher and 3 record clerks for support services, which will broaden the Sheriff's Office ability to provide more effective security and greater crime suppression through investigations and patrols.

Submitted by Marion County Board of Commissioners.

Born Sept 4, 1922, Cathay, N. Dak.

Oregon Resident since 1948. Engaged in Home Building & Remodeling. Licensed Tax Consultant, Ore. Lic. 540. Graduate New Rockford, N.D., High School, 2nd in class of 40.

Completed Accountancy course at Minneapolis Business College, Minneapolis, Minn.

Over 20 years experience as bookkeeper, accountant and office manager.

Served in U.S. Navy - World War II - Dec. 1941 thru Nov. 1945. Honorably Discharged as Chief Storekeeper.

City Recorder, Treasurer and Municipal Judge, Corvallis, Ore. for 15 mos.

Oregon Dept. of Motor Vehicles Comptroller for 15 months.

County Governments are unique. Three commissioners can adopt ordinances (legislative power) and then enforce those ordinances (executive power). When all commissioners have the same governmental philosophy, then internal checks and balances do not exist. Power is also wielded by control over budgets.

The present 3 commissioners are like peas in a pod. And that is the first reason why you should elect Les Bahr! The board needs a new and different voice to provide the checks and balances. Marion County citizens can expect a more efficient, more interesting, more economical and more innovative government with the independent voice of Les Bahr on the board.

LES BAHR is well qualified. He has proven his abilities while serving as comptroller for the Department of Motor Vehicles by handling 6 million dollars in expenditures and over 100 million in receipts.

LES BAHR does not knuckle under to government bureaucrats. He organized the petition drive to stop the \$10. auto license fee increase and acted to see that the people would be able to vote on the 14% gas tax increase. He was arrested by the state fair management while exercising his constitutional right to get signatures on the gas tax referral while on the fairgrounds parking lot. Circuit Judge Barber found him innocent of the charge.

His concern is for the problems that make life difficult for people. One of these major concerns is the lack of job opportunities for our young people.

16 years is long enough for one person to occupy the same public office.

**For a change - elect an independent Democrat!**  
**Don't re-elect anybody!**

**PAT McCARTHY**

**For**  
**County**  
**Commissioner**

**Marion County,**  
**Position No. 3**

Pat McCarthy was born July 14, 1913 in Starkweather, North Dakota. He was graduated from St. Paul High School and attended Portland University, where he studied business administration. Pat farmed in the St. Paul community from 1933 until he was elected Marion County Commissioner in 1960. He served as Sergeant-at-Arms in the Oregon House of Representatives during the '57 and '59 sessions. He has served as Marion County Commissioner since January 1961, including four terms as Chairman of the Board. Pat served as a member of the St. Paul Union High School Board of Directors from '49 to '59 inclusive.

Pat McCarthy is married to the former Elizabeth Hickey. They have nine children.

Pat is the first Democrat to be elected to the Marion County Commission. He has given the county the kind of responsible government that has been a credit to the Democratic Party. Through the years McCarthy has kept his word on his campaign pledges. Prompt attention is paid to all problems and complaints. Everyone receives a fair, courteous and impartial hearing. He has advocated and put into effect an "open door" policy to the people and to the press, so everyone is better informed on what is taking place in the courthouse. He has furthered greater citizen participation in county government by appointing many more persons to advisory committees.

Pat is a past President of the Association of Oregon Counties. He serves on the Marion County Board of Health. He is a member of the Governmental Coordinating Committee of the Council of Governments and also the Salem Area Chamber of Commerce. Pat is a member of the Knights of Columbus, Kiwanis and Grange. He is Vice-Chairman of the Marion County Farmers Union. McCarthy is a member of the Local Officials Advisory Committee to the Land Conservation and Development Commission. He serves on the Mid-Willamette Valley Manpower Consortium and is Chairman of the Board of Directors of the Benedictine Nursing Center.

Re-elect Pat McCarthy. Keep a vigorous and effective Democrat on the County Commission — a man of honor and integrity, familiar with county problems and dedicated to their solution. As the Oregon Statesman's Editorial puts it: "The voters should not lose the benefit of his experience, his diligence in seeking better answers, or the obvious sincerity he brings to his relationships with his constituents."
