NATIONAL UNITY MANUFACTURERS' AIM

Republicans Choosing Nominee for Post of President of States

Convention Opened in Chicago This Forenoon; Senator Lodge Says Everyone Connected With "Dynasty of Woodrow Wilson Must Be Driven From Power."

Coliseum, Chicago, June 8.—The Republican National Convention was opened here this forenoon, the opening keynote speech being delivered by Senator Lodge, temporary chairman.

The temporary organization was quickly perfected by acclamation.

The general understanding was that an agreement would be made to accept the temporary organization and chairman as the permanent ones, thus continuing the gavel in the hand of Senator Lodge.

Chairman Lodge's address was punctuated by cheering and applause and most loudly when he referred to the Republican Party of 1860 and declared it must again come forward for a like service to the country.

Hours of cheers and continued applause marked Chairman Lodge's declaration that everyone connected with "the dynasty of Woodrow Wilson must be driven from power."

The defeat of the present administration, said Senator Lodge, "transcends every other question."

There was another wave of laughter and applause when Senator Lodge referred to President Wilson as "Democratic trader with Socialist proclivities."

STEVENS INQUIRES REGARDING WHEAT

Vancouver Member Asks in Commons About Canada Wheat Board

Ottawa, June 8.—(Canadian Press)—Designed to bring the question of open trading in wheat to a head, a series of questions is down for the Commons to-morrow from H. H. Stevens, Vancouver. He asks if the Government intends to deal with the proposal of the Canadian Council of Agriculture to continue the Wheat Board by legislation this season, or whether it is possible to deal with the matter by Order-in-Council.

Mr. Stevens goes on to ask if the Government is aware that control of marketing has been abandoned by the United States Government.

He asks whether the powers of the Canada Wheat Board, it is the duty of the Board to secure for the seller the highest possible price in the world market, and if the marketing of Canadian wheat has resulted in farmers getting the highest market price for their wheat, if the marketing by the Board has resulted in lowering the price of flour to the Canadian consumers.

Raiders Continue Their Violent Acts in Ireland

Dublin, June 8.—Attacks on policemen in Ireland continue. At Cullghanna, County Armagh, three policemen were attacked without warning last night by five armed men. A desperate revolver battle followed. A sergeant and a constable were severely wounded, one constable is missing and a civilian was killed.

While motor cycling through Drombane, a military officer was wounded by armed men. Other outrages include the burning of a recreation hall on the Earl of Middleton's estate and the destruction of the courthouse at Pillowan, County Kilkenny.

Jews Killed in Budapest, State Advices to Paris

Paris, June 8.—According to information received at the Foreign Office to-day, anti-Semitic outbreaks occurred in Budapest around June 4, on which date the advices stated one man saw twelve Jews killed. The rioting continued for several days, during which many Jews were killed, the Foreign Office dispatch said.

Richard Marpole Dies Soon After Retirement

Vancouver, June 8.—Richard Marpole, executive of the Canadian Pacific Railway Company in British Columbia, died shortly after noon to-day from heart trouble in his rooms at the Hotel Vancouver.

Mr. Marpole took an active part in the control of the Esquimalt and Nanaimo Railway since it became the Island branch of the Canadian Pacific Railway, and accompanied by H. J. Cambie, the veteran engineer, who has recently retired, he made periodical visits over the lines of the company.

He was active in the extensions to Port Alberni, 1912; Courtenay, 1913; Cowichan Lake, 1913, and in the new lines under construction and contemplated in the central portion of the Island.

Lifetime in Railroading. The late Mr. Marpole was born in Wales on June 8, 1850. He was educated in Wales and at Glasgow.

Colonel Marpole entered upon his railroading career, which was the only occupation he ever followed. His first connection was with English railways, with which he continued for several years. He then came to Canada, and was for some time in the employ of the Northern Railway of Canada. In 1881 he became associated with the Canadian Pacific Railway, first as a contractor, and in 1882 he was appointed a member of the official staff in the capacity of assistant manager of construction on the Alberta branch and the Nipigon branch of the line.

The next step in the course of his promotion was when he was made superintendent of construction and operation of the Lake Superior division of the Canadian Pacific Railway, which he held until 1907, when he was appointed to his present position of general executive assistant for British Columbia.

He was also vice-president of the Esquimalt & Nanaimo Railway, having direct charge of its affairs, including its land and lumber interests.

Mr. Marpole held a unique position in the history of the Canadian Pacific Railway Company. In addition to being one of the oldest officials in the service, he had charge, as superintendent of construction and operation.

CANADIAN-AMERICAN COMMISSION MEMBER

Ottawa, June 8.—S. J. Chapleau, C. E., one of the engineers of the Department of Public Works, has been appointed to act as representative for Canada on the board of control, the formation of which was recommended by the International Joint Commission for the construction of compensating works in St. Mary's River by the Michigan Northern Power Corporation and the Algoma Steel Corporation.

Mr. Chapleau will act on the board of control during the absence in Europe of W. J. Stewart, who was formally appointed in June, 1914, as Canadian representative.

GEN. PERSHING SOON TO LEAVE ARMY

Plans to Retire in Few Months and Enter Civil Life

Washington, June 8.—Unless a situation arises that justifies him in remaining in the army, General Pershing will retire from active service within a few months. In a letter to Secretary Baker he expressed the desire to return to civil life, adding: "I feel that after the completion of the work contemplated by the Army Reorganization Act, I could relinquish military duty without detriment to the service, and thus be free to engage in something more active."

The general did not indicate the nature of his future activities.

INCREASED MINERAL OUTPUT IN ONTARIO

Figures For First Quarter of 1920 Show Almost \$1,000,000 Increase

Toronto, June 8.—Mines, smelters and refining works of the Province of Ontario for the first quarter of this year show an increase in output of almost \$1,000,000 in value, as compared with the same quarter of the first quarter of 1919, according to a report issued by the Bureau of Mines here to-day.

The quantity of silver marketed during the quarter shows a falling off despite the high price of the metal, which averages \$1.30 per ounce. The price has been going downward and now averages about \$1. Of the total of 2,280,000 ounces, Cobalt and Gowanda contributed 2,244,709 ounces.

THIRTY HURT. Mankato, June 8.—Thirty persons were injured, some seriously, when Omaha passenger train No. 7 was wrecked fifteen miles southwest of here last night. All the coaches left the track. The accident is attributed to speeding rail.

LABOR DELEGATES AWAITING REPORTS

At Montreal American Federation of Labor Adjourns Till To-morrow

Committees Busy on Resolutions; Gompers Expected to Be Re-elected

Montreal, June 8.—After a brief session the American Federation of Labor, in convention here to-day, took an adjournment until to-morrow, as there was no further business on hand until the resolutions committee report was ready.

The auditors' report, read to the convention, showed that the Federation has a "defence fund" of \$184,074 and paid out \$57,912 in sick benefits during the last year.

James Duncan, vice-president, presided to-day in the absence of Samuel Gompers, president, who is in Chicago.

Resolutions covering political and economic conditions in the United States and labor demands upon the administration forces of that country were before the committees. These resolutions demand a "hands off" policy on the part of the United States toward Mexico, public ownership of railroads with democratic administration, reaffirmation of Home Rule for Ireland, appointment of a committee to lay the foundations of an American Labor party.

Another resolution presented by Abraham Lefkowitz, of the American Federation of Teachers, asks for "democratization of the school systems" by giving the teachers a voice in framing the educational policies of each community.

The national committee for organizing iron and steel workers to-day presented a resolution asking support in the committee's fight for "free speech" in Western Pennsylvania steel towns, and aid in financing a legal battle to carry cases now pending to the United States Supreme Court.

While the election will not come up until next week, opinion was unanimous that Samuel Gompers will be unopposed for re-election as president of the Federation for the thirty-ninth time.

The International Press of America announced to-day that it had adopted a resolution endorsing the Federation's non-partisan political policy. The press organization also announced the election of Matthew Wolf, Chicago, as president for the ensuing year.

BOLSHEVIK CLAIM GROUND IS HELD

Say They Repulsed Polish-Ukrainian Attacks in Kiev Region

London, June 8.—Repulse of Polish-Ukrainian attacks in the Kiev region and further south is reported in Monday's official Bolshevik statement from Moscow, received here by wireless to-day. An engagement to the east of Bobruisk in which the Soviet forces were successful also was reported.

An official statement under Sunday's date also received to-day says: "Our troops have retaken the offensive on the left bank of the Dnieper and have regained all their positions. We have made further progress northward of Kiev."

A Polish Report. Warsaw, June 5.—Delayed—Bolshevik forces have been driven back in a panic along the front between the Dvina and Beresina Rivers, according to an official statement issued by Polish army headquarters here. The Poles launched an attack against the town of Glubokoi, eighty-five miles north of Minsk, which broke through the Soviet lines and resulted in the capture of 800 prisoners and a large amount of booty.

Bolsheviks who had crossed the Beresina have been driven back, it is declared.

ALL BRITISHERS HELD IN RUSSIA EXCEPT CRIMINALS RELEASED

London, June 8.—The Bolsheviks have released all the remaining British prisoners in Russia, aside from ordinary criminals, at the request from the British delegation which is visiting Russia, according to a Moscow dispatch to The Daily Herald.

Conditions on Prairies Now Promise Big Crop

Winnipeg, June 8.—In presenting its second crop report for 1920 The Manitoba Free Press announces that it indicates about the best condition of crops at this date of any year since 1904, when these reports began, with possibly the single exception of 1912, when the June crop conditions were as nearly perfect as it is possible to hope for. This present report is much more encouraging than the early June report of the famous bumper year of 1915, as during the early part of June of that year heavy frosts occurred and the crop had not fully recovered from them.

PARACHUTE RECORD OF 19,800 FEET MADE BY AN AMERICAN

San Antonio, Tex., June 8.—Second Lieut. John P. Wilson, of Charleston, N. C., stationed at Kelly Flying Field, to-day claimed a new world's record for a parachute drop, 19,800 feet. Lieut. Wilson made his leap yesterday, landing eighteen miles from San Antonio. The former record is said to have been 14,000 feet, made by a French aviator.

TO START DRYDOCK BY SEPTEMBER 1

J. Charles McIntosh, M. P., Returns With Definite Word From Premier Borden

The building of the big Dominion Government drydock at Esquimalt, which will cost between \$5,000,000 and \$8,000,000, will actually start on September 1, J. Charles McIntosh, M. P., announced on his return to Victoria from Ottawa to-day.

Dominion Government engineers are now surveying the line for a railway spur from the Esquimalt & Nanaimo Railway to Skinner's Cove, the site of the dock, so that all material and machinery that comes by roadway can be landed on the site without transfer, Mr. McIntosh said.

"I was surprised and a bit disgusted when I came home and found all this pessimism and talk about there going to be no drydock," said Mr. McIntosh.

"I saw Sir Robert Borden when he came back and he said he didn't know that the matter was even open to discussion at all. It had all been decided that the drydock was to be built."

Mr. McIntosh also saw the Minister of Finance and the Minister of Public Works, and both declared that there was to be no unnecessary delay.

"There is a revote of \$500,000 in the estimate this year for the drydock," Mr. McIntosh went on. "This had not come up before I left Ottawa, but will naturally be put through in the ordinary course."

Contractors are now waiting around Ottawa ready for the work to commence September 1.

GERMAN CABINET GIVES RESIGNATION

Following Election; Remains in Office Provisionally on President's Request

Berlin, June 8.—(Associated Press)—The Government to-day tendered its resignation to President Ebert, who requested it to remain in office provisionally.

The President also asked Chancellor Mueller to take steps so that the results of Sunday's parliamentary election can be established as soon as possible in order that the Reichstag may be summoned at the earliest possible date.

The Parties. Berlin, June 8.—Reports from nearly 350 districts on the results of the balloting for members of the new Reichstag in Sunday's election, received up to 11 o'clock last night, showed the majority Socialists, Centrists and Democrats, the parties making up the coalition bloc back of the present Government, had elected 156 Deputies.

The main parties of the Conservative opposition, these figures showed, had elected 83 members, while the main party of the left and independent Socialists, had elected fifty-seven.

OBED SMITH NAMED ON COMMISSION

Ottawa, June 8.—J. Obed Smith, Superintendent of Immigration in London, Eng., has been appointed to represent the Dominion Government on a commission of the International Labor Body (League of Nations) study questions relating to emigration and immigration. The Commission will meet in Geneva early in 1921.

MUSTAPHA'S TROOPS MOVED CLOSE TO ISMID, SAY REPORTS

Paris, June 8.—Turkish Nationalist forces have defeated Government troops and have advanced to within about 5 1/2 miles of Ismid, according to Constantinople dispatches received by newspapers here.

Orderly Development of Country Desire of Manufacturers

Group Legislation For Farmers or Laboring Classes Not Best for Canada, S. R. Parsons, Toronto, Declares at Manufacturers' Convention in Vancouver.

Vancouver, June 8.—Addressing the convention of the Canadian Manufacturers' Association here this forenoon, S. R. Parsons, Toronto, said that greatly as he wished to see an action to be deplored, if there was to be group legislation, if the laborers and farmers turned themselves into groups, then they, as manufacturers, would have to get into the game.

But such a thing did not make for the orderly development of the country, nor for the national unity which they all so ardently desired. Therefore, though they sometimes felt they must give expression to their views, at the same time they must deplore class work and class legislation and seek, through legislation by the Dominion and the provinces, to bring about that state of affairs which would be most truly representative of the people generally and they would have then a real democracy in that respect.

Following a discussion, a motion, moved by Colonel Gartsshore, London, and seconded by A. Reed, Fredericton, N. B., that the paragraph of the legislation committee's report headed "representation in the Legislature" should be stricken out was carried and the report was adopted.

Injuries. Voicing the opinion that the slightest injury which drew blood should be speedily attended to, so that infection might be prevented, R. L. McIntyre, Toronto, paid tribute to the merit of the committee's report. He dealt more particularly with the workmen's compensation acts and urged that wherever possible an industry should install a nurse, well equipped to administer first aid in case of injury, and then follow up the cases so that injured men might be thoroughly well cared for.

Important Work. Because of the importance of the work of the legislation committee, Thomas Roden, Toronto, advocated placing therein only the very best of the members of the Canadian Manufacturers' Association, when queried as to stand the Association took on a matter that continues to agitate British Columbia manufacturers after many years of agitation.

The least the British Columbia manufacturers are out for is a complete equalization on a mileage basis. Mr. Walsh admitted that the differences in the eastbound and westbound rates were due for an adjustment.

"The matter is one," said he, "that calls for a change and the Canadian Manufacturers' Association is earnestly desiring that such a change be done. The situation would have been much more satisfactory by now had not the western rates case judgment of the Railway Commission been subjected to two different interpretations when dealing with this matter."

Eliminated. Vancouver, June 8.—(Canadian Press)—The Canadian Manufacturers' Association convention to-day unanimously decided to delete from the report of the legislative committee a clause suggesting that manufacturers were not represented in sufficient strength in Parliament and the Legislatures. The clause was eliminated without controversy.

S. R. Parsons, Toronto, in a short, vigorous speech, urged that manufacturers should have nothing whatever to do with group legislation, even though the general trend of the times would seem to imply that that would be a wise course. He argued that class or group legislation did not make for national unity nor for the best development of the country.

WHEAT NOT LEAVING ARGENTINA NOW

Bread Price High; Protests From British, French and Italians

Buenos Ayres, June 8.—Protests by the British, French and Italian Ministers against the new export duties on wheat, which are being filed with the Foreign Office last week, have not as yet produced results and ships ready to leave for European ports have not been able to complete their cargoes.

President Irigoyen has the whole matter in his hands and he is said to take the attitude that it is important to the country that no further wheat be exported until some means of reducing the price of bread are assured.

Ottawa, June 8.—Authority has been given to the Secretary of State to make such preliminary arrangements as are necessary for the holding of a liquor referendum in the province of Ontario. The precise date of the plebiscite has not yet been determined, but it probably will be on Monday, October 25, the same date as has been fixed for Saskatchewan.

