—“Sixes” Exclusively

“Master Six” 4-Passenger Phaeton—\$2400

The “Six” of Super-Distinction

No more distinctively beautiful motor car has ever claimed the admiration of the American automobile field. A foreign, racy appearance has been imparted to the lines of this newest “Master Six” by building the body lower than usual.

Experts concede this Four-Passenger Phaeton a ranking place with the finest European cars to which the motoring world has long turned for originality in design.

New Seating Arrangement

In this 1915 “Master Six” Phaeton is offered a new seating arrangement of rare convenience and comfort. The front seats are divided by an aisle of ample space and all the seats are slightly sloped to give absolute ease in riding.

Motor Car Goal Attained

This new 1915 “Master Six” presents a perfect combination of all the desirable

Let the Chalmers Standard Road Drive prove to you the fitness of Chalmers cars. Our nearest dealer will be glad to take you at your convenience.

features other motor car makers have long been striving to achieve.

The rugged motor possesses wonderful flexibility and tremendous power. Manufactured completely in the Chalmers plant of the finest materials, this splendid car has the strength and quality to keep sweet running and give efficient service for years and years.

Chalmers Refinements

A great, strong torque tube and rod take up all torsion strains and make the “Master Six” Phaeton cling closely to the highest crowned roads and ride with utmost smoothness.

Chalmers “Sixes” are truly silent cars. There’s no rattle. No vibration to tire your nerves and tear at the mechanism.

All open cars have electric starter, Chalmers tailor-made top, rain vision windshield, Klaxon-made horn, demountable rims, full electric lights. No car carries better or more complete equipment.

Chalmers Motor Company, Detroit

1915 Hupmobile

Car of the American Family

\$1200

For the third time the Hupp Motor Car Company has produced a car which, we believe, will prove immeasurably superior to any that assumes to compete with it.

The first Hupmobile "20" made for itself, and held against all rivalry, an immense following, at home and abroad.

The "32" put the Hupmobile into another class and surpassed the "20" in world-wide popularity.

This new Hupmobile bids fair to eclipse them both, as the *very utmost a motorist can desire*.

A highly specialized, individualized, *Hupmobilized* motor car which gives you, we believe, more service and comfort for your money that you can find if you comb the market a dozen times over.

SATISFACTION!

There is just one and only one human motive that causes men to buy things, and that motive is—satisfaction, contentment in possession, use and enjoyment.

WINTON SIX

Every Winton Six is practically built to order. Your Winton Six will be finished to meet *your* taste, giving it a personality and a distinction representative of a discriminating owner. It will be a car to command respect and win commendation wherever you may drive it, and you will enjoy a personal satisfaction above any you have yet experienced as an automobile owner. And that personal satisfaction is, after all, the only real reason for buying any car. Catalog upon request. The Winton Motor Car Company, 124 Berea Road, Cleveland. Branch Houses in 20 Cities.

A New Beauty for 1915

With Distinctive Individuality for You Personally

THE rare beauty of this car challenges admiration. Best of all, we give *your personal* car a special individuality to meet your own good taste and to distinguish *your* car from every other owner's car. But that's a matter we prefer to take up with you personally.

All the sterling features of Winton construction are retained in Model 21. The enlarged radiator and bonnet blend into a pleasing unit with the new body, which is of singularly attractive design. The raised stream-line panel has been seen heretofore on limousines only. Doors are wider and swing on concealed hinges. No outside handles. Seats are roomier. The cowl board arrangement is new. A tonneau light is provided. Springs are always automatically oiled by Dann cushion inserts. Wheel base 136 inches (on four-passenger and runabout cars, 130 inches). Especial provision has been made for the most satisfying comfort.

WINTON SIX

Note the Equipment:

- | | |
|---|--|
| Electric starter, or Air starter. You may have your choice WITHOUT extra charge. | First-grade Warner speedometer. |
| Complete electric lighting system. | Improved tire carriers at rear. |
| One-man top of finest mohair: has easily handled curtains. | Demountable rims. |
| New-design rain-vision glass front. | Tires—37x5-inch, all around. |
| Klaxon electric horn, concealed under bonnet. | Power-driven tire pump. |
| Waltham eight-day clock, with highest-grade watch movement. | Full set of tools. |
| | The price of the five-passenger car, fully equipped, is \$3250, and— |
| | You may write your own guarantee. |

Write for 1915 catalog; now ready. Ask us about the exclusive feature of individuality for your own car.

SAXON \$395

F. O. B. Detroit

NOT a Cyclecar

Absolutely the Best Two-Passenger Automobile Built

The Saxon car to-day is the best two-passenger automobile in the whole world at anywhere near its price.

It has more room than any other; it is more comfortable to ride in; it is better looking; it has better materials; it is more up-to-date in design; it has plenty of power for all emergencies and all road conditions, and it can be kept running for less cost per mile than any other car.

The Saxon is an advanced example of the type of car toward which the public demand is tending—a sturdy, thoroughly dependable motor car of standard design, both good and good looking. It costs little to buy and little to keep. It is the car of widest usefulness.

In owners' hands Saxon cars are averaging from 28 to 35 miles per gallon of gasoline. Tire expense is so low as to be almost negligible.

Everything in Good Taste

When you look at the Saxon you do not think first of low price, for the Saxon does not look like a cheap car. There is about it something stylish, distinctive, different, yet not freakish; everything is in good taste. It has the same

type of body as cars costing \$1,500 to \$2,000. Its tapered bonnet, characteristic radiator, moulded oval fenders, graceful running boards give it a snap and style never before approached in any low priced car.

There is plenty of width in the Saxon for two people to sit comfortably. Plenty of length for the tallest man to stretch his legs. Good cushions to sit on and a comfortable back to lean against.

The Saxon with running boards and other improvements has caused a wave of Saxon enthusiasm throughout the country. Write for catalog giving full description of the new Saxon. Address Dept. W. A.

BURPEE'S

"The Leading American Seed Catalog"

As usual it is sent unsolicited only to "Customers of Record." We shall be pleased, however, to mail a copy immediately upon application (a postal card will do) to every one who appreciates **QUALITY IN SEEDS.**

This Silent Salesman

(and we employ no "talking" salesman to solicit orders) tells the plain truth about the **Best Seeds That Can Be Grown.** Besides colored plates of Burpee Specialties, this bright book of 182 pages shows hundreds of the choicest vegetables and most beautiful flowers, illustrated from photographs. It is almost indispensable to all who garden, either for pleasure or profit.

The "HOUSE OF BURPEE"

is known the world over, not only as **EXPERTS IN SWEET PEAS,** but also as **SEED SPECIALISTS.** No other American firm has ever introduced so many novelties of sterling value—and no other growers supply seeds annually direct to so many planters. It might be to your interest to read **THE BURPEE ANNUAL.**

It will cost you only one cent for a postcard to send us your address, and you are under no obligation to buy. We never annoy applicants with "follow up" letters.

Shall We Mail You a Copy?

If so, kindly write to-day.

W. Atlee Burpee & Co.
Burpee Buildings, Philadelphia

FOR GUNS—3 in One gun oil lubricates perfectly lock, trigger, ejector and break joints. It cleans and polishes like new the barrels, inside and out—also the wooden stock. Absolutely prevents rust. All leading gun manufacturers use and recommend 3 in One.

FOR SEWING MACHINES—3 in One lubricates exactly right every action part, making the machine run 100 times easier. Saves the user's strength—saves wear on the bearings and prevents repair bills. Never collects any dirt, never gums or clogs. It cleans and polishes the wooden case, and prevents rust on all metal surfaces.

FOR RAZORS—3 in One means shaving luxury. Do this: Draw "safety" or "ordinary" blade between thumb and first finger moistened with a little 3 in One. Strop, and secure keenest edge ever. After shaving, oil blade again—no rust can form. Your request on a postal brings our "scientific razor saver" circular, free.

FOR FURNITURE—3 in One has simply revolutionized polishing furniture. This is the way: Wring out a soft cloth in cold water moistened with a little 3 in One. Go over your piano or other fine furniture. All the marks of time and soil will vanish. Then dry and polish with a piece of cheesecloth, rubbing with the grain of the wood. The beautiful lustre and high polish will come back right before your very eyes.

FOR TALKING MACHINES—3 in One makes every kind of a talking machine work beautifully—prevents irritating squeaks and "whir" of the motor and records. Always wipe your disc records with cheesecloth moistened with 3 in One. It prevents dust gathering on them and spoiling their exchange value.

FREE

Send us your name and address on a postal and we will mail you a generous sample of 3 in One and the 3 in One Dictionary—both free. Get the bottle and book now!

3 in One is sold in all good stores in 3-size bottles: 10c., 25c., and New ½-Pint for ¼ Dollar Household Size.

Overland

\$1075

Model 80

F. O. B. Toledo, O.

The Latest and Greatest Overland of All

Again we have made expensive improvements, costly enlargements, and incorporated numerous, high-priced refinements.

But we have not advanced the price.

The body is brand new—the full stream-line type, with new crowned fenders, new rounded radiator and new sloping hood.

The electrical equipment is the finest and most reliable we could get.

The rear springs are new—for the 1915 springs are not only improved, but are longer and underslung, which makes the Overland one of the easiest riding cars in the world.

The luxurious new, softer and deeper cushioned upholstery insures solid comfort at all times.

The tonneau, this year, has all kinds of room, being considerably longer and wider.

There is left-hand drive and centre control.

Larger tires (34 in. x 4 in. all around) and the long wheel base of 114 inches mean smooth, jarless riding.

The big, snappy and powerful 35 h. p. Overland motor is regarded and referred to as the world's most highly developed four-cylinder power plant.

Demountable rims (with one extra) are another expensive addition.

This car comes complete. Electric starter, electric lights, built-in windshield, mohair top and boot, extra rim, jeweled magnetic speedometer, electric horn, robe rail, foot rest and curtain box.

There does not exist another automobile manufacturer who can give such big value at such a low figure.

If we were not the world's largest producers of this type of car neither could we.

Our dealers are making deliveries now. Get in touch with the nearest one at once. Order your new Overland to-day.

Handsome 1915 catalogue on request. Please address Dept. 166.

selling Victor safes and fireproof boxes to merchants, doctors, lawyers, dentists and well-to-do farmers, all of whom realize the need of a safe, but do not know how easy it is to own one. Salesmen declare our proposition one of the best clean-cut money-making opportunities ever received. Without previous experience YOU can duplicate the success of others. Our handsomely illustrated 200-page catalogue will enable you to present the subject to customers in as interesting a manner as though you were piloting them through our factory. Men appointed as salesmen receive advice and instructions for selling safes, giving convincing talking points which it is impossible for a prospective customer to deny. Why don't YOU be the first to apply from your vicinity before some one else gets the territory? We can favor only one salesman out of each locality.

OUR NEW HOME.

Wide-awake men are prompt to take advantage of our special inducement, and notwithstanding that the completion of our new factory will enable us to double our output, indications point to an ever-increasing demand which will continue to tax our facilities. We are spending many thousands of dollars enlarging our sales organization, but to learn all particulars it will cost you only the price of a postal-card.

Just ask for "New Offer 58."

FREE a useful set of pocket maps if you mention the World Almanac.

DAIRYMEN—Make 100% Yearly

Improve your farm by adding the Hinman equipment and by the end of the year it will save enough to pay back your money and then for many years to come the equipment will pay you an equal amount—or 100% on your investment.

The Hinman Milker Way

Why the Hinman Milker Excels

The Hinman is the only milker with all the following features:

One cow milked at a time with each unit; no vacuum in pail; rapid pail changing system; no piping—just a simple drive rod; only two moving parts; visible milk flow; simple method of keeping record of each cow.

The 1915 Hinman is noiseless. The cows stand in perfect contentment and don't move a muscle.

The 1915 Hinman pump gives a hand-like squeeze and produces vacuum gradually, applying it to the teats with a gentle hand-like action. Complete vacuum break 45 times a minute. No possible danger of cows getting too strong suction. Easily adjusted to hard or easy milkers.

In five seconds the Hinman cups are on and the milk is flowing swiftly and silently into the pail.

In the Hinman the vacuum is confined to the chamber—and not to the pail—otherwise it would require a heavy, cumbersome pail with a heavy, complicated, pulsating device. A less amount of vacuum and hence less power is required. The inside of the chamber is smooth and has no working parts.

When the pail is full, you simply change the cover and don't stop the machines milking. You may then weigh and record each cow's milk.

A one-minute change and the Hinman Milker is at work again.

This way a ten-year-old boy can milk at the rate of 25 cows an hour—do it better, get more milk and milk more sanitary. The installation of a Hinman Milker in your stables will enable you to save an hour or an hour and a half in the morning and an equal time at night. Just figure up the saving in men and time.

The Hinman Milker makes you independent of hired help. It does the milking when you're "short of men."

A dairy of only eight or nine cows deserves a Hinman; a larger dairy demands one. The average Hinman equipment costs less than a binder, yet you use a binder only two weeks each year and the Hinman Milker is "on the job" twice a day.

At the left is given six exclusive advantages of the Hinman Milker—read it.

The Hinman Milker is made by specialists—only this one product for seven years—and

"A Success for Seven Years"

When this Almanac went to press, 125,000 cows were milked by the Hinman Milker.

Just drop a postal card for one of our color illustrated booklets, "How One Man Can Milk 25 Cows An Hour." It's a real reference book and it will make you a real authority on the modern milking machine.

There's a Hinman Equipment Near You—and

a Hinman agent in the following towns: Wauseon, Ohio; Oneida, N. Y.; Mt. AMERICAN SPECIALTY CO.,

Guaranteed Specialties.

Crosby, Minn., March 9, 1914.

Your letter convinces me that your clients' interests are your own. Any firm doing business by mail and, having received the sum of \$20, offers to return \$15 of it, after having rendered a big \$5 value in advice, etc., are certainly in a class by themselves, and I certainly will boost the name of Watson E. Coleman and associates at every opportunity.

F. G. OSTLAND.

Waco, Texas, March 23, 1914.

Your letter of March 18th with notice of allowance of my application for patent was very favorably received.

It is my first experience of obtaining a patent inside of eighty-eight days from date of application during my experience of FIFTY YEARS AS AN INVENTOR.

You surely have given me the quickest service and obtained for me more and better claims than any or all combined attorneys who have heretofore done my work at the Patent Office during the past fifty years.

I. S. SHERWIN,
P. O. Box 291.

Profit Earning Power For Any Size Farm

Sold 4

**Horses Out of 10-
Doubled His
Farm Power**

Geo. Whitney Moore,
Macunzie, Pa., writes—

"I sold two spans of 1400 pound horses, retaining six, and with the Leader Tractor have about doubled the heavy work of last year. In my judgment the Leader is built on the right lines and in a two years' search, it was the only one I found best fitted for my conditions. It is easily the equal of 8 or 10 horses and we often make it do the work of 12."

Here is the practical tractor for the farm of 120 acres to a section or more. It's a giant in power, yet light in weight—only 2½ tons. Made of nickel and vanadium steel. One man with 150 acres writes that he saved its cost in about 13 months. Write us for details of our trial-on-your-farm plan.

Leader Tractor Try It On Your Farm

You will not be asked to accept it unless you are satisfied in every way. Do all the heavy work in the field such as preparing soil—cutting grain, etc.—also haul loads to market—pull the road grader. One man handles entire outfit easily. And in addition to all this, run all your belt driven machinery. It's built to give efficient service at least cost. Write for trial. Ask for "The Book of Farm Power." Address Dept. T 1

Leader Engine Co.
34 State St.
Detroit, Mich.

Edwards STEEL Shingles Outlast Any Building!

**Fire-Proof, Leak-Proof!
Rust-Proof, Rot-Proof!**

Rock-Bottom Freight Paid Prices!

Over 135,000 people have proved that Edwards "Reo" Steel Shingles are better, last longer and are far cheaper to use than wood, tin, tar, tile or any form of composition roofing. Buy roofing on a service basis and you'll choose Edwards Steel Shingles. An Edwards roof needs no painting, no repairs. It gives absolute protection from fire, lightning and corrosion. It reduces insurance cost. It means a roof that lasts as long as the very foundations of the building.

Edwards "Reo" Steel Shingles

Edges and nail holes can never rust, because Edwards Steel Shingles are stamped in big sheets, then dipped in molten zinc, edges heavily galvanized. Nails are driven through under layer of metal only. Then the overlap slides over. Everything covered tight. No leaks. Holds roof firmly; prevents buckling in heavy winds.

LAY THEM YOURSELF

Wood Shingles have to be laid one at a time. Edwards "Reo" Steel Shingles come in big clusters. Lay 100 at a time—quick, easy, simple. All you need is hammer and nails. No extra help, no extra tools, no painting. Your boy or hired man can do it. Lay over old shingles or sheathing if you wish. It's just as easy.

WRITE FOR FREE BOOKS

Write for our illustrated Roofing Booklets, showing all styles and kinds of Sheet Metal Roofing, Siding and Building Material, with lowest prices. Freight Paid. Samples mailed FREE.

Edwards
Fireproof
Steel Garage **\$49⁵⁰**

Made in sections, all ready to set up. Ordinary workmen can put it together in a jiffy. Attractive in appearance, affords perfect protection. Won't burn, rust or rot.

Costs little, and keeps your car safe from fire, theft or "joy-riders." Send for complete catalog, fully illustrated.

Mailed postpaid on receipt of your request.

NOTT'S RHEUMATIC BALM RELIEVES IN 12 HOURS

A positive and unfailing remedy for rheumatism, no matter how long standing.

It increases the appetite and strengthens the constitution by acting as a powerful alterative, completely renovating and bracing a worn-out system.

The most effectual medicine ever prepared for chronic and inflammatory rheumatism
TRY IT, at all druggists or by mail. 90c. PER BOTTLE. Prepared and sold at

S. A. BROWN PHARMACY, EST. 108 YEARS

Thos. H. Tucker, Proprietor,

28-30 Fulton St., N. Y. City

MURINE EYE REMEDY EFFICIENCY HAS BEEN DEMONSTRATED FOR MANY YEARS

It is not a "Patent Medicine" nor a "Nostrum" because it is the result of professional investigation and experience of Successful Oculists who Compound It. Sold by your druggist at 50c per pkg. You save the Doctor's fee. Murine Wins your approval. Why not try Murine when your Eyes Need Care? No Smarting. Just Eye Comfort. Write Murine Eye Remedy Co., Chicago, for Book of the Eye.

FRECKLES

Don't Hide Them With a Veil; Remove Them With The Othine Prescription

This prescription for the removal of freckles was written by a prominent physician and is usually so successful in removing freckles and giving a clear, beautiful complexion that it is sold by druggists under an absolute guarantee to refund the money if it fails.

Don't hide your freckles under a veil; get an ounce of othine and remove them. Even the first few applications should show a wonderful improvement, some of the lighter freckles vanishing entirely.

Be sure to ask the druggist for the double strength othine; it is this that is sold on the money-back guarantee.

Othine can be bought by the ounce from any druggist.

The goodness of Goodrich
Tires is in these great boots
and lumberman's shoes.

They are made by the same high
pressure unit construction process
and of the same tough tire tread
stock—

Goodrich HIPRESS Rubber Footwear

Made in Boots and Lumberman's Shoes
— Brown or White

Always with the
Red Top

Vulcanized under tremendous pressure, into a solid inseparable unit, this remarkable new process rubber footwear will outlast anything ever before produced. They can't leak, they can't crack, or peel or come apart in any way.

The B. F. Goodrich Co.

Factories: Akron, Ohio

*Makers of Goodrich Tires and
Everything that's Best in Rubber*

*There is nothing in Goodrich
Advertising that isn't in Goodrich Goods*

**See it with your
own eyes**

Write us for a sample of this White Hipress Rubber. See the "life" in it. Note the close-knit, tough, resilient rubber, which will give you the longest wearing, most comfortable boot you ever put on.

SAFETY FIRST

Safety First in Goodrich Tires means far more than the non-skid safety of the famous Safety Tread. It means safety from blow-outs and rim-cuts—*built-in* safety, long mileage, wear resistance, safety of your investment on every cent you put into Goodrich Tires.

Goodrich Safety Tread Tires

Best in the Long Run

Justice to yourself, to your comfort, to the life of your car, to your pocketbook—demand that you do not accept less than Goodrich quality, Goodrich service, Goodrich mileage—and that you do not pay more than Goodrich prices. And to get all this in the tires you buy, and *know* you are getting it, they must be *Goodrich Tires*.

The B. F. Goodrich Company

Factories: Akron, Ohio
Branches in All Principal Cities

There is nothing in Goodrich Advertising that isn't in Goodrich Goods

The tread that makes the brake effective

The best in *any* case!

Goodrich Brown Tube

—*the last word in
inner tubes!*

Whatever tires you have been using and are now equipped with, Goodrich Brown Tubes will improve their service and give them considerable additional mileage that you wouldn't otherwise get. They make any tires *better* tires.

The Goodrich Brown Tube is the toughest, most wear-resisting tube ever tucked into a casing.

It is made under the most scientific test and inspection conditions—and comes to you flawless in every particular.

Get the Goodrich Brown Tube.

The B. F. Goodrich Company

Factories: Akron, Ohio Branches in All Principal Cities
*There is nothing in Goodrich Advertising that isn't
in Goodrich Goods*

Lumbermen! Farmers! Miners!

These are the boots and shoes for you—the hand-somest, the best fitting—and they wear like a Goodrich Tire.

Ask your dealer for the rubber footwear with the red top. If

he hasn't these remarkable boots and shoes in stock, he'll be glad to get them for you—for he is just as glad to know about this new, different, better footwear as you are.

Goodrich Hipress Rubber Footwear, built of the same stock and by the same process as the world-famous Goodrich Tires.

The B. F. Goodrich Co.
Factories: Akron, O.

STAPLES

“I’ll tell you what’s holding you down, Jim” —

“You say you’ve been working for ten years and you’re getting only \$50 a month. You *ought* to be earning more, I agree, but you can’t get any more for the kind of work you are doing.

“You’ve never learned to do anything that requires very much headwork—you’ve always been doing work that thousands of others could do—that’s what is holding you down. However, you don’t have to *stay* down—you can work yourself up to a *good* job if you go about it in the right way.

“What you need to do is to train yourself to take a job as chief accountant, correspondent, salesman or advertising man. We *never* have enough trained men. I’ve got openings now for a correspondent and three first-class salesmen.

Probably you, too—like the man in this story—are ambitious to make more money—and you can do it, if you will train yourself to do something that requires greater skill and more headwork—something for which employers *must* pay big money.

You won’t have to leave home or give up your present job to get this training. The International Correspondence Schools have trained thousands of men—right in their *own* homes during their *spare time*—for the kind of work that commands big salaries. They can do the same for *you*.

Free—Six Big Issues of Investing for Profit

If you will simply send me your name. *Special Introductory FREE Offer. Six fine Monthly Issues—each worth \$10 to \$100 to you.*

How much do you know about the Science of Investment? Do you know the *Real Earning Power* of your money? What is the difference between the *Rental Power* and *Earning Power* of money? Do you know how \$100 grows into \$2,200?

Why you should get *Investing for Profit*: Only one man in a thousand knows the difference between the *rental* power and the *earning* power of his money. Few men know the underlying principles of incorporation. Not one wage earner in 10,000 knows how to invest his savings for profit, so he accepts a paltry 2% or 3% from his savings bank, while this same bank earns from 20% to 30% on his money—or he does not know the science of investing and loses his all.

Russell Sage said: "There is a common fallacy that, while for legal advice we go to lawyers, and for medical advice we go to physicians, and for the construction of a great work, to engineers—financing is everybody's business. As a matter of fact, it is the most profound and complicated of them all."

So let me give you just a glimpse of the valuable investment information you will get in my six big issues, "The Little Schoolmaster of the Science of Investment," a guide to money-making:

- The Science of Investment.
- The Root and Branch of the Investment Tree.
- How to Judge a Business Enterprise.
- Where New Capital Put into a Corporation Really Goes.
- "Watering"—Its Significance.
- Idle Money vs. Active Money.
- Capital Is Looking for a Job.
- The REAL Earning Power of Your Money.
- Investment Securities Are Not Investment Opportunities.
- The Actual Possibilities of Intelligent Investment.
- The Capitalization of Genius and of Opportunity.

Wait till you see a good thing—but don't wait till everyone sees it. You will then be too late. Never was a time more auspicious for a public campaign of education on the logic of true investment. A revolution in the financial world is now going on—to the profit of the small investor.

You are now face to face with your opportunity—if you have the courage to enter the open gate to the road of fortune.

I believe you will find much interest in reading my six issues of *Investing for Profit*. From cover to cover it contains the fundamental principles of investment it has taken a lifetime to gather—from my own experience and from every available authoritative original source of information.

If You Can Save \$5 a Month or More

Don't invest a dollar in anything anywhere until you have read my wonderful magazine. *Investing for Profit* is for the man who intends to invest any money, however small, or who can save \$5 or more per month, but who has not as yet learned the art of investing for profit. Learn how \$100 grows into \$2,200.

Use This Coupon for the Six Issues and Financial Advice FREE.

If you know how to invest your savings—if you know all about the proposition in which you are about to invest your hard-earned savings—you need no advice. But if you don't, if there is a single doubt or misgiving in your mind—I shall be pleased to answer any inquiries you may make, or furnish any information I can regarding the art of saving and making money through wise investment.

So sign and mail this coupon now. Get *Investing for Profit* FREE for six months. Ask me to put you on my mailing list for Free Financial Advice. Don't put this off. It means too much to you now and in the future. Sign and mail this coupon at once.

ANHEUSER-BUSCH

ST. LOUIS, U.S.A.

NEW YORK THE WORLD'S GREATEST BREWING CENTER

The annual output of breweries in the Empire State is 14,000,000 bbls., 10,000,000 of which are brewed in Greater New York.

The sale of beer in the last ten years in New York State showed an increase of nearly 4,000,000 bbls. The sale of bottled beer has shown a remarkable increase in both urban and rural districts.

A marked decrease in drunkenness has been noted as a result of the increased sales of beer.

150 Breweries, representing an investment of hundreds of millions of dollars, are in operation throughout the State.

There are nearly 24,000 hotels and saloons in the State.

The traffic in alcoholic beverages pays an annual direct tax of nearly \$20,000,000 to the State of New York in addition to other taxes; more than one-third of the entire State Budget.

The present Liquor Tax Law in the State of New York went into effect March 26, 1896.

The Excise Department came into existence May 1st of the same year.

The receipts from the liquor traffic for the period ending September 30, 1896, amounted to

to	\$10,961,150.95
From October 1, 1896, to September 30, 1897..	12,268,341.14
While for the year ending September 30, 1913, the sum collected was	18,142,557.69
The total revenue derived from the traffic for the period commencing May 1, 1896, and ending September 30, 1913, was	\$276,536,528.39
During all this time the total expense of the department was	5,711,463.26

Leaving a balance to the credit of the State of . . **\$270,825,065.13**

The total number of drinking places for the year ending September 30, 1913, was 23,473.

Prohibition has gained little or no headway in New York State notwithstanding the persistent and continued activities on the part of the various prohibition organizations.

At present less than 3% of the population of the Empire State lives in "DRY" territory, the "DRY" towns being confined almost exclusively to rural communities.

Acetylene Ranges for Quick Cooking in Country Kitchens

You housewives in the country who labor over hot stoves cooking big meals for hungry families—how would you like this convenience, which every city woman enjoys?

How would you like to do your cooking on a gas range?

How would you like to turn on your gas with a twist of your wrist—turn it up or down just as hot as you want it?

If you have ever been in a city kitchen you know how much such a range will shorten your cooking hours and relieve you of the trouble and work of handling kindling, coal and ashes.

You also know what pleasure and comfort your household will derive from brilliant Acetylene lights throughout your house and barns. To

date this convenience—Acetylene for Lighting—Acetylene for Cooking—has been supplied to over 250,000 country homes.

Pilot Acetylene generators are today the most widely sold light and fuel plants in the world.

The Pilot is extremely simple to operate. You simply fill the generator with water and Union Carbide about once a month. The machine then works automatically without further attention.

It feeds the gas it makes—genuine Acetylene—direct to your kitchen range, and to stationary light fixtures, yielding handsome, brilliant, white light throughout your house and all the barns and outbuildings as well.

POEMS

DUGDALE COMPANY, Dept. 1212, Washington, D. C.

"THE SEAL OF SAFETY AT SEA"

Aside from the acknowledged duty of every manufacturer to make an honest product there is an equally important moral responsibility, the careful assembling and testing of each motor so that life may be safe with it. The workmen and management of the Scripps Company recognize this duty. They design, construct and test all Scripps motors with this responsibility clearly in mind.

THESE ARE THE PROOFS:

The successful voyage across the Atlantic of the 35-foot motor boat "Detroit."

The two successful trips through the Niagara Rapids and the Whirlpool.

Records made in endurance tests and in the every-day service in all parts of the world.

The 1914 Scripps models contain many new improvements, all of which are embodied in the 1914 Scripps Motor Book. Seventeen different models, including one, two, four and six cylinder types, semi-speed, medium duty, and extra heavy duty, are shown.

This book also contains full information regarding the new ELECTRIC SELF-STARTER, LIGHTING GENERATORS, new KEROSENE and DISTILLATE motors.

Copy sent on request.

PATENTS

Trade Marks and Copy-
rights Secured or Fee
Returned

Special Offer—Free Opinion as to Patentability

Send us a model or sketch and description of your invention, and we will inform you if it is patentable. If we report the invention patentable we will guarantee to obtain a patent or return our fee, and furnish a certificate of patentability backed by a bonded contract to that effect.

This Certificate of Patentability will protect the inventor and serve as proof of the invention until the case can be filed in the U. S. Patent Office.

OBTAINING ASSISTANCE FOR INVENTORS

Our certificate is of great assistance to inventors who require financial aid to obtain patents.

OUR FIVE BOOKS MAILED FREE to any address. Send for these books—the finest publications ever issued for free distribution.

HOW TO OBTAIN A PATENT

Our illustrated eighty-page Guide Book is a book of reference for inventors, and contains 100 mechanical movements illustrated and described.

MONEY IN PATENTS

Tells how to invent for profit, and gives history of successful inventions.

WHAT TO INVENT

Contains a valuable **LIST OF INVENTIONS WANTED** and suggestions concerning profitable fields of invention; also information regarding prizes offered for inventions, amounting to **ONE MILLION DOLLARS.**

PATENTS THAT PAY

Contains letters from our clients who have built up profitable enterprises founded upon patents procured by us; also endorsements from prominent inventors, manufacturers, Senators, Congressmen, Governors, etc.

PATENT PROMOTION

Gives valuable information regarding the sale and placing of patents.

VICTOR BUILDING

Our new \$200,000 building opposite U. S. Patent Office SPECIALLY ERRECTED by us for OUR own use.

Foreign Patents

WE HAVE DIRECT AGENCIES IN ALL THE PRINCIPAL FOREIGN COUNTRIES and secure FOREIGN PATENTS in the shortest possible TIME and at the LOWEST COST. Write for our Illustrated Guide Book on Foreign Patents, sent free to any address.

Wanted Ideas

LIST OF PATENT BUYERS contains requests from **MANUFACTURERS and PROMOTERS** for patents secured by us, and suggestions as to New Ideas they wish to purchase.

WE ADVERTISE OUR CLIENTS' INVENTIONS FREE

in a list of Sunday newspapers with two million circulation, in manufacturers' journals and in the World's Progress. Sample Copy Free. We save you time and money in securing patents. After the patent is granted we assist you TO **SELL YOUR PATENT.**

VICTOR J. EVANS & CO.

Registered Attorneys United States and Foreign Patents.
VICTOR BUILDING, Op. Patent Office, 776 Ninth St., N. W., Washington, D. C.

PATENTS

Member of bar of Supreme Court of U. S. Patent Practice before Courts and Patent Office. Patents secured in U. S. and in all foreign countries. Searches made and opinions rendered as to scope and validity of patents, and fee for services in prosecuting application before U. S. Patent Office contingent upon success in securing patent.

The value of a patent depends upon its scope and validity; therefore an invention should be intrusted to an experienced attorney, who will secure a patent which will fully protect the invention.

I place at the service of my clients an experience of more than 25 years' continuous practice before courts and Patent Office, and I insist in all cases upon the grant of such patents as will fully cover every patentable feature involved in the invention and afford greatest possible degree of protection.

Numerous applications for patents are rejected. Prosecution of many of these were intrusted to attorneys who required full payment of their fees at time of filing applications and who may not have exercised same degree of energy in their efforts to secure the patents that they might have exercised had payment of their fee depended upon their success. I am frequently able to revive applications thus rejected and to prosecute them to an allowance of patent.

In all cases in which I examine Patent Office records and report that in my judgment it will be able to secure a patent, I back my judgment by making my fee contingent upon my success in securing the patent and not payable until it is officially allowed.

A booklet containing full instructions, statement as to fees, addresses of inventors for whom I have secured patents and much other valuable information furnished free. Send for "INVENTORS' GUIDE."

Vapo-Cresolene

Established 1879.

FOR Whooping Cough, Spasmodic Croup, Asthma, Sore Throat, Coughs, Bronchitis, Colds, Diphtheria, Catarrh.

A simple, safe and effective treatment, avoiding drugs. Vaporized Cresolene stops the paroxysms of Whooping Cough and relieves Spasmodic Croup at once.

It is a boon to sufferers from Asthma.

The air carrying the antiseptic vapor, inspired with every breath, makes breathing easy, soothes the sore throat and stops the cough, assuring restful nights. It is invaluable to mothers with young children.

Cresolene relieves the bronchial complications of Scarlet Fever and Measles and is a valuable aid in the treatment of Diphtheria.

Cresolene's best recommendation is its 30 years of successful use. Send us a postal for Descriptive Booklet.

HYPNOTISM

Would you like to exert a strange and powerful influence over others? Do you desire to possess an accomplishment by which you can make both fun and money? One that would virtually open to you the gate to health, prosperity and happiness? If so, you should learn Hypnotism. You may now master this wonderful, mysterious and fascinating science at your own home. By a few hours' study you may learn all about the secrets, methods, uses and wonders of the hypnotic trance. You can surprise and mystify your friends by placing others under this weird and magic spell, and compel them to see, think, feel and act precisely as you wish. You may sway the minds of others, perform wonderful and astounding feats, and create fun and amusement for hours at a time. You may do a hundred amazing things that other people cannot do, and make yourself the most popular person in your community. If you want to **make money** you may do so by giving entertainments, treating diseases or teaching the art to others. These are three practical and easy ways to make money. In spite of these noble uses and in spite of its mysterious powers, Hypnotism is an easy and most simple art to learn. It calls for no special training or education. It imposes no long or perplexing study. Whoever knows enough to read may learn it. You may master all these powers yourself and wield the subtle forces of mind as well as any operator in the land. You may treat the sick, relieve pain, overcome bad habits, give sleep to the restless and comfort to the sorrowing. And for yourself, you may win promotion, social and business standing, and the influence or friendship you most desire. Investigate **now!** It costs nothing to find out about it. Simply write for my free Descriptive Literature, Genuine Testimonials and full particulars. Don't send any money, not even a stamp, but send your name and address **To-Day** and learn how you may gain health, prosperity and happiness. Address:

Successful Egg Farming

200 Eggs a Year Per Hen

HOW TO GET THEM

THE eighth edition of the book, "200 Eggs a Year Per Hen," is now ready. Revised, enlarged, and in part rewritten, 96 pages. Contains among other things the method of feeding by which Mr. S. D. Fox, of Wolfboro, N. H., won the prize of \$100 in gold offered by the manufacturers of a well-known poultry food for the best egg record during the winter months. Simple as a, b, c—and yet it will start hens to laying earlier and to induce them to lay more eggs than any other method under the sun. The book also contains a recipe for egg making food used by Mr. Fox, which brought him in one winter day 68 eggs from 72 hens; and for five days in succession from the same flock 64 eggs a day. Mr. E. F. Chamberlain, of Wolfboro, N. H., says: "By following the methods outlined in your book I obtained 1,496 eggs from 91 R. I. Reds in the month of January, 1902." From 14 pullets picked at random out of a farmer's flock the author got 2,999 eggs in one year—an average of over 214 eggs apiece. It has been my ambition in writing "200 Eggs a Year Per Hen" to make it the standard book on egg production and profits in poultry. Tells all there is to know, and tells it in a plain common-sense way.

You can get this book with a year's subscription to the **AMERICAN POULTRY ADVOCATE**, both for 75 cents; two years' subscription and book for \$1.00, or given free as a premium for two yearly subscriptions at 50 cents each. Book alone for 50 cents.

Our paper is handsomely illustrated, 44 to 124 pages, 50 cents per year. 3 months' trial, 10c. Sample Free. CATALOGUE of poultry books free.

"SHE STOOPS TO CONQUER!"

CORNS
WITH
KORNOL

YOU SIMPLY
PAINT IT ON
—THAT'S ALL

"KORNOL" is a neat, clean and convenient remedy for removing Corns, Calloused Bunions and those large Callous Patches on the sides and bottom of the feet that are the real cause of so much sore foot trouble. "KORNOL" requires less than a minute to apply, and with a few applications nightly you can remove large quantities of callouses and walking will be a pleasure again. "KORNOL" is absolutely harmless; it is not a filthy salve that is dangerous and difficult to apply. "KORNOL" is not a bunglesome plaster that will eat into the tender flesh and render you liable to the danger of abscess or blood poisoning. Send us ten cents if your druggist or merchant cannot supply "KORNOL" and we will demonstrate to your satisfaction that it is the best remedy sold for corns. Turn down the "Just as good," as it is not.

Do you use Press Clippings?

If you do not, drop a postal card to

Romeike's

Press Clipping Bureau

and we will show you how Press Clippings can be used to your advantage.

Press Clippings are always interesting and profitable; they are indispensable to professional and business men alike.

Authors, artists, actors, singers and society leaders are supplied with reviews and criticisms.

We collect obituary notices and bind them in scrapbooks.

Lawyers, bankers, brokers, financial institutes depend largely on quick information from the columns of the press; we supply them.

To the manufacturer we show through the Clippings new markets for his products.

The inventor, the politician, the social reformer, in fact all who attract the attention of the press, are informed and kept up to date by Press Clippings.

A postal card will bring all the Information.

DEAFNESS AND CATARRH

Successfully Treated by "ACTINA"

The human ear is an organ, the interior of which specialists have never been able to get at, hence their inability to always remove the cause of deafness.

CAUSE OF DEAFNESS

Ninety-five per cent. of the cases of deafness brought to our attention is the result of chronic catarrh of the throat and middle ear. The air passages become clogged by catarrhal deposits stopping the action of the vibratory bones. Until these deposits are removed relief is impossible. The inner ear cannot be reached by probing or spraying, hence the inability of specialists to always give relief. That there is a successful treatment for most forms of deafness and catarrh is demonstrated by the "Actina" treatment. The vapor generated in the "Actina" passes through the Eustachian tubes into the middle ear, removing the catarrhal obstructions and loosening up the bones (hammer, anvil and stirrup) in the inner ear, making them respond to the vibration of sound.

RINGING NOISES IN THE HEAD

ACTINA is very successful in relieving this distressing symptom. The vapor currents pass quickly and freely through the Eustachian tube, removing the catarrhal substances that obstruct the easy exit of the wave sounds. We have known people troubled with this symptom for years to be relieved in a few weeks by the use of ACTINA.

ACTINA also relieves La Grippe, Asthma, Hay Fever, Bronchitis, Sore Throat, Weak Lungs, Colds, Headache, and all other troubles that are directly or indirectly due to catarrh.

"Actina" can be used with perfect safety by every member of the family for any affliction of the ear, throat or head. A FREE TRIAL of the "Actina" is given in every case.

After Thirty Years' Experience I Have Produced an Appliance for Men, Women or Children That Cures Rupture

I SEND IT ON TRIAL

If you have tried most everything else, come to me. Where others fail is where I have my greatest success. Send attached coupon to-day and I

The above is C. E. Brooks, inventor of the Appliance, who cured himself and who is now giving others the benefit of his experience. If ruptured, write him to-day, at Marshall, Mich.

will send you free my illustrated book on Rupture and its cure, showing my Appliance and giving you prices and names of many people who have tried it and were cured. It gives instant relief when all others fail. Remember, I use no salves, no harness, no ties.

I send on trial to prove what I say is true. You are the judge, and once having seen my illustrated book and read it you will be as enthusiastic as my hundreds of patients whose letters you can also read. Fill out free coupon below and mail to-day. It's well worth your time whether you try my Appliance or not.

This Happy Wife Wishes to tell you FREE HOW SHE STOPPED Her Husband's Drinking

Write to Her and Learn How She did it.

For over 20 years James Anderson of 151 Elm Ave., Hillburn, N. Y., was a very hard drinker.

His case seemed a hopeless one, but 10 years ago his wife, in their own little home, gave him a simple remedy which much to her delight stopped his drinking entirely.

She also tried this remedy on her brother and several neighbors. It was successful in every case. None of them has touched liquor since.

She now wishes everyone who has drunkenness in their homes to try this simple remedy, for she feels sure that it will do as much for

others as it has for her. It can be given secretly if desired, and without cost she will gladly and willingly tell you what it is. All you have to do is write her a letter asking her how she cured her husband of drinking and she will reply by return mail in a sealed envelope. As she has nothing to sell do not send her money. Simply send a letter with all confidence to Mrs. Margaret Anderson at the address given above, taking care to write your name and full address plainly.

FREE INFORMATION COUPON

Mr. C. E. Brooks,
1402 C. State St., Marshall, Mich.

Multipost YOUR MAIL

The Multipost Stamp Affixer and Accountant Saves Money, Labor and Time

Used in your office it will account for every postage stamp purchased, even to the extent of preventing the use of YOUR stamps for personal mail; it will check your postage account from the check book to the mail bag.

It provides a convenient locked case for the care of the stamps and will pay for itself many times over from actual labor saved, irrespective of its preventing the diversion of stamps from proper channels.

It protects the operators against possible suspicion or false accusation and removes all temptations. Stamps may be mis-used by persons other than those authorized to handle them.

It will enable operators to at least double their speed in handling the mail. The MULTIPOST method has positively proven itself to be the fastest stamp affixing method known.

Its use is not limited to any size or form of mail, handling mailing tubes, packages, letters or post cards and putting the required number of stamps on each.

It is guaranteed against defects of workmanship or material for one year, and during that period will be repaired or replaced without cost to owner.

Over 15,000 are in use in the United States alone. Stamps for the MULTIPOST are obtainable at any Post Office. Send for free booklet, which tells all about it.

HAWKINS LIBRARY OF ELECTRICITY

In 6 Leather \$1 Pocket Books
Price per Volume

Here is a set of books that no man in the ELECTRICAL FIELD should do without. This is the ELECTRICAL AGE in which we live; ELECTRICITY now controls more trades, directs more men, offers more opportunities than any other power that man has yet discovered. Do you wish to know the underlying principles of MODERN ELECTRICAL PRACTICE?

If so, HAWKINS ELECTRICAL GUIDES will give you the information. In reality they are a school within themselves, containing a complete study course with QUESTIONS, ANSWERS AND ILLUSTRATIONS, written in plain everyday language so that a practical man can understand the "HOW, WHEN AND WHY" OF ELECTRICITY.

"THAT'S JUST WHAT I NEED"

They are handsomely bound in flexible black leather with gold edges and will readily go in the pocket. **THEY ARE NOT ONLY THE BEST, BUT THE CHEAPEST WORKS PUBLISHED ON ELECTRICITY.**

Each book is complete in itself and will be supplied \$1.00 per copy, but we believe that the complete set is the best bargain.

The books can speak for themselves and a careful examination, page by page and illustration by illustration, will convince you of their big value.

If you will fill out the following coupon giving all the information requested, WE WILL SUBMIT THE SIX VOLUMES FOR EXAMINATION ON CONDITIONS NAMED.

FREE EXAMINATION OFFER

Theo. Audel & Co., 72 5th Ave., New York
Please submit me for examination HAWKINS ELECTRICAL GUIDES (Price \$1 each).

Ship at once, prepaid, the 6 numbers; if satisfactory I agree to send you \$1 within seven days and to further mail you \$1 each month until paid.

Magnificent Steel Launch \$96

Complete with Engine, Ready to Run

18-20-23 and 27-ft. boats at proportionate prices. All launches tested and fitted with Detroit two-cycle reversible engines with speed controlling lever—simplest engine made—starts without cranking—has only 3 moving parts—anyone can run it. The Safe Launch—absolutely non-sinkable—needs no boathouse. All boats fitted with airtight compartments—cannot sink, leak or rust. We are sole owners of the patents for the manufacture of rolled-steel, lock-seamed steel boats. Orders filled the day they are received. Boats shipped to every part of the world.

Free Catalog. Steel Rowboats, \$20.

The Most Complete

ATLAS OF THE WORLD

EVER PUBLISHED. 32 PAGES DEVOTED TO EUROPE. It is Absolutely Faultless and Should Grace the Shelves of Every Home, Office and Public Library.

If compactness, completeness and quantity is what you want, you will truly find it in this most attractive Atlas of the World. Its plates are new and were made by the best map engravers in this country. It is but 7 inches x 10 inches in size, containing 228 pages. There are 193 pages of maps printed in five and six colors. Railroads, Mountains, Rivers, Countries, States, &c., are all in different colors. Political divisions are accurately defined. The latest geographical changes, such as every county in the United States to date, political changes in Canada; French and German countries in Africa, as well as latest changes in India and China, are shown on these maps. In a word, it is so complete and yet so concise everybody wants it. Postpaid, cloth, \$1.50; handsome flexible leather, \$2.00. Postpaid anywhere. Write to-day. AGENTS WANTED.

L. L. POATES PUB. CO., 22 North William St., New York.

MAXIM GUN SILENCER

You are not getting the fullest possible enjoyment from your rifle unless it is equipped with a Maxim Gun Silencer.

The Silencer is an aid to marksmanship. It stops flinching by reducing the recoil over 75%, and counteracts the tendency of the gun to jump upward at each shot.

ENJOY NOISELESS SHOOTING

By silencing the report noise, the Silencer enables you to shoot without scaring the game. It enables you to hold target practice any time, anywhere, without disturbing anybody.

ATTACHES TO ANY RIFLE

Write for Free Book filled with interesting experiences of sportsmen with the Maxim Silencer—stories of actual records that will surprise you. Well worth reading—write now for copy.

Ask your hardware or sporting goods dealer to show you the Silencer. If he hasn't it, write to us the make, model, and calibre of your rifle, and please tell us dealer's name.

I Want
Some of
**THE
BLACK
SHELLS**

YOU can get better shells now than you bought just a few years ago. You can get **THE BLACK SHELLS**, which often improve trap scores 5% and field shooting 10%.

THE BLACK SHELLS have a non-mercuric primer that contains no ground glass (as mercury primers do) to absorb 16% of the heat of the primer flame and slow down the ignition. Hence the extraordinary heat from our primers. **THE BLACK SHELLS** primer is a strictly chemical mixture of unvarying uniformity. Our flash passage through which the primer flame reaches the main charge is double size.

These causes combine to make **THE BLACK SHELLS** drive the shot in a bird-proof pattern and with amazing penetrating power. **THE BLACK SHELLS** are really and truly waterproof. Mean, rainy, foggy weather does not swell them. There are **THREE BLACK SHELLS**: **ROMAX** for black powder, **CLIMAX** and **AJAX** for smokeless powder.

Send for free book telling about modern improvements in shot shells.

BECOME A LAWYER

There are thousands of capable men in small positions with small salaries and no future who need only our training to become successful **LAWYERS**. The demand for Lawyers is increasing daily—Law is becoming a vital factor in every business—large firms are seeking competent Lawyers for their regular staff, and are willing to pay big salaries.

YOU CAN BE A LAWYER NOW

It is no longer complex—no education required beyond the ability to read and write intelligently. Our instruction is written in plain language—it is the combined knowledge of the world's famous legal experts—Professors of Law in such big resident colleges as University of Wisconsin, University of Chicago, Harvard, University of Michigan, Northwestern University and University of Nebraska. It is recognized as the foremost home-study Law method by America's greatest legal and educational authorities—it is the **only** method used in colleges. Advanced—simplified—different absolutely from all others—completely covering every branch of American Laws. It is like having great professors in your home. Learning law by our method is fascinating—interesting—you will never give it up until you have completed it.

We Train You at Home by Mail

in spare time. You don't give up your present position, income or pleasures. Makes no difference where you live, what you work at, how small your income or how little time you have. The cost is small—we make payments easy. Some of America's greatest Lawyers learned at home in spare time.

We enroll more students every month than any other university home-study Law school in the world. This is a strong, conservative, reliable institution—the largest, oldest and most complete of its kind on earth. Our graduates pass bar examinations in any State. We guarantee to coach you **FREE** until successful.

LAW LIBRARY—Big Special Offer!

If you enroll now we send our complete, standard, authoritative Law Library—14 volumes of American Law and Procedure, completely covering every branch of Law—a massive, handsome set; over 6,000 pages, 15,000 illustrative cases; a \$50,000 work.

EXTRA SPECIAL—FREE—Complete Course in PUBLIC SPEAKING

Written by Dr. Frederick B. Robinson, A. B., A. M., Ph. D., Professor of Public Speaking at College of City of New York, Editor Public Speaking Review, now Special Lecturer on Public Speaking at various Universities and Board of Education. This is another astonishing La Salle scoop—an other big La Salle offer unequalled by any other Law School. This remarkable free course in Public Speaking is a complete, authoritative, wonderful course, covering fully every essential. You can quickly understand and master it. Don't confuse this with any other similar course—no other just like it. Learn how we give this course absolutely free in connection with our Law Course.

Become An LL.B. The State of Illinois authorizes us to confer on our graduates the Degree of Bachelor of Laws (LL.B.). Every successful

man had to make his start some time—somehow! This is your opportunity to enter a dignified, lucrative profession. Mail the coupon at once for convincing facts—don't put it off any longer.

A NEW AID FOR DEAFNESS

Have you been trying to get along without an Ear-Phone on account of its inconvenience? Then you will want to try our new lorgnette type of instrument. It is the same in principle as our regular **GLOBE EAR-PHONES**, which are used by thousands of enterprising deaf people, but instead of being made in three separate parts with connecting wires it is made all in one piece with the battery in the handle. No cords to bother or break and no plugs to drop out. Compact and convenient, always ready for use. It uses the ordinary flash-light batteries, which you can get anywhere. When through using it can be dropped into your pocket or handbag and the automatic switch will shut off the battery current.

Write or call at our nearest office for prices, terms, etc. Also for free copy of any of the following catalogues:

GLOBE EAR-PHONES (14 styles), **GENERAL HEARING AIDS**, **GLOBE SECRET-PHONES** (for detective use), **GLOBE CHURCH EAR-PHONES** (for church and theatre).

Are You Going DEAF?

Thousands of people, deaf without its aid, are hearing again perfectly with the

New 8-Tone

MEARS EAR PHONE

In the Hollow of Your Hand!

—the final triumph of the inventor of the successful multi-tone ear phone. **Eight Tones!** Eight different adjustments to suit every condition of the ear. Sufferers from deafness everywhere welcomed the Mears **Four-Tone** as the first perfected hearing device. It was a scientific marvel. But all its wonderful powers have been **doubled** in the amazing new **EIGHT-TONE** Mears—**just out!** The new Eight-Tone ear phone makes every kind and "shade" of sound as distinct to the deaf as shades of color are distinct to perfect eyes.

Our Offer: In order to give our patrons the personal service that is possible only when we deal with them direct, we have discontinued all our American Agencies. The new 8-Tone Mears Ear Phone is sold at present only direct from our New York office at the factory price, with no jobbers' or dealers' profits added. The highest grade instrument now offered at a price within the reach of all on easy monthly payments if desired. Mail the coupon at once for our rock-bottom offer.

This Newest Device

has eight tone or sound strengths, instantly selective, and covers the widest possible range of sound. It is not only a substitute for healthy hearing organs, but its use exercises and positively benefits and improves the afflicted parts. If you would know again the joy of perfect hearing, of unhampered intercourse with others, investigate the wonderful **Eight-Tone** Mears at once. Write for booklet.

On Trial

We prove our confidence in the Mears by asking you to test it thoroughly before you buy. We will send you an **Eight-Tone** instrument on trial! Test it under every condition of service for 15 days. Satisfy yourself of its powers. We take all the risk. If it fails to help you or please you, send it back, it will not cost you a penny.

Notice—We have discontinued all our American branch offices and agencies. The New 8-Tone Mears is sold direct from our New York office only.

FREE Valuable Book on Deafness

This coupon is printed for your convenience. Fill it out and mail it to us at once. We will send you at once a valuable book on deafness free, with names and addresses of hundreds of satisfied users. It explains the cause of deafness, tells how to stop the progress of the malady and how to treat it. Also how you can get a Mears 8-Tone Ear Phone now at laboratory price if you act at once. Mail the coupon to-day.

STEINWAY

The Piano of the Past,
the Present, and the Future

MASTER musicians, past and present, have achieved their greatest successes upon the Steinway Piano and have pronounced it the ideal instrument. ¶ The art ideal of a master in his craft gave birth to the first Steinway Piano. ¶ This ideal has been upheld and maintained through four succeeding generations, with the result that to-day the Steinway has attained a perfection unapproached and unapproachable, and is recognized the world over as the Standard Piano by which all others are judged and measured. ¶ This assuredly proves that the Steinway is the Piano of the Past, the Present, and the Future, and it is one of the strongest arguments why *you* should buy a Steinway.

Ours is the only store in America exclusively devoted to the retail sale of

MAPS

and our stock is so large that practically any geographical publication extant can here be obtained. When YOU need maps, communicate with us; we have earned the right to the title "Map Specialists," and all your inquiries will receive the most careful attention. Here are some of

HAMMOND'S NEW MAPS

A new and dominant force in merchandising

After being proved an unquestionable success from one end of Europe to the other during the past three years, a new movement is being taken up by up-to-the-minute advertisers all over this country—

PICTURE PASTERS

These Pasters represent the most unique, most interesting and most effective form of auxiliary advertising in use at the present time—cost considered.

Through their use you can place your name, your trade mark and eventually your product in practically every home in the territory you cover.

And the cost is a "mere drop in the bucket" compared with your present advertising appropriation.

Our new book explains everything about Picture Pastors. It has been prepared by a man who has made an exhaustive study of the subject. It is a mighty valuable book on the most talked of subject in the realm of advertising.

It is FREE and will be sent upon receipt of request written on your letterhead.

SEND 10c FOR 12 DESIGNS
PICTURE PASTER PUBLICITY CO., Inc.

Easily and Quickly
Mastered by the

LANGUAGE - PHONE

METHOD
Combined with the
**Rosenthal Method of
Practical Linguistry**

This is the natural way
to learn a foreign language,
voice of a native Professor
and phrase. He speaks as
you desire—slowly or quickly,
night or day, for minutes
or hours at a time.

It is a pleasant, fascinating study; no tedious
rules or memorizing. Not expensive—all members
of the family can use it. You simply practice during
spare moments or at convenient times, and in
a surprisingly short time you speak, read and
understand a new language.

The method is highly endorsed and recom-
mended by well-known members of the faculties
of the following universities and colleges:

Yale, Columbia, Chicago, Brown, Penn-
sylvania, Boston, Princeton, Cornell, Syra-
cuse, Minnesota, Johns Hopkins, Virginia,
Colorado, Michigan, Fordham, Manhattan,
New York, U. S. Military Academy.

Special terms to owners of talking machines. Our
records fit all machines. Write for particulars of
trial offer, terms for easy payments and free "Lan-
guage Treatise."

YOUR HEART

Does it Flutter, Palpitate or Skip Beats? Have you Shortness of Breath, Tenderness, Numbness or Pain in left side, Dizziness, Fainting Spells, Spots before the eyes, Sudden Starting in sleep, Nightmare, Hungry or Weak Spells, Oppressed Feeling in chest, Choking Sensation

in throat, Painful to lie on left side, Cold Hands or Feet, Difficult Breathing, Dropsy, Swelling of the feet or ankles, or Neuralgia around the heart? If you have one or more of the above symptoms don't fall to use Dr. Kinsman's Celebrated Heart Tablets. Not a secret or "patent" medicine. It is said that one person out of every four has a weak or diseased heart. Three-fourths of these do not know it, and thousands die who wrongfully treat themselves for the Stomach, Lungs, Kidneys or Nerves. Don't take any chances when Dr. Kinsman's Heart Tablets are within your reach.

FREE TREATMENT

Any sufferer sending their name and P. O. address to Dr. F. G. Kinsman, Box 860, Augusta, Maine, will receive a box of Heart Tablets for trial by return mail, postpaid, free of charge. Don't risk death by delay. Send at once.

The Brush Electric Lighting Set

Made in sizes from 4 to 20 horse-power, engine direct-connected to dynamo; requires small floor space, and is suitable for use with gasoline, kerosene or gas.

The Brush Electric Lighting Set is a very compact unit, simple in design and construction, and can be readily handled and cared for by those who are not experts. The quality of electric light produced by this outfit is superior to that usually furnished by electric lighting stations, and the cost is from one-half to one-quarter the price charged by these stations.

There are very many uses to which the electric current may be put besides that of lighting, such as cooking, washing and ironing and the use of dozens of other household conveniences.

Our 125-page catalogue is the most complete work on isolated electric generating plants ever published, and will be sent post-paid to any address upon application.

Mysteries of Hypnotism and Personal Magnetism Revealed

Herbert L. Flint, one of the best known hypnotists in the world, has just published a remarkable book on hypnotism, personal magnetism and magnetic healing. It is by far the most wonderful and comprehensive treatise of the kind ever printed. Mr. Flint has decided to give, for a limited time, a free copy to every person sincerely interested in these wonderful sciences. This book is based upon years of practical experience by a man who has hypnotized more people than any other one person.

You can now learn about the secrets of hypnotism and personal magnetism at your own home free.

Hypnotism strengthens your memory and develops your will. It overcomes bashfulness, revives hope, stimulates ambition and determination to succeed. It gives you that self-confidence which enables you to convince people of your real worth. It gives you the key to the inner secrets of mind control. It enables you to control the thoughts and actions of others. When you understand this grand and wonderful science you can plant suggestions in human minds which will be carried out in a day or even a year hence. In some cases, You can cure bad habits and diseases in yourself and others. You can cure yourself of insomnia, nervousness and business or domestic worry. You can

FREE

can instantaneously hypnotize subjects with a mere glance of the eye without their knowledge and powerfully influence them to do as you desire. You can develop to a marvellous degree any musical or dramatic talent you may have. You can increase your telepathic or clairvoyant powers. You can give thrilling and funny hypnotic entertainments. You can win the esteem and everlasting friendship of those you desire. You can protect yourself against the influence of others. You can become a financial success and be recognized as a power in your community.

This book of Flint's will tell you how to learn the secret of attaining these things. Flint is the most successful and best known hypnotist in the world. He has appeared before thousands of audiences. He will carry out every promise faithfully. If you want a copy of this free book send your name and address on a postal card—no money—to Herbert L. Flint, Dept. Wa-1, Cleveland, Ohio, and you will receive the book by return mail, postpaid.

Away With Churns!

USE THE "FAYWAY"—GET MORE AND BETTER BUTTER—STOP OLD-FASHIONED, WASTEFUL CHURNING!

This marvelous machine is NOT A CHURN—it's a BUTTER MAKER! Does the work in half the time of the best churn. Gets MORE butter and BETTER butter from the same cream than by any other known process. The greatest MONEY MAKER for farmers and dairymen ever introduced. Makes your butter bring more per pound!

\$1.00

Brings It

Made
in 3
Sizes

crank a few minutes and—*presto!*—there's the butter! Actually fun to make butter with the "Fayway"—all drudgery abolished!

Amazing Results

"Fayway" butter has a beautiful waxy texture. Tastes better, keeps longer, brings 5c to 10c more per pound than ordinary "churned" butter, and you get more of it.

Revolutionizes Butter Making!

Fayway
TRADE MARK

Butter Separator

The "Fayway" System produces butter by an entirely different process—no "whipping" or "beating" with paddles or blades. A stream of air blows the billions of butter globules to the top—gets ALL the butter-fat!

How It Works

Just pour in the cream, turn the crank a few minutes and—*presto!*—there's the butter! Actually fun to make butter with the "Fayway"—all drudgery abolished!

Our \$1.00 Deposit Trial Offer

We don't ask you to take our word. We want you to SEE with your own EYES how the "Fayway" makes butter. Send for our \$1.00 Deposit Plan on which we will ship this amazing machine for a free trial in your own home. If it doesn't do exactly what we claim, back comes your dollar! Don't send any money, but

Write For Free "Fayway" Book

This book tells all about the FAYWAY—the greatest invention since the cream separator was brought out. Let us tell you about Fayway Butter Clubs. (3)

Strengthen Your Will

Over 25,000 people have done it through "Power of Will"
 By Frank Channing Haddock, Ph. D., M. S.
 Send no money—examine book first.

Partial List of Contents

- The Law of Great Think-
ing.
- The Four Factors on
which it depends.
- How to develop analytical
power.
- How to think "all
around" any subject.
- How to throw the mind
into deliberate, con-
trolled, productive
thinking.
- Detailed directions for
Perfect Mind Concen-
tration.
- How to acquire the pow-
er of Conservative
Thinking, Reasoning,
Analysis.
- How to acquire the skill
of Creative Writing.
- How to guard against
errors in Thought.
- How to drive from the
mind all unwelcome
thoughts.
- How to follow any line of
thought with keen, con-
centrated Power.
- How to develop Reasoning
Power.
- How to handle the mind
in Creative Thinking.
- The secret of Building
Mind Power.
- How the Will is made to
act.
- How to test your Will.
- How a Strong Will is
Master of Body.
- What creates Human
Power.
- The Six Principles of Will
training.
- Definite Methods for de-
veloping Will.
- The NINETY - NINE
METHODS for using
Will-Power in the Con-
duct of Life.
- FIFTY - ONE MAXIMS
for Applied power of
Perception, Memory,
Imagination, Self An-
alysis, Control.
- How to develop a strong,
keen gaze.
- How to concentrate the
eye upon what is before
you — object, person,
printed page, work.
- How to become aware of
Nerve Action.
- How to keep the body
well-poised.
- How to open the Mind
and Body for reception
of incoming power.
- How to exercise the
nerves.
- How to throw off Worry.

This great work on practical psychol-
ogy provides a *thoroughly scientific*
course in Will-training, consisting of
28 lessons. Its results have bordered
on the marvellous.

It has come as a vital force into the lives
of thousands of people, showing how to
make their brains serve them better—mak-
ing them more dominant in their dealings.
It has proved a veritable well of strength
for people afflicted with ill-health and
nervous weakness. It has *reawakened ambi-
tions* in men and women who have been turned
from their life purposes.

Will Help YOU

The readers of this book talk of it as a
Bible. They range from great captains of
industry to clerks.

It is owned, read, prized and praised by
such men as Judge Ben B. Lindsey; Su-
preme Court Justice Parker; Wu Ting Fang,
ex-U. S. Chinese Ambassador; Asst. Post-
master General Britt; E. St. Elmo Lewis of
Burroughs Adding Machine Co.—and literally
thousands of other men of action and am-
bition like them.

How to Develop Indomitable Will

"Power of Will" is not a book of idle
essays. It sets forth *actual methods, plans*
and principles for training, strengthening
and developing Will Power. These methods
are based on one of the most profound,
scientific analyses of Will Power ever made.

Is YOUR Will Dormant?

Look back upon your life. Once upon a
time, no doubt, you weaved great dreams of
what you were going to make of yourself.
Are they accomplished now? Why are they
not accomplished? Is it not because you
lacked a strong, powerful, dominating, in-
flexible WILL? You allowed others to con-
trol and influence you to their ends, instead
of controlling others yourself. Gradually—
like so many of us—you allowed this God-
given faculty of will to become scotched and
DORMANT in you. Dr. Haddock has a
message for you—a *real message of emanci-
pation from the blasting human curse of in-
decision and blind habit*.

Send No Money—Examine Book First

The price of "Power of Will" is \$3.00. Let
us send you the book. Glance through some
of the chapters. Judge for yourself whether
you can afford NOT to own it. **Send no
money now.** Simply send the attached
coupon, enclosing your business card,
OR GIVING A REFERENCE. Keep it
five days, then if you do not want
it, mail it back. Tear out the
coupon now, before you turn
the page and forget.

What Readers Say:

"I would not willingly
separate myself from it."
CHAS. W. MEARS, Adv.
Mgr., Winton Motor Car
Co., Cleveland, Ohio.

"The five day examina-
tion period allowed by
you is certainly long
enough to convince any-
one that this is a book
one needs. I regret I
did not know there was
a book like this long
ago. My enthusiasm
is beyond description."

—ROY S. THARP, Pass-
enger Dept., Southern Pa-
cific R. R. Co., Oakland.

"In it I found rules and
principles that make it
worth its weight in
gold." — DIST. - ATT'Y
GOODWIN, Oil City, Pa.

"I have your 'Power of
Will' and would not
take \$100 for it."—
J. A. WAGNER, Sec.-
Treas., Toronto Academy
of Music, Edmonton, Can.

"Only wish I had a little
of this knowledge years
ago."—R. W. OSBORN,
Office of the Sec'y, Gov't
Porto Rico.

"I consider 'Power of
Will' invaluable to the
systematic and thorough
student in any walk of
life." — DR. WILLIAM
GROUND, Ex-Pres, Wisc.
State Med. Assn., Super-
ior, Wis.

"Has startled thinking
men all over the world.
If you want to know
what you are, or can be
—get it. It opens up a
new world."—JAMES
E. ELLS, President
National School of
Salesmanship,
Minneapolis,
Minn.

The Eye and Its Disease

Prof. Wilson's Treatise on Eye
Diseases Should Be Read By
Every Person With Im-
paired Eyesight. The
Book Is Free.

EYEGGLASSES NOT NECESSARY

Every reader afflicted with any im-
pairment of eyesight should not fail to
send for this book. It contains 64 pages
and cover and describes in language so
plain and interesting the various forms
of diseases of the eye and sure and safe

methods of treat-
ment that any read-
er of ordinary intel-
ligence may fully
comprehend every
word.

The author of this
Book is the inventor
of "Actina," an in-
strument that is at-

tracting the attention of people in all
parts of the world owing to the wonder-
ful results obtained from its use.

In the treatment of Eye disease the
author says:—"Nine out of ten per-
sons wearing glasses might better be
without them. Eyeglasses Do Not Cure.
The defects that make them necessary
can be removed in most cases by proper
treatment. There is also no need for
cutting or drugging the Eye for most
forms of disease—for the cause can be
removed by a newer and more humane
method."

The book also goes into full detail of
the causes and effects of disease in gen-
eral. It advocates a method in the
treatment of disease that is based upon
a humane and common sense principle.
It contains the recommendations of
hundreds of intelligent persons in every
walk of life who have been cured. A
free trial of the "Actina" is offered in
every case.

If the reader is interested, write for a
copy of this book. It is absolutely free;
a postal will bring it. Address Actina
Appliance Co., Dept. 31E, 811 Walnut
St., Kansas City, Mo.

THOUSANDS WHO WERE THIN

Men and women by thousands are
now sounding the praises of Dr. Whit-
ney's Nerve and Flesh Builder. For
twenty years imitators have come and
gone and been forgotten, but for all
that time this Treatment has been con-
stantly growing in favor. It is not only
invariably successful in increasing flesh,
but is always of great and noticeable
benefit to the general health and vital-
ity. A generous trial is offered abso-
lutely free.

You will be surprised and delighted
at the change in your appearance when
the treatment has produced its effect.
It has been astonishing how little addi-
tional flesh it has required to make
many of our thin patrons attractive—
even fascinating. They tell us they
seem to be attracting a flattering at-
tention which they never enjoyed and
had ceased to expect.

So, if you are thin, no matter what
the cause may be, just write to us and
a Free Trial Treatment will be sent
you in a plain unmarked package by
return mail. No obligation whatever to
purchase until you are convinced.

Inasmuch as this generous offer some-
times overcrows us, it will insure
prompt delivery if you will send for
your Free Treatment to-day—now. Ad-
dress The C. L. Jones Co., 50 Friend
Bldg., Elmira, N. Y.

LADIES—A special trial treatment
is offered for developing the bust alone.
If you desire this, please ask for No. 8.

BUST DEVELOPED ONE OUNCE A DAY

A New, Simple, Easy Home Method That Gives Quick, Permanent Success.

Judge from my picture as to the truth of what I say to you—that the crowning glory of womanhood is a figure of beautiful proportions and exquisite development. Then ask yourself how much you would like to have such a photograph of yourself, showing the feminine lines of infinite charm and grace. It would be worth more to you than a 2c stamp, so let me tell you of what I have learned—let me show you recent pictures of myself to prove what I say—for if you will write me today

I Will Tell You How—FREE

I will tell you gladly and willingly. Why should any woman neglect an opportunity to escape the pain and heartache of being skinny, scrawny, angular and unattractive in body? Misery is not our heritage. Nature planned that you—a woman—should have the rich, pulsing lines of warm, living flesh. Why should there be that pitiful aspect—the face of a woman and the form of a man?

Write To Me Today

I don't care how thin, or fallen, or flaccid your bust is now—I want to tell you of a new, simple, easy home method that gives quick and permanent success—I want to tell you how you can gain perfect development—one ounce a day. No physical culture—no massage, foolish baths or paste—no plasters, masks or injurious injections—I want to tell you of an absolutely new method, never before offered or told about—insuring immediate success and permanent beauty—without disappointment.

Send No Money

Just write me a letter—address it to me personally, that's all. I will answer it by return mail—and you can have a perfect bust and figure—one ounce daily—you can be just what you want to be. You may believe me when I say that you will bless me through years of happiness for pointing the way to you, and telling you what I know. Please send your letter today to the following address:

MRS. LOUISE INGRAM

Suite 1104, 408 Adams St., Toledo, Ohio

LET US MAKE YOU FAT

50c Box Free

We Want to Prove at Our Own Expense That It Is No Longer Necessary to Be Thin, Scrawny and Undeveloped

"Gee! Look at that pair of skinny scarecrows! Why don't they try Sargol?"

This is a generous offer to every thin man or woman reader. We positively guarantee to increase your weight to your own satisfaction or no pay. Think this over—think what it means. At our own risk, we offer to put 10, 15, yes, 30 pounds of good, solid "stay there" flesh on your bones to fill out hollows in cheeks, neck or bust, to get rid of that "peaked" look, to rejuvenate and to revitalize your whole body until it tingles with vibrant energy; to do this without drastic diet, "tonics," severe physical culture "stunts," detention on business or any irksome requirement—if we fail it costs you nothing.

We particularly wish to hear from the excessively thin, those who know the humiliation and embarrassment which only skinny people have to suffer in silence. We want to send a free 50-cent package of our new discovery to the people who are called "slats" and "bean poles," to bony women whose clothes never look "anyhow," no matter how expensively dressed, to the skinny men who fail to gain social or business recognition on account of their starved appearance. We care not whether you have been thin from birth, whether you have lost flesh through sickness, how many flesh builders you have experimented with. We take the risk and assume it cheerfully. If we cannot put pounds and pounds of healthy flesh on your frame we don't want your money.

The new treatment is used to increase the red corpuscles in the blood, strengthen the nerves and put the digestive tract into such shape that your food is assimilated and turned into good, solid, healthy flesh instead of passing through the system undigested and unassimilated. It is

a thoroughly scientific principle, this Sargol for building up the thin, weak and debilitated without any nauseous dosing. In many conditions it is better than cod liver oil and certainly is much pleasanter to take.

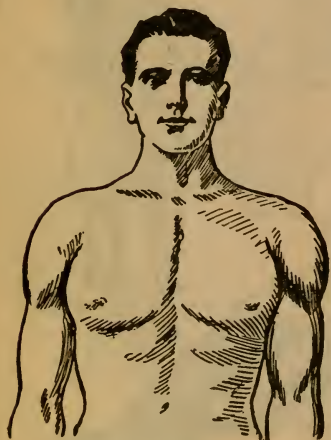

Send for the 50-cent box to-day. Convince us by your prompt acceptance of this offer that you are writing in good faith and really desire to gain in weight. The 50-cent package which we will send you free will be an eye-opener to you. We send it that you may see the simple, harmless nature of our new discovery, how easy it is to take, how you gain flesh privately without knowledge of friends or family until you astonish them by the prompt and unmistakable results.

We could not publish this offer if we were not prepared to live up to it. It is only the astounding results of our new method of treatment that make such an offer and such a guarantee possible on our part. So cut off the coupon today and mail it at once to The Sargol Company, Dept. 200, Herald Building, Binghamton, N. Y., and please inclose 10c with your letter to help pay distribution expenses. Take our word, you'll never regret it.

Free Sargol Coupon

This certificate, with ten cents to help pay postage and distribution expenses, entitles the holder to one 50c package of Sargol. The Sargol Co., Dept. 200, Herald Bldg., Binghamton, N. Y.

GOOD LUNGS MEAN HEALTH

Are They Weak or Painful?

Do your lungs ever bleed?

Do you have night sweats?

Have you pains in chest and sides?

Do you spit yellow and black matter?

Are you continually hawking and coughing?

Do you have pains under your shoulder blades?

**These Are Regarded Symptoms of
Lung Trouble**

You should take immediate steps to check the progress of these symptoms. The longer you allow them to advance and develop, the more deep seated and serious your condition becomes.

We Stand Ready to Prove to You

absolutely that Lung Germine, the German treatment, has cured completely and permanently case after case of Tuberculosis, Chronic Bronchitis, Catarrh of the Lungs, Catarrh of the Bronchial Tubes and other lung troubles. Many sufferers who had lost all hope and who had been given up by physicians have been permanently cured by Lung Germine. If your lungs are merely weak and the disease has not yet manifested itself, you can prevent its development, you can build up your lungs and system to their normal strength and capacity. Lung Germine has cured advanced Tuberculosis, in many cases over five years ago, and the patients remain strong and in splendid health to-day.

Let Us Send You the Proof---Proof That Will Convince Any Judge or Jury on Earth

We will gladly send you the proof of many remarkable cures, also a FREE TRIAL of Lung Germine together with our new 40-page book (in colors) on the treatment and care of Tuberculosis and lung trouble.

SHORTHAND IN 7 DAYS

—just what SHORTHAND ought to be—a short, simple system. You have only to learn 26 simple strokes, 26 brief word-signs, 6 prefix abbreviations and ONE rule of contraction. **THAT IS ALL.**

Then you will have a system of shorthand with which can be written ANYTHING and EVERYTHING in the language, from the simplest business letter to the most difficult scientific terms. The LONGEST words in the language can be written faster than they can be spoken.

Paragon Shorthand

is being used in the service of the UNITED STATES GOVERNMENT, and in the offices of the largest corporations—such as the Westinghouse Co., The Standard Oil Co., the big railroads, etc. Also in COURT REPORTING. The public schools of Atlanta, Ga., and other cities are now teaching this system.

It Will Raise Your Earning Power Quickly

Men and Women, boys and girls, have only to scan the Help Wanted columns of any city paper to see how steady the demand is for stenographers.

LEARN PARAGON SHORTHAND AT HOME

—during spare-time. Our correspondence course makes this possible. Send a dollar bill for FIRST LESSON and FULL PARTICULARS. MONEY-BACK GUARANTEE. Any bank will tell you this school is absolutely reliable.

Tycos THERMOMETERS

Take the Children's Temperature whenever they show signs of Fever. A

Tycos Thermometer

enables you to tell when they are really ill, and saves unnecessary doctor's calls.

Most dealers sell Tycos Fever, Bath, Candy, Desk, Window, Cabinet, Traveling, and Maximum and Minimum Thermometers.

Go to your dealer first. If he does not have Tycos Fever Thermometers (like illustration) or will not order for you, send us his name and address with \$1.50 and we will send you one in hard rubber case. Valuable Booklet No. 10, "Health and Comfort" on request.

See our advertisements on Pages LXX and LXXXI, this Almanac.

AMES STREET, ROCHESTER, N. Y.

There's a Tycos Thermometer for Every Purpose

Men Make Money Repairing Tires

There's no other business to-day that offers greater money-making possibilities to men with little capital than Tire Repairing.

A Million and a Quarter Cars

and over are now in use. Think of the Tires and Tubes that must be repaired.

Every city, town and hamlet is calling for men to do Tire Repairing. Why not you go into the business?

Only \$150 to \$500 Investment Required

That's all the money it takes to start in this business. For \$150 to \$500 we can give you a complete Akron-Williams Patented Tire Repair Outfit that is

Endorsed by all 30 Leading Tire Manufacturers

The fact that all 30 leading Tire manufacturers use the Akron-Williams Patented Tire Repair Vulcanizer is the best reason why YOU should use it.

And here are other reasons:

Built in separate units. You can buy just what you need, and add to as business requires.

Each unit has three separate steam chambers. Heat can be applied just where needed. That prevents over-curing or burning.

There are many other reasons why you should buy an A-W outfit. Get them with our catalogue No. 27.

Write us now and get into business for yourself. Please mention "The World Almanac."

FEDERAL

Motorcycle Tires
for Extra Service

Four Rows of Big Tough Studs

THE studs of this popular Federal Tire come well down over the side, forming a safe-guard against falls. At sharp turns on slippery roads the Federal Studded Tread protects the rider.

Federal Motorcycle Tires are made of specially selected motorcycle fabric, and all our 2 3/4 in. and 3 in. tires are four-ply, built up ply by ply. In Federal Tires, too, is the longest experience in manufacturing. This experience, supported by Federal modern equipment, shows itself to you in the Extra Service Federal Tires give you.

Supplied as regular equipment by leading motorcycle manufacturers.

Makes Your FORD

Heat less

Use less gasoline

Run more quietly and smoothly

The Maxim Silencer for Ford cars completely silences the exhaust noise. You cannot hear the exhaust at all.

And by reducing back pressure, the Silencer makes your Ford run much more smoothly—especially when the engine is throttled down very low or when pulling up a grade at high gear. Actual tests show that there is approximately one third less back pressure with the Silencer than with the regular muffler.

MAXIM SILENCER FOR FORD CARS

This reduction in back pressure also enables you to get more miles per gallon of gasoline. Less fuel is burned. The engine heats less and the liability of the water in the radiator to boil over is lessened.

WRITE FOR BOOKLET which explains fully the superiority of the Silencer over the ordinary muffler—shows how it increases your pleasure and decreases running expense. Quickly and easily attached by anyone; takes the place of the muffler.

Price \$6.00

Ask your regular automobile supply dealer. If he hasn't it, please write us (giving his name).

THE MAXIM SILENCER CO.

95A Huyshope Ave., Hartford, Conn.

The Magnetic Girl

How She Compels Others to Obey Her Will

100,000 Copies of Remarkable Book describing peculiar Psychic Powers to be distributed Post Free to readers of The World Almanac

"The wonderful power of Personal Influence, Magnetism, Fascination, Mind Control, call it what you will, can surely be acquired by everyone no matter how unattractive or unsuccessful," says Mr. Elmer Ellsworth Knowles, author of the new book entitled: "The Key to the Development of the Inner Forces."

The book lays bare many astounding facts concerning the practices of the Eastern Yogis, and describes a simple though effective system of controlling the thoughts and acts of others; how one may gain the love and friendship of those who might otherwise remain indifferent; how to quickly and accurately judge the character and disposition of an individual; how to cure the most obstinate diseases and habits without drugs or medicines; even the complex subject of projecting thoughts (telepathy) is explained.

Miss Josephine Davis, the popular stage favorite, whose portrait appears above, declares that Prof. Knowles' book opens the door to success, health and happiness to every mortal, no matter what his or her position in life. She believes that Prof. Knowles has discovered principles which, if universally adopted, will revolutionize the mental status of the human race.

The book, which is being distributed broadcast free of charge, is full of photographic reproductions showing how these unseen forces are being used all over the world, and how thousands upon thousands have developed powers which they little dreamed they possessed. The free distribution of the 100,000 copies is being conducted by a large London institution, and a copy will be sent post free to anyone interested. No money need be sent, but those who wish to do so may enclose 5 cents (stamps of your own country) to cover postage, etc. All requests for the free book should be addressed to: National Institute of Sciences, Free Distribution Dept. 962, No. 258 Westminster Bridge Road, London, S. E., England. Simply say you would like a copy of "The Key to the Development of the Inner Forces," and mention the World Almanac.

Do not enclose coins in your letter. Postage to England two cents.

Ask This Man to Read Your Life

His Wonderful Power to Read Human Lives at Any Distance Amazes All Who Write to Him.

Thousands of people in all walks of life have benefited by this man's advice. He tells you what you are capable of, and how you can be successful. He mentions your friends and enemies and describes the good and bad periods in your life.

His description as to past, present and future events will astonish and help you. All he wants is your name (written by yourself), your birth date and sex to guide

him in his work. Money is not necessary. Mention the World Almanac and get a Trial Reading free. If you want to take advantage of this special offer and obtain a review of your life simply send your

full name, address, the date, month and year of birth (all clearly written), state whether Mr., Mrs. or Miss, and also copy the following verse in your own handwriting:

"Your advice is useful,

So thousands say,

I wish success and happiness,

Will you show me the way?"

If you wish you may enclose 10 cents (stamps of your own country) to pay postage and clerical work. Send your letter to Clay Burton Vance, suite 2901-A Palais-Royal, Paris, France. Do not enclose coins in your letter. Postage on letters to France is 5 cents.

KIMBALL'S ANTI-RHEUMATIC RING
 A Speedy and Permanent Cure for Rheumatism, Neuralgia, Lumbago, Gout and All Other Diseases Where a General Warming, Quickening, Strengthening and Equalization of the Circulation Are Required.

SANDRINGHAM, NORFOLK, Nov. 4th, 1906.

SIR:—Will you please send straight by return of post a ring, size No. 12, to Mr. Temple, Summer House, Sandringham, Norfolk, and send the bills to me for her Majesty, the Queen. It is a plain ring, not gold plated. The man is anxious to wear it on Sunday for the Queen to-day, as he is the bearer at the church. The smaller ring I asked from to change the Queen has given one of the women in the house. I am keeping the size card, as that is always useful for more.

Yours truly, MRS. N. COLE.
 1123 Broadway, New York City.

"The Name Tells a True Story"

A REMARKABLE OFFER OF HENDERSON'S SPECIALTIES.

Henderson's Invincible Asters
Mammoth Butterfly Pansies
Eckford's Large Flowering Sweet Peas

Ponderosa Tomato
Big Boston Lettuce
Scarlet Globe Radish

To demonstrate the superiority of Henderson's Tested Seeds, we have made up six of the best we have into a Henderson Collection, consisting of one packet each of these great specialties.

To obtain for our annual catalogue, "**Everything for the Garden,**" described below, the largest possible distribution, we make the following unusual offer: To every one who will mail us ten cents, mentioning this publication, we will mail the catalogue and also send our Henderson Specialty Collection as above.

Every Empty Envelope Counts as Cash

This collection is enclosed in a coupon envelope, which, when emptied and returned, will be accepted as 25c. cash payment on any order of one dollar or over, and we send full cultural directions, together with our new "Garden Plans."

"Everything for the Garden,"

our 1915 catalogue, is without exception the best we have ever issued; 204 pages, 14 colored plates, over 800 photo engravings, showing actual results with-

out exaggeration, make it the most complete as well as beautiful horticultural publication of the year.

HOME FOLKS What 15c Will Do!

You have wished for a paper that gives all the news of the world, and that tells the truth and only the truth. The *Pathfinder* is just the paper you have been longing for, and the little matter of 15c in stamps will bring it to you every Saturday for 13 weeks on trial. The *Pathfinder* is an illustrated weekly, printed from large, easy reading type, published at the Nation's Capital, for the Nation; now in its 22nd year of increasing success. This paper fills the bill without emptying the purse; it costs but \$1 a year. If you want to keep posted on what is going on in the world, at the least expense of time or money this is your means. If you want a paper in your home which is sincere, reliable, entertaining, wholesome, the *Pathfinder* is yours. If you would appreciate a paper which puts everything clearly, fairly, briefly—here it is. Send 15c to show that you might like such a paper, and we will send the *Pathfinder* on probation 13 weeks. The 15c does not repay us, but we are glad to invest in New Papers. Address *The Pathfinder*, Box W, Washington, D. C.

The POSTAL Saves You Money and Safeguards Your Health

THOUGHTFUL people everywhere arrange policies in the **POSTAL LIFE INSURANCE COMPANY** because it supplies sound legal-reserve protection at low net cost and performs an important service in **health-conservation** for its policyholders.

The Company dispenses with agents; deals **direct** with the public, and policyholders save, and may deduct from their **first** premium a **guaranteed commission-dividend** corresponding to the usual agent's commission, less a moderate advertising charge.

In **subsequent** years, **POSTAL LIFE** policyholders can deduct the **agent's renewal-commission** of 7½% as paid; also an **office-expense saving** of 2% making up the

Annual Dividend of 9½% Guaranteed in the Policy

STRONG POSTAL POINTS

First: *Standard policy reserves*, now more than \$9,000,000. *Insurance in force* more than \$45,000,000.

Second: *Old-line legal reserve insurance* -- not *Internal re-assessment*.

Third: *Standard policy provisions* approved by the New York State Insurance Department.

Fourth: Operates under *strict New York State requirements* and subject to the United States postal authorities.

Fifth: *High medical standards* in the selection of risks.

Sixth: *Policyholders' Health Bureau* arranges one free medical examination each year if desired.

After the second year, the Company also apportions and pays contingent dividends.

Furthermore the Company's Health Bureau performs an important service in **health-conservation** by issuing regular Health Bulletins and granting to those who desire, one medical examination each year at the expense of the Company, thus detecting incipient disease in time to check or cure it.

By doing business through the mails—**direct**—it not only effects important savings for policyholders, but also brings the benefits of insurance-protection and health-conservation to the **remotest sections of the country**.

Write at once and find out the exact sum the Company will save you at your age on any standard form of contract—**Whole-Life, Limited-Payment Life, Endowment, Joint-Life, or on a Monthly-Income Policy.**

POSTAL LIFE INSURANCE COMPANY

WM. R. MALONE, President
35 Nassau Street NEW YORK

POSTAL LIFE BUILDING
35 Nassau St., New York

Assets:
more than
\$9,500,000

Call at the office or write for full official information. Simply say,

Mail me Insurance-particulars as per advertisement in

THE WORLD ALMANAC, 1915

In Your Letter be sure to give

1. *Your Full Name.*
2. *Your occupation.*
3. *The Exact Date of your Birth.*

No agent will be sent to visit you. The Postal Life employs no agents. You get the benefit of the agent's commission because you deal direct.

Insurance
in force
more than
\$45,000,000

PREMIER ELECTRIC MASSAGE VIBRATOR

This Vibrator is made to operate on direct currents of from 100 to 120 volts and also on 200 to 220 and on alternating currents of 60 cycles 100 to 120 volts and 200 to 220 volts. It is not adapted for use on alternating currents of frequencies higher than 60 cycles.

The Vibrator is handsomely finished in black enamel and polished nickel. A switch in the lower part of the handle under immediate control of the operator turns the current on or off at will. Practically noiseless and with a minimum vibration in the handle.

Furnished with six feet of flexible conducting cord and Mesco Separable Attachment Plug which will fit into any ordinary lamp socket.

Enclosed in a leather-covered, plush-lined carrying case, with leather handle and nickel-plated trimmings. Dimensions $9\frac{1}{4} \times 8\frac{3}{4} \times 4\frac{1}{4}$ inches.

Five Applicators are supplied with each outfit: Cup, Ball, Hard Toothed, Soft Toothed and Rubber Sponge.

- | | | |
|----------|--|---------|
| List No. | | Price. |
| 2236 | Premier Electric Massage Vibrator for 100-120 V.D.C. and 60 Cycle A.C. | \$15.00 |
| 2240 | Premier Electric Massage Vibrator for 220-230 V.D.C. and 60 Cycle A.C. | 16.00 |
| 2273 | Premier Electric Massage Vibrator, operated by Dry Batteries..... | 15.00 |

SEND FOR BOOKLET.

WIRELESS PRACTICE SET

For Learning the Wireless Code

The Practice Set comprises a regular telegraph key without circuit breaker, a special high pitch buzzer, one cell Red Seal Dry Battery, and four feet of green silk covered flexible cord.

The main object of the set is to enable the beginner to master the wireless code, and the buzzer reproduces the sound of the signals of the most modern wireless stations perfectly.

Practical Books for the Business Man's Library

Out of a world-wide experience in teaching by correspondence, the International Correspondence Schools have perfected the greatest system of textbooks in existence. The production of these textbooks has required 20 years of careful study and research and the expenditure of over \$2,000,000. And a large corps of experts are constantly employed at an annual expense of over \$100,000 in revising and keeping them up to date.

Prompted by many requests for these textbooks without the attendant correspondence instruction the publishers have issued a special edition of 125 volumes from which the very elementary subjects and examination questions have been omitted. These volumes are now being offered for sale to the general public in lots of five or more under the title "International Library of Technology."

Every business man should have a working library of a few reliable, practical books treating of the various phases of work with which he comes in contact. These books should cover the subjects thoroughly and clearly, and be so completely indexed that when an unusual problem is unexpectedly met the necessary information can be easily and quickly located.

Nowhere will you find technical books that will so satisfactorily meet this need as in the International Library of Technology. The volumes on the following subjects will be especially interesting to you:

- | | |
|---------------------|-------------------------------|
| Business | Commercial Law |
| Advertising | Electrical Engineering |
| Salesmanship | Automobile |

The volumes of this Library are sold in lots of five or more. Just indicate on the attached coupon the subjects in which you are interested and mail it to us. Complete description will gladly be forwarded by return mail.

SPORTING GOODS

My "SPORTSMEN'S HANDBOOK" will interest every lover of Outdoor life. It contains not only accurate descriptions of Tents, Camp Outfits, Firearms, Fishing Tackle, and Athletic Goods, but many pages tell of my

Experiences in the Big Outdoors.

Experiences when camping, hunting and fishing, with advice as to pitching a tent, paddling a canoe, choosing a rifle or shotgun, how to learn bait or fly-casting, what to take camping, selecting clothing and provisions, how to use a compass, preparing game and fish for mounting and other "kinks" in wildcraft.

Accept with My Compliments.

Send me your name and address in exchange for this profusely illustrated 472 page "Handbook" and catalogue. If you mention No. 57A, I will give The World Almanac credit for your inquiry.

Farmogerm Co.**
Bloomfield, N.J.
and 29 West
42nd St.,
New York

Plants must have nitrogen. The most scientific and economical method of replacing nitrates in exhausted soil is by Nature's own method, that is, with nitrogen-gathering Bacteria, which continuously take it from the air and fix it in nodules on the roots of legumes. Farmogerm contains millions of this species of bacteria, which, owing to careful breeding, are far more active and virile than those found in the soil.

Farmogerm will

1. Increase the yield and quality of legume crops, giving quicker growth and earlier maturity.
 2. Increase the food value of legumes.
 3. Make legumes grow in new localities where they cannot otherwise be grown successfully.
 4. Supply nitrates to other crops growing with the inoculated legume crops.
 5. Enrich the soil for future crops, thereby increasing the permanent value of the farm.
- Better crops—better
soil—less fertilizer
—less labor.

The Legally Trained Man LEADS

YOU Also Can Be A Leader!

IN business, in politics—before the Court and in private life—legal training gives **POWER, PRESTIGE, WEALTH.** Every move in business—every phase of politics and government—and thousands of transactions of our every day life—demands a knowledge of law. Naturally, the legally trained man leads—for his expert knowledge puts him in a position to advise, to guide, to *direct.* The law tells you what to do and how to do it—how to keep out of trouble and avoid expensive lawsuits.

We NOW offer you a tremendous opportunity, an opportunity to secure a course in our big Law School—to become a leader of men—to learn law at home during your spare moments.

The Greatest Law School for Home Study in the World

Offers you this remarkable opportunity! Write at once! There is no better, no more thorough way to learn law than to study right at home. Abraham Lincoln, Thomas F. Ryan, John Wanamaker, Elbert H. Gary, and hundreds of our greatest men studied law—many of them AT HOME. President Woodrow Wilson and every member of his Cabinet, with but one exception, practised at the bar.

YOU can become a leader of men—YOU can improve your position in the political and social world—YOU can increase your earning power—if you become legally trained.

Statistics show that students studying law by correspondence are the most successful in passing Bar examinations. More than forty thousand students have enrolled in our big Law School. Our graduates are to be found in every State of the Union, succeeding either as practicing attorneys or in business pursuits.

A Startling New Offer!

This startling offer is being made for a limited time to readers of this almanac. An offer so liberal, so unusual, that we can only give you the facts in direct letters! On this offer the world's most brilliant array of legal talent is at your command. We furnish you a Magnificent Law Library, masterful lessons and lectures. Our Consulting Service is at your disposal. We offer you our Complete Three-Year Course and Service at a tremendously low cost.

This Offer Is Limited—Act Quickly!

We cannot afford to hold this offer open indefinitely. Clip the coupon—right now—before you turn the page. Mail it—get the facts at once. This puts you under no obligation—it costs you nothing—it simply gives you the opportunity to go over the facts and decide.

Tear off the coupon and mail it right now.

AMERICAN CORRESPONDENCE SCHOOL OF LAW,
 Dep. 5451 Manhattan Bldg.
 CHICAGO.

We Guarantee

to coach *Free* any graduate failing to pass the Bar examination. Our Course covers all branches of American Law and includes the same studies as the leading law schools

Hurry! Mail This Coupon

The Springfield Metallic Casket

TRADE MARK.

This plate is on the end of every Springfield Metallic Casket.

Copyright—C. Deuble, Canton, O.

The McKinley Monument at Canton, Ohio. In this tomb lie the remains of the late President McKinley and his wife in Springfield Metallic Caskets of bronze.

SPRINGFIELD Metallic Caskets are indestructible. They are made of bronze, of cast metal or of steel.

They protect the bodies of your dead from the hideous violations of the earth. They keep the remains sacred forever. They place within the reach of every one the protection which, formerly, only entire nations could yield to their saints and kings.

Their simple beauty is impressive and lends dignity to the last rites.

“The Final Tribute” tells of the efforts of all peoples, even savages, to preserve the bodies of their dead. Write for it.

Beer Is a Natural Food Product and The Real Temperance Beverage

The constant growth of the brewing industry, and the upward trend of the beer sales, despite prohibitory legislation, gives beer the right to be called the national beverage. There is a very general confidence that it is a pure product, and it is generally known that the brewers of the United States were among the first advocates of a pure food law. The brewers take pride in the cleanliness and the wholesomeness of their product. Their brew-houses stand open to the public, whose inspection is invited. They are glad to have people visit their plants, see how beer is made, and thus learn how appropriately beer has been called "liquid bread."

Bread and Beer

The making of beer bears a striking resemblance to the making of bread. Bread is baked. Beer is boiled. One is a solid food, the other a liquid refreshment. Beer carries the process of digestion a little farther than bread, which is also partly digested starch, made so by alcoholic fermentation, like beer. In beer, as in bread, the consumer gets the essence of the golden grain, prepared and extracted by natural processes.

Beer Is a Natural Tonic

As a diet, beer possesses a three-fold property; it quenches thirst, stimulates digestion and nourishes. Beefsteak as a foundation and beer as a support, furnishes the most nutritious food, approved by the most eminent physicians.

Liebig, the great German chemist, has said: "In beer-drinking countries, beer is the universal tonic for the healthy as well as for the sick, and it is milk to the aged."

Who Wants to Be a Turk?

Beer is the chief beverage of the American people. Its use dates back thousands of years. There has been steady progress in Germany, France, Belgium, England and America—all beer-drinking countries. The tee-total nations are the ones that are most backward.

"The moderate drinker," says Dr. Sidney Hillier, the famous English pathologist, "is in a far better position than the total abstainer who often consumes an excess of solid food."

Best Brain Food

"Beer," says Prof. Charles Frederick Chandler, of Columbia University, "is a beverage prepared from barley, water, hops and yeast. Beer is food. American beer contains 6 per cent. solid food, only 3 to 4 per cent. alcohol and also lecithin, which is real brain food. Beer and bread are both made from cereals; bread with water and is solid; beer with more water and is liquid. Yeast converts both into palatable and readily digested food. Both contain alcohol. Beer is not intoxicating in ordinary quantities, and beer is one of the foods that is free from bacteria. It is appetizing and aids digestion.

"If the prohibitionists drive beer from the household they will deprive a large part of the population of a wholesome article of food."—Advertisement.

Popularity of American Wines

THE INCREASED USE OF OUR NATIVE WINES AND CHAMPAGNES AT TABLE IN THE HOME, AND IN THE RESTAURANTS AND BEST HOTELS

There is now a great demand for wines "Made in America." It is due to some extent to the European war, which largely cut off the supply of foreign wines. It is also due to the popular feeling and movement in favor of buying and using American-made products of all kinds.

Long before the European war American wines, through their excellence, were crowding foreign wines from our home market. This is proved by the actual figures given in the 1914 World Almanac. These figures show that in the year 1912 only 5,804,831 gallons of foreign wines were consumed, as against 50,619,880 gallons of American wines. In fact, the only foreign wines holding their ground were the French champagnes, which are bought by people who like to pay for a name and a label.

WINES AT THE TABLE.—The great bulk of all our American wines is consumed in the family—that is, daily at the table, with the meals. That is the time and place to drink wine. That is the way wines are used in Europe, where practically every one in the family, father, mother and children, drinks wine with their midday meal and at dinner.

The American people are now "getting the habit." It is a good habit. It makes for temperance. The sensible man will no more drink too much at his own table than he will eat too much. He will thus set a good example.

WINE FOR THE BUSINESS MAN.—The daily work of the business man usually leaves him tired out when night time comes. The more constant the strain the more tired is the man, whether employer or employee.

A dangerous way—and a bad way—to overcome this tired feeling and nervous tension is to take strong drink. The cocktail and spirits produce a temporary feeling of exhilaration, which passes away and leaves depression.

The right way—and the best way—is to drink a glass or two of light wine. It is both a food and a gentle tonic. The moderate proportion of alcohol, the fruit acids, the tannin, the mineral elements, as iron, phosphates and phosphoric acid—all these combine to make red and white wines tonic and recuperative without being exciting or fatiguing to the stomach and nervous system.

The proof of the wine is in the drinking of it. Just try it for a week or two, and at the end of that time you will learn how much wine has aided you in throwing off that tired feeling and in soothing body and mind.

DIFFERENT KINDS OF WINES.—There are three classes of wines, namely: (1) Dry wines, (2) Sweet wines and (3) Sparkling wines.

Dry wines, so called because the natural sugar in the grape juice is all converted during the fermentation. Claret, Burgundy, Riesling, Catawba, etc., are dry wines which, with or without a little water put in the glass (except in a fine old wine), add zest and pleasure to the meal.

Sweet wines contain more or less sugar and have a little brandy added so as to make them "keep" for some time after they are exposed to the air. Port, Sherry, Sweet Catawba, Tokay, Angelica, etc., are sweet wines. They are also known as dessert wines, because they are to be served with the pastry or dessert.

Sparkling wines contain carbonic gas, which is set free when the bottle is opened and produces that sparkling effect which is so pleasing to the eye and palate. Imitation champagnes are made by being artificially charged with the gas, but the true American champagnes are produced by natural fermentation in the bottle with the same care and skill as the foreign champagnes. They are equal in every way to the latter and can be had at half the price.

WINE IS NOT A LUXURY.—It is a mistake to regard wine as a luxury. It is a natural food and a tonic. It should be one of the necessities of life among our people, the same as it is among millions of people in Europe, where wine is part of the daily food and meal.

Finally, good, pure American wine is cheap. You can now buy wine at the stores by the bottle or gallon at a very moderate price. You can get a gallon of ordinary wine at from seventy-five cents to one dollar a gallon, or from twenty to twenty-five cents a quart, which makes it about as cheap a drink as milk, tea, coffee or soda water.

If you would like to know more about our good American wines write for the following booklets: "The Food Value of Wines," by Prof. E. H. Twight; "The One Best Drink—Wine," by Rev. R. D. Sawyer; "How to Use Wines," by L. J. Vance. They will be sent free by addressing the AMERICAN WINE GROWERS' ASSOCIATION, 304 Broadway, New York.

Trusses Like These Are a Crime

Get Rid of Elastic Bands, Springs and Leg-Straps. Such Harness Has Forced Thousands to Undergo Dangerous Operations.

Trusses like those shown above—the belt and leg-strap, elastic and spring contraptions sold by drug stores, surgical supply houses and many self-styled “Hernia Specialists”—make life miserable for everybody who wears them.

And—even when drawn so tight you can scarcely stand to keep them on—they do no good whatever.

Instead, they often do immense harm—they squeeze the rupture, often causing strangulation—dig into the pelvic bone in front—press against the sensitive spinal column at the back.

The Plain Truth Is This

Rupture—as explained in our free book—can’t be relieved or cured—can’t even be kept from growing worse—unless constantly held in place. Just as a broken bone can’t “knit” unless the parts are held securely together.

And—just as a bandage or splint is the only way a broken bone can be held—the right kind of a truss is the only thing in the world that can keep a rupture from coming out.

What a difference it will make when you get that kind of truss!

And you can get exactly that kind of truss—without risking a cent of your money.

It’s the famous Cluthe Truss or Cluthe Automatic Massager.

Far more than a truss—far more than merely a device for holding the rupture in place.

So different from everything else for rupture that it has received 18 separate patents.

Thousands say it is as comfortable as their clothing.

No belt, elastic belt or springs around your waist, and no leg-straps. Self-regulating, self-adjusting. Can’t shift or slip—the only truss in existence that is honestly guaranteed to hold your rupture every minute of the day.

Sent on 60 Days’ Trial to Prove It

We have so much faith in the Cluthe Truss—we have seen it work wonders for so many others—that we want to make one especially for your case and let you try it on the most liberal trial plan ever offered to ruptured people for their protection.

We’ll give you 60 days’ trial to prove that this truss will keep your rupture from coming out, when you are working and at all other times—that it will put an end to the trouble you’ve heretofore had with your rupture. If the trial we allow you doesn’t prove it, then the truss won’t cost you a cent.

How It Holds and Strengthens

In addition to holding the rupture the Cluthe Truss or Cluthe Automatic Massager is constantly giving a *strengthening massage* to the weak ruptured parts.

All automatically—the massage goes on all day long, all without any attention whatever from you.

This massage—which strengthens just as exercise strengthens a weak arm—is so remarkably beneficial—that nearly all feel better and stronger—get immediate relief after trying this truss.

Get World’s Greatest Rupture Book

Don’t go on letting your rupture get worse—don’t spend a cent on account of your rupture until you get our book of advice—which two cents for a stamp—or a penny for a postal—will bring you.

This remarkable book—cloth-bound, 96 pages, 21 separate articles, and 19 photographic pictures—took us over 40 years of day-after-day experience to find out all the facts we’ve put in it.

It explains the dangers of operations and why they don’t always cure to stay cured. Tells why—for the protection of the public—drug stores should not be allowed to sell trusses.

Explains why belt, spring and elastic trusses can do no good. Exposes the humbug “methods,” “locks,” “appliances,” “plasters,” “systems,” etc.

And tells all about the Cluthe Truss—just how it holds—how it is water-proof—how it ends constant expense—how you can get it on 60 days’ trial—thus giving you plenty of time to make sure of its wonderful holding and strengthening powers—and gives names and addresses of over 5,000 people who have tried it and want you to know about it.

Write for it to-day—don’t put it off—this book may be the means of adding many years to your life and of restoring you to full strength and usefulness.

Just use the coupon, or simply say in a letter or postal, “Send me the Book.” In writing us please give our box number as below—

Box 12—CLUTHE COMPANY—

OCURRENCES DURING PRINTING.

SOME months are occupied in printing a volume so bulky as THE WORLD ALMANAC, and it is necessarily put to press in parts or "forms." Changes are in the mean time occurring. Advantage is taken of the going to press of the last form of the First Edition to insert information of the latest possible date, which is done below. The readers of the ALMANAC are requested to observe these additions, corrections and changes, and it would be well to make note of them on the pages indicated.

191. Regulation of Railroad Rates—Increases granted by the Interstate Commerce Commission in freight tariffs, but not to full 5 per cent. asked. Coal and iron not included in awards. Only ten days' notice required of intention to change tariff.
329. Rowing—October 12, New York City. First Fall Regatta, New York Rowing Association, Speedway Course, Harlem River (1 mile). Summaries: Junior Single Sculls Race—Won by Percy O. Smith, Nonpareil Rowing Club; J. S. Roberts, Nonpareil Rowing Club, second; Dominick Mulo, Wahneta Boat Club, third. Time—6m. 33s. Junior Single Gig Race—Won by Lawrence Hartung, Wahneta Boat Club; Joseph Brodigan, Hudson Boat Club, second. Only two starters. Time—6m. 54s.
496. Heads of Governments—Vice-President Giuseppe Motta of Switzerland was elected President on December 18. Prince Hussein Kamel installed as Sultan of Egypt December 19.
529. Foreign Embassies and Legations—Count Macchi di Cellere, new Italian Ambassador to United States.
646. Benefactions—William B. Irvine of Philadelphia willed \$200,000 to the University of Pennsylvania, the sum to revert to the institution on the death of his sister. Victor M. Osborn of New York willed that on the death of his widow his estate of \$136,529 goes to the S. P. C. A. Harvard University is the principal legatee in the will of J. Arthur Beebe of Boston. In addition the Harvard Club of Boston gets \$150,000, and \$25,000 goes to Trinity Church of Boston. A Christmas gift of \$650,000 was made by the Crane Elevator Company of Chicago to its employes. An anonymous donor contributed 43,350 barrels of flour to the Virginia Belgium relief ship which sailed from Norfolk, Va., to the relief of the stricken Belgians. Mrs. Morris K. Jesup willed \$8,500,000 to charitable institutions, including \$5,000,000 to the American Museum of Natural History.
854. Clubs—A new organization of bankers, its membership limited to 1,000 and recruited from the entire country, has been organized under the name of the Bankers' Club of America. Rooms for the new club have been taken on the thirty-fifth and thirty-sixth floors of the Equitable Building, at Broadway, Pine, Cedar, and Nassau Streets. A. Barton Hepburn, President; T. Coleman du Pont and George T. Wilson, Vice-Presidents; Charles H. Sabin, Treasurer; Franklin A. Plummer, Secretary.

BROOKLYN MACISTRATES.

Chief Magistrate (vacant), \$8,000; G. H. Folwell, Charles J. Dodd, A. H. Geismar, J. C. McGuire, A. E. Steers, A. V. B. Voorhees, Jr., H. Nash, E. G. Dooley, L. H. Reynolds, John Naumer, J. J. Walsh, salary \$7,000 each.

THE JEWS OF THE WORLD.

There are 11,483,876 Jews in the world, 8,876,299 are in Europe, 1,880,579 in America. The Russian Empire leads by far all the nations with 5,215,805. The United States follows second with 1,800,000. The distribution in the United States is very incomplete. While the city of Warsaw leads Russian cities with 220,000, New York City alone includes 905,000 Jews in its population, Philadelphia has only 100,000 and Chicago 98,000. New York City embraces one-thirteenth of the entire Jewish race. Every fourth person in New York is a Jew. Even London has only 140,000 Jews.—*Christian Work and Evangelist.*

AMERICAN BOARD OF COMMISSIONERS FOR FOREIGN MISSIONS.

The head office of the American Board of Commissioners for Foreign Missions is at the Congregational House, 14 Beacon Street, Boston, Mass. There are three district offices: (1) at the United Charities Building, Twenty-second Street and Fourth Avenue, New York City, Rev. E. L. Smith, D. D., Secretary; (2) 19 S. La Salle Street, Chicago, Ill., Rev. A. N. Hitchcock, D. D., District Secretary; (3) Mechanics' Savings Bank Building, San Francisco, Cal., _____ District Secretary. Its officers are: *President*—_____, *Corresponding Secretaries*—James L. Barton, L. L. D., Cornelius H. Patton, D. D. Edward L. Smith, D. D. *Treasurer*—Frank H. Wiggin.

The American Board, which is the oldest foreign missionary society in the United States, was organized June 29, 1810. During its history it has sent out over 3,000 missionaries, of whom 611 are now in service. Into the 629 churches which have been organized by these missionaries there have been received from the first 224,582 members. The total receipts from the beginning have been \$44,386,196; for year 1914, \$1,681,000.

The mission fields now occupied by the board are: Mexico; Micronesian Islands; Mindanao, Philippine Islands; Japan; North China; Shansi, in Northwestern China; Poochow and Canton, in Southern China; Ceylon; Madura, in Southern India; the Marathi field of Western India; in Southern Africa, the Rhodesian Branch and the Zulu Branch; West Central Africa; European and Asiatic Turkey; Austria, Spain, Greece and Servia.

INTERNATIONAL ORDER OF THE KING'S DAUGHTERS AND SONS.

Headquarters, 156 5th Ave., New York City. Officers: *President*—Mrs. A. H. Evans. *General Secretary*—Miss Clara Morehouse. *Treasurer*—Mrs. K. M. Farnsworth.

The order is an interdenominational, religious and philanthropic society, working locally in Circles, County and City Unions, Chapters, National, State and Provincial organizations. Branches are established in thirty-two States and in eight Canadian provinces.

The objects of the order are "the development of spiritual life and the stimulation of Christian activities." It has a paid membership in all countries of 62,000. The order has established and is supporting several hundred institutions of different kinds in different localities. Its members are engaged in every form of helpful work, religious, educational and philanthropic. The badge is a small silver cross, which is also the corporate seal of the society. A monthly magazine, *The Silver Cross*, is the official organ of the order.

MEN'S DRESS CHART FOR 1915.

THE following is a specification of the proper attire for men on various occasions in the Spring season of 1915, prepared and copyrighted by The *Haberddasher*, New York.

Day Weddings, Afternoon Calls and Matinee Receptions.

Coat and Overcoat—Black cutaway, Chesterfield or skirted overcoat.
 Waistcoat—To match coat, or white.
 Trousers—Striped worsted of dark gray, or to match coat.
 Hat—High silk, with broad felt band.
 Shirts and Cuffs—Stiff or pleated white.
 Collar—Wing or poke.
 Cravat—Pearl Ascot, or four-in-hand, to match gloves.
 Gloves—Pearl suede, reindeer, or glace, to match cravat.
 Boots—Patent leather, laced or buttoned kid tops.
 Jewelry—Pearl or moonstone links, studs, and cravat pin.

Business, Lounge and Morning Wear.

Coat and Overcoat—Jacket, Chesterfield overcoat.
 Waistcoat—To match jacket, or fancy fabric.
 Trousers—To match jacket, or of different fabric with dark jacket.
 Hat—Derby or soft.
 Shirts and Cuffs—Pleated or negligé.
 Collar—Fold or wing.
 Cravat—Four-in-hand or tie.
 Gloves—Tan cape or chamolis.
 Boots—Laced calf or russet, high or low.
 Jewelry—Pearl, gold, or jewelled links and gold chain.

Motoring, Golf, Driving, Country.

Coat and Overcoat—Norfolk, Mackinaw, or jacket, belted or Chesterfield overcoat.
 Waistcoat—To match jacket.
 Trousers—Flannel or to match jacket; knickers for field sports.
 Hat—Cap or soft.
 Shirts and Cuffs—Negligé with soft cuffs.
 Collar—Fold, outing or self-attached collar or kerchief.
 Cravat—Four-in-hand tie, stock or kerchief.
 Gloves—Tan cape or chamolis.
 Boots—Laced calf or russet, high or low.
 Jewelry—Pearl or gold links, gold chain.

Afternoon Teas, Church and Promenade.

Coat and Overcoat—Black cutaway.
 Waistcoat—To match coat, or of fancy fabric.
 Trousers—Gray striped worsted, or to match coat.
 Hat—High silk or black derby.
 Shirts and Cuffs—Pleated, white or fancy.
 Collar—Fold or wing.
 Cravat—Once-over or four-in-hand.
 Gloves—Gray suede or reindeer.
 Boots—Patent leather or dull calf, laced or buttoned kid tops.
 Jewelry—Gold or jewelled links, studs and cravat pin.

Evening Weddings, Balls, Receptions, Formal Dinners and Theatres.

Coat and Overcoat—Swallowtail, cape skirted or Chesterfield overcoat.
 Waistcoat—White, single or double-breasted, of pique, linen or silk.
 Trousers—Same material as coat.
 Hat—High silk, with broad felt band.
 Shirts and Cuffs—Stiff pique or linen, white.
 Collar—Poke, wing, or lap-front.
 Cravat—White tie of plain or figured pique or linen.
 Gloves—White glace or white reindeer; white cape for theatre.
 Boots—Patent leather, buttoned kid tops, patent leather pumps.
 Jewelry—Pearl or moonstone links and studs, platinum bar-chain, or white ribbon.

Evening, Informal Dinners, Club, Stag, and at Home Dinners.

Coat and Overcoat—Jacket black or Oxford, Chesterfield overcoat.
 Waistcoat—Black or black-and-white silk or linen single or double-breasted.
 Trousers—Same material as jacket.
 Hat—Derby or soft.
 Shirts and Cuffs—Pleated, white linen or pique.
 Collar—Fold or wing.
 Cravat—Black or black-and-white tie.
 Gloves—Tan cape, chamolis, or gray suede.
 Boots—Dull calf, laced tops or gunmetal pumps.
 Jewelry—Gold or jewelled links and studs, gold bar-chain, or black ribbon.

BIRTHSTONES.

List as adopted by the American National Retail Jewelers' Association in convention Aug. 8, 1913.
 January—Garnet.
 February—Amethyst.
 March—Bloodstone and aquamarine.
 April—Diamond.
 May—Emerald.
 June—Pearl and moonstone.
 July—Ruby.
 August—Sardonyx and peridot.
 September—Sapphire.
 October—Opal and tourmaline.
 November—Topaz.
 December—Turquoise and lapis-lazuli.

WEDDING ANNIVERSARIES.

First—Cotton.
 Second—Paper.
 Third—Leather.
 Fourth—Fruit and Flowers.
 Fifth—Wooden.
 Sixth—Sugar.
 Seventh—Woolen.
 Eighth—India Rubber.
 Ninth—Willow.
 Tenth—Tin.
 Eleventh—Steel.
 Twelfth—Silk and Fine Linen.
 Thirteenth—Lace.
 Fourteenth—Ivory.
 Fifteenth—Crystal.
 Twentieth—China.
 Twenty-fifth—Silver.
 Thirtieth—Pearl.
 Fortieth—Ruby.
 Fiftieth—Golden.
 Seventy-fifth—Diamond.

The World.

JOSEPH PULITZER.

April 10, 1847 ✦ October 29, 1911.

THE WORLD'S purpose, to "turn on the light" in the interest of the people at large, was not forgotten during the year 1914. This inspiring aim was responsible for a remarkable feat in the journalistic world. It led THE WORLD to investigate the business methods of the New York, New Haven and Hartford Railroad Company, nothing daunted by the fact that the corporation was controlled by some of the greatest living financiers, men whose decisions were supposed to be the last word in financial matters.

It showed that millions of dollars were unaccounted for following the consolidation of the New Haven and other interests; pointed the journalistic finger at the men who controlled the road, and asked for an investigation. It held firmly that there had been wrongdoing, and asked that the guilt be made personal and justice done the stockholders of the New Haven Railroad.

With this result: That an investigation into the financial transactions of the New Haven was ordered by the Senate and made for it by the Interstate Commerce Commission. Following this investigation twenty-three directors and former directors were indicted by a Federal Grand Jury under the Sherman Anti-Trust law; the indictment, presented to Judge Rufus E. Foster in the Criminal Branch of the United States District Court, being conspiracy "to monopolize by unlawful means and methods part of the common carrier business of transporting passengers and property by railroad, by water, and partly by railroad and partly by water from each of the States of New Jersey, New York, Connecticut, Rhode Island, Massachusetts, Vermont, Maine, and New Hampshire to each and every other State in the United States."

The proof of THE WORLD'S responsibility for this indictment and the investigation, if proof be needed, is in the statement of George W. Norris, Senator from Nebraska, who introduced the resolution providing for the investigation which was afterward adopted by the Senate.

He said: "The exposure in the New Haven Railroad is due to a tremendous degree to the intelligence and activity which marked the campaign of the NEW YORK WORLD. When I first introduced my resolution providing for the investigation I read to the Senate a number of articles printed exclusively in the NEW YORK WORLD showing the need for an investigation. I am convinced that the force of these articles, combined with the knowledge of the Senators of the painstaking accuracy of THE WORLD in investigating the facts in such articles before publishing them, had a great deal to do with the passage by the Senate of the resolution.

"Many of the incidents in the history of the railroad which made the investigation by the Interstate Commerce Commission necessary at all were brought to my attention, and I am sure to the attention of the public at large, first through the news columns of the NEW YORK WORLD. I want to give that paper its full share of the credit for bringing about this investigation and for forcing full publicity at a time when it might have been that the investigation would have been prematurely choked off."

Thus did Mr. Norris summarize THE WORLD'S work in this matter, that work giving the most striking and unusual proof of the great powers and responsibilities of the press. Views of other Senators who wrote their approval to THE WORLD follow:

To the Editor of THE WORLD:

I have read most of THE WORLD articles on the startling exposure of criminal looting of the New Haven Railroad, and I heartily approve of its attitude in relation to this foul blot

in the financial world. THE WORLD is doing a distinct service in exposing and uncompromisingly condemning such methods in the business world as it has shown have been practised in the mismanagement of the New Haven road. THE WORLD has assumed in this, as in many other questions, an attitude of fearlessness, independence, courage, and integrity that is a refreshing and encouraging feature of journalism. It is doing a signal service to the rights of the people and deserves commendation. Again I want to say that I heartily approve of its course.

HENRY L. MYERS, Senator from Montana.

To the Editor of THE WORLD:

I am delighted with the fact that the Interstate Commerce Commission investigation of the New Haven financing, and the ultimate near-wrecking of the property, has got right to the bottom of the whole situation. I want to give the credit for this culmination to THE NEW YORK WORLD.

I voted for the resolution as passed by the Senate, which, I might say, was advocated by THE NEW YORK WORLD at the time, and I have been in favor of carrying out the terms of that resolution to the letter, which policy THE WORLD has steadfastly advocated.

MORRIS SHEPPARD, Senator from Texas.

To the Editor of THE WORLD:

The investigation of the looting of the New York, New Haven and Hartford Railroad Company by the Interstate Commerce Commission is proving, in my judgment, of great interest and value to the public. Publicity of the matters which are being disclosed will be powerful to prevent the repetition of the shameful practices which appear to have been pursued in connection with the New Haven's history.

THE NEW YORK WORLD is to be commended for its position on this important subject and its efforts to promote the investigation.

JOSEPH T. ROBINSON, Senator from Arkansas.

To the Editor of THE WORLD:

I am in favor of the most radical stirring up of the New Haven's affairs so that we may see what has been going on in that property. I am delighted that such a powerful influence as THE NEW YORK WORLD has lent itself to the prosecution of this propaganda. Those of us who stand with the people in this thing think that this kind of an exposé, made in the midst of the efforts of the railroads to get an increase in freight rates, is particularly timely, and we feel like saying to the railroads: "If you had not been robbed so much by your officers and directors you would not need to have your treasures replenished now by charging the people of the country more for carrying their freight."

J. E. MARTINE, Senator from New Jersey.

THE WORLD'S exposure of the business methods of the New Haven road began with the first of the year 1914.

THE WORLD, on January 18 of this year, told how the New Haven road was wrecked by its undertakings in the line of investments outside of its legitimate railway sphere, and of the problem that the late J. P. Morgan picturesquely described as "unscrambling the eggs," there being 336 eggs, or corporations, owned directly, leased, operated under contract or controlled by the New Haven, and in which \$204,000,000 of the resources of the road were invested.

It showed the decline in the price of stock since Mr. Mellen assumed control in 1903, this telling in cold figures the story of the road's financial difficulties. The stock from a high record of 225 $\frac{1}{4}$ in 1903 touched 65 $\frac{3}{4}$ as its low point in 1913.

THE WORLD, on January 19, presented facts showing how huge sums were spent by the New Haven for political aid and the workings of its system to control laws.

THE WORLD, on January 25, showed how the New Haven was looted in trolley deals as part of its extending its transportation tentacles throughout New England.

THE WORLD, on February 1, told "the story of \$12,000,000," or how that amount of New Haven Railroad money vanished into thin air. It gave facts and figures of the part played by J. P. Morgan & Co., Oakleigh Thorne, Marsden J. Perry, Charles S. Mellen, and many lesser lights in financing and constructing the New York, Westchester and Boston Railroad.

THE WORLD, on February 3, was praised by Senator Norris of Nebraska, who as a result of its revelations introduced a resolution to investigate the New Haven company.

THE WORLD, on February 7, was further commended when the Norris resolution passed the Senate without a dissenting voice, Senator Kenyon saying: "I think THE WORLD is entitled to the thanks of the American people for exposing the tale of infamy, the exposé of as corrupt a gang of financial plunderers as ever robbed a bank without requiring the same amount of courage that it does to rob a bank. I want to ask that this editorial of THE WORLD on 'A Chapter of Financial Infamy,' which concludes with the significant words, 'There can be no constitutional peace on a policy of plunder,' be inserted in the Record as a part of my remarks."

THE WORLD, on February 8, further drew aside the veil of secrecy by which the officials of the New Haven sought to effectually conceal the actual purchase by the road in 1910 of the properties and securities of the Metropolitan Steamship Company in utter disregard of the prohibitory provisions of the Sherman Anti-Trust law.

The Interstate Commerce Commission, on April 10, held its first public session in the investigation of the affairs of the New Haven directed by the United States Senate under the Norris resolution.

