MANSON ANSWERS VANCOUVER BY DECLARING LIQUOR LAW MUST BE ENFORCED IN B.C.

Stinging Rebuke Meets Council's Declaration of "Open War" Against Cabinet; Government to Continue Policing of Municipalities When They Fail in Their Duty, Says Attorney General; City "Bled White" by Province, Mayor Taylor Declares in Demanding That Provincial Officers be Withdrawn.

The Vancouver City Council, at an emergency meeting this morning, declared "open war" upon the Provincial Government for interfering in municipal affairs and Attorney-General Manmunicipalities which have failed to enforce the liquor laws.
While the Vancouver authorities, in bitter terms, were demanding that he take his police force out of Vancouver and keep it out, the Attorney-General declared emphatically that his policy of enforcing the liquor law in municipalities would be vigorously maintained when civic authorities failed in their duty. Only when conditions had become "unbearable" in Vancouver had he stepped in to effect the recent liquor "clean-up," he declared, and added that secret service details could not be given son replied with a stinging rebuke to Vansouver and other clared, and added that secret service details could not be given to the municipalities.

HELD SPECIAL MEETING declared by the City Council of Varconver at an emergency meeting,
called for the Mayor and aldermen
to confer with the Vancouver M. P.
P's at the City Hall this morning.
Charges were made by Mayor Taylor
that the "city was being bled white"
by the Government, and an ultimatum delivered to Attorney-General
Manson that his "interference must
stop." The Council was unanimousby behind Mayor Taylor in criticizing
the Government and the failure of
the Premier to give Vancouver Cabinet representation.

TO THE LIMIT

Alderman Bennett declared with emphasis that he intended to fight to the very limit any effort on the part of the Government to collect beer license fees in Vancouver. The Province had no right to invade the precincts of Vancouver to collect licenses, he stated.

In opening the meeting Mayor Taylor said:

"There has got to be a change. The Government is bleeding Vancouver white. Deductions are made for policing, gasoline taxes are imposed, amusement taxes collected and other revenues are taken from the city without division. We are paying the piper and get nothing but insults and contemptuous treatment from Victoria, and especially from the Attorney-General." the Mayor added.

visited victoria, and especially from the Attorney-General." the Mayor said that before his inauguration he had gone to Victoria in an effort to meet Attorney-General Manson and discuss with him the different problems affecting Vancouver. He had been rudely received and treated. He had endeavored to make an appointment with Mr. Manson, whom he met after several endeavors in a corridor of the Parliament Buildings.

"I have no time to make an appointment with you," answered the Attorney-General.

When the speaker insisted that he was there to discuss matters of importance to every citizen of Vancouver, he was told he "could take chances on catching the Attorney-General between noon and 2.30 p.m." This, the Mayor said, was not good enough. He had come heme.

This, the Mayor said, was not good enough. He had come heme.
FOR POLICE WORK

The city had been mulcted \$22,000 for policing by the Liquor Board police, he said. The recent failure of the Liquor Board police to keep faith with the city force in the drive against bootleggers the Mayor declared was simply an effort to discredit the city force and justify the imposition of such a fine.

Alderman Worthington said he had been rained to Attorney-General.

Alderman Worthington said he had been rained to \$22,000.

OPPOSED LAST YEAR

OPPOSED LAST YEAR

Alderman Bennett declared he was opposed to the vote of the Council last year of \$10,000 for secret service work for the city dry squad, but he had been assured at that time that if the money was granted the Government would not make any deductions. Alderman Woodside referred to the fact that the Council had been ignored at the unemployed conference, and was being drained of revenues for the benefit of the Province.

"The situation seems to be that we are either going to police this city or we will abolish the force altogether." declared the Mayor amid murmurs of applause.

Ottawa, Jan. 9.- In an endeavor to reach a solution of the problem of transportation in the Peace River country, a conference is being held in the Railway Department offices here today. Hon. G. P. Graham, Minister of Railways, is presiding, while Sir Henry Thornton and E. W. Beatty are present. Premier Oliver of British Columbia and Premier Greenfield of Alberta are attending. From the Federal Cabinet, Hon. J. H. King, Minister of Públic Works, and Hon. Charles Stewart, Minister of the Interior, will be present.

The Canadian National Railways have completed a survey from the main line into the Peace River country and it is understood Sir Henry Thornton is now in a position to say whether or

ow in a position to say whether of not an extension from a point on the main line into the Peace River area is feasible. Mr. Beatty will state the case for the Canadian Pacific Railway respecting the extension of the Dunyegan line north into the Peace River country. SEATTLE JUDGE IS ASKED TO SEND CHARLES MORRIS TO VICTORIA FOR BERYL G. TRIAL

Clarence Cheatwood, Harold Morris and Ray J. Kramer Released When Evidence on Murder of Capt. W. G. Gillis and Son Was Presented in Sound City Today; Chief Feature Was Sworn Statement by Paul

Seattle, Jan. 9.—Release of three of the four suspects held here and the presentation of deposition of Paul Strumkins in the hi-jacking murders on the gasboat Beryl G. off Pender Island, B.C., September 15, featured the opening of the extradition proceedings in Judge Mitchell Gilliam's department of the Superior Court here this morning.

The men released from custody were Clarence Cheatwood, Harold Morris and Ray J. Kramer, who, with Charles Morris, had been held in the King County jail since their arrest as fugitives from British Columbia, where they were accused of complicity in the murder of Captain W. G. Gillis and his son, William, on the liquor runner Beryl G.

Charles Morris is held, and after the release of the three others proceedings for his extradition began with the identification of the deposition of Strumkins, a Victoria boatman. The deposition gives the details of the murder of Captain Gillis and his son on the Beryl G. and the hi-jacking of the liquor cargo and Morris is named as being a member of the hi-jacking gang.

No mention is made in the deposition of a Seattle police officer having been implicated in the case, as previously rumored in reports from Victoria, B.C., but Strumkins accuses Morris of having worn a white naval cap trimmed with gold braid, presumably to give the impression that he was an official.

RELEASE WAS ASKED

RELEASE WAS ASKED

At the opening of the proceedings. Bert C. Ross, representing the Canadian Government, announced withdrawal of the charge against Cheatwood, Harold Morris and Kramer and asked the court to dismiss the charge and release the men from custody.

After the release of the three prisoners, the court ordered Charles Morris to stand up and to him read the complaint charging him with murder near Victoria, B.C.

INSPECTOR ON STAND

After the reading of the complaint Attorney Ross called his first witness, Forbes Cruickshank, inspector of the British Columbia Provincial Police at Victoria, who testified that Mr. Ross and he had been duly authorized by the Canadian Government as its representative in the case.