RAIN IN ONTARIO WORTH MILLIONS

Toronto, June 8.—Central Ontario was visited last night by another "million dollar" rain, which added many times that amount, in the opinion of agricultural observers, to the grain, fruit and vegetable crop prospects of the Province.

Pensions Committee at Ottawa Prepare Report

Ottawa, June 8.—(Canadian Press)—Members of the Commons Committee on Pensions and Re-Establishment are now at work sifting through the mass of evidence they have accumulated and endeavoring to draft a report to be presented to the House.

The hearing of evidence has been concluded, owing to the short time left at the disposal of the committee with the approaching prorogation of the House. The report on pensions, it is intimated, is almost ready for presentation, to be brought in until the session adjourns, as also is that in re-establishment is ready.

HON. V. WINKLER DIES IN MANITOBA

Minister of Agriculture Since Norris Government Was Formed

Morden, Man., June 8.—Hon. Valentine Winkler, Minister of Agriculture of Manitoba, died suddenly at his home here last night. The deceased had come to his farm on Saturday feeling fit, but he became ill on Sunday and was taken to the hospital, where he died at 10.30 o'clock last night. He was one of the oldest members of the Manitoba legislature, being first elected in 1892 and with only one interval, when he contested a Federal seat sitting there ever since. He was made Minister of Agriculture at the establishment of the Norris Government on May 15, 1915.

The late Minister had not for a long time been in good health, suffering from Bright's disease, which led to complications that hastened his death. He was born at Neustadt, Ont., in March, 1864.

CHURCH PROCESSION SEEN IN DUNCAN

Duncan, June 8.—The annual Corpus Christi procession took place at St. Anne's Church on Sunday morning last. Owing to a very heavy rain which did not clear off until after 11 o'clock the number taking part was not so great as last year.

The Rt. Rev. Alexander Macdonald, Bishop of Victoria, was present, and in the celebration of Pontifical High Mass was assisted by the Rev. Father De Weert, of Kuper, as deacon; Father Winnen, of Sidney, as sub-deacon, and Father Francis, of Cowichan, as assistant priest. Mr. Allen, of Victoria, acted as Master of Ceremonies, and several of the Knights of Columbus of Victoria were present to take part in the procession. The special mass was sung by the boys of St. Anne's Orphanage. The Kuper Island band of more than twelve pieces accompanied.

The Bishop preached a sermon on the mean of the Corpus Christi, and spoke on the miracles of the New Testament, speaking particularly on the miracle of the loaves and fishes. Forty children were confirmed, among whom were a few Indians.

No one who has witnessed one of these processions can fail to be impressed by the reverent attitude of the Indians, who for this day are lifted far above the ordinary. The neatness and cleanliness of their attire on this day are a tribute to their teaching.

Sports.
The afternoon was devoted to Indian sports. In the baseball match between North Vancouver and Cowichan the former team won with a score of 11 to 3. North Vancouver Indians gave an exhibition game of lacrosse.

In the tug-of-war Valdez won against Cowichan. Foot races and various other contests filled out an interesting programme which was witnessed by a very large crowd of Indians and white residents.

NO NEW TAX.
London, June 8.—The Chancellor of the Exchequer announced in the House of Commons yesterday that the proposed levy of a tax on war wealth would be dropped.

BOLSHEVIK TROOPS MURDERED JAPANESE

Honolulu, June 8.—Several hundred Japanese, including women and children, were murdered by the Bolsheviks in the attack on Nikolaievsk, Siberia, March 12, the Japanese War Office announced, according to a Tokyo cablegram received yesterday by The Nippo Jiji, a Japanese language newspaper here. The War Office statement said the murders were confined by the evidence of Russian witnesses.

The Japanese commander, Major Mikaya, defended the consulate with a few troops, and although greatly outnumbered, held out for five days against the attack, the statement continued. The Japanese then burned the buildings, destroying the documents, and the commander committed suicide, the report said. No Japanese were left in Nikolaievsk.

MOUNTED POLICE MAY VISIT PORTLAND

Vancouver, June 8.—Whether local members of the Royal Canadian Mounted Police shall go to Portland or not rests with Hon. Hugh Guthrie, Minister of Militia, according to L. A. Walker, of this city, who has been active to secure permission for the visit to be paid.

The Secretary of State at Washington has stated that he would be delighted to sanction the visit. A reply from the Minister of Militia is being awaited locally with great interest.

URGES GREATER TRADE WITH JAPAN

Canadian Commissioner to Japan Addresses Manufacturers' Association

Vancouver, June 8.—Addressing the convention of the Canadian Manufacturers' Association here last night, A. E. Bryan, Canadian Trade Commissioner to Japan, said Canada's favorable geographical position gave her a tremendous advantage over competitors in placing her goods in the Japanese market.

There was ample scope for additional shipping facilities, said Mr. Bryan, who thought the business of \$0,000,000 people was worth going after. Japan had the money and was not afraid to spend it, but very few Canadian firms were offering their goods.

Canada's total contribution to Japan's imports last year was but a little more than one-quarter of one per cent of the whole, while the "Union," our little Japanese friends, the value of thirty-five per cent of the total.

Dealing with the manufacture of pulp and paper in Japan, Mr. Bryan stated that very little was produced there. "There has been very little pulp imported into Japan since the war, and there is very little prospect for pulp and paper export business to that country," he said.

He urged that Canadian manufacturers should always take care to ship goods according to specifications. "Our little Japanese friends are keen traders and merchants," he said, "and the best policy is always to ship them the pick of your stock."

The prospect, he continued, is that there will be a big demand for lumber in Japan within the next few months. The timber supply in that country is on the verge of being exhausted. Since it is no longer able to export timber owing to the lack of transportation facilities.

Reports Adopted.
The reports of the industrial relations and insurance committees were read and adopted during the evening session.

A vote of thanks was tendered S. R. Parsons for his work as representative of the Association with the Canadian delegation to the International Labor Congress in Washington.

Freight Rates.
An increase in freight rates, of which some idea may be gained by the freight rate increases in the United States, is predicted for Canada by S. B. Toronto, assistant manager of the transportation department of the Association.

The \$33,000,000 deficit of the Canadian National Railway during the past fiscal year may be considered the biggest single agency liable to bring about an increase, said Mr. Brown in an introductory speech, and not so generally known is that the C. P. R. boasted a net surplus of about \$840,000 in the past year.

"This, in the opinion of transportation men, is far too small. The Canadian Pacific Railway's proportion of operating expenses to revenue ran somewhere in the neighborhood of 85 cents to the dollar, when American railway economists insist that 70 cents to the dollar is getting to the danger point."

Mr. Brown was cautious as to the amount of increase that might be levied, although he would not be as high as 25 to 30 per cent, as the American roads had applied for.

BRYAN BEFORE MOVIE CAMERAS

Chicago, June 8.—Less than an hour after the United States Supreme Court had announced its prohibition decisions yesterday, upholding the legislation, W. J. Bryan was delivering a speech about them to movie cameras.

Camera men found Mr. Bryan in a hot lobby and immediately began to "shoot" him.

"Talk; say something," urged one movie man.

"A little pep, a little action, please," "Ah, gentlemen," Mr. Bryan responded graciously and with gestures. "I am much gratified at the Supreme Court's action to-day, although it was not unexpected."

"Cut," roared the movie men, "snuff," and they scampered off, leaving Mr. Bryan in the midst of a smile and with his arm suspended.

AMERICAN EDITORS TOURING CANADA

Yarmouth, N.S., June 8.—Members of the American National Editorial Association, on arriving here from Boston, were welcomed by Mayor Walker, and after a tour of the city left for Halifax. The delegation will tour Canada during the next fortnight.

"TIZ" PUTS JOY IN SORE, ACHING FEET

"My, how 'Tiz' gladdens tired, swollen, burning feet— It's glorious!"

Ah! what relief. No more tired feet; no more burning feet; no more swollen, aching, tender, sweaty feet. No more soreness in corns, callouses, blisters.

No matter what ails your feet or what under the sun you've tried without getting relief, just use "Tiz." "Tiz" is the only remedy that draws out all the poisonous exudations which puff up the feet. "Tiz" cures your foot trouble so you'll never limp or draw up your face in pain. Your shoes won't seem tight and your feet will never, never hurt or get sore and swollen. Think of it, no more foot misery, no more agony from corns, callouses or bunions.

Get a box at a drug store or department store and get instant relief. Wear smaller shoes. Just once try "Tiz." Get a whole year's foot comfort for a few cents. Think of it.

"I Cannot Go"

BILIOUS headache spoils many an expected enjoyment.

When the condition of the liver is neglected, biliousness seems to become chronic and recurs every two or three weeks, with severe sick headaches.

Why not get right after this trouble and end it by using Dr. Chase's Kidney-Liver Pills to restore the health and activity of the liver.

Constipation, indigestion, backache, headache, biliousness and kidney derangements soon disappear with the use of this well-known medicine.

One pill a dose, 25c a box, all dealers, an Edmanson, Bates & Co., Ltd., Toronto.

Dr. Chase's Kidney-Liver Pills

MORE RULINGS ON THE NEW TAXATION

Building Contractors Are Regarded as Retailers Selling to Consumers

Ottawa, June 8.—Building contractors and sub-contractors, though technically manufacturers, are regarded for the purpose of the new excise tax as retailers selling to the consumer. This is the most recent ruling of the Department of Internal Revenue on the point. Any material manufactured by the contractor, such as metal cornices or sash and doors, must be charged by him to the owner of the building at the rate of the one per cent. sales tax.

Material purchased by the contractor from a manufacturer is assessed by the manufacturer for the one per cent. sales tax.

Sales tax is chargeable on the amount of the contract between the contractor and the owner, except with respect to material manufactured by the contractor and included in his construction, such as metal cornice or sash and doors. The tax on such materials will be based on the selling price of such materials, including labor, but not the cost of installation in the buildings.

Other rulings of the Department include: Manufactured gas for fuel purposes, cordwood, logs sold by logging firms, if not squared and processed, lignite coal, surgical instruments and hog and poultry food are added to the list of articles exempt from tax. Beer is not taxable when it is used in the manufacture of vinegar in bond.

Collar buttons and cuff links are taxable. Photographers must collect the one per cent. sales tax as manufacturers.

TAKING TWO GIRLS TO OLD COUNTRY

Duncan, June 8.—Mrs. Hogan, of Quamichan Lake, will leave for England in a few days accompanied by her daughter, Phoebe, and little Miss Joan Hutchinson. The two girls will be placed in school.

Last Saturday evening's dance at the Agricultural Hall was a pleasant event. While not so well attended owing to other attractions as the former dances, a good sum has been added to the society's funds as a result.

The Women's Institute catered to the general satisfaction.

AGRICULTURISTS ORGANIZE

Ottawa, June 8.—(Canadian Press)—Important business was transacted by the Dominion executive of the Canadian Society of Technical Agriculturists at the close of the organizing convention held here last week.

Fred H. Grindley, B.S.A., McGill, until recently Assistant to the Dominion Fruit Commissioner, was appointed general secretary-treasurer.

Westmen were appointed on standing committees as follows: Research—W. H. Thompson, Saskatoon. Progress—Professor T. J. Harrison, Winnipeg, chairman; G. H. Cutler, Edmonton. Marketing education—Dean F. McClement, Vancouver.

Agricultural policies—Dean E. A. Howes, Edmonton, and Professor R. A. Bovine, Vancouver.

BY ACCLAMATION

St. John, N.B., June 8.—Nominations for candidates in the by-election made necessary by the decision of Hon. R. W. Roberts, Provincial Minister of Public Health, to accept the salary to which he is entitled as a Minister of the crown, closed yesterday.

As a result of the decision of the local Opposition not to oppose him, Dr. Roberts was returned by acclamation.

Special Reductions in Coats

There is no luxury tax on these Coats, as we have marked them down to the remarkably low price of

\$39.75

This is indeed a rare opportunity to purchase a high-grade Coat at a low price, as they are made of such popular materials as Polo Cloth, Tricotine and serge. Sport and knee lengths, in a variety of new styles.

LEAGUE COUNCIL TO MEET IN LONDON

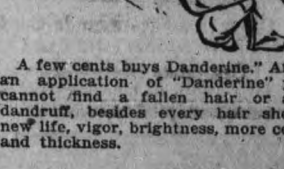

London, June 8.—Mr. Lloyd George stated in the House of Commons yesterday afternoon that a special meeting of the Council of the League of Nations would be held in London on June 14, on the application of the Persian Government concerning the occupation of Enzeli.

TURKS PREPARE REPLY TO ALLIES

Constantinople, June 7.—Via London, June 8.—The commission charged with drafting Turkey's reply to the peace terms is speeding its work, and it is announced that Damad Ferid Pasha, the Grand Vizier, will leave for Paris next week with the document.

ECZEMA

You are not experimenting when you use Dr. Chase's Ointment for Eczema and Skin Irritations. It relieves at once and gradually heals the skin. Sample box Dr. Chase's Ointment free if you mention this paper and send 2c. stamp for postage, see a box at all dealers or Edmanson, Bates & Co., Limited, Toronto.

A few cents buys Danderine. After an application of "Danderine" you cannot find a fallen hair or any dandruff, besides every hair shows new life, vigor, brightness, more color and thickness.

Whatever you do eat Krumbles W.K. Kellogg

A FIREMAN'S job takes its toll of nerves, brain and muscle. You've got to have a good foundation for such work and that is why your breakfast should include Krumbles.

Krumbles is made of whole wheat, and Nature must have been thinking of hard-working, quick-acting men and their needs when she created wheat.

Wheat is Nature's well-rounded ration. We take the whole wheat grain, cook it, shred it and toast it, and give it a flavor that makes it doubly good to eat.

The consequence is that there is strength, vim, vigor and "pep" in Krumbles.

Ask your grocer for Kellogg's Shredded Krumbles—the only Krumbles made.

Krumbles is made in the same Kitchens at Toronto as Kellogg's Toasted Corn Flakes and Kellogg's Krumbled Bran—Always wrapped "Waxtite."

Teeth You Envy Are Cleaned in This Way, You Will Find

All Statements Approved by High Dental Authorities

Free A 10-Day Tube of Pepsodent. See offer below.

Millions of Them

Millions of teeth are being cleaned in a new way. You see them everywhere—white, gleaming teeth. Ask about them. You will find the owners are now fighting film.

Film is the great germ breeder. Most tooth troubles are now traced to it. And film is the reason why well-brushed teeth discolor and decay.

How Film Wrecks Teeth

Film is that slimy coat which you feel with your tongue. It clings to teeth, enters crevices and stays. The ordinary tooth paste does not dissolve it, and the tooth brush alone can't end it.

Film is what discolors—not the teeth. It is the basis of tartar. It holds food substance which ferments and forms acid. It holds the acid in contact with the teeth to cause decay. Millions of germs breed in it. They, with tartar, are the chief cause of pyorrhea. So, despite the tooth brush, all these troubles have been constantly increasing.

Now dental science, after years of searching, has found a way to combat film. The facts have been proved by five years of clinical and laboratory tests.

The method is now embodied in a dentifrice called Pepsodent. Leading dentists all over America are urging its adoption. And millions of teeth now show what it can do.

Watch Yours Whiten

A 10-Day Tube of Pepsodent is offered now to anyone who asks. This is quickly show all people what it does. For your sake and your children's sake we urge this ten-day test.

Pepsodent is based on pepsin, the digestant of albumin. The film is albuminous matter. The object of Pepsodent is to dissolve it, then to day by day combat it.

But pepsin must be activated, and the usual agent is an acid harmful to the teeth. So this method long seemed barred. Now science has made it possible by discovering a harmless activating method. And everyone who will, can daily fight this film.

A Test is Free to All

This question needs no argument. The results are quick and apparent.

Simply send the coupon for a 10-Day Tube. Note how clean the teeth feel after using. Mark the absence of the slimy film. See how the teeth whiten as the film disappears.

You see the results wherever you look—see teeth uniquely white. And you know those white, clean teeth mean safer teeth.