Charles S. Mellen, former President of the New Haven, took the witness stand on May 19 and placed all responsibility for the New Haven's disastrous plunge into the acquisition of the Westchester road and the waste of millions upon J. P. Morgan. Mr. Morgan was dead when Mr. Mellen testified, transferring the blame on him, and Mr. J. P. Morgan, Jr., then the head of the Morgan house, had deposed Mr. Mellen as President of the road and Mr. Howard Elliott had been placed in the President's chair before the testimony was given. Mr. Mellen wanted it to be understood that Mr. Morgan, Sr., had treated him as he might an office boy, not trusting the President with all the secrets of the road.

J. P. Morgan, Jr., spoke for his late father; characterized as untrue the testimony of Charles S. Mellen before the Interstate Commerce Commission to the effect that J. P. Morgan, Sr., concealed from Mr. Mellen facts regarding the New Haven road which the latter should have known. He took full responsibility upon himself for the change in the road's presidency, by which Mr. Mellen resigned, and said it was untrue that his father in any sense took from Mr. Mellen the management of the road or any part of its affairs.

In its report the Interstate Commerce Commission censured every one, Mr. Mellen included, for the condition of the New Haven's affairs.

Regarding the absorption of the Boston and Maine by the New Haven, Mr. Morgan said his father deemed it advisable for the public benefit, since it was recognized by others as well as by the late J. P. Morgan himself that changing economic conditions threatened the commercial position of New England.

The following from THE WORLD of February 1 is a summary of its article showing

HOW WESTCHESTER WAS "LOADED" FOR NEW HAVEN.

J. P. Morgan & Co. notes for money advanced to the Millbrook Company.....	\$11,155,000.00
Collateral to secure above notes in September, 1907 (net).....	200,200.00
J. P. Morgan & Co. got for interest.....	5 per cent.
Messrs. Thorne and Perry got for spending the borrowed money a commission of...	7½ per cent.
This amounted approximately to.....	800,000.00
Had they continued throughout the construction of the New York, Westchester and Boston Railway, estimating that construction at \$30,000,000, they would have been entitled to a commission amounting to.....	2,250,000.00
They were paid cash to cancel the contract.....	275,000.00
C. H. Smith received for assignment of the contract to build the New York, Westchester and Boston Railway in cash.....	1,050,000.00
And in stock.....	1,050,000.00
James P. McDonald was paid for services in securing the contract (in cash).....	375,000.00
Dick & Robinson received for underwriting bonds, 2½ per cent. commission, being in cash.....	375,000.00
They also received a bonus in stock of the par value of.....	1,500,000.00
The Trust Company of America got for services in buying the capital stock (par value \$631,250) of the New York Railroad and Development Co.....	50,000.00
The Trust Company of America got for acting as transfer agent of the New York, Westchester and Boston Railway Company in cash.....	50,000.00
Stetson, Jennings & Russell demanded and received as a fee for organizing the Millbrook Company (capital stock \$1,000).....	15,000.00
SOME ONE received for the capital stock of the Portchester Company, all issued and outstanding, 156 shares of a par value of \$156,100.....	940,000.00
The New York, New Haven and Hartford, up to June 30, 1910, according to their own figures, had expended in cash on the New York, Westchester and Boston for franchises, real estate and construction.....	21,020,094.62
They reported tangible assets (which had not been audited).....	12,326,421.18
On the company's own figures George F. Swain, in his validation report on the assets and liabilities of the company, estimated the value of the New Haven's investment in the New York, Westchester and Boston Railway Company as.....	12,066,921.18
The difference between the cash paid by the New York, New Haven and Hartford and the valuation of the New Haven's investment is.....	8,953,173.44
Interstate Commerce Commissioner Prouty in his report on the hearing before him says that the New Haven reported on June 30, 1912, its investment in the Westchester had cost it almost.....	34,000,000.00
Its report to the New York Public Service Commission three months later showed that it had tangible assets in the Westchester of less than.....	22,000,000.00
"Vanished into thin air".....	12,000,000.00

MR. MELLE'S EXPLANATION.

Mr. Mellen's explanation of the extraordinary cost of this Westchester road given by him in his testimony before the Interstate Commerce Commission is as follows: "I wish I could give a better explanation. I do not know, really. I know that it did cost, and I suppose and believe its cost was represented by the lawsuits, litigation, franchise values, giving away of the capital stock, giving away of rights before we got hold of it, and we simply had to pay by the nose to settle with everybody and everything, and it came pretty near settling me."

Mr. Mellen expressed the belief that the earnings of the road will be very much larger when contemplated connections with the New York subways are completed, but has "no anticipation that anything I can see in the immediate future is going to enable the road to earn the full interest on the full cost to the New Haven road."

He also told the commission:

"I believe the New Haven was working on the right lines for the benefit of the public, the benefit of the stockholders, and the benefit of the whole community.

"I think that if Mr. Morgan had lived the road would have been paying dividends to-day." To return to THE WORLD's work and the result: The revelations in THE WORLD concerning the New Haven, showing where the \$12,000,000 that Chairman Prouty of the Interstate Commerce Commission said had vanished, actually went, impressed the Senators from every section. The feeling culminated in the Norris resolution. With slight modifications it passed the Senate without a dissenting voice. As passed it reads:

"Resolved, That the Interstate Commerce Commission be requested to make public the facts in its possession concerning the financial transactions of the New York, New Haven and Hartford Railroad Company, and as far as it may be necessary to get additional information to thoroughly cover the subject to reopen its examination of the affairs of that company and make a further investigation of its financial transactions with a view of ascertaining:

"First—What became of the funds of said company invested in the various enterprises and corporations mentioned in the opinion of the Interstate Commerce Commission, numbered 2384; case numbered 4842, entitled 'The New England investigation in the matter of rates, classifications, regulations, and practices of carriers,' submitted May 20, 1913, and decided June 20, 1913.

"Second—Whether the person or persons authorizing such investment of the funds of said company and the person or persons receiving the benefit thereof are liable to punishment under existing laws.

"Third—Whether, under existing law, such funds so invested can be recovered on behalf of the stockholders of said company.

"Fourth—What legislation, if any, is necessary to prevent the recurrence of similar transactions."

The Interstate Commerce investigation was thorough. It was made notable by the full testimony of former President of the New Haven Charles S. Mellen. His testimony was in large part a repetition of the statements concerning the New Haven printed in THE WORLD.

The report of the Interstate Commerce Commission, made July 13 to the Senate, upheld THE WORLD's charges. Although THE WORLD was frank in its characterization of the methods used in exploiting this rich railroad, the commission not only upheld every charge, but was more emphatic than THE WORLD in some respects.

Demands made by THE WORLD for the restitution of millions taken from stockholders and for action against the financiers responsible for the wrecking of the great property were upheld without qualification. The Interstate Commerce Commission thus epitomized the result of its inquiry into New Haven Railroad affairs:

"If these directors, who were faithless to their stewardship, were held responsible in the courts and at the bar of public opinion for their failure to do those things they should have done, the lesson to directors who do not direct would be very salutary.

"Directors should be made individually liable to civil and criminal laws for the manner in which they discharge their trust. A corporation can be no better or worse than those who operate it.

"It should be just as grave a crime to plunder stockholders or the public through a railroad corporation as it is to personally rob an individual."

The report, in its entirety, is the most sensational and far reaching document of its kind ever put forth by that powerful and plain speaking body. Its principal findings against the management of the road are as follows:

That the directors of the New Haven are liable to the stockholders for from \$60,000,000 to \$90,000,000 losses as a result of the mismanagement of the financial affairs of that road.

That the directors should not only be forced to make good the loss resulting from their negligence, but should be held criminally responsible for their acts.

That many of the transactions, characterized as violations of the laws of New York, Rhode Island, and Massachusetts, and the Federal Anti-Trust laws, have been reported to the authorities of the States and the Federal Department of Justice.

That the financial transactions undertaken by the New Haven directors were a species of "financial joy-riding."

That the directors were knowingly violating criminal laws and suppressing competition in acquiring the different railroad, steamship and trolley lines.

That the New Haven directors were responsible for the despoliment of the Boston and Maine, the depreciation of the road beginning when the "Mellen-Morgan-Rockefeller" régime came into control.

That the Connecticut and Rhode Island trolleys were purchased at prices exorbitantly in excess of their market value.

That the retention by John L. Billard of more than \$2,700,000 in the Boston and Maine transaction in which he represented the New Haven was illegal.

That Billard never used a dollar of his own money, and that a suit by the railroad against Billard and those who participated in the transactions should be maintained.

That Oakleigh Thorne failed to account for \$1,032,000 of the funds of New Haven entrusted to him in carrying out the Westchester deal.

That the affairs of the New Haven were dominated by the late J. P. Morgan and Mr. Mellen.

That Mellen's dealings with former Police Inspector Byrnes in the Westchester Railroad transaction were "corrupt and unlawful," and that the amount illegally expended should be recoverable.

That hundreds of thousands of dollars of money belonging to stockholders was spent for the purpose of "educating public opinion."

That there was an unwarranted increase of the New Haven liabilities from \$93,000,000 in 1903 to \$417,000,000 in 1913.

All these strictures by the commission were upon the management of the New Haven system under former President Mellen.

The commission called attention to the fact that in its inquiry it was compelled to overcome many obstacles, such as the burning of books, letters and documents, as well as the obstinacy of witnesses who declined to testify until criminal proceedings were begun for their refusal to answer questions. It added:

The result of our research into the financial workings of the former management of the New Haven system has been to disclose one of the most glaring instances of maladministration revealed in all the history of American railroading.

The commission called attention to the fact that it has turned over the evidence concerning local occurrences in New York City to the District-Attorney, and the irregularities practised by the New Haven officials have been laid before the proper authorities in Massachusetts and Rhode Island.

The commission believes it has collected sufficient evidence to warrant prosecutions in the various States in which the New Haven operated for the return of many millions of dollars squandered by the directors belonging to the stockholders in the road.

In touching upon the Westchester deal, which resulted in an expenditure of \$36,434,173 for a road but eighteen miles long and which is being operated at an annual loss of \$1,250,000, the commission said:

WESTCHESTER PURCHASE UP TO DIRECTORS ALONE.

The blame for the Westchester purchase rests squarely upon the directors of the New Haven road; some are guilty for acts committed; others, the greater number, for their failure to act. They are alike culpable and responsible to the stockholders.

The purchase of the Rhode Island trolleys was characterized by the commission as "another instance of millions wasted in acquiring properties that bring in an annual deficit instead of a surplus, and constitute a liability instead of an asset in the New Haven system."

The transaction between John L. Billard, the Connecticut coal dealer, and the New Haven, whereby Billard reaped a profit of \$2,700,000 in the sale of the Boston and Maine to the New Haven, was called a "fraud upon the stockholders" by the commission.

The commission said that all the evidence shows that Billard acted at all times for the New Haven road, and that he never paid a dollar for his stock in Boston and Maine. The commission said the Billard Company and its assets belonged to and were the property of the New Haven road.

The practice of employing "dummy" directors was bitterly denounced. The report pointed out that some one high in the counsels of the New Haven "had an obsession upon the subject of the utility of such sham methods."

As the next step in the 1914 history of the railroad, the New Haven directors rejected an agreement of modified dissolution made with the Government. They received in return a suit for dissolution. Suit was filed in the United States District Court in New York July 24 for the dissolution of the New Haven community of railroad, steamship and trolley lines in New England. The petition asked action by the court under the Sherman Anti-Trust law.

Suit was instituted by direction of President Wilson following a Cabinet meeting.

The directors of the railroad decided to yield to the Government. The meeting of the board held in New York August 12 rectified an arrangement accepted by the Attorney-General for a peaceful dissolution of the properties. Thus the civil suit for the breaking up of the system was not

brought to trial. On October 18 the New Haven Railroad dissolution decree was entered by the court. The defendant, by written consent to the decree, cancelled the violations of the Sherman Anti-Trust law, and got from the Government immunity to further civil suits against it.

NEW HAVEN PROPERTIES TO BE SOLD.

The following is a summary of the properties to be sold by the New York, New Haven and Hartford Railroad under its agreement with the Department of Justice, with the book value thereof as carried on the books of the railroad and the New England Navigation Company:

	AS CARRIED ON BOOKS OF New Haven Company.	ON BOOKS OF New England Navigation Co.
Beston Railroad Holding Company.....	\$29,371,165.97
Boston and Maine Railroad subsidiary lines.....	1,417,216.95
The Connecticut Company.....	2,125,000.00	\$40,000,000.00
The Rhode Island Company.....	27,852,336.41	1,266,379.37
Berkshire Street Railway Company.....	9,809,395.58
The Vermont Company.....	1,477,164.31	4,200,000.00
Eastern Steamship Company.....	1,395,523.40
New York and Stamford Railway.....	1,152,150.84
The Westchester Street Railroad.....	117,000.00
Shore Line Electric Railroad.....	13,631,750.00
New England Investment and Security Company.....
Totals.....	\$74,599,953.46	\$59,215,129.37

While these legal details were being arranged the New York, New Haven and Hartford Railroad Company and the New England Navigation Company instituted suit in the New Haven County Superior Court against the officers of the Billard Company for the recovery of \$3,324,147 alleged to have been acquired and withheld as a result of the purchase of stock in the Boston and Maine Railroad for the New Haven. The property in New Haven of certain of the Billard directors was attached by the Sheriff, also the home of Charles S. Mellen, President of the New Haven at the time of the Billard trial.

Simultaneously with these suits a Special United States Grand Jury was inquiring into the charges of violations of the Sherman law laid against the New Haven and its directors, the search being for a basis of criminal charges against members of the boards during the time of the acts conceded by the New Haven in the agreed decree of October 17, under which immunity to further civil suits was granted.

Charles S. Mellen was the chief witness, this fact earning him immunity from indictment on a criminal charge. He always claimed that in return for his testimony before the Interstate Commerce Commission he had been promised immunity from prosecution on the indictment filed against him in December, 1912, charging violation of the Sherman law by restraining interstate trade in the abandonment of the Grand Trunk extension construction. His call to testify by the Government before this Special Grand Jury made certain he was to be given immunity from prosecution. He emerged from the Grand Jury room smiling and apparently well pleased. The Billard suit was a different matter, however. He was held legally responsible there with the Billard Company. That suit Mr. Mellen characterized as "pure cussedness."

November 3 the indictment followed of twenty-one New Haven directors—present and former directors.

This was the result of "turning on the light" in New Haven Railroad affairs. It was one of the most notable, if not the most notable, achievements in the journalistic world in this century.

The list of defendants represents many millions of dollars and forms a striking beginning for a 1914 edition de luxe, "Who's Who in the Financial World." It follows:

William Rockefeller, for more than twenty-five years a director of the New Haven, heads the list of the indicted. The others are George Macculloch Miller, for forty-one years a director of lines in the New Haven system; Charles F. Brooker, William Skinner, D. Newton Barney, Robert W. Taft, James S. Elton, James S. Hemingway, Lewis Cass Ledyard, J. P. Morgan's personal attorney for many years; Charles M. Pratt, A. Heaton Robertson, Frederick F. Brewster, Henry K. McHarg, Edward D. Robbins, Alexander Cochrane, John L. Billard, George F. Baker, Chairman of the Board of the First National Bank; T. De Witt Cuyler, Theodore N. Vall, Edward Milligan, Francis T. Maxwell.

WORLD'S WORK FOR THE CANAL TOLLS REPEAL BILL.

Throughout the Congressional fight on the Canal Tolls Repeal measure THE WORLD worked unceasingly to this end: That the Hay-Pauncetote Treaty be respected and free tolls be not given to the coastwise shipping.

It called on all good Democrats to support Democratic principles. It asked that the Nation keep faith. To THE WORLD a treaty between two great Nations was more than a "scrap of paper." It was a binding obligation. As the fight wavered all along the line, THE WORLD held to its point. That it helped to win the votes necessary to repudiate the blunder of 1912—which permitted the plank in the platform favoring the exemption from tolls of American ships engaged in coastwise trade passing through the Panama Canal—is certain.

THE WORLD called attention to this plank in 1912. It held then that the plank favoring the exemption from tolls of American ships was a declaration in favor of a ship subsidy. In 1914, as the Canal was about to be opened and the matter became a live issue, THE WORLD held that there was but one thing to do—repudiate that plank; undo the blunder by prompt legislation. It held that to uplift Democratic principles was infinitely finer than to uphold Democratic partisan politics. It asked that the Sims bill repealing the tolls exemption clause of the Panama Canal act be passed for the honor of the Nation.

To sum up THE WORLD'S arguments and position on this question into one statement: It held that the Democratic party should be big enough and wise enough and strong enough when a blunder had been made to acknowledge that mistake by swiftly correcting it by proper legislation.

That the exemption clause was in violation of the Hay-Pauncetote Treaty, and for this reason alone should be repealed, THE WORLD was equally insistent. To repeal the clause was the only thing this Government could do with honor. While daily advancing arguments in favor of repeal, THE WORLD briefly told the story of England's interest in an isthmian canal and the treaties that followed, each to this end, that she and her dependencies might use such a canal on terms of equality with the United States. This bit of history showed the imperative necessity, if this Government would be loyal to her high ideals, of admitting and upholding her treaty obligations.

THE WORLD showed that former Ambassador to England Joseph H. Choate and former Secretary and at one time Charge d'Affaires Henry White, the only living Americans who took part in the negotiations, held that "exempting coastwise shipping from tolls is a clear violation of the treaty." This was furnished the last word in the argument that hotly waged before the Congressional vote settled the question and repealed the clause.

A lobbyist undertook to defeat repeal. THE WORLD gave a history of his career. As the fight over the bill progressed it was quite clear that the issue was being fought by the Idealists, the men who believed in upholding the Government's honor, and the "special interests." As all the world now knows, the Idealists won, and when "the greatest engineering feat" was consummated and the Panama Canal opened to the world's traffic in August it was open to all the Nations of the earth on equal terms.

THE WORLD'S WORK ALONG VARIOUS LINES.

THE WORLD's series of revelations of the Tammany traffic in Aqueduct contracts was officially verified in 1914 by the Special Grand Jury investigating graft. The result of its labors before Supreme Court Justice Vernon M. Davis was a presentment to this end; this presentment stating also that these conditions of graft "can be largely obviated in the future by the enactment of appropriate laws." Such a recommendation and action thereon was the ultimate point of THE WORLD's efforts as an investigator of the Aqueduct scandals.

THE WORLD voiced swift approval of Mayor Mitchel's efforts to induce the House Committee on Rivers and Harbors to accelerate favorable action on the proposed appropriation for the improvement of New York Harbor. This because New York is now the first seaport of the world, both in tonnage and value of merchandise. Most of the mall matter concerned with the four and a half billions of foreign commerce of the United States passes in and out of New York Harbor, to say nothing of the general commerce. Of all applicants for Federal harbor work, New York should stand first when appropriations are to be made by this committee. THE WORLD is with Mayor Mitchel in his efforts to get Federal millions for a big ship channel in the East River, for dock and general improvement of New York Harbor.

THE WORLD asked for prison terms, more strict laws in this State for the reckless automobile drivers who run men down in the streets and highways; laws that would be no respecter of persons or occupations; laws that would hold and punish the reckless speeder driving the post-office trucks at racing speed through crowded city streets, as well as the thoughtless "joy riders."

THE WORLD sounded a note of approval of the new Anti-Noise ordinance which provides prompt punishment for any person who shall make or permit to be made "any noise tending to disturb the peace and quiet of the neighborhood for the purpose of directing attention to his wares or trade or calling." This ordinance was only a step in the right direction, a step that THE WORLD hoped might be followed by other ordinances that would tend to decrease the nerve-racking noise so much a part of life in New York. This, to increase the comforts of life, and for the added and vital reason: Neurologists, speaking from the depths of knowledge and experience, claim that the rapidly increasing number of nervous wrecks in the cities is largely due to the constantly increasing noises; noises which penetrate to the nerve centres in many instances, even during sleep, as well as make life burdensome during waking hours.

THE WORLD is for rapid subway work and against every delay, legal or otherwise, that will delay the completion of new lines. It has endeavored to impress on the Public Service Commission the full sense of the commission's responsibility to the public; it has asked that all contracts be let and that work be rushed in all ways to this end—that a long-suffering public may have proper facilities for getting to and from work without expending all its energy strap-hanging before the day's duties are begun.

THE WORLD strenuously opposed the literacy test for immigrants as unwise in every sense. If necessary to check immigration and control the traffic of the steamship companies THE WORLD would do this openly. It would keep out of the United States people physically and mentally defective. It would bar a criminal record or persons suffering from disease. But to bar a man because he cannot read or write, THE WORLD held, was inconsistent and illogical, to state the case mildly, since many of the most successful and respected of the early settlers in America were unable to sign their names, except by their mark, throughout life. Yet many of these same citizens died wealthy, as wealth was estimated in the early years of this country's history. And their descendants are, in many cases, numbered with the "great men" of to-day.

THE WORLD gave substantial aid to President Wilson and Mayor Mitchel when they took action to end "war prices" for food. Law for food extortioners was the repeated request of THE WORLD. The new free markets were welcomed as one of the ways to keep food prices normal. THE WORLD called for swift, determined action daily, so that the poor might not suffer. The wide publicity given to the campaign against a war rise in food prices quickly re-established the markets on the old basis.

THE WORLD'S WAR NEWS SERVICE.

THE WORLD's war news service has been notable. Never since newspapers were first printed have their representatives encountered such difficulties getting the news and sending it to their home offices as during the cataclysm of 1914. The immensity of the territory covered by the great armies alone would make the problem colossal of following their actions each day under the most favorable circumstances. This problem is as nothing, however, compared with the barriers erected by the censors of each of the fighting Nations, the result being conditions to try the soul of the publisher whose first wish is to give his readers "up-to-the-minute news" of the greatest war in history.

THE WORLD arranged for special war news from the leading foreign newspapers, and it sent its own representatives into the war zone. The result was exclusive accounts, pictures of the horrors of war that were remarkable for their vividness, their truthfulness to life in all phases, though the facts were often gleaned and written in face of death.

Notable in this respect was the work of THE WORLD's representative in Belgium, E. Alexander Powell. He was the only correspondent in Antwerp who was not a Belgian. He was officially designated by that Nation as the medium of communication with the American people and was the only correspondent permitted to accompany the army. When Belgium desired to make a protest against the cruelty of Germany, her Foreign Minister gave that country's facts to Mr. Powell, wishing to reach the American people through the medium of THE WORLD.

E. Alexander Powell remained in Antwerp during the bombardment, stayed until the Germans took possession; and his descriptions of those days and nights of horror are classics in their vividness.

He rode in his car through stricken Belgium during the days of fighting as fearlessly as if in New York's streets, his experiences a continued marvel to WORLD readers. One of the most notable of his many brave acts was a conversation held with Gen. von Boehm, commanding the Ninth Imperial Field Army and the mouthpiece of the German General Staff. The General asserted "that accounts of atrocities perpetrated on Belgian non-combatants were lies. "And "Herr Powell" replied by stating to the General one case after another that had come under his own personal ob-

ervation of Belgian non-combatants, some of them women and children, who had been maimed, tortured and killed. He told this conversation without comment and left it to "readers of THE WORLD to decide for themselves just how convincing are the answers of the German General Staff to Belgian accusations."

Mr. Powell has proved himself one of the few very great war correspondents.

Arno Dosch, another of THE WORLD'S special correspondents, was with the German army while it crossed Belgium. There were no accredited correspondents with the army. He sent THE WORLD an account of the great battle of the Alsne that was one of the big achievements of the western campaign. H. B. Swope, a WORLD staff man, sent the story of Capt.-Lieut. Otto Weddingen, commander of the submarine U-9 which destroyed three English cruisers. Lieut. Weddingen's account had been officially announced and verified by German navy headquarters. It was first published in THE WORLD.

Another of the many exclusive bits of war news in THE WORLD was a letter that was written from day to day in the trenches—really a diary. The writer was Capt. Norman G. Thwaites of the Fourth (Royal Irish) Dragoon Guards. This diary gave a vivid glimpse of life in the trenches on the Franco-Belgian frontier. Capt. Thwaites was one of the foreign editors of THE WORLD until the outbreak of the war. He had fought in the Boer war and was on the reserve list. He cabled for an assignment at once when war was declared and was called to London. When his diary-letter was sent to THE WORLD he was in the hospital severely injured by a bullet.

Another exclusive feature of THE WORLD war news was from the Russian armies October 25. THE WORLD sent a cablegram to Gen. W. Soukhomlinoff, Russia's Minister of War and Adjutant-General of Emperor Nicholas II., asking for authoritative details of the situation in the eastern theatre of war. Full details were sent direct to the newspaper of the great Russian victory after the hard-fought battles between the East Prussian frontier and the River Nieman.

Mention of THE WORLD'S special features in the way of exclusive war news would be incomplete without referring to THE WORLD'S account of the occupation of Vera Cruz, Mexico. This was the journalistic achievement of Robert H. Murray, the special representative there of THE WORLD.

THE SANTA CLAUS SHIP.

THE WORLD co-operated to the fullest extent with the Chicago Herald and perhaps 150 other newspapers of the United States to this end—that the children of Europe, whose fathers have been killed in the war might be remembered by Santa Claus on Christmas. The idea originated with James Kelsey, publisher of the Chicago Herald. Generous response to the call in behalf of the children was made. THE WORLD established sixty-four receiving depots in New York. A general receiving station was established through the co-operation of Dock Commissioner R. A. C. Smith. This station was on the upper deck of Pier No. 1, North River. Its use was given to Commissioner Smith in behalf of the Christmas Ship by the lessees, the Iron Steamboat Company. The American Red Cross, under the guidance of Miss Mabel T. Boardman, co-operated by offering to convey and deliver gifts to the children. This co-operation meant a wide and impartial distribution. Irving T. Bush, President of the Bush Terminal Company, offered the use, without cost, of the Bush Terminal stores. Gifts were handled there as well as at the Iron Steamboat Pier. The collier Jason was given by Secretary of the Navy Josephus Daniels to carry the Christmas presents to Europe. The quantity of merchandise that was sent in response to THE WORLD'S call for help for the orphan children was great. The pier was strung with electric lights and the work of preparing the cargo for shipment was rushed night and day. The soldiers from Fort Hamilton worked under Major Lawton of the Quartermaster's Department assorting the gifts. A company of marines helped the Red Cross representatives. The wives and daughters of the officers on Governor's Island and many others worked each day until the gifts were all stowed away in the big collier. When she steamed away, Lieutenant-Commander, C. E. Courtney commanding, she bore 6,000,000 gifts. It was probably the most remarkable cargo that any ship ever carried from this or any other port.

She was given a great send-off. Mayor Mitchel sent a letter and Mr. McAneny as his representative to see her sail. John Callan O'Laughlin, representing the Chicago Herald, went with the ship as American Commissioner. All paid tribute to the work of THE WORLD to the end that the undertaking might be a success and bring joy, or at least a measure of comfort, to the helpless children, sufferers because of the war.

Earl Kitchener expressed his thanks and the thanks of the army to the American people for sending Christmas gifts to the children of British soldiers.

Queen Mary sent a letter of thanks for the gifts to the donors through Mrs. Walter H. Page, wife of the American Ambassador to Great Britain.

THE WORLD'S WINNING FIGHT FOR EFFICIENCY OF THE COURTS.

THE WORLD'S fight for longer court hours and shorter vacations for the Judges of General Sessions scored a success in November, when the Committee on Courts of Criminal Procedure of the New York County Lawyers' Association sent to the Judges a copy of the resolution they passed, approving the new vacation schedule suggested by the Judges.

How THE WORLD fight for longer court hours and shorter vacations for the Judges of General Sessions was won:

September, 1913—THE WORLD published a series of articles calling attention to the regular Summer overcrowding of the Tombs and the long vacations enjoyed by the Judges. At the following session the Legislature passed a bill establishing six full parts of General Sessions instead of five.

September 22, 1913—THE WORLD began the publication of articles showing that conditions had not been relieved and that prisoners were in the Tombs clamoring for trials which they could not get.

September 27—The suggestion was made that the Legislature might take further action.

September 30—The Tombs reached high-water mark of 891 prisoners.

October 3—Jonah J. Goldstein called the attention of the Committee on Courts of Criminal Procedure of the County Lawyers' Association to articles in THE WORLD and asked for an investigation.

October 4—Three Judges returned from vacations and six Judges sat long hours in an effort to reduce the calendars.

October 7—Samuel Untermyer drafted a summary of the statistics which had been printed in THE WORLD, in the form of a resolution to be presented to the New York County Lawyers' Association.

October 8—The New York Lawyers' Association called on its Committee on Courts of Criminal Procedure to begin an investigation.

October 9—The General Sessions Judges called a meeting to plan how to meet the criticism directed against them.

October 13—The District-Attorney's staff announced willingness to shorten its vacations to relieve conditions. The Committee on Courts of Criminal Procedure sent a letter to the Judges, inviting a conference.

October 17—The Judges announced that they had a plan to relieve conditions.

October 21—The Judges submitted to the New York County Lawyers' Association a plan for

holding four parts of courts in Summer, instead of three, and for lengthening their daily sessions until 5 o'clock.

November 12—The Committee on Courts of Criminal Procedure wrote to the Judges approving this plan.

The new schedule will give the Judges about two months and two weeks' freedom from the bench each year. This is almost a month less than the Justices of the Supreme Court now have and a month less than the Sessions Judges had prior to this year.

Indictments were ordered by the Grand Jury after that body investigated graft conditions on Blackwell's Island that had been exposed by THE WORLD. The indictments charged perjury against three men directly connected with furnishing supplies to the penitentiary workshop.

THE PULITZER STATUE OF JEFFERSON.

The statue of Thomas Jefferson, for which Joseph Pulitzer made provision in his will, was unveiled this year. It was the desire of Mr. Pulitzer that the statue should "adorn some public place in New York, the foremost Democratic city of this new republic." The site chosen is before the School of Journalism that Mr. Pulitzer established at Columbia University. The statue was unveiled on the university's commencement day. It was the work of William Ordway Partridge. The figure is nine feet in height, to which the pedestal and plinth add six feet more. On the front of the pedestal appears the single word:

JEFFERSON.

On the rear:

"Presented by Joseph Pulitzer to the City of New York."

The statue stands in striking contrast with the figure of Hamilton, just across South Field. This, also, was the work of Mr. Partridge. Hamilton reveals the fire of the orator, as Jefferson shows reflective repose. It was Jefferson, the thinker, that the sculptor set himself to portray.

OTHER WORLD ACTIVITIES.

SUNDAY WORLD activities on behalf of the school children continued through 1914. With pleasure it was noted there was growing interest in the competition for WORLD prizes given to competitors in the athletic events. The big city schools held field days to compete for the prizes. Nearly sixty thousand participated prior to the final meet. In this meet 1,500 boys, representing more than a hundred public schools, competed. A great number of new school walking clubs were organized during the year. Hosts of children were awarded WORLD prizes for garden work. Seventy-four schools and nearly twenty-five thousand children comprised the year's enlistments for this work.

THE EVENING WORLD'S WORK FOR THE PUBLIC.

THE EVENING WORLD has kept up its fight during the year for lower telephone rates. With the first of the year this newspaper registered its New Year's resolution:

"1914 shall see the speedy abolition of telephone tollgates and the establishment of a five-cent phone rate throughout Greater New York."

The status at the first of the year of the fight of New Yorkers from telephone extortion was as follows:

New York City is paying higher rates than any other city in the United States.

New York is the only city that is compelled to pay additional toll charges for communication between boroughs within the city limits.

New York is being milked to support losing operations of the telephone company in other cities.

New York is contributing millions of dollars for the purchase of rival telephone companies throughout the State.

A few days after this statement appeared in THE EVENING WORLD the New York Telephone Company offered to reduce subscribers' charges 10 per cent. pending the appraisal of its property.

This proposal was accepted at a hearing before the Second District Public Service Commission. This meant a reduction of \$2,250,000 a year, according to the estimate of Vice-President Frank H. Bethell.

Also the company frankly conceded that its New York patrons were entitled to lower rates. The rate voluntarily conceded by the company was a seven-cent rate. THE EVENING WORLD asked for a five-cent rate. Time passed. The Public Service Commission dallied in the telephone matter. The Goldberg Five-Cent Phone bill was passed by the Assembly. THE EVENING WORLD wanted to know why the commission did not do its own work and order an appraisal of the New York Telephone Company's property preparatory to a reduction of rates. Mayor Mitchel and President McAneny of the Board of Aldermen at this juncture joined in the fight begun by THE EVENING WORLD. Both houses at Albany favored inserting in the Appropriation bills an item to provide for the expenses of the Second District Public Service Commission in valuing the New York Telephone Company's property in New York City as a basis for fixing new and equitable telephone charges. This was the next step, an important one. The appraisal of the telephone company's property began, but lags slowly. Civic organizations are joining with THE EVENING WORLD in the effort to hurry the telephone company into taking action. And THE EVENING WORLD iterates: "Whether through the Public Service Commission or through the Legislature, a five-cent phone for all New York must come."

FORT LEE FERRY FARES REDUCED.

The fight led by THE EVENING WORLD to reduce to three cents, from five, the fare on the Fort Lee Ferry was won in time for the Summer travel to the cool country. This ferry, which crosses the Hudson River from the foot of West One Hundred and Thirtieth Street to Edgewater, unites northern Manhattan and New Jersey. Cheaper ferry rates mean much to the New Jersey citizen and his wife as well as to the Manhattan shop owner. Cheaper transportation rates also meant a stimulus to property values on both sides of the river. The fifteen "Fighting Mayors" of New Jersey, the Harlem Board of Commerce, and other organizations were all working to one end—lower ferry fares. The work of THE EVENING WORLD for and with them was deeply appreciated by the citizens interested, their feeling being given expression by the Bergen County Improvement Association in the following resolution:

"We hereby express our thanks to THE NEW YORK EVENING WORLD for taking up the fight for a three-cent fare on the Fort Lee Ferry. We believe that great newspaper will have a powerful influence in winning a victory that will be of inestimable benefit to the people of Eastern Bergen and the business men of New York City."

Victory rewarded THE EVENING WORLD's campaign. The Bergen County Board of Freeholders ordered the Public Service Corporation of New Jersey to reduce the fare from five to three cents, the new rate to go into effect June 25.

The above table applies to ordinary years only. For leap year, one day must be added to each number of days after February 28.

EXAMPLE.—To find the number of days between June 3, 1900, and February 16, 1901: The figures opposite the third day in the first June column are 154; those opposite the sixteenth day in the second February column are 412. Subtract the first from the second product—i. e., 154 from 412, and the result is 258, the number of days between the two dates.

EASTER SUNDAY.

A TABLE SHOWING THE DATE OF EASTER SUNDAY IN EACH YEAR OF THE NINETEENTH AND TWENTIETH CENTURIES.

1801—April 5.	1835—April 19.	1869—Mar. 28.	1902—Mar. 30.	1935—April 21.	1968—April 14.

GAME LAWS OF THE CLOSE SEASON FOR GAME

The following table shows the close season for all game in the United States, with the exception of mountain sheep and goat and a few unimportant species. Where no dates are given kind of game does not exist, or close season at all times. Local laws, where operative, should be consulted. The first date of the close season and the first date of the open season are given.

51 Wyoming.....	Nov. 1-Oct. 1.....	At all times.....	To Sept. 25, 1915.....

1 Elk only. 2 Cow and calf moose, all year. 3 Moose, caribou, bison or buffalo, all the year. 4 Prairie chicken, closed season all year. 5 Rail excepted. 6 Female protected all the year. 7 Snipe only. 8 Rail—Connecticut, Dec. 1-Sept. 15. 9 Deer raised in private preserves may be killed at any time. 10 Certain species. 11 Deer raised in enclosure for market may be killed Oct. 1-Feb. 1. 12 Local exceptions. 14 Except Forest Counties, Jan. 1-Dec. 1. 18 Except July. 19 Sundays and Mondays are also closed seasons for ducks and other waterfowl. 21 Rail, coot, mud hen, Dec. 1-Sept. 1. 23 Except June 15-Spt. 15. 27 Between Nov. 24 and Jan. 1, hunting with dog and ferret only. 28 Cuck pheasant may be killed Nov. 1-Feb. 1, under permit. 29 Residents of the State may kill rabbits on their own land at any time. 30 Grouse to 1920. 31 Season varies according to latitude. 32 Open season for few days only late in November. Prohibitory laws against hunting doves and robins exist in nearly all States. Sale of game during close season is prohibited in most States. License fees from non-residents required in some States.

(a) Female deer and elk and deer without horns protected at all times. (b) Except deer without horns. Non-resident not permitted to kill. (c) Game animals or birds may be killed at any time for food or clothing by native Indians or Esquimaux, or by miners or explorers in need of food, but game so killed cannot be shipped or sold.

*NEW YORK. Dates for deer hunting apply to Adirondack region only; rest of State no open season. Exceptions: Ulster, Orange and Sullivan Counties, Nov. 16-Nov. 1. Fawns at all times. Hunting with dogs, traps or devices of any kind prohibited.

WILD BIRDS—Catching, killing, or the possession of live or dead, and robbing of nests prohibited at all times—except English sparrow, hawk, crow, owl, and blackbird.

Hunting and shooting on Sunday prohibited.

Export of game or birds taken in the State is prohibited.

FISH LAWS, NEW YORK STATE, OPEN SEASON.

Trout—April 15 to August 31. Minimum length, six inches. Not more than ten pounds of trout may be taken or transported by one person in one day. Trout must not be taken by any other method than angling.

SEVERAL STATES, 1915.
IN THE UNITED STATES.

Open season may be found by reversing dates. The difficulty of securing absolute accuracy in a table of this kind is very great, and absence in laws of many States of express legislation as to inclusion or exclusion of date upon which seasons open and close makes exactness almost an impossibility. Compiled and corrected to October 20, 1914.

Lake Trout and Whitefish.—Lake trout not less than 1¾ pounds in weight, and whitefish not less than twelve inches in length, may be taken and possessed from April 1 to December 31, both inclusive. Otsego whitefish, commonly called Otsego bass, not less than nine inches in length, may be taken and possessed from January 1 to October 31, both inclusive. A person may take by angling not to exceed ten lake trout in one day, but whenever two or more persons are angling from the same boat they may take not to exceed fifteen in one day. Whitefish may be taken in any number or quantity. Lake trout and whitefish may be taken in Lakes Erie and Ontario in any number or quantity at any time from October 31 to December 31, and when so taken may be possessed.

Black Bass.—June 16 to November 30, inclusive. Minimum length, ten inches. Limit per day to one person, fifteen; to a boat, two or more persons, twenty-five; bass must not be taken by any other method than angling.

Pickereel and Pike.—May 1 to March 1, inclusive. Pike, minimum length, ten inches. Pickereel, minimum length (St. Lawrence River), twenty inches.

Pike Perch.—Not less than twelve inches in length may be taken and possessed in any number or quantity from May 1 to March 1, both inclusive.

Frogs.—Bullfrogs, green frogs and spring frogs, may be taken in any manner, possessed, bought and sold from June 1 to March 1, both inclusive. They shall not be taken, possessed, bought or sold at any other time.

(Long Island, Open Season.)

Trout.—April 1 to August 31, inclusive.

Rainbow Trout.—April 16 to September 30, inclusive.

NOTE.—The State Fish and Game Laws apply where not in conflict with the Long Island provisions.

THE astronomical calculations in this work were made expressly for it by Dr. J. Morrison and are given in local *Mean Time*.

Chronological Eras.

The year 1915 corresponds to the year 7423-24 of the Byzantine era; 5675-76 of the Jewish era, the year 5676 commencing at sun-set September 8; 2668 since the foundation of Rome according to Varro; 2691 of the Olympiads, or the third year of the 673d Olympiad commencing July 1; 2575 of the Japanese era, and to the third-fourth year of the period entitled Taisei; 1333-34 of the Mohammedan era, the year 1334 begins on November 9, 1915. The 140th year of the Independence of the United States of America begins on July 4, 1915.

CHURCH FASTS.

THE Roman Catholic Days of fasting are the forty days of Lent, the Ember Days, the Fridays of the four weeks in Advent, and certain vigils or evenings prior to the greater feasts, while all Fridays of the year are days of abstinence from flesh meat. In the American Episcopal Church the days of fasting or abstinence to be observed, according to the Book of Common Prayer, are the forty days of Lent, the Ember Days, the three Rogation Days, and all the Fridays of the year except Christmas Day. In the Greek Church the four principal fasts are those in Lent, the week succeeding Whitsuntide, the fortnight before the Assumption, and forty days before Christmas.

EMBER AND ROGATION DAYS.

EMBER and Rogation Days are certain periods of the year devoted to prayer and fasting. Ember Days (twelve annually) about the beginning of the four seasons, and are the Wednesday, Friday, and Saturday after the first Sunday in Lent, in Spring; after the feast of Pentecost (Whit Sunday), Summer; after the festival of the Holy Cross, Autumn; and after the festival of St. Lucia, Winter. Ember Weeks are the weeks in which the Ember Days appear.

Rogation Days occur on the Feast of St. Mark, April 25, and on the three days immediately preceding Ascension Day.

DIVISIONS OF TIME.

THE interval between two consecutive transits of a fixed star over any meridian or the interval during which the earth makes one absolute revolution on its axis is called a *Sidereal Day*, and is invariably, while the interval between two consecutive transits of the Sun over any meridian is called an *Apparent Solar Day*, and its length varies from day to day by reason of the variable motion of the earth in its orbit and the inclination of this orbit to the equator on which time is measured.

A *Mean Solar Day* is the average or mean of all the apparent solar days in a year. *Mean Solar Time* is that shown by a well-regulated clock or watch, while *Apparent Solar Time* is that shown by a well-constructed sun-dial; the difference between the two at any time is the *Equation of Time*, and may amount to 16 minutes and 21 seconds. The Astronomical Day begins at noon and the Civil Day at the preceding midnight. The Sidereal and Mean Solar Days are both invariable, but one day of the latter is equal to 1 day, 3 minutes, and 56.555 seconds of the former.

The interval during which the earth makes one absolute revolution round the Sun is called a *Sidereal Year*, and consists of 365 days, 6 hours, 9 minutes, and 9.6 seconds, which is invariable.

The Tropical Year is the interval between two consecutive returns of the Sun to the Vernal Equinox. If this were a fixed point, the Sidereal and Tropical Years would be identical; but in consequence of the disturbing influence of the Moon and planets on the spheroidal figure of the earth, the Equinox has a slow, retrograde mean motion of $50''$.26 annually, so that the Sun returns to the Equinox sooner every year than he otherwise would by 20 minutes 23.6 seconds; the Tropical Year, therefore, consists of 365 days, 5 hours, 48 minutes, and 46 seconds. The Tropical Year is not of uniform length; it is now slowly decreasing at the rate of .595 second per century, but this variation will not always continue.

Julius Cæsar, in B. C. 45, was the first to reform the calendar by ordering that every year whose date number is exactly divisible by 4, contain 366 days, and all other years 365 days. The intercalary day was introduced by counting the *sixth* day before the Kalends of March *twice*; hence the name bissextile, from bis, twice, and sex, six. He also changed the beginning of the year from 1st of March to the 1st of January, and also changed the name of the fifth month (Quintilis) to July, after himself. The average length of the Julian year is therefore 365 $\frac{1}{4}$ days, which, however, is too long by 11 minutes and 14 seconds, and this would accumulate in 400 years to about three days. The Julian Calendar continued in use until A. D. 1582, when the date of the beginning of the seasons occurred 10 days later than in B. C. 45, when this mode of reckoning time was introduced.

The Gregorian Calendar was introduced by Pope Gregory XIII. with the view of keeping the Equinox to the same day of the month. It consists of 365 days, but every year exactly divisible by 4 and the centennial years which are exactly divisible by 400 contain 366 days; and if in addition to this arbitrary arrangement the centennial years exactly divisible by 4,000 contain 366 days, the error in the Gregorian system will amount to only one day in about 200 centuries. If, however, 31 leap years were intercalated in 128 years, instead of 32 as at present, the calendar would be practically exact and the error would not amount to more than a day in 100,000 years. The length of the mean Gregorian Year may therefore be set down at 365 days, 5 hours, 49 minutes, 12 seconds. The Gregorian Calendar was introduced into England and her colonies in 1752, at which time the Equinox had retrograded 11 days since the Council of Nice in A. D. 325, when the festival of Easter was established and the Equinox occurred on March 21; hence September 3, 1752, was called September 14, and at the same time the commencement of the legal year was changed from March 25 to January 1, so that the year 1751 lost the months of January and February and the first 24 days of March. The difference between the Julian and Gregorian Calendars is now 13 days. Russia and the Greek Church still employ the Julian Calendar for civil and ecclesiastical purposes.

STANDARD TIME.

(From a statement prepared by the United States Naval Observatory, Washington, D. C.)

THE United States adopted standard time in 1883, on the initiative of the American Railway Association, and at noon of November 18, 1883, the telegraphic time signals sent out daily from the Naval Observatory at Washington were changed to the new system, according to which the meridians of 75°, 90°, 105° and 120° west from Greenwich became the time meridians of Eastern, Central, Mountain, and Pacific standard time respectively.

Theoretically, the divisions should be half way between the above meridians, but for general convenience the railroads change their time at the ends of railroad divisions, so that Eastern standard time is used from the Atlantic coast to an irregular line through Buffalo, Salamanca, Pittsburgh, Wheeling, W. Va.; Holloway, Ohio; Huntington, W. Va.; Bristol, Tenn.; Norton, Va.; Asheville, N. C.; Atlanta, Augusta, Ga.; Columbia, S. C.; Central Junction, Ga. Some of these cities use Eastern and some Central time, while the railroads use one time in one direction and the other time in the other direction.

The same applies to the cities on the dividing lines between the Central and Mountain divisions, the line running through Bismarck, N. D.; South Dakota, Nebraska, Colorado, Kansas, New Mexico, and Texas to El Paso; also to the cities on the dividing line between the Mountain and Pacific division, the line running through Montana, Idaho, Oregon, Utah, Nevada, and Arizona.

For Time Difference table see page 33.

Almost all countries throughout the world use standard time based on the meridians 15° apart from Greenwich, while some use standard time based on the longitude of their national observatories.

JANUARY 1. NEW YEAR'S DAY: In all States (including District of Columbia, Porto Rico and Alaska), except Arkansas and Massachusetts. (In Maine a bank holiday only legally.)

JANUARY 8. ANNIVERSARY OF THE BATTLE OF NEW ORLEANS: In Louisiana.

JANUARY 19. LEE'S BIRTHDAY: In Florida, Georgia, North Carolina, South Carolina, Virginia, Alabama, Mississippi and Arkansas.

FEBRUARY. MARDI-GRAS: In the parish of Orleans, Louisiana.

FEBRUARY 12. GEORGIA DAY: In Georgia.

FEBRUARY 12. LINCOLN'S BIRTHDAY: In California, Colorado, Connecticut, Delaware, Illinois, Iowa, Indiana, Kansas, Michigan, Minnesota, Montana, Nevada, New Jersey, New York, North Dakota, Oregon, Pennsylvania, South Dakota, Utah, Washington, West Virginia and Wyoming.

FEBRUARY 22. WASHINGTON'S BIRTHDAY: In all the States, District of Columbia, Porto Rico and Alaska.

FEBRUARY ——— MARDI-GRAS DAY, SHROVE TUESDAY: In Alabama and Florida (in counties having a carnival).

MARCH. First Wednesday prior to Spring election at which Circuit Judges are elected and in counties and cities where offices are filled at Spring election in Michigan.

MARCH (Third Tuesday). PRIMARY ELECTION DAY: (every Presidential year) in North Dakota.

MARCH 2. ANNIVERSARY OF TEXAN INDEPENDENCE: In Texas.

MARCH 4. INAUGURATION DAY: In District of Columbia in years when a President of the U. S. is inaugurated.

MARCH 22. EMANCIPATION DAY: In Porto Rico.

APRIL (First Monday in 1916 and every four years thereafter). PRESIDENTIAL PRIMARY: In Michigan.

APRIL 2, 1915. GOOD FRIDAY: In Alabama, Connecticut, Delaware, Florida, Louisiana, Maryland, Minnesota, New Jersey, Pennsylvania, Porto Rico, Tennessee.

APRIL 12. HALIFAX INDEPENDENCE RESOLUTIONS: In North Carolina.

APRIL 13. THOMAS JEFFERSON'S BIRTHDAY: In Alabama.

APRIL 19. PATRIOTS' DAY: in Maine and Massachusetts.

APRIL 21. ANNIVERSARY OF THE BATTLE OF SAN JACINTO: In Texas.

APRIL 26. CONFEDERATE MEMORIAL DAY: In Alabama, Florida, Georgia and Mississippi.

MAY 10. CONFEDERATE MEMORIAL DAY: In North Carolina and South Carolina.

MAY (Second Friday). CONFEDERATE DAY: In Tennessee.

MAY 20. ANNIVERSARY OF THE SIGNING OF THE MECKLENBURG DECLARATION OF INDEPENDENCE: In North Carolina.

MAY 30. DECORATION DAY: In all the States (and District of Columbia, Porto Rico and Alaska), except Arkansas, Florida, Georgia, Louisiana, Mississippi, North Carolina, South Carolina, and Texas.

JUNE 3. JEFFERSON DAVIS'S BIRTHDAY: In Florida, Georgia, Alabama, Mississippi, Texas, Arkansas and South Carolina. In Louisiana, known as "Confederate Memorial Day." In Virginia, in public schools.

JUNE 11. KAMEHAMEHA DAY: In Ter. Hawaii.

JUNE 15. PIONEER DAY: In Idaho.

JUNE (Last Wednesday). PRIMARY ELECTION DAY: In North Dakota.

JULY 4. INDEPENDENCE DAY: In all the States, and District of Columbia, Porto Rico and Alaska.

JULY 10. ADMISSION DAY: In Wyoming.

JULY 24. PIONEERS' DAY: In Utah.

JULY 25. LANDING OF AMERICAN TROOPS: Porto Rico.

JULY (Fourth Saturday). PRIMARY ELECTION DAY: In Texas.

AUGUST. PRIMARY ELECTION DAY: In Missouri. In Michigan (last Tuesday in August preceding every general November election).

AUGUST 1. COLORADO DAY: In Colorado.

AUGUST 16. BENNINGTON BATTLE DAY: In Vermont.

SEPTEMBER 6, 1915. LABOR DAY: In all the States (and District of Columbia and Alaska). In Louisiana, observed in Orleans Parish.

SEPTEMBER. PRIMARY ELECTION DAY: In Nevada and Wisconsin, First Tuesday.

SEPTEMBER (Third Saturday). REGATTA DAY: In Territory of Hawaii.

SEPTEMBER 9. ADMISSION DAY: In California.

SEPTEMBER 12. "OLD DEFENDERS' DAY": In Baltimore, Md.

OCTOBER 12. COLUMBUS DAY: In Alabama, Arkansas, California, Colorado, Connecticut, Delaware, Idaho, Illinois, Indiana, Kansas, Kentucky, Maine, Maryland, Massachusetts, Michigan, Missouri, Montana, Nebraska, Nevada, New Hampshire, New Jersey, New Mexico, New York, Ohio, Oklahoma, Oregon, Pennsylvania, Rhode Island, Vermont, Washington, West Virginia.

OCTOBER 18. ALASKA DAY: In Alaska.

OCTOBER 31. ADMISSION DAY: In Nevada.

NOVEMBER 1. ALL SAINTS' DAY: In Louisiana.

NOVEMBER (first Friday). PIONEER DAY: In Montana, observed in public schools.

NOVEMBER 2. GENERAL ELECTION DAY: In Alabama, Alaska, Arizona, California, Colorado, Delaware, Florida, Idaho, Illinois, Indiana, Iowa, Louisiana, Maine, Maryland, Michigan, Minnesota, Missouri, Montana, Nevada, New Hampshire, New Jersey, New Mexico, New York, North Carolina, North Dakota, Ohio, (from 12 m. to 5:30 p. m. only), Oklahoma, Oregon, Pennsylvania, Rhode Island, (biennially in even years) South Carolina, South Dakota, Tennessee, Texas, Virginia, West Virginia, Washington, Wisconsin and Wyoming, in the years when elections are held therein. In 1915 in States holding such elections the date is November 2.

NOVEMBER 25, 1915. THANKSGIVING DAY (usually the last Thursday in November): Is observed in all the States, and in the District of Columbia, Porto Rico and Alaska, though in some States it is not a statutory holiday.

DECEMBER 25. CHRISTMAS DAY: In all the States and District of Columbia, Porto Rico and Alaska.

Sundays and Fast Days are legal holidays in all the States which designate them as such.

There are no statutory holidays in Mississippi, but by common consent the Fourth of July, Thanksgiving and Christmas are observed. In New Mexico, Washington's Birthday, Decoration Day, Labor Day, Flag Day (June 14) and Arbor Day are holidays when so designated by the Governor. In South Carolina, Thursday of Fair Week is a legal holiday.

ARBOR DAY is a legal holiday in many States, although in some it is observed as designated by the Governor.

Every Saturday after 12 o'clock noon is a legal holiday in California in public offices, Illinois (in cities of 200,000 or more inhabitants), Maryland, Michigan, New York, New Jersey, Ohio, Pennsylvania, Rhode Island, Virginia, the District of Columbia (for banking purposes), and in New Orleans, La., and Charleston, S. C.; in Louisiana in all cities exceeding 10,000 inhabitants; in Missouri in cities of 100,000 or more inhabitants; in Tennessee, for State and county officers, and in Colorado during June, July and August; in Indiana, first Saturday in June to last Saturday in October, inclusive, for all public offices in counties having a county-seat of 100,000 population or more; in New Hampshire in State offices.

There is no national holiday, not even the Fourth of July. Congress has at various times appointed special holidays. In the second session of the Fifty-third Congress it passed an act making Labor Day a public holiday in the District of Columbia, and it has recognized the existence of certain days as holidays for commercial purposes, but, with the exception named, there is no general statute on the subject. The proclamation of the President designating a day of Thanksgiving only makes it a legal holiday in the District of Columbia and the Territories.

TIME DIFFERENCE.

TWELVE O'CLOCK NOON STANDARD (EASTERN) TIME IN THE UNITED STATES AS COMPARED WITH THE CLOCKS IN THE FOLLOWING CITIES:

Aden.....	8.00 P.M.	Dublin.....	4.34 P.M.	Manila.....	1.04 A.M.*
Amsterdam.....	6.20 P.M.	Hamburg.....	5.10 P.M.	Melbourne.....	2.40 A.M.*
Athens.....	6.35 P.M.	Havre.....	5.00 P.M.	Paris.....	5.09 P.M.
Berlin.....	5.54 P.M.	Hongkong.....	12.37 A.M.*	Rome.....	5.50 P.M.
Bombay.....	9.51 P.M.	Honolulu.....	6.29 A.M.	Sto'kholm.....	6.12 P.M.
Bremen.....	5.33 P.M.	Liverpool.....	4.43 P.M.	St.Pet'b'g(Petrograd)	7.01 P.M.
Constantinople.....	6.56 P.M.	London.....	5.00 P.M.	Vlenna.....	6.06 P.M.
Copenhagen.....	5.50 P.M.	Madrid.....	4.45 P.M.	Yokohama.....	2.19 A.M.*

* At places marked * the time noted is in the morning of the FOLLOWING day.

† "EASTERN" time includes: New York, Boston, Philadelphia, Baltimore, Washington, Richmond, Norfolk, Charleston, Buffalo, Pittsburgh, Cleveland, Montreal, Quebec, Ottawa, Toronto, etc.

"CENTRAL," which is one hour slower than Eastern time, includes: Chicago, St. Louis, Minneapolis, St. Paul, Milwaukee, Kansas City, Omaha, Indianapolis, Cincinnati, Detroit, New Orleans, Memphis, Savannah, Pensacola, Winnipeg, etc.

"MOUNTAIN," which is two hours slower than Eastern time, includes: Denver, Leadville, Colorado Springs, Helena, Regina (N. W. T.), etc.

"PACIFIC," which is three hours slower than Eastern time, includes: San Francisco, Portland (Oregon), Victoria, Vancouver, Tacoma, Seattle, etc.

OLD ENGLISH HOLIDAYS.

THESE holidays, with their names, had their origin in mediæval England when the State religion was that of the Church of Rome, and they are still observed generally or in some parts of Britain.

JANUARY 6. TWELFTH DAY, or Twelfth-tide, sometimes called Old Christmas Day, the same as Epiphany. The previous evening is Twelfth Night, with which many social rites have long been connected.

FEBRUARY 2. CANDLEMAS: Festival of the Purification of the Virgin. Consecration of the lighted candles to be used in the church during the year.

FEBRUARY 14. OLD CANDLEMAS: St. Valentine's Day.

MARCH 25. LADY DAY: Annunciation of the Virgin. April 6 is old Lady Day.

JUNE 24. MIDSUMMER DAY: Feast of the Nativity of John the Baptist. July 7 is old Midsummer Day.

JULY 15. ST. SWITHIN'S DAY. There was an old superstition that if rain fell on this day it would continue forty days.

AUGUST 1. LAMMAS DAY: Originally in England the festival of the wheat harvest. In the Church the festival of St. Peter's miraculous deliverance from prison. Old Lammas Day is August 13.

SEPTEMBER 29. MICHAELMAS: Feast of St. Michael, the Archangel. Old Michaelmas is October 11.

NOVEMBER 1. ALL-HALLOWMAS: All-hallows, or All Saints' Day. The previous evening is All-hallow-e'en, observed by home gatherings and old-time festive rites.

NOVEMBER 2. ALL SOULS' DAY: Day of prayer for the souls of the dead.

NOVEMBER 11. MARTINMAS: Feast of St. Martin. Old Martinmas is November 23.

DECEMBER 28. CHILDERMAS: Holy Innocents' Day.

Lady Day, Midsummer Day, Michaelmas, and Christmas are quarter (rent) days in England, and Whitsunday, Martinmas, Candlemas, and Lammas Day in Scotland.

Shrove Tuesday, the day before Ash Wednesday, and **Maundy Thursday,** the day before Good Friday, are observed by the Church. **Mothing Sunday** is Mid-Lent Sunday, in which the old rural custom obtains of visiting one's parents and making them presents.

EARTHQUAKE AREAS OF THE EARTH.

FROM Major de Montessus de Balore's catalogue of 130,000 shocks, indicating with some scientific accuracy how the symptoms of seismic activity are manifested over the earth's surface. The period of observation includes generally the last fifty years; but there is no reason to suppose that a longer time would materially affect the proportionate numbers.

AREA.	Earth- quakes.	AREA.	Earth- quakes.	AREA.	Earth- quakes.
Scandinavia.....	646	Greece.....	10,306	United States, Atlantic coast.....	937
British Isles.....	1,139	Russia.....	258	Mexico.....	5,586
France.....	2,793	Asia Minor.....	4,451	Central America.....	2,739
Spain and Portugal.....	2,656	India.....	813	West Indies.....	2,561
Switzerland.....	3,895	Japan.....	27,562	South America.....	8,081
Italy.....	27,672	Africa.....	179	Australia and Tasmania.....	2,155
Holland and North Ger- many.....	2,326	Atlantic Islands.....	1,704	New Zealand.....	1,925
Sicily.....	4,331	United States, Pacific coast.....	4,467		

The most shaken countries of the world are Italy, Japan, Greece, South America (the Pacific coast), Java, Sicily, and Asia Minor. The lands most free from these convulsions are Africa, Australia, Russia, Siberia, Scandinavia, and Canada. As a rule, where earthquakes are most frequent they are most severe. But to this general statement there are exceptions—Indian shocks, though less numerous, being often very disastrous. Loss of life in many cases depends, however, on density of population rather than on the intensity of the earth movement. Numerically, also, France has registered more seismic tremors than Spain and Portugal, but France in historic times has experienced no earthquake disaster approaching the havoc wrought by the one calamity at Lisbon.

THE MAGNETIC POLES.

THE geographical poles of the earth are the extremities of the imaginary line passing through its centre of gravity and about which it revolves, and are therefore symmetrically located with regard to the equator.

The magnetic poles, however, are not coincident with the geographical poles, nor are they diametrically opposite to each other. Prior to the recent attempt of Amundsen to determine the north magnetic pole, the only other was by Capt. James Ross in June, 1831, who found the dip of the magnetic needle to be 89° 59' .5, in latitude 70° 5' .2 N. and longitude 96° 45' .8 W., which is in King William Land, Canada. The result of Amundsen's observations has not yet been published by the Norwegian authorities.

The position of the south magnetic pole has been located in latitude 72° 23' S. and longitude 154° E., by Prof. Edward David and Mr. Douglas Marson, members of Lieut. Shackleton's expedition to the South Pole, which left New Zealand on January 1, 1908.

By reason of the annual variation of the magnetic needle, it is believed that the magnetic poles are not stationary, but have a slow motion around the geographical poles. The subject is shrouded in mystery and constitutes one of the many as yet unsolved problems in terrestrial physics.

MEMORABLE DATES.

B. C.	A. D.	A. D.
1183 Fall of Troy.	1714 Accession of House of Hanover, Angl.	1863 Battle of Gettysburg, July 1-3.
1089 Era of the Great Pyramid.	1715 First Jacobite Rebellion in Great Britain; the second in 1745.	1865 Lee surrendered at Appomattox, April 9.
873 Carthage founded.	1790 South Sea Bubble.	1865 Pres. Lincoln assassinated, April 14.
776 Olympic Era began.	1745 Battle of Fontenoy, April 30.	1867 Maximilian of Mexico executed.
763 Foundation of Rome.	1756 Black Hole Suffocation in Calcutta.	1867 The Dominion of Canada established.
588 Jerusalem taken by Nebuchadnezzar.	1757 Clive won Battle of Plassey in India.	1869 Financial "Black Friday" in N. Y., Sept 24.
536 Restoration of the Jews under Cyrus.	1759 Canada was taken from the French.	1870 Franco-German War began, July 19.
509 Expulsion of Tarquins from Rome.	1765 Stamp Act enacted.	1870 French capitulated at Sedan, Sept. 1.
480 Xerxes defeated Greeks at Thermopylae.	1773 Steam engine perfected by Watt.	1870 Rome became the capital of Italy.
55 Caesar conquered Britain.	1773 Tea destroyed in Boston Harbor, Dec. 16.	1871 The Germ an Empire re-established.
4 Birth of Jesus Christ.	1775 Battle of Lexington, April 19.	1871 The Irish Church was dissolved.
A. D.	1775 Battle of Bunker Hill, June 17.	1871 The great fire in Chicago, Oct. 8-11.
29 The Crucifixion.	1776 Declaration of Independence, July 4.	1872 The great fire in Boston Nov. 9.
70 Jerusalem was destroyed by Titus.	1777 Burgoyne's surrender, Oct. 17.	1876 Prof. Bell perfected the telephone.
313 Constantine converted to Christianity.	1779 Capt. Cook was killed, Feb. 14.	1876 Centennial Exposition at Philadelphia.
410 The Romans abandoned Britain.	1781 Cornwallis's surrender at Yorktown, Oct. 19.	1881 President Garfield shot, July 2.
827 Egbert, first king of England, Oct. 14.	1788 First settlement in Australia, Jan. 26.	1882 Tuberculosis germ discovered by Dr. Koch.
1066 Battle of Hastings, Norman Conquest.	1789 The French Revolution began July 14.	1886 Charleston, S. C., Earthquake, Aug. 31.
1096 The Crusades began.	1789 Washington first inaugurated President.	1888 Great Blizzard in Eastern part of U. S., March 11-14.
1172 Ireland was conquered by Henry II.	1793 Cotton-gin invented by Whitney.	1889 Brazil became a Republic.
1215 King John granted Magna Charta, June 15.	1793 Louis XVI. of France executed, Jan. 21.	1889 Johnstown, Pa., flood, May 31.
1265 First Representative Parliament in England.	1796 Vaccination discovered by Jenner.	1893 World's Fair at Chicago.
1415 Battle of Agincourt, Oct. 25.	1798 The Irish rebellion.	1894 Chinese-Japanese War began.
1431 Joan of Arc was burnt, May 30.	1799 Bonaparte declared First Consul.	1895 Cuban Revolution began Feb. 20.
1453 Constantinople taken by the Turks.	1801 Union of Great Britain and Ireland, Jan. 1.	1896 "Greater New York" bill signed May 11.
1455 The Wars of the Roses began.	1803 Louisiana purchased from the French.	1897 The Turkish-Greek War.
1459 The Bible was first printed at Mentz.	1804 Bonaparte became Emperor of France.	1898 The Spanish-American War.
1471 Caxton set up his printing press.	1805 Battle of Trafalgar; death of Nelson.	1899 Universal Peace Conference.
1492 Columbus discovered America, Oct. 12.	1807 Fulton's first steamboat voyage.	1899 The South African War began.
1517 The Reformation began in Germany.	1812 Second war with Great Britain.	1900 Boxer Insurrection in China.
1519 Cortez began the conquest of Mexico.	1812 The French expedition to Moscow.	1900 Hoboken docks fire, June 30.
1535 The first English Bible printed.	1813 Perry's victory on Lake Erie, Sept. 10.	1900 The Galveston tornado, Sept. 8.
1539 Monasteries were closed in England.	1814 The printing machine invented.	1901 Death of Queen Victoria.
1558 Accession of Queen Elizabeth, Nov. 17.	1814 Scott's "Waverley" published.	1901 Assassination of President McKinley May 11.
1565 Revolt of the Netherlands began.	1815 Battle of Waterloo, June 18.	1902 Martinique destroyed by volcano.
1565 St. Augustine, Fla., settled.	1819 First steamship crossed the Atlantic.	1903 Republic of Panama established.
1572 The St. Bartholomew Massacre, Aug. 24.	1823 Monroe Doctrine declared, Dec. 2.	1904 The Great Fire in Baltimore, Feb. 7.
1588 The Spanish Armada defeated, July.	1828 First passenger railroad in U. S.	1904 The Russo-Japanese War began.
1603 Union of England and Scotland.	1830 Revolution in France, Orleansist succession.	1904 Steamboat General Slocum burned.
1605 The Gunpowder Plot in England.	1835 Morse patented the telegraph.	1906 San Francisco earthquake and conflagration, April 15-19.
1607 Jamestown, Va., was settled.	1835 Seminole War in Florida began.	1908 American Battleship fleet nearly circumnavigated the globe.
1609 Hudson River first explored.	1837 Accession of Queen Victoria, June 20.	1908 Great Earthquake in Southern Italy.
1610 Shakespeare died, April 23.	1845 Texas annexed.	1909 The North Pole discovered, April 6.
1618 Thirty Years' War in Germany began.	1846 Sewing machine completed by Howe.	1910 Republic of Portugal established.
1620 Pilgrims by the Mayflower landed.	1846 The Irish Potato Famine.	1911 The Italian-Turkish War began.
1623 Manhattan Island settled.	1846 British Corn laws repealed, June 26.	1911 The South Pole discovered, Dec. 14.
1634 Maryland settled by Roman Catholics.	1846 War with Mexico began.	1911 China proclaimed a Republic.
1636 Rhode Island settled by Roger Williams.	1848 French Revolution. Republic succeeded.	1912 Steamship Titanic wrecked, April 14.
1640 Cromwell's Long Parliament assembled.	1848 Gold discovered in California, Sept. 1.	1912 Balkan War began.
1649 Charles I. was beheaded, Jan. 30.	1851 Gold discovered in Australia, Feb. 12.	1913 Ohio and Indiana floods, March 28-27.
1653 Cromwell became Lord Protector.	1851 First International Exhibition, London.	1913 Rebellion in Mexico.
1660 Restoration of the Stuarts.	1852 Louis Napoleon became Emperor.	1913 Parcel Post System in U. S., Jan. 1.
1664 New York conquered from the Dutch.	1853 Crimean War began.	1914 General European war.
1664 The great plague of London.	1854 Japan opened by Commodore Perry.	1914 Panama Canal opened Aug. 15.
1686 The great fire of London began Sept. 2.	1857 The Great Mutiny in India.	1914 City of Mexico invested by the Constitutionalists.
1679 Habes Corpus Act passed in England.	1857 The Dred Scott decision.	1914 Cape Cod Canal opened.
1682 Pennsylvania settled by Wm. Penn.	1857 First Atlantic cable message, Aug. 4.	1914 S. E. Empress of Ireland sunk, May 29.
1685 Revocation of the Edict of Nantes.	1859 John Brown's raid into Virginia.	1914 Great fire in Salem, June 25.
1688 James II. abdicated, Dec. 11.	1859 South Carolina seceded, Dec. 20.	1914 Japan drew fire on Germany, Aug. 23.
1690 Battle of the Boyne, July 1.	1861 Emancipation of the Russian serfs.	1914 Austria decided war on Japan, Aug. 25.
1690 First newspaper in America; at Boston.	1863 Lincoln's Emancipation Proclamation, Jan. 1.	
1710 Gibraltar was taken by the English.		
1713 Peace of Utrecht, April 11.		

THE FRENCH REVOLUTIONARY ERA.

In September, 1793, the convention decreed that the common era should be abolished in all civil affairs, and that the new French era should begin on September 22, 1792, the day of the true autumnal equinox, and that each succeeding year should begin at the midnight of the day on which the true autumnal equinox falls. The year was divided into twelve months of thirty days each. In ordinary years there were five extra days, from the 17th to the 21st of our September, and at the end of every fourth year was a sixth complimentary day. This reckoning was first used on November 22, 1793, and was continued until December 31, 1805, when it was discontinued, and the Gregorian calendar, used throughout the rest of Europe, was resumed. The following were the dates for the year 1804, the last complete year of this style of reckoning:

Vendemiaire (Vintage), September 23 to October 22.	Germinal (Budding), March 22 to April 21.
Brimaire (Foggy), October 23 to November 22.	Floreal (Flowery), April 21 to May 20.
Frimaire (Sleety), November 22 to December 21.	Pastoral (Pasture), May 21 to June 20.
Nivose (Snowy), December 22 to January 21.	Messidor (Harvest), June 20 to July 19.
Pluviose (Itainy), January 21 to February 20.	Thermidor (Hot), July 20 to August 19.
Ventose (Windy), February 20 to March 19.	Fructidor (Fruit), August 19 to September 18.

The months were divided into three decades of ten days each, but to make up the 365 five were added at the end of September: Primidi, dedicated to Virtue; Duodi, to Genius; Tridi, to Labor; Quartidi, to Opinion, and Quintidi, to Rewards. To Leap Year, called Olympio, a sixth day, September 22 or 23, Sextidi, "the day of the Revolution," was added.

To each tenth day, thirty-six in all, were assigned thirty-six "Fetes Decadaires," decreed by the National Convention on the eighteenth Prairial, in honor of the Supreme Being and Nature, the Human Race, the French People, Benefactors of Humanity, Martyrs for Liberty, Liberty and Equality, the Republic, Liberty of the World, Love of Country, Hatred of Tyrants and Traitors, Truth, Justice, Modesty, Glory and Immortality, Friendship, Frugality, Courage, Good Faith, Heroism, Disinterestedness, Stoicism, Love, Conjugal Fidelity, Paternal Love, Maternal Tenderness, Filial Piety, Infancy, Childhood, Manhood, Old Age, Sickness, Agriculture, Industry, Our Ancestors, Our Posterity, Goodness.

ANNIVERSARIES.

DATES OF HISTORICAL EVENTS CUSTOMARILY OR OCCASIONALLY OBSERVED.

Jan. 1.	Emancipation Proclamation by Lincoln, 1863.	July 1-3.	Battle of Gettysburg, 1863.
Jan. 7.	Battle of New Orleans, 1815.	July 2.	President Garfield shot, 1881.
Jan. 18.	Franklin born, 1706.	July 3.	Cervera's fleet was destroyed off Santiago, 1898.
Jan. 19.	Robert E. Lee born, 1807.	July 4.	Declaration of Independence, 1776.
Jan. 27.	German Emperor born, 1859.	July 12.	Orangetown's Day.
Jan. 29.	William McKinley born, 1843.	July 14.	The Bastille was destroyed, 1789.
Feb. 12.	Abraham Lincoln born, 1809.	July 15.	Santiago surrendered, 1898.
Feb. 15.	Battle-ship Maine blown up, 1898.	July 21.	Battle of Bull Run, 1861.
Feb. 22.	George Washington born, 1732.	Aug. 7.	Gen. Nathanael Greene born, 1742.
March 5.	Boston Massacre, 1770.	Aug. 13.	Manila surrendered to Americans, 1898.
March 15.	Andrew Jackson born, 1767.	Aug. 16.	Battle of Bennington, Vt., 1777.
March 18.	Grover Cleveland born, 1837.	Aug. 20.	City of Mexico entered by the Constitutionalists, 1914.
April 6.	The North Pole reached by Commander Robert E. Peary, 1909.	Aug. 28.	Montenegro became a kingdom, 1910.
April 9.	Lee surrendered at Appomattox, 1865.	Sep. 1.	Capitulation of Sedan, 1870.
April 12.	Henry Clay born, 1777.	Sep. 6.	President McKinley shot at Buffalo, 1901.
April 12.	Fort Sumter fired on, 1861.	Sep. 10.	Battle of Lake Erie, Perry's victory, 1813.
April 13.	Thomas Jefferson born, 1743.	Sep. 11.	Battle of Lake Champlain, McDonough's victory, 1814.
April 14.	Lincoln assassinated, 1865.	Sep. 13.	Battle of Chapultepec, 1847.
Ap. 13-19.	Earthquake and great conflagration at San Francisco, 1906.	Sep. 14.	City of Mexico taken by U. S. troops, 1847.
April 19.	Primrose Day in England; Lord Beaconsfield died, 1881.	Sep. 15.	William H. Taft born, 1857.
April 19.	Battles of Lexington and Concord, 1775.	Sep. 17.	Battle of Antietam, 1862.
April 23.	Shakespeare born, 1564.	Sep. 19-20.	Battle of Chickamauga, 1863.
April 27.	Gen. U. S. Grant born, 1822.	Sep. 20.	Italians occupied Rome, 1870.
April 30.	Washington was inaugurated first President, 1789.	Oct. 8-11.	Great fire of Chicago, 1871.
May 1.	Dewey destroyed the Spanish fleet at Manila, 1898.	Oct. 12.	Columbus discovered America, 1492.
May 13.	First English settlement in America, at Jamestown, 1607.	Oct. 17.	Burgoyne surrendered at Saratoga, 1777.
May 13.	Society of the Cincinnati organized by officers of Revolutionary Army, 1783.	Oct. 19.	Cornwallis surrendered, Yorktown, 1781.
May 18.	The Czar of Russia born, 1868.	Oct. 27.	Theodore Roosevelt born, 1858.
May 20.	Mecklenburg, N. C., Declaration of Independence, 1775.	Nov. 5.	Guy Fawkes Day in England. The Gunpowder Plot discovered, 1604.
May 24.	Queen Victoria born, 1819.	Nov. 9.	Great fire of Boston, 1872.
June 3.	King George V. born, 1865.	Nov. 10.	Martin Luther born, 1483.
June 4.	Flag Day in the United States.	Nov. 25.	British evacuated New York, 1783.
June 15.	Steamboat Gen. Slocum burned, 1904.	Dec. 2.	Battle of Ansterlitz, 1805.
June 17.	Battle of Bunker Hill, 1775.	Dec. 14.	Washington died, 1799.
June 13.	Battle of Waterloo, 1815.	Dec. 14.	The South Pole reached by Capt. Roald Amundsen, 1911.
June 28.	Battle of Fort Moultrie, Charleston, S. C., 1776.	Dec. 16.	Boston "Tea Party," 1773.
July 1.	Dominion Day in Canada.	Dec. 16.	The great fire in New York, 1835.
		Dec. 22.	Mayflower pilgrims landed at Plymouth Rock, 1620.
		Dec. 25-26.	Battle of Trenton, N. J., 1776.
		Dec. 28.	Woodrow Wilson born, 1856.

READY-REFERENCE CALENDAR FOR 200 YEARS.

For ascertaining any Day of the Week for any given Time within Two Hundred Years from the introduction of the New Style, 1752,* to 1952 inclusive.

COMMON YEARS, 1753 TO 1951.											Jan.	Feb.	Mar.	Apr.	May.	June.	July.	Aug.	Sept.	Oct.	Nov.	Dec.

NOTE.—To ascertain any day of the week, first look in the table for the year required, and under the months are figures which refer to the corresponding figures at the head of the columns of days below. For Example:—To know on what day of the week July 4, 1915, will fall, look in the table of years for 1915, and in a parallel line under July is figure 4, which directs to column 4, in which it will be seen that July 4 falls on Sunday.

Ritualistic Calendar.

COLORS FOR THE ALTAR IN USE IN RITUALISTIC EPISCOPAL CHURCHES IN THE UNITED STATES.

White.—From the First Service (First Vespers) of Christmas Day to the Octave of Epiphany, inclusive (except on the Feasts of Martyrs); on Maundy Thursday (for the celebration); from the First Service of Easter Day to the Vigil of Pentecost (except on Feasts of Martyrs and Rogation Days); on Trinity Sunday, Conversion of St. Paul, Purification, Annunciation, St. John Baptist, St. Michael, St. Luke, All Saints, Saints who are not Martyrs, and Patron Saints (Transfiguration and Dedication of Church).

Red.—From First Vespers of Pentecost to the First Vespers of Trinity Sunday (which includes Ember Days), Holy Innocents (if on a Sunday), and Feasts of all Martyrs.

Violet.—From Septuagesima to Maundy Thursday (Easter Eve); Advent Sunday to Christmas Eve; Vigils, Ember Days (except in Whitsun Week), and Rogation Days; and Holy Innocents (unless on Sunday). *Black.*—Good Friday and at funerals. *Green.*—All other days.

These regulations as to colors are general. A more minute code changing with each year is published in the church almanacs.

SEED PLANTING IN THE UNITED STATES.
(Compiled from reports of the Department of Agriculture.)
NEW ENGLAND.

KIND OF CROP.	Date of Planting.	Best Soil.	Amount of Manure per Acre.	Amount of Seed per Acre (1).	Weeks to Maturity.
Corn	May 10 to 30.	Sandy or clay loam.	8 to 12 tons.	8 to 12 qts.	14-17
Wheat	Fall or Spring.	Clay loam.	18 tons.	2 bu. h.	20
Oats	Apr. to May.	Strong oam.	6 to 8 tons.	2 to 3 bush.	11-15
Barley	Apr. to June 20.	Strong loam.	7 to 8 tons.	2 to 3 bush.	10-15
Rye	Apr. to May, Sept.	Medium loam.	7 to 8 tons.	5 to 6 pecks.	40
Buckwheat.	June 1 to 20.	Light loam.	4 to 6 tons.	1 to 1½ bush.	10-15
White beans.	May to June.	Sandy loam.	7 to 8 tons.	8 to 16 qts.	8-14
Potatoes	Apr. 15 to May 1.	Rich loam.	15 to 20 tons.	8 to 20 bush.	12-20
Turnips.	July 1 to Aug. 3.	Sandy loam.	10 tons.	1 lb.	10
Mangels.	Apr. 15 to May 5.	Strong heavy loam.	8 to 15 tons.	4 to 6 lbs.	17-22
Tobacco	Seed bed Apr.	Sandy loam.	8 to 12 tons.		9-12
Hay					

MIDDLE STATES.

Corn	Apr. 20 to May 30	Medium loam.	8 to 12 tons manure.	6 to 8 qts.	16-18
Wheat	Sept. 20 to Oct. 20	Loam	8 tons; 300 lbs. fer.	2 bush.	41-43
Oats	Mar. to May.	Moist clay loam.	8 tons; 300 lbs. fer.	2 to 2½ bush.	16-17
Barley	Mar. to May.	Clay loam.	8 tons; 300 lbs. fer.	2 to 2½ bush.	13-16
Rye	Sept. 1 to Oct. 1.	Sand or gravel loam.	8 tons; 300 lbs. fer.	1½ bush.	40-43
Buckwheat.	June to July.	Loam.	5 tons.	½ to 1½ bush.	8-10
White beans.	May to June.	Sandy loam.	8 tons.	1½ bush.	13-14
Potatoes.	Mar. to May.	Loam.	10 to 18 tons.	8 to 15 bush.	14-22
Sweet potatoes.	May to June.	Sandy loam.		10 to 12 bush.	10-15
Cabbage	Mar. to July.	Clay or sandy loam.	300 to 600 lbs. fer.	4 to 8 oz.	8-15
Turnips.	July	Loam		2 to 5 lbs.	10-12
Mangels.	May	Loam.	10 to 20 tons.	10 to 15 bush.	15-18
Flax	May	Limestone loam.		20 qts.	8-10
Tobacco	Seed bed Mar.	Sandy loam.	Commercial fer.		15-20
Hay, timothy.	Aug. to Oct.	Clay loam.		6 to 8 qts.	
Hay, clover.	Feb. to Apr.	Clay loam.		6 qts.	

CENTRAL AND WESTERN STATES.

Corn	Apr. 1 to June 1.	Black or sandy loam.	5 to 10 tons.	6 qts.	16-20
Wheat	Fall or Spring.	Strong loam.	8 tons.	2 bush.	40-42
Oats	Apr. 1 to May 1.	Clay loam.	8 tons.	2 to 3 bush.	12-14
Barley	Fall or Spring (1).	Clay loam.	8 tons.	2 bush.	11-13
Rye	Sept. 1 to 30.	Light loam.	3 tons.	1 to 2 bush.	35-40
Buckwheat.	June	Clay loam.	5 tons.	1 to 2 bush.	10-12
White beans.	May 10 to June 10.	Clay loam.	8 tons.	1½ bush.	12
Potatoes	Mar. 15 to June 1.	Sandy loam.	5 to 10 tons.	5 to 10 bu. h.	10-20
Turnips.	July 15 to Aug. 30.	Loam or muck.	8 to 10 tons.	1 to 6 lbs.	10-16
Mangels.	Apr. 1 to May 15.	Sandy loam.	8 to 12 tons.	6 to 8 lbs.	22-24
Flax	Mar. 15 to May 15.	Loam	10 to 15 tons.	2 to 3 pecks.	15-20
Tobacco	Seed bed, Mar.	Sandy loam.	8 to 10 tons.	Oz. to 6 sq. rd.	15-18
Hay	Apr. to May.	Clay loam.	10 tons.	8 to 15 lbs.	

SOUTHERN STATES.

Cotton	Feb. to May 15	Sandy loam (2).		1 to 3 bush.	20-30
Coru	Feb. to June.	Rich loam.	10 bush. cot. seed.	8 qts.	18-20
Wheat	Sept. to Nov.	Clay loam (2).	8 tons.	2 bush.	43
Oats	Feb., May, Sept.	Clay loam (2).	8 to 10 tons.	2½ bush.	17
Barley	Apr. to May.	Clay loam (2).	8 to 10 tons.	2½ bush.	17
Rye	Sept. to Oct.	Clay loam (2).	10 tons.	1½ bush.	43
White beans.	Mar. to May.	Light loam.	8 tons.	1 to 2 bush.	7-8
Cabbage	Oct., Mar. to May.	Light loam	6 to 10 tons.	½ to ½ lbs.	14
Watermelons.	Mar. 1 to May 10.	Rich, light loam.	5 tons; 500 lbs. fer.	2 to 7 lbs.	16-20
Onions.	Feb. 1 to Apr. 10.	Loam or muck.			16-24
Potatoes.	Jan., Feb. to Apr.	Light loose loam.	8 to 12 tons.	8 to 10 bush.	11-15
Sweet potatoes.	May to June.	Sandy loam.		10 to 12 bush.	12-15
Pumpkins.	Apr. 1 to May 1.	Rich, light loam.		4 to 7 lbs.	17-20
Tomatoes.	Jan. 1 to Feb. 19.	Rich, sandy loam.		4 to 9 oz.	14-20
Turnips.	Feb., Aug., Apr.	Rich, light loam.		2 to 6 lbs.	8-12
Tobacco.	Seed bed, Mar.	Sandy loam.	8 to 15 tons.	oz. to 6 sq. rd.	18-20
Cow peas.	May 1 to July 15.	Sandy loam.	200 to 300 lbs. phos.	2 to 5 pecks.	6-8

(1) The standard varieties of seed planted in the several sections of the United States are as follows: Corn—New England, leaming, sanford, flint; Middle States, leaming, white dent, yellow dent; Central and Western States, leaming, sanford, flint, white dent; Southern States, hickory king, goard-seed, Cox prolific. Wheat—Middle States, fultz; Central and Western States, fultz, pool, fife; Southern States, flucaster. Oats—New England, white; Middle States, white, black; Central and Western States, gray Norway, silver mine, Russian; Southern States, Texas rustproof. Barley—Middle States, mansbury; Southern States, Tennessee Winter. Rye—New England, white; Middle States, white, Winter; Central and Western States, Winter; Southern States, excelior Winter. Buckwheat—Middle States, silver hull; Central and Western States, silver hull. Potatoes—New England, green mountain, carmen 3, rose; Middle States, rose, carmen 3, rural 2; Central and Western States, hebron, rural, early rose, early Ohio. Tobacco—Central and Western States, yellow prior, Spanish, white burley. Hay, clover—Middle States, medium red. Sweet Potatoes—Middle States, yellow Jersey; Southern States, yellow Jersey. Cotton—Southern States, Texas stormproof. Sprug wheat is to some extent grown in Ohio, Indiana, Illinois and many other States. It matures in eighteen to twenty weeks.

(2) In Texas the black loam is a good soil for cotton, corn, wheat and most other field crops.

THE MOON.

Of all the secondary planets the earth's satellite is by far the most interesting and important. The moon completes her circuit around the earth in a period whose mean or average length is 27 days 7 hours 43 2 minutes; but in consequence of her motion in common with the earth around the sun, the mean duration of the lunar month, that is, the time from new moon to new moon, is 29 days 12 hours 44.05 minutes, which is called the moon's synodical period. If the earth were motionless in space the moon's orbit would be nearly an ellipse, having the earth in one of the foci; hence her distance from the earth varies during the course of a lunar month. Her mean distance from the earth is 238,850 miles. Her maximum distance, however, may reach 252,830 miles, and the least distance to which she can approach the earth is 221,520 miles. Her diameter is 2,162 miles, and if we deduct from her distance from the earth the sum of the two radii of the earth and moon, viz., 3,962 and 1,081 miles, respectively, we shall have for the nearest approach of the surfaces of the two bodies 216,477 miles. Her orbit is a very intricate one, because the earth in moving around the sun carries the moon along with it; hence the latter is sometimes within and sometimes without the earth's orbit. Its form is that of a serpentine curve, always *concave* toward the sun, and inclined to the plane of the earth's orbit at an angle of 5° 9', in consequence of which our satellite appears sometimes above and sometimes below the plane of the earth's orbit, through which she passes twice in a revolution. These points or positions are called nodes, and no two consecutive nodes occupy positions diametrically opposite on the lunar orbit. The nodes have a retrograde motion, which causes them to make an entire revolution in 18 years, 218 days, 21 hours, 22 minutes and 46 seconds. This motion was well known to the ancients, who called it the Saros, and was made use of by them in roughly predicting eclipses.

The moon always presents the same face to us, as is evident from the permanency of the various markings on its surface. This circumstance proves that with respect to the earth she revolves on an axis, and the time of rotation is exactly equal to the time of revolution around the earth, viz., 27.32166 days. The moon's axis is not perpendicular to the plane of her orbit, but deviates therefrom by an angle of about 6° 41'. In consequence of this fact, and of the inclination of the lunar orbit to that of the ecliptic, the poles of the moon lean alternately to and from the earth. When the north pole leans toward the earth we see somewhat more of the region surrounding it, and somewhat less when it leans the contrary way. This displacement is known by the name of libration in latitude.

The moon's motion on her axis is uniform, but her angular velocity in her orbit is subject to slight variations by reason of the form of her orbit; hence it happens that we sometimes see a little more of the eastern or western edge at one time than at another. This phenomenon is known as libration in longitude.

The moon's surface contains about 14,685,000 square miles, or nearly four times the area of Europe. Her volume is 1.49 and her mass 1.81 that of the earth, and hence her density is about 3-5 that of the earth, or about 3 2-5 that of water. At the lunar surface gravity is only 3-20 of what it is at the earth, and therefore a body which weighs 20 pounds here would weigh only 3 pounds there.

The centre of gravity of the earth and moon, or the point about which they both actually revolve in their course around the sun, lies *within* the earth; it is 1,063 miles below the surface.

The attractive force of the moon acting on the water of our oceans is mainly instrumental in raising them into protuberances or tides in such a manner as to give the total mass a spheroidal figure whose principal axis would continually coincide with the line joining the centres of the earth and moon, but in consequence of the resistance which this movement of the water encounters from continents and islands, as well as from the liquid molecules themselves, the tidal wave can never arrive at any place until about one hour after the moon has crossed the meridian of the place.

The moon has no atmosphere and no water. The suddenness with which stars are occulted by the moon is regarded as a conclusive proof that a lunar atmosphere does not exist, and the spectroscopic furnishes negative evidence of the same character.

In remote ages the lunar surface was the theatre of violent volcanic action, being elevated into cones and ridges exceeding 20,000 feet high, and at other places rent into furrows or depressions of corresponding depth. The lunar volcanoes are now extinct. A profound silence reigns over the desolate and rugged surface. It is a dead world, utterly unfit to support animal or vegetable life.

THE EARTH'S ATMOSPHERE.

The earth's sensible atmosphere is generally supposed to extend some forty miles in height, probably further, but becoming at only a few miles from the surface of too great a tenuity to support life. The condition and motions of this aerial ocean play a most important part in the determination of climate, modifying, by absorbing, the otherwise intense heat of the sun, and, when laden with clouds, hindering the earth from radiating its acquired heat into space. — *Whitaker*.

MOONLIGHT CHART, 1915.

EXPLANATION.—The white spaces show the amount of moonlight each night. January 1, March 1, etc., full moon, when moonlight lasts the whole night; January 7, February 6, etc., when the moon rises at or near midnight, when the latter half of the night has moonlight; January 15, February 14, etc., new moon, no moonlight during the whole night; January 23, February 22, etc., the moon sets at or near midnight, when the first half of the night has moonlight.

From June 16 to August 1 both the upper and lower transits take place during daylight. The azimuth at the time of greatest Eastern or Western elongation can be easily computed from the formula:

$$\sin A = \frac{\sin p}{\cos l}$$

where *A* denotes the azimuth, *p* the polar distance, and *l* the latitude of the place.

DATE OF GREATEST ELONGATION.

To find the time of greatest Eastern or Western elongation, let *H* denote the hour angle, and *l* and *p* as before, then we shall have

$$\cos H = \tan p \tan l.$$

And the hour angle in mean time is

$$H_m = H^p \times 0.0664846.$$

This quantity, *H_m*, added to or subtracted from the time of transit given above, according to the elongation required, will give the mean time of the greatest elongation at any place whose north latitude is *l*.

STAR TABLE.

α Canis Minor (Procyon)	+ 5 27	+ 6 11.6	+ 18 9.6	α Piscis Australis.....	- 30 5	+ 21 27.1	+ 9 25.1
				α Pegasi (Markab).....	+ 14 44	+ 21 34.7	+ 9 32.7

To find the time of the star's transit add or subtract, according to the sign, the numbers in the second column of figures to the date of the transit of the pole star given above. Thus, for α Andromedæ February 1. Lower Transit of Pole Star is 4 h. 45 m. 4 s. A. M. to which add 10 h. 40 m. and we have 3 h. 25 m. 4 s. P. M.; for December 1, we find 7 h. 31 m. 22 s. P. M., etc.

APPROXIMATE PARALLAX AND DISTANCE IN LIGHT-YEARS OF SOME OF THE PRINCIPAL FIXED STARS.

By light-years is to be understood the number of years light requires to travel from the star to us.

	Parallax.	Light-Years.		Parallax.	Light-Years.

The determination of stellar parallax is one of the most difficult and refined problems in practical observational astronomy. It is to find the angle which the semi-diameter of the earth's orbit subtends at the star—an angle always very small, as seen from the above table, and which cannot be measured directly, but by various processes too complicated to be explained here.

ELEMENTS OF THE SOLAR SYSTEM.

Astronomical Phenomena for the Year 1915.

ASTRONOMICAL SIGNS AND SYMBOLS.

☉	The Sun.	♂	Mars.	♄	Conjunction.
☾	The Moon.	♃	Jupiter.	☐	Quadrature.
☿	Mercury.	♁	Saturn.	☉	Opposition.
♀	Venus.	♅	Uranus.	☊	Ascending Node.
♁	The Earth.	♆	Neptune.	☋	Descending Node.

Two heavenly bodies are in "conjunction" (♄) when they have the same *Right Ascension*, or are on the *same meridian*, i. e., when one is due *north* or *south* of the other; if the bodies are near each other as seen from the earth, they will rise and set at the same time; they are in "opposition" (♁) when in opposite quarters of the heavens, or when one rises just as the other is setting. "Quadrature" (☐) is half way between conjunction and opposition. By "greatest elongation" is meant the greatest apparent *angular* distance from the sun; the planet is then generally most favorably situated for observation. Mercury can only be seen with the naked eye at this time. When a planet is in its "ascending" (☊) or "descending" (☋) node it is crossing the plane of the earth's orbit. The term "Perihelion" means nearest, and "Aphelion" furthest, from the sun. An "occultation" of a planet or star is an eclipse of it by some other body, usually the moon.

ASTRONOMICAL PHENOMENA FOR THE YEAR 1915.—Continued.

I.—ECLIPSES.

In the year 1915 there will be only two eclipses and both of the sun, as follows:

1. An annular eclipse of the sun February 13-14 invisible in America. The path of the annulus lies in the Indian and Pacific Oceans and the northwestern portion of Australia.
2. An annular eclipse of the sun August 10 invisible in America. The path of the annulus lies wholly in the Pacific Ocean. It is visible as a partial eclipse in the Sandwich Islands. At Honolulu the eclipse begins at 10h. 36 Sm. A. M., ends at 1h. 53 Am. P. M., Local Mean Time.

ASTRONOMICAL CONSTANTS.

MEAN solar parallax, 8".80. Nutation constant, 9".21.
 Aberration constant, 20".47. Annual precession, 50".2564.
 Obliquity of the ecliptic, 23° 27' 8".26—0".4684 (t—1900).
 Annual diminution of obliquity, 0".4684.
 Moon's equatorial horizontal parallax, 57' 2".68.
 Moon's mean distance from the earth (centre to centre), 238,850 miles.
 Sun's mean distance from the earth (astronomical unit), 92,894,800 miles.
 Velocity of light, 186,320 miles per second.
 Light travels unit of distance—viz. 92,894,800 miles in 498.566 seconds.
 Length of the Year—Tropical (equinox to equinox), 365.2421988 days.
 Sidereal or absolute revolution, 365.2563604 days.
 Anomalistic (from perihelion to perihelion), 365.2596413 days.

Length of the Day—Sidereal, 23 hours 56 minutes 4.091 seconds (mean solar time). Mean solar year, 24 hours 3 minutes 56.555 seconds (sidereal time).
 Length of the Month—Synodical (from new moon to new moon), 29 days 12 hours 44 minutes 2.8 seconds. Tropical, 27 days 7 hours 43 minutes 4.7 seconds. Sidereal (absolute revolution), 27 days 7 hours 43 minutes 11.5 seconds. Anomalistic (from perigee to perigee), 27 days 13 hours 18 minutes 33.1 seconds.
 Dimensions of the Earth—Equatorial radius, 3963.23 miles. Polar radius, 3949.79 miles. Eccentricity of the oblate spheroid, 0.0822718.

HALLEY'S COMET.

Of the great number of comets which have temporarily visited our solar system or have become permanent members of it none has surpassed Halley's in historical associations. It has a record dating back to B. C. 240; its visitations spread alarm and consternation throughout Europe during the Middle Ages; was the first whose return was predicted by an Astronomer Royal of England, and will therefore, for these reasons, be an object of great scientific interest for all time. For the information of those who appreciate such matters the following are the elements of its orbit as deduced from the last visitation:

Perihelion Passage 1910, April, 19.67. Greenwich Mean Time.	Longitude of the ascending node = 57° 16' 12".
Eccentricity = 0.967281.	Distance from perihelion to node = 111° 42' 16".
Semi-axis major = 17.9468.	Daily motion (mean) = 46".669.
Perihelion distance = 0.58720.	Period = 74.424 years.*
Inclination to the plane of the earth's orbit = 17° 47' 18".	Motion, retrograde.

The semi-axis major and the perihelion distance are expressed in terms of the earth's mean distance from the sun, taken as unity. See also article on Halley's Comet and on Comets in ALMANACS of 1910 and 1911.

* The periodic time varies considerably by reason of the attraction of the planets. Its average duration is about 76.5 years.—J. M.

THE SOURCE AND MAINTENANCE OF SOLAR ENERGY.

(Prepared for THE WORLD ALMANAC by Dr. J. Morrison.)

THE solar energy is manifested in part by the radiation of heat and light on which the existence of all animated nature depends. From time immemorial the cause of the solar heat and light has been the subject of study by astronomers and scientists in all lands, and by patient and laborious observations continued for centuries, by profound research and by unremitting toil, man has at last forced nature to yield up to him these hitherto mysterious secrets. A rational explanation of the solar energy was not possible under the old theory of the cause of heat and light—not, in fact, until the promulgation of the mechanical theory of the former and the undulatory theory of the latter—two scientific achievements of the nineteenth century, a period which will go thundering down the ages as the golden age of scientific discovery and research.

In order to obtain a clear idea of the cause of heat and light it is necessary to digress a little to speak briefly of the constitution of matter. Like time and space, matter cannot be defined; we know nothing of its intrinsic nature or essence. In a general way, we may say, matter is any substance which occupies space, and exists in three forms, viz.: gaseous, liquid and solid, according to the temperature and pressure. In whatever form it may exist, matter is not a continuous substance, that is to say, it is composed of masses of infinitesimally small portions called *molecules*, each of which consists of two or more still smaller portions called *atoms*. The molecules of a body, whether in the gaseous, liquid or solid state, are not in absolute contact, but separated from one another by an infinitesimally small space which permits of a certain amount of motion.

THE ETHER.

This space is filled with that mysterious, invisible, colorless, odorless, and inconceivably rarified substance called *ether*, which fills all space and holds the universe in its grasp. The molecules of a body are never at rest, but always in motion, and this motion, infinitesimal as it is, causes undulations or waves in the ether, and these undulations manifest themselves as heat, or light, or both, according to their intensity.

Heat and light are thus manifestations of molecular motion propagated by the ether, just like sound, which is a manifestation of undulations or waves of the air. In fact, heat, light, and sound are quite similar as regards their mode of production and propagation. Now, as regards the sun, this luminary has been radiating into space a stupendous amount of both heat and light for an inconceivably long period of time, and that, too, without any visible source of supply. Whence, then, is the origin or source of this prodigious expenditure of energy? Is this radiation of heat and light to continue forever? Does this dissipation of energy imply a waste of the solar substance? Does the solar globe contain within itself the elements of its own decay and death? Stupendous questions, are they not? Let us see what answer modern science has to give to them. It is now universally accepted by astronomers and scientists that

THE NEBULAR HYPOTHESIS

originally propounded by Swedenborg and subsequently accepted by Herschell, Kant, Laplace and other distinguished scholars, mathematicians, and astronomers, is the true cosmogony of our solar system. The evidence upon which this hypothesis rests is so strong that it rises almost to the dignity of a demonstration. Without entering into all the numerous details which would render this paper far too long for the space afforded, it must suffice here to say that the gaseous nebula revealed in the sidereal heavens by the telescope and spectroscope, all the structural and dynamical features of the sun and planets, and the physical structure of the earth and moon, confirm the hypothesis in a most remarkable manner. Indeed, it is hardly possible that so many concurrent circumstances could be the result of chance.

All the evidence tends to show that the Creator evolved the solar system by means of the physical laws of matter established by Himself, just as He developed the giant oaks of the forest from the tiny acorns. The nebular hypothesis assumes that the matter composing the sun and planets once existed as a vast gaseous nebula, spiral in form, having an inconceivably high temperature and slowly revolving on an axis passing through its centre of gravity. As the mass cooled by radiating heat into space, contraction of volume with accelerated axial rotation would ensue in accordance with well known dynamical principles. The centrifugal force thus rapidly increased would cause the separation of large masses, which would, by the mutual attraction of their own particles, gradually assume a spherical figure and become planets. By a repetition of this process planet after planet would be thrown off until the central glowing sun would remain.

RESULTS OF SOLAR CONTRACTION.

Assuming, then, that the sun has attained his present dimensions by the slow contraction of the original gaseous mass, the question which now confronts us is: What amount of contraction or diminution of volume is necessary to supply the quantity of heat and light now radiated? In order to put this in as clear a light as practicable, we will first describe an experiment whose results are quite apparent. Let a large globe of iron, say ten feet or more in diameter, be thoroughly and uniformly heated in a furnace until it has attained a "white heat," or is on the point of melting, during which time it will expand until its diameter be half a foot more. If it be then taken out and suspended in space it will radiate heat and light in all directions, and, as it cools, it will not only contract in volume, but also give out a light which will gradually change in color from white to dull red, after which the surface will become dark, when heat vibrations only would be manifest.

As the cooling proceeds, the surface will contract and compress the semi-molten interior to such a degree that it may crack and the soft material of the interior exude through it. The temperature of the entire mass, with diminution of volume, will continue to decline until it attains the temperature of surrounding objects, when it will cease; but if it were suspended in the inter-planetary or inter-stellar spaces, where it could not receive any heat from external objects, the cooling and contraction of volume would go on incessantly until the temperature reached the absolute zero point, or, in other words, until all molecular motion ceased. In this condition it would probably fall into dust, the power which hitherto held the molecules together having become dissolved—a condition which may be inferred from the fact that when an iron bar is placed for some time in liquid air or oxygen it becomes as brittle as glass, and yet the temperature of liquid air is far above the absolute zero tempera-

ture. The condition of the heated iron globe and the phenomena resulting therefrom are almost precisely similar to those of the sun, which is a huge, gaseous globe, over 866,000 miles in diameter, intensely hot, cooling off very slowly by radiating heat and light in prodigious quantity in all directions, and also slowly contracting under its own gravity, by which a portion of its potential energy is transformed into molecular energy manifested by heat and light.

THE THERMAL UNIT.

Heat is measured by an arbitrary unit, that is to say, the *thermal unit* is the amount of heat required to raise one pound of water one degree Fah. in temperature. Carefully conducted experiments show that one square yard of the earth's surface receives about twenty-five thermal units in one second when the sun's rays fall vertically, due allowance being made for atmospheric absorption, which may amount to about one-thirtieth of the whole.

From the solar parallax, viz., $8'' \cdot 81$ and the well known dimensions of the earth we can easily calculate the surface of a sphere having the sun's distance as a radius, and hence also the amount of heat received by it in one second or the amount radiated by the sun in that time, and this must be, approximately, at least, equal to the amount generated in same interval by the contraction or shrinkage of the solar mass. The amount of heat generated can be approximately determined by the aid of "the mechanical equivalent of heat," which may be expressed thus: If a pound of matter (iron, for instance) falls freely through 772 feet it will strike a blow which will raise the temperature of the body struck one *thermal unit*, or if 772 pounds fall one foot it will do the same thing. Instead, however, of a blow thus struck, a constant and equivalent pressure will produce the same result. By the radiation of heat and consequent contraction of volume, aided by the sun's gravity, the entire mass is gradually falling toward the centre.

By means of all the data now at hand it can be shown mathematically, by a process far too abstruse and complicated for insertion here, that a contraction or shortening of about 315 feet annually in the sun's diameter is sufficient to account for the amount of heat and light at present radiated. This result obtained from the most conservative estimate of all the factors that enter into the computation, must be regarded as an approximation, and it may be a very rough one at that, but however much it may differ from the actual condition of things, a contraction of the sun's volume due to gravity and the radiation of heat, is amply sufficient to account for the source and maintenance of solar energy.

THE FUTURE OF THE UNIVERSE.

This contraction of volume due to the above causes will of course continue, and a time must come in the far distant future—how many millions of years, it is impossible to say—when the sun will cease to radiate sufficient heat and light to maintain animal and vegetable life on the earth.

It is certain that all animal and vegetable existences on the earth had a beginning, and it is equally certain that they will have an end. Geology speaks to us out of the rocky strata of the earth's crust, of the extinction of numerous races of animals and plants in the remote past. There have been six grand groups or periods of animated existences on the earth, and five of these have already passed away, and that, too, long before the advent of man.

Many of our sedimentary rocks are the solid sarcophagi of countless millions of once living creatures. Our statuary halls and portrait galleries are replete with the memorials of empires and kingdoms, of dynasties and generations of men that have long since passed away. Man himself, nature's greatest paradox, must pass off the stage of his earthly existence and leave to his successors the fruits of his labors and researches.

Each day dies and sinks into the silent tomb of night before the next can be born. Every Summer gradually fades away into the cold dreary Winter before its successor can come forth. The grain of wheat which is cast into the ground must perish before the new grain can exist. Death thus appears to follow life, *pari passu*, throughout the entire realm of material creation. To be born, to live and to die, appear to be the destiny of all organized bodies; the tomb of the past is the womb of the future. So, likewise, suns and their systems of planets must die in order that their successors may be born. There is strong evidence of the existence of dark or dead suns in the sidereal heavens.

At the rate of contraction just stated the sun will have shrunk to about three-fourths of its present dimensions in four or five millions of years, and during that long interval its light will gradually change from white, through blue, green, yellow, and orange to a dull red and, finally, cast a lurid glare over the dying embers of the solar system.

Ages before this animal and vegetable life will have become extinct, and on some rocky crag or frozen knoll the last man may stand shivering in the wintry blasts, and while taking his last, long, lingering look at the universal desolation produced by the appalling calamity which has overtaken the world and overwhelmed his race, he himself will expire "unknelled, unconfined and unknown."

"Sic transit gloria mundi!"

THE RESTORATION.

Such is the logical sequence of the Nebular Hypothesis and such is the fate which awaits the sun and the solar system in the far distant future. There are, however, agencies at work in the sidereal heavens, by which these dead suns and systems may be restored to their original gaseous nebula, endowed with all their pristine vigor and destined for the formation of new suns and new systems of planets, but space will not permit their discussion now.

The solar energy will continue with little or no diminution for perhaps a million of years, during which its benign influence will be felt throughout the solar system into which it infuses life, energy and activity.

By its genial warmth and marvellous light it clothes our hills and valleys in their glorious garb of green, so pleasing to the eyes, and by the action of its chemical rays of light it gradually changes this same green mantle into the golden tints of Autumn. It paints the maiden's cheeks in their rosy tints and the evening clouds in their gorgeous hues. It sets in motion the gentle zephyr that cools our heated brow on a hot Summer day, and it also arouses into activity the hurricane and cyclone which frequently carry death and destruction in their paths. It releases from their icy fetters the tiny streams that trickle down the sides of snow-clad mountains to form the source of the mighty rivers that irrigate our plains and facilitate commerce and international communication. It distills from our oceans and lakes enormous volumes of aqueous vapor which ascend into the atmosphere to form clouds to temper the solar heat, and by the condensation of these clouds to produce the copious showers of rain to purify our atmosphere, to fertilize our fields, to nourish the kindly fruits of the earth for our sustenance, to raise every fainting flower and to revive all animated nature.

In remote geologic ages, a portion of the solar energy was stored away in these gigantic forests which ultimately were transformed into beds of coal, which we now exhume to warm and light our homes, to propel our ships and locomotives, to drive our mills and factories and to contribute to our comfort in a thousand ways. In short, there is not on the surface of our planet a form of energy which has not been derived directly or indirectly from the glorious orb of day.

FACTS ABOUT THE EARTH.

(Revised by the National Geographic Society of Washington, D. C., from the latest available figures and estimates.)

ACCORDING TO the United States Coast and Geodetic Survey, the equatorial semi-diameter of the earth is 6,378,283 metres, 20,926,039 feet, 3,963,265 miles, and the polar semi-diameter 6,356,868 metres, 20,856,804 feet, 3,950,158 miles. One degree of latitude at the equator is 69.407 miles; one degree at the poles is 68,704 miles.

POPULATION OF THE EARTH BY CONTINENTS.

CONTINENTAL DIVISIONS.	Area in Square Miles.	INHABITANTS.		CONTINENTAL DIVISIONS.	Area in Square Miles.	INHABITANTS.	
		Number.	Per Sq. Mile.			Number.	Per Sq. Mile.
Africa	11,513,579	180,000,000	16	Australasia.	3,456,290	8,000,000	2.31
America, N.	8,037,714	130,000,000	17	Europe.....	3,754,282	450,000,000	121
America, S.	6,851,306	35,000,000	5.2	Polar Reg.....	6,970,268	300,000	0.05
Asia	17,057,666	900,000,000	52.76	Total.....	57,641,102	1,732,000,000	30

The estimate of areas in the above table are by Professor Sapan of Gotha, with the exception of the Polar Continental area. The total population figures are from the United States Statistical Abstract, as are also many of the continental figures of population.

The best estimates of the earth's area place the fertile regions at 29,000,000 square miles; steppes at 14,000,000 square miles; deserts at 4,861,000 square miles; and polar regions at 6,970,000 square miles.

The population of the earth at the death of Emperor Augustus, estimated by Bodio, was 54,000,000. The population of Europe hardly exceeded 50,000,000 before the fifteenth century.—*Mulhall*. The population of the earth, at its present ratio of gain, will be about 4,000,000,000 in 2014.

The proportion of females to each 1,000 males in 1910 was: United States, 934; England, 1,068; Germany, 1,026. In France (1901), 1,033.

The area and cubic contents of the earth are approximately as follows: Surface, 196,791,000 square miles; cubic contents 259,944,035,515 cubic miles.

The deepest trench in the seas yet discovered is off Mindanao, in the Pacific, 32,088 feet deep. Seven other soundings in the Pacific show depths greater than 30,000 feet. From the bottom of the deepest hole in the seas to the top of the highest peak on the land (Mt. Everest) there is a range of 61,090 feet, which on a globe six feet in diameter would be represented by the tenth of an inch. The deepest place yet found in the Atlantic Ocean is in Nares Deep, to the north of the West Indies, 27,972 feet; of the Indian Ocean, 21,968 feet. According to Murray the area of the oceans approximates 139,400,000 square miles, divided between the three great oceans as follows: Atlantic, 41,321,000 square miles; Pacific, 68,634,000 square miles, and Indian, 29,430,000 square miles.

HIGHEST AND LOWEST CONTINENTAL ALTITUDES.

Semitic (white).....	Africa, Arabia, etc.....	65,000,000	Total.....	1,732,000,000
Negro and Bantu (black).....	Africa.....	150,000,000			

For statistics of earth's population according to creed, see RELIGIOUS STATISTICS.

The human family is subject to fifty principal governments. As to their form they may be classified as follows: *Absolute Monarchies*, Abyssinia, Afghanistan, Morocco, Siam; *Limited Monarchies*, Albania, Austria-Hungary, Belgium, British Empire, Bulgaria, Denmark, Germany, Greece, Italy, Japan, Montenegro, Netherlands, Norway, Persia, Rumania, Russia, Servia, Spain, Sweden, Turkey; *Republics*, Argentina, Bolivia, Brazil, Chile, China, Colombia, Costa Rica, Cuba, Dominican Republic, Ecuador, France, Guatemala, Hayti, Honduras, Liberia, Mexico, Nicaragua, Panama, Paraguay, Peru, Portugal, Salvador, Switzerland, United States of America, Uruguay, Venezuela. Besides these are the undefined despotisms of Central Africa and a few insignificant independent states.

The average duration of human life is about 33 years. One-quarter of the people on the earth die before age 6, one-half before age 16, and only about 1 person of each 100 born lives to 65.

These estimates (that for 1801 being by Mulhall) exhibit the superior growth of the English language.

THE GEOLOGICAL STRATA.

THE strata composing the earth's crust is divided by most geologists into two great classes: 1. Those generally attributed to the agency of water. 2. To the action of fire; which may be subdivided as follows: (a) Aqueous formations, stratified, rarely crystalline (sedimentary or fossiliferous rocks; metamorphic or unfossiliferous). (b) Igneous formations, unstratified, crystalline (volcanic, as basalt; plutonic, as granite).

The geological record is classified into five main divisions or periods: 1. The Archæan, lifeless and dawn of life. 2. The Palæozoic (ancient life). 3. The Mesozoic (middle life). 4. The Cenozoic (recent life). 5. Quaternary, the age in which man's first appearance is indicated.

PERIODS.		Eras.		Series.	Subdivisions.

HUMIDITY.

MEAN RELATIVE HUMIDITY, IN PERCENTAGES.

From a table prepared by the United States Weather Bureau, showing the monthly and annual values of relative humidity at regular Weather Bureau stations in the United States, based upon observations made at 8 A.M. and 8 P.M. respectively, 75th meridian time and covering a period of about 14 years of record.

RULES FOR FORETELLING THE WEATHER.

ADAPTED FOR USE WITH ANEROID BAROMETERS.

A RISING BAROMETER.

A rapid rise indicates unsettled weather.

A gradual rise indicates settled weather.

A rise with dry air and cold increasing in Summer indicates wind from the northward; and if rain has fallen, better weather may be expected.

A rise with moist air and a low temperature indicates wind and rain from the northward.

A rise with southerly winds indicates fine weather.

A STRADY BAROMETER.

With dry air and seasonable temperature indicates a continuance of very fine weather.

A FALLING BAROMETER.

A rapid fall indicates stormy weather.

A rapid fall with westerly wind indicates stormy weather from the northward.

A fall with a northerly wind indicates storm, with rain and hail in Summer, and snow in Winter.

A fall with increased moisture in the air, and heat increasing, indicates wind and rain from the southward.

A fall with dry air and cold increasing in Winter indicates snow.

A fall after very calm and warm weather indicates rain with squally weather.

The barometer rises for northerly winds, including from north-west by north to the eastward for dry, or less wet weather, for less wind, or for more than one of these changes, except on a few occasions, when rain, hail, or snow comes from the northward with strong wind.

The barometer falls for southerly wind, including from south-east by south to the westward, for wet weather, for stronger wind or for more than one of these changes, except on a few occasions, when moderate wind, with rain or snow, comes from the northward.

The above printed rules are in use by the Seawanhaka Corinthian Yacht Club of New York.

DURATION OF DIFFERENT KINDS OF WEATHER IN THE SEVERAL STORMS—VICINITY OF NEW YORK.

WEATHER WISDOM.

SUNSET COLORS.—A gray, lowering sunset, or one where the sky is green or yellowish-green, indicates rain. A red sunrise, with clouds lowering later in the morning, also indicates rain.

HALO (SUN DOGS).—By halo we mean the large circles, or parts of circles, about the sun or moon. A halo occurring after fine weather indicates a storm.

CORONA.—By this term we mean the small colored circles frequently seen around the sun or moon. A corona growing smaller indicates rain; growing larger, fair weather.

RAINBOWS.—A morning rainbow is regarded as a sign of rain; an evening rainbow of fair weather.

SKY COLOR.—A deep-blue color of the sky, even when seen through clouds, indicates fair weather; a growing whiteness, an approaching storm.

FOGS.—Fogs indicate settled weather. A morning fog usually breaks away before noon.

VISIBILITY.—Unusual clearness of the atmosphere, unusual brightness or twinkling of the stars, indicate rain.

FROST.—The first frost and last frost are usually preceded by a temperature very much above the mean.

OBJECTS VISIBLE AT SEA-LEVEL IN CLEAR WEATHER.

The following table shows the distance at sea-level at which objects are visible at certain elevations.

ELEVATION—FEET.		Miles.	ELEVATION—FEET.		Miles.	ELEVATION—FEET.		Miles.

The lowest point of dry land in United States is in Death Valley, Cal., 276 feet below sea level.

NOTE.—The above table was prepared for THE WORLD ALMANAC by the Topographic branch of the United States Geological Survey. It should be stated in connection with this table that it presents only points whose heights are matters of record, and that in several cases in the high mountain region of the far West and the Pacific Slope it is thought there may be higher points within the State or Territory whose heights are not yet known with accuracy, and consequently cannot be given.

This table was revised by the United States Geological Survey to October 1, 1914.

WEATHER FLAGS

OF THE WEATHER BUREAU, U. S. DEPARTMENT OF AGRICULTURE.

THE Weather Bureau furnishes, when practicable, for the benefit of all interests dependent upon weather conditions, the "Forecasts" which are prepared daily at the Central Office in Washington, D. C., and certain designated stations. These forecasts are telegraphed to stations of the Weather Bureau, railway officials, postmasters, and many others, to be communicated to the public by telegraph, telephone and mail or by means of flags or steam whistles. The flags adopted for this purpose are five in number, and of the forms and colors indicated below:

EXPLANATION OF WEATHER FLAGS.

When number 4 is placed above number 1, 2 or 3, it indicates warmer; when below, colder; when not displayed, the temperature is expected to remain about stationary. During the late Spring and early Fall the cold-wave flag is also used to indicate anticipated frosts.

WHISTLE SIGNALS.

A warning blast of from fifteen to twenty seconds' duration is sounded to attract attention. After this warning the longer blasts (of from four to six seconds' duration) refer to weather, and shorter blasts (of from one to three seconds' duration) refer to temperature; those for weather are sounded first.

Blasts.	Indicate.	Blasts.	Indicate.
One long.....	Fair weather.	One short.....	Lower temperature.
Two long.....	Rain or snow.	Two short.....	Higher temperature.
Three long.....	Local rain or snow.	Three short.....	Cold wave.

By repeating each combination a few times, with intervals of ten seconds, liability to error in reading the signals may be avoided.

As far as practicable, the forecast messages are telegraphed at the expense of the Weather Bureau; but if this is impracticable, they are furnished at the regular commercial rates and sent "collect." In no case are the forecasts sent to a second address in any place, except at the expense of the applicant.

Persons desiring to display the flags or sound the whistle signals for the benefit of the public should communicate with the Weather Bureau officials in charge of the central stations of their respective States, which are as follows:

Alabama, Montgomery. Arizona, Phoenix. Arkansas, Little Rock. California, San Francisco. Colorado, Denver. Florida, Jacksonville. Georgia, Atlanta. Idaho, Boise. Illinois, Springfield. Indiana, Indianapolis. Iowa, Des Moines. Kansas, Topeka. Kentucky, Louisville. Louisiana, New Orleans. Maryland, Baltimore (for Delaware and Maryland).	Massachusetts, Boston (for New England). Michigan, Grand Rapids. Minnesota, Minneapolis. Mississippi, Vicksburg. Missouri, Columbia. Montana, Helena. Nebraska, Lincoln. Nevada, Reno. New Jersey, Trenton. New Mexico, Santa Fe. New York, Ithaca. North Carolina, Raleigh. North Dakota, Bismarck. Ohio, Columbus.	Oklahoma, Oklahoma. Oregon, Portland. Pennsylvania, Philadelphia. South Carolina, Columbia. South Dakota, Huron. Tennessee, Nashville. Texas, Houston. Utah, Salt Lake City. Virginia, Richmond. Washington, Seattle. West Virginia, Parkersburg. Wisconsin, Milwaukee. Wyoming, Cheyenne.
---	--	--

THE ANCIENT AND MODERN YEAR.

THE Athenians began the year in June, the Macedonians in September, the Romans first in March and afterward in January, the Persians on August 11, the ancient Mexicans on February 23, the Mohammedans in July. The Chinese year, which begins early in February, is similar to the Mohammedan in having 12 months of 29 and 30 days alternately; but in every nineteen years there are seven years which have 13 months. This is not quite correct, and the Chinese have therefore formed a cycle of 60 years, in which period 22 intercalary months occur.

SMALL CRAFT, STORM AND HURRICANE WARNINGS

OF THE WEATHER BUREAU, U. S. DEPARTMENT OF AGRICULTURE.

All square flags shown here are red with black centre when displayed as warnings.

Small craft.

Storm.

Hurricane.

NW. winds.

SW. winds.

NE. winds.

SE. winds.

Small Craft Warning—A red pennant indicates that moderately strong winds are expected.

Storm Warning—A red flag with a black centre indicates that a storm of marked violence is expected.

The pennants displayed with the flags indicate the direction of the wind; white, westerly; red, easterly. The pennant above the flag indicates that the wind is expected to blow from the northerly quadrants; below, from the southerly quadrants.

By night a red light indicates easterly winds, and a white light below a red light westerly winds.

Hurricane Warning—Two red flags with black centres, displayed one above the other, indicate the expected approach of a tropical hurricane, and also one of those extremely severe and dangerous storms which occasionally move across the Lakes and Northern Atlantic coast.

Neither small craft nor hurricane warnings are displayed at night.

VELOCITY OF WINDS IN THE UNITED STATES.

AVERAGE hourly velocity of the wind at selected stations of the United States Weather Bureau, also the highest velocity ever reported for a period of five minutes. (Prepared by Chief of the U. S. Weather Bureau, and revised to January 1, 1914, for THE WORLD ALMANAC.)

LOSS BY LIGHTNING IN THE UNITED STATES.

THE Weather Bureau of the United States Department of Agriculture in October, 1900, issued a bulletin giving these facts: In 1899 the total number of strokes of lightning which caused damage was 5,527; number of buildings injured, 6,258; value of property lost, \$3,616,520; number of deaths by lightning during the year, 563; number of persons injured, 820; number of live stock killed in the fields, 4,251; value, \$129,955. These are the latest available statistics.

The Chronicle Fire Tables record 3,012 fires caused by lightning in the United States in 1902, the property loss occasioned thereby being \$3,396,810. These are the latest reported statistics on the subject.

Mobile, Ala.....	1	2	Portland, Me.....	9	1	Washington, D. C.....	2	9

Highest tide at Eastport, Me., 218 inches. Lowest tide at Galveston, Tex., 13 inches.

LIFEBOAT REQUIREMENTS.

