

PRIMARY ELECTION

GLENDALE GIVES HOOVER 403 MAJORITY OVER JOHNSON

Yesterday's primary election was a good-natured affair and both sides in the Republican contest had a chance to "holler," those favoring Hoover because they carried Glendale so largely and the Johnson supporters because their candidate carried the state by a big majority. Democrats paid almost no attention to their own candidates for delegates as there was no contest and many of them voted for either Hoover or Johnson. The bonds for acquiring the land occupied by the Arcadia Balloon School for presentation to the government carried by almost 2 to 1. Following is the complete official vote of Glendale's 22 precincts:

Precincts	Johnson	Hoover	Dem.	Pro.	For Bonds	Ag. Bonds
1	34	40			49	23
2	73	102	3	1	130	40
3	75	130	1	1	61	38
4	109	125	3		138	46
5	57	69			56	24
6	87	84	5		96	29
7	46	56		2	60	41
8	52	101	2		58	27
9	72	136	3	2	102	46
10	63	108			98	68
11	51	89	1	1	59	37

NEW CONSTRUCTION CO.

GLENDALE REALTY CO. TO BUILD 100 OR MORE RESIDENCES

S. J. Mannell and J. A. McClain, who have recently arrived here from Toledo, Ohio, where they were in the contracting and general building business for years, have associated themselves with the Glendale Realty Co. and are about to commence the erection of a series of up-to-date cottages of the English type, which have become so popular with the home seeker. The demand for this class of homes is greater than the supply, and this company feels that now is the time to commence filling this long-felt want. The Bellehurst Tract, for which this company is the selling agent, has been selected as the base of operations. It is beautifully located north of Doran St., and commands a view of the surrounding foothills which is unsurpassed. Later on it is proposed to open other tracts, and it is expected that there will be no trouble in disposing of these houses as fast as they are erected. Contemplating the great tourist rush of this fall, and the general shortage of homes for the newcomers Glendale is to be congratulated for having such a wide awake, active company whose every thought is for the building up of our beautiful city, and who are endeavoring to have it take the lead of the California suburban cities.

LETTER FROM ORIENT

CHARLES FROMM, JACKIE IN AMERICAN NAVY, WRITES FROM JAPANESE WATERS

Mrs. C. A. Fromm of 1249 East Wilson avenue has recently received a letter from her son, Charles A. Fromm, who is in the United States Navy, saying that his ship is being painted war color and that it has been ordered to Chefoo in Chinese waters for target practice. He is on the South Dakota, the flag ship of the Asiatic fleet, and has recently been at Nagasaki in Japanese waters, after having been a good many months at Vladivostok. His four-year term of enlistment will end in August when his mother expects him to come home. In the interval since he left here his father has passed away and she is very anxious to have her son with her. He writes that naval recruits are very hard to get.

OPPOSES BONDS

ALEX MITCHELL DOES NOT FAVOR PURCHASE OF THE BLOCK EAST OF SCHOOL

Glendale, Cal., May 3, 1920. To The Glendale News: I wish to state my reasons for opposing the quarter of a million High School bonds to be voted upon next Monday, May 10. My main objection is that the Trustees propose (provided the bonds carry) to spend part of the money in purchasing a block of land and houses with a church thrown in which has already been rejected in no uncertain terms at a previous election held on February 27, 1920. Some lady or gentleman, who evidently has the gift of reading the public mind, states that the \$425,000 bonds failed to carry because of the high priced frontage on Brand Boulevard. Speaking for myself only I will say I would rather have voted for the Brand site than for the block east of the High School which they are about to try a second time to shove down the throats of the people. Another reason, I understand the law gives the Trustees full power to use the money as they see fit. I have the highest regard for the integrity of the present board. But I am of the opinion their promises as to not spending any more money than is necessary for present needs would not be binding upon their successors (Continued on page 7)

BIG FAMILY REUNION

SONS AND DAUGHTERS OF DAVID BURSON UNITED FOR FIRST TIME IN YEARS

An unusual family reunion was enjoyed last Sunday when David F. Burson, who is 79 years of age, was the central figure in a gathering of his sons and daughters, their wives and husbands and children at a picnic held in Brookside Park. Twenty were present and it was the first time in many years they have all been together. The sons and daughters of this aged father were: Charles Burson, his oldest son, who is fifty years of age and who lives in San Francisco; Dewey Burson, his youngest son, who is but nineteen, and who lives in Colorado Springs; Harvey Burson, of San Francisco; Mrs. Leslie Barnes, of Eagle Rock; Jeff Burson, also of Colorado Springs; Albert Burson, of Glendale; Edna Burson, also of this city; Frank, Harold and George Burson. Added to these were the wives and children of Frank, George and Albert Burson. Following the luncheon, which was bountiful and delicious, the party enjoyed an inspection of the park and then returned to Glendale early in the afternoon.

David Burson is a native of Illinois, but many years ago went from Chicago to Colorado Springs where he spent about forty years and had some interesting experiences in early days. He is proud of the fact that he had seven sons in service during the war. Three went overseas with the A. E. F. The others were shipyard workers.

FAR AWAY SERBIA

INTERESTING LETTER FROM DR. ETTA GRAY ENGAGED IN RELIEF WORK

Glendale people will be interested in a letter recently received by Mrs. L. Mintner of 1116 East Wilson avenue from Dr. Etta Gray who was for some time a physician at the Glendale Sanitarium and who is now president of the Woman's Hospital at Veles in Serbia where she and a corps of self-sacrificing physicians and nurses are trying to relieve the wretchedness which has followed the war. The letter is dated February 12th and reads: Dear Mrs. Mintner:

It has been a long time since I wrote you. We are off in this (Continued on Page 6)

H. E. Bolling of Novelty, Knox Co., Mo., came last Saturday to spend a few weeks with his sister, Mrs. H. C. Reed, of 818 Orange Grove avenue. He is the youngest of 10 children, all of whom are living and he is making the rounds of three states, New Mexico, Arizona and California, to visit the others. This is his first sight of California and already he declares he is going to live in Glendale some day.

WEATHER FORECAST—Fair tonight and Thursday. Somewhat warmer Thursday.

BIG TRIUMPH FOR JOHNSON

CALIFORNIA SENATOR DEFEATS HOOVER BY ABOUT TWO TO ONE ACCORDING TO LATE RETURNS

(Special Service to Glendale Evening News) SAN FRANCISCO, May 5.—Senator Hiram Johnson has defeated Herbert Hoover in the California presidential primaries by nearly two to one. At ten o'clock today Johnson's lead was 146,338. The corrected totals from 3880 precincts complete out of 5729 in the state were: Johnson 299,611; Hoover 153,274. Los Angeles county apparently has gone for Johnson by about 10,000. At 10:30 o'clock 805 precincts out of 1275 in Los Angeles county gave Johnson 52,064; Hoover 47,617, a majority for Johnson of 447. Pasadena gave Hoover 7100, Johnson 2914. Six precincts out of 79 are missing there. Monrovia complete gave to Hoover 725, Johnson 337; Long Beach, Hoover 4978, Johnson 4022.

The only two counties in the state that apparently gave Hoover a majority were Kings and Ventura, and in both the race was close. Johnson beat Hoover in Santa Clara, the former food administrator's home county by two to one.

San Francisco and Alameda counties piled up tremendous Johnson majorities.

DESTROYERS TO MEXICAN WATERS

AMERICAN WAR CRAFT BEING SENT AS PRECAUTIONARY MEASURE TO INSURE PROTECTION OF CITIZENS

(Special Service to Glendale Evening News) WASHINGTON, May 5.—A division of destroyers has been ordered to proceed to Key West, Fla., to be held in readiness for possible instructions to go to the east coast of Mexico, Secretary of the Navy Daniels announced today. The destroyers were scheduled to start this morning. The move is precautionary, it was learned, and is being taken with the idea that it may be necessary to use the war-craft to protect Americans endangered by revolutionary developments.

The State Department today was trying to verify unofficial reports here that Mexican federal generals have given President Carranza until May 15th to step out of office.

Carranza and federal government forces are completely shut off from the outside world except over a telegraph line to Eagle Pass and Laredo, reports received here stated.

BURIALS BEGIN AT PEGG, OKLA.

TOTAL INJURED IN TORNADO ESTIMATED AT 150; ALL PROPERTY A TOTAL LOSS

(Special Service to Glendale Evening News) MUSKOGEE, Okla., May 5.—With fifty-five bodies recovered from the wreckage of the little town of Peggs, Okla., rescue workers today placed the list of the injured at 150. Burial of the dead has begun. A relief fund was being subscribed today. All property at Peggs is reported as a total loss.

INDIANA'S PREFERENTIAL PRIMARIES

WOOD LEADS IN 2140 OUT OF 3387 PRECINCTS; JOHNSON IS CLOSE SECOND

(Special Service to Glendale Evening News) INDIANAPOLIS, May 5.—Unofficial returns from the Indiana preferential primaries today gave in 2140 precincts out of a total of 3387: Wood 56,810; Johnson 52,016; Lowden 24,852; Harding 13,428.

CARRANZA MAKING FINAL STAND

RECALLS TROOPS TO MEXICO CITY MENACED BY REBELS, AND HARRASSES REVOLUTIONISTS WITH AIRPLANES

(Special Service to Glendale Evening News) EL PASO, May 5.—General Alvaro Obregon is massing his followers at Cuernavaca and Cuautla for a drive on Mexico City, it was learned today through the rebel bureau here. Bringing Generals Murgu, Urquiza and Alvera to the capital in a final effort to save Mexico City, Carranza has sent squadrons of bombing airplanes against Cuernavaca and Cuautla to harrass the rebel formation, it was stated here.

DESTROYERS SAIL FROM NEW YORK

(Special Service to Glendale Evening News) NEW YORK, May 5.—The squadron of United States destroyers ordered to southern waters to protect Americans in Mexico, left New York harbor at 2 p. m. today.

NEW BUREAU OF MINES DIRECTOR

(Special Service to Glendale Evening News) WASHINGTON, May 5.—President Wilson today nominated Frederick C. Cottrell of Berkeley, Cal., to be director of the Bureau of Mines to succeed Z. H. Manning, resigned last week.