Find out how folks attain them. See the results on your own teeth. Then judge for yourself what is best for you and yours. Cut out the coupon so you won't forget.

MOUNTED POLICE PLAN CRITICIZED

Eastern Members of Commons Objected to Extension of Field

Ottawa, June 8.—Strong criticism of the Government was voiced in the House last evening when the estimates to cover expenditures for the Royal Canadian Mounted Police after member declared that the force was unnecessary in Eastern Canada, and that it should be returned to its original field in the West. Economy was urged by Opposition members as the chief argument against an extension of the scope of activities of the Mounted Police, and Hon. R. Lemieux declared that the estimate of \$4,467,066 should be cut in half.

Two of the members were very outspoken in their opposition to the extension of the Mounted Police force in the East. R. H. Butts, of Cape Breton, a Conservative-Unionist, said that Mounted Police would be regarded as intruders in Nova Scotia, and intimated that trouble would follow their advent.

"We don't want hayseeds from the Western plains to watch the Atlantic breakers for booze smugglers from St. Pierre and Miquelon," he declared. "If we must have mounted police we will train them in Nova Scotia."

W. H. White, Victoria, Alberta, Liberal, and a former member of the Mounted Police, thought the force was losing caste, and attributed this to the fact that it had been taken from its proper work and put to breaking strikes.

This was emphatically denied by Hon. N. W. Rowell, the Minister in charge of the estimates. He admitted that the Mounted Police had been accused of breaking the Winnipeg strike, but it had not done so. When requested by the Provincial authorities of Manitoba, they had suppressed a riot to prevent disturbance.

He informed Mr. Butts that there were no more Federal police in Nova Scotia than there had been in the past.

As Producers. F. S. Cahill, Liberal, Pontiac, Que., expressed the opinion that the Mounted Police would be better employed planting potatoes somewhere than riding around the streets of Ottawa. They should go back West, where they belonged.

The criticism offered was not levelled at the force itself, which, it was generally conceded, was an exceptionally fine body of men, and performed exceedingly valuable work. The objection was to an extension of its activities in Eastern Canada.

The whole Mounted Police estimate was subsequently carried with the exception of \$500,000 for new buildings. This was allowed to stand.

Earlier Sessions. Some discussion on beginning sessions earlier arose when Sir Henry Drayton introduced a resolution asking for \$62,900,754.17, being one-sixth of the estimates. Some of the larger amounts had been passed, he said, and it was absolutely necessary to have the money.

Hon. W. L. Mackenzie King said he did not wish to oppose the motion, but the Government must understand that next year he would insist on earlier sessions, stating that ninety per cent. of the members on both sides of the House favored them. He threatened to hold up the vote unless the Government announced itself on the matter.

In January, Sir Henry Drayton pointed out that he could not make any promise for the Government, and the vote was passed. Sir Henry stated, however, that the next session would definitely begin in January.

Coal Dispute. There was considerable discussion of the Senate bill, which proposed to continue the office of Director of Coal Operations in District 18. This measure received its second reading, but remains in the committee stage.

For Land Settlement. The soldiers' land settlement appropriation for \$50,017,000 carried.

A message from the Senate announced the passage of the Supreme Court Act.

The House adjourned at midnight.

By-Election. Among the questions asked at question time in the afternoon was one from Hon. W. L. Mackenzie King, who asked when a writ would be issued for a by-election in East Elgin.

Sir Robert replied that he would make inquiries into the circumstances. He understood that a limit was fixed by statute.

Treaty. D. D. McKenna, Cape Breton North, read a copy of a telegram he had received asking if the treaty concluded between Canada and the United States regarding fisheries would be submitted to Parliament for ratification.

Sir Robert Borden said that when the official text of the treaty was received consideration would be given to the matter.

WILL PROVIDES FOR BACHELORS' HOME

Newark, N.J., June 8.—Provision is made for establishment of a home for "respectable bachelors" and "widowers" in the will of Marcus L. Ward, son of New Jersey's Civil War Governor, probated yesterday and disposing of an estate valued at more than \$2,000,000.

Theodore Smith was certainly a steady man; he'd been steady all his life. But he was a bit too steady for Matilda Higgins. They had been engaged to be married 10 years, and still he had never asked her to name the happy day. One evening Theodore called in a romantic frame of mind, and asked Matilda to sing something tender—something that would move him. After a moment's thought she sat down at the piano and sang an old ballad entitled, "Darling, I am growing old."

THE WONDERFUL FRUIT MEDICINE

Every Home in Canada Needs "FRUIT-A-TIVES"

The publication or rejection of articles is a matter entirely in the discretion of the Editor. No responsibility is assumed by the paper for MSS. submitted to the Editor.

ESQUIMALT DRYDOCK.

To the Editor.—In last Saturday's issue of The Times appeared a news item in which Mayor Porter states that he had (within the previous twenty-four hours) received reassuring news respecting the building of the drydock, leaving no room for doubt that it would be built. Might I suggest to His Worship that the whole community is sick and tired of hearing such rumors. The people here have been told for the last twenty years that a drydock was to be built, but the day for starting operations has somehow been unendingly delayed. We could understand the delay during the war, with the men in France fighting for the Empire, and the money necessary to carry on that terrible conflict, but now the war is over, the men who have returned, and many others, are asking the question, "When it is to be built?" Can Mayor Porter, Dr. Toimie, or anybody else answer the question?

HENRY ROBERTS. 549 David Street, City.

TO EX-SERVICE MEN.

To the Editor.—The following is an open letter to the ex-service man and his friends on amalgamation: I venture to ask you to publish this letter, assuming that you will agree that the ex-service man has as great, or greater, a right to be represented among the legislators who will govern this country, for which we offered and many of us are still offering our lives. We never forgetting those very dear comrades who found their last rest while fighting for the principle we believe in, and which furnishes the impetus to enable us to undergo every hardship with a smile, and whose fond memory remains ever fresh with us.

These latter alone, whose mothers, widows and dependents remain, are sufficient reason for the ex-service man to ask, and to be placed in, offices of high authority in the land for which he fought, so that he can help to legislate the greatest amount of justice possible to help to efface their weakness and lighten their loneliness.

As an ex-service man, and speaking for comrades and acquaintances, we cannot see any ray of hope from party politics, therefore I ask you to legislate with this letter as you see fit after giving consideration to this preamble.

The following ideas and thoughts are based on the well-grounded assumption that either, or both, the Provincial and Dominion Governments will have to go to the people for a verdict inside of the next twelve or eighteen months. In my opinion the date will be put off until the latest day possible, but indications point to the fact that the people will live to take part in the decision arrived at. However, it will be a happy one for the political machines if they can point to the ex-service man and see him in such a disorganized and disjointed state that they can play comrade against comrade, labor against ex-service men, etc., smiling the while—one nullifies the action of the other. Therefore...

From a Child Was Constipated

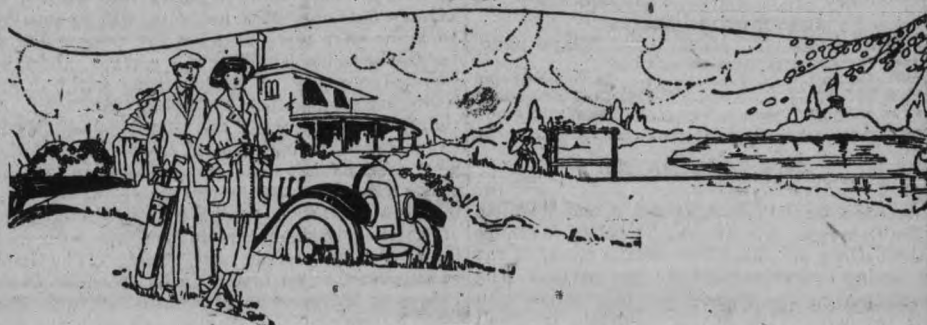

According to the best medical authorities, fully three-fourths of the people of the civilized world suffer in some form from constiveness or irregular action of the bowels. There is no doubt that many distressing diseases are caused by constipation. It gives rise to sick and bilious headaches, jaundice, heartburn, floating specks before the eyes, catarrh of the stomach, biliousness and the painful, troublesome piles. Therefore, it is of supreme importance to health that bowels be kept regular. Simple food, fruit, etc., should be used, and rich food and stimulants of all kinds avoided. This, with the use of Milburn's Laxa-Liver Pills to regulate and establish healthy action of the bowels cannot fail to give permanent relief in the most obstinate cases.

Mrs. Letitia Wainman, Orillia, Ont., writes: "I was constipated, and I can well remember when quite young, my mother giving me senna tea nearly every morning, and I got to dread it. After taking Milburn's Laxa-Liver Pills for a while I am not troubled with constipation any more."

Milburn's Laxa-Liver Pills are 25c. a vial at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

Angus Campbell & Co. Ltd.

THE CANDIDATES.

Johnson, on the Republican side, and McAdoo, on the Democrat side, are said to be the favorites in the betting in Wall Street on the result of the nominating conventions of the two parties. The speculation on the Democratic nomination is a little premature, but having made up its mind that Johnson will be the Republican candidate for President it is natural enough that Wall Street should desire to pick out his rival and turn over a little money in the process.

Although the betting odds favor Johnson, it would be surprising if he secured the nomination. The conservative elements of the Republican party are strongly against him, regarding him as a demagogic opportunist—which he is—and convinced that he could not carry the country if he were nominated. The observers who declare Johnson has no chance of carrying the convention, however, will not admit that General Wood has. They predict a deadlock with the nomination ultimately going to a "dark horse."

But whoever is nominated on the Republican ticket will have to adopt an entirely different attitude towards the League of Nations from the course which was pursued by the official Republicans for the most part in Congress. Notwithstanding the resentment throughout the country against the present Administration under several heads, notably the President's autocratic ways, a strong Democrat supporting the League of Nations would sweep into oblivion any candidate who ran in opposition to that policy. The Treaty of Versailles is destined to play a very live part in the presidential campaign, and we shall be very greatly surprised if some of the gentlemen who nearly ruptured themselves in their passionate declamations against that instrument in Congress will not be found supporting it with equal fervor on the hustings.

DECADENT?

In his speech on the budget the Hon. Arthur Meighen, Minister of the Interior in championing the policy of a protective tariff, deemed it necessary to depict Great Britain as an industrial decadent whose people were rushing in fugitive haste from her shores, this fearful condition being due, of course, to her fiscal policy. This extraordinary antic on the part of the Minister drew from the Hon. T. A. Crerar, leader of the National Progressive Party in the House, the following crushing reply:

"To my mind—and I say it in the best of good temper—the Minister of the Interior has never made a more amazing statement than the one I have just quoted. Why, Mr. Speaker, we have just come out of a war that has stressed and tried every country in the world, and what is the result? Where is protectionist Germany to-day? Where is protectionist France and where is protectionist Italy? Where are they—where are they financially? Where does their currency stand in the exchanges of the world? To say that Great Britain is decadent, in the face of the fact that she not only financed her own part in the war, which was terrific, but loaned to her Allies over \$8,000,000,000 during the war—why, Sir, the thing is beyond belief. If the war has proven anything it has proven the efficacy of the fiscal policy of Great Britain and her financial stability."

We always thought the war had effectually disposed of the charge of British decadence and certainly we did not expect to hear it from a shining light of the peculiar political element which so often wraps itself in the old flag, sings "Rule Britannia" and accuses its opponents of double-dyed treason. The fact, of course, is that Great Britain has shown herself, economically and financially, to have been a veritable colossus, while her remarkable recuperation from the war has excited the admiration and envy of other financial authorities all over the world, particularly those of New York. Surely it ought to be possible for Mr. Meighen to champion protection without indulging in such nonsense about Great Britain's decadence.

WHIPPING A DEAD HORSE.

Unless his object has been designed for the purpose of manufacturing political embarrassment for the Oliver Government it is difficult to understand what useful purpose will be served by the continual re-hash on the part of the ex-Public Utilities Commissioner of the correspondence and conversations which took place between himself and Ministers of the Crown. The general public, of course, always is ready to extend a measure of its sympathy to any individual who suddenly finds himself denied of lucrative employment by circumstances over which he has no control, and especially if the attendant conditions are dictated in the common interest; but in the final analysis it will have to be remembered that the Public Utilities Act which created the Commission of the same name provided that while its executive head should hold office for a period of ten years, it also stipulated that he could be displaced at any time "for cause." The Dominion Government removed the two chief public utilities—the examination into whose operations was expected to consume most of the Commissioner's attention—from the jurisdiction of the Province, and the Legislature, in its wisdom, re-

pealed the Act, the administration of which thus became a superfluity. And if Major Retallack continues his propaganda until the crack of doom he will not discredit the Legislature's action. The "cause" was obvious.

GOLF LINKS POSSIBLE YET.

Those Victorians who were able to record a vote in favor of the municipal golf links project, as well as the greater majority who worked for victory but who could not vote, will be gratified to know that there is a healthy prospect of an enterprise being launched of a private nature, but possessing many of the features which would have been embodied by public sanction. Although the sponsors of the new movement desire to remain in the background for the moment they may rest assured that every Victorian who regards this city as the logical mecca for the Canadian and American tourist will await the result of the negotiations now in progress with more than ordinary interest. And it may yet be timely to suggest that an invitation be extended to the Prince of Wales—who expects to return to England by way of this country—to turn the first sod if not, as had been hoped would be possible, to tee the first ball.

LONDON STILL LEADS.

The report which came from New York a few months ago that the population of that city had passed the population of London was somewhat ahead of the times. The United States census statistics, just published at Washington, shows that the population of New York on January 2 was 5,621,151, representing an increase of 854,268 or 17.9 per cent., since 1910. The population of London, according to Washington's information, is 6,726,753, or more than 1,100,000 greater than that of Uncle Sam's largest city. It is believed that before the war London had more people than it has now and that its population at that time was more than 7,000,000. The increase in New York's population during the last ten years has been much less than was generally surmised, and no doubt the inflated estimates given out a few months ago were attributable to the belief that the expansion in the city's population since 1910 was in the same proportion as the increase from 1900 to 1910.

AFTER IRISH CRIMINALS.

According to an announcement made by the British Prime Minister the Government intends to bring to justice all persons associated with crime in Ireland. In order to do that it is reorganizing the Irish Executive, strengthening the police, naval and military forces, while Mr. Lloyd George intimated also that it might be found advisable to implement the law for dealing with crime. At all events the announcement to the House of Commons yesterday may be taken to indicate a stiffening of the Governmental back in its decision to put an end to the existing organized programme of murder and pillage.

It must be admitted that the dispatch of additional troops and fighting paraphernalia indicates a substantial step towards discouraging if not suppressing these operations. Therefore, it may be possible at an early date for the people outside of Ireland to determine whether the Irish malcontent or Westminster is to be allowed to rule. The Sinn Feiners and their more or less passive sympathizers may be prepared to fight armed men. So far they have not been put to the test. The Government's experiment of imposing some risk upon the assailants should have been tried long ago.

NOTE AND COMMENT

In the death of Sir Charles Matthews the legal world of Great Britain has lost a notable figure. In his capacity of Director of Public Prosecutions Sir Charles came into touch with many of the famous cases upon which the public gaze became focussed from time to time. He was noted for his generous appreciation of human frailty and the discharge of his important duties always was tempered with a brand of understanding which saved many failures from a life of crime.

Eamonn de Valera, the self-styled president of the Irish Republic, has been warned by Patrick H. O'Donnell, of Chicago, that he must not attempt to dictate to the American people. Patrick is wise in his day and generation; but he may take unto himself the suggestion that the thinking American in Chicago and thereabouts is more concerned about his own business than the misguided enterprise to which de Valera has attached himself.

OTHER NEWSPAPERS' VIEWS.

HIGH COST OF PROHIBITION

(The Houston, Texas, Post)

Representative Gallivan says the enforcement of prohibition will cost \$85,000,000 per annum. Deduct this from the \$2,000,000,000 which its legal sale would entail, and the nation would save only \$1,812,000,000 by enforcement.