As announced by the United States Steamboat Inspection Service in Bureau Circular of June 29, 1912, and as amended in circular letter of September 13, 1912:

All pleasure steamers, and all other steamers over 150 tons, but not exceeding 750 tons, limited by their certificates of inspection to routes not more than 15 miles from any harbor, shall not be required to have more than one of the lifeboats to be of 180 cubic feet capacity. Nothing, however, in this proviso shall exempt any such steamer from carrying the aggregate cubic feet of lifeboat capacity required by the rules.

All steamers other than steamers carrying passengers, except as otherwise provided for in the rules, must be equipped with lifeboats of sufficient capacity to accommodate at one time all persons on board. One-half of such equipment may be in approved liferafts or approved collapsible lifeboats.

Ocean steamers carrying passengers must be equipped with lifeboats of sufficient capacity to accommodate at one time all persons on board, including passengers and crew. One-half of such lifeboat equipment may be in approved liferafts or approved collapsible lifeboats.

Coastwise steamers carrying passengers must be equipped with lifeboats of sufficient capacity to accommodate at one time all persons on board, including passengers and crew. Provided, however, that such steamers navigating during the interval from the fifteenth day of May to the fifteenth day of September in any one year, both dates inclusive, will be required to be equipped with lifeboats of only such capacity as will be sufficient to accommodate at one time at least 60 per cent. of all persons on board, including passengers and crew; two-thirds of such required lifeboat equipment throughout the year may be in approved liferafts or approved collapsible lifeboats.

Lake, bay and sound steamers carrying passengers and navigating the waters of the lakes, bays and sounds tributary to the Pacific coast, the Atlantic coast south of the 33d parallel of north latitude and the Gulf of Mexico, must be equipped with lifeboats of sufficient capacity to accommodate at one time at least 30 per cent. of all persons on board, including passengers and crew; Provided, however, that such steamers navigating routes lying at all points within a distance of five miles from land, or over waters whose depth is not sufficient to entirely submerge the vessel in case of disaster, will be required to be equipped with lifeboats of only such capacity as will be sufficient to accommodate at one time at least 10 per cent. of all persons on board, including passengers and crew. Three-fourths of the lifeboat capacity required on lake, bay and sound steamers may be in approved liferafts or approved collapsible lifeboats.

River steamers carrying passengers must be equipped with lifeboats of sufficient capacity to accommodate at one time at least 10 per cent. of all persons on board, including passengers and crew. Three-fourths of such lifeboat equipment may be in approved liferafts or approved collapsible lifeboats.

The navigation of ferry boats must be confined to the ferry routes specified in the certificate of inspection, but such vessels may be permitted, under excursion permits, to go beyond the authorized routes with passengers only, or without such permit, to lighten or relieve vessels in distress. When any ferry boat leaves her ferry route and carries passengers she shall be required to carry the same officers, crew, and equipment, as required of other steamers carrying passengers.

A TABLE OF PRINCIPAL AMERICAN RIVERS.

Names.	Sources.	Mouths.	LENGTH, MILES.
Alabama	Junction of Coosa and Tallapoosa, Ala.	Mobile River.	175

* At Buffalo. † Eastern and Middle Divisions, May 15, 1914; Western Division, May 25, 1914. The record in the above table is kept by the State Superintendent of Public Works.

CANALS.

STATEMENT showing the cost, length and navigable depth of the principal canals of the United States and Canada used for commercial purposes.

CANALS.	Cost of Construction.*	Len ^h Miles	Depth Feet.†	Location.
Albemarle and Chesapeake.....	\$1,641,363	11½	12	Norfolk, Va., to Albemarle Sound, N. C.
Augusta.....	1,500,000	7	10	Savannah River, Ga., to Augusta, Ga.
Beaufort.....	502,078	20	10	Beaufort Inlet, N. C., to Pamlico Sound.
Black River.....	3,581,954	35	4	Rome, N. Y., to Lyons Falls, N. Y.
Black Rock Channel.....	3,000,000	3¼	22	Connects Lake Erie and Niagara River at Buffalo, N. Y.
Brazos River.....	255,000	32	5	Brazos River to Matagorda Bay, Tex.
Cape Cod (ship canal).....	12,000,000	8-13	25-30	Connects Buzzards Bay and Barnstable Bay.
**Cayuga and Seneca.....	2,232,632	25	7	Montezuma, N. Y., to Cayuga and Seneca Lakes, N. Y.
†Champlain.....	4,044,000	81	6	Whitehall, N. Y., to Watervliet, N. Y.
Channel.....	450,000	32	5	Between Apalachicola River & St. Andrews Bay, Fla.
Chesapeake and Delaware.....	4,000,000	14	9	Connects Chesapeake and Delaware Bays.
Chesapeake and Ohio.....	11,290,327	185	6	Cumberland, Md., to Washington, D. C.
Colbert Shoals.....	2,350,000	8	7	Colbert Shoals, Tennessee River, Ala.
Company.....	90,000	23	4½	Miss. Riv. at New Orleans, La., to Bayou Black.
Dalles-Cello.....	4,800,000	8½	7	Columbia River, from Big Eddy to Cello Falls, Oregon.
Delaware and Raritan.....	4,888,749	66	7	New Brunswick, N. J., to Bordentown, N. J.
Delaware Division.....	2,433,350	60	6	Easton, Pa., to Bristol, Pa.
†Erie.....	52,540,800	387	7	Albany, N. Y., to Buffalo, N. Y.
Estherville-Minim Creek.....	174,619	5	6	Winyah Bay, S. C., to Santee River.
Fairfield.....	50,000	4½	5	Alligator River to Lake Mattamuskeet, N. C.
Florida East Coast.....	3,500,000	350	5	Mayport, Fla., to Miami.
Galveston and Brazos.....	340,000	38	5	Oyster Bay, Tex., to Brazos River, Tex.
Harlem River (ship canal).....	2,700,000	8	15	Connects Hudson River (via Spuyten Duyvil Creek) and Long Island Sound.

CANALS.	Cost of Construction.*	Len'h Miles	Depth Feet.†	Location.
Illinois and Michigan	\$6,339,098	96	5	Chicago, Ill., to La Salle, Ill.
Illinois & Mississippi (Hennepin)	7,320,000	75	7	Illinois River to Miss. River near Rock L., Ill.
Lake Drummond	2,800,000	22	9	Connects Chesapeake Bay with Albemarle Sound.
Lake Landing	25,000	4	5	Lake Mattamuskeet to Wysocking Bay, N. C.
Lake Washington-Puget Sound	5,000,000	6½	36	Connects Lake Washington and Puget Sound.
Lehigh Coal and Navigation Co.	4,455,000	108	6	Coalport, Pa., to Easton, Pa.
Lewes	356,000	11½	6	Connects Rehoboth and Delaware Bays.
Louisville and Portland	5,716,686	2½	9	At Falls of Ohio River, Louisville, Ky.
Mattamuskeet Out Fall	500,000	7	10	Hyde County, N. C.
Miami and Erie	8,062,680	274	5½	Cincinnati, Ohio, to Toledo, Ohio.
Morris	5,100,000	103	5	Jersey City, N. J., to Phillipsburg, N. J.
Muscle Shoals and Elk R. Shoals	3,156,919	16	5	Big Muscle Shoals, to Elk River Shoals, Tenn.
North New River	56	Lake Okeechobee to Ft. Lauderdale, Fla.
N. J. Coastal Inland Waterway	450,000	114	6	Cape May to Bay Head, N. J.
Ohio	a)4,695,204	70	4	Cleveland, Ohio to Dresden, Ohio.
Oswego	5,239,526	38	7	Oswego, N. Y., to Syracuse, N. Y.
Pennsylvania	7,731,750	193	6	Columbia, Northumberland, Wilkes-Barre, Pa.
Portage Lake and Lake Superior	1,725,000	25	20	From Keweenaw Bay to Lake Superior.
Port Arthur (ship canal)	7	26	Port Arthur, Tex., to Gulf of Mexico.
Sabine-Neches	1,081,000	16	26	Port Arthur Canal to mouth Sabine River, Tex.
Salem	2	5-8	Salem River to Delaware River, 4 miles below Penn Grove, N. J.
Santa Fé	70,000	10	5	Waldo, Fla., to Melrose, Fla.
Sault Ste Marie (ship canal)	4,000,000	1½	18	Connects Lakes Superior and Huron at St. Mary's River.
Schuykill Navigation Co.	12,461,600	108	6½	Mill Creek, Pa., to Philadelphia, Pa.
South New River	75	Lake Okeechobee to Miami, Fla.
Sturgeon Bay and Lake Mich'n	287,000	1½	20	Between Green Bay and Lake Michigan
St. Clair Flats	1,180,000	3	20	Canal through delta at mouth of St. Clair River.
St. Mary's Falls	9,400,000	1½	18½	Connects Lake Superior and Huron at Sault Ste Marie, Mich.
St. Mary's Falls (parallel canal)	9,475,000	1½	24½	Connects Lakes Superior and Huron.

CANALS IN CANADA.

Chambly	728,999	12	6½	This canal overcomes the rapids between Chambly and St. Johns.
Cornwall	7,242,804	11	14	Cornwall to Dickson's Landing.
Lachine	13,404,970	8½	14-18	Montreal to Lachine.
Rideau	5,531,332	133½	5	Connects River Ottawa with Lake Ontario.
Sault Ste Marie (ship canal)	5,000,000	1½	18½	Connects Lake Superior and Huron at St. Mary's River.
Soulanges	8,000,000	14	15	Cascade Point to Coteau Landing.
Trent	12,464,651	155	Trenton to Lake Huron.
Welland (ship canal)	\$29,250,951	26½	14-22	Connects Lake Ontario and Lake Erie.
Williamsburg	10,490,184	12½	9-14	Along St. Lawrence River.

* And Improvements. † Navigable depth. ‡ Under construction. § Not including cost of improvements and changes in locks, etc., now under way. ¶ Consisting of the Farrans Point, Rapide Plat and Galops Canals. (a) Original cost of canal extending from Cleveland to Portsmouth, 317 miles, but now abandoned between Portsmouth and Dresden.

† The Erie Canal, Oswego Canal and Champlain Canal are now being enlarged by the State of New York to a depth of 12 feet, and with locks of a capacity to pass barges having a net tonnage capacity of 2,000 tons each. The enlarged Champlain Canal between Northumberland and Whitehall, a distance of thirty-five miles, was completed and placed in commission in May, 1914. Several large sections of the Erie Barge Canal already have been completed and are in commission. At the time the ALMANAC went to press no definite date had been fixed for the opening of the Barge Canal throughout its entire length. The type of boat which may best navigate the new canal has not as yet been determined, but inasmuch as the lock-chambers will have an available length of 310 feet and a width of 45 feet, in all probability craft 150 feet in length by 30 or 35 feet in width will be best adapted for the new waterway. The estimated cost of enlarging the Erie, Champlain and Oswego Canals was \$101,000,000.

** The cost of enlarging the Cayuga and Seneca Canal to the same capacity as the Improved Erie Canal is estimated at \$7,000,000.

SOME FOREIGN CANALS.

	Length, Miles.	Depth, Feet.	Bottom Width, Feet.	Estimated Cost.
Suez-Mediterranean and Red Seas	103	35	108	\$127,000,000
Cronstadt-St. Petersburg	16	20½	10,000,000
Manchester-Manchester and Liverpool	35½	28	120	85,000,000
Kaiser Wilhelm (Kiel Canal)-Baltic and North Seas	61	36	72	40,000,000
Ribe and Trave	41	10	72	6,000,000
Berlin-Stettin	110	25,000,000

TONNAGE ON CANALS.

CANALS.	Year.	Tonnage.	CANALS.	Year.	Tonnage.
Suez	1913	20,033,884	Sault Ste Marie	1913	79,718,344
Manchester	1913	5,780,161	Erie	1913	1,788,453
Kaiser Wilhelm	1912	9,924,237	All N. Y. Canals, incl. Erie	1913	2,602,035

PASSING OF THE SAILING SHIP.

The London Economist supplies the following table, showing the net tonnage of steamships and sailing vessels on the register of Great Britain and Ireland from 1840 to 1912:

YEAR.	Steam.	Sail.	Total.	YEAR.	Steam.	Sail.	Total.
1840	87,930	2,680,330	2,768,260	1909	10,284,810	1,301,060	11,585,870
1860	484,330	4,204,360	4,688,690	1910	10,442,719	1,112,944	11,555,663
1880	2,723,470	3,851,040	6,574,510	1911	10,717,511	980,997	11,698,508
1906	7,207,610	2,096,490	9,304,100	1912	10,992,073	902,718	11,894,791

Metric System of Weights and Measures.

THE METRIC SYSTEM has been adopted by Mexico, Brazil, Chile, Peru, etc., and except Russia and Great Britain, where it is permissive, by all European nations. Various names of the preceding systems are, however, frequently used: In Germany, $\frac{1}{2}$ kilogram = 1 pound; in Switzerland, 3-10 of a metre = 1 foot, etc. If the first letters of the prefixes *deka, hecto, kilo, myria*, from the Greek, and *deci, centi, mill*, from the Latin, are used in preference to our plain English, 10, 100, etc., it is best to employ capital letters for the multiples and small letters for the subdivisions, to avoid ambiguities in abbreviations: 1 dekametre or 10 metres = 1 dm.; 1 decimetre or 1-10 of a metre = 1 dm.

THE METRE, unit of length, is nearly the ten-millionth part of a quadrant of a meridian, of the distance between Equator and Pole. The International Standard Metre is, practically, nothing else but a length defined by the distance between two lines on a platinum-iridium bar at 0° Centigrade, deposited at the International Bureau of Weights and Measures, Paris, France.

THE LITRE, unit of capacity, is derived from the weight of one kilogram pure water at greatest density, a cube whose edge is one-tenth of a metre and, therefore, the one-thousandth part of a metric ton.

THE GRAM, unit of weight, is a cube of pure water at greatest density, whose edge is one-hundredth of a metre, and, therefore, the one-thousandth part of a kilogram, and the one-millionth part of a metric ton.

The Metric System was legalized in the United States on July 28, 1866, when Congress enacted as follows:

"The tables in the schedule hereto annexed shall be recognized in the construction of contracts, and in all legal proceedings, as establishing, in terms of the weights and measures now in use in the United States, the equivalents of the weights and measures expressed therein in terms of the metric system, and the tables may lawfully be used for computing, determining, and expressing in customary weights and measures the weights and measures of the metric system."

The following are the tables annexed to the above:

MEASURES OF LENGTH.

Metric Denominations and Values.	Equivalents in Denominations in Use.	
Myriametre.....	10,000 metres.	6,2137 miles.
Kilometre.....	1,000 metres.	0,62137 mile, or 3,280 feet 10 inches.
Hectometre.....	100 metres.	328 feet 1 inch.
Dekametre.....	10 metres.	393 7 inches.
Metre.....	1 metre.	39.37 inches.
Decimetre.....	1-10 of a metre.	3.937 inches.
Centimetre.....	1-100 of a metre.	0.3937 inch.
Millimetre.....	1-1000 of a metre.	0.0394 inch.

MEASURES OF SURFACE.

Metric Denominations and Values.	Equivalents in Denominations in Use.	
Hectare.....	10,000 square metres.	2.471 acres.
Are.....	100 square metres.	119.6 square yards.
Centare.....	1 square metre.	1,550 square inches.

MEASURES OF CAPACITY.

Metric Denominations and Values.			Equivalents in Denominations in Use.	
Names.	Number of Litres.	Cubic Measure.	Dry Measure.	Liquid or Wine Measure.
Kilolitre or stere.	1,000	1 cubic metre.....	1.308 cubic yards.....	264.17 gallons.
Hectolitre.....	100	1-10 of a cubic metre.	2 bush, and 3.35 pecks...	26.417 gallons.
Dekalitre.....	10	10 cubic decimetres.....	9.08 quarts.....	2.6417 gallons.
Litre.....	1	1 cubic decimetre.....	0.908 quart.....	1.0567 quarts.
Decilitre.....	1-10	1-10 of a cubic decimetre.	6.1022 cubic inches.....	0.845 gill.
Centilitre.....	1-100	10 cubic centimetres.....	0.6102 cubic inch.....	0.338 fluid ounce.
Millilitre.....	1-1000	1 cubic centimetre.....	0.061 cubic inch.....	0.27 fluid dram.

METRIC SYSTEM—Continued.

WEIGHTS,

METRIC DENOMINATIONS AND VALUES.			EQUIVALENTS IN DENOMINATIONS IN USE.
Names.	Number of Grams.	Weight of What Quantity of Water at Maximum Density.	Avoirdupois Weight.
Miller or tonneau.....	1,000,000	1 cubic metre.....	2204.6 pounds.
Quintal.....	100,000	1 hectolitre.....	220.46 pounds.
Myriagram.....	10,000	10 litres.....	22.046 pounds.
Kilogram or kilo.....	1,000	1 litre.....	2.2046 pounds.
Hectogram.....	100	1 decilitre.....	3.5274 ounces.
Dekagram.....	10	10 cubic centimetres.....	0.3527 ounce.
Gram.....	1	1 cubic centimetre.....	15.432 grains.
Decigram.....	1-10	1-10 of a cubic centimetre.....	1.5432 grains.
Centigram.....	1-100	10 cubic millimetres.....	0.1543 grain.
Milligram.....	1-1000	1 cubic millimetre.....	0.0154 grain.

TABLES FOR THE CONVERSION OF METRIC WEIGHTS AND MEASURES INTO CUSTOMARY UNITED STATES EQUIVALENTS AND THE REVERSE.

From the legal equivalents are deduced the following tables for converting United States weights and measures:

METRIC TO CUSTOMARY.

CUSTOMARY TO METRIC.

THE METRIC SYSTEM SIMPLIFIED.

The following tables of the metric system of weights and measures have been simplified as much as possible for THE WORLD ALMANAC by omitting such denominations as are not in practical, everyday use in the countries where the system is used exclusively.

TABLES OF THE SYSTEM.

Length.—The denominations in practical use are millimetres (mm.), centimetres (cm.), metres (m.), and kilometres (km.).
 10 mm. = 1 cm.; 100 cm. = 1 m.; 1,000 m. = 1 km. NOTE.—A decimetre is 10 cm.
Weight.—The denominations in use are grams (g.), kilos* (kg.), and tons (metric tons).
 1,000 g. = 1 kg.; 1,000 kg. = 1 metric ton.
Capacity.—The denominations in use are cubic centimetres (c. c.) and litres (l.).
 1,000 c. c. = 1 l. NOTE.—A hectolitre is 100 l.
 Relation of capacity and weight to length: A cubic decimetre is a litre, and a litre of water weighs a kilo.

APPROXIMATE EQUIVALENTS.

A metre is about a yard; a kilo is about 2 pounds; a litre is about a quart; a centimetre is about 1/4 inch; a metric ton is about same as a ton; a kilometre is about 3/4 mile; a cubic centimetre is about a thimbleful; a nickel weighs about 5 grams.

PRECISE EQUIVALENTS.

1 acre.....	= .40 hectare.....	.4 047	1 mile.....	= 1.6 kilometres.....	1.609

*Contraction for kilogram. †Centimetres.

MINIMUM WEIGHTS OF PRODUCE.

The following are minimum weights of certain articles of produce according to the laws of the United States:

	Per Bushel.		Per Bushel.		Per Bushel.
Wheat.....	60 lbs.	White Potatoes.....	60 lbs.	Hungarian Grass Seed.....	50 lbs.
Corn, in the ear.....	70 "	Sweet Potatoes.....	55 "	Timothy Seed.....	45 "
Corn, shelled.....	56 "	Onions.....	57 "	Blue Grass Seed.....	44 "
Rye.....	56 "	Turnips.....	55 "	Hemp Seed.....	44 "
Buckwheat.....	48 "	Dried Peaches.....	33 "	Salt (see note below).	
Barley.....	48 "	Dried Apples.....	26 "	Corn Meal.....	48 "
Oats.....	32 "	Clover Seed.....	60 "	Ground Peas.....	24 "
Peas.....	60 "	Flax Seed.....	56 "	Malt.....	34 "
White Beans.....	60 "	Millet Seed.....	50 "	Bran.....	20 "
Castor Beans.....	46 "				

SALT.—Weight per bushel as adopted by different States ranges from 50 to 80 pounds. Coarse salt in Pennsylvania is reckoned at 80 pounds, and in Illinois at 50 pounds per bushel. Fine salt in Pennsylvania is reckoned at 62 pounds, in Kentucky and Illinois at 55 pounds per bushel.

MEASURES AND WEIGHTS OF GREAT BRITAIN.

THE measures of length and the weights are nearly, practically, the same as those in use in the United States. The English ton is 2,240 lbs. avoirdupois, the same as the long ton, or shipping ton of the United States. The English hundredweight is 112 lbs. avoirdupois, the same as the long hundredweight of the United States. The English stone is usually equal to one-eighth hundredweight of 112 lbs., or 14 lbs. avoirdupois. The metre has been legalized at 39.37079 inches, but the length of 39.370432 inches, as adopted by France, Germany, Belgium, and Russia, is frequently used.

The Imperial gallon, the basis of the system of capacity, involves an error of about 1 part in 1,836; 10 lbs. of water = 277.123 cubic inches. (A late authority gives the weight of the Imperial gallon as 10.017 pounds and of the United States gallon as 8.345 pounds.)

The English statute mile is 1,760 yards or 5,280 feet. The following are measures of capacity :

NAMES.	Pounds of Water.	Cubic Inches.	Litres.	United States Equivalents.
4 gills = 1 pint	1.25	34.66	0.56793	1.20032 liquid pints.
2 pints = 1 quart	2.5	69.32	1.13586	1.20032 " quarts.
2 quarts = 1 pottle	5	138.64	2.27173	2.40064 " "
2 pottles = 1 gallon	10	277.27	4.54346	1.20032 " gallons.
2 gallons = 1 peck	20	554.55	9.08692	1.03152 dry pecks.
4 pecks = 1 bushel	80	2218.19	36.34766	1.03152 " bushels.
4 bushels = 1 coomb	320	8972.77	145.39022	4.12606 " "
2 coombs = 1 quarter	640	17745.54	290.7813	8.2521 " "

A cubic foot of pure gold weighs 1,910 pounds; pure silver, 655 pounds; cast iron, 450 pounds; copper, 550 pounds; lead, 710 pounds; pure platinum, 1,220 pounds; tin, 456 pounds; aluminum, 163 pounds.

DOMESTIC WEIGHTS AND MEASURES.

Apothecaries' Weight: 20 grains = 1 scruple; 3 scruples = 1 dram; 8 drams = 1 ounce; 12 ounces = 1 pound.

Avoirdupois Weight (short ton): 27 11-32 grains = 1 dram; 16 drams = 1 ounce; 16 ounces = 1 pound; 25 pounds = 1 quarter; 4 quarters = 1 cwt.; 20 cwt. = 1 ton.

Avoirdupois Weight (long ton): 27 11-32 grains = 1 dram; 16 drams = 1 ounce; 16 ounces = 1 pound; 112 pounds = 1 cwt.; 20 cwt. = 1 ton.

Troy Weight: 24 grains = 1 pennyweight; 20 pennyweights = 1 ounce; 12 ounces = 1 pound

Circular Measure: 60 seconds = 1 minute; 60 minutes = 1 degree; 30 degrees = 1 sign; 12 signs = 1 circle or circumference.

Cubic Measure: 1,728 cubic inches = 1 cubic foot; 27 cubic feet = 1 cubic yard.

Dry Measure: 2 pints = 1 quart; 8 quarts = 1 peck; 4 pecks = 1 bushel.

Liquid Measure: 4 gills = 1 pint; 2 pints = 1 quart; 4 quarts = 1 gallon; 3 1/4 gallons = 1 barrel; 2 barrels = 1 hogshead.

Long Measure: 12 inches = 1 foot; 3 feet = 1 yard; 5 1/2 yards = 1 rod or pole; 40 rods = 1 furlong; 8 furlongs = 1 statute mile (1,760 yards or 5,280 feet); 3 miles = 1 league.

Mariners' Measure: 6 feet = 1 fathom; 120 fathoms = 1 cable length; 7 1/2 cable lengths = 1 mile; 5,280 feet = 1 statute mile; 6,085 feet = 1 nautical mile.

Paper Measure: 24 sheets = 1 quire; 20 quires = 1 ream (480 sheets); 2 reams = 1 bundle; 5 bundles = 1 bale.

Square Measure: 144 square inches = 1 square foot; 9 square feet = 1 square yard; 30 1/2 square yards = 1 square rod or perch; 40 square rods = 1 rood; 4 roods = 1 acre; 640 acres = 1 square mile; 36 square miles (6 miles square) = 1 township.

Time Measure: 60 seconds = 1 minute; 60 minutes = 1 hour; 24 hours = 1 day; 7 days = 1 week; 365 days = 1 year; 366 days = 1 leap year.

MEDICAL SIGNS AND ABBREVIATIONS.

R (Lat. Recipe), take; aa, of each; ℥, pound; ʒ, ounce; ʒ, drachm; ℥, scruple; ℥, minim, or drop; O or o, pint; f ʒ, fluid ounce; f ʒ, fluid drachm; As, ʒss, half an ounce; ʒi, one ounce; ʒiiss, one ounce and a half; ʒiij, two ounces; gr., grain; Q. S., as much as sufficient; Ft. Mst., let a mixture be made; Ft. Haast., let a draught be made; Ad., add to; Ad lib., at pleasure; Aq., water; M., mix; Mac., macerate; Pulv., powder; Pil., pill; Solv., dissolve; St. lejit stand; Sum., to be taken; D., dose; Dil., dilute; Filtr., filter; Lot., a wash; Garg., a gargle; Hor. Decub., at bed time; Inject., injection; Gtt., drops; ss, one-half; Ess., essence.

TEXAS LAND MEASURE.

(Also used in Mexico, New Mexico, Arizona, and California.)

26,000,000	square varas (square of 5,099	varas) = 1 league and 1 labor	= 4,605.5 acres.
1,000,000	square varas (square of 1,000	varas) = 1 labor	= 177.136 acres.
25,000,000	square varas (square of 5,000	varas) = 1 league	= 4,428.4 acres.
12,500,000	square varas (square of 3,535.5	varas) = 1/2 league	= 2,214.2 acres.
8,333,333	square varas (square of 2,886.7	varas) = 1/3 league	= 1,476.13 acres.
6,250,000	square varas (square of 2,500	varas) = 1/4 league	= 1,107.1 acres.
7,225,600	square varas (square of 2,688	varas)	= 1,280 acres.
3,612,800	square varas (square of 1,900.8	varas) = 1 section	= 640 acres
1,806,400	square varas (square of 1,344	varas) = 1/2 section	= 320 acres.
903,200	square varas (square of 950.44	varas) = 1/4 section	= 160 acres.
451,600	square varas (square of 672	varas) = 1/8 section	= 80 acres
225,800	square varas (square of 475	varas) = 1-16 section	= 40 acres
5,645.376	square varas (square of 75.137	varas) = 4,840 square yards	= 1 acre.

To find the number of acres in any number of square varas, multiply the latter by 177 (or to be more exact, by 177 1/4), and cut off six decimals.

1 vara = 33 1/4 inches.

1,900.8 varas = 1 mille.

WEIGHTS AND MEASURES OF THE PHILIPPINES.

1 pulgada (12 linea)	= .927 inch.	1 libra (16 onzo)	= 1.0144 lb. av.
1 ple	= 11.125 inches.	1 arroba	= 25.360 lb. av.
1 vara	= 33.375 inches.	1 catty (16 tael)	= 1.494 lb. av.
1 gantah	= .8796 gallon.	1 pecul (100 catty)	= 139.482 lb. av.
1 caban	= 21.991 gallons.		

KNOTS AND MILES.

The Statute Mile is 5,280 feet.
 The British Admiralty Knot or Nautical Mile is 6,080 feet.
 The Statute Knot is 6,082.66 feet, and is generally considered the standard. The number of feet in a statute knot is arrived at thus: The circumference of the earth is divided into 360 degrees, each degree containing 60 knots or (360x60), 21,600 knots to the circumference. 21,600 divided into 131,385,456—the number of feet in the earth's circumference—gives 6,082.66 feet—the length of a standard mile.

1 knot = 1.151 miles	4 knots = 4.606 miles	20 knots = 23.030 miles	600 feet = 1 cable
2 knots = 2.303 miles	5 knots = 5.757 miles	25 knots = 28.787 miles	10 cables = 1 knot
3 knots = 3.454 miles	10 knots = 11.515 miles	6 feet = 1 fathom	

ANCIENT GREEK AND ROMAN WEIGHTS AND MEASURES.

WITH AMERICAN EQUIVALENTS.

WEIGHTS.
 The Roman libra or pound = 10 oz. 18 pwt. 13 5-7 gr., Troy.
 The Attica mina or pound = 11 oz. 7 pwt. 16 2-7 gr., Troy.
 The Attica talent (60 minæ) = 56 lbs. 11 oz. 0 pwt. 17 1-7 gr., Troy.

DRY MEASURE.

The Roman modus = 1 pk. 2-9 pint.
 The Attic choenix = nearly 1 1/2 pints.
 The Attic medimnus = 4 pk. 6 1-10 pints.

LIQUID MEASURE.

The cotyle = a little over 1/2 pint.
 The cyathus = a little over 1 1/2 pints.
 The chaus = a little over 6 3/4 pints.

LONG MEASURE.

The Roman foot = 11 3-5 inches.
 The Roman cubit = 1 ft. 5 1/2 inches.
 The Roman pace = 4 ft. 10 inches.
 The Roman furlong = 604 ft. 10 inches.
 The Roman mile = 4,835 feet.
 The Grecian cubit = 1 ft. 6 3/4 inches.

The Grecian furlong = 504 ft. 4 1-5 inches.
 The Grecian mile = 4,030 ft.

MONEY.

The quadrans = 1-10 mills.
 The as = 13-10 mills.
 The sestertius = 3.58 + cents.
 The sestertium (1,000 sestertii) = \$35.80+.
 The denarius = 14.35 + cents.
 The Attic obolus = 2.39 + cents.
 The drachma = 14.35 + cents.*
 The mina (100 drachmæ) = \$14.35+.
 The talent (60 minæ) = \$61.00+.
 The Greek stater = aureus (same as the Roman †) = \$3.58, 79.
 The stater = daricus = \$7.16, 66.

*The modern drachma equals 19.3 cents. † Did not remain, at all periods, at this value, but this is the value indicated by Tacitus.

BIBLICAL WEIGHTS REDUCED TO TROY WEIGHT.

	Lbs.	Oz.	Pwt.	Gr.
The Gerah, one-twentieth of a Shekel	0	0	0	12
The Bekah, half a Shek l.....	0	0	5	0
The Shekel.....	0	0	10	0
The Maneh, 60 Shekels.....	2	6	0	0
The Talent, 50 manehs, or 3,000 Shekels.....	125	0	0	0

ELECTRICAL UNITS.

NAME.	Symbol.	Unit of	How Obtained.	CGS*	Equivalent.
Ohm	R	Resistance	The electrical resistance of a column of mercury 106 centimetres long and of 1 square millimetre section.	10 ⁹	1 true ohm = 1.0112 British Association ohms.
Ampère	C	Current	Is that current of electricity that decomposes .0009324 gramme of water per second.	10 ¹	Deposits 1.118 milligrams of silver per second.
Volt	E	Electromotive force	One ampère of current passing through a substance having 1 ohm of resistance = 1 volt.	10 ⁸	.926 of a standard Daniel cell.
Coulomb	Q	Quantity	A current of 1 ampère during 1 second of time.	10 ¹	Deposits 1.118 milligrams of silver.
Farad	K	Capacity	The capacity that a current of 1 ampère for 1 second (=1 coulomb) charges it to potential of 1 volt.	10 ⁹	2.5 knots of D. U. S. cable.
Microfarad	"	"	1-millionth of farad.	10 ¹⁵	
Watt	Pw.	Power	Power of 1 ampère current passing through resistance of 1 ohm.	10 ⁷	.0013405 (or 1/746) of a horse power.
Jou	W. J.	Work	Is the work done by 1 watt of electrical power in 1 second.	10 ⁷	.238 unit of heat (Therm).

*C. G. S. = Electro-magnetic units. Consult technical works in electricity.

FOREIGN MONIES.

English Money: 4 farthings = 1 penny (d); 12 pence = 1 shilling (s); 20 shillings = 1 pound (£).
 21 shillings = one guinea; 5 shillings = one crown.
French Money: 100 centimes = 1 franc.
German Money: 100 pfennig = 1 mark.
Russian Money: 100 copecks = 1 ruble.
Austro-Hungarian Money: 100 heller = 1 krone.
 For United States equivalents, see table of "Value of Foreign Coins in U. S. Money."

TABLE OF GEOMETRICAL PROGRESSION.

(WHEREBY any questions of Geometrical Progression and of Double Ratio may be solved by Inspection, the Number of Terms not exceeding 56.)

STANDARD NEWSPAPER MEASURES.

THE Standard Newspaper Measure, as recognized and now in general use is 13 ems pica. The standard of measurement of all sizes of type is the "em quad," not the letter "m."

The basis of measurements adopted by the International Typographical Union is the lower-case alphabet, from "a" to "z" inclusive, and the ems used are the same body as the type measured.

The weight of a cubic foot of distilled water at a temperature of 60° F. is 1,000 ounces Avordupois, *very nearly*, therefore the weight (in ounces, Avordupois) of a cubic foot of any of the substances in the above table is found by multiplying the specific gravities by 10, thus:—one cubic foot of oak weighs 1,170 ounces; one cubic foot of marble 2,700 ounces, and so on.

* Compared with water.

Tensile Strength is the resistance of the fibres or particles of a body to separation. It is therefore proportional to their number, or to the area of its transverse section. The fibres of wood are strongest near the centre of the trunk or limb of a tree. * Tensile strength in pounds per square inch.

THE CAPITOL AT WASHINGTON.

THE Capitol is situated in latitude $38^{\circ} 53' 20''$.4 north and longitude $77^{\circ} 00' 35''$.7 west from Greenwich. It fronts east, and stands on a plateau eighty eight feet above the level of the Potomac. The entire length of the building from north to south is seven hundred and fifty-one feet four inches, and its greatest dimension from east to west three hundred and fifty feet. The area covered by the building is 153,112 square feet.

The dome of the original central building was constructed of wood, covered with copper. This was replaced in 1876 by the present structure of cast iron. It was completed in 1865. The entire weight of iron used is 8,909,200 pounds.

The dome is crowned by a bronze statue of Freedom, which is nineteen feet six inches high and weighs 14,985 pounds. It was modelled by Crawford. The height of the dome above the base line of the east front is two hundred and eighty-seven feet five inches. The height from the top of the balustrade of the building is two hundred and seventeen feet eleven inches. The greatest diameter at the base is one hundred and thirty-five feet five inches.

The rotunda is ninety-seven feet six inches in diameter, and its height from the floor to the top of the canopy is one hundred and eighty feet three inches.

The Senate Chamber is one hundred and thirteen feet three inches in length, by eighty feet three inches in width, and thirty-six feet in height. The galleries will accommodate one thousand persons.

The Representatives' Hall is one hundred and thirty-nine feet in length, by ninety-three feet in width, and thirty-six feet in height.

The southeast corner-stone of the original building was laid September 18, 1793, by President Washington with Masonic ceremonies. The corner-stone of the extensions was laid July 4, 1851, by President Fillmore.

The room now occupied by the Supreme Court was, until 1859, occupied as the Senate Chamber. Previous to that time the court occupied the room immediately beneath, now used as a law library.

LINCOLN'S GETTYSBURG SPEECH.

(Address at the Dedication of Gettysburg Cemetery, November 19, 1863.)

FOURSCORE and seven years ago our fathers brought forth upon this continent a new nation, conceived in liberty, and dedicated to the proposition that all men are created equal.

Now we are engaged in a great civil war, testing whether that nation, or any nation so conceived and so dedicated, can long endure. We are met on a great battlefield of that war. We are met to dedicate a portion of it as the final resting-place of those who here gave their lives that that nation might live. It is altogether fitting and proper that we should do this.

But in a larger sense we cannot dedicate, we cannot consecrate, we cannot hallow this ground. The brave men, living and dead, who struggled here have consecrated it far above our power to add or detract. The world will little note nor long remember what we say here, but it can never forget what they did here. It is for us, the living, rather to be dedicated here to the unfinished work that they have thus far so nobly carried on. It is rather for us to be here dedicated to the great task remaining before us; that from these honored dead we take increased devotion to the cause for which they here gave the last full measure of devotion; that we here highly resolve that the dead shall not have died in vain; that the nation shall, under God, have a new birth of freedom, and that government of the people, by the people, and for the people, shall not perish from the earth.

UNITED STATES COAST AND GEODETIC SURVEY.

THE Coast and Geodetic Survey of the Department of Commerce is charged with the survey of the coasts of the United States and coasts under the jurisdiction thereof, and the publication of charts covering said coasts. This includes base measure, triangulation, topography, and hydrography along said coasts; the survey of rivers to the head of tide water or ship navigation, deep sea soundings, temperature and current observations along said coasts and throughout the Gulf and Japan streams, magnetic observations and researches and the publication of maps showing the variations of terrestrial magnetism; gravity research, determination of heights, the determination of geographic positions by astronomic observations for latitude, longitude and azimuth, and by triangulation to furnish reference points for State surveys and to co-ordinate Governmental surveys.

The results obtained are published in annual reports and in special publications; charts upon various scales, including sailing charts, general charts of the coast and harbor charts; tide tables issued annually in advance; coast pilots with sailing directions covering the navigable waters; notices to mariners issued weekly as a joint publication of the Coast and Geodetic Survey and the Bureau of Lighthouses and containing current information necessary for safe navigation; catalogues of charts and publications, and such other publications as may be required to carry out the organic law governing the survey.

Constitution of the United States.

Preamble.

WE, the people of the United States, in order to form a more perfect Union, establish justice, insure domestic tranquillity, provide for the common defense, promote the general welfare, and secure the blessings of liberty to ourselves and our posterity, do ordain and establish this CONSTITUTION for the United States of America.

ARTICLE I.

Legislative powers.

SECTION I. All legislative powers herein granted shall be vested in a Congress of the United States, which shall consist of a Senate and House of Representatives.

House of Representatives.

SECTION II. 1. The House of Representatives shall be composed of members chosen every second year by the people of the several States, and the electors in each State shall have the qualifications requisite for electors of the most numerous branch of the State Legislature.

Qualifications of Representatives.

2. No person shall be a Representative who shall not have attained to the age of twenty-five years, and been seven years a citizen of the United States, and who shall not, when elected, be an inhabitant of that State in which he shall be chosen.

Apportionment of Representatives.

3. Representatives and direct taxes shall be apportioned among the several States which may be included within this Union according to their respective numbers, which shall be determined by adding to the whole number of free persons, including those bound to service for a term of years, and excluding Indians not taxed, three-fifths of all other persons. The actual enumeration shall be made within three years after the first meeting of the Congress of the United States, and within every subsequent term of ten years, in such manner as they shall by law direct. The number of Representatives shall not exceed one for every thirty thousand, but each State shall have at least one Representative; and until such enumeration shall be made, the State of New Hampshire shall be entitled to choose 3; Massachusetts, 8; Rhode Island and Providence Plantations, 1; Connecticut, 5; New York, 6; New Jersey, 4; Pennsylvania, 3; Delaware, 1; Maryland, 5; Virginia, 10; North Carolina, 5; South Carolina, 5, and Georgia, 3.

Vacancies, how filled.

4. When vacancies happen in the representation from any State, the Executive Authority thereof shall issue writs of election to fill such vacancies.

Officers, how appointed.

5. The House of Representatives shall choose their Speaker and other officers, and shall have the sole power of impeachment.

Classification of Senators.

SECTION III. [See Article XVII., Amendments.] 1. The Senate of the United States shall be composed of two Senators from each State, chosen by the Legislature thereof, for six years; and each Senator shall have one vote.

Qualifications of Senators.

2. Immediately after they shall be assembled in consequence of the first election, they shall be divided as equally as may be into three classes. The seats of the Senators of the first class shall be vacated at the expiration of the second year, of the second class at the expiration of the fourth year, and of the third class at the expiration of the sixth year, so that one-third may be chosen every second year; and if vacancies happen by resignation, or otherwise, during the recess of the Legislature of any State, the Executive thereof may make temporary appointment until the next meeting of the Legislature, which shall then fill such vacancies.

President of the Senate.

3. No person shall be a Senator who shall not have attained to the age of thirty years, and been nine years a citizen of the United States, and who shall not, when elected, be an inhabitant of that State for which he shall be chosen.

Senate a court for trial of impeachments.

4. The Vice-President of the United States shall be President of the Senate, but shall have no vote unless they be equally divided.

Judgment in case of conviction.

5. The Senate shall choose their other officers, and also a President pro tempore. In the absence of the Vice-President, or when he shall exercise the office of President of the United States.

Elections of Senators and Representatives.

6. The Senate shall have the sole power to try all impeachments. When sitting for that purpose, they shall be on oath or affirmation. When the President of the United States is tried, the Chief Justice shall preside; and no person shall be convicted without the concurrence of two-thirds of the members present.

Meeting of Congress.

7. Judgment in cases of impeachment shall not extend further than to removal from office, and disqualification to hold and enjoy any office of honor, trust, or profit under the United States; but the party convicted shall nevertheless be liable and subject to indictment, trial, judgment, and punishment, according to law.

Organization of Congress.

SECTION IV. 1. The times, places, and manner of holding elections for Senators and Representatives shall be prescribed in each State by the Legislature thereof; but the Congress may at any time by law make or alter such regulations, except as to the places of choosing Senators.

Rule of proceedings.

2. The Congress shall assemble at least once in every year, and such meeting shall be on the first Monday in December, unless they shall by law appoint a different day.

Journals of each House.

SECTION V. 1. Each House shall be the judge of the elections, returns, and qualifications of its own members, and a majority of each shall constitute a quorum to do business; but a smaller number may adjourn from day to day, and may be authorized to compel the attendance of absent members in such manner and under such penalties as each House may provide.

Adjournment of Congress.

2. Each House may determine the rules of its proceedings, punish its members for disorderly behavior, and with the concurrence of two-thirds expel a member.

Pay and privileges of members.

3. Each House shall keep a journal of its proceedings, and from time to time publish the same, excepting such parts as may in their judgment require secrecy; and the yeas and nays of the members of either House on any question shall, at the desire of one-fifth of those present, be entered on the journal.

Other offices prohibited.

4. Neither House, during the session of Congress, shall, without the consent of the other, adjourn for more than three days, nor to any other place than that in which the two Houses shall be sitting.

Revenue bills.

SECTION VI. 1. The Senators and Representatives shall receive a compensation for their services, to be ascertained by law, and paid out of the Treasury of the United States. They shall in all cases, except treason, felony, and breach of the peace, be privileged from arrest during their attendance at the session of their respective Houses, and in going to and returning from the same; and for any speech or debate in either House they shall not be questioned in any other place.

How bills become laws.

2. No Senator or Representative shall, during the time for which he was elected, be appointed to any civil office under the authority of the United States which shall have been created, or the emoluments whereof shall have been increased during such time; and no person holding any office under the United States shall be a member of either House during his continuance in office.

Revenue bills.

SECTION VII. 1. All bills for raising revenue shall originate in the House of Representatives, but the Senate may propose or concur with amendments, as on other bills.

How bills become laws.

2. Every bill which shall have passed the House of Representatives and the Senate shall, before it become a law, be presented to the President of the United States; if he approve, he shall sign it, but if not, he shall return it, with his objections, to that House in which it shall have originated, who shall enter the objections at large on their journal, and proceed to reconsider it. If after such reconsideration two-thirds of that House shall agree to pass the bill, it shall be sent, together with the objections, to the other House, by which it shall likewise be reconsidered; and if approved by two-thirds of that House it shall become a law. But in all such cases the votes of both Houses shall be determined by yeas and nays, and the names of the persons voting for and against the bill shall be entered on the journal of each House respectively. If any bill shall not be returned by the President within ten days (Sundays excepted) after it shall have been presented to him, the same shall be a law in like manner as if he had signed it, unless the Congress by their adjournment prevent its return; in which case it shall not be a law.

Approval and veto powers of the President. 3. Every order, resolution, or vote to which the concurrence of the Senate and House of Representatives may be necessary (except on a question of adjournment) shall be presented to the President of the United States; and before the same shall take effect shall be approved by him, or being disapproved by him, shall be repassed by two-thirds of the Senate and the House of Representatives, according to the rules and limitations prescribed in the case of a bill.

Powers vested in Congress.

SECTION VIII. 1. The Congress shall have power:

To lay and collect taxes, duties, imposts, and excises, to pay the debts and provide for the common defence and general welfare of the United States; but all duties, imposts, and excises shall be uniform throughout the United States.

2. To borrow money on the credit of the United States.
3. To regulate commerce with foreign nations, and among the several States, and with the Indian tribes.
4. To establish a uniform rule of naturalization and uniform laws on the subject of bankruptcies throughout the United States.
5. To coin money, regulate the value thereof, and of foreign coin, and fix the standard of weights and measures.
6. To provide for the punishment of counterfeiting the securities and current coin of the United States.
7. To establish post-offices and post-roads.
8. To promote the progress of science and useful arts by securing for limited times to authors and inventors the exclusive rights to their respective writings and discoveries.
9. To constitute tribunals inferior to the Supreme Court.
10. To define and punish piracies and felonies committed on the high seas, and offences against the law of nations.
11. To declare war, grant letters of marque and reprisal, and make rules concerning captures on land and water.
12. To raise and support armies, but no appropriation of money to that use shall be for a longer term than two years.

13. To provide and maintain a navy.
14. To make rules for the government and regulation of the land and naval forces.
15. To provide for calling forth the militia to execute the laws of the Union, suppress insurrections, and repel invasions.

16. To provide for organizing, arming, and disciplining the militia, and for governing such part of them as may be employed in the service of the United States, reserving to the States respectively the appointment of the officers, and the authority of training the militia according to the discipline prescribed by Congress.

17. To exercise exclusive legislation in all cases whatsoever over such district (not exceeding ten miles square) as may, by cession of particular States and the acceptance of Congress, become the seat of Government of the United States, and to exercise like authority over all places purchased by the consent of the Legislature of the State in which the same shall be, for the erection of forts, magazines, arsenals, dry-docks, and other useful buildings.

18. To make all laws which shall be necessary and proper for carrying into execution the foregoing powers, and all other powers vested by this Constitution in the Government of the United States, or in any department or officer thereof.

Immigrants, how admitted.

SECTION IX. 1. The migration or importation of such persons as any of the States now existing shall think proper to admit shall not be prohibited by the Congress prior to the year one thousand eight hundred and eight, but a tax or duty may be imposed on such importation, not exceeding ten dollars for each person.

Habeas corpus.

2. The privilege of the writ of habeas corpus shall not be suspended, unless when in cases of rebellion or invasion the public safety may require it.

Attainder.

3. No bill of attainder or ex post facto law shall be passed.

Direct taxes.

4. No capitation or other direct tax shall be laid, unless in proportion to the census or enumeration hereinbefore directed to be taken:

Regulations regarding customs duties.

5. No tax or duty shall be laid on articles exported from any State.

6. No preference shall be given by any regulation of commerce or revenue to the ports of one State over those of another, nor shall vessels bound to or from one State be obliged to enter, clear, or pay duties in another.

Money, how drawn.

7. No money shall be drawn from the Treasury but in consequence of appropriations made by law; and a regular statement and account of the receipts and expenditures of all public money shall be published from time to time.

Titles of nobility prohibited.

8. No title of nobility shall be granted by the United States. And no person holding any office of profit or trust under them shall, without the consent of the Congress, accept of any present, emolument, office, or title of any kind whatever from any king, prince, or foreign State.

Powers of States defined.

SECTION X. 1. No State shall enter into any treaty, alliance, or confederation, grant letters of marque and reprisal, coin money, emit bills of credit, make anything but gold and silver coin a tender in payment of debts, pass any bill of attainder, ex post facto law, or law impairing the obligation of contracts, or grant any title of nobility.

2. No State shall, without the consent of the Congress, lay any impost or duties on imports or exports, except what may be absolutely necessary for executing its inspection laws, and the net produce of all duties and imposts, laid by any State on imports or exports, shall be for the use of the Treasury of the United States; and all such laws shall be subject to the revision and control of the Congress.

3. No State shall, without the consent of Congress, lay any duty of tonnage, keep troops or ships of war in time of peace, enter into any agreement or compact with another State, or with a foreign power, or engage in war, unless actually invaded, or in such imminent danger as will not admit of delay.

ARTICLE II.

Executive power, in whom vested.

SECTION I. 1. The Executive power shall be vested in a President of the United States of America. He shall hold his office during the term of four years, and, together with the Vice-President, chosen for the same term, be elected as follows:

Electors.

2. Each State shall appoint, in such manner as the Legislature thereof may direct, a number of electors, equal to the whole number of Senators and Representatives to which the State may be entitled in the Congress; but no Senator or Representative or person holding an office of trust or profit under the United States shall be appointed an elector.

Proceedings of electors.

3. [The electors shall meet in their respective States and vote by ballot for two persons, of whom one at least shall not be an inhabitant of the same State with themselves. And they shall make a list of all the persons voted for, and of the number of votes for each, which list they shall sign and certify and transmit, sealed, to the seat of the Government of the United States, directed to the President of the Senate. The President of the Senate shall, in the presence of the Senate and House of Representatives, open all the certificates, and the votes shall then be counted. The person having the greatest number of votes shall be the President, if such number be a majority of the whole number of electors appointed, and if there be more than one who have such majority, and have an equal number of votes, then the House of Representatives shall immediately choose by ballot one of them for President; and if no person have a majority, then from the five highest on the list the said House shall in like manner choose the President. But in choosing the President, the vote shall be taken by States, the representation from each State having one vote. A quorum, for this purpose, shall consist of a member or members from two-thirds of the States, and a majority of all the States shall be necessary to a choice. In every case, after the choice of the President, the person having the greatest number of votes of the electors shall be the Vice-President. But if there should remain two or more who have equal votes, the Senate shall choose from them by ballot the Vice-President.]

Proceedings of the House of Representatives.

4. The Congress may determine the time of choosing the electors and the day on which they shall give their votes, which day shall be the same throughout the United States.

Time of choosing electors.

* This clause is superseded by Article XII., Amendments.

Qualifications of the President. 5. No person except a natural born citizen, or a citizen of the United States at the time of the adoption of this Constitution, shall be eligible to the office of President; neither shall any person be eligible to that office who shall not have attained to the age of thirty-five years and been fourteen years a resident within the United States.

Provision in case of his disability. 6. In case of the removal of the President from office, or of his death, resignation, or inability to discharge the powers and duties of the said office, the same shall devolve on the Vice-President, and the Congress may by law provide for the case of removal, death, resignation, or inability, both of the President and Vice-President, declaring what officer shall then act as President, and such officer shall act accordingly until the disability be removed or a President shall be elected.

Salary of the President. 7. The President shall, at stated times, receive for his services a compensation which shall neither be increased nor diminished during the period for which he shall have been elected, and he shall not receive within that period any other emolument from the United States, or any of them.

Oath of the President. 8. Before he enter on the execution of his office he shall take the following oath or affirmation: "I do solemnly swear (or affirm) that I will faithfully execute the office of President of the United States, and will, to the best of my ability, preserve, protect, and defend the Constitution of the United States."

Duties of the President. SECTION II. 1. The President shall be Commander-in-Chief of the Army and Navy of the United States, and of the militia of the several States when called into the actual service of the United States; he may require the opinion, in writing, of the principal officer in each of the executive departments upon any subject relating to the duties of their respective offices, and he shall have power to grant reprieves and pardons for offences against the United States except in cases of impeachment.

May make treaties, appoint ambassadors, judges, etc. 2. He shall have power, by and with the advice and consent of the Senate, to make treaties, provided two-thirds of the Senators present concur; and he shall nominate, and by and with the advice and consent of the Senate shall appoint ambassadors, other public ministers and consuls, judges of the Supreme Court, and all other officers of the United States whose appointments are not herein otherwise provided for, and which shall be established by law; but the Congress may by law vest the appointment of such inferior officers as they think proper in the President alone, in the courts of law, or in the heads of departments.

May fill vacancies. 3. The President shall have power to fill up all vacancies that may happen during the recess of the Senate by granting commissions, which shall expire at the end of their next session.

May make recommendations to Congress. SECTION III. He shall from time to time give to the Congress information of the state of the Union, and recommend to their consideration such measures as he shall judge necessary and expedient; he may, on extraordinary occasions, convene both Houses, or either of them, and in case of disagreement between them with respect to the time of adjournment, he may adjourn them to such time as he shall think proper; he shall receive ambassadors and other public ministers; he shall take care that the laws be faithfully executed, and shall commission all the officers of the United States.

How officers may be removed. SECTION IV. The President, Vice-President, and all civil officers of the United States shall be removed from office on impeachment for and conviction of treason, bribery, or other high crimes and misdemeanors.

ARTICLE III.

Judicial power, how invested. SECTION I. The judicial power of the United States shall be vested in one Supreme Court, and in such inferior courts as the Congress may from time to time ordain and establish. The judges, both of the Supreme and inferior courts, shall hold their offices during good behavior, and shall at stated times receive for their services a compensation which shall not be diminished during their continuance in office.

To what cases it extends. SECTION II. 1. The judicial power shall extend to all cases in law and equity arising under this Constitution, the laws of the United States, and treaties made, or which shall be made, under their authority; to all cases affecting ambassadors, other public ministers and consuls; to all cases of admiralty and maritime jurisdiction; to controversies to which the United States shall be a party; to controversies between two or more States, between a State and citizens of another State, between citizens of different States, between citizens of the same State claiming lands under grants of different States, and between a State, or the citizens thereof, and foreign States, citizens, or subjects.

Jurisdiction of the Supreme Court. 2. In all cases affecting ambassadors, other public ministers, and consuls, and those in which a State shall be a party, the Supreme Court shall have original jurisdiction. In all the other cases before-mentioned the Supreme Court shall have appellate jurisdiction both as to law and fact, with such exceptions and under such regulations as the Congress shall make.

Rules respecting trials. 3. The trial of all crimes, except in cases of impeachment, shall be by jury, and such trial shall be held in the State where the said crimes have been committed; but when not committed within any State the trial shall be at such place or places as the Congress may by law have directed.

Treason defined. SECTION III. 1. Treason against the United States shall consist only in levying war against them, or in adhering to their enemies, giving them aid and comfort. No person shall be convicted of treason unless on the testimony of two witnesses to the same overt act, or on confession in open court.

How punished. 2. The Congress shall have power to declare the punishment of treason, but no attainder of treason shall work corruption of blood or forfeiture except during the life of the person attained.

ARTICLE IV.

Rights of States and records. SECTION I. Full faith and credit shall be given in each State to the public acts, records, and judicial proceedings of every other State. And the Congress may by general laws prescribe the manner in which such acts, records, and proceedings shall be proved, and the effect thereof.

Privileges of citizens. SECTION II. 1. The citizens of each State shall be entitled to all privileges and immunities of citizens in the several States.

Executive requisitions. 2. A person charged in any State with treason, felony, or other crime, who shall flee from justice, and be found in another State, shall, on demand of the Executive authority of the State from which he fled, be delivered up, to be removed to the State having jurisdiction of the crime.

Laws regulating service or labor. 3. No person held to service or labor in one State, under the laws thereof, escaping into another shall, in consequence of any law or regulation therein, be discharged from such service or labor, but shall be delivered up on claim of the party to whom such service or labor may be due.

New States, how formed and admitted. SECTION III. 1. New States may be admitted by the Congress into this Union; but no new State shall be formed or erected within the jurisdiction of any other State, nor any State be formed by the junction of two or more States, or parts of States, without the consent of the Legislatures of the States concerned, as well as of the Congress.

Power of Congress over public lands. 2. The Congress shall have power to dispose of and make all needful rules and regulations respecting the territory or other property belonging to the United States; but nothing in this Constitution shall be so construed as to prejudice any claims of the United States, or of any particular State.

Republican government guaranteed. SECTION IV. The United States shall guarantee to every State in this Union a republican form of government, and shall protect each of them against invasion, and, on application of the Legislature, or of the Executive (when the Legislature cannot be convened), against domestic violence.

ARTICLE V.

Constitution, how amended. The Congress, whenever two-thirds of both Houses shall deem it necessary, shall propose amendments to this Constitution, or, on the application of the Legislatures of two-thirds of the several States, shall call a convention for proposing amendments, which, in either case, shall be valid to all intents and purposes, as part of this Constitution, when ratified by the Legislatures of three-fourths of the several States, or by conventions in three-fourths thereof, as the one or the other mode of ratification may be proposed by the Congress; provided that no amendment which may be made prior to the year one thousand eight hundred and eight shall in any manner affect the first and fourth clauses in the Ninth Section of the First Article; and that no State, without its consent, shall be deprived of its equal suffrage in the Senate.

ARTICLE VI.

Validity of debts recognized. 1. All debts contracted and engagements entered into before the adoption of this Constitution shall be as valid against the United States under this Constitution as under the Confederation.

Supreme law of the land de- 2. This Constitution and the laws of the United States which shall be made in pursuance thereof and all fined. treaties made, or which shall be made, under the authority of the United States, shall be the supreme law of the land, and the judges in every State shall be bound thereby, anything in the Constitution or laws of any State to the contrary notwithstanding.

Oath; of whom 3. The Senators and Representatives before mentioned, and the members of the several State Legislatures, and required and all executive and judicial officers, both of the United States and of the several States, shall be bound by oath or for what. affirmation to support this Constitution; but no religious test shall ever be required as a qualification to any office or public trust under the United States.

ARTICLE VII.

Ratification of the Constitu- The ratification of the Conventions of nine States shall be sufficient for the establishment of this Constitution tion. between the States so ratifying the same.

AMENDMENTS TO THE CONSTITUTION.

ARTICLE I.

Religion and free speech. Congress shall make no law respecting an establishment of religion, or prohibiting the free exercise thereof; or abridging the freedom of speech or of the press; or the right of the people peaceably to assemble, and to petition the Government for a redress of grievances.

ARTICLE II.

Right to bear arms. A well-regulated militia being necessary to the security of a free State, the right of the people to keep and bear arms shall not be infringing.

ARTICLE III.

Soldiers in time of peace. No soldier shall, in time of peace, be quartered in any house without the consent of the owner, nor in time of war but in a manner to be prescribed by law.

ARTICLE IV.

Right of search. The right of the people to be secure in their persons, houses, papers, and effects, against unreasonable searches and seizures, shall not be violated, and no warrants shall issue but upon probable cause, supported by oath or affirmation, and particularly describing the place to be searched, and the persons or things to be seized.

ARTICLE V.

Capital crimes and arrest therefor. No person shall be held to answer for a capital or other infamous crime unless on a presentment or indictment of a grand jury, except in cases arising in the land or naval forces, or in the militia, when in actual service, in time of war or public danger; nor shall any person be subject for the same offence to be twice put in jeopardy of life or limb; nor shall be compelled in any criminal case to be a witness against himself, nor be deprived of life, liberty, or property, without due process of law; nor shall private property be taken for public use without just compensation.

ARTICLE VI.

Right to speedy trial. In all criminal prosecutions, the accused shall enjoy the right to a speedy and public trial, by an impartial jury of the State and district wherein the crime shall have been committed, which district shall have been previously ascertained by law, and to be informed of the nature and cause of the accusation; to be confronted with the witnesses against him; to have compulsory process for obtaining witnesses in his favor, and to have the assistance of counsel for his defence.

ARTICLE VII.

Trial by jury. In suits at common law, where the value in controversy shall exceed twenty dollars, the right of trial by jury shall be preserved, and no fact tried by a jury shall be otherwise re-examined in any court of the United States than according to the rules of the common law.

ARTICLE VIII.

Excessive bail. Excessive bail shall not be required, nor excessive fines imposed, nor cruel and unusual punishments inflicted.

ARTICLE IX.

Enumeration of rights. The enumeration in the Constitution of certain rights shall not be construed to deny or disparage others retained by the people.

ARTICLE X.

Reserved rights of States. The powers not delegated to the United States by the Constitution, nor prohibited by it to the States, are reserved to the States respectively, or to the people.

ARTICLE XI.

Judicial power. The judicial power of the United States shall not be construed to extend to any suit in law or equity, commenced or prosecuted against one of the United States, by citizens of another State, or by citizens or subjects of any foreign State.

ARTICLE XII.

Electors in Presidential elections. The electors shall meet in their respective States, and vote by ballot for President and Vice-President, one of whom at least shall not be an inhabitant of the same State with themselves; they shall name in their ballots the person voted for as President, and in distinct ballots the person voted for as Vice-President; and they shall make distinct lists of all persons voted for as President, and of all persons voted for as Vice-President, and of the number of votes for each, which list they shall sign and certify, and transmit, sealed, to the seat of the Government of the United States, directed to the President of the Senate; the President of the Senate shall, in the presence of the Senate and House of Representatives, open all the certificates, and the votes shall then be counted; the person having the greatest number of votes for President shall be the President, if such number be a majority of the whole number of electors appointed; and if no person have such majority, then from the persons having the highest numbers, not exceeding three, on the list of those voted for as President, the House of Representatives shall choose immediately, by ballot, the President. But in choosing the President, the votes shall be taken by States, the representation from each State having one vote; a quorum for this purpose shall consist of a member or members from two-thirds of the States, and a majority of all the States shall be necessary to a choice. And if the House of Representatives shall not choose a President, whenever the right of choice shall devolve upon them, before the fourth day of March next following, then the Vice-President shall act as President, as in the case of the death or other constitutional disability of the President. The person having the greatest number of votes as Vice-President shall be the Vice-President, if such number be a majority of the whole number of electors appointed, and if no person have a majority, then from the two highest numbers on the list the Senate shall choose the Vice-President; a quorum for the purpose shall consist of two-thirds of the whole number of Senators, and a majority of the whole number shall be necessary to a choice. But no person constitutionally ineligible to the office of President shall be eligible to that of Vice-President of the United States.

ARTICLE XIII.

Slavery prohibited. 1. Neither slavery nor involuntary servitude, except as a punishment for crime whereof the party shall have been duly convicted, shall exist within the United States, or any place subject to their jurisdiction.
2. Congress shall have power to enforce this article by appropriate legislation.

CONSTITUTION OF THE UNITED STATES—Continued.

ARTICLE XIV.

- Protection for all citizens.** 1. All persons born or naturalized in the United States, and subject to the jurisdiction thereof, are citizens of the United States and of the State wherein they reside. No State shall make or enforce any law which shall abridge the privileges or immunities of citizens of the United States; nor shall any State deprive any person of life, liberty, or property without due process of law, nor deny to any person within its jurisdiction the equal protection of the laws.
- Apportionment of Representatives.** 2. Representatives shall be apportioned among the several States according to their respective numbers, counting the whole number of persons in each State, excluding Indians not taxed. But when the right to vote at any election for the choice of electors for President and Vice-President of the United States, Representatives in Congress, the executive and judicial officers of a State, or the members of the Legislature thereof, is denied to any of the male members of such State, being of twenty-one years of age, and citizens of the United States, or in any way abridged, except for participation in rebellion or other crime, the basis of representation therein shall be reduced in the proportion which the number of such male citizens shall bear to the whole number of male citizens twenty-one years of age in such State.
- Rebellion against the United States.** 3. No person shall be a Senator or Representative in Congress, or elector of Presidential Vice-President, or holding any office, civil or military, under the United States, or under any State, who, having previously taken an oath, as a member of Congress, or as an officer of the United States, or as a member of any State Legislature, or as an executive or judicial officer of any State, to support the Constitution of the United States, shall have engaged in insurrection or rebellion against the same, or given aid and comfort to the enemies thereof. But Congress may, by a vote of two-thirds of each House, remove such disability.
- The public debt.** 4. The validity of the public debt of the United States, authorized by law, including debts incurred for payment of pensions and bounties for services in suppressing insurrection and rebellion, shall not be questioned. But neither the United States nor any State shall assume or pay any debt or obligation incurred in aid of insurrection or rebellion against the United States, or any claim for the loss or emancipation of any slave; but all such debts, obligations, and claims shall be held illegal and void.
5. The Congress shall have power to enforce by appropriate legislation the provisions of this article.

ARTICLE XV.

- Right of suffrage.** 1. The right of the citizens of the United States to vote shall not be denied or abridged by the United States or by any State on account of race, color, or previous condition of servitude.
2. The Congress shall have power to enforce the provisions of this article by appropriate legislation.

ARTICLE XVI.

- Taxes on Incomes.** The Congress shall have power to lay and collect taxes on incomes, from whatever source derived, without apportionment among the several States, and without regard to any census or enumeration.

ARTICLE XVII.

- Senators elected by the people.** 1. The Senate of the United States shall be composed of two Senators from each State, elected by the people thereof, for six years; and each Senator shall have one vote. The electors in each State shall have the qualifications requisite for electors of the most numerous branch of the State Legislatures.
- Filling of vacancies.** 2. When vacancies happen in the representation of any State in the Senate, the executive authority of such State shall issue writs of election to fill such vacancies: Provided, That the Legislature of any State may empower the executive thereof to make temporary appointment until the people fill the vacancies by election as the Legislature may direct.
3. This amendment shall not be so construed as to affect the election or term of any Senator chosen before it becomes valid as part of the Constitution.

RATIFICATION OF THE CONSTITUTION.

The Constitution was ratified by the thirteen original States in the following order :

- | | |
|---|--|
| Delaware, December 7, 1787, unanimously. | South Carolina, May 23, 1788, vote 149 to 73. |
| Pennsylvania, December 12, 1787, vote 46 to 23. | New Hampshire, June 21, 1788, vote 57 to 46. |
| New Jersey, December 18, 1787, unanimously. | Virginia, June 25, 1788, vote 89 to 79. |
| Georgia, January 2, 1788, unanimously. | New York, July 26, 1788, vote 30 to 28. |
| Connecticut, January 9, 1788, vote 128 to 40. | North Carolina, November 21, 1789, vote 193 to 75. |
| Massachusetts, February 6, 1788, vote 187 to 168. | Rhode Island, May 29, 1790, vote 34 to 32. |
| Maryland, April 28, 1788, vote 63 to 12. | |

RATIFICATION OF THE AMENDMENTS.

- I. to X. inclusive were declared in force December 15, 1791.
- XI. was declared in force January 8, 1798.
- XII., regulating elections, was ratified by all the States except Connecticut, Delaware, Massachusetts, and New Hampshire, which rejected it. It was declared in force September 25, 1804.
- XIII. The emancipation amendment was ratified by 31 of the 36 States; rejected by Delaware and Kentucky, not acted on by Texas; conditionally ratified by Alabama and Mississippi. Proclaimed December 18, 1865.
- XIV. Reconstruction amendment was ratified by 23 Northern States; rejected by Delaware, Kentucky, Maryland, and 10 Southern States, and not acted on by California. The 10 Southern States subsequently ratified under pressure. Proclaimed July 28, 1868.
- XV. Negro citizenship amendment was not acted on by Tennessee, rejected by California, Delaware, Kentucky, Maryland, New Jersey, and Oregon; ratified by the remaining 30 States. New York rescinded its ratification January 6, 1870. Proclaimed March 30, 1870.
- XVI. Income tax amendment was ratified by all the States except Connecticut, Florida, Pennsylvania, Rhode Island, Utah and Virginia. Declared in force February 25, 1913.
- XVII. Providing for the direct vote of United States Senators by the people, was ratified by all the States except Alabama, Delaware, Florida, Georgia, Kentucky, Louisiana, Maryland, Mississippi, Rhode Island, South Carolina, Utah and Virginia. Declared in force May 31, 1913.

THE NATIONAL FLAG.

THE official flag of the United States bears forty-eight white stars in a blue field, arranged in six rows of eight stars each. Two stars were added in 1912 by the admission of Arizona and New Mexico to the Union. The garrison flag of the Army is made of bunting, thirty-six feet by and twenty feet hoist, thirteen stripes, and in the upper quarter, next the staff, is the field or "union" of stars, equal to the number of States, on blue field, over one-third length of the flag, extending to the lower edge of the fourth red stripe from the top. The storm flag is twenty feet by ten feet, and the recruiting flag nine feet nine inches by four feet four inches. The "American Jack" is the "union" or blue field of the flag. The Revenue Marine Service flag, authorized by act of Congress, March 2, 1799, was originally prescribed to consist of sixteen perpendicular stripes, alternate red and white, the union of the ensign bearing the arms of the United States in dark blue on a white field. The sixteen stripes represented the number of States which had been admitted to the Union at that time, and no change has been made since, June 14, the anniversary of the adoption of the flag, is celebrated as Flag Day in a large part of the Union.

DECLARATION OF INDEPENDENCE.

IN CONGRESS JULY 4, 1776.

THE unanimous declaration of the thirteen United States of America. When in the Course of human events, it becomes necessary for one people to dissolve the political bands which have connected them with another, and to assume among the powers of the earth, the separate and equal station to which the Laws of Nature and of Nature's God entitles them, a decent respect to the opinions of mankind requires that they should declare the causes which impel them to the separation.

We hold these truths to be self-evident, that all men are created equal, that they are endowed by their Creator with certain unalienable Rights, that among these are Life, Liberty and the pursuit of Happiness. That to secure these rights, Governments are instituted among Men, deriving their just powers from the consent of the governed, That whenever any Form of Government becomes destructive of these ends, it is the Right of the People to alter or to abolish it, and to institute new Government, laying its foundation on such principles and organizing its powers in such form, as to them shall seem most likely to effect their Safety and Happiness. Prudence, indeed, will dictate that Governments long established should not be changed for light and transient causes; and accordingly all experience hath shewn, that mankind are more disposed to suffer, while evils are sufferable, than to right themselves by abolishing the forms to which they are accustomed. But when a long train of abuses and usurpations, pursuing invariably the same Object evinces a design to reduce them under absolute Despotism, it is their right, it is their duty, to throw off such Government, and to provide new Guards for their future security. Such has been the patient sufferance of these Colonies; and such is now the necessity which constrains them to alter their former Systems of Government. The history of the present King of Great Britain is a history of repeated injuries and usurpations, all having in direct object the establishment of an absolute Tyranny over these States. To prove this, let Facts be submitted to a candid world.

He has refused his Assent to Laws, the most wholesome and necessary for the public good.

He has forbidden his Governors to pass Laws of immediate and pressing importance, unless suspended in their operation till his Assent should be obtained; and when so suspended, he has utterly neglected to attend to them.

He has refused to pass other Laws for the accommodation of large districts of people, unless those people would relinquish the right of Representation in the Legislature, a right inestimable to them and formidable to tyrants only.

He has called together legislative bodies at places unusual, uncomfortable, and distant from the depository of their public Records, for the sole purpose of fatiguing them into compliance with his measures.

He has dissolved Representative Houses repeatedly, for opposing with manly firmness his Invasions on the rights of the people.

He has refused for a long time, after such dissolutions, to cause others to be elected; whereby the Legislative powers, incapable of Annihilation, have returned to the People at large for their exercise; the State remaining in the meantime exposed to all the dangers of invasion from without, and convulsions within.

He has endeavored to prevent the population of these States; for that purpose obstructing the Laws for Naturalization of Foreigners; refusing to pass others to encourage their migrations hither, and raising the conditions of new Appropriations of Lands.

He has obstructed the Administration of Justice, by refusing his Assent to Laws for establishing Judiciary Powers.

He has made Judges dependent on his Will alone, for the tenure of their offices, and the amount and payment of their salaries.

He has erected a multitude of New Offices, and sent hither swarms of Officers to harass our people, and eat out their substance.

He has kept among us, in times of peace, Standing Armies without the Consent of our legislature.

He has affected to render the Military independent of and superior to the Civil power.

He has combined with others to subject us to a jurisdiction foreign to our constitution, and unacknowledged by our laws; giving his Assent to their Acts of pretended Legislation:

For quartering large bodies of armed troops among us:

For protecting them, by a mock Trial, from punishment for any Murders which they should commit on the Inhabitants of these States:

For cutting off our Trade with all parts of the world:

For imposing Taxes on us without our Consent:

For depriving us in many cases, of the benefits of Trial by jury:

For transporting us beyond Seas to be tried for pretended offences:

For abolishing the free System of English Laws in a neighboring Province, establishing therein an Arbitrary government, and enlarging its Boundaries so as to render it at once an example and fit instrument for introducing the same absolute rule into these Colonies:

For taking away our Charters, abolishing our most valuable Laws, and altering fundamentally the Forms of our Governments:

For suspending our own Legislatures, and declaring themselves invested with power to legislate for us in all cases whatsoever.

He has abdicated Government here, by declaring us out of his Protection and waging War against us.

He has plundered our seas, ravaged our Coasts, burnt our towns, and destroyed the lives of our people.

He is at this time transporting large Armies of foreign Mercenaries to compleat the works of death, desolation and tyranny, already begun with circumstances of Cruelty & perfidy scarcely paralleled in the most barbarous ages, and totally unworthy the Head of a civilized nation.

He has constrained our fellow-Citizens taken captive on the high Seas to bear Arms against their Country, to become the executioners of their friends and Brethren, or to fall themselves by their Hands.

He has excited domestic Insurrections amongst us, and has endeavored to bring on the Inhabitants of our frontiers, the merciless Indian Savages, whose known rule of warfare, is an undistinguished destruction of all ages, sexes and conditions.

In every stage of these Oppressions We have Petitioned for Redress in the most humble terms:

DECLARATION OF INDEPENDENCE—Continued.

Our repeated Petitions have been answered only by repeated injury. A Prince, whose character is thus marked by every act which may define a Tyrant, is unfit to be the ruler of a free people.

Nor have We been wanting in attentions to our British brethren. We have warned them from time to time of attempts by their legislature to extend an unwarrantable jurisdiction over us. We have reminded them of the circumstances of our emigration and settlement here. We have appealed to their native justice and magnanimity, and we have conjured them by the ties of our common kindred to disavow these usurpations, which would inevitably interrupt our connections and correspondence. They too have been deaf to the voice of justice and of consanguinity. We must, therefore, acquiesce in the necessity, which denounces our Separation, and hold them, as we hold the rest of mankind, Enemies in War, in Peace Friends.

WE, THEREFORE, the REPRESENTATIVES of the UNITED STATES OF AMERICA, IN GENERAL CONGRESS, Assembled, appealing to the Supreme Judge of the world for the rectitude of our intentions, do, in the Name, and by authority of the good People of these Colonies, solemnly PUBLISH and DECLARE, That these United Colonies are, and of Right ought to be FREE and INDEPENDENT States; that they are Absolved from all Allegiance to the British Crown, and that all political connection between them and the State of Great Britain is and ought to be totally dissolved; and that as FREE AND INDEPENDENT STATES, they have full Power to levy War, conclude Peace, contract Alliances, establish Commerce, and to do all other Acts and Things which INDEPENDENT STATES may of right do. And for the support of this Declaration, with a firm reliance on the protection of Divine Providence, We mutually pledge to each other our Lives, our Fortunes, and our sacred Honor.

SIGNERS OF THE DECLARATION OF INDEPENDENCE.

WASHINGTON'S FAREWELL ADDRESS.

EXTRACTS FROM HIS ADDRESS COUNSELLING THE MAINTENANCE OF THE UNION.—CONFINEMENT OF THE GENERAL GOVERNMENT TO ITS CONSTITUTIONAL LIMITATIONS, AND AVOIDANCE OF RELATIONS WITH FOREIGN POLITICAL AFFAIRS.

(To the People of the United States on His Approaching Retirement from the Presidency.)

Here, perhaps, I ought to stop; but a solicitude for your welfare, which cannot end but with my life, and the apprehension of danger natural to that solicitude, urge me, on an occasion like the present, to offer to your solemn contemplation, and to recommend to your frequent review, some sentiments, which are the result of much reflection, of no inconsiderable observation, and which appear to me all-important to the permanency of your felicity as a people. These will be afforded to you with the more freedom, as you can only see in them the disinterested warnings of a parting friend, who can possibly have no personal motive to bias his counsel; nor can I forget, as an encouragement to it, your indulgent reception of my sentiments on a former and not dissimilar occasion.

Interwoven as is the love of liberty with every ligament of your hearts, no recommendation of mine is necessary to fortify or confirm the attachment.

PRESERVATION OF THE UNION.

The unity of government, which constitutes you one people, is also now dear to you. It is justly so; for it is a main pillar in the edifice of your real independence—the support of your tranquillity at home, your peace abroad, of your safety, of your prosperity, of that very liberty which you so highly prize. But as it is easy to foresee that, from different causes and from different quarters, much pains will be taken, many artifices employed, to weaken in your minds the conviction of this truth; as this is the point in your political fortress against which the batteries of internal and external enemies will be most constantly and actively (though often covertly and insidiously) directed—it is of infinite moment that you should properly estimate the immense value of your national union to your collective and individual happiness; that you should cherish a cordial, habitual and immovable attachment to it; accustoming yourselves to think and speak of it as of the palladium of your political safety and prosperity; watching for its preservation with jealous anxiety; discountenancing whatever may suggest even a suspicion that it can, in any event, be abandoned; and indignantly frowning upon the first dawning of every attempt to alienate any portion of our country from the rest, or to enfeeble the sacred ties which now link together the various parts.

For this you have every inducement of sympathy and interest. Citizens by birth or choice of a common country, that country has a right to concentrate your affections. The name of America, which belongs to you in your national capacity, must always exalt the just pride of patriotism, more than any appellation derived from local discriminations. With slight shades of difference, you have the same religion, manners, habits, and political principles. You have, in a common cause, fought and triumphed together; the Independence and liberty you possess are the work of joint counsels and joint efforts, of common dangers, sufferings, and successes.

ENCROACHMENTS BY THE GOVERNMENT.

It is important, likewise, that the habits of thinking, in a free country, should inspire caution in those intrusted with its administration, to confine themselves within their respective constitutional spheres, avoiding, in the exercise of the powers of one department, to encroach upon another. The spirit of encroachment tends to consolidate the powers of all the departments in one, and thus to create, whatever the form of government, a real despotism. A just estimate of that love of power, and proneness to abuse it which predominates in the human heart, is sufficient to satisfy us of the truth of this position. The necessity of reciprocal checks in the exercise of political power, by dividing and distributing it into different depositories, and constituting each the guardian of the public weal, against invasions by the others, has been evinced by experiments, ancient and modern; some of them in our own country, and under our own eyes. To preserve them must be as necessary as to institute them. If, in the opinion of the people, the distribution or modification of the constitutional powers be, in any particular, wrong, let it be corrected by an amendment in the way which the Constitution designates. But let there be no change or usurpation; for though this, in one instance, may be the instrument of good, it is the customary weapon by which free governments are destroyed. The precedent must always greatly overbalance, in permanent evil, any partial or transient benefit which the use can, at any time, yield.

Observe good faith and justice toward all nations; cultivate peace and harmony with all; religion and morality enjoin this conduct; and can it be that good policy does not equally enjoin it? It will be worthy of a free, enlightened, and, at no distant period, a great nation, to give to mankind the magnanimous and too novel example of a people always guided by an exalted justice and benevolence. Who can doubt that, in the course of times and things, the fruits of such a plan would richly repay any temporary advantages which might be lost by a steady adherence to it? Can it be that Providence has not connected the permanent felicity of a nation with its virtue? The experiment, at least, is recommended by every sentiment which ennobles human nature. Alas! is it rendered impossible by its vices?

ENTANGLEMENTS WITH FOREIGN POWERS.

Against the insidious wiles of foreign influence (I conjure you to believe me, fellow-citizens) the jealousy of a free people ought to be constantly awake; since history and experience prove that foreign influence is one of the most baneful foes of republican government. But that jealousy to be useful, must be impartial; else it becomes the instrument of the very influence to be avoided, instead of a defence against it. Excessive partiality for one foreign nation, and excessive dislike for another, cause those whom they actuate to see danger only on one side, and serve to veil, and even second, the arts

WASHINGTON'S FAREWELL ADDRESS—Continued.

of influence on the other. Real patriots, who may resist the intrigues of the favorite, are liable to become suspected and odious, while its tools and dupes usurp the applause and confidence of the people, to surrender their interests.

The great rule of conduct for us, in regard to foreign nations, is, in extending our commercial relations, to have with them as little political connection as possible. So far as we have already formed engagements, let them be fulfilled with perfect good faith. Here let us stop.

Europe has a set of primary interests, which to us have none, or a very remote relation. Hence she must be engaged in frequent controversies, the causes of which are essentially foreign to our concerns. Hence, therefore, it must be unwise in us to implicate ourselves, by artificial ties, in the ordinary vicissitudes of her politics, or the ordinary combinations and collisions of her friendships or enmities.

Our detached and distant situation invites and enables us to pursue a different course. If we remain one people under an efficient government, the period is not far off when we may defy material injury from external annoyance; when we may take such an attitude as will cause the neutrality we may at any time resolve upon, to be scrupulously respected; when belligerent nations, under the impossibility of making acquisitions upon us, will not lightly hazard the giving us provocation; when we may choose peace or war, as our interest, guided by justice, shall counsel.

PARTING COUNSELS.

In offering to you, my countrymen, these counsels of an old and affectionate friend, I dare not hope that they will make the strong and lasting impression I could wish; that they will control the usual current of the passions, or prevent our nation from running the course which hitherto has marked the destiny of nations; but if I may even flatter myself that they may be productive of some partial benefit, some occasional good; that they may now and then recur to moderate the fury of party spirit, to warn against the mischiefs of foreign intrigues, to guard against the impostures of pretended patriotism; this hope will be full recompense for the solicitude for your welfare by which they have been dictated.

United States, September 17, 1796.

GEORGE WASHINGTON.

THE MONROE DOCTRINE.

"THE Monroe doctrine" was enunciated in the following words in President Monroe's message to Congress December 2, 1823:

"In the discussions to which this interest has given rise, and in the arrangements by which they may terminate, the occasion has been deemed proper for asserting, as a principle in which rights and interests of the United States are involved, that the American continents, by the free and independent condition which they have assumed and maintain, are henceforth not to be considered as subjects for future colonization by any European power. * * * We owe it, therefore, to candor and to the amicable relations existing between the United States and those powers to declare that we should consider any attempt on their part to extend their system to any portion of this hemisphere as dangerous to our peace and safety. With the existing colonies or dependencies of any European power we have not interfered and shall not interfere. But with the governments who have declared their independence and maintain it, and whose independence we have, on great consideration and on just principles, acknowledged, we could not view any interposition for the purpose of oppressing them or controlling in any other manner their destiny by any European power in any other light than as the manifestation of an unfriendly disposition toward the United States."

Secretary of State Olney in his despatch of July 20, 1895, on the Venezuelan Boundary Dispute, said: "It (the Monroe doctrine) does not establish any general protectorate by the United States over other American States. It does not relieve any American State from its obligations as fixed by international law, nor prevent any European power directly interested from enforcing such obligations or from inflicting merited punishment for the breach of them."

Secretary of State Olney in his despatch of July 20, 1895, on the Venezuelan Boundary Dispute, said:

"The Monroe doctrine is simply a statement of our very firm belief that the nations now existing on this continent must be left to work out their own destinies among themselves, and that this continent is no longer to be regarded as the colonizing ground of any European power. The one power on the continent that can make the power effective is, of course, ourselves: for in the world as it is, a nation which advances a given doctrine, likely to interfere in any way with other nations, must possess the power to back it up, if it wishes the doctrine to be respected."

President Roosevelt in a speech in 1902 upon the results of the Spanish-American war, said: "The Monroe doctrine is simply a statement of our very firm belief that the nations now existing on this continent must be left to work out their own destinies among themselves, and that this continent is no longer to be regarded as the colonizing ground of any European power. The one power on the continent that can make the power effective is, of course, ourselves: for in the world as it is, a nation which advances a given doctrine, likely to interfere in any way with other nations, must possess the power to back it up, if it wishes the doctrine to be respected."

The United States Senate on August 2, 1912, adopted the following resolution proposed by Senator Lodge, by a vote of 51 to 4, the negative votes being those of Senators Cummins of Iowa, McCumber of North Dakota, Percy of Mississippi, and Stone of Missouri.

"Resolved. That when any harbor or other place in the American Continent is so situated that the occupation thereof for naval or military purposes might threaten the communications or the safety of the United States, the Government of the United States could not see without grave concern the possession of such harbor or other place by any corporation or association which has such a relation to another Government, not American, as to give that Government practical power of control for national purposes."

This action of the Senate grew out of the report that a stretch of territory bordering on Magdalena Bay, Mexico, might be acquired by the subjects of a foreign country, and thus through their control by their own national Government become the base of permanent naval or military occupation. In explanation of the resolution Senator Lodge said: "The declaration rests on a much broader and older ground than the Monroe doctrine. This resolution rests on the generally accepted principle that every nation has a right to protect its own safety; and if it feels that the possession of any given harbor or place is prejudicial to its safety, it is its duty and right to intervene." The Senate added that the opening of the Panama Canal gave to Magdalena Bay an importance that it had never before possessed, as the Panama routes pass in front of it.

Not being a joint resolution requiring the concurrence of the House of Representatives and the signature of the President, the resolution adopted as above was an expression of opinion of the Senate only. The other house took no action.

LINCOLN MEMORIAL.

TO COST TWO MILLION DOLLARS.

The Sixty-first Congress, third session, passed an act, approved February 9, 1911, "to provide a commission to secure plans and designs for a monument or memorial to the memory of Abraham Lincoln." The text of the act is as follows:

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That William H. Taft, * Shelby M. Cullom, Joseph G. Cannon, George Peabody Wetmore, Samuel Walker McCall, † H. D. Money, and Champ Clark are hereby created a commission to be known as the Lincoln Memorial Commission, to procure and determine upon a location, plan, and design for a monument or memorial in the city of Washington, District of Columbia, to the memory of Abraham Lincoln, subject to the approval of Congress.

SEC. 2. That in the discharge of its duties hereunder said commission is authorized to employ the services of such artists, sculptors, architects, and others as it shall determine to be necessary, and to avail itself of the services or advice of the Commission of Fine Arts, created by the act approved May 17, 1910.

SEC. 3. That the construction of the monument or memorial, herein and hereby authorized, shall be upon such site as shall be determined by the commission herein created, and approved by Congress, and said construction shall be entered upon as speedily as practicable after the plan and design therefor is determined upon and approved by Congress, and shall be prosecuted to completion, under the direction of said commission and the supervision of the Secretary of War, under a contract or contracts hereby authorized to be entered into by said Secretary in a total sum not exceeding two million dollars.

SEC. 4. That vacancies occurring in the membership of the commission shall be filled by appointment by the President of the United States.

By joint resolution, approved February 1, 1913, Congress approved the plan, design and location for the memorial recommended by the commission.

The memorial is to be erected in Potomac Park on the axis of the United States Capitol and the Washington Monument, in accordance with plans prepared by Mr. Henry Bacon of New York City.

By Sundry Civil act of March 4, 1913, the sum of \$300,000 was appropriated to commence the work of construction, which was begun in the Fall of 1913.

* Joseph C. S. Blackburn, former United States Senator from Kentucky, was appointed by President Wilson on February 2, 1914, to fill the vacancy on the commission caused by the death of Mr. Cullom. † Thomas S. Martin, United States Senator from Virginia, was afterward appointed to fill the vacancy on the commission caused by the death of Senator Money.

The foundations of the Memorial are now under construction, and will probably be completed early in 1915. They consist of reinforced concrete piers from 3 feet 6 inches to 4 feet 2 inches in diameter cast in steel cylinders which have been driven to bed rock and two feet into the rock, about fifty feet below the present surface of the ground. The upper foundations will rise 45 feet above the present ground level and will be surrounded by a mound of earth one thousand feet in diameter. Upon these foundations the Memorial proper, a great temple in design, will be erected of white marble.

TELESCOPES.

THERE are two kinds of telescopes, viz., refracting and reflecting. In the former the rays of light are made to converge to a focus by lenses, while in the latter they are made to converge by being reflected from the surface of a slightly concave, highly polished mirror.

The chief disadvantages of refracting telescopes are the chromatic and spherical aberrations of the lenses. In reflecting telescopes these aberrations can be done away with by using paraboloid mirrors, but the great objection to the latter are the many mechanical difficulties that have to be overcome.

Owing to the travelling of the earth in its orbit and revolving about its axis, stars if viewed by a fixed telescope would soon disappear. It is thus necessary that a telescope be mounted so a star will always be in its field. This is accomplished by using an equatorial mounting.

In an equatorial mounting there are two axes, one called the "polar" that is parallel to the axis of the earth, and the other the "declination" at right angles to it. Hence, when a star is to be followed, the telescope is clamped in position, and by means of clockwork follows the star so it always remains in view.

The magnifying power of telescopes is generally expressed in diameters, the practical limit of power being 100 diameters per inch of diameter of the telescope. Thus the 36-inch telescope, at the Lick Observatory, may give a magnifying power of 3,600 diameters. But such high power can only be used in a very clear atmosphere, and consequently most astronomical observations are made at 1,000 diameters.

REFRACTING TELESCOPES.

The largest in the world are in the United States. The one at Yerkes Observatory, Geneva Lake, Wis., has an object lens 40 inches in diameter with a focal length of 64 feet. The movable part of the instrument turning on the polar axis weighs about 12 tons, and the clock 1½ tons. Other large telescopes are the 36-inch at Lick Observatory, Mt. Hamilton, Cal., where many important astronomical discoveries have been made; the 26-inch at the U. S. Observatory, Washington, D. C., and the 24-inch belonging to Harvard University. There is a 30-inch refracting telescope at the Allegheny Observatory, Riverview Park, Pa.

Abroad is the 30-inch at the Imperial Observatory, Pulkova (near St. Petersburg), Russia. This telescope has a platform at the lower end of the polar axis, from which observers can readily operate the instrument. The Meudon Observatory (near Paris, France) has a 32-inch, the Potsdam, Prussia, a 31-inch, and the Royal Observatory, at Greenwich, England, a 28-inch. There is a 32-inch being installed at the Nicolaeff Observatory of Russia.

REFLECTING TELESCOPES.

One of the most perfect instruments ever built is at Mt. Wilson Observatory, Pasadena, Cal. The mirror is silver on glass, 60 inches in diameter, and weighs nearly a ton. The telescope is moved by electric motors in right ascension and declination. An important feature in this instrument is the different focal lengths that can be obtained. The 60-inch mirror has a 25-foot focus, but by a suitable arrangement of mirrors it is possible to get focal lengths of 80, 100 and 150 feet. At the same observatory a 100-inch reflector is being constructed. The tube of the telescope, with the mirror at the bottom, will be 43 feet long, and with the mountings will weigh nearly 20 tons. There is a 36-inch reflector at Lick Observatory, Harvard University has a 28-inch and a 60-inch, and at the Yerkes Observatory is a 24-inch.

Other notable reflectors are the Lord Rosse, at Birr Castle, Ireland, which has a mirror 72 inches in diameter of speculum metal and a focal length of 54 feet, a 48-inch at Melbourne, Australia, a 60-inch at Ealing, England, a 48-inch at Paris, France, and a 39-inch at Meudon, France. The Dominion Astronomical Observatory has had plans prepared for erecting a 72-inch near Victoria, B. C.

THE SINGLE TAX.

The following statement of the single tax principle was written by Henry George, Sr.:

We assert as our fundamental principle the self-evident truth enunciated in the Declaration of American Independence, that all men are created equal and are endowed by their Creator with certain inalienable rights. We hold that all men are equally entitled to the use and enjoyment of what God has created and of what is gained by the general growth and improvement of the community of which they are a part. Therefore, no one should be permitted to hold natural opportunities without a fair return to all for any special privilege thus accorded to him, and that value which the growth and improvement of the community attaches to land should be taken for the use of the community; that each is entitled to all that his labor produces; therefore, no tax should be levied on the products of labor.

To carry out these principles, we are in favor of raising all public revenues for national, State, county, and municipal purposes by a single tax upon land values, irrespective of improvements, and of the abolition of all other forms of direct and indirect taxation.

Since in all our States we now levy some tax on the value of land, the single tax can be instituted by the simple and easy way of abolishing, one after another, all other taxes now levied and commensurately increasing the tax on land values until we draw upon that one source for all expenses of government, the revenue being divided between local government, State government, and the general government, as the revenue from direct taxes is now divided between the local and State governments, or by a direct assessment being made by the general government upon the States and paid by them from revenues collected in this manner. The single tax we propose is not a tax on land, and therefore would not fall on the use of land and become a tax on labor.

It is a tax not on land, but on the value of land. Thus it would not fall on all land, but only on valuable land, and on that not in proportion to the use made of it, but in proportion to its value—the premium which the user of land must pay to the owner, either in purchase money or rent, for permission to use valuable land. It would thus be a tax not on the use and improvement of land, but on the ownership of land, taking what would otherwise go to the owner as owner, and not as user.

In assessments under the single tax all values created by individual use or improvement would be excluded, and the only value taken into consideration would be the value attaching to the bare land by reason of neighborhood, etc., to be determined by impartial periodical assessments. Thus the farmer would have no more taxes to pay than the speculator who held a similar piece of land idle, and the man who on a city lot erected a valuable building would be taxed no more than the man who held a similar lot vacant. The single tax in short would call upon men to contribute to the public revenues not in proportion to what they produce or accumulate, but in proportion to the value of the natural opportunities they hold. It would compel them to pay just as much for holding land idle as for putting it to its fullest use. The single tax, therefore, would—

1st. Take the weight of taxation off the agricultural districts, where land has little or no value irrespective of improvements, and put it on towns and cities, where bare land rises to a value of millions of dollars per acre.

2d. Dispense with a multiplicity of taxes and a horde of tax-gatherers, simplify government, and greatly reduce its cost.

3d. Do away with the fraud, corruption, and gross inequality inseparable from our present methods of taxation, which allow the rich to escape while they grind the poor. Land cannot be hid or carried off, and its value can be ascertained with greater ease and certainty than any other.

4th. Give us with all the world as perfect freedom of trade as now exists between the States of the Union, thus enabling our people to share through free exchanges in all the advantages which nature has given to other countries, or which the peculiar skill of other peoples has enabled them to attain. It would destroy the trusts, monopolies, and corruptions which are the outgrowths of the tariff. It would do away with the fines and penalties now levied on any one who improves a farm, erects a house, builds a machine, or in any way adds to the general stock of wealth. It would leave every one free to apply labor or expend capital in production or exchange without fine or restriction, and would leave to each the full produce of his exertion.

5th. It would, on the other hand, by taking for public use that value which attaches to land by reason of the growth and improvement of the community, make the holding of land unprofitable to the mere owner and profitable only to the user. It would thus make it impossible for speculators and monopolists to hold natural opportunities unused or only half used, and would throw open to labor the illimitable field of employment which the earth offers to man. It would thus solve the labor problem, do away with involuntary poverty, raise wages in all occupations to the full earnings of labor, make overproduction impossible until all human wants are satisfied, render labor-saving inventions a blessing to all, and cause such an enormous production and such an equitable distribution of wealth as would give to all comfort, leisure, and participation in the advantages of an advancing civilization, in securing to each individual equal right to the use of the earth. It is also a proper function of society to maintain and control all public ways for the transportation of persons and property, and the transmission of intelligence; and also to maintain and control all public ways in cities for furnishing water, gas, and all other things that necessarily require the use of such common ways.

THE AMERICAN PEACE AND ARBITRATION LEAGUE, INC.

The corporate purposes of the organization favor universal peace by conciliation, joint commissions of inquiry and arbitration, through a permanent international court, arbitration treaties between all nations, and adequate armament for national security. *Honorary Presidents*—Woodrow Wilson, William H. Taft, and Theodore Roosevelt. *President*—Henry Clews. *Treasurer*—Cornelius A. Pugsley. *Executive Director*—Andrew B. Humphrey. Headquarters, 31 Nassau Street, New York City.

UNITED STATES SECRET SERVICE.

The Secret Service Division of the Treasury Department is under the direction of Wm. J. Flynn, chief of the division. The service is principally engaged in detecting and prosecuting makers and dealers in counterfeit paper money and coin. Details are also furnished for the protection of the President of the United States.

The arrests of counterfeiters number about 400 annually; other arrests are for bribery, impersonating United States Government officers, perjury, and violating sections of the United States Revised Statutes relating to foreign and domestic obligations and coins.

a Figures of 1914 are somewhat preliminary and subject to revision. *b* Exclusive of Alaska and islands belonging to the United States. *c* Census figures, relating to Continental United States; the figures for 1914 represent an estimate. *d* Census figures. *e* True valuation of real and personal property. *f* 1904. *g* 1800 to 1850, outstanding principal of the public debt, January 1. *h* Figures for the years 1800 to 1850 include the total public debt. *i* 1913. *j* Gold and silver cannot be stated separately prior to 1876. From 1862 to 1875, inclusive, gold and silver were not in circulation, except on the Pacific coast, where it is estimated that the average specie circulation was about \$25,000,000, and this estimate is continued for the three following years under the head of gold. After that period gold was available for circulation. *k* As the result of a special investigation by the Director of the Mint, a reduction of \$135,000,000 was made in the estimate of gold coin in circulation on July 1, 1907, as compared with the basis of previous years, and on September 1, 1910, a reduction of \$9,700,000 was made in the estimate of silver coin. *l* Includes notes of Bank of United States; State banknotes; demand notes of 1862 and 1863; fractional currency, 1870; Treasury notes of 1890-1891 to date; and currency certificates, act of June 8, 1892-1900. *m* Includes value of buildings, \$3,556,639,496. The Twelfth Census was the first to collect statistics of buildings on farms. *n* Includes value of buildings, \$6,325,451,528. *o* Data of the Department of Agriculture, representing wealth production on farms. *p* Exclusive of neighborhood industries and hand trades, included in years previous to 1905. *q* "Ordinary receipts" include receipts from customs, internal revenue, direct tax, public lands, and "miscellaneous," but do not include receipts from loans, premiums, Treasury notes, or revenues of Post-Office Department. *r* Includes corporation and income taxes, \$71,386,156 in 1914. *s* "Ordinary disbursements" include disbursements for War, Navy, Indians, pensions, payments for interest, and "miscellaneous," but do not include payments for premiums, principal of public debt, or disbursements for postal service paid from revenues thereof. *t* Imports for consumption after 1850. *u* Based on general imports. *v* Domestic exports only after 1860. *w* 1912. *x* Includes canal boats and barges prior to 1880. *y* First six months. *z* Figures relate to the Western Union only and after 1900 do not include messages sent over leased wires or under railroad contracts. (1) Estimated 1912. (2) 1800 to 1850, inclusive, from census of 1880; from 1880 to 1900, inclusive, from Rowell's Newspaper Directory; after 1900 from Ayer's American Newspaper Annual. Figures for 1914 include outlying possessions. (3) Includes salaries for teachers only. Figures are for 1912. (4) 1850, total alien passengers arrived; 1850, 15 months ending December 31; after 1850, fiscal years ending June 30.

UNITED STATES GEOGRAPHIC BOARD.

Chairman, Henry Gannett, Geological Survey, Department of the Interior; *Secretary*, Charles S. Sloane, Bureau of the Census, Department of Commerce; Frank Bond, General Land Office, Department of the Interior; Lt.-Col. John E. McMahon, General Staff, Department of War; Andrew Braid, Coast and Geodetic Survey, Department of Commerce; F. W. Hodge, Bureau of Ethnology, Smithsonian Institution; G. R. Putnam, Bureau of Lighthouses, Department of Commerce; James E. Payne, Government Printing Office; Capt. Thomas Washington, Hydrographic Office, Department of the Navy; William McNeir, Department of State; C. Hart Merriam, Department of Agriculture; John S. Mills, Department of the Treasury; Charles W. Stewart, Library and Naval War Records Office, Department of the Navy; David M. Hildreth, Topographer, Post-Office Department; Goodwin D. Ellsworth, Post-Office Department.

By executive order of August 10, 1906, the official title of the United States Board on Geographic Names was changed to United States Geographic Board, and its duties enlarged. The board passes on all unsettled questions concerning geographic names which arise in the departments, as well as determining, changing, and fixing place names within the United States and its insular possessions, and all names hereafter suggested by any officer of the Government shall be referred to the board before publication. The decisions of the board are to be accepted by all the departments of the Government as standard authority. Advisory powers were granted the board concerning the preparation of maps compiled, or to be compiled, in the various offices and bureaus of the Government, with a special view to the avoidance of unnecessary duplication of work; and for the unification and improvement of the scales of maps, of the symbols and conventions used upon them, and of the methods of representing relief. Hereafter, all such projects as are of importance shall be submitted to this board for advice before being undertaken.

UNITED STATES COURT OF CUSTOMS APPEALS.

(WASHINGTON, D. C.)

Presiding Judge—Robert M. Montgomery. *Associate Judges*—James F. Smith, Orion M. Barber, Marlon De Vries, George E. Martin. *Attorney-General*—James C. McReynolds. *Assistant Attorney-General*—William L. Wemple. *Clerk*—Arthur B. Shelton (\$3,500). *Marshal*—Frank H. Briggs (\$3,000).

SEC. 188. There shall be a United States Court of Customs Appeals, which shall consist of a Presiding Judge and four Associate Judges, each of whom shall be appointed by the President, by and with the advice and consent of the Senate, and shall receive a salary of seven thousand dollars a year. The Presiding Judge shall be so designated in the order of appointment and in the commission issued to him by the President; and the Associate Judges shall have precedence according to the date of their commissions. Any three members of said court shall constitute a quorum, and the concurrence of three members shall be necessary to any decision thereof. In case of a vacancy or of the temporary inability or disqualification for any reason of one or two of the Judges of said court, the President may, upon the request of the Presiding Judge of said court, designate any qualified United States Circuit or District Judge or Judges to act in his or their places and such Circuit or District Judges shall be duly qualified to so act.

SEC. 189. The said Court of Customs Appeals shall always be open for the transaction of business, and sessions thereof may, in the discretion of the court, be held in the several judicial circuits, and at such places as said court may from time to time designate.

SEC. 195. That the Court of Customs Appeals established by this chapter shall exercise exclusive appellate jurisdiction to review by appeal, as herein provided, final decisions by a board of general appraisers in all cases as to the construction of the law and the facts respecting the classification of merchandise and the rate of duty imposed thereon under such classifications, and the fees and charges connected therewith, and all appealable questions as to the jurisdiction of said board, and all appealable questions as to the laws and regulations governing the collection of the customs revenues; and the judgments and decrees of said Court of Customs Appeals shall be final in all such cases: *Provided, however*, That in any case in which the judgment or decree of the Court of Customs Appeals is made final by the provisions of this title, it shall be competent for the Supreme Court, upon the petition of either party, filed within sixty days next after the issue by the Court of Customs Appeals of its mandate upon decision, in any case in which there is drawn in question the construction of the Constitution of the United States, or any part thereof, or of any treaty made pursuant thereto, or in any other case when the Attorney-General of the United States shall, before the decision of the Court of Customs Appeals is rendered, file with the court a certificate to the effect that the case is of such importance as to render expedient its review by the Supreme Court, to require, by certiorari or otherwise, such case to be certified to the Supreme Court for its review and determination, with the same power and authority in the case as if it had been carried by appeal or writ of error to the Supreme Court: *And provided further*, That this act shall not apply to any case involving only the construction of section 1, or any portion thereof, of an act entitled "An act to provide revenue, equalize duties, and encourage the industries of the United States, and for other purposes," approved August 5, 1909, nor to any case involving the construction of section 2 of an act entitled "An act to promote reciprocal trade relations with the Dominion of Canada, and for other purposes," approved July 26, 1911. (Amendment as approved, August 22, 1914.)

SEC. 196. No appeal shall be taken or allowed from any Board of United States General Appraisers to any other court, and no appellate jurisdiction shall thereafter be exercised or allowed, by any other court in cases decided by said Board of United States General Appraisers, but all appeals allowed by law from such Board of General Appraisers shall be subject to review only in the Court of Customs Appeals hereby established, according to the provisions of this chapter: *Provided*, That nothing in this chapter shall be deemed to deprive the Supreme Court of the United States of jurisdiction to hear and determine all customs cases which have heretofore been certified to said court from the United States Circuit Courts of Appeals on applications for writs of certiorari or otherwise, nor to review by writ of certiorari any customs case heretofore decided or now pending and hereafter decided by any Circuit Court of Appeals, provided application for said writ be made within six months after August 5, 1909: *Provided further*, That all customs cases decided by a Circuit or District Court of the United States or a court of a Territory of the United States prior to said date above mentioned, and which have not been removed from said courts by appeal or writ of error, and all such cases theretofore submitted for decision in said courts and remaining undecided may be reviewed on appeal at the instance of either party by the United States Court of Customs Appeals, provided such appeal be taken within one year from the date of the entry of the order, judgment, or decrees sought to be reviewed.

SEC. 197. Immediately upon the organization of the Court of Customs Appeals, all cases within the jurisdiction of that court pending and not submitted for decision in any of the United States Circuit Courts of Appeals, United States Circuit, Territorial or District Courts, shall, with the record and samples therein, be certified by said courts to said Court of Customs Appeals for further proceedings in accordance herewith: *Provided*, That where orders for the taking of further testimony before a referee have been made in any of such cases, the taking of such testimony shall be completed before such certification.

SEC. 198. If the importer, owner, consignee, or agent of any imported merchandise, or the Collector or Secretary of the Treasury, shall be dissatisfied with the decision of the Board of General Appraisers as to the construction of the law and the facts respecting the classification of such merchandise and the rate of duty imposed thereon under such classification, or with any other appealable decision of said board, they, or either of them, may, within sixty days next after the entry of such decree or judgment, and not afterward, apply to the Court of Customs Appeals for a review of the questions of law and fact involved in such decision: *Provided*, That in Alaska and in the Insular and other outside possessions of the United States ninety days shall be allowed for making such application to the Court of Customs Appeals. Such application shall be made by filing in the office of the clerk of said court a concise statement of errors of law and fact complained of; and a copy of such statement shall be served on the collector, or the importer, owner, consignee, or agent, as the case may be. Thereupon the court shall immediately order the Board of General Appraisers to transmit to said court the record and evidence taken by them, together with the certified statement of the facts involved in the case and their decision thereon; and all the evidence taken by and before said board shall be competent evidence before said Court of Customs Appeals. The decision of said Court of Customs Appeals shall be final, and such cause shall be remanded to said Board of General Appraisers for further proceedings to be taken in pursuance of such determination.

SEC. 199. Immediately upon receipt of any record transmitted to said court for determination the clerk thereof shall place the same upon the calendar for hearing and submission; and such calendar shall be called and all cases thereupon submitted, except for good cause shown, at least once every sixty days: *Provided*, That such calendar need not be called during the months of July and August of any year.

A TABLE OF LEADING ARTICLES IMPORTED INTO THE UNITED STATES OR INTO ANY OF ITS POSSESSIONS (EXCEPT PHILIPPINE ISLANDS, GUAM AND TUTUILA), GIVING RATES AT ENTRY BY THE NEW TARIFF ACT OF 1913 COMPARED WITH THE TARIFF ACT OF 1909.

(The following table covers only the articles of principal importance imported.)
(ad val.—ad valorem; n.s.p.f.—not specially provided for.)
* Effective March 1, 1914.

		Regalia and gems, statutory and casts of sculpture.	Wrought and cast iron.
		Regalia and gems, statutory and casts of sculpture.	Wrought iron or steel nails, n.s.p.f.
		Regalia and gems, statutory and casts of sculpture.	Yarn, Angora goat hair, alpaca hair, etc., waste.

CUSTOM HOUSE EXAMINATION OF BAGGAGE.

The Tariff of 1913 provides for the exemption from duty of wearing apparel, etc., as shown in paragraph 642, as follows:

642. Wearing apparel, articles of personal adornment, toilet articles, and similar personal effects of persons arriving in the United States; but this exemption shall include only such articles as were actually owned by them and in their possession abroad at the time of or prior to their departure from a foreign country, and as are necessary and appropriate for the wear and use of such persons and are intended for such wear and use, and shall not be held to apply to merchandise or articles intended for other persons or for sale: *Provided*, That in case of residents of the United States returning from abroad all wearing apparel, personal and household effects taken by them out of the United States to foreign countries shall be admitted free of duty, without regard to their value, upon their identity being established under appropriate rules and regulations to be prescribed by the Secretary of the Treasury: *Provided further*, That up to but not exceeding one hundred dollars in value of articles acquired abroad by such residents of the United States for personal or household use or as souvenirs or curios, but not bought on commission or intended for sale, shall be admitted free of duty.

BAGGAGE DECLARATIONS.

The law requires that every person entering the United States shall make a declaration and entry of personal baggage. The senior member of a family present as a passenger may, however, declare for the entire family. A failure to declare articles acquired abroad and brought in as baggage renders the articles subject to forfeiture and the passengers liable to criminal prosecution. (Sections 2302 and 3082, R. S.)

Returning residents of the United States should use the form of declaration printed in black; non-residents should use the form printed in red.

The exact number of pieces of baggage accompanying a passenger must be stated in the declaration, including trunks, valises, boxes, hand bags, and packages or bundles of every kind. Forms of baggage declarations will be furnished passengers by the steamship officers. The declaration should

CUSTOM HOUSE EXAMINATION OF BAGGAGE—Continued.

be prepared and signed at least one day before the expected arrival of the vessel. Declarations spoiled in preparation should not be destroyed, but should be turned over to the purser, who will furnish a new blank.

When the declaration has been prepared and signed, the coupon at the bottom of the form must be detached and retained by the passenger and the declaration delivered to the ship's officer designated to receive the same. After all the baggage and effects of the passenger have been landed, the coupon which has been retained must be presented at the inspector's desk, and an inspector will then be detailed to examine the baggage.

Passengers must acknowledge in person, on the pier, their signatures to the declarations.

RETURNING RESIDENTS OF THE UNITED STATES.

Returning residents of the United States must declare all articles acquired abroad, in their baggage or on their persons, whether by purchase, by gift, or otherwise, and whether dutiable or free of duty. Exemption, however, will be allowed by customs officers of articles aggregating not over \$100 in value, if suitable for personal or household use or as souvenirs or curios, and whether intended for the personal use of the passengers or as gifts or presents to others, provided the articles are not bought on commission for another person nor intended for sale. Articles so exempt from duty must, nevertheless, be declared. Articles belonging to one passenger can not be included in the exemption of another.

Use does not exempt from duty wearing apparel or other articles obtained abroad. Such articles which have been used abroad may, however, be specifically noted on the declaration, and due allowance will be made by the appraising officers for depreciation through wear and use and duties charged upon the articles at their value in their condition as imported.

Passengers must not deduct the \$100 exemption in making out their declarations. Such deductions will be made by customs officers on the pier.

All wearing apparel, personal and household effects taken out of the United States by residents shall be admitted free of duty without regard to their value upon their identity being established. If remodelled, repaired, or improved abroad, the cost of such remodelling, repairing, or improvement must be declared, and receipted bills for such alterations should be presented. The cost of such repairs is subject to duty, but may be included by customs officers within the \$100 exemption. If the cost or value of the repairs be not declared, the articles will be subject to duty upon their entire value.

Citizens of the United States or persons who have at any time resided in this country shall be deemed to be residents of the United States, unless they shall have abandoned their residence in this country and acquired an actual bona fide residence in a foreign country. Such citizens or former residents who declare as nonresidents must present satisfactory evidence to the customs officers upon the pier that they have given up their residence in the United States and have become bona fide residents of a foreign country.

The residence of a wife follows that of the husband, and the residence of a minor child follows that of its parents.

The examination of baggage will be facilitated and difficulties avoided if receipted bills for foreign purchases be presented, and if all articles acquired abroad be packed separately in one or more trunks.

NONRESIDENTS OF THE UNITED STATES.

Nonresidents of the United States must declare all articles in their baggage or on their persons which do not constitute wearing apparel, articles of personal adornment, toilet articles, or similar personal effects, whether intended for their personal use or for others. They must also declare all articles of wearing apparel, jewelry, and other articles of personal adornment, toilet articles, and similar effects when not owned by them or when intended for other persons or for sale.

HOUSEHOLD EFFECTS.

Household effects, such as furniture, table linen, bed linen, tableware, etc., imported as baggage must be declared. If shown to the satisfaction of the customs officers to have been actually owned and used abroad by the passenger not less than one year and not intended for any other person nor for sale, such effects will be admitted free of duty. If not so owned and used abroad, duties must be paid thereon, unless included in the \$100 exemption allowed returning residents.

CIGARS AND CIGARETTES.

Each passenger over eighteen years of age may bring in free of duty 50 cigars or 300 cigarettes, or smoking tobacco not exceeding three pounds, if for the bona fide use of such passenger. These articles must be declared, but will be passed free by customs officers in addition to the \$100 exemption.

CONTESTED VALUATION.

Passengers dissatisfied with values placed upon dutiable articles by the customs officers on the pier may demand a re-examination. Application therefor should be made to the officers in charge immediately. If, for any reason, this course is impracticable, the packages containing the articles should be left in customs custody and application for reappraisal made to the collector of customs in writing within ten days after the original appraisement. No request for reappraisal can be entertained after the articles have been removed from customs custody.

Examination of any baggage may be postponed if the passenger requests the officer taking his declaration to have the baggage sent to the appraiser's store.

Currency or certified checks only can be accepted in payment of duties, but upon request baggage will be retained on the pier for 24 hours to enable the owner to secure currency or certified checks.

The offering of gratuities or bribes to customs officers is a violation of law. Customs officers who accept gratuities or bribes will be dismissed from the service, and all parties concerned are liable to criminal prosecution.

Discourtesy or incivility on the part of customs officers should be reported to the collector at the custom house, to the deputy collector or deputy surveyor at the pier, or to the Secretary of the Treasury. Passengers should not, however, deem customs officers discourteous merely because such officers examine baggage thoroughly or appraise articles at a value different from that stated in the passenger's declaration.

BAGGAGE FOR TRANSPORTATION IN BOND

Baggage containing dutiable articles may be forwarded in bond to any other port of entry upon good reason therefor being shown.

Passengers desiring to have such baggage forwarded in bond should so indicate on their declarations, and also make a request therefor upon the inspector at the time he is assigned to the examination of their baggage. Similar action should be taken when it is desired to have baggage forwarded to another country in transit through the United States.

CUSTOM HOUSE EXAMINATION OF BAGGAGE—Continued.

SEALSKIN GARMENTS.

An act of Congress of 1897, as amended in 1912, expressly forbids the importation into the United States of garments made in whole or in part of the skins of seals taken in the waters of the Pacific Ocean. Unless the owner is able to establish to the satisfaction of the collector that the garments are not prohibited by said act, they cannot be admitted.

AIGRETTES AND OTHER PLUMAGE.

Paragraph 347 of the present Tariff act contains the following proviso:

"The importation of aigrettes, egret plumes, or so-called osprey plumes, and the feathers, quills, heads, wings, tails, skins, or parts of skins, of wild birds, either raw or manufactured, and not for scientific or educational purposes, is hereby prohibited; but this provision shall not apply to the feathers or plumes of ostriches or to the feathers or plumes of domestic fowls of any kind."

Any of the above-described prohibited articles will be excluded from entry when brought in by passengers as trimmings on hats or other articles of wearing apparel, and will be confiscated whether found in the baggage or on the person. In cases where there has been no willful intent to violate the law, such prohibited articles may be exported to a foreign country.

W. G. McADOO, Secretary of the Treasury.

THE UNITED STATES CENSUS.

The Constitution requires that a census of the United States shall be taken decennially. The first census was taken in 1790 under the supervision of the President; subsequent censuses, to and including that of 1840, were taken under the supervision of the Secretary of State. In 1849 the supervision of the census was transferred to the newly organized Department of the Interior, and continued under the control of that department until the passage of the act of 1903, creating the Department of Commerce and Labor; by this act the Census Bureau was transferred to the new department. Congress, by act approved March 6, 1902, made the Census Bureau a permanent bureau of the Government.

The work of the Census Bureau is divided into two main branches, namely, the decennial census and special statistical inquiries, the latter mostly made in the intervals between the decennial censuses. The Thirteenth Decennial Census was taken as of date April 15, 1910. It covered the three main subjects—(1) population, (2) agriculture, and (3) manufactures, mines and quarries.

The results of this census have been published, and have been used wherever available for the tables of the present ALMANAC. The aggregate cost of the census of 1910 was about \$13,500,000, in addition to which \$1,675,000 was spent in carrying on the annual investigations of the permanent bureau during the census period. Of this amount \$7,200,000 represents the cost of collecting the data through the employment of over 70,000 paid enumerators, besides supervisors, clerks, and special agents. The balance is the cost of tabulating and publishing the result. A more detailed account of the census of 1910 is given in the 1911 issue of THE WORLD ALMANAC.

The permanent work of the Census Bureau is provided for by the act of Congress approved March 6, 1902, and amendments thereto. These acts authorize and direct the bureau to make statistical inquiries regarding the insane, feeble-minded, deaf and dumb, and blind; crime, pauperism and benevolence; deaths and births in the areas maintaining registration system; social and financial statistics of cities; wealth, debt and taxation; religious bodies; electric light and power, telephones and telegraphs, and street railways; transportation by water; cotton production, cotton consumed, imported, exported, and cotton on hand, and active cotton spindles, and statistics of tobacco. The statistics of deaths (which now cover about two-thirds of the population, statistics of cities, and of production of cotton are secured annually; the other statistics mentioned are taken usually at intervals of five or ten years, not, however, at the same time as the regular decennial censuses. The act of 1902 also provides for a census of manufactures in the fifth year intervening between the decennial censuses, and the new Thirteenth Census act further provides for a census of agriculture in 1915.

The Director of the Census is appointed by the President of the United States and receives a salary of \$6,000 per annum. The present Director is William J. Harris of Georgia. The permanent office organization includes a chief clerk, William L. Austin; four chief statisticians; for Population, William C. Hunt; for Manufactures, William M. Steuart; for Finance and Municipal Statistics, Starke M. Grogan, and one for Vital Statistics; a geographer, Charles S. Sloane, and eight chiefs of division. The entire number of employes in the Bureau at Washington is now about 600; in addition there are about 735 special agents employed intermittently in the Southern States for the collection of cotton statistics. The number of employes in Washington was greatly increased during the decennial census; on November 1, 1910, it was 3,565, in addition to field employes.

WHITE HOUSE RULES.

The following rules have been arranged for the conduct of business at the Executive Offices during the Winter of 1914-15:

The Cabinet will meet on Tuesdays and Fridays from 11 A. M. until 1 P. M.

Senators and Representatives having business to transact will be received from 10.30 A. M. to 12 M., excepting on Cabinet days. In view of the pressure of business at the Executive Offices during the Congressional session it would greatly facilitate matters if Senators and Members could telephone for an appointment before calling, as many will have first made appointments in this way, and those calling without appointments are therefore necessarily delayed in seeing the President.

The East Room will be open daily, Sundays excepted, for the inspection of visitors, between the hours of 10 A. M. and 2 P. M.

JOSEPH P. TUMULTY, Secretary to the President.

NATIONAL GRANGE, PATRONS OF HUSBANDRY.

Master—Oliver Wilson, Peoria, Ill. Overseer—W. H. Vary, Watertown, N. Y. Lecturer—George W. F. Gaunt, Mullica Hill, N. J. Steward—F. C. Bancroft, Wyoming, Del. Assistant Steward—J. A. Sherwood, Long Hill, Ct. Chaplain—A. P. Reardon, McLouth, Kan. Treasurer—Mrs. Eva S. McDowell, 6 Norfolk Terrace, Wellesley, Mass. Secretary—C. M. Freeman, Tippecanoe City, Ohio. Gatekeeper—C. L. Rice, Austin, Minn. Ceres—Mrs. Esther E. Pattee, Laconia, N. H. Pomona—Mrs. Cora E. Ketcham, Hastings, Mich. Flora—Mrs. Ella Peckham, Newport, R. I. L. A. Steward—Mrs. Mabel H. Harland, Fayette, Idaho. High Priest—C. M. Gardner, Westfield, Mass. Priest Archon—Oliver Wilson, Peoria, Ill. Priest Annalist—C. E. Spence, Oregon City, Ore. Executive Committee: C. S. Stetson, Chairman, Greene, Me.; A. B. Judson, Balfour, Iowa; C. O. Raine, Secretary, Canton, Mo.

The National Grange has established over 30,000 subordinate granges throughout the United States.

Postal Information.

(Revised by the Post-Office Department for THE WORLD ALMANAC. Sections quoted in this subject refer to the Postal Laws and Regulations.)

DOMESTIC RATES OF POSTAGE.

ALL mailable matter for transmission by the United States mails within the United States is divided into four classes, under the following regulations: (Domestic rates apply to mail for Canada, Mexico, Cuba, Tutuila, Porto Rico, Guam, Hawaii, the Philippines, the "Canal Zone," the Republic of Panama, and Shanghai, China, also to mail for officers or members of the crew of vessels of war of the United States, and officers and men of the United States Navy in the United States Naval Hospital, Yokohama, Japan.)

First-Class Matter—This class includes letters, postal cards, "post cards," and anything sealed or otherwise closed against inspection, except as provided for under other classifications or anything containing writing not authorized on mail matter of other classifications.

First-class or letter rate of postage to any part of the United States, its possessions, or the above-named countries, *two cents per ounce or fraction thereof.*

Rates on local or drop letters at free delivery offices, two cents per ounce or fraction thereof. At offices where there is no free delivery by carriers, and the addressee cannot be served by rural free delivery carriers, one cent per ounce or fraction thereof.

Rates on **postal cards**, one cent (double or "reply" cards, two cents). Postal cards issued by the Post-Office Department may bear written, printed, or other additions as follows:

(a) The face of the card may be divided by a vertical line placed approximately one-third of the distance from the left end of the card; the space to the left of the line to be used for a message, etc., but the space to the right for the address only.

