PREFACE

The present volume is number seventeen of the Alphabetical Index of the Births, Marriages and Deaths recorded in the City of Providence, and is the first of a set of three volumes to contain an index of the births, marriages and deaths recorded in this city for the years 1911 to 1920, inclusive.

It is an index of the births recorded for the above named years. It is printed from a card index which is made as the births are recorded. It will appear in two parts. This is Part I.

The record of births in Providence is, as in most of the cities of the United States, not complete, and it also contains many errors, though the present volume is far more complete than any before issued. The cause of these defects, and the reason why the same name often appears with different spellings, are explained in the preface of volume IX.

The following table shows the number of births recorded each year from 1911 to 1920, inclusive, and also the birth rate, i.e., the number of living born to each 1,000 of the population:

Year.	Living Children.	Stillborn.	Total.	Living Birth Rate (Per 1,000 of population).
1911.....	5,662	266	5,928	24.51
1912.....	5,812	257	6,069	24.63
1913.....	5,980	225	6,205	24.81
1914.....	6,098	257	6,355	24.78
1915.....	5,833	233	6,066	23.43
1916.....	5,993	256	6,249	23.59
1917.....	6,391	265	6,656	24.67
1918.....	6,371	270	6,641	24.22
1919.....	5,810	206	6,016	21.68
1920.....	6,417	249	6,666	26.96
Totals.....	60,367	2,484	62,851	24.29

The records from which the above table was made are contained in the bound volumes of Records of Births, and extend from page 153 of volume XX to page 328 of volume XXIV.

The following table shows the number of names in the present volume under each letter of the alphabet:

A.	2,309	J.	1,011	S.	5,635
B.	4,978	K.	1,859	T.	2,051
C.	6,733	L.	3,285	U.	157
D.	5,174	M.	7,356	V.	1,062
E.	679	N.	1,014	W.	2,072
F.	2,790	O.	1,006	X.	3
G.	3,714	P.	3,975	Y.	179
H.	2,672	Q.	180	Z.	470
I.	598	R.	3,353		
Total.					64,315

The number of names in the above table does not correspond with the number in the preceding table, owing to the fact that additions have been made to the records since the publication of the Registration Reports, from which the data in the first table were taken, and that names are sometimes entered under different spellings, and finally because since 1891 children born to parents temporarily away from the city have not been reckoned under the births in the Registration Reports, although they have been entered upon the records.

CHARLES V. CHAPIN,
City Registrar.

Providence, December, 1922.

BIRTHS

RECORDED IN PROVIDENCE,

FROM 1910 TO 1920 INCLUSIVE.

[The figures at the end of each line, separated by a colon, refer to the volume and page of the city records where the birth is recorded.]
