Response to Army Call Adds Strength to Dublin Ministry

dministration Believed to Have Taken Long Step To ward Firmly Establishing Itself; Support Needed to End Resistance of Insurgents In Irish Free State.

London, July 7.—The Irish Free State Provisional Government, by its substantial victory over the insurgent republican forces in Dublin, is believed to have taken a long step towards establishing itself firmly and bringing peace to Ireland. The ready response to the national call to arms is regarded as encouraging and as further proof that most Irishmen are back of the new Government

and opposed to the republican extremists.

Indications are not lacking, however, that Michael Collins and his colleagues will need all the support they can get to put down the remaining resistance, which, according to reports from some correspondents in Dublin, is of an important character.

BRIDGES WRECKED

Belfast, July 7.—Alarming news has been received from Carrick-on-Shannon, County Leitrim, a Mullingar dispatch to The Belfast Telegraph saying that railroad bridges and road bridges have been blown up in the vicinity of Carrick, making it impossible for traffic to proceed. A fight for possession of the barracks, which are in the hands of the regulars, has been in progress for days. The shops have been closed for nearly a week and many of the residents have gone to Sligo.

The railway company has decided not to repair the bridges and rails until the trouble is over.

Wounds Caused Death; A Supporter of Valera

Dublin, July 7.—Cathal Brugha, one of Eamon de Valera's chief lieutenants, died this morning of the wounds he received on Wednesday while trying to fight his way clear at the surrender of the insurgent garrison in the Sackville Street area.

Cathal Brugha (Charles Burgess) was one of the most prominent of the republican leaders who opposed the terms of the Anglo-Irish Treaty from the start and fought against till his death.

Brugha was Valera's Minister of Defence in the first Dail Elreann Cabinet, directing the opposition against the British in South Ireland up to the time the truce was signed. When the terms of the treaty negotiated by Arthur Grifflith, Michael Collins and heir fellow delegates who met the British representatives in London late last year became known, he declared his opposition to the pact (Concluded on page 18.)

Several hundred men have been engaged in the district fighting the fires for some time, but yesterday in the high winds the flames got beyond control. The population of Lang Bay is small. The Brooks-Bidlake Cedar Company has a mill there, but up to early this afternoon, the offices of the company here had received no word regarding the situation.

Government Forces Battle With Flames: May Stop All Logging

All logging operations in British Columbia may be suspended ause of the fires which are sweeping the timber areas. Logging operators are in session to-day to take action on this and to see what further can be done to check the destruction of

valuable timber. Up until yesterday \$1,250,000 worth of standing timber had been destroyed by fire, according to official figures gathered by J. A. Thomas, fire marshal.

The forty-mile-an-hour gale which swept through the Nanaimo Merville, Campbell River and Menzies Point districts since add enormously to the total, reports to-day indicated.

The Hon. T. D. Pattullo, Minister of Lands, and P. Z. Caverhill, chief forester, are directing the battle of the Government forces against the

Reports to Mr. Caverhill to-day show that the Lang Bay Camps where 1,000 men have been employed, were burned last night. The camps affected include those of Brooks, Scanlon and O'Brien, Blowdeil, Stewart and Welch, and Brooks, Bidlake and Withall. They are on the Mainland south of Powell River and opposite Comox.

Airplanes are being used by the forest branch in shipping in pumps and supplies to the fighters, and in other ways helping to conquer the flames.

After wiping out a third of the Merville soldier settlement and destroying property in Sayward last evening, forest fires raging in many parts of Vancouver Island to-day had cut off Nanaimo's water supply, threatened logging camps in the Cowichan Lake district, and were wreaking enormous damage in many districts.

So far the most serious loss has been in Merville, where, according to detailed information telephoned to The Times this afternoon from Courtenay, no less than twenty-five homes have been burned, with the death of one man and serious injuries to three others.

have swept this district in years.

For a whole month every available man has been working incessantly in an effort to subdue the bush fires. The ranch owned by Gereaux has been laid waste. Every fence in the settlement has been devoured by the flames. The fire swept down the valley and destroyed the cedar factory. J. E. Armishaw, a rancher, was forced to remove everything of value to avoid it being destroyed.

The settlement is eighty miles north of the town of Courtenay on Vancouver Island, and practically all the settlers are returned soldiers.

MLLE. LENGLEN AND

PREMIER RUSHES

TO ADD REFUGEES

The fire which yesterday tore through the town of Merville at noon was traveling along between the settlement and the sea, only waiting for a further wind-to make it dangerous again. In the Nanaimo area the fires which surround the city were under control, but were threatening to burn crops in the Western Fuel Company's farm and to reach its coal mine nearby.