WASH CAN BE CROSSED

TRAVEL OVER BRAND BLVD. BRIDGES SAFE, CENTRAL AVE. SOON TO BE OPENED

For many, many weeks all auto travel north beyond the Wash that usually went straight up Brand or Central avenue to destination has had to detour either east to Louise street or west to Pacific avenue in order to get across that troublesome Verdugo Wash. The long agony is over at last and while the roadways on Brand are not officially opened for traffic as the new concrete bridges have not yet been formally received from the contractor, both are being crossed the west one most largely, however, as the dirt approaches are smoother and better to travel. These approaches will be leveled and oiled later.

The Central avenue bridge, which has been out of commission nearly as long as the Brand roadways, has been raised to the proper level and the new part is now under construction. It will be opened for travel before many days. Supervisor Dodge, who responded so promptly to the request by the Evening News for early relief from the blockade of the two streets mentioned, deserves the thanks of the Glendale traveling public for urging on the work of repair. Traffic over the blockaded section was resumed even earlier than he promised it.

AUSTRALIA PICTURED

MRS. FREEMAN KELLEY TELLS OF NATIVE LAND AT LITERARY SECTION

The usual meeting of the Literary Section of the Tuesday Afternoon Club was held Tuesday at the home of the curator, Mrs. Charles Hutchinson, and a program of exceptional interest was enjoyed.

Mrs. Freeman Kelley, who is a native of Australia, told from intimate, first-hand knowledge, the outstanding characteristics of that wonderful country, giving a vivid word picture of its aborigines, its animals and flora, its cities and harbors, mountains and rivers and its wonderful caves. She had many pictures and curios, including a boomerang, which were passed around for inspection while the talk was in progress. In compliment to Mrs. Kelley and her English ways, the Section broke over its embargo on refreshments and served afternoon tea. While this was being passed Mrs. Mabel Franklin Ocker reviewed Henry Van Dyke's "Valley of Vision," which proved of intense interest.

Mrs. E. H. Willisford gave an entertaining resume of current events in art, literature and religion. Tentative plans were made for the social meeting of the Section to be held in June and appointments for the next program.

HIGH SCHOOL BONDS

FAVORS VOTING BONDS ONLY FOR THE SUM ACTUALLY NEEDED NOW

We hear very little regarding the High School Bond Election which is called for May 10th, at which we are to vote on bonding the district for \$250,000.00. As a patron of the school and as an interested citizen and property owner in Glendale, I wish to mention a few things in connection with it. I regret exceedingly that this bond election has been called for an amount and under such terms that I cannot feel justified in supporting it; and I am sure that other citizens who give careful thought to it will feel the same way towards it.

The voters of the district by an overwhelming majority voted against a similar proposition on February 27th, as they very definitely decided that the present site for the High School is very undesirable and will grow more so as business and traffic increases as it is doing rapidly already.

The buildings were not started right to ever be made into a symmetrical group of High School buildings, and even now are more or less out-of-date.

According to present estimates the block to the east of Louise street would cost \$120,000.00—three times what a 15-acre site in a desirable location would cost.

I am intensely interested in seeing the High School have the necessary additional class rooms to relieve (Continued on Page 3)

HARMONIOUS MEETING

G. G. D. A. RECOMMENDS NEW BROADWAY EXTENSION TO SAN FERNANDO ROAD

The regular monthly get-together meeting and dinner of the Greater Glendale Development Association was held at the White Inn Tuesday evening. Chairman L. T. Rowley presided, and in the absence of Glen Ely, the regular secretary, Roy L. Kent served as secretary pro tem.

A. G. Spöhr, Chairman of the Committee on Electric Signs, reported that the signs for Broadway and San Fernando Road and for Brand Boulevard were ready to be installed, and that they would be put in position as soon as the Electrical Department of the City of Glendale is ready to do the work.

Ezra Parker, J. G. Huntley and Dr. C. R. Lusby who had been previously appointed as a committee to report progress on the opening of the proposed West Broadway outlet to the San Fernando Road, submitted written report, which was read by C. D. Lusby. The committee recommended that the road be opened as had been previously planned, beginning at a point on Broadway near Pacific avenue and taking a diagonal course across the acreage to a point on the San Fernando Road where the Southern Pacific Railroad Company owns property, on which a railway station might be constructed. There were present at this meeting J. S. Thompson, C. J. Wolf, A. C. Read, W. H. Verity, A. H. Lapham, all being residents of West Glendale. J. S. Thompson as spokesman for property owners in West Glendale objected to the course of the proposed boulevard, on account of its interfering with the dwelling house of Mr. Verity. Messrs. Lapham, Verity, Wolf and Read supported Mr. Thompson in his objection, and all these gentlemen recommended that the opening of a new boulevard be abandoned, but that Broadway be improved to San Fernando Road.

Chairman L. T. Rowley, Roy L. Kent, C. D. Lusby, E. U. Emery, W. B. Kirk and J. G. Huntley, representing Greater Glendale Development Association, spoke enthusiastically in favor of the proposed boulevard. After the West Glendale representatives listened to the arguments produced by representatives of the Association, it was mutually agreed that a committee of three be named to represent the visitors and three men be selected to represent the Association, and that after the appointment of the committee, said committee retire and bring in a compromise report. J. G. Huntley, C. D. Lusby and F. H. Vesper were appointed to represent the Association, and Mr. Thompson appointed W. H. Verity, A. C. Read and C. J. Wolf to (Continued on Page 4)

FROM TURKISH LAND

NIECE OF MRS. R. L. HOLLAND WRITES OF LAND AND CUSTOMS

Mrs. R. L. Holland of 209 Arden avenue recently received a letter from her niece, Miss S. C. Bradley, who is in Samsoun, a Turkish seaport on the southern coast of the Black Sea, about 100 miles west of Trebizond. Though the letter was written January 25th it is late news as owing to disturbed conditions in that unhappy land mail service is greatly delayed.

Miss Bradley was taking a preparatory course on reconstruction of wounded soldiers and had gone to New York to embark for France when she was stopped by news of the armistice having been signed. She waited there till February to see if she was wanted in her chosen work overseas then was induced to take work with the American Commission for Relief in the Near East. She sailed late in February for Constantinople via Brest and Marseilles, France. She was six weeks en route and soon after arriving in Constantinople was sent to Samsoun, in the Bithynia province of Bible times. The commission she is with is supported by the Russell Sage Foundation and its work is establishing orphanages for the care of Armenian orphans whose parents were slain in the many massacres by the Turks during the past five years. Miss Bradley's letter follows:

Samsoun, Turkey, Jan. 25, 1920.

Dear Aunt Louise: Last week my first box from America arrived and it was from you. It was sent last April the 8th on the "Newport News" and has (Continued on Page 6)

100 NEW HOMES

Come Take Your Choice

We are going to build 100 new houses in Glendale--bungalows and English cottages--and we are going to build them to suit the purchasers--Who'll be first?

New Five-Room Modern Bungalow

Breakfast nook
Garage
Everything up to the minute
Lot 50x150
In location where we expect to
build 100 new homes
Come into our office and see the
plans

BE THE FIRST

Due to the urgent need of more homes in Glendale and the demand for BETTER houses, we have undertaken the construction of one hundred new homes.

These houses will be built on our own land in a choice residence section of the city and according to plans to suit the purchaser.

103½ SOUTH BRAND BOULEVARD

HOW VIOLINS ARE MADE

DELICATE PROCESS DETAILED
BY GLENDALE MANU-
FACTURER

The patience and skill developed to the nth power which is expended in the creation of a violin would seem to deserve more than the passing attention generally given it. Not only musicians, but anyone having an eye for the beautiful, will find much to interest him, or her, at the little violin shop on South Brand boulevard, and those outside the violin world who have hitherto regarded a violin as merely a musical instrument will find a new field of study opened up. Geo. M. Anderson, the violin maker, is an enthusiast, and seems glad to talk of his work, which he did freely when called upon recently, telling of his first violin which he made at the age of thirteen and which he says was a good one. He says he is a nature lover and as a child liked to wander about in the woods studying the trees and listening to their voices. The following are some of the things he has learned in his years of experience, although he says each time a maker begins a violin he must learn all over again, for no rule has ever been laid down which could be exactly followed, and no violin can be exactly copied. The quality of the wood always governs, and no two pieces of wood are ever alike. He prefers wood with a fine grain because it shows it comes from the heart of the tree and that the tree is old—both of which are favorable circumstances in his interpretations. He adheres almost exclusively to the use of maple for the back and sides, and pine, spruce or fir for the top plates. The back must be the stronger for it carries the greater burden; the two woods, hard and soft, must be different and yet alike—they must harmonize. He is partial to the Guarneri models and brought out a beautiful example of a "King Joseph" body, as yet unvarnished and without the ebony pieces, showing exquisite grains in the woods, entirely in keeping with its gracefully flowing lines, in all of which was a harmony that was music in itself. Everything about it suggested rhythm and made one think of curling waves breaking on a sandy beach and of hanging blossoms and tendrils swinging in the breeze. A violin maker must see harmony, think harmony and be harmony, for, says Mr. Anderson, a violin takes on the mood of its maker, who, if he finds himself not at peace with all the world should promptly lay aside his work in order

to avoid producing discord. Mr. Anderson uses no calipers, as is commonly done, especially where instruments are turned out in great number, but after the pattern is marked out his cutting and shaping and gradations are all done by sense of touch, and by insight, for lack of a better word, requiring infinite care and an ability to visualize tone and harmony. Never for a moment may the maker forget to consult the qualities of the individual piece of wood on which he is working, for it is here that all rules fail and he can only be guided by those qualities.