Mr. Ross then introduced a transcrip of depositions of witnesses, including that of Strumkins, and an adjournment was taken to permit the court and the defendant's attorneys to read the depositions.

Strumkins in his deposition set forth that he was hired by Owen B. Baker over the telephone to meet Baker and others with his boat. He said that late at night on September 15 he kept the appointment and met Baker, now under arrest in New York; Charles Morris and Harry Sowash, the latter still at large. They went to a position off Pender Island, the deposition continued, and he was ordered to bring his boat to a stop some distance from the Beryl G. The three passengers then took a skiff and rowed to the Beryl G.

Strumkins then told how he heard and saw Baker take the bodies of Captain Gillis and his son up the companionway to the deck and along the deck to the anchor chain, where he handcuffed them together and tied them to the anchor chain, which was heaved overboard after it had been cut loose from a heavy hemp cable.

TO DISCUSS PUBLIC QUESTIONS

Dr. Page stated that his visit was arranged primarily for health reasons, but that in Canada and the United States he intended to meet representative public men, and study certain problems that were common to all national federations in which States and Federal Governments were concerned.

The Commonwealth was particularly interested in electrical power development, and in improved transportation systems, Dr. Page said. The progress of Canada in consolidating its railway systems was of value to Australia. Already the Federal Government was doing its hest to cope with the problem of the varying railway gauges, and was assisting the states of Victoria and Queens, land to bring their lines between Brisbane and, Melbourne into harmony with the standard gauge of four feet eight and a half inches now applying in, New South Wales state lines, having in view continuous communication from Brisbane in Melbourne, by way of Sydney.

Dr. Page stated that he understood the great development of the telephone communication in Canada had placed it among the leaders of the world's nations in this regard, and this would form a subject of carefus study.

"I believe," said Mr. Manson, "that it is the desire of all decent, self-respecting citizens that the Act should be obeyed. I am not disturbed by the criticism of our efforts. The assistance of the press and of the responsible public should be unhesitatingly given to any police force in an effort to maintain strict observance of the law.

"Particulars of secret service work will not be given to the municipalities. That manifestly cannot be done. All I can hope is that the municipalities will render it unnecessary for provincial officers to intervene. They have the matter entirely in their own hands.

CHURCH UNION VOTE TOTALS REPORTED

Toronto, Jan. 9.—Compilations by the Church Union Bureau of Information up to noon to-day indicate that 456 Presbyterian Congregations in Canada to date have voted to enter the United Church of Canada, white eighty have decided to stay out.

By provinces, the congregations have voted as follows:

Berlin Government Not Extending Plan of Treaty of Versailles

Berlin, Jan. 9.-Unless Dr. Tren delenburg and the French arrive at a provisional understanding to-day regarding the trade modus vivendi

tions will be in a "treatyless stage," beginning to-morrow, the Foreign Office announced this afternoon. The Government emphatically denied that the commercial status quass provided in the Treaty of Versulles to continue until January 10, would be extended. Beginning to-morrow, it is expected the German customs tariff of 1902 will automatically be reinstated in the cases of all signers of the Versulles Treaty who have not negotiated a new trade agreement with Germany, or at least agreed upon a provisional modus vivendi.

Priceless documents now are filed on shelves in the former cells; relics of the stone age of Sweden are set up in the courtyard where the prisoners once were given their exercise, and fine specimens of church furniture and decoration, together with historical treasures from ell ages and from nearly every country in Europe, are on display in the larger halls. The most interesting part of the collection in the Oestermalm building is an exhibit of skeletons of some of the 1,800 Swedes who fell in the defence of Visby against the raider Valdemar Atterdag nearly 600 years ago. Many of the skulls and hones are still enclosed in chain mall, which is remarkably well preserved, and archeologists are showing keen interest in these skeletons in armore.

R. A. Hoey, M.P., Lays His Views Before the United Farmers of Manitoba

Would Have Political Organization Extend From Great Lakes to Pacific

Brandon, Man, Jan. 9.—If the Canadian Confederation cannot be maintained on a basis of equity and justice to all its divisions, why should it be maintained at all? R. A. Hoey, Progressive member of Parliament for Springfield, askedsthis question last night after he had eutlined to the annual convention of the United Farmers of Manitoba the situation which he thought made it imperative that something be done speedily in the interests of national unity.

"I have come to the conclusion." declared Mr. Hoey, "that this experiment should be made as a last resort. I would have Western Canada present a united front from the Great Lakes to the Rockies and, if possible to the Pacific. And I don't care what the party is called provided it extends to urban centres the same democratic form of organization which we have in the rural parts. All the people, rural and urban, whose interests after all are almost identical, would present a united front in the interests of Western Canada.

"I feel the time is ripe for this united West with a national programme which will recognize the prairie provinces and the maritime provinces as part of the Dominion, and recognize that these sections will not indefinitely remain in Confederation to be dominated by the mideastern interests."

BANK CLEARINGS FOR the City of Victoria in the first week of this year were just \$879,124 greater than they were

for the corresponding week of 1924. Figures for the first seven days of 1925 stand at \$2,691,220 as compared with the same week of last year of \$1,812,096.

This record of business is an encouraging sign for 1925 and is in harmony with the numerous assured undertakings which will give local development a very definite impetus during the next few months. It should help to stimulate the public to a better understanding of its op-portunity for community service. For it must know that one of the best forms of work it can put in for the community is one of local loyalty in the simplest forms. It can talk Victoria and work for Victoria. Everybody should make up his or her mind to be optimistic.

There is ample reason for the people of Victoria to be gratified over the prospects which this year Development has commenced in many forms and if the citizens demand that the locality shall go ahead, it will go ahead. It will be just what they make it.

THE EMPIRE TIE

THE LONDON MORNING Post says there is talk in Canada about separating from the Empire, but it does not think there is any likelihood of such a thing happening, although it adds that the policy of the Government is causing some uneasiness" in the Old Country. If The Montreal Star remark that there is talk in England of Great Britain cutting herself off from the Empire, but that it does not think this will happen although the policy of the Government in London causes some uneasiness in Canada, it might strike the average Briton as absurd as the remark of The London Morning Post strikes Canadians.

There is just as little basis for one as there would be for the other. In fact, there is more active interest in the imperial tie among the people of Canada in proportion to population than there is among the people of the United Kingdom. The average Canadian newspaper gives more the average newspaper in London gives to Canadian happenings in a week at the very best, and sometimes

There is less anti-Empire senti-ment in the Dominions than there is in the Old Country judging by the fulminations of the communists across the Atlantic, but in neither one nor the other is there the slightest ground for uneasiness. No doubt the rapidly disappearing little group of centralists in both countries do not like the idea of the supremacy nion affairs, but if they had had it is DIFFICULT TO understand what the Consertheir way the Empire would have been restricted and circumscribed to

ling of settlers upon and after arrival in the Dominion as thorough

as possible. In less than a year Dr. Black has created an effective organization in Great Britain which will un-doubtedly be able to direct to Canada a strong and steady stream of the right kind of people for settlethe right kind of people for settle-ment in the Dominion during this coming Spring. In his new ap-pointment, moreover, Dr. Black will continue to supervise the ac-tivities of the Department of Colonization and Development in Europe, the latter organization, a very successful one to date, convery successful one to date, continuing to function as at present.