ACHIEVEMENTS OF THE PAST

(The Philadelphia Inquirer)

Undiscouraged by the failure to hear by wireless from Mars, science turns to the moon once more. Tests are soon to be made of the rocket which it is hoped may reach our satellite. These things are harmless exercises of ingenuity. To communicate with Mars would be a great achievement. But it must not be forgotten that the cow jumped over the moon and that the old woman who went up in a basket reached a point seventy times as high as the moon. There were marvels in those days, too.

"TWIXT BURGLAR AND PROFITEER.

(The Worcester Telegram.)

Burglary insurance rates are going up. The risk is so much higher that the insurers have made the claim, in their latest convention, that they cannot go on at the old rates. What the profiteers miss the burglars get. It is a day and night shift that leaves no opportunity neglected.

ALDERMEN WANT SUMMER HOLIDAY

Mayor Refusing to Grant It, They Will, However, Take It

Victoria aldermen are fighting Mayor Porter for a Summer vacation—a period when the City Council will meet only once every two weeks. The Mayor is not inclined to allow their demand, but the recalcitrant members declare that they control the situation and will stay away from any meetings besides those called every second week.

Alderman E. B. Andros brought the vacation idea before the Council meeting last night. He pointed out that the business of the Council was very slack during the Summer months, and he saw no reason why the aldermen should be called together every week. In Vancouver, he observed, the City Council had decided to meet only once a month during the Summer.

Most of the aldermen agreed with Alderman Andros's idea, but Mayor Porter stoutly opposed it. Important business had to be transacted during the next month, he said, and it was the duty of the Council to transact it with as little delay as possible. In any case, applications for licenses and various permits were received constantly and should be dealt with in such a way that the business of the citizens would be attended to promptly.

His Worship remarked that the Council meetings of late had lasted from eight o'clock in the evening until eleven, or two weeks business was to be transacted in one the Council would have to sit all night and well into the following morning—a plan he for one did not relish. Finally the Council decided to request the Mayor to call the Council together only once every two weeks. The Mayor, however, intimates that he would regard this request or not, as he saw fit.

"Surely you would not be so unwise as to do that," demanded Alderman Andros, "particularly as you love fishing so much yourself?" "You can't tell," said the Mayor, as he voted against the Council's plan. Asked this morning what he intended to do about it, the Mayor said he probably would call a meeting each week as usual. He was aware that the aldermen might not come to these meetings in sufficient numbers to enable them to do business, but at least he was not going to be responsible for delaying the city's business. In a month or so from now, he stated, the rush of business would be over and then he would consider meetings at less frequent intervals than one week.

RICHARD MARPOLE DIES SOON AFTER RETIREMENT

(Continued from page 1.)

of the Lake Superior division, five hundred miles, when the first passenger trains were run through from Winnipeg to Montreal, and vice versa. That was in 1885. He occupied the same position on the Pacific division in July, 1886, when the first train was run through from Montreal to Port Moody.

He was the first to prepare time-tables based upon the twenty-four-hour system in America, which were used on that occasion. He also had the honor of being the first to join the rails and driving the last spike on the Superior division in the Spring of 1885, joining the main line between Montreal and Winnipeg. That winter he handled the transfer of the troops from the Riel Rebellion over that section, including transportation by team over 85 miles of break between the rail ends.

Aside from his important business activities, which was so valuable a factor in the progress of the last great West, he did much for the promotion of the public welfare. He was the first president of the Anti-Tuberculosis Society of British Columbia, and his efforts in that direction were of lasting value—in fact, his life work was of signal service to mankind.

Mr. Marpole had three sons by his first wife, who was a native of Cornwall, England. In 1905 he was united in marriage with Miss Anna Isabel Holmes, a daughter of Colonel Holmes, formerly military commander of the British Columbia Military District. He was a member of the Union Club of Victoria, the Vancouver Club, and was President of the Shaghenessy

Irish Question.
Yesterday, the opening day of the convention of the Federation, saw the Irish question brought up. Despite the fact that they were on British soil, American Irish delegates to the convention launched their fight to get the Federation to reaffirm its endorsement of an Irish republic and demand that the military forces of occupation in Ireland be withdrawn by the British Government.

ing Trades, New York, headed the American Irish delegates in presenting a resolution on the Irish question, which they had prepared after a caucus during the day.
Daniel P. McKillop, of the Pacific Coast delegation, and other Irish delegates sponsoring the resolution, declared they would not be deterred from denouncing the British Government and its Irish policy although they were on British soil. "We intend to thresh this matter out and help our friends across the sea," he said, "without fear of the consequences."
The resolution, with several hundred votes, was referred to the committee for consideration late in the day.

Soviet Russia.
Among the other resolutions presented was one from the Garment Workers' delegation from New York asking that the convention demand that the blockade against Soviet Russia be lifted, and that trade be resumed.
That delegation also was preparing another document asking that the convention appoint a labor commission to make an expedition into Russia and make a "true investigation" of conditions in that country at the present time.

To Chicago.
After adjournment for the day, Samuel Gompers, president, immediately left for Chicago, accompanied by Matthew Wolf, vice-president, to address a meeting of the Republican national platform committee. Mr. Gompers said that labor's demands on the Republican party would be presented at the Chicago meeting. He expects to return here next Thursday or Friday.

REPUBLICANS CHOOSING NOMINEE FOR POST OF PRESIDENT OF STATES
(Continued from page 1.)

Prayed and Sang.
The opening prayer of the convention was a long one and at its conclusion the audience broke into the "Star Spangled Banner," at the request of a song leader.
Lieut.-Colonel Theodore Roosevelt was among the early platform arrivals. At 11 o'clock, the hour set for the opening, the band was playing "The Sunshine of Your Smiles," but very few people were smiling, and the convention had not been called. The aisles were crowded with delegates who seemed more intent on shaking hands and chatting than beginning the convention.

Animation.
Prior to the opening the gathering audience showed the first signs of animation when the band struck up "The Stars and Stripes Forever," whistlers in some parts of the visitors' gallery accompanying the band. The first applause that swept the hall came at the conclusion of this national anthem.
From the "Stars and Stripes" the band struck into "Dardanelles," and there was a prompt response with a stuffing of feet and a suggestion of the shimmy from some negro delegates from Tennessee.
When Senator Lodge reached the hall he took a seat with the Massachusetts delegation, where he found Speaker Gillett talking with friends and they had a brief conference.

Wall Street Betting.
New York, June 8.—Johnson on the Republican side and McAdoo on the Democratic side for nomination were still held as favorites in the Wall Street betting to-day, even money being quoted on them.
The only change made in the odds were: Harding, against whom 8 to 1 had been quoted, was given 5 to 1; Butler went from 10 to 1 against 5 to 1; Hughes, from 5 to 1 to 4 to 1, and Knox from 10 to 1 to 5 to 1. Coolidge remained unchanged at 8 to 1 against, and the same was true of Wood at 7 to 5, Lowden at 3 to 5, Hoover at 4 to 1 and Allen at 6 to 1.

Sprout was entered in the betting odds for the first time to-day, and the price quoted against his chances was 5 to 1.

TO VISIT SHORTLY
GENERAL BRAMWELL BOOTH
head of the Salvation Army, will arrive in British Columbia next month. He has been in Australia on tour. The General will make a tour of the United States and Canada in the Fall. It is understood by Victoria officials of the Army that the General will depart from the Niagara on his next inbound trip.
PRICES FALLING IN FRANCE NOW
Paris, June 8.—Declines in the cost of necessities of life which are general throughout France are outlined by several newspapers this morning, all of which declare that France is getting back to work and that a fine harvest is in prospect. Some say that the attitude of the public in buying only what is absolutely necessary has had much to do with a falling off in prices recently.

**LOOKS TO METALS
AND PETROLEUM
FOR ITS FUTURE**

Queen Charlotte Islands Group
Wants Development, Says
Thomas Deasy

Indian Agent Thomas Deasy, of the Queen Charlotte Islands, is out on a vacation, after ten years with the Haidas of the North. He is optimistic regarding the possibilities of discovering petroleum in the neighborhood of the place where he resides, and considers that the Government should give assistance to persons willing to instal plants.

In an interview with The Times, Mr. Deasy says: "I know the islands of the Queen Charlotte group as thoroughly as any person in the country. I have traveled over the country, in all directions, and noted the possibilities of the country. The late G. M. Dawson and many other noted geologists reported oil and coal territory, on Graham Island. The indications are there and I have seen the 'tar' and 'shale' formations. One drill was installed, at Tian Point, on the West Coast of this large island; but the promoters met with many difficulties, and their capital was exhausted before they had a proper opportunity to sink their well deep enough.

Wells Must be Bored

It is useless for any man to state that oil fields exist, in paying condition, in any locality, before wells are put down. Any person investing in oil shares, in a company, must take certain chances, no matter what the surface indications may be. It takes capital, and large amounts, to purchase oil drills and sink thousands of feet. When oil propositions are put before the public, none should invest, unless able to take chances on the production of oil. If "tar" and "shale" containing petroleum can be found on the surface, they must indicate the best possible ground to prospect on. After sixty-three years in this country, I would not have it said that I advised anyone to invest in prospective oil property, with the certainty of becoming millionaires. The ground is there; the indications are before the most pessimistic; but "oil is where you find it." A company is boring for oil, on the south end of Graham Island. They may succeed, and I trust they will. The island is a large one. The proposition, on the West Coast of Graham Island, where I examined the "shale" and "tar," is one hundred miles from the ground now being worked. If the present working company succeeds, there will be a great "oil boom" on the islands. They are going about the work in a business-like way, and will bore to a great depth. One drill—or one company—will not show the public that oil will be found, in quantity, on the islands. We should have ten drills at work, in various localities.

An Important Factor

When a section of this country shows every indication of the existence of petroleum, it means a matter of great interest to the public. It took many years, and a great war, to discover our thousands of acres of spruce. In my opinion, the spruce of the Queen Charlotte Islands is the best in the world. Should oil be found, in quantity, another great industry will be established. The public should be wary of wild oil propositions. Companies will be formed, on 'shoestrings'; but the only propositions to invest in should be under some manner of control. Organizing 'oil companies' with selling stock make easy propositions for 'wild caters.' Only those who are known, and mean 'honest business,' should be encouraged. When a man is willing to take prospective purchasers to a property, and show that there is a fair opportunity for a return of capital invested, is the proper test of the 'prospectus,' and advertising regarding oil claims. I can only say this: "The Queen Charlotte Islands are an unknown quantity, to the majority of British Columbians, leaving aside the financial men of the world. Few care to visit Hecate Straits and cross the troublesome waters, between my home and the Mainland. It is a difficult passage, at times; but the people will, some day, realize that they have a wealth of timber and fuel on those islands. As a farming country, the proposition is too difficult, in my mind, for the present generation. Timber and rocky areas with 'muskeg' and isolation, are not encouraging to a farmer. We have the best fishing grounds in the world—'bar none.' Trollers are making all kinds of money, catching Soring salmon, ranging up to eighty pounds in weight. Our Halibut Banks cannot be equalled. The inlets will be filled with 'Humpback' salmon, this year. Our streams are filled with various species of trout. We have no large rivers—the largest would be called a 'creek,' in any other country. Gold, silver, and copper may be found on Moresby, and other islands. It is not a country, at the present time, to invite any settler to make his home.

"The winter climate is not of the best, through wind storms and rain; but the thermometer never falls to 'zero,' and there is little snow. As a summer resort, for Prince Rupert, Graham Island would be ideal. From June, up to November, the weather cannot be excelled. The sandy shores, with the fishing, hunting and means of recreation make the island a great pleasure resort for those seeking a change from the cities and towns. When the possibilities of these islands are 'found,' the resident of British Columbia will bewail, as usual, that he did not invest in some of the 'good things' that will be opened up, and, in my opinion, given as one little acquaintance with geology, precious metals and petroleum will be the means whereby the islands may add millions more to the assets of the province."

"So you are having your house redecorated?"
"Yes."
"How are you getting along?"
"Fine. The painters and paper-hangers worked a full day last week."

Social Personal

Mrs. R. V. C. Bessonette entertained at tea at the Empress Hotel on Saturday afternoon, the 5th of June, in honor of Mrs. Barrett-Lennard and Mrs. J. H. C. Murray, who are leaving shortly on an extended visit to England. The guests, who numbered fourteen, included Mrs. L. M. S. Ommundsen, Mrs. G. S. Siaman, Mrs. W. Swan, Miss Daisy Swan, Miss Eva Swan, Mrs. F. Topp Turner, Mrs. B. Turner, Mrs. J. H. Alexander, Mrs. J. Stapleton, Mrs. F. R. Wright and Mrs. W. W. Wilson.

An attractive "shower" for a bride-to-be in the person of Miss Kathleen Hovey was given on Saturday at the home of Mrs. McNally, of Saanichton. Many useful and dainty gifts were presented to the guest of honor. In the course of the evening music and games passed the hours happily away.

Right Rev. Bishop Macdonald, of Vancouver Island, recently received a pleasant surprise in a legal notification that a Victory Bond, valued at \$10,000, had been willed to him by the late Timothy Foley, St. Paul, Minn., for diocesan purposes.

Dr. George Johnson, of Calgary, has arrived in Victoria. He is accompanied by his wife and young son. Dr. Johnson served with the Canadians in France during the first two years of the war.

Representatives of several women's organizations of Vancouver met the S. S. Ixion on Sunday afternoon and gave presents of fruit and candy to the contingent of Czech-Slovaks from Siberia.

Mrs. L. A. Little, of Vancouver, is spending a two-month vacation on Vancouver Island, visiting her brothers, Robert Abrams, of Cumberland, and Seymour Abrams, of Union Bay.

The Women's Canadian Club, of Vancouver, entertained the ladies accompanying the delegates to the Canadian Fisheries convention at luncheon yesterday.

H. B. McKenzie, assistant general manager of the Bank of Montreal, on a tour of inspection of western branches, is in the city.

Mr. and Mrs. J. J. Young have gone to Vancouver to reside, and are for the present living at Caroline Court.

Arthur Ward, Miss Ward and A. G. Crofton, from Ganges, are in the city and are at the Strathcona Hotel.

Mrs. A. T. Purser, 671 Beacon Street, is bereaved through the death of her mother in England.

Mrs. and Miss Chambers, of Olympia, Wash., were week-end guests of Mrs. Harold Grant.

T. B. Gullbride and A. Gullbride, from Chemainus, are guests at the Strathcona Hotel.

Chas. D. Richards is down from Wellington and is staying at the Strathcona Hotel.

Mr. and Mrs. N. D. McFarland, of New York, are registered at the Empress Hotel.

Miss Olive Edis, of London, England, is registered at the Empress Hotel.

Mrs. F. W. Elliott, of Claresholm, Alberta, is a guest at the Empress Hotel.

R. B. MacEwan, of Nelson, is registered at the Empress Hotel.

J. P. Corbett, from Pender Island, is a guest at the Strathcona.

F. E. Nugent, of Montreal, is staying at the Empress Hotel.

The WEATHER
Daily Bulletin Published by the Victoria Meteorological Department

Victoria, June 8.—5 a. m.—The barometer is low on the coast and over the interior, and showery weather may be general in B. C. Heavy rain has fallen on the Lower Mainland, and fair, moderately warm weather prevails in the prairies.

Reports.
Victoria—Barometer, 29.91; temperature, maximum yesterday, 60; minimum, 47; wind, 8 miles E.; rain, .15; weather, cloudy.
Vancouver—Barometer, 29.96; temperature, maximum yesterday, 64; minimum, 48; wind, 4 miles E.; rain, .62; weather, cloudy.
Kamloops—Barometer, 29.72; temperature, maximum yesterday, 72; minimum, 48; wind, 4 miles E.; weather, cloudy.
Prince Rupert—Barometer, 29.90; temperature, maximum yesterday, 56; minimum, 48; wind, calm; rain, .04; weather, fair.
Grand Forks—Temperature, maximum yesterday, 60; rain, .12.
Nelson—Temperature, maximum yesterday, 55; rain, .12.
Edmonton—Temperature, maximum yesterday, 58; minimum, 44; rain, .05.