(b) Addresses upon postal cards may be either written, printed, or affixed thereto, at the option of the sender.

(c) Very thin sheets of paper may be attached to the card on condition that they completely adhere thereto. Such sheets may bear both writing and printing.

(d) Advertisements, illustrations, or writing may appear on the back of the card and on the left third of the face.

2. The addition to a postal card of matter other than as above authorized will subject the card, when sent in the mails, to postage according to the character of the message—at the letter rate if wholly or partly in writing or the third-class rate if entirely in print. In either case the postage value of the stamp impressed upon the card will not be impaired.

3. Postal cards must be treated in all respects as sealed letters, except that those mailed for local delivery will be returned to the sender if undeliverable and the name and address of the sender appears thereon. Undeliverable "double" postal cards will be returned to the sender if known.

4. Postal cards bearing particles of glass, metal, mica, sand, tinsel or other similar substances, are unmailable, except when inclosed in tightly sealed envelopes with proper postage attached, or when treated in such manner as will prevent the objectionable substances from being rubbed off or injuring persons handling the mails.

Cards that have been spoiled in printing or otherwise will be redeemed from the *original purchasers* at 75 per cent. of their face value if unutilized.

POST CARDS—(private mailing cards)—bearing written or printed messages are transmissible in the mails.

Private mailing cards ("post cards") in the domestic mails must conform to the following conditions:

(a) A "post card" must be an unfolded piece of cardboard not exceeding approximately 3 9-16 by 5 9-16 inches, nor less than approximately 2 3/4 by 4 inches.

(b) It must in form and in the quality and weight of paper be substantially like the Government postal card.

(c) It may be of any color not interfering with a legible address and postmark.

(d) It may or may not, at the option of the sender, bear near the top of the face the words "post card."

(e) The face of the card may be divided by a vertical line—the left half to be used for a message, etc., but that to the right for the address only.

(f) Very thin sheets of paper may be attached to the card, and then only on condition that they completely adhere thereto. Such sheets may bear both writing and printing.

(g) Advertisements and illustrations may appear on the back of the card and on the left half of the face.

2. Cards, without cover, conforming to the foregoing conditions are transmissible in the domestic mails (including the possessions of the United States) and to Cuba, Canada, Mexico, the Republic of Panama, and Shanghai, China, at the postage rate of 1 cent each.

3. When "post cards" are prepared by printers and stationers for sale, it is desirable that they bear in the upper right hand corner of the face an oblong diagram containing the words "Place postage stamp here," and at the bottom of the space to the right of the vertical dividing line, the words "This space for the address."

4. Cards which do not conform to the conditions prescribed by these regulations are, when sent in the mails, chargeable with postage according to the character of the message—at the letter rate, if wholly or partly in writing, or at the third-class rate, if entirely in print.

5. Cards bearing particles of glass, metal, mica, sand, tinsel, or other similar substances, are unmailable, except when inclosed in tightly sealed envelopes, or when treated in such manner as will prevent the objectionable substances from being rubbed off or injuring persons handling the mails.

Postage on all letters should be *fully* prepaid, but if prepaid one full rate and no more, they will be forwarded, and the amount of deficient postage collected on delivery; if wholly unpaid, or prepaid with less than one full rate and deposited at a post-office, the addressee will be notified to remit postage; and if he fails to do so they will be sent to the Dead Letter Office; but they will be returned to the sender if he is located at the place of mailing, and if his address be printed or written upon them.

Letter rate is charged on typewriting and carbon or letter press copies thereof, and on all printed imitations or reproductions of typewriting or manuscript obtained by mechanical process unless such reproductions are presented at post-office windows in the minimum number of twenty identical unsealed copies.

Letters and other matter prepaid at the letter rate—two cents an ounce or fraction thereof—(but no other class of mail matter) will be returned to the sender free, if a request to that effect is printed or written on the envelope or wrapper. The limit of weight is four pounds, except for a single book, and except, also, gold for or from Alaska sent by registered mail.

POSTAL INFORMATION—Continued.

Prepaid letters and other matter prepaid at the letter rate will be forwarded from one post-office to another upon the written request of the person addressed, without additional charge for postage. The direction on forwarded letters may be changed as many times as may be necessary to reach the person addressed. Nothing may be added to such letters except the forwarding address without subjecting them to new postage.

Second-Class Matter—This class includes all printed newspapers and periodicals that have been "Entered as second-class matter," under the act of March 3, 1879, and are regularly issued at stated intervals as frequently as four times a year, from a known office of publication, and mailed by the publishers or news agents to actual subscribers or as sample copies or to news agents for sale, and newspapers and publications of this class mailed by persons other than publishers. Also periodical publications entered under the act of August 24, 1912, of benevolent and fraternal societies, organized under the lodge system and having a membership of a thousand persons, and the publications of strictly professional, literary, historical and scientific societies, and incorporated institutions of learning, trade unions, etc., provided that these be published at stated intervals not less than four times a year, and that they be formed of printed paper sheets without board, cloth, leather or other substantial binding. Publishers who wish to avail themselves of the privileges of the act are required to make formal application to the department through the postmaster at the place of publication, producing satisfactory evidence that the organizations, societies, and institutions represented come within the purview of the law.

Rates of postage to publishers and news agents, *one cent a pound or fractional part thereof*, prepaid in currency. Publications designed primarily for advertising or free circulation, or circulation at a nominal rate, or not having a legitimate list of subscribers, are not entitled to the pound rate under the act of March 3, 1879.

Publications which have not been admitted to the second-class are third- or fourth-class matter. Publications sent to actual subscribers in the county where printed and published are free, unless mailed for delivery at a letter-carrier office.

Rates of postage on second-class newspapers, magazines, or periodicals, mailed by others than the publishers or news agents, *one cent for each four ounces or fraction thereof*. It should be observed that the rate is one cent for each four ounces, not one cent for each paper contained in the same wrapper. This rate applies only when a complete copy is mailed. Parts of second-class publications or partial or incomplete copies are not entitled to second-class rates. Second-class matter is entitled to special delivery when special delivery stamps (or ten cents in ordinary stamps and the words "Special Delivery" placed on the wrapper) are affixed in addition to the regular postage.

Second-class matter must be so wrapped that it may be easily examined. The sender's name and address may be written in them or on the wrapper, also the words "sample copy" when sent as such, or "marked copy" when it contains a marked item or article. Typographical errors in the text may be corrected, but any other writing subjects the matter to letter postage.

Third-Class Matter—Mail matter of the third class includes printed engravings, circulars in print (or by the mimeograph, hectograph, electric pen, or similar process when at least twenty identical copies are mailed at post-office windows at one time), and other matter wholly in print (except books), proof sheets, corrected proof sheets, and manuscript copy accompanying the same. Printed books are fourth-class matter. See "Parcel Post or Fourth-Class Mail."

The rate on matter of this class is *one cent for each two ounces or fraction thereof*. Postage must be paid by stamps affixed, unless 2,000 or more identical pieces are mailed under special permit when the postage at that rate may be paid in money.

Manuscript unaccompanied by proof sheets is subject to the letter rate. Third-class matter must admit of easy inspection, otherwise it will be charged letter rate on delivery. It must be fully prepaid, or it will not be despatched. New postage must be prepaid for forwarding to a new address or returning to senders.

The limit of weight is four pounds. Packages of miscellaneous printed matter weighing over four pounds are available at the parcel post pound or zone rates. It is entitled, like matter of the other classes, to special delivery when special delivery stamps are affixed in addition to the regular postage, or when ten cents in ordinary stamps are affixed in addition to the regular postage and the words "Special Delivery" are placed on the wrapper.

Upon matter of the third class, or upon the wrapper or envelope inclosing the same, or the tag or label attached thereto, the sender may write his own name, occupation, and residence or business address, preceded by the word "from," and may make marks other than by written words to call attention to any word or passage in the text, and may correct any typographical errors. There may be placed upon articles of the third class, a simple manuscript dedication or inscription not of the nature of a personal correspondence. Upon the wrapper or envelope of third-class matter, or the tag or label attached thereto, may be placed in writing or otherwise the words "Please do not open until Christmas," or words to that effect, and there may be printed any matter available as third class. Written designation of the contents such as "photo," "printed matter," is also permissible, but there must be left on the address side a space sufficient for a legible address, postmark and the necessary stamps.

Fourth-Class Matter—See "Parcel Post or Fourth-Class Mail."
Third- or Fourth-Class Matter Mailable Without Stamps—Under special permits postage may be paid in money for third- or fourth-class matter mailed in quantities of 2,000 or more identical pieces. For information concerning the regulations governing such mailings inquiry should be made of the postmaster.

Special Delivery Service—Ten cents on each letter or other article in addition to the regular postage, entitles the article to immediate delivery by special messenger. Special delivery stamps are sold at post-offices, and must be affixed to such mail. Ordinary stamps to the value of ten cents in addition to the regular postage, affixed to a letter or other piece of mail will entitle it to special delivery if it is marked "Special Delivery." The delivery, at carrier offices, extends to the limits of the carrier routes. At non-carrier offices it extends to one mile from the post-office. Also to patrons of rural routes residing within one-half mile of such routes. Postmasters are not obliged to deliver beyond these limits, and letters addressed to places beyond must await delivery in the usual way, notwithstanding the special delivery stamp.

Registration—All domestic mail matter except fourth-class matter may be registered at the rate of ten cents for each package in addition to the regular rates of postage, to be fully prepaid by stamps. Each package must bear the name and address of the sender, and a receipt will be returned from the person to whom addressed, when indorsed "receipt desired," or words of similar import. Mail matter can be registered at all post-offices in the United States.

An indemnity—not to exceed \$50 for any one registered piece, or the actual value of the piece, if it is less than \$50—shall be paid for the loss of first-class registered matter mailed at and addressed to

a United States post-office, and an indemnity not to exceed \$25 is paid for domestic third-class matter, but no indemnity will be paid if the loser has been otherwise reimbursed. Claims for indemnity must be made within one year from date of loss of domestic mail and date of mailing of foreign mail. The limit of indemnity paid for registered articles lost in the International mails is 50 francs.

Domestic Money Orders—Domestic money orders are issued by money-order post-offices for any amount up to \$100, at the following rates:

For sums not exceeding \$2.50, 3 cents; over \$2.50 to \$5, 5 cents; over \$5 to \$10, 8 cents; over \$10 to \$20, 10 cents; over \$20 to \$30, 12 cents; over \$30 to \$40, 15 cents; over \$40 to \$50, 18 cents; over \$50 to \$60, 20 cents; over \$60 to \$75, 25 cents; over \$75 to \$100, 30 cents.

All domestic money orders must be made payable at a designated money order office, but those issued at any money order office in the continental United States, excepting Alaska, may be paid at any money order office in the continental United States, excepting Alaska, if presented for payment on or before the expiration of the thirtieth day following the date of issue. If presented after that date and within one year from the last day of the month in which issued, they shall be paid only at the office designated in the money order as the paying office, or repaid at the office of issue.

Stamped Envelopes—Embossed stamped envelopes and newspaper wrappers of several denominations, sizes and colors are kept on sale at post-offices, singly or in quantities, at a small advance on the postage rate. Stamps cut from stamped envelopes are valueless, but postmasters are authorized to give good stamps for stamped envelopes or newspaper wrappers that may be spoiled in directing, if presented in a substantially whole condition.

Unmailable Matter—See also "Parcel Post or Fourth-Class Mail."—Unmailable domestic matter—that is, matter which is not admissible to the United States mails for delivery in the United States or in any of its possessions—includes:

All matter illegibly, incorrectly, or insufficiently addressed.

Held for Postage—All second-class matter and all matter of the third or fourth class not wholly prepaid; and letters and other first-class matter not prepaid one full rate—2 cents.

All matter weighing over four pounds, except second-class matter, fourth-class matter (parcel post), single books, official matter emanating from the Executive Departments and documents printed and circulated by authority of Congress and gold for or from Alaska.

Postal, post, or other cards mailed uninclosed which bear delineations, epithets, terms, or language of an indecent, lewd, lascivious, obscene, libellous, scurrilous, defamatory or threatening character, or calculated by the terms or manner or style of display, and obviously intended to reflect injuriously upon the character or conduct of another, also articles bearing such matter upon the wrapper or outside cover. Dunning postal or other cards are included in this class.

Post cards, bearing particles of glass, metal, mica, sand, tinsel, or other similar substances, are unmailable, except as provided under "First-Class Matter."

All matter concerning any lottery, gift, enterprise, or similar scheme, offering prizes dependent in whole or in part upon lot or chance, or concerning fraudulent schemes devised for the purpose of obtaining money or property under false pretenses, representations or promises.

Applications for the establishment of post-offices should be addressed to the Postmaster-General, accompanied by a statement of the necessity therefor. Instructions will then be given and blanks furnished to enable the petitioners to provide the department with the necessary information.

The franking privilege was abolished July 1, 1873, but the following mail matter may be sent free by legislative-saving clauses viz.

1. All public documents printed by order of Congress, the Congressional Record and speeches contained therein, franked by Members of Congress, or the Secretary of the Senate, or Clerk of the House.

2. Seeds transmitted by the Secretary of Agriculture, or by any Member of Congress, procured from that Department.

3. Letters and packages relating exclusively to the business of the Government of the United States, mailed only by officers of the same, and letters and parcels mailed by the Smithsonian Institution. All these must be covered by specially printed "penalty" envelopes or labels.

4. The Vice-President, Members and Members-elect and Delegates and Delegates-elect to Congress may frank any mail matter to any Government official or to any person correspondence, not over four ounces in weight, upon official or departmental business.

All communications to Government officers and to Members of Congress are required to be prepaid by stamps unless inclosed in "penalty" envelopes furnished for replies.

Suggestions to the Public—Mail all letters, etc., as early as practicable, especially when sent in large numbers, as is frequently the case with newspapers and circulars.

All mail matter at large post-offices is necessarily handled in great haste and should therefore in all cases be so PLAINLY addressed as to leave NO ROOM FOR DOUBT AND NO EXCUSE FOR ERROR on the part of postal employees. Names of States should be written in full (or their abbreviations very distinctly written) in order to prevent errors which arise from the similarity of such abbreviations as Cal., Col.; Pa., Va., Vt.; Me., Mo., Md.; Ia., Ind.; N. H., N. M., N. Y., N. J., N. C., D. C.; Miss., Minn., Mass.; Nev., Neb.; Penn., Tenn., e'c. when hastily or carelessly written. This is especially necessary in addressing mail matter to places of which the names are borne by several post-offices in different States.

Avoid as much as possible using envelopes made of flimsy paper, especially where more than one sheet of paper, or any other article than paper, is inclosed. Being often handled, and even in the mail-bags subject to pressure, such envelopes not infrequently split open, giving cause of complaint.

Never send money or any other article of value through the mail except either by means of a money order or in a registered letter or by insured parcel post. Any person who sends money or valuables otherwise not only runs a risk of losing his property, but exposes to temptation every one through whose hands his letter passes, and may be the means of ultimately bringing some clerk or letter-carrier to ruin.

See that every letter or package bears the full name and post-office address of the writer, in order to secure the return of the letter, if the person to whom it is directed cannot be found. A much larger portion of the undelivered letters could be returned if the names and addresses of the senders were always fully and plainly written or printed inside or on the envelopes. Persons who have large correspondence find it most convenient to use "special request envelopes;" but those who only mail an occasional letter can avoid much trouble by writing a request to "return if not delivered," etc., on the envelope.

When dropping a letter, newspaper, etc., into a street mailing-box, or into the receptacle at a post-office, always see that the packet falls into the box and does not stick in its passage; observe, also, particularly, whether the postage stamps remain securely in their places.

Postage stamps should be placed on the upper right-hand corner of the address side of all mail matter.

POSTAL INFORMATION—Continued.

The street and number (or box number) should form a part of the address of all mail matter directed to cities. In most cities there are many persons, and even firms, bearing the same name. Before depositing any package or other article for mailing, the sender should assure himself that it is wrapped and packed in the manner prescribed by postal regulations; that it does not contain *undeliverable* matter nor exceed the limit of weight as fixed by law; and that it is fully prepaid and properly addressed.

It is unlawful to send an ordinary letter by express or otherwise outside of the mails unless it be inclosed in a Government-stamped envelope of sufficient value to pay the postage to which it is subject. It is also unlawful to inclose a letter in an express package unless it pertains wholly to the contents of the package.

It is forbidden by the regulations of the Post-Office Department for postmasters to give to any person information concerning the mail matter of another, or to disclose the name of a box-holder at a post-office.

Letters addressed to persons temporarily sojourning in a city where the Free Delivery System is in operation should be marked "Transient" or "General Delivery," if not addressed to a street and number or some other designated place of delivery.

Foreign books, etc., infringing United States copyright are *undeliverable* if received in foreign mails, or mailed here.

The foregoing rates, rules, and suggestions apply to postal matters in the United States.

PARCEL POST OR FOURTH-CLASS MAIL.

Fourth-Class Matter Embraces that known as domestic parcel post mail, and includes merchandise, farm and factory products, seeds, cuttings, bulbs, roots, scions, and plants, books (including catalogues), miscellaneous printed matter weighing more than 4 pounds, and all other mailable matter not embraced in the first, second, and third classes.

Rates of Postage on Fourth-Class or Parcel Post Matter—To Be Fully Prepaid—Unsealed—are as follows:

(a) Parcels weighing 4 ounces or less, except books, seeds, plants, etc., 1 cent for each ounce or fraction thereof, any distance.

(b) Parcels weighing 8 ounces or less containing books, seeds, cuttings, bulbs, roots, scions, and plants, 1 cent for each 2 ounces or fraction thereof, regardless of distance.

(c) Parcels weighing more than 8 ounces containing books, seeds, plants, etc., parcels of miscellaneous printed matter weighing more than 4 pounds, and all other parcels of fourth-class matter weighing more than 4 ounces are chargeable, according to distance or zone, at the pound rates shown in the following table, a fraction of a pound being considered a full pound:

PARCEL POST OR FOURTH-CLASS MAIL—Continued.

Zones—Parcel Post Guide and Maps—For parcel post purposes the United States is divided into units of area thirty minutes square. Such units form the basis of the eight postal zones. To ascertain in which zone a post-office is located from the office of mailing, a parcel post guide, costing 55 cents, and map, costing 20 cents, are jointly used. The guide applies to all offices, but a separate map is required for each unit. A zone key is furnished with the guide for use in the units of area in which the 50 largest post-offices are located, and makes the map for those units unnecessary. The guide and maps may be purchased by sending a money order to the Third Assistant Postmaster-General, Washington, D. C. Stamps are not accepted.

The local rate applies to parcels mailed under the following conditions: (1) At any post-office, for local delivery at such office. (2) At any city letter carrier office, or at any point within its delivery limits, for delivery by carriers from that office. (3) At any post-office from which a rural route starts, for delivery on such route, or when mailed at any point on a rural route for delivery at any other point thereon, or at the office from which the route starts, or for delivery on any other rural route starting from the same office.

Alaska, Hawaiian Islands, Canada, Cuba, Mexico, Etc.—The eighth zone rate of 12 cents for each pound or fraction thereof on all parcels weighing more than 4 ounces (except books, seeds, cuttings, bulbs, roots, scions, and plants, weighing 8 ounces or less) applies (1) between the United States and the Hawaiian Islands; (2) between the United States and its postal agency at Shanghai, China; (3) between any two points in Alaska and between any point in Alaska and any other point in the United States; (4) between the United States and the Canal Zone; (5) between the United States and the Philippine Islands; (6) between the United States and its naval vessels stationed in foreign waters, and (7) to matter not exceeding 4 pounds 6 ounces in weight, except books and other printed matter (to which the rate of 1 cent for each 2 ounces applies) mailed to Canada, Mexico, Cuba, and the Republic of Panama. (Parcels weighing up to 11 pounds may be sent to Mexico and the Republic of Panama as foreign parcel post mail under the parcel post conventions with those countries.)

The Limit of Weight of fourth-class matter is 50 pounds for parcels mailed for delivery within the first and second zones, and 20 pounds for all other zones.

Limit of Size—Parcel post matter may not exceed 72 inches in length and girth combined. In measuring a parcel the greatest distance in a straight line between the ends (but not around the parcel) is taken as its length, while the distance around the parcel at its thickest part is taken as its girth. For example, a parcel 35 inches long, 10 inches wide, and 5 inches high measures 65 inches in length and girth combined.

Name and Address of Sender—A parcel of fourth-class matter may not be accepted for mailing unless it bears the name and address of the sender, which should be preceded by the word "From."

Additions to Fourth-Class Mail—There may be placed on fourth-class matter, or on the wrapper or cover, tag or label, any marks, numbers, names, or letters for purpose of description. There may be written on the blank leaves or cover of any book a simple manuscript dedication or inscription not in the nature of personal correspondence. Space sufficient for a legible address, postmark, the necessary postage stamps, and any words necessary for forwarding or return, must be left on the address side of parcels.

Inclosures—There may be inclosed with fourth-class matter a written or printed invoice showing the name and address of the sender and of the addressee; the names and quantities of articles inclosed, together with inscriptions indicating, "for purpose of description," the price, style, stock number, size, and quality of the articles; the order or file number, date of order, and date and manner of shipment; and the initials or name of the salesman, or of the person by whom the articles were packed or checked.

Inscriptions, such as "Merry Christmas," "With best wishes," "Do not open until Christmas," or words to that effect, may be written on fourth-class mail, or on a card inclosed therewith.

Communications Attached to Parcels—When it is desired to send a communication with a parcel on which postage at the fourth-class rate has been fully prepaid, the communication may be placed in an envelope fully prepaid at the first-class rate and addressed to correspond with the address on the parcel and then be tied to or otherwise securely attached to the outside of the parcel in such manner as to prevent its separation therefrom and not to interfere with the address on the parcel. The stamps to cover the postage on the parcel must be affixed to the wrapper of the parcel, and those to pay the postage on the communication must be affixed to the envelope of the communication. Parcels to which such communications are attached are treated as fourth-class matter. Only one special delivery fee is required on such parcels sent as special delivery matter.

Public Library Books, otherwise mallable as parcel post matter, may bear any printed or written mark constituting a necessary inscription for the purpose of a permanent library record.

Proprietary Articles of Merchandise, such as harmless medicinal preparations, soaps, tobacco, food products, etc., put up in fixed quantities, in original sealed packages, by the manufacturer so as to allow examination of the packages in their simplest mercantile form and labelled in printing so as to show the nature of contents, quantity, and name of the manufacturer, are mallable at the fourth-class rates of postage. If such sealed packages are inclosed in an outer wrapper, the latter must not be sealed.

Meats and Meat-Food Products—Before meat or meat food products of cattle, sheep, swine, or goats may be accepted for mailing from one State or Territory to another State or Territory, the certificate of inspection or exemption required by sec. 477, Postal Laws and Regulations, must be filed with the postmaster. Such certificate must be prepared and furnished by the sender.

Game—The dead bodies of any wild animals or birds, or parts thereof, including furs, skins, plumage, etc., lawfully killed and offered for shipment, may be accepted for mailing only when the parcels are plainly marked to show the actual nature of the contents and the name and address of the sender. The dead bodies, or parts thereof, of any wild animals or birds which have been killed or offered for shipment in violation of the laws of a State, Territory, or district, are unmallable, persons sending such articles and the addressees knowingly receiving them in violation of the law being liable to a fine of not more than \$200.

Nursery Stock, including all field-grown florists' stock, trees, shrubs, vines, cuttings, grafts, scions, buds, fruit pits, and other seeds of fruit and ornamental trees or shrubs, and other plants and plant products for propagation, except field, vegetable, and flower seeds, bedding plants, and other herbaceous plants, bulbs, and roots, may be admitted to the mails only when accompanied with a certificate from a State or Government inspector to the effect that the nursery from which such nursery stock is shipped has been inspected within a year and found free from injurious insects, and the parcel containing such nursery stock is plainly marked to show the nature of the contents and the name and address of the sender.

Place of Mailing—Parcels of fourth-class matter weighing more than four ounces must be mailed at a post-office, branch post-office, named, numbered, or lettered station, or delivered to a rural or other carrier duly authorized to receive such matter. Parcels weighing four ounces or less may be deposited in letter or package boxes.

PARCEL POST OR FOURTH-CLASS MAIL—Continued.

INSURANCE OF FOURTH-CLASS MAIL.

Fees and Conditions—Fourth-class or domestic parcel post mail (but no other) may be insured against loss upon payment of a fee of 5 cents for value not exceeding \$25, or 10 cents for value not exceeding \$50, in addition to the postage, both to be prepaid with stamps affixed. It may not be registered. Such mail may be insured at any post-office or station thereof, or by rural carriers. The sender must fill out an insurance tag, which will be furnished him on request, to be attached to the parcel.

Return receipts for insured parcels may be obtained by indorsing the parcels "Return receipt desired."

Indemnity for lost insured parcels is paid for the actual value within the limit of insurance. No indemnity is payable on account of mere partial damage. However, when an article is so damaged as to render it wholly worthless, it is regarded as lost, provided it was packed and indorsed in accordance with the postal requirements. No indemnity is paid for labor, workmanship, etc., in repairing partial damage.

COLLECT-ON-DELIVERY SERVICE.

Conditions and Fee—Parcels of fourth-class or parcel post matter may be sent C. O. D. from one money order post-office to another on payment of a fee of 10 cents in addition to the postage, both to be prepaid with stamps affixed. The amount to be collected and remitted to the sender must not exceed \$100. The remittance is made by post-office money order, the fee therefor being included in the amount collected from the addressee. A C. O. D. tag furnished by the postmaster must be filled in by the sender and attached to the parcel. The C. O. D. fee also covers insurance against loss up to \$50 actual value.

A receipt is given to the sender of a C. O. D. parcel at the time of mailing, but no return receipt is furnished, as the remittance shows that delivery has been made. Examination of contents of a C. O. D. parcel is not permitted until it has been receipted for and all charges paid. Indemnity for lost C. O. D. parcels is paid for the actual value, not to exceed \$50, under the conditions governing the payment of indemnity for lost insured parcels.

PREPARATION AND WRAPPING OF MAIL MATTER.

Examination—Fourth-class or parcel post matter must be so wrapped or enveloped that the contents may be examined easily by postal officials. When not so wrapped, or when bearing or containing writing not authorized by law, the matter will be treated as of the first class. Nailed Boxes—Parcel post mail may be inclosed in boxes to which the lids are nailed or screwed, provided the lids can be readily removed with a chisel or screw driver for examination of contents.

Wrapping—All matter should be securely wrapped so as to bear transmission without breaking, or injuring mail bags, their contents, or the persons handling them. Many articles are damaged in the mails or the reason is that they are not properly wrapped to withstand the necessary handling. Umbrellas, canes, golf sticks, and similar articles must be reinforced by strips of wood or otherwise sufficiently wrapped to withstand handling and transportation. Hats in pasteboard boxes must be crated with wood or packed in strong, double-faced corrugated pasteboard boxes. Cut flowers, candles, etc., should be inclosed in strong and suitable boxes. Stove castings and pieces of machinery should be protected with excelsior or similar material and wrapped in cloth or strong paper or be properly boxed or crated. Malleable hides and pelts must be thoroughly wrapped to prevent the escape of grease. Parcels weighing 20 pounds or under are generally carried inside mail bags with other mail; those weighing over 20 pounds are usually carried outside mail bags. They should be wrapped with that understanding. Parcels improperly or insufficiently wrapped will not be accepted for transmission in the mails.

Harmful articles not absolutely excluded from the mails, but which, from their form or nature, might, unless properly secured, destroy, deface, or otherwise damage the contents of the mail bag, or harm the person of any one engaged in the postal service, may be transmitted in the mails only when packed in accordance with the postal regulations. *Sharp-pointed or sharp-edged instruments or tools* must have their points and edges protected so that they cannot cut through their covering, and be thoroughly wrapped. *Powders and all pulverized dry substances* must be so wrapped that none of the contents of the package will sift out. *Pastes, salves, etc.*, not easily liquefiable must be inclosed in water-tight containers and placed in strong boxes and securely wrapped.

Liquids—Admissible liquids in packages not exceeding the limit of weight of fourth-class matter will be accepted for mailing when intended for delivery at the office of mailing or on a rural route starting therefrom when inclosed in a glass or metal container securely inclosed and heavily wrapped, provided it is not necessary to transport them over steam or electric railways.

Admissible liquids and oils, pastes, salves, or other articles easily liquefiable, will be accepted for mailing, regardless of distance, when they conform to the following conditions:

(a) *When in strong glass bottles holding 4 ounces or less, the total quantity sent in one parcel shall not exceed 24 ounces liquid measure. Each bottle shall be wrapped in paper or other absorbent substance and then all placed in a box made of cardboard or other suitable material and packed in a container made of double-faced corrugated pasteboard of good quality. The corners of the container must fit tightly and be reinforced with tape so as to prevent the escape of any liquid if the contents should be broken, and the whole parcel shall be securely wrapped with strong paper and tied with twine. Single bottles of liquid holding 4 ounces or less may also be packed as prescribed in the following paragraphs (b) and (c):*

(b) *When in glass bottles holding more than 4 ounces, the total quantity sent in one parcel shall not exceed 16 ounces liquid measure. The bottle must be very strong and must be inclosed in a block or tube of metal, wood, papier mâché or similar material; and there must be provided between the bottle and the block or tube a cushion of cotton, felt, or other absorbent. The block or tube, if of wood or papier mâché, must be at least one-eighth of an inch thick for bottles holding 8 ounces or less, and at least three-sixteenths of an inch thick for bottles holding more than 8 ounces. The block or tube must be rendered watertight by an application on the inside of paraffin or other suitable substance and must be closed by a screw top cover with sufficient screw threads to require at least one and one-half complete turns before it will come off. The cover must be provided with a washer, so that no liquid could escape if the bottle should be broken. Any number of bottles separately packed as herein prescribed may be included in a single package if the limit of weight and size for fourth-class matter be not exceeded.*

(c) *Bottles containing liquid may also be packed in strong and tight receptacles of wood, metal, or waterproof corrugated pasteboard. Space must be left all around the bottle, which must be filled with bran, sawdust, or other absorbent material in sufficient quantity to absorb all the liquid if the bottle should get broken.*

(d) *When in a metal container, the weight limit of the parcel is the same as for other fourth-class matter. The container must be securely sealed and inclosed in a strong box.*

(e) *When in parcels weighing more than 20 pounds, malleable liquids in securely sealed glass bottles or metal cans will be accepted for mailing to offices in the first and second zones when packed in strong boxes and surrounded with sawdust or other suitable substances to protect the contents*

PARCEL POST OR FOURTH-CLASS MAIL—Continued.

from breakage. All such packages to be marked "FRAGILE—THIS SIDE UP," or with similar inscriptions and to be transported outside of mail bags.

All packages containing liquid must be marked "FRAGILE."

Fragile Articles—Articles easily broken must be very securely wrapped for safe transmission. *Glass, crockery, fragile toys, etc.*, must be so packed as to prevent the escape of particles or pieces from the packages if broken in transit. *Cigars* should be packed in a manner to prevent damage by shock or jar. *Maps, drawings, paintings, etc.*, must be suitably protected with stout material to prevent damage. When not flat, they should be rolled around a stout stick and carefully wrapped or inclosed in a strong pasteboard tube. All such articles should be marked "FRAGILE." Eggs will be accepted for local delivery when so packed in a basket or other container as to prevent damage to other mail. Eggs will be accepted for mailing regardless of distance when each egg is separately wrapped and surrounded with excelsior, cotton, or other suitable material and packed in a strong container made of double-faced corrugated pasteboard, metal, wood, or other suitable material and wrapped so that nothing can escape from the package. All such parcels shall be labelled "EGGS." Eggs in parcels weighing more than 20 pounds will be accepted for mailing to offices in the first and second zones when packed in crates, boxes, baskets, or other containers having tight bottoms to prevent the escape of anything from the package and so constructed as properly to protect the contents. Such packages to be marked "EGGS—THIS SIDE UP," and to be transported outside of mail bags.

Perishable Articles—Parcels containing perishable articles shall be marked "PERISHABLE." Articles likely to spoil within the time reasonably required for transportation and delivery shall not be accepted for mailing. *Butter, lard, and perishable articles*, such as fish, fresh meats, dressed fowl, vegetables, fruits, berries, and articles of a similar nature which decay quickly, when so packed or wrapped as to prevent damage to other mail, will be accepted for local delivery either at the office of mailing or on any rural route starting therefrom. When inclosed in an inner cover and a strong outer cover of wood, metal, heavy corrugated pasteboard, or other suitable material, and wrapped so that nothing can escape from the package, they will be accepted for mailing to all offices to which in the ordinary course of mail they can be sent without spoiling. *Butter, dressed fowl, vegetables, fruits*, and other perishable articles in parcels weighing more than 20 pounds will be accepted for mailing to offices in the first and second zones when suitably wrapped or inclosed and packed in crates, boxes, or other suitable containers having tight bottoms to prevent the escape of anything from the package, and so constructed as properly to protect the contents. All such parcels to be transported outside of mail bags. Vegetables and fruits which do not decay quickly will be accepted for mailing to any zone if packed so as to prevent damage to other mail.

Forwarding and Return—A new prepayment of postage at the rate applicable between the forwarding office and the one to which fourth-class matter is to be forwarded must be made by the addressee or by some one for him each time it is forwarded. A new prepayment must likewise be made before undeliverable fourth-class matter may be returned to the sender.

Requests for Further Information should be addressed as follows: Third Assistant Postmaster-General, Division of Classification, relative to the classification and admissibility of matter as parcel post mail, rates of postage, limit of weight and size, permissible inclosures and additions, attaching communications to parcels, etc. Third Assistant Postmaster-General, Division of Registered Mails, relative to the insurance and C. O. D. features. Second Assistant Postmaster-General, Division of Railway Mail Service, relative to the admissibility to the mails and wrapping of matter which from its form or character would be liable to injure the mails or the person of postal employees.

Unmailable Matter—Matter manifestly obscene, lewd, or lascivious; articles intended for preventing conception or for procuring abortion; articles intended for indecent or immoral purposes, and all matter otherwise mailable by law, the outside cover or wrapper of which bears any delineations or language of a libellous, scurrilous, defamatory, or threatening character, is declared non-mailable by law.

Spirituos, vinous, malted, fermented or other intoxicating liquors of any kind; poisons of every kind, and articles and compositions containing poison (except as prescribed in par. 4, sec. 472), and poisonous animals, insects, and reptiles, and explosives of every kind, and inflammable materials, including matches, moving picture films (unless made of cellulose-acetate), gasoline, naphtha, benzine, denatured alcohol, and all liquids having flash point at or below 80° F., and infernal machines, and mechanical, chemical, or other devices or compositions which may ignite or explode, and disease germs or scabs (except as prescribed in sec. 473), and other natural or artificial articles, compositions, or materials of whatever kind which may kill, or in anywise hurt, harm or injure another, or damage, deface, or otherwise injure the mail or other property, live animals (except as prescribed in sec. 476), guano or any article exhaling bad odor, whether sealed as first-class matter or not, shall not be admitted to the mails. (Par. 2, sec. 472.)

Poisons, Explosives, Inflammable Materials, Dangerous Articles, Intoxicating Liquors, Etc.—Section 472. All kinds of poison and all articles and compositions containing poison, and all poisonous animals, insects and reptiles, and explosives of all kinds and inflammable materials, and infernal machines and mechanical, chemical or other devices or compositions which may ignite or explode, and all disease germs or scabs, and all other natural or artificial articles, compositions or materials of whatever kind which may kill or in anywise hurt, harm, or injure another, or damage, deface, or otherwise injure the mails or other property, whether sealed as first-class matter or not, are hereby declared to be nonmailable matter, and shall not be conveyed in the mails or delivered from any post-office or station thereof, nor by any letter carrier; but the Postmaster-General may permit the transmission in the mails, under such rules and regulations as he shall prescribe as to preparation and packing, of any article hereinbefore described which are not outwardly or of their own force dangerous or injurious to life, health or property: *Provided*, That all spirituous, vinous, malted, fermented or other intoxicating liquors of any kind, are hereby declared to be nonmailable and shall not be deposited in or carried through the mails. Whoever shall knowingly deposit or cause to be deposited for mailing or delivery, or shall knowingly cause to be delivered by mail according to the direction thereon, or at any place at which it is directed to be delivered by the person to whom it is addressed, anything declared by this section to be nonmailable unless in accordance with the rules and regulations hereby authorized to be prescribed by the Postmaster-General, shall be fined not more than one thousand dollars, or imprisoned not more than two years, or both; and whoever shall knowingly deposit or cause to be deposited for mailing or delivery, or shall knowingly cause to be delivered by mail according to the direction thereon, or at any place to which it is directed to be delivered by the person to whom it is addressed, anything declared by this section to be nonmailable, whether transmitted in accordance with the rules and regulations authorized to be prescribed by the Postmaster-General or not, with the design, intent, or purpose to kill, or in anywise hurt, harm, or injure another, or damage, deface, or otherwise injure the mails

PARCEL POST OR FOURTH-CLASS MAIL—Continued.

or other property, shall be fined not more than five thousand dollars, or imprisoned not more than ten years, or both.

2. Spirituous, vinous, malted, fermented, or other intoxicating liquors of any kind, poisons of every kind, and articles and compositions containing poison (except as prescribed in the fourth paragraph hereof), and poisonous animals, insects, and reptiles, and explosives of every kind, and inflammable materials (including matches, kerosene oil, gasoline, naphtha, benzine, turpentine, denatured alcohol, etc.), and infernal machines, and mechanical, chemical or other devices or compositions which may ignite or explode, and disease germs or scabs (except as prescribed in sec. 473), and other natural or artificial articles, compositions, or materials of whatever kind which may kill, or in anywise hurt, harm, or injure another, or damage, deface, or otherwise injure the mail or other property, live animals (except as prescribed in sec. 476), raw hides or pelts, guano, or any article exhaling bad odor, whether sealed as first-class matter or not, shall not be admitted to the mails.

3. Liquids not spirituous, vinous, malted, fermented, or otherwise intoxicating (including samples of altar or communion wine used in church services), and not liable to explosion or spontaneous combustion or ignition by shock or jar, and not inflammable, fruits or vegetable matter liable to decomposition, comb honey, soft soap, paste or confections, ointments, salves, and articles of similar consistency, may be admitted to the mails for transmission in the domestic mails when inclosed in packages in conformity with the conditions prescribed in secs. 474 and 475.

4. Medicines and anaesthetic agents, which are not outwardly or of their own force dangerous or injurious to life, health or property, and not in themselves unavailable, may be admitted to the mails for transmission in the domestic mails when inclosed in packages in conformity with the conditions prescribed in Parcel Post Regulations: *Provided*, That the terms "medicines" and "anaesthetic agents" shall not be construed to mean poisons; *Provided further*, That the article mailed bears the label or superscription of the manufacturer thereof, or dealer therein, or of the licensed physician, surgeon, dentist, or veterinarian preparing or prescribing the same.

FOREIGN MAILS.

POSTAGE RATES AND CONDITIONS.

THE rates of postage to all foreign countries and colonies except Canada, Cuba, Mexico and Panama are as follows:

Letters.....	first ounce or less, 5 cents; each additional ounce	3 cents.
Postal cards, each.....		2 cents.
Newspapers and other printed matter, per 2 ounces.....		1 cent.
Commercial papers (such as legal and insurance papers, deeds, bills of lading, invoices, manuscript for publication, etc.).....	{ Packets not in excess of 10 ounces..... Packets in excess of 10 ounces, for each 2 ounces or fraction thereof.....	5 cents. 1 cent.
Samples of merchandise.....	{ Packets not in excess of 4 ounces..... Packets in excess of 4 ounces, for each 2 ounces or fraction thereof	2 cents. 1 cent.
Registration fee on letters or other articles.....		10 cents.

On printed matter and commercial papers the limit of weight is 4 pounds 6 ounces, except that single volumes of books to Salvador, Canada, Mexico, Cuba, and Panama, are unrestricted to that weight. Size—The limit of size is 18 inches in any one direction, except that printed matter or commercial papers in rolls may be 30 inches long by 4 inches in diameter.

Ordinary letters for countries of the Postal Union (except Canada and Mexico) will be forwarded, whether any postage is prepaid on them or not. All other mailable matter must be prepaid at least partially. Domestic rates apply to matter for Porto Rico, Guam, Philippine Islands, Cuba, "Canal Zone," Republic of Panama, Futuila, Hawaii, Shanghai City, U. S. Naval Vessels and officers and men of the U. S. Navy in the U. S. Naval Hospital, Yokohama, Japan.

EXCEPTIONS.

GREAT BRITAIN AND IRELAND AND NEWFOUNDLAND.

The rate on letters for these countries is two cents for each ounce or fraction. The Postal Union rates apply to postal cards, post cards, printed matter, commercial papers and samples.

GERMANY.

The postage rate on letters for Germany by direct ocean transportation is two cents an ounce. Letters paid at the two-cent rate are despatched only by steamers able to land the mails at a German port. Letters paid at the Postal Union rate are despatched by the quickest route.

A fast steamer sailing for Germany via Plymouth and Cherbourg carries letters for Germany prepaid at the Postal Union rate and at the two-cent rate—the letters paid at the five-cent (Postal Union) rate are landed at Plymouth (the quickest route), whereas the letters paid at the two-cent rate are carried through to Germany by the transatlantic steamer.

The Postal Union rates apply to postal cards, post cards, printed matter, commercial papers and samples regardless of the route by which sent, also to letters despatched via England and France.

CANADA.

Letters, two cents for each ounce or fraction of an ounce.
Postal cards and post cards, one cent.
Double postal cards (with paid reply), two cents.
Second-class matter (newspapers and periodicals), one cent for each 4 ounces or fraction thereof. No limit of weight.

Printed matter (except second-class), one cent for each 2 ounces or fraction thereof. Limit of weight 4 pounds 6 ounces, except for single volumes of printed books. Packages of miscellaneous printed matter and packages of books weighing over 4 pounds but not over 4 pounds 6 ounces may also be sent as fourth-class matter at the rate of 12 cents a pound.

Fourth-class matter (domestic parcel post) not exceeding 4 ounces in weight (except seeds, plants, etc.) is subject to the rate of one cent for each ounce or fraction of an ounce, and when exceeding 4 ounces in weight is subject to the rate of twelve cents a pound or fraction thereof. Packages of seeds, plants, etc., not exceeding 8 ounces in weight are subject to the rate of one cent for each 2 ounces or fraction of 2 ounces, and when exceeding 8 ounces are subject to the rate of twelve cents a pound or fraction thereof. Limit of weight 4 pounds 6 ounces, except for a single book.

Commercial papers, samples, printed books and miscellaneous printed matter may be mailed at the Postal Union postage rates and under the conditions applicable to such articles in foreign mails. Any mailable matter may be registered, but cannot be sent as insured mail.

FOREIGN MAILS—Continued.

Sealed articles, other than letters in their usual and ordinary form, are unmailable. But unsealed packages may contain, in sealed receptacles, articles which cannot be safely transmitted in unsealed receptacles; provided the contents of the closed receptacles are plainly visible or are precisely stated on the covers of the closed receptacles and with the packages so wrapped that the outer cover can be easily opened.

Prepayment of postage upon any article, except the reply half of a double postal card, can be effected only by means of United States postage stamps. Letters will be despatched if prepaid one full rate of postage. Postage on other articles must be prepaid in full.

CUBA.

Letters, two cents for each ounce or fraction of an ounce.

Postal cards and post cards, one cent.

Double post cards (with paid reply), two cents.

Second-class matter (newspapers and periodicals), one cent for each 4 ounces or fraction thereof. No limit of weight.

Printed matter (except second-class), one cent for each 2 ounces or fraction thereof. Limit of weight 4 pounds 6 ounces, except for single volumes of printed books. Packages of miscellaneous printed matter and packages of books weighing over 4 pounds but not over 4 pounds 6 ounces may also be sent as fourth-class matter at the rate of twelve cents a pound.

Fourth-class matter (domestic parcel post) not exceeding 4 ounces in weight (except seeds, plants, etc.) is subject to the rate of one cent for each ounce or fraction of an ounce, and when exceeding 4 ounces in weight is subject to the rate of twelve cents a pound or fraction thereof. Packages of seeds, plants, etc., not exceeding 8 ounces in weight are subject to the rate of one cent for each 2 ounces or fraction of 2 ounces, and when exceeding 8 ounces are subject to the rate of twelve cents a pound or fraction thereof. Limit of weight 4 pounds 6 ounces, except for a single book.

Commercial papers, samples, printed books and miscellaneous printed matter may be mailed at the Postal Union postage rates and under the conditions applicable to such articles in foreign mails.

Any mailable matter may be registered, but cannot be sent as insured mail.

Liquids and fatty substances (except samples) are unmailable.

Sealed articles, other than letters in their usual and ordinary form, are unmailable. But unsealed packages may contain, in sealed receptacles, articles which cannot be safely transmitted in unsealed receptacles; provided the contents of the closed receptacles are plainly visible or are precisely stated on the covers of the closed receptacles and with the packages so wrapped that the outer cover can be easily opened.

Prepayment of postage upon any article, except the reply half of a double postal card, can be effected only by means of United States postage stamps. Letters and postal cards must be despatched whether prepaid or not. Postage on other articles (except fourth-class matter) must be prepaid at least in part, and on fourth-class matter in full.

MEXICO.

Letters, two cents for each ounce or fraction of an ounce.

Postal cards and post cards, one cent.

Double postal cards (with paid reply), two cents.

Second-class matter (newspapers and periodicals), one cent for each 4 ounces or fraction thereof. No limit of weight.

Printed matter (except second-class), one cent for each 2 ounces or fraction thereof. Limit of weight 4 pounds 6 ounces, except for single volumes of printed books. Packages of miscellaneous printed matter and packages of books weighing over 4 pounds but not over 4 pounds 6 ounces may also be sent as fourth-class matter at the rate of twelve cents a pound.

Fourth-class matter (domestic parcel post) not exceeding 4 ounces in weight (except seeds, plants, etc.) is subject to the rate of one cent for each ounce or fraction of an ounce and when exceeding 4 ounces in weight is subject to the rate of twelve cents a pound or fraction thereof. Packages of seeds, plants, etc., not exceeding 8 ounces in weight are subject to the rate of one cent for each 2 ounces or fraction of 2 ounces and when exceeding 8 ounces are subject to the rate of twelve cents a pound or fraction thereof. Limit of weight 4 pounds 6 ounces, except for a single book.

Customs declarations must be attached to all parcels of fourth-class matter and all packages sent by foreign parcel post.

Commercial papers, samples, printed books and miscellaneous printed matter may be mailed at the Postal Union postage rates and under the conditions applicable to such articles in foreign mails.

Any mailable matter may be registered, but cannot be sent as insured mail.

Sealed articles, other than letters in their usual and ordinary form, are unmailable. But unsealed packages may contain, in sealed receptacles, articles which cannot be safely transmitted in unsealed receptacles; provided the contents of the closed receptacles are plainly visible or are precisely stated on the covers of the closed receptacles and with the packages so wrapped that the cover can be easily opened.

Prepayment of postage upon any article, except the reply half of a double postal card, can be effected only by means of United States postage stamps. Letters will be despatched if prepaid one full rate of postage. Postage on other articles must be prepaid in full.

Matter addressed to Mexico must, in all cases, bear as part of the address the name of the State in which the city or town is located. For example, Acapulco, Guerrero, Mexico; not Acapulco, Mexico.

PANAMA.

Letters, two cents for each ounce or fraction of an ounce.

Postal cards and post cards, one cent.

Double postal cards (with paid reply), two cents.

Second-class matter (newspapers and periodicals), one cent for each 4 ounces or fraction thereof. No limit of weight.

Printed matter (except second-class), one cent for each 2 ounces or fraction thereof. Limit of weight 4 pounds 6 ounces, except for single volumes of printed books. Packages of miscellaneous printed matter and packages of books weighing over 4 pounds but not over 4 pounds 6 ounces may also be sent as fourth-class matter at the rate of twelve cents a pound.

Fourth-class matter (domestic parcel post) not exceeding 4 ounces in weight (except seeds, plants, etc.) is subject to the rate of one cent for each ounce or fraction of an ounce, and when exceeding 4 ounces in weight is subject to the rate of twelve cents a pound or fraction thereof. Packages of seeds, plants, etc., not exceeding 8 ounces in weight are subject to the rate of one cent for each 2 ounces or fraction of 2 ounces, and when exceeding 8 ounces are subject to the rate of twelve cents a pound or fraction thereof. Limit of weight 4 pounds 6 ounces, except for a single book.

FOREIGN MAILS—Continued.

Parcels up to 11 pounds in weight may also be sent by foreign parcel post, under the conditions of the parcel post convention with Panama.

Customs declarations must be attached to all parcels of fourth-class matter and all packages sent by foreign parcel post.

Commercial papers, samples, printed books and miscellaneous printed matter may be mailed at the Postal Union postage rates and under the conditions applicable to such articles in foreign mails.

Any mailable matter may be registered, but cannot be sent as insured mail.

Liquids and fatty substances (except samples) are unmailable.

Sealed articles, other than letters in their usual and ordinary form, are unmailable. But unsealed packages may contain, in sealed receptacles, articles which cannot be safely transmitted in unsealed receptacles; provided the contents of the closed receptacles are plainly visible or are precisely stated on the covers of the closed receptacles and with the packages so wrapped that the cover can be easily opened.

Prepayment of postage upon any article, except the reply half of a double postal card, can be effected only by means of United States postage stamps. Letters and postal cards must be despatched whether prepaid or not. Postage on other articles (except fourth-class matter) must be prepaid at least in part, and on fourth-class matter in full.

SHANGHAI, CHINA.

Articles intended for delivery in the city of Shanghai, China, are subject to United States domestic postage rates and conditions, but letters specially addressed via Europe-Siberia are subject to the foreign rate. Certain matter may also be sent by *foreign* parcel post.

UNITED STATES NAVAL VESSELS.

Mall matter for officers or members of the crews of United States vessels of war stationed abroad is subject to domestic postage rates and conditions. Packages of fourth-class matter exceeding 4 ounces in weight are subject to the rate of twelve cents for each pound or fraction of a pound *when the vessels are stationed in foreign waters*. Articles should be addressed "U. S. S. (name of vessel), care of Postmaster, New York, N. Y." and be fully prepaid. Mail so addressed will be forwarded to the vessels, whether at domestic or foreign ports. Express packages will not be received unless they conform to the postal regulations and are placed in the mail with the postage properly prepaid.

UNITED STATES NAVAL HOSPITAL, YOKOHAMA, JAPAN.

Mall for officers and men of the United States Navy in the United States Naval Hospital at Yokohama, is subject to domestic rates and conditions, the same as that for officers and men on U. S. naval vessels stationed abroad.

SAMPLES OF MERCHANDISE

must be bona fide trade samples without any salable value. **Wrapping**—Samples of merchandise must be wrapped so that the contents may be easily examined without injury to wrappers. **Permissible Writing**—They must bear no writing except the name or the social position of the sender, a manufacturer's or trade mark, numbers, prices and indications relating to the weight, size, dimensions and quantity to be disposed of, and words which are necessary to precisely indicate the origin and nature of the merchandise. **Weight**—Packages of samples must not exceed 12 ounces in weight. **Size**—The size must not exceed 12 inches in length, 8 inches in breadth, and 4 inches in depth, except when in the form of a roll, they may be 12 inches in length and 6 inches in diameter. **Postage**—The postage on samples is 2 cents for the first 4 ounces or less, and 1 cent for each additional 2 ounces or fraction of 2 ounces. Register all valuable articles. Registration fee 10 cents.

PARCEL POST.

Postage, 12 cents a pound or fraction thereof; greatest length (unless specially noted below), 3 feet 6 inches; greatest length and girth combined (unless specially noted below), 6 feet; limit of weight (unless specially noted below), 11 pounds; value (unless specially noted below), not limited; registration fee, 10 cents.

Unsealed packages of mailable merchandise may be sent by parcel post to Dutch Gulana (parcels cannot be registered. See item "Customs Declarations"), Hungary, Bermuda, Jamaica, including Cayman Islands, Turks Island, including Calicos Islands, Barbados (parcels cannot be registered), the Bahamas, British Honduras, Mexico (limit of size, 2 feet in length, 4 feet in girth; limit of weight for places named in "Postal Guide," 11 pounds; for other places, 4 pounds 6 ounces), Leeward Islands (Antigua, Anguilla, Barbuda, Dominica, Montserrat, Nevis, Redonda, St. Kitts and the Virgin Islands), Colombia (limit of size, 2 feet in length, 4 feet in girth), Costa Rica, Salvador (see item "Customs Declarations"), British Gulana, Danish West Indies (St. Croix, St. John and St. Thomas), and the Windward Islands (Grenada, Grenadines, St. Lucia, and St. Vincent), Trinidad, including Tobago; Venezuela (see item "Customs Declarations"), Bolivia, Ecuador (parcels must not exceed \$50 in value), Peru and Chile, Newfoundland, including Labrador. Parcels for Labrador can only be forwarded during the months of July, August and September; Honduras (Republic of), * Germany, including Cameroon (Kamerun), Toga, German Samoa, German East Africa and German Southwest Africa; Greece (parcels cannot be registered), Italy, including Erythraea, Benadir, Bengazi and Tripoli in Tripoli (Barbary) and Republic of San Marino. Liberia, Netherlands (parcels cannot be registered. See item "Customs Declarations"), New Zealand, including Cook and Fanning Islands; Nicaragua, Guatemala, Norway, Japan, including Formosa, Karafuto (Japanese Saghalien), and Korea (Chosen); Hongkong, including Kowloon, Austria, Belgium, * France, excluding Algeria and Corsica (parcels cannot be registered. See item "Customs Declarations"), Great Britain and Ireland (parcels cannot be registered), Australia, including Tasmania, Denmark, including Faroe Islands and Iceland; Sweden. †China—Articles addressed for the following places are mailable subject to the rate and conditions applicable to parcels for HONGKONG: Aberdeen, Amoy, Au Tau, Canton, Chung Chow, Foochow, Hoihow, Hongkong, Kowloon, Liu Kung Tau, Ningpo, Ping Shan, Shanghai, Sal Kung, Stanley, Sha Tin, Shung Shui, Shoo Tow Kok, Swatow, Tai-o, Tai-Po, and Wei Hai Wei. Parcels addressed for delivery in the following places are mailable subject to the rate and conditions applicable to parcels for JAPAN: Amoy, Changsha, Chefoo, Foochow, Hangchow, Kiukiang, Newchwang, Peking, Shuanghaikawan, Shasi, Soochow, Tientsin, Tongku and Wuhu, China; or at the following places in Manchuria: Antoken (Antung), Bijun (Fushun), Choshun (Changchun), Dalren (Lairen), Tallen, formerly Dalny), Dalsekkio (Tashichiao), Daltoke (Tatungkou), Furanten (Poulienten), Gwaboten

* Service suspended on account of war at time ALMANAC was printed.

† Only for places here mentioned.

FOREIGN MAILS—Continued.

(Wufantien), Gaihei (Kaiping), Giukaton (Newchatun), Hishiko (Pitzuwo), Hoten (Mukden), Honkeiko (Pengshihui), Howojree (Fenghuangcheng), Kaigen (Kalyuen), Kaijo (Haimueng), Kinshu (Chluchow), Koshurei (Kunghuling), Riujuton (Lushuton), Riojun (Port Arthur), Riyo (Liaoyang), Senkinsai (Chienchinsai), Shiheigai (Ssupingchieh), Shinminfu (Shingmingfu), Shoto (Chang-in), Sokato (Tsaohokow), Sokaton (Suchiatun), Taikozan (Takushan), Tetsurei (Tiehling), Yendai (Yental), Yugakujree (Hsiungyocheng). Parcels addressed for delivery in the following places are mailable subject to the rate and conditions applicable to parcels for GERMANY, and are included in closed mails made up for the German Post-Office at Shanghai: Hankow, Nanking, Shanghai, Chingkaing, Tsinanfoo, Welhsien, Klowchow (including Tsingtow, Litsun, Mecklinburghaus, Shatsikoo, Sifang, Taputow, Tsangkow, Tsingtoo-Gr. Haifen, Tsingtoo-Tabatau). Parcels for the city of Shanghai to include only such matter as may be inadmissible to domestic parcel post mail for United States Postal Agency at Shanghai, e. g., books, etc.; Hayti, Brazil, Dominican Republic, Dutch West Indies: Curacao and Aruba, Bonaire, Saba, St. Eustatius and the Dutch part of St. Martins (parcels cannot be registered. See item "Customs Declarations"); French West Indies: Martinique, Guadeloupe (including Marie Galante, Deseade, Les Saints, St. Bartholomew and the French portion of St. Martins) (parcels cannot be registered. See item "Customs Declarations"); Panama and Turkey, the following places only. Parcels addressed for delivery in the following places are mailable subject to the rate and conditions applicable to parcels for AUSTRIA: Alexandretta, Beirut, Caifa, Constantinople, Cavalia, Chios, Dardanelles, Ineboli, Jaffa, Janina, Kerassonda, Mersina, Mytilene, Prevesa, Retimo, Rhodes, Samsoun, San Giovanni di Medua, Santi Quaranta, Scutari d'Albanie, Trebizond, Tripoli (Syria) and Vathi (Samos); also Candia in Isle of Crete. Parcels addressed for delivery in the following places are mailable subject to the rate and conditions applicable to parcels for ITALY: Durazzo, Galata, Jerusalem, Pera, Salonica, Scutari (Asia Minor), Smyrna, Stamboul and Valona; also Canea in Isle of Crete. Parcels must be wrapped so as to permit their contents to be easily examined by postmasters. The presence, in an unsealed parcel, of sealed receptacles containing mailable articles which cannot be safely transmitted in the unsealed receptacles, will not render the parcel unmailable, provided the contents of the sealed receptacles are plainly visible, or are unmistakably indicated by the method of packing or by a precise statement on the covers. But such sealed receptacles will not be admitted to the parcel post unless inclosed in an outside cover open to inspection. Any article absolutely prohibited admission to the regular mails for any country is also inadmissible to parcel post mails for that country; but no article is excluded from parcel post mails solely because it is dutiable in the country of destination. † Liquids, poisonous, explosive, and inflammable substances are excluded.

CUSTOMS DECLARATIONS.

A "Customs Declaration" Form 4402 (which will be furnished on application at the post-office or a station) must be properly and fully filled out, stating the actual contents, value, etc., of the parcel. General terms, such as "merchandise" or "samples," will not answer; the contents must be accurately described. "Customs Declarations" must be firmly attached to the cover of the parcel, but not pasted or affixed so that they will seal the package and prevent examination of the contents without damaging the cover. In addition to being tied by means of a cord passing through the eyelet, the tag should be bound flat to the parcel (with the front or "declaration" side facing out), so that the tag cannot be used as a handle to lift the parcel while in transit.

Two (2) copies of the "declaration" (Form 4402) must be attached to each parcel for Dutch Guiana, Dutch West Indies, French West Indies, Netherlands, Salvador and Uruguay, and three (3) copies to each parcel for Venezuela.

France—Two copies of the special customs declaration, "Form No. 2 Bis" (4402½), showing in addition to the usual entries the gross weight of the parcel and net weight of the contents, must be attached to parcels for France. One copy may be pasted to the package, but the other copy must be affixed in such a manner that it can be readily removed at the exchange office where the mail is prepared for despatch to France.

†Liquids and oils, pastes, salves and other articles easily liquefiable are admissible to the parcel post mails for Austria, Brazil, Germany and Great Britain, provided they are packed in accordance with the regulations prescribed for the admission of such substances to the United States domestic parcel post mails.

GENERAL REGULATIONS RESPECTING FOREIGN MAILS.

Rates and conditions to countries not in the Universal Postal Union are now the same as those to Universal Postal Union countries.

Postage can be prepaid upon articles (other than the reply half of double postal cards) only by means of the postage stamps of the country in which the articles are mailed. Hence articles mailed in one country addressed to another country which bear postage stamps of the country to which they are addressed are treated as if they had no postage stamps attached to them.

Unpaid letters received from the Postal Union and insufficiently prepaid correspondence of all kinds is chargeable with double the amount of the deficient postage.

Matter to be sent in the mails at less than letter rates must be so wrapped that it can be readily examined at the office of delivery, as well as the mailing office, without destroying the wrapper.

Packages of newspapers and periodicals sent in the mails to foreign countries are restricted to a single (outside) address. Those sent to Canada, Cuba, Mexico, Panama, and Shanghai (City), China, are transmissible as in domestic mails.

The United States two-cent postal card should be used for card correspondence with foreign countries (except Canada, Cuba, Mexico, Panama, and Shanghai City, to which countries the one-cent card is transmissible), but where these cards cannot be obtained, it is allowable to use for this purpose the United States one-cent postal card with a one-cent United States adhesive postage stamp attached thereto. Private cards can be used if conforming in size, etc., to Government cards, such cards should bear the words "post card."

Mail matter of all kinds received from any country of the Postal Union is required to be re-forwarded at the request of the addressee, from one post-office to another, and in the case of articles other than parcel post packages, to any foreign country embraced in the Postal Union, without additional charge for postage.

All articles prohibited from domestic mails are also excluded from circulation in the mails to and from foreign countries. Postal cards or letters addressed to go around the world will not be forwarded, being prohibited.

FOREIGN MAILS—Continued.

FOREIGN (INTERNATIONAL) MONEY ORDERS.

When payable in any foreign country, as follows:

For sums from \$0.01 to \$10.00.....	10 cents	From \$50.01 to \$60.00.....	60 cents
From \$10.01 to \$20.00.....	20 "	" 60.01 to 70.00.....	70 "
" 20.01 to 30.00.....	30 "	" 70.01 to 80.00.....	80 "
" 30.01 to 40.00.....	40 "	" 80.01 to 90.00.....	90 "
" 40.01 to 50.00.....	50 "	" 90.01 to 100.00.....	1 dollar

NOTE—It should be understood that these tables are subject to change, it being the aim of the Post-Office Department to make reductions whenever conditions warrant such action.

POSTAL-SAVINGS SYSTEM.

INFORMATION FOR DEPOSITORS ANNOUNCED BY POST-OFFICE DEPARTMENT.

Object—1. The Postal-Savings System is established by authority of the act of Congress approved June 25, 1910, for the purpose of providing facilities for depositing savings at interest, with the security of the United States Government for repayment.

Safety—2. The faith of the United States is solemnly pledged to the payment of deposits made in postal-savings depository offices, with accrued interest thereon, as provided by the Postal-Savings act.

Who May Deposit—3. An account may be opened and deposits made by any person of the age of 10 years or over in his or her own name, or by a married woman in her own name and free from any control or interference by her husband.

4. Deposits will be accepted only from individuals, and no account will be opened in the name of any corporation, association, society, firm or partnership, or in the name of two or more persons jointly. No account will be opened in the name of one person in trust for or on behalf of another person or persons.

5. A person may open a postal-savings account at any depository post-office, but no person may at the same time have more than one postal-savings account either at the same office or at different offices.

6. All accounts shall be opened in person by the depositor or his authorized representative. After opening an account, a depositor may forward subsequent deposits to the post-office by registered mail or by money order made payable to the postmaster.

No Charges to Depositors—7. No charges or fees are collected or required from depositors in connection with the opening of accounts or the subsequent deposit or withdrawal of moneys.

How to Open an Account—8. When a person applies to open an account, he shall furnish the necessary information to enable the postmaster to fill out an application, which the depositor will then be required to sign.

Deposits—9. Deposits are evidenced by postal-savings certificates issued in fixed denominations of \$1, \$2, \$5, \$10, \$20, \$50, and \$100, each bearing the name of the depositor, the number of his account, the date of issue, and the name of the depository office. The depositor shall sign a duplicate of each certificate, which the postmaster will retain.

10. No account may be opened for less than \$1, nor will fractions of a dollar be accepted for deposit. (See paragraph 16 relative to postal-savings cards and stamps.)

11. No person is permitted to deposit more than \$100 in any one calendar month nor to have a total balance to his credit at any time of more than \$500 exclusive of accumulated interest.

12. Postal-savings certificates are not transferable or negotiable and are payable only to the person to whom issued, except as provided in paragraphs 27, 28, and 29.

13. On opening an account a depositor is supplied with an envelope in which he may keep his savings certificates. This envelope bears information for his guidance, and a blank ledger record on which an account of his deposits and withdrawals may be kept.

14. If a postal-savings certificate is lost or destroyed the depositor should notify the postmaster. Upon compliance by the depositor with the necessary requirements, a new certificate will be issued by the Third Assistant Postmaster-General if deemed proper.

15. Postmasters are not permitted to receive issued postal-savings certificates for safe-keeping.

Postal-Savings Cards and Stamps—16. Amounts less than \$1 may be saved for deposit by purchasing 10-cent postal-savings cards and 10-cent postal-savings stamps. Each postal-savings card bears blank spaces in which such stamps may be affixed from time to time. A postal-savings card with nine postal-savings stamps affixed will be accepted as a deposit of \$1 either in opening an account or in adding to an existing account.

17. Postal-savings cards and stamps are not valid for postage, and postmasters will not exchange them for postage stamps nor exchange postage stamps for postal-savings cards or stamps.

Interest—18. Interest at the rate of 2 per cent. per annum will be allowed on the amount represented by each postal-savings certificate, payable annually. Interest will not be paid for any fraction of a year.

19. Deposits will bear interest from the first day of the month next following that in which made.

20. Interest will continue to accrue annually on a postal-savings certificate as long as it remains outstanding, certificates being valid until paid, without limitation as to time.

21. Compound interest is not allowed on an outstanding certificate, but a depositor may withdraw interest accrued and make a new deposit, subject to the restriction that deposits at interest will not be received for less than \$1.

Withdrawals—22. A depositor may at any time withdraw the whole or any part of the deposits to his credit, with any interest payable thereon, by surrendering, at the office of issue, postal-savings certificates, properly indorsed, for the amount to be withdrawn.

23. A depositor presenting a certificate for payment in full shall indorse it in the presence of the postmaster or his representative and surrender it. The postmaster or his representative, upon being satisfied as to the depositor's identity, will then make payment.

24. When a depositor desires to withdraw only a part of the amount represented by any certificate, the postmaster will cancel the certificate and issue a new certificate or certificates covering the amount remaining on deposit, which will bear interest from the first day of the following month.

25. When a depositor desires to withdraw the interest payable on any certificate, he will be

POSTAL-SAVINGS SYSTEM—Continued.

required to give his receipt for the amount of the interest paid. The postmaster will enter on the back of the certificate the date of the interest payment.

Deposits Not Made in Person—26. When a depositor, for good and sufficient reason, is unable to appear in person to make an additional deposit, the amount to be deposited may be sent by a representative or forwarded by registered mail, or by a money order made payable to the postmaster. New accounts cannot be opened by mail, but a person who desires to open an account and is unable to appear at the post-office may forward the money by a representative, who will be provided with an application form, which shall be properly filled out by the intending depositor.

Withdrawals Not Made in Person—27. When, for good and sufficient reason, a depositor is unable to appear in person to make a withdrawal, a blank order for the purpose will be furnished upon his application by mail or at the request of his representative. When the order has been properly filled out and signed by the depositor, his signature witnessed by a disinterested person, and the order returned to the postmaster, together with each certificate to be paid properly indorsed, payment will be made to the depositor's representative, or a money order covering the amount withdrawn, less the money-order fee, will be forwarded to the depositor.

28. When a depositor who is unable to appear in person desires to withdraw the interest payable on any certificate, the blank order furnished will be accompanied by a receipt for the interest to be paid. Upon return of such papers, properly signed by the depositor, the postmaster will make payment as provided in paragraph 27.

Death of Depositor—29. In case of the death of a depositor the amount standing to his credit will be paid to the executor or administrator of his estate upon compliance with necessary requirements. In case of the death of a depositor intestate, where no formal administration is desired by his relatives, the Third Assistant Postmaster-General may authorize the postmaster, upon obtaining an affidavit in proper form, to pay the amount to the persons entitled under the State laws to receive it.

Account of Woman Who Marries—30. A woman who opens an account and afterward marries should present her postal savings certificates to the postmaster at the issuing office in order that the certificates may be indorsed as payable to her in her new name. The postmaster will receive no further deposits from a woman who marries and fails to comply with this requirement.

Postal-Savings Bonds—31. A depositor may exchange the whole or any part of his deposits in sums of \$20, or any multiple of \$20 up to and including \$500, for United States registered or coupon bonds bearing interest at the rate of 2½ per cent. per annum, payable semi-annually, redeemable at the pleasure of the United States after one year from date of issue, and both principal and interest being payable 20 years from such date in United States gold coin. The exchange may be made as of January 1 and July 1 of each year.

32. A depositor desiring to convert his postal-savings deposits into bonds on January 1 and July 1 of any year shall make application to the postmaster at least one month previously on a form which will be supplied in triplicate for the purpose. At the time of making application the depositor shall indorse and surrender postal-savings certificates covering the amount of the bonds desired, and the postmaster will give him a receipt for the certificates. When the bonds applied for have been issued by the Secretary of the Treasury, he will forward them to the depositor. The exchange is considered as taking effect on the date when the bonds begin to bear interest (January 1 or July 1), and any yearly interest due on the certificates surrendered will be paid by the postmaster on or after that date.

33. Postal-savings deposits which have been exchanged for bonds are not counted as a part of the maximum of \$500 allowed one depositor, and there is no limitation upon the amount of postal-savings bonds which may be acquired by a depositor.

34. Postal-savings bonds are exempt from all taxes or duties of the United States, as well as from taxation in any form by or under State, municipal, or local authority.

35. Postal-savings bonds can be procured only by the surrender of postal-savings deposits and will not be issued to persons who are not depositors, but whether in registered or coupon form they may, after receipt by the depositor, be sold or transferred at any time. A leaflet containing additional information concerning postal-savings bonds may be obtained from the postmaster.

Information—36. Further information concerning the Postal-Savings System may be obtained by application at any depository post-office or by addressing the Third Assistant Postmaster-General, Division of Postal Savings, Washington, D. C.

NATIONAL ASSOCIATION OF LETTER CARRIERS.

THE objects of the association are: First, to unite fraternally all letter carriers in the United States for their mutual benefit. Second, to obtain and secure rights as Government employes and to strive at all times to promote the welfare of every member. Third, to create and establish the United States Letter Carriers' Mutual Benefit Association, as defined in the Constitution and general laws governing said association. Fourth, in conjunction with the Post-Office Department, to strive for the constant improvement of the service. Fifth, to create and establish the United States Letter Carriers' National Sick Benefit Association. The association has a membership of 32,851. The dues are \$1.50 per annum.

The officers of the association are: *President*—Edward J. Galnor, Muncie, Ind. *Vice-President*—George W. Johnson, Columbus, Ohio. *Secretary*—Edward J. Cantwell, Washington, D. C. *Treasurer*—Charles D. Duffy, Chicago, Ill. *Executive Board*—R. F. Quinn, Chairman, Philadelphia, Pa.; M. T. Finnan, Bloomington, Ill.; J. J. Gallagher, Jersey City, N. J.; A. I. Sharp, New York, N. Y.; C. P. Hanlon, Boston, Mass. The headquarters of the association is at 945 Pennsylvania Avenue, Washington, D. C.

BOYCOTTING, BLACKLISTING AND INTIMIDATION LAWS.

The States having laws prohibiting *boycotting* in terms are Alabama, Colorado, Illinois, Indiana, and Texas.

The States having laws prohibiting *blacklisting* in terms are Alabama, Arizona, Arkansas, California, Colorado, Connecticut, Florida, Illinois, Indiana, Iowa, Kansas, Minnesota, Mississippi (applies to telegraph operators only), Missouri, Montana, Nevada, New Mexico, North Carolina, North Dakota, Oklahoma, Oregon, Texas, Utah, Virginia, Washington, and Wisconsin.

A number of States have laws concerning *intimidation*, conspiracy against workmen, and interference with employment, viz.: Alabama, Colorado, Connecticut, Delaware, Florida, Georgia, Idaho (applies to mine employés only), Illinois, Kansas, Kentucky, Louisiana, Maine, Massachusetts, Michigan, Minnesota, Mississippi, Missouri, Nevada, New Hampshire, New Jersey, New York, North Dakota, Oklahoma, Oregon, Pennsylvania, Porto Rico, Rhode Island, South Dakota, Texas, Utah, Vermont, Washington, West Virginia and Wisconsin.

In the following States it is unlawful for an employer to exact any agreement, either written or verbal, from an employé not to join or become a member of a labor organization, as a condition of employment: California, Colorado, Connecticut, Idaho, Indiana, Kansas, Massachusetts, Minnesota, Mississippi (applies to telegraph operators only), Nevada, New Jersey, Ohio, Oklahoma, Oregon, Pennsylvania, Porto Rico, South Carolina, Utah, and Wisconsin.

EIGHT-HOUR LAWS.

Alaska.—Eight hours constitute a day's labor on all public works and in all mines and workings, smelting and reduction works, and at coke ovens.

Arizona.—Eight hours constitute a day's labor on all public works and in all mines and workings, smelting and reduction works, blast furnaces, rolling mills, etc.

Arkansas.—Eight hours constitute a day's work on public highways and bridges and for railway telegraph operators.

California.—Unless otherwise expressly stipulated, eight hours constitute a day's work. The time of service of all laborers, workmen, and mechanics employed upon any public works of, or work done for, the State, or for any political sub-division thereof, whether the work is to be done by contract or otherwise, and of employés in mines and smelters, is limited and restricted to eight hours in any one calendar day.

Colorado.—A day's work for all workmen employed by the State, or any county, township, school district, municipality, or incorporated town, and for all employés in underground or open cut mines or workings, and in smelting and refining works, is restricted to eight hours.

Connecticut.—Eight hours of labor constitute a lawful day's work unless otherwise agreed. Railroad telegraph operators controlling the movement of trains may work but eight hours, except at stations kept open only in the daytime. Engineers, firemen, machinists and other mechanics employed in State institutions may work but eight hours, except in case of emergency.

Delaware.—Eight hours constitute a lawful day's work for all municipal employés of the city of Wilmington.

District of Columbia.—A day's work for all laborers and mechanics employed by the District of Columbia, or by any contractor or sub-contractor upon any public works of the District, is limited to eight hours.

Hawaii.—For all mechanics, clerks, laborers, and other employés on public works and in public offices eight hours of actual service constitute a day's work.

Idaho.—Eight hours' actual work constitute a lawful day's labor for manual laborers employed by the day on all State, county, and municipal works. Labor in mines and smelters is limited to eight hours per day.

Illinois.—Eight hours are a legal day's work in all mechanical employments, except on farms, and when otherwise agreed; the law does not apply to service by the year, month or week. Eight hours constitute a day's labor on the public highways.

Indiana.—Eight hours of labor constitute a legal day's work on the public roads, and for all classes of mechanics, workmen, and laborers, excepting those engaged in agricultural and domestic labor. Overwork by agreement and for extra compensation is permitted.

Iowa.—Eight hours constitute a day's labor on the public roads.

Kansas.—Eight hours are a day's work for all laborers, mechanics, or other persons employed by or on behalf of the State or any county, city, township or other municipality.

Kentucky.—Eight hours constitute a day's work on all public works of the State.

Maryland.—No mechanic or laborer employed by the Mayor or City Council of Baltimore, or by any agent or contractor under them, shall be required to work more than eight hours as a day's labor.

Massachusetts.—Eight hours shall constitute a day's work for all laborers, workmen, and mechanics employed by or on behalf of the Commonwealth or any county therein, or of any city or town in the Commonwealth upon acceptance of the statute by a majority of voters present and voting upon the same at any general election.

Minnesota.—Eight hours constitute a day's labor for all laborers, workmen, or mechanics employed by or on behalf of the State, whether the work is done by contract or otherwise.

Mississippi.—Eight hours are a day's labor on highways.

Missouri.—Eight hours constitute a legal day's work. The law does not prevent an agreement to work for a longer or a shorter time and does not apply to agricultural laborers. It is unlawful for employers to work their employés longer than eight hours per day in mines and smelters, or as train dispatchers, etc., on railroads, unless the office is open only during the daytime. Eight hours are a day's labor on highways, and on all public works in cities of the second class.

Montana.—Eight hours constitute a legal day's work for persons engaged to operate or handle hoisting engines at mines. The law applies only to such plants as are in operation sixteen or more hours per day, or at or in mines where the engine develops fifteen or more horse-power, or where fifteen or more men are employed underground in the twenty-four hours. A day's labor on public works and in smelters, underground mines and in railroad and other tunnels is limited to eight hours.

Nebraska.—Eight hours constitute a day's work on public roads and on all public works in cities of the first class.

Nevada.—For labor on public highways, in and about all mines, in smelters, plaster and cement mills, as train dispatchers, etc., on railroads, and on all works and undertakings carried on or aided by the State, county, or municipal governments, the hours of labor are fixed at eight per day.

New Jersey.—Eight hours is the limit of a day's work by any person employed by or on behalf of the State or any municipality thereof.

New Mexico.—Eight hours constitute a day's labor in all employment by or on behalf of the State or municipality.

New York.—Eight hours constitute a day's work on highways, and on work done by or for the State, or a municipal corporation, whether directly by contractors or sub-contractors; also for all

classes of employes, except in farm or domestic labor, though overwork for extra pay is permitted in private employments.

North Carolina.—Train despatchers, etc., on railroads may work only eight hours, unless otherwise permitted by the corporation commission.

North Dakota.—Eight hours are a day's labor on public roads.

Ohio.—Eight hours constitute a day's work on all public works; also in all engagements to labor in any mechanical, manufacturing or mining business, unless otherwise expressly stipulated in the contract.

Oklahoma.—Eight hours constitute a day's labor on all public works, and in underground mines.

Oregon.—Eight hours constitute a day's labor on all public works, and in underground mines yielding metal.

Pennsylvania.—Eight hours of labor shall be deemed and held to be a legal day's work in all cases of labor and service by the day where there is no agreement or contract to the contrary. This does not apply to farm or agricultural labor or to service by the year, month or week. Eight hours constitute a day's labor for all mechanics, workmen, and laborers in the employ of the State, or of any municipal corporation therein, or otherwise engaged on public works. This act shall be deemed to apply to employes of contractors. Engineers hoisting workmen at anthracite coal mines may work but eight hours per day.

Philippine Islands.—Eight hours constitute a day's work on highways.

Porto Rico.—No laborer may be compelled to work more than eight hours per day on public works.

South Dakota.—For labor on public highways a day's work is fixed at eight hours.

Tennessee.—Eight hours shall be a day's work on the highways.

Texas.—Eight hours constitute a day's work on the highways, and by train despatchers, etc., except at stations where but one operator is employed.

Utah.—Eight hours constitute a day's labor on all works carried on or aided by the State, county or municipal governments, and in all underground mines or workings, and in smelters and all other establishments for the reduction of ores.

Washington.—Eight hours in any calendar day shall constitute a day's work on any work done for the State, or for any county or municipality, and in underground coal mines.

West Virginia.—Eight hours shall constitute a day's work for all laborers, workmen, and mechanics who may be employed by or on behalf of the State, and for telegraph operators directing the movement of trains where three or more passenger or ten or more freight trains pass in 24 hours.

Wisconsin.—In all engagements to labor in any manufacturing or mechanical business, where there is no express contract to the contrary, a day's work shall consist of eight hours, but the law does not apply to contracts for labor by the week, month or year. Eight hours constitute a day's labor on the public highways. Employes on public works and train despatchers may be employed but eight hours per day.

Wyoming.—Eight hours' actual work constitute a legal day's labor in all underground mines, in smelters, and on all State and municipal works.

United States.—A day's work for all laborers, workmen and mechanics who may be employed by the United States, or by any contractor or sub-contractor upon any of the public works of the United States, including dredging and rock excavation in river and harbor work, is limited to eight hours.

THE WORLD ALMANAC is indebted to Commissioner Royal Meeker of the U. S. Bureau of Labor Statistics for this Summary of Labor Legislation revised to date.

General Labor Organizations.

AMERICAN FEDERATION OF LABOR.

PRESIDENT, Samuel Gompers, 801-809 G Street N.W., Washington, D. C.; Secretary, Frank Morrison, same address; Treasurer, John B. Lennon, Bloomington, Ill.; First Vice-President, James Duncan, Hancock Building, Quincy, Mass.; Second Vice-President, James O'Connell, 512 Ouray Building, Washington, D. C.; Third Vice-President, D. A. Hayes, 930 Witherspoon Building, Philadelphia, Pa.; Fourth Vice-President, Jos. F. Valentine, Commercial Tribune Building, Cincinnati, Ohio; Fifth Vice-President, John R. Alpine, 401 Bush Temple of Music, Chicago, Ill.; Sixth Vice-President, H. B. Perham, Star Building, St. Louis, Mo.; Seventh Vice-President, Frank Duffy, Carpenters' Building, Indianapolis, Ind.

The federation is composed of 110 national and international unions, representing approximately 22,000 local unions, 5 departments, 43 State branches, 638 city central unions, and 558 local unions. The approximate paid membership is 2,000,000. The affiliated unions publish about 540 weekly or monthly papers, devoted to the cause of labor. The official organ is the *American Federationist*, edited by Samuel Gompers. There are 1,715 organizers of local unions acting under the orders of the American Federation of Labor. The objects and aims of the American Federation of Labor are officially stated to render employment and means of subsistence less precarious by securing to the workers an equitable share of the fruits of their labor.

INTERNATIONAL UNIONS COMPRISING THE AMERICAN FEDERATION OF LABOR.

Asbestos Workers, International Association of Heat and Frost Insulators and. Thomas G. McNamara, 2516 Slattery Street, St. Louis, Mo.
 Bakery and Confectionery Workers' International Union of America. Charles Ifland, 212 Bush Temple of Music, 221 Chicago Avenue, Chicago, Ill.
 Barbers' International Union, Journeymen. Jacob Fischer, 222 East Michigan St., Indianapolis, Ind.
 Bill Posters and Billers of America, International Alliance of. William McCarthy, Fitzgerald Building, 1482-90 Broadway, New York City.
 Blacksmiths, International Brotherhood of. Wm. F. Kramer, Monon Building, Chicago, Ill.
 Boiler Makers and Iron Ship Builders of America, Brotherhood of. F. P. Reinemeyer, Suite 7-12, Law Building, Kansas City, Kan.
 Bookbinders, International Brotherhood of. James W. Dougherty, 222 East Michigan Street, Indianapolis, Ind.
 Boot and Shoe Workers' Union. C. L. Baine, 246 Summer Street, Boston, Mass.
 Brewery Workmen, International Union of the United. Louis Kemper, 2347 Vine Street, Cincinnati, Ohio.
 Brick, Tile, and Terra Cotta Workers' Alliance, International. William Van Bodegraven, 2341 West 12th Street, Chicago, Ill.
 Bridge and Structural Iron Workers, International Association of. Harry Jones, 422-424 American Central Life Building, Indianapolis, Ind.
 Broom and Whisk Makers' Union, International. W. R. Boyer, 851 King Place, Chicago, Ill.
 Brushmakers' International Union. George J. Vitzthun, 2052 Gates Avenue, Brooklyn, N. Y.
 Carpenters and Joiners of America, United Brotherhood of. Frank Duffy, Carpenters' Building, Indianapolis, Ind.
 Carriage, Wagon and Automobile Workers of North America, International Union of. William P. Mayell, 36 Dun Building, Buffalo, N. Y.
 Carvers' Association of North America, International Wood. Thomas J. Lodge, 10 Carlisle Street, Roxbury, Mass.
 Cement Workers, American Brotherhood of. Henry Ulmer, Clunie Building, San Francisco, Cal.
 Cigar Makers' International Union of America. George W. Perkins, Monon Building, Chicago, Ill.
 Clerks' International Protective Association, Retail. H. J. Conway, Lock Drawer 248, Lafayette, Ind.
 Cloth Hat and Cap Makers of North America, United. Max Zuckerman, 62 East Fourth St., New York.
 Commercial Telegraphers' Union of America, The. Wesley Russell, Monon Building, Chicago, Ill.
 Compressed Air and Foundation Workers' Union of the United States and Canada. Henry Kuhlmann, 235 Ten Eyck Street, Brooklyn, N. Y.
 Coopers' International Union of North America. William R. Deal, Bishop Bldg., Kansas City, Kan.
 Cutting Die and Cutter Makers, International Union of. William Bondy, 727 Mahida St., New York.
 Diamond Workers' Protective Union of America. Andries Meyer, 323 Washington St., Brooklyn, N. Y.
 Electrical Workers of America, International Brotherhood of. Charles P. Ford, Reisch Building, Springfield, Ill.
 Elevator Constructors, International Union of. William Young, 418 Perry Bldg., Philadelphia, Pa.
 Engineers, International Union of Steam and Operating. James G. Hannahan, 6334 Yale Avenue, Chicago, Ill.
 Firemen, International Brotherhood of Stationary. C. L. Shamp, 3615 N. 24th St., Omaha, Neb.
 Foundry Employes, International Brotherhood of. Geo. Bechtold, 200 S. Broadway, St. Louis, Mo.
 Freight Handlers, Brotherhood of Railroad. C. E. Beaumont, 1123 Wells Street, Chicago, Ill.
 Fur Workers' Union of United States and Canada, International. Samuel Korman, 32 Union Square, New York City.
 Garment Workers of America, United. B. A. Larger, Rooms 116-122 Bible House, New York City.
 Garment Workers' Union, International Ladies'. Morris Sigman, 32 Union Square, New York.
 Glass Bottle Blowers' Association of the United States and Canada. William Lauener, Rooms 930-932 Witherspoon Building, Juniper and Walnut Streets, Philadelphia, Pa.
 Glass Workers' International Association, Amalgamated. A. J. Scott, 118 East 28th St., New York.
 Glass Workers' Union, American Flint. William P. Clarke, Ohio Building, Toledo, Ohio.
 Glove Workers' Union of America, International. Elizabeth Christman, Room 506, Bush Temple of Music, Chicago, Ill.
 Granite Cutters' International Association of America, The. James Duncan, Hancock Building, Quincy, Mass.

KNIGHTS OF LABOR.

General Executive Board: General Master Workman, John W. Hayes, Washington, D. C., Chairman; General Worthy Foreman, William A. Denison, Rochester, N. Y.; General Secretary-Treasurer, I. D. Chamberlain, Washington, D. C.; Assistant General Secretary-Treasurer, Bennett M. Jayne, Philadelphia, Pa.; John C. Patterson, Brooklyn, N. Y.; F. W. Bonehill, Rochester, N. Y.

TRADE UNION STATISTICS OF THE WORLD.

The following table shows the membership of Trade Unions in the 12 principal trade union countries, according to returns received through various sources for the year ending January 1, 1912. The figures in parentheses indicate the relative order of the membership and percentage figures to the remaining figures under those headings in each column. The figures for the United States include those for Canada, where trade unionists are estimated to number 150,000.

TRADE UNION MEMBERSHIP.

COUNTRY.	Total Membership.	Percentage of Membership to Total Pop.	COUNTRY.	Total Membership.	Percentage of Membership to Total Pop.
Austria.....	421,905..(6)	1.4..(11)	Italy.....	817,084..(5)	2.4..(7)

Mines and quarries.....	5.00	1.59	3.25	1.56	.78	.89	6.46	
Metals, machines, implements and conveyances.....	7.89	4.35	6.99	2.78	2.15	2.14	5.95	
Building and works of construction.....	6.77	4.20	6.99	2.96	1.48	5.02	7.28	
Textile fabrics.....	6.92	4.55	3.75	3.26	.37	4.81	6.86	
Dress.....	7.23	8.05	5.39	3.92	2.85	6.64	7.86	See separate classification below.

A distinct classification adopted by United States Census Bureau based on 1910 Census is as follows: All occupations, 38,167,336 (consisting of 30,091,564 males and 8,075,772 females) with per cent. in parentheses showing distribution of total. Agriculture, forestry, and animal husbandry, 12,653,203 (33.2); extraction of minerals, 964,324 (2.5); manufacturing and mechanical industries, 10,653,831 (27.9); transportation, 2,637,671 (6.9); trade, 3,614,670 (9.5); public service (not elsewhere classified), 459,291 (1.2); professional service, 1,663,569 (4.4); domestic and personal service, 3,772,174 (9.9); clerical occupations, 1,737,053 (4.6).

INDUSTRIAL WORKERS OF THE WORLD.

(A distinct organization from that given below bearing same name.)

HEADQUARTERS, 164 West Washington St., Chicago, Ill. Vincent St. John, General Secretary-Treasurer; Wm. D. Hayward, Assistant Secretary and General Organizer. Executive Board—J. W. Kelly, Clarence Edwards, F. H. Little, Ewald Koettgen, John M. Foss.

PREAMBLE—The working class and the employing class have nothing in common.

Between these two classes a struggle must go on until the workers of the world organize as a class, take possession of the earth and the machinery of production, and abolish the wage system.

We find that the centring of the management of industries into fewer and fewer hands makes the trades unions unable to cope with the ever-growing power of the employing class. The trades unions foster a state of affairs which allows one set of workers to be pitted against another set of workers in the same industry, thereby helping defeat one another in wage wars. Moreover, the trades unions aid the employing class to mislead the workers into the belief that the working class have interests in common with their employers.

These conditions can be changed and the interest of the working class upheld only by an organization formed in such a way that all its members in any one industry, or in all industries, if necessary, cease work whenever a strike or lockout is on in any department thereof, thus making an injury to one an injury to all.

Instead of the conservative motto, "A fair day's wages for a fair day's work," we must inscribe on our banner the revolutionary watchword, "Abolition of the wage system."

It is the historic mission of the working class to do away with capitalism. The army of production must be organized, not only for the every day struggle with capitalists, but also to carry on production when capitalism shall have been overthrown. By organizing industrially we are forming the structure of the new society within the shell of the old.

The organization differs from syndicalism in that great stress is laid upon having a form of organization to correspond, cell for cell, tissue for tissue, with capitalist industry itself, and also because it seeks to build a new union on revolutionary lines rather than to attempt to change the present reactionary and out-of-date craft unions. The organization claims to have blended the practical features of socialism, anarchism, and syndicalism, and yet it is distinct from all three.

The I. W. W. is composed of 300 local unions, 3 national industrial unions (textile, lumber and marine transport workers), having a total membership of 70,000, five national administrations—Hawaiian, Australian, New Zealand, Great Britain and South African.

Excerpts from Constitution and By-Laws follow:

The Industrial Workers of the World shall be composed of actual wage-workers brought together in an organization embodying thirteen national industrial departments, national industrial unions, local industrial unions, local recruiting unions, industrial councils, and individual members.

The annual convention of the Industrial Workers of the World shall be held on the third Monday of September each year at such place as may be determined by previous convention.

Members-at-large shall pay an initiation fee of \$2.00 and \$1.00 per month dues and assessments. No working man or woman shall be excluded from membership in local unions because of creed or color.

That to the end of promoting industrial unity and of securing necessary discipline within the organization, the Industrial Workers of the World refuse all alliances, direct or indirect, with existing political parties or anti-political sects.

INDUSTRIAL WORKERS OF THE WORLD.

(A distinct organization from that given above bearing same name.)

HEADQUARTERS, Detroit, Mich. General Secretary-Treasurer, H. Richter, Detroit; Assistant Secretary, S. G. Barger, Detroit; General Organizer, Adolf S. Carm, Chicago, Ill.

PREAMBLE—The working class and the employing class have nothing in common.

Between these two classes a struggle must go on until all the toilers come together on the political, as well as on the industrial field, and take and hold that which they produce by their labor through an economic organization of the working class, without affiliation with any political party.

The rapid gathering of wealth and the centring of the management of industries into fewer and fewer hands make the trades unions unable to cope with the ever-growing power of the employing class, because the trades unions foster a state of things which allows one set of workers to be pitted against another set of workers in the same industry, thereby helping defeat one another in wage wars. The trades unions aid the employing class to mislead the workers into the belief that the working class have interests in common with their employers.

Excerpts from Constitution and By-Laws follow:

The Industrial Workers of the World shall be composed of actual wage-workers brought together in an organization embodying thirteen national industrial departments, national industrial unions, local industrial unions, local recruiting unions, industrial councils and individual members.

A national industrial union shall be comprised of the local industrial unions of the various localities in America in a given industry.

The industrial departments shall consist of not less than ten local unions, aggregating a membership of not less than ten thousand members. The industrial departments shall be sub-divided in industrial unions of closely kindred industries in the appropriate organizations for representation in the departmental administration. The departments included are: Department of Mining Industry; Transportation Industry; Metal and Machinery Industry; Glass and Pottery Industry; Food-Stuffs Industry; Brewery, Wine and Distillery Industry; Floricultural, Stock and General Farming Industries; Building Industry; Textile Industries; Leather Industries; Wood Working Industries; Public Service Industries; Miscellaneous Manufacturing.

The annual convention shall be held on the third Monday in September of each year at such place as may be determined by previous convention.

Individual members may be admitted to membership-at-large in the organization on payment of 50 cents initiation fee and 25 cents per month dues, together with assessments.

None but actual wage-workers shall be members of the Industrial Workers of the World. No member of the Industrial Workers of the World shall be an officer in a pure and simple trade union. No member of one industrial or trade organization in the Industrial Workers of the World can at the same time hold a card in another industrial or trade organization of this body. No workingman or workingwoman shall be excluded from membership because of creed or color.

COMMISSION ON INDUSTRIAL RELATIONS.
(WASHINGTON, D. C.—Field Headquarters, Chicago, Ill.)

ACT of Congress approved August 23, 1912:

Sec. 4. That the commission shall inquire into the general condition of labor in the principal industries of the United States, including agriculture, and especially in those which are carried on in corporate forms; into existing relations between employers and employes; into the effect of industrial conditions on public welfare and into the rights and powers of the community to deal therewith; into the conditions of sanitation and safety of employes and the provisions for protecting the life, limb and health of the employes; into the growth of associations of employers and of wage-earners and the effect of such associations upon the relations between employers and employes; into the extent and results of methods of collective bargaining; into any methods which have been tried in any State or in foreign countries for maintaining mutually satisfactory relations between employes and employers; into methods for avoiding or adjusting labor disputes through peaceful and conciliatory mediation and negotiations; into the scope, methods and resources of existing bureaus of labor and into possible ways of increasing their usefulness; into the question of smuggling or other illegal entry of Asiatics into the United States or its insular possessions, and of the methods by which such Asiatics have gained and are gaining such admission, and shall report to Congress as speedily as possible with such recommendation as said commission may think proper to prevent such smuggling and illegal entry. The commission shall seek to discover the underlying causes of dissatisfaction in the industrial situation and report its conclusions thereon.

Frank P. Walsh, Chairman, Kansas City, Mo.; Prof. John R. Commons of Madison, Wis.; Mrs. J. Borden Harriman, New York City; Harris Weinstein, Sacramento, Cal.; S. Thruston Ballard, Louisville, Ky.; John B. Lennon, Bloomington, Ill.; James O'Connell, Washington, D. C., and Austin B. Garretson, Cedar Rapids, Iowa. One vacancy when ALMANAC was printed. Secretary, Lewis K. Brown.

In 1914 the commission held hearings covering Washington, D. C., April: General Industrial Conditions, Collective Bargaining, etc., etc. New York City, May and June: Employment Offices and Unemployment; the American Federation of Labor, the Socialist Party, and the Industrial Workers of the World; State Mediation and Arbitration of Industrial Disputes; the Building Trades of New York City; Industrial Education, Apprenticeship and the Administration of Child Labor laws; the Men's Garment Trade of New York City; the Dock Workers of New York City; the Department Stores of New York City.

Paterson, N. J., June: Industrial Conditions and Relations in Paterson. Philadelphia, Pa., June: General Industrial Conditions and Relations; the Co-operative Plan of the Philadelphia Rapid Transit Co.; the Metal Trades of Philadelphia; the Women's Garment Industry; Industrial Education and Vocational Training; the Glass and Pottery Industries.

the subjects enumerated, in the following cities: Boston, Mass., July: The Smuggling of Asiatics into the United States.

Chicago, Ill., July: Industrial Conditions and Relations in Chicago.

Lead, S. Dak., August: Industrial Conditions in Lead.

Butte, Mont., August: Industrial Conditions in the Mining Industry.

Seattle, Wash., August: General Industrial Conditions, Logging Camps, etc.; Asiatic Smuggling.

Portland, Ore., August: General Industrial Conditions and the Fishing Industry.

San Francisco, Cal., August: Open and Closed Shop; Seasonal Labor Problem; Unemployment; Labor Conditions in Construction Camps; Collective Bargaining; Industrial Accident Compensation.

Los Angeles, Cal., September: General Industrial Conditions in Southern California.

CHILDREN'S BUREAU.

DEPARTMENT OF LABOR.

CHIEF of Bureau, Miss Julla C. Lathrop (\$5,000); Lewis Merliam, Assistant Chief (\$2,400).

The Children's Bureau was created by an act of April 9, 1912, to investigate and report upon all matters pertaining to the welfare of children and child-life among all classes of our people, and especially to investigate the questions of infant mortality, the birth rate, orphanage, juvenile courts, desertion, dangerous occupations, accidents and diseased children, employment and legislation affecting children in the several States and Territories.

The staff for the first two fiscal years of the bureau's existence (to June 30, 1914) consisted of fifteen persons, and a yearly appropriation of \$25,640. For the fiscal year beginning July 1, 1914, an appropriation of \$164,640 was made by Congress, providing for a staff of seventy-six persons. With the new staff and appropriation the organization of the bureau falls into certain divisions, as an industrial division, a social service division, a division on sanitation, a statistical division, and a division of exhibits.

The bureau has issued the following publications:

First Annual Report of the Chief, Children's Bureau, 1913. 20 pp., 1914. Second Annual Report, 1914.

Infant Mortality, Series No. 1, Baby-Saving Campaigns: A preliminary report on what American cities are doing to prevent infant mortality. 93 pp., 4th ed., 1913. To be followed by reports of results of investigations in typical localities through the United States. Series No. 2, New Zealand Society for Health of Women and Children: An example of methods of baby-saving work in small towns and rural communities. 19 pp., 1914. Series No. 3, Infant Mortality in Johnstown, Pa.: Results of a field study into the social causes of infant mortality based on births in the calendar year 1911. 1914.

Care of Children, Series No. 1, Prenatal Care: Designed for the use of the expectant mother. 41 pp., 3d ed., 1913. Series No. 2, Infant Care: Covering the care of the child through the second year. 1914.

Handbook of Federal Statistics, Part I.: Number of children in the United States, with their sex, age, race, nativity, parentage, and geographic distribution. 106 pp., 2d ed., 1913.

Dependent Children, Series No. 1, Laws Relating to Mothers' Pensions in the United States, Denmark and New Zealand. 1914.

Industrial Series, No. 1, Child Labor Legislation in the United States. 1914.

Industrial Series, No. 2, Administration of Child Labor laws: Part 1—Administration of Employment Certificate law in Connecticut. Part 2—Administration of the Employment and Education Certificate Law in Massachusetts. Part 3—Administration of the Employment Certificate law in New York. Part 4—Administration of the Employment Certificate law in Maryland. 1914.

Birth Registration, An Aid in Preserving the Lives and Rights of Children: Showing need for more efficient system of birth registration in the United States and giving examples of various methods now being followed to secure better results in registration.

These publications may be obtained, free of charge, by writing to the Chief of the Children's Bureau, Washington, D. C.

THE NATIONAL CIVIC FEDERATION.
OFFICE, 1 MADISON AVENUE, NEW YORK.

An organization of prominent representatives of capital, labor, and the general public formed as the direct outgrowth of conventions held in Chicago and New York in 1900-1901. Its purpose is to organize the best brains of the nation in an educational movement seeking the solution of some of the great problems related to social and industrial progress; to provide for study and discussion of questions of national import; to aid thus in the crystallization of the most enlightened public opinion; and when desirable, to promote legislation in accordance therewith. At the present time the work of the federation is carried on through the following agencies:

(1) The Industrial Conciliation Department dealing entirely with strikes, lockouts and trade agreements. Its membership includes representatives of the general public and the leading organizations of employers and wage-earners. The services of this department have been enlisted in more than five hundred cases involving every phase of industrial controversy.

(2) The Industrial Economics Department, organized to promote discussion of practical economic and social problems. It is now making a survey of the changes in the social, industrial, and economic conditions in this country in the last thirty years.

(3) Welfare Department, composed of employers of labor in stores, factories, mines and on railroads, and officials who have to do with the working conditions of public employes, Chairmen of boards of health, heads of departments of public safety, leading physicians connected with public hospitals, heads of charity boards and others. It is devoted to securing improvements in the working and living conditions of the employé by the employer.

(4) The Woman's Department, composed largely of women who are themselves stockholders or who through family relationships are financially interested in industrial organizations. The object of this department is to use its influence in securing needed improvements in the working and living conditions of women and men wage-earners in the various industries and governmental institutions, and to co-operate, when practicable, in the general work of the federation.

(5) The Department on Compensation for Industrial Accidents and Their Prevention, composed of employers, representative labor men, attorneys, insurance experts, economists, State officials, members of State compensation commissions, and others concerned. Its object is: To advocate the amendment of State laws on employers' liability with a view to securing uniform provisions looking toward compensation for industrial accidents, and to look into means of preventing accidents in commercial and manufacturing enterprises. Joint Commission to Study Operation State Laws: Cyrus W. Phillips, J. Walter Lord, John Mitchell, James Duncan, Louis B. Schram, Otto M. Eidlitz.

(6) Social Insurance Department: To investigate the need for uniformity of State legislation governing insurance plans relating to sickness, death benefits for widows and orphans, old-age pensions or unemployment. Committee on Preliminary Inquiry: J. W. Sullivan, Chairman, representing wage-earners; Arthur Williams, representing employers; P. Tecumseh Sherman, attorney, social insurance specialist.

(7) Department on Regulation of Combinations and Trusts: Working for co-ordination of Federal and State laws and unification of the latter.

(8) Department on Regulation of Interstate and Municipal Utilities: Has published "Commission Regulation of Public Utilities," a compilation and analysis of laws of forty-three States and of the Federal Government for the regulation by central commissions of railroads and other public utilities. Is drafting a model bill for uniform State legislation on the subject.

(9) The Pure Food and Drugs Department is composed of representatives of State food and dairy departments, public health associations and organizations of physicians, farmers, labor, and food and drug manufacturers, as well as large individual employers of labor. Its object is to promote uniform legislation on this subject among the States, work for effective co-operation between State and Federal Governments, stimulate the public to demand a better enforcement of existing laws and to make evident to employers how their employes too frequently are defrauded in both quality and measurement.

OFFICERS AND EXECUTIVE COUNCIL.

President, Seth Low; Vice-Presidents, Samuel Gompers, Benjamin I. Wheeler; Treasurer, Isaac N. Seligman; Chairman Executive Council, Ralph M. Easley; Chairman Welfare Department, William R. Willcox; Chairman Department on Reform in Legal Procedure, Alton B. Gardner, Hamilton, Mass.; Mrs. Mary Hatch Willard, New York City; First Vice-Chairman, Mrs. Robert W. Lovett, Boston, Mass.; Second Vice-Chairman, Mrs. Charles E. Hamlin, Washington, D. C.; Third Vice-Chairman, Mrs. Alfred E. Bates, Washington, D. C.; Fourth Vice-Chairman, Mrs. Bayard Henry, Philadelphia, Pa.; Fifth Vice-Chairman, Miss Maud Rives Borland, New York City; Sixth Vice-Chairman, Mrs. Eva McDonald Valesh, New York City; Chairman Metropolitan Section for New York and New Jersey, Mrs. Francis McNeill-Bacon, Jr., New York City; Chairman District of Columbia Section, Mrs. Archibald Hopkins, Washington, D. C.; Chairman Virginia and West Virginia Section, Mrs. J. Allison Hodges, Richmond, Va.; Chairman Massachusetts and Rhode Island Section, Mrs. George T. Rice, Boston, Mass.; Chairman Alabama and Mississippi Section, Mrs. Cyrus Pittman Orr, Birmingham, Ala.; Chairman North and South Carolina Section, Mrs. B. Frank Mebane, Spray, N. C.; Chairman Georgia Section, Mrs. John K. Otley, Atlanta, Ga.; Chairman Florida Section, Mrs. William Brooks Young, Jacksonville, Fla.; Chairman National Industrial Employés' Committee, Mrs. H. S. B. Beale, Washington, D. C.; Chairman National Government Employés' Committee, Mrs. Henry A. Peckham, Washington, D. C.; Chairman National Vacation Committee, Mrs. Rogers H. Bacon, New York City; Executive Secretary, Mrs. Lyndsay Van Rensselaer.

NATIONAL ASSOCIATION OF MANUFACTURERS.

President, George Pope; Secretary, George S. Boudinot; Assistant Secretary, W. M. Benney; Treasurer, Alonzo B. See; General Manager, J. Phillip Bird. Headquarters, 30 Church Street, New York.

DECLARATION OF LABOR PRINCIPLES.

1. Fair dealing is the fundamental and basic principle on which relations between employés and employers should rest.
2. The National Association of Manufacturers is not opposed to organizations of labor as such, but it is unalterably opposed to boycotts, blacklists and other illegal acts of interference with the personal liberty of employer or employé.
3. No person should be refused employment or in any way discriminated against on account of membership or non-membership in any labor organization, and there should be no discriminating against or interference with any employé who is not a member of a labor organization by members of such organizations.
4. With due regard to contracts, it is the right of the employé to leave his employment whenever he sees fit, and it is the right of the employer to discharge any employé when he sees fit.
5. Employers must be free to employ their work people at wages mutually satisfactory, without interference or dictation on the part of individuals or organizations not directly parties to such contracts.
6. Employers must be unmolested and unhampered in the management of their business in determining the amount and quality of their product, and in the use of any methods or systems of pay which are just and equitable.
7. In the interest of employés and employers of the country, no limitation should be placed upon the opportunities of any person to learn any trade to which he or she may be adapted.
8. The National Association of Manufacturers disapproves absolutely of strikes and lockouts, and favors an equitable adjustment of all differences between employers and employés by any amicable method that will preserve the rights of both parties.
9. Employés have the right to contract for their services in a collective capacity, but any contract that contains a stipulation that employment should be denied to men not parties to the contract is an invasion of the constitutional rights of the American workman, is against public policy, and is in violation of the conspiracy laws. This association declares its unalterable antagonism to the closed shop and insists that the doors of no industry be closed against American workmen because of their membership or non-membership in any labor organization.
10. The National Association of Manufacturers pledges itself to oppose any and all legislation not in accord with the foregoing declaration.

Permanent Court of Arbitration of The Hague,**PROVIDED FOR BY THE CONVENTION SIGNED AT THE
HAQUE JULY 29, 1899.**

(The following list corrected to September 1, 1914.)

 His Excellency Mirza Hassan-Khan Muchir ul Devlet, formerly Envoy Extraordinary and Minister Plenipotentiary at Petrograd (St. Petersburg).
- Peru**—Dr. Ramon Ribeyro, Member of the Supreme Court of Justice, formerly Minister of State.
 Dr. Luis F. Villarain, Rector of the University of San Marcos, Member of the Supreme Court of Justice, formerly Minister of State.
 His Excellency Dr. Manuel Alvarez Calderon, Minister at Berne, formerly Envoy Extraordinary and Minister Plenipotentiary at Brussels.
 Mr. Lizardo Almazora, LL. D., Judge of the Supreme Court, formerly Minister of Justice.
- Portugal**—His Excellency Fernando Matozo Santos, formerly Peer of the Realm, and Minister of Finances and Foreign Affairs.
 His Excellency Mr. Francisco Antonio da Veiga Belrao, Councillor of State, formerly Minister for Foreign Affairs and of Justice.
 His Excellency Mr. José Capello Franco Frazao, formerly President of the Chamber of Deputies.
 His Excellency Mr. Artur Pinto de Miranda Montenegro, LL. D., formerly Minister of Justice.
- Rumania**—Mr. Theodore G. Rosetti, formerly President of the Council of Ministers, formerly President of the High Court of Cassation and Justice.
 Mr. Jean Kallinderu, LL. D., formerly President of the High Court of Cassation and Justice.
 Mr. Jean N. Lahovary, Minister of Agriculture, of Industry, of Commerce and of Domain, formerly Envoy Extraordinary and Minister Plenipotentiary, formerly Minister for Foreign Affairs.
 Mr. Constantin G. Discescu, formerly Minister of Worship and Public Instruction.
- Russia**—Mr. A. Sabouloff, Secretary of State, Member and President of the First Department of the Council of the Empire, Senator, Privy Councillor.
 Mr. Tagantzeff, Member of the Council of the Empire, Senator, Privy Councillor.
 Baron Taube, Permanent Member of the Council of the Ministry for Foreign Affairs, Professor of International Law at the Imperial University of Petrograd (St. Petersburg), Councillor of State.
- Salvador**—Mr. Manuel Delgado, LL. D., formerly Minister for Foreign Affairs, formerly Envoy Extraordinary and Minister Plenipotentiary, formerly Rector of the National University.
 Mr. Salvador Gallegos, LL. D., formerly Minister for Foreign Affairs, formerly Envoy Extraordinary and Minister Plenipotentiary.

PERMANENT COURT OF ARBITRATION OF THE HAGUE—*Continued.*

- Mr. Salvador Rodriguez Gonzalez, LL. D., formerly Minister for Foreign Affairs, of Justice and Public Charities.
- Mr. Alonso Reyes Guerra, LL. D., Consul-General at Hamburg, Germany.
- Serbia**—Mr. George Pavlovitch, formerly Minister of Justice, President of the Court of Cassation, Professor of Law of the University of Belgrade.
- Dr. Milenko R. Vesnitch, LL. D., formerly Minister of Justice, Envoy Extraordinary and Minister Plenipotentiary at Paris.
- Siam**—Mr. Corragioni d'Orelli, LL. D., Counsellor of Legation at Paris.
- Mr. Jens I. Westergaard, General Adviser to the Siamese Government.
- Spain**—His Excellency Mr. Eduardo Dato y Tradiez, Deputy, formerly Minister of Justice. His Excellency Mr. R. M. de Labra, Senator, Barrister at the Court of Cassation. His Excellency Mr. Manuel Garcia Prieto, LL. D., formerly Minister of State and Minister of Justice.
- Mr. Felipe Sanchez Roman, Senator, formerly Sub-Secretary of Grace and Justice.
- Sweden**—Mr. Knut Hjalmar Leonard de Hammarskjold, LL. D., formerly Minister of Justice, and Minister Plenipotentiary at Copenhagen.
- Mr. Johan Frederik Ivar Afzelius, LL. D., Member of the First Chamber of the Diet.
- Mr. Johannes Hellner, LL. D., formerly Minister, Member of the Supreme Court.
- Baron Carl Nils Daniel Bildt, D. Litt., Envoy Extraordinary and Minister Plenipotentiary to Italy.
- Switzerland**—His Excellency Mr. Charles Edouard Lardy, LL. D., Swiss Minister at Paris. Mr. Eugene Huber, LL. D., Professor at the University of Berne. Col. Leo Weber, LL. D., formerly Federal Judge, Colonel of the Military Justice, Auditor-in-Chief of the Swiss Army.
- Turkey**—His Highness Ibrahim H. Pasha, formerly Ambassador at Rome. His Excellency Yorghiadis Effendi, Senator. His Excellency Said Bey, formerly Vice-President of the Council of State. His Excellency Gabriel Effendi Nouradounghian, Senator.
- United States**—Mr. George Gray, United States Circuit Judge, formerly United States Senator.
- Mr. Oscar S. Straus, formerly Secretary of Commerce and Labor, Ambassador Extraordinary and Plenipotentiary at Constantinople.
- Mr. Elihu Root, United States Senator, formerly Secretary of War.
- Mr. John Bassett Moore, Professor of International Law at Columbia University, formerly Counsellor of the Department of State.
- Uruguay**—Mr. Juan Zorrilla de San Martin, LL. D., formerly Minister Plenipotentiary at Madrid, Lisbon and Paris.
- Mr. José Pedro Massera, LL. D., Member of the Chamber of Deputies.
- Mr. Manuel B. Otero, Barrister, Senator.
- Venezuela**—Dr. Carlos Leon, LL. D., formerly Minister of Public Instruction, formerly Member of the Court of Cassation.
- Dr. Nicomedes Zuloaga, LL. D., formerly Member of the Court of Cassation.
- Dr. Francisco Arroyo Parejo, LL. D., formerly Procuror-General.
- Gen. Manuel Antonio Matos, formerly Senator, formerly Minister of Finance.
- Secretary-General**—Baron Michiels van Verduynen.
- First Secretary of the Court**—Jonkheer W. Roell.
- The Administrative Council**—The Administrative Council consists of the Minister for Foreign Affairs of the Netherlands and the diplomatic representatives at The Hague of the ratifying powers.

DECISIONS RENDERED BY THE PERMANENT COURT OF ARBITRATION AT THE HAGUE.

- October 14, 1902—In the matter of the case of the Plus Fund of the Californias between the United States and Mexico.
- February 22, 1904—Respecting the preferential claims of the creditor nations of Venezuela under the protocols of May 7, 1903.
- May 22, 1905—In the difference between France, Germany and Great Britain on the one hand, and Japan on the other, respecting leases held in perpetuity.
- May 22, 1909—In the matter of the Casablanca dispute between France and Germany.
- August 8, 1909—In the matter of the dispute between Great Britain and France, respecting the right of certain Muscat Dhows to fly the French flag.
- October 23, 1909—Respecting the maritime boundary between Norway and Sweden.
- Sept. 7, 1910—In the North Atlantic Fisheries case between the United States and Great Britain.
- October 25, 1910—In the Orinoco steamship case between the United States and Venezuela.
- February 24, 1911—In the "Savarkar" case between Great Britain and France.
- Nov. 11, 1912—In the "Interest" case between Russia and Turkey.
- May 3, 1912—In the "Canevaro" case between Italy and Peru.
- May 6, 1913—In the "Carthage" case between France and Italy.
- May 6, 1913—In the "Manouba" case between France and Italy.

INTERNATIONAL TRIBUNALS OF EGYPT.

In 1876, as the result of negotiations between the Ottoman and Egyptian Governments and the various Christian powers having representatives at Cairo, certain courts were created in Egypt for the trial of civil and commercial causes arising between natives and foreigners of different nationality, as well as all questions of real estate between any person and suits of foreigners against the Egyptian Government and members of the Khedival family. These mixed tribunals, in civil matters within their exclusive jurisdiction, superseded the consular courts. A mixed tribunal consists of five Judges, three of whom are foreigners and two natives. The foreign Judges are appointed by the Khedive on the recommendation of the great powers, each of which is represented by from one to three Judges. There are three tribunals of original jurisdiction (first instance), one each at Cairo, Alexandria and Mansura, and a Court of Appeals at Alexandria. The United States is represented in these courts by the following Judges:

Court of Appeals.—Somerville P. Tuck of New York (appointed 1908; appointed to Court of First Instance 1904).

Court of First Instance.—William G. Van Horne of Utah (appointed 1902); Pierre Crabités of Louisiana (appointed 1911).

The Panama Canal.

THE organization for the completion, maintenance, operation, government and sanitation of the Panama Canal and its adjuncts and the government of the Canal Zone consists of the following departments, offices and agencies, and such others as may be established by the Governor of the Panama Canal on the Isthmus or elsewhere with the approval of the President of the United States, all to be under the direction of the Governor, subject to the supervision of the Secretary of War:

Executive Department—Headquarters, Culebra; Col. Geo. W. Goethals, U. S. A., Governor; Robert E. White, Secretary; C. A. McIlvaine, Executive Secretary; W. F. Copeland, Chief Clerk; John K. Baxter, Chief Division of Civil Affairs, Ancon, Canal Zone; Capt. Chas. W. Barber, U. S. A., Chief Division of Police and Fire, Ancon, Canal Zone; A. R. Lang, Superintendent Division of Schools, Ancon, Canal Zone; William K. Jackson, District-Attorney, Ancon, Canal Zone.

Department of Operation and Maintenance—Headquarters, Culebra; Col. H. F. Hodges, Engineer of Maintenance; A. B. Nichols, Office Engineer; Edward Schildhauer, Electrical and Mechanical Engineer; Capt. W. H. Rose, Electrical Engineer, Balboa; George M. Wells, Resident Engineer, Gatun; H. H. Rousseau, Engineer of Terminal Construction, Culebra; F. H. Cooke, Designing Engineer; T. B. Mönliche, Engineer of Docks, Cristobal; J. A. Walker, Superintendent, Balboa; W. G. Thompson, Superintendent, Cristobal; W. G. Comber, Resident Engineer, Paraiso; D. C. Nutting, Jr., Superintendent Mechanical Division, Balboa; Capt. Hugh Rodman, Superintendent of Transportation, Ancon; Commander D. E. Dismukes, Captain of the Port, Cristobal; Lieut.-Commander H. V. Butler, Captain of the Port, Balboa; W. F. Beyer, Assistant-Engineer Lighthouse Construction, Ancon; Board of Local Inspectors, Commander Dismukes, Lieut.-Commander Butler J. Macfarlane, headquarters, Ancon; First Lieut. A. H. Acher, Assistant Engineer Division of Fortifications, Culebra.

Supply Department—Capt. R. E. Wood, Chief Quartermaster, Culebra; Capt. F. O. Whitlock, Assistant Chief Quartermaster, Cristobal; Major W. R. Grove, Inspector, Cristobal; C. H. Mann, Depot Quartermaster, Cristobal; Benjamin L. Jacobson, Depot Commissary, Cristobal.

Accounting Department—Headquarters, Emplore; H. A. A. Smith, Auditor; T. L. Clear, Collector; John H. McLean, Paymaster; J. H. Helmer, Claim Officer.

Health Department—Lieut.-Col. Charles F. Mason, Chief Health Officer, Ancon; Major Percy M. Ashburn, General Inspector, Ancon; Lieut.-Col. G. D. Deshon, Superintendent Ancon Hospital; Dr. M. C. Guthrie, Chief Quarantine Officer, Ancon; Dr. M. E. Connor, Health Officer of Panama, Ancon; Capt. D. W. Harmon, Health Officer of Colon, Cristobal.

Washington Office—Major F. C. Boggs, U. S. A., General Purchasing Officer and Chief of Office; A. L. Flint, Assistant Chief of Office.

Panama Railroad Company—C. H. Motsett, Superintendent, Cristobal; F. R. Blunt, Superintendent Railroad Transportation, Ancon. Office in the United States, No. 24 State street, New York.

Courts—William H. Jackson, District Judge, Ancon; E. M. Goolsby, Clerk, Ancon; W. H. May, Marshal, Ancon; S. E. Blackburn, Magistrate, Balboa; John W. Thompson, Magistrate, Cristobal.

The Canal has a summit elevation of 85 feet above the sea. It is about 50 miles in length from deep water in the Caribbean Sea to deep water in the Pacific Ocean. The distance from deep water to the shore line in Limon Bay is about $4\frac{1}{2}$ miles, and from the Pacific shore line to deep water is about 4 miles; hence the length of the Canal from shore to shore is approximately $4\frac{1}{2}$ miles. The channel ranges in width from 300 to 1,000 feet. The average bottom width of the channel in this project is 649 feet, and the minimum width is 300 feet. The Canal has a minimum depth of 41 feet. It is estimated that the time required for the passage of a ship of medium size through the entire length of the Canal will be from $9\frac{1}{2}$ to 10 hours, and for larger vessels from $10\frac{1}{2}$ to 11 hours.

The Gatun Dam along the crest is 8,000 feet long, including the spillway, or about $1\frac{1}{2}$ miles, and 2,100 feet wide at its greatest width. The crest of the dam is at an elevation of 115 feet above sea level, or 30 feet above the normal level of Gatun Lake, and 100 feet wide. The width of the dam at the normal water level of the lake, *i. e.*, 85 feet above sea level, is about 388 feet.

The Panama Canal was opened to vessels not needing more than 30 feet of water on August 15, 1914. The official opening, with formal ceremonies, is expected to take place in March, 1915.

Appropriations and expenditures to June 30, 1913:
 Receipts and Expenditures—Appropriations by Congress, \$349,505,419; miscellaneous, \$8,000,-296; total receipts, \$357,505,715. Net Disbursements—\$312,361,840; balance available June 30, 1913, \$45,143,875; total accounted for, \$357,505,715.

Distances from New York to San Francisco by water, former route, 13,400 miles; via Panama Canal, 5,300 miles. New York to Hawaii, former all-water route, 12,800 miles; by Canal, 7,000 miles. New York to Manila via Hawaii, former route, 17,800 miles; by Canal 12,000 miles.

The Canal brings Callao 4,320 miles nearer Liverpool by steamer, reducing the distance from 10,230 miles to 5,910 miles and saving about 14 days in time. To Valparaiso the shortening in distance is 1,813 miles, making it 7,185 instead of 8,998, and the saving in time is about 6 days. By its means the United States has an all-sea route, which is from 2,500 to 3,000 miles shorter than routes from Europe. New York, via the Canal, is 3,779 miles from Callao, instead of 9,769 as formerly, while New Orleans is only 3,264 miles from Callao.

Between New York and Yokohama the reduction is 3,729 miles, and that Japanese city is brought nearer to New York than Liverpool by 1,805 miles. Shanghai is 1,629 miles nearer to New York. Sydney, Australia, is 3,806 miles nearer to New York, and the distance between the two cities is 2,382 miles less than the distance between Sydney and Liverpool. Wellington, New Zealand, is 2,542 miles nearer New York, and the distance between them is 2,759 miles less than between Wellington and Liverpool. Between New Zealand and Europe there is an average saving of 1,600 miles.—(From United States Consular Report.)

PANAMA CANAL TOLL RATES.

A PROCLAMATION BY THE PRESIDENT OF THE UNITED STATES.