Dr. Black declares that a year Britain has convinced him that there are many individuals in towns and cities who were brought up on farms and would like to go back to country life. He can go further and say with equal confi-dence that many of the most successful farmers in Canada to-day never had anything to do with a farm until they came to this country. The world's champion wheat grower for 1924 was a green un from Manchester less than twenty years ago.

LOW FIRE LOSS

DURING ONE OF THE warmest and driest years which Victoria has experienced for some time the fire loss of the city was less than \$50,000. In view of the fact that there were 404 calls made upon the Fire Department, and 115 of them resulted in actual damage, this exceedingly small total of actual loss reflects considerable credit upon the efficiency of this branch of the municipal service.

The comparatively insignificant fire loss for 1924 is not only important as it affects the city in general and the losers in particular. It is of considerable value in proving to fire insurance companies that fire risk in Victoria is down to the minimum-ample justification for the some time ago. The work of the Department in 1924 is also an answer to the doubtful economists who would reduce its efficiency in the mistaken idea that a smaller annual appropriation is actual money

saved. Impairment of vital public services, no matter how much the actual direct cost may be curtailed, is poor business at any price. People would not invest in Victoria if they had any idea that their property was likely to be jeopardized either by lack of police oversight or mere skeleton protection from fire.

MORE SIGNALS WANTED

ON THE STRENGTH OF the old adage that preven-tion is a great deal better than cure it should be good business for the it should be good business for the authorities of the Province to install a few more danger signals for the guidance of motorists at night in both urban and rural localities. News dispatches practically every day contain accounts of accidents at blind and semi-blind corners which might have been avoided had the reflection of a tell-tale signal of some kind warned cars of one an-other's approach in time. It is a matter of all-round protection, involving the safety and risk to h life, and there seems marked need

been restricted and circumscribed to death years ago. The way in which the British Commonwealth bore the pressure of the most disastrous war in history was a perfect vindication of the present system, which ought to reassure the most backward-looking pessimist.

But it is too much to expect that the lesson of the war will count very much with those who use the scarecrow of Empire dissolution as a means of promoting some project of politics or policy in the interests of special privilege. We recall that this buncombe was used freely by protectionists in the recent general election in Britain, while it is a political chestnut in Canada, having done service in almost every contest in this country in the last fifty years.

other Bible heroes had many faults, but all of them were brave men.

Perseus, Theseus, Hercules and others among the Greek mythological figures had much to condemn in them, but all of them were brave. In fact no race of people has apotheosized any man who was not brave.

Paul and Socrates have a good deal to say in praise of love and justice and yet they are both remembered because at critical epochs in their lives they were unafraid.

The young Russian Jew who in his freshman year in college read the "Defence of Socrates" in Greek, said to his instructor: "I came into this class afraid to die. Now I am not afraid."

Courage is contagious. Everyone of us who is hrave in his own sphere communicates bravery to others, Just as fear is contagious and a panic is caused by its spread. We may rest assured that we are doing this hard world some good if we stand squarely on our feet and face manfully whatever events may come.

In the same way, giving way to fear by any of the us does much to deplete the stock of the life force of the world. We should face boldly, not only what evil powers may do to us but the consequences of our actions, which are sometimes worse.

The beginning of the rejuvenation of man, of any reformation, that is worth while, is in the act of defiance.

us, decent hard-working people so
far as I/see, even if some of them
are poor, and there are a lot of
people appealing to municipal

bave them spoon-fed by the organization which is helping them to a
better chance for life in Alberta,
instead of themselves giving the
newcomers a hand and helping
them, in a brotherly und sisterly

Like many other great men of action (Moses, Mahomet and Knox are good examples). Champiain was forty years of age before he found the task for which he had been sent into the world. In 1659, as captain of a ship in the service of Spain, he made his first voyage to the New World. During the two years which this voyage lasted, he visited nearly all the ports of the Spanish colony in the West, learned thoroughly the business of exploring, and showed good sense and judgment in the observations which he set down in his journal. Professor Flenley points of Spain should make a canal through the isthmus of Panama. He was the first to make this practical proposal but it was not accomplished until some three hundred years later.

We have all seen pictures of Champiain, but Profesor Flenley assures us that not one of them is authentic. And in spite of his great fame and the esteem in which he was held by his contemporaries, the was held by his contemporaries, the

SOVIETS SEEKING HELP OF PEASANTS

Concessions to Russian Agrarian Population Made at Moscow Conference

More Active Part in Elections Planned; "Greater Revolutionary Justice"

Moscow, Jan. 9—At an important conference now in progress in the Krelim between Soviet officials and representatives of the peasantry looking to a more complete Sovietization of the villages, wider application of Bolshevism and greater privileges and justice for peasants, it was decided to give the peasantry a more active part in Russian elections, permitting them to name their own candidates as opposed to purely communistic candidates.

Hæreafter, it was decided, whenever thirty per cent or less of the population participates in elections, such electors will be declared null and vold.

The peasants also are to be granted

and void.

The peasants also are to be granted what the Bolsheviks term "greater revolutionary justice" and the opportunity to exercise their free will and instice. They will be given an increasing share in the affairs of the country and an effort will be made to lighten their taxation and other burdens.

SWINGING TO RIGHT

Swinging to Right

Political observers here see in this movement a tendency of the Communist. Party and the Government to swing to the right in order to win the active support of the rural population. Realizing that because of their illiteracy, lack of political consciousness and other reasons, the greater part of the peasantry remains indifferent to Bolshevism, the Government has from time to time sought various formulae for persuading the rural element to adopt the communistic doctrines.

The so-called National Economic Policy was a step in this direction, but the action at the Krelim conference is said to involve wider concessions to the agrarian population than any heretofore granted. It presages, many believe, a distinct departure of the Government from the strict policy or doctrine of Bolshevism which has been in force.

The Government and the Communist Party are said to realize that the success of Bolshevism and the proletarian dictatorship depend ultimately upon political and social contentment and the unity of the

government which gives them own-ership of their own land, accords them good prices for their agricul-tural products and assures them against excessive taxation. THORNTON PREDICTS BIG DEVELOPMENT

ment in yesterday's Times.