All wires to Cowichan Lake were down to-day as a result of the fires, but it is known that outbreaks are raging at many points along the lake where camps of the James Logging Company, the Genoa Logging Company and other lumber companies are operating. The Candian Puget Sound Lumber & Timber Company's camp in this district suffered some loss but is now out of danger temporarily while no information could be secured concerning the other camps.

Latest reports this afternoon from Merville and the Nanaimo district are that the wind has dropped, but efforts are still being made to conquer the fires.

Provisions are being rushed iffer the stricken area as the result of orders given by the Premier. The soldiers' store at Merville which was in the path of the fire last night was a saved by luck. The supplies in the store are enough to feed the refugees and fire-fighters until the outside supplies arrive.

Most of the refugees reports indicate have been taken to Courtenay burned to death, three men

One man perished and three narrowly escaped death in the fire which to though Merville last night and destroyed about a third of the settlement. Jack Clifford, sixteen years of age, was caught by the flames as he rushed from his house and died shortly afterwards in the St. Joseph's Hospital, Comox. A Barr and Fenwick, Merville settlers, and a logger named Churchill were cut off by the flames and spent last night wallowing in the shallow waters of Black Creek while most of their clothing was burned from their bodies. They are now at St. Joseph's Hospital, where they are suffering from serious burns about the face and what is thought to be temporary blindness.

Fenwick, Barr and Churchill were hemmed in by fire north of the Merville settlement about half way to Oyster River, where they were fighting a new outbreak yesterday. As the flames moved towards them they hurried north to Black Creek and spent, most of yesterday under a bridge until it burned and they were forced to rush away. Paris, July 7.—Experiments in metaphysics by Mme. Bisson, with the aid of Eva, the celebrated medium, officially supervised in the Bourbon Laboratory by Professars Lapique, Georges Dumas and Henri Pierson, gave entirely negative results, according to the official report of the committee, which will be published to-morrow.

Seances, organized by Paul Heuze, author of "The Dead—Do They Live?" have been in progress since March, and have given rise to unofficial reports of remarkable cases of materialization. On two occasions a glutinous substance was observed protruding from the medium's mouth during trances, but was regarded as not amounting to the promised materialization of substances of various forms coming from the body. Paris, July 7.—The pound sterling and the dollar made a tremendous jump in value over night on the Paris exchange market, the dollar opening at 12.75 francs as compared with yesterday's closing price of 12.26, while the pound sterling was sold at 56.50 francs, as against 54.85. Major-General McKeown, after an attack lasting several days. The republicans, driven from pillar to post, made their last stand in a hotel. No trains have yet reached the west from Dublin. Four weekly newspapers which were printed in Boyle were not published this week.

Belfast, July 7.—It is learned that in the fighting at Boyle, Brigadier-General Michael Dockery of the Gov-ernment forces was shot dead.

700 INSURGENTS WERE CAPTURED IN DUBLIN FIGHTING

Dublin, July 7.—Approximately 700 irregulars were taken prisoner by the national army during the struggle in Dublin, which was brought to a virtual close by the surrender of the remnant of the republicans in the Sackville Street area Wednesday.

Dublin to-day showed signs of settling down again after the prolonged period of destructive hostilities in the heart of the city. In the week's hostilities Dublin lost no fewer than seven of her hotels, and now has twenty fewer hostelires than in 1914. One of the signs of the return toward normal conditions was the removal to-day of the embargo which had been put upon the tlephone service.

Telegrams were sent from Dublin acress the channel to theatrical artists that they could safely come to Ireland.

AVIATORS FLY OVER FIRES WITH PUMPS

Vancouver, B. C. July 7.—
Shooting in a seaplane through
the "air rapids" caused by the
heat of forest fires is as thrilling
as descending a turbulent stream
in a 16-foot canoe, according to
flyers from the Jericho Air Board
Station, who have just return
from Hardwicke Island, where
they delivered a pump and 2,000
feet of hose to fire fighters.

The smoke was so thick that
the plane had to descend to a
low altitude to enable the pliots
to see where they were going, and
heat waves from the fires and the
natural "bumpiness" of air in
mountainous regions made flying
extremely difficult. Added to this
was the heat of the air, which
made the cooling of the engine
difficult.

Threw Brick Through Auto-mobile Windshield

Montreal, July 7.—Four men held up paymasters of the Dominion Textile Company as they were going to the plant this morning with the weekly payroll and took \$29,000 from them.