First, the wood is tested by placing a sample of it in a vise and drawing a violin bow across; if it has the right tone, then he can proceed. The more wood there is in a violin the better, of course preserving the right proportions, gradations, etc., for the thicker a violin is the better it will sound the longer it is played, and the longer it will last; while a thin one may sound well in the beginning, but the longer it is played the less satisfactory the tone. There should be exactly 512 vibrations to the second, no more or less, and it must be heavy enough to carry the load. A heavy violin will throw the sound farther than a thin one. Given the right amount of air, the proper vibration, the desired tone, and a violin cannot be too thick. The thickness usually runs all the way from one-fifth to half an inch. Less than one-fifth of an inch in thickness and the violin is worthless. The vibrating plate is graduated so it is like the reed of an organ, and the diminishing of thickness is a work so difficult that it would seem needful to approach it with fasting and prayer. Decided that the wood possesses the right quality, the maker must be artist enough to shape, graduate and assemble the different parts without losing that quality. In shading the thickness of the plates, the finer work is done with a tiny plane, made exactly like a carpenter's plane, but in size no larger than a hummingbird. Nothing can be done casually or mechanically, but every part must be considered not only on its own merits but in relation to the whole, for harmony is always the watchword. The "f-holes" in the front plate decide the amount of air to be admitted or excluded with regard to the size of the violin, the larger holes giving a shriller tone and the smaller ones a rounder tone. The perfling (the fine line of inlay about an eighth of an inch from the edge of front and back plates) strengthens the plates and acts as a binding to prevent splitting or cracking. The lining, as shown by Mr. Anderson, is in itself a work of

art, beautiful in its nicety of fitting and joining, and this lining is the only part which water is allowed to touch, the strips being first wet and then clamped onto a wooden form to dry. All other parts not carved into shape are done by means of hot iron.

One of the many important things about a violin is the varnish, and some day some maker may be fortunate enough to discover something which will equal the varnish used by the old masters, but not yet has it been done. Mr. Anderson uses an oil varnish, which of course he considers the best that can be had at the present time.

In speaking of the individuality of violins, this violin maker is of the opinion that not only should a musician choose a good violin, but that he should choose one which harmonizes with his own nature, and for this reason he says no parent should ever choose a violin for a child; that is, not the violin which is to last the child through life; for that they should wait until the child is old enough to choose for itself.

So much for the technical, which may or may not interest, but it would be almost impossible to visit this shop and come away again without being rarer for the experience, for ever afterwards when seeing a violin, one will be looking for the beauty of it—and finding it—and always it will be something new.

MISSIONARY

Behold the South Sea Islander;
The pore, benighted brute,
He hasn't got no telephones,
No law courts, no dress suits;
He sets around and sins and grins
And lives on fish and fruit!

He doesn't pay for what he eats,
He doesn't pay no rent;
He doesn't ever work or steal,
Nor has nor needs a cent.
And yet the dog-gone heathen, he
Pretends that he's content!

He lives just as old Adam did
Before that mighty fall,
His garden gives him everything
For which his tastes may call;
He doesn't fret about mankind
And he's never sick at all.

O, let me go and try to save
That happy, sinful cuss.
I'll teach the standards of our town
And make him more like us.
(Or maybe I'll let him save me—
I guess I might do wuss!)

WOMAN AUTO DEALER

Over in Loon, Iowa, is one of the Ford Motor Company's most interesting dealers—Mrs. M. P. Estes, who sells something like 300 Ford cars yearly, to say nothing of the Fordson tractors she sells. Her only regret is that the company couldn't promise her more than 300 cars this year. She is said to be one of the three most successful women dealers in Iowa.

Mrs. Estes is a thorough business woman. She knows her product, she knows her territory, she knows how to sell cars, and she knows the value of business system, for that is her hobby. "You can't do business right without a good system," she declares. "People don't like to wait. If a man comes in and wants to know if he can get a certain part, or what his account is, or what something will cost, you've got to be able to tell him quickly."

In a letter to the Ford Motor Company the Des Moines Branch manager says of Mrs. Estes: "This dealer has the largest number of cars according to the population of her territory of any dealer under this Branch. Her estimate for this year is one car for every twenty-seven people, including men, women, children and inmates of the poor farm. And she has consistently carried a greater percentage of un-filled orders for immediate delivery than any other dealer we have."

REACTION

It has been said repeatedly that, as a result of the war, the United States is destined to go through a period of intense reaction. That the prediction is true becomes more apparent every day.

If the efforts of the extreme reactionaries now at work in America were to prove successful, this country would be more thoroughly Prussianized than was Germany in 1914.

Take a few samples at random. The New Jersey legislature has wiped from the statute books every vestige of the famous Seven Sisters laws, passed under the governorship of Woodrow Wilson in order to curb the operations of the notorious New Jersey trusts. As a result, trusts may be incorporated in New Jersey now to commit whatever depredations the public will stand for.

A bill now pending in the New York senate provides that without procuring a license from the state, "no person, firm or corporation, association or society shall conduct, maintain or operate any school, institution, class or course of instruction in any subject whatever." Licenses are subject to revocation even after they have been granted, and they will not be granted "unless the regents of the university of the state are satisfied that the instruction proposed to be given will not be detrimental to public interests."

Is that free public education within the meaning of the fathers of our republic? It is not.

Another bill in the same hopper provides that all teachers must apply to the state authorities for a license, which will be granted only to persons of good moral character "who will support the institutions of the state and nation." In theory that may seem very fine. In practice it invites abuse. At any time, for any act or utterance which might be construed by fallible authorities as "disloyal to these institutions," the teacher may lose his license and the right to earn a living in his profession.

DEVELOPMENT BOARD REPORT

The report of the California Development Board for 1918 and 1919 is off the press and ready for free distribution from their information bureau at the Ferry Building, San Francisco. Special attention is given to the increasing industrial importance of California's ports and harbor improvements, imports and exports. Building activities, bank clearings from the principal cities and detailed report of financial conditions for the past two years, is of pertinent interest.

Estimated population of cities over 1500 or those which have enjoyed phenomenal growth since 1910 census, are given with estimated per centage of increase since that date. When the U. S. census is completed, the California Development Board will issue a supplement showing actual population and percentage of increase.

In many respects this report marks a radical change from previous issues. Production, valuation and acreage of field and fruit crops are given both for 1918 and 1919, with a most comprehensive table showing the estimated disposal of the commercial fruit crops and the five counties leading in number of bearing and non-bearing trees.

For the guidance of the traveler, a list of automobile stages and routes is given.

The location and installed capacity K| V. A. of hydro-electric plants operative in California at the present time is contained in this report.

The summary of values heretofore included in reports of the Board is omitted in this issue. They would be but estimates, too elastic for real value and subject to distortion. Such complications differential between grower, jobber and consumer; goods in warehouse, etc., to be greatly relied upon. The California Development Board seeks to issue only such data as it can stand back of.

JUST TAKE HIM AT HIS BEST

When your brother man you measure,
Take him at his best;
Something in him you can treasure,
Overlook the rest.
Though of his some trait or fetter
May not suit you to the letter,
Trust him—it will make him better;
Take him at his best.

Praise will make him worth the praising;
Take him at his best.
Keep the fire of purpose blazing
Ever in his breast.
Do not frown upon or scold him;
In the strength of faith infold him,
To his highest yearning mold him;
Take him at his best.

—Nixon Waterman.

Much of the opposition to prohibition lies in the fear that 'Bacca will follow Bacchus.

Unusual Value—In Tires for the Smaller Cars

Not only is characteristic Goodyear merit conspicuous in Goodyear Tires for the smaller cars, but ordinarily the first cost is found to be not greater than that of other tires; often it is actually less.

The combination of unusual value in first cost and very low final cost, of course, is a result of Goodyear experience, expertness and care employed as insistently in the making of 30x3-, 30x3½- and 31x4-inch tires as it is in the construction of the famous Goodyear Cord Tires used on the highest-priced automobiles.

For this reason more cars using these sizes were factory-equipped last year with Goodyear Tires than with any other kind.

Get this unusual tire value to enjoy on your Ford, Chevrolet, Dort, Maxwell, or other car using one of these sizes, at the nearest Goodyear Service Station. Get these tires and Goodyear Heavy Tourist Tubes at this station.

30x3½ Goodyear Double-Cure Fabric, All-Weather Tread \$23.50
30x3½ Goodyear Single-Cure Fabric, Anti-Skid Tread \$21.50

Goodyear Heavy Tourist Tubes are thick, strong tubes that reinforce casings properly. Why risk a good casing with a cheap tube? Goodyear Heavy Tourist Tubes cost little more than tubes of less merit. 30x3½ size in water-proof bag \$4.50

TEACHERS' SALARIES

A direct appeal to the Board of Supervisors is being made by the citizens of Los Angeles county in the matter of an adequate compensation for public school teachers. For several weeks a campaign has been under way directed by the Citizens' School Survey Committee of Los Angeles county seeking to place before the public the necessity for an immediate readjustment of salaries. This campaign is now nearing a close. The citizens have been advised that adequate salaries must be paid, otherwise there is a grave danger that some schools will be unable to secure efficient teachers for the next term.

All over the county scores of organizations of a public character have endorsed a better pay for teachers. The citizens of each community are now asked to send a post card to their county supervisor asking that the supervisors give heed to this popular appeal. The supervisors are asked to take action which will bring about the desired result.

The citizens of this community who have the welfare of their schools at heart are requested to send a post card today to the supervisors in the district.

At a meeting held in Los Angeles last week, the Ninth Annual Convention of the First District, California Congress of Mothers and Parent-Teacher Associations went on record as favoring an increase in pay for teachers in Los Angeles County. Resolutions endorsing this project were passed by the convention following an address by Mark Keppel, County Superintendent of Schools, who declared in no uncertain terms for an adequate compensation for the school teachers of this county. Action is expected to be taken by

HIGH SCHOOL BONDS

(Continued from Page 1)
the congested condition, and that they be provided in time for the opening of school next fall, but not in the manner called for in the election.

Why bond the district for \$250,000.00 when one-fifth of that amount would furnish the needed class rooms and equipment in the form of temporary bungalow class rooms, that could be used for a few years; and in the meantime present full data regarding several different available sites to the voters of the district and let them intelligently decide where they prefer to locate it, after considering every phase of the question. It is not fair to ask them to vote on a question without giving them information regarding it. Forty thousand dollars will buy any one of several splendid sites, comprising 15 acres or more.

Then when building conditions are more favorable erect a full group of High School buildings which will be up-to-date at that time.

The present High School property will have increased so much in value as business property that it can then be sold for a sufficient amount to practically finance the new group of buildings.