Sir John Aird, president of the Canadian Bankers' Association, sees in the continued rise of sterling toward par a hopeful augury for the future of Canadian and world business. The return of the pound to its proper figure would make it easier for Great Britain to find a market for Canada's great wheat exports, while with the resumption of the gold standard, he expects Canada would throw down the bars on the export of gold and openly declare a return to gold payment.

WOMAN'S DOMAIN

Wonderfully Endowed" Says Daily Province Report of Concert

Mrs. Gertrude Huntley Green of cictoria who played before the Van- output of the Van- out

critic, R. J. Jamieson of The Daily Province.

In his critique Mr. Jamieson speaks in the following terms:

"That the remarkable art of Gertrude Huntley Green, the Victoria pianist, has advanced notably during the time that has elapsed since her last recital appearance here, not only in the transcendent powers of her technic, but in the ripening of her interpretative ideas, was clearly demonstrated in the Hotel Vancouver yesterday afternoon when this artist gave a recital before a large gathering of members of the Woman's Musical Club. It was an afternoon of delights and it was apparent that the contributions of the visiting artist created a profound impression.

"It can not be denied that Mrs. Green achieved a noteworthy success. The planist's recent sojourn in Europe, where she has been studying, has unquestionably broadened the artistic and executive vision. Her performance on this occasion left no doubt in this reviewer's mind that she to-day occupies an enviable position among famous women planists now before the public. Analyze the evidence presented by her and there will be no difficulty in arriving at a favorable verdict. The Victoria planiste is wonderfully endowed. She has an alert mentality which she uses with unfailing accuracy in elucidating the mechanical complexities of her art.

From the purely technical point of view she can successfully challenge comparison with any of the keyboard virtuosi heard, here in recent years. And, happily, like many of her contemporaries, Mrs. Green uses her brilliant technical gifts as a means to an end. True, she is distinctly kaleidoscopic in her digital dexterity, but underlying all is the fact that she has at heart the intent of the composer's message. Her playing was outstanding for its delineative character, exquisitely euphonious and limpid, with never a moment of ponderous fortissimos to jar upon the nerves. As a tone colorist, moreover, it can also be said with surely that Mrs. Green arrests critical favor; she understands the secrets of the pedals, and gen 6c 23c

New York, Jan. 10.—Broadwayites believe that this really is Pavlowa's last season. During all the years Pavlowa has danced she has practiced her steps or taken exercises daily. That, to keep from becoming muscle-bound, is a condition that all dancers constantly guard against. It will be interesting to note what will happen to Pavlowa. Will she rapidly take on weight, once she quits the daily grind of exercise? Or will her excellent physical condition keep her young and sylph-like for many years?

Sensational Scene Marks Special Session of Police Board

"It's a lie," blazed out Clerk R. R. F. Sewell of Saanich yesterday afternoon at the Royal Oak Council chamber, when ex-Reeve George Watson was stating to the Saanica Police Commission that the municipal clerk had apologized for omission to prepare certain vitally important minutes in December, 1923. One of the most contentious matters in Saanich politics was under investigation at a special session of the Police Commission. The purchase of a new car for Chief of Police Poter Brogan, with Saanich paying \$325 difference in value between the old and new car was brought to light by the Saanich Central Ratepayers Association early in the year 1924, and became the subject of acrimonious debate as to the expediency of the action.

In the Summer months it was discovered by the Central Ratepayers that no official minutes of the Police Commission were existing in regard to the motor trading, but as at that time ex-Reeve Watson was touring the United States and Canada nothing was done to carry the matter further.

EX-REEVE REVIVES TALK

At a meeting in the Gordon Head fall, early this week, Mr. Watson rought up the matter with a challenge to his successor, to contri-bute \$100 to the Health Centre if bute \$100 to the Health Centre if he could prove a platform assertion that the car had been bought in December of 1923. Mr. Watson forlowed this up with a letter to the commission asking that a special meeting be held to rectify the records of the 1923 commission, wherein is no mention of a special meeting held in Victoria on November 9. The car was exchanged on November 10 and paid for on January 4.

ary 4.

Overruling Reeve Macnicol, Commissioners King and Dempater called the meeting for yesterday afternoon at 4 o'clock, and were immediately met by the ruling of the chairman that any action tending to amend the records would be out of order.

AGREE MEETING HELD

Ex-Reeve Watson then presented a letter in which he stated that on November 9, following a meeting of the Victoria-Saanich Beaches and Parks Committee, in company with Commissioner Dempster, Chief Brogan and Clerk Sewell, he attended a meeting at Mr. Dempster's home in Victoria, whereat it was decided to exchange the Chief's car and pay the difference. This letter was supported by a statement to the same effect, bearing the signatures of all

and tensely asked "Are you making that statement now?"

Mr. Watson replied, "That is my recollection, yes. I have made that statement," and was interrupted again by Mr. Sewell passionately declaring 'It's a lie!" at the same time banging the table resoundingly with the minute book which he had been holding in front of him.

Reeve Macnicol intervened to declare that as long as he was Reeve no municipal official would be used as a tool by an ex-Reeve. Police Commissioner or anyone else, and that he fully believed the assurance of the circk. "You have brought this justified outburst upon yourself, Mr. Watson," he said.

THREE TO ONE

THREE TO ONE

Commissioner Dempster then moved that, in the interests of accuracy, the signed statement and letter describing the meeting of November 9, 1923 be attached to the minutes of that year. Reeve Macricol again declared that course out of order, pointing out that Clerk Sewell had no remembrance of such a gathering. "That makes little difference, there are three of us to tone," countered Commissioner Dempster.

Reeve Macnicol stated that he was quite prepared to believe that the meeting under debate had taken place informally, that there had been a discussion of the ear exchange, and that nothing reprehensible had taken place, "but to come here and try and incriminate a municipal official is a contemptible act." On his suggestion that the documents would be correctly dealt with if received and filled for future reference, Commissioner Dempster acceded to that

The letter sent to the commission by ex-Reeve Watson read as follows: Ex-Reeve Watson's Letter "Gordon Head, Sannich, B.C. "January 8, 1925.

"Gordon Head, Saanich, B.C.
"January 8, 1925."

"Board of Police Commissioners of Saanich Municipality.

"It having been called to my attention that there is no record of a meeting of the Police Commissioners of Saanich of November 9, 1923, I deem it wise to call your attention to this matter. As the records of the proceedings of all municipal bodies are, in my opinion, their most important documents, it is essential that, so far as 4 is humanly possible, they should be absolutely correct. If for any reason an error has crept into these minutes, or business transacted has not been recorded, it is highly important that such error becorrected at the earliest possible moment. Having been absent from the Province during a large part of 1924, I was not able to keep in close touch with public affairs.