I, William Howard Taft, President of the United States of America, by virtue of the power and authority vested in me by the act of Congress, approved August 24, 1912, to provide for the opening, maintenance, protection and operation of the Panama Canal and the sanitation and government of the Canal Zone, do hereby prescribe and proclaim the following rates of toll to be paid by vessels using the Panama Canal:

1. On merchant vessels carrying passengers or cargo, one dollar and twenty cents (\$1.20) per net vessel ton—each one hundred (100) cubic feet—of actual earning capacity.
2. On vessels in ballast without passengers or cargo, forty (40) per cent. less than the rate of tolls for vessels with passengers or cargo.

THE PANAMA CANAL TOLL RATES—Continued.

3. Upon naval vessels, other than transports, colliers, hospital ships and supply ships, fifty (50) cents per displacement ton.
 4. Upon Army and Navy transports, colliers, hospital ships and supply ships, one dollar and twenty cents (\$1.20) per net ton, the vessels to be measured by the same rules as are employed in determining the net tonnage of merchant vessels.
 The Secretary of War will prepare and prescribe such rules for the measurement of vessels and such regulations as may be necessary and proper to carry this proclamation into full force and effect. Washington, D. C., November 14, 1912.

As tolls are payable on the net tonnage of the vessel and are not affected by the quantity or kinds of cargo she carries, it is impracticable to state what the rate of freight on particular classes of goods shipped through the Panama Canal will be. This would seem to be a matter that will be determined to a large extent by future events, and, in any case, information in reference thereto should be secured from steamship interests.

The Panama Canal act of 1912, providing for the permanent government of the Canal Zone and other regulations, was amended in a bill signed by the President on June 15, 1914, known as the "Panama Tolls Exemption Repeal bill," whereby the clause exempting American coastwise vessels from paying tolls was repealed. Full text of the Panama Canal act of 1912 was printed in the 1914 edition of THE WORLD ALMANAC.

PANAMA CANAL NEUTRAL.

ALL NAVIES OF THE WORLD MAY USE IT DURING WAR.

It is provided by treaties that the Panama Canal, like the Suez Canal, shall remain absolutely neutral. It "shall be free and open to the vessels of commerce and war of all nations and shall never be blockaded, nor shall any right of war be exercised nor any act of hostility be committed within it."

Strict rules of neutrality have been devised for the passage of war vessels of the nations engaged in conflict. The warships will be compelled to pass through with the least possible delay and with only such intermissions as may result from the necessities of the service.

No belligerent may "embark or disembark troops, munitions of war or warlike materials in the Canal, except in the case of accidental hindrance of the transit, and in such case the transit shall be resumed with all possible despatch."

The treaty provides that no warship will have the right to exercise the law of search on a commercial ship in transit through the Canal and the provision likewise protects all ships within three marine miles of either terminal.

Ships carrying contraband of war in the Atlantic or Pacific do so at their own risk, but warships may not remain in the three-mile zone longer than twenty-four hours, and the treaty stipulates that "a vessel of one belligerent shall not depart within twenty-four hours from the departure of a vessel of war of the other belligerent."

TERRITORIAL EXPANSION OF THE UNITED STATES.

ADDITIONS to the original territory of the Union, include Alaska, Hawaiian and Philippine Islands, Samoa and Guam, in the Pacific, and Porto Rico and Pine Islands, in the West Indies, and the Panama Canal Zone. The area of the original thirteen States (years 1783-1817) comprised 892,135 square miles.

The additions to the territory of the United States subsequent to the peace treaty with Great Britain of 1783 are shown by the following table:

ADDITIONS TO THE TERRITORY OF THE UNITED STATES FROM 1800 TO 1900.

TERRITORIAL DIVISION.	Year	Area Added, S. Miles.	TERRITORIAL DIVISION.	Year	Area Added, S. Miles.	TERRITORIAL DIVISION.	Year	Area Added, S. Miles.
Louisiana purchase...	1803	827,967	Gadsden purchase...	1853	29,670	Add'l Philippiues	1901	68
Gained through treaty with Spain	1819	13,435	Alaska.....	1867	590,884	Panama Canal Zone.	1904	436
Florida.....	1819	53,686	Hawaiian Islands...	1898	6,449	Total added area...		2851,171
Texas.....	1845	389,166	Porto Rico.....	1898	3,435	Total United States including original 13 States,		3,743,306
Oregon.....	1846	286,641	Guam.....	1398	210			
Mexican cession.....	1848	529,189	Philippine Islands...	1898	114,958			
			Samoa.....	1899	77			

Payments for above were made by the United States as follows: Louisiana purchase, \$15,440,000; Gadsden purchase, \$10,000,000; Alaska, \$7,200,000; Florida, \$5,000,000; Hawaiian Islands, public debt assumed to the amount of \$4,000,000.

By treaty of February 2, 1848, a payment of \$8,250,000 was made to Mexico in consideration of the extension acquired by the boundaries of the United States, as defined in that treaty.

The treaty of Paris, of December 10, 1898, terminating the Spanish-American war, provided for a money payment to Spain (for relinquishing claim to Porto Rico, Guam and Philippine Islands) of \$20,000,000, and a subsequent treaty of November 7, 1900, provided for a further payment of \$100,000 for other Philippine Islands.

By the first treaty the Philippine Islands were ceded to the United States, and the later treaty of November 7, 1900, ceded certain outlying islands of the Philippines not included in the first cession.

A payment of \$10,000,000 was made to the Republic of Panama under treaty stipulations governing the control of the Panama Canal strip.

No money payments were made upon the acquisition of the other territories mentioned in the list.

The United States did not acquire, by the Isthmian Canal Convention of November 18, 1903, any title to territory in the Republic of Panama, but merely a perpetual right of occupation, use, and control of and over a zone of land ten miles in width. For this privilege it paid to the Republic of Panama the sum of \$10,000,000, and undertook to pay the sum of \$250,000 annually so long as such occupancy continued, such payments beginning on February 26, 1913.

Insular Possessions of the United States.

THE PHILIPPINES.

THE Philippine group, lying off the southern coast of Asia, extending almost due north and south from Formosa to Borneo and the Moluccas, between longitude 116° 40' and 126° 34', and latitude 4° 40' and 21° 10', approximately number about 3,141 islands and islets, of which 1,668 are listed by name, while 1,473 are, so far as known, without names. The actual land area is about 115,026 square miles. The six New England States, New York, and New Jersey have about an equal area. The island of Luzon, on which the capital city (Manila) is situated, is the largest, most populous, and wealthiest member of the group, being about the size of the State of New York. Mindanao is nearly as large, but its population is very much smaller. There are two islands with areas exceeding 10,000 square miles each, namely, Luzon with 40,869, and Mindanao with 36,292. There are nine islands each of which has an area of more than 1,000 square miles and less than 10,000. There are twenty between 100 and 1,000 square miles, seventy-three between 10 and 100 square miles, and two hundred and sixty-two between 1 and 10 square miles. The remaining number, 2,775, or seven-eighths of all, have areas less than a square mile each. The areas of the largest islands are: Luzon, 40,869; Mindanao, 36,292; Samar, 5,031; Panay, 4,611; Mindoro, 3,851; Leyte, 2,722; Negros, 4,881; Cebu, 1,762.

The islands with large populations are: Luzon, with 3,798,507 inhabitants, of whom 223,506 are uncivilized; Panay, 743,646 (14,933 uncivilized); Cebu, 592,247 (all civilized); Mindanao, 499,634 (252,940 uncivilized); Negros, 460,776 (21,217 uncivilized); Leyte, 357,641 (all civilized); Bohol, 243,148 (all civilized); Samar, 222,690, (688 uncivilized). The capital of the Archipelago is Manila, with 234,409 inhabitants. Other towns are: In Luzon, *Banan* (39,094), *Lipa* (37,934), *Iloag* (34,454), *Batangas* (33,131), *San Carlos* (27,166), *Tabaco* (21,946); in Samar, *Calbayog* (15,895); in Panay, *Janiuay* (20,738), *Miagao* (20,656), *Iloilo* (19,054); in Cebu, *Argao* (35,448), *Cebu* (31,079), *Barili* (31,617), *Carcar* (31,895), *Sibonga* (25,848); in Leyte, *Baybay* (22,990), *Ormoc* (16,128).

A census of the Philippines was taken by the United States Government in 1903 under the auspices of the Census Office. The population returned was 7,635,426. Of this number almost seven millions are more or less civilized. The wild tribes form about 9 per cent. of the entire population. Racially the inhabitants are principally Malays. The civilized tribes are practically all adherents of the Catholic Church, the religion being that introduced into the country by the Spaniards when they took possession of the islands in 1565. The Church has since then been a strong ruling power and the priesthood is numerous. The Moros are Mohammedans and the other wild peoples have no recognized religious beliefs. The total number of non-Christian peoples is 647,740.

The density of population in the Philippines is 67 per square mile. In Continental United States it is 26 per square mile. Foreigners number about 50,000, of whom nearly three-fourths are Chinese. Exclusive of the army there are 8,135 Americans in the islands, nearly one-half being located in the city of Manila. There are about twenty-five different tribes in the islands, speaking fifteen or sixteen distinct dialects, the largest tribe being the Visayans, who form nearly one-fourth of the entire civilized population (3,219,030). The Tagalogs, occupying the provinces in the vicinity of Manila (1,460,695) rank second in numbers, and the Ilocanos (803,942) the third. Education has been practically reorganized by the Americans. The total annual enrolment for the year 1913 was 440,050. The enrolment for September, 1913, was 525,959. The total number of schools is 4,304. One thousand additional primary schools, largely increasing the total enrolment, were opened in 1913. Nine thousand four hundred and eighty-three teachers are employed of whom 658 are Americans and 8,825 Filipinos. English is very generally taught, and the next generation of Filipinos will probably speak that tongue. Pauperism is almost unknown in the islands. In 1902 there were only 1,668 paupers maintained at public charge. Vital statistics are as yet restricted to Manila. Population of Manila is 246,778. The death rate in the city of Manila is 26.91 per thousand. The birth rate is 36.79 per thousand. In 1912 there were 70 newspapers and periodicals published in the islands, 19 being in English, 16 in Spanish, 15 in native dialects, 7 in Spanish and English, 11 in Spanish and native dialects, and 2 in Spanish, English, and native dialects. The assessed real estate property value in 1912 was 484,037,327.10 pesos. The reported value of church buildings, mostly Catholic, is 41,698,710 pesos. The bonded indebtedness of the Philippine Government including the bonded indebtedness of the cities of Manila and Cebu is \$16,125,000.

The climate is one of the best in the tropics. The islands extend from 5° to 21° north latitude, and Manila is in 14° 35'. The thermometer during July and August rarely goes below 79° or above 85°. The extreme ranges in a year are said to be 61° and 97°, and the annual mean 81°.

AGRICULTURE.

Although agriculture is the chief occupation of the Filipinos, yet only one-ninth of the surface is under cultivation. The soil is very fertile, and even after deducting the mountainous areas it is probable that the area of cultivation can be very largely extended and that the islands can support population equal to that of Japan (42,000,000).

The chief products are hemp, rice, corn, sugar, tobacco, coconuts, and cacao, hemp being the most important commercial product and constituting 43 per cent. of the value of all exports. Coffee and cotton were formerly produced in large quantities—the former for export and the latter for home consumption; but the coffee plant has been almost exterminated by insects and the home-made cotton cloths have been driven out by the competition of those imported from England. The rice and corn are principally produced in Luzon and Mindoro and are consumed in the islands. The cacao is raised in the southern islands, the best quality of it at Mindanao. The sugar cane is raised in the Visayas. The hemp is produced in Southern Luzon, Mindoro, the Visayas, and Mindanao. It is nearly all exported in bales. Tobacco is raised in many of the islands, especially Luzon and Negros.

IMPORTS AND EXPORTS.

In the year ending June 30, 1914, the exports of domestic merchandise from the United States to the Philippines were \$27,268,064, and the total imports from the Philippines for the same period were \$18,162,312.

The imports of merchandise from foreign countries, year ending June 30, 1914, were \$27,439,749, and the exports were \$29,190,943. The principal foreign countries trading with the Philippines are Great Britain, French East Indies, China, and Spain.

CIVIL GOVERNMENT OF THE PHILIPPINES.

On July 1, 1902, Congress passed (chapter 1369) "An act temporarily to provide for the administration of the affairs of civil government in the Philippine Islands and for other purposes." Under this act complete civil government was established in the Archipelago, except that portion

Inhabited by Moros, comprising part of Mindanao and the Sulu Islands, and the office of Military Governor was terminated. Wm. H. Taft was appointed Civil Governor by the President, the title being subsequently changed to that of Governor-General. Governor Taft was succeeded by Luke E. Wright in December, 1903, by Henry Clay Ide in 1905, James F. Smith in 1906, W. Cameron Forbes in 1909, and Francis Burton Harrison in 1913. The government was composed of a Civil Governor and seven commissioners, of whom four were Americans and three Filipinos. By act of Congress approved May 11, 1908, the commission was increased by one member, to be appointed by the President, making the commission nine members in all, including the Governor-General, who is President of the Philippine Commission. The Philippine Commission is now composed of five Filipinos and four Americans. There are four executive departments—Interior, Finance, and Justice, Commerce and Police, and Public Instruction. There are thirty-eight provinces, each with a Governor, a Treasurer, and prosecuting attorney (provincial fiscal). Local governments have been established in about 725 towns. The officials consist of a President, Vice-President, and Councilmen (the latter varying in number according to the population) and are elected by the qualified voters of the municipality and serve for four years. The Judiciary consists of a Supreme Court, with seven Judges; Courts of First Instance, Justice of the Peace Courts. There are twenty-six Judicial Districts. In each province there is a Court of First Instance and a Court of the Justice of the Peace in each organized municipality in every province where there is a Court of First Instance. In March, 1907, the President in accordance with the act of Congress, directed the Commission to call a general election of delegates to a Philippine Assembly. The new Assembly was chosen July 30, and was opened October 16 by Secretary of War Taft. It was politically divided as follows: Nacionalists, 31; Progresistas, 16; Independents, 20; Inmediatistas, 7; Independistas, 4; Nacional Independiente, 1; Catolico, 1. The total vote recorded at the election for delegates was 104,000, which is only 1.4 per cent. of the population. The second election was held on November 2, 1909. The number of persons registered was 208,845 and the number of votes cast 192,975, which is 2.81 per cent. of the population. The third election was held on June 4, 1912. Incomplete returns showed 248,154 registered voters and 235,786 votes cast. By act of February 15, 1911, the members of the Philippine Assembly are elected for four years from the 16th day of October following their election, and the resident commissioners for four years, their term of office beginning on March 4 following their election. The next election will take place about June 1, 1916. At the first session of the Sixty-first Congress an act was passed and approved August 5, 1909, readjusting the customs duties on imports from all countries, including the United States, on the basis generally of reductions. By act of Congress approved March 23, 1912, section four of the act of Congress approved July 1, 1902, entitled "An act temporarily to provide for the administration of the affairs of civil government in the Philippine Islands, and for other purposes," was amended to read as follows:—"That all inhabitants of the Philippine Islands, continuing to reside therein who were Spanish subjects on the eleventh day of April, eighteen hundred and ninety-nine, and then resided in said islands, and their children born subsequent thereto, shall be deemed and held to be citizens of the Philippine Islands and as such entitled to the protection of the United States, except such as shall have elected to preserve their allegiance to the Crown of Spain in accordance with the provisions of the treaty of peace between the United States and Spain, signed at Paris, December tenth, eighteen hundred and ninety-eight: *Provided*, That the Philippine Legislature is hereby authorized to provide by law for the acquisition of Philippine citizenship by those natives of the Philippine Islands who do not come within the foregoing provisions, the natives of other insular possessions of the United States, and such other persons residing in the Philippine Islands who could become citizens of the United States, under the laws of the United States if residing therein."

The Philippine Constabulary, which is distributed throughout the Archipelago in 119 stations, consists of 318 officers and 4,480 enlisted men.

There are in operation 590 post-offices, free delivery municipal letter-carrier service in 439 municipalities, 275 money-order offices, and 437 postal-savings banks, with 39,909 accounts. Of the 39,909 depositors, 32,906 are Filipinos.

The total kilometrage of telegraph and cable lines on June 30, 1913, was 9,327,411, and the number of telegraph offices 290. There are also four wireless stations operated. The total kilometrage of railroads in operation is 1,050.1.

Of the legislation enacted by the legislative authority in the islands during the last two years might be mentioned that fixing the gold-standard fund at a sum equal to 35 per cent. of the money of the Government of the Philippine Islands in circulation and available for that purpose, exclusive of the silver certificates in circulation protected by gold reserve; that providing for the apportionment between the insular, provincial and municipal governments of taxes paid by grantees of franchises; that embodying certain provisions concerning the building and operation of railroads, and that providing for the establishment of an irrigation system.

PORTO RICO.

The island of Porto Rico, over which the flag of the United States was raised in token of formal possession on October 18, 1898, is the most eastern of the Greater Antilles in the West Indies and is separated on the east from the Danish island of St. Thomas by a distance of about fifty miles, and from Hayti on the west by the Mona passage, seventy miles wide. Distances from San Juan, the capital, to important points are as follows: New York, 1,411 miles; Charleston, S. C., 1,200 miles; Key West, Fla., 1,050 miles; Havana, 1,000 miles.

The island is a parallelogram in general outline, 108 miles from the east to the west, and from 37 to 43 miles across, the area being about 3,600 square miles, or somewhat less than half that of the State of New Jersey (Delaware has 2,050 square miles and Connecticut 4,990 square miles). The population according to an enumeration made by the United States Government in 1900 showed a population of 953,243, of whom 589,426 are white and 363,817 are colored. The density was 260 to the square mile in 1900; 83.2 per cent. of the population could not read. The population in 1910 is reported as 1,118,012.

Porto Rico is unusually fertile, and its dominant industries are agriculture and lumbering. In elevated regions the vegetation of the temperate zone is not unknown. There are more than 500 varieties of trees found in the forests, and the plains are full of palm, orange, and other trees. The principal crops are sugar, coffee, tobacco, and maize, but oranges, bananas, rice, pineapples, and many other fruits are important products. The largest article of export from Porto Rico is sugar. The next is tobacco. Other exports in order of amount are coffee, fruits, molasses, cattle, timber, and hides.

The principal minerals found in Porto Rico are gold, carbonates, and sulphides of copper and magnetic oxide of iron in large quantities. Lignite is found at Utuado and Moca, and also yellow amber. A large variety of marbles, limestones, and other building stones are deposited on the island,

INSULAR POSSESSIONS OF THE UNITED STATES—Continued.

but these resources are very undeveloped. There are salt works at Guanica and Salina on the south coast, and at Cape Rojo on the west, and these constitute the principal mineral industry in Porto Rico.

The principal cities are Mayaguez, with 16,939, Ponce, 35,027 inhabitants; and San Juan, the capital, with 48,716. The shipments of domestic merchandise from the United States to Porto Rico, year ending June 30, 1914, were \$31,754,695. The exports of domestic merchandise to the United States were \$34,423,180. The foreign trade, year ending June 30, 1914, was: Imports, \$3,838,419; exports, \$8,679,582.

An act providing for a civil government for Porto Rico was passed by the Fifty-sixth Congress and received the assent of the President April 12, 1900. A statement of its provisions was printed in THE WORLD ALMANAC for 1901, pages 92 and 93. President Roosevelt in his message to Congress in December, 1906, recommended the granting of United States citizenship to the Porto Ricans, and a bill was introduced in the Sixty-second Congress providing for the same, but failed to reach a final vote.

Under this act a civil government was established, which went into effect May 1, 1900. There are two legislative chambers, the Executive Council, or "upper house," composed of the Governor, Secretary, Attorney-General, Treasurer, Auditor, Commissioner of the Interior, and Commissioner of Education, and five citizens appointed by the President, and the House of Delegates, or "lower house," consisting of 35 members, elected by the people. The island is represented in the Congress of the United States by a Resident Commissioner.

The Legislature of 1912 enacted a sanitation law establishing an insular board of health, and a general sanitary organization, provided a bureau of labor, and authorized in vestment by the treasurer of \$200,000 in first mortgage bonds of a corporation to be organized for the construction of a modern hotel in San Juan. It also authorized a bond issue of \$500,000 in connection with port improvements at San Juan. The Legislature of 1913 provided for the retirement on $\frac{3}{4}$ pay of the Justices of the Supreme Court of the island after ten years' service, and upon reaching 65 years of age, and ordered the establishment of an insular hospital in each of the seven districts in which the island is divided, for those suffering from transmissible and contagious diseases.

GUAM.

The island of Guam, the largest of the Mariana Archipelago, was ceded by Spain to the United States by Article 2 of the Treaty of Peace, concluded at Paris, December 10, 1898. It lies in a direct line from San Francisco to the southern part of the Philippines, and is 5,044 miles from San Francisco and 1,506 miles from Manila. It is about 30 miles long and 100 miles in circumference, and has a population of 12,517. The inhabitants are mostly immigrants or descendants of immigrants from the Philippines, the original race of the Mariana Islands being nearly extinct. The prevailing language is English. Spanish and Chamorro are also spoken. Nine-tenths of the islanders can read and write. The island is thickly wooded, well watered, and fertile, and possesses an excellent harbor. The productions are tropical fruits, cacao, rice, corn, tobacco, and sugar cane. The island of Guam was discovered by Hernando de Magallanes on March 6, 1521.

The island was captured by the U. S. S. Charleston, Captain Henry Glass commanding, June 21, 1898, the American flag raised over Fort Santa Cruz, and a salute fired. Later the island was made a naval station, and Commander E. D. Taussig, of the U. S. S. Bennington, took possession February 1, 1899. The Governor is a naval officer, and the island has a marine garrison as well as a station ship.

During the year ending June 30, 1914: imports, from Saipan, \$6,106.37; Japan, \$37,924.25; China, \$5,918.33; Germany, \$663.19; England, \$42.80; Philippines, \$24,114.10; Hawaii, \$12,511.84; United States, \$77,929.99. Total, \$165,210.15. Exports, to Saipan, lumber, \$1,342.40; Manila, potatoes, \$15.00; Manila, coffee, \$142.11; Manila, copra, \$4,055.26; Japan, copra, \$45,537.45. Total, \$51,092.22.

TUTUILA (AMERICAN SAMOA).

Tutuila, the Samoan island which, with its attendant islets of Manu'a, Olosega, Ofu, Annuu and Rose, became a possession of the United States by virtue of the tri-partite treaty with Great Britain and Germany in 1899, covers, according to the Bureau of Statistics of the Department of Commerce, fifty-five square miles, and has (by census of February 1, 1912) 7,251 inhabitants. It possesses the most valuable island harbor, Pago-Pago, in the South Pacific, and perhaps in the entire Pacific Ocean. Commercially the island is unimportant at present, but is extremely valuable in its relations to the commerce of any nation desiring to cultivate trans-Pacific commerce.

Ex-Chief Justice Chambers, of Samoa, says of Pago-Pago that "The harbor could hold the entire naval force of the United States, and is so perfectly arranged that only two vessels can enter at the same time. The coaling station, being surrounded by high bluffs, cannot be reached by shells from outside." Capacity of coaling station, 4,200 tons.

The Samoan Islands, in the South Pacific, are fourteen in number, and lie in a direct line drawn from San Francisco to Auckland, New Zealand. Tutuila is 4,160 miles from San Francisco, 2,263 miles from Hawaii, 1,580 miles from Auckland, 2,354 miles from Sydney, and 4,200 miles from Manila. The inhabitants are native Polynesians and Christians of different denominations.

The civil government is administered by a Governor, a naval officer nominated by the Navy Department and appointed by the President. All civil affairs are under the jurisdiction of the Navy Department.

WAKE AND OTHER ISLANDS.

The United States flag was hoisted over Wake Island on July 4, 1898, by General F. V. Greene, commanding 2d Detachment Philippine Expedition. It is a small island in the direct route from Hawaii to Hongkong, about 2,000 miles from the first and 3,000 miles from the second.

The United States possesses a number of scattered small islands in the Pacific Ocean, some hardly more than rocks or coral reefs, over which the flag has been hoisted from time to time. They are of little present value and mostly uninhabited. The largest are Christmas, Gallego, Starbuck, Penrhyn, Phoenix, Palmyra, Howland, Baker, Johnston, Gardner, Midway, Morell, and Marcus islands. The Midway Islands are occupied by a colony of telegraphers in charge of the relay in the cable line connecting the Philippines with the United States, in all about forty persons.

The Santa Barbara group is a part of California and the Aleutian chain, extending from the peninsula of Kamchatka in Asiatic Russia to the promontory in North America which separates Bering Sea from the North Pacific, a part of Alaska.

INSULAR POSSESSIONS OF THE UNITED STATES.—Continued.

HAWAII.

Hawaii was annexed to the United States by joint resolution of Congress July 7, 1898. A bill to create Hawaii a Territory of the United States was passed by Congress and approved April 30, 1900.

The area of the several islands of the Hawaiian group is as follows: Hawaii, 4,210 square miles; Maui, 760; Oahu, 600; Kauai, 590; Molokai, 270; Lanai, 150; Nihaui, 97; Kahoolawe, 63. Total, 6,740 square miles.

At the time of the discovery of the islands by Captain Cook in 1778 the native population was about 200,000. This has steadily decreased, so that at the census of 1910 the native born numbered but 98,157. Total foreign born (1910), 93,752.

The first United States census of the islands was taken in 1900 with the following result: Hawaii Island, 46,843; Kauai Island, 20,562; Nihaui Island, 172; Maui Island, 25,416; Molokai Island and Lanai Island, 2,504; Oahu Island, 58,504. Total of the Territory, 154,001. The population of the city of Honolulu was 39,306. The population of Hawaii according to the 1910 census, made by the United States Census Bureau, was 191,909, Honolulu City having a population of 52,183.

POPULATION OF HAWAII, BY ISLANDS, 1910.

Hawaii.....	55,382	Lanai.....	131	Molokai.....	1,791
Kahoolawe.....	2	Maui.....	28,623	Nihaui.....	208
Kauai.....	23,744	Midway.....	35	Oahu.....	81,993

BY COLOR OR RACE.

Hawaiian.....	26,041	Spanish.....	1,900	Black.....	158

Porto Rican.....	4,890	Korean.....	4,533		

The exports of domestic merchandise from Hawaii to the United States in the twelve months ending June 30, 1914, were valued at \$40,628,200. The imports into Hawaii from the United States for the same period were valued at \$25,671,169.

The value of imports and exports for the fiscal year ending June 30, 1913, aggregated \$79,474,880, the imports valued at \$36,002,940, and exports \$43,471,940. The imports from the United States have almost doubled during the last six years. The exports of pineapples have increased almost five-fold, or from about \$800,000 to about \$4,000,000, during the last five years. The customs receipts were \$1,869,513.89.

The Territorial bonded indebtedness was \$6,844,000, or 3.90 per cent. of the assessed value of property, which is \$175,201,161.

Bank deposits aggregated \$17,026,297.02 of which commercial deposits were \$11,641,901.30, and savings deposits \$5,384,395.72.

There are 93 post-offices. There are powerful wireless stations for transmitting and receiving messages to and from San Francisco and Japan and with vessels at sea.

The number of schools is 212. There are 986 teachers and the number of pupils has increased during the 13 years of Territorial government from 15,537 to 32,938, or 112 per cent.

The new Territorial Government was inaugurated at Honolulu June 14, 1900, and the first Territorial Legislature began its sessions at Honolulu February 20, 1901. The Legislature is composed of two houses—the Senate of fifteen members, holding office four years, and the House of Representatives of thirty members, holding office two years. The Legislature meets biennially, and sessions are limited to sixty days.

The executive power is lodged in a Governor, a Secretary, both appointed by the President, and hold office four years, and the following officials appointed by the Governor, or by and with the consent of the Senate of Hawaii. An Attorney-General, Treasurer, Commissioner of Public Lands, Commissioner of Agriculture and Forestry, Superintendent of Public Works, Superintendent of Public Instruction, Auditor and Deputy, Surveyor, High Sheriff, and members of the Board of Health, Public Instruction, Prison Inspectors, etc. They hold office for four years, and must be citizens of Hawaii.

The Territorial Courts comprise a Supreme Court of three members, 5 Circuit Courts, of which 1 has three members, who sit separately, and the others one member each, and 29 District Courts. The Supreme Court and Circuit Court Judges are appointed by the President, and the District Magistrates by the Chief Justice of the Territorial Supreme Court. The Circuit Courts are the courts of general original jurisdiction. They try law, equity, probate, and divorce cases. The First Circuit Court acts also as a court of land registration. The Circuit and District Courts act also as Juvenile Courts. The Territory is a Federal Judicial District, with a District Judge, District Attorney, and Marshal, all appointed by the President. The District Judge has all the powers of a Circuit Judge.

The Territory is represented in Congress by a delegate, who is elected biennially by the people.

Provision is made in the act creating the Territory for the residence of Chinese in the Territory, and prohibition as laborers to enter the United States.

The imports and exports aggregated \$79,474,880 during the fiscal year 1913. Receipts of the Territorial Government greatly exceeded the expenditures, notwithstanding large increases in the latter for public schools, public health and other matters. During the fiscal year 1913 325 homesteads were taken. About five million dollars will be available during the present biennial period for the building of roads, water and sewer works, wharves and harbors, public schools and other public buildings and the reclamation of wet lands in several towns. There was an increase over the preceding year in the expenditures for public schools the total being \$946,641.50. Pearl Harbor channel has been completed and the harbor was entered for the first time by a large war vessel, the California.

FARMERS' NATIONAL CONGRESS.

President—W. L. Ames, Oregon, Wis. Secretary—O. D. Hill, Kendall, W. Va. Treasurer—Levi Morrison, Greenville, Pa.

A delegate body representing more than 3,000,000 farmers. Urges: General parcel post; liberal Federal aid for good roads and inland waterways; teaching of agriculture in the public schools; a Federal pure seed law; head tax and literacy test on immigration; a rural credit system not controlled by the banking power; also law to prevent imitation of butter; legislation to curb water-power monopolies; National and State control of land fraud agencies; protection of co-operative enterprises. Opposes: Ship subsidies; Interstate liquor traffic into known dry territory; free distribution of seeds.

CUBA.

The island of Cuba is 760 miles long, and its width varies from about 25 miles to 100 miles. Its area comprises 45,831 square miles, or about that of Pennsylvania. It has numerous safe and commodious harbors, that of Havana being one of the largest and finest in the world. Measuring from points of nearest approach to its neighbors, Cuba is about 100 miles from Key West, Fla., north; 64 miles from Hayti, east; 130 miles from Yucatan, west, and 85 miles from Jamaica, south. There are 2,360 miles of railway lines and 200 miles of electric railways.

The two principal agricultural staples of the island are sugar and tobacco. It also produces in considerable quantities fruits, vegetables, timber and metals, mainly iron, manganese and copper ore, and is adapted to coffee and cotton raising. The ground has no rival for fertility, and when duly cultivated gives marvellous results. The sugar cane when planted in superior ground is cut during 50 years without being planted again. Cuba is superior to the rest of the tropical lands, with the possible exception of Porto Rico. The whole land is mantled with rich soils, fertile calcareous loams, which, under constant humidity, yield in abundance every form of useful vegetation of the tropical and temperate climates. It has 1,246 miles of shaded roads and highways. The average fluctuation of the temperature is 12 degrees. The average in January is 70.3; July, 82.4; extremes, 60 to 92. Value of farms, plantations, etc., \$120,000,000; tobacco crop, calculated at \$32,000,000, and although there are but few plantations, oranges, grapefruits, etc., produce annually \$10,000,000 while pineapples, cocoa, molasses, asphalt, iron, nickel, mahogany, cedar, etc., produce \$10,000,000 also.

The Government is republican in form. The President, who is chosen by popular suffrage, serves four years and appoints his own Cabinet. The Congress consists of a Senate and House of Representatives, one representative being chosen for every 25,000 inhabitants, as nearly as possible. The provinces, of which there are six, corresponding to the American States, elect their own Governors and control their own internal affairs.

POPULATION OF CUBA.

A census of Cuba was taken by the United States Provisional Government in 1907, under the direction of the Department of Agriculture at Washington. The results, of which the following is an abstract, were published in Spanish and English in 1909.

In 1907 Cuba had a population of 2,048,980, an increase from 1899 of 476,183, or 30.3 per cent. (In 1913, total population, 2,500,000.) The population of the provinces of Cuba based on the 1907 census was as follows: Habana, 538,010; Santa Clara, 457,431; Oriente, 455,086; Pinar del Rio, 240,372; Matanzas, 239,812; Camaguey, 118,269. Over half the population lived in the rural districts, the 134 towns and cities containing 899,667 inhabitants, or 43.9 per cent. of the total. The population of the six large cities was as follows: Habana, 297,159; Santiago de Cuba, 45,470; Matanzas, 36,009; Cienfuegos, 30,100; Camaguey, 29,616; Cardenas, 24,280.

The density of population in 1907 was 46.4 per square mile. Males were more numerous than females, the numbers being 1,074,882 and 974,098, respectively. Of the total population, 1,369,176, or 66.8 per cent., were single or divorced; 428,537, or 20.7 per cent., were married; 176,509, or 8.6 per cent., were consensually married; and 79,458, or 3.9 per cent., were widowed. The average number of persons to a family was 4.8.

In 1907 over two-thirds, 1,428,176, or 69.7 per cent., of the inhabitants were white. The colored population was composed of 274,272 negroes, 334,695 mixed, and 11,837 Chinese. Of the whites, 1,224,539 were native and 203,637 foreign born. Of the latter class, Spain contributed 185,393 and the United States 6,713.

Of the total population, 1,780,628, or 86.9 per cent., were of Cuban and 228,138, or 11.1 per cent., of Spanish citizenship. Of the 551,639 males of voting age, 430,514 were Cuban citizens, and of these, 212,980, or less than one-half, were literate, while 217,534 were illiterate; among those of other citizenship the proportion of literates was much greater, 89,217 being literate and 31,908 illiterate. Among the white males of voting age the literates were in the majority, the numbers being 161,742 literates and 130,944 illiterates for Cuban citizens, and 84,937 literates and 23,056 illiterates for all the others.

Almost one-third, 171,017, or 31.6 per cent., of the children attended school; the corresponding percentage for 1899 was only 15.7. In the six large cities 55,336, or 49.9 per cent. of those of school age, attended school.

Of the population at least ten years of age, 837,958, or 56.6 per cent., could read. For the large cities the percentage was 82.6; for the rest of Cuba it was 47.9.

In 1907, 772,502 persons were engaged in gainful occupations. The 698,982 male breadwinners formed 65 per cent. of all the males, while the 73,520 females gainfully employed formed 7.5 per cent. of all the females. Of the wage-earners, 374,969, or 43.5 per cent., were engaged in agriculture, fishing and mining; 136,419, or 17.6 per cent., in trade and transportation; 126,021, or 16.3 per cent., in manufacturing and mechanical pursuits; 122,283, or 16 per cent., in domestic and personal service; and 12,805, or 1.6 per cent., in professional service.

The principal trade is with the United States, which takes practically all the exports of sugar, fruit, and minerals, and more than nine-tenths of the raw tobacco. Trade with Spain has fallen off greatly.

The total trade of Cuba for the calendar year 1913: Imports, \$140,064,460; exports, \$164,309,059. Imports into the United States from Cuba, \$131,269,619; exports from the United States to Cuba, \$75,316,399.

THE CUBAN GOVERNMENT.

President. (Salary, \$25,000)..... GEN. MARIO MENOCAL.
Vice-President..... ENRIQUE JOSÉ VARONA.

CABINET.

Secretary of State—Dr. Pablo Desvernine.	Sec'y of Agriculture, Commerce and Labor—Emilio Núñez.
Secretary of the Treasury—Leopoldo Cancio y Luna.	Secretary of Public Instruction and Fine Arts—Ezequiel García Enseñat.
Secretary of Government—Aurelio Hevia.	Secretary of Health and Charities—Enrique Núñez.
Secretary of Justice—Cristóbal de la Guardia.	Secretary of the Presidency—Dr. Rafael Montoro.
Secretary of Public Works—José Ramón Villalón.	

LEGISLATIVE.

President of the Senate—Dr. Eugenio Sánchez | President (Speaker) of the House of Representatives—
Agramonte. | Dr. Ibrahim Urqujaga.

The Isle of Pines, which under the generally accepted survey is supposed to have an area of 614.34 square marine miles, or about 521,381 acres, is situated off the south coast of Western Cuba, its nearest point to the larger island being about 34 1-2 statute miles distant, while the island itself and its adjacent keys form the southern barrier of the Gulf of Batabano, a bight which extends northward to an extent sufficient to make Habana Province, to which the Isle of Pines is officially attached, the narrowest part of Cuba. The Isle of Pines is practically the only land southward of Cuba to Panama, from which it is distant about 850 miles; it is 230 miles almost due east of Cape Cartuche, Yucatan, and 370 miles northwest of the island of Jamaica.

THE National parks and reservations mentioned below are under the supervision of the Secretary of the Interior. General information, the annual administrative reports, copies of the rules and regulations, and compilations of the laws relating to the parks may be obtained from the Secretary of the Interior or from the superintendents of the parks.

YELLOWSTONE NATIONAL PARK is in Wyoming, Montana, and Idaho, and has an area of 2,142,720 acres. The superintendent's address is Yellowstone Park, Wyoming. The park can be reached by the following railroads: Northern Pacific Railroad to Gardiner, the northern entrance, via Livingston, Mont.; Oregon Short Line Railroad to Yellowstone, Mont., the western entrance; Chicago, Burlington and Quincy Railroad to Cody, Wyo., from which the eastern entrance to the park is accessible. Stage and private transportation connections for the reservation are made at all these points. The tourist season extends from June 1 to September 15.

YOSEMITE NATIONAL PARK, CALIFORNIA, including the Yosemite Valley and Mariposa Big Tree Grove, embraces an area of 719,622 acres. The superintendent's address is Yosemite, Cal. The park can be reached from Merced on the Atchison, Topeka and Santa Fé and the Southern Pacific railroads by way of Yosemite Valley Railroad, which runs to the western boundary, and by connections of the same roads to Raymond, on the southwest; stage lines run from the terminus of the Yosemite Valley Railroad and from Raymond to Yosemite Valley within the park. The tourist season extends from May 1 to November 1, but the park is accessible and hotel accommodations are furnished the entire year.

GLACIER NATIONAL PARK, MONTANA, has an area of approximately 915,000 acres, of which 15,000 acres have been surveyed. Within the limits stated there are 250 lakes, ranging from 10 miles to a few hundred feet in extent. There are about 80 glaciers between 5 square miles and a few acres in area. There are wild animals, plants, and rocks in number and quantity to satisfy the most ardent student, and views of great variety, beauty and grandeur to gratify the artist and the lover of nature. The address of the superintendent is Belton, Mont. The park can be reached via the Great Northern Railway. The tourist season extends from May 1 to about September 15.

MOUNT RAINIER NATIONAL PARK, WASHINGTON, has an area of 207,360 acres. The superintendent's address is Ashford, Wash. The park is reached by stage or private transportation from Ashford, Wash., on the Tacoma Eastern Railroad, and by trail from Fairfax, on the Northern Pacific Railroad. The tourist season extends from June 15 to September 15.

SEQUOIA NATIONAL PARK, CALIFORNIA, has an area of 161,597 acres. The address of the superintendent is Three Rivers, Cal. This park may be reached from Visalia, on the Southern Pacific and the Atchison, Topeka and Santa Fé railroads by way of the Visalia Electric Railroad Company to Lemon Cove, thence by stage or private conveyance to the Giant Forest within the park, or by private conveyance from Visalia via Lemon Cove.

GENERAL GRANT NATIONAL PARK, CALIFORNIA, has an area of 2,536 acres. This reservation is administered jointly with Sequoia National Park, and the tourist season extends from June 1 to September 15. The address of the superintendent is given above. The park may be reached from Sanger, on the Southern Pacific Railroad, thence by auto stage or private conveyance a distance of 46 miles to the park, also from Cutler Station on the Atchison, Topeka and Santa Fé Railroad, thence 39 miles by stage or private conveyance by way of Orosi and Badger to the park.

CRATER LAKE NATIONAL PARK, OREGON, has an area of 159,360 acres. The address of the superintendent during the tourist months (June 15 to September 30) is Crater Lake, Ore., and during the balance of the year Klamath Falls, Ore. This park may be reached by stage or automobile from Klamath Falls, Medford, Chiloqui, or Ashland, Ore., on the Southern Pacific Railroad.

WIND CAVE NATIONAL PARK, SOUTH DAKOTA, contains 10,522 acres. The superintendent's address is Wind Cave S. Dak. This park may be reached by private conveyances from Hot Springs, on the Chicago, Burlington and Quincy and the Chicago and Northwestern railroads, or by similar conveyance from Custer, on the Chicago, Burlington and Quincy Railroad. The reservation is open to tourists the entire year.

SULY'S HILL PARK, NORTH DAKOTA, on the shore of Devils Lake, has an area of 780 acres. The address of the superintendent is Fort Totten, N. Dak. Devils Lake, Narrows, and Tokio, on the Great Northern Railroad, are close to the park, and from these points the reservation can be approached by wagon, or by boat (private conveyance).

PLATT NATIONAL PARK, AT SULPHUR, OKLAHOMA, has an area of 848.22 acres. Sulphur is the post-office address of the superintendent. The town is accessible by the Atchison, Topeka and Santa Fé and the St. Louis and San Francisco railroads. The park, which is open to tourists the entire year, is within walking or riding distance of the railroads.

MESA VERDE NATIONAL PARK, COLORADO, under the organic act approved June 29, 1906, contained an area of 42,376 acres, and the 5-mile strip under the park jurisdiction for the protection of ruins, provided for by the act, abutting the park, contained 175,360 acres. The 5-mile strip was eliminated from park supervision by the act of June 30, 1913, and the boundaries of the park proper were changed so as to make the present aggregate area 76.51 square miles, or 48,966.4 acres. The address of the superintendent is Mancos, Col., the nearest railroad station, on the Rio Grande Southern Railroad. This station is about 25 miles from the ruins, which may be reached only by horseback or on foot. The tourist season extends from May 1 to September 30.

CASA GRANDE RUIN, ARIZONA, a reservation; has an area of 480 acres. The nearest railroad station is Casa Grande, on the Southern Pacific Railroad. It may also be reached by private conveyance from Florence, Ariz., on the Phoenix and Eastern Railroad. The address of the custodian is Florence.

The Mesa Verde National Park and the Casa Grande Reservation were set aside to protect the interesting prehistoric ruins and other objects of antiquity which they contain. These ruins are being excavated and repaired and are open for the inspection of visitors. Reports on the repair of such ruins have been issued by the Department of the Interior, and more detailed accounts are distributed by the Bureau of American Ethnology, Smithsonian Institution.

HOT SPRINGS RESERVATION, ARKANSAS (the permanent reservation), has an area of 911.63 acres. Eleven bathhouses on the reservation and twelve in the city of Hot Springs, as well as several hotels operated in connection with bathhouses, receive hot water from the springs, under lease with the Secretary of the Interior. The address of the superintendent is Hot Springs, Ark.

PRESERVATION OF AMERICAN ANTIQUITIES—Under the act of Congress approved June 8, 1906, interdepartmental regulations governing the excavation, appropriation, etc., of prehistoric ruins or objects of antiquity have been promulgated by the Secretaries of the Interior, Agriculture, and War. Applications for permits to make excavations on the public lands, Indian reservations, or the national monuments named below should be addressed to the Secretary of the Interior. The following have been preserved from entry and set aside as national monuments: Devils Tower, Wyoming; Montezuma Castle, Arizona; Petrified Forest, Arizona; El Morro, New Mexico; Chaco Canyon, New Mexico; Muir Woods, California; Natural Bridges, Utah; Lewis and Clark Cavern, Montana; Tumacacori, Arizona; Navajo, Arizona; Mukuntuweap, Utah; Shoshone Cavern, Wyoming; Gran Quivira, New Mexico; Sitka National Monument, Alaska; Rainbow Bridge, Utah; Pinnacles, California; Colorado, Colorado.

Ten other national monuments within national forests have also been set aside under this act and placed under the jurisdiction of the Secretary of Agriculture, to whom inquiries in regard thereto should be addressed. Two other national monuments (Big Hole Battlefield, in Montana, and Cabrillo, in California) are under jurisdiction of the Secretary of War.

Forests and Forestry.

OUR forests now cover 550,000,000 acres, or about one-fourth of the United States. Forests publicly owned contain one-fifth of all timber standing. Forests privately owned contain at least four-fifths of the standing timber. The timber privately owned is not only four times that publicly owned, but it is generally more valuable.

The original forests of the United States contained timber in quantity and variety far beyond that upon any other area of similar size in the world. They covered 850,000,000 acres, with a stand of not less than 5,200,000,000 feet of merchantable timber, according to present standards of use. There were five great forest regions—the northern, the southern, the central, the Rocky Mountain and the Pacific.

The present rate of cutting is three times the annual growth of the forests of the United States. The great pineries of the lake States are nearing exhaustion and heavy inroads have been made upon the supply of valuable timber throughout all parts of the country.

The heavy demands for timber have been rapidly pushing the great centres of lumber industry toward the South and West. In consequence, the State of Washington has led for several years in lumber production, now followed in order by Louisiana, Mississippi, Oregon, and Texas. Among the soft woods in 1913 the production of yellow pine lumber amounted to about fifteen billion feet; the Douglas fir of the Northwest held second place, with nearly five and one-half billion feet; while white pine with two and one-half billion feet ranked third, though less was produced than in the preceding year; oak came first among the hardwoods with three and one-fifth billion feet, and was followed in order by maple, red gum, tulip poplar, chestnut, beech, and birch.

We take from our forests yearly, including waste in logging and in manufacture, more than 30,000,000,000 cubic feet of wood, valued at about \$1,875,000,000.

We use in a single year 90,000,000 cords of firewood, nearly 40,000,000 board feet of lumber, 135,000,000 ties, nearly 1,700,000,000 staves, 440,000,000 board feet for veneer, over 130,000,000 sets of heading, over 350,000,000 barrel hoops, over 3,300,000 cords of native pulp wood, 165,000,000 cubic feet of round mine timbers, nearly 1,500,000 cords of wood for distillation, over 140,000 cords for excelsior, and nearly 3,500,000 telegraph and telephone poles.

About 4,330,000 cords of wood are used in the manufacture of paper, of which about 1,000,000 cords are imported mainly from Canada. The demand for wood pulp is making a severe drain on the spruce forests, which furnish the principal supply, though a number of other woods, such as poplar, hemlock, pine, and balsam, are now being used in considerable quantities. The Forest Service of the United States Department of Agriculture is conducting investigations to determine what other woods, such as Western white and red fir, lodge pole pine, Western hemlock, tupelo and the like, can be successfully used.

A larger drain upon our forest resources is made by the demand for railroad ties. White oak, hitherto the chief source of supply, and in many parts of the country the supplies of chestnut, cedar, and cypress are dwindling. In place of these highly durable woods cheaper and more plentiful ones, such as Southern pine, Douglas fir, tamarack, and hemlock, are coming into use, largely in consequence of the introduction of treatment by preservatives which retard decay. A great saving has been effected in the naval stores industry, also largely through the work of the Forest Service, by the introduction of the so-called "cup" systems of turpentine in place of the old destructive system of "boxing." The new systems insure a larger product of better quality and prolong the life of the longleaf pine forests upon which the industry depends.

UNITED STATES FOREST SERVICE.

The Forest Service is one of the bureaus of the Department of Agriculture. It has charge of the administration and protection of the National forests and also promotes the practice of forestry generally through investigations and the diffusion of information.

The work of the Government in forestry was initiated by the appointment of Dr. Franklin B. Hough in 1876 as special agent in the Department of Agriculture. In 1881 a division of forestry was created in that department. In 1901 this division became the Bureau of Forestry, and in 1905, when the care of the National forests was given to this bureau, its name became the Forest Service.

Previously the care of the National forests had been in the hands of the Department of the Interior.

A law authorizing the President to set apart forest reserves was passed in 1891, but no provision for their administration and use was made until 1897. Previous to 1905 the Bureau of Forestry merely gave expert advice, on request, to the Department of the Interior concerning the application of forestry to the forest reserves. The change of name from "forest reserves" to "National forests" was made in 1906 to correct the impression that the forests were, as "reserves," withdrawn from use. Since the Forest Service took charge of them the fundamental aim has been to open them to the widest use consistent with their proper protection.

The National forests were set aside as follows: By President Harrison, 13,416,710 acres; by President Cleveland, 25,686,320 acres; by President McKinley, 7,050,089 acres; by President Roosevelt, 148,346,924 acres. Since early in 1909 a careful readjustment of the boundaries has been going on. In consequence President Taft added to the National forests 4,333,847 acres and eliminated from them 11,680,578 acres, while down to July 1, 1914, President Wilson has added 418,745 acres and eliminated 1,973,839 acres. Acts of Congress prohibit any additions by the President to the National forest area in Washington, Oregon, California, Idaho, Montana, Wyoming, and Colorado.

The present gross area of the National forests, including Alaska and Porto Rico, is 185,321,032 acres, with an additional 190,755 acres acquired by purchase in the White Mountains and Southern Appalachian regions for National forest purposes.

The following tables show the National forest expenditures and receipts for the fiscal years 1914 and 1913:

EXPENDITURES FOR ADMINISTRATION AND PROTECTION, AND PERMANENT IMPROVEMENTS DURING FISCAL YEAR 1914, COMPARED WITH 1913.

FISCAL YEAR.	ADMINISTRATION AND PROTECTION.		PERMANENT IMPROVEMENTS.	
	Total.	Per Acre.	Total.	Per Acre.
1914.....	\$4,748,422.48	\$0.0256	\$617,980.35	\$0.0033
1913.....	4,653,560.48	0.0249	470,825.50	0.0025

COMPARISON OF RECEIPTS FROM THE SEVERAL SOURCES FOR THE FISCAL YEARS 1914 AND 1913.

FISCAL YEAR.	TIMBER.		GRAZING.		SPECIAL USES, ETC.		ALL SOURCES.	
	Total.	Per Acre.	Total.	Per Acre.	Total.	Per Acre.	Total.	Per Acre.
1914....	\$1,304,053.56	\$0.0070	\$1,002,347.59	\$0.0054	\$131,309.06	\$0.0007	\$2,437,710.21	\$0.0132
1913....	1,275,556.48	0.0068	999,369.16	0.0053	116,995.21	0.0006	2,391,920.85	0.0128

FORESTS AND FORESTRY—Continued.

Under the law 25 per cent. of the receipts are paid to the States in which the National forests are located, to be expended for roads and schools. The amount to be paid to the States in this way from the receipts in 1914 is about \$599,272.17.

By the acts of Congress organizing them as States, Arizona and New Mexico also receive for their school fund an additional share of the receipts based on the proportion that their school lands within the National forests bear to the total National forest area in the States. The approximate amounts due on account of the receipts for 1914 are \$30,730.58 to Arizona and \$9,890.94 to New Mexico.

Congress has also provided that 10 per cent. of the receipts shall be set aside as an appropriation to be used under the direction of the Secretary of Agriculture for road and trail building in National forests in co-operation with State authorities or otherwise. The amount thus appropriated on account of fiscal year 1914 receipts is \$239,708.86. This, added to the amount carried over from the 1913 receipts fund, \$112,220.77, and the amount appropriated for improvements, in the regular agricultural bill, \$400,000, makes the total available for the construction of roads, trails, cabins, bridges, telephone lines, etc., on the National forests for the fiscal year 1915, \$751,929.63.

The total regular appropriation for salaries, general expenses, and improvements for the fiscal year 1913 is \$5,548,256.00, as against \$5,399,679.00 for 1914, with a further provision of \$100,000 available for fire-fighting in cases of extraordinary emergency.

The grazing receipts for 1914 were paid by the holders of 23,757 permits to graze 1,620,261 cattle, horses and hogs, and of 5,188 permits to graze 7,618,802 sheep and goats. The receipts from timber sales were paid by approximately 8,300 purchasers, who cut the equivalent of 626,406,000 board feet of timber. The receipts from special uses were paid by the holders of approximately 5,000 permits. In other words, these receipts represent profitable use of the forests by some 40,000 individuals or concerns. To the use for which payment was made must be added the heavy free use of the forests by the public. Figures for free use of timber are as follows:

FREE USE OF TIMBER ON NATIONAL FORESTS.

FISCAL YEAR.	Number of Permittees.	Cut.	
		Board Feet.	Value.
1914.....	39,427	120,575,000	\$182,774.20
1913.....	38,264	121,885,000	191,824.77

In issuing permits for reservoirs, conduits, power-houses and transmission lines for commercial power development the Forest Service has steadfastly insisted on conditions designed to prevent speculative or perpetual holdings and to secure the full development of available power and the payment of reasonable charges for the use of land.

The total stand of timber on the National forests is estimated at nearly six hundred billions board feet.

The following table shows the local cut of timber from the National forests in the fiscal year 1914:

TIMBER CUT FROM NATIONAL FORESTS.

STATE.	Cut Under Sale.	Cut Under Free Use.	Total Cut.	STATE.	Cut Under Sale.	Cut Under Free Use.	Total Cut.
Montana.....	120,655,000	19,559,000	140,214,000	Arkansas.....	14,072,000	177,000	14,249,000
Idaho.....	92,548,000	21,183,000	113,731,000	Nevada.....	3,308,000	1,583,000	4,871,000
Oregon.....	75,034,000	12,277,000	87,311,000	Virginia.....	490,000	35,000	525,000
Arizona.....	58,136,000	4,600,000	62,736,000	Minnesota.....	351,000	98,000	449,000
Washington.....	59,456,000	2,347,000	61,803,000	North Carolina.....	383,000	383,000
Colorado.....	47,025,000	12,726,000	59,751,000	Oklahoma.....	369,000	369,000
California.....	49,191,000	8,416,000	57,607,000	Florida.....	10,000	310,000	320,000
Alaska.....	45,061,000	45,061,000	Michigan.....	27,000	135,000	162,000
New Mexico.....	21,766,000	12,285,000	34,051,000	North Dakota.....	56,000	56,000
Utah.....	13,059,000	10,285,000	23,344,000	Nebraska.....	6,000	6,000
Wyoming.....	12,337,000	8,513,000	20,850,000	Totals.....	626,406,000	120,575,000	746,981,000
South Dakota.....	13,497,000	5,635,000	19,132,000				

The value of the public property administered by the Forest Service is estimated at over two billion dollars.

The great areas contained in the National forests have now been brought to a condition where they are beginning to serve the purposes of the West. The conservation of timber and forage through wise use, and the protection of stream flow, are the means of sustaining many industries which have contributed materially to the prosperity of the country.

ORGANIZATION OF THE FOREST SERVICE.

At the head of the Forest Service are the Forester, Henry S. Graves, and the Associate Forester, A. F. Potter. The work is organized under the following branches: Operation, and also Lands, James B. Adams in charge; Silviculture, and also Products, W. E. Greeley in charge; Grazing, A. F. Potter in charge, and Products Laboratory, Howard F. Weiss in charge; Acquisition of Lands Under the Weeks law, William L. Hall in charge.

The 163 National forests are grouped in seven districts, with a District Forester in charge of each, and headquarters as follows: District 1 (Montana, Northeastern Washington, Northern Idaho, Northwestern South Dakota, and Southwestern North Dakota), Missoula, Mont., F. A. Silcox, District Forester; District 2 (Colorado, Wyoming, the remainder of South Dakota, Nebraska, and Western Kansas, Northern Michigan, and Northern Minnesota), Denver, Col., Smith Riley, District Forester; District 3 (most of Arizona and New Mexico), Albuquerque, N. Mex., A. C. Ringland, District Forester; District 4 (Utah, Southern Idaho, Western Wyoming, Eastern and Central Nevada, and a small portion of Northwestern Arizona), Ogden, Utah, E. A. Sherman, District Forester; District 5 (California and Southwestern Nevada), San Francisco, Cal., Coert Du Bois, District Forester; District 6 (Washington, Oregon, and Alaska), Portland, Ore., Geo. H. Cecil, District Forester; District 7 (Arkansas, Florida, Oklahoma, South Carolina, Georgia, North Carolina, Tennessee, Virginia, West Virginia, New Hampshire), Washington, D. C., William L. Hall, District Forester.

On July 1, 1914, the force employed by the Forest Service numbered 3,953. Of these 3,352 were employed upon the National forests and 601 were engaged in administrative, scientific and clerical work at the Washington and district headquarters. Of the employes on the National forests the force engaged principally in protective work numbered 2,397 men, as follows: Forest Rangers, 397;

FORESTS AND FORESTRY--Continued.

Assistant Forest Rangers, 856; Forest Guards, 1,143; Game Wardens, 1. The protective force was therefore about one man for every 80,000 acres, or 125 square miles. (Prussia has one man for every 1,700 acres, and Baden one for every 750.)

BRANCH OF SILVICULTURE.

The branch of silviculture directs the management of the National forests as regards both the cutting of mature timber and the work of forest planting; co-operates with States in developing forest policies adapted to their requirements; co-operates with private forest owners who desire to practise forestry on their lands, and carries on investigations of the important species and silvicultural problems of the United States.

The chief problems encountered in the management of the National forests, after fire protection, are to secure the removal of mature timber without cutting more than the forest is actually producing, and to replace this timber as it is sold and cut, by young growth of valuable species. Detailed plans are prepared for each forest on the basis of careful estimates of the present stand and its rate of growth, which specify the amount of timber that can be cut safely each year without impairing the permanent supply. This timber is then advertised for sale at prices which secure to the Government its full market value and at the same time allow a fair profit to the operator.

The replacement of old stands by new growth is accomplished mainly by regulating the cutting through the insertion of special provisions in timber sales contracts in such a way as to insure natural reproduction. On completely denuded areas, however, artificial reforestation by planting or sowing is generally necessary for the establishment of a new growth of trees. The object of such work is usually to produce commercial timber, although in a number of cases the reforesting of denuded watersheds is undertaken primarily to control and regulate the flow of streams directly supplying cities and towns. During the year ending June 30, 1914, 20,477.51 acres in National forests were planted or sown to trees, chiefly Douglas fir, Western yellow pine, Western white pine, white pine, and lodgepole pine. There are 29 Government nurseries which supply the National forests. These have a present stock of about 31,000,000 plants and are capable of supplying 15,000,000 a year.

Detailed investigations of important problems are conducted at eight thoroughly equipped forest experiment stations in order to determine the best methods of forest management to use in the handling of the National forests.

At the request of the States the Forest Service makes examinations of their forest conditions and conducts other studies needed to frame forest legislation and formulate a forest State policy adapted to the special requirements of each State. The cost of such work is shared by the State and the service. The service co-operates with private owners, especially small owners, in States which have no State Forester, by furnishing advice, with or without field examinations, concerning the best methods for managing and protecting their holdings. The cost of such examination is borne by the owner.

BRANCH OF GRAZING.

The branch of grazing supervises the grazing of live stock upon the National forests, the principal lines of work being the allotment of grazing privileges; the issuance of grazing permits; the division of the ranges between different classes of stock or their owners, and the regulation of the stock grazed under permit upon the ranges; and the development of the range-producing capacity of the National forests by the restoration of depleted areas through systematic control of the stock grazed upon them or by artificial means, through the eradication of noxious range-destroying rodents and through the institution of new methods of range control. By co-operation with Federal and State authorities in the enforcement of quarantine regulations the National forests have been practically freed from infectious or contagious diseases fatal to live stock, and by an active campaign against predaceous animals, destructive to live stock, the annual loss from this source within the National forests has been reduced by several hundred thousand dollars.

The number of stock grazed during the past season (1914), under permit, was 1,620,261 head of cattle, horses and swine, and 7,618,802 head of sheep and goats. The annual productive value of this number of stock is more than \$30,000,000. The number of persons holding permits to graze live stock during the past year was about 29,000.

About 15 per cent. of all the sheep in the United States are grazed in the National forests.

BRANCH OF PRODUCTS.

The branch of products carries on studies, tests and demonstrations to further the more complete utilization of the products of the forest, including the timber from the National forests. A forest products laboratory is operated at Madison, Wis., in co-operation with the University of Wisconsin, where experiments are made to determine the physical properties of woods, to ascertain cheap and effective treatments to prevent decay, to test the adaptability of untried woods for specific uses; to develop practical uses for waste in the woods, in the sawmill, and in the wood-working factories, and to discover processes of obtaining valuable chemical by-products for the waste which cannot otherwise be utilized, and to open new supplies. Studies are made to find the kind, quantity, and cost of timber consumed in different States and regions and also where the material comes from, and what amount is lost through waste. The wood-consuming industries are aided in finding the most suitable raw material and in developing methods of utilizing their waste product.

EASTERN NATIONAL FORESTS.

The act of March 1, 1911, commonly known as the Weeks law, provides for the acquisition of forest lands on the watersheds of navigable streams. Its purpose is to promote and protect the navigability of the streams by preserving the forest on the upland portions of their watersheds. Through this act means are afforded of extending the National forest system to regions where the Government has hitherto owned no forest lands and taken no direct part in forest preservation.

The original appropriation was \$2,000,000 per year for five and one-half years, beginning with the last half of the fiscal year 1911. The Agricultural Appropriation bill for the fiscal year 1913 made the appropriation for 1912 and subsequent years available until expended.

In order to concentrate the purchases where they will be of the greatest benefit from the standpoint of watershed protection, certain areas in the Appalachian region have been designated, aggregating 6,966,304 acres, to which purchases will be for the present confined. The United States Geological Survey has examined the greater part of this land, as required by law, in order to determine whether or not the forest cover exercises a beneficial influence in regulating the flow of navigable streams. Up to July 1, 1914, 6,013,103 acres were reported upon favorably by the Geological Survey.

The Forest Service has been designated as the bureau to receive proposals of land and to examine and value lands for purchase. The National Forest Reservation Commission considers the recommendations of the Forest Service and approves the lands to be purchased and fixes the price to be paid.

From April 1, 1911, to June 30, 1914, proposals were received covering 3,668,120 acres, of which

FORESTS AND FORESTRY—Continued.

3,063,616 acres were within the general areas which had been selected for purchase in the White Mountains and the Southern Appalachians.

During the same period 1,793,432 acres were examined, and 1,104,529 acres were approved by the National Forest Reservation Commission. These are located as follows: Georgia Area, 60,185 acres, in Fannin, Union, Gilmer, and Lumpkin Counties, Ga. Massanutten Area, 63,029 acres, in Shenandoah, Warren, Page, and Rockingham Counties, Va. Mount Mitchell Area, 66,213 acres, in McDowell, Buncombe, and Yancey Counties, N. C. Nantahala Area, 36,973 acres, in Macon and Swain Counties, N. C. Natural Bridge Area, 52,960 acres, in Rockbridge, Bedford, and Botetourt Counties, Va. Smoky Mountain Area, 59,213 acres, in Blount and Sevier Counties, Tenn. White Mountain Area, 133,562 acres, in Carroll, Coos, and Grafton Counties, N. H. (An additional 85,617 acres approved September 2, 1914, brought the total at that date to 219,179 acres.) White Top Area, 66,865 acres, in Carter, Johnson, and Sullivan Counties, Tenn., and Washington County, Va. Cherokee Area, 124,134 acres, in Polk and Monroe Counties, Tenn. Monongahela Area, 42,887 acres, in Randolph and Tucker Counties, W. Va. Potomac Area, 74,669 acres, in Hardy County, W. Va., Shenandoah and Frederick Counties, Va. Savannah Area, 94,749 acres, in Rabun County, Ga., Oconee County, S. C., Macon and Jackson Counties, N. C. Shenandoah Area, 122,634 acres, in Augusta, Highland, Rockingham Counties, Va., and Pendleton County, W. Va. Unaka Area, 19,756 acres, in Unicoi County, Tenn. Pisgah Area, 86,700 acres, in Transylvania, Henderson, Buncombe, and Haywood Counties, N. C.

As these lands are acquired they are administered along the same lines as are the National forests in the West, and the above-named areas will, as title is obtained and plans for handling them are prepared, be given formal designation as National forests.

FOREST POLICY OF THE STATES.

The movement for National forestry has been followed by a widespread development of State forest activities. New York and Pennsylvania, the pioneers in this field, inaugurated State policies before the work of the National Government had awakened general interest in forestry, but in most of the States forest work has been either a direct outgrowth of Federal activities or indirectly due to them. Ten or twelve years ago few States were giving their forest problems any serious consideration; to-day 30 have forest departments, 21 employ professionally trained foresters, and practically all show recognition of the need for a State forest policy.

State work has comprised activities along the lines of (1) education of public sentiment regarding the value of the State's forest resources and importance of their conservation; (2) the giving of technical advice to private owners regarding the application of forestry on their holdings; (3) the development of a systematic State forest fire protective system; (4) the provision of forest planting stock for citizens; (5) the modification of tax systems to lessen the burdens imposed on those who plant forests or otherwise apply forestry with a view to permanent timber production; (6) the formation of State forests or reserves. Each State has developed its own forest movement along its own lines, largely determined by varying natural and economic conditions.

In general, the Northeastern States have paid most attention to encouraging the actual practice of forestry by private owners, with a view to the production of a new forest crop. Men of professional training have been employed as State foresters, to give advice to applicants and to carry on educational work; provision for planting material has been made; and in several States tax laws have been modified. Protection of forests against fire has been advocated and largely provided by State action, with special reference to its need to prevent destruction of young growth. In the far West attention has been centred mainly on fire prevention to protect the vast supplies of mature timber now standing in the virgin coniferous forests of the Rocky Mountain and Pacific coast regions. In the lake States fire protection has, on the whole, had first place in importance, but with recognition of the need to protect both young growth and mature timber because of their commercial value. In the lake States also, and in New York and Pennsylvania, State-owned forests take a very prominent place. The South has, on the whole, been slow to see the need for State action, although Louisiana has enacted a State law with some very advanced features, and the States of Maryland, West Virginia, and Kentucky have State foresters and fire protective systems.

The appropriations for the support of the several State forest departments vary greatly. The smallest is \$500; the greatest \$328,000. Those which appropriate over \$25,000 are: Pennsylvania \$323,000, Minnesota \$233,000, New York \$164,000, Wisconsin \$95,000, Maine \$71,400, Michigan \$60,000, Massachusetts \$55,000, Maryland \$42,250, Washington and Oregon \$37,500 each, New Hampshire \$35,000, California \$31,900, New Jersey \$31,500, with additional appropriations from time to time for land purchase.

Systematic forest fire protection by the States has been greatly stimulated by the operation of the so-called Weeks law, under which the Federal Government co-operates through the Forest Service with individual States for protecting the watersheds of navigable streams, the Federal Government bearing in no case more than half the cost nor contributing more than \$10,000 to any State in any one year. Under this law more than one hundred million acres of private and State-owned lands are fairly well protected against forest fires, at an average cost of less than two cents per acre. The States which have entered into co-operative agreements under this law are: Maine, New Hampshire, Vermont, Massachusetts, Connecticut, New York, New Jersey, Maryland, West Virginia, Kentucky, Wisconsin, Minnesota, Michigan, South Dakota, Montana, Idaho, Washington, and Oregon.

Tennessee, Alabama, Colorado, and California have organized fire-warden systems, but do not appropriate State funds for fire protection. Maine supports an efficient forest fire service covering the unorganized townships in the northern part of the State; in the remaining townships each bears the cost of an ex-officio warden system. The Forest Service of Minnesota covers 20,000,000 acres by systematic patrol and maintains a permanent field force of rangers and patrolmen, with ex-officio town fire-wardens as an auxiliary force. Idaho has adopted a co-operative system of protection with private owners, under which the State pays its pro rata share of the cost, on the basis of State-owned area within the area protected by a privately organized system. Throughout the Northwest an important feature in fire protection is the extensive organization of private timberland owners into associations supported by assessments on an acreage basis and maintaining a system of private protection similar to that maintained on the National forests by the Government; the land thus privately protected is now estimated at approximately 25 million acres.

In the fifty years preceding 1913, forest fires had caused an average annual loss in the United States of about 70 human lives and at least \$25,000,000 worth of timber, besides the loss of live stock, crops, buildings, and various kinds of improvements worth many millions more. Added to this are the enormous losses from the destruction of young tree growth, soil deterioration, damage to water courses and water supplies, interruption of business, and depreciation of property.

New York has a State-owned "Forest Preserve" of 1,825,882 acres in the Adirondack and Catskill Mountains, under fire protection, but not under forest management, which the State Constitution forbids. The entire central portion of these two mountain regions, comprising 7,200,000 acres, is protected from fire by a State ranger system; in the rest of the State, town officers are depended on to keep fires down. Private owners are furnished tree seedlings at cost from the State

nurseries, which also grow material for reforestation of denuded portions of the reserve. Three laws give forest lands reduction of, or exemption from, tax assessment under certain conditions. Pennsylvania has 980,000 acres of State-owned forests and practices forestry on them, maintaining a State ranger training school at Mont Alto. These forests are chiefly in the mountains of the central part of the State, and protect streamflow as well as supply timber. Additional lands may be purchased at not more than \$5 per acre. Private lands are protected under a fire-warden system. The State distributes planting material and gives advice concerning forest management. The same is true of New Hampshire, Vermont, Connecticut, Maryland, Kentucky, Ohio, Kansas, Michigan, and Wisconsin.

Minnesota, Wisconsin, and Michigan have large holdings of State forests. Minnesota has approximately 1,000,000 acres of school lands which are to be retained for State school forests, besides 43,000 acres now in State forests. Wisconsin has 400,000 acres reserved, and Michigan 589,000, of which 312,000 acres are used for exchange to add to the 277,000 acres permanently reserved in several large blocks in different parts of the State. South Dakota has 75,000 acres of State forest in the Black Hills. Massachusetts has 15,000 acres, New Jersey 13,720 acres, and New Hampshire, Vermont, California, Connecticut, Indiana, and Maryland from 7,000 to 2,000 acres each.

In Connecticut, New York, Pennsylvania, and Michigan the tax on forest land may be levied chiefly on yield or income.

CONSERVATION OF NATURAL RESOURCES.

The National Conservation Association, with headquarters in the Colorado Building, Washington, D. C., is now the organized head of the conservation movement in the United States. In a booklet explaining the objects of the association is the following:

"The National Conservation Association is fighting for the prompt and orderly development of our natural resources, for the welfare of ourselves and our children, and for the rights of the plain people. The association is bound neither by political considerations nor official connections. It is free to speak the whole truth.

"That conservation means the use of our natural resources for the benefit of us all and not merely for the profit of a few is already household knowledge. The task which the National Conservation Association has set itself is to get this principle put into practical effect."

The association is maintained by annual dues from membership, ranging from \$1.00 to \$20.00. Gifford Pinchot, President; Charles W. Elliot, Honorary President; Harry A. Slatery, Secretary.

The National Conservation Congress is the National clearing-house for the State conservation commissions and conservation committees of National associations and all organizations concerned in the conservation of the country's natural resources. It is the organized head of the conservation movement in the United States. Its chief object is "to afford an agency through which the people of the country may frame policies and principles affecting the conservation and utilization of their resources, to be put into effect by their respective representatives in the State and Federal Governments."

The Congress holds annual meetings "to provide for discussion of the resources of the United States as the foundation for the prosperity of the people." The Congress also undertakes "to furnish definite information concerning the resources and their development, use and preservation."

Membership dues range from \$1 a year to \$100 or more, according to classification.

The Congress is managed by its officers and an Executive Committee, and by an Advisory Board, consisting of one member from each National association having a conservation committee.

President, E. Lee Worsham, Atlanta, Ga.; Executive Secretary, Thomas R. Shipp, 711 Riggs Building, Washington, D. C.; Treasurer, Norman C. McLoud, Cleveland, Ohio.

THE AMERICAN FORESTRY ASSOCIATION.

The American Forestry Association whose headquarters is at 1410 H Street N. W., Washington, D. C., was organized in 1882, and incorporated in January, 1897, with the following objects:

1. The promotion of a businesslike and conservative use and treatment of the forest resources of this country.

2. The advancement of legislation tending to this end both by the States and the Congress of the United States, the inauguration of forest administration by the Federal Government and by the States, and the extension of sound forestry by all proper methods.

3. The diffusion of knowledge regarding the conservation, management, and renewal of forests, proper utilization of their products, methods of reforestation of waste lands, and planting of trees.

The association desires and needs as members all who are interested in promoting the objects for which it is organized—all who realize the importance of using the natural resources of the country in such a manner as not to exhaust them, or to work ruin to other interests. In particular it appeals to owners of woodlands, to lumbermen and foresters, as well as to engineers, professional and business men who have to do with wood and its manifold uses, and to persons concerned in the conservation of water supplies for irrigation and other purposes.

The association has a membership of several thousands, residents of every State in the Union, Canada and foreign countries. A magazine, *American Forestry*, is published monthly and the subscription and membership fees are \$3.00 a year. The association also publishes *Forestry Quarterly*, a technical journal; subscription price, \$3.00 a year. The officers of the association are:

President—Dr. Henry S. Drinker, South Bethlehem, Pa.; Treasurer—John E. Jenks, Washington, D. C.; Executive Secretary—P. S. Ridsdale, Washington, D. C.

AMERICAN WOOD-PRESERVERS' ASSOCIATION.

President—George E. Rex, Topeka, Kan. First Vice-President—Carl G. Crawford, Louisville, Ky. Secretary-Treasurer—F. J. Angler, Baltimore, Md.

The objects and purposes of the association shall be to advance the wood-preserving industry in all its branches; to afford its members opportunities for the interchange of ideas with respect to improvements in the wood-preserving industry, and for the discussion of all matters bearing upon the industry of wood preserving; to maintain a high business and professional standard in all respects; and to standardize specifications for wood preservatives and their introduction into the materials to be preserved.

The means to be employed for this purpose shall be meetings for the presentation and discussion of appropriate papers, and for social and professional intercourse; the publication of such papers and discussions as may be deemed expedient; co-operation with other societies, associations and organizations in the work of standardizing specifications affecting the wood-preserving industry, and all other things incidental or conducive to the attainment of the objects of the association or any of them, and as the members may from time to time consider advisable.

Next annual convention will be held in Chicago, January 19, 20 and 21, 1915.

PASSPORT REGULATIONS.

Rules governing the granting and issuing of passports in the United States:

1. **BY WHOM ISSUED AND REFUSAL TO ISSUE.**—No one but the Secretary of State may grant and issue passports in the United States (Revised Statutes, sections 4075, 4078), and he is empowered to refuse them in his discretion. Passports are not issued by American diplomatic and consular officers abroad, except in cases of emergency; and a citizen who is abroad and desires to procure a passport must apply there through the nearest diplomatic or consular officer to the Secretary of State.

Applications for passports by persons in Porto Rico or the Philippines should be made to the Chief Executives of those islands. The evidence required of such applicants is the same as that required of applicants in the United States.

2. **FEE.**—By act of Congress approved March 23, 1888, a fee of one dollar is required to be collected for every citizen's passport. That amount in currency or postal money order should accompany each application made by a citizen of the United States. Orders should be made payable to the Disbursing Clerk of the Department of State. Drafts or checks will not be accepted.

3. **APPLICATIONS.**—A person who is entitled to receive a passport, if within the United States, must make a written application, in the form of an affidavit, to the Secretary of State. The application must be made by the person to whom the passport is to be issued and signed by him, as it is not competent for one person to apply for another.

The affidavit must be attested by an officer authorized to administer oaths, and if he has an official seal it must be affixed. If he has no seal his official character must be authenticated by certificate of the proper legal officer.

If the applicant signs by mark, two attesting witnesses to his signature are required. The applicant is required to state the date and place of his birth, his occupation, the place of his permanent residence and within what length of time he will return to the United States with the purpose of residing and performing the duties of citizenship.

The applicant must take the oath of allegiance to the Government of the United States.

The applicant must be accompanied by a description of the person applying, and should state the following particulars, viz.: Age, — years; stature, — feet, — inches (English measure); forehead, —; eyes, —; nose, —; mouth, —; chin, —; hair, —; complexion, —; face, —.

The application must be accompanied by a certificate from at least one credible witness that the applicant is the person he represents himself to be, and that the facts stated in the affidavit are true to the best of the witness's knowledge and belief.

4. **NATIVE CITIZENS.**—An application containing the information indicated by rule 3 will be sufficient evidence in the case of native citizens; but

A person of the Chinese race, alleging birth in the United States, must obtain from the Commissioner of Immigration or Chinese inspector in charge at the port through which he proposes to leave the country a certificate upon his application, under the seal of such officer, showing that there has been granted to him by the latter a return certificate in accordance with rule 15 of the Chinese Regulations of the Department of Labor. For this purpose special blank forms of application for passports are provided.

Passports issued by the Department of State or its diplomatic or consular representatives are intended for identification and protection in foreign countries, and not to facilitate entry into the United States, immigration being under the supervision of the Department of Labor.

5. **A PERSON BORN ABROAD WHOSE FATHER WAS A NATIVE CITIZEN OF THE UNITED STATES.**—In addition to the statements required by rule 3, his application must show that his father was born in the United States, resided therein, and was a citizen at the time of the applicant's birth. The department may require that this affidavit be supported by that of one other citizen acquainted with the facts.

6. **NATURALIZED CITIZENS.**—In addition to the statements required by rule 3, a naturalized citizen must transmit his certificate of naturalization, or a duly certified copy of the court record thereof, with his application. It will be returned to him after inspection. He must state in his affidavit when and from what port he emigrated to this country, what ship he sailed on, where he has lived since his arrival in the United States, when and before what court he was naturalized, and that he is the identical person described in the certificate of naturalization. The signature to the application should conform in orthography to the applicant's name as written in his certificate of naturalization, or an explanation of the difference should be submitted.

7. **WOMAN'S APPLICATION.**—If she is unmarried, in addition to the statements required by rule 3, she should state that she has never been married. If she is the wife or widow of a native citizen of the United States the fact should be made to appear in her application, which should be made according to the form prescribed for a native citizen whether she was born in this country or abroad. If she is the wife or widow of a naturalized citizen, in addition to the statements required by rule 3, she must transmit for inspection her husband's certificate of naturalization, or a certified copy of the court record thereof, must state that she is the wife (or widow) of the person described therein, and must set forth the facts of his emigration, naturalization, and residence, as required in the rules governing the application of a naturalized citizen. A married woman citizenship follows that of her husband so far as her international status is concerned. It is essential, therefore, that a woman's marital relations be indicated in her application for a passport, and that in the case of a married woman her husband's citizenship be established.

8. **THE CHILD OF A NATURALIZED CITIZEN CLAIMING CITIZENSHIP THROUGH THE NATURALIZATION OF THE PARENT.**—In addition to the statements required by rule 3, the applicant must state that he or she is the son or daughter, as the case may be, of the person described in the certificate of naturalization, which must be submitted for inspection, and must set forth the facts of emigration, naturalization, and residence, as required in the rule governing the application of a naturalized citizen.

9. **A RESIDENT OF AN INSULAR POSSESSION OF THE UNITED STATES WHO OWES ALLEGIANCE TO THE UNITED STATES.**—In addition to the statements required by rule 3, he must state that he owes allegiance to the United States and that he does not acknowledge allegiance to any other Government; and must submit affidavits from at least two credible witnesses having good means of knowledge in substantiation of his statements of birth, residence, and loyalty.

10. **EXPIRATION OF PASSPORT.**—A passport expires two years from the date of its issuance. A new one will be issued upon a new application, and if the applicant be a naturalized citizen, the old passport will be accepted in lieu of a certificate of naturalization. If the application upon which it was issued is found to contain sufficient information as to the naturalization of the applicant. Passports are not renewed by the department, but a person abroad holding a passport issued by the department may have it renewed for a period of two years upon presenting it to a diplomatic or principal consular officer of the United States when it is about to expire.

11. **WIFE, MINOR CHILDREN, AND SERVANTS.**—When the applicant is accompanied by his wife, minor children, or servant who would be entitled to receive a passport, it will be sufficient to state the fact, giving the respective ages of the children and the allegiance of the servant, when one passport will suffice for all. For any other person in the party a separate passport will be required. A woman's passport may include her minor children and servant under the above-named conditions. The term servant does not include a governess, tutor, pupil, companion, or person holding like relations to the applicant for a passport.

12. **TITLES.**—Professional and other titles will not be inserted in passports.

13. **BLANK FORMS OF APPLICATION.**—They will be furnished by the department to persons who desire to apply for passports, but are not furnished, except as samples, to those who make a business of procuring passports.

14. **ADDRESS.**—Communications should be addressed to the Department of State, Bureau of Citizenship, and each communication should give the post-office address of the person to whom the answer is to be directed.

Section 4075 of the Revised Statutes of the United States, as amended by the act of Congress, approved June 14, 1902, provides that "the Secretary of State may grant and issue passports, and cause passports to be granted, issued, and verified in foreign countries by such diplomatic or consular officers of the United States, and by such chief or other executive officer of the insular possessions of the United States, and under such rules as the President shall designate and prescribe for and on behalf of the United States," the foregoing rules are accordingly prescribed for the issuing and granting of passports in the United States.

The Secretary of State is authorized to make regulations on the subject of granting and issuing passports additional to these rules and not inconsistent with them.

WOODROW WILSON.

THE WHITE HOUSE, March 10, 1913.

NOTE.—An applicant who expects to go to Russia accompanied by wife and children should in form the department to that effect and state the names of the wife and children so that they may be inserted in the passport, to conform with the Russian regulations.

PASSPORT REGULATIONS—*Continued.*

NOTICE TO AMERICAN CITIZENS WHO CONTEMPLATE GOING ABROAD.

All American citizens who go abroad should carry American passports.

American citizens are advised not to visit unnecessarily countries at war.

It is especially important that naturalized American citizens refrain from visiting their countries of origin or countries which are at war therewith.

Department of State, Washington, August 12, 1914.

W. J. BRYAN.

PASSPORTS FOR AMERICAN CITIZENS IN EUROPE.

Emergency passports may be obtained by American citizens in Europe from American embassies, legations, or consulates upon their submitting thereto proper sworn applications supported by the necessary evidence of citizenship. A person claiming citizenship through naturalization in his own right should submit his certificate of naturalization with the application, and a person claiming citizenship through naturalization of parent or husband should submit the certificate of naturalization of such person. If the certificate of naturalization has been left in this country it should be forwarded to the department, and notice of its receipt will be sent by mail or telegraph to the embassy, legation, or consulate in which the passport application is to be made.

Where a person is residing in a remote place abroad and cannot, without great danger, difficulty, or expense, reach an American embassy, legation, or consulate to make his or her application, the department will consider the issuance of a passport upon receipt of a proper sworn application made in behalf of such person by the husband, parent, next of kin, or legal representative in this country. The person who signs the application should set forth the full name and personal description of the one for whom the passport is sought, and should state, to the best of his knowledge and belief, where and when such person was born, the nationality of his father: at the time of such person's birth, how long and in what places such persons resided in this country, what occupation he follows, when he went abroad and for what purpose, his exact present address, and his intention of returning to the United States for permanent residence. In the case of a naturalized citizen he should also state when he or she, or the parent or husband through whom naturalization was acquired, first came to this country, and when and before what court the naturalization was obtained, and the application should be accompanied by the naturalization certificate. When the person in whose behalf the application is made is accompanied by wife, children, or servants, who are citizens of the United States, the application should include their names, with the dates and places of birth.

The department does not furnish special blank forms of applications for the use of persons applying in behalf of others. The blank forms prescribed for ordinary applications may be used, with the necessary alterations and additions. The applicant should sign his own name, followed by the name of the person for whom the passport is desired, and should state his relationship to such person; thus: "John Jones, in behalf of Sarah Jones, his wife." The seal of the notarial officer before whom the application is executed should be affixed. The personal description should contain the following items: Age, _____ years; stature, _____ feet _____ inches, English measure; forehead, _____; eyes, _____; nose, _____; mouth, _____; chin, _____; hair, _____; complexion, _____; face, _____.

The application must be accompanied by a certified statement of some credible witness, other than the applicant, that he is acquainted with the applicant and the person for whom the passport is requested, and that the facts stated in the application are true to the best of the witness's knowledge and belief.

Upon special requests the department, instead of issuing a regular passport, upon the application received, and sending it through the mail, may telegraph the proper American diplomatic or consular officer in Europe to issue an emergency passport and send it to the person for whom it is desired. Such telegraphic instructions must necessarily set forth the full name, personal description, and address of the person for whom the passport is sought.

Whenever it is possible the department prefers that the application for a passport be made by the person to whom it is to be issued, and, when so requested, the department will instruct diplomatic or consular officers by telegraph to advise Americans abroad how and where applications may be made.

The expense of sending a telegram must, in every case, be assumed by some reliable person in this country, to whom a bill therefor will be sent.

The legal fee for the issuance of a passport by the department is one dollar, and, if this amount is sent in the form of a money order, it should be made payable to the "Disbursing Clerk, Department of State." In view of the present conditions in Europe, fees for the issuance of emergency passports by American diplomatic and consular officers will be waived.

W. J. BRYAN.

Department of State, Washington, August 12, 1914.

LIABILITY FOR MILITARY SERVICE IN FOREIGN COUNTRIES OF PERSONS RESIDING IN THE UNITED STATES.

The Department of State has recently received numerous inquiries from foreign-born persons residing in this country as to whether they may be compelled to perform military service in their native lands and as to what penalties, by way of fines, confiscation of property, or imprisonment in case of return, they will incur if they fail to report to the authorities of their countries of origin for military service. Some of the inquiries refer to persons who have obtained naturalization as citizens of the United States, others to persons who have made declarations of intention to become American citizens, and still others to persons who have taken no steps toward acquiring American citizenship. Misconception and confusion concerning this matter appear to be current.

The United States is not a party to any treaties under which persons of foreign origin residing in this country may be compelled to return to their countries of origin for military service, nor is there any way in which persons may be forced into foreign armies against their will so long as they remain in the United States.

The department cannot undertake to give authentic, official information either, in general, as to the requirements of the military service laws of foreign countries and the penalties provided therein for evasion of military service, or, in particular, as to the status and present or future liabilities of individuals under such laws. Information of this kind must be obtained from officials of the foreign countries concerned.

The department issues printed circulars concerning the status in their native lands of naturalized citizens of the United States, natives of certain European countries, and these will be furnished to interested persons upon request. It is specifically stated in these circulars that the information contained in them is not to be considered as official so far as it relates to the laws and regulations of foreign countries.

The United States has concluded treaties of naturalization with the following European countries: Austria-Hungary, Belgium, Denmark, the German States, Great Britain, Norway and Sweden. Copies of these treaties are to be found in "Treaties, Conventions, etc., between the United States

LIABILITY FOR MILITARY SERVICE IN FOREIGN COUNTRIES—Continued.

of America and Other Powers" (Government Printing Office, 1910), and separate copies may be furnished by the department upon request. Under these treaties the naturalization of persons concerned as citizens of the United States and the termination of their former allegiance are recognized, with the reservation, in most of them, that such persons remain liable to trial and punishment in their native lands for offences committed prior to emigration therefrom, including offences of evasion of military duty. The United States holds that no naturalized citizen of this country can rightfully be held to account for military liability to his native land accruing subsequent to emigration therefrom, but this principle may be contested by countries with which the United States has not entered into treaties of naturalization. The latter countries may hold that naturalization of their citizens or subjects as citizens of other countries has no effect upon their original military obligation, or may deny the right of their citizens or subjects to become naturalized as citizens of other countries, in the absence of express consent or without the fulfilment of military obligations. More specific information as to the department's understanding of the laws of these countries concerning nationality and military obligations may be found in the department's circulars mentioned above.

It is important to observe that an alien who declares his intention to become a citizen of the United States does not, at the time of making such declaration, renounce allegiance to his original sovereign, but merely declares that he intends to do so. Such person does not, by his declaration of intention, acquire the status of a citizen of the United States.

W. J. BRYAN.

DEPARTMENT OF STATE, Washington, August 14, 1914.

UNITED STATES BUREAU OF MINES.

Director—Joseph A. Holmes, Washington, D. C. (\$6,000).

The general purpose of the Bureau of Mines, of the Department of the Interior, is to conduct, in behalf of the public welfare, fundamental inquiries and investigations into the mining industry. Two phases of the industry of greatest national concern are safety and efficiency—safeguarding the lives of our miners and insuring the most efficient and least wasteful development and use of our mineral resources.

These inquiries and investigations are national in scope; they do not contemplate the safeguarding of the life of the individual miner nor the promotion of the interests of the individual mine owner or operator, but seek the development of methods that will increase the safety of all miners and will promote the upbuilding and permanence of the whole mineral industry. Yet, although the advancement of the public welfare is the primary purpose of this work, it is obvious that broad fundamental inquiries and researches cannot fail to confer benefits on the individual miner and the individual mine owner. Hence, the function of the Bureau of Mines may be defined as the conducting of inquiries and investigations that have for their purpose the improvement of health conditions, and the increase of safety, efficiency and economic development in the mining, quarrying, metallurgical and miscellaneous mineral industries of the country.

NUMBER OF MEN EMPLOYED AND NUMBER OF MEN KILLED AND INJURED IN AND ABOUT ALL MINES AND QUARRIES IN THE UNITED STATES DURING 1912.

MINE.	Em- ployed.	KILLED.		SERIOUSLY INJURED.		SLIGHTLY INJURED.	
		Total.	Per 1,000 Em- ployed.	Total.	Per 1,000 Em- ployed.	Total.	Per 1,000 Em- ployed.
Quarries.....	113,105	213	1.88	899	7.95	5,653	49.98
Coal mines.....	722,662	2,360	3.27	*	*	*	*
Metal mines.....	169,199	661	3.91	4,502	26.61	26,232	155.04
Totals.....	1,004,966	3,234	3.22

During the first six months of 1913 fatalities in and about coal mines were 1316; for corresponding period in 1914, 1,260.

During the calendar year 1913 there were 2,785 men killed in and about the coal mines of the United States. Based on an output of 570,048,125 short tons of coal produced by 747,644 men, the number of men killed for every 1,000,000 tons of coal mined was 4.89, and the death rate per 1,000 employed was 3.73. In 1913 the number of men killed was 425 more than in 1912, representing an increase of 18 per cent. There were 204,685 tons of coal mined for each man killed in 1913, as compared with 226,469 in 1912.

In making comparisons with the figures for 1912, it must be borne in mind that during the month of April, 1912, many of the mines throughout the United States were closed pending wage settlements, and during that month only 81 men were killed, as compared with 285 men killed during the same month in 1913, when the mines were in full operation.

During the year there were 8 mine disasters in which 5 or more men were killed, representing a total of 464 fatalities, as compared with 13 similar disasters in 1912, wherein 252 men were killed. Although the number of lives lost in the disasters of 1913 was larger than in the previous year, the number of mine disasters was reduced by 38 per cent.

* Statistics concerning injuries in coal mines not collated since 1911.

NUMBER OF MEN KILLED IN AND ABOUT THE COAL MINES IN THE UNITED STATES IN THE CALENDAR YEARS 1908 TO 1913, INCLUSIVE, WITH DEATH RATES.

NATURALIZATION.

The following paraphrase and condensation of the naturalization laws of the United States have been revised by the Commissioner of Naturalization of the Department of Labor, and includes such minor changes in the law as were provided by the recent amendments embodied in the acts of Congress, approved June 25, 1910, and June 30, 1914.

The following courts alone have the power to naturalize aliens: United States District Courts now existing, or which may hereafter be established by Congress in any State, United States District Courts for the Territories of Hawaii and Alaska, also all courts of record in any State or Territory now existing, or which may hereafter be created, having a seal, a clerk and jurisdiction in actions at law or equity, or law and equity, in which the amount in controversy is unlimited.

The power to naturalize, conferred upon the above mentioned courts, is limited to persons residing within the geographical limits over which their respective jurisdiction extends.

DECLARATION OF INTENTION.

Any alien who is a white person, or of African nativity or African descent, is required, if he desires to become naturalized, to file a declaration of intention in the clerk's office of any court having jurisdiction over the place in which he lives, and such declaration may not be filed until the alien has reached the age of eighteen years. This declaration must contain information as to the name, age, occupation, time and place of arrival in the United States, and must further show that it is the declarant's *bona fide* intention to become a citizen of the United States and to renounce forever all allegiance and fidelity to any foreign prince, potentate, state or sovereignty, and particularly to the one of which he may be at the time a citizen or subject.

Aliens of the age of twenty-one years and upward, who have been honorably discharged from service in the armies of the United States, either regular or volunteer, are not required to make a declaration of intention.

Any alien, of the age of twenty-one years and upward, who has served five consecutive years in the United States Navy or one enlistment in the United States Marine Corps, may be admitted to citizenship without any previous declaration of intention.

Under the act approved June 30, 1914, any alien of the age of twenty-one years and upward, who may under existing law become a citizen, who has served one enlistment of not less than four years in the United States Navy or Marine Corps, or who has completed four years in the Revenue Cutter Service, and received an honorable discharge or an ordinary discharge with recommendation for re-enlistment, or has completed four years of honorable service in the naval auxiliary service, is admissible to citizenship, upon his petition, without a previous declaration of intention, and without proof of residence on shore.

The widow and children who are under age at the time that an alien who has made his declaration of intention has died, without having secured a certificate of naturalization, are also exempted from the necessity of filing a declaration of intention.

By act of June 25, 1910, any person who on May 1, 1905, was an inhabitant for five years and qualified to become a citizen of the United States and who for the five years preceding May 1, 1910, had resided in the United States continuously and who, because of misinformation in regard to his citizenship, had in good faith exercised the rights and duties of a citizen of the United States because of wrongful information and belief, may, upon proof of these facts satisfactory to a court having jurisdiction to naturalize aliens, petition for naturalization without filing the required declaration of intention upon compliance with the other requirements of the law.

PETITIONS FOR NATURALIZATION.

Not less than two years after an alien has filed his declaration of intention, and after not less than five years' continuous residence in the United States, he may file a petition for citizenship in any one of the courts above stated which has jurisdiction over the place in which he resides, provided he has lived at least one year continuously, immediately prior to the filing of such petition, in the State or Territory in which such place is located. This petition must be signed by the petitioner in his own handwriting and shall give his full name, place of residence, occupation, place of birth and the date thereof, the place from which he emigrated, and the date and place of his arrival in the United States. If such arrival occurred subsequent to the passage of the act of June 29, 1906, he must secure a certificate from the Department of Labor showing the fact of such arrival and the date and place thereof, for filing with the clerk of the court to be attached to his petition. If he is married he must state the name of his wife and, if possible, the country of her nativity and her place of residence at the time of the filing of his petition, and, if he has children, the name, date and place of birth and present place of residence of each living child. The petition must set forth that he is not a disbeliever in or opposed to organized government, or a member of or affiliated with any organization or body of persons teaching disbelief in or opposition to organized government; that he is not a polygamist or a believer in the practice of polygamy, and that he absolutely and forever renounces all allegiance and fidelity to any foreign country of which he may, at the time of filing such petition, be a citizen or subject. This petition must be verified at the time it is filed by the affidavit of two credible witnesses, who are citizens of the United States and who shall state that they have known the petitioner during his entire residence (not exceeding five years) in the State in which the petition is filed, which must be not less than one year, and that they have known him to be a resident of the United States continuously during the five years immediately preceding the filing of the petition; that during such time he acted as a man of good moral character, attached to the principles of the Constitution of the United States and well disposed to the good order and happiness of the same. If a portion of the five years has been passed by the petitioner in some other State than that in which he resides at the time of filing his petition the affidavit of the witnesses may verify so much of the petitioner's residence as has been passed in the State (not less than one year), and the portion of said five years' residence out of the State may be shown by depositions at the time of hearing on the petition.

No petition may be heard until the expiration of at least ninety days after it is filed nor within thirty days preceding a general election. At the hearing upon a petition, which shall be at a date fixed by order of the court, the witnesses are required to again attend and testify in open court so that the Judge or Judges thereof may be satisfied that the petitioner is qualified and that he has complied with all the requirements of the law.

Any alien who has borne an hereditary title or been a member of an order or nobility must renounce such title or position expressly before becoming naturalized. No alien may become naturalized, if physically capable, who does not speak the English language.

Aliens who are admitted to citizenship by order in open court will be required to take the oath of allegiance and thereafter will be entitled to a certificate of naturalization.

The law also provides as to those persons, who though not citizens owe permanent allegiance to the United States, and who may become citizens of any State or organized Territory of the United States, that they may be naturalized upon compliance with all the requirements of the law, except that they will not be called upon to renounce allegiance to any foreign sovereignty.

At the time of filing his declaration of intention an alien is required to pay to the clerk of the court a fee of one dollar. At the time of filing a petition for naturalization a petitioner is required to pay to the clerk of the court a fee of four dollars. This latter fee is for the cost of recording the petition and hearing the case, as well as for the issuance, if the petition is granted, of the certificate of naturalization.

CHINESE.

The naturalization of Chinamen is expressly prohibited by Sec. 14, Chap. 126, Laws of 1882.

THE NATIONAL PURE FOOD LAW.

THE Pure Food act, approved June 30, 1906, is entitled "An act for preventing the manufacture, sale, or transportation of adulterated or misbranded or poisonous or deleterious foods, drugs, medicines and liquors, and for regulating traffic therein, and for other purposes." It took effect by its terms on January 1, 1907.

The first section of the act makes it unlawful for any person to manufacture within the District of Columbia or any Territory any article of food or drug which is adulterated or misbranded, under a penalty not to exceed \$500, or one year's imprisonment, or both, at the discretion of the court, for the first offence, and not less than \$1,000 or one year's imprisonment, or both, for each subsequent offence.

Sec. 2 of the act makes it applicable to food or drugs introduced into any State from any other State, and from or to any foreign country.

Sec. 3. That the Secretary of the Treasury, the Secretary of Agriculture, and the Secretary of Commerce and Labor shall make uniform rules and regulations for carrying out the provisions of this act, including the collection and examination of specimens of foods and drugs manufactured or offered for sale in the District of Columbia, or in any Territory of the United States, or which shall be offered for sale in unbroken packages in any State other than that in which they shall have been respectively manufactured or produced, or which shall be received from any foreign country, or intended for shipment to any foreign country, or which may be submitted for examination by the chief health, food, or drug officer of any State, Territory, or the District of Columbia, or at any domestic or foreign port through which such product is offered for interstate commerce, or for export or import between the United States and any foreign port or country.

Sec. 4. That the examinations of specimens of foods and drugs shall be made in the Bureau of Chemistry of the Department of Agriculture, or under the direction and supervision of such bureau, for the purpose of determining from such examinations whether such articles are adulterated or misbranded within the meaning of this act; and if it shall appear from any such examination that any of such specimens is adulterated or misbranded within the meaning of this act, the Secretary of Agriculture shall cause notice thereof to be given to the party from whom such sample was obtained. Any party so notified shall be given an opportunity to be heard, under such rules and regulations as may be prescribed as aforesaid, and if it appears that any of the provisions of this act have been violated by such party, then the Secretary of Agriculture shall at once certify the facts to the proper United States District-Attorney, with a copy of the results of the analysis or the examination of such article duly authenticated by the analyst or officer making such examination, under the oath of such officer. After judgment of the court, notice shall be given by publication in such manner as may be prescribed by the rules and regulations aforesaid.

Sec. 5. That it shall be the duty of each District-Attorney to whom the Secretary of Agriculture shall report any violation of this act, or to whom any health or food or drug officer or agent of any State, Territory, or the District of Columbia shall present satisfactory evidence of any such violation, to cause appropriate proceedings to be commenced and prosecuted in the proper courts of the United States, without delay, for the enforcement of the penalties as in such case herein provided.

The sections descriptive of the articles which come within the scope of the act are as follows:

"Sec. 6. That the term 'drug,' as used in this act, shall include all medicines and preparations recognized in the United States Pharmacopoeia or National Formulary for internal or external use, and any substance or mixture of substances intended to be used for the cure, mitigation or prevention of disease of either man or other animals. The term 'food,' as used herein, shall include all articles used for food, drink, confectionery or condiment by man or other animals, whether simple, mixed or compound.

"Sec. 7. That for the purposes of this act an article shall be deemed to be adulterated:"

In the case of drugs:

"First. If, when a drug is sold under or by a name recognized in the United States Pharmacopoeia or National Formulary, it differs from the standard of strength, quality or purity, as determined by the test laid down in the United States Pharmacopoeia or National Formulary official at the time of investigation: Provided, That no drug defined in the United States Pharmacopoeia or National Formulary shall be deemed to be adulterated under this provision if the standard of strength, quality or purity be plainly stated upon the bottle, box or other container thereof, although the standard may differ from that determined by the test laid down in the United States Pharmacopoeia or National Formulary.

"Second. If its strength or purity fall below the professed standard or quality under which it is sold."

In the case of confectionery:

"If it contain terra alba, barytes, talc, chrome yellow, or other mineral substance or poisonous color or flavor, or other ingredient deleterious or detrimental to health, or any vinous, malt or spirituous liquor or compound or narcotic drug."

In the case of food:

"First. If any substance has been mixed and packed with it so as to reduce, or lower, or injuriously affect its quality or strength.

"Second. If any substance has been substituted wholly or in part for the article.

"Third. If any valuable constituent of the article has been wholly or in part extracted.

"Fourth. If it be mixed, colored, powdered, coated, or stained in a manner whereby damage or inferiority is concealed.

"Fifth. If it contain any added poisonous or other added deleterious ingredient which may render such article injurious to health: Provided, That when in the preparation of food products for shipment they are preserved by any external application applied in such manner that the preservative is necessarily removed mechanically, or by maceration in water, or otherwise, and directions for the removal of said preservatives shall be printed on the covering of the package, the provisions of this act shall be construed as applying only when said products are ready for consumption.

"Sixth. If it consists in whole or in part of a filthy, decomposed, or putrid animal or

vegetable substance, or any portion of an animal unfit for food, whether manufactured or not, or if it is the product of a diseased animal, or one that has died otherwise than by slaughter.

"Sec. 8. That the term 'misbranded,' used herein, shall apply to all drugs, or articles, or food, or articles which enter into the composition of food, the package or label of which shall bear any statement, design, or device regarding such article, or the ingredients or substances contained therein which shall be false or misleading in any particular, and to any food or drug product which is falsely branded as to the State, Territory, or country in which it is manufactured or produced.

"That for the purposes of this act an article shall also be deemed to be misbranded."

In the case of drugs:

"First. If it be an imitation of or offered for sale under the name of another article.

"Second. If the contents of the package as originally put up shall have been removed, in whole or in part, and other contents shall have been placed in such package, or if the package fail to bear a statement on the label of the quantity or proportion of any alcohol, morphine, opium, cocaine, heroin, alpha or beta eucaine, chloroform, cannabis indica, chloral hydrate or acetanilide, or any derivative or preparation of any such substances contained therein.

"Third. If its package or label shall bear or contain any statement, design, or device regarding the curative or therapeutic effect of such article or any of the ingredients or substances contained therein, which is false and fraudulent."

In the case of food:

"First. If it be an imitation of or offered for sale under the distinctive name of another article.

"Second. If it be labelled or branded so as to deceive or mislead the purchaser, or purport to be a foreign product when not so, or if the contents of the package as originally put up shall have been removed in whole or in part and other contents shall have been placed in such package, or if it fail to bear a statement on the label of the quantity or proportion of any morphine, opium, cocaine, heroin, alpha or beta eucaine, chloroform, cannabis indica, chloral hydrate, or acetanilide, or any derivative or preparation of any such substance contained therein.

"Third. If in package form, the quantity of the contents be not plainly and conspicuously marked on the outside of the package in terms of weight, measure, or numerical count; Provided, however, That reasonable variations shall be permitted, and tolerances and also exemptions as to small packages shall be established by rules and regulations made in accordance with the provisions of Section 3 of this act. (The act of March 3, 1913, provides that no penalty of fine, imprisonment, or confiscation shall be enforced for any violation of its provisions as to domestic products prepared or foreign products imported prior to eighteen months after its passage.)

"Fourth. If the package containing it or its label shall bear any statement, design or device regarding the ingredients or the substances contained therein, which statement, design or device shall be false or misleading in any particular; Provided, That an article of food which does not contain any added poisonous or deleterious ingredients shall not be deemed to be adulterated or misbranded in the following cases:

"First. In the case of mixtures or compounds which may be now or from time to time hereafter known as articles of food, under their own distinctive names, and not an imitation of or offered for sale under the distinctive name of another article, if the name be accompanied on the same label or brand with a statement of the place where said article has been manufactured or produced.

"Second. In the case of articles labelled, branded or tagged so as to plainly indicate that they are compounds, imitations or blends, and the word 'compound,' 'imitation' or 'blend,' as the case may be, is plainly stated on the package in which it is offered for sale; Provided, That the term 'blend' as used herein shall be construed to mean a mixture of like substances, not excluding harmless coloring or flavoring ingredients used for the purpose of coloring and flavoring only; And provided further, That nothing in this act shall be construed as requiring or compelling proprietors or manufacturers of proprietary foods which contain no unwholesome added ingredients to disclose their trade formulas, except in so far as the provisions of this act may require to secure freedom from adulteration or misbranding.

"Sec. 9. That no dealer shall be prosecuted under the provisions of this act, when he can establish a guaranty signed by the wholesaler, jobber, manufacturer or other party residing in the United States, from whom he purchases such articles, to the effect that the same is not adulterated or misbranded within the meaning of this act, designating it."

The remaining provisions of the act provide the methods of prosecuting offenders and destroying goods imported or offered for import which are adulterated or falsely labelled.

SUMMARY OF RESULTS.

(Bureau of Chemistry, Carl L. Alsberg, Chief, Washington, D. C.)

The inspection force of the Bureau of Chemistry collected more than 10,000 official samples of foods and drugs during the fiscal year of 1913, and many additional samples for investigating purposes relating to the enforcement of the law.

ABOLISHING GUARANTY LEGEND AND SERIAL NUMBER ON FOOD AND DRUGS.

(Announcement of United States Department of Agriculture.)

The legend "Guaranteed under the Food and Drugs act" is held to be misleading and deceptive, and the use of a serial number on food and drugs is prohibited after May 1, 1915, by a food inspection decision signed May 5, 1914, by the Secretaries of the Treasury, Agriculture and Commerce. The new regulation will take effect May 1, 1915, in order to give manufacturers an opportunity to use up their present stocks of labels. After that date guaranties of compliance with the law should be given by manufacturers directly to dealers, and should be incorporated in the invoice or bill of sale specifying the goods covered. This guaranty should not appear on the label or package of the product.

UNITED STATES INTERNAL REVENUE RECEIPTS.

SUMMARY OF INTERNAL REVENUE RECEIPTS FROM 1906 TO 1914, INCLUSIVE.

FISCAL YEARS.	Spirits.	Tobacco.	Fermented Liquors.	Income Tax.	FISCAL YEARS.	Spirits.	Tobacco.	Fermented Liquors.	Income Tax.
1906....	\$143,394,055	\$48,422,997	\$55,541,859	1911....	\$155,279,858	\$67,005,950	\$64,367,777
1907....	156,276,402	51,811,070	59,567,818	1912....	156,591,487	70,590,151	63,268,770
1908....	140,158,807	49,562,754	59,807,617	1913....	163,879,342	76,794,424	66,266,989
1909....	134,868,034	51,897,178	57,456,411	1914....	159,098,177	79,956,639	67,081,512	\$60,710,197
1910....	148,029,311	58,118,457	60,572,288					

Of the miscellaneous receipts received in 1914 (total \$1,136,070), \$714,307 was from playing cards, and \$284,560 from penalties, etc. Receipts from oleomargarine \$1,325,219, from corporation excise tax \$10,671,071. (a) Including \$1,101,719 from sale of internal revenue stamps affixed to Philippine products, as provided for in the act of August 5, 1909. *Income tax from corporations \$32,456,662, from individuals \$28,253,534.

INCOME TAX ON INDIVIDUALS.

AGGREGATE OF COLLECTIONS BY DISTRICTS AND BY STATES AND TERRITORIES.

Individual income tax was computed upon five-sixths of net incomes accruing for the calendar year 1913. The collections from this source as classified to conform to provisions of the act were as follows:

Income tax, normal.....	\$12,728,038.02	\$100,000 and not more than \$250,000..	\$3,835,948.40
Income tax, additional, and are from net incomes exceeding:		250,000 and not more than 500,000..	2,334,582.95
\$20,000 and not more than \$50,000..	2,934,754.46	500,000.....	3,437,850.23
50,000 and not more than 75,000....	1,645,639.30	Offers in compromise, etc.....	13,698.89
75,000 and not more than 100,000....	1,323,022.61	Total.....	\$38,253,534.80

Supplemental statement showing the receipts under act of August 5, 1909, and of section 2 of the act of October 3, 1913, during the fiscal year ended June 30, 1914.

NOTE.—Alabama and Mississippi comprise the district of Alabama; Colorado and Wyoming, the district of Colorado; Connecticut and Rhode Island, the district of Connecticut; Maryland, Delaware, District of Columbia, and the counties of Accomac and Northampton, Va., the district of Maryland; Montana, Idaho, and Utah, the district of Montana; New Hampshire, Maine, and Vermont, the district of New Hampshire; New Mexico and Arizona, the district of New Mexico; North Dakota and South Dakota, the district of North and South Dakota; Washington and Alaska, the district of Washington; Nevada forms a part of the first district of California, and South Carolina a part of the fourth district of North Carolina until September 1, 1913, when it was re-established as a separate collection district.

WITHDRAWALS FOR CONSUMPTION.

The quantities of distilled spirits, fermented liquors, manufactured tobacco, snuff, cigars, cigarettes, and oleomargarine on which tax was paid during the last fiscal year are as follows:

ARTICLES TAXED.	Fiscal Year ended June 30, 1914.	CHANGE FROM PRECEDING YEAR.	
		Increase.	Decrease.
Spirits distilled from apples, peaches, grapes, pears, pineapples, oranges, apricots, berries, prunes, figs and cherries.....gals.	2,704,752	91,015
Spirits distilled from materials other than apples, peaches, grapes, pears, pineapples, oranges, apricots, berries, prunes, figs and cherries.....gals.	136,433,749	3,984,540
Fermented liquors.....gals.	66,105,445	859,901
Cigars, weighing more than 3 pounds per thousand.....number.	7,670,832,330	28,205,313
Cigars, weighing not more than 3 pounds per thousand.....number.	1,036,793,000	3,014,840
Cigarettes, weighing more than 3 pounds per thousand.....number.	17,418,880	705,431
Cigarettes, weighing not more than 3 pounds per thousand.....number.	16,409,667,136	2,132,895,976
Snuff.....lbs.	32,766,741	442,727
Tobacco, chewing and smoking.....lbs.	412,063,213	8,142,593
Oleomargarine.....lbs.	(†) 141,763,605	1,893,633
Adulterated butter.....lbs.	179,592	45,786
Process or renovated butter.....lbs.	31,927,248	6,814,366

Note—The quantity of mixed flour withdrawn cannot be stated, owing to the variable number of pounds taxed.
(†) Includes 4,198,741 pounds at 10 cents and 137,564,864 pounds at one-fourth of 1 cent per pound.

Receipts of tax on Porto Rican products—spirits, cigars and cigarettes—year ended June 30, 1914, \$632,550; on cigars and cigarettes from Philippines, \$170,779.

SPECIAL TAXES AND RATES.

Rectifiers of less than 500 barrels a year, \$100; rectifiers of 500 barrels or more a year, \$200.
Wholesale liquor dealers, \$100; retail liquor dealers, \$25.
Wholesale dealers in malt liquors, \$50; retail dealers in malt liquors, \$20.
Manufacturers of stills, \$50; and for stills or worms, manufactured, each, \$20.
Brewers: Annual manufacture less than 500 barrels, \$50; annual manufacture 500 barrels or more, \$100.
Manufacturers of filled cheese, \$400; wholesale dealers in filled cheese, \$250; retail dealers in filled cheese, \$12.
Manufacturers of oleomargarine, \$600; wholesale dealers in oleomargarine artificially colored in imitation of butter, \$480; wholesale dealers in oleomargarine free from artificial coloration, \$200; retail dealers in oleomargarine artificially colored in imitation of butter, \$48; retail dealers in oleomargarine free from artificial coloration, \$6.
Manufacturers of adulterated butter, \$600; wholesale dealers in adulterated butter, \$490; retail dealers in adulterated butter, \$48; manufacturers of process or renovated butter, \$50; manufacturers, packers or repackers of mixed flour, \$12.

DISTILLED SPIRITS, ETC.

Distilled spirits, per gallon, \$1.10; stamps for distilled spirits intended for export, each, 5 and 10 cents. Case stamps for spirits bottled in bond, 10 cents.
Wine made in imitation of champagne, and liquors produced by being rectified, etc., in bottles containing not more than one pint, per bottle or package, 10 cents; same, in bottles containing more than one pint and not more than one quart, per bottle or package, 20 cents; and, at the same rate for any larger quantity for such merchandise. Grape brandy used in the fortification of sweet wine, per gallon, 3 cents.

FERMENTED LIQUORS.

Fermented liquors per barrel (see special tax list above).

TOBACCO, SNUFF, CIGARS AND CIGARETTES.

Tobacco, however prepared, manufactured and sold, or removed for consumption or sale, per lb., 8 cents; snuff, however prepared, manufactured and sold, or removed for consumption or sale, per lb., 8 cents.
Cigars weighing more than 3 lbs. per thousand, \$3; cigars weighing not more than 3 lbs. per thousand, 75 cents; cigarettes weighing more than 3 lbs. per thousand \$3.60; cigarettes weighing not more than 3 lbs. per thousand, \$1.25.

OLEOMARGARINE, ADULTERATED BUTTER AND PROCESS OR RENOVATED BUTTER.
Oleomargarine, domestic, artificially colored in imitation of butter, per lb., 10 cents; oleomargarine, free from coloration that causes it to look like butter, of any shade of yellow, per lb., $\frac{1}{4}$ of 1 cent; oleomargarine, imported from foreign countries, per lb., 15 cents.

Adulterated butter, per lb., 10 cents; process or renovated butter, per lb., $\frac{1}{4}$ of 1 cent.

FILLED CHEESE.

Filled cheese, per lb., 1 cent; same, imported, per lb., 8 cents.

MIXED FLOUR.

Mixed flour, per barrel of 196 lbs., or more than 93 lbs., 4 cents; half barrel of 98 lbs., or more than 49 lbs., 2 cents; quarter barrel of 49 lbs., or more than 24 $\frac{1}{2}$ lbs., 1 cent; eighth barrel of 24 $\frac{1}{2}$ lbs. or less, $\frac{1}{2}$ cent.

BANKS AND BANKERS, ETC.

Bank circulation, per month, 1-12 of 1 per cent. Bank circulation exceeding 90 per cent. of capital, in addition, per month, 1-6 of 1 per cent.

Banks, bankers, and other parties liable on amount of notes of any person, State bank, or State banking association, or of any town, city or municipal corporation, paid out by them, 10 per cent.

CORPORATION INCOME.

Income tax on corporations, joint stock companies or associations, and insurance companies, 1 per cent.

INDIVIDUAL INCOME.

Income tax, normal, on individuals, 1 per cent. Income tax, additional—Net incomes exceeding \$20,000 and not more than \$50,000, 1 per cent.; exceeding \$50,000 and not more than \$75,000, 2 per cent.; exceeding \$75,000 and not more than \$100,000, 3 per cent.; exceeding \$100,000 and not more than \$250,000, 4 per cent.; exceeding \$250,000 and not more than \$500,000, 5 per cent.; exceeding \$500,000, 6 per cent.

MISCELLANEOUS.

Playing cards, per pack, 2 cents. Opium, manufactured for smoking purposes, per lb., \$300. White phosphorous matches, per hundred, 2 cents.

UNITED STATES PENSION STATISTICS.

NUMBER OF ARMY AND NAVY PENSIONERS ON THE ROLL JUNE 30, 1914.

Regular Establishment—Invalids or survivors, 14,919; widows or minors, 4,422.
 Service—Act of May 11, 1912, Invalids or survivors, 369,624; act of February 6, 1907, invalids or survivors, 7,153.

Civil War, General Law—Invalids or survivors, 50,347; widows or minors, 59,160.
 Civil War, Act of June 27, 1890—Invalids or survivors, 2,225; widows or minors, 4,091.

Total number of original applications during fiscal year ending June 30, 1914, 28,488.
 Total number of original claims allowed for fiscal year ending June 30, 1914, 19,287.
 Number of pensioners on roll June 30, 1914—Invalids or survivors, 470,331; widows or minors, 314,908; total, 785,239.

Paid pensioners during 1914, \$172,417,546.26.
 (For number of pension claims, pensioners and disbursements, by years, from 1867 to 1912, see WORLD ALMANAC for 1913, page 166.)

Expenses of the Pension Bureau and agencies in disbursing pension fund for the fiscal year ending June 30, 1914, \$2,066,507.15.

All the pension agencies have been consolidated, and all pensioners are now paid by the Commissioner of Pensions through the Disbursing Clerk of the Pension Bureau, Washington, D. C.

NETAL DISBURSEMENTS FOR PENSIONS FOR ALL WARS AND OF THE PEACE ESTABLISHMENT TO JUNE 30, 1914.

War of the Revolution (estimate), \$70,000,000; war of 1812 (service pension), \$45,950,546.46; Indian wars (service pension), \$12,801,520.61; war with Mexico (service pension), \$48,693,102.34; civil war, \$4,457,974,496.47; war with Spain and insurrection in the Philippine Islands, \$46,092,740.84; regular establishment, \$31,936,516.52; unclassified, \$16,508,447.41. Total disbursements for pensions, \$4,729,957,370.65.

The following are the rates for total disability from causes incident to the service:

Army—Lieutenant-colonel and all officers of higher rank, \$30; major, surgeon, and paymaster, \$25; captain, provost marshal, and chaplain, \$20; first lieutenant, assistant surgeon, and deputy provost marshal, \$17; second lieutenant and enrolling officer, \$15; enlisted men, \$5.

Navy—Captain and officers of higher rank, commander, lieutenant commanding and master commanding, surgeon, paymaster, and chief engineer, respectively ranking with commander by law, \$30; lieutenant, surgeon, paymaster, and chief engineer, respectively ranking with lieutenant by law, and passed assistant surgeon, \$25; master, professor of mathematics, assistant surgeon, assistant paymaster and chaplain, \$20; first assistant engineer, ensign, and pilot, \$15; cadet midshipman, passed midshipman, midshipman, clerks of admirals, paymasters, or other officers commanding vessels, second and third assistant engineers, master's mate, and warrant officers, \$10; enlisted men, \$5.

Marine Corps—Lieutenant-colonel and officers of higher rank, \$30; major, \$25; captain, \$20; first lieutenant, \$17; second lieutenant, \$15; enlisted men, \$8.

Pension at certain ages on account of service in the civil and Mexican wars. Act of May 11, 1912.

Any person who served ninety days or more in the military or naval service of the United States during the late civil war, and who has been honorably discharged therefrom, and who has reached the age of sixty-two years or over, on making proof of such facts is entitled to receive a pension as follows: Age sixty-two years—For a service of 90 days, \$13.00 per month; 6 months, \$13.50; 1 year, \$14.00; 1½ years, \$14.50; 2 years, \$15.00; 2½ years, \$15.50, and 3 years and more, \$16.00. Age 66 years—For a service of 90 days, \$15.00 per month; 6 months, \$15.50; 1 year, \$16.00; 1½ years, \$16.50; 2 years, \$17.00; 2½ years, \$18.00, and 3 years and more, \$19.00. Age 70 years—For a service of 90 days, \$18.00 per month; 6 months, \$19.00; 1 year, \$20.00; 1½ years, \$21.50; 2 years, \$23.00; 2½ years, \$24.00, and 3 years and more, \$25.00. Age 75 years—For a service of 90 days, \$21.00 per month; 6 months, \$22.50; 1 year, \$24.00; 1½ years, \$27.00, and 2 years and more, \$30.00. And such pension shall commence from the date of filing the application in the Bureau of Pensions. Any person who served sixty days or more in the war with Mexico, and who received an honorable discharge, is entitled to \$30.00 per month. Any person who was wounded in battle or in line of duty in the civil war, and is now unfit for manual labor by reason thereof, or who from disease or other causes incurred in line of duty resulting in his disability, is now unable to perform manual labor, is entitled to \$30.00 per month.

AMERICAN SOCIETY OF INTERNATIONAL LAW.

President—Elihu Root. Vice-Presidents—Chief Justice White, Justice William R. Day, P. C. Knox, Andrew Carnegie, Joseph H. Choate, John W. Foster, George Gray, William W. Morrow, Richard Olney, Horace Porter, Oscar S. Straus, Jacob M. Dickinson, James B. Angell, William H. Taft, William J. Bryan. Recording Secretary—James Brown Scott. Corresponding Secretary—Charles Henry Butler. Treasurer—Chandler P. Anderson. Headquarters, Washington, D. C.

PATENT OFFICE PROCEDURE.

THE following statement has been revised by the Patent Office for THE WORLD ALMANAC for 1915:

Patents are issued in the name of the United States, and under the seal of the Patent Office, to any person who has invented or discovered any new and useful art, machine, manufacture, or composition of matter or any new and useful improvement thereof, or any new, original and ornamental design for an article of manufacture, not known or used by others in this country before his invention or discovery thereof, and not patented or described in any printed publication in this or any foreign country, before his invention or discovery thereof or more than two years prior to his application, and not in public use or on sale in the United States for more than two years prior to his application, unless the same is proved to have been abandoned; upon payment of the fees required by law and other due proceedings had.

Every patent contains a grant to the patentee, his heirs or assigns, for the term of seventeen years, except in the case of design patents, of the exclusive right to make, use, and vend the invention or discovery throughout the United States and the Territories, referring to the specification for the particulars thereof.

If it appear that the inventor, at the time of making his application, believed himself to be the first inventor or discoverer, a patent will not be refused on account of the invention or discovery, or any part thereof, having been known or used in any foreign country before his invention or discovery thereof, if it had not been before patented or described in any printed publication.