ANNUAL CONVENTION OPENS NEXT MONDAY

Mrs. Spofford will attend the thirty-seventh annual Provincial convention of the W. C. T. U., which will open next Monday in the Olivet Baptist Church, New Westminster. The conference will continue until Thursday night, when Mrs. Spofford will speak on "Woman's Responsibilities Under New Conditions." The programme is one of the best ever arranged for any annual convention, it is said, and from present indications there will be a large number of delegates from all parts of the lower mainland and the upper country.

The Gift Centre.

LADIES' GUILDS READY FOR SALE

The Ladies' Guilds of St. Mary's and St. Stephen's will hold a sale of work in the Agricultural Hall, Saanichton, next Saturday afternoon. The proceeds will be used for the purpose of making improvements on the parish property and rectory, and for a long time past the members of both guilds have been preparing many suitable articles to sell on Saturday. There

CHARMING JUNE BRIDE-TO-BE

MISS EDNA MCNIVEN
One of Victoria's most popular brides of the month will be Miss Edna McNiven, daughter of Mr. James McNiven, Deputy Minister of Labor, and Mrs. McNiven of this city, who is to be married next Thursday to Mr. James Alexander McMillan, son of the late John McMillan and Mrs. McMillan, of Vancouver, at the First Presbyterian Church, at 8.30 p. m.

SUPERVISED LUNCH BENEFITS CHILDREN

Liberal Portion of Milk Shows Good Results on Scales

Anyone doubting the efficacy of milk as a nourishing item in the daily diet of children should follow the interesting experiment being carried out in their Boys' Coking School, where a generous cupful of milk is supplied to each child who brings his lunch. The milk has been given out now for several weeks and the careful weighing of the children each week shows that good gains have been made by almost all the children.

Miss Grimmer, the energetic school nurse, is most enthusiastic over the project, and when The Times representative called to see the system in operation she was busy weighing the boys to keep the records of the test. The result showed that the gains were very satisfactory, and were indisputable evidence of the food value of milk.

"Another factor in the scheme," said Miss Grimmer, "is the rest the children get when they sit down for lunch. Formerly they would wander about the playgrounds with a paper bag in their hands, coughing on a sandwich and then dashing off to play. In the winter months there will be an even greater advantage in these quiet luncheons with the portion of milk so many of the children really need.

Boys benefiting by the milk with their lunch come from all grades, and range in age from six to fifteen years. The gains are most noticeable in those of about nine to twelve years, Miss Grimmer has noted. Great interest is taken by the pupils themselves in the weighing operation. Many who were under weight for their age and height have been brought up to normal since the new system was inaugurated.

Two long white tables accommodate the eighty or ninety boys at noon each day. Spotted oilcloth makes an attractive covering, and the mugs or cups the pupils supply themselves are neatly labelled with the owner's name. As the youngsters come trooping in the fresh milk is poured from the clean, bright milk tin which brings it from the dairy into white enamel jugs from which it is apportioned to each boy as he comes forward with his mug. Then all sit down to the luncheon they bring with them.

The milk is being supplied jointly through the generosity of the Dr. O. M. Jones Chapter, I.O.D.E., and the Dairywomen's Association, and, while for the present it is in the experimental stage, results seem to prove that the project warrants permanency.

This supervised luncheon is the outcome of the medical supervision which is now part of the school system. Miss Grimmer, school nurse, and Mrs. Osborne, assistant nurse, attend the schools where each child is inspected once a month as to general health, and a thorough examination is made once a year by Dr. Wasson, chief medical inspector. Much good is accomplished in the way of prevention of illness, and the remedying of various defects which might otherwise assume serious proportions. It is very often some slight physical defect that hinders a pupil's progress in the class, say the school nurses.

will be a display of fancy work in which the Saanichton ladies are adept, and also many useful household things. As this is the first sale of work which the guild has held for over three years, the members are confident that there will be a large turnout to the event. The fancywork stall will be under the charge of a committee headed by Mesdames Hisset and McKenzie. The home cookery is being organized by Mesdames Guy and Murray, who will have an array of cakes, pies, preserves and other dainties only to be compared with the famous displays seen at the annual Saanich Fair. The tea tables are in charge of Mrs. Hedley, and a large supply of ice cream will be sold by the Misses Alma, Jeanne and Eva Walker.

ELABORATE FETE FOR NAVY LEAGUE

Grand Pageant Depicts Spanish Armada Scene in Costume

Many well-known people will take part in the grand fete in aid of the Victoria branch of the Navy League which will be opened by Mrs. George Bushby, convener of the Navy League Brigade Committee, at 3 o'clock tomorrow in the new Drill Hall. In the evening His Honor the Lieut. Governor will open the pageant at 8 o'clock.

An immense amount of trouble has been taken in staging and costuming the pageant, and those in charge promise a spectacular event of unusual interest. Classical dances, sailor's hornpipes, Highland dances, and instrumental music by J. H. W. Fidler's orchestra will provide varied entertainment. The event will conclude with a fancy dress ball on Thursday evening, when Mrs. Curtis Sampson, Mrs. Shallerross and Major Bullock-Webster will judge the costumes. Among many attractions may be mentioned a physical display by the Boys' Naval Brigade, fortunetelling by Madame Gains and Madame Mosso, Mrs. McMicking's picture gallery, and some special features for the entertainment of the children.

The historical pageant in two sections will be shown on Wednesday and Thursday evenings, when the programme will be opened by Miss Alice Fidler in the sailor's hornpipes. The scene of the pageant takes place in the old seaport of Plymouth and follows history in the story of the sighting of the Armada and the subsequent triumph of Sir Francis Drake, with his knighthood by Queen Elizabeth.

Others whose names appear on the programme are the Misses Barbara Lloyd Young, Viva Brown and Mary Finlayson, in fancy dances. A boxing exhibition will be given by the Boys' Naval Brigade at 4 o'clock on Wednesday afternoon. The fancy dress ball will be led off by the actors portraying Queen Elizabeth and Sir Francis Drake at 8.45 p. m. on Thursday and the awards for first, second and third prizes will be made at 11 o'clock. Another feature of the evening will be a spectacular dancing exhibition by Professor and Mrs. Hellman.

SPRING CONCERT IS DUE TO-NIGHT

Several items are of especial interest in the programme to be given this evening at the third annual Spring concert at the First Congregational Church, among which are two numbers which Mrs. Jesse Longfield will introduce, besides others. They are "The Cave" by Edwin Schneider and "The Bedouin Bride" by Dichtom. Miss Maude Scruby, the "cellist," will be heard in two groups, and Edmund Fetch is singing Balfe's "Good-night, Good-night, Beloved," as well as a duet with Mrs. Longfield, "The Voyagers," by Wilfred Sanderson. Several of the choruses to be given by the choir are also receiving their introduction at this time to a

TELLS OF HORRORS OF JUNGLE WILDS

Explorer Wells Thrills Kiwanians With Stories of Malay Peninsula

G. CARVETH WELLS, A.M.C.E.

Stories of jungles into which the sun never filters, of teeming animal life and deadly reptiles, of strange native customs and extraordinary industries, stories that amazed every one who heard him, were told to the Kiwanis Club to-day by G. Carveth Wells, the noted civil engineer and explorer who recently reached this continent from the Malay peninsula.

Mr. Wells showed the Kiwanians at the weekly luncheon at the Dominion Hotel that great opportunities for business and industry enterprise existed in the Malay country, though important industries already were carried on. Most important of these, he observed, was tin mining. Indeed, Malay produced from seventy to eighty per cent of the world's supply of tin. Tin to be used by the people of the Japanese Government had to be shipped to Britain for manufacture, and he asserted that it would be possible for some enterprising firm to establish huge tin rolling mills in the peninsula, manufacture the tin there, and ship it to the world's markets direct.

Rubber Industry.

The rubber industry, too, employed thousands of men and was of great importance, said Mr. Wells, describing the cultivation of the rubber trees and the extraction of the rubber, in liquid form, from their trunks. Rather revolting was his description of the manufacture of tapioca and sago which, during one stage of the process, was trapped upon by barbed wire. He stated that most sago and tapioca came from the same plant and was really the same product, because the real sago plant took many years to mature. Mr. Wells also dwelt upon the manufacture of copra from coconuts which, by the way, were picked from the palms, he said, by tame monkeys and each of which contained a quart or less of pure clear water. Camphor, he remarked, also was an important product but, as it was found in the country of head-hunting savages, it was, at times, difficult to secure. As a matter of fact, in the island of Poremos, the Japanese Government had protected camphor-hunting parties by surrounding their camps with electrically-charged barbed wires.

In Trackless Jungle.

Most interesting of Mr. Wells' remarks were those dealing with his first journey through the jungle. Before starting out on this particular trip, he said, he had caused a number of wooden huts to be erected along the route, as, on account of the snakes it was impossible to sleep in tents. As his boats were traveling up a river on one occasion the water became so shallow that it was necessary to erect dams at intervals and so create a series of locks along which it was possible to progress. After entering the jungle he and his party, he recalled, gradually lost sight of the sun and, indeed, did not see the sky for six months on end.

The trees of the jungle, Mr. Wells remarked, were all of different varieties and all festooned with creepers which grew not only up but also downwards, and which were full of pure drinking water. During this first journey, he had been particularly interested in the sensitive fern-moss plant, which not only folded its leaves and branches when he touched it, but also lay flat upon the ground. The horrors of the night in the jungle were such as to draw shudders from Mr. Wells' audience. On account of the hundreds of snakes, reptiles and insects congregated in the roof of the hut, Mr. Wells, following the custom of other white travelers, was forced to hang a tent inside his hut so that the creatures, in falling from the roof, would fall upon the canvas and not upon him. Even with these and other precautions, his sleep had been disturbed by weird noises and crawling things and, on being awakened on one occasion and seeing two green eyes beside him, he had attempted, as he found afterwards, to shoot his pet cat!

Mr. Wells described his first deer hunt—a most extraordinary proceeding. The experienced hunter with him found a hiding place in a hollow tree and then with two sticks beat upon a large peculiar leaf making the sound of a rattle drum. Soon the same sound answered them from a distance and, as it drew gradually nearer, they saw a Malay deer beating with its hoofs upon the same kind of leaf. After shooting the animal, Mr. Wells put it into his pocket, for it was not more than seven inches high!

Mr. Wells showed the Kiwanians a number of native Malay weapons and an old steel sword which he had purchased for a heavy price—fifteen cents—from a native monk to whom he had administered medicine and which, he had no doubt, had been used by Malay pirates in years gone by. He also showed the club some splendid specimens of cloth, inlaid with gold and silver and man-woven by the natives.

LAUNCHES LIBEL SUIT FOR \$20,000

D. W. Campbell Seeks Damages From W. H. Shaw, of Gabriola Island

D. W. Campbell, with John R. Green acting for him, before Mr. Justice Macdonald to-day commenced the \$20,000 libel action against W. H. Shaw, of Gabriola Island. H. B. Robertson is defending Mr. Shaw. Evidence showed that Mr. Campbell was put in to manage the plant of the Gabriola Shale Products, Ltd., on Gabriola Island, which had been taken over chiefly by the Cameron Investment Co.

D. O. Cameron swore in the box to-day that Mr. Campbell, during the last few months he had charge of the plant, had turned it from a losing into a money-making proposition.

At this time, Mr. Campbell in his claim set out, and Mr. Cameron testified, Mr. Shaw, whose farm was next to the shale plant, notified the company that he wanted \$20 instead of the usual \$6 a month for the rent of the well from which the factory was taking its water. This demand the officials of the company refused, declaring they would spend money to get their own water supply.

Mr. Shaw then wrote to the Camerons what is known as the libel letter, in which he charged that their manager, Mr. Campbell, among other things, was "exploiting the island," had been "personally abusive" and charged Mr. Campbell with being incompetent.

Mr. Campbell charges that as a result of this letter he was removed from the lucrative position of manager and had his professional reputation damaged.

Mr. Campbell in the witness box told of how Mr. Shaw then "came around and talked as if he would like to be the manager."

The case is going on this afternoon with nearly a dozen witnesses from the islands.

CAN REGISTER TO VOTE WITHOUT PROPERTY

But Everybody Must Register in Person For New List, Registrar Says

Property owners have to go down to a registration booth and go through the formalities of personally registering their votes, according to a memorandum issued to-day by Chief Registrar Mabon, in charge of the preparation of the Victoria voters' list.

"Property owners are fooling themselves when they think that the fact that their name is on a tax book means that it will be automatically put on the voters' list," said Mr. Mabon. "This voters' list has nothing to do with any tax charges."

"Also, a man doesn't need to own a house or lot to vote. Any man who lives here and is a born or naturalized subject, has the right to vote. This applies to women, too, of course."

The revised list of registration booths was issued to-day as follows: Central, 550 Yates Street, St. Francis Hotel; Victoria West, 414 Skinner Street; Douglas and Burnside, 675 Burnside Road; Hillside East, 2784 Cedar Hill Road; Fernwood and Gladstone, 1302 Gladstone Avenue; Oak Bay Junction, Brook's Store; Fairfield, 249 Cook Street; James Bay, Niagara and Menzies Streets.

OBITUARY RECORD

The death occurred at the Jubilee Hospital last night of Norman Hedley, youngest son of the late Mr. and Mrs. A. A. Hedley, late of Springfield Avenue, aged twenty years. The late Mr. Hedley was born in this city and was a member of the G. W. V. A. He went overseas in 1916, and was with the 13 Field Ambulance Corps, seeing two years' service in France and was gassed at Lens. The young soldier was a keen sportsman, and his demise is regretted by a wide circle of friends. Two sisters, Mrs. J. K. Black and Miss Myrtle Hedley, and one brother, Ernest Hedley, two nieces and a nephew survive him. He was pre-deceased by a brother but three months ago. The military funeral will take place next Thursday at 2.30 o'clock from the B. C. Funeral Chapel, Canon Hincliffe officiating, under the auspices of the S. C. R. Interment will be made in the family plot, Ross Bay.

Maude Alice Christie, Victoria.
Helen Imogen Warren, Toronto.
Muriel Carolina Hartman, Victoria.
Ethel Harriet Rhodes, Victoria.
Mary N. Henderson, Port Haney.
Margaret Cruise, Dauphin.
Margaret Cochrane Bowman, Sidney.

MASS MEETING TO DRIVE-HOME ISSUE

Tacoma Rabbi Will Speak Here For Destitute Families of Eastern Europe

A mass meeting following the services on Sunday evening, at which peoples of all denominations may join, will be held to give an opportunity to Rabbi R. Goldenstein, of Tacoma, to speak on the subject of relief in Eastern Europe and the Levant.

The meeting will be held under the auspices of the Victoria committee of the Canadian Jewish Relief Committee, and arrangements to that end are now in progress.

G. G. Bushby, chairman of the committee, is very gratified with the result of the collections to date through the mail barrage, which resulted in the sum of \$2,843 having been subscribed up till last evening.

General Clark will have charge of the special week's campaign here, which will last from June 21 to June 28.

The British Government, it is stated by the campaign director, is giving pound for pound towards the relief fund collected for this purpose in Great Britain.

THIN, FRAIL FOLKS NEED PHOSPHATE

Nothing Like Firm Nitro-Phosphate to Feed on Firm, Healthy Flesh and to Increase Strength, Vigor and Nerve Force.

Judging from the countless preparations and treatments which are continually being advertised for the purpose of making thin people fleshy, developing arms, neck and bust, and replacing ugly hollows and angles by the soft curves of health and beauty, there are evidently thousands of men and women who seem to feel their excessive thinness, thinness and weakness once thin and frail, transform themselves into stout and healthy men and women.