I would say, vote no on both bond and site ballots at this bond election, and then request the Trustees to call for an election for only the amount they need now, to provide the school with the rooms and equipment so much needed for next fall term.

ARTHUR G. LINDLEY,
342 N. Kenwood St.

the Board of Supervisors within the next few days, hence the necessity for the sending of post cards by citizens at once.

ANNOUNCEMENT

The Glendale Sanitarium and Hospital take pleasure in announcing that their dining room is now conducted on the European plan and is open to the public, especially to those who appreciate a good, clean, wholesome, vegetarian diet at very moderate prices.

Special Sunday Dinner Every Sunday

GLENDALE, CALIFORNIA, WEDNESDAY, MAY 5, 1920

KNOX PEACE RESOLUTION

SENATOR FROM PENNSYLVANIA OPENS DEBATE BY REPROACHING ADMINISTRATION

(Special Service to Glendale Evening News)

WASHINGTON, May 5.—Declaring that President Wilson preferred to "keep the country in an alleged state of war rather than to abate one jot or tittle of the full measure his isolated will had set for the nation," Senator Knox of Pennsylvania opened the debate in the Senate today on his peace resolution.

"The welfare and safety of the nation imperatively demand that we know we have peace," declared Knox. "The whole world seethes with revolution. Our own nation is in a ferment and turmoil. Force and strife are rampant and threaten the destruction not only of our property but of our free institutions and even our very lives. Yet we stand and have stood for months as a rudderless ship fighting in the trough of tremendous seas. We must not dare longer to delay the return to an ordered government of peace; we must not hazard a further postponement in giving our undivided deliberations to our home problems. They are great enough to tax the utmost wisdom we possess. As a preliminary step the executive must be returned to his peace-time powers and prerogatives. Internationally we are at peace. Our national executive, with stubborn inflexibility, continues to declare we are at war, but as a practical matter the only war he wages is against American citizens and American interests."

Knox indicated that the Supreme Court will be asked to rule on the power of Congress to declare peace by resolution.

IMMIGRANTS AND THEIR SAVINGS

It is reported that since the armistice 250,000 natives of Europe have emigrated from this country and that 1,125,000 more will go when ocean transportation is available. Although immigration is increasing, the influx is not expected to equal the exodus for some time and the loss of labor is greater than mere figures indicate for the reason that 60 per cent of those coming in are women. The effect of emigration on industry is not the worst effect of the movement, however, according to New York bankers who have made a study of it. They say that the flitters are carrying away an average of \$2000 of American money and fear that before all have gone this country will have lost more than \$2,000,000,000.

This furnishes the text for a pamphlet on the relative habits of thrift of native and foreign born in this country and a suggestion that we have been remiss in not providing better for the safeguarding of aliens' savings and the turning of the great reservoir of capital into American development. It is said that many of the hundreds of immigrant savings banks in the United States and scores of private bankers patronized by foreigners are in fact but agents of foreign institutions which employ the American accumulations of their nationals to the benefit of their homelands. That may be true to a degree, but we may doubt if a large proportion has been so diverted if the men now departing have so much cash to take with them.

Nevertheless it is reasonable to believe that aliens might be the more readily attached to this country could they be convinced that investments here are the safest and best to be found in all the world. If their permanent interests were here they would remain, be naturalized and become good Americans sooner than is usually the case now. The records show that while practically all immigrants save money the larger accumulations are credited to the nationalities that remain here the shortest time, while the smaller amounts are found to the credit of those that settle permanently in our land. Possibly a change in the banking facilities afforded them would not alter their plans for earning a stake here to spend at home.

The only cheap thing these days is the life of an American in Mexico.

RESIDENCE GROUPS

MANY SUCH HAVE BEEN BUILT WITHIN PAST SIX MONTHS IN GLENDALE

The bungalow court Kent & Son are putting up on O. L. Baird and Dr. T. C. Young on North Orange is going up very rapidly. Six of the nine bungalows and the two three-room garages are framed and will soon be entirely enclosed. The other three bungalows will soon be enclosed, also. When this court is completed there will be 13 new residences with six garages in the tract bounded by Doran, Orange, Burchett and Central Aves., every one of which has been built within the last six months and another handsome residence in the same tract has just been begun. The Patterson avenue extension will cut this tract in two across Orange street from it are two fine residences, with fine garages, nearing completion, each representing an investment of not less than \$10,000. This is but one of many small sections in the wonder city of Glendale that have been built all new or largely so, within a very few months, and Evening News advertisements and news notes show that our building program has only gotten fairly started.

BOY OF SIX REPORTS THEFT OF TRICYCLE

Ralph, six-year-old son of D. L. Coler and wife of 109 N. Cedar, was inquiring his way to police headquarters

THE SALE IS ON

CHAUTAQUA TICKETS ON SALE AT PRINCIPAL PLACES OF BUSINESS

"Got your Chautauqua ticket yet?" That's the question that's interesting a half-hundred men and women of our fair city. They are public-spirited, forward-looking folks and are providing for Glendale a week of rare enjoyment and profit. At an expense of less than 20 cents each any person can spend his afternoons or evenings with the best that the musical and lecture platforms furnish. The Chautauqua tent will be all ready for the opening night next Monday. Before that time the local committee hopes to have the full 700 adult tickets sold. Wherever you see the sign, "Chautauqua tickets for sale here," be sure you are invited to enter and call for yours. Thirteen big numbers for \$2.75 for grown-ups; \$1.65 for High School folks and \$1.10 for children.

ters yesterday afternoon to report the theft of his rubber-tired tricycle from the side of the house where a neighbor boy who had borrowed it, placed it when he returned the loan. The little fellow, probably the youngest visitor recorded at police headquarters, made his complaint like a little man, clearly and without hesitation, describing his property and relating all the circumstances. He said it cost \$16 and he wanted the police to get it for him.

TIME TABLE

Pasadena-Ocean Park BUS LINE

Hourly service between Glendale and Pasadena and hourly service between Glendale and the beaches. Cars go east 15 minutes after every hour omitting 9:15 a. m. Going west 30 minutes after every hour. Last car reaching Glendale from beaches 9:15 p. m.

HARMONIOUS MEETING

(Continued from Page One) represent those present from West Glendale.

The committee after half an hour's discussion returned with their report, which was read by C. D. Lusby. The committee decided in favor of the opening and widening of the diagonal boulevard as represented on the map, but recommended that it begin on Broadway at a point about 600 feet west of Pacific avenue at Kenilworth avenue. The report of the committee was adopted and it was decided to instruct the City Trustees that steps be taken immediately to begin proceedings for the opening and widening of the proposed boulevard.

E. U. Emery, T. W. Watson and H. L. Miller were appointed as a committee to arrange for automobiles to be used in transporting the delegates of the State P.-T. A. Assn. to the various points in Glendale. The state meeting of the P.-T. A. Assn. will be held in Los Angeles the latter part of the month.

The next meeting of the Greater Glendale Development Assn. will be held Tuesday evening June 1st, and as that will be the last meeting until September a large attendance is desired. Last evening's meeting was a very harmonious one, and resulted in transacting business that is very beneficial for the City of Glendale.

Advertise it, or advertise for it in the Evening News.

Personals

Thomas C. Layton is making a \$300 addition to his residence at 427 Ivy.

Miss Cora Powell is moving today to an apartment at 410 East Elk avenue.

It is rumored that Glendale will be well represented at the Missouri Picnic to be held in Bixby Park, Long Beach, next Saturday.

Mr. and Mrs. Robert Jensen and Miss Helen Delaine have gone to Big Bear on a fishing trip and are occupying the MacMullin cabin there.

The Glendale Sanitarium has taken out a permit for the moving of one of its small bungalows and seven tent houses across Jackson street.

Mr. Hugert of 1309 San Fernando Road is very low with hemorrhage of the brain. He is eighty years of age and his friends have little hope.

E. E. McQuivy of 451 Ivy is recovering from a belated attack of influenza. He has been quite prostrated by it, but is now gaining strength steadily and hopes soon to be in good health.

THE BLUEBEARD SEARCH

MALCOLM McLAREN TELEGRAPHS WIFE IT IS OVER AND HE WILL BE HOME SOON

Mrs. Malcolm McLaren of North Jackson street has received a telegram from her husband which has considerably relieved her anxieties. It is from Mr. McLaren and is dated El Centro. It states that he will be home tomorrow. He left Saturday with the party headed by Bluebeard Watson to make a last search for the body of Nina Lee Deloney which was found yesterday in a spot pointed out by Watson in the canyon where the search had been previously conducted, but in a different direction from that taken by the searchers. Watson positively identified the body as that of Nina Lee Deloney and the verdict at the post mortem examination was that death had been caused by blows on the head with a blunt instrument and that the victim had been dead for several months. After giving his testimony when the remains were revealed, Watson collapsed. As it was a ghastly and perhaps dangerous trip, Mrs. McLaren is very glad to know it is over and that her husband will soon be at home.

THE OVERLAND FOUR

HAS RIDDEN TO POPULARITY ON WONDERFUL TRIPLEX SPRINGS

"It's easy to make a car in which you can ride fairly comfortably over paved highways," says Mr. Lawrence of the local Overland Agency, "but Overland manufacturers solved the rough-roads problem when they fitted the Overland Four with the wonderful Triplex springs that are the distinguishing feature of that car and make it a comfortable-riding car over the roughest of roads."

Mr. Lawrence says the Overland Four Sedan with its easy-riding springs and its heavy permanent top which shields from sun and rain and the plate glass windows that can be used to exclude dust, wind or rain without cutting off the view, or can be opened to admit the cooling breezes at will, is the last word in riding-comfort in a motor car.

TAKE NOTICE!

The time is soon up in which you can secure outright ownership of oil land in one of the greatest oil belts in the world, for only \$25 an acre. We believe—we know—that this is an opportunity you'll never again be able to duplicate.

"Tampico-Texas Deeded Oil Land" is not to be confused with any other oil offering. We are not selling leases and we have no stock. Instead, we need to you outright—with perfect title—the land, including all oil rights, all mineral rights, all water rights, all timber rights, all lease rights, all royalty rights—everything—nothing reserved. And remember, that in addition to its oil value, this land, for agricultural purposes, is worth now, more than \$25 an acre. This is the one oil offering with the gamble eliminated. You will either make a fortune from your oil rights, or—the "worst that can happen to you"—you'll still own a farm that is worth more than the cost price.

