INTRODUCTION

1. The following maps and comments are a selected overall summary of the principal map sets which are concerned with the Far East. It is in no sense a definitive listing.

2. It is designed to acquaint users with material available and printed in quantity sufficient for wide distribution.

3. It lists both sets projected - partially finished - completed.

4. It does not list specialized maps or well-known small scale 1:3,000,000, 1:5,000,000 outline or long range navigation charts.

5. It does not list published maps which are not available through either Army Map Service, The AAF Aeronautical Chart Service, AC/AS, Intelligence, Joint Target Group, Distribution Sub-Section or the U.S. Hydrographic Office.

6. The selections are based on general overall utility.

7. Further selection should be made from specific indices published by the above agencies.

8. It confines itself primarily with existing 1944 Japanese occupied areas.

9. Note: G.S.G.S. signifies Geographical Section General Staff, War Office London.

AMS signifies Army Map Service, Corps of Engineers, U.S. Army Washington, D. C.

Where G.S.G.S. publications are listed the sheets are available through the AMS.

10. The number following the agency - viz. AMS 5301 is the code number for the complete set. Ordering should be done by specific sheet and sheet number to be found in published indices of the agency.

11. Target Charts and Target Area Bases are listed under separate sections.

12. Hydrographic Charts and captured charts (reissued) are not listed.

13. Especial attention should be given to thoroughly reading the section on Japan as much of the material is repetitious of the comments in this section.

14. Note: Map samples are cut out portion of original maps.

15. Note: Blank areas on text pages to follow are left as a convenience for the reader to make notes.

I Target Information

TARGET AREA BASES

Target Area Bases are a series of 1:75,000 base map film posities. Each base is 20' x 30' - six (6) bases to one full degree of latitude and longitude. They are distributed through AC/AS, Intelligence, Joint Target Group, Distribution Sub-Section. They are sent out in tubes - each tube containing a black and white composite proof and five (5) color separation film positives. This includes a target information plate bearing target numbers, names, location and outline plus marginal information. These bases are compiled from the best available sources and are designed to offer field units a base for the printing of target charts in any desired format after being corrected from field intelligence. As information becomes available corrected editions of individual plates (or positives) are distributed. This program is still in process. When finished, Japan Proper will have complete coverage. Selected strategic areas in Manchuria and Korea have been covered. The bases are designed to be used by joining contiguous sheets to afford such coverage as is desired.

Target names, numbers and outlines conform to Air Objective Folders and in revision to Target Information Sheets currently published by AC/AS, Intelligence, Joint Target Group.

The flexibility of this material is illustrated on the following page. The drafting is such as to allow reduction in scale when greater coverage is desired.

These bases also may be employed as sources for flak maps.

Indexes of Target Area Bases completed as of January 1945 follows coverage diagram.

SERIES DESCRIPTION

TYPE 5 color-separation film positives of each map drafted according to standard AAF specifications.

FORMAT 20 minutes x 30 minutes, no neat line.

CHARACTERISTICS 1. Target Information Plate - target numbers, names, outline legend, marginal data. 2. Black Plate - railroads, double track, single track, narrow gauge (selected), names; transliteration of principal and / or target cities conforms to Modified Hepburn (Romaji) system. 3. Grey Plate - town areas. 4. Brown Plate - Roads, primary, secondary (selected). 5. Blue Plate - hydrography. All plates bear coordinates, sheet number, plate designation.

Tokyo-Shibaura Electric Co., Oguni Plant	1664	38139-6
Toyomi Hydro Plant	1589	37139-2
Tsugami-Atagi Mfg. Co.	1656	37138-4

SERIES DESCRIPTION

TYPE 5 color-separation film positives of each map drafted according to standard AAF specifications.

FORMAT 20 minutes x 30 minutes, no neat line.

CHARACTERISTICS 1. Target Information Plate - target numbers, names, outline legend, marginal data. 2. Black Plate - railroads, double track, single track, narrow gauge (selected), names; transliteration of principal and / or target cities conforms to Modified Hepburn (Romaji) system. 3. Grey Plate - town areas. 4. Brown Plate - Roads, primary, secondary (selected). 5. Blue Plate - hydrography. All plates bear coordinates, sheet number, plate designation.