Georgia Hamilton. This deficiency so well as the organic phosphate known among druggists as Nitro-Phosphate, which is inexpensive and is sold by most all druggists under a guarantee of satisfaction or money back. By feeding the nerves directly, Nitro-Phosphate supplies the body cells with the necessary phosphoric food elements, Nitro-Phosphate should produce a welcome transformation in the appearance; the increase in weight frequently being astonishing. Increase in weight also carries with it a general improvement in the health. Nervousness, sleeplessness and lack of energy, which nearly always accompany excessive thinness, should soon disappear. Miss Georgia Hamilton, who writes: "I was thin and frail, reporting her own experience, writes: 'Nitro-Phosphate has brought about a magic transformation in me. I gained 15 pounds and never before felt so well.'"

BEATRICE BACK ON RUPERT RUN

C.P.R. Vessel Resumes Service After Considerable Time in Port

Mr. Taylor, of the B. C. Coast Service, C. P. R., to-day announced that the Princess Beatrice would get back into the northern run, and would sail for Prince Rupert Wednesday night at 9 p. m. from Vancouver.

VESEL MOVEMENTS: Megantic at Liverpool from Montreal; Montcalm at Avonmouth from St. John; War Period at London from St. John; Adriatic at Cherbourg from New York; Corsican at Quebec from Liverpool; Manchester Division at Quebec from Manchester.

Symptoms That Tell of Biliousness

How to Prevent and Cure: Are you dizzy? Does your head swim? Does everything turn dark when you rise after stooping? Are you constantly suffering from headache? Are you short of breath after long walks? Is your tongue coated and furred? These symptoms give warning that your system needs a thorough cleansing—all poisons must be flushed out. The remedy is Dr. Hamilton's Pills. Marked benefit immediately follows their use. These famous pills loosen the bowels and stop constipation; they act on the liver and kidneys, make them strong and vigorous. This ensures health and purity for the blood and consequently the whole system benefits. No other medicine tones and braces like Dr. Hamilton's Pills; they at once cure biliousness, headache, dizziness, poor color, coated tongue, and all diseases arising through fault of the stomach, kidneys or liver; try them. Results prove the merits of Dr. Hamilton's Pills, 25c per box.

HULL OF WRECK SELLS FOR SCRAP

Remains of Iron Barque Caremapu Wrecked in 1913 Bought by Japanese

Iron from the hull of the iron barque Caremapu, which was wrecked off the coast of Vancouver Island in 1913 with loss of life, is being shipped by the Taikai Maru now at Vancouver, sold to Japanese agents who have purchased all the scrap metal and junk parts that they can obtain. The Taikai Maru finished discharging at noon to-day and will take on 5,000 pounds of freight there for the Orient.

The Caremapu was driven ashore in a terrific gale and piled up on the rocks. The ship was built of Scottish iron and launched as the Janet Ross. Later she was sold to Chilean interests and was under that flag when she came to grief. She lies on the shore uncovered at low tide and a salvage crew from Champion & White, of Vancouver, worked last summer bringing up the plates of the hull and cutting them to proper size for handling. The remainder of the vessel, it is thought, will be salvaged this season.

FRAMING TIMBERS DELAYING WORK

Cholberg Yard Held Up by Lack of Few Special Pieces

Mr. Cholberg, asked as to the rumored delay in the new wooden vessels for the Victoria Shipowners to-day, told of the difficulty in obtaining framing timbers. The yard has a quantity of timber, but is being held up for want of just the few specialized pieces required. Mr. Cholberg thought that by the first of next week the framing material would have arrived and work progressing at full blast. Three keels are already laid, and the first frames are in on number four hull with stern post set. The employment will probably be increased when the timber is all to hand.

TRAWLERS FOR SALE

Provincial Department of Industries Prevents Their Return to Great Britain £15,000 Apiece. As a result of representations made by the Provincial Department of Industries to the Hon. C. C. Ballantyne, Minister of Marine and Fisheries, the fleet of trawlers used on the Atlantic seaboard in minesweeping and patrol operations will not be sold in Great Britain as long as there is a likelihood of a market for them in Canada. It is understood that a Victoria firm expressed the desire to purchase two of these vessels and the Federal Minister has replied to Major Martyn's inquiry to the effect that the British Admiralty will sanction their disposal on this side of the Atlantic for £15,000 apiece. Whether the local concern will be prepared to pay this price or not Major Martyn was not in a position to say this morning.

JUMPED OVERBOARD. Quebec, June 8.—(Canadian Press).—Passengers arriving here by the C. P. O. S. Corsican reported that on Sunday night a male passenger leaped over the railing of the vessel into the sea. The vessel had just passed Martin River at the time, and when the cry of "overboard" went up, life-belts were thrown into the water and the vessel immediately swung to and began to circle. A lifeboat was also put out, but after searching in vain for some time, had to return to the ship without seeing any trace of the victim.

LEAVING ON COASTAL SURVEY

S. S. LILLOOET. The Hydrographic Survey Department will dispatch the Lillooet from Esquimalt on her Northern cruise within the next day or two. She will get away as soon as her crew is signed on. The vessel will be in command of H. D. Parzeau, head of the B. C. Hydrographical Survey, succeeding the late Commander Musgrave.

Manning of Canada's Merchant Carriers

By Nauticus

A recent dispatch from Montreal states that the Canadian Government Mercantile Marine is going to train youths for its own officer supply. These boys are to commence work on the line's ships at the age of seventeen at a wage of \$100 per annum and after qualifying will be eligible for employment in the Canadian Government Mercantile Marine ships. The Canadian Government Mercantile Marine is an enterprise commenced after the Australian Government had succeeded in proving that such a concern could be worked to advantage. It is succeeding in Canadian trade as has the Australian, bringing up the plates of the Commonwealth. It is a concern with enormous possibilities under capable management, such as it apparently has, of bettering the export trade of Canadian products and the imports of Canadian needs.

In this respect a mistake is seemingly in the making. None but those who have been through the mill and are qualified "square rig" sailors know the tremendous requirements of the profession of shipmaster or ship's officer. To a man who has not been through the mill the idea that a youth of seventeen can ever become a capable seaman is a question, that he is in time to be still more doubtful. That he can ever become either in a steamship has been proved ridiculous. It is assumed that the Canadian public is as much concerned in the offering of the ships of which it is itself the owner as are the shareholders of one of the well-known private trading companies whose names are household words in the shipping trades. Experience Tells.

The Canadian Merchant Marine is the property of the Canadian public. It has already proved itself a money maker. It has the possibility of making much more money later and of entering the public domain as a business in the future. To conduct ships of such a concern from port to port, it is necessary that only men of the highest possible nature in every respect should be in command and that the commanders shall be supported by officers of equal reliability and great experience. The scheme suggested for the training of officers for the Canadian Merchant Marine is wrong, undesirable and calculated to do harm. It is a money-making concern that may be entrusted to men trained under such conditions but to the profession of mariners which has, through many years of hard fighting, won its way to honor to itself and to its members. The points in which the scheme fails are these: 1. The age should be fourteen as a maximum instead of seventeen. 2. The vessels in which the training is carried out should be three or four masted square rigged sailing ships in foreign trades. 3. At the age named, seventeen, the money offered would not attract the desirable boy, but only the boy whose nature is unsound to begin with. By reason of some defect in character, which makes him undesirable as a companion to fellows of his age. Seventeen Too Old. In regard to the first objection. Seventeen years of age is too old for his first step, he must serve at least three years, when he can sit for examination for competency as second mate. He must be qualified as second mate before he can sit for examination as master. Qualified as master by the Department of Marine (Canada) or the Board of Trade (Great Britain) he is legally qualified to command any ship which flies the British flag in the Mercantile Marine of the British Empire. Ocean Falls. By the time he has obtained his master's certificate then he is at the very least twenty to twenty-one years of age. But will he be as lucky as that? Quite apart from the possibility of his failure at the examinations he will have to secure his job as watchkeeper. Now, some years ago it was found that young officers were not sufficiently experienced, were not legally qualified, to take charge of a watch at sea alone. The consequence was that in some cases two officers were put on a watch to do the work of one. Yet those very qualified as master mariners were allowed to take charge of a watch. This latter rule applies to practically every line of any note nowadays.

through it again rather than be proved incapable as a sailing pilot. Smartness and action, quick determination in danger, accurate and unfailing ability to take the proper action in a seaway to the best advantage of the ship, knowledge of marine dangers and how to avoid them, these are the things sailing ship training gives to those who have been through it. Life in a steamer from its very nature is not able to impart these things to the boy condemned to serve in them. Trained Under Sail. While it is impossible for the steamship trained man ever to become a good seaman, it is by no means impossible for the sailing ship man to become a good "steam man." Observation in his elementary Steam machinery in a few hours and by the time the sailing ship man has been in and out of a couple of polly through a couple of head winds he will know more of the troubles of the engineers and how to help them overcome them than the steamship man could ever see. Ship construction is more to the sailing ship man than it is to the steam man, though equally necessary to both. How to get the better of the wind and sea are things only a sailing ship can teach, and the line of mental argument carried on to the ship's advantage by the sailing ship man will vantage by the sailing ship man and will always be utterly beyond the mind of the man who has always had steam to his hand to do his work for him. Cargo has to be worked more rapidly in steam than in sail. Alright, the sailing ship man has only to adapt his hand power methods to steam winches and the deed is done, while the poor steam trained man would get up the stick altogether if the "coffee mill" has only reason to rely on stops working. While the sailing ship man is waiting for the engineers and plumbers to repair his gadgets for him, the sailing ship man would have his purchases rigged and with burton and handy billy would be saving demurrage. In training officers and boys to become officers, the day of the sailing ship is not over. Nor are they altogether money losers either. Several large concerns still use them. Of the third objection little need be said. The boy, who at seventeen, has not made up his mind to a college course or a profession, is not intended for the sea and is no good there nor anywhere else, and very probably is a screw loose somewhere. The Canadian Merchant Marine is a good thing. It can do much for the mariner and for the Canadian owner, but it must have, to do its best, the best that can be made in the way of the men that command its ships and the officers who support those commanders, and they cannot be made by steam machinery.

DAY STEAMER TO SEATTLE THE S.S. "SOLDUC" James C. P. R. Wharf daily except Sunday and Monday at 10.30 a. m. for Port Angeles, Duwamish, Port Williams, Port Townsend and Seattle, arriving Seattle 7.15 p. m. CAMOSUN MAY CALL HERE FOR FREIGHT

Union Steamship Expected to Touch Here Prior to Coastal Trip to Canneries

The Union Steamship Company's boat Camosun is expected to call here to take passengers and freight for coastal points, probably on Wednesday. Mr. McGregor, to-day stated that the matter had not been definitely settled, but it was hoped the Camosun would call here. Whether calling here or not the Camosun will sail from Vancouver on Thursday at 9 p. m. for coastal points, including Rivers Inlet, Bella Coola and other points in connection with the canning industry.

MANY VESSELS DUE AT SOUND PORT

Seattle Experiencing Shipping Boom With Renewed Interest Comparisons are always odious, but it will serve as an indication of the efforts that the United States shipping concerns are making to capture trade, to read the following list of activities at Seattle this week: Thirteen ships with aggregate deadweight capacity of more than 100,000 tons are due to arrive in Seattle during the present week with cargoes from Oriental coastward and South American ports, making one of the biggest weeks for arrivals in the records of the Seattle Merchants' Exchange. Far from being worried over the unucky number, Seattle shipping men are preparing for the rush of work. Nine of the carriers are coming from the Orient, one from Ealing, two from the west coast of South America and one from San Francisco. All have merchandise cargoes, which range from rubber to vegetable oil, and all are to load here or at other Northwest ports for their return cruises.

The First Dozen Steps Prove Their Worth

Have an old pair of shoes heeled and soled with Cat's Paw and Rinex. Take a dozen steps and you will then appreciate the comfort of this remarkable combination.

Cat's Paw Heels and Rinex Soles

bring you to the end of a hard day on hard floors, far less tired than with leather shod soles.

Each step you take with them feels like another, and their resiliency makes your motion seem like gliding rather than walking with effort.

They are noiseless, non-slipping, water-proof, do not scar floors or furniture, and wear twice as long as leather.

On every shoe, old or new—for the kiddies too—insist on Cat's Paw and Rinex.

BRIEF LOCALS
Fined.—George Mow Yee, a Chinaman, was fined \$10 in the Police Court this morning for driving an automobile without a chauffeur's license.
Had Knuckle Dusters.—For having knuckle dusters in his possession, Edward Calvey was fined \$20 with the alternative of one month in jail by Magistrate Jay in the Police Court this morning.
Beverage Tax.—On behalf of a number of local merchants, Joseph B. Clearhugh wrote to the City Council last night protesting against the license fees now imposed upon the sale of soda water and soft drinks. He will be informed that the Council is dealing with this matter at the present time.
To Go to Sooke Lake.—City Aldermen will visit Sooke Lake a week from to-morrow to examine the waterworks head works there. Pending this visit the City Council last night decided to postpone action on Alderman Todd's proposal that an outside engineer investigate the waterworks.
Sanctity Meeting.—The Sanctity Association held its inaugural meeting last night in the rooms of the Liberal party in the Arcade Building. Committees in connection with the preliminary arrangements for organization work were struck, and the initial plans outlined for the season. F. A. Pauline, M. P., presided.
Confiscates Liquor.—In the Police Court this morning Magistrate Jay ordered confiscated two bottles of whiskey found in Boomerang Alley. The owner of the liquor had placed it under some furniture which was stored in the Alley at the time. It was discovered by the owner of a store next door and he reported the matter to the police.
Seeking Witnesses of Accident.—Any witnesses of the accident that occurred last Tuesday night on Rockland Avenue, when Miss E. Smith, of Fort Street, was found unconscious with a twisted bicycle near the wall at the bottom of the hill, are requested to get in touch with the Overseas Club, P. O. Box 1114, and confer a kindness on the unfortunate victim of the accident. Miss Smith does not remember what occurred, and witnesses are necessary to claim compensation in connection with accident policies held.

Will Not Buy Gas.—The City Council last night refused to allow the city department heads to purchase large quantities of gasoline which they proposed to store up in case of a gasoline famine. The proposed storage of the gasoline, it was stated, would have been an infraction of the by-law and the aldermen did not think it should be permitted. Alderman Todd remarked that the method of storage proposed by one official would create ideal conditions for an explosion. Alderman Andros hastened to suggest that, under these circumstances, gasoline, and plenty of it, should be stored beneath the City Hall.

Emmanuel Young People.—On the invitation of the Emmanuel Young People a united meeting of all the Baptist Young People's Societies was held in the Emmanuel Baptist schoolroom on Monday at 8 o'clock. The meeting took the form of a social evening, and members from each society took part in the programme. Rev. P. C. Parker and Rev. M. Theo. Habershon each gave very interesting recitations, which were much enjoyed, while Rev. B. H. West and Rev. Wm. Stevenson gave a short address. Refreshments were served by members of the Emmanuel Society. At the close a hearty vote of thanks was tendered by the visiting societies for the success of the meeting.

REGISTRATION
Provincial Cabinet Decided to Impose Upon People Necessity of Registering to Vote.
At this morning's meeting of the Provincial Cabinet, at which Premier Oliver presided, the principal business discussed was the subject of registration.
It was decided to take the necessary steps by way of newspaper and other advertising to impress upon the people the necessity to register in order to be in a position to record a vote when the forthcoming prohibition referendum is submitted to the electorate, as well as on the occasion of the next provincial general election.
It is to be pointed out that all other lists have been cancelled, and that only those whose names appear upon the new list will be in a position to vote on any provincial issue.