No one interested in a safe investment can fail to be impressed with Tampico-Texas Deeded Oil Land upon investigation. The class of buyers is the best evidence of the merits of the proposition.

In addition to bankers, attorneys, and business men, who form the larger percentage of our clients, many oil and real estate men interested in other districts, have purchased on their own account Tampico-Texas Deeded Oil Land. What better evidence could a prospective purchaser wish? From day to day, we have told you that the \$25 per acre allotment is about gone. There

The Way To Solve The "Help" Problem

Women who can not or do not wish to do their own housework are up against a serious proposition today. There is so much drudgery in the old way of doing housework that girls turn from that kind of employment and go where work is easier and hours are shorter, and consequently it is almost impossible to secure competent help for the home. Many Glendale women are solving this problem by sending their weekly washing to the Glendale Laundry.

How Are You Solving This Problem?

Two Evening Shows, 6:45, 8:45
MATINEE EVERY DAY—2:30

Mrs. Lela King Dye, manager of the Chautauqua, arrived yesterday from Arizona and is at the Central Hotel. Mrs. Dye is conferring with the local committees and making final arrangements for the opening of the big Chautauqua next Monday.

Miller Fishel, who was injured last week in an auto accident when the steering knuckle of his machine broke and the auto turned over several times, is doing very well and making a satisfactory recovery, his physician reports.

Ralph Railsback is delivering Western Union messages again in Glendale and giving the same good service as of yore. His father is working for the S. P. at Niland and his mother and sister are at Paso Poblis. All expect to be residents of Glendale again ere long.

Mrs. Van Hoorbeke of North Glendale is said to be making an excellent recovery. She underwent an operation for appendicitis about three weeks ago and for a time was in quite a critical condition but is now doing nicely and will soon be out.

Mr. and Mrs. G. E. Daniels and daughter of 102 North Central were guests on Sunday of Mr. and Mrs. Klein of South Pasadena on a motor trip to Riverside and Redlands. They had a very delightful trip and on their return were dinner guests of Mr. and Mrs. Klein.

Knights of Pythias held their regular meeting in their lodge hall at Brand and Park avenue Tuesday evening. There was an attendance of about thirty-five and the usual routine of business was followed. Announcement was made that at the next meeting the initiation of new members will take place.

Mrs. E. W. Hayward of 307 N. Kenwood street, is entertaining at dinner tonight Miss Martha Bibb, of Pasadena, who is soon to become the bride of the hostess' son, Payson Hayward, also Mr. and Mrs. George Blue. Mrs. Blue will soon leave for Ireland, her native home, where she plans to spend the summer. She has been living here for six years and this is her first return visit.

Mrs. Hannah Hesse arrived Saturday from Greeley, Colo., accompanied by her daughter, Frances, who is in very feeble health. Miss Frances was established in a hospital for treatment and her mother will visit among relatives here and in other California cities for several months. She has one son here, Z. L., of 409 East Harvard, another in Los Angeles, another in Bishop and still another in Fresno. She lived in Glendale for several years going back to Greeley about two years ago.

Rev. Arthur W. Higby has resigned the pastorate of Broadway Christian Church, Los Angeles, and accepted a call to the pulpit of the Christian Church of Marion, Iowa. He makes the change on June 1st. Rev. Higby has been with the Broadway Church for two years, coming here from Ohio. Though ministering to a Los Angeles congregation Rev. Higby chose to live in Glendale so bought a home at 715 North Louise. He has a wife and four children. Glendale regrets to lose this fine family.

Residents on Rock Glen avenue are very much interested in the progress of work on a residence which is being rebuilt at 1525 Rock Glen on property purchased by Prof. Phaff and wife of Los Angeles which they hope will be completed in time for them to take possession by the middle of the month. Prof. Phaff is a musician with a studio in the Angel City and will be a welcome addition to the Rock Glen colony, which is quite given to gardening and much disgusted with the cool spring which has kept back growth of crops.

Beer still must have some strength in it. Brewery workers in an eastern town announce that they have been given an increase in pay.

LUCKY POTATO GROWERS

Mrs. L. Mintner of 1116 East Wilson avenue says that gardens are the chief interest in her part of the city, but she thinks most people failed to realize the potato shortage and did not plant enough. She and her husband arranged for the usual planting and are thankful they did as the potatoes are now getting large enough to use. She greatly misses her sister and brother-in-law, Mr. and Mrs. A. M. Kavanaugh, of Seattle, who spent the winter here, and recently left by auto for the north. Mrs. Kavanaugh was delighted with Southern California but her husband, who spent eighteen years in the Klondike thinks it is too warm here. He is a ship builder and likes to be up north in the country where most of that work is done. Letters posted en route which Mr. Mintner has received from them indicate a very pleasant homeward trip with stops at San Francisco and Portland to visit relatives.

POPULAR PROGRAM

ENTERTAINMENT FOR SCHOLARSHIP FUND OF P.-T. A. DRAWS BIG HOUSE

A big audience gathered at the High School Tuesday evening for the entertainment put on as a benefit for the scholarship fund of the local Parent-Teacher Federation. Those in attendance at the door say about 470 tickets were taken in, not counting the performers, who numbered about thirty. The entertainers were boy and girl pupils of Mrs. Nanno Woods and the audience included about three hundred children. Mrs. Woods showed great executive ability in the management of the entertainment which went off very smoothly without a single "hitch," and the gross returns to the Federation were in the neighborhood of \$80. Children who took part were: Charles Rives, Willis Rives, Sara Garrett, Paul Nicholson, Anne E. Wilkinson, Kathleen Woods, Esther and Gladys Jones, Edith Kramer, Juanita Selby, Virginia Rowley, Susie Smith, Margaret Longley, Stella Bruce, Wilma Kulp, Francis Wilkinson, Marie Mouffee, Noel Dean, Ruth Whitaker, Orneva Barker, Robert Rives, Jacqueline McDonald, Lois Whiteman, Gerald Dow, Charlotte Marble, Violet Mouffee, Frieda and Bernice Shriner, Naomi and Leona Sprinkle, Mabel and Virginia Horner, Alice Castile, Marie Clark, Mary Pomeroy, Eleanor Volker, Marguerite Park, Pearl Dean, Lewis Boone, Frederick Barker, Frances Kulp, Mildred Maranville, Lillian Lewis, Alberta Swall and Susie Smith.

All the numbers were enthusiastically applauded and greatly enjoyed. Officials of the Federation are much gratified over the patronage of this benefit performance as the fund is used for the benefit of needy students who, but for its help, might be forced to leave school and go to work because unable to provide themselves with the necessary books and clothing. Its beneficiaries have the privilege of repaying the loans if they become able and wish to do so.

GO TO GILMAN HOT SPRINGS

Mr. and Mrs. Robert Westwood of 515 North Maryland avenue and a party of friends have returned from a week-end trip to Gilman Hot Springs in the San Jacinto country. They visited San Jacinto, San Bernardino and Riverside and at the place last named stopped at the Mission Inn. They found the country very green and beautiful making a lovely contrast with the snow-covered mountain peaks, while all the desert country was thickly covered with a great variety of wild flowers. Much of the country is devoted to wheat, which appeared to be a heavy crop. Some of it had been cut.

It's about time for some wide-awake clothing dealer to offer free a pair of overalls with every suit.

TRADE MARK REG.

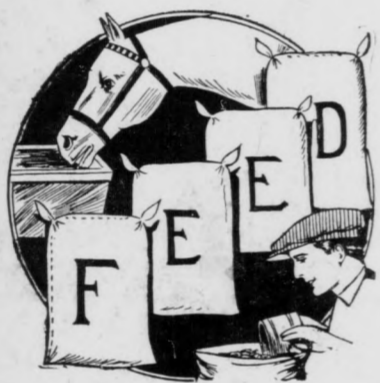

The Good Sense of This Sedan

Only 200 Pounds Heavier Than the Touring Car. Rides on Triplex Springs with Comfort of Heavy Car

EVEN SUMMER EVENINGS sometimes are cool! Dust sometimes blows—or rain. You drive more—more chances with weather. And summer clothes, especially women's clothes, soil easily. Then isn't it good sense to buy a Sedan—Now? Instead of a collapsible top which you never lower, the Overland Four-Door Sedan provides a thick permanent top with greater coolness in hot sun. Plate glass windows give you control of your comfort but never cut off your vision. Triplex Springs make touring easy. Light weight provides economy.

FROM TURKISH LAND

(Continued from Page 1)

probably been in Derindje or Cincan ever since. My, but it was great to get it. The best thing of all was the music box. The very day it came we had to attend a long Turkish theatrical given for the benefit of the Armenian Orphanage. Of course we couldn't understand a word but by the aid of the music box and ten sticks of chewing gum we managed to get through the evening very well. Really every one who drops in plays that funny little thing and it has given us no end of pleasure. Then last week I also received three pounds sterling and I do think you and Uncle Holland are the nicest ever. I've put it away to use when I am ready to buy one nice rug for myself. Sometimes one can find a real Bokhara for forty or fifty liras. A lira is now worth almost a dollar. I've been having such very interesting times and have tried to write everything that has occurred. The only thing of special interest since my last letter was a ticket selling orgy which I was forced to undergo.

The Armenians here help support their orphanage to the extent of paying the salaries of the workers and the rent of the buildings. Sometimes it is pretty hard for them to do this and they don't know just where next month's money is coming from. Such was the case the first of January so some of the young people of the community agreed to give a theatrical if I would sell the tickets. The Turks and Greeks will buy from the Americans because they are ashamed not to, but they won't from a native. My method of selling tickets is to walk up to some fat, wealthy, old Turk or Greek and say: "I'm collecting money for the Armenian Orphanage and I'd like 50 pounds." Having gotten the money I casually mention that a theatrical performance will be given at Bodveonghlon's cinema and ask him how many tickets he wants. Generally, it is one or two. Rather expensive seats, aren't they?