"The first intimation I had of there being something missing from the minutes, to which I refer, was a statement made at the council table in the latter part of that year, which had reference to this matter. As this statement was not in accord with the facts of the case, I took occasion at the facts of the case,

weeting at Mr. Dempater's home in Victoria, whereat it was decided to exchange the Chief's car and pay the difference. This letter was not in accord with the according to the same effect, bearing the signatures of all except Clerk. Sewell, and which all asserted their willingness to swear to.

After being asked by formal resolution of the board to give his recolustion of the board to give his recolustion of the board to give his recolustion of the matter, Clerk Sewell and furthermore, that the clerk had stated he knew nothing at all of the meeting on November 9 but did recall a meeting on December 20 which had been held in Victoria following a session of the beaches and parks joint committee.

SLACK METHODS RECALLED

Ex-Reeve Watson then stated that he had no wish to cast reflections on Mr. Sewell as a municipal officer, but recalled that, on a number of occasions, minutes had not been kept up and at times got far behind, necessitating the validating en bloc of the proceedings of many sessions at some distant meeting.

Reeve Macnoficol interrupted to ask if the statement referred to the present clerk or his predecessor, but Mr. watson the meeting, on December 20, Clerk Sewell and the details of the transaction, as the meeting of the commission.

"When we came to the meeting, on December 20, Clerk Sewell arose on the maintenance of the more of the proceedings of many sessions at some distant meetin, on December 20, Clerk Sewell and leading in the commission.

"He last stransacted in the resolution of the beaches and not been kept up and at times got far behind, necessitating the validating on the statement referred to the present clerk or his predecessor, but Mr. watson was continuing, when Clerk Sewell and leading to the processing of the processing of the processing the processing of the processing

m desirous that the records of the ommission be correct, I respectfully equest that you order spread on the inutes the necessary statement, there the evidence that such a meetig took place appears to be so clear. "Respectfully yours," G. F. WATSON."

THE STATEMENT

THE STATEMENT

The signed statement which exReeve Watson refers to in his letter
reads thus:

"At a meeting of the Saanich Police Commission, held on November 9,
1923, at the home of Police Commissioner P. W. Dempster, 1709 Blanshard Street, in the city of Victoria,
there being present Reeve F. G. Watson, P. W. Dempster, police commissioner; R. R. F. Sewell, clerk of the
police commission, and Peter Brogan,
chief of police, the following resolution was moved and adopted:

"That the Reeve, F. G. Watson,
be authorized to look into and purchase a Ford automobile to replace
the one then in use by the chief of
police. (Signed)

"G. F. WATSON,
"Reeve."

"P. W. DEMPSTER.

In Vicious Gale;

Houston, Tex., Jan. 2.—The motorship Deering, with her commander, Captain E. E. Balley, and six members of her crew, went down fifty miles off the coast of Frontera, Mexico, December 27, being the victim of one of the most turbulent gulf storms which ever swept those waters, according to information brought here by Don Tompkins, tugboat engineer for the Sinclair Oil Company.

WILL SHORTLY ENTER PACIFIC SERVICE

Ms. AORANGI

This is the latest photograph of the splendid new motorship which will operate in the service of the Canadian-Australasian Line, between Sydney and Victoria, and which will be in this port before many weeks have elapsed. She will replace the old Makura in the Pacific trade, and with the Niagara will maintain the schedule of the Canadian-Australasian Line.

TRIP FROM SOUTH

Made Trip Here From Sydney in 22 Days; Carried Good List of Passengers

Experiencing rough weather at various times during the 6,000 odd miles traversed by water from Sydney to Victoria, which former port she left on December 18, the Royal Mail Steamship Niagara, of the Canadian-Australasian line, docked here this morning at about 7 o'clock after buffeting the great rollers of the Pacific for many days. Her passenger list was an average one for the time of year and her freight consignments for the mainland were heavy. Thirty passengers left the ship at this port.

When several days from this port the ship ran into a stiff gale. The run between Suva and Honolulu was also rough.

But the vessel made excellent time to this port despite stormy weather. She required only twenty-two days to make the trip, including the various delays in ports of call en route.

The Niagara is at the present mo-

route.

The Niagara is at the present moment the largest and finest of all ships plying between Canadian and Australian ports, and it has been recognized as the queen ship of this great fleet for many years. But the coming of the Aorangi, the immense new motorship which enters the same service shortly, will force the older liner to take second place. The Aorangi will be granted the laurels of the "queenship" and all the honors that go with it, and the

Liner to Refit

Seattle, Jan. 9.—A contract for reconditioning the American Oriental Mail Line steamship President Jefferson was awarded by the United States Shipping Board here yesterday to Todd Drydocks, Inc., of Seattle! The bid was approximately \$135,000. On the arrival of the steamship President Grant next week, bids are to be asked for reconditioning that vessel. The steamship President McKinley also is being repaired by the Todd company.

Niagara will step down from her eminence. Formerly the Niagara and Makura operated in the Canadian-Australasian service, but the latter ship will make but one more trip to this port. After that she will go to a different run, and the Aorangi and the Niagara will continue to operate on the Pacific.

SAN FRANCISCO SHIPPING

San Francisco, Jan. 9.—The tanker Hawaiian Standard, a motorship constructed for the Standard Oil Company, was launched here yesterday at the Bethlehem Shipbuilding Corporation plant. The vessel, which has a capacity of 9,000 barrels of oil, is to be used in the inter-island service in the Hawaiian Islands.

Completely dirmantled and ready for the trip south, the barkentine Lahaina, which was purchased recently by A. C., which was purchased recently by A. C., Roigh Company here will be to will be southed an Pedro the first of next week. The vessel will be used as a barge for fishing parties and will be anchored in San Pedro's outer harbor.

Carrying a number of passengers the Ginyo Marru, which caught fire the coast of Mexico a few days ago, t steamship City of San Francisco scheduled to arrive here to-day.

Minister of Justice For New South Wales En Route to

Immediately following the proregation of the New South Wales Legislative Assembly Hon, T. J. Ley, Minister of Justice for New South Wales, seized the opportunity to take a heaith tour. He arrived here this morning on the liner Niagara from Sydney, and proceeded to Vancouver, en route to California, where he will recuperate. Mr. Ley, who in private life is managing director of the well-known firm of Sydney solicitors. Norton, Smith and Company, brought a letter of introduction to Hon. William Sloan from his chief, Sir George Fuller.

Sir George assured Mr. Ley of the warm welcome he would receive, based on the recent visit of the State Premier to British Columbia, and Mr. Sloan perhonally welcomed the visitor.

Mr. Ley spoke briefly on the state of New South Wales politics, but indicated hel absolutely declined to address any meetings on this tour, on medical advise.