Oil Exploration.
The Imperial Oil Company has set aside \$2,000,000 for oil exploration purposes in the province of Alberta during the coming summer. Wells are to be started immediately at Pincher Creek, Fort Norman, and Great Lake. A well is now being drilled in the Bear district. It is probable that other wells will be started when this work is well under way.
Trail Shipments.
Ore receipts at the Trail smelter for the last ten days of May were \$7,08 tons. This brings the total receipts at Trail for the year to date up to 119,626 tons of ore and concentrates, the concentrates amounting to 3,471 tons, and the crude ore to 116,155 tons. The receipts for the ten-day period were:
Blue Bell, Rondel... 51
Electric Point, Boundary... 463
Glaston... 468
Josie, Rossland... 170
North Star, Kimberley... 252
Providence, Greenwood... 38
Sally, Beaverdell... 35
Company Mines... 7,691
Total... 8,708

'What of that?'
'My average ranks me as a deficient kid.'—Louisville Courier-Journal

DUNSMUIR FUNERAL
TO-MORROW
It has been decided that the funeral service of the late James Dunsmuir will be held at Christ Church Cathedral Wednesday afternoon at 3.30, with interment at Ross Bay Cemetery later. It was stated yesterday that interment would take place at Colwood, but that was found not to be possible on account of the ground not being consecrated.

Eastern Star Order
In Annual Session
The Grand Chapter, British Columbia Order of the Eastern Star, ninth annual communication, opened a two days' session in the K. P. Hall, North Park Street, this morning, when Grand Commander Mrs. Mary H. Austin presided.
There were a large number of delegates present, including representatives from Victoria, Vancouver, Prince Rupert, Merritt, Revelstoke, Kamloops, Rossland, Abbotsford, Mission, Nanaimo and Ladysmith. The delegates are making their headquarters at the Dominion Hotel.

DEFINES TAX ON
RETREADING OF
MOTOR TIRES
Accompanying is a copy of telegrams received by Collector R. Jones from Inland Revenue Department, Ottawa, regarding the operations of the taxes imposed under the new budget.
Retreading and similar repairs to motor tires and tubes not regarded as manufacturing. Person originally retreading such tires is held to be manufacturer and sales tax of one per cent. would be applicable upon sale thereof.
'Very and articles sold as ivory taxable.'
'Sales tax applicable on value of new material in repairing.'

PREMIER BACK AGAIN
Mr. Oliver Was at His Desk at the Parliament Buildings This Morning After Busy Time.
Premier Oliver returned to his office at the Parliament Buildings this morning after an absence of two weeks, during which he accompanied the Hon. J. D. MacLean, Minister of Education and Provincial Secretary on a tour of a number of the interior ridings. Mr. Oliver reached town on Sunday morning but left again in the afternoon for the interior. He is the official welcome to the Canadian Manufacturers' Association in the Terminal City yesterday.

NEWS AND NOTES
OF THE MINES
On Tour to Coast.
In the course of a tour which has embraced most of the well-known mining districts in the British Columbia interior, including Nevada and Texas, Lieut.-Col. S. R. Heakes, O.B.E., has arrived at the Hotel Vancouver. At present Col. Heakes is on his way to the coast in the interests of clients in England. He plans to visit Stewart and the Alice Arm district before returning to England, where he makes his headquarters.

Once upon a time, not so very many years ago, Uncle Wiggly Longears, a nice, bunnish rabbit gentleman, went out walking in the woods near his hollow stump bungalow.
'Do you think you will have an adventure?' asked a nurse named Fuzzy Wiggle, his mutual lady housekeeper.
'I think so,' answered the bunnish gentleman. 'I am going down to see how Toodle and Noodle Flat Tail, the beaver boys, and Grandpa Whackum are coming along with Grandfather Goosey Gander's house, which they

'This is My Splasher!' Shouted Toodle.
are making over on account of the fire.
'Well, be careful not to get burned,' spoke Nurse Jane.
'Oh, the fire was out long ago,' explained Uncle Wiggly. 'Jack put it out with milk from his coconuts. I am just going to watch the busy beavers rebuild the house.'
Over the fields and through the woods ran Uncle Wiggly, and when he reached Grandpa Goosey's house, which was partly burned, he only saw near it Toodle, the one beaver boy.
'Where are the others?' asked Uncle Wiggly.
'Noodle went to get some wooden nails,' explained Toodle, 'and Grandpa Whackum has gone to get us some mark sandwiches for lunch. I can do nothing until Noodle comes back with the nails; so let's sit and talk,' Uncle Wiggly.
The bunnish gentleman thought this would be nice, so he sat down on a shady place near the duck pond ocean, which was again filled with water, though it had gone dry at the time of the fire.
'Where is Grandpa Goosey?' asked Uncle Wiggly, as he fanned his back, 'twining nose with a broad chip which Toodle had gnawed from a log.
'Oh, he's gone to get Uncle Butter, the goat gentleman, to have him see about putting the new part of the house, when we have finished building it,' said Toodle. 'We have the place and the beaver boy sitting on the bank near the duck pond, waiting for Noodle to come back with the wooden

MISS WOOTTON IS
MARRIED IN VANCOUVER
An exceptionally pretty wedding was celebrated at St. Mark's Church, Kitsilano, Vancouver, on Monday, June 7, when Miss Lella A. Wootton, daughter of the late S. Y. and Mrs. Bowen Wootton, of this city, became the bride of T. S. Patterson, of the engineer staff of the Empress of Russia, the Rev. A. H. Sovereign, of Vancouver, officiating.
The bride, looking charming in white georgette, veil and orange blossoms was given away by Scott Sims, while the groom was supported by his brother, Stanley Patterson. Miss Lorraine Wootton and 'Baby' Estelle Reeves acted as bridesmaids.
After the ceremony the bridal party adjourned to the Citizens' Club, where the reception and champagne breakfast were held, followed by a dance. Toasts were proposed by the Rev. Mr. Sovereign and Stanley Patterson, and responded to by the bridegroom and Scott Sims.

Receipts From Celebration.
Nanaimo.—The receipts of May 24 celebrations, not including the May Queen contest, were \$3,142.17, made up as follows: Gate, \$1,302.75; subscriptions, \$750.55; refreshments, \$422.97; dance, \$289.75; and vaudeville, \$264.85. This will net a surplus of over \$1,000 for the new hospital and gymnasium funds.
WILL CALL TO-MORROW.
The S.S. Canopus will be in on Wednesday evening between 9 and 10 o'clock for passengers and cargo. The ship will leave early Thursday morning for Rivers Inlet, Ocean Falls and Bella Coola.

A BEDTIME STORY
UNCLE WIGGILY AND JUMPO'S SLIDE.
By HOWARD R. GARIS.
Copyright, 1920, by The McClure Newspaper Syndicate

Tom Powell, well known in Nelson, as an experienced trapper, hunter and guide, was severely mauled in an encounter with a part grown grizzly bear recently while out hunting with his partner, Harry Jones, about 12 miles up Wild Horse creek from Ymir, says the Nelson News.
The partners had bagged one bear the previous day and next morning observed the bear on a slide and fired at it. Though wounded the grizzly started for them on the run and though checked for a moment by another shot, continued towards them until the sixth shot, when he disappeared from view into the bush.
Believing the bear had escaped them the hunters shouldered their packs and moved away without much thought of the supposed lost animal.
Just as they were passing by the spot where the bear disappeared, however, the wounded animal charged them from the bush, and seizing Powell by the thigh shook him about like a dog would a rat. Meanwhile, Jones fired three more shots into the bear, which paused as each of the first two entered his body, and at the third, which entered his brain, rolled over dead.
Mr. Powell proceeded to Nelson to have his leg and right hand attended to, his hand also having been injured in the mauling. His partner stayed with the bear to take off the pelt. Mr. Powell has killed 44 bears.

Discussing the incident, hunters and trappers stated they knew of no precedent in which a bear had been known to seize a man with his teeth, a bear's usual tactics being to strike with the fore paws, it was contended.

VANCOUVER ISLAND
NEWS
To Preside at Meeting.
Nanaimo: Mayor Bushby will preside at the mass meeting of returned men which is to be held in Young's Hall on Sunday, June 13.
Sidney Board.
There will be a meeting of the Council of the Sidney Board of Trade next Tuesday evening at 8 o'clock at the Sidney Hotel.
Memorial Hall.
Cumberland: The Great War Veterans' Memorial Hall should be an accomplished fact before the Summer is far advanced, says The Islander. The tender of H. Trebilcock Co., Courtenay, who will be returned soldier, has been accepted for the construction and work will be commenced shortly. This building will fill a long-felt want for the local G. W. V. has over one hundred members resident in the Cumberland district, and the need for a suitable meeting place has been keenly felt. The plans show a commodious building fronting on Dunsmuir Avenue, which will be provided with a general meeting room, also a billiard room of the same dimension, both of which can be used as one when sliding doors are removed, thus giving a large hall. A reading room, committee room, kitchen and canteen are also provided for. Plans for the structure were drawn by W. A. Owen, C. E. The estimated cost of land and building is in the neighborhood of \$7,000. The Canadian Colliers (Dunsmuir) Ltd., are supplying the materials, the city giving the lot, while the public in general are subscribing the cost of labor.

Cattle Export.
Courtney.—R. U. Hurford, of the Comox Co-operative Creamery, a Jersey breeder, reported to the Farmers' Convention at Kelowna last week the sale of three females and a pure bred bull to a great concern in Brazil. The cattle will be shipped this week to the Hacienda Aroca at Ouzco, Brazil. The animals were bought recently by a group of South Americans who had learned of the famous Jerseys bred in British Columbia. To China also, British Columbia stock will be shipped shortly, a consignment of pure bred Ayrshires going to Hongkong and thence inland from the herd of Shannon Brothers of the Fraser Valley. The animals are being bred by American, Australian and New Zealand breeders.

ACUTE ECZEMA
ON BABY'S HEAD
Face, Neck, Arms, Terrible
Sight. Itched And Burned.
Cuticura Heals.
'Baby was two months old when I noticed little pimples on her head. They kept getting worse and spread till her head, face, neck and arms were covered with eruptions, burning, itching, and bleeding. I was told it was acute eczema. I had to sew up her arms and legs in linen. She was a terrible sight. For one year I had no rest night or day.
'We got Cuticura Soap and Ointment. In less than two weeks she began to mend and in a few months she was healed.' (Signed) Mrs. Boorman, 243 McDonnell St., Peterboro, Ont., April 19, 1919.
Stop the use of all toilet soaps. Use Cuticura for all toilet purposes. Soap 25c, Ointment 25c and 50c. Sold throughout Canada. Canadian Depot: Lyman, Limited, St. Paul, Minn., U.S.A. Cuticura Soap shaves without soap.

TOO MUCH TO EXPECT.
He had got into the habit of looking into the cup when it was yellow, and the result of too many whiskies was a deranged digestion. Worried about it, he consulted a doctor.
'Stop drinking!' ordered the medical man, curtly.
'But, doctor,' protested the patient 'I can't, I get so thirsty.'
'Then,' replied the doctor, 'when ever you feel thirsty, eat an apple instead of drinking whiskey.'
The young man paid his fee and departed. Later on he was talking to a friend about it, and wound up with the comment:
'Bally not, I call it! Fancy eating forty apples a day!'—Tit-Bits.

Church Failed in Pinch and Indians Took Game

Jimmie Had Chance to Win Freedom of City in Ninth Inning But Grounded Out to Horror of All; Shoots's Home Run in Sixth With Two On Gave Spokane Game.

Spokane, 5; Victoria, 2.

Jimmie Church, the leading ball-poker in this league, was given a grand opportunity in last evening's game to win into himself all the decorations and honors becoming a hero.

It so happened that the Capitals were lagging three runs in the rear when they came to bat in the ninth. Dempsey, the first man up, slapped a searing single over second. Zienke and Cunningham came within an ace of hammering the ball out of the lot.

The Box Score table showing runs, hits, errors, and innings for both teams.

Spokane Scored First. The Indians scored two runs in the second on one hit, two bases on balls and an error.

EARLINGTON CLUB TO SEND GOLFERS HERE

Twenty-five Players to Come From Seattle Saturday; Play at Oak Bay

Twenty-five golfers from the Earlington Club, Seattle, will visit Victoria on Saturday next to play against a similar number of male representatives of the Victoria Golf Club over the Oak Bay links. The matches are expected to be very keenly contested. The Earlington Club has a number of very fine golfers, and the local players will have no secure in winning the match.

DEMPSEY'S TRIAL STARTED TO-DAY

San Francisco, June 8. — The trial of William Harrison (Jack) Dempsey, heavyweight champion of the world, on a direct charge of evading the selective service draft, began before United States District Judge M. T. Dooling here today. Representatives of the American Legion here were interested spectators at the trial.

Invited English Golfers

Capt. McKenzie, secretary of the Victoria Golf Club, has written to Ray and Arden, the celebrated English golfers, and invited them to play an exhibition match in this city. No reply has been received from them as yet. Already they have been booked for about 50 matches, and if they make a complete swing of the circuit it is more than likely that they will arrange to play over local links. They were greatly impressed with the Oak Bay links on their last visit to this city.

ELECT OFFICERS OF KINGSTON ST. COURTS

A general meeting of the Kingston Street Lawn Tennis Club was held at the courts on Saturday and the following officers and committee elected: President, Rev. H. T. Archbold; vice-president, C. Swayne; secretary, W. W. Parkes; treasurer, H. G. M. Gardner; committee, Mrs. Gardner, Mrs. Foster, H. Sayer, R. E. Lambe, C. H. O'Halloran, and P. Fletcher.

Now that a committee has been appointed, no time will be lost in arranging the inter-club matches and tournaments.

Other clubs wishing to arrange matches should communicate with the secretary, P. O. Box 303, as early as possible. Since reorganization took place on May 18, this progressive club has nearly trebled its membership and has already in vogue a waiting list for ladies. There are still a few vacancies for gentlemen.

A presentation was made by Mr. Parkes, of a challenge cup for men's singles, which must be won three years in succession to gain sole possession. This will be a scratch event to decide the men's championship of the club and the winner each year will be presented with a miniature replica of the cup.

BOYS WILL BE TAUGHT HOW TO PLAY CRICKET

Any boys in this city who would like to master the game of cricket will be given free instruction at the Jubilee Hospital grounds every Wednesday afternoon by Percy Payne, secretary of the Victoria City Cricket Association.

Mr. Payne has learned that many lads here would like to try and learn the game if they could secure capable instruction. As a result he has kindly offered to set aside his Wednesday afternoon to assist any lads who care to try out. He will be at the Jubilee grounds at 2.30 o'clock.

Mr. Payne is asking all cricket clubs or enthusiasts in this city who have any old cricket balls or other equipment to kindly place them at his disposal so that he can outfit the boys. Any contributions may be left at the Douglas Hotel.

CIVIL SERVANTS VOTE DOWN ON PROPOSALS, 43-40

Affiliation With Trades and Labor Council Finally Loses Out

After nearly two and one-half hours of debate, the Victoria branch of the H. C. Civil Service Association last night voted down by 43 to 40 proposals "to go the whole hog" and become a union organization and affiliate with the Victoria Trades and Labor Council.

The Association for some time has been affiliated with the Trades Congress of Canada, but the members wanted to act further on this matter.

"Having resolved to put in our lot with the Trades and Labor Congress of Canada, we have acted in a half-hearted manner towards our fellow trades laborists in not joining with the local council," said F. MacKenzie, who fathered the affiliated proposal.

Civil servants themselves have testified to the advantages of organization by the founding of this Civil Service Association. This association itself has very little strength. In fact, it has no punch behind it and that lack of punch is taken advantage of by those who don't care to agree with its views. As evidence of this lack of punch we have only to consider the result of our efforts to secure the bonus. Such an answer as we then received would never have been given to any trades union body.

Tired of Debating Society. "Take any of the unions, members of which are employed by the Government, and they have received considerable advances in wages, much larger advances in proportion to pre-war wages than the civil servants have received."

"I think it is our duty to mingle with our fellow laborers. It would give us the opportunity to dispel the illusion about the remuneration of civil servants."

"Unless we are to remain simply a debating society we have to gain further strength and get it from association. And remember no organization can force any association to strike against the will of any of its members."

Unions Got the "Punch."

"Why has the Government not demurred to pay what unions demanded? Because the unions have the punch behind them. Until these unions amalgamated they were in the same position as this Civil Service Association is to-day. They lacked the punch."

"Some imagine that when they become civil servants they become different sort of beings from their fellow laborers. I have never been able to distinguish between the man who works with his hands and partly with his brains and the man who works with his brains and partly with his hands."