I not only went to the men at their offices but caught the Turkish ladies in their houses. Two Turkish girls whom I know and who know a little English went with me or rather took me to the Turkish houses. It was the first time I had had an opportunity of getting inside real Turkish homes and it certainly was interesting.

Most of the houses have their gardens in the back and their front doors opening right on to the street. One knocks or if there chances to be a bell, rings. The door is mysteriously opened by a wire from above. The lower floor is usually cement and is the junk shop containing bales of hay, clothing hung up to dry, old harness, etc., etc.

At the top of the first flight of stairs one is met by either a black slave or a child servant—most probably Armenian. Stiff divans covered with rugs, sometimes two or three deep, line the walls which are also hung with rugs. The floors, too, share the same fate and as the Turks do not mind mixing colors and varieties the effect is often startling. I had a great time talking with the Turkish ladies and looking at their beautiful costumes which they quite willingly showed me. Most of the women are discontented with their lot and speak longingly of Constantinople where the ladies no longer wear veils. The younger ones especially object to the old regime. A little friend of mine whose father is trying to force her to marry, absolutely refuses to get her trousseau ready, declaring that she won't marry and that she is going back to school.

March 8th: This letter has been on a journey with me, but it didn't get finished even then.

I went on a yihle trip to the interior to see about some orphans. Mr. Gruenberg, the little Swiss assistant of Mr. Curt's, of whom I have told you, went also to see about grain distribution. A certain amount of grain has been turned over to us by the government and we investigate and distribute it to the village poor in our district. This grain is the taxes that has been wrung from the poor for some years past.

We had some Turkish gendarme guards and proceeded in great style. The first part of our trip was the most interesting because we drove not only by the sea but actually in it for half a day. It was great sport watching the waves roll under the yihle and wondering how long it would take to dry out if we got soaked.

Leaving the sea we proceeded inland through the snowy mountains and nearly froze to death. I've never seen such snow as we ran into. The clouds opened and it fell out in huge drifts. Fortunately we had three horses and the gendarmes were well mounted so we got through easily.

It was a very profitable trip. I collected 262 more orphans and 300 cooties. I also rode on one of the high Circassian saddles and hunted wild hogs. I saw three but—they got away.

One night we stayed at a Turkish home in a village. Unfortunately the man had only one wife but there were two of his wife's relatives living with them. These ladies insisted that I share their room in which they had a large open fireplace and a charcoal fire in a mongul. They were horrified to find that I preferred a cold room and even opened

You'll Get Only What You Pay For

"...The shortage of teachers in Los Angeles County was so acute this whole year that it has been impossible to keep all schools open full time and the loss of time ranged from one week to as much as four months.

"...there will be more schools which will not open for the same reason, NEXT YEAR.

"...only better pay, to attract teachers, will insure an education for your child.

"...you taxpayers, only by adding to your county school rate, will place all the schools in our county on a sound financial basis.

"...you will guarantee good schools, decently paid teachers, and children taught the great American principle of the square deal, by those who get one."

For Your Children's Sake!

Citizens' School Survey Committee
of Los Angeles City and County

a window. They came in the next morning to dig me out, thinking I would surely be under a drift and frozen to death.

Mr. Gruenberg and I had a whole chicken each meal and we sat on the floor cross-legged with a little round table between us and ate every scrap. He was a very nice person to travel with because no matter how impossible the place was he always managed to find a mongul and food of some sort. He gave me French lessons on the road during the day and in the khans by night and I returned them with English lessons so we got along famously.

On my return to civilization I found that we had a new director, Mr. Curt, and rejoiced duly.

After Mr. Peabody left we were very anxious to have Walter Curt for director as he had been with us ever since June and understood the work pretty thoroughly.

When Dr. Newton was sent to us it was a great disappointment but Mr. Curt went to Constantinople and got the position.

We also have a larger appropriation, so we are starting tailoring, carpentering, shoe making, dress-making, lace and embroidery work, knitting, etc., etc., for the orphans. The best thing of all is a big farm on which we are putting the

refugees to work. We are also going to furnish seeds for spring planting and as many oxen as possible. The refugees are returning to their farms and finding nothing there, and if they can get animals and seeds this spring they can make enough on their crops to build some small shelters and live through the coming winter.

When I got home I also found the remains of two Xmas boxes, the contents of which had been mostly stolen en route. I was awfully glad to get the remains, however, because I was under the impression that they had all gone down.

I found a Presbyterian cook book, "The Recreation of Brian Kent," a pair of scissors, two pairs of stockings, a clothes line, two magazines and some copies of the N. Y. Times. The latter we had a great time reading for Sunday morning breakfast and pretending we were at home.

March 9th: A boat has come in and my letter must go at once. The ship captains are kind enough to send for our mail.

I have decided to stay at least four months longer in Samsoun because at the end of that time my work may be in such shape as to be turned over to the natives, while if a new person came in now it would take much longer.

NEAR EAST IN STRANGLE HOLD OF MOHAMMEDANISM

"The evangelism of the world seems easy when you sit in a great missionary convention or read reports of a world convention or read reports of a world survey which shows by statistics just how the job is to be done. But somehow it looks different when you are face to face with the evangelization of one Moslem city," says Samuel M. Zwemer, missionary in Mohammedan lands from China to Cairo, a traveler who knows life from the back of a camel, that hard ship of the desert, and who has been imprisoned and robbed by those to whom he preached. "Some things cannot be put in tables of statistics. You can photograph picturesque palms and rivers but cannot photograph smells, or make a chart of typhoid germs in a tropical city, or tabulate loneliness, or show the curve of hope deferred which makes the heart sick. Yet these are the things which make the difference between the shedding of ink and the shedding of blood for the advancement of the Kingdom."

Islam has a strangle hold on the Near East and is spreading until there are now mosques in Capetown and a Moslem colony in Australia, disturbing facts for which Mr. Zwemer accounts by the character of Islamism. "It is a religion of the heart, a religion of mysticism and of undying hope. When it reaches a pagan in black Africa it gives him a touch with God which makes him stand straighter and fight harder in this world."

Arabia and Mesopotamia represent one of the largest "unmissioned areas of the world." Dr. Zwemer has said elsewhere, "Arabia is still a challenge to Christendom." On a coast 400 miles long there are only five centers boasting resident missionaries. Inland there is not a mission station.

"These facts will help you to understand what I mean," says Mr. Zwemer, "when I say that the greatest danger facing the Inter-church Movement is that it will underestimate the strength of its foes."—World Outlook.

PREVENTION IS BEST

While the fly-swatting campaign each summer is not to be discouraged where it is made necessary by the presence of flies, Dr. Lincoln Furbush, health officer of Philadelphia, points out that there is an even more logical way of conducting the war on disease that is disseminated by flies, and that is by striking the pest at the source. The warning issued by the Philadelphia health department is timely now, because fly extermination is a work that cannot be too soon begun. The slogan, "Swat the breeding places of flies," at least sounds logical. The doctor points out that the fly swatter and fly paper and poison are indications only of the extent to which we suffer, and do not remove the cause. They are better than nothing, but that is the best that can be said about them.

Flies as a matter of fact, are not the universal pests in this country that they were even twenty years ago. The coming of the automobile, with corresponding decrease in the number of stables within city limits, and more general obedience to sanitary laws have made a noticeable difference, which gives emphasis to the point that the thing can be done if people go at it the right way. One hundred per cent fly eradication is not too much reasonably to hope for.

ON KNOWING TOO MUCH

There are times, you know, even though our knowledge would do others good, we had best keep it to ourselves.

One Sunday morning a minister who had an engagement to preach in a strange town was late in arriving at the town. On his way up from the depot he met a little boy with a fishpole, and he asked:

"Little boy, could you tell me where the Christian church is?"

The little fellow told him, and then the minister remarked:

"What are you doing with the fishpole on Sunday morning?"

"I'm goin' fishin'," the boy said.

"Now, if you will just put that fishpole in the corner somewhere," said the preacher, "and go with me, I will show you the way to heaven."

"Show me the way to heaven?" the boy remarked. "Hell, you you didn't know where the Christian church was!"

THAT BLUE AND GOLD BUTTON

(From California Legion Monthly)

The Western States are famous for informality—for off-hand friendliness that is a conspicuous and pleasing feature to visiting Easterners. No Western State leads California in this. Californians feel friendly towards everybody and want everybody to know it. As a consequence everybody feels friendly towards Californians.

Members in the American Legion in California can afford to carry this spirit farther, because they are not only Californians but are members of a fraternity that not only stands for the best in "Californianism" but in Americanism.

The Legion is purely a civilian organization. To members the military salute passed with the passing from them of the uniform. The civilian salute—a pleasant and friendly nod—now holds in full force and effect. Why not use it among all members of the Legion?

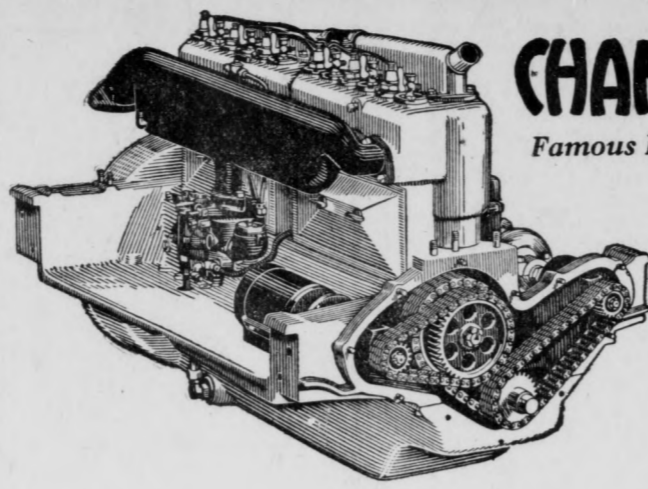

Every time you see a man who wears the Legion button, nod to him as you would a friend. Speak to him if you have an opportunity to do so. Swap cards with him. Let the button stand as the only introduction necessary.

We have no grips, signs or passwords. The button stands for all three. If we make recognition between wearers of the button universal in California, it will shortly become universal everywhere in the United States, and the Legion member who wears the outward and visible sign of membership will everywhere feel that he is living among friends.