Sagadahoc Taking 1,000,000 Feet Here; Tatjana Has Left For Mainland

The new year is starting in encouraging for local lumber men. A second ship within a few days is now loading timber at this port. The Sagadahoc is at Rithet's plers taking on a million feet for New York and other Atlantic seaboard points.

The Tatjana has left for Vancouver to complete a capacity cargo of lumber; also for the Atlantic seaboard. The American market is the best for Western Canadian mills that offers at the present time. The Oriental, Australian and United Kingdom markets are fairly quiet. But the Eastern American orders still keep local mills fairly busy.

Victoria mills expect to see a pickup of business which will assist in the development of the city and the Island.

Had Good Voyage

Ss. Emma Alexander, of the Pacific Steamship Company, arrived here from the south at 12 o'clock last night. The voyage north was unusually fine for the time of year, as the sea was calm and winds prevailed from the southeast, assisting rather than impeding the progress of the ship. The vessel carried a good passenger list and several members disembarked here. After a stop of about an hour at this port the Emma proceeded on her way to Seattle, where the remainder of the passengers left the ship, and preparations for her voyage south will be made. She will leave this port again on Sunday at 9 o'clock in the morning.

Francisco Perez is Accused of

Mexico City, Jan. 9—Francisco
Perez, alleged to be the third of the
assassins of Mrs. Rosaile Evans, has
been captured by police, according to
dispatches from Huejolzingo, Puebla.
Mrs. Evans, United States born
widow of a British subject, was
killed last August near her hacienda
in the State, of Puebla.

Perez will be taken to Puebla for
trial. The death septence is expected, the dispatches say.

Alejo Garcia and Francisco Ruiz
were sentenced to death in November for their part in the murder of
Mrs. Evans. The crime followed a
controversy between Mrs. Evans and
the Mexican Government over efforts
to confiscate her hacienda. It resulted in the Mexican Governmeni
obtaining the recall of the British
Charge d'Affaires, Howard Cummins. Better Demonstration Quarters Are Under Consideration

Vice-president A. T. Goward of the B.C. Electric Railway announced to-day that the development of the Victoria Gas Company, a subsidiary corporation of the Street Railway, would keep pace with the large investments made therein, as was being done with the Vancouver Gas Company, its affiliate company on the Lower Mainland.

First came the new gas plant here, now the company is building a large gas holder for increasing reservoir capacity, and then will follow enlarged mains, such as is now under construction on Humboldt Street. Mr. Goward pointed out that the mileage of mains had been greatly increased since the B.C. Electric acquired the interests of the old gas company, and the company had now 54.5 miles of mains in and around Victoria. The Island plant has a capacity of 1,000,000 cubic feet, and the handicap which has hitherto existed in reservoir capacity at the peak periods will be remedied when the new holder goes into service.

Mr. Goward stated that the company's block on Pandora Avenue, formerly used for an interurban depot may be brought into greater use, as the company has under consideration plans for using the ground floor for a gas demonstration headquarters.

Plent Prebyterian Church, New J. Ministry Patterson of St. Paul's Smith Patterson of St. Paul's

Gonzales, counsel for defendantrespondent, yet to be heard.

JUDGMENT RESERVED

At the close of further argument in the appeal of Cameron vs. Duncan City this morning judgment was reserved. H. A. Maclean, K.C., counsel for the appellant corporation, claimed \$34,879 had been paid over to the respondent for the waterworks contract, and that at the most \$3,940 was the balance outstanding.

A. D. Crease, appearing for E. C. Mayers, counsel for respondent, today, agreed to settle with Mr. Maclean the figures in dispute in the lean the figures in dispute in the case. Respondent claims a balance due in the sum of approximately \$7,870.

Barrieau vs. Gorge Motor Bus (Company; Cox vs. Hogan; Richards vs. Hunning are on the peremptor) list.

Continuing yesterday afternoon, Mr. Mayers held that the respondent was not responsible to the city of Duncan for the operation of any work he was asked to execute to their specifications. It had been held, he said, that the vendor of a manufactured article-was not responsible to the purchaser for the suitability of his product for the purpose of its buyer.

An English contract had called for machinery to perform certain work.

of his product for the purpose of its buyer.

An English contract had called for machinery to perform certain work he stated, specifying the type of machine required and making it a condition that it be made to the satisfaction of the purchaser. The equipment was made and delivered but would not work in the purpose to which it was put.

The courts held, upon claim for dämages in that case that the manufacturer had fulfilled his mission and could not be held liable for the acts of purchaser in buying what was unsuitable to his needs. In the case at bar respondent could not be held liable for the failure of appellant's plan to work, but had fulfilled the specifications to the letter, said Mr.

Mayers. INTER-ALLIED DEBTS

Thrilling Encounter is Expected at Arena To-morrow Night; Cook Also in Shape

Fraser's Knee is Mending Nicely But He is Not Likely to Start in Game

Newsy Lalonde, one of Can ada's most outstanding athletes is coming along with the Saska

For a time it was doubtful whether or not this colorful player would accompany his club on the trip to the coast. According to the Saskatoon reports cording to the Saskatoon reports of the Regina game last week one would have thought Lalonde and Bill Cook, his star forward, had enough injuries to keep them in bed for two years. That Saskatoon greatly exaggerated the "rough stuff" that was put over in the game is evidenced by the fact that Cook played against Regina on Wednesday night and that Lalonde is coming westward. The Sheiks lost that game and it seems as though the injuries

Shakes Off Headlocks of "Strangler;" Lewis' 225 Pounds Hurled Out of Ring

Kansas City, Mo., Jan. 9.—An erstwhile university football player who tried boxing but could not stand up against the punches and whose knowledge of the technique of grappling is that of a novice, is the new wearer of the world's heavyweight wrestling belt.

He is Wayne "Big" Mun, a youth who, by his prodigious bulk and strength, last night threw off the fearful headlocks of the veteran Ed "Strangler" Lewis and crushed him into submission. into submission.

Lewis to-day is in a local hospital suffering injuries to his back, a new experience for the "Strangler," who, in his long mat career, has seriously hurt many opponents with his famous headlock.

Sixty-four Teams Compete In First Round of Cup Tie

Draw For To-morrow's Games in England Bring Together Strange Bedfellows

Newcastle, Cup-holders, Said to Have Snap; Villa, Runners-up, Meets Portvale

London, Jan. 9 (Canadian Press Cable)—For the next few days, league football is totally celipsed and in its place there looms the great annual struggle of Great Britain's football year the English Cup. Almost a hallowed institution, and a ven-

hallowed institution, and a venerable one, for the cup play was founded as a yearly tournament feature as far back as 1871, the trophy represents to football fans all over the world what the Epsom Derby means to followers of fiat racing.