The money was being carried by two paymasters in a taxisab from the Royal Bank's head office, St. James Street, to the company's plant in the St. Henri district, at the extreme west end of the city. When nearing the plant, a brick was thrown through the windshield of the car. Smothered with pieces of glass, the driver of the cab pulled up. The bandits surrounded the car and demanded the money at the point of revolvers.

It is probable that an earlier discussion on the question will take place in the House of Lords, where Viscount Chaplin has given notice of a resolution on the subject which he will move next week, and the Marquis of Lincolnshire will move that it is incumbent on the Government to carry out the pledge made at the Empire Conference of 1917 to remove the embargo.

FEWER COMPLAINTS REGARDING GRAIN

Methods of Handling in Canada Improved

Ottawa, July 7.—There has been no demand for a resumption of the sittings of the Royal Commission which inquired into the grain trade of Canada, and which was haited in its work by a Manitoba court injunction, and consequently it is unlikely that a new commission will be formed by the Federal Government now.

Since the commission sat, however, it is stated at the Trade and Commerce Department there has been a reduction in the number of complaints reaching the Department as to the handling and grading of grain. The only recent complaint, which is now being investigated by officials of the Department, came from English importers who claimed that they had received shipments of Manitoba wheat which was off grade.

BRITISH PEOPLE THANKED BY TAFT

Cambridge, Eng., July 7.—Chief Justice Taft, nearing the end of his visit to England, has asked the Associated Press to inform the American people of the splendid reception and glowing hospitality he has received from the British. Before leaving for Aberdeen, Scotland, where he will receive another honorary degree, he said:

"My—greetings have been so generous and so sincerely cordial that I am unable to find words adequately to convey my gratitude, but I cannot help feeling that England's warm manifestations were not toward me as an individual but in my capacity as a representative of millions of Americans overseas."

Mr. Taft will receive the honorary degree of Doctor of Civil Law from Aberdeen University.

COAL PRICE INQUIRY IN UNITED STATES

Washington, July 7.—Any attempt by the Government to fix coal prices or establish maximum limits for selling charges will require "adequate and current information" as to costs and investments in the industry and differences in the figures between districts, the Federal Trade Commission reported to Congress yesterday in a discussion of its investigation into bituminous production.

Although its inquirles have been suspended by reason of injunction proceedings brought against its activities in the industry by the bituminous coal operators, the commission explained that work carried out prior to the suspension indicated a wide range in investment totals.

Coal is being mined in important districts with a permanent capital investment as great as \$9 per ton of annual output and as low as \$1 per ton of annual output, the commission found.

Investment was placed at \$4.26 per

St. John, N. B., July 7.—The second brutal murder here within a year was committed yesterday when Frederick H. Trifts, a garage owner, was killed by some person or persons whose identity is unknown.

Vancouver Island's experience from forest fires during the last few days should assist the careless individual to a realization of his obligation to his fellow men.

The Free State Government's call to arms and the response call to arms and the response already made heralds a brighter day for Ireland. It is the death knell to the separatist movement and the final endorsation of the British Government's policy.

General fire conditions throughout the state are the same as yesterday, according to State Forester F. E. Pape this morning. Conditions have not improved and in-the eastern part of the state are gradually growing worse. There are five serious fires in Stevens County and three in Ferry County, and in the latter county is also a bad fire in the Colville National Forest near Orient. A maximum temperature of 105 degrees the last few days in the eastern part of the state makes the work of fighting fire extremely difficult.

MAN TAKES \$20,000 BACK TO AUSTRIA

Port Arthur, Ont., July 7.—Steve Horvath, an Austrian, for nineteen years an employee of the Canadian National Railways at Atikokan, 146 miles west of here, has left for his home in Austria with \$20,000 in cash, his savings since 1903. Horvath, during the last nineteen years, never left Atikokan except for an occasional trip to Port Arthur to deposit his savings. He denied himself any relexation or extravegaace in order to amass his comfortable fortune.

It is not often necessary to fit out a yacht and search the South Seas to find a young woman who has been left a fortune. Yet that is done in "A Virgin Paradise."

There are few girls who, though able to quote the Bible at length, never have learned how to get into a dress. Yet Gratia got her first gown on upside down.

It is far from customary for young women of good family and heiresses to vast wealth to live in the jungles of a South Sea island, with no companions except lions, apes and other wild animals; but Gratia did that. Miss Kenyon has starred in several plays in motion pictures as well as in the spoken drama.

Miss Kenyon was born in Syracuse. N. Y. where she spent part of her girlhood and received her first schooling. When her parents went to New York City to make their home, little Miss Kenyon was sent to the Pæcker Collegiate Institute, and afterward took the course in Romance languages and English literature at Columbia University, being graduated with the degree of B.A.