SERIES DESCRIPTION

TYPE 5 color-separation film positives of each map drafted according to standard AAF specifications.

FORMAT 20 minutes x 30 minutes, no neat line.

CHARACTERISTICS 1. Target Information Plate - target numbers, names, outline legend, marginal data. 2. Black Plate, - railroads, double track, single track, narrow gauge (selected), names; transliteration of principal and/or target cities conforms to Modified Hepburn (Romaji) system. 3. Grey Plate - town areas. 4. Brown Plate - Roads, primary, secondary (selected). 5. Blue Plate - hydrography. All plates bear coordinates, sheet number, plate designation.

SOURCES 1:50,000 Japanese Imperial Land Survey 1918-1938
1:200,000 Japanese Imperial Land Survey 1918-1938
1:250,000 A.M.S. L561, 1943
1:50,000 A.M.S. L764, 1944
Various Japanese, British, USHO charts. Other sources of intelligence data to May 1944.

RELIABILITY Various and consistent with sources listed on Target Information Plate.

SERIES DESCRIPTION

TYPE 5 color-separation film positives of each map drafted according to standard AAF specifications.

FORMAT 20 minutes x 30 minutes, no neat line.

CHARACTERISTICS 1. Target Information Plate - target numbers, names, outline legend, marginal data. 2. Black Plate - railroads, double track, single track, narrow gauge (selected), names; transliteration of principal and / or target cities conforms to Modified Hepburn (Romaji) system. 3. Grey Plate - town areas. 4. Brown Plate - Roads, primary, secondary (selected). 5. Blue Plate - hydrography. All plates bear coordinates, sheet number, plate designation.

U. S. RESTRICTED Equals British RESTRICTED

SERIES DESCRIPTION

TYPE 5 color-separation film positives of each map drafted according to standard AAF specifications.

FORMAT 20 minutes x 30 minutes, no neat line.

CHARACTERISTICS 1. Target Information Plate - target numbers, names, outline legend, marginal data. 2. Black Plate - railroads, double track, single track, narrow gauge (selected), names; transliteration of principal and / or target cities conforms to Modified Hepburn (Romaji) system. 3. Grey Plate - town areas. 4. Brown Plate - Roads, primary, secondary (selected). 5. Blue Plate - hydrography. All plates bear coordinates, sheet number, plate designation.

U. S. RESTRICTED

Equals British RESTRICTED

SERIES DESCRIPTION

TYPE 5 color-separation film positives of each map drafted according to standard AAF specifications.

FORMAT 20 minutes x 30 minutes, no neat line.

CHARACTERISTICS 1. Target Information Plate - target numbers, names, outline, legend, marginal data. 2. Black Plate - railroads, double track, single track, narrow gauge, place names; transliteration of principal and/or target cities conforms to: Chinese by Wade-Giles, Japanese by Modified Hepburn (Romaji), Korean by McCune-Reischauer Mongol in transliterated Chinese or Japanese equivalent. 3. Grey Plate - town areas. 4. Brown Plate - Roads, primary, secondary (selected). 5. Blue Plate - hydrography. All plates bear coordinates, sheet number, plate designation.

SOURCES Japanese Imperial Land Survey 1:100,000, 1:50,000, 1930-1939.
AMS L401, 1:500,000, 1944.
Japanese and US HO charts to 1941.
Various small scale maps. Other sources of intelligence to June 1944

RELIABILITY Various and consistent with sources listed on Target Information Plate.