Interest in the games have never been keener than this year and the first round, scheduled to be played off on Saturday, has already produced the customary crop of prophets. Sixty-four teams will engage in the opening tussles—24 less than the number comprising the leagues. The draw has brought together curious bedfellows: First Division clubs, who will be hard put at the end of the season to save themselves from application for reinstatement; the Corinthian amateurs who toured Canada last Summer, and who came so badly out of their tilts with Canadian amateurs, pitted against such seasoned fighters as Sheffield United; and clubs who are running neck and neck in the same league, having a titanic battle all their own. These are the titbits offered in the first round on Saturday.

Newcastle HAS A SNAP

Newcastle United are the present cupholders, having defeated Aston Villa last season at Wembley. In their initial encounter they are drawn against their much lowlier neighbors, Hartilepool. This latter club adorns the bottom rungs of the ladder in the Northern Section of the Third Division. Experts say that Newcastle has a "snap in their first round."

The severific thud and the chamion rolled to the concrete floor.

Chaon ensued. The crowed
itormed at the platform but a large
lettail of police held back the frenried fans.

Reforce Walter Bates, a veteran
arbiter, announced' the fall was
awarded to Lewis on a foul. Bates

The King of Wild Horses," which thrilled and entertained yesterday's audiences at the Columbia Theater, where the Pathepicture remains until Saturday contains a plot with a villian and a love affair, but the people and their doings are merely a background against which is played out the capture and winning of The Black, king of the wild horses, by Leon Barry, the cowboy hero of the play.

The Black is a magnificent stallion, and a short time ago was the undecated leader of a band of wild

Leo White, who has a dress suit to money role in the all star cast of "Wine." now showing at the Capitol Theatre, Universal-Jewel screen version of the story by the same name written by William MacHarg, has had a wide experience in laughing through situations; he has to do that in "Wine" when a prohibition enforcement officer deprives him of torbidden cheer.

Madrid, the capital of Spain, in which the colorful action of "A Wife's Romance," now playing at the Playhouse Theatre, is laid, was at one time the real centre of the world. To-day Madrid is still a centre of activity, but while it has lost none of its color and picturesqueness, life there is at a much slower tempo than once upon a time. "A Wife's Romance" lives the very easence of Spain, its warmth of color, its peaceful life—suddenly broken by a thunderous climax—like a flery rain of love and ashes. "A Wife's Romance" is under the direction of Thomas Heffron. The adaptation of the novel, "La Rubia," by H. W. Roberts, for the screen was completed by Frank Beresford. Art direction by Joseph C, Wright, and it was photographed by Charles Riehardson. "A Wife's Romance" is a Harry Garson production distributed by Metro Pictures Corporation.

The pretty and attractive young actress has played featured roles under the direction of D. W. Griffith, Marshall Neilan Wesley Ruggles, Jerome Storm, Allen Holubar, King Vidor, Tom Foreman, Rupert Hughes and Frank Borrage.

Although she is one of the youngest actresses on the screen, she began her career at the age of sixteen and has during the past two years climbed very steadily up the ladder of success, her spectacular rise placing her in the list of the youngest stars, toward whom the eyes of the fans are turning for their screen entertainment.

Last Minute News on Stocks and Financial Affairs

STRONG MARKET CONTINUES: TRADE RETURNS IMPROVE

New York, N.Y.. Jan. 9. (By R. P. Clark & Co. Ltd.)—Dealings were on a large scale to-day and pretty well distributed throughout the list. Price gains were registered in a majority of the issues and it was observed that quite a little shifting of bullish activities from one group to another was still a prominent feature. The equipment stocks were prominently strong today. Undoubtedly quite a little sharing in being attracted for some time back in the process of which growing demands will, in all likelihood, be imposed on the working operations of the equipment companies. A change of sentiment with respect to the oil shares seems to be developins, although in view of the A. P. I. production foreigners of to-day which showed a silght increase for the week as compared to the Oil City Derrick figures of yesterday which showed a sharp decrease, there naturally was a little disappointment. Persistent buying of Southern Pacific is based on the firm belief in some quarters that dividend will increase at the next meeting scheduled for February 13. Lead metal sold at the highest price recorded since 1917. In the late afternoon trading the market seemed to be working in opposing directions, some specialities showing fresh strength while the general run of standard rail and industrial issues seemed to be encountering freer offerings. As yet there are no signs of the buil market having culminated but there does seem to be a little more opposition to price advances in stocks where a marked degree of buoyancy has been in evidence which may represent the realizing of profits by probably important interests.

stocks where a marked degree of buoyancy has been in evidence which may represent the realizing of profits by probably important interests.

New York, Jan. 9 (By B.C. Bond Corporation). — The Wall Street Journal, stock market edition, this afternoon says:

Stocks maintained a vigorous upward course in to-day's session. With the exception of weakness in the motors, the general list was almost uniformly buoyant and further substantial advances were recorded.

Probably the most important factor in the day's bullish displays was the impressive showing set forth in the weekly Federal Reserve statement. Rediscounts of the system decreased \$49,700,009 in the last week, motivith standing, the supid-capsaison taking place in the steel industry and mercantile lines. This fresh evidence of the plentiful signs of propertity recarding to those entertaining bullish views. Sears-Received, continued to head the upswing among the merchandising shares, reaching its best price since, 120 at 155. Montgomery Ward was also active around the highest levels of the current advance, selling at 522. Competition between Sears-Roebuck and Montgomery Ward is sharper than lower. Rock Island assumed the leadership of the medium priced rails, advancing to new hish ground on the present movement at 48 3-8. Developments with regard to its proposed arrangement with Southern Pacific are expected in the near future. Federal Reserve Board in review of changes in conditions of reporting members' banks in leading cities for 1924, show loans and investments increased nearly \$2,000,000,000, demand deposits \$1,500,000 Members' borrowings at the Federal Reserve banks decreased during the year \$380,000,000. Loans and discounts of all reporting member banks, which stood at \$12,067,000,000 on January 2, 1924, remained substantially stable at about \$12,000,000,000 until the middle of July and then increased gradually to \$13,006,000,000 on December 31, the maximum figure, ever before reported.

Tacoma, Jan. 9.—The Pacific Steamship Company is making plans for the greatest year in its history according to announcement by President H. F. Alexander in reviewing the progress of the company during the past year. Mr. Alexander says:

"We are building for 1925 upon the fact that general business conditions on the coast are better and should remain better than during a large part of 1924; that our passenger business should benefit tremendously from the 125 conventions on the coast, three—the Elks at Portland, Knights Templar in Seattle and the Shrine in Los Angeles—being especially large; and also because of the new direct line fares which since to travel from Chicago. St. Paul, Minneapolis, Duluth and other west to travel from Chicago. St. Paul, Minneapolis, Duluth and other west of Mississippi points to San Francisco, Los Angeles and San Diego by at the same cost as the direct fare. "The first unit of our terminal at Seattle is expected to be ready for hammen as wing in the cost of handing freight, reduce our outlay for rental of offices and piers and in addition give us a source of considerable income. "Although our records for the full year of 1924 have not been completed, we believe they will probably show the best year in revenue the Pacific Steamship Company has ever had."