Miss Kenyon's father, a retired Methodist minister and an editor, author and poet of note, shared with his wife in the general enthuslasm which must have attended the gradual mental "rounding out" of the young girlin her many hours of daily and arduous study. From her father, she inherited her gift for verse and has won signal success in poetry. One volume, under the title of "Spring Flowers, and Rowen," bears the names of both Miss Kenyon and her father, She has another volume of verse in course of publication at the present time, and is a frequent contributor to newspepers and magazines.

Miss Kenyon made her debut on the stage in Victor Herbert's operetta, "The Princess Pat," seven years ago, and scored a great personal triumph. Soon thereafter she was starred in several stage plays, including. "The Girl in the Limousine," "The Pearl of Great Price," "The White Villa," etc., and she has been starred and co-starred in photoplays within the cut number. "Sailor-made Man" Wins in Contest for Entertainment Value

New York, July 7.—An interesting surfey of the drawing power of motion picture stars in 1922 has just been concluded by one of the largest motion picture journals in this country. It is shown that Harold Lloyd's "A Salior Made Man" has held the leading place throughout the period. "A Connecticut Yankee." the William Fox picture, followed closely, and "The Sheik," in which Rodolph Valentino appeared, was third. The fourth honor went to "The Queen of Sheba."

The contest was based upon what the motion picture patrons and film magazine editors considered entertainment value and box office merit.

There was also a bran tub, attended to by Mesadames Baker and Baxter, and afternoon tea was served by Mrs. Parker, assisted by Mesdames Burgess. Pearson, Stockand, Eaxter and Hall.

Mrs. E. Peatt received, and attended to door fees, etc.

A very hearty vote of thanks was extended to Dr. Price at the close of the proceedings and to Miss Gawley for her assistance, and also to all others who had helped so well, particularly to those who had assisted with the transportation of the bables and mothers.

MUSICAL NOTES

By George J. Dykes.

For the first time the London Col-lege of Music, London, England, will old examinations on Vancouver Islthree "local centres" is Victoria, and many candidates have entered for the theoretical and practical examinations to be held here on Friday and Saturday of this week. The examiner is Dr. D. J. Jennings, of York, a distinguished musician, and founder of the York Organ School. It is interesting to notice the fact, that the L. C. M. has up to the present year examined over half a million candidates, and the December examinations of last year were the largest ever held in the history of the college. One of the specific points of the L. C. M. is the fine grading of the syllabus, from the easlest to the most advanced stages providing a complete and systematic course of study, well arranged in all its details. three "local centres" is Victoria, and

Examinations are held throughout the British Overseas Dominions at Canada, Australia, New Zealand, India, West Indies, Burma, Antigua, Earth of the Canada o India, West Indies, Burma, Antigua, Rarbadoes, Demerara, and South Africa. The London College of Music commenced its work in the sphere of musical examinations thirty years ago. Its patrons are His Grace the Duke of Leeds, the Right Hon, the Earl Howe, G.C.V.O., the Right Hon. the Earl of Kinnoull, and Sir Albert K. Roilit, LLLD.

The incidental music to "The Tempest" first brought fame to Sir Arthur Suilivan. He wrote this when nineteen years of age. The work was first produced at Crystal Palace, in 1862. When "H.M.S. Pinafore" was first produced (1878), it hung fire for many weeks but becoming gradually popular it "ran" for over 760 nights. "Pinafore" became the rage in America soon after.

ontario is to have a Provincial Musical Festival on the lines already so successfully adopted in the three Western Provinces of Alberta, Sastatchewan and Manitoba. It has the backing of the Canadian Bureau for the Advancement of Music. The plans for the same are in the hands of a very strong committee. Once more the question can well be asked, what is British Columbia doing in this direction? The Times has frequently advocated such a festival, and believes its wide-spread importance will be recognized and that a start will soon be made.

The Women's Club of Toronto has already completed its arrangements for next Winter's series of concerts. Noticed in the club's list of artists are Felix Salmon, the distinguished 'cellist, 'another Cassals," it is said, and the great English planist, Myra Hess, who made such a sensation last season at New York. Both these artists are to visit this city next Winter. Local announcements have already appeared in the local press, and Vancouver, Edmonton, Caigary, Winnipeg and other cities have also heralded their coming season's musical activities. From all accounts there wil be much music everywhere next Winter. It is glorious to know that no limitations can be placed upon the most sublime and ethereal of all arts.

of all arts.

