The Sign Over Your Door

Is a good thing, isn't it? You would not think
of doing business without it.

But it is only seen by those who pass your way.

If you could put a sign where everyone could
see it, it would interest you, would it not?

THE CITY DIRECTORY

is where people look for you when they want to
do business. You should make it easy for them
to find you by putting such information as the
buyer wants in the Directory, properly indexed
under all the headings where he might look for
you.

To be properly registered costs less than to be left out.

Our thanks are tendered to all who have furnished information, and especially to our many subscribers and advertising patrons.

CITY OF BEVERLY

STREET AND HOUSE DIRECTORY

1922

Giving the location of the streets, parks, etc., and showing what other streets and places run from them or across them, with the point at which they intersect. The system adopted for numbering the streets of the city is that a person starting at the beginning of any street and following along with the numbers every even number will be on the left and every odd number on the right hand, with the names of heads of families and persons in business in the order of location.

The cipher (0) is used to designate houses or buildings without numbers. The dash (—) is used to show where connecting streets and avenues cross or intersect, when such intersections or crossings have no number, and also to designate railroad crossings and bridges, parks, etc.

When there is more than one family in a house, the down stairs name is usually given first.

Abbreviations: Ave., avenue; byd., beyond; groc., groceries; jct., junction; n., near; opp., opposite; r., rear; rep., repairing; smr., summer; s. r., summer resident; var., variety; etc., etc. Houses having erroneous numbers are sometimes enclosed in parentheses (—).

Numerals after the name indicate first, second, third floor, etc.

CITY OF BEVERLY

BUSINESS DIRECTORY

Beverly, clean, healthful and beautifully located on the North Shore, with seven miles of the most charming views to be found on this continent, recommends itself to all classes of manufacturers and business men on account of its first-class rail and water facilities and equitable freight rates to all shipping points. Its most significant growth proves it to be the coming city of this part of the Massachusetts coast. With a valuation of nearly \$40,000,000, within its limits are scores of millionaires' and multi-millionaires' palaces. The manufacturing industries comprise shoes, machinery, oil, oiled clothing, foundries, mattresses, planing mills, wood and paper boxes, grain elevators, electric works, etc. The shoe industry, established more than a century ago, pays over one million dollars per year in wages.

The United Shoe Machinery Company, occupying one of the largest reinforced concrete factory plants in the world and employing 5,000 mechanics, pays a wage of over one and one-half millions per year. The Gulf Refining Company has its New England terminal here and docks its fine steamships running from Port Arthur, Texas. Spur tracks of the Boston & Maine Railroad connect with all the wharves. Population of Beverly, 1922, estimated about 26,000. Eighteen miles from Boston on the Boston & Maine Railroad. Eastern Mass. Street Railway connections to all nearby points. Superior harbor. Four banks. Daily newspaper. Excellent fire department. Good sewers. Well-lighted streets. First-class public schools. Good hotels and theatres. Public school playgrounds costing over \$40,000. Modern bath house at Oceanside Park.

NOTE:—It has been found essential (as a general rule) to insert names of firms under the ONE heading only which best represents them, except in the case of patrons, when extra insertions are sometimes made.