MILING DEMAND

FOR WHEAT BETTER

Chicago, Jan. 9 (By R. P. Clark Leased Wire)—The Chicago Tribune to-day says:

There is a little change in the

revival in demand for oats being a factor in the grain, basis on low grade cash corn was firmer.

Export demand for wheat at the seaboard was relatively slow. Italy took some Durum and sales in all positions for the day were estimated at 200,000 bushels.

France was reported to have resold 400,000 to exporters at 4½ to 5 below replacement basis. The Canadian wheat pool was said to have sold a line of low grade Manitoba to both France and Italy at a relatively low price. Around 20,000 barrels of Canadian flour were sold to Scandinavia.

THE MARRIAGE SCALES

SERIAL STORY

By MILDRED BARBOUR

"I say, honey, you look a bit done up this morning," Charles remarked over the breakfast table.

He scrutinized Mariana anxiously. She shrugged a petulant shoulder, went on pouring his coffee.

"You really shouldn't take three lumps," she murmured. "What's the use of dieting until the new chef gives notice that he won't cook rare roast beef and spinach every day for the cook in the cook in the guise of coffee!"

"Never mind about me for awhile."

Flettner is reticent about his plans to utilize wind power on land, saying only that within a year he hopes to exhibit models which will enable irrigation plants, factories and municipalities to take power directly from the wind through the use of the discoveries he has worked out in his atudy of air currents and their effect upon revolving towers. Towers for use on land will be high, as the constant winds are far above the earth's surface. Flettner is confident that eventually there will be a great saving of fuel through the use of air currents.

The inventor declares, also that small sailboats of all kinds, including pleasure craft, can be fitted with one rotating tower that will propel them successfully on rivers, bays and

BEDTIME STORY

Uncle Wiggily and the Icicles

Copyright, 1925, by McClure News-paper Syndicate

(By Howard R. Garis)

Uncle Wiggily one day laughed out leud. Not that he didn't often do this, for he was a jolly old rabbit, if I do say so myself, and he often chuckled with giee. But this time he was reading the morning paper in his hollow stump bungalow when he happened to laugh out loud.

"Did you see something funny in the paper?" asked Nurse Jane Fuzzy Wuxzy, who was getting ready to put chocolafe leing on the fish cakes that would soon be baking for dinner.

"No nothing funny in the paper," laughed the bunny. "But I saw something else that made me laugh." Nurse Jane happened to notice that as Mr. Longears said this he was looking out of the window. And from the low roof of the bungalow hung down a number of long, thin iccles. For the snow on the roof had melted during the day. But at night Jack Frost had blown his cold breath and the dripping water had turned into iccles.

"Well. I don't see anything very funny about iccles," spoke the muskrat lady housekeeper and a sniff as she began to read the paper.

"You don't see what I see!" and again Uncle Wiggily laughed aloud.

"Well, if you aren't going to tell me I'm not going to try guess."

Benefits may result if affairs be carefully handled, the lady duck." And, having finished putting cysters in the clam chowder, Nurse Jane left the hollow stump bungalow.

"Now for some fun!" laughed Uncle Wiggily. "Til turn those icicles into make-believe sticks of candy. The animal children win, soon be coming home from school. They'll see the sticks of icicle candy and they'll rush over to break them off. But after I laugh I'll buy the children some real sticks of candy so it will be all right."

No sooner said than done. Going into the pantry, Uncle Wiggily got some of the icicles, making them look like sticks of pink candy. Then be put raspberry jam on still other icicles hanging from the low roof, making them look like sticks of pink candy. Then he put raspberry jam on still other icicles hanging from the low roof, making them look like sticks of candy. Trustee G. F. Watson Thinks Development Some what Anticipated Needs

With Interments Proceeding at Ross Bay, Burials at Park Are Limited

That the interments at Royal Oak will not be large until the number of funerals at Ross Bay Cemetery is less than at present, owing to numerous burials there in family graves, is the statement of Trustee G. F. Watson, chairman of the greater Vic-toria Cemetery Board, at the annual meeting held this morn-

toria Cemetery Board, at the annual meeting held this morning.

Mr. Watson pointed out that the board hastened a large development area at the new burial park under the impression that Ross Bay cemetery was almost ready for abandonment, as a burial ground, but experience had shown otherwise. This initial liability has compelled the board to provide a larger sum for fixed charges than should have been the case, had the facts before the edy and Saanich councils been better understood when the present project was undertaken, he considers.

His report says in part:

"There were \$8 graves sold in 1924, in 61 of which interments have been made and 27 are held in reserve. The revenue from the sale of these graves amounted to \$3,674.05, to which should be added the sum of \$500 paid as a deposit by the Anglican Synod for the reservation of the whole of Section 'E'. The total number of graves sold up to 31st December 1924 is \$7, thirty of which are reserved and 67 interments have been made. As a comparison it might be noted that there were 438 interments in Ross Bay Cemetery during the year 1924.

"Two large reservations were made during the year 1924.

"A commencement was made on the building of a house for the superintendent, in the month of November and good progress is being made. The contract price for this work is \$2,720, and the contractor (Mr. Lindmay) has already received \$1,000 on account.

"No further development has been undertaken this year as it is evident that the portion of the park already developed will take care of all the requirements of the district for some time to come. In this connection, I cannot refrain from commenting that misleading information was published a year or two ago, regarding the immediate necessity for a new cemetery.
"As you are aware, statements were made from time to time that Ross Bay Cemetery was practically full and I cannot help but think, that if it had been realized that such a large number of interments were still possible at Ross Bay Cemetery, consideration might have been given to some suspension of the development of some suspension of the development of the surface of the such as the such a large number of the development of the surface of the surface of the development of the surface of the sur

FINANCES.

"I beg to state that the necessary amount, \$2,200, has been credited to the coupon account to take care of the interest accruing due on the 1st January 1925. The sum of \$1,436,90 has also been placed to the credit of 'Sinking Fund Account' as required by law. There is now \$4,196,35 in this sinking fund account and it might be advisable to obtain an investment for this amount which will yield a higher rate-of interest than is paid by the bank. I also have to report that the required amount has been credited to a 'Maintenance Fund'—this fund being created under the Act for the perpetual maintenance of the burial park, after all graves are sold. There is mow to the credit of this fund the sum of \$291, which is the statutory amount due for all graves sold, up to and including December 31, 1924.