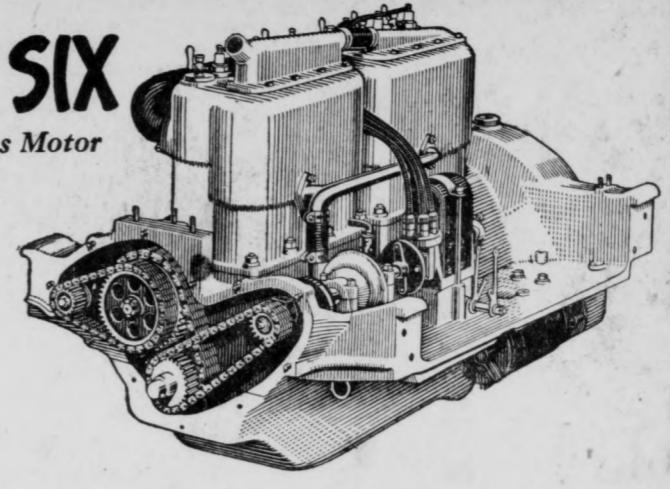

"Offishness" will never get us anywhere or get the Legion anywhere. A universal, friendly recognition of the insignia of the Legion would soon become one of the big things about Legion membership. Try it—right away. Give the next wearer of a Legion button you meet, whether you ever saw him before or not, a friendly greeting; and then keep on doing it until it becomes a habit. We'll all be surprised at the far-reaching results.

Most people live in quotation marks of their lives. They would die in them if they could, and go to some one else's heaven. But folk are really much more interesting than other folk, if they would only dare to be it.—Rev. J. Edgar Park.

It is a good thing for United States senators that they are paid by the year. They would starve to death on piece-work.

CHANDLER SIX
Famous For Its Marvelous Motor

See How Chandler Checks With High-Priced Cars

THE Chandler Six throughout its seven years of production has been distinguished for its many distinctively superior features of design and equipment which are used also on the highest priced American cars, and not used in any considerable degree by cars now priced hundreds of dollars higher than the Chandler. See, then, how the Chandler checks with ten of the best-known high-priced cars in these features selected as being characteristic of high-grade design and most efficient service.

Superior Chandler Features and the High-Priced Cars that use Them

ONE PIECE ALUMINUM MOTOR BASE, which ties the frame of the car together at four points, thus providing a stiffer frame as well as a more rigid motor mounting. Also used by Packard, Locomobile (Bronze), Mercer, Winton, Fiat, Brewster, Stutz, Pierce-Arrow.

SILENT CHAIN DRIVE for Motor Shafts. Also used by Winton, Packard, Cadillac, Brewster, Fiat, Mercer.

TORQUE ARM OR TUBE. Also used by Pierce-Arrow, Locomobile, Brewster, Winton, Cadillac, Packard, Stutz.

ANNULAR BALL-BEARING TRANSMISSION. Also used by Winton, Stutz, Pierce-Arrow, Brewster, Cadillac, Fiat, Locomobile, Packard, Marmon.

ANNULAR BALL-BEARING DIFFERENTIAL. Also used by Marmon, Stutz,

Pierce-Arrow, Fiat, Brewster, Packard, Locomobile.

ANNULAR BALL-BEARING REAR WHEELS. Also used by Packard, Stutz, Locomobile, Marmon, Pierce-Arrow, Fiat, Mercer.

HIGH TENSION MAGNETO IGNITION. Also used by Locomobile, Mercer, Fiat, Brewster, Winton.

THEN, see how these seven cars—sixes which may be considered competitive to the Chandler—do NOT check

One car, listing at \$2975, checks with Chandler in only one feature
One car, listing at \$2685, checks with Chandler in only three features
One car, listing at \$2400, checks with Chandler in only one feature

One car, listing at \$2195, checks with Chandler in only two features
One car, listing at \$2045, checks with Chandler in only two features
One car, listing at \$1945, checks with Chandler in only one feature
One car, listing at \$2250, does not check with Chandler in any feature

Not a single one of the seven makes of medium-priced Sixes referred to offers you High Tension Magneto Ignition. The Chandler offers you Bosch, recognized the world over as the best ignition system. Only one of them offers you the silent chain drive, although another one of them in its higher-priced model (\$3450), incorporates this feature.

These Statements are Facts and they Give You a Few of the Reasons for Chandler Leadership

The specification data quoted is substantiated, in every instance, by the manufacturers of the cars referred to.

OPPOSES BONDS

(Continued from Page One)
in office. So in the event of death or resignation of three members of the present board, their successors could if they saw fit proceed to buy the site rejected by the voters and say the public be damned.

General Bragg's definition of an honest man was a man "who when once bought would stay bought," but our present high school Trustees will not stay bought or rather put. I presume if we defeat the proposed site they will call another election requesting us to vote on the west half of the block and so on until the voters out of weariness fail to see the joker in the deck.

I take no stock in straw votes but will do all I possibly can to aid in voting bonds for present needs and for the purchase of a brand new site that will be a credit to the present generation and the pride of our children's children.

Yours for the good of the Glendale Union High School and the faculty. Under the prosperous times of a democratic administration they should have their salaries raised.

ALEX MITCHELL.

STOLER'S DOG GOT HEFLIN'S GOAT

A. Jasper Hefflin owned a goat
A Toggenburg of fancy breed
And C. C. Stoler owned a dog
A bull dog which was pedigreed.

The bull dog didn't like the goat
And so he jumped the fence between
And chewed and bit Miss Toggenburg
Thus spoiling milk that should have been.

The Hefflins then employed Attorney M. A. Woodward to bring an action in Superior Court for damage to their goat and Stoler employed Burt Woodward and James McBryde to defend them from said legal attack. The case came up for trial Friday.

lasted all day and was continued to Monday, May 3d, and finished late Monday afternoon with judgment for plaintiffs.

Some amusing incidents occurred in the trial, one of which was when Mrs. Stoler mistook her feet for inches, or vice versa, and testified that her bull dog was eighteen feet high and weighed forty-five pounds. Another was when plaintiff complained that the dog had chased his fresh goat, and the goat had just got fresh. One of defendants' witnesses was asked: "Do you get many goats?" to which he replied, "Not right now," and there were many other like incidents causing the spectators to laugh loudly, the bailiff to pound uselessly for order and the judge to apply his handkerchief. Justice was done and everyone had a good time.

M. A. WOODWARD.

SUNSHINE

Oh, the beautiful bright sunshine,
With its rays so clear and light,
Giving luster to bloom and vine,
Indeed a very pleasant sight.
All verdure its warmth doth entwine
So beautiful and gay and so bright.

Sunlight dispels the darkest gloom,
And upsets many a fretful ill,
And in the fruit it will make room
For the flower and joyous thrill,
Of the color 'twill make the bloom
That our satisfaction will fill.

Sunshine 'tis from the God of love,
From His home in heaven so high,
With gentle Spirit like a dove,
With joy from the glorious sky,
In joyous splendor from above
An angel wings to heaven fly.

Christ the sunshine of that fair land
Free from all sorrows and woe,
To spread the light a joyous band
Reflecting the light as we go.
Is our order and great command,
Praise God from whom all blessings flow.

—R. E. Phillips.

NOTICE OF HIGH SCHOOL BOND ELECTION
Notice is hereby given to the qualified electors of Glendale Union High School District of Los Angeles County, California, that, in accordance with the provisions of the Political Code of the State of California, an election will be held on the 10th day of May, 1920, at the polling places named in the hereinafter designated precincts in this High School District, between the hours of 8 a. m. and 6 p. m. (during which period and between which hours the polls shall remain open), at which election the question of issuing and selling bonds of this High School District to the amount of Two Hundred Fifty Thousand Dollars, for the purpose of raising money for purchasing High School lots, for building or purchasing one or more High School buildings, or making alterations or additions to the High School building or buildings, for insuring High School buildings, for supplying High School buildings with furniture or necessary apparatus, and for improving the grounds, shall be submitted to the qualified electors of said District and be voted upon.

The said bonds proposed to be issued and sold shall be of the denomination of One Thousand Dollars each, and shall bear interest at the rate of six per cent per annum, payable semi-annually, and shall be numbered from 1 to 250 consecutively, payable as follows, to-wit:
Bonds Nos. 1 to 10, inclusive, each One Thousand Dollars, to run 1 year,
Bonds Nos. 11 to 20, inclusive, each One Thousand Dollars, to run 2 years,
Bonds Nos. 21 to 30, inclusive, each One Thousand Dollars, to run 3 years,
Bonds Nos. 31 to 40, inclusive, each One Thousand Dollars, to run 4 years,
Bonds Nos. 41 to 50, inclusive, each One Thousand Dollars, to run 5 years,
Bonds Nos. 51 to 60, inclusive, each One Thousand Dollars, to run 6 years,
Bonds Nos. 61 to 70, inclusive, each One Thousand Dollars, to run 7 years,
Bonds Nos. 71 to 80, inclusive, each One Thousand Dollars, to run 8 years,
Bonds Nos. 81 to 90, inclusive, each One Thousand Dollars, to run 9 years,
Bonds Nos. 91 to 100, inclusive, each One Thousand Dollars, to run 10 years,
Bonds Nos. 101 to 110, inclusive, each One Thousand Dollars, to run 11 years,
Bonds Nos. 111 to 120, inclusive, each One Thousand Dollars, to run 12 years,
Bonds Nos. 121 to 130, inclusive, each One Thousand Dollars, to run 13 years,
Bonds Nos. 131 to 140, inclusive, each One Thousand Dollars, to run 14 years,
Bonds Nos. 141 to 150, inclusive, each One Thousand Dollars, to run 15 years,
Bonds Nos. 151 to 160, inclusive, each One Thousand Dollars, to run 16 years,
Bonds Nos. 161 to 170, inclusive, each One Thousand Dollars, to run 17 years,
Bonds Nos. 171 to 180, inclusive, each One Thousand Dollars, to run 18 years,
Bonds Nos. 181 to 190, inclusive, each One Thousand Dollars, to run 19 years,
Bonds Nos. 191 to 200, inclusive, each One Thousand Dollars, to run 20 years,
Bonds Nos. 201 to 210, inclusive, each One Thousand Dollars, to run 21 years,
Bonds Nos. 211 to 220, inclusive, each One Thousand Dollars, to run 22 years,
Bonds Nos. 221 to 230, inclusive, each One Thousand Dollars, to run 23 years,
Bonds Nos. 231 to 240, inclusive, each One Thousand Dollars, to run 24 years,
Bonds Nos. 241 to 250, inclusive, each One Thousand Dollars, to run 25 years.