H. P. Hirst seconded the affiliation proposal.

"Not Employees, But Trustees." H. H. Smith predicted that efforts to rush through affiliation would break the association in twain. He declared that union organization among civil servants would be incompatible with the oath of allegiance which civil servants take to serve the people of the Province without regard to section or party.

"We are not employees, we are trustees," said Mr. Smith. "What is going to happen to us when there is a strike in the unions. Funds must be raised, and we as union members would be called on. In elections we would be called on to contribute to the election funds of the labor party, and we would thus be entering into politics."

Mr. Smith also declared that there is a lack of the necessary community of interest and sympathy to bind civil servants to organized labor. He said that during the last eighteen months the drift among Dominion civil servants has been in the opposite direction.

No Alternative.

W. F. Loveland predicted that many would withdraw from the association if the affiliation proposals were put through. He proposed that a secret ballot be taken of all members of the association so that a representative expression of opinion could be secured from everybody.

Another member said that when the association was formed there was no idea that it should be merely a debating society, and go no farther. "There are drawbacks in joining a labor organization, but I have never heard any of these gentlemen give an alternative," he said. "Why did we form an association?"

Would Have Much Power.

"It is merely a question whether you wish to get behind you all the power possible," said A. Manson. He pointed out that on the basis of one delegate to fifty members, the civil servants would have nine delegates to the Trades and Labor Council, and they could wield an important influence on the meetings. He told of the success of the postmen in more than doubling their wages and shortening their hours and getting holidays since they unionized themselves.

George Pilmer, explained that the police, in the same position as civil servants as regards their oath and inability to strike, have affiliated with labor. He told of the affiliation of the civil servants of the United States with the American Federation of Labor, and how the support of the labor organizations had advantageously affected the votes in Congress when civil service matters came up.

Thomas Bamford declared that the word "strike" had frightened away many members from the association. A. B. McNeill, president, ruled that the postal vote would be unconstitutional. Further efforts to postpone the voting were then dropped.

"Describe the man you saw talking to the prisoner," said the judge to the witness.

"I don't know how to, sir."

"Did he look like any of these lawyers?" inquired the judge. "Did he look like me, sir," said the witness; "he looked like an intelligent gentleman."

—Epworth Herald.

at the Theatre

DOMINION

Elsie Ferguson's regal beauty and talents as an emotional actress, were never given a more fitting screen vehicle than the picturization of Sir Arthur Wing Pinero's play, "His House in Order," in which she opened a weeks' run at the Dominion Theatre last evening.

The central figure in the story is Nina Graham, a pleasure-loving young English girl, who, left penniless by the death of her father, takes a position as governess in the home of Filmer Jesson, M. P. Annabelle, Jesson's cold, apparently flawless wife, who has consistently snubbed Nina, is killed in an accident. Through letters which she discovers, Nina learns that Annabelle had been carrying on an affair with an army officer. Later Filmer comes to love Nina and marries her. Her carelessness about his house annoys him so that he insists that she should manage it. Nina and she continually clash until the former plans a revenge by showing the letters to Jesson. But an unforeseen event saves her act, and in the stirring climax she and her husband see matters in a new light.

Miss Ferguson's temperament, which allows her to pass quickly from the scenes in which she is the butterfly-woman to others in which she runs the whole gamut of the emotions, qualifies her eminently to portray the role of Pinero's heroine, Nina. Her acting is excellent as Jesson. Hugh Ford, who ranks with the films' greatest directors, handled the picture, which is a Paramount Artcraft.

ROYAL VICTORIA

Big Bill Hart, in "Blue Blazes Rawden," will be the attraction at the Royal Victoria Theatre again to-night. It is a story of the life of a man who is bound to please and interest Victoria audiences. In the first place the star is a great favorite in this city, and the plot is wholly impossible. He is the best that he has yet appeared in. The next is that it is a clean wholesome drama that will hold the attention of any audience from beginning to end. Heretofore it has had three other short reel subjects a good evening's entertainment is assured.

VARIETY

While making his latest Selznick picture, "Sooner or Later," in which he is appearing this week at the Variety Theatre, Owen Moore succeeded in accomplishing what many have failed to do. He broke down the high wall of precedent against motion pictures which had existed at the world famous Waldorf Astoria. He has influenced the management to allow him and his company to take pictures in its sumptuous lobby. Ever since the Waldorf Astoria first opened its doors it has been one of the most exclusive establishments in existence. Kings and Queens of Europe have stayed there. Recently Albert and his Queen of the Belgians, and Edward, Prince of Wales. But never had a movie camera clicked within the walls of the Waldorf Astoria. Owen Moore whispered into the ear of the manager is not known, but it worked like a charm. In consequence, local photographers will be able to see all the elegant and refined splendor of that renowned hotel brought to them for the first time on the magic carpet of the screen.

COLUMBIA

"All-of-a-Sudden Peggy," the Paramount-Artcraft picture showing on the Columbia's screen all this week, is one of the daintiest little stories ever featured and is being shown here for the first time. The part of the impulsive Irish girl, Peggy, with mischief in her eyes, is taken by the great star of Filmland, Marguerite Clarke. The balance of the cast has been wisely chosen, and includes foremost among its members Jack Mulhall as an ardent and altogether charming lover, and Orval Humphrey, who has mastered to a fine degree the details of an excellent make-up and characterization. Lillian Leighton, Maggie Fischer and Sylvia Jocelyn have the other important roles. As a background for constantly varying scenes, appropriate and pleasing sets have been secured.

"SO LONG LETTY" PROVES TAKING FARCE

Princess Players Open With Smart Comedy-Farce Under Mildred Page

The popular but ill-advised practice of telling ones woes to the neighbors, over the garden wall, leads in "So Long Letty," playing at the Princess this week, to the usual amount of trouble that such a habit would bring in real life. The only difference being that in the play it all comes right in the end, and in real life it, too, often gets worse.

The plot centres around the struggles of two young wedded couples, living side by side, who after the first enthusiasm for the married state has found an outlet in their lives, begin to notice that there is a certain amount of drudgery and incompatibility in that blissful condition.

As ever with humanity, the troubles that come home to the individual are always worse and harder to put up with in his opinion than any that ever assailed anybody else. The ancient story of the "troubled mound," where one went to discard his troubles and pick up those he thought he would like, would apply equally well to the case of Harry Miller and John Robbins, the husbands, who wished in effect to exchange wives.

A virtual exchange was effected, after some stormy sessions with the ladies affected, and the change, as always, was for the worse. Through three acts the play runs itself in hilarious lines, until a happy denouement satisfies all conventions by restoring the wives to their respective guardians.

Miss Mildred Page, in the role of "Letty" forms one of the brightest character representations in the entire piece, and is noticeably more at home than her support, Nina Guilbert, as the other lady, Byron Aldern, and Jack Phillips, as the two scheming husbands, show to good advantage, although first nights are perhaps a little hard on a stock company, which as ever, plays many parts.

Genevieve Berkley, a lady reporter; George Cleveland, a reporter; Charles Clapp, the Chinaman, and Tom Sullivan, express man, all with minor parts, manage to make the most of them. Their action is by no means vital to the play, but their characterization is agreeably refreshing to make their entry worth while.

COMEDY AND DRAMA IN PANTAGES BILL

Well-balanced Vaudeville Affords Turns to Please Every Taste

A well-balanced bill, with comedy, melodrama and pretty girls to please every taste among the audience, is offered at the Pantages Theatre this week, and those who patronized the popular vaudeville house last night came away well satisfied with the evening's entertainment.

For realistic effect "Thunder Mountain" won well-deserved praise. Here is thrilling melodrama with the usual heart interest surrounding a real hero and a charming girl. When the side of the house falls in before the attack of the Mounted Police, and bursts into flames, the audience is treated to something quite out of the ordinary. The production is from the well-known studios of Langdon McCormick, producer of the "Forest Fire," "The Storm" and "On the High Seas," and with the scene set in the mountains, the picture is a picture of the elements is picturesquely portrayed with all the ingenuity of modern stage craft. The company is headed by Anne Hamilton and Charles Bartling, supported by a cast of well-known players.

That rare type of entertainer, a real comedienne, delights the audience in the person of Mabel Harpur. Mabel's laugh, and the truth of her claim to be one of the cleverest eccentric actresses on the stage to-day, justify her in her title of "The Funbeam of Vaudeville." She is supported by a young lady pianist of versatility.

The rural sketch, "Puppy Love," is decidedly amusing, and gives Winchell and Green an opportunity to show their talent as dancers and entertainers of ability.

In "Frolisome Follies" Lohse and Sterling give a thrilling exposition of show their talent as dancers and entertainers of ability.

For beauty of setting the delightful

Real-Fruit Desserts The Rarest Sort

The only gelatine dessert which has fruit-juice flavors sealed in glass is Jiffy-Jell.

No artificial flavor can take the place of fruit. For Jiffy-Jell the fruit is crushed, condensed and sealed in vials. A bottle of this liquid essence comes in the package. And sugar is used—not saccharine—to sweeten Jiffy-Jell.

Jiffy-Jell comes in ten flavors. Try loganberry and pineapple for desserts. Try lime-fruit flavor for tart salad jell. Try mint for a refreshing mint jell.

Phone Your Classified Ads

For the convenience of classified advertisers The Times has inaugurated a new system in this department. In future, all transient classified advertisements will be absolutely on a cash-in-advance basis, but all those advertisers who cannot conveniently come to The Times office may phone in their ads, and The Times Want Ad Boy will immediately call for the money. This will avoid book-keeping charges, and at the same time place every advertiser within easy reach of The Times office.

NOTICE

In hereby given that application will be made by the undersigned to the Registrar of Joint Stock Companies on Thursday, the 24th day of June, 1920, for approval of a change of name of the company to "Brighouse Park Limited."

THE BOWKER PARK COMPANY, LIMITED.

Dated this 19th day of May, 1920.

No. 8843.

DEPARTMENT OF PUBLIC WORKS.

NOTICE TO CONTRACTORS.

COMOX DISTRICT.

Highway Bridge Over Quinsam River, 3 Miles From Campbell River Wharf.

Tenders will be received by the Honorable the Minister of Public Works up to and including Saturday, 12th June, 1920, at the office of the Registrar of Joint Stock Companies, 1100 Fort Street, Vancouver, B. C., on or after the 12th day of June, 1920.

DROWNED IN ONTARIO.

Peterboro, June 8.—John G. Giller, eighteen years of age, a returned soldier, was drowned in the Ontario River yesterday. He was up-converted from a canoe. The body was recovered.

Announcements

Announcements under this heading will be inserted at the rate of 5c per word per line.

Come to the Milk Goat Show on Saturday, behind the City Hall and bring the kiddies. Admission 10c; children free.

United Co-operative Association, Ltd., Victoria, B. C.—Special general meeting.

The undersigned begs all shareholders to make a special effort to attend the above meeting to be held in the Empress Hotel on Friday evening, the 11th inst., at 8 o'clock, as the business to be transacted is of vital importance to the welfare of this association, and a full discussion is invited. Please bring your pass book.

LAND REGISTRY ACT.

Section 150.

In the Matter of the East 50 Ft. of Lot 312, Victoria City.

TAKE NOTICE that an application has been made to cancel a Right to Purchase registered in your favor under Agreement dated the 12th day of June, A. D., 1912, from George Holford to yourself, as registered in the Register of Charges, Volume 23, Folio 323, No. 9959-6.

NOTICE

NOTICE IS HEREBY GIVEN that in accordance with an Amendment to the "Townsite Proportions Allotment Act," passed at the last session of the Legislature any person holding an agreement for sale from the Crown in respect to the purchase at Auction of Town or City Lots or lands within the site or suburb of a town payment for which has not been made in full and who wishes to obtain a proportionate allotment of such land in consideration of the monies already paid must file application in that respect on or before the 1st day of September, 1920, on which date the privilege of obtaining a proportionate allotment will cease and any person in arrears of payment under an agreement for sale as aforesaid failing to make application as stipulated will thereafter be debarred from taking advantage of such privilege and will be subject to the fulfillment of the terms of the sale and the provisions of the "Land Act" governing overdures purchase money in connection with which special attention is drawn to the notice appearing in the current issues of this paper.

GEO. R. NADEN,
Deputy Minister of Lands,
Department of Lands,
Victoria, B. C., May 8, 1920.

LAND ACT.

Notice of Intention to Apply to Lease Land.

In North Saanich Land District, Recording District Victoria, B. C., and situated in North Saanich District.

Take notice that Genoa Bay Lumber Company, Limited, of Genoa Bay, Vancouver Island, B. C., intends to apply for permission to lease the following described lands:

Commencing at a post planted at the N.W. corner of 3 1/2-100 acres part of Sub-Division H. part of Section No. 11, E. 1/4 W. N., Saanich, thence N. 33.25 W. 400.0 feet; thence S. 60.45 E. for 575.0 feet; thence S. 33.25 W. for 165.0 feet; thence following shore line N.W. to point of commencement, and containing 4.65-100 acres.

GENOA BAY LUMBER CO., LTD.,
GEO. R. ELLIOTT, Manager,
Name of Applicant,
C. A. FROST, Agent,
Dated 3rd May, 1920. No. 8745

NOTICE

NOTICE IS HEREBY GIVEN that all persons holding Crown Lands or Lots in Townsite subdivisions under agreement for sale from whom the purchase money on such lands or Townsite Lots remaining unpaid is overdue are required to make payment within six months from the date of this Notice, either of the full amount due, together with interest thereon, if any be due, or a substantial proportion of such amount, which must at least cover the full interest due to date, together with evidence that all taxes, whether Municipal or Provincial, have been paid, failing which the agreement for sale will be cancelled, as provided by Section 70 of the "Land Act," Chapter 129, Revised Statutes of 1911.

G. R. NADEN,
Deputy Minister of Lands,
Department of Lands, Victoria, B. C., April 1, 1920. No. 8513.

WHEAT IN U.S.

Washington, June 8.—The total wheat production of the United States this year will be about 781,000,000 bushels, the Department of Agriculture forecast to-day from the condition of the Winter and Spring crops June 1. Last year's total crop was 941,000,000 bushels.

FORGOTTEN PEERAGES.

It would be interesting to know how many of the present titles of our peers will be known fifty years hence. Peerages disappear at the rate of five every four years. There are numerous reasons for this. The recent case of Lord Swinburn, who died before the letters patent of his peerage passed the Great Seal, is unusual but not without precedent. The recent case of Lord Swinburn, who died before the letters patent of his peerage passed the Great Seal, is unusual but not without precedent. ADMIT THE ENGINEER NOT RESPONSIBLE. Alderman Todd Says He Does Not Blame Mr. Preston For Flow Line. Declaring that he had been misunderstood on a previous occasion, Alderman A. E. Todd at the City Council meeting last night assured City Engineer F. M. Preston that he did not hold him responsible for any defects in the construction of the Sooke waterworks.

TRY TO BLOCK INCREASE IN WATER RATES. But Council Agrees Only to Alter Reduction to Cultivators. CLAIM RATES UNFAIR TO SMALL CONSUMERS. Despite strong attempts from various quarters to amend it, the new water rates by-law providing for a thirty per cent. increase in Victoria's water rates, was put through its first and second readings at the City Council meeting last night with very little change.

ASSAULTS FINANCE COMMITTEE AGAIN. The civic Finance Committee came in for another attack last night at the hands of Alderman Fullerton, its persistent critic, and Alderman Andros, one of its members. Discussion of the Finance Committee and its activities arose out of a report submitted to the Council by City Engineer F. M. Preston, at the request of Alderman Andros, regarding the number and salaries of engineers who are being employed to draft plans for the new Johnson Street bridge.

Object Would Be Defeated. Alderman Sargent, however, brought up an argument which finally decided the Council to amend the new by-law slightly. He declared that, under the by-law reductions would be granted to all persons cultivating their land, in other words to people who went so far as to sow a package of lettuce seed. So general would be the reductions that the whole object of the increases and the new revenue, would be defeated.