Mrs. Carolyn Barton, late of Toronto, where she was known as a pianist of exquisite skill and probably the finest accompanist that city ever knew, has been placed as one of the most prominent among women composers of the Western coast. Mrs. Barton has come into prominence in connection with the radio concerts of The SanFrancisco Dally News. She like Myra Hess and Gertrude Peppercorn, is a pupil of that celebrated pianist Toblas Matthay, of London, England. Wonderful pupils of a wonderful teacher!

Northwest Real Estate Association Will Meet July 19

Several Victoria realty men will end the annual convention of the rthwest Real Estate Association in neouver during the week of July

real estate organizations in the Northwest.

Speaking Competition.

The most novel feature of the convention will be the speaking competition for the challenge cup, donated by F. E. Taylor, of Portland. The cup is held by the person making the best five-minute address in praise of his home town.

R. K. Houlgate, president of the Board of Trade, and honorary president of the Real Estate Exchange, is managing the competition. Vancouver as the convention will be represented by men from Washington, Oregon, The Convention will be represented by men from Washington, Oregon, Montana, Idaho, British Columbia and Alberta. Premier Oliver, Mayor C. E. Tisdall and Right Rev. A. U. de Pencler, bishop of New Westminster, will give introductory addresses.

Important Subjects.

During the first day there will be conferences among presidents and among secretaries of various boards, while the following addresses will also be given: "The Real Estate Profession as Seen by an Outsider," by Judge U. E. Harmon, of Tacoma; "Real Estate as an Investment," by James Forman, of Victoria, and "The National Association of Real Estate Boards," by W. E. Harron, field organizer.

The cup contest will be held on July 20, following which there will be conferences on Advertising and Salesmanship; City Planning and Zones; Farm Lands and Real Estate Laws.

After Three Years of Suffering Blacksmith Says He Is

ing Blacksmith Says He is Now in Pink of Condition Again—Gives Tanlac Full Credit

"It wasn't long after I began taking Tanlac that I was surprised to find myself eating just anything I wanted without suffering afterwards," said J. Stewart, well-known blacksmith, 311 Heathley Ayenue, Vancouver, B. C.

"My stomach troubbed me for three years and I was so westk and rundown I could hardly keep going. My appetite went back on me, and what little I did force down lay in my stomach like iron, fermented and formed gas which bloated me until my heart palpitated frightfully. I could hardly endure my pains. I suffered a great deal with constipation and headaches, too, and I didn't know what It was to get a good night's sleep.

"I tried a lot of medicine, but Tanlac is the greatest thing I have ever struck yet. Since taking it I am in the pink of condition, and shall always endorse it."

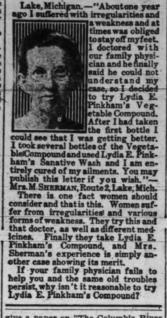

Tanlac is sold by all good druggists.

WOMAN HELD RIOTERS AT BAY

Chicago Railroad Strikers Defeated by Workman's Wife

Chicago, July 7.-A woman sixty years of age held several hundred rioters at bay with a rusty pistol last night for twenty minutes awaitng the arrival of police.

ing the arrival of police.

The disturbance was near the Illinois Central Raiiroad shops, a crowd of strike sympathizers, including many women and children, attacking the homes of two men who had refused to join the shop crafts' walkout. Facing a shower of stones, Mrs. Julia Gabel, wife of one of the men, who had served the *railway for thirty years and who was employed on the night shift, armed herself with a large pistol and hurried to the front porch of her home.

"You were all my friends once," she declared, "but I'll kill the next one of you who throws a stone."

Had Miraculous Escape — H. J. Palmer, of this city, and A. Jacquemin, a visitor, were the extremely fortunate victims of an unfortunate accident yesterday evening on the Island Highway, three miles south of the Malahat loop. The party was coming south in a rented car when one of the front wheels on the outside came off, and the car overturned. Completing a somersault, the car dropped thirty feet and landed with its wheels in the air. The two men crawled from under, with slight injury sustained by Mr. Palner. Both occupants were shaken but thankful that they escaped. The car was brought back to the road and so to town without major damage being occasioned.

LESSEE CONTENDS

Large Sums of Money Have Been Made from Rentals of Park for Racing

Prior to the opening of the hearing of the appeal of B. C. Thoroughbred Association 'versus Brighouse this inorning E. C. Mayers was successful in an application on metion for stated case to come before the next session of the Court of Appeal in the hearing of Smith versus Corporation of Richmond.