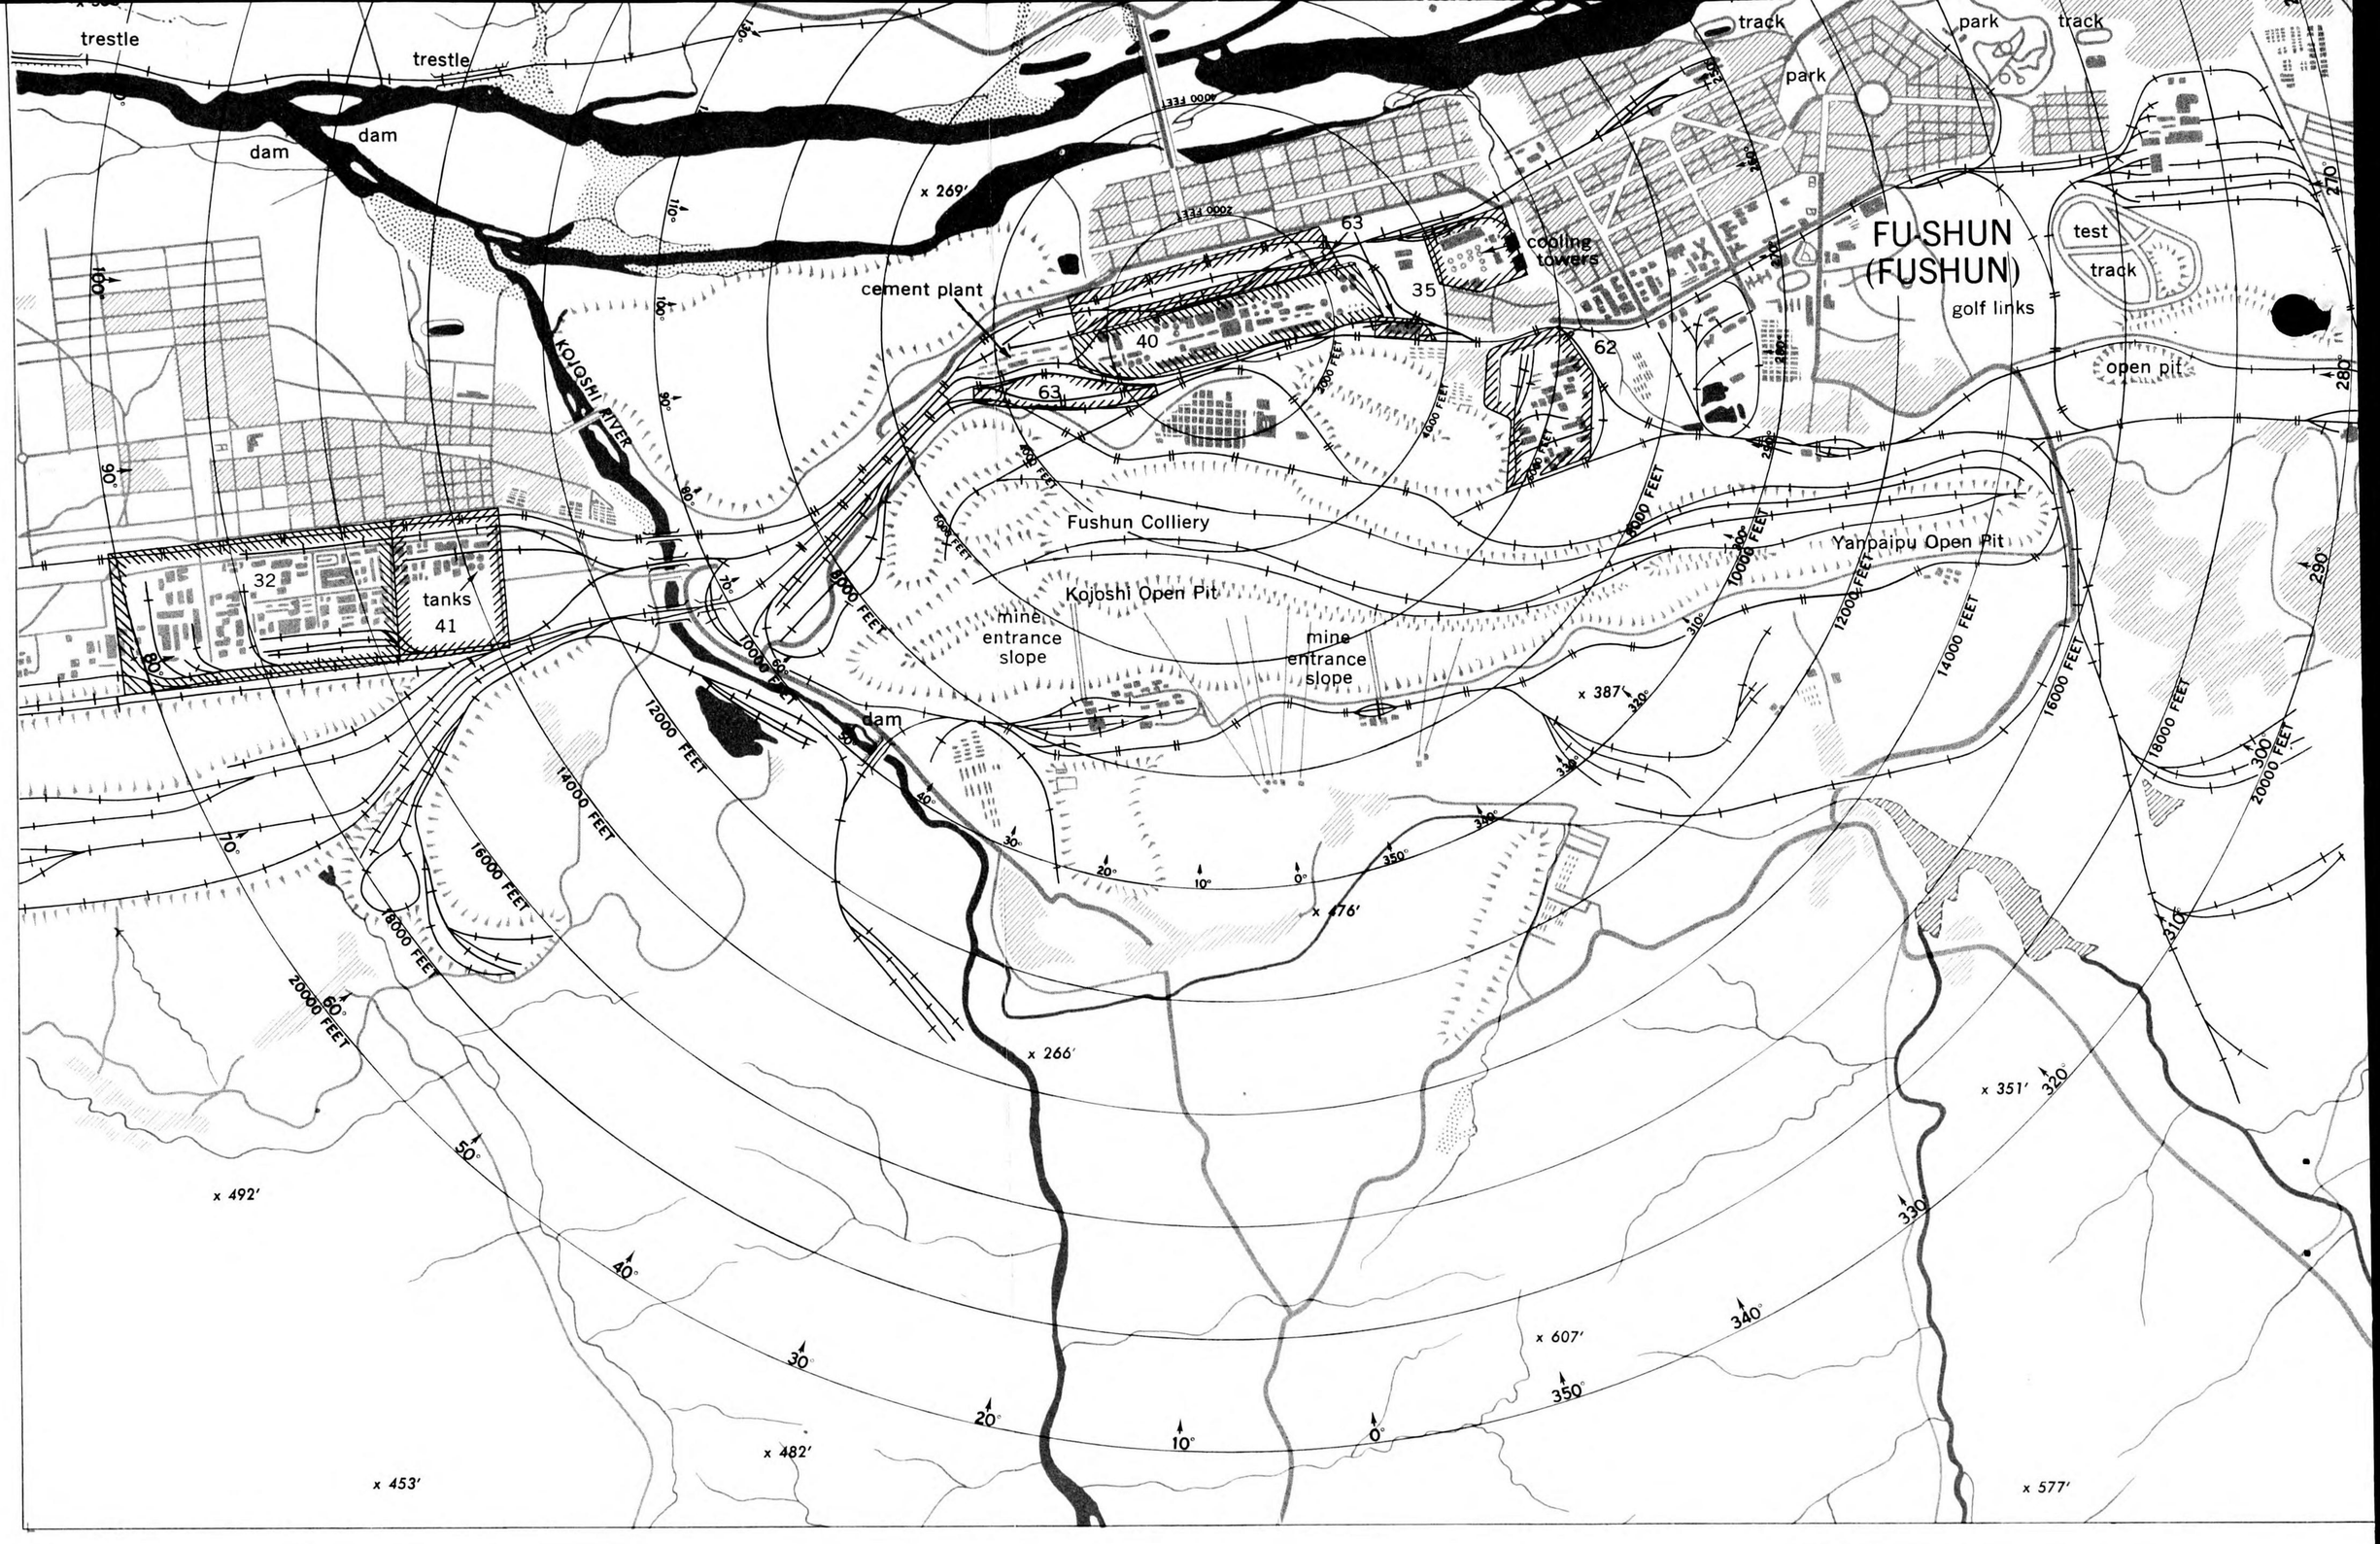
TARGET CHARTS

AAF

Over one thousand target charts have been published on the Far East by AC/AS, Intelligence. These have gone through various editions and revisions. At the present time they have been reduced to approximately 88 key target charts. They have an approach side at the scale of 1:180,000, and a reverse or back-up of 1:36,000, and are accompanied with perspectives on selected headings.

Navy

Navy (8" x 8"). The Hydrographic Office, Washington, D.C. has printed a series of Target Charts so called "8x8s". These bear the same target numbers as the AAF target charts and Target Area Bases. The scales are various.



AAF TC 93.3-40

TARGET NUMBER	TARGET DESIGNATION	TARGET ELEVATION
	TARGETS LYING WITHIN 4 MILES OF CENTER OF CHART	
40	SMR Shale Oil Plant	280′
32	Manchuria Light Metals Co., Fushun Plant	280′
35	Taikanton Steam Power Plants	280′
41	SMR Coal Liquefaction Plant	280′
62	SMR Sulphuric Acid Plant	280′
63	Fushun Railroad Yards and Repair Shops	280′

TARGET LOCATIONS ON THIS CHART ARE CORRECT. THESE LOCATIONS SUPERSEDE THOSE SHOWN IN AIR OBJECTIVE FOLDER 93.1, .2, .3, .4, .5 DATED JULY 31, 1944

COMPASS ROSE INDICATES MAGNETIC BEARING TOWARD THE TARGET.