That for the purpose of holding said election, the said Glendale Union High School District shall be and it is hereby divided into six High School bond election precincts, designated as follows, to-wit:
Glendale City Precinct No. 1, Crescenta Precinct, Eagle Rock City Precinct, Glorietta Precinct, Glendale City Precinct No. 2, Glendale City Precinct No. 3. The said precincts, with their respective polling places and officers of election, shall be as follows:

CRESCENTA PRECINCT
Shall consist of all that portion of the Glendale Union High School District included within Crescenta School District. The polling place therein shall be the Crescenta School, and the officers of election shall be as follows:
Inspector: Rose G. Nettleton.
Judges: L. A. Potter, Louise Erwin.

EAGLE ROCK CITY PRECINCT
Shall consist of all that portion of the Glendale Union High School District included within Eagle Rock City School District. The polling place therein shall be the Central School in said District, and the officers of election shall be as follows:
Inspector: G. N. Sprague.
Judges: Edith M. Eckert, Carrie A. Roberts.

GLORIETTA PRECINCT
Shall consist of all that portion of the Glendale Union High School District included within Glorietta School District. The polling place therein shall be the Glorietta School, and the officers of election shall be as follows:
Inspector: Mary L. Lewis.
Judges: Mary B. Woodruff, Elizabeth Darlington.

GLENDALE CITY PRECINCT NO. 1
Shall consist of all that part of Glendale City School District (being part of the Glendale Union High School District) bounded as follows:
Beginning at the intersection of the westerly boundary line of said Glendale City School District with the produced center line of that part of Windsor Road lying west of Columbus Avenue; thence southeasterly, northeasterly, northerly, easterly, northerly, easterly, and northerly, following the boundary line of said Glendale City School District along all its various courses to its intersection with the center line of Rock Glen Avenue; thence westerly along the center line of Rock Glen Avenue to the center line of Verdugo Road; thence southerly along the center line of Verdugo Road to the center line of Windsor Road; thence westerly along the center line of Windsor Road to the east line of Brand Boulevard; thence southerly along the east line of Brand Boulevard to the produced center line of that part of Windsor Road lying west of Brand Boulevard; thence westerly along said produced center line and the center line of the last mentioned part of Windsor Road to the center line of Columbus Avenue; thence southerly along the center line of Columbus Avenue to the center line of that part of Windsor Road lying west of Columbus Avenue; thence westerly along said last mentioned center line of Windsor Road and its prolongation to the point of beginning.

The polling place therein shall be at No. 1021-A South Brand Boulevard in the City of Glendale and the officers of election shall be as follows:
Inspector: Mai Henry.
Judges: Cora Hickman, Nellie B. Simpson.

GLENDALE CITY PRECINCT NO. 2
Shall consist of all that portion of Glendale City School District (being part of the Glendale Union High School District) bounded as follows:
Beginning at the intersection of the westerly boundary line of said Glendale City School District with the produced center line of that part of Windsor Road lying west of Columbus Avenue; thence northwesterly along said westerly boundary line to its intersection with the produced center line of that part of Doran Street lying west of Columbus Avenue; thence easterly along said produced center line and the center line of Doran Street to the center line of Columbus Avenue; thence southerly along the center line of Columbus Avenue to the center line of that part of Doran Street lying just east of Columbus Avenue; thence easterly along the center line of the last mentioned part of Doran Street to the center line of Central Avenue; thence northerly along the center line of Central Avenue to the center line of that part of Doran Street lying east of Central Avenue; thence easterly along the center line of the last mentioned part of Doran Street to the center line of Howard Street, north of Doran Street; thence northerly along the center line of said Howard Street and its prolongation to the northerly boundary line of said Glendale City School District; thence easterly and southerly, following the boundary line of said Glendale City School District along all its various courses to the center line of Rock Glen Avenue; thence westerly along the center line of Rock Glen Avenue to the center line of Verdugo Road; thence southerly along the center line of Verdugo Road to the center line of Windsor Road; thence westerly along the center line of Windsor Road to the east line of Brand Boulevard; thence southerly along the east line of Brand Boulevard to the produced center line of that part of Windsor Road lying west of Brand Boulevard; thence westerly along said produced center line and the center line of said last mentioned part of Windsor Road to the center line of Columbus Avenue; thence southerly along the center line of Columbus Avenue to the center line of that part of Windsor Road lying west of Columbus Avenue; thence westerly along said last mentioned center line of Windsor Road and its prolongation to the point of beginning.

The polling place therein shall be the Glendale Union High School, and the officers of election shall be as follows:
Inspector: J. E. Henderson.
Judges: May C. Church, Mary E. Shropshire.

GLENDALE CITY PRECINCT NO. 3
Shall consist of all that portion of the Glendale City School District (being part of the Glendale Union High School District) bounded as follows:
Beginning at the intersection of the westerly boundary line of said Glendale City School District with the produced center line of that part of Doran Street lying west of Columbus Avenue; thence easterly along said produced center line and the center line of Doran Street to the center line of Columbus Avenue; thence southerly along the center line of Columbus Avenue to the center line of that part of Doran Street lying just east of Columbus Avenue; thence easterly along the center line of the last mentioned part of Doran Street to the center line of Central Avenue; thence northerly along the center line of Central Avenue to the center line of that part of Doran Street lying east of Central Avenue; thence easterly along the center line of the last mentioned part of Doran Street to the center line of Howard Street, north of Doran Street; thence northerly along the center line of said Howard Street and its prolongation to the northerly boundary line of said Glendale City School District; thence westerly and southerly, following the boundary line of said Glendale City School District along all its various courses to the point of beginning.

The polling place therein shall be the Central Avenue School, and the officers of election shall be as follows:
Inspector: Oscar M. Newby.
Judges: Beryl Cross, Nora S. Burr.

The said Inspector and Judges above named, being competent and qualified electors of Glendale Union High School District, shall conduct such election at the time and in the respective places above set forth, and shall make return of said election pursuant to law. Each qualified elector of said Union High School District shall be entitled to vote only in the High School bond election precinct of which he is a resident.

IN WITNESS WHEREOF, we have hereunto set our hands this 15th day of April, 1920.
HARTLEY SHAW,

DAN CAMPBELL.

High School Board of Glendale Union High School District of Los Angeles County, California.

**Millions
use
MAVIS**

The purpose of perfumes, powders, creams and rouge is to make you more attractive. Therefore unless you use the best it is better to use none at all.

Inferior preparations have an effect just the opposite of that intended and eventually they injure the skin permanently.

**Discriminating Women use
Mavis or Lady Mary**

These preparations have that dainty, elusive quality that adds to the charm of the woman who uses them and at the same time they are inconspicuous.

You feel the charm of the woman who uses Mavis or Lady Mary. Women who use inferior preparations lack this attraction.

**We Carry a Complete Line of Mavis and
Lady Mary Preparations**

VOTERS TO DECIDE SITE
At the time of preparing the call for the election to vote bonds to the amount of \$250,000, the Board of Trustees of the Glendale Union High School district adopted the following resolution:
WHEREAS, this Board has called an election to be held in Glendale Union High School District May 10, 1920, to vote on the question of issuing bonds of said district in the sum of \$250,000.00; and,
WHEREAS, it has come to the attention of the Board that some electors of said District propose if said bond issue is carried that the present high school site should be abandoned and land acquired at some other place for a new site, and other electors of said district are opposed to said proposition, and this Board desires to know the opinion of the voters on the question of the retention of the present location of the Glendale Union High School as the permanent site of the high school with such enlargements of the grounds as may be necessary for that purpose? Said question shall be printed on the ballots used at said election hereby called and after it shall be the words "yes" and "no" with voting squares in which electors shall indicate their choice by marking a cross; upon said ballots shall also be printed the following part of this Resolution:
BE IT RESOLVED that this Board hereby agrees and pledges itself in the event that said bonds in the sum of \$250,000.00 are voted, that it will be governed in the matter of the high school site by the majority of the votes cast upon the question of retention of the present site—that is, if the majority of the majority of the electors thereon.

NOW, THEREFORE, BE IT RESOLVED that the Board hereby calls an election to be held in Glendale Union High School District on May 10, 1920, at the same voting places, at the same time and by the same officers of election as the above mentioned votes cast are in favor of retention of the present site, this Board will proceed to acquire the block of land situated immediately east of the present site for enlargement of the grounds and will construct suitable buildings for the use of the high school, including a class room building, a heating plant and a girls' gymnasium or as many thereof as can be constructed out of said bond issue and such temporary accommodations as may seem necessary pending the completion of permanent buildings; and if the majority of votes cast are against retention of the present site this Board will proceed to acquire a new site for the high school at some suitable location to be chosen by the electors of the District at a subsequent election, and will also construct on the present site such temporary buildings or additions or alterations of the present buildings as may be necessary to accommodate the school until new buildings can be built on the new site, estimated to be about five years, and any surplus of the bond issue remaining after these purposes are carried out will not be expended until the new site is to be improved.

WORTH WHILE ASSETS

Every dollar you place in a bank is returned to you three-fold in credit, strength of character and high standing in the community.

These are the greatest assets a man can have and they are worthy of any effort he may make to gain them.

Are these assets yours?

Start today to make them yours by opening an account at this bank.

The First National Bank
Glendale, Cal.

The senate is to investigate housing conditions in the United States. Everybody outside the senate knows what the investigators will find.

Even the most hard-boiled railroad hater now admits that at least some of the lines in this country do perform an almost useful service.

While waiting for the political conventions to save the country, the wise man will not forget to plant his backyard garden.

Of course, the straw votes show which way the wind is blowing, but the political winds are as variable as a maiden's mind.

One difficulty the "Overalls" movement has to surmount is the fact that those to whom the saving means most may be most loath to adopt the simple garb.