Nesuming from yesterda/ in the heating of the B. C. Thoroughbred Association versus Brighouse, Mr. Mayers for the plaintiff uppellant contended that a lease cancelled by the defendant respondent in the early-part of 1919 was wrongfully annulled and still held valid. The lease in question was one of property on Lulu Island, the lease in question was one of property on Lulu Island, the lease in question was one of property on Lulu Island, the lease of the plaintiff company as lessee in the year 1903, for a period of fifty years. The appeal is from a judgment of Mr. Justice Gregory in the Supreme Court, which dismissed the action of the plaintiff appellant with cosis. The plaintiff spellam was for a declaration that the lease still held valid; for a declaration of profits while operated by the co-dependants, the heirs of the late Samuel Brighouse, for damages for wrongful annullment of the lease, and for such other relief as the court might think just. It is contended that the respondents made large sums of money out of the use of the land by horse racing, exhibitions and other purposes, and failed to give an accountancy on request of the appellant.

The directors of the appellant company served during the war, many at the front, and inadvertently the company of this Province. During that time when the appellant company was not on the rolls the lease was annulled, and against this judgment of Mr. Justice Gregory upholding this the appeal is being taken. The hearing is continuing, with E. P. Davis, K.C., for the respondents, Michael W. Brighouse Park, Ltd., and W. J. Taylor, K.C., for the co-defendants Frederick Charles Morton and others, silent in the appeal. That the sum of \$225,000 had been spent on improvements of the property by the appellants, and these improvements were used by the respondents stated Mr. Mayers just prior to the adjournment this morning. Resuming from yesterda/ in the earing of the B. C. Thoroughbred

prior to the adjournment this morning.

Holding that the learned trial judge, Mr. Justice Gregory, had been correct in his finding and that the guarantor James Finlay was liable for sums advanced to the Rock Creek Lumber Company by the Imperial Eank of Canada, the Court of Appeal dismissed the hearing of the Imperial Bank versus Finlay (appellant) unanimously.

The judgment against which the appeal was being brought was for \$60,000 and interest at 7 per cent. from September last year until payment. H. B. Robertson, K.C., appeared for the plaintiffs respondent and A. D. Macfarlane for the appellants.

MONTREAL'S BOARD OF TRADE TO SEE THE WEST

MONTREAL'S BOARD OF TRADE BUILDING AND W. BIRES,

IT is not long since the Western members of the Federal Paliament paid a visit to Quebec Province, going to Montreal and Quebec City, where they had a chance of seeing for themselves something of Eastern Canada's great industries, and the big seaports through which so much of the foreign trade of this country llows. They were tremendausly interested in what they saw, and at the huncheon given them at the Chateau Frontenac, Quebec, several of their spokesmen voiced the hope that some of Eastern Canada's leaders in business and in public alfairs would return the visit by journeying across the country to get a first-hand acquaintance with the West and its problems.

This return visit has in some measure already been arranged. On September first a large number of the members of Montreal's Board of Trade, accompanied by their wives, will set out on an extended tour that will include the Pacific Coast. Other similar tours may be arranged later on, and all of them, like that of the Montreal Board of Trade will make for the binding together of East and West, and the creation in each section of the country of a better understanding of the problems with which other localities are fayed.

The itinerary of this important tour is, in a general way, as follows:—The party will leave Montreal by special C.P.R. trais at 11 p.m., September 1, for Port McNicoll, via Toronto, Here the party will board a C.P.R. steamer for Sault Ste. Marie and Montreal.

get the tremendous advances that have been made.

The automible body designer of twenty years ago had little to guide him. He was groping. He was continuing with a new problem. Horse drawn carriage construction furnished his only precedent, and it was worse than none. Here was a new vehicle which attained a speed of twenty, thirty or even forty miles an hour, and the question of exposure to the elements became vital. Attempts to gain satisfactory protection from rain, snow, wind and cold encountered engineering difficulties.

Special

angle and by shading the rear windows with silk roller curtains.

I have not touched here on the made metoring more pleasurable; it is superfluous to say that the employer has kept pace with the body craftsmen.

Never before have manufacturers

Truly an astounding developme to the elements became vital. Attempts to gain satisfactory protection from rain, snow, wind and cold encountered engineering difficulties.

Special Windshields. At first buggy tops were affixed to the light automobile bodies, but vib-ration and strains proved too much for them. Better methods of bracing

the light automobile bodies, but vibration and strains proved too much for them. Better methods of bracing stronger bows and more durable top material eliminated these troubles but they rattled loose from the bodies and had to be braced by long brass rods which offended the eye. Then came attempts to construct closed cars. They were only partially successful. Windows rattled doors and joints squeaked rain and wind beat in through crevices, vision was obstructed and at night bothersome reflections annoyed the driver. And from the artistic standpoint, these early designs were, to say the least, ludicrous.

Year by year, however, designs made closed cars more practical more beautiful. Taday we find in them what surely midst be a close approximation to perfection.