THIS CHART IS PREPARED FOR USE IN DAYLIGHT, UNDER WHITE, ULTRA-VIOLET, RED, AND AMBER LIGHT.

THE ONLY TARGET APPEARING UPON THIS SIDE OF THIS CHART IS TARGET NO. **40** , ON WHICH THE CHART IS CENTERED. OTHER PRINCIPAL TARGETS WITHIN A FOUR MILE RADIUS ARE SHOWN ON THE LARGE SCALE CHART ON THE REVERSE SIDE AND MAY BE PLOTTED HEREON, AS DESIRED, BY MAKING REFERENCE TO DETAIL OR DISTANCE AND BEARING FROM THE SAME CENTER TARGET AS SHOWN ON THE REVERSE SIDE.

TARGETS AND OBJECTIVE AREAS ARE NUMBERED FROM ONE TO INFINITY WITHIN EACH COUNTRY. THESE NUMBERS ARE COMBINED INTO CODE SHOWING THE COUNTRY, OBJECTIVE AREA, AND TARGET. FOR EXAMPLE, 81.1-5 INDICATES BRITISH PACIFIC ISLANDS (81), BORNEO NORTH AREA (1), AND TARGET 5, BRITISH PACIFIC ISLANDS SERIES. TARGET NUMBERS BEAR NO RELATION TO LOCATION WITHIN COUNTRY OR TO IMPORTANCE OF TARGETS.

DASHED OUTLINE IN BLACK INDICATES AREA COVERED BY RECOGNITION CHART ON THE REVERSE SIDE.

APPROACH-TARGET FOLDERS

Approach-Target Chart Folders include untrimmed copies of Approach Charts together with Target Charts and briefing sheets. The briefing sheets give short descriptions of each target appearing on the large-scale Target Charts in addition to brief data pointing out natural aids to navigation which appear on the Approach Charts. Trimmed copies of both Approach and Target Charts have been distributed separately. The folders group the Approach Charts as follows:

Folder 1 -- NORTHERN HOKKAIDO
- 1. Matsu-ga-hama
- 23. Bihoro
- 24. Yubetsu
- 25. Wakkanai
- 26. Rumoi

Folder 2 -- SW HOKKAIDO-N HONSHU
- 6. Chitose
- 7. Muroran
- 8. Ominato

Folder 3 -- SE HOKKAIDO
- 2. Nemuro
- 3. Kushiro
- 4. Obihiro
- 5. Biroo

Folder 4 -- NE HONSHU
- 9. Furumaki
- 10. Gotono
- 11. Sendai
- 12. Mito

Folder 5 -- TOKYO AREA
- 13. Tokyo
- 14. Hachijo Shima
- 15. Shimizu

Folder 6 -- NW HONSHU
- 27. Hirosaki
- 28. Yokote

- 41. Kumamoto
- 42. Sasebo

Folder 13-- N KYUSHU-SHIMONOSEKI
- 40. Ozuki
- 43. Tsushima

KEY TO TARGET CHART COLORS

GREEN: Vegetation GRAY: Reclaimed Land, Dock Areas, land without buildings or vegetation
CROSS HATCH: Built-up City Areas, Building Groups in Outlying areas.
MAGENTA: Solid -- Target Areas; Screened -- Reported Target Areas, exact location unknown.

KEY TO TARGET CHART NUMBERING SYSTEM

First Group (i.e. 7B-3-3): Hydrographic Office Geographical Numbering System.
Second Group (i.e. 90.17): Army Air Objectives Folder Number Covering the Area.
Last Group (i.e. 1409T): Target Number; usually a primary Target in area.

Except for 4000-series numbers, which are assigned to new targets by the Navy, all target numbers correspond to Army Air Objective Folder numbers.

In a few cases chart numbers do not include the Air Objective Folder number because an unnumbered airfield is the only target on the chart.

Each target chart is outlined in magenta on the approach charts and is identified by the "T" or last group number as explained above. Note that each Approach Chart number is followed by the letter "A", Target Charts by "T".