Joint inventors are entitled to a joint patent; neither can claim one separately. Independent inventors of distinct and independent improvements in the same machine cannot obtain a joint patent for their separate inventions; nor does the fact that one furnishes the capital and another makes the invention entitle them to make application as joint inventors; but in such case they may become joint patentees by means of a deed of assignment.

No person otherwise entitled thereto will be debarred from receiving a patent for his invention or discovery, by reason of its having been first patented or caused to be patented by the inventor or his legal representatives or assigns in a foreign country, unless the application for said foreign patent was filed more than twelve months prior to the filing of the application in this country, and four months in cases of designs, in which case no patent shall be granted in this country.

APPLICATIONS.

If an inventor wishes to file an application for patent, a copy of the Rules of Practice, containing forms and instructions, will be sent upon request. It is advisable, however, in every case, that the services of a competent registered patent attorney be secured, as the value of patents depends largely upon the skilful preparation of the specification and claims. The Patent Office cannot recommend any particular attorney or firm, but advises applicants to avoid doing business with those who advertise the possession of unusual facilities for obtaining patents.

Applications for a patent must be made in writing to the Commissioner of Patents. The applicant must also file in the Patent Office a written description of the invention or discovery, and of the manner and process of making, constructing, compounding, and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art or science to which it appertains, or with which it is most nearly connected, to make, construct, compound, and use the same; and in case of a machine, he must explain the principle thereof, and the best mode in which he has contemplated applying that principle, so as to distinguish it from other inventions, and particularly point out and distinctly claim the part, improvement, or combination which he claims as his invention or discovery. The specification and claim must be signed by the inventor and attested by two witnesses.

When the nature of the case admits of drawings, the applicant must furnish a drawing of the required size, signed by the inventor or his attorney in fact, and attested by two witnesses. The applicant, if required by the Patent Office, shall furnish a model of convenient size to exhibit advantageously the several parts of his invention or discovery, but a model should not be sent unless first called for by the Patent Office.

The applicant shall make oath that he verily believes himself to be the original and first inventor or discoverer of the art, machine, manufacture, composition, or improvement for which he solicits a patent; that he does not know and does not believe that the same was ever before known or used, and shall state of what country he is a citizen and where he resides, and whether he is the sole or joint inventor of the invention claimed in his application. In every original application the applicant must distinctly state under oath that the invention has not been patented to himself or to others with his knowledge or consent in this or any foreign country for more than two years prior to his application, or on an application for a patent filed in any foreign country by himself or his legal representatives or assigns more than twelve months prior to his application in this country, or four months in cases of designs. If any application for patent has been filed in any foreign country by the applicant in this country or by his legal representatives or assigns, prior to his application in this country, he shall state the country or countries in which such application has been filed, giving the date of such application, and shall also state that no application has been filed in any other country or countries than those mentioned; that to the best of his knowledge and belief the invention has not been in public use or on sale in the United States nor described in any printed publication or patent in this or any foreign country for more than two years prior to his application in this country. Such oath may be made before any person within the United States authorized by law to administer oaths, or, when the applicant resides in a foreign country, before any Minister, Chargé d' Affaires, Consul, or commercial agent holding commission under the Government of the United States, or before any notary public, Judge or Magistrate having an official seal and authorized to administer oaths in that country whose authority shall be proved by a certificate of a diplomatic or consular officer of the United States, except that no acknowledgment may be taken by any attorney appearing in the case.

On the filing of such application and the payment of the fees required by law, if, on examination, it appears that the applicant is justly entitled to a patent under the law, and that the same is sufficiently useful and important, the Commissioner will issue a patent therefor.

Every patent or any interest therein shall be assignable in law by an instrument in writing; and the patentee or his assigns or legal representatives may, in like manner, grant and convey an exclusive right under his patent to the whole or any specified part of the United States.

REISSUES.

A reissue is granted to the original patentee, his legal representatives, or the assignees of the entire interest when, by reason of a defective or insufficient specification, or by reason of the patentee claiming as his invention or discovery more than he had a right to claim as new, the original patent is inoperative or invalid, provided the error has arisen from inadvertence, accident, or mistake, and without

PATENT OFFICE PROCEDURE—Continued.

any fraudulent or deceptive intention. Reissue applications must be made and the specifications sworn to by the inventors, if they be living.

FEEES,

Fees must be paid in advance, and are as follows: On filing each original application for a patent, \$15. On issuing each original patent, \$20. In design cases: For three years and six months, \$10; for seven years, \$15; for fourteen years, \$30. On every application for the reissue of a patent, \$30. On filing each disclaimer, \$10. For certified copies of patents and other papers in manuscript, ten cents per hundred words and twenty-five cents for the certificate; for certified copies of printed patents, eighty cents. For uncertified printed copies of specifications and drawings of patents, five cents each. For recording every assignment, agreement, power of attorney, or other paper, of three hundred words or under, \$1; of over three hundred and under one thousand words, \$2; for each additional thousand words, or traction thereof, \$1. For copies of drawings, the reasonable cost of making them. The Patent Office is prepared to furnish positive photographic copies of the drawings of pending patented or abandoned cases, in sizes and at rates as follows: Large size, 10x15 inches, twenty-five cents; medium size, 8x12½ inches, fifteen cents. Negative photographic copies of specifications and drawings of foreign patents, or of any page or part of page of any printed publication in the possession of the office, will be furnished on paper 7x11 inches, for 15 cents per sheet. Fee for examining and registering trade-mark, \$10, which includes certificate. Stamps cannot be accepted by the Patent Office in payment of fees. Stamps and stamped envelopes should not be sent to the office for replies to letters, as stamps are not required on mail matter emanating from the Patent Office.

PATENT OFFICE STATISTICS.

The receipts of the Patent Office during the year ending December 31, 1913, were \$2,084,417.79, and expenditures, \$1,947,383.28. Receipts over expenditures, \$137,034.51. Total net surplus to December 31, 1913, \$7,297,052.46.

The following is a statement of the business of the office for the year ending December 31, 1913:

Number of applications for patents.....	68,117	Number of patents granted, including designs.....	35,624
Number of applications for design patents.....	2,060	Patents reissued.....	158
Number of applications for reissue patents.....	190	Total.....	35,782
Total.....	70,376	Number of trade-marks registered.....	5,065
Number of applications for registration of trade-marks.....	7,369	Number of labels registered.....	708
Number of applications for registration of labels.....	1,002	Number of prints registered.....	290
Number of applications for prints.....	391	Total.....	6,063
Number of disclaimers filed.....	24	Number of patents expired.....	21,867
Number of appeals on the merits.....	1,622	Number of patents forfeited for non-payment of final fees.....	7,716
Total.....	10,408	Number of applications allowed awaiting final fees.....	13,567
		Number of trade-mark applications passed for publication.....	5,107

The total number of applications filed at the Patent Office in seventy-five years, 1837-1912, was 1,926,009; number of original patents, including designs and reissues issued, 1,106,235.

There is now no law permitting the filing of a caveat, the old law having been repealed July 1, 1910. Patent No. 1,000,000 was granted August 8, 1911, to F. H. Holton, of Akron, O., for an automobile tire. The following is a statement of patents and designs issued in 1913 according to residence of patentees:

Alabama, 189; Alaska, 6; Arizona, 71; Arkansas, 141; California, 1,665; Canal Zone, 11; Colorado, 436; Connecticut, 968; Delaware, 40; District of Columbia, 241; Florida, 132; Georgia, 238; Hawaii, 21; Idaho, 107; Illinois, 3,229; Indiana, 713; Iowa, 606; Kansas, 410; Kentucky, 228; Louisiana, 171; Maine, 113; Maryland, 317; Massachusetts, 1,809; Michigan, 969; Minnesota, 586; Mississippi, 94; Missouri, 1,027; Montana, 132; Nebraska, 274; Nevada, 42; New Hampshire, 98; New Jersey, 1,610; New Mexico, 52; New York, 5,312; North Carolina, 161; North Dakota, 131; Ohio, 2,099; Oklahoma, 263; Oregon, 254; Pennsylvania, 3,085; Philippine Islands, 10; Porto Rico, 5; Rhode Island, 271; South Carolina, 90; South Dakota, 124; Tennessee, 210; Texas, 599; Utah, 121; Vermont, 58; Virginia, 290; Washington, 529; West Virginia, 201; Wisconsin, 764; Wyoming, 39; U. S. Army, 7; U. S. Navy, 11. Total, 431,382.

Foreign countries: Austria-Hungary, 168; Belgium, 54; Canada, 557; Cuba, 21; Denmark, 28; England, 903; France, 340; Germany, 1,433; Italy, 55; Japan, 19; Mexico, 31; Norway, 31; Russia, 48; Scotland, 63; Sweden, 87; Switzerland, 131; other countries, 238. Total foreign, 4,212.

GENERAL PATENT STATISTICS.

The following table is compiled from the report of the Commissioner of Patents for 1914. It exhibits the number of patents issued by foreign countries (estimated) and the United States from the earliest records to December 31, 1913:

COUNTRIES.	To 1870 inclusive.	1871 to 1913.	Total.	COUNTRIES.	To 1870 inclusive.	1871 to 1913.	Total.

* Including 9,957 patents issued prior to July 1, 1836, on which date the present series began.
† Not including 164 reissues and 30 patents withdrawn.

REGISTRATION OF TRADE-MARKS**IN THE UNITED STATES.**

THE following are extracts from the new "Act to authorize the registration of trade-marks used in commerce with foreign nations, or among the several States or Indian tribes, and to protect the same," approved February 20, 1905, and later amendatory acts.

"The owner of a trade-mark used in commerce with foreign nations, or among the several States, or with Indian tribes, provided such owner shall be domiciled within the territory of the United States, or resides in or is located in any foreign country, which, by treaty, convention, or law, affords similar privileges to the citizens of the United States, may obtain registration for such trade-mark by complying with the following requirements: First, by filing in the Patent Office an application therefor, in writing, addressed to the Commissioner of Patents, signed by the applicant, specifying his name, domicile, location, and citizenship; the class of merchandise and the particular description of goods comprised in such class to which the trade-mark is appropriated; a statement of the mode in which the same is applied and affixed to goods, and the length of time during which the trade-mark has been used; a description of the trade-mark itself shall be included, if desired by the applicant or required by the Commissioner, provided such description is of a character to meet the approval of the Commissioner. With this statement shall be filed a drawing of the trade-mark, signed by the applicant, or his attorney, and such number of specimens of the trade-mark, as actually used, as may be required by the Commissioner of Patents. Second, by paying into the Treasury of the United States the sum of ten dollars, and otherwise complying with the requirements of this act and such regulations as may be prescribed by the Commissioner of Patents.

"A certificate of registration shall remain in force for twenty years, except that in the case of trade-marks previously registered in a foreign country such certificates shall cease to be in force on the day on which the trade-mark ceases to be protected in such foreign country, and shall in no case remain in force more than twenty years, unless renewed. Certificates of registration may be, from time to time, renewed for like periods on payments of the renewal fees required by this act, upon request by the registrant, his legal representatives, or transferees of record in the Patent Office, and such request may be made at any time not more than six months prior to the expiration of the period for which the certificates of registration were issued or renewed. Certificates of registration in force at the date at which this act takes effect shall remain in force for the period for which they were issued, but shall be renewable on the same conditions and for the same periods as certificates issued under the provisions of this act, and when so renewed shall have the same force and effect as certificates issued under this act.

"The registration of a trade-mark under the provisions of this act shall be prima facie evidence of ownership. Any person who shall, without the consent of the owner thereof, reproduce, counterfeit, copy, or colorably imitate any such trade-mark and affix the same to merchandise of substantially the same descriptive properties as those set forth in the registration, or to labels, signs, prints, packages, wrappers, or receptacles intended to be used upon or in connection with the sale of merchandise of substantially the same descriptive properties as those set forth in such registration, and shall use, or shall have used, such reproduction, counterfeit, copy, or colorable imitation in commerce among the several States, or with a foreign nation, or with the Indian tribes, shall be liable to an action for damages therefor at the suit of the owner thereof; and whenever in any such action a verdict is rendered for the plaintiff, the court may enter judgment therein for any sum above the amount found by the verdict as the actual damages, according to the circumstances of the case, not exceeding three times the amount of such verdict, together with the costs."

No trade-mark will be registered which consists of or comprises immoral or scandalous matter, or which consists of or comprises the flag or coat of arms or other insignia of the United States, or any simulation thereof, or of any State or municipality, or of any foreign nation, or which consists of or comprises any design or picture that has been adopted by any fraternal society as its emblem, or of any name, distinguishing mark, character, emblem, colors, flag, or banner adopted by any institution, organization, club, or society which was incorporated in any State in the United States prior to the date of the adoption and use by the applicant; Provided, That said name, distinguishing mark, character, emblem, colors, flag, or banner was adopted and publicly used by said institution, organization, club, or society prior to the date of adoption and use by the applicant; unless it shall be shown to the satisfaction of the Commissioner of Patents that the mark was adopted and used as a trade-mark by the applicant or applicant's predecessors, from whom title is derived, at a date prior to the date of its adoption by such fraternal society as its emblem, or which trade-mark is identical with a registered or known trade-mark owned and in use by another, and appropriated to merchandise of the same descriptive properties, or which so nearly resembles a registered or known trade-mark owned and in use by another, and appropriated to merchandise of the same descriptive properties as to be likely to cause confusion or mistake in the minds of the public, or to deceive purchasers; or which consists merely in the name of an individual, firm, corporation, or association, not written, printed, impressed, or woven in some particular or distinctive manner or in association with a portrait of the individual, or merely in words or devices which are descriptive of the goods with which they are used, or of the character or quality of such goods, or merely a geographical name or term; no portrait of a living individual will be registered as a trade-mark, except by the consent of such individual evidenced by an instrument in writing; and no trade-mark will be registered which is used in unlawful business, or upon any article injurious in itself, or which has been used with the design of deceiving the public in the purchase of merchandise, or which has been abandoned.

Any mark, used in commerce with foreign nations or among the several States or with Indian tribes, may be registered if it has been in actual and exclusive use as a

REGISTRATION OF TRADE-MARKS—Continued.

trade-mark of the applicant, or his predecessors from whom he derived title, for ten years next preceding the passage of the act of February 20, 1905.

By act of Congress approved February 18, 1909, the second section of the trade-mark act was amended so as to read as follows:

"The application prescribed in the foregoing section, in order to create any right whatever in favor of the party filing it, must be accompanied by a written declaration verified by the applicant, or by a member of the firm or an officer of the corporation or association applying, to the effect that the applicant believes himself or the firm, corporation, or association in whose behalf he makes the application to be the owner of the trade-mark sought to be registered, and that no other person, firm, corporation, or association, to the best of the applicant's knowledge and belief, has the right to use such trade-mark in the United States, either in the identical form or in such near resemblance thereto as might be calculated to deceive; that such trade-mark is used in commerce among the several States, or with foreign nations, or with Indian tribes, and that the description and drawing presented truly represent the trade-mark sought to be registered. If the applicant resides or is located in a foreign country, the statement required shall, in addition to the foregoing, set forth that the trade-mark has been registered by the applicant, or that an application for the registration thereof has been filed by him in the foreign country in which he resides or is located, and shall give the date of such registration, or the application therefor, as the case may be, except that in the application in such cases it shall not be necessary to state that the mark has been used in commerce with the United States or among the States thereof. The verification required by this section may be made before any person within the United States authorized by law to administer oaths, or, when the applicant resides in a foreign country, before any Minister, Charge d'Affaires, Consul, or commercial agent holding commission under the Government of the United States, or before any notary public, judge, or magistrate having an official seal and authorized to administer oaths in the foreign country in which the applicant may be whose authority shall be proved by a certificate of a diplomatic or consular officer of the United States."

TRADE-MARK TREATIES WITH FOREIGN NATIONS.

The following is a list of the Governments with which conventions for the reciprocal registration and protection of trade-marks have been entered into by the United States—Austria-Hungary, Belgium, Denmark, France, Germany, Great Britain (including colonies), Italy, Japan (including China and Korea), Luxemburg, Mexico, Rumania, Servia, Spain. The laws of Switzerland and the Netherlands being so framed as to afford reciprocal privileges to the citizens or subjects of any Government which affords similar privileges to the people of those countries, the mere exchange of diplomatic notes, giving notice of the fact, accomplishes all the purposes of a formal convention.

IRRIGATION.

Approved projects commenced, area to be reclaimed, with expenditure to and percentage of completion on December 31, 1913 by locations.

THE CHAMBER OF COMMERCE OF THE UNITED STATES OF AMERICA.

NATIONAL HEADQUARTERS, WASHINGTON, D. C.

ORGANIZED at the National Commercial Conference called by the President. of the United States and held at Washington, D. C., April 22 and 23, 1912.

President—John H. Fahey, Boston, Mass. *Vice-Presidents*—Henry L. Corbett, Portland, Ore., for Western States; Robert F. Maddox, Atlanta, Ga., for Southern Central States; A. B. Farquhar, York, Pa., for Eastern States, and A. H. Mulliken, Chicago, Ill., for Northern Central States. *Treasurer*—John Joy Edson, Washington, D. C. *Chairman Executive Committee*—James G. Cutler, Rochester, N. Y. *General Secretary*—Elliot H. Goodwin, Washington, D. C. *Assistant Secretary*—D. A. Skinner, Washington, D. C. *Field Secretary*—E. F. Trefz, Chicago, Ill. *Chief, Editorial Division*—Grosvenor Dawe, Washington, D. C.

PURPOSES—To encourage and promote the organization of associations of business men in all parts of the country. To study the work of existing organizations and their value to their respective trades and communities, and to clear the information thus acquired for the benefit of all organizations desiring to increase their efficiency. To advocate the standardization of association methods and of association effort, and to urge the adoption of those standards which have been found most effective in so far as they may be applicable to local or trade conditions.

To study the work performed by all Government Bureaus in any way related to the commerce of the country, to encourage and support appropriation measures for their further development, and to utilize the data which they gather by directing it into the channels to which it is immediately applicable.

To carefully analyze all statistics with regard to the production and distribution of our manufactures at home and abroad; to be watchful of every influence calculated to retard our commercial development, and to become a source of information with respect to new opportunities for trade expansion, especially in foreign markets.

When debatable policies affecting our National commerce are advocated by the Federal authorities, there should be a recognized organization capable of expressing the business opinion of the entire country available for conference, alike to the executive and legislative branches of the Government. It is the purpose of the Chamber of Commerce of the United States of America to act in this capacity—not to originate legislation, nor to be unnecessarily critical of legislation proposed by others, but rather to assume that the National Government desires to act in harmony with the commercial interests of the country and will accept our co-operation in an endeavor to make all business legislation constructive.

There are three great wealth-producing factors in our National life—Commerce, Labor and Agriculture. Labor, through its State and National organizations, strives for legislation in its own interest and presents its demands with the united voice of two million union workers. Agriculture likewise presents its demands through its National organization, and these are heeded in both State and National Legislatures. Commerce has been organized into local and trade groups, but not as an effective National unit, and it is to provide such a unit, as powerful as those enjoyed by Labor and Agriculture, that the Chamber of Commerce of the United States is now organized. These three great factors, through their National organizations, may find a means for co-operation on many subjects in which there is a vital joint interest.

ORGANIZATION MEMBERSHIP—Every commercial or manufacturers' association not organized for private purposes shall be eligible for membership in the Chamber. Such associations shall be of two classes.

First—Local or State commercial or business organizations whose chief purpose is the development of the commercial and industrial interests of a single State, city or locality.

Second—Local, State, interstate or National organizations whose membership is confined to one trade, or group of trades.

REPRESENTATION—Each member of the Chamber of Commerce of the United States of America shall be entitled to one delegate and one vote for the first twenty-five members, and one delegate and one vote for each additional two hundred members in excess of twenty-five, but no member shall be entitled to more than ten delegates and ten votes. Organizations having less than twenty-five members may be admitted to membership if in the judgment of the Board of Directors their importance would justify their admission, and these shall be entitled to one delegate and one vote.

INDIVIDUAL MEMBERSHIP—Persons, firms and corporations who are members in good standing of any organization admitted to the Chamber are eligible for election as individual members. Individual members receive the regular publications of the Chamber and they may avail themselves of the facilities of the National headquarters; may attend all regular and special meetings of the Chamber and, subject to the rules of such meetings, may have the privilege of the floor, but they are not entitled to vote except as duly accredited delegates of organization members. Individual membership is limited to 5,000.

THE UNITED STATES GOVERNMENT PRINTING OFFICE.

In this establishment practically all the printing for the United States Government is done except the manufacture of paper money and postage stamps. The Public Printer is the executive head of the Government Printing Office. Directly or through his principal officers he purchases all materials and machinery subject to the provisions of law, disburses all money, appoints all officers and employes, and exercises general supervision over the affairs of the office. The Superintendent of Documents has general supervision over the distribution of all public documents, excepting those printed for the use of the two Houses of Congress and for the Executive Departments. He is required to prepare a comprehensive index of public documents and consolidated index of Congressional documents, and is authorized to sell at cost any public document in his charge, the distribution of which is not specifically directed.

The principal officers are as follows: Public Printer, Cornelius Ford; Deputy Public Printer, Henry T. Brian; Chief Clerk, John L. Alverson; Private Secretary, Joseph P. O'Leone; Purchasing Agent, Edward S. Moores; Superintendent of Work, Daniel V. Chisholm; Foreman of Printing, T. Frank Morgan; Congressional Record Clerk, William A. Smith; Superintendent of Documents, Josiah H. Brinker.

UNITED STATES EXECUTIVE CIVIL SERVICE.

(Revised for this issue of THE WORLD ALMANAC by the Secretary of the Civil Service Commission.)

THE purpose of the Civil Service act, as declared in its title, is "to regulate and improve the Civil Service of the United States." It provides for the appointment of three Commissioners, a chief Examiner, a Secretary, and other employes, and makes it the duty of the Commissioners to aid the President as he may request in preparing suitable rules for carrying the act into effect; to make regulations to govern all examinations held under the provisions of the act, and to make investigations and report upon all matters touching the enforcement and effect of the rules and regulations. The address of the Commission is Washington, D. C.

PROVISIONS OF THE RULES.

The act requires the rules to provide, as nearly as the conditions of good administration will warrant, for open competitive practical examinations for testing the fitness of applicants for the classified service; for the filling of all vacancies by selections from among those graded highest; for the apportionment of appointments at Washington among the States upon the basis of population, for a period of probation before absolute appointment; that no person in the public service shall be obliged to contribute service or money for political purposes; that persons in the competitive service, while retaining the right to vote as they please or to express privately their political opinions, shall take no active part in political campaigns; and that no person in said service has any right to use his official authority or influence to coerce the political action of any person or body.

EXTENT OF THE SERVICE.

There were on June 30, 1913, 469,879 positions in the Executive Civil Service, including 74,000 star route contractors and clerks in fourth-class post-offices not heretofore included, 60 per cent. of which, or about 282,597, were subject to competitive examination. The expenditure for salaries in the Executive Civil Service is over \$200,000,000 a year. The Civil Service act does not require the classification of persons appointed by the President and confirmed by the Senate or of persons employed merely as laborers or workmen. Many positions are excepted in part from the provisions of the rules for various reasons.

APPLICATIONS.

Persons seeking to be examined must file an application blank. The blank for the Departmental Service at Washington, Railway Mail Service, the Indian School Service, and the Government Printing Service should be requested directly of the Civil Service Commission at Washington. The blank for the Customs, Postal, or Internal Revenue Service should be requested of the Civil Service Board of Examiners at the office where service is sought.

Applicants for examination must be citizens of the United States, and of the proper age. No person using intoxicating liquors to excess may be appointed. No discrimination is made on account of sex, color, or political or religious opinions. The limitations of age vary with the different services, but do not apply to any person honorably discharged from the military or naval service of the United States by reason of disability resulting from wounds or sickness incurred in the line of duty.

EXAMINATIONS.

The examinations are open to all persons qualified in respect to age, citizenship, legal residence, character, and health. During the fiscal year ended June 30, 1913, 34,515 persons were appointed. Of those appointed, 3,059 were rural letter-carriers, 8,554 were mechanics and workmen at navy yards appointed on registration tests of fitness given by a board of labor employment at each yard. Several hundred different kinds of examinations were held, each one of which involved different tests. Three hundred and sixty-five of these examinations contained educational tests, the others being for mechanical trades or skilled occupations and consisting of certificates of employers or fellow-workmen. Examinations are held twice a year in each State and Territory, the places and dates being publicly announced.

APPOINTMENTS.

In case of a vacancy not filled by promotion, reduction, transfer, or reinstatement, the highest three of the sex called for on the appropriate register are certified for appointment, the apportionment being considered in appointments at Washington. In the absence of eligibles, or when the work is of short duration, temporary appointments, without examination, are permitted. The number of women applying for ordinary clerical places is greatly in excess of the calls of appointing officers. The chances of appointment are good for teachers, matrons, seamstresses, and physicians in the Indian Service, for male stenographers and typewriters, draughtsmen, patent examiners, civil, mechanical, and electrical engineers, and for technical and scientific experts.

PREFERENCE CLAIMANTS.

Persons who served in the military or naval service of the United States, and were discharged by reason of disabilities resulting from wounds or sickness incurred in the line of duty, are, under the Civil Service rules, given certain preferences. They are released from all maximum age limitations, are eligible for appointment at a grade of 65, while all others are obliged to obtain a grade of 70, and are certified to appointing officers before all others. Subject to the other conditions of the rules, a veteran of the rebellion or of the war with Spain, or the widow of any such person, or any army nurse of either war, may be reinstated without regard to the length of time he or she has been separated from the service.

INSULAR POSSESSIONS.

Examinations are also held for positions in the Philippines, Porto Rico, and Hawaii, and also for the Isthmian Canal service.

THE UNCLASSIFIED SERVICE.

Under an executive order unclassified laborers are appointed after open, competitive examination upon their physical condition. This action is outside the Civil Service act.

PUBLICATIONS OF THE COMMISSION.

Among the publications of the Commission for free distribution are the following: Manual of Examinations, giving places and dates of examinations, rules by which papers are rated, descriptions of examinations, specimen questions, and general information.

The Civil Service act and rules.
The Annual Reports of the Commission, showing its work. These annual reports may be consulted at public libraries.

* Most of the unclassified appointments and separations in the Department of Commerce and Labor were of persons appointed under the Thirteenth Census act, outside of the provisions of the Civil Service act and rules. Although Congress created the Department of Labor and renamed the Department of Commerce by act of March 4, 1913, it has not been found practicable to separate the statistics for the year ended June 30, 1913.

CIVIL SERVICE RULES IN THE CITY OF NEW YORK.

SYNOPSIS of regulations governing the admission of persons into the civil service of the city of New York. Information may also be had by applying to the Secretary of the Municipal Civil Service Commission, Municipal Building, 14th floor.

Under the White Civil Service law, Chapter 370, Laws of 1899, April 19, the rules apply to all positions in the service of the city of New York except officers elected by the people, all legislative officers and employes, heads of any department, or superintendents, principals, or teachers in a public school, academy, or college. This requires "examinations, wherever practicable, to ascertain the fitness of applicants for appointment to the civil service of said city." The Constitution requires that these examinations shall be competitive, "so far as practicable."

APPLICATIONS.

Applications are received only for such positions and during such dates as advertised in the "City Record."

Applications of competitors for positions must be addressed to the "Secretary of the Municipal Civil Service Commission, New York City," and must set forth:

First—The affidavit of the applicant showing his age, whether a citizen of the United States, giving his place of residence, with the street and number thereof, if any; the place, nature, and extent of his education, and of his business training and experience, and stating whether he has ever been in the civil service of the city of New York, or in the military or naval service of the United States, and if so, when and where.

Second—A statement whether such application is limited to any particular office in the service.

Third—The certificate of four reputable persons of the city of New York, that they have been personally acquainted with the applicant for at least one year, and believe him to be of good moral character, of temperate and industrious habits, and in all respects fit for the service he wishes to enter, and that each of them is willing that such certificate should be published for public information, and will upon request give such further information concerning the applicant as he may possess.

In examinations for positions requiring experience, applicants must file with their application an experience paper. In some examinations applicants receiving less than the minimum passing mark, on this paper, are barred from the remainder of the examination.

Applicants for the following positions must, before being admitted to examination, present satisfactory evidence as to the following facts:

First—If the position to be filled be that of physician, surgeon, medical officer, medical superintendent, or medical inspector, that the applicant is duly authorized by the laws of the State of New York to practise medicine and surgery.

In positions where the duties are professional, technical, or expert, the candidates will be required to present evidences of the preliminary training or technical education they have undergone to qualify them for such situations before they can be admitted to examination.

In all examinations for professional positions, or positions requiring technical knowledge, no person shall be placed on the eligible list who obtains a rating in technical knowledge of less than 75.

CONDUCT OF EXAMINATIONS.

Applicants shall be admitted to examination upon the production of the official notification to appear for that purpose.

All paper upon which examinations are to be written shall be furnished to the applicants by the examining board and shall bear some suitable official indorsement, stamp, or mark, for the purpose of identifying the same.

All examinations shall be in writing, except such as refer to expertness or physical qualities, and except as herein otherwise provided.

The sheets of questions shall be numbered and shall be given out in the order of their numbers, each, after the first, being given only when the competitor has returned to the examiners the last sheet given to him. In general, no examination shall extend beyond five hours without intermission; and no questions given out at any session, to any candidate, shall be allowed to be answered at another session.

Each examiner shall exercise all due diligence to secure fairness and prevent all collusion and fraud in the examinations.

The time allowed for completing the examination shall be announced before the first paper is given out.

The following municipal departments and offices come under jurisdiction of Civil Service rules:

Accounts, Com. of.	City Record, Supervisor of the	Elections, Board of.	Police Dept.
Army, Board of.	Civil Service Commission.	Estimate and Apportionment,	Public Recreation Commission.

Inspectors of Elections and Poll Clerks are not subject to competitive examination.

NATIONAL ASSEMBLY OF CIVIL SERVICE COMMISSIONS.

President—Thomas F. Boyle, Boston, Mass. *Vice-Presidents*—F. E. Doty, Los Angeles, Cal.; Elton Lower, Chicago, Ill., and Frank M. Ritter, Philadelphia, Pa. *Secretary-Treasurer*—John T. Doyle, 1724 F Street N. W., Washington, D. C.

The assembly was organized in 1906. The objects are to enable all those charged with the administration of civil service laws to become acquainted and exchange ideas. To promote co-operation, uniformity and perfection of methods of the different commissions. To enable the commissions to profit by exchange of ideas with officers who are directing departments and to give such officers broader opportunity to inform themselves on the methods of the merit system.

The next meeting of the assembly will be held at Los Angeles, Cal., July 1-3, 1915.

REGENTS' EXAMINATIONS IN NEW YORK STATE IN 1915.

REGENTS' EXAMINATIONS under the control of the University of the State of New York (office, Albany, N. Y.) will be held in 1915 at the following times and places: Jan. 18-22, inclusive, at New York; and about 900 academies and high schools; June 14-18, inclusive, at New York, and about 900 academies and high schools. Examinations for teachers' certificates are held on the same dates as the Regents', and August 9-13, Sept. 13-15, inclusive, at New York, Albany, Syracuse, Buffalo; 33 subjects. September examinations are for professional and technical students only. Morning session begins 9.15 o'clock. Afternoon session begins 1.15 o'clock. For conditions governing examinations, see *World Almanac* for 1915, page 161.

UNIVERSITY CREDENTIALS.—Preliminary (presacademic) certificate.—Reading, writing, spelling, elementary English, arithmetic, geography, and elementary United States history with civics. Students from countries where English is not the mother tongue must pass an examination in second year English for any one of the professional certificates.

LAW, MEDICINE, DENTISTRY, ETC.—Sixty counts qualifying certificate. All candidates taking Regents' examinations for qualifying certificates in law, dentistry, veterinary science, for admission to examination for certified public accountant, and for certified shorthand reporter, must earn counts upon examination as follows:

English, three years, 10 counts; elementary algebra, 5 counts; plane geometry, 5 counts; physics and chemistry, 10 counts, or physics and biology, 10 counts, or chemistry and biology, 10 counts, (for a medical student certificate, physics, chemistry and biology, 15 counts); any second year foreign language, 10 counts; American history with civics, 5 counts; electives, 15 counts, (for a medical student certificate, 10 counts).

The electives shall be: English fourth year, 3 counts; Latin second year, or Greek second year, or French second year, or German second year, or Spanish second year, or Italian second year, or Hebrew second year, 10 counts; advanced algebra, 5 counts; advanced arithmetic, 2 counts; physical geography, 5 counts; ancient history, 5 counts; *history of Great Britain and Ireland, 5 counts; *modern history 1, 3 counts; *modern history 2, 3 counts; economics, 2 counts; elementary bookkeeping and business practice, 3 counts; advanced bookkeeping and office practice, 5 counts; shorthand 1, 5 counts; shorthand 2, 5 counts; elementary representation, 2 counts; advanced design, 2 counts; advanced representation, 2 counts.

PROFESSIONAL CERTIFICATES WITHOUT EXAMINATIONS.—Candidates having credentials which can be accepted in place of examinations should send them to the University of the State of New York.

MEDICAL EXAMINATIONS.—Examinations for license to practise medicine in this State will be held as follows: Jan. 26-29, May 25-28, June 29-July 2, October 5-8 at New York, Albany, Syracuse, and Buffalo. (Each candidate is notified as to exact place.)

PHARMACY AND DRUGGIST EXAMINATIONS.—Jan. 27-28, May 26-27, June 30-July 1, October 6-7.

CHIROPY EXAMINATIONS.—Dates and places of examinations same as Medical Examinations.

DENTAL EXAMINATIONS.—Dates and places of examinations same as Medical Examinations shown above, except that no examination is given in May. The practical examination is held on the Saturday morning following the regular examinations.

VETERINARY EXAMINATIONS.—Dates and places of examinations same as Medical Examinations shown above.

CERTIFIED PUBLIC ACCOUNTANTS.—Dates of examinations: Jan. 26-28, June 29-July 1, at New York, Albany, Syracuse, and Buffalo.

CERTIFIED SHORTHAND REPORTERS.—Examinations on the first two days of the other regular professional examinations, when there are applicants, in January and June of each year.

REGISTRATION OF NURSES.—Two examinations will be held annually in January and June respectively. Applications should be made at least ten days in advance to the University of the State of New York, Examination Division, Albany, N. Y.

DATES: Jan. 26-28, June 29-July 1, at New York, Albany, Syracuse, and Buffalo. (Each candidate is notified as to exact place.)

OPTOMETRY EXAMINATIONS.—Examinations Jan. 26-28, June 29-July 2, October 5-8. (Each candidate is notified as to exact place.) Application should be made at least one week in advance to the University of the State of New York, Examination Division, Albany, N. Y.

*Candidates who have credit in history of Great Britain and Ireland (3 or 5) may receive credit for modern history 2 but not for modern history 1. Candidates who have credit in European history may not have credit in modern history 1 or 2. †Candidates who have credit in elementary drawing based on the 1905 syllabus will receive no additional counts for passing elementary representation, but will receive two counts for passing advanced design and two counts for passing advanced representation. Candidates who have credit for advanced drawing general based on the 1905 syllabus can obtain no additional counts in drawing.

NATIONAL STATUARY HALL.

WORKS of art in the Capitol Building, Washington, have been acquired by gift from private individuals interested in the preservation of the historical, biographical, or pictorial art of the nation; by the gift from States, as instanced by the statues of distinguished citizens forming the collection in Statuary Hall, and by purchase by the Government. A general supervision of the art works of the Capitol is exercised by the Joint Committee on the Library. This committee also has charge of accessions to the art works of the Capitol Building, except as otherwise provided by law.

Statuary Hall, formerly the hall of the House of Representatives, was established as Statuary Hall by act of Congress of July 2, 1864. By this legislation a National Hall of Statuary was created, and the President was authorized to invite each State to contribute to the collection to be formed: two statues, in either marble or bronze, of deceased citizens of the State whom "for historic renown or from civil or military services" the State should consider as worthy of commemoration in this National Hall of Statuary.

The following is a list of statues presented by the States and the dates of the works:

STATE.	Name.	Date.	STATE.	Name.	Date.
Alabama	J. L. M. Curry	1906	New Hampshire	John Stark	1894
Connecticut	Roger Sherman	1872	"	Daniel Webster	1894
"	Jonathan Trumbull	1872	New Jersey	Richard Stockton	1886
Florida	John W. Gorrie	1914	"	Phillip Kearny	1875
Idaho	George L. Shoup	1909	New York	Robert R. Livingston	1874
Illinois	James Shields	1893	"	George Clinton	1873
"	Frances E. Willard	1905	Ohio	James A. Garfield	1885
Indiana	Oliver P. Morton	1899	"	William Allen	1887
"	Lew Wallace	1909	Pennsylvania	J. F. G. Muhlenberg	1881
Iowa	James Harlan	1909	"	Robert Fulton	1881
"	Samuel J. Kirkwood	1913	Rhode Island	Nathaniel Greene	1869
Kansas	John J. Ingalls	1904	"	Roger Williams	1870
"	George W. Gilek	1914	South Carolina	John C. Calhoun	1909
Maine	William King	1877	Texas	Stephen F. Austin	1904

AMERICAN SCENIC AND HISTORIC PRESERVATION SOCIETY.

The society was founded by Andrew H. Green, incorporated in 1895, and is a National society for the protection of natural scenery, the preservation of historic landmarks and the improvement of cities. President—Geo. F. Kunz. Secretary—Edw. H. Hall, 154 Nassau St., New York. Treasurer—N. T. Phillips.

PROSECUTION OF TRUSTS BY THE UNITED STATES.

THE following is the status on October 1, 1914, of the cases brought by the United States under the terms of the Sherman Anti-Trust act:

United States vs. Great Lakes Towing Company et al.—Petition filed June 19, 1910, in the Circuit Court, Northern District of Ohio, against an alleged combination of towing facilities on the Great Lakes. A decision in favor of the Government was handed down February 11, 1913. The plan of dissolution is now under consideration by the court.

United States vs. Chicago Butter and Egg Board—Petition filed June 13, 1910, in Circuit Court, Northern District of Illinois. A demurrer to the petition was sustained with leave to amend, and an amended petition was filed. Upon hearing on master's report the Court held that the Government was entitled to a decree as prayed for. Form of decree to be entered is now under consideration.

United States vs. American Sugar Refining Company et al.—Petition filed November 28, 1910, in the Circuit Court, Southern District of New York, alleging a combination in restraint of trade and praying for its dissolution. Demurrer was overruled December 11, 1911. Issues joined and taking of testimony in chief on behalf of Government has been concluded. Taking of testimony on behalf of defendants now in progress.

United States vs. Hamburg-Amerikanische Packetfahrt Actien Gesellschaft and others—Petition filed January 4, 1911, in the Circuit Court for the Southern District of New York, to dissolve a combination of steamship lines regulating steerage traffic on the Atlantic Ocean. Demurrers were overruled December 20, 1911. Taking of testimony completed and case was argued on April 17, 1914. Decision of Court is awaited.

United States vs. William C. Geer, President Abbia Box and Paper Company et al.—Indictment returned April 28, 1911, in the Southern District of New York, alleging a combination and conspiracy in restraint of interstate commerce in paper board. Demurrer overruled May 9, 1913. Case being prepared for trial.

United States vs. Isaac Whiting et al.—Indictment returned May 26, 1911, in the District of Massachusetts, charging a combination to restrain trade in milk throughout the New England States. Demurrer argued in November, 1912. Opinion handed down March 23, 1914. Demurrers overruled as to counts charging combination, and sustained as to counts charging conspiracy and monopoly.

United States vs. Isaac Whiting et al.—Indictment returned May 26, 1911, in the District of Massachusetts, charging a conspiracy to restrain trade in milk throughout the New England States. Demurrer argued in November, 1912. Opinion handed down March 23, 1914. Demurrers overruled as to counts charging combination, and sustained as to counts charging conspiracy and monopoly.

United States vs. Edward E. Hartwick et al.—Petition filed August 31, 1911, in the Circuit Court, Eastern District of Michigan, alleging conspiracy and unlawful restraint of trade on the part of members of the Michigan Retail Lumber Dealers' Association, The Scout Publishing Company and the Lumber Secretaries' Bureau of Information. Issues joined and taking of testimony completed. Pending.

United States vs. S. W. Winslow et al.—Two indictments (113 and 114) returned September 19, 1911, in the District of Massachusetts charging combination, conspiracy and monopoly in trade in shoe machinery. Demurrer to indictment 113 was sustained, and demurrer to indictment 114 was overruled as to first count and sustained as to second count. An appeal was taken by the United States from decision in No. 113, which was affirmed by the Supreme Court. Pending.

United States vs. The Colorado and Wyoming Lumber Dealers' Association and The Lumber Secretaries' Bureau of Information—Petition filed September 25, 1911, in the Circuit Court, District of Colorado, for injunction against defendants for conspiracy to restrain trade in lumber and its products. The taking of testimony has been completed and further action is being deferred, awaiting decision by Supreme Court.

United States vs. Willard G. Hollis et al.—Petition in equity filed October, 1911, in the Circuit Court, District of Minnesota, against the Lumber Secretaries' Bureau of Information, the Lumberman Publishing Company and certain individuals, alleging conspiracy and combination in the lumber trade. The taking of testimony has been completed and further action is being deferred pending decision of Supreme Court.

United States vs. United States Steel Corporation and others—Petition filed October 27, 1911, in District Court for District of New Jersey, alleging a combination in restraint of interstate commerce in iron and steel and their products and an attempt to monopolize the same. Issues joined. Taking of testimony completed.

United States vs. National Cash Register Company et al.—Petition filed December 4, 1911, in Circuit Court, Southern District of Ohio, alleging conspiracy and monopoly in the manufacture, sale and shipment of cash registers and other registering devices. Issue joined and taking of testimony pending.

United States vs. United Shoe Machinery Company et al.—Petition in equity filed December 12, 1911, in Circuit Court, District of Massachusetts, alleging combinations and conspiracies in restraint of interstate and foreign trade in shoe machinery, and praying for perpetual restraining order, dissolution of company and restoration of normal conditions. Taking of testimony completed. Case argued in June, 1914, and decision of Court is awaited.

United States vs. The Keystone Watch Case Company et al.—Petition filed December 20, 1911, in the Circuit Court, Eastern District of Pennsylvania, alleging unlawful contracts, combinations, and conspiracies to monopolize trade in filled watch cases and watches, and praying for a permanent decree ordering the dissolution of the company and enjoining defendants from further committing the unlawful acts complained of. Argued in June, 1914, and decision of Court is awaited.

United States vs. The North Pacific Wharves and Trading Co. et al.—Indictment (836-B) returned February 12, 1912, in the First Division, District of Alaska, charging defendants (1) with engaging in a conspiracy and combination in restraint of trade and commerce by way of combining the four wharves at Skagway under one management, and (2) with monopolizing the wharfinger business at Skagway. Demurrer overruled on May 3, 1912. First trial resulted in disagreement of jury on January 27, 1913. Corporation defendants entered pleas of guilty, and fines aggregating \$19,500 were imposed in February, 1914.

United States vs. Pacific and Arctic Railway and Navigation Co. et al.—Indictment (837-B) returned February 13, 1912, in the First Division, District of Alaska, charging defendants with engaging in a conspiracy to monopolize and monopolizing the steamship transportation between Puget Sound and British Columbia ports in the south and Skagway in the north. Demurrer sustained, except as to corporation defendants to count No. 6. Upon appeal to the Supreme Court the judgment was reversed and the case remanded for further proceedings. Corporation defendants entered pleas of guilty, and fines aggregating \$8,500 were imposed in February, 1914.

United States vs. John H. Patterson et al.—Indictment returned February 22, 1912, in the Southern District of Ohio, against John H. Patterson, President, and 29 other officials and employees of the National Cash Register Company, alleging a conspiracy in restraint of interstate trade and commerce in cash registers, resulting in an unlawful monopoly of the industry. Demurrer over-

ruled June 26, 1912. Trial resulted in a verdict of guilty as to 29 of the 30 defendants and fines aggregating \$135,000 and jail sentences ranging from nine months to one year were imposed. Pending on appeal. Set for trial October 6, 1914.

United States vs. American-Asiatic Steamship Company et al.—Petition in equity filed March 30, 1912, in Southern District of New York, charging defendants with combining and conspiring, entering into unlawful contracts and pooling agreements, and allowing rebates, for the purpose of securing a monopoly of the business of transporting freight between ports on the Atlantic coast of the United States and ports in the Philippine Islands, Japan, China, and the Far East. Issue joined. Taking of testimony on behalf of Government completed and case being prepared for trial.

United States vs. International Harvester Company et al.—Petition filed April 30, 1912, in the District Court, District of Minnesota, alleging the acquisition and maintenance of a monopoly in harvesting and agricultural machinery and implements and twine. Testimony taken, expediting certificate filed, and case argued before three Circuit Judges at St. Paul during November, 1913. Decision favorable to Government filed August 12, 1914.

United States vs. Prince Line (Limited) et al.—Petition filed June 5, 1912, in the District Court, Southern District of New York, charging defendants, as common carriers of freight and passengers, between ports of the United States and ports in the Republic of Brazil, with acquiring and maintaining a substantial monopoly by means of contracts, rebates, and other unlawful acts, and praying for an annulment of said contracts and agreements. Taking of testimony completed and case is being prepared for trial.

United States vs. Associated Billposters and Distributors of the United States and Canada et al.—Petition filed August 3, 1912, in the District Court, Northern District of Illinois, charging defendants with engaging in a combination and conspiracy to place unlawful restraints upon interstate and foreign trade and commerce in posters. Pending on demurrer.

United States vs. Motion Picture Patents Company et al.—Petition filed August 15, 1912, in the District Court, Eastern District of Pennsylvania, to remove the restraints which defendants have imposed upon interstate and foreign trade and commerce in machines, appliances, and apparatus relating to the motion-picture art, and upon persons engaged in such trade and commerce. The taking of testimony completed. Case set for trial in November, 1914.

United States vs. The Master Horseshoers' National Protective Association of America and others—Petition filed December 12, 1912, in the Eastern District of Michigan, charging defendants with engaging in a combination and conspiracy in restraint of trade and commerce in drilled horseshoes, adjustable calks, and rubber hoof pads. Demurrers overruled. Pending.

United States vs. Elgin Board of Trade et al.—Petition filed December 14, 1912, in the Northern District of Illinois, charging defendants with combining and conspiring in the interest of a number of large centralizing concerns to restrain interstate commerce in butter and butter fat, and arbitrarily fixing the price thereof to obtain throughout the United States. Issue joined and taking of testimony completed. Decree granting relief sought by Government was entered on April 27, 1914.

United States vs. Charles S. Mellen, Edson J. Chamberlin, and Alfred W. Smithers—Indictment returned December 23, 1912, in the Southern District of New York, charging a combination and conspiracy to restrain interstate commerce by preventing the construction of subsidiary lines of the Central Vermont Railway Company (itself a subsidiary of the Grand Trunk Railway Company) from Palmer, Mass., to Providence, R. I.; from White River Junction, Vermont, to Boston; and from Boston to Blackstone, connecting there with the Palmer-Providence line. Case at issue awaiting trial.

United States vs. Kellogg Toasted Corn Flake Company et al.—Petition filed December 26, 1912, in the Eastern District of Michigan, alleging that the business policy of the defendant company in fixing and enforcing resale prices on Kellogg's Toasted Corn Flakes is unlawful and tends to restrain and monopolize interstate commerce in said product. Motion by defendants to dismiss was argued in July, 1914, and the decision of the Court is awaited.

United States vs. United Shoe Machinery Company of New Jersey et al.—Petition filed February 8, 1913, in the District Court at Trenton, N. J., seeking to have annulled an alleged unlawful contract involving "inseam trimming machines." Pending.

United States vs. Board of Trade of the city of Chicago et al.—Petition filed February 11, 1913, in the District Court at Chicago, Ill., attacking rule 33 of the Chicago Board of Trade, by virtue of which it is alleged the price of all corn, oats, wheat, and rye arriving in Chicago at times when the Board of Trade is not in session is arbitrarily determined. Motion to strike out certain portions of defendants' answer has been granted and case will be prepared for trial.

United States vs. The Cleveland Stone Company et al.—Petition filed February 12, 1913, in the District Court at Cleveland, Northern District of Ohio, charging defendants with establishing and maintaining a practical monopoly of the stone business. Being prepared for trial.

United States vs. The Delaware, Lackawanna and Western Railroad Company and The Delaware, Lackawanna and Western Coal Company—Petition filed February 13, 1913, in the District Court at Trenton, N. J., charging defendants with transporting coal in which it had an interest in violation of the commodities clause of the Interstate Commerce act, and with entering into an unlawful contract whereby the coal company acquired a monopoly of the sale of anthracite coal produced along the line of the railroad company, in violation of the Anti-Trust act. Trial resulted in a decision adverse to Government, and an appeal has been taken to the Supreme Court.

United States vs. The McCaskey Register Company et al.—Petition filed February 20, 1913, in the District Court at Cleveland, Northern District of Ohio, charging defendants with conspiring to restrain and monopolize the manufacture and sale of account registers and appliances. Pending.

United States vs. International Brotherhood of Electrical Workers, Local Unions Nos. 9 and 134 et al.—Petition filed February 24, 1913, in the District Court at Chicago, Northern District of Illinois, seeking to enjoin defendants from interfering with the interstate business of the Postal Telegraph-Cable Company. A temporary injunction was granted. Decree making temporary injunction permanent was entered February 27, 1914.

United States vs. Corn Products Refining Company et al.—Petition filed March 1, 1913, in the District Court at New York City, charging defendants with monopolizing interstate trade and commerce in corn products, and praying for the dissolution of the combination. Issue joined, and taking of testimony is in progress.

United States vs. The American Thread Company et al.—Petition filed March 3, 1913, in the District Court at Trenton, N. J., charging defendants with monopolizing the thread industry. Answers of defendants filed September 10, 1913. Issue joined. Decree granting relief sought by Government entered June 2, 1914.

United States vs. Terminal Railroad Association of St. Louis et al.—Petition filed March 4, 1913, in the District Court at St. Louis, Eastern District of Missouri, alleging a conspiracy on the part of the members of the St. Louis Coal Traffic Bureau to suppress and eliminate competition in various rates for the transportation of soft coal from the State of Illinois to the city of St. Louis, Mo. Pending.

PRESIDENT WILSON'S ADMINISTRATION, MARCH 4, 1913.

United States vs. Eastman Kodak Company et al.—Petition filed June 9, 1913, in the District Court at Buffalo, Western District of New York, alleging that defendants have acquired a monopoly

of the business of manufacturing, selling, and distributing photographic supplies. Issue joined. Taking of testimony is in progress.

United States vs. The Quaker Oats Company et al.—Petition filed June 11, 1913, in the District Court at Chicago, Ill., alleging combination to restrain and monopolize interstate trade and commerce in oatmeal products and by-products. Issue joined. Taking of testimony is in progress.

United States vs. American Telephone and Telegraph Company et al.—Petition filed July 24, 1913, in the District Court at Portland, Ore., seeking to destroy a monopoly of the telephone business on the Pacific coast. Decree granting relief sought by Government entered March 26, 1914.

United States vs. Reading Company et al. (anthracite coal combination)—Petition in equity filed September 2, 1913, in the District Court at Philadelphia, Pa., against a combination consisting of Reading Company and affiliated corporations, charging it with restraining and monopolizing trade in anthracite coal. Issue joined. Taking of testimony completed. Case argued in June, 1914, and decision of Court is awaited.

United States vs. American Can Company et al.—Petition filed November 29, 1913, in the District Court at Baltimore, Md., alleging monopolization of the business of making tin cans. Taking of testimony is in progress.

United States vs. John P. White et al.—Indictment returned December 1, 1913, in the District Court of Colorado, charging officials and members of the United Mine Workers of America with monopolizing all diggers of coal and mine laborers and with restraining interstate commerce in coal. Pending.

United States vs. Frank J. Hayes et al.—Indictment returned December 1, 1913, in the District Court of Colorado, charging a combination and conspiracy by mine workers to interfere with the mining of coal in Colorado and its transportation to and sale in other States. Pending.

United States vs. Southern Pacific Company, Central Pacific Railway Company et al.—Petition in equity filed February 11, 1914, in the District Court at Salt Lake City, Utah, to compel the Southern Pacific to relinquish its control of the Central Pacific. Issue joined, and taking of testimony is in progress.

United States vs. Lehigh Valley Railroad Company et al.—Petition filed March 18, 1914, in the District Court at New York City, charging the defendants with having monopolized the production, transportation, and sale of anthracite coal from mines tributary to Lehigh Valley Railroad Company in violation of the Anti-Trust act, and charging the said railroad company with transporting in interstate commerce coal in which it has an interest, in violation of the commodity clause of the act to regulate commerce. Taking of testimony completed and case being prepared for trial.

United States vs. Knauer et al.—Indictment returned June 4, 1914, at Des Moines, Southern District of Iowa, charging defendants with having entered into a combination in restraint of trade in plumbing supplies. Case being prepared for trial.

United States vs. The American Wringer Company et al.—Indictment returned May 22, 1914, in the District Court for the Western District of Pennsylvania, charging defendants with unlawfully engaging in a combination in restraint of interstate trade and commerce in clotheswringers. Pending.

United States vs. Booth Fisheries Company et al.—Indictment returned July 20, 1914, in the District Court at Seattle, Wash., charging defendants with entering into a combination and conspiracy in restraint of interstate trade and commerce in fresh fish. Pending.

United States vs. The New York, New Haven and Hartford Railroad Company et al.—Petition filed July 23, 1914, in the District Court for the Southern District of New York, alleging monopolization of transportation facilities in New England and praying for a dissolution thereof. Pending.

United States vs. Western Cantaloupe Exchange et al.—Indictment returned August 7, 1914, in the District Court at Chicago, Northern District of Illinois, charging defendants with having entered into a combination to restrain and monopolize interstate trade in cantaloupes. Pending.

THE UNITED STATES PUBLIC HEALTH SERVICE.

RUPERT BLUE, SURGEON-GENERAL.

THE United States Public Health Service is a bureau of the Treasury Department. The head of the bureau is a commissioned medical officer, with the title of Surgeon-General. The work of the service is administered, under the direction of the Surgeon-General, by seven bureau divisions—Personnel and Accounts, Scientific Research, Foreign and Insular Quarantine, Domestic (Interstate) Quarantine, Sanitary Reports and Statistics, Marine Hospitals and Relief and Miscellaneous.

The commissioned corps of the service consists of medical officers of the following grades: Surgeon-General, Assistant Surgeons-General (chiefs of divisions of the bureau), Senior Surgeons, Surgeons, Passed Assistant Surgeons, and Assistant Surgeons. Appointments in the corps are made to the grade of Assistant Surgeon, after successful examination. Qualifications for examination are graduation from a reputable medical college, one year's hospital experience or two years' professional work after graduation, and testimonials from responsible persons as to professional and moral character. Applicants for examination must be between the ages of 23 and 32 years.

The Public Health Service maintains twenty-three marine hospitals and 120 other relief stations throughout the country. Fifty-one quarantine stations in the United States and twenty-five stations in its insular possessions are also operated, and eighty-five stations for the medical inspection of immigrants. Eighteen officers are stationed at the inspection of immigrants at American consulates abroad to assist in the administration of quarantine and the inspection of immigrants.

At the Hygienic laboratory, located in the city of Washington, research work in connection with investigations of disease, sanitation and water pollution is carried on, and tests are made of the purity and potency of viruses, serums and toxins, with the supervision of the manufacture and sale of which the Public Health Service is charged by law.

The Public Health Service co-operates with State and local Boards of Health in the eradication of epidemic diseases, such as plague, cholera, yellow fever, typhus fever, smallpox and leprosy. Details of officers are also made, on request from State and municipal health authorities, to assist in the suppression of typhoid fever, infantile paralysis, cerebro-spinal meningitis, and other diseases. The Public Health Service has supervision of measures for the prevention of the spread of infectious and contagious diseases in interstate traffic; the administration of matters in relation to the Interstate Quarantine Regulations regarding the prevention of the use of the common towel and common drinking cup on vehicles or vessels operating in interstate traffic and the certification of water and ice furnished by common carriers for passengers in interstate traffic. Among the signal achievements of the service in recent years in the field of public health work have been the eradication of bubonic plague in California and Porto Rico, and the suppression of yellow fever in the South.

The personnel of the Public Health Service consists of 167 commissioned medical officers, 239 acting assistant surgeons (physicians appointed locally and not subject to change of station) 46 pharmacists, 1,064 attendants, and 111 other employes, a total of 1,645 persons. During the fiscal year, 1914, 53,415 patients were treated—14,469 in hospitals and 38,814 at dispensary or out-patients. At quarantine stations 14,128 vessels, carrying 1,549,570 passengers and crews, were inspected, of which 2,731 were fumigated. Immigrants to the number of 1,485,957 were inspected, and 41,250 certified for rejection on account of physical or mental defect.

THE SHERMAN LAW.

THE following is the text of the Sherman law concerning Trusts:
Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled:

SEC. 1. Every contract, combination in the form of trust or otherwise, or conspiracy, in restraint of trade or commerce among the several States, or with foreign nations, is hereby declared to be illegal. Every person who shall make any such contract, or engage in any such combination or conspiracy, shall be deemed guilty of a misdemeanor, and, on conviction thereof, shall be punished by a fine not exceeding \$5,000, or by imprisonment not exceeding one year, or by both said punishments in the discretion of the Court.

SEC. 2. Every person who shall monopolize, or attempt to monopolize, or combine or conspire with any other person or persons to monopolize any part of the trade or commerce among the several States, or with foreign nations, shall be deemed guilty of a misdemeanor, and on conviction thereof, shall be punished by fine not exceeding \$5,000, or by imprisonment not exceeding one year, or by both said punishments, in the discretion of the Court.

SEC. 3. Every contract, combination in form or trust or otherwise, or conspiracy, in restraint of trade or commerce in any Territory of the United States, or the District of Columbia, or in restraint of trade or commerce between any such Territory and another, or between any such Territory or Territories and State or States or the District of Columbia, or with foreign nations, or between the District of Columbia and any State or States or foreign nations, is hereby declared illegal. Every person who shall make any such contract, or engage in any such combination or conspiracy, shall be deemed guilty of a misdemeanor, and on conviction thereof, shall be punished by fine not exceeding \$5,000, or by imprisonment not exceeding one year, or by both said punishments in the discretion of the Court.

SEC. 4. The several Circuit Courts of the United States are hereby invested with jurisdiction to prevent and restrain violations of this act; and it shall be the duty of the several District-Attorneys of the United States, in their respective districts, under the direction of the Attorney-General, to institute proceedings in equity to prevent and restrain such violations. Such proceedings may be by way of petition setting forth the case and praying that such violation shall be enjoined or otherwise prohibited. When the parties complained of shall have been duly notified of such petition the Court shall proceed, as soon as may be, to the hearing and determination of the case; and pending order or prohibition as shall be deemed just in the premises.

SEC. 5. Whenever it shall appear to the Court before which any proceeding under sec. 4 of this act may be pending, that the ends of justice require that other parties should be brought before the Court, the Court may cause them to be summoned, whether they reside in the district in which the Court is held or not; and subpoenas to that end may be served in any district by the marshal thereof.

SEC. 6. Any property owned under any contract or by any combination, or pursuant to any conspiracy (and being the subject thereof) mentioned in sec. 1 of this act, and being in the course of transportation from one State to another, or to a foreign country, shall be forfeited to the United States, and may be seized and condemned by like proceedings as those provided by law for the forfeiture, seizure and condemnation of property imported into the United States contrary to law.

SEC. 7. Any person who shall be injured in his business or property by any other person or corporation by reason of anything forbidden or declared to be unlawful by this act may sue therefor in any Circuit Court of the United States in the district in which the defendant resides or is found, without respect to the amount in controversy, and shall recover threefold the damages by him sustained, and the costs of suit, including a reasonable attorney's fee.

SEC. 8. That the word "person" or "persons" wherever used in this act shall be deemed to include corporations and associations existing under or authorized by the laws of either the United States, the laws of any of the Territories, the laws of any State or the laws of any foreign country.

Approved July 2, 1890.

NOTE—Two or more sections of the Clayton Trust bill (of 1914) amend the Sherman law; the other sections of the bill, as well as sec. 5 of the Federal Trade Commission law, are supplemental to the Sherman act.

FEDERAL TRADE COMMISSION.

THE Federal Trade Commission is composed of five Commissioners appointed by the President. Not more than three of the Commissioners can be members of the same political party. The first Commissioners appointed continue in office for terms of three, four, five, six, and seven years respectively, the term of each to be designated by the President, but their successors will be appointed for terms of seven years, except that any person chosen to fill a vacancy shall be appointed only for the unexpired term of the Commissioner whom he shall succeed, and no Commissioner shall engage in any other business, vocation, or employment. A vacancy in the commission does not impair the right of the remaining Commissioners to exercise all the powers of the commission. The Commissioners receive a salary of \$10,000 a year, and the secretary \$5,000.

SEC. 3 provides: That upon the organization of the commission and election of its Chairman, the Bureau of Corporations and the offices of Commissioner and Deputy Commissioner of Corporations cease to exist; and all pending investigations and proceedings of the Bureau of Corporations are continued by the commission.

The principal office of the commission is in Washington, but it may meet and exercise all its powers at any other place. The commission may, by one or more of its members, or by such examiners as it may designate, prosecute any inquiry necessary to its duties in any part of the United States.

SEC. 5 provides: That unfair methods of competition in commerce are declared unlawful. The commission is empowered and directed to prevent persons, partnerships, or corporations, except banks, and common carriers subject to the acts to regulate commerce, from using unfair methods of competition in commerce.

Whenever the commission shall have reason to believe that any such person, partnership, or corporation has been or is using any unfair method of competition in commerce, and if it shall appear to the commission that a proceeding by it in respect thereof would be to the interest of the public, it shall issue and serve upon such person, partnership, or corporation a complaint stating its charges in that respect, and containing a notice of a hearing upon a day and at a place therein fixed at least thirty days after the service of said complaint. The person, partnership, or corporation so complained of shall have the right to appear at the place and time so fixed and show cause why an order should not be entered by the commission requiring such person, partnership, or corporation to cease and desist from the violation of the law so charged in said complaint. Any person, partnership, or corporation may make application, and upon good cause shown may be allowed by the commission, to intervene and appear in said proceeding by counsel or in person. The testimony in any such

proceeding shall be reduced to writing and filed in the office of the commission. If upon such hearing the commission shall be of the opinion that the method of competition in question is prohibited by this act, it shall make a report in writing in which it shall state its findings as to the facts and shall issue and cause to be served on such person, partnership, or corporation an order requiring such person, partnership, or corporation to cease and desist from using such method of competition. Until a transcript of the record in such hearing shall have been filed in a Circuit Court of Appeals of the United States, as hereinafter provided, the commission may at any time, upon such notice and in such manner as it shall deem proper, modify or set aside, in whole or in part, any report or any order made or issued by it under this section.

If such person, partnership, or corporation fails or neglects to obey such order of the commission while the same is in effect, the commission may apply to the Circuit Court of Appeals of the United States, within any circuit where the method of competition in question was used or where such person, partnership, or corporation resides or carries on business, for the enforcement of its order, and shall certify and file with its application a transcript of the entire record in the proceeding, including all the testimony taken and the report and order of the commission. Upon such filing of the application and transcript the court shall cause notice thereof to be served upon such person, partnership, or corporation and thereupon shall have jurisdiction of the proceeding and of the question determined therein, and shall have power to make and enter upon the pleadings, testimony, and proceedings set forth in such transcript a decree affirming, modifying, or setting aside the order of the commission. The findings of the commission as to the facts, if supported by testimony, shall be conclusive.

SEC. 6 provides: To investigate, from time to time, trade conditions in and with foreign countries where associations, combinations, or practices of manufacturers, merchants, or traders, or other conditions, may affect the foreign trade of the United States, and to report to Congress thereon, with such recommendations as it deems advisable.

SEC. 10. Any person who shall neglect or refuse to attend and testify, or to answer any lawful inquiry or to produce documentary evidence, if in his power to do so, in obedience to the subpoena or lawful requirement of the commission, shall be guilty of an offence and upon conviction thereof by a court of competent jurisdiction shall be punished by a fine of not less than \$1,000 nor more than \$5,000, or by imprisonment for not more than one year, or by both such fine and imprisonment.

SEC. 11. Nothing in this act, approved September 26, 1914, shall be construed to prevent or interfere with the enforcement of the provisions of the Anti-Trust acts or the acts to regulate commerce, nor shall anything contained in the act be construed to alter, modify, or repeal the said Anti-Trust acts or the acts to regulate commerce or any part or parts thereof.

THE PILGRIMS.

The Pilgrims was organized in London during coronation year, 1902. It was born of a desire on the part of a few Anglo-Americans, who foregathered in London at that time, to have a society that would stand for the promotion of good fellowship and friendship between Britons and Americans as individuals.

The British Pilgrims has a membership of 400. The American Pilgrims was organized in 1903 and has a membership of 600, which is the limit specified in the rules. There is a long waiting list of applicants.

The society takes no part in politics or affairs of state or church, but simply and solely the cementing of friendship between citizens of the United States and its dependencies and the subjects of the British Empire. It exists for the one purpose of fostering by social means a friendly understanding between the people of the United States and those of Great Britain, and to bring distinguished visitors from Great Britain into contact with leading citizens of New York and the most eminent men of the country.

The citizens of the United States and its dependencies and subjects of the British Empire, and others prominent for their sympathy with the objects of the society, are eligible for membership, and membership in one society *ipso facto* constitutes membership in the other.

The officers and Executive Committee of the Pilgrims of Great Britain are as follows:

President—Field-Marshal Earl Roberts, K. G., V. C.
Vice-Presidents—The Archbishop of Canterbury; Field-Marshal Lord Grenfell, G. C. B.; Admiral the Hon. Sir Hedworth Lambton Meux, K. C. V. O.
Honorary Treasurer—J. Wilson Taylor.
Honorary Secretary—Harry E. V. Brittain, M. A.
Executive Committee—Harry E. V. Brittain, M. A., Chairman.

Lord Alverstone, G. C., M. G.
 J. Arthur Barratt.
 Harry E. V. Brittain.
 The Archbishop of Canterbury.
 Robert M. Collins.
 Viscount Deerhurst.
 Rt. Hon. Sir Henry Mortimer Durand, G. C., M. G.

Lord Fairfax of Cameron.
 Field-Marshal Lord Grenfell, G. C. B.
 Col. Sir Thomas Holdich, K. C., M. G., K. C. I. E., C. B.
 Hon. Kenneth Kinnaird.
 Irwin Boyle Laughlin.
 H. C. Levis.

James McDonald.
 Admiral the Hon. Sir Hedworth Lambton Meux, K. C. V. O.
 Field-Marshal Earl Roberts, K. G., V. C.
 J. Wilson Taylor.

The officers and Executive Committee of the Pilgrims of the United States are as follows:

President—Joseph H. Choate.
Vice-Presidents—Chauncey M. Depew; Admiral Lord Charles Beresford, G. C. B., G. C. V. O.; Nicholas Murray Butler; F. Cunliffe-Owen; George T. Wilson.
Treasurer—Wm. Curtis Demorest, 60 Liberty Street, New York.
Secretary—George W. Burlleigh, 52 Wall Street, New York.
Executive Committee—George T. Wilson, Chairman, 165 Broadway, New York.

Admiral Lord Charles Beresford, G. C. B., G. C. V. O.
 George W. Burlleigh.
 Nicholas Murray Butler.
 William Allen Butler.
 Joseph H. Choate.
 E. F. Darrell.
 Wm. Curtis Demorest.
 Chauncey M. Depew.
 R. H. Ewart.

Samuel W. Fairchild.
 Lawrence L. Gillespie.
 Rt. Rev. David H. Greer, D. D.
 John W. Griggs.
 Louis C. Hay.
 A. Barton Hepburn.
 Rev. W. T. Manning, D. D.
 Herbert Noble.
 F. Cunliffe-Owen.
 Alton B. Parker.

Herbert L. Satterlee.

UNITED STATES BUREAU OF FISHERIES—DEPARTMENT OF COMMERCE.

The work of the Bureau of Fisheries comprises (1) the propagation of useful food fishes, including lobsters, oysters and other shellfish, and their distribution to suitable waters; (2) the inquiry into the causes of decrease of food fishes in the lakes, rivers and coast waters of the United States, the study of the waters of the coast and interior in the interest of fish culture, and the investigation of the fishing grounds of the Atlantic, Gulf and Pacific coasts, with the view of determining their food resources and the development of the commercial fisheries; (3) the collection and compilation of the statistics of the fisheries and the study of their methods and relations. The bureau also has jurisdiction over the fur-seal herds and the salmon fisheries of Alaska. Office, Sixth and B Streets, Washington, D. C. The official force of the bureau is as follows: *Commissioner*, Hugh M. Smith; *Deputy Commissioner*, E. Lester Jones; *Chief Clerk*, I. H. Dunlap. *Chief, Division of Alaska Fisheries*, Assistants in Charge of Division: *Inquiry Respecting Food Fishes*, Henry F. Moore; *Fish Culture*, Robert S. Johnson; *Statistics and Methods*, A. B. Alexander; *Architect and Engineer*, Hector von Bayer.

THE LIFE-SAVING SERVICE.

THE ocean and lake coasts of the United States are picketed with the stations of the Life-Saving Service attached to the United States Treasury Department. Sumner I. Kimball is general superintendent, with headquarters at Washington, and there is a corps of inspectors, superintendents, station keepers, and crews, extending over the entire coast line, together with a board on life-saving appliances, composed of experts selected from the Life-Saving Service, the Revenue Cutter Service, and the United States Coast and Geodetic Survey and the Army.

At the close of last fiscal year the life-saving establishment embraced 285 stations, 203 being on the Atlantic and Gulf coasts, 62 on the lakes, 19 on the Pacific coast (including 1 at Nome, Alaska), and 1 at the Falls of the Ohio, Louisville, Ky. In the following table are the important statistics of the service:

	Year Ending June 30, 1914.	Since Introduction of Life-Saving System in 1871*, to June 30, 1914.		Year Ending June 30, 1914.	Since Introduction of Life-Saving System in 1871,* to June 30, 1914.
Disasters.....	522	28,121	Shipwrecked persons succored at stations.....	249	28,711
Value property involved.....	\$20,368,330	\$355,401,084	Days' succor afforded.....	551	59,659
Value property saved.....	\$17,714,240	\$288,871,237	Vessels totally lost on U. S. coasts.....	52
Value property lost.....	\$2,654,130	\$66,529,847			
Persons involved.....	5,529	178,741			
Persons lost.....	26	1,455			

In addition to the number of disasters shown for 1914, there occurred 1,415 casualties to small craft, such as launches, sailboats, rowboats, etc., on which were 3,757 persons, of whom 12 were lost. The cost of the maintenance of the service during the year was \$2,309,317.41. *Introduction of present life-saving system.

U. S. VOLUNTEER LIFE-SAVING CORPS.

(New York City Department.)

President—James R. Howe. *General Superintendent*—Charles E. Raynor. Headquarters, 63-65 Park Row, New York City.

Three hundred First Aid stations where equipment is placed.

Twenty-five stations owned by Corps—twenty-two houses, three houseboats.

Three houses not owned by Corps but under its control and used for stations.

Fifty boats owned by Corps which do patrol work along the 450 miles of water front in New York City.

Three hundred boats owned by volunteers carrying Corps flags do patrol duty along New York City water front.

These boats decrease the number of drownings yearly by rendering assistance, and also by preventing people from going out too far, thereby taking great risk.

Eighteen hundred enlisted men. Swimming instructors who act as life guards in city baths. First Aid cases in 1914, 5,000.

HOUSES OWNED BY CITY DEPARTMENT OF U. S. VOLUNTEER LIFE-SAVING CORPS.

Rockaway Point.

NATIONAL WOMEN'S LIFE-SAVING LEAGUE.

Organized for work among women and children. Its purposes are: To encourage swimming by women and children; to co-operate with other organizations, whenever advisable, in the dissemination of knowledge on life-saving from drowning and "first aid" to the injured; to encourage interest and promote efficiency in swimming and life-saving by the holding of annual competitions for medals, prizes and the like; to encourage and advocate simplicity and rationalism in bathing and swimming costumes; to establish an athletic branch for the supervision of athletics for women by women, in order to raise the dignity of such branch of outdoor sports so that all women may participate in the healthful and instructive exercises of swimming and life-saving; to advocate the general adoption of swimming and life-saving—Rescue and Resuscitation—as a branch of elementary education.

It conducts free classes of instruction in swimming at all the municipal plunges, free competitions for the entertainment and benefit of its members, and public exhibition drills for the purpose of public instruction. The dues of the league are 50 cents a year, to cover postage and incidentals, bringing the membership of the organization within the reach of all working women.

President—Katherine F. Mehrtens Thorman. *Vice-President*—Florence West Hastings. *Treasurer*—Sarah L. Marrin. *Secretary*—Adeline Trapp, 143 Havemeyer Street, Brooklyn, N. Y. Headquarters, 25 Clinton Street, Brooklyn, N. Y.

THE SOUTHERN COMMERCIAL CONGRESS.

President—Duncan U. Fletcher, Jacksonville, Fla. *First Vice-President*—Thomas S. Southgate, Norfolk, Va. *Second Vice-President*—Albert P. Bush, Mobile, Ala. *Managing Director*—Clarence J. Owens, Riverdale Park, Md. *Treasurer and Resident Director*—William H. Saunders, Washington, D. C.

The headquarters of the Congress is at the Southern Building, Fifteenth and H Streets, Washington, D. C.; Clarence J. Owens, Managing Director.

Among the purposes of the organization are the following:

(a) To promote and develop the interests of the following sixteen States of the United States known as the "Southern States," to wit: Alabama, Arkansas, Florida, Georgia, Kentucky, Louisiana, Maryland, Mississippi, Missouri, North Carolina, Oklahoma, South Carolina, Tennessee, Texas, Virginia, and West Virginia.

(b) To collect and disseminate information regarding the resources and conditions of the said States and the opportunities and advantages offered in them for the safe and profitable investment of capital; the attractions offered in the South to the homeseeker, artisan and laborer, and the importance to the National Government of enacting proper legislation looking to the conservation of the natural resources of the South and the improvement of its rivers, harbors and transportation facilities.

(c) To encourage, promote and foster the development of the resources of the South with its own capital and by its own inhabitants.

(d) To encourage and obtain the establishment in the South of commercial, manufacturing, industrial and other enterprises, and to foster those already existing therein.

(e) To encourage, foster and promote the creation and establishment of institutions and organizations whose energies shall be principally directed toward the development of the material resources of the South.

(f) To promote and develop proper immigration to the South and to promote and foster the establishment of such organizations as may bring about the development of desirable immigration to the South.

(g) To encourage the movement for the construction of good roads and for the extension of railroad and trolley transportation.

(h) To encourage, foster and develop patriotic and national sentiments throughout the South and elsewhere in the nation, and particularly to promote, encourage and foster the feeling and desire for a greater nation through a greater South.

(i) To promote the improvement of educational and other conditions which tend to develop the material resources and happiness of the residents of the South.

THE UNITED STATES REVENUE CUTTER SERVICE.

THE United States Revenue Cutter Service is a military arm of the Government attached to and under the direction of the Treasury Department. The Service was organized in 1790 and constituted the original naval force of the country. There being at that time no Navy Department, the Service was placed under the Treasury Department, where it has remained ever since. It is charged with the enforcement of the navigation and customs laws of the United States, the assistance of vessels in distress, the protection of the sealing industry in Alaska, the enforcement of the quarantine laws, the destruction of derelicts and other floating dangers to navigation, and numerous other duties appropriate to its class of vessels. Each Winter, by direction of the President, a number of the cutters patrol the coast for the special purpose of assisting vessels in distress. The Service co-operates with the Navy when directed by the President and has so co-operated in every war in which the United States has been engaged. The officers of the Service are commissioned by the President and hold rank by law with officers of the Army and Navy as follows:

Captain-Commandant with Colonel in the Army and Captain in the Navy; Senior Captains and Engineer-in-Chief with Lieutenant-Colonels in the Army and Commanders in the Navy; Captains with Majors in the Army and Lieutenant-Commanders in the Navy; First Lieutenants with Captains in the Army and Lieutenants in the Navy; Second Lieutenants with First Lieutenants in the Army and Lieutenants (Junior Grade) in the Navy; Third Lieutenants with Second Lieutenants in the Army and Ensigns in the Navy.

There are now in the Service 228 commissioned officers and cadets on the active list, and 1,500 petty officers and enlisted men. The officers are: 1 Captain-Commandant, 6 Senior Captains, 31 Captains, 37 First Lieutenants, 42 Second Lieutenants, 34 Third Lieutenants, 8 Cadets of the line, 1 Engineer-in-Chief, 6 Captains of Engineers, 28 First Lieutenants of Engineers, 22 Second Lieutenants of Engineers, 17 Third Lieutenants of Engineers, 4 Cadet Engineers and 2 Constructors.

Commissioned officers of the line are appointed from Cadet graduates of the Revenue Cutter Academy at New London, Ct. The Cadet course covers three years and embraces professional and academic subjects. Cadets are appointed after competitive examinations, conducted by boards of commissioned officers of the Revenue Cutter Service. Candidates must be not less than eighteen nor more than twenty-four years of age.

Appointments to the Engineer Corps are made after competitive examination, and successful candidates are appointed Cadet Engineers for a period of not less than one year prior to being commissioned Third Lieutenants of Engineers in the Service. Candidates for the Engineer Corps must be not less than twenty-one nor more than twenty-six years of age.

The present Commandant of the Service is Captain-Commandant Ellsworth P. Bertholf, U. S. R. C. S., and Engineer-in-Chief Chas. A. McAllister, U. S. R. C. S., is head of the Engineer Corps.

The organization of the Division of Revenue Cutter Service is as follows:

Captain Charles E. Johnston, U. S. R. C. S., in charge of Personnel and Operations; Second Lieutenant William Williams, U. S. R. C. S., Assistant for Personnel.

THE UNITED STATES LIGHTHOUSE SERVICE.

BUREAU of Lighthouses. Commissioner, George R. Putnam; Deputy Commissioner, John S. Conway; Chief Constructing Engineer, Horatio B. Bowerman; Superintendent of Naval Construction, Edward C. Gillette; Chief Clerk, T. S. Clark.

The Lighthouse Service is charged with the establishment and maintenance of lighthouses, light-vessels, buoys, and other aids to navigation on the coasts and rivers of the United States, as authorized by Congress, and with the direction of the offices, depots and tenders required in this work.

The field work of the service is divided into nineteen districts, each in charge of an inspector.

AMERICAN AND FOREIGN SHIPPING.
UNITED STATES MERCHANT MARINE, 1914.

FUNNEL MARKS AND NIGHT SIGNALS OF TRANSATLANTIC LINES.

LINE.	Funnel Marks.	Night Signals.
American.....	Black, white band, black top.....	Blue light forward, red light amidships and blue light aft.
Cunard.....	Red, with black rings and black top.....	Blue light and two roman candles, each throwing out six blue balls.
French.....	Red, with black top.....	Blue light forward, white light amidships, and red light aft.
Hamburg-Amer.	Express service, buff; regular, black.....	Two red-white-blue lights, in quick succession, at stern.
Holland-Amer..	Buff, with green-white-green bands.....	Green light forward and aft, white light on bridge simultaneously.
Nor. Ger. Lloyd..	Ochre.....	Two blue-red lights, one forward, one aft.
White Star.....	Buff, with black top.....	Two green lights simultaneously.

S O S, a signal used in case of accident at sea by vessels fitted with wireless equipment. Means suspend other service.

NAUTICAL TERMS.

Gross tonnage is the sum in cubic feet of all the various inclosed spaces of a vessel, divided by 100.

Net tonnage is the gross tonnage, less certain deductions on account of crew spaces, engine room, water ballast, and other spaces not used for passengers or cargo.

Dead weight tonnage, or carrying capacity, is the number of tons (2,240 lb.) of cargo that a vessel is capable of carrying when charged to the load water-line (q.v.).

Displacement tonnage is the number of tons of sea water displaced by the vessel when charged to the load water-line. The displacement tonnage is arrived at by ascertaining the product of (1) length in feet at load line by (2) moulded breadth in feet by (3) draught in feet by (4) coefficient of fineness, divided by 35 (35 cubic feet=1 ton of sea water); thus:—

$$\frac{L \times B \times D \times \text{Coeff.}}{35} = \text{Displacement.}$$

Load water-line is the line that would be made round the shell of a vessel when loaded as deep as the minimum freeboard regulations permit.

Moulded breadth is the greatest breadth through the greatest cross-section of a vessel.

Moulded depth is the distance from the tonnage deck to the lowest part of the bottom of a vessel.

Draught is the distance in feet from the lowest portion of the bottom of a vessel to the actual water-line at which it is floating; thus, the load water-line marks the greatest, or loaded, draught of a vessel. A vessel without any cargo in her hold, or passengers or their luggage aboard, is said to be "light ship," or "light," or "in ballast."

Coefficient of fineness of displacement is the decimal fraction found by dividing the actual displacement of a vessel when fully loaded, in cubic feet, by the number of cubic feet in a rectangular solid of the same length, breadth, and draught as the vessel; thus:—

$$\frac{\text{Tons Displacement} \times 35}{L \times B \times D} = \text{Coefficient.}$$

This coefficient varies from 0.5 to 0.8.

Length between perpendiculars is the length of a vessel from stem (or bow) to the stern post on the range of upper deck beams.

Length over all is the extreme length of a vessel from the fore part of bow (or stem) to the after part of stern (or counter).

Free board is the distance from the main or upper deck to the load water-line of a vessel. As a general rule, the minimum free board provides an amount of reserve buoyancy that will keep the vessel afloat with two compartments holed.

Compound reciprocating engine is any engine where the same steam does work in two or more cylinders. Generally speaking, a compound engine is one where the same steam does work in two cylinders, the steam passing from the "high-pressure" cylinder to the "low-pressure" cylinder and thence to the condenser, where it is condensed into water; this water is pumped into the boiler, generated into steam again, and repeats the cycle as long as required. The term reciprocating means that certain steam causes the piston to move from one end of the cylinder to the other, and further steam causes it to return to the first end again; this reciprocatory motion is converted into "rotary motion" by means of rods and a crank. In a turbine the steam works on the blades of the "rotor," causing "rotary motion" direct. In the latter case a good analogy is wind acting on the sails or blades of a windmill.

Triple-expansion engines are those where the same steam does work in three cylinders—the high-pressure (H.P.), the intermediate-pressure (I.P.), and the low-pressure (L.P.).

Quadruple-expansion engines are those where the same steam expands or does work in four cylinders.

One horse-power (H.P.) is equal to the work done in raising 33,000 lb. through a vertical height of 1 foot in 1 minute.

Nominal horse-power (N.H.P.) is merely an indication of the size of the cylinders of an engine, not of its actual horse-power.

Indicated horse-power (I.H.P.) is the horse-power of an engine found by dividing 33,000 into the product of the "mean pressure" of steam acting on the piston as shown by an "indicator" (P) by the length of stroke in feet (L) by the area of piston in square inches (A) by the number of strokes per minute (N); thus:—

$$\frac{P \times L \times A \times N}{33,000} = \text{I.H.P.}$$

Brake horse-power (B.H.P.) is the actual power transmitted to the shaft of the engine. It is found by applying a known brake or load on the shaft of the engine.

Shaft horse-power (S.H.P.).—As no indicator can be attached to the rotary or turbine engine to find work done by the steam on the rotor, the twist or torsion set up in the shaft of the turbine is measured when the shaft is running under its load, and from the twist on the shaft and the revolutions of the shaft the shaft horse-power can be calculated.

(From Whitaker's Almanack.)

AMERICA'S TWENTY BEST CUSTOMERS.

(From Report of Bureau of Foreign and Domestic Commerce.)

THE following table is arranged to show the twenty heaviest buyers of American goods, as indicated by the value of exports from the United States during the fiscal years 1913 and 1914.

1913.		1913.		1914.

New York to Naples.....	Deutschland.....	Hamburg-Am. ..	Jan. 20-28, 1904....	7	16	44

The fastest day's run was made by the Mauretania of the Cunard line, January, 1911—676 knots, or 27.04 knots per hour.

United States battleship speed record made by the Wyoming, July 19, 1912. On the twenty-first standardization run she made a speed of 22.045 knots. The torpedo boat destroyer McDougal broke all mile speed records for her type in standardization trials off Rockland, Me., in May, 1914. She ploughed the water at the rate of 32.07 knots an hour on her fastest mile. The average of her five full speed runs was 31.516 knots.

1905 record.—Allen line's turbine Steamer Virginius passed Cape Race June 13, 11 A. M., inward bound, having left Mobile on the afternoon of June 9, thus crossing in less than four days.

On March 19, 1914, the freighter Santa Cruz (oil burner) steamed into San Francisco from New York via the Straits of Magellan. The distance is approximately 13,000 miles and the time consumed was 47 days and 4 hours.

Steamship development as shown in the relative proportions, speed, etc., of the Great Eastern and Vaterland:

SHIP REGISTRY.

AN act to provide for the admission of foreign-built ships to American registry for the foreign trade, and for other purposes.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That the words "not more than five years old at the time they apply for registry" in section 5 of the act entitled "An act to provide for the opening, maintenance, protection, and operation of the Panama Canal and the sanitation and government of the Canal Zone," are hereby repealed.

SEC. 2. That the President of the United States is hereby authorized, whenever in his discretion the needs of foreign commerce may require, to suspend by order, so far and for such length of time as he may deem desirable, the provisions of law prescribing that all the watch officers of vessels of the United States registered for foreign trade shall be citizens of the United States.

Under like conditions, in like manner, and to like extent the President of the United States is also hereby authorized to suspend the provisions of the law requiring survey, inspection, and measurement by officers of the United States of foreign-built vessels admitted to American registry under this act.

SEC. 3. This act shall take effect immediately.

Approved, August 18, 1914.

IMMIGRATION INTO THE UNITED STATES

FOR FISCAL YEARS ENDED JUNE 30.

YEAR.	Total Immigrants.	YEAR.	Total Immigrants.	YEAR.	Total Immigrants.	YEAR.	Total Immigrants.
1900	448,572	1904	812,870	1908	782,870	1912	838,172
1901	487,918	1905	1,027,421	1909	751,786	1913	1,197,892
1902	648,743	1906	1,100,735	1910	1,041,570	1914	1,218,480
1903	857,046	1907	1,285,349	1911	878,587		

Total from 1820 to 1914 inclusive, 32,027,424. (For yearly totals from 1824 to 1899, see 1913 ALMANAC, page 185.) From 1789 to 1822, estimated, 266,038.

Of the whole number of immigrants in the fiscal year ending June 30, 1914, 878,052 came through the customs district of New York, 39,043 through Baltimore, 69,365 through Boston, 56,857 through Philadelphia, 6,716 through San Francisco, 117,796 through Canadian ports or border, and the balance through other ports.

The reported occupations of immigrants arriving during the fiscal year 1914 were as follows: Laborers, 226,407; servants, 141,409; farm laborers, 288,053; tailors, 27,403; merchants and dealers, 16,505; carpenters and joiners, 15,755; shoemakers, 11,200; clerks and accountants, 16,876; mariners, 5,185; miners, 7,770. The number of professional immigrants (including 1,019 actors, 1,931 engineers, 1,356 musicians, and 2,578 teachers) was 14,601; of skilled laborers, 173,208; other miscellaneous (including unskilled), 15,965; no occupation (including women and children), 320,215.

IMMIGRATION BY COUNTRIES IN FISCAL YEARS 1913 AND 1914.

EMIGRATION FROM UNITED STATES.

For fiscal years ended June 30, 1908, emigrant aliens, 395,073; non-emigrant aliens, 319,755; total, 714,828. In 1909, emigrant aliens, 225,802; non-emigrant aliens, 171,590; total, 400,392. In 1910, emigrant aliens, 202,436; non-emigrant aliens, 177,952; total 380,418. In 1911, emigrant aliens, 295,666; non-emigrant aliens, 222,549; total 518,215. In 1912, emigrant aliens, 333,262; non-emigrant aliens, 282,030, total 615,292. In 1913, emigrant aliens, 308,190; non-emigrant aliens, 303,734; total 611,924. In 1914, emigrant aliens, 303,338; non-emigrant aliens, 330,467; total, 633,805.

NOTE.—Arriving aliens whose permanent residence has been outside the United States, who intend to reside permanently in the United States, are classed as immigrant aliens. Departing aliens whose permanent residence has been in the United States, who intend to reside permanently outside, are classed as emigrant aliens. All alien residents of the United States making a temporary trip abroad, and all aliens residing abroad making a temporary trip to the United States are classed as non-immigrant aliens on the inward journey and non-emigrant on the outward.

UNITED STATES BOARD OF MEDIATION AND CONCILIATION.

Commissioner—William L. Chambers. Assistant Commissioner—G. Wallace W. Hanger. Members of Board—William L. Chambers and Martin A. Knapp.

(Created by the act of Congress, Approved July 15, 1913.)

The purpose for which the board was established is to settle by mediation, conciliation and arbitration all controversies concerning wages, hours of labor, or conditions of employment that may arise between any common carrier or carriers engaged in the transportation of passengers or property wholly by railroad, or partly by railroad and partly by water, for a continuous carriage or shipment from one State or Territory of the United States or the District of Columbia, to any other State or Territory of the United States or the District of Columbia, or from any place in the United States to an adjacent foreign country, or from any place in the United States through a foreign country to any other place in the United States, and their employes, which includes all persons actually engaged in any capacity in train operation or train service of any description, whether the cars upon or in which they are employed are owned or held and operated by the carrier under lease or other contract.

The Commissioner is appointed by the President for a term of seven years, salary \$7,500, and is the executive officer of the board, which consists of the Commissioner and not more than two other officials of the Government, who are designated by the President. The Assistant Commissioner is appointed by the President, salary \$5,000 per annum.

During the eleven months, ended June 30, 1914, twenty-seven controversies between railroads and their employes engaged in train operation have reached the stage where an appeal for the services of the Board of Mediation and Conciliation was made. In all of these cases an adjustment of the controversy was secured by the board, twenty-one cases having been settled by mediation alone, while six were settled by arbitration.

THE PHILIPPINE SOCIETY.

President—Gen. Luke E. Wright. Vice-President—Lieut.-Col. E. W. Halford, U. S. A. Secretary—Richard E. Forrest. Treasurer—Chas. D. Palmer. Assistant Secretary—William J. Platka, 149 Broadway, New York City.

The Philippine Society was founded in April, 1913, to diffuse among the American people a more accurate knowledge of the Philippine Islands; to benefit the people of the islands by co-operation in the fields of religion, philanthropy, education and commerce; to promote social intercourse in the United States among those who are interested in the islands—the society will be kept free of all partisanship or sectarianism. Ex-President Taft is the Honorary President.

The society is composed of persons residing in the United States or in the Philippine Islands who are in any way interested in the welfare of the islands. The dues are: Patron \$500; life membership \$100; annual membership \$10 per year; associate membership, limited to officers in the army and navy, Filipinos, and those engaged in educational and religious work, \$5 per year.

SUBMARINE CABLES OF THE WORLD.

(From report issued by the Bureau International de l'Union Telegraphique.)

The following table sets forth the entire system of submarine cables of the world, including those along the shores and in the bays, gulfs, and estuaries of rivers, but excepting those in lakes and the interior watercourses of continents. The list includes all cables operated by private companies, and in addition thereto under the name of each nation is given the list of cables operated by the government of that nation.

COMPANIES.	Number of Cables.	Length of Cables in Nautical Miles.	COMPANIES.	Number of Cables.	Length of Cables in Nautical Miles.

TELEGRAPH RATES.

WESTERN UNION TELEGRAPH COMPANY RATES.

NIGHT LETTERS of 50 words or less, address and signature free, filed before midnight, are transmitted during the night and delivered the next morning at the same rate as that shown for "Day telegrams of 10 words."

DAY LETTERS of 50 words or less, address and signature free, filed at any hour during the day, are transmitted and delivered subject to the priority of Day telegrams. Rates for Day Letters are one-half higher than rates for Night Letters.

Words above 50 in Night Letters or Day Letters are one-fifth the 50-word rate for each additional 10 or fraction of 10 words.

TELEGRAPH RATES—Continued.

On January 1st, 1912, a reduced rate on cable messages in plain language, taken on a delay basis, was inaugurated, and is now in effect between most countries. Deferred cable messages must be written in plain language of the country of origin or destination, must bear the declaration LCO (language country of origin), LCD (language country of destination), or LCF (language country French, as an international language), and are subordinated to full-rate messages in the order of transmission until an accumulated delay of 19 hours has occurred, when they take their turn with fully paid traffic. The tariff is generally one half the regular rate, but on deferred messages between the United States or Canada and the United Kingdom of Great Britain and Ireland the tariff is 3 cents less than half rates.

In December, 1911, the Western Union Telegraph Company inaugurated two new forms of cable service. These new services, known as cable letters and week-end letters, are the cable equivalent of night letters in the domestic telegraph service, in that they are predicated on the use of facilities that otherwise would be idle at night, and on delivery the following day. Unlike all other forms of cable service, the tolls on which invariably are charged on a word basis, cable and week-end letters are charged on a message basis. The minimum charge on cable letters is for 13 words (including a necessary prefix), and in week-end letters for 25 words (including a necessary prefix). The tariff varies according to distance, but between New York City and London is 75 cents and \$1.15 for cable and week-end letters respectively.

On November 10, 1910, Clarence H. Mackay, President of the Commercial Cable Company and the Postal Telegraph Company announced an intended reduction in cable rates on plain language (not code) messages from 25 cents for a word not exceeding fifteen letters to 12½ cents for every five letters sent. The plan has been worked out, but instead of this plan being adopted, a plan of the Postmaster-General of Great Britain, proposed in 1909, to reduce the rates on plain language from 25 cents to 12½ cents a word, the message to be subject to a delay not exceeding 24 hours, has been accepted. It went into effect with the co-operation of the British, French and German Governments on January 1, 1912. On January 1, 1913, this rate was again reduced to 9 cents a word. Many other countries have since accepted the plan. In foreign countries the telegraph lines are owned by the Governments. The plan involves proportionate reductions of the Government rates and hence the co-operation of the Governments is necessary.

The Postal Telegraph Cable Company also transacts business in the United States, and by last report operated 66,154 miles of poles and 408,735 miles of wire, by means of which it reached 35,230 places.

TELEGRAPH STATISTICS.

THE WESTERN UNION TELEGRAPH COMPANY.

Newcomb Carlton, President; Executive Offices, 16 Dey Street, New York.
 Capital stock outstanding, \$99,786,758.96. Funded debt, \$32,602,000. Capital stock in subsidiary companies not owned by Western Union, \$3,881,075. Total capital liabilities, \$136,269,533.96.
 Annual report for fiscal year ending June 30, 1913: Gross income, \$47,423,442.80; operating expenses and taxes, \$42,959,933.90; net profits, \$4,463,508.90; interest on bonds, \$1,337,229.12; dividend (3%), \$2,992,166.25; Balance to surplus, \$134,113.53. Number of offices, 26,800. Miles of wire added during the year, 43,500.

* Partly estimated. † U. S. census, 1912. ‡ Finland included in Russia. a Partly estimated to include all companies and lines.

Total telephones in United States, December 31, 1912, 8,729,592 (United States Census); December 31, 1913, 8,975,074, of which 7,456,074 are in Bell system, leaving 1,519,000 rural and other company telephones not connected with Bell system.

The independent telephone companies of the United States, which are owned and operated entirely apart from the Bell organization, are represented in the National Independent Telephone Association, with headquarters in the Colorado Building, Washington, D. C., and the Independent Telephone Association of America with headquarters in Chicago. According to the United States Census of 1912, there were 1,740 independent telephone companies with over \$5,000 annual income and 2,239,721 stations. Many of these companies connect with the Bell system. The capital invested is approximately \$300,824,000 and the income is about \$48,950,000 per annum. The independent companies, which are for the most part financed in the territories which they cover, are particularly strong throughout the middle and far West. They are established in nearly every large city in the United States except those on the Atlantic coast.

b Service not opened until February 28, 1914.

Electrical Progress in 1914.

BY CHARLES H. HUGHES.

IN GENERAL.

THE breaking out of the war in Europe had a most serious effect during the latter part of the year on the development of new electric apparatus and enterprises, particularly in European countries. Among the large engineering developments which were stopped was the electrifying of many steam railroads in Germany and France, particularly in Germany, which country was contemplating extensive electrification in Silesia, the funds for which were withdrawn for war purposes.

Electricity played a most important part in the European war, especially wireless telegraphy, which was extensively used not only for communication on land, but also between ships at sea. Aside from the use in war, improved wireless apparatus was brought out both for telegraphy and telephony, and there was established by the Marconi Wireless Telegraph Company a round-the-world-circuit, viz., a message could be sent from a station in New Jersey to Wales, then to Egypt, from Egypt to India, then to China, from China to Hawaii, then to San Francisco, and finally from San Francisco to the station in New Jersey. In regard to improved wireless telephone apparatus, ships at sea 40 miles apart readily communicated, while on land parties at distances of 60 and 90 miles have talked with each other.

It is interesting to note the rapid advancement the Japanese have made in the manufacture of electric apparatus. Motors, generators, and transformers were manufactured in large quantities, and as to size, generators were built up to 6,000 kilowatts. Porcelain insulators were made in great numbers, as suitable materials are plentiful at Kiushiu and other parts of the Empire.

Mention should be made of the still wider field of use of electric motors for all kinds of manufacturing and industrial purposes. For instance, in the development of oil properties, wherever possible electric motors are installed for furnishing power for pumping. Then again they are used in driving cotton gins, rolls, and presses, and also in mines, where they have proved satisfactory for operating hoists, and so on in other fields they are proving to be of exceptional value and consequently their use is becoming larger every year.

Many electric novelties were brought out, and it is worth briefly reviewing some of them, which in many cases are very ingenious and clever. For example, the combination of a small lamp and a fountain pen for writing in dark places; the steering and the controlling of the engines in a boat by wireless waves sent from a station several thousand feet away; and the installation in Berlin of a miniature electric train running in a tunnel carrying the mail, instead of having the mail carried in cases that are sent through pneumatic tubes, as is the practice in New York and other large cities.

For the home it seems as if electricity can be used for every conceivable purpose. Electrically operated dish washers are common, and there are electric stoves on the market varying in size from small ones for making a cup of coffee to those on which a course dinner can be cooked. Toasters are made on which the toast can be turned without removing it from the toaster, electric ice breakers and ice cream freezers have proved to be popular, and after all the house work is done no one needs to use a towel for drying hands, but an electrically operated dryer.

ELECTRIC LIGHTING.

An important advance in the development of the X-ray was the invention of a new Roentgen tube by Dr. W. D. Coolidge. With the tube it is possible to show the finest blood vessels of the foot and hand.

At the Panama-Pacific Exposition there is being erected a steel tower 435 feet high for demonstrating a novel system of lighting. The tower will be covered with suspended cut glass prisms (over 125,000) which, when lighted by the sun's rays during the day and by artificial light at night, will give most spectacular effects.

Experiments conducted at the Brighton Mills, Passaic, N. J., showed that the average loom operator could see a white cotton thread at a distance of 17 feet in daylight. Under the rays of a mercury vapor lamp the same employés were able to see the same thread at a distance of 24 feet.

An improved arc lamp of the flame carbon type for ornamental street lighting was brought out by the Westinghouse Electric and Manufacturing Company. A feature of the lamp is its adaptability to practically all standard commercial circuits.

A new system of freight yard lighting was tried by the Pittsburgh and Lake Erie Railroad at its yard near Pittsburgh. Eight 100-foot steel towers were erected, at the tops of which were placed Cooper-Hewitt quartz tube lamps.

At the Finsen Light Institute of Copenhagen, Denmark, the successful use was reported of electric arc light in the treatment of patients suffering from surgical tuberculosis.

Notable improvements have been made in incandescent lamps. The bulbs of lamps when filled with nitrogen or other inert gas increases the efficiency of the lamp and gives it a longer life.

One of the largest electric signs in the world was erected at Montreal, Canada. It is on top of a nine-story building and is 135 feet long by 77 feet high.

A new cathodic glow lamp was brought out by Dr. Greinacker of Zurich, Switzerland, that is based on the fact that when a Geissler tube is subjected to an electric discharge the negative electrode becomes hot to a more or less marked degree, according to the intensity of the discharge and the current producing it.

The German army used a special type of field electric searchlight, which could be raised a considerable distance above the ground by means of a telescopic tubular pole.

Many installations of tube lamps for outlining the lines of buildings and for interior showroom illumination were made in England. In London a single tube 255 feet long was used to light two moving stairways.

Improvements were made by the Cooper-Hewitt Company, Hoboken, N. J., in their mercury vapor lamps and floor stands for use in taking motion pictures. The improved outfits can be equipped with light transformers or red reflectors where color values are essential.

What is claimed to be the most brilliant electric searchlight in the world was erected for tests at the Brooklyn Navy Yard, New York. The searchlight is a German invention and uses carbons with a metallic core.

A departure from the prevailing types of exterior illumination was adopted for the Cleveland Electric Illuminating Company's new office building in Cleveland, Ohio. The lamps were concealed in terra-cotta cornices, at the top of which were reflectors throwing the light down, the lamps themselves being entirely invisible.

It was reported that many vessels now using the Suez Canal are equipped with searchlights having the light divided in halves, each half being directed toward the shore.

METALLURGICAL AND CHEMICAL ENGINEERING.

The Canadian Department of Mines conducted an elaborate investigation of the preparation and properties of metallic cobalt and its alloys.

A committee was appointed by the council of the Institute of Metals (England) to consider the nomenclature of alloys. In their report they suggested that the nomenclature should be based

ELECTRICAL PROGRESS IN 1914—Continued.

on naming the alloys according to their chemical composition by weight, the names of the component metals being placed in the order of increasing numerical importance.

The extraction of casein from milk by an electrolytic process was announced by a French authority.

A submarine oxy-hydrogen torch was reported to have been experimented with in Kiel Harbor, Germany, for the purpose of testing the possibility of dismantling sunken vessels.

Basic linings of magnesite brick in copper converters are superseding those with acid lining, as with the former the life of the converter is longer.

Iron ore from the Mesaba mines of Michigan was converted into a high grade of pig iron by an electric furnace at the Carnegie Institute of Technology, Pittsburgh, Pa.

The Borchgrevink electrolytic process for the treatment of zinc ore was experimented with in Germany. Mr. Borchgrevink succeeded in making his process a success with zinc ore in limestone containing less than 6 per cent. zinc.

A new porous filter tile that is white and rigid was brought out by the General Filtration Company of Rochester, N. Y.

An important bulletin on electric furnaces for making iron and steel was published by the Bureau of Mines, Washington, D. C.

An electric welding process for welding iron sheets which will compete with riveting was brought out in Germany.

For the electrothermic treatment of iron ores by a modified type of the original Ble Lorentzen process a smelter was erected at Ulefoss, Norway. This is the first instance in Norway where a marketable pig iron from its own mine is produced by the electrothermic method.

An improved apparatus for graphitizing carbon was patented by M. P. L. V. Héroult of Paris, France. In the present patent the carbon is broken into a suitable size and subjected to a blast of air. It is then heated to a graphitizing temperature electrically.

A new process termed ferro-zincing or ironizing for coating steel with almost pure iron was devised, thus making a practically rustless steel.

An electric furnace was brought out in Sweden having three electrodes, two mounted horizontally in the same plane above the charge and the third vertical between the two horizontal.

For extracting benzine from coal a new electric process was invented by a Swedish engineer.

The principle that the components of explosive gaseous mixtures will combine without flame and at temperatures below the ignition points when in contact with incandescent solids has been applied by Prof. W. A. Bone and Mr. C. D. McCourt in the design of furnaces for commercial purposes.

TELEGRAPH AND TELEPHONE.

Wireless telephone messages were successfully sent from New York to Philadelphia, a distance of about 90 miles. At sea warships 40 miles apart communicated with each other without any trouble. The longest distance attempted was between London and Berlin, but in this case the messages were not very clear.

A portable wireless telegraph outfit, designed to send messages under favorable conditions 800 miles, was put in use by the United States Army Signal Corps.

The telephone cable which will connect Aldeburgh, England, with Walcheren, Netherlands, a distance of 79 nautical miles, will on completion be one of the longest submarine telephone cables in the world.

An ingenious apparatus was brought out in Germany which can transmit writing and drawing over a telephone or telegraph wire to an instrument that makes a perfect reproduction of the original.

The Pennsylvania Railroad decided to run its telegraph, telephone, and signal wires in underground conduits between New York and Philadelphia.

Experiments were carried on by Mr. J. H. Hammond, Jr., co-operating with the United States War Department, in the developing of a system for controlling torpedoes by wireless waves. Official reports of the Government state that vessels moving at speeds of 30 miles an hour may be controlled with precision and reliability at distances up to 8,000 yards.

A wireless apparatus which enables the navigating officer of a ship to take bearings of wireless telegraph stations for finding the position of his ship and also indicating the presence of another ship was brought out by the Marconi Wireless Telegraph Company.

In January the largest and best equipped long distance telephone central office in the United States was placed in service in New York City.

Along the coast of England signal guns fired by Hertzian waves are now used during fogs to warn passing vessels of dangerous rocks and shoals.

The Betulander relay automatic telephone system was exhibited in London, England. In this system the selector and common relay units, after performing their respective functions, are automatically cut out of circuit and are immediately available for building up other connections.

The Lackawanna Railroad started work on wireless telegraph stations which will be used for communication between Buffalo and New York.

Wireless telegraphy in aeronautics was discussed in the August number of *Knowledge*. In the article a map is given of the wireless telegraph stations around Germany to determine the position of airships by night or during a fog.

Prof. R. A. Fessenden perfected improved means for ships to communicate with each other under water, and also be warned of the approach of icebergs.

The Western Union Telegraph Company installed in its new building in New York City one of the largest operating departments in the country. About 1,500 employes are required to take care of the traffic, which averages approximately 150,000 messages a day.

The greatest distance, it was reported, attempted during the year with radio signals was between Radio, Va., and the Eiffel Tower, Paris, in obtaining the difference in longitude between Washington and Paris.

ELECTRIC RAILWAYS.

The Chicago, Milwaukee and St. Paul Railroad started electrifying a portion of a 440-mile stretch across the Belt, Rocky, and Route Mountains. Direct current of 2,400 volts will be used.

An order for 100 cars was placed by the New York Municipal Railway Corporation for use on the elevated and subway lines. The cars will be 67 feet long and will have three pairs of side doors, thus eliminating vestibules. The maximum standing and seating capacity will be 270 people.

In March a railless trolley car system at Boksburg, Transvaal, South Africa, was opened to the public. This is the first installation of its kind in the Transvaal.

The electrified division of the New York, New Haven and Hartford Railroad from New York to New Haven, a distance of about 74 miles, was placed in regular operation in July.

An interesting development in connection with the electrification of the Butte, Anaconda and Pacific Railway was the use of auxiliary trucks that can be coupled to the electric locomotives used for switching and for hauling slow freight.

Three important projects for electrification of railways in India were considered—viz., the sub-

ELECTRICAL PROGRESS IN 1914—Continued.

urban railways of Bombay, the Ghats section of the Great Indian Peninsula and the suburban section of the Eastern Bengal State Railway at Calcutta.

For the protection of grade crossings, automatic flagmen were installed on the Long Island Railroad, Long Island, N. Y. The flagmen consist of a bright swinging red light, imitating that of a man swinging a red lantern, and a loud sounding bell of the locomotive type.

Several new designs of railless trolley cars were brought out in England. The chief features were dividing the car into two compartments and in bringing the floor close to the roadway so only one step was necessary.

The regular operation of trains late in 1914 on the Kiruna-Riksgransen Railway from Narvik, Norway, to Lulea, Sweden, is one of the few instances, and perhaps the only one, of electric trains running within the Polar Circle. The road will be largely used for carrying iron ore.

The Pennsylvania Railroad began work on a very complete plan of electrifying its suburban steam lines around Philadelphia. The single phase system will be adopted, with overhead wires.

For use in the Grand Central Terminal, New York City, one of the largest electric locomotive cranes in the country was placed in service. It has two electrically operated cranes with a capacity of 100 tons at each end.

The Chicago Elevated Railways ordered a large number of cars of different design from the present ones. The new cars will be all steel, of fireproof construction, have centre and end doors, and a seating capacity of 44 people.

An improved car fan and lighting fixture was brought out by the safety Car Heating and Lighting Company, New York. The important feature is an air deflector under a disc fan, below which is the lamp.

Electric locomotives for switching have proved, after 18 months' trial on the New York, New Haven and Hartford Railroad, to be superior to steam in regard to speed of handling cars and reliability of service.

Diesel electric motor cars were tried out on the line connecting Dresden, Coswig, and Meissen, Germany. The car has two trucks, one of which has three axles and the other two, the Diesel motor and dynamo being mounted on the three-axle truck and the electric motor on the two.

Among the new types of trolley cars brought out was a 42-foot, double-deck, centre-door type, with inclosed stairways at each end leading to the upper deck. This car was placed in service by the Washington Railway and Electric Company of Washington, D. C.

POWER AND TRANSMISSION.

The electrical installation at the Joint Dock, Hull, England, is an excellent example of the latest British electric, conveying crane and lighting equipment. The entire project cost upward of \$15,000,000 and took eight years to complete.

One of the largest electrical installations in any Latin-American country was made by the Havana Electric Railway and Power Company of Havana, Cuba. The generating equipment consisted of three 12,500 K. W. turbo-generators.

Work was started on laying a submarine cable under the Strait of Oresund from a power station on the Laga River, Sweden, to the Danish Island of Sjælland. The cable will transmit electricity for lighting the entire northern part of the island.

An order for a 25,000 K. W. turbo-generator, which will be one of the largest ever built, was placed with the Westinghouse Machine Company for use in the power house of the Edison Illuminating Company of Brooklyn.

Many new water-power developments in Norway were contemplated or work actually started on them. Among the most important is a large power station of 50,000 horse-power which will be erected on the Folla River.

A new type of current transformer was designed by Vedovelli, Priestley & Co., Paris. The principal feature is the special insulating material moulded under pressure around the windings and core of the transformer, thus forming both an electrical and mechanical casing.

An electrically operated wagon with a bucket conveyor was built, which was used to advantage in sand and gravel pits and for handling coal.

The Bureau of Standards, Washington, D. C., issued a pamphlet on safety rules to be observed in the operation and maintenance of electrical equipment and lines.

A bill was introduced in the United States Senate providing for the development of electric power from the Potomac River, near Washington, D. C. It is estimated that a power plant could be built of 99,000 horse-power.

A meter which records without the use of clock mechanism both the kilowatts consumed per hour and the maximum kilowatt demand was placed on the market by the Westinghouse Electric and Manufacturing Company.

Experiments made by Prof. H. K. Onnes of Leyden, Germany, showed that at a temperature a few degrees above absolute zero the electrical resistance of certain pure metals practically vanishes. Among the metals experimented on was lead.

An improved high voltage outdoor oil switch was placed on the market by the General Electric Company that can be operated by hand, solenoid, or air. The operating mechanism is completely incased and is thus protected from the weather.

For the steering of large ships an apparatus consisting of two 150-horse-power 120-volt direct current motors, which operate separately or together as occasion requires, was designed and built by the Diehl Manufacturing Company, Elizabeth, N. J.

A furnace-charging machine was installed in a steel works in England which lifts by electric magnets the charging boxes that have been filled with pig iron and empties them into the furnace.

A single-phase wattour meter operating on the induction principle and having such important features as high initial and maintained accuracy was manufactured by the General Electric Company.

JOINT STATE AND NAVY NEUTRALITY BOARD.

SHORTLY after the outbreak of the European war the President of the United States appointed a Neutrality Board to advise the Department of State and other departments of the Government regarding the numerous questions with respect to the duties and the rights of the United States as a neutral nation, in cases which have constantly arisen and many of which are of a very delicate character. The Chairman of the Neutrality Board is Mr. James Brown Scott, formerly Solicitor for the Department of State, Secretary of the Carnegie Endowment and Director of its Division of International Law; associated with him are Capt. Harry S. Knapp, member of the General and Joint Boards of the Navy Department, and Capt. James H. Oliver, Director of the Bureau of Naval Intelligence and member of the General Board of the Navy. Headquarters, Washington, D. C.

The Neutrality Board holds daily sessions to consider questions referred to it by the Department of State.

IMPORTANT TUNNELS OF THE WORLD.

- Alberg—Under the Alps at the Arl Mountain, and extends from Langen to St. Anton, 6½ miles; opened 1884.
- Andes Mountains—See "Trans-Andine."
- Big Bend—Drains the Feather River in California, 2 miles; opened 1886.
- Bitter Root Mountains (Montana and Idaho)—10,100 feet long.
- Blackwell—Under River Thames, England, 1½ miles; opened 1897.
- Cascade Mountain—Through the Cascade Mountains in Washington, 3 miles.
- Continental Divide, for the Denver and Salt Lake R. R., 6.4 miles long (under construction).
- Cumberland—Under Cumberland Mountains, Tennessee, 8,000 feet long.
- Detroit (Michigan Central Ry.)—Under Detroit River.
- Gunnison—Southwestern Colorado, 6 miles; opened 1909.
- Hoosac—Through Hoosac Mountains, Mass., 4¾ miles; opened 1873.
- Khojak Pass—Inda, from Quetta to Kandahar, 2 miles.
- Loetschberg—Through the Alps, in Oberland, Switzerland, 9¾ miles; opened June 20, 1913, costing nearly \$10,000,000.
- Mt. Roberts—From the shore of Gastineau Channel at Juneau, Alaska, into Silver Bow Basin, 11-3 miles.
- Mont d'Or—Between France and Switzerland, was bored through October 2, 1913. The tunnel pierces the Jura Mountains from Fresno to Valloire, and is 3¾ miles long.
- Mont Cenis—Italy to France, under the Col de Frejus, 8 miles; opened 1871.
- New Croton—Supplies water to New York City, 33 1-3 miles; opened 1888.
- Otira—In New Zealand, 5 1-3 miles.
- Roger Pass—Under the Selkirk Mountains penetrating Mount Macdonald in British Columbia, 5 miles long; cost more than \$10,000,000; now building, and to be opened in 1916.
- Rothschonberg—Drains the Feiberg mines, Saxony, 31½ miles; opened 1877.
- St. Clair—Under St. Clair River from Sarnia, Ont., to Port Huron, Mich., 2 miles; opened 1891.
- St. Gothard—Through the Alps, connects Goschenen with Arolo, in Switzerland, 9 1-3 miles; opened 1881.
- Severn—From Monmouthshire to Gloucestershire, England, 4½ miles; opened 1886.
- Simplon—Through the Alps, 12½ miles; opened 1905.
- Strawberry—Through the Wasatch Mountains, Sutro—Drains the Comstock Lode in Nevada, 4½ miles; opened 1879.
- Trans-Andine Ry. tunnel—5 miles long, 12,000 feet above sea level and affords direct communication between Valparaiso and Buenos Ayres; opened April 5, 1910.
- Wasserfub—In the Alps, between Bunnader and Lichtensteig, Switzerland, 2 miles; opened 1909.
- Woodhead—Between Manchester and Sheffield, England, 3 miles.

TUNNELS IN AND ABOUT NEW YORK CITY.

(For Subways in and about New York City, see Index).

- PENNSYLVANIA RAILROAD SYSTEM**—Tunnels under Hudson River extend from Pennsylvania Railroad Station, New York, to Weehawken, N. J. There is no station at Weehawken, the electric trains from the Pennsylvania Station run to Manhattan Transfer, near Newark, N. J., without a stop. Work started April 1, 1904; completed in 1910. Two tubes of cast iron rings, 23 feet outside diameter and 21 feet 2 inches inside diameter; subaqueous portion 6,118 feet long.
- Manhattan Cross-Town Tunnels** from the Pennsylvania Railroad station, mentioned above, across New York under 32d and 33d Sts. to First Ave. Started July, 1905, completed in 1910. There are two tunnels, each with two tracks. The tunnels are built of concrete with the crown about 60 feet below the surface of the street.
- East River Tunnels** connect with the Cross-Town Tunnels and extend under the East River to Long Island City. Started September, 1904; completed in 1910. Four separate tubes with rings 23 feet outside diameter, each tube from the Manhattan shaft to the Long Island City shaft, 3,900 feet long.
- HUDSON AND MANHATTAN RAILROAD SYSTEM**—North tunnels under the Hudson River from Jersey City to Morton St., New York. Started November, 1874; the first in New York, officially opened February 25, 1903. Two single track tubes, with a minimum inside diameter of 15 feet 3 inches, and approximately 5,700 feet long.
- Up-town tunnels** connect with north tunnels at Morton St. and extend to Christopher St. thence to Sixth Ave. and up Sixth Ave. to 33d St. Started March, 1904, completed in 1910. Section from Morton to 12th Sts. shield construction, remainder cut and cover.
- South tunnels** under Hudson River from Jersey City to the Church St. Terminal Buildings (Cortlandt, Church and Fulton Sts.), New York. Started May, 1905; opened for traffic July, 1909. Two tubes about 5,950 feet long with cast iron rings, 16 feet 7 inches outside diameter and 15 feet 3 inches inside diameter.
- Two tunnels**, both under the East River from the Battery, Manhattan, to Brooklyn, will be built. These tunnels will form part of the new subway system now under construction.
- A tunnel from Brooklyn to Staten Island, under the Narrows, is contemplated.
- Tunnels** (consisting of two single track tubes) extend from the Hoboken terminal of the Lackawanna Railroad to Washington St., Jersey City, with connections to the north tunnels and to the Erie Railroad station. At Washington St. a branch runs to the Pennsylvania Railroad station at Jersey City, where connections are made with the south tunnels. West from Washington St. to a point east of Summit Ave. is a double track concrete tunnel with a centre wall dividing the tracks. Work started March, 1906; completed in July, 1911.
- BELMONT TUNNEL** under the East River from 42d St., New York, to Long Island City. Subaqueous portion two single track-tubes with cast-iron rings 16 feet 10 inches outside diameter, and a clear inside diameter of 15 feet 6 inches. Through rock a horseshoe shaped concrete section is used and in other places a rectangular double track cross section with reinforced concrete lining. Construction started by New York and Long Island Railroad, July 12, 1905; practically completed January 1, 1908. (Commonly known as the Steinway Tunnel).
- RAPID TRANSIT TUNNEL** under the East River from the Battery, New York, to Joralemon St., Brooklyn, connecting the New York and Brooklyn Subways. Started April, 1903; trains running January 9, 1908. Two tubes, 6,784 feet long, with a finished inside diameter of 15 feet 6 inches.
- BERGEN CUT** of Erie Railroad through Bergen Hill, Jersey City, parallel to the present tunnel, which is 4,700 feet long. The Bergen cut was started March, 1906, and completed July 1, 1910. It has five four-track tunnels, with open cuts between the tunnels, making a total length of 4,300 feet. Tunnel sections 58 feet wide at the bottom and 21 feet high.
- LACKAWANNA RAILROAD TUNNEL** through Bergen Hill, Jersey City. Started February 28, 1906; completed February 14, 1909. Parallel to and 24 feet away from old tunnel and of the same length, viz., 4,283 feet. New tunnel is double tracked, lined with concrete, having inside dimensions 23 feet high by 30 feet wide. Bush track construction used.

Two tunnels, both under the East River from the Battery, Manhattan, to Brooklyn, will be built. These tunnels will form part of the new subway system now under construction.

A tunnel from Brooklyn to Staten Island, under the Narrows, is contemplated.

INTERSTATE COMMERCE LAW.

THE following is a synopsis of the provisions of the Interstate Commerce law and acts amendatory thereof, prepared for the Official Congressional Directory:

Under "An act to Regulate Commerce," approved February 4, 1887; as amended March 2, 1889; February 10, 1891; February 8, 1895; the "Elkins act" of February 19, 1903, and the amending act approved June 29, 1906, the Interstate Commerce Commission is composed of seven members, each receiving a salary of \$10,000 per annum. The regulating statutes apply to all common carriers engaged in the interstate transportation of oil or other commodity, except water and except natural or artificial gas, by means of pipe lines, or partly by pipe line and partly by rail, or partly by pipe line and partly by water, and to common carriers engaged in the interstate transportation of passengers or property wholly by railroad (or partly by railroad and partly by water when both are used under a common control, management, or arrangement for a continuous carriage or shipment). Only traffic transported wholly within a single State is excepted.

The commission has jurisdiction on complaint, and, after full hearing, to determine and prescribe reasonable rates, regulations, and practices, and order reparation to injured shippers; to require any carriers to cease and desist from unjust discrimination, or undue or unreasonable preference, and to institute and carry on proceedings for enforcement of the law. The commission may also inquire into the management of the business of all common carriers subject to the provisions of the regulating statutes, and it may prescribe the accounts, records, and memoranda which shall be kept by the carriers, and has authority through its special agents and examiners to inspect the same. The carriers must file annual reports with the commission, and such other reports as may from time to time be required. Various other powers are conferred upon the commission. Carriers failing to file and publish all rates and charges, as required by law are prohibited from engaging in interstate transportation, and penalties are provided for failure on the part of carriers or of shippers to observe the rates specified in the published tariffs.

The commission appoints a secretary and clerks, whose duties are not specifically defined by the act, and also appoints attorneys, examiners, and special agents.