It can hardly be said that the owner of the earliest types expressed pride in their appearances. It was their utility which appealed. But it cannot be denied that the owner of the earliest types expressed pride in their appearances. It was their utility which appealed. But it cannot be denied that the owner of the present day sedan or coupe admires and finds an enjoyable pride in its exterior and interior beauty. Unbalanced proportions, broken lines, garish curves and panels, crude details, have given way to graceful proportions and simple beauty. In the finer motor cars the occupants no longer are annoyed by rattles, squeaks, virbations and other noises. Cushions are more restful, fabrica more pleasing. Conveniences are at every hand. The windows may be opened or closed easily and noiselessly. In chauffeur driven models a dictaphone communicates orders. There are vanity cases to please the gentler sex, and electric cigar lighters and ash trays serve the smoker. The doors windows and windshield are weithertight. Inconspicuous ventilators keep the interior fresh. Better spring suspension yields Pullman riding comfort. Confusing night time reflections have been eliminated by setting the windshield at ar.

Four Canadian Championships Will Be Staged At Gorge On August 19; Committees Struck and Arrangements Are Now Well Underway; Draw For B. C. Water Polo Championship Is Made; Elks Must Go to Vancouver.

Arrangements are now being perfected for the Canadian swimming championships which are to be staged in this city on Saturday afternoon, August 19. This will be the second consecutive year that Victoria has had the honor of putting on any Canadian championships. Last year the city was awarded two ladies' events. This Summer the C. A. S. A. officials were a little more liberal.

handed Victoria four championships, all for men.

Settled Differences Without Much Talk

Chicago, July 7.—Jack Kearns said to-day he had not closed a contract with Floyd Fitzsimmons, the Michigan City, Ind., promoter for Dempsey to meet Bill Brenan or Harry Greb at Michigan. City on Labor Day. He added that the offer was being considered, however.

Dempsey and Fitzsimmons are personal friends and it has been understood that Dempsey is anxious to appear at Michigan City.

Greb, the Pittsburg light-heavy-weight, has a referee's decision over Tom Gibbons to his credit and has provided stiff opposition for Dempsey in many of Dempsey's training matches.

Dempsey Kearns and Teddy Hayes, Dempsey's trainer, arrived here yesterday from Wichita and left last night for Syracuse. N. Y. where Dempsey will stage an exhibition.

Talking of Willard Bout.

Frank Flournoy, representing Tex Rickard, the New York promoter, was also with the party. He met Ray Archer, representing Jess Willard, in Wichita, and discussed a match between Willard and Dempsey. Flournoy so will be the closed but looked promising. Flournoy received terms from Kearns and will go to New York to-day to present them to Rickard, he said.

After a conference last night Dempsey told newspaper men that "it looks like I will fight for Fitzsimmons on Labor Day," Kearns said, however, nothing has been decided and will not be decided until he returns to New York. Offers for matches had been received from Wills, Willard and Greb, besides the Fitzsimmons offer, he said. He indicated a decision might be reached by Tuesday or Wednesday of next week.

JOINS KAMLOOPS FIRM.

W. H. Henshall, late of Victoria,

has joined Aiex. Greig and his son in the greenhouse business in North Kamloops, the new firm to be known as the Kamloops Nursery Company, says The Kamloops Telegram.

Plans have been completed for doubling the capacity of the greenhouse plant erected by Mr. Greig last Spring, giving a total area of 10,000 feet of glass. Foundations for the new greenhouse will be laid next week.

week.

Mr. Henshall has been engaged for a number of years as foreman of Wilkerson & Brown's big greenhouse, Victoria, and is said to be a highly experienced man.

Keep a Joint Account

Do you realize that a number of distinct advantages may be gained by the operation of a joint account, particularly in the case of a man and wife?

Among other benefits, a joint account provides that, in the absence of the husband, the wife can be spared any inconvenience in emergency through lack of funds. Either of the two parties holding a joint account may make withdrawals or deposits.

> Joint accounts may be opened at any of our branches.

A Broken Egg and A Very Bad Temper

"There came unto me one who said. I have a Very Bad Temper," writes Safed the Sage in the Congregation-

"And he said it with what he thought was Humility, but it was as if it had been a certain sort of Fride. And I said, "Thou art a Narrow-Minded Man."

"Then was he angry, and I know that he was no Liar when he said that he had a Bad Temper.

"Now we spake in the Garden, and I left him for a moment, and when I returned I had been in the Kitchen, and I brought back an Egg.

"And I threw the Egg at the Back Fence, and it Brake and spattered the Pence.