By amendment of June 18, 1910 ("Mann-Elkins law"), telegraph, telephone and cable companies are made subject to the commission. The jurisdiction of the commission is increased as to through routes and joint rates, freight classification, switch connections, long and short hauls, filing or rejection of rate schedules, investigations on own motion, making reasonable rates, suspension of proposed rates, and other matters. An important section authorized the President to appoint a special commission to investigate issuance of railroad stocks and bonds.

The act of February 11, 1903, provides that suits in equity brought under the act to regulate commerce, wherein the United States is complainant, may be expedited and given precedence over other suits, and that appeals from the Circuit Court lie only to the Supreme Court. The act of February 19, 1903, commonly called the Elkins law, penalizes the offering, soliciting, or receiving of rebates, allows proceedings in the courts by injunction to restrain departures from published rates, and makes the Expediting act of February 11, 1903, include cases prosecuted under the direction of the Attorney-General in the name of the commission.

Under the act of August 7, 1888, all railroad and telegraph companies to which the United States have granted any subsidy in lands or bonds or loan of credit for the construction of either railroad or telegraph lines are required to file annual reports with the commission and such other reports as the commission may call for. The act also directs every such company to file with the commission copies of all contracts and agreements of every description existing between it and every other person or corporation whatsoever in reference to the ownership, possession, or operation of any telegraph lines over or upon the right of way, and to decide questions relating to the interchange of business between such Government-aided telegraph company and any connecting telegraph company. The act provides penalties for failure to perform and carry out within a reasonable time the order or orders of the commission.

The act of March 2, 1893, known as the "Safety Appliance act," provides that railroad cars used in interstate commerce must be equipped with automatic couplers and standard height of drawbars for freight cars, and have grab irons or hand holds in the ends and sides of each car. A further provision is that locomotive engines used in moving interstate traffic shall be fitted with a power driving-wheel brake and appliances for operating the train-brake system, and a sufficient number of cars in the train shall be equipped with power or train brakes. The act directs the commission to lodge with the proper District-Attorneys information of such violations as may come to its knowledge. The commission is authorized upon full hearing and for good cause to extend the period within which any common carrier shall comply with the provisions of the statute. The act of March 2, 1903, amended this act so as to make its provisions apply to Territories and the District of Columbia, and to all locomotives, cars, and other equipment of any railroad engaged in interstate traffic, except logging cars and cars used upon street railways, and also to power or train brakes used in railway operation.

By act of April 14, 1910, the safety appliance acts were supplemented so as to require railroads to equip their cars with sill steps, hand brakes, ladders, running boards and grab irons, and the commission was authorized to designate the number, dimensions, location and manner of application of appliances.

The act of Congress approved July 15, 1913, provides for mediation, conciliation, and arbitration in controversies between railroads and their employes in the following sections of the act: Section 2. That whenever a controversy concerning wages, hours of labor, or conditions of employment shall arise between an employer or employers and employes subject to this act interrupting or threatening to interrupt the business of said employer or employers to the serious detriment of the public interest, either party to such controversy may apply to the Board of Mediation and Conciliation created by this act and invoke its services for the purpose of bringing about an amicable adjustment of the controversy; and upon the request of either party the said board shall with all practicable expedition put itself in communication with the parties to such controversy and shall use its best efforts, by mediation and conciliation, to bring them to an agreement; and if such efforts to bring about an amicable adjustment through mediation and conciliation shall be unsuccessful, the said board shall at once endeavor to induce the parties to submit their controversy to arbitration in accordance with the provisions of this act.

In any case in which an interruption of traffic is imminent and fraught with serious detriment to the public interest, the Board of Mediation and Conciliation may, if in its judgment such action seems desirable, proffer its services to the respective parties to the controversy.

In any case in which a controversy arises over the meaning or the application of any agreement reached through mediation under the provisions of this act either party to the said agreement may apply to the Board of Mediation and Conciliation for an expression of opinion from such board as to the meaning or application of such agreement and the said board shall upon receipt of such request give its opinion soon as may be practicable.

Sec. 3. That whenever a controversy shall arise between an employer or employers and employé's subject to this act, which cannot be settled through mediation and conciliation in the manner provided in the preceding section, such controversy may be submitted to the arbitration of a board of six, or, if the parties to the controversy prefer so to stipulate, to a board of three persons, which board shall be chosen in the following manner: In the case of a board of three, the employer or employers and the employé's, parties respectively to the agreement to arbitrate, shall each name one arbitrator; and the two arbitrators thus chosen shall select the third arbitrator; but in the event of their failure to name the third arbitrator within five days after their first meeting, such third arbitrator shall be named by the Board of Mediation and Conciliation. In the case of a board of six, the employer or employers and the employé's, parties respectively to the agreement to arbitrate, shall each name two arbitrators, and the four arbitrators thus chosen shall, by a majority vote, select the remaining two arbitrators; but in the event of their failure to name the two arbitrators within fifteen days after their first meeting the said two arbitrators, or as many of them as have not been named, shall be named by the Board of Mediation and Conciliation.

In the event that the employé's engaged in any given controversy are not members of a labor organization, such employé's may select a committee which shall have the right to name the arbitrator, or the arbitrators, who are to be named by the employé's as provided above in this section.

* * *

The act of March 3, 1901, "requiring common carriers engaged in interstate commerce to make reports of all accidents to the Interstate Commerce Commission," makes it the duty of such carrier to monthly report, under oath, all collisions and derailments of its trains and accidents to its passengers, and to its employé's while on duty in its service, and to state the nature and causes thereof. The act prescribes that a fine shall be imposed against any such carrier failing to make the report so required.

By act of May 6, 1910, the prior Accident Reports law was repealed and a new statute passed giving more power to the commission as to investigating accidents, and is more comprehensive than the former law.

The act of March 4, 1907, makes it the duty of the Interstate Commerce Commission to enforce the provisions of the act wherein it is made unlawful to require or permit employé's engaged in, or connected with, the movement of trains to be on duty more than a specified number of hours in any twenty-four.

The act of May 30, 1908, directs the Interstate Commerce Commission to make regulations for the safe transportation of explosives by common carriers engaged in interstate commerce. A penalty is provided for violations of such regulations.

By act of May 30, 1908, it is made the duty of the Interstate Commerce Commission to enforce the provisions of the act wherein it is provided that after a certain date no locomotive shall be used in moving interstate or foreign traffic, etc., not equipped with an ash pan which can be emptied without requiring a man to go under such locomotive. A penalty is provided for violation of this act.

Public resolution No. 46, approved June 30, 1906, and the sundry civil appropriation act of May 27, 1908, direct the commission to investigate and report on the use and need of appliances intended to promote the safety of railway operation.

The act of February 17, 1911, confers jurisdiction upon the commission to enforce certain provisions, compelling railroad companies to equip their locomotives with safe and suitable boilers and appurtenances thereto.

The Panama Canal act of August 24, 1912, amends sections 5 and 6 of the act to regulate commerce by conferring upon the commission jurisdiction to enforce a provision prohibiting a railroad company subject to the act, after July 1, 1914, from owning, leasing, operating, controlling or having any interest in competing water carriers operating through the Panama Canal or elsewhere. Jurisdiction is conferred upon the commission to determine questions of fact as to competition, after full hearing, on the application of any railroad company or other carrier, and to extend beyond July 1, 1914, the time during which such ownership or operation of vessels plying elsewhere than through the Panama Canal may continue, when it is found to be in the interest of the public and is of advantage to the convenience and commerce of the people, and not in restraint of competition. This amendment gives the commission power to establish physical connection between the lines of a rail carrier and the dock of a water carrier; authorizes the commission to establish through routes and joint rates over rail and water lines, and to determine all the terms and conditions under which such rail and water routes shall be operated; authorizes the commission to establish maximum proportional rates by rail to and from ports to which traffic is brought by water carriers; authorizes the commission, where a rail carrier has entered into arrangements with a water carrier operating from a port in the United States to a foreign country, for the handling of through business, to require the railway company to enter into similar arrangements with other water lines.

The Post-Office Appropriation act of August 24, 1912, empowers the commission to co-operate with the Postmaster-General in reforming, from time to time, the classification, weight limit, rates, zones, or conditions, in order to promote the parcel post service created by the act, and requires the commission to furnish data to a Congressional committee appointed to investigate the subject of a general parcel post.

By the act approved March 1, 1913, amending the act to regulate commerce, the commission is directed to investigate, ascertain, and report the value of all the property owned or used by every common carrier subject to the provisions of the act.

NATIONAL ASSOCIATION OF RAILWAY COMMISSIONERS.

President—Laurence B. Flinn, Franklin, Ky. *First Vice-President*—Clifford Thorne, Des Moines, Ia. *Second Vice-President*—Robert R. Prentiss, Richmond, Va. *Secretary*—William H. Connolly, Washington, D. C. *Assistant Secretary*—William Kilpatrick, Springfield, Ill.

REGULATION OF RAILROAD RATES.

The following statement explains important provisions of the "Act to Regulate Commerce," as amended by the acts of June 29, 1906, and June 18, 1910:

The act to regulate commerce requires all rates to be reasonable and just; prohibits preferential rates for transportation service performed under like circumstances and conditions; prohibits undue or unreasonable preferences or advantages in rates or facilities and the charging of a higher rate for a shorter than for a longer haul, over the same line, in the same direction, the shorter being included within the longer haul. It is provided, however, that the commission may, in special cases, after investigation, authorize carriers to charge less for longer than for shorter distances. The commission is authorized to require carriers to establish through routes and joint rates. The commission is also authorized to require carriers subject to the act to construct switch connections with lateral branch lines of railroads and private sidetracks. The act provides that where two or more through routes and through rates shall have been established shippers shall have the right to designate in writing via which of such through routes the property shall be transported to destination.

The commission has jurisdiction, upon complaint or in a proceeding instituted upon its own initiative, and after full hearing, to determine, and prescribe reasonable rates, regulations, and practices; to award reparation to injured shippers and to require carriers to cease and desist from unjust discrimination or undue or unreasonable preferences.

The commission has authority to suspend tariffs naming new rates or regulations, pending investigation of the reasonableness of the proposed new rate or regulation. This suspension may be made either upon the commission's own motion or upon complaint, prior to the effective date of the new tariff or schedule.

FILING OF SCHEDULES OF RATES.

Every common carrier subject to the provisions of this act shall file with the commission created by this act and print and keep open to public inspection schedules showing all the rates, fares, and charges for transportation between different points on its own route and between points on its own route and points on the route of any other carrier by railroad, by pipe line, or by water when a through route and joint rate have been established. If no joint rate over the through route has been established, the several carriers in such through route shall file, print, and keep open to public inspection, as aforesaid, the separately established rates, fares and charges applied to the through transportation. The schedules printed as aforesaid by any such common carrier shall plainly state the places between which property and passengers will be carried, and shall contain the classification of freight in force, and shall also state separately all terminal charges, storage charges, icing charges, and all other charges which the commission may require, all privileges or facilities granted or allowed and any rules or regulations which in anywise change, affect, or determine any part of the aggregate of such aforesaid rates, fares, and charges, or the value of the service rendered to the passenger, shipper, or consignee. The commission may suspend new rates or regulations before they become effective for a period not exceeding ten months, pending investigation.

DISCRIMINATION FORBIDDEN.

No carrier, unless otherwise provided by this act, shall engage or participate in the transportation of passengers or property, as defined in this act, unless the rates, fares, and charges upon which the same are transported by said carrier have been filed and published in accordance with the provisions of this act; nor shall any carrier charge or demand or collect or receive a greater or less or different compensation for such transportation of passengers or property, or for any service in connection therewith, between the points named in such tariffs than the rates, fares, and charges which are specified in the tariff filed and in effect at the time; nor shall any carrier refund or remit in any manner or by any device any portion of the rates, fares, and charges so specified, nor extend to any shipper or person any privileges or facilities in the transportation of passengers or property, except such as are specified in such tariffs.

REBATES.

The wilful failure upon the part of any carrier subject to said acts to file and publish the tariffs or rates and charges as required by said acts, or strictly to observe such tariffs until changed according to law, shall be a misdemeanor, and upon conviction thereof the corporation offending shall be subject to a fine of not less than one thousand dollars nor more than twenty thousand dollars for each offence and it shall be unlawful for any person, persons, or corporation to offer, grant, or give, or to solicit, accept or receive any rebate, concession, or discrimination in respect to the transportation of any property in interstate or foreign commerce by any common carrier subject to said act to regulate commerce and the acts amendatory thereof whereby any such property shall by any device whatever be transported at a less rate than that named in the tariffs published and filed by such carrier, as is required by said act to regulate commerce and the acts amendatory thereof, or whereby any other advantage is given or discrimination is practised. Every person or corporation, whether carrier or shipper, who shall, knowingly, offer, grant, or give, or solicit, accept, or receive any such rebates, concession, or discrimination shall be deemed guilty of a misdemeanor, and on conviction thereof shall be punished by a fine of not less than one thousand dollars nor more than twenty thousand dollars: Provided, That any person, or any officer or director of any corporation subject to the provisions of this act, or the act to regulate commerce and the acts amendatory thereof, or any receiver, trustee, lessee, agent, or person acting for or employed by any such corporation, who shall be convicted as aforesaid, shall, in addition to the fine herein provided for, be liable to imprisonment in the penitentiary for a term of not exceeding two years, or both such fine and imprisonment, in the discretion of the court.

Any person, corporation, or company who shall deliver property for interstate transportation to any common carrier, subject to the provisions of this act, or for whom as consignor or consignee, any such carrier shall transport property from one State, Territory, or the District of Columbia to any other State, Territory, or the District of Columbia or foreign country, who shall knowingly by employe, agent, officer, or otherwise, directly or indirectly, by or through any means or device whatsoever, receive or accept from such common carrier any sum of money or any other valuable consideration as a rebate or offset against the regular charges for transportation of such property, as fixed by the schedules of rates provided for in this act, shall in addition to any penalty provided by this act forfeit to the United States, a sum of money three times the amount of any penalty provided or accepted, and three times the value of any other consideration so received or accepted, to be ascertained by the trial court; and the Attorney-General of the United States is authorized and directed, whenever he has reasonable grounds to believe that any such person, corporation, or company has knowingly received or accepted from any such common carrier any sum of money or other valuable consideration as a rebate or offset as aforesaid, to institute in any court of the United States of competent jurisdiction, a civil action to collect the said sum or sums so forfeited as aforesaid; and in the trial of said action all such rebates or other considerations so received or accepted for a period of six years prior to the commencement of the action may be included therein, and the amount recovered shall be three times the total amount of money, or three times the total value of such consideration, so received or accepted, or both, as the case may be.

SWITCH CONNECTIONS.

Any common carrier subject to the provisions of this act, upon application of any lateral, branch line of railroad, or of any shipper tendering interstate traffic for transportation, shall construct, maintain, and operate upon reasonable terms a switch connection with any such lateral, branch line of railroad, or private side track which may be constructed to connect with its railroad, where such connection is reasonably practicable and can be put in with safety and will furnish sufficient business to justify the construction and maintenance of the same; and shall furnish cars for the movement of such traffic to the best of its ability, without discrimination in favor of or against any such shipper.

LONG AND SHORT HAUL CLAUSE.

That it shall be unlawful for any common carrier subject to the provisions of this act to charge or receive any greater compensation in the aggregate for the transportation of passengers, or of like kind of property, for a shorter than for a longer distance over the same line or route in the same direction, the shorter being included within the longer distance, or to charge any greater compensation as a through route than the aggregate of the intermediate rates subject to the provisions of this act; but this shall not be construed as authorizing any common carrier within the terms of this act to charge or receive as great compensation for a shorter as for a longer distance: Provided, however, That upon application to the Interstate Commerce Commission such common carrier may in special cases, after investigation, be authorized by the commission to charge less for longer than for shorter distances for the transportation of passengers or property; and the commission may from time to time prescribe the extent to which such designated common carrier may be relieved from the operation of this section: Provided, further, That no rates or charges lawfully existing at the time of the passage of this amendatory act shall be required to be changed by reason of the provisions of this section prior to the expiration of six months after the passage of this act, nor in any case where application shall have been filed before the commission, in accordance with the provisions of this section, until a determination of such application by the commission.

Whenever a carrier by railroad shall in competition with a water route or routes reduce the rates on the carriage of any species of freight to or from competitive points, it shall not be permitted to increase such rates unless after hearing by the Interstate Commerce Commission it shall be found that such proposed increase rests upon changed conditions other than the elimination of water competition.

HEARING OF COMPLAINTS.

Whenever, after full hearing upon a complaint made as provided in section thirteen of this act, or after full hearing under an order for investigation and hearing made by the commission on its own initiative (either in extension of any pending complaint or without any complaint whatever), the commission shall be of opinion that any individual or joint rates or charges whatsoever demanded, charged, or collected by any common carrier or carriers subject to the provisions of this act for the transportation of persons or property or for the transmission of messages by telegraph or telephone as defined in the first section of this act, or that any individual or joint classifications, regulations or practices whatsoever of such carrier or carriers subject to the provisions of this act are unjust or unreasonable or unjustly discriminatory, or unduly preferential or prejudicial or otherwise in violation of any of the provisions of this act, the commission is hereby authorized and empowered to determine and prescribe what will be the just and reasonable individual or joint rate or rates, charge or charges, to be thereafter observed in such case as the maximum to be charged, and what individual or joint classification, regulation, or practice is just, fair and reasonable, and to be thereafter followed, and to make an order that the carrier or carriers shall cease and desist from such violation to the extent to which the commission finds the same to exist, and shall not thereafter publish, demand, or collect any rate or charge for such transportation or transmission in excess of the maximum rate or charge so prescribed, and shall adopt the classification and shall conform to and observe the regulation or practice so prescribed. Burden of proof to show reasonableness of increased rates is on carrier.

ESTABLISHMENT OF THROUGH ROUTES AND JOINT RATES.

The commission may also, after hearing, on a complaint or upon its own initiative without complaint, establish through routes and joint classifications, and may establish joint rates as the maximum to be charged and may prescribe the division of such rates as hereinbefore provided and the terms and conditions under which such through rates shall be operated, whenever the carriers themselves shall have refused or neglected to establish voluntarily such through routes or joint classifications or joint rates; and this provision shall apply when one of the connecting carriers is a water line. The commission shall not, however, establish any through route, classification or rate between street electric passenger railways not engaged in the general business of transporting freight in addition to their passenger and express business and railroads of a different character, nor shall the commission have the right to establish any route, classification, rate, fare, or charge when the transportation is wholly by water.

RIGHT OF SHIPPERS TO DESIGNATE ROUTING OF SHIPMENTS.

In all cases where at the time of delivery of property to any railroad corporation being a common carrier, for transportation subject to the provisions of this act to any point of destination, between which and the point of such delivery for shipment two or more through routes and through rates shall have been established as in this act provided to which through routes and through rates such carrier is a party, the person, firm, or corporation making such shipment, subject to such reasonable exceptions and regulations as the Interstate Commerce Commission shall from time to time prescribe, shall have the right to designate in writing by which of such through routes such property shall be transported to destination, and it shall thereupon be the duty of the initial carrier to route said property and issue a through bill of lading therefor as so directed, and to transport said property over its own line or lines and deliver the same to a connecting line or lines according to such through route, and it shall be the duty of each of said connecting carriers to receive said property and transport it over the said line or lines and deliver the same to the next succeeding carrier or consignee according to the routing instructions in said bill of lading: Provided, however, That the shipper shall in all instances have the right to determine, where competing lines of railroads constitute portions of a through line or route, over which of said competing lines so constituting a portion of said through line or route his freight shall be transported.

COMMODITIES CLAUSE.

From and after May 1, 1908, it shall be unlawful for any railroad company to transport from any State, Territory, or the District of Columbia, to any other State, Territory, or the District of Columbia, or to any foreign country, any article or commodity, other than timber and the manufactured products thereof, manufactured, mined, or produced by it, or under its authority, or which it may own in whole or in part, or in which it may have any interest, direct or indirect, except such articles or commodities as may be necessary and intended for its use in the conduct of its business as a common carrier.

INTERSTATE COMMERCE COMMISSION.

WASHINGTON, D. C.

James S. Harlan, of Illinois, Chairman; Judson C. Clements, of Georgia; Henry C. Hall, of Colorado; Edgar E. Clark, of Iowa; Charles C. McChord, of Kentucky; Balthasar H. Meyer, of Wisconsin; Winthrop M. Daniels, of New Jersey; George B. McGinty, Secretary.

STATE RAILROAD COMMISSIONERS.

Alabama Railroad Commission—Montgomery. Chas. Henderson, President; Leon McCord, Frank N. Julian; S. P. Kennedy, Secretary.

Alaska Railroad Commission—William C. Eades, Chairman; Frederick Mears, Thomas Riggs, Jr.

Arizona Corporation Commission—Phoenix. W. P. Geary, Chairman; A. W. Cole, F. A. Jones; Frank DeSouza, Secretary.

Railroad Commission of Arkansas—Little Rock. W. F. McKnight, Chairman; George T. Breckenridge, J. S. Rowland; Ernest Tipton, Secretary.

Railroad Commission of California—San Francisco. John M. Eshleman, President; H. D. Loveland, Alexander Gordon, Max Thelen, E. O. Edgerton; Chas. R. Detrick, Secretary.

Public Utilities Commission of Colorado—Denver. A. P. Anderson, Chairman; Sheridan S. Kendall, George T. Bradley; John W. Flintham, Secretary.

Connecticut Public Utilities Commission—Hartford. Richard T. Higgins, Chairman; T. B. Ford, John H. Hale; Henry F. Billings, Secretary.

Public Utilities Commission of the District of Columbia—Washington, D. C. Lieut.-Col. Chester Harding, Chairman; Frederick L. Siddons, Oliver P. Newman; Capt. Julian L. Sholey, Executive Officer.

Railroad Commissioners for the State of Florida—Tallahassee. R. Hudson Burr, Chairman; N. A. Blich, Royal C. Dunn; J. Will Yon, Secretary.

Railroad Commission of Georgia—Atlanta. C. M. Candler, Chairman; George Hillery, Paul B. Trammell, J. A. Perry, Joseph F. Gray; Campbell Wallace, Secretary.

Idaho Public Utilities Commission—Boise. J. A. Blomquist, President; Axel P. Hamstedt, D. W. Standrod; E. G. Gallet, Secretary.

Public Utilities Commission of Illinois—Springfield. James E. Quain, Chairman; O. P. Thompson, Richard Yates, Frank H. Funk, Walter A. Shaw; R. V. Prather, Acting Secretary.

Public Service Commission of Indiana—Indianapolis. Thos. C. Duncan, Chairman; John F. McClure, Jas. L. Clark, Charles A. Edwards, Chas. J. Murphy; J. L. Reiley, Secretary.

Iowa Board of Railroad Commissioners—Des Moines. C. Thorne, Chairman; N. S. Ketchum, David J. Palmer; Geo. L. McCaughan, Secretary.

Kansas Public Utilities Commission—Topeka. C. F. Foley, Chairman; James A. Cable, John M. Kinkel; W. P. Feder, Secretary.

Kentucky Railroad Commission—Frankfort. Laurence B. Finn, Chairman; Wm. F. Clair, H. G. Garrett; Richard Tobin, Secretary.

Railroad Commission of Louisiana—Baton Rouge. Shelby Taylor, Chairman; John T. Michel, Burk A. Bridges; Henry Jastremski, Secretary.

Railroad Commission of Maine—Augusta. Elmer P. Spofford, Chairman; John A. Jones, Frank Keizer; Geo. F. Giddings, Clerk.

Maryland Public Service Commission—Baltimore. Albert G. Towers, Chairman; W. L. Henry, E. Clay Timanus; B. T. Fendall, Secretary.

Massachusetts Public Service Commission—Boston. Frederick J. Macleod, Chairman; Clinton White, George W. Anderson, Everett E. Stone, John F. Meaney; Andrew A. Highlands, Secretary.

Michigan Railroad Commission—Lansing. Lawton T. Hemans, Chairman; C. S. Cunningham, C. L. Glasgow; Willard N. Sweeney, Secretary.

Minnesota Railroad and Warehouse Commission—St. Paul. Ira B. Mills, Chairman; C. E. Klmquist, O. P. B. Jacobson; A. C. Clausen, Secretary.

Mississippi Railroad Commission—Jackson. F. M. Sheppard, President; Geo. R. Edwards, W. B. Wilson; James Galceran, Secretary.

Missouri Public Service Commission—Jefferson City. John M. Atkinson, Chairman; F. A. Wightman, Wm. F. Woerner, John Kinnish, Howard B. Shaw; T. M. Bradbury, Secretary.

Railroad Commission of Montana—Helena. D. Boyle, Chairman; J. H. Hall, E. A. Morley; R. F. McLaren, Secretary.

Nebraska State Railway Commission—Lincoln. H. T. Clarke, Chairman; H. G. Taylor, Thos. L. Hall; A. B. Allen, Secretary.

Nevada Public Service Commission—Carson City. H. F. Bartine, Chairman; W. H. Simmons, J. F. Shaughnessy; E. H. Walker, Secretary.

New Hampshire Public Service Commission—Concord. Edward C. Niles, Chairman; Thos. W. D. Worthen; John E. Benton, Clerk.

Board of Public Utility Commissioners for the State of New Jersey—Trenton. Ralph W. E. Donges, President; Thos. J. Hillery, John J. Treacy; A. N. Barber, Secretary.

State Corporation Commission of New Mexico—Santa Fé. M. S. Groves, Chairman; Hugh H. Williams, O. L. Owen; Edwin F. Coard, Clerk.

New York Public Service Commission—First District (Greater New York)—New York City. Edw'd E. McCall, Chairman; Geo. V. S. Williams, J. Sergeant Cram, Milo R. Maltbie, Robert C. Wood; T. H. Whitney, Secretary. Second District (All of State outside Greater New York)—Albany. N. Y. Seymour Van Santvoord, Chairman; William T. Enmet, Frank Irvine, Martin S. Decker, D. P. Hodson; Frank H. Mot, Secretary.

North Carolina Corporation Commission—Raleigh. Edward L. Travis, Chairman; Geo. P. Pell, Wm. T. Lee; A. J. Maxwell, Clerk.

North Dakota Commissioners of Railroads—Bismarck. W. H. Stutsman, President; O. P. N. Anderson, W. H. Mann; Walter F. Cushing, Secretary.

Public Utilities Commission of Ohio—Columbus. O. H. Hughes, Chairman; Edward W. Doty, C. C. Marshall; C. A. Radcliffe, Secretary.

Corporation Commission of Oklahoma—Oklahoma City. J. E. Love, Chairman; A. P. Watson, Geo. A. Henshaw; J. H. Hyde, Secretary.

Railroad Commission of Oregon—Salem. Frank J. Miller, Chairman; Thos. K. Campbell, Clyde B. Aitchison; H. H. Corey, Secretary.

Public Service Commission of the Commonwealth of Pennsylvania—Harrisburg. Samuel W. Pennypacker, Milton J. Brescht, S. LaRue Tone, Emory R. Johnson, Charles F. Wright, Frank M. Wallace; Archibald B. Millar, Secretary.

Public Utilities Commission, P. I.—Manila, Mariano Cui, Chairman; Stephen Bonsal, Clyde A. De Witt; Clifford C. Mitchell, Secretary.

Rhode Island Public Utilities Commission—Providence. Wm. C. Bliss, Chairman; Samuel E. Hindson, Robt. F. Rodman; John W. Rowe, Secretary.

South Carolina Railroad Commissioners—Columbia. John G. Richards, Jr., Chairman; B. L. Caughman, G. McD. Hampton; J. P. Darby, Secretary.

South Dakota Railroad Commission—Pierre. F. C. Robinson, Chairman; J. J. Murphy, W. G. Smith; T. E. Cassill, Secretary.

Tennessee Railroad Commission—Nashville. B. A. Enloe, Chairman; Frank Avent, H. H. Hannah; Miss Willie Fields, Secretary.

RAILROAD COMMISSIONS—Continued.

Railroad Commission of Texas—Austin. Allison Mayfield, Chairman; Earle B. Mayfield, W. D. Williams; E. R. McLean, Secretary.

Vermont Public Service Commission—Burlington. Robert C. Bacon, Chairman; Wm. R. Warner, Park H. Pollard; Neil D. Clausson, Clerk.

State Corporation Commission of Virginia—Richmond. Robert B. Prentiss, Chairman; William F. Rhea, J. R. Wingfield; R. T. Wilson, Clerk.

Public Service Commission of Washington—Olympia. Charles A. Reynolds, Chairman; Arthur A. Lewis, Frank R. Spinning; J. H. Brown, Secretary.

West Virginia Public Service Commission—Charleston. Lee Ott, Chairman; Howard N. Ogden, C. H. Bronson, W. C. Kilmer; R. B. Bernheim, Secretary.

Railroad Commission of Wisconsin—Mad-

ison. John H. Roemer, Chairman; David Harlowe, Halford Erickson; Lewis E. Gettle, Secretary.

Manitoba Public Utilities Commission—Winnipeg, Canada. H. A. Robson, Commissioner; A. W. Smith, Secretary.

New Brunswick Public Utilities Commission—St. John. N. B. Geo. O. Dickson, Chairman; A. B. Connell, Felix Michaud, Fred P. Robinson, Clerk, P. O. Box 647, Fredericton.

Nova Scotia Board of Commissioners of Public Utilities—Halifax. N. S. John U. Ross, Chairman; R. T. MacBreith, Vice-Chairman; Parker R. Colpitt; Laura B. Taylor, Secretary.

The Ontario Railway and Municipal Board—Toronto, Ont. D. M. McIntyre, Chairman; A. B. Ingram, Vice-Chairman; H. N. Kitchin, Commissioner; H. C. Small, Secretary.

Quebec Public Utilities Commission—Quebec, Canada. F. W. Hibbard, President; Sir George Garneau, F. C. Laberge; M. Jos. Ahern, Secretary.

RAILROAD STATISTICS.

(From Report of Interstate Commerce Commission for fiscal year ending June 30, 1913, and made from the annual reports of carriers having gross operating revenues of \$100,000 or more for the year.)

On June 30, 1913, the roads covered by this report represented 244,418.49 miles (single track) of line operated, including 11,162.97 miles used under trackage rights. The aggregate mileage of railway tracks of all kinds covered by these roads was 369,579.80 miles, an increase of 8,628.36 miles over corresponding returns for 1912.

Of the total number (63,378) of locomotives, 14,396 were classified as passenger, 37,924 freight, 9,834 switching, and 1,224 unclassified.

The total number of cars of all classes was 2,445,508 (or 76,566 more than on June 30, 1912), as follows: Passenger service, 51,700; freight, 2,278,564; companies' service, 120,244.

Investment in road and equipment—The figures include returns for investment in road and equipment, shown by the operating roads, as well as by their subsidiary non-operating roads (leased, operated under contract, etc.).

Investment to June 30, 1912, \$15,874,579,626; investment to June 30, 1913, \$16,351,639,266; increase 1913 over 1912, \$477,059,640.

Expenditures for additions and betterments and for new lines and extensions during fiscal year 1913, \$680,084,873.

Credits—Property retired or converted, \$79,495,571; adjustments, \$5,058,790; difference between record value of grantor and purchase price of grantee in case of roads sold, merged, consolidated, etc., \$118,470,872; total, \$203,025,233; net increase during year, \$477,059,640.

Passengers carried, 1,033,679,680; passenger mileage, 34,575,872,980; tons of freight moved, 2,058,035,487; ton mileage, 301,398,752,108.

Traffic earnings—Passengers, \$695,987,817; freight, \$2,198,930,565 and including revenue from miscellaneous sources, making total operating revenues \$3,125,135,798.

Operating expenses—Maintenance of way and structures, \$421,232,395; maintenance of equipment, \$511,561,363; traffic expenses, \$62,850,113; transportation expenses, \$1,046,252,745; general expenses, \$78,072,308; total operating expenses, \$2,169,968,924.

CAPITALIZATION OF RAILWAY PROPERTY.

On June 30, 1913, according to the annual reports submitted to the Interstate Commerce Commission by roads having gross operating revenues of \$100,000 or more, together with returns made in reports filed in behalf of their non-operating subsidiary lines, the par value of the amount of railway capital outstanding was \$19,796,125,712. This amount includes capital held by the railway companies concerned, as well as by the public. Of the total amount of such capital outstanding there existed as stock \$8,610,611,327, of which \$7,231,515,045 was common and \$1,379,096,282 was preferred; the remaining part, \$11,185,514,385, representing funded debt, consisted of mortgage bonds, \$8,186,366,426; collateral trust bonds, \$1,189,636,796; plain bonds, debentures, and notes, \$1,107,076,783; income bonds, \$250,200,655; miscellaneous funded obligations, \$82,858,275, and equipment trust obligations, \$369,285,450.

Of the total capital stock outstanding for the roads under consideration, \$2,836,023,744, or 32.94 per cent., paid no dividends. The amount of dividends declared during the year (by both operating and non-operating companies represented in this statement) was \$368,606,327, being equivalent to 6.38 per cent. on dividend-paying stock. The average rate of dividends paid on all stocks outstanding pertaining to the roads under consideration was 4.28 per cent. No interest was paid on \$1,128,776,745, or 10.44 per cent., of the total amount of funded debt outstanding (other than equipment trust obligations).

PASSENGER RAILWAY RATES IN EUROPE.

PASSENGER rates differ considerably in the different countries. Most of the railroads are owned and operated by the state, but in some countries there are both state and private roads, and in England the railroads are all private corporations. The following are approximate passenger rates, reduced to cents per mile, in the various European countries:

OWNERSHIP.	Class I.	Class II.	Class III.	OWNERSHIP.	Class I.	Class II.	Class III.
	Cents.	Cents.	Cents.		Cents.	Cents.	Cents.
Germany, (state).....	2.74	1.74	1.16	Netherlands, (state)...	3.30	2.48	1.66
Belgium, (state).....	2.92	1.98	1.17	" (private).....	3.32	2.50	1.68
France, (state).....	3.16	2.36	1.54	Italy, (state).....	3.60	2.52	1.62
" (private).....	3.43	2.34	1.54	United Kingdom, (priv.)	4.70	3.18	1.78

In Italy the rate per mile is higher than on any other state-owned road, though a differential tariff offers some advantages that tend to reduce the price and to make the long-distance journeys as cheap as in other countries.

Grand total.....	10,964	200,308	10,585	169,538	422	5,406	324	4,662

The yearly tables show for the year ended June 30, 1911, the total number of casualties 160,555 (10,396 killed and 150,159 injured). Of this number, 430 killed and 79,237 injured were railroad employés, on railroad premises, by accidents in which the movement of cars or engines is not involved; 5,234 persons were killed and 5,614 injured while trespassing on the property of the railroads, principally while walking on the tracks or stealing rides on trains.

The number of passengers carried during the year ended June 30, 1913, was 1,033,679,680; 1912, 994,158,591; 1911, 987,710,997. The passenger mileage or the number of passengers carried one mile in 1913 was 34,575,872,980; in 1912, 33,034,995,806.

PULLING POWER OF A CENTIPEDE LOCOMOTIVE.

The Erie Railroad conducted a test at Binghamton, N. Y., on July 24, 1914, of the pulling power of the new Centipede locomotive, which weighs 410 tons and has twenty-four driving wheels. The officials in charge kept adding car after car of coal to the train until it consisted of 250 fully loaded steel cars with a total weight of 21,000 tons. The locomotive pulled this train forty miles at the rate of fifteen miles an hour.

RAILWAY MILEAGE IN THE UNITED STATES.*

(From Statistical Report of the Interstate Commerce Commission for year ended June 30, 1912.)

Total mileage in each State as follows: Alabama 5,303, Alaska (see foot note), Arizona 2,156, Arkansas 5,271, California 8,105, Colorado 5,737, Connecticut 1,001, Delaware 334, District of Columbia 35, Florida 4,808, Georgia 7,250, Hawaii (see foot note), Idaho 2,556, Illinois 11,976, Indiana 7,444, Iowa 9,890, Kansas 9,137, Kentucky 3,609, Louisiana 5,686, Maine 2,252, Maryland 1,434, Massachusetts 2,114, Michigan 8,921, Minnesota, 8,986, Mississippi 4,425, Missouri 8,125, Montana 4,358, Nebraska 6,135, Nevada 2,336, New Hampshire 1,245, New Jersey 2,305, New Mexico 3,046, New York 8,500, North Carolina 5,172, North Dakota 4,509, Ohio 9,122, Oklahoma 6,160, Oregon 2,685, Pennsylvania 11,460, Rhode Island 203, South Carolina 3,553, South Dakota 4,206, Tennessee 3,978, Texas 15,322, Utah 2,029, Vermont 1,074, Virginia 4,601, Washington 5,178, West Virginia 3,795, Wisconsin 7,588, Wyoming 1,678.

Grand total mileage in U. S. in 1906, 224,363; in 1907, 229,951; in 1908, 233,467; in 1909, 236,834; in 1910, 240,293; in 1911, 243,979; in 1912, 246,816.

*Does not include mileage of switching and terminal companies. Mileage in Alaska, 462 miles; in Hawaii, 193 miles.

RAILWAYS OF AMERICA "GROUPED" BY CAPITALISTS.

The great railroad systems of the United States have been reduced to a few "groups" by means of consolidation and reconsolidation. The following is a list of these groups, which comprise three-quarters of all the railroad lines of the country:

GROUPS.	Mileage.	Stocks.	Bonds.
Vanderbilt †.....	26,110	\$628,327,000	\$763,419,200
Pennsylvania.....	21,312	779,510,000	576,300,000
Harriman.....	22,410	754,600,000	1,096,773,410
Hill.....	14,163	415,527,000	430,812,000
Morgan.....	13,987	573,613,000	544,987,000
Gould.....	22,181	539,310,000	821,604,000
Moore-Reid.....	29,143	372,110,000	489,104,000
Rockefeller's.....	17,939	257,847,000	318,212,000
Walters's.....	11,373	149,119,000	202,642,000
Emp Syndicate.....	12,980	344,698,000	523,370,000
Independent.....	*34,623	652,607,000	485,347,410
Total.....	226,221	\$5,467,268,000.	\$6,252,571,020

*In December, 1912, the U. S. Supreme Court held that ownership by the Oregon Short Line Railroad on behalf of the Union Pacific Railroad (controlled by the Harriman interests) of \$126,650,000 of Southern Pacific Co. stock was in violation of the Sherman Anti-Trust law act, and Oregon Short Line has disposed of its interest in the Southern Pacific, which system is now an independent line.

† October 1, 1914, companies old \$40,000,000 one-year notes to a syndicate headed by J. P. Morgan & Co.

OPERATIONS OF BRITISH RAILWAYS.

(Report of U. S. Vice-Consul-General, London.)

GOVERNMENT returns show that during 1913 the railways of the United Kingdom carried 1,228,316,000 passengers and 371,571,000 tons of freight. The passengers were divided into classes as follows: First, 26,025,000; second, 12,088,000; third, 933,498,000, and workmen, 256,705,000. The number of season-ticket holders is estimated to have been about 595,000.

The length of the lines, reduced to single track, was 55,438 miles. The gross receipts of the companies were \$677,674,724, of which \$277,044,978 was derived from passenger traffic, \$324,191,630 from freight traffic, and \$76,438,115 from other sources, mainly subsidiary businesses. The gross expenditure was \$424,563,193, of which \$383,494,799 was devoted to operating expenses, leaving a net income of \$253,111,531.

The gross revenue and trading profit of the minor businesses are a matter of much interest and they are also shown:

ITEMS.	Gross Revenue.	Trading Profit.	ITEMS.	Gross Revenue.	Trading Profit.

UNITED STATES STEAMBOAT INSPECTION SERVICE.

THE Steamboat Inspection Service, by act of Congress approved February 14, 1903, was transferred from the Treasury Department to the Department of Commerce. The transfer went into effect July 1, 1903. The Supervising Inspector-General of the Steamboat Inspection Service, George Uhler, reported to the Secretary of Commerce for the fiscal year ended June 30, 1914: Number of annual certificates of inspection issued to domestic steam, motor, sail vessels, and barges, 7,385; number of certificates issued to foreign steamers, 545; total number of annual certificates of inspection issued to domestic and foreign, 7,930. Decrease in number of certificates to domestic vessels from previous year, 130; increase in number of certificates to foreign vessels over previous year, 95; decrease in number of certificates of all kinds of vessels from previous year, 35. Gross tonnage of domestic vessels, all kinds, inspected, 5,596,504; gross tonnage of foreign steamers inspected, 4,374,006. Increase in gross tonnage of foreign steam vessels inspected over previous year, 946,692. Decrease in tonnage of all kinds domestic vessels inspected from previous year, 48,174. Number of officers' licenses issued, 18,871. Decrease in number of officers' licenses issued from previous year, 7,611. Number of new life-preservers inspected, 175,332, of which number 1,210 were rejected. Decrease in number of new life-preservers inspected from previous year, 58,351. Decrease in number of life-preservers rejected from previous year, 2,079. Number of marine boiler plates inspected at the mills by assistant inspectors, 3,159.

Explosions or accidental escape of steam.....	..	25	Miscellaneous.....	..	20
Snags, wrecks, and sinking.....	..	295	Total.....	232	582

Number of accidents resulting in loss of life, 232. Increase in number of lives lost from previous year, 146. (During the year 318,094,347 passengers were carried on vessels that are required by law to report the number of passengers carried. Dividing this number by 105, the total number of passengers lost, shows that 3,029,469 passengers were carried for each lost.)

CORPORATION PENSIONS IN THE UNITED STATES.

THE following table shows the estimated number of employes on the following roads now having pension systems in force. In general all the roads here shown base their pensions on a percentage of the employe's wages, multiplied by the number of years that he has been in service. For example, the rate on the Pennsylvania is 1 per cent. A man having worked 40 years received a pension equal to 40 per cent. of his average salary for the 10 years preceding retirement. Most companies include in their rules a reservation of the right to vary the rate of pensions if the total requirements of any one year shall demand more than a predetermined gross amount. All of the companies in counting time include years of service under other companies bought by or consolidated with the present one. Short breaks in the service not due to any fault of the employe, or due to a minor fault involving suspensions, are generally overlooked.

For year ending June 30, 1913, the following pensions were paid by the railroads named: Atchison, Topeka & Santa Fé, \$77,204; Baltimore & Ohio, \$212,645; Boston & Maine, \$93,087; New York Railways, \$7,472.

The U. S. Steel Corporation dedicated \$8,000,000 for a fund with which to pension superannuated and disabled employes. This fund has been consolidated with the \$4,000,000 fund created by Andrew Carnegie after he sold out his holdings in the Carnegie Steel Company to the U. S. Steel Corporation. The fund is known as "The United States Steel and Carnegie Pension Fund."

The Western Union Telegraph Company, on January 1, 1913, established a Plan for Employes' Pensions, Disability Benefits and Insurance, setting aside a fund of \$1,000,000 for the purpose. Pensions are classified according to age and length of service. The minimum pension is \$20 per month, except when otherwise directed. In cases of disability from sickness, full pay and half pay is allowed for various periods, depending upon length of service; provision is also made for disability resulting from accidents and for life insurance benefits, the amount of insurance depending upon length of service.

AMERICAN SOCIETY FOR JUDICIAL SETTLEMENT OF INTERNATIONAL DISPUTES.

The American Society for Judicial Settlement of International Disputes was formed in 1910 for the purpose of promoting the establishment of a judicial tribunal which would perform for the nations of the civilized world a similar service to that which is given by ordinary courts to individuals, and of encouraging recourse to such a tribunal after its establishment.

During this period annual conferences have been held, the printed proceedings of which have been a valuable acquisition to libraries and to all interested in the development of judicial settlement and of international law; men of distinguished ability and unquestioned influence contributed the papers, some of which have been voluntarily translated into French, German, Italian, and Spanish.

Quarterly pamphlets, each containing an appropriate monograph by some acknowledged authority on subjects tending to advance the purpose of the society, have been issued, not only to members, but to a carefully selected list of 30,000 names, including the leading law schools and universities throughout the world.

A copy of all publications is sent to the foreign office of every nation and to the heads of foreign legations in Washington.

There is a widespread and growing interest in the work of the society; hardly a day passes without requests, not only from America but from many parts of the world for copies of the pamphlets, which are always sent free of charge. The officers and Executive Committee are much gratified at the interest awakened by their efforts, but are obliged to issue an earnest appeal for contributing members in order to continue the work on the present scale.

The object of the founders of the society was to give it a large following, and so there were three classes of membership established (life, sustaining, and annual), with equal privileges, leaving each member to determine what he would give, and in order that it might be beyond the reach of none, the subscription for annual membership was fixed at one dollar. At the same time, in order to obtain a more adequate income, a sustaining membership at ten dollars a year was established.

President—Charles W. Elliot, Cambridge, Mass. Vice-President—Theodore Marburg, Secretary—James B. Scott, Washington, D. C. Assistant Secretary—Tunstall Smith, Baltimore, Md. Treasurer—J. G. Schmidlapp, Cincinnati, Ohio.

Life membership, \$100; sustaining membership, \$10 a year; annual membership, \$1 a year.

The fastest time on record for a distance of over 440 miles was made by the Lake Shore and Michigan Southern R.R. from Buffalo to Chicago, in June, 1905, noted above. The fastest long-distance run less than 440 miles was on the New York Central R.R. September 11, 1895, from New York to Buffalo, 436 1-2 miles, in 407 minutes actual time. Average speed, 64 1-3 miles an hour, with two stops and 28 slow-ups, and on January 1, 1903, from Albany to Buffalo, 302 miles, in 295 minutes.

Among the fastest regular trains in the United States, for a shorter distance, are believed to be the New York Central "Empire State Express," between New York and Albany, 143 miles in 175 minutes, and the "Congressional Limited," on the Pennsylvania Railroad, which makes the run from Jersey City to Washington in 4 hours 46 minutes, a distance of 227 miles. The "Pennsylvania Special" over P. R. R. which runs from Jersey City to North Philadelphia, 84 miles in 83 minutes; from Jersey City to Harrisburg, Pa., 194 miles in 196 minutes. The Royal Blue Line from New York to Philadelphia (Heading Terminal) 91.1 miles in 1 hour, 50 minutes. On November 25, 1913, a special train, consisting of a locomotive and two cars, ran from Washington, D. C., to Jersey City, 277 miles, in four hours, the fastest trip ever made between the two cities.

On August 15, 1893, on P. & H. and C. R. of N. J., "Royal Blue Line," between Elizabeth, N. J., and Jenkintown, a distance of 89 miles, in 51 minutes, including 2 slow-ups, some of the miles being traversed in 38 seconds.

Other notable long-distance fast runs: February 14-15, 1897—Pennsylvania Railroad and C. & B. and Q. Jersey City to Denver, 1,937 miles, in 48 hours; average speed, 40.3 miles per hour. August 29-31, 1891—Canadian Pacific, Vancouver to Brockville, 2,902 miles, in 77 hours 9 minutes; average speed, 36.32 miles per hour.

The Jarrett and Palmer special theatrical train, Jersey City to Oakland (San Francisco), 3,311 miles, June, 1876, 83 hours 45 minutes; average speed, 39.53 miles per hour.

In October, 1905, the "Harriman Special" made the run from Oakland to Jersey City (3,239 miles), in 73 hours, 12 minutes, or 44.30 miles per hour. In May, 1906, the "Harriman Special" made the run from Oakland, Cal., to New York City in 71 hours 27 minutes.

The "Scott Special" left Los Angeles, Cal., July 9, 1905, and arrived in Chicago (2,445.5 miles), July 11, having made the run in 44 hours 54 minutes, maintaining an average speed while in motion of 51 miles an hour.

On November 15, 1907, at Clayton, N. J., in a trial test on Pennsylvania R. R. between steam and electric locomotives, the steam engine made 93.6 miles an hour on a specially built seven mile curved track, while the electric locomotive made but 90 miles an hour.

A special train of an engine and two cars, which was run in January, 1911, to carry J. P. Morgan from Washington to New York over the Pennsylvania Railroad, made the trip of 226.3 miles in 8 hours, 55 minutes and 30 seconds, or at the rate of 57.8 miles an hour. The speed over the New York division, West Philadelphia to New York, 90.5 miles, averaged 67 miles an hour.

In February, 1911, the "Gates Special," from Yuma, Ariz., to New York, 2,737 miles, made the run in 74 hours 19 minutes, or an average of 40.41 miles per hour, including stops. From Albany to New York the trip, 143 miles, was made in 143 minutes.

A remarkable record was made in the run of a silk train between Seattle and New York in October, 1911. The distance is 3,178 miles, and the time made 82 1/4 hours. The average speed all the way across the continent, including stops and a delay of more than two hours in switching at Chicago, was 38 1/4 miles per hour.

SOME FOREIGN RAILWAY RUNS.

The Northern Railway runs a day express from Berlin to Paris, which covers the distance from Paris to St. Quentin (96 1/4 miles) in 93 minutes. The Eastern Railway Company has an afternoon express from Paris to Basel, which runs the first 104 3/4 miles in 107 minutes. The fastest train in Germany is the so-called "D-Zug 30" between Berlin and Hamburg, which maintains an average speed of 55.177 miles per hour. (U. S. Consular Report.)

RAILROAD EQUIPMENT.

* This is the largest and most powerful locomotive ever built and is the so-called Triplex Compound, which was built by the Baldwin Locomotive Works for the Erie Railroad and was completed in April, 1914. This is a new type of articulated locomotive and goes beyond the Mallet articulated type by the addition of another pair of cylinders and another group of driving wheels, making three complete engines in one locomotive unit. Each engine has four driving wheels on each side, the complete locomotive, therefore, having twelve driving wheels on each side, eight of which are under the locomotive itself and four under the tender. This Triplex locomotive has 89 per cent. of the total weight of the engine and tender on drivers. The large Mallet locomotives have but about 65 per cent. of the total weight on drivers. This locomotive is used for pusher service on the eight-mile grade of the Erie east of Susquehanna, Pa. This is a grade of 56 feet to a mile and the new locomotive handles the same weight of train up this grade that was formerly handled by two Consolidation and one Mallet engines.

† This is the largest non-articulated locomotive ever built.

‡ One of the most powerful passenger locomotives recently built is the Mountain type locomotive built in 1913 for the Missouri Pacific. This Mountain type locomotive replaced a Pacific type locomotive, which was frequently aided by a pusher. The new locomotive can take a passenger train weighing 820 tons (from 12 to 14 cars) up a grade of more than 100 feet to the mile. This is from 50 to 75 per cent. a heavier train than it was possible to haul with the type of locomotive which was replaced.

§ These are now considered the standard locomotives for heavy freight and passenger service under ordinary conditions. The Mikado is replacing the old Consolidation locomotive in freight service. The Pacific type is for heavy fast passenger business.

¶ This is the largest passenger locomotive in Europe.

(a) Tractive Effort.—This is the effort exerted by a locomotive in turning its wheels by the action of the steam against the pistons which, through the media of the crossheads, rods, etc., causes them to revolve and the locomotive to move along the rails. The drawbar pull which a locomotive actually exerts at any given time depends upon its speed upon grades and other things. The formula for a simple locomotive for the tractive effort is

$$T = \frac{0.85 P \times C^2 \times S}{D}$$

where T=tractive effort in pounds, P=boiler pressure in pounds per square inch, C=diameter of cylinders in inches, S=stroke of piston in inches, D=diameter of driving wheels in inches.

HEAVY ELECTRIC LOCOMOTIVES.

PANAMA.

The Republic of Panama has a total area of 32,380 square miles with a population of 419,029 people, and is over five hundred miles in length and varies from thirty-seven to one hundred and ten miles in width. It lies between Costa Rica and Colombia, with the Caribbean Sea on the north and Pacific Ocean on the south. The Panama Canal Zone runs across this republic. Panama has a single republican form of government with the regular division into legislative, executive and judicial branches. There are seven provinces: Bocas del Toro, Chiriqui, Veraguas, Colon, Los Santos, Cocolé, and Panama as political subdivisions. The capital city is Panama. Panama has no navy and no army, but has a National police corps of one thousand men. A steam launch serves the purpose of a revenue cutter. The commerce of 1913 was as follows: Imports, \$10,400,000; exports, \$2,467,556. Panama has two hundred and two miles of railroads in operation, ninety-six post-offices, and thirty-seven telegraph offices. A contract has been let for a wireless station at Colon. There are excellent educational advantages in the republic. In 1912 there were 364 schools having an attendance of 14,511 pupils.

NATIONAL RIVERS AND HARBORS CONGRESS.

THE objects of this Congress shall be collection, preparation and presentation to the Congress of the United States such statistics and other information bearing upon the question of the improvement of the rivers and harbors of all the Nation as will secure for such purpose an annual appropriation by the said Congress of not less than fifty million dollars. To educate the people to the importance of the fact that the National Government, having assumed the control and improvement of the rivers and harbors of the country, is unequivocally bound to discharge these obligations promptly and by sound business methods, chief among which is the placing of annual appropriations for rivers and harbors on a parity with other great appropriation bills.

The membership of this Congress shall consist of commercial, manufacturing and kindred organizations, waterway improvement associations, corporations, companies, and individual citizens engaged or interested in commercial or industrial enterprises, who may subscribe to this Constitution and contribute to the support and prosecution of the objects of the Congress. President—Hon. Joseph E. Ransdell, Lake Providence, La. Secretary—S. A. Thompson, Washington, D. C.

a Includes 63 governments of European and 25 of Asiatic Russia. b Actual production unknown. c Clean rice. d Domestic exports; no data on production. e Production in 1912. f Corrected figures from the "Gordian" of July 9, 1914. g Unofficial estimate. h Production unknown; exports of raw silk, including wild, from China during 1913, 19,867,467 lbs.; exports of waste silk, 15,516,267 lbs. i Shipments from the Straits. j Commercial value.

THE TWELVE GREATEST SEAPORTS.

The following table, prepared by the Bureau of Foreign and Domestic Commerce, Department of Commerce, shows the relative rank in tonnage movement of the principal ports of the world. Figures of coastwise trade are not included:

Port.	Year.	Entered. Tons.	Cleared. Tons.	Port.	Year.	Entered. Tons.	Cleared. Tons.
New York a.....	1914	15,767,547	15,421,394	Shanghai d.....	1912	9,186,340	9,456,463
Antwerp b.....	1912	13,686,297	13,665,346	Marseilles.....	1912	7,986,609	8,076,767
London.....	1912	10,800,716	8,748,008	Liverpool.....	1912	7,253,016	7,446,873
Hamburg.....	1913	12,996,908	13,491,764	Singapore e.....	1912	8,223,272	8,220,974
Rotterdam.....	1912	11,552,119	11,532,158	Colombo f.....	1912	7,348,900	7,347,144
Hongkong-Victoria c.....	1912	10,805,536	10,809,459	Cardiff.....	1912	6,236,944	9,168,115

a Fiscal year. b The figures for Antwerp are not strictly comparable with those for other ports as the Belgian methods of tonnage measurement differ from those adopted by other nations. c Exclusive of Chinese junks engaged in the foreign trade, and of steamers under 60 tons. d Tonnage of vessels entered and cleared at the Maritime Customs. e Exclusive of native craft, warships, transports, yachts, and sailing and steam vessels under 50 tons, but including vessels engaged in trade between the Settlements. f Excluding the tonnage of vessels that called for the purpose of coaling and for orders only.

IMPORTS AND EXPORTS OF PRINCIPAL COUNTRIES.

(Compiled by the Bureau of Foreign and Domestic Commerce, Department of Commerce from the official records of the various countries.)

(Years ending December 31, unless stated otherwise; imports for consumption and exports of domestic merchandise, gold and silver bullion and coin not included, unless stated otherwise.)

Grain embraces wheat flour reduced to equivalent in wheat, corn, rye, oats, barley, malt and peas. Receipts at New York, Portland, Boston, Philadelphia and Baltimore include shipments from the West to foreign countries through these ports on through bills of lading. Receipts at Portland via Montreal are duplications of receipts reported at Montreal. Receipts at Baltimore include flour ground by city millers, and therefore duplicate an equivalent quantity of wheat received in grain.

FEDERAL RESERVE BOARD.

THE new banking and currency law, known as Federal Reserve act, was passed Dec. 23, 1913. Under the system known as the National banking system, which was inaugurated at the latter end of the civil war, the National banknote currency was based upon Government bonds deposited in the Treasury, and the currency thus issued has been classed by economists as bond-secured currency. This plan was evolved not only to nationalize and unify the currency, which had therefore consisted of notes issued by State banks, but as well to create a market for United States bonds, and in this way to sustain their value. It was entirely successful for the latter purpose, but has outworn its usefulness as a banking system because of its entire want of elasticity.

The Federal Reserve act is the result of a long discussion by statesmen, financiers, economists and bankers, and is a constructive measure based upon and growing out of many bills which have been introduced within the past twenty years. Under it twelve cities, known as Federal Reserve cities, are established, and the (continental) United States is divided into twelve geographical districts, each district containing one of the reserve cities. The twelve districts and their respective reserve cities are as follows:

Dist. No. 1.. Boston, Mass.	Dist. No. 5.. Richmond, Va.	Dist. No. 9.. Minneapolis, Minn.
Dist. No. 2.. New York, N. Y.	Dist. No. 6.. Atlanta, Ga.	Dist. No. 10.. Kansas City, Mo.
Dist. No. 3.. Philadelphia, Pa.	Dist. No. 7.. Chicago, Ill.	Dist. No. 11.. Dallas, Tex.
Dist. No. 4.. Cleveland, Ohio.	Dist. No. 8.. St. Louis, Mo.	Dist. No. 12.. San Francisco, Cal.

Every National bank is required to become a stockholder in the Federal Reserve bank of the district in which it is situated, and any State bank or trust company which complies with certain specified requirements is permitted to become a member bank. There are at the present time approximately 7,500 National banks in the United States which have thus been required to become member banks.

The largest district, in respect to number of member banks—the seventh or Chicago district—has 952 member banks. The smallest district—the sixth or Atlanta district—has 372 member banks. The number of member banks may largely increase in the near future from the addition of State banks and trust companies as member banks.

Each member bank is required to subscribe to the stock of the Federal Reserve bank of its district in the amount equal to 6 per centum of its paid-up capital stock and surplus. The Federal Reserve bank does not do business with the public in the sense that banks usually do; it may better be described as a bank of banks. It is made a depository for a certain proportion of the reserve of all the member banks, and in addition may also be a depository for Government funds. An important function is as a bank of issue and redemption of currency, for it may secure from the Treasury Government notes known as Federal Reserve notes, which it is authorized to issue against commercial paper with a minimum gold reserve of 40 per centum. Besides this, Federal Reserve banks are granted certain powers in the matter of operations in the open market, such as the purchase of commercial paper, foreign exchange, etc., and in a general way are expected to perform important functions as clearing houses between their member banks.

Each Federal Reserve bank has nine directors, three of whom represent the member banks, three represent commercial, agricultural or other industrial pursuit (these six being chosen by the member banks), and finally three Government directors chosen by the Federal Reserve Board. These nine directors are charged with the duty of appointing all necessary officers, including the active manager of the bank, who is designated as its President or Governor.

Under the act the whole system is under the supervision of a central board in Washington, known as the Federal Reserve Board, consisting of the Secretary of the Treasury and the Comptroller of the Currency acting ex-officio, and five members named by the President with the approval of the Senate. The five members first selected (who took oath of office August 10, 1914) are as follows:

Charles S. Hamlin, Governor, term of office, 2 years.	Paul M. Warburg, term of office, 4 years.
Frederic A. Delano, Vice-Governor, term of office, 6 years.	W. P. G. Harding, term of office, 3 years.
	A. C. Miller, term of office, 10 years.

At the termination of the term of office of these five members all subsequent appointees will be named for ten-year terms, except, of course, those who may be selected to fill unexpired terms.

The salary of the members of this board is \$12,000 per annum each, which salaries, together with all other expenses of operating the system, are assessed against the Federal Reserve banks in proportion to their capital stock and surplus. Secretary to the board, H. Parker Willis; Assistant Secretary, Sherman Alien. Headquarters, Washington, D. C.

When organized, the capital of the Reserve banks of the system was as follows:

Dist. No. 1 (Boston).....	\$9,924,543	Dist. No. 7 (Chicago).....	\$12,967,701
Dist. No. 2 (New York).....	20,687,606	Dist. No. 8 (St. Louis).....	6,367,006

*In the year 1909. (a) Increase in average number of wage-earners, 1899-1909. (b) Increase in value of products, 1899-1909. † Decrease.

In the above table the industries are arranged in the order of their gross value of products. Some of the industries which hold a very high rank in gross value of products rank comparatively low in the average number of wage-earners employed and in the value added by manufacture. Where this is the case it indicates that the cost of materials represents a large proportion of the total value of products, and that therefore the value added by manufacture, of which wages constitute usually the largest item, is not commensurate with the total value of products.

Manufacturing Industries.

STATISTICS OF MANUFACTURING IN THE UNITED STATES.*

For 1914, automobiles and parts of automobiles exported were \$33,198,806; paraffin and paraffin wax, \$6,516,335; manufactures of tobacco, \$7,489,811; manufactures of wool, \$4,790,087.

WORKERS IN THE UNITED STATES, BY AGE AND COLOR OR RACE.

(From a report of the Bureau of Census, July 9, 1914.)

MORE than eight in every ten (81.3 per cent.) males ten years of age and over in the United States in 1910 were engaged in gainful occupations, according to the figures presented in the Report on Occupations issued by the Director of the Census. In the tabulation of occupations for this report all gainful workers were distributed in the following five age periods: Ten to thirteen years, fourteen to fifteen, sixteen to twenty, twenty-one to forty-four (including age unknown), and forty-five years and over. In the lowest age period, ten to thirteen years, the proportion of males gainfully occupied was one in six (16.6 per cent.); in the next age period, fourteen to fifteen, the proportion more than doubled, being over two in each five (41.4 per cent.); and in the age period sixteen to twenty the proportion increased to almost four in five (79.2 per cent.). The proportion was highest for the age period twenty-one to forty-four years (including persons of unknown age). In this age period 96.7 per cent. of the males were gainfully occupied; or stated otherwise, only 3.3 men out of every 100 in this age group were without gainful occupation in 1910. In the highest age period, forty-five years and over, the proportion of males gainfully occupied was 85.9 per cent.

The proportion of all males ten years of age and over engaged in gainful occupations was slightly larger in 1910 than in 1900, but this increase was confined to two age periods, sixteen to twenty and twenty-one to forty-four. In each of the other age periods the proportion of gainful workers was smaller in 1910 than in 1900, the decrease being greatest for the age period fourteen to fifteen.

Of the females ten years of age and over, 23.4 per cent. were engaged in gainful occupations in 1910. The proportion was 8 per cent. in the age period ten to thirteen; 19.8 per cent. in the age period fourteen to fifteen; 39.9 per cent. in the age period sixteen to twenty; 26.3 per cent. in the age period twenty-one to forty-four; and 15.7 per cent. in the age period forty-five years and over. The large proportion of the females sixteen to twenty years of age engaged in gainful occupations is accounted for by the fact that in this age period all the females are old enough to work, and matrimony has had little effect in decreasing the number of females.

There was a marked increase from 1900 to 1910 in the proportion of all females ten years of age and over engaged in gainful occupations, or from 18.8 to 23.4 per cent. In each age period also the proportion of the gainful workers was considerably larger in 1910 than in 1900.

COLOR OR RACE OF WORKERS.

Of the 30,091,564 gainfully occupied males in the United States in 1910, 14,855,825 were native whites of native parentage, 5,285,811 native whites of foreign or mixed parentage, 6,538,711 foreign-born whites, 3,178,554 negroes, and 182,663 Indians, Chinese, Japanese, and all other. The proportion which the gainfully occupied males formed of all males ten years of age and over in each principal class of the population was, for native whites of native parentage, 78.5 per cent.; native whites of foreign or mixed parentage, 76.5 per cent.; foreign-born whites, 90 per cent.; negroes, 87.4 per cent.; and Indians, Chinese, Japanese, and all other, 80.8 per cent.

Native white males of native parentage formed 49.4 per cent. of the male gainful workers, as compared with 51.1 per cent. of all males ten years of age and over; while the corresponding percentages for native white males of foreign or mixed parentage were 17.6, as compared with 18.7 per cent.; for foreign-born white males, 21.9, as compared with 19.8 per cent.; and for negro males, 10.6, as compared with 9.8 per cent.

Of the 8,075,772 gainfully occupied females, 3,098,639 were native whites of native parentage, 1,722,279 native whites of foreign or mixed parentage, 1,222,791 foreign-born whites, 2,013,981 negroes, and 18,082 Indians, Chinese, Japanese, and all other. The proportion which the gainfully occupied females formed of all females ten years of age and over in each principal class of the population was, for native whites of native parentage, 17.1 per cent.; native whites of foreign or mixed parentage, 24.6 per cent.; foreign-born whites, 21.7 per cent.; negroes, 54.7 per cent.; and Indians, Chinese, Japanese, and all other, 17.6 per cent.

Native white females of native parentage formed 38.4 per cent. of the female gainful workers, as compared with 52.5 per cent. of all females ten years of age and over; while the corresponding percentages for native white females of foreign or mixed parentage were 21.3, as compared with 20.3 per cent.; for foreign-born white females, 15.1, as compared with 16.3 per cent.; and for negro females, 24.9, as compared with 10.7 per cent.

CHILD WORKERS.

There were 1,990,225 children of both sexes, ten to fifteen years of age, engaged in gainful occupations in 1910, or 18.4 per cent. of the total number of children of that age group. The males numbered 1,353,139, and the females 637,086. In 1900 1,750,178, or 18.2 per cent. of the children ten to fifteen years of age were engaged in gainful occupations; and in 1880 1,118,356, or 16.8 per cent., of them.

The increase from 1900 to 1910 in the number, and hence in the proportion, of all children ten to fifteen years of age engaged in gainful occupations was confined to children engaged in agricultural pursuits, where the increase was 369,283, or 34.8 per cent., for both sexes; 166,394, or 19.5 per cent., for the males; and 202,889, or 97.9 per cent., for the females. There was a marked decrease from 1900 to 1910 in the number of children ten to fifteen years of age engaged in non-agricultural pursuits. This decrease was 129,236, or 18.8 per cent., for both sexes; 77,666, or 19 per cent., for the males and 51,570, or 18.5 per cent., for the females.

Workmen's Compensation Laws.

In order to facilitate the study and comparison of the Compensation laws of the various States, they are analyzed in the following pages according to a uniform outline designed to show clearly the most important features of the several plans.

ARIZONA.

Date of enactment.—June 8, 1912; in effect September 1, 1912; amended May 13, 1913; in effect October 1, 1913.

Injuries compensated.—All accidental injuries causing disability of at least two weeks, or death, arising out of and in the course of the employment, caused in whole, or in part, or contributed to, by a necessary risk or danger of, or inherent in the nature of the employment, or by failure of the employer or his agents to exercise due care or to comply with any law affecting the employment.

Industries covered.—All especially dangerous employments, including the construction, operation and maintenance of steam and street railroads, using or working near explosives, building work using iron or steel frames or hoists, derricks, or ladders or scaffolds 20 or more feet above ground; telegraph, telephone or other electrical work; work in mines, quarries, tunnels, subways, etc.; all mills, shops and factories using power machinery. Industries declared especially dangerous are specified in law. Elective as to other industries.

Persons compensated.—Private employment: All employés in industries covered. Public employment: No provision.

Burden of payment.—Entire cost rests upon the employer.

Compensation for death.—(a) To persons wholly dependent a lump sum equal to 2,400 times one-half the daily wages or earnings of the deceased employé, but not to exceed \$4,000. Payments to children cease on reaching the age of 18 years. (b) If no dependents, the reasonable expenses of medical attendance and burial of deceased employé.

Compensation for disability.—(a) For total disability, 50 per cent. of the employé's semi-monthly earnings during the time he is unable to work at any gainful occupation. (b) For partial disability, a semi-monthly payment equal to one-half the wage decrease. (c) The total amount of payments for total or partial disability caused by a single injury not to exceed \$4,000.

Revision of benefits.—Examinations as to the nature of injury and degree of incapacity, etc., may be required by either party at intervals of not less than three months.

Insurance.—The employer may insure provided the liability for compensation is not less than the compensation fixed by law.

Security of payments.—A judgment for compensation issued by a court is collectible without relief from valuation or appraisal laws and has the same preferential claim as is allowed by law for unpaid wages or personal services.

Settlement of disputes.—Disputes may be settled by (a) written agreement between the parties, (b) arbitration, or (c) by reference to the Attorney-General of the State, in case of failure or refusal to agree by any of the modes above provided, then by a civil action at law.

CALIFORNIA.

Date of enactment.—April 8, 1911; in effect September 1, 1911; amended May 26, 1913; in effect January 1, 1914.

Injuries compensated.—Injuries arising out of and in the course of employment causing disability for more than two weeks, or death, and not the result of the intoxication or wilful misconduct of the injured employé.

Industries covered.—All excepting agriculture and domestic service.

Persons compensated.—Private employment: Every person in the service of an employer for hire, including aliens, apprentices and members of employer's family who perform labor, excepting casual laborers. Public employment: Persons employed by the State and its political subdivisions, and all public corporations.

Burden of payment.—Entire cost rests upon the employer.

Compensation in case of death.—(a) To persons wholly dependent, 3 times the annual earnings of the deceased employé; not less than \$1,000 nor more than \$5,000, payable at least monthly in instalments equal to 65 per cent. of the wages. Payments to children cease on reaching the age of 18 years, unless mentally or physically incapacitated for earning a living. (b) If only partial dependents survive, such proportion of the above as corresponds to the ratio between the earnings of the deceased and his contribution to their support. (c) If no dependents, the reasonable expense of burial, not exceeding \$100.

Compensation for disability.—(a) Reasonable medical, surgical and hospital treatment required during the first 90 days after the injury. (b) For temporary total disability, 65 per cent. of average weekly earnings during such disability. (c) For temporary partial disability, 65 per cent. of weekly loss of wages during such disability. (d) The aggregate amount of benefits for a single injury causing temporary disability is limited to three times the annual earnings of the injured person, with a maximum benefit period of 240 weeks. (e) For permanent disability, 65 per cent. of average weekly earnings, for periods varying from 40 to 240 weeks, according to the degree of disability. After the expiration of 240 weeks a further benefit varying from 10 to 40 per cent. of the weekly earnings is payable during the remainder of life, when the degree of disability reaches or exceeds 70 per cent.

In case of permanent incapacity or death, a lump sum may be substituted for benefits, such lump sum to equal the present value of the benefits computed at 6 per cent.

Revision of benefits.—Decisions and awards may be reviewed at any time during the first 245 weeks, after legal notice received.

Insurance.—A State insurance fund is created under State control for the purpose of insuring employers against liability. Employers may effect insurance for liability for accident with any insurance company. Municipalities are required to insure in the State fund, unless the risk is refused.

Security of payments.—A claim for injury or death of an employé or any award shall have the same preference over other unsecured debts as is given by law to claims for wages, but not so as to impair a lien of a previous award.

Settlement of disputes.—Disputes are settled by the State industrial accident commission, subject to a limited review by the courts.

CONNECTICUT.

Date of enactment.—May 29, 1913; in effect January 1, 1914.

Injuries compensated.—All injuries arising out of and in the course of employment, disability of more than two weeks, or death, except when injury is caused by wilful and serious misconduct of the injured employé, or by his intoxication.

Industries covered.—All industries, in absence of contrary election by employer.

Persons compensated.—Private employment: All employés of employers accepting the act, in absence of contrary election. Public employment: Employés of the State and any public corporation within the State using the services of another for pay.

Burden of payment.—Entire cost rests upon the employer.

Compensation for death.—(a) \$100 for burial expenses. (b) To persons wholly dependent, a weekly compensation equal to one-half the earnings of the deceased employe. (c) If only partial dependents survive, a weekly compensation, determined according to the measure of dependence, not exceeding one-half the earnings of the deceased employe. (d) If no dependents, the sum of \$750 is to be paid to the State Treasurer to meet the lawful expenses of the Compensation Commissioners. (e) Compensation shall in no case be more than \$10 or less than \$5 weekly, and shall not continue longer than 312 weeks. A widow's or widower's dependence ceases with remarriage, and a child's upon reaching 18 years of age, unless physically or mentally incapacitated.

Compensation for disability.—(a) Medical and surgical aid and hospital service during the first 30 days. (b) For total disability, a weekly compensation equal to one-half the employe's earnings, not more than \$10 or less than \$5 weekly, or for longer than 520 weeks. (c) For partial disability, a weekly compensation equal to one-half the wage loss, but not more than \$10 per week, or for longer than 312 weeks. For specified injuries causing permanent partial disability, one-half the average weekly earnings for fixed periods, in lieu of all other payments. Lump sum payments may be approved by the Commissioner, provided they equal the value of the compensations.

Revision of benefits.—Review may be had upon request of either party, whenever it shall appear to the Compensation Commissioner that the incapacity or the measure of dependence has changed.

Insurance.—Approved schemes may be substituted, provided the benefits are equivalent to those provided by law. Insurance may be taken in approved stock or mutual companies or associations.

Security of payments.—Employer must furnish the Insurance Commissioner satisfactory proof of his solvency and financial ability to pay awards, file satisfactory security with the Insurance Commissioner, or insure in approved stock or mutual companies or associations.

Settlement of disputes.—Disputes are to be settled by the Compensation Commissioners. Appeals from findings and awards of any Commissioner may be made to the Superior Court of the county without cost to either party.

ILLINOIS.

Date of enactment.—June 10, 1911; in effect May 1, 1912; amended June 28, 1913, in effect July 1, 1913.

Injuries compensated.—Accidental injuries arising out of and in the course of employment causing permanent disfigurement, disability of over 6 working days, or death.

Industries covered.—The building trades; construction, excavating and electrical work; transportation; mining and quarrying; work with or about explosives, molten metals, injurious gases or vapors, or corrosive acids; and all enterprises in which the law requires protective devices; provided the employer elects. Other employers may elect, but forfeit no defenses if they do not. Compulsory as to State and its municipalities.

Persons compensated.—Private employment: All employes. Public employment: All persons employed by the State, county, municipality, etc., except officials.

Burden of payment.—Entire cost rests on the employer.

Compensation for death.—(a) To persons wholly dependent or to lineal heirs to whose support the employe has contributed within 4 years, a sum equal to 4 years' earnings, not less than \$1,500 nor more than \$3,500. (b) If only dependent collateral heirs survive, such a percentage of the above sum as the support rendered during the past two years was of the earnings of the deceased. (c) If no dependents, a burial benefit not exceeding \$150.

Compensation for disability.—(a) Medical and surgical aid for not over 8 weeks, not over \$200 in value. (b) For total disability, beginning with eighth day, a weekly sum equal to one-half the employe's earnings, \$5 minimum, \$12 maximum, during disability or until payments equal a death benefit; thereafter, if the disability is permanent, a sum annually equal to 8 per cent. of a death benefit, but not less than \$10 per month. (c) For permanent partial disability, one-half the loss of earning capacity, not less than \$5 nor more than \$12 a week. (d) For certain specific injuries (mutilations, etc.), an additional benefit of 50 per cent. of weekly wages for fixed periods. (e) For serious and permanent disfigurement, not causing incapacity, and not otherwise compensated, a sum not exceeding one-fourth the death benefits. No payments are to extend beyond 8 years except in case of permanent total incapacity. Lump sum payments for either death or disability may be substituted for periodic payments by the industrial board.

Revision of benefits.—Medical examinations may be had not oftener than every four weeks. The industrial board may, on request, review instalment payments, within eighteen months after the award or agreement thereon.

Insurance.—The employer may insure or maintain a benefit system, but may not reduce his liability under the act.

Security of payments.—In case of insolvency, awards constitute liens upon all property of the employer within the county, paramount to all other claims, except wages, taxes, mortgages or trust deeds.

Employers must furnish proof of ability to pay, or give security, insure, or make other provision for security of payment. The rights of an insolvent employer to insurance indemnities are subrogated to insured employes.

Settlement of disputes.—Disputes are determined by the industrial board, through an arbitration committee, subject to review by the board. Questions of law may be reviewed by the Supreme Court.

IOWA.

Date of enactment.—April 18, 1913; in effect (a) establishing industrial commission and providing for insurance of employes, July 4, 1913; (b) compensation features, July 1, 1914.

Injuries compensated.—All personal injuries arising out of and in the course of the employment causing disability of more than two weeks, or death; except when caused by the injured employe's willful intention to injure himself or another, or by the intoxication of the employe.

Industries covered.—All industries except agriculture, in absence of contrary election by employer. Compulsory as to State and its municipalities.

Persons compensated.—Private employment: All employes in industries covered in absence of contrary election, except clerks not subjected to the hazards of the industry and casual employes. Public employment: All employes of the State and its subdivisions.

Burden of payment.—Entire burden is on employer.

Compensation for death.—(a) Reasonable expenses of the employe's last sickness and burial, not to exceed \$100. (b) To persons wholly dependent, a weekly payment equal to 50 per cent. of the wages of the deceased employe, but not more than \$10 nor less than \$5 per week, for 300 weeks. (c) If only partial dependents survive, such a proportion of the above as the amounts contributed by the employe to such partial dependents bear to his annual earnings. (d) If the employe was a minor whose earnings were received by the parent, a sum to the parent equal to two-thirds of the amount provided for persons wholly dependent.

Compensation for disability.—(a) Reasonable surgical, medical and hospital services and supplies for first two weeks, not exceeding \$100. (b) For total temporary disability 50 per cent. of wages, not more than \$10 nor less than \$5 (unless wages are less than \$5, then full wages), for not more than 300 weeks. (c) For total permanent disability, the same compensation as for temporary disability, to be paid for a period of not more than 400 weeks. (d) For partial permanent disability

(specified maimings), 50 per cent. of average weekly wages for fixed periods. Lump sum payments may be substituted on approval of the court.

Revision of benefits.—Payments may be reviewed by the industrial commissioner at the request of either party.

Insurance.—Employers may insure in approved companies or mutual associations, or contract with employes to maintain approved scheme in lieu of the compensation provided by law, provided there is no diminution of benefits.

Security of payments.—Employers must insure in approved companies or mutual associations, or furnish satisfactory proof of financial ability to make payments, or deposit security with the State Insurance department. In case of insolvency of the insurer, a claim for compensation becomes a first lien, and in case of legal incapacity of insured to receive the amount due, the insurer must settle directly with the beneficiary.

Settlement of disputes.—Disputes may be settled by arbitration.

KANSAS.

Date of enactment.—March 14, 1911; in effect January 1, 1912; amended March 10, 1913.

Injuries compensated.—Injuries by accident arising out of and in the course of employment not due to intoxication or deliberate intention of injured employe, or caused by his wilful failure to use safeguards provided by statute or furnished by employer, causing incapacity to earn full wages for at least two weeks, or death.

Industries covered.—Railways, factories, quarries, electrical, building or engineering work, laundries, natural gas plants, county and municipal work, employments requiring the use of dangerous, explosive or inflammable materials, if employing 5 or more persons; and mines without reference to the number of employes, in absence of contrary election; employes of less than 5 persons may also elect.

Persons compensated.—Private employment: All employes, including apprentices, but excluding casual employes. Public employment: Workmen on county and municipal work.

Burden of payment.—Entire cost rests upon the employer.

Compensation for death.—(a) To persons wholly dependent, a sum equal to 3 years' earnings of the deceased employe, not less than \$1,200 nor more than \$3,600. For non-resident alien beneficiaries (except in Canada) the maximum is \$750. (b) If only partial dependents survive, a sum proportionate to the injury to such dependents. (c) If no dependents are left, a reasonable expense for medical attendance and burial, not exceeding \$100. Compensation ceases upon the marriage of any dependent, or when a minor, not physically or mentally incapable of wage earning, shall become 18 years of age.

Compensation for disability.—(a) For total incapacity, payments during incapacity after the second week, equal to 50 per cent. of earnings, but not less than \$6 nor more than \$15 per week. (b) For partial incapacity, payments during incapacity, after the second week, not less than 25 nor more than 50 per cent. of earnings, not less than \$3 nor more than \$12 per week, except in case of minors earning less than \$10 per week, in which case the compensation shall not be less than 75 per cent. of the earnings. No payments for total or partial disability shall extend over more than 8 years. After six months, lump sum payments may be substituted, as agreed upon or determined by the court.

Revision of benefits.—Any award may be modified at any time by agreement. After one year either party may demand a revision. Employes must submit to medical examination at reasonable periods to determine their physical condition.

Insurance.—The employer may insure in any approved insurance scheme which provides compensation not less favorable than is provided in this act.

Security of payments.—Lump sums awarded by the court may be secured by order of the court by a good and sufficient bond when there is doubt of security of payment. If the employer was insured, the insurer shall be subrogated to the rights and duties of the employer.

Settlement of disputes.—Disputes not settled by agreement may be referred to arbitrators, subject to an appeal to courts.

MARYLAND.

Date of enactment.—April 15, 1912; in effect same date.

Injuries compensated.—Injuries by accident arising out of and in the course of employment resulting in death or disability, not caused by the injured employe's intoxication, or wilful intention to produce such injury. Contract may provide that injury must incapacitate employe from earning full wages for at least one week.

Industries covered.—All industries, on agreement between employers and employes.

Persons compensated.—Private employment: All employes who agree to accept this law. Public employment: No provision.

Burden of payment.—Not less than 50 per cent., plus cost of management in case of establishment funds, on employer; remainder on employe.

Compensation for death.—(a) To persons wholly dependent, a sum equal to 3 years' earnings of the deceased employe, but not less than \$1,000. (b) If only partial dependents survive, a sum equal to that provided for total dependence, less six times the average annual earnings of the beneficiary. (c) If no dependents, reasonable expenses of medical attendance and in addition burial expenses not less than \$75 nor more than \$100. (d) Payments under (a) and (b) may be made in lump sum or in weekly payments, according to the contract of insurance.

Compensation for disability.—(a) In case of total disability, a weekly payment of not less than 50 per cent. of the average weekly wages during the previous 12 months, to be paid during the period of disability. If not employed 12 months then a weekly benefit during such shorter period as he may have been employed by the employer liable for payments. (b) In case of partial disability weekly payments equal to the difference between amount paid for total disability and the amount employe is able to earn after injury; fixed rates for loss of hand, foot or eye.

Revision of benefits.—No provision.

Insurance.—Insurance may be effected in approved companies, or employers employing not less than 1,500 employes may establish an insurance fund from sums contributed by themselves and employes.

Security of payments.—Establishment funds must be held as trust funds and not otherwise invested.

Settlement of disputes.—Disputes are settled by arbitration, if so provided in contract.

MASSACHUSETTS.

Date of enactment.—July 28, 1911; in effect July 1, 1912; amended May 10, 1912, February 4, 1913, April 7, 1913, April 28, 1913, and May 22, 1913.

Injuries compensated.—Injuries arising out of and in the course of employment causing incapacity for two weeks, or death, unless the injury is due to the serious and wilful misconduct of the injured employe.

Industries covered.—All industries if the employer so elects.

Persons compensated.—Private employment: All employes, except masters of vessels and seamen engaged in interstate or foreign commerce and casual employes. Public employment: The

State shall and any county, city, town or district having power of taxation may compensate laborers, workmen and mechanics. The question shall be submitted to the voters each year, except as to the State.

Burden of payment.—Entire cost rests upon the employer.

Compensation for death.—(a) To persons wholly dependent, a weekly payment equal to one-half the average weekly wages of the deceased employé, but not less than \$4 nor more than \$10, for a period of 300 weeks. (b) If only partial dependents survive, a sum proportionate to the portion of earnings contributed to their support by the deceased employé. (c) If no dependents, the reasonable expense of last sickness and burial, not to exceed \$200.

Compensation for disability.—(a) Reasonable medical and hospital services, and medicines as needed, for the first two weeks after injury. (b) For total disability, a sum equal to one-half the average weekly wages, but not less than \$4 nor more than \$10 per week, not exceeding 500 weeks, nor \$3,000 in amount. (c) For partial disability, one-half the wage loss, but not to exceed \$10 per week, and for not longer than 300 weeks. (d) In specified injuries (mutilation, etc.), a sum not exceeding \$10 nor less than \$4 per week for fixed periods, in addition to other compensation. A lump sum payment may be substituted after payments for injury or death have been made for not less than six months.

Revision of benefits.—Either party may demand a revision of payment at any time. Employés must submit to medical examination to determine their physical condition when requested by the employer.

Insurance.—Employer must become a subscriber of the State Employés' Insurance Association or insure in some authorized liability insurance company.

Security of payments.—The State controls the State Employés' Insurance Association, and other companies must be authorized by the State to do business.

Settlement of dispute.—On request of either party, the Industrial Accident Board calls for a Committee of Arbitration, whose decision is subject to review by the Industrial Accident Board.

MICHIGAN.

Date of enactment.—March 20, 1912; in effect September 1, 1912; amended April 10, 1913, April 16, 1913, May 2, 1913, and May 7, 1913.

Injuries compensated.—Injuries causing incapacity to earn full wages for a period of two weeks, or death, arising out of and in the course of employment, unless such injuries resulted from intentional and wilful misconduct of the injured person.

Industries covered.—Compulsory as to the State and its municipalities, and each incorporated public board and commission authorized to hold property and to sue and be sued. All industries having one or more persons in service under contract of hire if the employer elects.

Persons compensated.—Private employment: All employés, including aliens and minors, except casual employés. Public employment: All employés except officials of the State or of a municipality.

Burden of payment.—Entire cost rests upon the employer.

Compensation for death.—(a) To persons wholly dependent, a weekly payment equal to one-half the deceased workman's earnings, but not less than \$4 nor more than \$10 per week for a period of 300 weeks. (b) If only partial dependents survive, such proportion of the above as the amount of previous contributions bears to such earnings. (c) If no dependents, the reasonable expense of the last sickness and burial, not exceeding \$200.

Compensation for disability.—(a) Reasonable medical and hospital services for the first 3 weeks. (b) For total incapacity, a weekly payment equal to one-half the earnings, but not less than \$4 nor more than \$10 per week, nor for a period longer than 500 weeks from the date of the injury, and not exceeding \$4,000. (c) For partial incapacity, a weekly payment equal to one-half the wage loss, but not more than \$10 per week, and for not longer than 300 weeks. (d) For certain specified injuries (mutilations, etc.), 50 per cent. of average weekly earnings for fixed periods. (e) Payments begin with the fifteenth day after the injury, but if the disability continues for 8 weeks or longer compensation is computed from the date of injury. After six months, lump sums may be substituted for weekly payments.

Revision of benefits.—Weekly payments may be reviewed by the Industrial Accident Board at the request of either party. An injured employé must submit to medical examination when requested.

Insurance.—Employer must furnish proof of financial ability to pay the required compensation, or insure in an authorized employers' liability company, or in an employers' insurance association organized under State laws, or become a member of a State insurance fund administered by the State Commissioner of Insurance.

Security of payments.—In case of insolvency, claims constitute a first lien upon all property of the employer. Employers must furnish proof of financial ability to pay compensation, or insure in approved companies or with the State.

Settlement of disputes.—Either party may request the Industrial Accident Board to appoint a committee of arbitration, whose decisions are subject to review by the board. The Supreme Court may review questions of law.

MINNESOTA.

Date of enactment.—April 24, 1913; in effect October 1, 1913.

Injuries compensated.—Injury by accident arising out of and in the course of employment causing disability for more than two weeks, or death, unless intentionally caused, or due to the intoxication of the injured person.

Industries covered.—All excepting interstate or foreign commerce and farm and domestic service, in the absence of contrary election by employers.

Persons compensated.—Private employment: All employés, including aliens and minors, in the absence of contrary election, casual employés excepted. Public employment: All persons in the service of a county, city, town, village or school district, excluding public officials elected or appointed for regular terms.

Burden of payment.—Cost rests upon the employer.

Compensation for death.—(a) To a widow alone, 35 per cent. of monthly wages of deceased, increasing to 60 per cent. if four or more children; to a dependent husband alone, 25 per cent. to a dependent orphan 40 per cent., with 10 per cent. additional for each orphan in excess of two, with a maximum of 60 per cent.; to the dependent parent or parents, if no dependent widow, widower or children, 25 per cent. if one parent and 35 per cent. if both survive; if none of the foregoing, but a brother, sister or grandparent is wholly dependent, if but one such relative, 25 per cent., or if more than one, 30 per cent., divided equally. (b) If only partial dependents survive, that proportion of benefits provided for actual dependents which contributions bore to wages earned. (c) When no dependents are left, expense of last sickness and burial not exceeding \$100, in addition to medical and hospital services provided in case of disability. Payments cease when a minor child reaches the age of 18, unless physically or mentally incapacitated from earning, and upon the death or marriage of other dependents unless otherwise specified.

Compensation for disability.—(a) Reasonable medical and surgical treatment, not exceeding 90 days nor \$200 in value. (b) For total disability, 50 per cent. of wages. (c) For temporary partial disability, 50 per cent. of the wage loss. (d) For specified permanent partial disability (mutilations, etc.), 50 per cent. of the earnings for fixed periods. Payment for death or disability may not be less

than \$6 nor more than \$10 per week, unless the wages were less than \$6, when the amount of wages is paid. Payments may not extend beyond 300 weeks except for permanent total disability, when the maximum is 400 weeks. Lump sums may be substituted for periodical payments, but in case of compensation for death, permanent total disability or certain maimings, the consent of the court must be obtained.

Revision of benefits.—After six months from the date of an award either party may apply to the court for revision. The employé must submit to medical examination when requested.

Insurance.—Employers may insure in any authorized company, stock or mutual, or maintain co-operative schemes, assuming other and greater risks, and other classes of industrial insurance.

Security of payments.—Insured workmen have an equitable lien upon any policy becoming due, and in case of the employer's incapacity the insurer shall make payment directly to them. Claims to compensation have the same preference against the assets of the employer as unpaid wages.

Settlement of disputes.—Either party may submit a claim to the Judge of the District Court, who shall determine such dispute in a summary manner, subject to review by the Supreme Court as to questions of law.

NEBRASKA.

Date of enactment.—April 21, 1913; in effect July 17, 1913.

Injuries compensated.—Injury causing disability for more than fourteen days, or death, caused by accident arising out of and in the course of employment, except accident caused by or resulting in any degree from wilful negligence or intoxication.

Industries covered.—All industries where 5 or more persons are employed by the employer in the regular trade, business or occupation of the employer, except domestic service, agriculture and interstate or foreign commerce, in the absence of contrary election. Exempt employers may make an affirmative election.

Persons compensated.—Private employment: All employés, including aliens and minors, but excluding casual employés and home workers. Public employment: All persons employed by the State, or any Government agency created by the State, not having been elected or appointed for a regular term.

Burden of payment.—The entire cost rests upon the employer.

Compensation for death.—(a) In addition to any other benefits, a reasonable amount not exceeding \$100 to cover expenses of last sickness and burial. (b) To persons wholly dependent, 50 per cent. of the employé's wages, but not less than \$5 nor more than \$10 per week, during dependency; but not exceeding 350 weeks; if the wages of the deceased were less than \$5 per week, then full wages are to be paid as compensation. (c) If only partial dependents survive, a proportion of the above corresponding to the relation the contribution of the deceased to their support bore to his wages. Compensation to children ceases when they reach the age of 16 years, unless they are physically or mentally incapacitated from earning.

Compensation for disability.—(a) Medical and hospital services during the first 21 days, not exceeding \$200 in value. (b) For total disability, one-half of the weekly wages, but not less than \$5 or more than \$10 per week for 300 weeks; thereafter while disability lasts 46 per cent. of such wages but not less than \$4 or more than \$8 per week. *Provided, however,* if weekly wages are less than the minimum, compensation to amount of full wages is to be paid. (c) For partial disability, 50 per cent. of loss of earning capacity, but not exceeding \$10 per week nor exceeding 300 weeks.

(a) For certain specified injuries (mutilations, etc.), 50 per cent. of wages for fixed periods with the same limits as to amounts as above. Payments begin with the twenty-second day, but if disability continues 8 weeks or longer, compensation is computed from the date of injury. Lump sums may be substituted for periodic payments, but if for death or permanent disability, the approval of the court must be obtained.

Revision of benefits.—Benefits running for a period of six months or longer may be revised at any time by agreement of the parties, or after six months by application to a court.

Insurance.—An employer may insure his liability for compensation in any authorized stock or mutual insurance company.

Security of payments.—In case of the insolvency of an insured employer, claimants are subrogated to the rights as against the company which the employer would have had if he had paid the claim.

Compensation rights and awards have the same preference against the assets of the employer as unpaid wages for labor.

Settlement of disputes.—Questions may be submitted to arbitration by mutual consent, or either party may submit a claim to the District Court of county to be heard and determined as a cause in equity, with the right of appeal to the Supreme Court.

NEVADA.

Date of enactment.—March 15, 1913; in effect July 1, 1913.

Injuries compensated.—Injuries arising out of and in the usual course of employment, causing incapacity to earn full wages for a period of two weeks, or death, except when caused by the employé's wilful intention to injure himself or another, or if the injury is sustained while intoxicated.

Industries covered.—All in which two or more persons are employed, except domestic and farm labor, in the absence of contrary election; compulsory as to the State and its municipalities regardless of the number of employés.

Persons compensated.—Private employment: All employés in the industries covered. Public employment: All employés.

Burden of payment.—The entire cost rests upon the employer.

Compensation for death.—(a) To the dependents or beneficiaries of the deceased employé, a sum equal to 50 per cent. of his average monthly earnings, but not less than \$20 nor more than \$60 per month for a period of 100 months, in no case exceeding \$5,000, and in addition the burial expenses, not exceeding \$125. (b) If no dependents are left, expenses of the last sickness and burial of the deceased employé, not to exceed \$125.

Compensation for disability.—(a) For total disability, an amount equal to 50 per cent. of the average monthly wages, but not less than \$20 nor more than \$60 per month for 100 months, the total amount not to exceed \$5,000. (b) For partial disability, one-half the loss of earning capacity, but not more than \$40 per month for a period not to exceed 60 months. (c) For certain specific injuries (mutilations, etc.) subject to a minimum of \$20 and a maximum of \$60 per month, a monthly payment equal to 50 per cent. of average monthly wages, for fixed periods. No compensation is payable for the first 2 weeks of disability, but if the disability continues 8 weeks or longer, compensation is paid from the date of the injury. The Industrial Commission may permit substitution of lump sum payments for monthly payments, but no such payment shall exceed \$5,000.

Revision of benefits.—Rearrangement of compensation may be made by the Industrial Commission when application is made therefor.

Insurance.—Employers coming under this act must insure in the State insurance fund.

Security of payments.—State management of the insurance fund and collection of premiums by the State.

Settlement of disputes.—All matters relating to the amount of compensation to be paid are determined by the Industrial Commission.

NEW HAMPSHIRE.

Date of enactment.—April 15, 1911; in effect January 1, 1912.

Injuries compensated.—Any injury to an employé arising out of and in the course of employment causing disability of over two weeks, or death, unless due to wilful misconduct, intoxication or violation of law.

Industries covered.—Industries dangerous to life or limb, including the operation and maintenance of steam and electric railroads, work in shops, mills, factories, etc., employing 5 or more persons; work about lines or cables charged with electricity; operations dangerously near explosives used in the industry, or to a steam boiler owned and operated by the employer; and work in or about any quarry, mine or foundry; provided the employer elects.

Persons compensated.—Private employment: All workmen engaged in any of the employments covered by this law. Public employment: Government employes are not mentioned.

Burden of payment.—Entire cost rests upon the employer.

Compensation for death.—(a) To persons wholly dependent, a sum equal to 150 times the average weekly earnings of the deceased, not to exceed \$3,000. (b) If only partial dependents survive, such proportion of the above compensation as corresponds to the portion of wages contributed to their support. (c) If no dependents are left, expenses of medical care and burial to a reasonable amount, not in excess of \$100.

Compensation for disability.—(a) For total disability, a sum beginning with the fifteenth day, not exceeding 50 per cent. of average weekly earnings. (b) For partial disability, a sum not in excess of 50 per cent. of the loss of earning capacity. In no case is compensation to exceed \$10 a week nor run for a longer period than 300 weeks. The court may determine the amount of lump sums payable as a substitute for weekly payments.

Revision of benefits.—The injured person, when requested by the employer, must submit to medical examination not oftener than once a week.

Insurance.—No provision.

Security of payments.—The employer must satisfy the Commissioner of Labor if his ability to pay the required compensation or file a bond conditioned on the discharge of all liability incurred under this act.

Weekly payments have the same preferential claim against the assets of the employer as is allowed for unpaid wages or personal services.

Settlement of disputes.—All questions not settled by agreement are determined by an action in equity.

NEW JERSEY.

Date of enactment.—April 4, 1911; in effect July 1, 1911; amended May 2, 1911, April 1, 1912, and March 27, 1913.

Injuries compensated.—Injury by accident arising out of and in the course of employment causing disability of over two weeks, or death, unless intentionally self-inflicted or due to intoxication.

Industries covered.—All employments in the absence of contrary election.

Persons compensated.—Private employment: All employes except casual. Non-resident aliens receive no benefits. Public employment: Every employé of the State, county, municipality, board or commission, or other governing body, including boards of education, except persons receiving a salary greater than \$1,200 per year, and those holding an elective office.

Burden of payment.—The entire cost rests upon the employer.

Compensation for death.—(a) To one dependent, 35 per cent. of the wages of the deceased person, and for each additional dependent 5 per cent. additional, the total not to exceed 60 per cent., payable for not more than 300 weeks. Compensation not to be less than \$5 nor more than \$10 per week, unless the earnings were less than \$5, when full wages are paid. (b) If no dependents, the expense of the last sickness and of burial, not exceeding \$100. Payments to widows cease on remarriage, and to orphans on reaching the age of 18, unless physically or mentally deficient. A lump sum payment may be substituted at the discretion of the Court of Common Pleas.

Compensation for disability.—(a) Reasonable medical and hospital services for the first two weeks of incapacity, not exceeding \$50 in value. (b) For temporary total disability, 50 per cent. of wages, payable during disability, but not beyond 300 weeks. (c) For permanent total disability, 50 per cent. of wages during such liability, not beyond 400 weeks. (d) For certain specific injuries (mutilations, etc.) producing partial but permanent disabilities, 50 per cent. of wages during fixed periods. All weekly payments are subject to the same rule as to minimum and maximum, as for death benefits. A lump sum payment may be substituted at the discretion of Court of Common Pleas.

Revision of benefits.—At any time after one year after an award has been made, either party may demand a revision of benefits.

Insurance.—No provision.

Security of payments.—The right of compensation has the same preference against the assets of the employer as are now or may hereafter be allowed by law for a claim for unpaid wages.

Settlement of disputes.—Either party may submit a claim to the Judge of the Court of Common Pleas, who shall hear and determine such disputes in a summary manner, subject to review of questions of law by the Supreme Court.

NEW YORK. (See fourth subsequent page.)

OHIO.

Date of enactment.—June 15, 1911; in effect January 1, 1912; amended March 14, 1913.

Injuries compensated.—All injuries not self-inflicted received in the course of employment causing disability beyond one week, or death.

Industries covered.—All industries employing 5 or more persons regularly in the same business; also establishments with less than 5 workmen if the employer elects to pay the premiums provided by this act.

Persons compensated.—Private employment: All employes, excluding casual workers, but including aliens and minors lawfully employed. Public employment: Persons in the service of the State, or its political subdivisions, excepting the officials of the State or municipal governments, and policemen and firemen in cities where pension funds are established and maintained by municipal authority.

Burden of payment.—Entire cost rests upon the employer.

Compensation for death.—(a) Burial expenses not to exceed \$150. (b) To persons wholly dependent, 66 2/3 per cent. of the average weekly earnings of the deceased workman for six years after the date of the injury, not less than \$1,500 nor more than \$3,750. (c) If only partial dependents survive, a proportionate sum to continue for all or such portion of the period of six years as the State Liability Board may determine in each case, not exceeding a maximum of \$3,750. (d) If no dependents, medical and hospital services not exceeding \$200 in value, and burial expenses as above.

Compensation for disability.—(a) Medical, hospital, etc., services, not to exceed \$200. (b) For total temporary disability, a weekly payment of 66 2/3 per cent. of average weekly wages, during disability, not less than \$5 nor more than \$12 per week, but not for longer than six years, nor exceeding \$3,750. (c) For total permanent disability, a weekly payment as above continuing until death. (d) For partial disability, 66 2/3 per cent. of loss of earning capacity during the continuance thereof, but not exceeding \$12 per week or a total of \$3,750. (e) In certain specified injuries

(mutilations, etc.), compensation of 66 $\frac{2}{3}$ per cent. of wages for fixed periods, with the same maximum and minimum limitations noted above. In all cases if wages are less than prescribed minimum, then total wages are paid as compensation; an expected increase in wages may be given consideration.

Revision of benefits.—The State Liability Board may from time to time make such modification or change in its former findings of fact as it deems necessary.

Insurance.—The law creates a State insurance fund, under control of a State Liability Board. Other schemes are permitted, provided benefits equal to those provided by the State insurance fund are guaranteed employees at the employer's cost.

Security of payments.—Insurance is under State control. Claims for compensation under this law have the same preference against the assets of the employer as are or may be allowed by law on judgments rendered for claims for taxes.

Settlement of disputes.—The board hears and determines all cases within its jurisdiction, limited right of appeal to the civil courts being reserved to the claimant.

OREGON.

Date of enactment.—February 25, 1913; in effect 90 days after adjournment of the Legislature. (July 1, 1913.)

Injuries compensated.—Injuries by accidents arising out of and in the course of employment, except those brought about intentionally.

Industries covered.—All hazardous occupations, including factories, mills and workshops employing machinery; mines, quarries, wharves and docks, dredges, engineering works; building trades; telegraph, telephone, electric light and power plants or lines, steamboats, tugs and ferries; all in absence of contrary election. Other employers may accept the law by affirmative election.

Persons compensated.—Private employment: Any workman employed as above in absence of contrary election. Non-resident alien beneficiaries other than parent, spouse or child are not included unless otherwise provided by treaty. Public employment: Not included.

Burden of payment.—The employer deducts five-tenths of one per cent. of employe's monthly earnings, not less, however, than 25 cents per month, and himself contributes six times this amount. The State gives a subsidy.

Compensation for death.—(a) Burial expenses not to exceed \$100. (b) To widow or invalid widower, a monthly payment of \$30, and to each child under 16 (daughters 18), \$6 a month, the total monthly not to exceed \$50. (c) To orphan; under 16 years of age (daughters 18), a monthly payment of \$15 each; the total not to exceed \$50. (d) To other dependents, there being none of the foregoing, a monthly payment to each of 50 per cent. of the average support received during the preceding year, but not to exceed \$30 a month in all. (e) To parents of an unmarried minor, a monthly payment of \$25, until such time as he would have been 21, after which time compensation shall be paid according to (d) above. Payments to widow or widower continue until death or remarriage. On remarriage of widow she receives a lump sum of \$300. Payments to a male child cease at 16 and to a female at 18, unless the child is an invalid.

Compensation for disability.—(a) Transportation, medical, surgical, and hospital expenses not exceeding \$250 in value. (b) For permanent total disability, monthly payments as follows: (1) If unmarried at the time of the injury, \$30; (2) if with wife or invalid husband, but no child under 16 years, \$35; if the husband is not an invalid, the sum is \$30; (3) if married or a widow or widower with a child or children under 16 years, \$6 additional to the provision under (2) above, or each child until 16 years of age, the total monthly payments not to exceed \$50. (c) For temporary total disability, the above payments apply during disability, increased 50 per cent. for first six months, but in no case to exceed 60 per cent. of monthly wages. (d) For partial temporary disability, a proportionate amount, corresponding to loss of earning power for not exceeding 2 years. (e) For certain specified injuries (mutilations, etc.), monthly payment of \$25 per month payable for fixed periods. A lump sum at the option of the injured person is provided in some cases. Partial lump sum payments to any beneficiary may be substituted at the discretion of the commission.

Revision of benefits.—The rate of compensation may be readjusted either upon the application of the beneficiary or by the State Industrial Accident Commission upon its own initiative.

Insurance.—Insurance is effected through the State Industrial Accident Fund, under supervision of the State Industrial Accident Commission.

Security of payments.—Insurance under State control.

Settlement of disputes.—Any decision of the commission is subject to review by the Circuit Court, and appeals lie from the Circuit Court as in other civil cases.

RHODE ISLAND.

Date of enactment.—April 29, 1912; in effect October 1, 1912; amended by act of April 29, 1913.

Injuries compensated.—Personal injuries by accidents arising out of and in the course of employment causing incapacity for earning full wages for a period of more than two weeks, or death, except where the injury resulted from the wilful intention of the injured person to injure himself or another, or from intoxication.

Industries covered.—All industries except domestic service and agriculture if the employe elects. Defences in suits for damages are not abrogated unless more than 5 persons are employed.

Persons compensated.—Private employment: All employes in establishments covered by this act in absence of contrary election, casual employes and those earning above \$1,300 a year excepted. Public employment: Not mentioned.

Burden of payment.—Entire cost rests upon the employer.

Compensation for death.—(a) To persons wholly dependent, a weekly payment equal to one-half the average weekly earnings of the deceased employe, but not less than \$4 nor more than \$10 per week, for a period of 300 weeks. (b) If only partial dependents survive, a sum proportionate to the amount which the annual contributions bore to the annual earnings of the deceased, for not exceeding 300 weeks. (c) If no dependents, the expense of the last sickness and burial of the deceased employe, not exceeding \$200. Payments to children cease on their reaching the age of 18 years unless they are physically or mentally incapacitated.

Compensation for disability.—(a) The necessary medical and surgical care and hospital services for the first 2 weeks after the injury. (b) For total incapacity, a weekly payment equal to one-half the wages, but not less than \$4 nor more than \$10 per week, during such incapacity, but not for a longer period than 500 weeks. (c) For partial incapacity, a weekly payment equal to one-half the loss of earning power, but not exceeding \$10 per week, during such incapacity, and not for a longer period than 300 weeks. (d) For certain specified injuries (mutilations, etc.), in addition to the above, one-half the wages, weekly payments to be not less than \$4 nor more than \$10 per week, for fixed periods. Lump sum payments may be substituted by order of the Superior Court after compensation has been paid for six months, for either death or injury.

Revision of benefits.—Amount payable may be reviewed and modified by the Superior Court at any time within two years, if the time for payments has not expired.

Insurance.—Approved schemes or insurance plans may be substituted, but the employer must meet all cost unless added benefits are provided corresponding to any contributions made by employes.

Security of payments.—Claims for compensation under this act, and under any substitute scheme,

shall be entitled to a preference over the unsecured debts of the employer hereafter contracted to the same amount as the wages of labor are now preferred.

Settlement of disputes.—Disputes are settled by the Superior Court on a petition in the nature of a petition in equity, filed by any party in interest. Appeals may be carried to the Supreme Court by any aggrieved person.

TEXAS.

Date of enactment.—April 16, 1913; in effect September 1, 1913.

Injuries compensated.—Personal injury sustained in the course of employment causing incapacity to earn full wages for at least one week, or death.

Industries covered.—Excluded from the act are domestic and farm labor, railways operated as common carriers, and cotton ginning; also establishments in which not more than 5 persons are employed. Applies to other industries if the employer subscribes to the State insurance fund.

Persons compensated.—Private employment: All employes in industries included, except casual. Public employment: No provision.

Burden of payment.—The entire cost rests upon the employer.

Compensation for death.—(a) To the legal beneficiary of the deceased employe, a weekly payment equal to 60 per cent. of his wages, not less than \$5 nor more than \$15 for a period of 360 weeks, distributed according to law governing property distribution. (b) If no beneficiaries or creditors are left, the expenses of the last sickness and in addition a funeral benefit not to exceed \$100. (c) If the deceased leaves no beneficiaries but leaves creditors, the insurance association is liable to the creditors for such debts in an amount not exceeding that which would be due beneficiaries.

Compensation for disability.—(a) Medical and hospital care for the first week. (b) For total incapacity, a compensation equal to 60 per cent. of the average weekly wages of the injured person, but not less than \$5 nor more than \$15 per week during such disability, but not exceeding a period of 400 weeks. (c) For partial incapacity, a compensation equal to 60 per cent. of the loss of earning power during such disability, but not exceeding 300 weeks. In no case to exceed \$15 per week. (d) For certain specified injuries (mutilations, etc.), an additional compensation equal to 60 per cent. of the average weekly wages of the injured person for fixed periods, not less than \$5 nor more than \$15 per week. A lump sum payment may be substituted for weekly payments in cases of death or total permanent disability, subject to the approval of the Industrial Accident Board.

Revision of benefits.—The Industrial Accident Board may call for medical examination as often as may be reasonably ordered.

Insurance.—Insurance may be effected through the Texas Employers' Insurance Association, under State control, or in any company admitted to do business in the State.

Security of payments.—Association is under State control.

Settlement of disputes.—Disputes are referable to the Industrial Accident Board, whose decisions are subject to appeal to any court of competent jurisdiction.

WASHINGTON.

Date of enactment.—March 14, 1911; in effect October 1, 1911; amended 1913.

Injuries compensated.—Injuries causing disability of 5 per cent., or death, to a person, whether received upon the premises or at the plant or in the course of employment while away from the establishment, except injuries brought about intentionally.

Industries covered.—All extra hazardous employment, including mills, factories and workshops where machinery is used; blast furnaces, mines, quarries and wharves; engineering works; logging, lumbering and shipbuilding; building trades; telegraph, telephone, electric light or power plants or lines; steamboats, tugs and ferries; railroads, except as governed by Federal statute; State, county and municipal undertakings involving extra hazardous work in which persons are employed for wages.

Persons compensated.—Private employment: All employes in industries covered by the act; any working employer or salaried employe on the payroll at a rate not greater than the average named in such payroll. Public employment: All employes in industries covered by the act.

Burden of payment.—The entire burden rests upon the employer.

Compensation for death.—(a) Expenses of burial not exceeding \$75. (b) To widow or invalid widower, a monthly payment of \$20; to each child under 16, \$5 per month, the total not to exceed \$35. (c) If no parent survives, a monthly payment of \$10 to each child under 16 years of age, the total not to exceed \$35. (d) To other dependents, if none of the above survive, a monthly payment to each equal to 50 per cent. of the average amount previously contributed to the dependent, the total not to exceed \$20. (e) To the parent or parents of an unmarried minor a monthly payment of \$26 until the time he would have been 21. In case of dependence, payments to parents of minors are governed by (d). Payments to a widow or widower continue until death or remarriage, and to a child until reaching the age of 16 years. If a widow remarries she receives a lump sum of \$240.

Compensation for disability.—(a) For permanent total disability, payments as follows: (1) If unmarried at time of the accident, \$20 per month; (2) if with a wife or invalid husband, but no child under 16 years of age, \$25 a month; if the husband is not an invalid, \$15 per month; (3) if married, or a widow or widower with a child or children under 16 years, \$5 a month additional for each child, the total not to exceed \$35. (b) For total temporary disability, payments as for permanent total disability during disability, increased by 50 per cent. for first six months, but in no case to exceed 60 per cent. of monthly wages. (c) For temporary partial disability, the payment as for total disability continues in proportion to the loss of earning power, provided this shall exceed 5 per cent. (d) For permanent partial disability, a lump sum not to exceed \$1,500; if the injured person is a minor, the parents receive an additional sum, equal to 10 per cent. of the award to the injured person. Monthly payments may be converted into lump sum payments in case of death or permanent total disability.

Revision of benefits.—Revision may be had upon application of the beneficiary or upon the motion of the department.

Insurance.—Insurance is required in a State accident fund.

Security of payments.—Accident fund under State control.

Settlement of disputes.—By Industrial Insurance department, whose decisions are subject to review by the Superior Court, from which appeal lies as in other civil cases.

WEST VIRGINIA.

Date of enactment.—February 22, 1913; in effect October 1, 1913.

Injuries compensated.—All personal injuries not the result of willful misconduct or intoxication of the injured employe, or self-inflicted, causing incapacity for more than one week, or death.

Industries covered.—All except domestic or agricultural labor, if the employer becomes a member of the State Insurance fund.

Persons compensated.—Private employment: All employes in industries covered, including aliens, except persons casually employed, and the officers of corporations. Public employment: No provision.

Burden of payment.—Employer, 90 per cent.; employes, 10 per cent.

Compensation for death.—(a) Reasonable funeral expenses, not to exceed \$75. (b) To the widow or invalid widower, \$20 per month and \$5 per month additional for each child under the age of legal employment, the total not to exceed \$35 per month. (c) To other persons wholly dependent, if

no widow, invalid widower, or child under the age of legal employment is left, 50 per cent. of the average monthly support received from the deceased during the preceding year, not exceeding \$20 per month, for 6 years. (d) If the deceased was a single minor, to a dependent parent, 50 per cent. of the earnings, not to exceed \$6 per week, until the time he would have become 21. (e) If only partial dependents survive, a compensation computed as in (c), with the same maximum. Payments to a widow or widower cease on remarriage, and to children on reaching the legal age for employment (14 years).

Compensation for disability.—(a) Medical, nurse, and hospital services, not exceeding \$150. (b) For "temporary or partial" disability, beginning with the eighth day, during such disability, 50 per cent. of loss of his earning capacity, not less than \$4 nor more than \$8 per week, not exceeding 26 weeks, except that for certain maimings the period may be 156 weeks. (c) For permanent total disability, beginning with the eighth day, 50 per cent. of the average weekly wages, during life, not less than \$3 nor more than \$6 per week. Lump sum payments may be substituted for periodic payments in case of either injury or death.

Revision of benefits.—Awards may be modified at any time.

Insurance.—Insurance is effected through a State fund under the control of the Public Service Commission. The commission may reinsure all or any part of any class or risk in any authorized insurance company.

Security of payments.—Insurance is under State control.

Settlement of disputes.—Disputes are settled by the commission; limited appeal to the Supreme Court.

WISCONSIN.

Date of enactment.—May 3, 1911; in effect same date; amended June 26, 1913, July 30, 1913, August 9, 1913.

Injuries compensated.—Personal injury by accident causing disability of at least one week, or death, while performing service growing out of and incidental to the employment, not intentionally self-inflicted.

Industries covered.—All, if the employer elects. Compulsory as to State and its municipalities.

Persons compensated.—Private employment: All employes except casual, including aliens, in the absence of contrary election. Public employment: All employes of the State or its political subdivisions.

Burden of payment.—Entire cost rests upon the employer.

Compensation for death.—(a) To persons wholly dependent, a sum equal to 4 years' earnings, but which when added to any prior compensation for permanent total disability shall not exceed 6 years' earnings. (b) If only partial dependents survive, a sum not to exceed 4 times the amount provided for their support during the preceding year. (c) If no dependents, the reasonable expense of burial, not exceeding \$100. All payments are to be made in weekly instalments equal to 65 per cent. of the average weekly earnings. Dependence of children ceases at 18, unless physically or mentally incapacitated.

Compensation for disability.—(a) Medical, surgical, and hospital treatment for not exceeding 90 days, or the reasonable expenses therefor. (b) For total disability, 65 per cent. of average weekly earnings during such disability, but if the injured person requires the assistance of a nurse, then 100 per cent. of earnings for first 90 days of disability. (c) For partial disability, 65 per cent. of loss of earning power. (d) For certain specific injuries (mutilations, etc.), a sum equal to 65 per cent. of average weekly earnings for fixed periods. (e) For serious permanent disfigurement, a lump sum may be allowed, not exceeding \$750. In case of temporary or partial disability the aggregate compensation for a single injury shall not exceed 4 years' earnings, and for permanent disability 6 years' earnings, nor may the disability period exceed 15 years from the date of the accident. Lump sum payments may be substituted at any time after 6 months from the date of injury.

Revision of benefits.—The commission may modify or change its order or award within 10 days if a mistake is discovered; or a review by the court may be had on appeal within 20 days. The commission may call for a medical examination at any time it deems necessary.

Insurance.—Insurance in approved companies is permitted, but the liability of the employer may not be reduced.

Security of payments.—The employer must give proof of financial ability or insure risks. Claims for compensation are preferred above other unsecured debts thereafter contracted.

Settlement of disputes.—Disputes are settled by the Industrial commission, subject to a limited review by the courts.

UNITED STATES.

Date of enactment.—May 30, 1908; in effect August 1, 1908; amended February 24, 1909, March 4, 1911, March 11, 1912, and July 27, 1912.

Injuries compensated.—Injuries in the course of employment resulting in incapacity for work lasting more than 15 days, or death, unless injury is due to the negligence or misconduct of the employe injured.

Industries covered.—Manufacturing establishments of the United States, arsenals, navy yards, construction of river and harbor or fortification work or work in the reclamation of arid lands; work under the Isthmian Canal Commission, under the Bureau of Mines, under the Forestry Service and under the Lighthouse Service.

Persons compensated.—Private employment: Not included. Public employment: Artisans or laborers employed by the United States (a) in any of its manufacturing establishments, arsenals, navy yards or in the construction of river and harbor or fortification work; or (b) in hazardous employment on construction work in the reclamation of arid lands or the management and control of the same; (c) any person in hazardous employment under the Bureau of Mines, the Forestry Service or the Lighthouse Service; (d) all employes under the Isthmian Canal Commission.

Burden of payment.—Cost is on the branch of the service in which the injured person was employed.

Compensation for death.—To the widow, children, or dependent parents, a sum equal to the wages the deceased person would have received for one year had he continued to be employed. Payments to children cease on their reaching the age of 16.

Compensation for disability.—A sum equal to the same pay the injured employe would have received if he continued to be employed during the period of disability, not to exceed one year.

Revision of benefits.—Payments are made in such portions and under such regulations as the Secretary of Labor may prescribe.

Insurance.—No provision.

Security of payments.—Compensation is paid from annual appropriation for the support of the service.

Settlement of disputes.—All questions as to right of compensation are decided by the Secretary of Labor, except as to the rights of employes of the Isthmian Canal Commission, which are determined by the Chairman of that commission.

Compensation for Employes of Railroads Engaged in Interstate Commerce.

(Bill in 63d Congress (S. 959) based on the report of the Federal Commission.)

Injuries compensated.—Personal injuries due to accidents arising out of and in the course of

employment causing disability for more than 14 days, or death, unless caused by the wilful intention of the employé to bring about the injury or death of himself or another or by his intoxication.

Industries covered.—All common carriers by rail, including express companies, in the District of Columbia or engaged in interstate or foreign commerce.

Persons compensated.—Private employment: All employés, including apprentices, but excluding casual employés. Public employment: Not included.

Burden of payment.—The entire cost rests upon the employer.

Compensation for death.—(a) To the widow alone, 40 per cent. of monthly wages of the deceased; if any child or children (male under 16 or female under 20), 50 per cent. (b) To any child or children, no widow being left, if one child, 25 per cent. of the wages, and 10 per cent. additional for each child more than one, not to exceed 50 per cent. in all. (c) If no widow or children entitled to compensation, then to a parent or parents who are partially dependent, 15 per cent.; if one is wholly dependent, 25 per cent., and if both, 40 per cent. of such wages. (d) If none of the foregoing, then to any wholly dependent brother, sister, grandparent, or grandchild, 20 per cent. if one; or 30 per cent. if more than one; if only partly dependent, then 10 per cent. of such wages. Beneficiaries not actual residents of the United States or contiguous countries receive no benefits, except that a widow or child, where there is no resident dependent widow or child, shall be paid a sum equal to one year's wages of decedent. (e) A funeral benefit of \$75, if the monthly payments for death are not more than \$15. If no monthly payments are payable, a reasonable funeral benefit not exceeding \$150. All compensation payments cease in 8 years, or, in the case of a widow, upon prior remarriage; except that payments to children cease at 16 if a male or 20 if a female, unless dependent thereafter.

Compensation for disability.—(a) Medical and surgical aid, including hospital service, as may be reasonably required during the first 14 days, and thereafter in an amount not to exceed \$200. (b) For total disability, 50 per cent. of monthly wages during its continuance, for life if permanent. (c) For certain specified injuries (mutilations, etc.), causing permanent partial disability, 50 per cent. of monthly wages for fixed periods. (d) For temporary partial disability, 50 per cent. of his wages during any period of reduced earning capacity, but for a period not longer than would be paid for a permanent disability of the same character, nor after refusal to accept work at the same or better wages than he was receiving at the time of injury.

Revision of benefits.—A review of any agreement, award, findings or judgment may be had within two years from the date of accident, and before the expiration of the period for which compensation has been fixed, upon application of either party.

Insurance.—No provision.

Security of payments.—In cases of insolvency, liability for compensation constitutes a lien upon all property of the employer paramount to all other claims or liens, except for wages and taxes.

Settlement of disputes.—Any employer and his employés may organize or constitute one or more committees for the purpose of settling disputes, or questions may be referred to an adjuster appointed by the court, with appeals to the courts.

CANAL ZONE.

Date of enactment.—August 24, 1912. Executive Order February 26, 1913; in effect March 1, 1913. (Suspended.)

Injuries compensated.—Personal injuries causing disability of over 5 days, or death, provided the injury is not intentionally brought about nor the result of intoxication.

Industries covered.—The construction, maintenance, operation or sanitation of the canal, Panama Railroad, or auxiliary canals, locks or other subsidiary enterprises.

Persons compensated.—Private employment: Employés of the Panama Railroad Company directly engaged in the work named above. Public employment: Employés of the United States employed in the Canal Zone in the work named above.

Burden of payment.—The entire burden rests upon the employer.

Compensation for death.—(a) To a widow or widower wholly dependent, there being no dependent child, 35 per cent. of the monthly wages of the deceased for a period of 6 years; after 6 years not less than 20 nor more than 30 per cent. If partly dependent, a proportionate compensation. (b) In addition to the above, 10 per cent. for each child, the total not to exceed 50 per cent. for 6 years, thereafter 25 to 40 per cent. (c) If no parent is left, to one child 25 per cent. and 10 per cent. additional for each child, not exceeding in the aggregate 50 per cent. of the wages. After 6 years the compensation shall not exceed 25 to 40 per cent. (d) To parents, no widow, widower, or child being left, when one only is wholly dependent, 25 per cent.; when both are dependent, 20 per cent. each, payable for a period of 8 years. (e) To brothers, sisters, grandchildren and grandparents, no dependent spouse, child or parent being left, 20 per cent. if one is wholly dependent, and 30 per cent. if more than one. If no one is wholly dependent but one or more are partly so, 10 per cent. divided among them. Payments cease on the death or marriage of a beneficiary, on parents ceasing to be dependent, or on a child reaching the age of 13, if capable of self-support.

Compensation for disability.—(a) Reasonable medical, surgical, and hospital services and supplies. (b) For total disability, a monthly payment beginning with the sixth day equal to 50 per cent. of pay, for not more than 6 years; thereafter a monthly payment not less than 25 nor more than 40 per cent. of such wages. (c) For partial disability, a monthly payment equal to 50 per cent. of the loss of earning capacity, or not longer than 6 years. If disability continues, a monthly payment not less than 25 nor more than 40 per cent. of such loss. Conversion to lump sum payments is provided for in certain cases.

Revision of benefits.—The Governor of the Panama Canal Zone may at any time review the compensation previously fixed.

Insurance.—No provision.

Security of payments.—Under Government control.

Settlement of disputes.—The Governor of the Canal Zone decides all questions arising under this order or in regard to the interpretation thereof.

NEW YORK.

Date of enactment.—December 16, 1913; in effect July 1, 1914. [Compulsory Law.]

Injuries compensated.—Accidental injuries arising out of and in course of employment, and disease or infection naturally and unavoidably resulting therefrom, causing disability for more than two weeks, or death, unless caused by the wilful intention of the injured employé to bring about the injury or death of himself or another, or by his intoxication while on duty.

Industries covered.—"Hazardous employments," including construction, maintenance and operation of steam and street railroads; telegraph, telephone and other electrical construction; installation or operation; foundries, machine shops and power plants; stone cutting or dressing; manufactures, tanneries, laundries, printing and bookbinding; shipbuilding and repair, and the use of vessels in intrastate commerce; work in mines, quarries, tunnels, subways, shaft sinking, etc.; engineering work, and the construction, repair and demolition of buildings and bridges; lumbering, drying, loading and unloading.

COMPENSATION LAWS OF THE VARIOUS STATES.—Continued.

Persons compensated.—Private employment: All employes in industries covered, farm laborers and domestic servants not included. Public employment: Not included.*

Burden of payment.—Entire cost rests on employer.

Compensation for death.—(a) \$160 for funeral expenses. (b) To a widow or dependent widower alone, 30 per cent. of wages of deceased, 10 per cent. additional for each child under 18; dependent orphans under 18 receive 15 per cent. each, and dependent parents, brothers or sisters receive 15 per cent. each; aggregate payments in no case to exceed 66⅔ per cent. (c) Payments to widow or widower cease on death, or remarriage, or when dependence of widower ceases, with two years' compensation on remarriage; payments to children, brothers and sisters cease at 18, and to parents when dependence ceases. In computing the above benefits no wages in excess of \$100 monthly are considered.

Compensation for disability.—(a) Medical and surgical treatment and hospital services for 60 days, costs to be approved by the commission. (b) For total disability, 66⅔ per cent. of wages during continuance. (c) For partial disability, 66⅔ per cent. of wage loss; for specified permanent partial disabilities (mutilations, etc.), 66⅔ per cent. of wages for fixed periods. The foregoing payments may not be less than \$5 nor more than \$15 per week, except for certain maimings the maximum may be \$20.

Revision of benefits.—Awards may be reviewed at any time, and ended or increased or decreased within the limits fixed.

Notice of injury.—Notice of an injury for which compensation is payable must be given in writing to the employer and to the commission within ten days after the injury; and in case of death resulting from such injury, within thirty days after death. This notice shall contain the name and address of the employe; shall state in ordinary language the time, place, nature, and cause of the injury; and shall be signed by the injured employe or by a person on his behalf, or in case of death by a dependent or a person on his behalf. The failure to give such notice may be excused by the commission either on the ground that for some sufficient reason notice could not have been given or on the ground that the State fund, insurance company, or employer, as the case may be, has not been prejudiced thereby; otherwise the failure to give such notice shall constitute a bar to any claim for compensation.

Medical examination.—An injured employe claiming or entitled to compensation shall, if requested by the commission, submit to medical examination at such times and at a place reasonably convenient for him, as may be provided by the commission. If the employe or the insurance carrier so desires, he may have a physician or physicians of his own selection, to be paid by him, present to participate in such examination. Refusal to submit to such examination suspends the right to compensation for the period of such refusal.

Waiver, Assignments.—No employe may waive his right to compensation. No employe may agree to assign his right of compensation to another.

Insurance.—Employer must give proof of financial ability to make payments (deposit of securities may be required), or must insure in State fund or mutual or stock company.

Release from liability.—An employer who insures in the State fund is released from all liability for compensation to his injured employes. He shall not otherwise be relieved from such liability except by the payment of compensation by himself or by his insurance carrier.

Security of payments.—Insurance may be made to insure directly to the benefit of claimants; insolvency of employer does not release insurance company. Payments have same preference as unpaid wages for labor.

Settlement of disputes.—Disputes are settled by the State Workmen's Compensation Commission, with appeals to courts.

The Bureau of Claims for the commission in New York City is at No. 1 Madison Avenue; D. A. Golden, Chief of Bureau.

* Robert E. Dowling, Chairman of the Workmen's Compensation Commission, received from Attorney-General Carmody an opinion on the application of the law to the State and its political subdivisions, the effect of which is that New York City, which has nearly 100,000 employes, including those of the counties and boroughs, is liable for compensation only to persons engaged in occupations specified in the act as hazardous, and then only when employed in a trade, business or occupation carried on by the city for pecuniary gain. The Compensation law does not apply to the Police or Fire Departments.

UNITED STATES BUREAU OF PLANT INDUSTRY.

The Bureau of Plant Industry studies plant life in all its relations to agriculture. It investigates the diseases of fruit and forest trees, truck crops and other plants, and carries on field tests and demonstrations of their control and prevention. It studies the bacteriological problems connected with plant production and also the factors of plant nutrition. It is engaged in the improvement of crops by breeding and selection and the acclimatization and adaptation of new crops and varieties. It is encouraging the production of drug-producing crops, tea, and other special crops, and is studying the general physiological problems influencing the growth of plants. It is conducting a campaign for the eradication of poisonous plants, especially in the vast stock-grazing areas of the West. It is investigating various technological problems in connection with crop production, particularly with reference to fibre and paper-producing plants and to the standardization and handling of cotton and grain. It is engaged in the study of various phases of economic botany and in the devising of methods for the improvement of forest-grazing areas. It is carrying on a propaganda in the interest of good seeds for the farmer and the improvement in the quality of farm seeds. It is conducting extensive work in the breeding and testing of the principal field crops, such as the small grains, corn, cotton, tobacco, forage crops, and sugar-producing plants, with special reference to the improvement of these crops. It is engaged in the operation of testing stations in the semi-arid regions for the co-operative investigation of the problems encountered in crop production under the conditions existing in those areas. The adaptation and breeding of crops is a special feature of this work, which also includes physical determinations of the factors influencing plant growth in those regions.

In the South it is carrying on farmers' co-operative demonstration work, with special reference to the boll-weevil situation and its amelioration. It is conducting horticultural studies of garden crops and maintains an experimental farm for this and other lines of the work of the bureau. It is engaged in investigations of the marketing, transportation, and storage of fruits, and in the general upbuilding of the fruit industry. It maintains greenhouses and trial grounds for the work of plant propagation and improvement. It is engaged in the introduction of seeds and plants from foreign countries and in the operation of plant introduction and testing gardens to aid in the development of new plant industries. It is also engaged in the Congressional distribution of seeds and plants.

OCCUPATIONS IN THE UNITED STATES.

TOTAL PERSONS 10 YEARS OF AGE AND OVER ENGAGED IN EACH SPECIFIED OCCUPATION, INCLUDING BOTH SEXES. (CENSUS OF 1910.)

OCCUPATION.	Total.	OCCUPATION.	Total.
Population 10 years of age and over	71,580,270	MANUFACTURING AND MECHANICAL INDUSTRIES—Continued.

(a) Includes turpentine farmers. (b) Includes turpentine farm foremen. (c) Not otherwise specified. (d) Includes tinplate mills. (e) Includes wooden box factories. (f) Includes car repairers for steam and street railroads. (g) Includes sewers and sewing machine operators in all factories except shoe and harness factories, and sack sewers in cement, sugar, and grain mills. (h) Teamsters in agriculture, forestry, and the extraction of minerals are classified with the other workers in those industries, respectively; and drivers for bakeries and laundries are classified with deliverymen in trade. (i) Many of the "clerks" in stores evidently are "salesmen and saleswomen." (j) Includes only those resident in continental United States at the date of the enumeration. (k) Some owners of hand laundries are included with "laundry operatives." (l) Except telegraph and telephone messengers.

OCCUPATIONS—NEW YORK CITY SUMMARY.

(Bureau of Census Report of September, 1914.)

ACCORDING to the Report on Occupations issued by the Director of the Bureau of the Census there were 2,152,433 persons ten years of age and over in New York City engaged in gainful occupations in 1910. The gainful workers thus formed 45.2 per cent. of the total population of the city (4,766,883) and 56.3 per cent. of the population ten years of age and over (3,821,540). In 1900 the 1,469,908 gainful workers of the city formed 42.8 per cent. of the total population and 54.7 per cent. of the population ten years of age and over.

The male gainful workers in 1910 numbered 1,566,240, or 82.1 per cent. of all males ten years of age and over, as compared with 1,102,471, or 83 per cent., in 1900. The female gainful workers in 1910 numbered 586,193, or 30.6 per cent. of all females ten years of age and over, as compared with 367,437, or 27.1 per cent., in 1900.

DISTRIBUTION OF WORKERS.

The 2,152,433 gainful workers in 1910 were distributed among the main branches of occupations as follows: Agriculture, forestry, and animal husbandry, 9,950, or 0.5 per cent.; extraction of minerals, 886, or less than one-tenth of 1 per cent.; manufacturing and mechanical industries, 873,497, or 40.6 per cent.; transportation, 169,834, or 7.9 per cent.; trade, 361,053, or 16.8 per cent.; public service, 41,004, or 1.9 per cent.; professional service, 127,395, or 5.9 per cent.; domestic and personal service, 333,954, or 15.5 per cent.; and clerical occupations, 234,860, or 10.9 per cent.

SEX OF WORKERS.

Of the gainful workers in 1910, 1,566,240, or 72.8 per cent., were males and 586,193, or 27.2 per cent., females. In agriculture, forestry, and animal husbandry the males numbered 9,455, or 95 per cent., and the females 495, or 5 per cent. Nearly all—848, or 95.7 per cent.—of the persons engaged in the extraction of minerals were males. In manufacturing and mechanical industries 665,538, or 76.2 per cent., of the workers were males and 207,959, or 23.8 per cent., females. Males constituted 94.8 per cent. of the 169,834 persons engaged in transportation, 85.9 per cent. of the 361,053 persons engaged in trade, and 99.2 per cent. of the 41,004 persons engaged in public service. In professional service 78,972, or 62 per cent., of the workers were males and 48,423, or 38 per cent., females, a large proportion of the females being school teachers. Domestic and personal service was the only large field of occupations in which the females outnumbered the males. Here females numbered 191,152, or 57.2 per cent., and males 142,802, or 42.8 per cent., of the workers. Of the persons pursuing clerical occupations, 156,836, or 66.8 per cent., were males and 78,024, or 33.2 per cent., females.

COLOR OR RACE OF WORKERS.

Of the 1,566,240 gainfully occupied males in 1910, 255,393 were native whites of native parentage, 415,926 native whites of foreign or mixed parentage, 856,650 foreign-born whites, 33,110 negroes, and 5,161 other colored. The proportion which the gainfully occupied males formed of all the males ten years of age and over in each principal class of the population was: For native whites of native parentage, 75.5 per cent.; for native whites of foreign or mixed parentage, 72.2 per cent.; for foreign-born whites, 90 per cent.; and for negroes, 90.7 per cent.

Of the 586,193 gainfully occupied females in 1910, 93,266 were native whites of native parentage, 189,739 native whites of foreign or mixed parentage, 276,648 foreign-born whites, 26,352 negroes, and 188 other colored. The proportion which the gainfully occupied females formed of all the females ten years of age and over in each principal class of the population was: For native whites of native parentage, 26.8 per cent.; for native whites of foreign or mixed parentage, 30.7 per cent.; for foreign-born whites, 30.6 per cent.; and for negroes, 60.7 per cent.

AGE OF WORKERS.

The gainfully occupied males in 1910 were distributed according to age periods as follows: Ten to thirteen years, 712; fourteen to fifteen years, 20,696; sixteen to twenty years, 189,497; twenty-one to forty-four years and age unknown, 1,012,631; and forty-five years and over, 342,704. The proportion which the gainfully occupied males formed of all males in each age period was: For those ten to thirteen years of age, 0.4 per cent.; for those fourteen to fifteen years of age, 25.9 per

OCCUPATIONS—NEW YORK CITY SUMMARY—Continued.

cent.; for those sixteen to twenty years of age, 84.2 per cent.; for those twenty-one to forty-four years of age, 97.3 per cent.—that is, all but three men in every 100 had gainful occupations—and for those forty-five years of age and over, 87.1 per cent.

The gainfully occupied females in 1910 were distributed according to age periods as follows: Ten to thirteen years, 622; fourteen to fifteen years, 16,539; sixteen to twenty years, 171,780; twenty-one to forty-four years and age unknown, 330,738; and forty-five years and over, 66,514. The proportion which the gainfully occupied females formed of all females in each age period was: For those ten to thirteen years of age, 0.4 per cent.; for those fourteen to fifteen years of age, 20.2 per cent.; for those sixteen to twenty years of age, 65.8 per cent.; for those twenty-one to forty-four years of age, 32.9 per cent.; and for those forty-five years of age and over, 16.8 per cent.

NUMBER OF CHILDREN AT WORK.

In New York City in 1910 there were 21,408 males and 17,161 females ten to fifteen years of age engaged in gainful occupations; or, stated otherwise, 8.6 per cent. of the males and 6.8 per cent. of the females ten to fifteen years of age were gainful workers. In 1900 there were 29,871 males and 22,868 females ten to fifteen years of age engaged in gainful occupations.

Laundresses (not in laundry).....	17,823	Tailoresses.....	6,002
Laundry operatives.....	5,874	Teachers (school).....	21,683
Messenger, bundle, and office girls.....	2,664	Telephone operators.....	7,362
Milwives and nurses (not trained).....	9,709	Trained nurses.....	7,504
Miliners and millinery dealers.....	12,096	Waitresses.....	8,958

WEIGHTS AND MEASURES.

RESUMÉ OF THE LAWS OF THE STATE OF NEW YORK.

The laws of the State of New York relating to weights and measures are administered by the State Superintendent of Weights and Measures (John F. Farrell, Capitol, Albany, N. Y.; No. 55 Liberty Street, New York City), the Weights and Measures officials in the cities, and County Sealers.

All weights and measures used in the State for purposes of barter and sale are tested by them and if found to conform with the standards and the sizes prescribed by law, are sealed. If incorrect, the weights and measures are condemned and confiscated.

The following gives briefly a digest of some of the more important of the laws in question:

SALES BY NET WEIGHT.

(1) *Commodities Not in Containers*—(Sec. 16)—(a) Meat, meat products and butter shall be sold or offered for sale by weight. (b) All other commodities not in containers shall be sold or offered for sale by standard weight, measure or numerical count, except: (c) Vegetables may be sold by the head or bunch. In all these cases the weight, measure or count shall be marked on a label or tag attached to the goods; a sales-slip given with the goods is sufficient.

(2) *Commodities in Containers*—Where commodities are sold in containers (goods packed before sale, bottled goods, canned goods, etc.) the net quantity of the contents of each container, or the gross quantity and the weight of the container, must be marked on the top or side thereof (sec. 17), except that no marking is necessary in the following cases: (a) Goods in containers whose sizes are provided by statute, as milk in $\frac{1}{2}$ -gallon, 2-pint, quart, pint, $\frac{1}{2}$ -pint, and gill bottles (sec. 5a); vegetables, produce, or fruit in containers of sizes of barrel, half-barrel, bushel, or multiples of the barrel, or sub-multiples of the bushel divisible by two (barrel to contain 7,056 cubic inches, (sec. 16a); grapes in baskets of standard 4-lb., 8-lb., and 20-lb. sizes (sec. 16b); flour and meal repacked in this State in standard size barrels (sec. 221); beef or pork repacked in the State in standard size barrels (sec. 240). (b) Goods in containers with ornamentations, exclusively for gifts. (c) Commodities dispensed for consumption on the premises. (d) Commodities put in receptacles used merely for delivery. (e) When numerical count of units is six or less. (f) In case of liquids, when contents is 2 fluid ounces or less. (g) When weight of contents is three avoirdupois ounces or less. (h) Spirituous, maltous, vinous, or carbonated beverages prior to June 1, 1915 (sec. 17a).

(3) *Rules and Regulations*—Reasonable variations are allowed, and these, together with rules and regulations for the carrying out of the provisions of the act, may be made by the State Superintendent of Weights and Measures with the co-operation of the chief Weights and Measures officials of the cities of the first class (secs. 17, 18).

(4) *Penalties*—\$100 or not less than \$25 nor more than \$100 for the first and second violations, and not less than \$100 nor more than \$500 for subsequent violations (sec. 18a).

FLOUR AND MEAL—Packing—Wheat flour, rye flour, Indian meal, or buckwheat meal manufactured in this State for exportation shall be packed in good, strong casks, made as specified in the law (sec. 220), and of definite sizes containing 196 lbs. and 98 lbs. respectively. Indian meal may also be packed in hogsheads containing 800 lbs. All shall have tare and net weight branded thereon, and all, except Indian meal, shall also have the initials and surname of the manufacturer branded or painted thereon (sec. 222); they must be branded as to quality (secs. 222-225). *Penalties*—\$500 fine for offering for sale any undermarked cask, or undermarking any cask (sec. 226). \$100 fine for altering or counterfeiting any such brand marks; \$5 fine for putting any flour or meal in any empty cask previously used and branded and offering for sale without first cutting out the brands (sec. 227). \$5 fine for offering for sale as good wheat flour any mixed or unsound flour (sec. 228). 20 cent fine for each barre and 80 cents for each hogshead of Indian meal transported into the city of New York upon the deck of any vessel (sec. 229).

BEEF AND PORK—Packing—Beef and pork repacked in the State shall be in barrels made as provided in the law (sec. 240), 200 lbs. to the barrel, 100 lbs. to the half-barrel, or 300 lbs. to the tierce. For the barrels used in repacking in Suffolk, Kings, Queens and Nassau Counties special provision is made for the use of wood grown in those counties (sec. 241). The quality of the pork must be branded on the barrel (sec. 242). *Penalties*—No particular penalties attached. Violation of any provision is a misdemeanor.

HOPS AND HAY—Packing—Bales of hops must weigh between 175 and 210 lbs.; 5 lbs. tare to be deducted; not more than 5 yards of sacking, weighing 24 to 30 oz. to the yard, can be used for any bale, excess to be deducted as additional tare. The bale must have the initials and surname of the person putting up the hops, and the gross weight marked or stamped thereon (secs. 250, 252). Hay bales weighing 200 lbs. or more shall not contain more than 20 lbs., and those weighing less than 200 lbs. more than 10 lbs. of wood to the bale (sec. 255); the "presser" must use correct, sealed scales, and shall mark each bale with his name and address and the correct weight of the bale; these markings must be on a tag attached to the bale, at least $1\frac{1}{2}$ in. by 3 in. in size (sec. 253); 5 lbs. is allowed for shrinkage (sec. 255). *Penalties*—\$5 fine for failure to mark or wrong marking of hops. \$100 fine for adulterating hops, or for counterfeiting marks on any bale of hops. \$5 fine for violation of any provision in regard to packing hay, or for adulterating hay.

CANNED GOODS—No canned goods used for food (excepting canned or condensed milk and imported goods of foreign manufacture) shall be sold for consumption in this State unless the cans or jars bear a label showing the grade or quality, the name and address of the person canning or packing them, or the name of the wholesale dealer in the State selling the same, and the name of the State, county, and city, town or village where packed, preceded by the words "packed at." The word "soaked" must also be on containers holding soaked goods or goods put up from products dried or cured before canning (sec. 390). *Penalties*—\$50 fine for a retailer and \$500 fine for a wholesaler or packer violating any of the above provisions, payable to the city, village, or town where the violation occurs.

FRUIT—Sale—Strawberries, raspberries, blackberries, currants, gooseberries, plums, cherries, cranberries, and other small fruits shall be sold only in standard size containers: the quart, containing when even full, 67.2 cu. in.; the pint, containing when even full, 33.6 cu. in.; the half-pint containing, when even full, 16.8 cu. in., and multiples of the quart. A violation of not more than 7% is allowed (sec. 391). *Penalties*—Violation of above is a misdemeanor, each sale being a separate offence; fine of from \$5 to \$25. **Repacking**—Fruit shall not be repacked in a barrel or package, whether or not it is the same fruit that was originally contained therein, unless the name of the grower or producer was first erased therefrom. *Penalties*—\$50 fine for each barrel or package sold in violation of above provisions (sec. 392).

NOTE—By General Business Regulations (law 1914, chap. 418), provision is made for the method of packing apples and marking the quality thereof. These matters are under the jurisdiction of the Commissioner of Agriculture.

GINSENG AND FOREIGN SEEDS—Ginseng roots, or seeds foreign to the United States, or raised from any stock imported from any country outside the United States, must be in packages labelled with a statement in plain English of the name of such foreign country (sec. 393).

SALES OF COAL, COKE, AND CHARCOAL—Must be weighed on officially tested scales. Delivery ticket showing amount must be delivered to purchaser. Baskets or bags must contain 100 lbs., or weight must be marked thereon. Any weights or measures official may weigh on a scale designated by him, or purchaser may request reweighing (secs. 383-388). *Penalty*—Fine of not over \$50 for first offence; not over \$100 or two months' imprisonment, or both, for subsequent offences (sec. 389). *Application*—Provisions as to coal, etc., do not apply to city of New York (sec. 389a). For information as to special ordinances there, apply to Mayor's Bureau of Weights and Measures.

SALE OF THREAD—Each spool, ball, skein, tube, bobbin, cone or other package shall have a label showing net weight or length. When offered in boxes, etc., this label may be on the box. *Penalty*—Fine of \$20 for each spool, etc., not marked, or incorrectly marked with intent to deceive; to be recovered by any person who may sue for same, one-half to be paid to State Treasurer (sec. 394).

FALSE ADVERTISEMENTS—Publishing untrue and misleading advertisements, or falsely labelling goods is a misdemeanor (secs. 421, 435, 436, Penal law).

FALSE WEIGHTS, ETC.—Knowingly using or keeping for use false weights or measures, selling less than quantity represented, and making false or short weights are misdemeanors (secs. 2410, 2417, Penal law).

NOTE—All references above to section numbers are to the General Business law, as amended, when not otherwise indicated.

THE COTTON SUPPLY.

CROP OF THE UNITED STATES FOR TWENTY YEARS.

The following statements are furnished by the New York "Commercial and Financial Chronicle":

YEAR.	Bales.	YEAR.	Bales.	YEAR.	Bales.	YEAR.	Bales.

AGRICULTURAL RANK OF STATES.

(Report of Bureau of Census, February 13, 1914.)

The general report on the census on agriculture of the Thirteenth Census discloses some interesting facts regarding the crops of the country and the relative rank of the States in regard to the value of all farm crops according to farm values.

Eleven of the leading crops in 1909 showed a total aggregate value of \$4,813,281,000, or approximately 90 per cent. of the total value of all the crops of the United States, which amounted to \$5,487,161,000. Of these eleven leading crops corn was the most valuable, followed by hay and forage, cotton, wheat, oats, vegetables (of all kinds), forest products on farms (timber, lumber, etc.), potatoes, tobacco, barley and apples, in the order named. The value of the corn crop alone was \$1,438,554,000; that of cotton, \$703,619,000; that of wheat, \$657,657,000; that of vegetables, \$216,257,000; that of tobacco, \$104,304,000.

The relative rank of the first nine States in regard to value of crops showed that Illinois led with a total valuation for all farm crops of \$372,000,000; Iowa was second with \$315,000,000; Texas third with \$298,000,000, followed by Ohio with \$230,000,000; Georgia, \$227,000,000; Missouri, \$221,000,000; Kansas, \$215,000,000; New York, \$209,000,000, and Indiana, \$204,000,000.

The State of Illinois ranked first in its production of corn, followed by Iowa and Missouri in the order named. New York ranked first in the production of hay and forage, followed by Iowa and Wisconsin. Texas ranked first in the production of cotton, followed by Georgia and Mississippi. North Dakota was first in the production of wheat, followed by Kansas and Minnesota. Illinois was first in the production of oats, followed by Iowa and Minnesota. New York led in the production of vegetables and Ohio was second. North Carolina ranked first in the production of forest products on farms (timber, lumber, etc.), followed by New York and Virginia. New York was first in the production of potatoes, with Pennsylvania second and Maine third. Kentucky ranked first in the production of tobacco; North Carolina second and Virginia third. Minnesota ranked first in the production of barley, followed by California and Wisconsin. New York also ranked first in the production of apples, with Michigan second and Pennsylvania third.

A summary of the relative rank of the States in these eleven leading farm crops shows that New York ranked first in four; Illinois first in two, with Texas, North Dakota, North Carolina, Kentucky and Minnesota ranking first in one each. Iowa ranked second in three of these above-mentioned crops, with Georgia, Kansas, Ohio, New York, Pennsylvania, North Carolina, California and Michigan ranking second in one each. Minnesota, Wisconsin and Virginia each ranked third in two of these crops, with Missouri, Mississippi, Pennsylvania and Maine third in one each.

RANK OF COUNTIES BY VALUE OF CROPS.

(Report of Bureau of Census, March 25, 1914.)

Los Angeles County, Cal., took the first rank as regards value of crops of all the 2,950 counties of the United States, according to the final report on the census of agriculture, 1910. Lancaster County, Pa., ranked second as regards value of the production of crops; McLean County, Ill., was third; Whitman County, Washington, fourth; Livingston County, Ill., fifth; Iroquois County, Ill., sixth; La Salle County, Ill., seventh, and Aroostook County, Me., eighth.

The valuation (at the farm) of the crops raised in Los Angeles County, Cal., according to the census, was \$14,720,900; Lancaster County, Pa., \$13,059,600; McLean County, Ill., \$12,811,500; Whitman County, Wash., \$12,540,700; Livingston County, Ill., \$11,377,300; Iroquois County, Ill., \$10,607,800; La Salle County, Ill., \$10,222,200, and Aroostook County, Me., \$10,151,000. The total valuation of the crops raised in these eight counties was \$95,491,000, or about 2 per cent. of the total valuation of all crops raised in the United States, which was \$5,487,161,000.

The principal crops raised in Los Angeles County in the order of their value were fruits, etc., hay and forage, live stock, dairy products, etc., and vegetables; of Lancaster County Pa., corn, wheat and oats, and live stock and dairy products; of McLean County Ill.; Whitman County, Wash.; Livingston County, Ill., and La Salle County, Ill., corn, wheat, oats and cereals, and of Aroostook County, Me., potatoes and vegetables. The principal crops of the United States, in the order of their value, were the cereals, corn, wheat, oats, etc., hay and forage, and cotton.

Some interesting data are presented by the figures for the value per acre and per capita of the crops raised in these eight banner counties of the United States. The figures for Los Angeles County show that the total value of the crops raised there averaged \$35 per acre and \$29 per capita (the city of Los Angeles with a population of 320,000, being within Los Angeles County, is the chief reason for the low rate per capita); for Lancaster County, Pa., \$28 per acre and \$78 per capita; for McLean County, Ill., \$18 per acre and \$188 per capita; Whitman County, Wash., \$14 per acre and \$377 per capita; Livingston County, Ill., \$18 per acre and \$281 per capita; Iroquois County, Ill., \$16 per acre and \$298 per capita; La Salle County, Ill., \$17 per acre and \$113 per capita, and Aroostook County, Me., \$23 per acre and \$136 per capita. The corresponding crop value figures (at the farm) for the United States for the same year were \$16 per acre and \$60 per capita.

Wools of Classes I. and II. are used for the manufacture of cloths, dress goods, and similar fabrics. Domestic wools are of these two classes. Class III. wools are used principally in the carpet manufacture, and are practically not grown in the United States. The domestic wool shown in the above table is the quantity in its greasy state as shorn from the sheep. Fleece wool is wool shorn from living sheep. Pulled wool is wool removed from the skin of slaughtered animals.

Reduced to the scoured condition fit for use in manufacture, the annual production and total value based on the price in Boston in October of each year for the years 1902-1913, inclusive, are as follows:

YEAR.	Fleece and Pulled. Scoured.	Total Value.	Value per Pound.		YEAR.	Fleece and Pulled. Scoured.	Total Value.	Value per Pound.	
			Fleece.	Pulled.				Fleece.	Pulled.
			Pounds.	Cents.				Cents.	Pounds.

Number of sheep in the world according to the most recent available statistics and estimates: North America, 57,653,443; South America, 112,782,048; Europe, 164,888,831; Asia, 110,058,874; Africa, 51,357,381; Oceania, 107,217,140; total world, 603,957,717. The world's wool production amounts to 2,880,889,511 pounds, according to the latest official returns and estimates.

The wool statistics in above tables were prepared by Wm. J. Battison, of Boston, for the National Association of Wool Manufacturers.

INTEREST PAID BY FARMERS ON LOANS.

In March, 1913, the Bureau of Statistics of the Department of Agriculture mailed nearly 3,000 letters to country banks of the United States, containing the following request and explanation:

This bureau proposes to make an inquiry each year concerning the average rate of interest paid by farmers on loans, the reports to be compiled into averages by States, and so published in the *Crop Reporter*, a publication of this department. The purpose of the inquiry is to show the average differences which prevail in the different States, and, as the inquiry proceeds, to show the change in the average rates from year to year. It is hoped that you will assist us by reporting for your community.

Question 1. What is the average of the current rates of interest paid to banks by farmers for 3 to 6 month s' loans. (Rate which will represent as nearly as possible the average of all such loans, secured and unsecured.)

Question 2. What was the average for similar loans a year ago?

About 90 per cent. of the banks replied. Their replies were tabulated and averaged, with the following results:

[Averages of answers to questions quoted above.]

* The word "Census" in this table refers in all cases to Census of 1910.

(a) Not including rice. (b) Included in orchard products. (c) Including wax. (d) \$656,301,246 was the aggregate value of milk, butter and cheese by the Census of 1910. (e) Not including peanuts. (f) Value of product in 1905, based on the export value of refined. (g) Includes Hawaii and Porto Rico. (h) Made in factories. The product on farms and plantations in 1909 was 4,153 gallons, valued at \$1,710.

The Census of 1910 gives the following farm statistics for the United States: Farms, total number, 6,361,502; total acres in farms, 878,798,305; improved acres in farms, 478,451,750; value of land in farms, \$28,475,674,169; value of buildings on farms, \$8,325,451,523; value of implements and machinery on farms, \$1,295,149,783; value per acre of land and buildings, \$39.50; value per acre of land alone, \$32.40. Value of wheat produced on farms in 1910, estimated by Secretary of Agriculture, \$3,926,000,000.

DOMESTIC ANIMALS IN THE UNITED STATES.

(From a Report of the Department of Agriculture.)

DOMESTIC ANIMALS.	ON FARMS (1914.)		DOMESTIC ANIMALS.	ON FARMS (1914.)	
	Number.	Value.		Number.	Value.
All domestic animals.....	190,655,000	\$5,891,229,000	Mules.....	4,449,000	\$551,017,000
Milch cows and other cattle.....	66,592,000	\$2,334,820,000	Sheep.....	49,719,000	200,803,000

* Report issued bi-annually. Figures for 1912 used.

The following was the statement of receipts and expenditures by local associations in 1913: Receipts: Cash on hand January 1, 1913, \$35,041,321; weekly dues, \$275,509,899; paid-up stock, \$35,060,578; deposits, \$76,000,960; loans repaid, \$239,646,946; interest, \$72,406,320; premium, \$4,217,283; fines, \$1,046,297; pass books and initiation, \$776,699; borrowed money, \$89,679,849; real estate sold, \$4,955,468; miscellaneous receipts, \$28,468,265; total receipts, \$862,809,885.

Disbursements: Pass book loans, \$30,894,647; mortgage loans, \$327,831,168; stock withdrawals, \$231,976,241; paid-up stock withdrawals, \$34,624,086; deposit withdrawals, \$69,158,306; expenses, \$7,844,018; borrowed money repaid, \$87,657,864; interest, \$1,668,940; real estate purchased, \$6,361,229; miscellaneous disbursements, \$28,063,868; cash on hand, January 1, 1914, \$36,729,518; total disbursements, \$862,809,885.

The officers of the league: President, Charles E. Clark, Covington, Ky.; First Vice-President, Herbert W. Pinkham, Quincy, Mass.; Second Vice-President, George F. Gilmore, Omaha, Neb.; Third Vice-President, L. L. Rankin, Columbus, Ohio; Treasurer, Joseph K. Gamble, Philadelphia, Pa.; Secretary, H. F. Cellarius, Cincinnati, Ohio; Assistant Secretary, E. L. Keesler, Charlotte, N. C.

TEA, COFFEE AND COCOA.

(Compiled by the Bureau of Foreign and Domestic Commerce, Department of Commerce.)

Coffee—Sources of supply in 1912. Exports from coffee-growing countries in pounds (from the Year Book of the Department of Agriculture):

Brazil.....	1,597,950,000	Jamaica.....	10,034,000
Central America.....	195,422,100	British India.....	34,937,000
Colombia.....	123,442,000	Dutch East Indies.....	52,517,000
Venezuela.....	117,042,000	Other countries.....	69,248,000
Haiti.....	80,812,000		
Mexico.....	53,759,000	Total.....	2,384,879,000
United States.....	49,716,000		

Consumption of leading countries, in pounds:

United States (1914).....	993,275,000	Sweden (1913).....	75,102,000
Germany (1913).....	362,084,000	Italy (1913).....	62,516,000
France (1913).....	254,155,000	United Kingdom (1913).....	28,100,000
Austria-Hungary (1913).....	130,952,000	British South Africa (1913).....	26,910,000
Netherlands (1913).....	120,029,000	Russia (1912).....	26,142,000
Belgium (1913).....	93,250,000	Norway (1913).....	29,660,000

Imports of coffee into the United States, year ending June 30, 1914, were: From Brazil, 743,113,500 pounds, value \$76,016,463. Colombia and Venezuela, 141,783,991 pounds, value \$17,750,278. Central America, 40,202,480 pounds, value \$4,943,643. Mexico, 49,385,504 pounds, value \$8,028,186. The remainder came in smaller quantities from other countries, with 4,430,722 pounds of domestic coffee from Hawaii and 420,644 pounds from Porto Rico.

Tea—Sources of supply: Production of the principal tea-growing countries in pounds (figures for China, Ceylon and Java show exports only):

British India (1912).....	296,302,000	Japan (1912).....	72,571,000
China (1913).....	192,281,000	Java (1912).....	61,818,000
Ceylon (1913).....	191,509,000	Formosa (1911).....	39,598,000

Consumption of leading countries, in pounds:

United Kingdom (1913).....	305,690,000	Netherlands (1913).....	12,044,000
Russia (1912).....	151,037,000	Germany (1913).....	9,414,000
United States (1914).....	90,148,000	New Zealand (1913).....	7,069,000
Canada (1914).....	37,628,000	Austria-Hungary (1913).....	3,571,000
Australia (1912).....	35,033,000	France (1913).....	2,429,000

Imports of tea into the United States during the year ending June 30, 1914, were 91,130,815 pounds, valued at \$16,735,302. Of this 41,913,273 pounds were imported from Japan and 20,139,342 pounds from China.

Cocoa—World's production of cocoa, 1913, in pounds: Gold Coast, 112,876,000; Ecuador, 93,255,000; St. Thomas (Portuguese), 79,366,000; Brazil, 65,697,000; Trinidad, 48,060,000; Santo Domingo, 42,990,000; Venezuela, 37,478,000; Grenada, 11,464,000; all other countries, 72,310,000. Total production, 563,496,000.

Consumption of leading countries, in pounds: United States, 148,810,000; Germany, 112,435,000; France, 61,288,000; United Kingdom, 60,847,000; Netherlands, 66,138,000; Switzerland, 22,487,000; Belgium, 13,450,000; Spain, 13,450,000; Austria-Hungary, 14,550,000; all other countries, 40,781,000. Total consumption, 554,236,000. (Data from the "Gordian.")

Imports of crude cocoa into the United States in the fiscal year 1913-14 amounted to 176,267,646 pounds, valued at \$20,797,790. One-fourth of the imports came from the British West Indies.

FINANCIAL REPORTS OF THE PRINCIPAL EXPRESS COMPANIES.

From statements filed with the Interstate Commerce Commission for year ended June 30, 1913.

ITEM.	Adams Express Co.	American Express Co.*	Wells Fargo & Co.
Express revenue.....	\$34,693,433.30	\$45,807,631.95	\$34,327,572.35
Miscellaneous transportation revenue.....	132,696.62	3,565.15
Non-transportation revenue.....	355,997.85	2,041,377.72	603,676.28
Gross receipts from operation.....	\$35,182,127.77	\$47,849,009.67	\$34,934,813.78
Express privileges—debtor.....	18,444,344.98	23,277,072.38	16,908,590.36
Total operating revenues.....	\$16,737,782.79	\$24,571,937.29	\$18,026,223.42
Maintenance.....	\$992,316.79	\$1,218,029.22	\$738,662.31
Traffic expenses.....	152,730.96	473,658.48	370,453.04
Transportation expenses.....	14,279,990.39	20,076,452.28	13,738,759.56
General expenses.....	1,140,778.11	1,871,727.48	1,162,323.09
Total operating expenses.....	\$16,565,816.25	\$23,639,867.46	\$16,010,198.00
Net operating revenue.....	\$171,966.54	\$932,069.83	\$2,016,025.42
Taxes accrued.....	196,617.59	360,192.36	357,201.95
Net operating income.....	† \$24,651.05	\$571,877.47	\$1,658,823.47

Net operating income of the companies mentioned for 1912 was as follows: Adams, surplus of \$980,991; American, surplus of \$1,340,415; Wells Fargo & Co., surplus of \$2,186,082.

* Includes operations of National Express Company. † Deficit.

TRAVELERS' AID SOCIETY.

President—Gilbert Colgate. Vice-Presidents—Cardinal Farley, Dr. Francis Brown, Dr. Samuel Schullman, Rt. Rev. D. J. McMahon, Bishop David H. Greer. Treasurer—Samuel M. Taylor. Chairman of Executive Committee—Grace H. Dodge. General Secretary—Orin C. Baker. Headquarters, 465 Lexington Avenue, New York City.

The Travelers' Aid Society is non-sectarian in organization and work, has national and international co-operation. Object: Protects and assists all travellers, especially young women, girls and boys, without fee or gratuity. Safeguards in all the emergencies of travel from influences and dangers vicious, morally, financially, and physically. Prevents error, extortion and crime, relieves suffering, and combats vice of every form. Trained women agents, recognized by official badge, meet trains and boats. Supported by voluntary contributions.

SUGAR PRODUCTION.

MULHALL gives the following estimates of the production of cane and beet sugar in the world in English tons from 1870 to 1898; and Willett & Gray, New York, for the years following:

YEARS.	Cane.		Total.	YEARS.	Cane.		Total.	YEARS.	Cane.		Total.
	Tons.	Tons.	Tons.		Tons.	Tons.	Tons.		Tons.	Tons.	Tons.
1870...	1,850,000	900,000	2,750,000	1902...	4,079,742	6,913,504	10,993,246	1908...	6,917,663	7,002,474	13,920,137
1880...	1,960,000	1,810,000	3,770,000	1903...	4,163,941	5,756,720	9,920,661	1909...	7,625,539	6,927,875	14,553,414
1890...	2,590,000	2,780,000	5,360,000	1904...	4,234,303	6,089,465	10,323,631	1910...	8,327,069	6,597,506	14,914,575
1898...	2,850,000	4,650,000	7,500,000	1905...	4,584,762	4,918,480	9,513,262	1911...	8,422,447	8,560,346	16,982,793
1900...	3,056,294	5,590,992	8,647,286	1906...	6,731,165	7,216,060	13,947,225	1912...	9,066,030	6,820,266	15,886,296
1901...	3,646,059	6,066,939	9,712,998	1907...	7,329,317	7,143,818	14,473,135	1913...	9,215,637	8,965,127	18,180,764

The production of sugar in 1912-1913 by sugar-growing countries, in tons of 2,240 pounds, as reported by Willett & Gray, was:

COUNTRIES.	Cane Sugar.	COUNTRIES.	Cane Sugar.	COUNTRIES.	Beet Sugar.
Louisiana.....	137,119	Java.....	1,331,180	United States.....	624,064
Porto Rico.....	350,323	Hawaii.....	488,213	Germany.....	2,732,189
Cuba.....	2,428,537	Queensland.....	113,060	Austria.....	1,919,853
British West Indies.....	75,872	Mauritius.....	206,497	France.....	978,838
Hayti and S. Domingo.....	84,661	Demerara.....	83,922	Russia.....	1,383,754
Peru.....	140,000	Argentina.....	147,248	Belgium.....	300,253
Brazil.....	204,000	Philippines.....	155,201	Holland.....	316,933

Beet sugar production in the United States in 1912-13, by States, in tons of 2,240 pounds: Michigan, 87,337; Wisconsin, 19,643; Colorado, 193,432; Utah, 53,161; Idaho, 22,107; California, 141,805; Nebraska, 23,290; Ohio, 26,415; all others, 56,874. Total, 624,064 tons.

CONSUMPTION OF SUGAR.

Licht's estimate of consumption of sugar of all kinds in various countries in 1912-13 per capita in pounds was: Germany, 48.95; Austria, 28.12; France, 43.41; Spain, 16.24; England, 95.52; Switzerland, 77.24; United States (W. & G.), 85.40; Russia, 24.33; Netherlands, 49.90; Denmark, 98.96; Italy, 10.76; Belgium, 39.20; Turkey, 19.84; Sweden, 57.09; Norway, 45.83.

The consumption of sugar in the United States in the calendar year 1913, estimated by Willett & Gray, of New York, was:

Imported (including 506,555 tons Hawaiian, 331,103 Porto Rican, and 44,620 Philippine sugar).....	2,890,667	Domestic Maple.....	9,000
Domestic, manufactured from imported molasses.....	10,450	Domestic Beet.....	625,314
Domestic Cane.....	207,708	Domestic Total.....	852,472
		Total product consumed in the U. S.	3,743,139

or 85.40 pounds per capita.

PRODUCTION OF TOBACCO.

RETURNS FOR 1913 TO THE DEPARTMENT OF AGRICULTURE.

1905	730,639	1911	955,176	1914	345,783

* Receipts at Chicago, Kansas City, St. Joseph, St. Paul, and Sioux City. No returns for Omaha and St. Louis. † No data for Sioux City.

The trend of the calf slaughter in this country, which has been regarded as excessive in recent years, is shown in above table by the receipts of calves at the seven cities mentioned from 1900 to 1913 and during the first half of 1912, 1913, and 1914. From 1902, when 517,702 calves were received, the receipts increased to 981,309 in 1910, or nearly doubled in eight years. The decline during the three years since 1910 has been more marked than the increase during the three years preceding. During the first half of 1914 the receipts of calves at the seven cities were only about two-thirds of the number in the first half of 1912. While farmers may be raising more calves to maturity, it may be true on the other hand that fewer calves are born.

Apparently the leather industries in this country may reckon on a diminishing supply of cattle hides from the United States for present purposes, and will need to depend on a redistribution of the world's supply in international trade, not only for an increase of imports but to prevent a great decrease.—(From *The Agricultural Outlook*.)

The diminishing marketings of cattle since 1907, and especially since 1910, in Chicago, Kansas City, Omaha, St. Louis, Sioux City, St. Joseph, and St. Paul, tell the tale of a diminishing hide production in this country.

COAL PRODUCTION.

AREA of coal fields in the United States, 450,839 sq. miles, including 89,482 sq. miles supposed, but not definitely known, to contain usable coal, and 28,470 sq. miles in which the coal lies under cover 3,000 or more feet in thickness. Estimated available supply at close of 1913 (short tons), 3,538,506, 328,300.

In regard to the coal supplies of the countries outside of the United States, the Geological Survey does not know of any official estimates, with the exception of those of Great Britain, which have been placed by the Royal Commission of Coal Supplies at approximately 180,000,000,000 short tons. A statement by the Secretary of the Bituminous Coal Trade Association places the German supply at 164,344,000,000 short tons; Canada's known supplies at 100,000,000,000 short tons; Japan at 50,000,000,000 short tons. Estimates in short tons for the other countries of Europe are as follows: France, 25,000,000,000; Austria-Hungary, 30,000,000,000; Belgium, 20,000,000,000; Spain, 4,000,000,000.

The same authority places the contents of the Chinese fields at 1,500,000,000,000 short tons. His estimates of the areas in square miles of the countries outside of the United States are as follows: China, 232,500; Canada, 65,000; India, 35,000; New South Wales, 24,000; Russia, 20,000; Great Britain, 12,000; Spain, 5,500; Japan, 5,500; France, 2,500; Austria-Hungary, 1,800; Germany, 1,700; Belgium, 500; Siberia, Central Asia and Africa, 180,000.

A monograph of the Coal Resources of the World was compiled by the executive committee of the Twelfth International Congress of Geology, which met at Toronto, Canada, August 7 to 14, 1913. The total resources are estimated at 7,397,533 million tons, of which 4,000,000 million tons are bituminous, 3,000,000 million tons brown coal, and the remainder anthracite.

The world's annual production of coal in short tons in countries approximating 1,000,000 tons or more are as follows, with the year in parentheses: United States (1913) 570,048,125, Great Britain (1913) 321,922,130, Germany (1912) 281,979,467, Austria-Hungary (1912) 56,954,579, France (1913) 45,108,544, Russia (1912) 31,752,744, Belgium (1912) 25,322,851, Japan (1912) 21,648,902, China (1912) 16,534,500, India (1912) 16,471,100, Canada (1913) 15,115,089, New South Wales (1913) 11,663,865, Spain (1912) 4,559,453, Transvaal (1911) 4,343,680, Natal (1911) 2,679,551, New Zealand (1912) 2,438,929, Holland (1912) 1,901,902, Asiatic Russia (1910) 1,371,261, Chile (1912) 1,470,917, Queensland (1912) 1,010,426, Mexico (1912) 982,396. Total, including other countries not stated, 1,443,393,052 tons, with the percentage of the United States as 39.5 of the world's total.

Figures reported by the U. S. Geological Survey. Average number of employes in 1913, 747,644. Imports of coal (bituminous and shale) into the United States in 1912 were 1,605,873 long tons, also 1,670 long tons of anthracite.

THE TERRITORY OF ALASKA.

The Sixty-second Congress enacted a law, approved Aug. 24, 1912, affecting legislation in Alaska. By certain sections of the act the legislative power and authority of the Territory is vested in a Legislature, to consist of a Senate of eight members (two from each of the four judicial districts into which Alaska is now divided) and a House of Representatives of sixteen members (four from each judicial district). It was provided that the election for members of the first Legislature take place the first Tuesday after the first Monday in November, 1912, and subsequent Legislatures to be elected biennially. The Legislature shall be convened biennially on the first Monday of March and continue in session not longer than sixty days. The veto power is vested in the Governor, but laws vetoed by him may be passed over his veto by a two-thirds vote of all the members of each House. All laws passed by the Territorial Legislature shall be transmitted by the Governor to the President of the United States and by him submitted to Congress, and if disapproved by Congress, shall be null and void.

In August, 1912, provision was made by law for a commission to investigate railway routes in Alaska and general conditions of transportation. The report of this commission was submitted to the President on January 20, 1913. As a result the Congress gave the matter serious consideration, and a law providing for railways in Alaska was enacted on March 12, 1914. In pursuance to the terms of this act an engineering commission was appointed by the President in May to locate a route or routes for a line or lines of railroad in Alaska, not to exceed in the aggregate one thousand miles, and to be so located as to connect one or more of the Pacific Ocean harbors of the southern coast of the Territory with the navigable waters in the interior, and with a coal field or coal fields so as best to aid in the development of the agricultural, mineral, and other resources, and the settlement of public lands, and so as to provide transportation of coal for the army and navy, etc. The cost of the work is not to exceed \$35,000,000. The report of the Engineering Commission, it is expected, will be in the hands of the President early in 1915.

The volume of merchandise shipments, including precious metals and copper, between Alaska and the United States, and between the Territory and foreign countries, during the fiscal year ended June 30, 1914, amounted to \$61,076,692. The principal shipments from Alaska were gold, amounting to \$12,291,672; fish (salmon canned, and all other) valued at \$15,201,438, copper \$3,876,411, and furs \$701,511.

* Production is for calendar year preceding the fiscal year. † Export statistics for the fiscal years ending June 30. ‡ Residuum—tar, pitch, and all other from which the light bodies have been distilled. In 1905 this amounted to 48,919,362 gallons, in 1906 to 75,031,824 gallons, in 1907 to 65,229,009 gallons, in 1908 to 70,581,822 gallons, in 1909 to 103,188,033 gallons, in 1910 to 124,055,263 gallons, in 1911 to 123,398,188 gallons, in 1912 to 168,339,478 gallons, in 1913 to 348,043,493 gallons, and in 1914, 588,513,450 gallons.

Figures of production furnished by the United States Geological Survey, exports compiled from the Report of Bureau of Foreign and Domestic Commerce, Department of Commerce.

381,508,916 barrels (of 42 gallons) of petroleum, according to the United States Geological Survey, were produced in the world in 1913. Of this amount 248,446,230 barrels were produced in the United States, 60,835,489 in Russia, and the remainder was distributed as follows: Galicia, 7,818,130; Dutch East Indies, 11,966,857; Rumania, 13,534,768; India, 7,500,000; Mexico, 25,696,291; Japan, 1,942,009; Peru, 1,857,355; Germany, 995,764; Canada, 228,080; Italy, 50,334; other countries, 517,616.

PRODUCTION OF COPPER, TIN, AND ZINC.

The production of copper in the world in 1913, stated in pounds, was as follows: United States, 1,224,484,098; Germany, 55,776,380; England, 661,380; Italy, 3,527,360; Norway, 19,400,480; Austria, 8,377,480; Russia, 74,735,940; Sweden, 2,204,600; Spain and Portugal, 120,591,620; Turkey, 1,102,300; Hungary, 661,380; Serbia, 14,109,440; Canada, 76,975,832; Mexico, 116,402,280; Argentina, 220,460; Bolivia, 8,157,020; Chile, 88,184,000; Peru, 56,658,220; Venezuela, 2,865,980; Cuba, 7,495,460; Cape Colony, 7,275,180; Namaqualand, 5,511,500; other Africa, 37,698,660; Japan, 161,376,720; Australia, 104,277,580. Grand total, 2,198,732,130.

The copper production of the United States in 1913 was distributed as follows (figures are in pounds): Alaska, 23,423,070; Arizona, 404,278,809; California, 32,492,265; Colorado, 9,052,104; Idaho, 8,711,490; Michigan, 155,715,286; Missouri, 576,204; Montana, 285,719,918; Nevada, 85,209,536; New Mexico, 50,196,881; North Carolina, 180; Oklahoma, 11; Oregon, 77,812; Pennsylvania, 245,337; Philippine Islands, 22; South Dakota, 4,549; Tennessee, 19,489,654; Texas, 39,008; Utah, 148,057,450; Vermont, 5,771; Virginia, 46,961; Washington, 732,742; Wyoming, 362,235; Undistributed, 46,803. Total, 1,224,484,098.

The world's tin deliveries for 1913, which approximate both consumption and production, as compiled by the New York Metal Exchange, were as follows (figures are short tons): London, 20,045; Continent of Europe, 28,707; Cornwall (production), 6,496; Bolivia (shipments), 27,832; South Africa (shipments), 3,584; China (shipments), 2,744; United States (receipts), 51,017. Total, 140,425. Deducting 10,416 tons of Straits, etc., tin from Continent, English, Bolivian, etc., delivered in the United States, makes the total marketed product approximately 130,009 short tons.

The production of zinc (spelter) in the world in 1913, in short tons, was as follows: Australia, 4,105; Austria and Italy, 23,928; Belgium, 217,928; France and Spain, 78,289; Germany, 312,075; Great Britain, 65,197; Holland, 26,811; Norway, 10,237; Poland, 8,389; United States, 346,676. Total, 1,093,635.

Figures for Copper, Tin and Zinc were furnished by the United States Geological Survey.

(a) Marketed production of iron ore in 1913: 59,643,098 long tons; value at mines, \$130,905,558. (b) By "spot" value is meant value at the point of production. (c) Ferro-alloys include ferro-manganese and spiegeleisen, ferrosilicon and ferrophosphorus, ferromolybdenum, ferrotitanium, ferrotungsten, and ferrovanadium. The ferro-alloys are made chiefly of foreign ores. (d) Average price per troy ounce in 1913, 60.4 cents. (e) Coining value, per troy ounce, \$20.67+. (f) The product from domestic ores only. (g) No production from domestic ores in 1913. (h) Includes brown coal and lignite and anthracite mined elsewhere than in Pennsylvania. Coke, 1913: 46,299,530 short tons; value at ovens, \$128,922,273. (i) Value of clay mined and sold as unmanufactured clay, 1913: \$4,180,459. (j) Includes limestone for iron flux, but not grindstones. (k) Included under feldspar and silica (quartz). (l) Included in the estimated value of unspecified mineral products. (m) Includes metallic paint, mortar colors, ochre, umber, sienna, shale, ground slate, sublimed blue lead, sublimed white lead, leaded zinc oxide and zinc oxide. (n) Estimated recoverable value of radium in ore when extracted. (o) Includes nitrate of soda, carbonate of soda, sulphate of soda, and alum clays used by paper manufacturers; and bismuth, cadmium, selenium, lithium minerals and marl, valued together in 1913 at \$500,000.

LIQUOR TRAFFIC.

LIQUOR LICENSES AND FEES.

- Alabama**—Since the repeal of the Prohibition law a number of counties have held local option elections, the majority of them deciding for a licensed liquor traffic.
- Alaska**—Local option under acts of Congress. License, \$1,000.
- Arizona**—Prohibition.
- Arkansas**—On October 13, 1913, the State Supreme Court sustained the validity of the Going Prohibition bill, making Arkansas a prohibition State January 1, 1914.
- California**—Local option, fee by authorities.
- Colorado**—Prohibition effective January, 1916.
- Connecticut**—Local option, fee \$150—\$450.
- Delaware**—New Castle County and city of Wilmington, licensed. Kent and Sussex Counties, prohibition.
- District of Columbia**—Licenses issuable at discretion of Excise Board, except within certain prescribed areas in which public institutions are located; except within certain distances of churches and educational institutions, and subject to other restrictions in the interest of public order and the diminution of temptation. Wholesale fee, \$800; bar-room fee, \$1,500 per annum.
- Florida**—Local option, fee \$1,000.
- Georgia**—The Prohibition law is practically a dead letter in the cities and poorly enforced in the country districts.
- Hawaii**—License by commissions appointed by the Governor.
- Idaho**—Local option by counties, fee \$750.
- Illinois**—Local option license by City Council or Village or County Board, fee not less than \$500.
- Indiana**—City and township. Whenever 20 per cent. of the voters of the county petition the County Commissioners the latter shall be a "yes" or "no" vote as to prohibiting the sale of intoxicants by saloons within the county.
- Iowa**—License by petition of voters, fee \$600 up.
- Kansas**—Prohibition. Records required by Mahin Liquor law show that in the month of September, 1913, 90,062 gallons of liquor were received in Topeka, a city of 45,000 inhabitants.
- Kentucky**—County local option, except cities of the first, second and third classes may vote separately; fee \$150.
- Louisiana**—Local option, fee \$200 up.
- Maine**—Prohibition. In Portland, Maine, there were 4,006 arrests for drunkenness in the year 1913, according to the records of the Chief of Police of that city.
- Maryland**—Local option, fee \$18—\$450.
- Massachusetts**—Local option, fee for first-class license not less than \$1,000; number limited, one to one thousand inhabitants; in Boston, one to five hundred.
- Michigan**—Local option; license, warehouse and agency, \$50; manufacturer, \$65; wholesale or retail, \$500; at wholesale and retail, \$800.
- Minnesota**—License fee, \$500—\$1,000.
- Mississippi**—Prohibition.
- Missouri**—The counties (and cities of 2,500 population, or more) may, by majority vote, pass the Local Option law, and if this is not done the county courts may grant a license and fix a tax of not less than \$200 nor more than \$400 per year for State and not less than \$500 nor more than \$800 for county purposes.
- Montana**—Semi-annual fee, \$150—\$300.
- Nebraska**—Local option, fee \$500—\$1,000.
- Nevada**—State license \$150 per annum wholesale, \$100 per annum retail, drug store \$25 per annum.
- New Hampshire**—License by majority of voters, fees based on population, maximum \$1,200.
- New Jersey**—Local option, fee \$100—\$1,000.
- New Mexico**—License by local authorities in incorporated cities and towns, by county commissioners in unincorporated towns. License fee \$100—\$1,500, varying in different municipalities.
- New York**—Local option in towns, fee \$150 to \$1,200, according to population.
- North Carolina**—Prohibition. Official records show that 5,279 gallons of liquor were shipped into Greensboro in the month of December, 1913, averaging 195.1 gallons a day.
- North Dakota**—By vote of November, 1914, adoption of prohibition in doubt when ALMANAC was printed.
- Ohio**—Application fee, \$5. Certificate, \$100. Tax on the business, \$1,000.
- Oklahoma**—Express companies are prohibited from carrying shipments of liquor in the part of Oklahoma known as Indian Territory prior to Statehood and over which prohibition for twenty-one years was established by the Federal Government, according to a decision handed down by the United States Circuit Court of Appeals.
- Oregon**—Local option, fee \$400. Prohibition effective January, 1916.
- Pennsylvania**—License under control of courts, fee \$100—\$1,100.
- Porto Rico**—Licenses controlled by the Treasurer of Porto Rico. Issued and paid quarterly, first day of every quarter. Transferable upon application to Treasurer.
- Rhode Island**—Local option, fee \$300—\$1,500.
- South Carolina**—Local option, county control or prohibition. In August, 1913, the question of the re-establishment of dispensaries was voted on in certain "dry" counties, and there was a gain of seven counties to the dispensary system.
- South Dakota**—License by local authorities, fee \$400—\$600.
- Tennessee**—State-wide prohibition under a four-mile law, but is not being enforced in the four large cities by the local authorities.
- Texas**—License for State and county issued by the County Clerk; fees, State \$375, county \$187.50, city \$187.50; city license issued by city tax collector.
- Utah**—License granted by local authorities, fee \$400—\$2,000.
- Vermont**—License Local Option act was approved December 11, 1902, and took effect March 3, 1903.
- Virginia**—Control of local courts, malt liquor bar license \$250, retail ardent spirits \$550, wholesale ardent spirits \$1,250, wholesale malt liquors \$500, retail and shippers \$1,000, local option provided for. State-wide prohibition in effect November 1916.
- Washington**—Local option, fee \$300—\$1,000. Prohibition effective January, 1916.
- West Virginia**—State-wide prohibition in effect on July 1, 1914.
- Wisconsin**—Local option, fee \$100—\$200, with power in voters to increase from \$200—\$500. Baker law provides one saloon to each 250 persons.
- Wyoming**—Wholesale dealer, \$300; retail, \$1,000. City license additional.

THE NATIONAL TEMPERANCE SOCIETY.

President—Rev. David S. Dodge. Editor and Lecturer—Prof. A. A. Hopkins, Ph. D. Treasurer—John W. Cummings.

The National Temperance Society and Publication House was organized in 1865 for the special work of creating and circulating sound temperance literature to promote the cause of total abstinence from all intoxicants, and to unify and concentrate the temperance and Christian sentiment of the Nation against the drink habit and the drink traffic. The headquarters of the society is at 373 Fourth Avenue, New York City.

LIQUOR TRAFFIC IN NEW YORK CITY.

Comparative table showing the number of licenses issued and net receipts under excise boards for year ending April 30, 1896 (old law), also number of liquor tax certificates in force, net revenue, State's share of net revenue, boroughs' share of net revenue, benefit to boroughs by diminished State tax, together with total benefit to each borough comprising the city of New York, for the year ending September 30, 1914 (new law).

WHEN TO SERVE BEVERAGES.

(From Osborn's Vintage and Production of Wines and Liquors.)

Appetizer—Dry Pale Sherry plain or with a dash of bitters, French plain or a Cocktail.	With Roast—Claret, Burgundy, or Chianti.*
With Oysters—Rhine Wine, Moselle, Dry Sauternes, Chablis or Capri; cool.	With Game—Champagne (cold), Old Vintage Champagne; cool.
With Soup—Sherry, Madeira, or Marsala; cool.	With Pastry—Madeira; cool.
With Fish—Sauternes, Chablis, Rhine Wine, Moselle or Capri; cool.	With Cheese—Port.*
With Entrées—Claret or Chianti.*	With Fruit—Tokay, Malaga, or Muscat.*
	With Coffee—Brandy or Cordial.*
	*Temperature of room.

UNITED STATES BREWERS' ASSOCIATION.

President—Edward A. Schmidt, Philadelphia, Pa. First Vice-President—Gustave Pabst, Milwaukee, Wis. Second Vice-President—Louis B. Schram, Brooklyn, N. Y. Third Vice-President—John Gardiner, Philadelphia, Pa. Treasurer—Gustav W. Lembeck, Jersey City, N. J. Secretary—Hugh F. Fox, New York, N. Y.

THE PRISON ASSOCIATION OF NEW YORK.

President—Eugene Smith. Treasurer—J. Seely Ward. Gen. Secretary—O. F. Lewis. Headquarters, 135 E. 15th Street, New York City.

Chartered in 1846. Its objects are to secure: 1. The protection of society against crime. 2. The reformation of the criminal. 3. Protection for those unjustly accused. 4. Probation for first offenders. 5. Improvement in prisons and prison discipline. 6. Employment, and when necessary, food, tools, and shelter for discharged prisoners. 7. Necessary aid for prisoners' families. 8. Supervision of those on probation and parole. 9. Needed legislation and correction of abuses in our penal system.

NATIONAL COMMITTEE ON PRISONS AND PRISON LABOR.

Chairman—Thomas Mott Osborne. Secretary-Treasurer—R. Montgomery Schell. Chairman Executive Committee—Adolph Lewisohn. Headquarters, Broadway and 116th Street, New York.

"The object of this organization is to study the whole problem of labor in prisons and correctional institutions, with a view to securing legislation among the States of the Union, to the end that all prisoners may be so employed as to promote their welfare and at the same time to reimburse the institutions for expense of maintenance, while preventing unfair competition between prison-made goods and the products of free labor, and securing to their dependent families a fair proportion of the rightful earnings of prisoners."

PRISON POPULATION IN 1910.

(From a report issued by the Bureau of the Census.)

THESE figures include every class of offence from vagrancy to murder in the first degree. They also include cases in which the offender was committed to jail or prison for the non-payment of a fine. For this and other reasons the totals and ratios which are shown for the different States are not to be regarded as measuring the criminal tendencies of their inhabitants.

According to a revised census report issued in 1914 of the inmates in prisons on January 1, 1910, 145 were under sentence of death, 6,444 were under sentence of life imprisonment, and 3,840 to twenty years' imprisonment or more. Of the total number in prisons, penitentiaries, jails and workhouses there were 105,362 males and 6,136 females, comprised of native whites, 52,473; foreign-born whites, 19,438, and, colored, 38,701. In institutions for juvenile delinquents, 24,974, including all classes.

COMPILED FROM THE CODES OR REVISED STATUTES OF THE

WITHIN the limits of the subjoined table showing the penalties prescribed by the respective States for the offences enumerated it is impossible to attain complete accuracy in comparing the several penalties, for the reason that the provisions of the several States defining these very familiar crimes are not identical. Especially is this true in regard to crimes classified in degrees, some States making but little attempt in that direction, leaving it to the discretion of the trial court to adapt the severity of the punishment to the gravity of the offence, while other States provide a minute classification into degrees, depending on the several possible circumstances attending the commission of the crime.

Murder in the First Degree—In the table below—may be generally defined to be the unlawful intentional and premeditated killing of a human being, or such a killing resulting from the commission or attempt to commit one of the graver crimes such as arson, burglary, rape or robbery.

Murder in the Second Degree is such a killing without premeditation, or resulting from the attempt to commit some lesser crime.

Manslaughter may be defined as a killing either unintentionally resulting from the careless or unlawful doing of some otherwise lawful act or from the commission of some unlawful act of comparatively trivial character, or intentionally, in the heat of passion and without premeditation.

Arson—where classified in degrees—though the number and exact definition of degrees varies greatly—is in general classified with reference to two conditions. First, the character of the building burned, whether a dwelling house or structure likely to or containing a human being; and, second, whether the crime is perpetrated by day or night. Thus the most serious offence is the burning of an inhabited dwelling by night, and the least serious, the burning of an uninhabited structure by day. Often intermediate degrees are recognized, such as burning a dwelling by day or an uninhabited building by night.

Burglary—The classification of burglary or house breaking depends on substantially the same

STATE.	Murder.		Manslaughter.		Assault with Intent to Kill	Robbery.
	1st Deg.	2d Deg.	1st Deg.	2d Deg.		
1 Alabama	Death or life imprisonment	Not Less than 10	1—10	Not over 1 and \$500	2—20	Death or not less than 10
2 Alaska	Death or life imprisonment	Not less than 15	1—20		1—15	1—15

21 Michigan	Life imprisonment	Life imprisonment or any term of years	Not over 15		Life imprisonment or any term of years	Life imprisonment or any term of years
22 Minnesota	Death (y)	Life imprisonment (y)	5—20	1—15	5—10	5—40
23 Mississippi . . .	Death or life imprisonment		2—20		Not over 10	Not over 15
24 Missouri	Death or life imprisonment	Not less than 10	Not less than 5	3—5 (cc)	Not over 10	Not less than 5

SEVERAL STATES AS AMENDED BY SUBSEQUENT LEGISLATION.

elements as that of arson, namely the building entered, whether a dwelling or other building, and whether the offence was committed by day or night.

Robbery may be generally defined as the theft of property from the person or immediate presence of the victim, accomplished by force or fear. Where degrees of robbery are recognized, the distinction is generally determined by whether the thief be armed or unarmed, though some States also distinguish the second from the first degree, where the theft is accomplished by means of threats of future rather than immediate injury.

Grand Larceny is simple theft, of property above a fixed value, generally \$25 to \$50—most States also classify as grand larceny theft of property from the person of the victim irrespective of value, though of course, accomplished without the force or fear which constitute the crime of robbery.

Assault with intent to kill, bigamy, forgery, perjury and rape, are not subdivided into degrees in the subjoined table.

Where crimes are divided into several degrees it is generally within the province of the jury in convicting, to fix the degree of the crime, and in almost every case in which a crime is punishable by death or imprisonment, it is the province of the jury to determine the punishment, except upon a plea of guilty, when the duty devolves upon the Court.

Where the classification of a crime in a particular State does not approximately agree with the definitions given above, note is made of the fact.

The District of Columbia has no distinct penal code, but in general the provisions given in the table for Alaska would apply.

NOTE—In the table below, after the figures given, "years" is understood, unless otherwise stated. Where two figures are given, separated by a dash, as 1—7, the provision should be understood as "not less than one year nor more than seven," where a sum of money is given in the table the provision should be understood as meaning a fine of not exceeding the sum mentioned.

EXPLANATORY NOTES.

(a) Alabama—Perjury on trial of a felony (3-20 years). (b) Alaska—(rape of daughter, sister or female under 12 years) life imprisonment. (c) Alaska—(perjury in trial of capital offence 2-20 years). (d) Connecticut—The punishment of larceny of over \$2,000 is not more than 20 years; the figure given in the table is larceny of over \$50 and below \$2,000 in value. (e) In Delaware, besides imprisonment and graduated fines, the pillory or whipping or both are prescribed for most of the offences scheduled. (f) In Florida the punishment for a lesser degree of arson is not over 10 years and for a lesser degree of burglary not over 5 years. (g) In Georgia various grades of larceny are recognized, for theft of horses, cattle, etc. (h) Also fine not over twice value of property destroyed or stolen. (i) Assault with intent to rape punishable by not over 20 years, lesser assault by not over 5 years. (j) Iowa recognizes two lesser degrees of arson punishable respectively by not over 20 years and not over 15 years, according to the definition given above. (k) In Iowa perjury on trial of capital offence is punishable by not less than 10 years—up to life. (l) In Kansas lesser

degrees of robbery are punishable (5-10) and (not over 5). (m) Two lesser degrees of arson are recognized in Kansas. (n) Theft of horses or cattle punishable by not over 7 years. (o) Kansas—Perjury on trial of capital offence or felony (not less than 7). (p) In Louisiana lesser degree arson punishable (7-20). (q) In Louisiana lesser degree of burglary punishable (not over 10). (r) In Maine a lesser degree of arson is punishable (1-10). (s) In Maine a lesser degree of burglary is punishable (not less than 10). (t) In Maine perjury on trial of crime punishable by life imprisonment is punishable (not over 5). (u) And restoration of property stolen or its value. (v) In Massachusetts 3 lesser degrees of robbery are punishable respectively (not over 20) (any term of years) (not over 10). (w) In Massachusetts perjury in trial of capital offence is punishable by life imprisonment or any term of years. (x) In Michigan perjury on trial of capital offence is punishable by life imprisonment or any term of years. (y) In Minnesota, murder in the first degree may be punished by life imprisonment in the discretion of the Court for exceptional circumstance—murder

CRIMES AND THEIR PENALTIES—EXPLANATORY NOTES—*Concluded.*

In the third degree is punishable (7-30 years). (z) In Minnesota, a third degree of arson is punishable (not over 7) and perjury on trial of a felony (2-10). (aa) In Mississippi, third degree arson is punishable (7-10). (bb) In Mississippi, perjury on trial of felony or capital offence is punishable (not less than 10). (cc) Missouri defines four degrees of manslaughter. (dd) In Missouri larceny of horse is punishable (not over 7). (ee) In Missouri perjury on trial of felony or capital offence is punishable (not less than 7). (ff) In Nevada robbery in a railroad train may be punished with death. (gg) In Nevada, rape accompanied with extreme violence and great bodily injury, is punishable by death or not less than 20 years, in the discretion of the jury. (hh) In Nevada arson is also punishable by fine not over \$10,000 and not over twice value of property destroyed. (ii) In New Hampshire a lesser degree of burglary is punishable (not over 5) and larceny of horses or cattle (not over 7). (jj) In New York perjury on trial of a felony is punishable (not more than 20). (kk) In North Carolina larceny in aggravated cases (or habitual offenders) is punishable (not over 10). (ll) In North Dakota third degree arson is punishable (4-7), lesser degrees of burglary (1-5) (1-3) and perjury on trial of a felony (not less than 10). (mm) In Oklahoma perjury on trial of a felony is punishable (10-20). (nn) In Oregon third degree arson is punishable (3-10), third degree burglary (2-5) and perjury on trial of capital offence (5-20). (oo) In South Dakota arson in the third and fourth degrees is punishable (4-7) and (1-4) years respectively, burglary in the third and fourth degrees (not over 5) and (not over 3) years respectively, and perjury on the trial of a felony (1-20), and second degree robbery (1-7). (pp) In Tennessee third degree burglary is punishable (3-15). (qq) In Texas assault with a dagger is punishable with double penalty shown above. Horse theft is punishable (5-15). Robbery accomplished by means of deadly weapons is punishable (death or not less than 5). (rr) In Utah burglary accomplished by dynamite or other explosive is punishable (25-40). (ss) In Virginia lesser degrees of arson are punishable (3-10) and perjury on trial of a felony (2-10). (tt) In West Virginia lesser degrees of arson are punishable (3-10) and lesser degrees of burglary (1-10). Perjury on trial of a felony is punishable (1-10). (uu) In Wisconsin third degree murder is punishable (7-14) and third and fourth degrees of manslaughter (2-4) and (1-2) years respectively. Lesser degrees of arson are punishable (3-10) (1-15) and (1-8) years respectively. Burglary accomplished by means of explosives is punishable (15-40) years and the lowest degrees of burglary by (1-10) and (1-3) years respectively. Perjury on trial of offence punishable by life imprisonment is punishable (3-15) years. (vv) In Wyoming burglary accomplished by means of explosives is punishable (not over 20).

LYNCHINGS AND LEGAL EXECUTIONS.

Lynchings—The total number of lynchings in the United States from 1885 to October 1, 1914, was 3,485. In 1914 to October 1 there were 27 lynchings, of which 25 occurred in the South and 2 in the North; 24 were males, and 3 females. Of the lynched, 22 were negroes, and 5 whites. The offences for which they were lynched were: Murder, 19; rape, 3; murderous assault, 2; unnamed, 2; theft, 1. The States in which the lynchings occurred and the number in each were as follows: Alabama, 1; Georgia, 1; Illinois, 1; Louisiana, 7; Mississippi, 3; Missouri, 3; New Mexico, 1; North Carolina, 1; Oklahoma, 3; Oregon, 1; South Carolina, 1; Texas, 4.

Legal Executions—In 1908 to November 15 there were 92, in 1909 there were 107, in 1910 there were 104, in 1911 there were 61, in 1912 to November 15 there were 128, in 1913 to November 12 there were 81, in 1914 to October 1 there were 59, of which 25 were in the South and 34 in the North. 43 were whites, and 16 negroes. All were males. The crimes for which they were executed were: Murder, 57; rape, 2. The States in which the executions in 1914 to October 1 took place, and the number in each, were as follows: Arizona, 1; Arkansas, 4; California, 4; Connecticut, 4; Florida, 1; Georgia, 9; Illinois, 1; Indiana, 2; Massachusetts, 1; Mississippi, 5; Missouri, 1; New Jersey, 3; New York, 12; North Carolina, 2; Pennsylvania, 6; South Carolina, 1; Texas, 1; Vermont, 1.

AMERICAN HUMANE ASSOCIATION.

A federation of societies and individuals "for the prevention of cruelty, especially cruelty to children and animals." The officers are: *President*—Dr. William O. Stillman, Albany, N. Y. *Secretary*—N. J. Walker, Albany, N. Y. *Treasurer*—Edgar McDonald, Brooklyn, N. Y.

CRIMES IN THREE LARGE CITIES.

In a statement made by the Chairman of a special Council committee in Chicago on September 17, 1914, the following comparison for year 1913 was made: Murders—Chicago, 262; New York, 131; London, 36. Robberies and assaults to rob—Chicago, 1,022; New York, 926; London, 78. Burglaries—Chicago, 1,041; New York, 1,755; London, 1,129.

In 1913 in New York City there were 7,413 delinquent boys and 1,606 girls arraigned in the Manhattan court. Of the 4,645 in Brooklyn, 3,886 were boys and 759 girls. Queens had 610 boys and 148 girls; Richmond, 295 boys and 110 girls.

EMBEZZLEMENTS.

The fidelity department of the Fidelity and Casualty Company of New York keeps a record of embezzlements reported in the United States. The following are the figures for five calendar years:

	1909.	1910.	1911.	1912.	1913.
Banks and trust companies . . .	\$3,840,576	\$6,263,185	\$2,666,549	\$4,630,785	\$1,290,583
Beneficial associations	404,601	509,598	477,858	143,295	150,131
Public service	1,007,028	743,552	1,736,428	187,449	853,646
General business	1,908,051	2,001,353	4,417,250	1,767,405	619,793
Insurance companies	1,296,981	35,115	60,279	51,683	183,653
Transportation companies	287,466	216,256	310,551	50,304	194,597
Court trusts	865,970	487,864	356,836	188,395	39,764
Miscellaneous	1,041,387	475,042	1,456,300	214,140	381,690
Total	\$10,652,060	\$10,731,965	\$11,482,051	\$7,233,456	\$3,713,857

The total amount of embezzlements reported by the same authority for each year from 1896 to 1912, inclusive, was as follows: 1896, \$9,113,030; 1897, \$11,154,530; 1898, \$9,236,351; 1899, \$5,873,084; 1900, \$8,090,878; 1901, \$7,734,250; 1902, \$6,933,516; 1903, \$10,312,793; 1904, \$10,068,971; 1905, \$12,623,536; 1906, \$18,883,709; 1907, \$9,367,964; 1908, \$11,565,679; 1909, \$10,652,060; 1910, \$10,731,965; 1911, \$11,482,051; 1912, \$7,233,456; 1913, \$3,713,857; total, \$174,771,682.

THE WORLD of July 31, 1910, said: Amount stolen from banks in past five years, \$28,000,000. Banker convicts in Federal Penitentiary, Fort Leavenworth, Kan., exceeded every other class of prisoners except burglars and mail robbers. Records show that a majority of embezzlers stole money to gamble in Wall Street. Total thefts of \$28,000,000 do not represent complete record of losses, because banks conceal them whenever possible. Temptation to try and repeat performances of the few men who have made quick fortunes in Wall Street is held responsible for increasing embezzlements among bank employes.

FEDERAL PRISONS

Are located at Atlanta, Ga.; Fort Leavenworth, Kan.; McNeill's Island, Wash.; *Mare Island, Cal.; *Boston, Mass., and *Portsmouth, N. H. *Naval Prisons.

NEW YORK STATE HOSPITALS FOR THE INSANE.

The State Hospitals for the Insane are located as follows:

Binghamton.	Long Island State Hospital at Flatbush.	Mohansic State Hospital at Yorktown Heights.
Buffalo.	Manhattan State Hospital at New York.	Rochester.
Central Islip.	Middletown State Homoeopathic Hospital at Middletown.	St. Lawrence State Hospital at Ogdensburg.
Gowanda.		Utica.
Hudson River State Hospital at Poughkeepsie.		Willard.
Kings Park.		

Matteawan State Hospital at Matteawan; Dannemora State Hospital at Dannemora. State Prisons—Auburn Prison at Auburn; Clinton Prison at Dannemora; Great Meadow Prison at Comstock; Sing Sing Prison at Ossining; State Farm for Women at Valatie.

NEW YORK STATE PROBATION COMMISSION.

The State Probation Commission, created by Chapter 430, Laws of 1907, consists of seven members. Four are appointed by the Governor for terms of four years each; one is appointed by the State Board of Charities from among its members; one is appointed by the State Commission of Prisons from among its members; and the State Commissioner of Education is a member *ex-officio*. Commissioners serve without compensation, but are entitled to necessary travelling expenses.

The general duties of the commission are to exercise general supervision over the work of probation officers and to keep informed as to their work; to collect and publish statistical and other information as to the operations of the probation system; to inquire from time to time into the conduct and efficiency of probation officers, and when advisable to conduct a formal investigation of the work of any probation officer; to make recommendations and to secure the effective application of the probation system and the enforcement of the probation law in all parts of the State. The commission makes an annual report to the Legislature showing its proceedings and the results of the probation system as administered in the various localities in the State, and making suggestions and recommendations. The commission in the discharge of its duties has access to all offices and records of probation officers, and may direct formal investigation of the work of any probation officer.

President—Homer Folks, New York. Secretary—Charles L. Chute. The commission has its office in the Capitol, at Albany.

NATIONAL PROBATION ASSOCIATION.

ORGANIZED in 1906 as the National Probation Officers' Association; title changed to present one in 1911.

The purposes of the association are to promote the more extensive and wise use of the probation and parole systems of dealing with both juvenile and adult offenders; also to encourage the adoption of the most approved methods of conducting children's courts. The association holds an annual conference each Spring at the time and place of the meetings of the National Conference of Charities and Correction. It publishes an annual directory of probation officers in the United States, the proceedings of its annual conferences, and other literature. From time to time it appoints special committees to study and report on particular phases of probation, parole, and juvenile court work. Supported by membership fees and voluntary contributions.

President—J. J. Gascoyne, Newark, N. J. Vice-Presidents—Frank E. Wade, Buffalo, N. Y.; Mrs. Benj. G. West, Memphis, Tenn. Secretary-Treasurer—Hugh Fullerton, Cleveland, Ohio.

PAUPERISM.

ACCORDING to Census Bulletin 120, issued in 1914, the number of paupers in almshouses in the United States on January 1, 1910, was 84,198. Of these, 57,049 were males and 27,149 females; 44,149 were native born, 33,125 foreign born, 355 nativity unknown, 6,464 colored. The total number of admissions to almshouses in 1910 was 88,313. The deaths of pauper inmates of almshouses in 1910 were 17,486, the largest causes of these deaths being tuberculosis of the lungs, 3,135; senility, 1,818; heart disease, 1,439; pneumonia, 1,071; Bright's disease, 1,071. The number of paupers in almshouses who were discharged in 1910 to be self-supporting was 44,491; to relatives and friends, 14,160; to be boarded out, 459, and indentured, 10. More than half of the persons admitted during the year were over 50 years of age. The number 80 years old and over was 3,365.

PAUPERISM IN ENGLAND AND WALES.

Indoor paupers (December, 1911), 278,298; outdoor paupers (December, 1911), 392,596. Total, 670,894; ratio per 1,000 inhabitants, 18.05. The British figures are from the *Economist*.

* Registration area.

According to Frederick L. Hoffman, author of above table, the average homicide rates per 100,000 of population for 30 representative American cities were as follows: For the years 1884-1893, 4.9; for 1894-1903, 4.9; and for 1904-1913, 7.9. The homicide rates for the ten years ending with 1912 were as follows: For 9 Southern cities, 17.0; for 3 Western cities, 9.7; for 7 Central cities, 8.4; and for 11 Eastern cities, 4.7. Estimate for 1913 in entire United States, from 6,500 to 7,000. Homicides in 1912 in some of the larger cities as follows: Memphis, Tenn., 88; New Orleans, La., 96; Atlanta, Ga., 67; St. Louis, Mo., 98; San Francisco, Cal., 52; Chicago, Ill., 219; New York City (Manhattan and the Bronx) 198; Brooklyn, N. Y., 76; Boston, Mass., 30; Philadelphia, Pa., 23; Milwaukee, Wis., 16.

The average number of murders in the United States annually during the twenty years, from 1885 to 1904, was 6,597. In 1896 the murders reached high-water mark, 10,662, and in 1895 there were 10,500. For 1911 the Census Bureau reported the number of homicides in the registration area of the United States—63.3 per cent. of the total population—as 3,907, and in 1912 as 3,954.

The excessive mortality from homicide among the colored race is indicated by the following data: In New Orleans, for the last available five-year period, the colored death rate from homicide was 67.6 per 100,000 of population, as against 11.9 for whites; in Savannah, Ga., the comparative rates were 32.4 for the colored, against 15.8 for the whites; and in Charleston, S. C., 51.4 for the colored, against 13.1 for the white population.

SUICIDES.

The suicide rate of the registration area of the United States in 1912 was 16.0 per 100,000 of population. The estimated number of suicides in the entire United States, but excluding insular possessions, in 1914 to November 1 was 15,800. The most common means of self-destruction in 1912, according to the mortality reports of the Census, were: Poisoning, 2,788; fire-arms, 2,796; hanging or strangulation, 1,437; asphyxiation, chiefly illuminating gas, 1,199; cutting or piercing instruments, 644; drowning, 476; jumping from high places, 143, and by crushing, 101.

The suicide rate of large American cities for 1913, according to Frederick L. Hoffman, Statistician, Prudential Insurance Company of America, was 18.7 per 100,000 of population. The number of suicides in 100 American cities in the ten years ending with 1913 was 41,724. The average suicide rates for 20 leading cities for the decade ending with 1912 were as follows: San Francisco, 49.0; San Diego, 41.3; Sacramento, 39.2; Hoboken, 33.5; Los Angeles, 33.1; St. Louis, 32.4; Oakland, Cal., 31.8; Springfield, Ill., 30.2; Denver, 29.4; Seattle, Wash., 28.8; Newark, N. J., 23.5; Salt Lake City, 25.0; Pueblo, Col., 23.6; Indianapolis, 24.8; McKeesport, Pa., 23.2; Omaha, Neb., 24.9; Auburn, N. Y., 22.9; Portland, Ore., 22.7; Tacoma, Wash., 23.7; Washington, D. C., 22.6. The rate for Manhattan and the Bronx was 19.7.

The number of suicides during the decade ending with 1913 was 8,040 for Greater New York, 4,585 for Chicago, 2,441 for Philadelphia, 1,949 for San Francisco, and 2,200 for St. Louis.

The average suicide rates for large foreign cities for recent years were 31.4 for Berlin, 24.8 for Paris, 16.0 for Buenos Ayres, 11.6 for London, and 10.6 for Sydney, New South Wales.

The average annual suicide rates for the more important countries have been as follows: Ireland, 3.4; Scotland, 5.7; Netherlands, 6.7; Norway, 6.4; England and Wales, 10.2; Australia, 11.6; Belgium, 12.4; Sweden, 12.4; U. S. Registration Area, 16.0; Austria, 17.3; Japan, 18.9; Hungary, 19.2; Denmark, 19.4; Germany, 21.3; Switzerland, 22.7, and France, 22.8.

PRISONERS' COMMUTATION TABLE.

The following table shows the time subtracted for uniformly good conduct from the terms to which prisoners are sentenced under the regulations in force in the State prisons of New York:

Administration of Deceased Persons' Estates.

INHERITANCE TAX LAWS.

THE following is a synopsis of several of the laws of the various States affecting the administration of the estate of a deceased person:

1. Who to Administer.—(a) If the deceased leaves a will, the duty of administration falls upon the executor. If no executor is named, or in the event of the death or refusal of the executor to act, the Court will grant administration under the will to some suitable person, generally selected from those most largely interested under the provisions of the will, such as the residuary legatees, if any. (b) If the deceased died intestate, letters of administration are granted to the following persons in practically all the States:

First—To the surviving husband or widow.

Second—To one or more of the next of kin entitled to share in the estate.

Third—If none of the above consent to act, to one of the creditors of the estate, except in localities where there is provided by law a Public Administrator, who is preferred to creditors. In practically all the States an administrator is required to give bond for the faithful performance of his duties in double the value of the estate to be administered.

In most of the States, if so provided by the will, no bond is required of an executor, except that in some States an executor is required to give a bond to cover the probable amount of the debts of the estate, and in practically all the States, in the discretion of the Court, for cause shown, an executor may be required to give a bond.

2. Claims of Creditors.—The procedure in the several States in presenting creditors' claims against the estate varies very considerably. In the majority of the States the executor or administrator is required promptly to give public notice to creditors to present their claims to him, and the creditors are required so to present their claims supported by an affidavit that the same are justly due and owing from the estate, above any offsets or counter claims, within a period limited generally to six months or a year. The law of each State should be consulted for more specific details. Most of the States direct a final closing of the estate by the executor or administrator within a year or eighteen months after his appointment, though the time limit may be extended by the Probate Court if conditions require it.

3. The following table contains an analysis of the laws of the several States, covering:

(1) The inheritance or succession tax upon property received either by intestate laws, last will, or by gift or transfer, designed to take effect at death, excepting legacies for religious, charitable or educational purposes, which are tax exempt in most of the States. In the great majority of the States no distinction as to tax is made between real estate and personal property.

(2) The various classes of estate obligations given priority over other claims in case of the insolvency of the estate.

STATE.	Inheritance Tax.	Preferred Obligations.
Alabama	None.	1. Funeral expenses. 2. Administration expenses. 3. Expenses of last sickness. 4. Taxes. 5. Wages of servants or employés.
Arizona	To grandfather, grandmother, parents, husband, wife, child, brother, sister, son-in-law, or daughter-in-law, or adopted child, 1%; \$5,000 exempt to each beneficiary above named. Estates less than \$10,000 exempt. To uncle, aunt, nephew, niece or descendant thereof, 2%; \$2,000 exempt to each beneficiary named. Estate less than \$5,000 exempt. To others, 3% up to \$10,000; 4% from \$10,000 to \$20,000; 5% from \$20,000 to \$50,000; 6% above \$50,000. \$500 exempt.	No statutory provision
Arkansas	On amounts not exceeding \$5,000 the rate is 1% to parents, husband or wife, child or adopted child, brother, sister, son-in-law or daughter-in-law. To all others the rate on the same amount is 3%. \$3,000 passing to widow or minor child and \$1,000 passing to the other immediate relatives mentioned is exempt. The exemption to others more remote is \$500. On amounts in excess of \$5,000 the primary rates (1% and 3% respectively) are increased as follows: From \$5,000 to \$10,000, twice the primary rates; from \$10,000 to \$30,000, 3 times the primary rates; from \$30,000 to \$50,000, 4 times; \$50,000 to \$100,000, 5 times; \$100,000 to \$500,000, 6 times; \$500,000 to \$1,000,000, 7 times; above \$1,000,000, 8 times.	1. Funeral expenses. 2. Expenses of last sickness. 3. Wages of servants. 4. Judgments which are liens on land of deceased.
California	For the purpose of determining the rate of tax, beneficiaries are divided into five classes: (a) husband, wife or children; (b) brothers, sisters or their descendants, also son-in-law or daughter-in-law; (c) uncles, aunts or their descendants; (d) great-uncles, great-aunts or their descendants; (e) others more remote. The tax also varies with the amount of the estate or legacy. On amounts not exceeding \$25,000 the rates for the five classes of beneficiaries are respectively 1%, 2%, 3%, 4% and 5%. On amounts from \$25,000 to \$50,000 the above rates are multiplied by 2. On amounts from	1. Funeral expenses. 2. Expenses of last sickness. 3. Wages due within sixty days. 4. Debts preferred by U. Exempt up to \$10,000.	<ol style="list-style-type: none"> 1. Funeral and administration expenses. 2. Debts owing to U. S. 3. Taxes.

STATE.	Inheritance Tax.	Preferred Obligations.
West Virglnla... <i>Continued.</i>	000, except in case of widow, where \$15,000 is exempt. To brother or sister the rate is 3% up to \$25,000, and for the varying amounts stated above the rates are 4½%, 6%, 7½% and 9%. To others more remote the rates are 5%, 7½%, 10%, 12½% and 15%.	4. Fiduciary obligations.
Wisconsin	(1) Tax of 1% to husband, wife, lineal descendants, lineal ancestors, adopted child, and lineal issue thereof. (2) To brothers, sisters and descendants, wife or widow of son, or husband of daughter, 1½%. (3) To uncles, aunts or their descendants, 3%. (4) To great-uncles, great-aunts and their descendants, 4%. (5) To all others, 5%. When the estate is above \$25,000 the above rates are multiplied as follows: \$25,000 to \$50,000, 1½ times on excess; \$50,000 to \$100,000, 2 times on excess; \$100,000 to \$500,000, 2½ times on excess; above \$500,000, 3 times on excess. Exempt \$10,000 to widow and lesser amounts to other relatives, down to \$100 exemptions to strangers in blood.	1. Last sickness and funeral expenses. 2. Debts preferred by U. S. laws.
Wyoming.....	Tax of 2% on amount above \$10,000 to parents, husband or wife, child, brother, sister, lineal descendants, wife or widow of son, husband of daughter, adopted or acknowledged child for ten years. Except that to husband, wife or child resident of the State \$25,000 to each is exempt. To others than above, tax of 5%; \$500 exempt.	1. Funeral and administration expenses. 2. Expenses of last sickness and sixty days' wages, including medical attendance and medicines. 3. Judgments and mortgages. 4. All claims presented within six months. 5. All claims presented within one yr.

THE BANKRUPTCY LAW.

EXTRACTS FROM THE UNITED STATES BANKRUPTCY ACT OF JULY 1, 1898,
AS AMENDED BY ACT OF JUNE 25, 1910.

SEC. 4. WHO MAY BECOME BANKRUPTS. —(a) Any person except a municipal railroad, insurance or banking corporation shall be entitled to the benefits of this act as a voluntary bankrupt.

The bankruptcy of a corporation shall not release its officers, directors, or stockholders, as such, from any liability under the laws of a State or Territory or of the United States.

(b) Any natural person, except a wage-earner or a person engaged chiefly in farming or the tillage of the soil, any unincorporated company and any moneyed business, or commercial corporation, except a municipal railroad, insurance or banking corporation, owing debts to the amount of one thousand dollars or over, may be adjudged an involuntary bankrupt upon default or an impartial trial and shall be subject to the provisions and entitled to the benefits of this act.

SEC. 7. DUTIES OF BANKRUPTS. —(a) The bankrupt shall (1) attend the first meeting of his creditors, if directed by the court or a Judge thereof to do so, and the hearing upon his application for a discharge, if filed; (2) comply with all lawful orders of the court; (3) examine the correctness of all proofs of claims filed against his estate; (4) execute and deliver such papers as shall be ordered by the court; (5) execute to his trustee transfers of all his property in foreign countries; (6) immediately inform his trustee of any attempt, by his creditors or other persons, to evade the provisions of this act, coming to his knowledge; (7) in case of any person having to his knowledge proved a false claim against his estate, disclose that fact immediately to his trustee; (8) prepare, make oath to, and file in court within ten days, unless further time is granted, after the adjudication if an involuntary bankrupt, and with the petition if a voluntary bankrupt, a schedule of his property, showing the amount and kind of property, the location thereof, its money value in detail, and a list of his creditors, showing their residences, if known (if unknown, that fact to be stated), the amount due each of them, the consideration thereof, the security held by them, if any, and a claim for such exemptions as he may be entitled to, all in triplicate, one copy of each for the clerk, one for the referee, and one for the trustee; and (9) when present at the first meeting of his creditors, and at such other times as the court shall order, submit to an examination concerning the conducting of his business, the cause of his bankruptcy, his dealings with his creditors and other persons, the amount, kind, and whereabouts of his property, and, in addition, all matters which may affect the administration and settlement of his estate; and, in addition, by him shall be offered in evidence against him in any criminal proceedings.

Provided, however, that he shall not be required to attend a meeting of his creditors, or at or for an examination at a place more than one hundred and fifty miles distant from his home or principal place of business, or to examine claims except when presented to him, unless ordered by the court, or a Judge thereof, for cause shown, and the bankrupt shall be paid his actual expenses from the estate when examined or required to attend at any place other than the city, town, or village of his residence.

Act of March 3, 1911 (Judicial Code) 36 Stat. 1134, as follows:

SEC. 24. Original jurisdiction in district courts.

"SEC. 130. The Circuit Courts of Appeals shall have the appellate and supervisory jurisdiction conferred upon them by the act entitled 'An act to establish a uniform system of bankruptcy throughout the United States,' approved July first, eighteen hundred and ninety-eight, and all laws amendatory thereof, and shall exercise the same in the manner therein prescribed."

SEC. 252 states the appellate jurisdiction of the Supreme Court conferred upon it by the Bankruptcy act of July 1, 1898.

DISTRIBUTION OF INTESTATE'S PERSONAL ESTATE.

THE following is a synopsis of the laws of the various States providing for the distribution of the personal estate of a deceased after the payment of funeral expenses and other debts where there is no will:

In many of the States the widow and children are entitled to receive a small portion of the estate, generally varying from \$100 to \$500, before the claims of creditors are paid. Aside from such exempt portion of the estate, the property to be distributed to the widow or relatives is that remaining after all creditors' claims have been satisfied.

The following is the plan of distribution of a male's property. The same rules apply to a female's estate, except in some States, where the rights of a husband in the estate of his deceased wife differ from those of a wife in the estate of her deceased husband, which will be shown in a separate table.

I. In all States where the deceased leaves a child or children, or descendants of any deceased child, and no widow, the children or descendants take the entire estate, to the exclusion of all other relatives. The children take equal shares, and in most States the descendants of a deceased child together take the share of their parent, except where the descendants are all in equal degree to the deceased (all grandchildren, no children surviving), when they share equally and do not take their proportionate share of their parent's interest.

No statement is given in this synopsis of the law of Louisiana, which, being founded on the provisions of the French code and Roman law instead of the English common law, which is the underlying principle in the other States, differs in many respects from the principles followed in the other States, especially on the question of the rights of a husband and wife in each other's property and in the property acquired by the husband and wife during their married life. The provisions of the law of Indiana are also not included, for the reason that for an accurate statement of its provisions a reading of the entire statute is necessary, together with the decisions of the Indiana courts construing its provisions, which would occupy too much space for a statement here.

II. (a) If deceased leaves a widow, and no children or descendants, the widow takes all. This is the rule in Alabama, Arizona, Colorado, Florida, Georgia, Illinois, Kansas, Minnesota, Mississippi, New Jersey, New Mexico, Ohio, Oregon, Tennessee, Texas, Washington, West Virginia and Wisconsin.

(b) In the following States the widow takes one-half, the residue being taken by the other relatives in the manner and proportion in which they take the entire estate when the deceased leaves neither widow or descendants (given below): Arkansas, California, Delaware, District of Columbia, Idaho, Iowa, Kentucky, Maine, Maryland, Missouri, Montana, Nebraska, Nevada, North Carolina, Oklahoma, Rhode Island, Texas, Washington, West Virginia and Wisconsin.

(c) In Massachusetts, North Dakota, Pennsylvania and Utah the widow takes the entire estate up to \$5,000 and one-half of the residue.

(d) In Connecticut the widow takes the entire estate up to \$2,000 and one-half of the residue.

(e) In New York, if there be a father or mother of deceased surviving, the widow takes one-half; if there be no father or mother, but a brother or sister, nephew or niece surviving, the widow takes \$2,000 and one-half residue; if there be no parent, brother, sister, nephew or niece, the widow takes all. The residue after the widow's share passes in each case in accordance with the provisions applying where no widow or issue survive.

(f) In New Hampshire the widow takes \$1,500, and, if the estate exceeds \$3,000, one-half of the residue.

(g) In Wyoming the widow takes the entire estate up to \$10,000 and three-fourths of the residue.

(h) In Michigan the widow takes the entire estate up to \$3,000 and one-half of the residue.

(i) In Vermont the widow takes entire estate if not exceeding \$2,500; if more than \$2,500, widow takes that sum and one-half of residue.

III. (a) When the deceased leaves a widow and children, or descendants, the widow takes one-third and the children share equally in the residue in the following States: Arizona, Arkansas, Connecticut, Delaware, District of Columbia, Illinois, Iowa, Maine, Maryland, Massachusetts, Minnesota, New Hampshire, New Jersey, New York, Ohio (one-half if less than \$400), Pennsylvania, Rhode Island, South Carolina, Texas, Vermont, Virginia and West Virginia.

(b) In the following States, if there be but one child, the widow takes one-half and the child one-half; if two or more children or their descendants, the widow takes one-third, as above, and the children or their descendants the residue: California, Florida, Idaho, Michigan, Montana, Nevada, North Dakota, Oklahoma, South Dakota and Utah.

(c) In the following States the widow takes one-half and the children, or descendants, the residue: Colorado, Kansas, Kentucky, Oregon, Washington and Wyoming.

(d) In the following States the widow takes the same share as each of the children: Mississippi, Missouri, Tennessee and Wisconsin.

(e) In North Carolina, if there are less than three children, the widow takes one-third and the children the residue; if there are three or more children, the widow takes the same share as each of the children.

DISTRIBUTION OF INTESTATE'S PERSONAL ESTATE—Continued.

(f) In Alabama, if there is but one child, the widow takes one-half and the child one-half; if there are more than one child and less than five children, the widow takes the same share as each of the children; if there are five or more children, the widow takes one-fifth and the children or their descendants share equally in the residue.

(g) In Georgia, if there are less than five children, the widow takes the same share as each of the children; if there are five or more children, the widow takes one-fifth and the children or their descendants share equally in the residue.

In Nebraska if widow is not the parent of all the children of the deceased and there be more than one child, widow takes one-fourth and children the residue. If widow is parent of all children of the deceased, she takes one-half if there be but one child and the child the residue; if there be more than one child the widow takes one-third and the children the residue.

(h) In New Mexico, the widow takes one-half of the estate acquired during marriage, otherwise than by gift (by purchase, for example) and the children or their descendants share equally in the residue; the widow also takes one-fourth of the estate acquired before marriage, or by gift or legacy during marriage, the children or their descendants taking the residue.

IV. (a) When the deceased leaves no widow, children or descendants, the parents take the entire estate in equal shares in the following States: Alabama, Arizona, California, Colorado, Connecticut, Idaho, Iowa, Kansas, Kentucky, Maine, Massachusetts, Michigan, Minnesota, Montana, Nebraska, New Hampshire, Oklahoma, Pennsylvania, Texas, Utah, Vermont, Washington, Wisconsin and Wyoming.

In all of the States just mentioned, except Alabama, Arizona, Maine, and Texas, if one parent is dead, the surviving parent takes the entire estate, to the exclusion of brothers and sisters. In Alabama, Arizona, Maine, and Texas the surviving parent takes one-half and the brothers and sisters, or their descendants, take the residue.

In all of them, if both parents are dead, the brothers and sisters and their descendants take the entire estate.

(b) In the following States the father, if living, takes the entire estate; if the father is dead, then to the mother and brothers and sisters, or their descendants equally; and if both parents are dead, then to the brothers and sisters, or their descendants: Florida, New York, North Carolina, Oregon, Rhode Island, South Dakota, Tennessee, Virginia and West Virginia.

(c) In the following States the father, if living, takes the entire estate; if the father is dead, then to the mother; and if both parents are dead, then to the brothers and sisters or their descendants: Arkansas, District of Columbia, Nevada and North Dakota.

(d) In the following States the parents, if living, and the brothers and sisters, or their descendants, take the entire estate, sharing equally. Georgia, Illinois, Mississippi, Missouri, New Jersey and South Carolina.

(e) In Delaware, Ohio and Maryland (where the property did not descend to intestate from either parent), the brothers and sisters, or their descendants, take the entire estate in preference to the parents, who only inherit if there are no brothers or sisters or lawful issue of any deceased brothers or sisters.

DISTRIBUTION OF FEMALE'S ESTATE.

In the following States, if the deceased was a married woman, the rights of her surviving husband in her personal estate differ from the rights of a widow in the estate of her deceased husband as shown in the above synopsis.

(a) In Delaware, District of Columbia, North Carolina, Rhode Island, and Virginia the husband takes the entire personal estate, whether there is any issue of the marriage or not.

(b) In New York, if there are no children or descendants of children, the husband takes the entire estate.

(c) In Florida, Georgia, and Pennsylvania, if there are no children or descendants, the husband takes the entire estate; if there are children, the husband takes the same share as each child.

(d) In Ohio the husband takes the entire estate if there are no children or descendants; if there are children or descendants, they take the entire estate.

(e) In Alabama the husband takes one-half of the estate, the children, or descendants, taking the residue.

(f) In North Carolina, where surviving husband is not also the father of all the children of decedent, if there be one child the husband takes one-half and the child one-half; if there be more than one child, husband takes child's share.

LAW EXAMINATIONS IN NEW YORK STATE.

To entitle an applicant to an examination as an attorney and counsellor he shall pay to the examiners a fee of \$15, and he must prove (15 days in advance) to the satisfaction of the State Board of Law Examiners: 1. That he is a citizen of the State, twenty-one years of age, and that his residence for six months prior to the examination is actual and not constructive, which proof must be made by his own affidavit. 2. That he has studied law in the manner and according to the conditions prescribed for a period of four years, except that if the applicant is a graduate of any college or university his period of study may be three years instead of four, and except also that persons who have been admitted as attorneys in the highest court of original jurisdiction of another State or country, and have remained therein as practising attorneys for at least three years, may be admitted to such examination after a period of law study of one year within this State. 3. That the applicant, if not a college graduate, has passed the regents' examination or its equivalent must be proved by the production of a certified copy of the regents' certificate filed in the office of the Clerk of the Court of Appeals.

Address communications concerning law examinations to F. M. Danaher, Secretary, Albany, N. Y.

ACKNOWLEDGMENT OF DEEDS.

AN ACKNOWLEDGMENT is the act of declaring the execution of an instrument before an officer authorized to certify to such declaration. The officer certifies to the fact of such declaration, and to his knowledge of the person so declaring. Conveyances or deeds of land to be entitled to be recorded must first be acknowledged before a proper officer. Most of the States have forms of acknowledgments, which should be followed.

Acknowledgments may be taken in general by Notaries Public, Justices of the Peace, Judges or Clerks of Courts of the higher grades, Registers, Masters in Chancery, Court Commissioners, Town Clerks, Mayor and Clerks of incorporated cities, within their respective jurisdictions.

The requisites to a valid deed are the same in general as other contracts, but the appointment of an attorney to execute a deed for another person must in general be executed with the same formalities requisite to the deed itself.

SEALS or their equivalent (or whatever is intended as such) are necessary in Alaska, Connecticut, Delaware, District of Columbia, Florida, Idaho, Illinois, Maine, Maryland, Massachusetts, Michigan, Minnesota, Missouri, New Hampshire, New Jersey, New York, North Carolina, Oregon, Pennsylvania, South Carolina, Vermont, Virginia, West Virginia, Wisconsin, Wyoming. In almost all the States deeds by corporations must be under seal. **FORMS** are prescribed or indicated by the statutes of most of the States except Connecticut, Florida, Louisiana. **SEPARATE ACKNOWLEDGMENT** by wife is required in Alaska, Arkansas, Delaware, District of Columbia, Florida, Georgia, Idaho, Kentucky, Louisiana, Montana, Nevada, New Jersey, North Carolina, Oregon, Pennsylvania, South Carolina, Tennessee, Texas. **ONE WITNESS** to the execution of deeds is required in District of Columbia, Maine (customary), Maryland, Nebraska, New Jersey (usual), Oklahoma, Utah, Wyoming. **TWO WITNESSES** to the execution of deeds are required in Arkansas, Connecticut, Florida, Georgia, Louisiana, Michigan, Minnesota, New Hampshire, Ohio, Oregon, South Carolina, Texas, Vermont, Wisconsin.

PROMISSORY NOTES AND CHECKS.

Negotiable instruments, the common forms of which are promissory notes, checks, or other bills of exchange, while having the same general requisites as other contracts, have certain distinct features. The purpose of the law is to facilitate as much as possible their free passing from hand to hand like currency. The assignment of an ordinary contract leaves the assignee in no different position for enforcing his rights than that of his assignor, but one who takes a negotiable instrument from a prior holder, without knowledge of any defences to it, before its maturity, and gives value for it, holds it free of any defences which might have been set up against his predecessors, except those defects that were inherent in the instrument itself.

To be negotiable an instrument must be in writing and signed by the maker (of a note) or drawer (of a bill or check).

It must contain an unconditional promise or order to pay a sum certain in money.

Must be payable on demand, or at a fixed future time.

Must be payable to order or to bearer.

In a bill of exchange (check) the party directed to pay must be reasonably certain.

Every negotiable instrument is presumed to have been issued for a valuable consideration, and want of consideration in the creation of the instrument is not a defence against a bona-fide holder.

An instrument is negotiated, that is completely transferred, so as to vest title in the purchaser, if payable to bearer, or indorsed simply with the name of the last holder, by mere delivery, if payable to order by the indorsement of the party to whom it is payable and delivery.

One who transfers an instrument by indorsement warrants to every subsequent holder that the instrument is genuine, that he has title to it, and that if not paid by the party primarily liable at maturity, he will pay it upon receiving due notice of non-payment.

To hold an indorser liable the holder upon its non-payment at maturity must give prompt notice of such non-payment to the indorser and that the holder looks to the indorser for payment. Such notice should be sent within twenty-four hours.

When an indorser is thus compelled to pay he may hold prior parties through whom he received the instrument liable to him by sending them prompt notice of non-payment upon receiving such notice from the holder.

One who transfers a negotiable instrument by delivery, without indorsing it, simply warrants that the instrument is genuine, that he has title to it, and knows of no defence to it, but does not agree to pay it if unpaid at maturity.

The maker of a note is liable to pay it if unpaid at maturity without any notice from the holder or indorser.

Notice to one of several partners is sufficient notice to all.

When a check is certified by a bank the bank becomes primarily liable to pay it without notice of its non-payment, and when the holder of a check thus obtains its certification by the bank, the drawer of the check and previous indorsers are released from liability, and the holder looks to the bank for payment.

A bona-fide holder of a negotiable instrument, that is, a party who takes an instrument regular on its face, before its maturity, pays value for it and has no knowledge of any defences to it, is entitled to hold the party primarily liable responsible for its payment, despite any defences he may have against the party to whom he gave it, except such as rendered the instrument void in its inception. Thus, if the maker of a note received no value for it, or was induced to issue it through fraud or imposition, they do not defeat the right of a bona-fide holder to compel its payment from him.

The following States have enacted a similar Negotiable Instrument law: Alabama, Arizona, Colorado, Connecticut, Dist. of Columbia, Florida, Idaho, Iowa, Kansas, Kentucky, Louisiana, Maryland, Nebraska, Nevada, New Hampshire, New Jersey, New York, North Carolina, North Dakota, Oregon, Pennsylvania, Rhode Island, Tennessee, Utah, Virginia, Washington and Wisconsin—and the same general rules apply in all the States.

LAW OF CONTRACTS.

A contract is an agreement of two or more parties, by which reciprocal rights and obligations are created. One party acquires a right, enforceable at law, to some act or forbearance from the other, who is under a corresponding obligation to thus act or forbear.

Generally speaking, all contracts which are made between two competent parties, for a proper consideration, without fraud and for a lawful purpose, are enforceable at law.

To the creation of a valid contract there must be:

1. Precise agreement. The offer of one party must be met by an acceptance by the other, according to the terms offered.

2. There must be a consideration. Something of value must either be received by one party or given up by the other.

3. The parties must have capacity to contract. The contracts of insane persons are not binding upon them. Married women are now generally permitted to contract as though single, and bind their separate property. The contracts of an infant are generally not binding upon him, unless ratified after attaining his majority. The contracts of an infant for "necessaries" may be enforced against him to the extent of the reasonable value of the goods furnished. It is incumbent upon one seeking thus to hold an infant to show that the goods furnished were in fact necessary to the infant, and that he was not already supplied by his parents or guardians.

4. The party's consent must not be the result of fraud or imposition, or it may be avoided by the party imposed upon.

5. The purpose of the parties must be lawful. Agreements to defraud others, to violate statutes, or whose aim is against public policy, such as to create monopolies, or for the corrupt procurement of legislative or official action, are void, and cannot be enforced by any party thereto.

Contracts in general are equally valid, whether made orally or in writing, with the exception of certain classes of contracts, which in most of the States are required to be attested by a note or memorandum in writing, signed by the party or his agent sought to be held liable. Some of the provisions, which are adopted from the old **English Statute of Frauds**, vary in some States, but the following contracts very generally are required to be thus attested by some writing:

Contracts by their terms not to be performed within a year from the making thereof.

A promise to answer for the debt, default, or miscarriage of another person.

Contracts made in consideration of marriage, except mutual promises to marry.

Promise of an executor, or administrator, to pay debts of deceased out of his own property.

Contracts for the creation of any interest or estate in land, with the exception of leases for a short term, generally one year.

Contracts for the sale of goods above a certain value, unless a portion of the price is paid or part of the goods delivered. The required value of the goods sold varies in different States from \$30 to \$200. In a number of the States no such provision exists.

In many of the States declarations or conveyances of trust estates.

In many States representations as to the character, credit, or responsibility of another person.

Partial performance of the contract is generally held to dispense with the necessity for a writing.

If the damages liable to result from the breaking of a contract are uncertain the parties may agree upon a sum to which either may be entitled as compensation for a breach, which will be upheld by the courts, but if the sum so fixed is not designed as a fair compensation to the party injured, but as a penalty to be inflicted, it will be disregarded.

A party is generally excused for the failure to perform what he has agreed only by the act of God or the public enemy. Except in cases involving a personal element in the work to be performed, such as the rendition of services, when the death or sickness of the party contracting to perform them is a valid excuse, or contracts for the performance of work upon a specified object, when its destruction without the fault of the party sought to be held liable is a sufficient excuse.

ARREST IN CIVIL ACTION.

WHILE imprisonment for debt as it formerly existed in English and American law, by which a debtor might be arrested and imprisoned for mere inability to pay his creditor, no longer exists in the United States, the statutes of the majority of the States provide for the arrest of a defendant in a civil action under varying conditions. A large number of States determine the right of arrest by the character of the claim on which suit is brought, allowing in it actions for fraud or the injuries known in the law as "torts," such as an injury to the person or property, conversion or embezzlement, libel, slander, or the like.

In the following States no civil arrest is allowed—Arizona, District of Columbia, Florida, Maryland, Minnesota, Mississippi, Missouri, Nebraska, New Mexico, Tennessee, and Texas.

In the following States the right to arrest depends upon the nature of claim in suit: In actions for fraud or torts, Connecticut; for fraud, libel, slander, or violent injury to person or property, Delaware for fraud only, Iowa and Kansas; only after verdict of jury, finding malice, fraud, or wilful deceit, Colorado; for torts, breach of promise to marry, misconduct or embezzlement in office or professional capacity, Michigan, Pennsylvania, and New York (also for fine or penalty or to recover property concealed from Sheriff).

In the following States arrest is only allowed against a defendant about to remove from State or about to conceal, transfer, or remove his property to avoid plaintiff's claim or defraud creditors, irrespective of the nature of the claim: Indiana, Kentucky, Louisiana, New Hampshire, Utah, Virginia.

In the following States arrest is allowed in contract actions where the defendant is about to depart from the State, or conceal or remove his property, and also in actions for fraud or torts of various kinds, though the provisions are not identical: Arkansas (fraud only), California, Idaho, Illinois, Maine, Massachusetts, Montana, Nevada, New Jersey, North Carolina, North Dakota, Oregon, South Carolina, South Dakota, Vermont, Washington, West Virginia (fraud only), Wisconsin.

In Georgia arrest only allowed against attorneys, Sheriffs or other officers of the court for failure to pay over money collected and in certain circumstances against defendant who conceals property from Sheriff. The drawer of a check, which on presentation to the bank payment is refused, is guilty of a misdemeanor. Criminal prosecution cannot be instituted, however, until after an expiration of thirty days, and not then if the drawer makes good the invalid check.

In Wyoming (only after judgment) in actions for fraud, or money lost at gambling, or where defendant has removed or concealed property to avoid judgment.

In Rhode Island, allowed in all actions except to recover debt or taxes.

In Ohio, when an affidavit is filed showing: About to remove property to defraud creditors, convert property into money for same purpose, conceal property or rights in action fraudulently, assigned or disposed of property with intent to defraud creditors. Fraudulently contracted the debt, or incurred the obligation. Money or property sought to be recovered was in gambling on a bet or wager.

MARRIAGE AND DIVORCE LAWS.

(Revised to December 1, 1914.)

Marriage Licenses.—Required in all the States and Territories except Alaska, California, and New Mexico require both parties to appear and be examined under oath, or submit affidavit.

Marriage, Prohibition of.—Marriages between whites and persons of negro descent are prohibited and punishable in Alabama, Arizona, Arkansas, California, Colorado, Delaware, Florida, Georgia, Idaho, Indiana, Kentucky, Louisiana, Maryland, Mississippi, Missouri, Nebraska, North Carolina, Oklahoma, Oregon, South Carolina, Tennessee, Texas, Utah, Virginia, and West Virginia.

Marriages between whites and Indians are void in Arizona, North Carolina, Oregon, and South Carolina; and between whites and Chinese in Arizona, California, Mississippi, Oregon, and Utah.

Marriage between first cousins is forbidden in Alaska, Arizona, Arkansas, Illinois, Indiana, Kansas, Missouri, Nevada, New Hampshire, North Dakota, Ohio, Oklahoma, Oregon, Pennsylvania, South Dakota, Washington, and Wyoming, and in some of them is declared incestuous and void, and marriage with step-relatives is forbidden in all the States except Florida, Hawaiian Islands, Iowa, Kentucky, Minnesota, New York, Tennessee, Wisconsin.

Connecticut and Minnesota prohibit the marriage of an epileptic, imbecile, or feeble-minded woman under 45 years of age, or cohabitation by any male of this description with a woman under 45 years of age, and marriage of lunatics is void in the District of Columbia, Kentucky, Maine, Massachusetts, Nebraska; persons having sexual diseases in Michigan.

California prohibits divorced persons from marrying anywhere within a year by granting only an interlocutory decree at first and final decree one year later.

For age of consent see end of this table, second page following this.

STATES.	Residence Required.	Causes for Absolute Divorce. <i>In addition to adultery, which is cause for divorce in all the States.*</i>
Alabama.....	1-3 yrs.	Abandonment two years, crime against nature, habitual drunkenness, violence, pregnancy of wife by other than husband at marriage, physical incapacity, imprisonment for two years for felony, if husband becomes addicted to cocaine, morphine or similar drugs.
Alaska.....	3 years.	Felony, physical incapacity, desertion two years, cruelty, habitual drunkenness.
Arizona.....	1 year.	Felony, physical incapacity, desertion one year, excesses, cruelty, neglect to provide one year, pregnancy of wife by other than husband at marriage, conviction of felony prior to marriage unknown to other party, habitual drunkenness.
Arkansas.....	1 year.	Desertion one year, felony, habitual drunkenness one year, cruelty, former marriage existing, physical incapacity.

The marriage is void without divorce proceedings, consanguinity, insanity, former existing marriage.

*Exclusive of South Carolina, which has no divorce law.

Age at Which a Valid Marriage May be Contracted—The age at which a valid marriage can be contracted varies in different States. The lowest statutory age for a male is fourteen. The States in which a marriage can be contracted by a male at fourteen years are Kentucky, Louisiana, New Hampshire, and Virginia. The States in which the statutory limit is fifteen years are Kansas and Missouri. Those in which it is sixteen years are the District of Columbia, Iowa, North Carolina, Texas, and Utah. Those in which it is seventeen years are Alabama, Arkansas, and Georgia, and those in which it is eighteen years are Arizona, California, Delaware, Idaho, Illinois, Indiana, Michigan, Minnesota, Montana, Nebraska, Nevada, New Mexico, New York, North Dakota, Ohio, Oklahoma, Oregon, South Dakota, West Virginia, Wisconsin, and Wyoming.

Age Limit for Females—The lowest age at which a valid contract can be made by a female is twelve years. The States in which the statutory limit of twelve obtains are Kansas, Kentucky, Louisiana, Missouri, and Virginia. In New Hampshire the statutory limit is thirteen years. In the following States it is fourteen years: Alabama, Arkansas, District of Columbia, Georgia, Iowa, North Carolina, Texas and Utah. The States in which the statutory limit is fifteen are California, Minnesota, New Mexico, North Dakota, Oklahoma, Oregon, South Dakota, and Wisconsin. The States in which the statutory limit is sixteen years are Arizona, Delaware, Illinois, Indiana, Michigan, Montana, Nebraska, Nevada, Ohio, West Virginia, and Wyoming. The statutory limit is eighteen years in Idaho and New York. In other States, for which no minimum marriageable age is given, the provisions of the common law apply.

Parental Consent—The age below which parental consent is required for the marriage of a male is twenty-one years in nearly all the States and Territories. In Tennessee it is sixteen years and in Idaho and North Carolina eighteen years. In Georgia, Michigan, New Hampshire, New York, and South Carolina no limit is established. It is twenty-one years in all the other States and Territories.

The age below which parental consent is required for the female is sixteen years in Maryland and Tennessee. It is twenty-one years in Connecticut, Florida, Kentucky, Louisiana, Pennsylvania, Rhode Island, Virginia, West Virginia, and Wyoming. No statutory limit is established in New Hampshire, New York, and South Carolina. In all the other States and Territories it is eighteen years.

DIVORCE STATISTICS.

THE Bureau of the Census issued in 1909 a report of the results of a compilation of statistics of divorces of married people granted by the courts in the United States for a period of forty years; being from 1867 to 1906, both years inclusive, and which are shown in 1912 ALMANAC, pages 197-199. For comparison with foreign countries see 1914 ALMANAC, page 277.

FROM 1910 CENSUS REPORT.

The number of divorced persons in the United States when the census was taken in 1910 was 156,176 men and 185,101 women—0.3 per cent. of the total male population and 0.4 per cent. of the total female population. There were fourteen boys and thirty-three girls less than fifteen years old who were divorced.

The statistics of the number of divorced persons fifteen years old and over in New York State are, Men—Native white of native parentage, 3,784; native white of foreign or mixed parentage, 1,692; foreign-born white, 1,775; negro, 164; total, 7,415. Women—Native white of native parentage, 4,950; native white of foreign or mixed parentage, 2,347; foreign-born white, 2,609; negro, 292; total, 10,198. The figures for the males include 18 divorced Indians, 2 Chinamen and 1 Japanese, those for females include 28 divorced Indians and 1 Japanese.

THE PROCREATION COMMISSION.

THIS Commission, created by an act of the Legislature of New York State, is to examine into the mental and physical condition and the record and family history of the feeble-minded, epileptic, criminal and other defective inmates confined in the State hospitals, reformatories, charitable and penal institutions; and if in the judgment of the majority of the board procreation by any such person would produce children with an inherited tendency to crime, insanity, feeble-mindedness, idioey, or imbecility, and there is no probability of an improvement in their condition, then the board shall appoint one of their number to perform such operation for the prevention of procreation that shall be decided to be most effective. All orders made under this law are subject to review by the Supreme Court.

The board, as appointed by Governor Dix, consists of Dr. Charles H. Andrews, Buffalo, N. Y., Chairman; Dr. Leomon Thompson, Glens Falls, N. Y., Secretary; Dr. Wm. J. Wansboro, Albany, N. Y.