"And I said, thou speakest of Making Amends. Gather up that Egg again, and clean off the Fence, and rut the Egg back into the Shell; and set an Hen upon it, and make of it a Plymouth Rock Rooster. Then talk to me of Making Amends for thine-outbursts of Temper. For thou spatterest over all thy friends, and splashest them with thy tury, and then thou dost leave them to clean off thy rage and try to forget thins unreasonable words, and thou thinkest thou hast Made Amends.

"And I said, The best way to Make Amends for a bad Temper is to keep thy temper to thyself.

"And he said, Verily thou didst say of me that I had a Narrow Mind, and I will take that from no man."And I said, Thou wilt take it once again from me. Thou hast a Narrow Mind, He who hath a Bad Temper is a man who is capable of seeing but one aspect of a thing at a time, and incapable of withholding his snap judgment until he may learn the whole truth. And because he is beth narrow-minded and childish therefore doth he fly into a rage, as thou hast done and habitually dost do. Flatter not thyself that this is the sign of a generous nature, for have told thee already of what it is a sign.

"And I went and got out the Hose, and started to wash off the Egg from the Fence.

"And he would not have it so, but caught the Nozzle from my hand and himself washed off the Egg from the Fence.

In Jerusalem itself, he said, founda-tions of the walls built by Nehemiah had been found and in a convent in the vicinity some ten feet below the present roadway there were marks of chariot wheels and a pavement mapped out for the games played by the Roman soldiers. It was thought that this spot must be close to the old Roman judgment seat.

REWARD OF BREVITY

The story is told of Dr. Abernethy, the famous Scottish surgeon, a man of few words, that he once met hismatch—in a woman. She called at his office in Edinburgh one day, with a hand badly inflamed and awollen. The following dialogue, opened by the doctor, took place:

"Bruise."

"Bruise."

"Poultice."

The next day the woman called, and the dialogue was as follows:

"Better."

"Worse."

"More poultice."

Two days later the woman made another call:
"Better?"

"Well. Fee?"

"Nothing. Most sensible woman I ever saw."—National Life. The story is told of Dr. Abernethy

The by-law will go into effect on July 15 this year.

Penalty Clause Severe.

The by-law, perhaps unique in the municipal history of this Province, provides for a penalty of from \$25 to \$1,000 for those who offend its terms. Though it is not directly stated, no person shall attend a race meet, "aid in" the by-law terms it, on penalty of a fine.

of a fine.

In explaining the by-law one of the members of the Council told The Times that the lesser sum, \$25, was provided for that type of offender, while the maximum is reserved for the promoters or major offenders.

Council Adamant.

Headed by George Sangster, a delegation, including W. J. Taylor, K.C., and T. S. McPherson, waited on the Council in session last evening to advocate a change of policy, but the Council remained adamant.

A by-law prohibiting the erection or maintenance of bill-boards within the limits of Oak Bay was passed at the meeting; a like course being taken with another measure, to authorize the sale of two lots on Beach Drive, acquired by tax sale.

TARDY COUNCILLORS PUNISHED®BY REEVE

Several Saanich Fathers Find that this spot must be close to the old Roman judgment seat. Important discoveries, said Capt. Holmes, had been made at Jericho. Joshua's house had been unearthed by an Austrian excavator and the supposed home of Rahab the harlot also had been found. New roads and railways have been built in many parts of the country since the British took control, the lecturer added. Penalty Awaits Laxity

Carried back to the days of their youth, members of the Saanich Council last night attended class and studied punctuality. Reeve Watson carrying the lesson home to delinquent Councillors by medium of a most rare penalty, cancellation of the session & Scheduled for the evening.

For some weeks past Reeve Watson has protested against inattention to Council business, as evidenced by dilatory arrival of Councillors. On several occasions his warning that the Council Procedure By-law would prevent any session has been nullified by the last minute arrival of the needed quorum, but such a Providence was lacking last night. Councillor McWilliam arrived three minutes too late to save the situation. It was stated he was delayed on municipal business. Councillors Dooley, Macnicol and Horner were well entime, and the half hour was passed by explaining to a delegation interested in the remission of taxes on St. Luke's Church, Cedar Hill, the impossibility of acceding to the request.

Cil Fuel Attacked.

"As circumstancer have driven-the collieries to depend so largely on home consumption to keep this important industry going it is hard to understand the short sighted policy of some of our own people in buying imported fuel oil to keep plants going, business blocks heated. Millions of dollars go out of the country in this way. And these millions are needed to keep collieries active, to develop new coal areas and, generally to foster an industry upon which is dependent the development of those natural resources, the product of which will assure prosperity to those who follow in our footsteps.
